GUIDE TO PORT ENTRY

1981–82

PORT INFORMATION

WARNING

Every effort has been made to ensure that the information contained in this *Guide* is correct. However, it will be clearly understood that this book is intended as a guide only, that the information cannot be *Guaranteed* correct and that final responsibility must (as always) rest with the Shipmaster.

At certain ports, items of navigational routeings and aids have been included as a means of general guidance only. Shipmasters should have in mind that full and due reference MUST ALWAYS be made to corrected charts of the area, to the appropriate Notices to Mariners, and all or any other navigational notices, warnings or amendments issued by proper Authorities and/or navigational aid services.

The sketch maps are included for general interest and must not be used for navigational purposes.

The entire contents of the *Guide to Port Entry* as issued are the copyright of the publishers, namely Shipping Guides Limited. Any person wishing to make use of this *Guide* must first seek prior permission in writing from Shipping Guides Ltd. Proceedings will be taken against any person reproducing or copying any part of the contents of the *Guide* without permission.

FOREWORD

Shipmasters, Shipowners or Managers, Port Authorities, Administrators and Agents, are earnestly requested to assist our work in up-dating the Guide *by providing written comment, information, amendments or corrections, plus additional details of any ports or terminals, to the following address:*

SHIPPING GUIDES LIMITED,
SHIPPING GUIDES HOUSE,
75 BELL STREET,
REIGATE,
SURREY,
ENGLAND

All communications will be acknowledged and will be most useful, since it is only by this means that the *Guide* will remain of great value to the user and will be up to date and thoroughly professional in content.

For assistance and guidance in the submission of information, a reprint of the items presently covered by the *Guide* is placed here under. Additional items will also be most welcome.

N.B. PLANS, DIAGRAMS, DRAWINGS AND SKETCHES: As you will note, this 1981/82 edition of "Guide to Port Entry" contains over one thousand six hundred port plans and diagrams that have been reproduced from plans and drawings very kindly sent to us by numerous Port Authorities, Agents and shipboard personnel. We hope that the special plan section will prove interesting and useful.

Presently however, the special plan section is to an extent incomplete, since there are many ports and mooring facilities for which we have not yet received the necessary plans for reproduction purposes. We are anxious to secure plans, diagrams, drawings or sketches of ports and facilities not presently shown in our special plan section, and therefore request that Port Authorities and/or Agents at the places concerned be kind enough to pass us this data together with the necessary permission for reproduction. We would also be very grateful if ship's officers calling at ports not already covered in our special plan section, could find it possible to provide us with diagrams or sketches of the facilities which would be suitable for reproduction in our later editions and/or which might be re-drawn as required by our own art department prior to reproduction.

PORT INFORMATION KINDLY REQUESTED

PORT LIMITS: The seaward boundaries of the port within which a vessel is considered to be an "arrived ship" and (subject to Charter-Party Terms) laytime will commence.

DOCUMENTS: The matter of documentation is one of the most important items to be included in the *Guide,* and we would like to be sure that ALL requirements are included in order that Masters will be in a position to prepare all necessary documentation before arrival and thus ensure speedy clearance. (E.g. Number of Crew Lists, Passenger Lists, Customs, Documents, Health Documents, Manifests, Bills of Lading, Ship's Papers, Ship's Certificates, etc., etc.)

PILOTAGE: Manner in which vessel approaching the port applies for a Pilot. That is, telegraphic address of Pilot Station, amount of advance notice of ETA required, and VHF channel or frequency to be used when contacting Pilot Boat or Pilot Station. If possible, a description of Pilot Boat; particular light or sound signals to be made by vessels requiring a Pilot; the *exact* area where the Pilot Boat is located or where the Pilot has to be taken on board and also any alternative area in the event of bad weather and when Pilot Boat not on usual station; details of any specific requirements on the part of Pilots with respect to boarding and safety measures; location of anchorage for vessel awaiting a Pilot.

ANCHORAGES: Boundaries, areas and depths of safe anchorages.

RESTRICTIONS: Details of any restrictions imposed upon entry, for example at night time, or in accordance with state of tide and draft restriction.

MAX. SIZE: Maximum permissible length, breadth, and draft for any vessel entering the port or for oil-carriers proceeding to installations outside the main port area, also state of tide governing these dimensions.

HEALTH: Pratique procedure and action necessary to obtain pratique. Also action necessary in the event of any suspected disease or fever on board. Also when pratique is automatic, for example vessels entering after calling at another port in the same country.

RADIO: Name and call sign of radio station through which it is best for a vessel to route ETA cables to Agent, Receivers, etc.

VHF: Fullest possible data concerning VHF Radio communication facilities in operation at the port including advices required from vessels approaching the port, arriving at the port, when manoeuvring within the port area, and when sailing. Details of standard communication procedures and numbers of Channels used in calling, further communication and safety, as may be applicable with respect to Pilotage, Tugs, Port Authority, Quarantine or other craft or shore-stations.

RADAR: Details of existing Port Radar Service, also if the Master may contact the Radar Service by means of ship's radio or by VHF, and the frequency or Channel number to be used.

TUGS: Position where tugs normally join the vessel. Also whether usual for ship's lines or tug's lines to be used, and if optional, the usual charge for use of tug's lines.

BERTHING: Details of available berths, including length of quay, depth alongside, maximum permissible ship-draft at Low Water (indicating whether Salt or Fresh Water), whether load/discharge is by shore equipment or by ship's own gear, and other relevant data, together with advice of cargoes handled at respective berths.

CRANES: Fullest possible information concerning type, safe working loads and numbers of shore-cranes available at respective berths for cargo handling. Details of heavy-lift cranes ashore or afloat, with lifting capacities. It is also helpful to know at which ports, or berths within a port, that cranes are *not* available and a vessel is required to use her own gear.

BULK CARGO FACILITIES: Details of berths and cargoes handled, length of quay, depth alongside, maximum permissible draft (indicating Salt or Fresh) at Low Water, berth equipment, maximum height of discharging-gear above High Water Level, and maximum Loading/Discharge rates. Cargoes intended to be covered by this heading are, Grain, Ores, Coal, Fertilisers, Sulphurs, Copra, etc.

SPECIALISED CARGO-HANDLING FACILITIES: Details of berths, specially equipped for handling containers, or roll-on/roll-off traffic; berths handling liquid chemicals or LPG carriers. Please note that it is also useful to know if the port does *not* have any of these facilities.

BRIDGES: Details of any particular arrival times required in order to pass through particular bridges, and maximum clearances, that is height of bridge to waterline.

STEVEDORES: Any particular ETA advices required in order to arrange gangs. Details of main commodities and average load or discharge rates.

MEDICAL: Whether necessary for Agents to receive advance notice of required medical attention and the amount of notice required; also if hospital and dental facilities are available; also any other relevant medical information such as particular inoculations required, vaccination/fever certificates, etc.

TANKERS: Diameter of load/discharge lines in order that Masters may know whether or not it is necessary to fit reducing pieces before arrival; slop (residue) discharge facilities, and capacity, S.G. and A.P.I. of local types of oil (loading ports only). Number of tanker berths, depth alongside and maximum permitted drafts at these berths. Average load/discharge rates.

DENSITY: (SALINITY): Average salinity of water in the port.

FRESH WATER: Availability, method of delivery, rate of delivery and approximate cost per ton.

FUEL: Grades (viscosities) available, amount of advance notice required, and method of delivery.

FIRE PRECAUTIONS: Any specific precautions particularly respecting tankers (that is, other than usual non-smoking precautions, etc.).

CONSULS: Names of countries having Consuls at the port.

REPAIRS: Whether all types of deck and engine repairs are possible, and if not then what types of repairs are able to be carried out.

DRY DOCKS: Dimensions of largest dry dock and also the number of smaller docks.

SURVEYORS: Advice of which Classification Societies are represented at the port, or at nearby ports, e.g. Lloyds, A.B.S., N.V., etc.

GANGWAY/DECK WATCHMEN: Whether service of watchmen necessary or to be recommended and if so, the cost of watchmen.

HATCHES: Whether opening/closing is normally carried out by crew or stevedores.

CUSTOMS ALLOWANCES: (Tobacco/Wine, Spirits). Quantity permitted for each crew member to be held out of Bond.

CARGO GEAR: Whether load/discharge effected by shore gear or by ship's gear, and details of any special cargo equipment, e.g. heavy lift cranes, etc.

REPATRIATION: If facilities exist for effecting crew changes and arranging any necessary repatriation.

AIRPORT: Distance from airport and whether airport is served by regular airlines; otherwise number of flights per day or week and destinations.

TIME: Local time in relation to GMT and dates/details of any alterations made to clocks during the year (summertime).

HOLIDAYS: Dates and details of official and local holidays and advice whether or not cargo work can be arranged on those days.

POLICE/AMBULANCE/FIRE: Telephone numbers of these three services, that is, the nearest departments.

TELEPHONES: Whether arrangements exist for placing telephones on board and if so the approximate cost for this connection.

SERVICES: Details of any special services available, e.g. tank-cleaning equipment, facilities for discharge of tank-washings, compass adjusting, radio and radar repairs, etc., etc.

SHORE LEAVE: Whether crew members are allowed ashore or not.

IDENTIFICATION CARDS: Whether shore passes issued or whether seaman's book is sufficient.

REGULATIONS: Any particular or unusual regulations for the port.

DELAYS: What delays in berthing, loading, discharging or bunkering can normally be expected.

DEVELOPMENTS: Details of expected draft increases, new installations, berths, etc., expected in the foreseeable future together with expected dates of completion.

SHIP'S OFFICERS REPORTS: Information is earnestly sought from Shipmasters and other serving officers giving corrections, amendments and additions to existing information, together with their professional advices or comment upon recommended or required procedures for entering or sailing port, including advice of their experience of the port either generally or specifically. Useful items of experience and suggestions of other Shipmasters are of great value, and will be printed under a special heading.

GENERAL: Any other information that you feel may be of value to the Shipmaster that is not already covered by the previous questions.

AUTHORITY: Name, address, and other details of local Port Authority.

AGENT: At the foot of many of the ports in this *Guide* we have an additional heading entitled "Agent". The purpose of including this item has been to provide Shipowners, Managers, and Operators with prompt access to the name, address, telephone, telex numbers, and cable addresses, etc., of an experienced Agent at the port concerned.

Of course, it will be understood that the Agents named in the *Guide* are not necessarily the only Agent at that port; however, demands on available space preclude the inclusion of other reputable Agency companies and we trust that other such companies will understand and appreciate the position. We have been obliged therefore to include details of one Agency company only, but by doing so we hope to have provided a further service to the user of the *Guide*.

ROBERT PEDLOW, *Editor,*
Shipping Guides Ltd.

PUBLISHER'S NOTE

Our most sincere thanks are again due to those very many Port Authorities, Ships' Agents and Pilotage Authorities who have kindly provided much of the basic material with which these volumes are concerned. We are greatly indebted to them, and trust that they will fully approve of the manner in which the data they have sent to us has been presented.

Some of the most interesting and enjoyable facets of our work have to do with the ever-increasing communication and contacts we experience with Shipmasters and Ships' Officers, and we hope that this interest is reflected in these volumes. As ex-seafarers ourselves, we believe it to be of prime importance that our volumes include data received direct from serving mariners as this information describes direct practical experience and as such is invaluable.

Our daily work consists in the main of contact in one form or another with persons of virtually every nationality on earth, all of whom share a common interest in ships and shipping. The results of this are to provide a constant source of encouragement to us in our endeavours to ensure that the utmost attention is given to the detail and accuracy of the information provided.

My personal thanks are again due to our Editor, Robert Pedlow. In addition, I also wish to thank our translators, sub-editors, artists and all other staff engaged in the production of this publication, with a special word of appreciation to those gentlemen responsible for the high standard of print setting, Ray Sealy, Brian West and Peter George.

Reigate 1981

COLIN PIELOW

Albania

DURRES: 41.19 N. 19.28 E.

DOCUMENTS: Completed on arrival.
PILOTAGE: Compulsory. Arriving vessels should anchor and await pilot in position 41° 15′ 08″ N. 19° 26′ E. Pilot available in daylight hours only.
RESTRICTIONS: Vessels arriving from ports in Yugoslavia, Italy and Greece must give notice of arrival 48 hours in advance. Vessels arriving from ports in other countries must give notice of arrival 5 days in advance. Notice of arrival is sent by radio to Adetare Durres with following information: Vessel's name and flag; name of last port; draft on arrival; cargo description and distribution; particulars of vessel's tonnage and length.
Entrance is through buoyed channel, depth 33 ft.
MAX. SIZE: Controlled by berth depth. Maximum draft 28 ft. 6 in. Also see "Shipmaster's Report".
HEALTH: Free pratique given when Pilot boards provided vessel's health declaration is satisfactory.
RADIO: Vessels should maintain regular contact with Durres Radio up until time of entry into Albanian territorial waters, which extend 10 miles off shore.
TUGS: Port Authority supplies tugs for mooring and unmooring on Pilot's recommendations.
BERTHING: General cargo wharf No. 5 permitted draft 28 ft. 6 in. All other berths, permitted draft 21 ft. 6 in.
MEDICAL: Doctor and hospital facilities available.
TANKERS: One oil berth, at the East Mole, depth 23 ft. Tank cleaning facilities available.
FRESH WATER: Available ex wharf at all berths.
FUEL: Limited quantity available for emergency only.
OPENING/CLOSING HATCHES: Carried out by stevedores.
IDENTIFICATION CARDS: Shore passes issued by local police.
REPAIRS: State shipyard can effect limited hull and engine repairs.
AIRPORT: Rinas airport, distance 35 km.
TIME: GMT plus 1 hour.
HOLIDAYS: New Year (January 1st and 2nd); Proclamation of the Republic (January 11th); Labour Day (May 1st); October Revolution (November 7th); Independence Day (November 28th); Liberation Day (November 29th). No work performed on Sundays and holidays.
SHORE LEAVE: Crew may use seamen's club in port area.

SHIPMASTER'S REPORT: 1979
Navigation: Incoming vessels are to anchor in position 41° 15′ N., 19° 27′ E. (2.5 miles from breakwater) and await orders. The danger area shown on BA. chart No. 2701 is reportedly non-existent.
Communications: The local radio station Call sign ZAD is to be contacted on anchoring. The radio transmitter is sealed on berthing. The Agents have a telex machine which works intermittently. Telephone calls to Northern Europe possible but subject to delay.
Pilot: Equipped with VHF Channel 16, boards at anchorage.
Tugs: Two medium size tugs available for docking. One salvage tug stationed in port.
Draft: Pilots advised 27 ft. 06 in. max draft alongside and in approaches.
Cargo Facilities: Loaded 14,000 tonnes of cement in 50 kg. bags from rail and road trucks. 3 shift system. Used both shore cranes and ships derricks. As cargo comes from cement factory in interior by rail, presentation is very intermittent, and vessel rarely informed of working prospects more than a few hours in advance. Sundays are normally holidays. Loading rate averaged 1,000 tons approx. per working day but ranged from 200 to 1,700 depending on labour and cargo availability.
Formalities: ETA's required 5 and 2 days in advance, also include length, tonnage, flag, state of health, etc.

Documents required: 6 crew lists, 2 lists of foreign currency, 2 personal effects lists, 1 health declaration, 3 stores lists. Bond is sealed but Customs will open on request.
Repair Facilities: Small shipyard for minor repairs available.
Surveys: Agents advise that government surveyor available for radio surveys, etc. No classification Society Surveyor available.
Cash: Lek is currency – 1 Lek = approx. 14 US cents (7 Leks = $1). Foreign currency may be exchanged (approx. 5 days notice).
Provisions: Government ship chandler. Fresh vegetables good, fish available at moderate prices, meat not recommended.
Laundry: Available. Reasonable price, average standard.
Crew: Repatriation is reportedly possible, however it takes 3 days to get an exit visa.

Shore leave is permitted to seaman's club only until 2300 hrs. A special pass has to be obtained to visit the town (1500 to 1900 hrs. only). Tours to Tirana can be arranged by car, if one day's notice is given. Casual dress (jeans) also long hair prohibited outside dock gates.

Gangway guards in attendance throughout stay.

Considerable difficulty experienced in arranging tour for Chinese ratings.
Port Facilities: Berthing facilities for 10 ocean-going vessels. Sufficient 5-ton shore cranes available. Railway tracks to most quays. Main imports coal/coke. Exports, low grade chrome ore. Priority for Albanian vessels. One floating crane. Lack of mechanisation reduces work rate. No fork lifts or proper palletisation observed.
Agency: Adtare (government agency) in port area. The Agents visit vessel twice daily and speak adequate English and are reasonably helpful.
Fresh Water: Available from barge at $1.50 per ton approx.
Fuel Oil: Prices January 1st, 1979: Heavy Oil $98 per ton and Diesel $141 per ton delivered by road tankers (limited amounts).
Local Regulations: Permission to immobilise engines must be obtained. Garbage is collected (compulsorily) daily in plastic sacks. Permission required prior to de-ballasting.
Watchmen: Not required as gangway guards provided.
AUTHORITY: Drejtorija e Portit Durres.

SARANDE: 39.52 N. 20.02 E.

DOCUMENTS-RESTRICTIONS: Refer to "Durres."
PILOTAGE: Compulsory. On arrival vessels should anchor and wait for Pilot in position 39° 51′ 50″ N, and 20° 10′ 10″ E. Pilot available only during daylight hours.
HEALTH: Free pratique given when Pilot boards provided vessel's health declaration is satisfactory.
RADIO: Durres Radio.
BERTHING: Larger vessels work cargo at anchor only. Ship's gear used.
FRESH WATER: Not available.
FUEL: Not available.
GENERAL: See "Durres" for General Information.
AUTHORITY: See "Durres".

SHENGJIN: 41.49 N. 19.35 E.

DOCUMENTS, RESTRICTIONS: Refer to "Durres".
PILOTAGE: Compulsory. On arrival vessels should anchor and await Pilot in position 41° 48′ N, 19° 35′ E. Pilot available only during daylight hours.
MAX. SIZE: Draft 18 ft.
HEALTH: Free pratique given when Pilot boards provided vessel's health declaration is satisfactory.
RADIO: Durres Radio.
TUGS: One small tug available.
BERTHING: Two piers in harbour, one of which is used for larger vessels.
FRESH WATER: Limited supply by barge.
FUEL: Not available.
GENERAL: See "Durres" for general information.
AUTHORITY: See "Durres".

NOTES

Please also advise Shipping Guides Ltd.

Algeria

ALGIERS: 36.50 N. 03.00 E. (See Plan Book)

DOCUMENTS:

1 Cargo Manifest required for all cargo including that in transit for non-Algerian ports.
8 Crew Lists.
2 Crew and Passenger Personal Effects Lists.
1 Stores List, including Bonded Stores.
1 Currency Manifest.
2 Lists of arms, ammunitions or Military Stores (or "Nil" Declaration).
1 Private Bond and Beer List.
1 Declaration of Health.
1 Vaccination List.

Immigration officials may require to inspect all discharge books or passports. Customs regulations are strictly interpreted. Care should be taken to ensure that all ships' papers are perfectly in order. Vessels arriving with incomplete or inaccurate documentation have been subjected to severe delays and penalties.

PILOTAGE: Compulsory. Available day or night. Pilot boards vessel about 0.5 mile from end of Wattier jetty. Pilot boat is black with insignia of 2 white anchors.

ANCHORAGE: Algiers Bay is crescent-shaped with Cape Caxine on the West and Cape Matifon on the East. Depth 25-30 m. Bottom is good holding ground, and vessels are sheltered from West and Northwest.

RESTRICTIONS: None if Port Authority is advised by Radio Algiers or by Agent.

MAX. SIZE: Vessels of 25,000 tons proceed normally. Length not restricted; maximum draft 38 ft.

HEALTH: Health Officer boards vessel on arrival.

RADIO: Algiers Radio, operates continuously.

TUGS: Three available of 600 to 800 h.p. and also one of 1,000 h.p. for towing in harbour; two larger available for open sea, 1,500-1,300 h.p.

BERTHING: 54 berths available, total distance of 9,519 m. plus 2 berths of 250 m. each for tankers. All general cargo berths have cranes with lift of 3-6 tons.

STEVEDORES: Available.

MEDICAL: All assistance available.

TANKERS: Quay de Lorient: 2 berths, with depth alongside 11.50 m. Deballasting facilities available.

DENSITY: Salt water.

FRESH WATER: Delivered by pipe-line to quay, or by water barges.

FUEL: Deliveries by pipe-line on most quays or by barge. Big ships are supplied by barge in the roads.

FIRE PRECAUTIONS: A special notice with instructions is delivered to tankers. Fire station established within port area.

GANGWAY/DECK WATCHMEN: Service by three experienced companies arranged by Agent.

OPENING/CLOSING HATCHES: Normally opened by crew, or by port workers.

IDENTIFICATION CARDS: Not required.

CONSULS: All principal countries are represented in Algeria.

REPAIRS: All repairs available.

DRY DOCKS: Two: one of 136 m. long, 18.50 m. width, and 8 m. deep. The second of 74.30 m. long, 15.50 m. width and 5 m. deep.

REPATRIATION: Frequent departures for Europe by boat or plane.

AIRPORT: Dar-el-Beida at a distance of 20 km. from Algiers; several flights daily.

TIME: GMT (Winter). GMT plus 1 hour (May-October).

HOLIDAYS: 1st January; 5th July; 1st November; Labour Day; Proclamation Day; plus religious holidays – Aid Seghir; Aid Kebir; New Year's Day (Egira); Achoura, and Mouloud. Friday is now considered as the weekly rest day in Algeria.

POLICE/AMBULANCE/FIRE: Police 63.01.61; Fire Brigade Service 63.71.22.

SHORE LEAVE: Allowed.

AUTHORITY: Capitainerie du Port.

ANNABA: 36.58 N. 07.47 E.

DOCUMENTS: Refer to Algiers.

PILOTAGE: Compulsory when entering, leaving or shifting in harbour, vessels arriving during night and wishing to enter the basin must anchor at 2 nautical miles to East of Southern Lighthouse at main entrance (red occulting light) on steady sand bottom of 65 to 100 ft. depth.

ANCHORAGE: Quite good anchorage well protected against West or North winds at about 3 nautical miles to North of harbour with depths of 40 to 60 ft. on rocky and sandy steady bottom.

MAX. SIZE: Length 656 ft. draft 33 ft., breadth no restriction.

RADIO: Cable Agents giving ETA or to Harbour Master by cable or radio telephone via Annaba Radio Station which is permanently watching on 2182 k/cs.

VHF: Harbour Master's Office can be contacted on Channels 16 and 14.

TUGS: Two tugs available each of 700 h.p. both fitted with radio telephone and two fire appliances.

BRIDGES: No bridges or power cables crossing port area.

BERTHING: Harbour is open to merchant navigation every day from 0500 to 2200. In case of necessity vessel will be handled at any time.

STEVEDORES: Available. Working hours (whole days), normal hours: 0700/1020–1400/1720. Shifts: 0630/1230-1300/1900-2000/0200. Working night and holidays, overtime 50%.

TANKERS: Two tanker berths in outer port, entrance 43 ft. The first is at Lyon's Jetty consists of two dolphins 180 ft. apart. Second at South Jetty consists of two dolphins 180 ft. apart. 8 in. and 10 in. pipe-lines supply the oil installation.

FRESH WATER: Plentiful supply of water alongside wharves at a rate of 8 to 14 t.p.h.

FUEL: Bunkering available. No coal.

GANGWAY/DECK WATCHMEN: Performed by ship's crew.

OPENING/CLOSING HATCHES: Performed by stevedores.

CARGO GEAR: Cranes: 18 electric or diesel shore cranes with lifting capacities from 3 to 6 tons; 1 electric shore sheers of 110 tons and 1 diesel-electric sheers hulk of 80 tons.

IDENTIFICATION CARDS: Required.

SHORE LEAVE: Allowed.

REPAIRS: One graving dock fitted with two rolling cradles on slipways, lifting capacity 100 and 200 tons. Divers and frogmen available.

GENERAL: Prevailing winds generally of N.W. and West. Storms from these directions are blocked by mountains which lie behind harbour. Harbour is only exposed to storms from East and N.E. which are very rare. There is practically no swell or surf into harbour. Tidal variation about 1 ft. and water level ranges about 31 in. dependent on season. Low waters from February to June and high waters from June to February.

AUTHORITY: Directeur du Port.

ARZEW: 35.50 N. 00.16 W.

DOCUMENTS: Refer to Algiers.

APPROACHES: There are numerous good navigational aids visible from seawards to vessels approaching Arzew Bay. The oil storage tanks are visible for a considerable distance seawards, and the methane gas flare in the Southwest corner of the bay is clearly visible at night. In addition to Isle de Arzew lighthouse, the mooring buoys are fitted with red winker lights, visible one mile, but too much reliance must not be placed on these last lights. The pillar buoys on the berths are fitted with blue winker lights. All these buoys form a good radar target and are clearly visible over 5 miles on the radar screen.

PILOTAGE: Pilotage is compulsory. A Pilot from the pilotage station of Arzew will board vessels and assist Master to berth.

Communications from tankers will be via the international radio station at St. Lys, which is in telex communication with the Arzew terminal. Contact with the Arzew terminal can be made on VHF Channel 16. Vessel will then be informed by the control room of the frequency to use, either Channel 12 or 14 for mooring purposes.

Masters are advised to provide for safe access of port personnel an accommodation ladder rigged to end 10 ft. above the water, and a pilot ladder alongside to provide access to the accommodation ladder.

ANCHORAGE: Vessels requiring to anchor on arrival normally use services of the Pilot. Anchorage fees are charged whether the Pilot is used or not. Sea bottom of rocks, sand and mud.

RESTRICTIONS: Vessels may enter or sail by day or night. Tankers berthing on the sea line berths may be restricted by bad weather, heavy wind or swell.

MAX. SIZE: *Inside Harbour:* Dry cargo berth for vessels up to 7.50 m. draft. LPG and refined crude berth for vessels up to 8.0 m. draft. Methane Terminal, two berths for vessels up to 10 m. draft.

Sea Line Tanker Berth: For tankers up to 150,000 tons.

HEALTH: Free pratique is not granted by radio. For tankers berthing on the sea line, pratique may be granted by a visiting sanitary officer or by the Pilot when he boards, providing the health declaration is satisfactory. For vessels berthing inside the harbour, the Health Officer will board on arrival.

Vessels calling at Arzew must give their ETA 48 and 24 hours prior arrival, naming the ports called within the last 10 days.

Crew must be vaccinated against cholera and smallpox. Vaccination books must be valid and a check is made before free pratique is granted.

RADIO: Oran Radio and Algiers Radio both listen on international frequencies. Tankers normally use St. Lys Radio.

TUGS: Four tugs available, from 900 h.p. to 1,600 h.p. Two tugs normally required for berthing and unberthing. The tow line should be supplied by the vessel. Tugs join inward bound vessels at about 1.5 miles from harbour entrance.

BERTHS: *(Inside Harbour):* Berths No. 1 and 2 used for loading fertilisers, suitable for vessels up to 225 m. length with maximum draft 6.50 m. Berth No. 3 for discharging of general cargo, vessels up to 100 m. length, 7.50 m. draft. Berth Nos. 4 and 5 for loading salt in bulk and discharging general cargo, for vessels up to 220 m. length, 6 to 7 m. draft. Berth No. 7 used for unloading LPG and refined crude, for vessels up to 100 m. length, 8 m. draft.

Methane Terminal: Two loading berths for liquid methane, each 400 m. long for vessels up to 10 m. draft.

Sonatrach Terminal: Three sea line berths are located about one mile from Arzew Harbour breakwater, in approximate position 35° 50′ North, 00° 16′ West.

At sea line berths Nos. 1 and 2, minimum 23,000 d.w.t., maximum 85,000 d.w.t.; minimum length 540 ft.; loading rate 3,000 t.p.h. Depths up to 92 ft.

At sea line berth No. 3, maximum 150,000 d.w.t., minimum length 640 ft.; maximum length 948 ft.; draft up to 68 ft.; loading rate up to 5,500 t.p.h. Depth in the berth up to 92 ft. Tankers over 80,000 d.w.t. must be capable of loading and deballasting at the same time. Minimum depth of water in the berthing area is 73 ft.

BERTHING: Use of ship's anchors will not be permitted when manoeuvring into berth. Two tugs are available to assist in berthing. On arrival vessels should have ready eight mooring lines, four forward and four aft and a tow rope at each end as it will be necessary to position the vessel with her own gear before securing to the heavy wires. Good rope messengers should be ready at each end of the vessel to pick up these wires.

There are three mooring buoys at the bow and three at the stern. All buoys are fitted with 5 in. wire ropes. Ships of moderate tonnage may be moored using two bow buoys and two quarter buoys only. Hoses will be lifted from both sides of the vessel using ship's gear and crew.

The port and starboard derricks must be ready for use before berthing. The safe working-load must be at least 5 tons. The Loading Master can refuse to berth a tanker whose lifting tackle is not correctly rigged or in good working condition.

Three 12 in. hoses are connected for loading, 2 on one side and one on the other. Loading rates up to 5,500 t.p.h.

BALLAST: Pilots are empowered to refuse to berth a vessel if in their opinion the vessel has insufficient ballast, or her trim is such that it would prevent safe loading.

The Arzew deballasting plant is presently not available for discharging dirty ballast ashore.

Vessels required to arrive with clean ballast only, which may be discharged to sea, subject to Master's sole responsibility for oil pollution risks.

STEVEDORES: Vessels must cable their ETA at least 24 hours before arrival and confirm before 1700 hrs. on day prior to arrival or before 1000 hrs. if vessel will arrive in the afternoon of the same day. Gangs are ordered before 0700 hrs. for mornings and at 1030 hrs. for afternoons. Shifts are from 0730–1050 hrs. and 1530 to 1650 hrs. Extra shifts from 0730–1330 hrs. and from 1330 to 1930 hrs.

DENSITY: 1030.

MEDICAL: All treatment of ship's crew is arranged by private doctors through ship's Agent. No hospital facilities at Arzew. Seriously injured crew are taken to Oran, 45 kms. away, for hospitalisation. Vessels arriving with sick crew on board should notify Agents well in advance to make arrangements for hospitalisation on arrival. No patient is to be disembarked without notification to the Health Officer for his agreement.

FRESH WATER: Not available.

FUEL: Not available at Sonatrach Terminal. May be arranged for vessels inside harbour, subject to advance notice.

WATCHMEN: Shore watchmen are compulsory for vessels loading fertiliser or discharging LPG or refined crude in the harbour area. For tankers loading at the sea line berth, watchmen are at Master's discretion.

CUSTOMS ALLOWANCES: 200 cigarettes and an opened bottle of spirits per man.

IDENTITY CARDS: On arrival, the immigration control all passports or seamen's books. Shore passes are given at the harbour gate in exchange for passports, seaman's book, or in the case of French seamen, their identity cards.

AIRPORT: Nearest at Oran (Es Senia).

CONSULS: Nearest at Oran.

TELEPHONES: Available only at methane berths. At the sea line berths tankers may communicate using VHF Channel 16 to Arzew Terminal.

DEVELOPMENTS: Additional berthing facilities under construction for gas tankers up to 200,000 d.w.t. and crude tankers up to 250,000 d.w.t. Depth of water 13.5 m.

AUTHORITY: Capitainerie du Port.

BEJAIA (BOUGIE) 36.45 N. 05.05 E. (See Plan Book)

DOCUMENTS: Refer to Algiers.

PILOTAGE: Compulsory within pilotage zone between Cap Carbon to the West and Ras Attia to the East. Contact pilot station by VHF Channel 16 or Telex 92087. Tel. 92.05.02, or 92.05.03, and 92.03.39 at night. International code signals used to call Pilot who boards at the limit of pilotage zone. Pilot ladder should always be placed on port side.

ANCHORAGE: Suitable anchorage in all weathers will be indicated by the Pilot.

RESTRICTIONS: No night movements for tankers with LPG or refined petrol cargoes.

MAX. SIZE: Tankers: Length 260 m. Draft up to 13 m. Waiting zone for vessels in ballast; depth 10 m.

Commercial Port: Draft between 7 m. to 9 m.

HEALTH: Free pratique given by Brigade Maritime on arrival, unless suspected disease on board when Port Doctor will visit the ship. Pratique is automatic after calling at another Algerian Port.

RADIO: Alger Radio.

TUGS: Available under direction of Pilot by VHF contact. Ship's lines always used. 2 tugs required for berthing and unberthing.

BERTHING: *Sonatrach Oil Terminal:* 3 loading piers for crude oil.

Pier No. 1 for vessels up to 11.50 m. draft. Four 10 in. hoses.
Pier No. 2 for vessels up to 12.50 m. draft. Four 12 in. hoses.
Pier No. 3 for vessels up to 13.00 m. draft. Four 12 in. hoses.
Maximum pressure allowed 3 kgs.
Loading rates up to 4,000 t.p.h.

BALLAST: All dirty ballast to be discharged ashore; 2 hoses available at each berth, can receive ballast up to 2,000 t.p.h.

Vessels berthed at Piers No. 2 and 3 cannot discharge ballast simultaneously.

Clean ballast may be discharged to sea, only if vessel is in gas-free condition.

Thick slop residues may only be accepted subject to terminal operator's approval, but only in quantities of less than 100 tons.

FRESH WATER: Available at berths No. 2 and 3 only, subject to 24 hours' notice. Loading rate about 15 t.p.h.

FUEL: Available at all Sonatrach berths, subject prior arrangements. No barges.

REPAIRS: Very limited facilities. No dry docks. No possibility for radio/radar repairs.

No repairs may be carried out on board a tanker without first obtaining the Harbour Master's permission.

FIRE PRECAUTIONS: Anchors must be hove-up while vessel is moored in berth. A fire wire must be provided fore and aft for tug's use if necessary.

Tanker's fire-fighting equipment must be ready for use on fore and main deck.

3 tugs are equipped with fire-fighting apparatus.

DENSITY: 1025.

WATCHMEN: Not compulsory but recommended. The Port Commandant may impose a guard on vessels carrying certain cargoes.

CUSTOMS ALLOWANCES: 3 packets cigarettes and 1 bottle of wine or alcohol per man per day.

CONSULS: France: tel. 92.12.13. Others at Algiers.

REPATRIATIONS: Can be arranged via Algiers.

AIRPORT: Dar-el-Beida International Airport at Algiers, 240 km. from Bejaia.

POLICE/FIRE/AMBULANCE: Police, tel. 92.04.22. Ambulance/Fire, tel. 92.00.02.

TELEPHONES: None on board, but telephone exists at each tanker berth.

SHORE LEAVE: Allowed, provided seamen carry identity cards or shore passes.

AUTHORITY: Capitainerie du Port de Bejaia.

GHAZOUET (Nemours): 35.06 N. 01.52 W.

PILOTAGE: Pilotage is compulsory and is provided day and night, unless the port is closed. Whilst awaiting the Pilot the vessel must keep watch on Channel 14 or 16 VHF.

Pilotage area: To the East: meridian passing through the Touent coastguard station. To the West: the meridian passing through the village of El Amadra.

ANCHORAGE: Ghazouet roads, there are no reefs and the holding ground is fairly good.

APPROACHES: From seaward and during daytime the best landfalls for the roads is Tadjera mountain (861 m.) or the square mountain of Trara 18 km. to the East of Ghazouet and the summit of the mountain chain of Djebel Fillaoucene visible at over a distance of more than 20 miles offshore in clear weather.

The outer channel is 225 m. wide and 12-20 m. deep and the inner channel 166 m. wide and 11-12 m. deep. There are 5 lights; 1 at the Two Brothers' Rock (Les Deux Freres), one at the end of the West jetty, one at the head of the old West jetty, one at the West end of the North jetty and one on the pier of the North jetty.

MAX. SIZE: Max. length 170 m.

TUGS: There are no regular tugs in the port, however, Sonatram at present undertaking work in the port are able to supply tugs. If the Sonatram tugs should not be available tugs are called from Arzew and Oran. During 1980 the port expects to have its own tug.

BERTHING: There are four port basins: Skikda, Maghreb, Machrek and Oran.

The basins of Skikda and Oran cover an area of 13 hectares and the basin of Machrek covers an area of 14 hectares.

There are five moles: Algiers Mole, Batna Mole, Constantine Mole, Djanet Mole and Tlemcen Mole. The moles provided 10 quays (17 berths) with a total length of 1,722 m.

Algiers Mole (Quay No. 1): Depth 7.5 to 8 m.
Batna Mole (Quay Nos. 2 and 3): Depth 7 to 8 m.
Constantine Mole (Quay Nos. 4, 5, 6 and 7): Depth alongside 8 to 9 m.
Djanet Mole (Quay No. 8): Depth alongside 8 to 9 m.
Tlemcen Mole (Quay Nos. 9 and 10): Depth 10 m.

SPECIAL CARGO HANDLING FACILITIES: Inflammable goods are handled at Quay No. 1, cereals are handled at Quay No. 8 (one suction pump available), loading of acid at Quay No. 9 and ore is handled at Quay No. 10.

CRANES: There are 4 electric cranes on rails fitted with scoops. 2×10 tonnes, 1×12 tonnes and 1×14 tonnes. There are also 4 mobile cranes fitted with hooks, 2×2.5 tonnes, 1×5 tonnes and 1×24 tonnes. Twelve fork lift trucks with 2 tonnes capacity are available.

FRESH WATER: Available from 17 hydrants along the quays.

FUEL: This is not provided on a regular basis, however, small quantities are sometimes supplied by road tankers.

DEVELOPMENTS: Reinforcement of the breakwater is under way and expected to be completed by the end of 1981.

The following works are planned: the moles are to be re-surfaced and the fendering to be improved, a ro/ro ramp is to be built at Quay No. 9. Dredging work to take place.

POLICE/AMBULANCE/FIRE: Police tel. 22.12.76, Fire Brigade tel. 22.10.14.

WEATHER: The strongest and most frequent winds are from the N.W. and with the entrance channel aligned East-West passage is dangerous since the currents generally follow the direction of the winds.

AUTHORITY: Direction du Port.

MOSTAGANEM: 35.56 N. 00.04 E.

SHIPMASTER'S REPORT

DOCUMENTS:

7 Crew Lists.
1 Passenger List.
1 Health Declaration.
1 Vaccination List.
2 Store Lists, including Bonded Stores.
2 Crew Personal Effects Lists.
2 Lists of Arms and Ammunitions.
1 List of Currencies.

If the vessel is coming from another Algerian port, clearance will also be required.

Certificates: Not requested.

Customs: Very strict customs at this port. Routine search will be made. Penalties extremely high if something not manifested is found.

PILOTAGE: Compulsory. There are two Pilots; 24 hour service. Pilot boat is black with a white stripe. Vessels arriving after sunset, if no cargo

work at night, will be kept in the roads until 0600 hrs. next morning. Vessels sail at any time during the night.
ANCHORAGE: Recommended anchorage is having the light of the Jette du Large and the Light of the Mole Sud Ouest in line, and 0.5 miles off the first light.
MAX. SIZE: Not more than 200 m. length. Max. draft 25 to 27 ft., depending on the berth.
HEALTH: Free pratique is granted easily upon berthing and producing Health Declaration and Vaccination List. If any vaccinations certificates have expired, free pratique will be granted and health Authorities will arrange, on request, the vaccinations.
RADIO: Alger Radio, receiving on 2182 kc/s. and working on 1792 kc/s., on 24 hours basis. Also Oran Radio, listening on 2182 kc/s., and working on 1735 kc/s., on 24 hours service. Advisable to use the latter.
VHF: At the Harbour Master's Office, working on Channel 16, officially 24 hour service, only French spoken. Also Oran Radio can be reached easily by VHF Channel 16, from Mostaganem, English spoken.
TUGS: Available at Arzew. Therefore too expensive to be used.
BERTHING: Ten berths available. Total length of quays, 1,360 m.
CRANES: Five cranes, (6–15 tons).
STEVEDORES: Arranged by the Agent. They belong to the Societe Nationale de Manutention (State Stevedoring Company), who supplies them.
MEDICAL: All facilities available.
DENSITY: 1025.
FRESH WATER: Available, but not advisable to use as drinking water.
FUEL: No facilities. Vessels must proceed to Oran for bunkering.
GANGWAY/DECK WATCHMEN: Not compulsory, but strongly recommended by Port Authorities and Agent.
OPENING/CLOSING HATCHES: Can be performed by ship's crew or by stevedores.
CUSTOMS ALLOWANCES: 1 bottle of spirits and 1 carton of cigarettes are allowed for every Crew member. Anything in excess of this amount will be sealed.
IDENTIFICATION CARDS: On leaving the vessel, Crew members to carry their passports, which will be kept at the harbour gate, whilst ashore.
CONSULS: None.
REPATRIATION: It is possible and easily arranged by Agent.
REPAIRS: Only minor repairs can be carried out by workshop.
AIRPORT: At Oran, La Seine Airport, 80 km. distance, with 3 daily domestic flights to Algiers.
HOLIDAYS: See "Algiers".
SHORE LEAVE: No restrictions, except for some nationals.
AUTHORITY: Capitanerie du Port de Mostaganem.

ORAN: 35.43 N. 00.39 W.

DOCUMENTS: Refer to Algiers.
PILOTAGE: Compulsory. Arranged by Agents' basis vessels ETA. International Code signals used. Pilot boards at port entrance.
ANCHORAGE: In depths over 40 ft. available in the roads.
MAX. SIZE: Length 800 ft. Draft 38 ft.
HEALTH: Free pratique given by Brigade Maritime on arrival, unless suspected disease on board when port doctor will visit the ship. Pratique is automatic after calling at another Algerian Port.
RADIO: Alger Radio.
TUGS: Available to assist berthing and unberthing.
BERTHING: Mole 1: tankers, depth alongside 39 ft. Mole 2: tankers, depth alongside 33 ft. Cargo vessels: about twenty berths at quays with depths from 20 to 33 ft. alongside.
MEDICAL: Doctors and hospital facilities available.
FRESH WATER: Available by barge.
FUEL: All grades available by pipe-line at the oil berths.
REPAIRS: Only minor repairs can be effected.
WATCHMEN: Not compulsory but recommended. The Port Commandant may impose a guard on vessels carrying certain cargoes.
CUSTOMS ALLOWANCES: Three packets cigarettes and one bottle of wine or alcohol per man per day.
AIRPORT: La Senia, 7 km. away. Daily flights to Algiers for international connections.
AUTHORITY: Port d'Oran.

SKIKDA: 36.53 N. 6.54 E. (See Plan Book)

DOCUMENTS: Refer to Algiers.
PILOTAGE: Compulsory.
RESTRICTIONS: Mooring and unmooring permitted at night.

If vessel required to swing inside harbour, turning basin is 350 m. diameter provided draft not more than 11 m.
MAX. SIZE: Tankers up to 50,000 d.w.t. acceptable at No. 3 berth.
TUGS: Tug assistance available for berthing and unberthing.
TANKERS: Three berths,

No. 1 – for vessels up to 225 m. length, 11.00 m. depth.
No. 2 – for vessels up to 250 m. length, 12.50 m. depth.
No. 3 – for vessels up to 275 m. length, 14.00 m. depth.

Three shore lines, each with capacity of 500 cu.m. per hour. Three slop tanks available each with capacity of 500 cu.m. Dirty ballast discharge rate restricted to 2,000 cu.m. an hour.
FRESH WATER: Available in very limited quantities by pipe-line at the berths.
FUEL: Not available.

SHIPMASTER'S REPORT: 1979.
Pilotage: Pilotage is compulsory. When entering the port Pilot is arranged with the Harbour Control. When leaving, the ship contacts Harbour Control on VHF radio once all documentation has been completed and the vessel is ready to leave. There are 6 Pilots attached to the port, 3 Egyptians, 2 Bulgarians and 1 Algerian.
Anchorage: The anchorage is sheltered from the South through West to N.N.W. by hills, but is open from the North through to the East.

During our stay at the anchorage the wind varied from S.W. to North, and at times a large swell built up, obviously from a disturbance away from the coast. I found secure holding ground in 30 to 40 m. of water 1 mile North of the main breakwater of Skikda harbour for the 3 times we had to anchor, with 4.5 shackles of cable out on the starboard anchor. Our vessel rode out several severe squalls when other ships in the vicinity were dragging their anchors.
Radio: There is a local radio station working VHF only, call sign "Skikda Radio", calling frequency Channel 16 and working frequency Channel 26. Local telephone calls to Skikda are handled very quickly, but overseas telephone calls can be subject to long delays, this is because they first have to go on the land line to Alger (Algiers) and this line can be congested, the same delay is also experienced when telephoning overseas from ashore.

There is a local Port Control radio, Call sign "Skikda Port Control", calling frequency Channel 16 VHF, and working frequencies Channels 12 or 14 VHF. When approaching the port ships should call the "Port Control" and give the following:

(a) Ships Name.
(b) Nationality.
(c) Gross tonnage.
(d) Draft.
(e) Length overall.
(f) Tonnage and type of cargo for discharge at Skikda.
(g) Last port.

After which stand-by on Channel 16 for instructions. When at the anchorage it is a good idea to contact the Port Control each day to see if they have any instructions. Control seem to give the ships as much prior notice of movement as they can, and the Pilot will call on Channel 16 when he is on his way to the vessel.
Tugs: Tugs are compulsory for vessels over 1,500 g.r.t., the number used depending on the size of the vessel. There are 4 tugs attached to the port, all of at least 2,500 h.p. in order to handle the large tankers and gas tankers that use the port in what is called the "New Port", which is a new port complex built 1 mile to the East of Skikda to handle the export of natural gas. The tugs are really too big for use with vessels of the size of our vessel (3,200 d.w.t., 1,597 g.r.t.).
Stevedoring/Port Facilities: The stevedores are part of a nationalised concern. General cargo discharge or loading is carried out by a combination of shore cranes and ships gear. The main grain discharge berth is by the silo, this berth is out of action for grain at present as the machinery is under repair, the latest estimate for recommencing discharge there is July. Once the machinery is in full working order they expect to be able to produce figures of up to 3,000 tonnes per day.

We lay at the other grain berth on the outer harbour wall where discharge was commenced with a mobile sucker into a hopper, however, on the second day of work the machine became inoperative. They did try to work with a mobile crane, but the condition of the quay was such that the crane was unable to find a secure platform for work so we had to wait for another berth to become vacant and discharge by shore crane with a grab into hopper then into lorries. Once on the final berth the discharge progressed quickly taking 3 working days, that is from 0630 hrs. through to 0230 hrs. with 1 hour break for lunch, and 1 hour break at the change of shift at 1930 hrs.

The port is well equipped with mobile machinery, i.e., forklifts large and small, mobile cranes of different types, however, maintainence appears to be a problem. There is a floating crane of unknown lifting capacity, there was no safe working load marked on any of the cranes. There is a firefighting launch in the harbour equipped with several knozzles, the tugs are also fitted for firefighting.
Stores: A limited amount of fresh provisions can be obtained, including fresh meat, however, it is expensive. We found that items such as cooking oil, butter and flour simply could not be obtained. The ship chandler is part of the Agency so once again is part of a nationalised concern. Fresh water is laid on to most quays, but whilst we were at Skikda it was only available for 3 hours each morning each day, and at one stage the water supply system stopped functioning for 4 days. The Harbour Master seems to do his best to find ships a berth inside when they reach the desperate stage for fresh water and stores.
Authorities: Skikda is unique in the ports of Algeria in the fact that when at anchor ships come under the jurisdiction of the local Algerian Coastguard. This means that Coastguard officers board when the ships have anchored, examine the crew declaration, stores list, bonded stores list, currency declaration, crew cabins, and then seal the Bond. If laying at anchor for a long time they will come out and give an issue from the Bond if the Agents contact them.

Once inside the port the local Customs Authorities take over. They visit on arrival alongside and also require, crew declaration, stores list, bonded stores list, currency declaration; dangerous drugs list and crew lists. They will give an issue from the bond, but only sufficient for use whilst the ship is in port.

The Port Health and Immigration Officers also board on arrival alongside. Port Health requires the usual Maritime Declaration of Health and a list of vaccination (smallpox) dates, and Immigration require a crew list. If going out of the dock gate crew need passport, Seamens I.D. card or discharge book for presentation at the gate where they are issued with a shore pass and book is left in Police care until crew member returns to the dock area.

It is a Police regulation that a shore watchman is employed day and night. The Agency arrange this, deal with the paperwork and present the bill for signature.

Agency: There is only one agency in the port. The agency is Compagnie Nationale Algerienne de Navigation (CNAN), a copy of their instructions to Masters is presented below. One man being appointed to look after each vessel.

Notice:

Compagnie Nationale Algerienne de Navigation:
Agency of Skikda.

Notice:

Dear Captain,

In order to fix all necessary arrangements for your call and give the best possible turn-around, you are kindly requested to follow the instructions hereunder stated:

1. ETA to be addressed to: Traffic Department. Cable: CNALNAV SKIKDA. Telex: 92.815. Telephone: 95-57-51; 95-57-52; 95-50-29.

1st ETA: 72 hrs., 2nd ETA: 48 hrs. and confirm via Skikda Radio definite ETA 24 hrs. before arrival.

2. Specify nature and quantity of cargo on board for Skikda together with dangerous goods if any.

3. State details of heavy cargo and clarify whether to be unloaded with ship's gear or shore cranes.

4. Bunkers: Should be ordered from the Agent 24 hrs. before arrival and must be received from suppliers at latest 24 hrs. before sailing. This is very important in order to avoid delay.

5. Shipchandler: Requirements should be ordered from the Agent or direct from the suppliers immediately on arrival and delivered latest 12 hrs. before sailing. The bills should be signed by Master before ship's departure.

6. Medical Assistance: Medical visits are fixed twice a day: 0900 hrs. and 1500 hrs. Emergencies excepted.

Master should declare Crew members for doctor, morning for afternoon visit. Afternoon for next morning.

All medicine should be ordered only by Master by letter addressed to the Agent.

7. Disembarking/Embarking: All Customs and Immigration formalities should be arranged 24 hrs. before sailing.

Master should declare Crew members for repatriation latest 24 hrs. before sailing, otherwise no disembarking will be arranged.

8. Custom's Fine: All penalties for whatever should be the reason must be paid by Master to Customs 24 hrs. before ship's departure.

Working hours of Customs office as follows:

Morning	0800 – 1100 hrs.
Afternoon	1430 – 1700 hrs.
Thursday	0800 – 1100 hrs.

on Friday and holidays office is closed.

9. (a) Discharging and/or loading operations must be carefully checked by Master and all remarks should be mentioned on stevedoring time sheets out-turn reports.

(b) Watchmen in holds are recommended in order to avoid pilferage. Expenses involved for watching will be Owners or Charterers account.

10. The Agent will deliver to Master on arrival, "forms of call's report". These documents should be carefully filled in and returned before sailing.

NOTES

Please also advise Shipping Guides Ltd.

Angola

CABINDA: 05.22 S. 12.11 E.

DOCUMENTS:
7 Manifests for each port of origin of cargo for Cabinda, plus 1 copy of each Bill of Lading.
8 Passengers Lists (Disembarking/in transit) even if nil.
7 Crew Lists.
8 Lists of ports previously visited.
2 Lists of Crew vaccinations.
3 Lists of Ships Stores.
3 Personal Effects Lists.
Other forms intended for Customs, Health, etc., can be filled in on arrival.

PILOTAGE: Government Pilots' service is obligatory. Radiograms giving ETA to be sent to Agents via Luanda Radio (or by telegram from previous port), and anchorage to be used which is the closest to Cabinda, provided locations permit. The vessel is visited by port authorities, and, if necessary, the vessel may shift to another anchorage.

When the cargo is for the account of Cabinda Gulf Oil, the vessel must be moved closer to Malongo where the oil companies have their own berth for discharge of various cargo into barges.

Tankers: The Mooring Master, from Cabgoc, moves arriving tankers 1 to 2 miles to the West, and assists in mooring to buoys. Assistance from a tug is unnecessary. Vessels only moor in daylight hours. Unmooring can be carried out at any time. Attention must be paid to oil wells and pipe-lines in that area. All platforms have lights which emit the letter "U" in Morse Code. Approach must be made from the West.

It is requested that vessels have on their port side and at the stern a gangway properly equipped and illuminated.

On the forecastle there must be 3 mooring cables. 1 steel cable of 0.75 in. diameter with an eye and an appropriate shackle must be rigged on the derrick.

ANCHORAGE: For vessels bound for Malongo, the anchorage is restricted where Cabinda Gulf Oil is operating, approximately between 5° 15′ S. and 5° 30′ S. being extended outwards to 12° 00′ E. Tankers must not anchor less than 2 miles to the West of the single mooring buoy.

MAX. SIZE: Cargo vessels, in the anchorage, with 32 ft. depth, may work at will. Vessels with greater draft can be accommodated further seaward but there is always the risk of swell hampering operations.

CLEARANCE: After arrival, official authorities will board the vessel for rapid clearance so that preparations may be made to berth.

In the event of arrival during the night, clearance will not be made before 0800 hrs. In the meantime, an Agent of the Customs Police will be stationed on board, and will stay until berthing takes place in daylight.

RADIO: A HF radio telephone is installed in the Malongo terminal, call sign "Malongo", listening out throughout 24 hours, on the international frequency 2182 mHz.

For communications up to approximately 50 miles, a VHF system is installed at Malongo, which uses the same call sign (Malongo) and is also manned throughout 24 hours.

Initial contact on VHF, must be made on 156.8 mc/s (Channel 16) and then by mutual agreement traffic can be passed on one of the following frequencies: 156.6 mc/s (Channel 12); 165.45 mc/s (Channel 9); 156.7 mc/s (Channel 14).

Masters of vessels are requested to advise "Cabgoc Cabinda" 72 and 24 hours in advance of the ETA, giving the name of the vessel, date and time of expected arrival, name of Master, and any other special information.

TUGS: Normally not necessary. Cabinda Gulf Oil have a small tug which will give assistance if necessary.

SINGLE BUOY MOORING: A mooring buoy is located about 8 miles S.W. of the Cabinda Gulf Oil Co. Terminal at Malongo. The position of the buoy is approx. 05° 26′ S. and 12° 05′ E.

The buoy has a white light with range 5 miles, flashing for 2 secs. and eclipsed for 18 secs.

The depth of water is 75 ft.

BERTHING: The berthing equipment is passed on board the vessel at the terminal when the Berthing Master comes on board the tanker.

The first step for mooring is to lower one of the cables from the deck, and to hook on to the buoy quickly, which will be done by the terminal launch. The tanker must have 3 cables ready on deck.

Berthing is only done in daytime from 0600 to 1900 hrs., which is considered the maximum in conditions of favourable visibility.

Handling of hoses: 2×12 in. hoses are connected to the manifold of the vessel on the port side. The handling of hoses is effected by the ship's crew, under the direction of a deck officer, in accordance with instructions of the "Berthing Master".

The derrick on the port side must be prepared with a wire of 0.75 in. diameter (minimum).

The weight of each hose is about 3 tons.

Ballast: There are no facilities for receiving dirty ballast. Vessels must arrive with clean ballast sufficient for safe manoeuvring. Deballasting operations will be constantly checked by a representative of "Cabgoc", and the slightest evidence of pollution will cause permission for deballasting to be withdrawn.

Cargo: The crude oil at Cabinda has densities varying from 26.3 API. to 34.6 API. Some of this oil contains appreciable percentages of hydrogen sulphate which can cause a toxic atmosphere during loading.

Loading: This is done by gravity, at times assisted by pumps at a rate of 30,000 bbls.p.h. About 30 minutes prior to completion, the representative of Cabgoc must be advised so that the "Shutdown" between the vessel and the terminal may be co-ordinated.

When the vessel has completed loading, the valves on land and on the buoy must be closed. Only then may the vessel's manifold valves be closed.

In an emergency the vessel may suspend loading operations.

After completion of loading, the vessel will carry out a comparison between its own load measurements and those of the terminal. The verified quantity will be transmitted by radio and lists prepared and distributed.

Cargo documentation will be delivered to the Master of the vessel by the ship's Agents and as quickly as possible.

Tankers must be cleared very quickly so that there is no delay in departure. It is imperative that the Master declares prior to loading the tonnage required. Accurate meters ashore ensure that the ordered tonnage is supplied.

STEVEDORING: It is recommended that notice be given 48 hours in advance, as to distribution and nature of cargo.

MEDICAL: Arrangements can be made for a doctor to visit the vessel on arrival. There are hospital facilities. Serious cases are sent to Luanda. Crew must have certificates of inoculation against smallpox and yellow fever.

DENSITY: 1025. Influence of the current of the River Zaire varies according to the time of the year.

FRESH WATER: Supply cannot be guaranteed.

FUEL: None available.

WATCHMEN: Not necessary. The authorities place a port policeman on board.

OPENING/CLOSING HATCHES: By the Crew or stevedores.

CERTIFICATES: Ship's register, certificates of deratting (valid) and certificate of life saving equipment.

CUSTOMS ALLOWANCE: Customs normally place no restrictions on the consumption of alcoholic drinks on board, but under no circumstances may alcohol be taken ashore.

IDENTIFICATION CARDS: Supplied by the Agents and stamped by the Immigration police before any person comes ashore.

CONSULS: None.

REPAIRS: Very limited facilities.

REPATRIATION: This can be arranged only when absolutely necessary, but solely via Luanda.

AIRPORT: Small airport about 4 miles from the town served by the internal airline with only 1 flight per day to and from Luanda.

TIME: GMT plus 1 hour.

HOLIDAYS: 1st January, 4th February, 27th March, 1st May, 2nd November, 11th November, 10th December, 25th December.

No work is possible on any of these days.

POLICE/AMBULANCE/FIRE: Police Tel. 22456; Ambulance Tel. 22405; Fire Tel. Port Captain 22160/22159.

SERVICES: None available.

SHORE LEAVE: Shore leave for Crew members limited. Crew members who are not on board when the vessel leaves are detained and repatriated at the cost of the vessel. The vessel may also be fined.

DELAYS: Tankers are not normally delayed, but dry cargo vessels may be delayed if two or more vessels arrive simultaneously, due to a lack of sufficient barges. Also, delay in loading and unloading may be caused by rough seas.

AUTHORITY: Inspector of Operations for Northern Ports, Cabinda.

LOBITO: 12.20 S. 13.34 E.

DOCUMENTS: Required on arrival:
Health Certificate.
2 Vaccination Certificates (smallpox, cholera and yellow fever).
8 Crew Lists.
11 Passenger Lists (each for Landing and Transit).
4 Lists showing Ports of Call.
2 Lists of Articles held by Crew: cameras, binoculars, radio, spirits, cigarettes, etc.
3 Ship's Stores Lists.
6 Dangerous Cargo Lists.
8 Unfreighted Cargo Manifests.
1 Freighted Manifest.
3 Non-negotiable copies Bills of Lading.
3 Cargo Plans (preferably before ship's arrival).
Other necessary official forms prepared by Agent.

PILOTAGE: When Pilot required outside Harbour Entrance, vessel must request via Agent at least 12 hours before arrival. Otherwise Pilot boards inside Lobito Bay before vessel berths. Pilot boat: grey hull, white housing. Max. speed entering Bay – 8 knots.

ANCHORAGE: Lobito Bay excellent holding ground, depths over 33 ft. and easily accessible day and night the year round.

RESTRICTIONS: No restrictions, vessels may enter harbour day and night. Vessels not normally visited by Port Authorities between approximately 1900 hrs. to 0700 hrs.

MAX. SIZE: Length 900 ft., draft 34 ft., max. depth 35–37 ft. (normal tidal range: 3 ft. 3 in., maximum: 6 ft.).

WEATHER: March/May rain season. Heavy wind and rain can effect cargo work.

HEALTH: Pratique never given by radio, but granted after Port Authorities (including Doctor) board vessel between 0700–1900 hrs. Pratique granted if no contagious illnesses aboard, otherwise quarantine restrictions imposed. Ships calling from other Angolan Ports – except coasters – subject same procedure.

RADIO: Because Lobito Radio (call sign CQZ) operating MW range 200/400 miles only, all ETA messages, etc., must be routed via Luanda Radio (call sign CQW). Agent uses same routeing.

TUGS: Tug (usually one only) joins vessel whilst berthing and sailing. Ships' lines used.

BERTHING: Unless Masters indicate preference, Port decides which side alongside. No vessels usually allowed berth after sunset. Sailing after dark allowed at Port Authorities' discretion, up to 2400 hrs. No vessel permitted berth without Pilot. Before berthing, vessel must effectively cover water outlets, prepare accommodation ladder and have anchors "at the ready". (Authority fine any vessel ejecting water or waste on to Quays.) Ships carrying explosives not permitted berth before Port Captain inspects cargo.

Passenger and Fruit vessels are given priority regarding berthing.

STEVEDORES: Important vessel gives accurate ETA at least 24 hours in advance to enable Agent order necessary gangs. (Gangs ordered 0700 and 1500 hrs.) No work usually allowed Sundays.

MEDICAL: Radio before arrival if medical assistance necessary on entry. Good hospital facilities available, but specialised treatment and surgery is not. Yellow Fever, Cholera and Smallpox Vaccinations Certificates inspected on arrival.

TANKERS: No oil to be pumped overboard into Territorial waters. Heavy fines imposed for oil pollution, however slight. Three 8 in. diameter pipe-lines discharging into local storage tanks. No slop tanks available. Two Tanker Berths, Nos. 5 and 8, maximum drafts 30 ft. and 35 ft. respectively.

DENSITY: 1024.

FRESH WATER: Normal requirements readily available and delivered by 3 in hose. Loading rate very slow as pressure usually low.

FUEL: Fuel Oil (Ordinary) available, viscosity up to 1500 sec. Redwood. 24 hours' notice bunker requirements essential. Gas oil available. No Diesel.

GANGWAY/DECK WATCHMEN: Compulsory, both day and night.

OPENING/CLOSING HATCHES: When closed or opened by Stevedores, cost per time per hatch. (Crew allowed to carry out this operation.)

SHIPS' CERTIFICATES: Registered Tonnage Certificate, Deratisation Certificate to be shown.

CUSTOMS ALLOWANCES: No restrictions. Custom's Guard supervises opening and resealing of bond.

CARGO GEAR: Normal routine gear: wire and rope slings, nets, chain-slings, baskets, grabs, and shore-cranes (capacity 3–10 tons) available. Heavy lifts of over 10 tons must be discharged using ship's derricks. Two cranes 10 tons available, but not always accessible. 100 ton floating crane sometimes available.

CREW IDENTIFICATION CARDS: On arrival, all crews' and passengers' passports must be handed to Immigration Police, who retain these and issue shore-passes. Passes must be carried at all times when on shore. If lost, a fine is imposed.

CONSULS: At Lobito, Norwegian and Belgian Consulates and French Consular Agency. At Benguela – 30 km. from Lobito – Italian Vice-Consulate.

REPAIRS: Small, slipway accommodating vessels up to 800 tons available. Limited engine and hull repairs: electric, oxy-acetylene welding, riveting, cleaning, repairs to auxiliary diesel and electric equipment and boilers. Floating dock for vessels up to 2,000 tons displacement.

REPATRIATION: Air communication via Luanda.

AIRPORT: About 4 kilometres from Port. Airstrip unable to take heavy aircraft.

TIME: GMT plus one hour.

HOLIDAYS: 1st January; March/April Easter; May/June (Corpus Christi); 15th August (Ascension Day); 2nd September (City Day); 5th October; 1st November (All Saints Day); 8th December; 24th December; 25th December.

GENERAL: Ships should not: Dispose of any wastes into harbour or on to quays. Change mooring lines or lower lifeboats or immobilise main engine or use ship's sirens or radio station without prior permission from Authorities. Vessels must: use watchmen 24 hours per day on adequately illuminated gangway.

SHORE-LEAVE: Nationals from countries having friendly diplomatic relations with Angola usually granted shore-leave, See "I.D. Cards". Shore leave during certain hours only.

DELAYS: Congestion not unusual and berthing delays may vary from one to three days. Ships calling for bunkers have no priority but are sometimes berthed at sunset and fuel during night-shift. Discharging of bulk cargoes can be effected by shortage of suitable wagons.

SHIPMASTER'S REPORT: June, 1979

VHF: Port Authority not equipped with VHF. Agent (AGENANG) is equipped

Currency: The currency is Kwinzas (Kz)

Shore Leave: Immigration allow shore leave between 1800 hrs and 2200 hrs. The Master however, is allowed to visit agents or carry out official duties outside these hours.

SHIPMASTER'S REPORT: June 1979

Documents: Papers required for clearance:

If these are prepared before arrival Agent will pass to Persons concerned. i.e. Port Health, Customs & Immigration.

1 International Declaration of Health.
(Lobito have no forms, best to use some other Port form that can be altered).
1 List of Crews Vaccinations and date they expire.
10 Crew Lists.
10 Passenger Lists or nil passengers.
4 Arms & Ammunition Lists or nil if none.
2 Livestock Lists.
6 Ports of Call Lists.
Stores Lists. (Provisions, Deck & Engine) 2 lists.
Crew Custom Effects List (Own form or free form) 2 sets.
Narcotic Lists 2 sets or nil Lists.
Small Package Lists to be landed or nil statement 2 copies.
Manifests & Bills of Lading – 3 sets.

Observations:

The Main Lighthouse Light on the end of the Spit, and the 4 Channel Buoys are still lit. But on reduced candle power. Vessel is still required to enter the Bay and anchor without Pilot. Pilot only used when berthing. Caution is required at night as the buoys are difficult to pick up. Both by day and night it is better to only proceed about 1.5 miles into the Bay, as many trawlers are always anchored at the head of the Bay. The Berths consist of a right angled quay, with space for 4/5 ocean-going ships. (Depending on length.) The loading berth for ore cannot be used for general cargo, and as the loader is at present inoperative it is not used for loading ore.

Shore leave is allowed but only from 1800 hrs. to 2200 hrs. daily.

No cargo worked on Sundays.

Pilot will unberth vessels up to 2400 hrs.

The only VHF is located in the Agents office, it is manned during office hours. Calling Channel 16 thence Channel 11.

Two Tugs are now used for berthing.

Lobito Radio Station is not manned, all traffic sent through Luanda.

Continuous soundings give at least 26 m. from the entrance to the anchorage.

Discharging is very slow, averaging 4 tons per gang man hour.

Vessels swing at anchor twice daily to weak tide, rise about 1 m.

Pilot comes out to anchorage in launch using accommodation ladder for boarding, tug is used for swinging vessels if necessary, as Bay is narrow.

No provisions are available.

NOTICES: Supplied to Master by Agent.

For your information, the following Regulations are in force at Lobito. Failure to comply with these instructions will result in fines being imposed on the vessel under your command.

Over and above the Regulations listed hereunder, all international Regulations governing a ship's stay in port are also applicable.

1. It is essential that an Angolan Flag be flown during the time the vessel is in Port.
2. Maximum speed for vessels entering or leaving the harbour is set at 8 knots.
3. All sound signals are prohibited excepting regulation signals whilst manoeuvring or in cases of distress.
4. No boat may be lowered until permission for so doing has been received from the competent Authorities (Customs and Port Captain). Any boat thus lowered is allowed to make contact with land at one point only, i.e., the landing steps situated at the junction of the 2 quay walls.
5. No member of the crew may go ashore without a pass signed by the Master and visaed by the Immigration Police. If a member of the crew is found to be ashore without a pass, the ship will be fined £1,315.00 in every instance. All shore passes must be returned to the Immigration Police before vessel's departure.
6. Vessels are not allowed to make any communications by wireless during their stay in Port.
7. Water from ship's condenser outlets or other exhausts may not be ejected onto the quay. A Fine of £1,000 will be applied if this instruction is not complied with.
8. All lavatories on the side adjacent to the quay wall must remain locked and not used during the time the vessel remains alongside.
9. No vessel is permitted to take salt water ballast whilst alongside the wharf.
10. No vessel is permitted to test engines whilst alongside the wharf.
11. No games whatsoever are allowed in the Port area; if members of the crew disrespect this regulation, heavy fines are applied to the vessel.
12. No garbage, oily or petroleum substances, should be thrown in the Bay either at anchorage or alongside otherwise a fine will be imposed on the vessel by the Port Captain, Fine which ranges from £250.00 to £1,250.00
13. The engines may not be put out of use without the authorisation of the Port Captain.
14. No repairs whatsoever may be done on board without the Port Captain's authorisation.
15. The following procedure is to be adopted whenever cargo or vessel suffer damage by Stevedores or Port staff:
    (a) Master or Chief Officer should request the Port Officer in charge of commercial operations to examine the damage.
    (b) The Chief Tally Clerk of our Company should also be present when examination is carried out.
    (c) Written notice must be delivered to the Port Officer and a copy sent to the Agent at the same time.

Kindly take note of the foregoing Regulations and return 1 copy to us duly signed.

Thank you, Agence Maritime Internationale S.A.

AUTHORITY: Port Manager, Port of Lobito.

LUANDA: 08.48 S. 13.14 E.

PORT LIMITS: A vessel to be considered an "arrived ship" should be anchored in the bay past a line drawn between the Ilha Light and across the bay to Fort S. Pedro.

DOCUMENTS:

6 Luanda Cargo Manifests (1 freighted).
3 Luanda Bills of Lading.
8 Transit Cargo Manifests.
5 Transit Bills of Lading.
6 Crew Lists.
1 Crew List with full Christian names, giving dates of smallpox and yellow fever inoculations,
7 Ports of Call List.
7 Passenger Lists, including landing and intransit passengers, or "No passengers" declaration.
2 Provisions and Stores Lists.
1 Crew Personal Effects Manifest.
1 Health Declaration.

All ship's certificates to be sighted by Authorities.

PILOTAGE: 72 hours notice of arrival, addressed Agents via Luanda Radio, plus message of arrival at least 6 hours prior arrival received during working hours (0700–1700 hrs.). No VHF available. Pilot launch comes out from port. Anchorage for Pilot in Luanda Bay. No draft restriction at anchorage. Pilot not required for anchoring in bay. For berthing, no pilotage available between midnight–0700 hrs. Pilotage compulsory. No special berthing Pilot. Pilot launch white – flying Pilot Flag (H).

ANCHORAGES: Luanda Bay offers safe, sheltered anchorage at all times of the year. Good holding ground – sand/mud. No draft restrictions.

MAX. SIZE: Length, 1,000 ft. (alongside); breadth, no restriction; draft, 34 ft. (alongside). Tankers, up to 55 ft. draft at the refinery buoys.

WEATHER: March/May rain season. Heavy wind and rain can affect cargo work.

HEALTH: Pratique may be granted by radio through Radio Luanda, addressed Port Health or via Agents. Accommodation ladder must be rigged for doctor on arrival. Pratique must be granted at each Angolan port. Pratique is *not* automatic. If infectious disease on board inform Port Health/Agents by cable.

RADIO: Addressed "Luandaradio" for ETA, draft and requirements. Call sign CQW on 500 kc/s, listening on "odd" hours only throughout 24 hours. Listening between 0600–1800 hrs. Call sign CQW3 on 13.023 kc/s on "even" hours only. Listening between 1800–0600 hrs. Call sign CQW on 8.565 kc/s on "even" hours only.

TUGS: Two available and compulsory for berthing and unberthing. Tugs join vessel off berths. Ship lines used (if tug lines requested – extra charges).

BERTHING: Ships taken in strict rotation of arrival for berthing, except that passenger vessels have priority. There are 7 berths for import and export cargoes, all berths are available for oil bunkering.

The quays are divided into 5 zones with depths alongside of 32 ft. maximum.

Zone I. 1,380 ft. of which 900 ft. of quay length suitable for ocean going vessels.
Zone II. 480 ft. quay length.
Zone III. 900 ft. quay length.
Zone IV. 540 ft. quay length.
Zone V. 574 ft. quay length.

Shoreside cranes of 3 tons and 5 tons, furthermore 2 cranes of 10 tons lifting capacity and also 1 mobile crane of 20 ton capacity for lifting heavy pieces only.

A self-propelled floating crane, capable of lifting 100 tons, was recently commissioned – maximum and minimum reach of 46 ft. 6 in. and 9 ft. respectively, lifting to about 78 ft. approximately.

BULK HANDLING: Ores in bulk are usually loaded at Zone III; no mechanical loading installation.

The ore is shovelled from railway trucks into buckets; daily loading average 4,000 tons per 24 hrs.

Grain vessels will also be moored at Zone III alongside the grain shed. Discharging by means of tubes which are lowered into the holds and suck the grain out by an electrically propelled spiral fitted in the tube.

The rate of discharging is about 100 t.p.h. and the grain is loaded into railway waggons, each of 30 ton capacity, via the adjacent warehouse.

STEVEDORES: Gangs arranged by Agent/Shipmaster. Normal port working hours 0700–1200 hrs., 1400–1730 hrs. (overtime 1730–2330 hrs.), Saturday 0700–1230 hrs. Sunday/holidays – no work.

MEDICAL: For serious cases, as much advanced notice as possible should be given with all details available. Minor cases can be treated on arrival within half an hour without previous notice. Apart from Government Hospital, there are a number of private nursing homes with good facilities. Smallpox inoculations are essential. Yellow Fever inoculations recommended.

TANKERS: Two tanker terminals No. 2 Quay and off-shore terminal. Lines No. 2 Quay 10 in. diameter, available for loading/discharging fuel oils, gas oil, gasoline and aviation spirit, but *not* crude oil. Off-shore terminal utilised principally for loading fuel oil and gas oil, as well as loading or discharging crude oil. Three lines, viz. 12 and 18 in. – fuel oil and crude oil, 8 in. for gas oil. No slop discharge facilities. Drafts – No. 2 Quay 34 ft. Off-shore terminal two sets mooring buoys, one for tankers with max. length 230 m. and max. draft 55 ft. and the other for tankers not exceeding 100 m. with draft 40 ft.

DENSITY: About 1024.

FRESH WATER: Fresh water available through quay pipe-lines, each hose delivering about 30 t.p.h.

FUEL: Limited number of grades can be obtained subject to nomination well in advance. No barges available.

FIRE PRECAUTIONS: For tankers loading/discharging alongside No. 2 Quay – no vehicles allowed within vicinity and other vessels cannot berth within 40 m. of tanker's stern or bow.

DEVELOPMENTS: Plans for reclamation and new berths round to the Forte da S. Pedro da Barra.

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Can be carried out by crew or stevedores at vessel's option.

SHIP CERTIFICATES: Tonnage and Deratisation Certificates.

CUSTOMS ALLOWANCE: No restrictions, but sales ashore a serious offence.

CARGO GEAR: No additional requirements provided valid test certificates aboard.

CREW IDENTIFICATION CARDS: Provided by Agents for crew proceeding ashore.

CONSULS:

Belgium
France
Great Britain
Italy
South Africa
U.S.A.
Austria
Brazil
Denmark
West Germany
Netherlands
Norway
Sweden
Switzerland
Spain

REPAIRS: Minor repairs and hull repairs above the water-line can be carried out.

DRY DOCKS: None.

REPATRIATION: Repatriation will not present any difficulties.

AIRPORT: Distance from port 4.5 miles.

TIME: GMT plus 1 hour all year.

HOLIDAYS: Saints Day (1st January), Saints Day (15th August), Saints Day (1st November), Saints Day (8th December), Christmas Day (25th December). No cargo work on these holidays.

POLICE/AMBULANCE/FIRE: Police 7408; Ambulance 25275; Fire 22222.

TELEPHONES: Can be placed on board.

GENERAL: Ample water in bay for anchoring, and most vessels enter port without Pilot. Pilotage is compulsory for berthing/unberthing on quays, this service being available from 0700 hrs. to midnight. If Master elects to wait for Pilot outside port and another vessel proceeds direct to anchorage, the latter will be first on turn for berth.

SERVICES: Tank cleaning possible but advance notice required. Radio, radar repairs possible, but spares rarely available.

SHORE LEAVE: Crew members allowed shore leave subject Immigration approval provided inoculation certificates are valid.

REGULATIONS: Mailboats have berthing priority over all other vessels, foreign *passenger* vessels next in precedence.

DELAYS: Congestion rarely exceeds 36 hours.

AUTHORITY: Servicos de Portos, Caminhos de Ferro, e Transportes.

MOCAMEDES (incl. Porto Saco):

15.11 S. 12.07 E. **(See Plan Book)**

DOCUMENTS:

Health Certificate.
2 Vaccination Lists (smallpox and yellow fever).
8 Crew Lists.
11 Passenger Lists (for each landing and transit).
4 Lists showing ports of call.
2 Lists of Articles held by crew/passengers, i.e. cameras, binoculars, radios, tobacco, etc.
3 Ships' Stores Lists.
6 Dangerous Cargo Lists, i.e. all types of explosives.

All foregoing to be signed by Master. Other essential official forms prepared by Agent.

PILOTAGE: Pilot boards in Bay – safe, natural bay with no reefs and easily accessible both day and night. Vessel *must* wait for Pilot and instructions before berthing.

ANCHORAGE: No currents in harbour area, but slight prevailing winds constant. Good holding ground with depths over 34 ft. Approaches up to 45 ft. depth. Tidal range about 5 ft.

RESTRICTIONS: No restrictions; vessels may enter harbour day and night. Authorities visit between 0700 and 1900 hrs. (approx.) only. Vessels may sail at any time.

MAX. SIZE: *Mocamedes* – Governed by berth depth 33 ft. alongside.

Porto Saco – Vessels up to 14 m. draft. Largest bulk carriers handled.

HEALTH: Pratique granted on arrival after "Health Guard" visit: boarding 0700-1900 hrs. Normal quarantine restrictions imposed if contagious diseases aboard. Ships calling from other Angolan ports (except coasters) are subject same procedure.

RADIO: Messages *must* be routed via Luanda Radio (call sign CQW). No ship/shore radio link.

TUGS: Two available of 2,200 h.p., fitted with VHF. Join vessel for berthing. Ship's lines used. Vessel under 5,000 tons use 1 tug only.

CARGO FACILITIES: *Mocamedes* – The accommodation consists of 1 concrete quay, length 1,350 ft. providing 3 berths. For the handling of general cargo, there are 4 cranes of 5 tons and 2 cranes of 3 tons, modern cargo handling devices. Also lightening possible. One 10-ton floating crane available, subject ample notice from Lobito. Dangerous cargo is discharged alongside or into lighters, at the Port Captain's discretion.

Porto Saco (Saco Bay) – Ore is loaded at the pier in Porto Saco; length is 1,066 ft., width 59 ft. Depth alongside 54 ft. 6 in. at low tide, normal sea water, clear height from water level at ISHW up to unloader 73 ft. 10 in. One mechanical loader of conveyor belt type; capacity often exceeds 3,500 metric t.p.h. Reach 65 ft. 6 in. approx. from fenders. Connections for supply of bunkers and water.

BERTHING: Unless Masters indicate preference, port decides berthing-side. No vessels berthed after sunset (except passenger ships), but sailing during nightshift permitted so long as prior warning given before 1700 hrs. No vessel allowed berth without Pilot. Before berthing, important that vessel covers all water outlets, prepares accommodation ladder and has forward anchors ready. Ships carrying explosives not permitted berth before Port Captain surveys cargo.

STEVEDORES: Radio accurate ETA 24 hours in advance to enable Agent order required gangs. (Gangs ordered 0700 and 1500 hrs.) No Sunday work permitted for cargo vessels.

MEDICAL: If medical assistance required on arrival radio to Agent. Adequate hospital facilities available, but no specialised treatment or surgery. Yellow fever/smallpox certificates inspected on arrival.

TANKERS: No oil or waste products to be pumped overboard. Heavy fines imposed for breach of this regulation. Tankers discharge at Porto Saco – about 10 km. North of general cargo berths, situated Northern end of Mocamedes Bay. Maximum draft 54 ft., length of quay 1,066 ft. No dirty ballast facilities.

DENSITY: 1024.

FUEL: Available from dockside pipe-line. At Porto Saco, rate 200 t.p.h. Bunkers may be taken during loading operations without delay.

FRESH WATER: Available ex-wharf, rate 15 t.p.h.

FIRE PRECAUTIONS: No special precautions except ships carrying explosives. Fire Brigade standby charge.

DEVELOPMENTS: Porto Saco (Iron-ore/Tanker berth) anticipated augment present ore-loading equipment to enable load ore-carriers up to 10,000 t.p.h. Dredging to projected depth of 65 ft.
GANGWAY/DECK WATCHMEN: Compulsory, day and night.
OPENING/CLOSING HATCHES: When performed by stevedores, costs per hatch per time, but crew allowed to perform this task.
SHIPS' CERTIFICATES: Registered Tonnage Certificate, Derat. Certificate, examined by authorities on arrival.
CUSTOMS ALLOWANCE: No restrictions. Customs' guard supervises opening and resealing of ships' bonded lockers.
CREW IDENTIFICATION CARDS: All crew/passenger passports handed Immigration Police who issue shore passes. Passes must be carried when on shore.
CONSULS: None.
REPAIRS: Only very minor voyage repairs.
DRY DOCKS: None.
REPATRIATION: Air communication via Lobito and Luanda.
AIRPORT: Small airstrip unable to take heavy aircraft.
TIME: GMT plus 1 hour.
HOLIDAYS: See "Lobito".
GENERAL: Ships must not dispose of wastes into harbour or on to quays, change mooring lines, lower lifeboats, immobilise main engine, use ship's siren, or ship's radio station without prior permission from authorities. Vessels must use watchmen for 24 hours per day on well-illuminated gangways and hoist Angola flag from 0800 to sunset.
SERVICES: None available.
SHORE-LEAVE: All nationalities from countries having friendly diplomatic relations with permitted shore leave. See "I.D. Cards".
DELAYS: Berthing delays are unusual.

QUINFUQUENA: 06.20 S. 12.14 E. (See Plan Book)

SHIPMASTER'S REPORT: May 1980.

LOCATION: The Quinfuquena Oil Terminal is located in position 06° 19.7′ S., 12° 14.7′ E.
DOCUMENTS:

5 Lists of passengers disembarking or in transit, even if nil.
5 Crew Lists.
5 Lists giving previous Ports of Call.
5 Lists of Crew Vaccinations.
5 Stores Lists.
5 Personal Effects Lists.
5 No Animal Lists, even if nil.
5 Arms and ammunition Lists, even if nil.

PILOTAGE: Pilot/Loading Master boards the ship in position about 2 nautical miles West of the Terminal. He remains onboard during the whole loading operation.

The Pilot/Loading Master can be contacted on VHF Channel 11.

They are all experienced British ex-Masters.

APPROACHES: It is essential to be in possession of BA Chart 3206.

Good radar targets, visible on 24 mile range are:
Moanda Oil Terminal in position 05° 37.5′ S., 12° 10′ E.
A boring platform in position 06° 13.5′ S., 12° 10′ E.

The Quinfuquena Oil Terminal, when a ship is alongside, otherwise poor echo. During the night a flare in position 05° 58′ S., 12° 25′ E. is seen at a distance of about 30 nautical miles.

The Sazaire Aero Beacon was of assistance when passing the 100 fathom line.

Other Aero Beacons were out of order as well as the lights of Pta. da Moita Seca and Cabeca da Cobra.

ANCHORAGE: Tankers required to anchor upon arrival, should anchor 2 nautical miles off the Terminal. Other vessels should anchor as instructed by the Terminal.
RESTRICTIONS: Mooring carried out day and night.
MAX. SIZE: No limit but safe loading draft 14 m. Max. d.w.t. 150,000 tons.
HEALTH: Upon arrival, 3 Government Officials and Agent board the vessel. The party comes by boat from the village called Santo Antonio do Zaire, now called Soyo, which is situated about 10 nautical miles from the Terminal. The Agent is a local clerk, and speaks English. He boards the vessel on arrival and few hours before departure.
VHF: See "Pilotage".
TUGS: One tug, 1,450 h.p. available, also see "Current".
BERTHING: The new Oil Terminal, built for Petrangol Oil Company, has been in operation since December 1979 and is situated 7.5 nautical miles offshore. It is a French constructed tower "Ready made Dolphin".
LOADING: The loading rate is approx. 7,600 cu.m. per 24 hours. Soyo crude oil approx. API 33.7. The temperature varies with the seasons. At the end of May, the loading temperature was 78° F.

The loading operation is interrupted on arrival of the Danish tanker "Ulfsborg" 70,000 d.w.t., trading between the Terminal and Luanda. Each time she arrives (every 7–8 days), the export tanker at the Terminal will have to discontinue her loading and move to an appointed anchorage for about 8 to 10 days.

During the whole loading operation, a crew member is stationed on the forecastle and one by the manifold.

MOORING: When the tanker arrives at the Terminal, the Master should follow the recommendations of "International Safety Guide for Oil Tankers and Terminals" OCIMF 1978 and the Quinfuquena Terminal orders. The Master should stop the tanker about 2 miles West of the tower Terminal, or as instructed by the Pilot, where a Mooring Master should embark.

Description:

R.M.D. Terminal: Mooring line: First at tower end, a shackle, 3 links, with a safety link, breaking strain 200 tons, and triangular plate. Next, 2 hawsers, 12 in. circumference × 70 m. long, breaking strain 200 tons, nylon braidline with lace on floats. Then, chafe chains, triangular plates, available for small vessels and large vessels, and for chain stoppers or snotter ropes. Finally, floating chain buoys, messenger lines and pick up buoys.

Flexible hose: The crude oil is transferred from the tower through a swivel joint, a flexible floating hose of 16 in. diameter and 286 m. long, except the 4 end hoses which are 12 in. in diameter, tanker end is closed by a butterfly valve, and a camlock device and blind flange. The hose is connected to the port side manifold using the tanker's derrick.

Tanker: The tanker should be fitted with standard equipment on bow mooring bitts or chain stopper also manifold situated amidships.

Procedure:

Mooring: Before the Pilot/Mooring Master boards the tanker he visits the tower terminal and checks mooring lines and floating hose. Whilst on the tower he estimates the wind, current and sea direction and decides the best way for the tanker to approach the Terminal. After which the Mooring Master boards the tanker and the work boat returns to the tower terminal and picks up the end of the floating hose and tows it aside.

When the tanker is approximately 400 ft. from the tower a launch connects messenger lines to the tanker's heaving lines. The messenger lines are then pulled on board and the tanker slowly approaches to within 60 m. of the tower at which time the chafing chain will be taken aboard and two mooring lines secured by means of chain stoppers or snotter lines. Finally the mooring lines are slightly tightened.

When the mooring operation is complete the work boat brings the floating hose alongside to the port side manifold and the crude oil hose is connected, and anti-chafing rail hose support is installed.

Unmooring: After completion of loading the terminal personnel and the tanker's crew drain the loading hose using the tanker's vacuum valve after which the 12 in. rail hose is disconnected and a blind flange placed on the hose. The work boat then tows the floating hose clear of the vessel.

When the hoses are disconnected the mooring lines are slackened and the snotter ropes or chain stoppers disconnected, the messenger line is then connected to the chafing chain and the lines are lowered to the water.

When the tanker is clear of the area the work boat manoeuvres the floating hose line to a "down wind" position and the launch secures the mooring line to the floating hose.

STORES: There are 2 supply vessels sailing between Pointe Noire (Peoples' Republic of Congo) and the Terminal. They supply water and provisions to the Terminal and the Oil Company at Soyo. No guarantee can be given. Water and provisions are very expensive.

It is imperative that vessels bound for Quinfuquena Oil Terminal to load, have sufficient bunkers, water and provisions for at least 30 days from arrival

REPATRIATION: Repatriation is available if absolutely necessary but can only be arranged via Luanda with great difficulty.

The Oil Company and the Authorities are against any crew changes.

MAIL: Mail sent from Europe, usually takes 3 weeks.
CURRENT: The current runs in all directions but mainly influenced by the Benguela current from the S.S.W. direction.

A tug is therefore made fast on the poop deck through the centre lead to stop the loading tanker coming into contact with the tower.

The tug operation is directed by the Loading Master via VHF.

SAFETY:

Quinfuquenda Loading Terminal Safety Regulations Check List

(1) When moored to the Tower a sufficient number of crew members must be available at all times to carry out un-mooring, and to meet any unforeseeable emergency.
(2) The vessel must be able to move under its own power at all times. Repairs to engine and steering gear are therefore forbidden.
(3) To avoid damage to the floating hose and the Tower the Chief Engineer must be forbidden to move the propellor while moored.
(4) A responsible, qualified officer must physically follow loading and deballasting operations at all times.
(5) An inspection of the tank ullages and the cargo system must be effected during deballasting and loading operations.
(6) Unused cargo and bunker connections must be blanked.
(7) Stern discharge lines must be blanked.
(8) Sea chest and overboard discharge valves must be closed and lashed.
(9) Scuppers must be plugged and oil tight.
(10) All washing tank openings must be closed.
(11) All covers and lids of cargo and bunker tanks must be closed.
(12) Cargo tanks being loaded must be open to the atmosphere via the agreed venting system.
(13) When moored on the Tower, anchors must be secured by stoppers.
(14) Winches must be ready to work at all times.
(15) A suitable pilot ladder must be kept overboard in accordance with the Regulations of the Convention for Safety of Life at Sea.
(16) Drip pans and an adequate supply of sawdust must be readily available in the proximity of the manifold.
(17) Only approved safety materials (radios, flashlights, etc.) may be used.

OPERATOR: Cia de Petroleos de Angola (Petrangol), Luanda.

Argentina

Information for ports of Argentina, including drawings of port areas as reproduced in our plan section, have been compiled not only with the assistance of Port Authorities but also with the very kind co-operation of Centro de Navegacion Transatlantica of Buenos Aires to whom we are very much indebted.

Shipowners and Masters wishing to be in possession of more detailed information concerning River Plate ports, Argentina South Atlantic ports and the Strait of Magellan, are advised to obtain a copy of the "C.N.T. Year Book" which is published by Centro de Navegacion Transatlantica, 25 de Mayo 489, Buenos Aires.

N.B. For practical purposes, we have sub-divided information for Argentina into three sections as follows:

I. *GENERAL.*
II. *RIVER PLATE PORTS.*
III. *SOUTH ATLANTIC PORTS.*

I *GENERAL*

DOCUMENTS:

(a) According to Migrations Resolution No. 9153 of 13.7.72, effective 1.11.72, issued to comply with Latin American Free Trade Zone agreements tending to uniformity of shipping documents through Latin America, a new form has been introduced, and others modified.

Distribution of forms is now as follows:

	Sanitary Officials	*Customs*	*Immigration*	*Port Police (Prefecture)*	*Total*
Sailing permit from last port				1	1
Health Declaration	1				1
General Declaration†			1†		1
Negative cargo list (if no cargo for the port) alternatively Ballast certificate, alternatively cargo manifest for the port.		1		1	2
Manifest of cargo for transshipment		1		1	2
Store List					
Deck, Engineering & Refrigerating		2			2
Cabin Stores		2			2
Crew Personal Effects		2			2
Passenger List†	1	2	1	3/5	7‡
Passenger Baggage summary (manifest)		2			2
Crew List†	1		2	3/4	6§
Crew Identity cards†			1 each		various
Passenger E/D cards†			1 each		various

†required on both entering and sailing.
‡ 9 for passenger ship.
§ 7 for passenger ship.

(b) Masters should also have at hand for inspection as required all the various certificates such as Certificate of Registry, Postal packet permit, if pertinent, Freeboard, Measurement, Safety Equipment, Radio Installation, Bulk Cargo, shifting board installations or equivalent, and Deratisation Certificate, or exemption.

None of these documents requires an Argentine Consular visa.

(c) Port Agents should also receive copies for their use and to facilitate any further contacts with the authorities in case of need. In particular they require a large number of copies of Manifest, and from this they will prepare Spanish manifest, which must be presented to Customs within 48 hours of vessel's entry. A number of extra copies of crew list are also needed, and one extra store list.

(d) Every person figuring on the crew list of a vessel entering an Argentine port must possess documents proving his identity, such as a discharge book, passport or other documents in use in the country of origin, authorised by the competent Authorities.

(e) Vaccination Certificate. Members of crew must be provided with an international vaccination certificate, not more than 3 years old, which should be presented on arrival, together with the individual Identity Card. Failing this, the crew will be vaccinated by the boarding doctors.

(f) Identity Cards. On arrival at an Argentine port, Masters of foreign vessels must deliver Identity Cards complete with photographs and finger-prints of each member of the crew, together with two copies of Crew List. One set is retained by the Migrations Department, and the other document remains in possession of the individual so that once identified, the crew member may return to the country without the necessity of obtaining new documents. The Master is handed in exchange one copy of the Crew List, sealed and signed by the Immigration Officer to enable him to prove at other Argentine ports of call, that he has complied with the corresponding Regulation.

No member of the crew, except the Master, is allowed to land until the Immigration Auhorities have checked the crew with the Identity Cards.

Masters may if necessary have the Identity Cards completed with photographs in the Argentine at the first port of arrival. In such cases it is advisable that Agents are advised in advance so that preparations may be made against vessel's arrival. The Authorities will not allow any members of the crew to be disembarked until they have presented their Identity Cards or have had their photographs taken. Agents must present these Identity Cards to the authorities for stamping within 48 hours of arrival of the vessel. Immigration control is made at whatever hour the vessel arrives, forming part of the normal reception procedure.

(g) The stores lists should be completed with great care as a specially trained searchers' brigade has been visiting most ships as soon as free pratique is granted.

Particular care must be taken to declare all sizes and measures in the metric system. A plea of a regrettable mistake is not accepted and fines, if legally applicable, can be severe.

FREE PRATIQUE: Vessels take pratique in port, and may enter and berth if they fulfil the following conditions:

(a) Clean port of sailing and ports of call.

(b) No persons with infectious or contagious diseases or with fever on board.

(c) No cases during the voyage of disease of international concern, or of infectious diseases of an epidemic nature.

To be able to obtain this privilege of taking pratique in port, it is essential that Masters of all vessels arriving from abroad wireless their Agents, not more than twelve hours before arrival, that vessels under their command are in the sanitary conditions as required by Art. 45 of the regulations to enter port and go alongside.

On receipt of this message, Agents will present to the Health Authorities the request for a berth, accompanied by the telegram sent by the Master, not less than six hours (nor more than twelve) in advance, detailing sailing port and ports of call, and indicating the approximate hour of arrival. If the wireless message is in code, Agents will give the necessary translation, and be held responsible for any error in such translated version.

The message may be sent either in English or Spanish, and we give specimen texts in both languages, which should be closely followed:

> "Addressed to Agency in Buenos Aires (or other port)
> solicitamos pedir libre platica telegrafica buque . . . (1), procedente de . . . (2), con escalas en . . . (3), con . . . (4) . . . tripulantes, (5) . . . pasajeros Buenos Aires . . . (6), pasajeros transito punto. declaro no tener abordo persones afectadas por ninguna enfermedad pestilencial punto estado sanatario bueno
> "captain . . .(7)."

or in English:

> "please request free pratique ms (or ss) . . . (1), proceeding from . . . (2), with calls at . . . (3), with . . . (4) . . . crews, (5) . . . passengers for Buenos Aires . . . (6). passengers in transit stop hereby declare that nobody on board affected by any pestilential disease stop sanitary condition good.
> "master . . . (7)."

In each case the gaps must be filled in as follows:

1. Port of vessel and flag.
2. Port of commencement of voyage.
3. Full details of all ports of call.
4. Number of crew.
5. Number of passengers for Buenos Aires (or whatever port first entered).
6. Number of passengers in transit.
7. Full name of Master, and also of doctor if there is one on board.

As there have been cases of insufficient information being received from vessels, and "added in" by Agents in the translation, the authorities have established this standard form which Masters must follow in their messages, and which will accompany the request to the Health Authorities.

This facility now refers to all Argentine ports, the message requesting Free Pratique to be sent to the vessel's Agent at first port of call, after which Free Pratique is automatic in all subsequent Argentine ports. If, however, a non Argentine port is called at en route, Free Pratique must again be requested at what will then become the "first Argentine port".

Agents will confirm to the vessel, by radio, the date and hour of granting of free pratique, and with this information in hand, vessel can enter port and go alongside. The Port Authorities will board as soon as the gangway is placed for their routine inspection, and until they have boarded, no one else should be allowed on board.

Vessels which do not meet the sanitary requirements, or come from unclean ports, must fly the yellow flag on entering for the necessary inspection alongside.

River Ports. Vessels proceeding to river ports get pratique at destination.

Vessels lightening. Tankers and other ships lightening in River Plate waters, provided they comply with Art. 45, may later continue their voyage and go straight into berth at port of destination to take free pratique there.

Sick crew members. If there is a sick person aboard, the international sign "W" must be flown on entering, and for Free Pratique, the customary yellow flag.

Masters must report to the boarding sanitary authorities those members of the crew having venereal complaints.

Asian and African Ports. In accordance with WHO requests, all vessels proceeding from these ports will be subject to an inspection of all galleys and store rooms.

Infected ports. Apart from the smallpox vaccination certificate, which is obligatory in all cases, the recent Cholera epidemics have caused the Health Authorities to tighten control. All persons on board vessels coming from ports in the countries named below must be in possession of the Anti-Cholera inoculation certificate, and from other zones as indicated as International Yellow Fever vaccination certificate.

Cholera. The international certificate is valid from the sixth day of inoculation, and for six months. The countries at present under control are:

Africa: Algiers, Alto Volta, Cameroon, Chad, Dahomey, Ghana, Ivory Coast, Liberia, Mali, Niger, Nigeria, Senegal, Sierra Leone, Somalia, Togo.

Asia: Burma, India, Indonesia, Malaysia (West), Muscat, Nepal, Pakistan, Philippines, Vietnam.

Epidemics are not officially admitted in the Arab Republic of Egypt and Sudan, but the certificate is advisable as a precautionary measure.

Other zones may be affected at short notice.

Yellow Fever. The vaccination certificate is valid for ten years, as from the tenth day of inoculation. It is required for all persons coming from:

Africa: Angola, Ghana, Kinshasa, Nigeria, Sierra Leone, Sudan.

South America: Brazil (territories of Roraima and Boa Vista), Colombia (Bolivar, Simiti, Boyaco and Paz de Ariporo).

Inflammables. It should be borne in mind that vessels carrying over 25 tons and under 100 tons of inflammables, explosives, etc., must be inspected in the roads before entering whether they have asked for Free

Pratique by radio or not, although this is still advisable as the one inspection is independent from the other.

CLASSIFICATION OF ARGENTINE PORTS: In accordance with Article 31 of the Pan American Sanitary Code, the National Health Department has classified the Argentine ports as follows:

Clean Ports Class A—Buenos Aires, Rosario, Santa Fe, La Plata and Bahia Blanca.

Clean Ports Class B—San Nicolas, San Lorenzo, San Martin, Villa Constitucion and Concepcion del Uruguay.

Clean ports under the vigilance of the Health Department—Mar del Plata, Necochea and Diamante.

A clean port, in general, requires the absence of non-imported cases of cholera, yellow fever, pest, exanthematic typhus or any other contagious disease of a serious epidemic nature, that may be carried through international trade. The clean ports of Class A have competent staff and suitable sanitary equipment, also bacteriological laboratories, registers of disease and deaths, lazarettos, etc.

The clean ports of Class B are those that have not got all the equipment required for Class A.

FLAG: The flag of the Republic is three horizontal and equal bands of which the centre one is white, and the upper and lower, sky blue.

The official colours, flown by Naval vessels and all official entities are distinguished by a rising golden sun in the centre of the white.

All foreign merchant vessels must fly the Argentine flag from the highest mast while in territorial waters and ports, and fly their own national colours from the ensign staff.

PILOTAGE: A. *Ordering:* For Recalada Station, minimum 48 hours in advance, for all other services Agents of the vessels to be piloted must apply, in writing, to the Pilotage section of the Prefectura at their domicile before 1700 hrs. on the day before the service is to be effected, or on Sundays/holidays, before 1100 hrs. Pilots are obliged to render service in strict turn, in accordance with the register in the zone.

Applications for Pilots presented outside the hours established will be accepted but they will be classed under the headings of "Extraordinary" or "Urgent" applications. Pilots should always be ordered by the Agency; only in exceptional cases may a Pilot be requested direct by a Master, when by reasons of force majeure, or change of destination arrival is unforeseen. Vessels which are unaware of their Agents name may also request a Pilot direct. In such cases the request should be made direct, by radio, to the Prefectura with full explanations of the circumstances.

B. *River Plate Zone:* There are three Pilot stations in this Zone, namely; Port of Buenos Aires, Intersection and Recalada Pontoons.

(i) Inwards from sea. Inward vessels for up river ports Buenos Aires or La Plata have to take a Pilot at Recalada, and must give 48 hours advance notice of arrival, both to Agents in Buenos Aires and direct to Recalada, call sign LSR 500 kc/s. (600 m.) Type A1, A2.

The operator is on duty from 8 to 10, 12 to 14, 16 to 18 and 20 to 2200 hrs. Communications can also be made on 462 kc/s. (649 m.).

The second Pilot station is at Intersection Pontoon km 37 measured out of Buenos Aires.

The Recalada Pilot takes all vessels to Intersection only, where another Pilot comes aboard, as follows:

if bound for Buenos Aires, a port Pilot.

if bound for La Plata, a river Pilot to La Plata Roads where a La Plata Port Pilot takes over.

if bound for upriver, a river Pilot.

(ii) Outwards to Montevideo. Vessels sailing from Argentine Plate ports to Montevideo must take an Argentine Pilot up to Montevideo Roads, not drop him at Recalada.

(iii) Inwards from Montevideo. Vessels arriving from Montevideo come in charge of a Uruguayan Pilot to Intersection, where the second Pilot takes over as above: Uruguayan Pilots, when in Argentine waters are subject to all Argentine laws and regulations.

(iv) Outwards to sea. Outward bound vessels (except for Montevideo) are obliged to disembark their Pilots at Recalada, except when prevented by weather, in which case the Pilot must land at first available port and his travelling expenses back to Buenos Aires are for vessel's account.

C. *River Parana Zone:* Comprises the River Parana from the port of Parana (km. 600 from Buenos Aires) down to its mouth, and that part of the River Plate limited to the East by its left bank to Punta Negra (Uruguay), thence to Intersection Pontoon, to the South by the North bank of the access channel to Buenos Aires Port, to the West the right bank of the River Plate from the entrance to Buenos Aires port to kilometre 0 of the River Uruguay.

On the River Parana, on distances exceeding 200 km. two special Pilots must be ordered, and therefore there will be four Pilots on board (two special and the two on turn), and the vessel has to pay for each of them, i.e. four times the tariff.

For distances of less than 200 km., the same ruling applies when continuous navigation is requested, which necessitates the employment of two Pilots on turn. However, when only one Pilot is asked for, only one special Pilot is nominated, if specially asked for, and consequently the tariff is double.

(i) Northbound. Pilots for navigation through this zone go on board, north-bound, at Intersection Pontoon, whatever the destination. If for Uruguayan ports in the River Uruguay, the Uruguayan port Pilot comes on board off Parana Bravo.

(ii) From river Uruguay. Vessels from River Uruguayan Ports, either Argentine or Uruguayan, change their River Uruguay Pilot for River Parana Pilot at the mouth of the Parana Bravo. However, if proceeding from a Uruguayan port, it is preferable to send the Parana Pilot to the Uruguayan port, and drop the Uruguayan Pilot off Nueva Palmyra. In certain cases the Argentine Parana Pilot can also come aboard at Nueva Palmyra.

(iii) Inside Parana River. There are two stations for despatching Pilots in the River Parana Zone; one at Buenos Aires and the other at Rosario. From the port of Buenos Aires Pilots will be cleared to take vessels to the Northern limits of the Zone, as also for vessels anchored at ports or places South of San Pedro, for any destination.

From the Rosario station, Pilots will be despatched to vessels anchored within the port of San Pedro, and all places to the North of the port, whatever their destination.

At some of the smaller ports in this zone the Prefecture will, to avoid delay to the vessel, authorise the River Pilot to berth the vessel. This request must be made when ordering the Pilot, but Agents at the river port must also apply for a Pilot, and see that he is employed if available.

Draft is ruled by the depth of water at Martin Garcia Bar, which is at present 24 ft. 6 in. at zero. This varies, and from time to time the Prefecture has authorized clearance of vessels up to 27 ft. Occasionally it happens, in spring, that there is less water in the river above Martin Garcia, but the Weekly Bulletin issued by the authorities covers this and all determining depths on the river routes.

(iv) To Montevideo. Vessels proceeding down river to Montevideo, take a Pilot at Intersection to Montevideo Roads, where a port Pilot boards.

(v) To La Plata. Vessels from up river ports for La Plata drop their river Pilot at Intersection, take another river Pilot to La Plata Roads (optional) and then a port Pilot there.

D. *River Uruguay Zone:* Comprises the River Uruguay from Concepcion de Uruguay, km. 188 to its mouth, and that part of the River Plate mentioned under the Parana River Zone. All Pilots for this Zone will be despatched through the Buenos Aires station.

E. *Bahia Blanca Zone:* Comprises the Bay from a line joining the buoys at Punta Tejada and Punta Lobos, up to the ports. There is no pilot vessel on station. The ordering of Pilots for the Bahia Blanca Zone is effected by the Overseas and Coasting office at that port. As the official tug for taking sea Pilots to meet incoming vessels is sometimes out of commission, Masters are requested to advise their Agents of the ETA 48 hours in advance. The cost of a special tug is heavy, and on occasions a saving can be made sharing expenses if the tug can take out Pilots for other incoming vessels, and also embark those from vessels outward bound from Bahia Blanca.

F. *Southern Ports:* South of Bahia Blanca and as far as Rio Grande pilotage is obligatory in port, when a vessel requires a Pilot, application should be made to the Pilots' Office of the Naval Prefecture through vessel's Agents in Buenos Aires with at least five days advance notice. They go on board either at Buenos Aires, off Mar del Plata, or at other ports as required, and are authorized to operate in all of the Southern ports: San Antonio del Oeste, Madryn, Commodoro Rivadavia and the adjacent oil berths, Deseado, San Julian, Santa Cruz, Rio Gallegos, San Sebastian, Rio Grande and Ushuaia.

Their duties are to act as Port Pilots for entering, mooring, unmooring and leaving any of these ports.

Vessels from South Atlantic Argentine ports, for Montevideo should pick up an Argentine Pilot from Recalada to Montevideo Roads, but if such vessels pass further than five miles away from Recalada Lightship and pass direct to Montevideo Roads, there is no such obligation.

G. *Embarking/Disembarking:* Accommodation ladder. The gangway should be lowered to about 3 m. above the surface of the water, and adjusted in such a way that the Pilot only needs to climb the rope for this distance, in order to step on to the gangway. This rope ladder must have all the steps resting firmly against the side of the ship, in accordance with the requirements of the Safety of Life at Sea Convention. Similarly, the gangway must rest against or be secured to the side of the vessel, and Pilots may refuse to board if these conditions are not complied with.

RADIO: All times are given in GMT unless otherwise specified.

Storm Warning, Met. situation, Weather forecasts and Notices to Mariners. Are transmitted in clear (A1) in Spanish and then English, daily, from the following stations:

General Pacheco Buenos Aires	LSV	3220.5 kc/s.	0.5 kW	0130 hrs.	Storm warning Met. resume
	LSV 2	5907.5	0.5 kW		Forecast
	LSV 4	12100	1 kW		
	LSV 5	17520	1 kW		

and again at 1600

while LPD 5 transmits the same information on 512 kc/s. (5 kW) at 0148 and 1630 hrs.

The weather forecast covers the zone from Rio de Janeiro to Drake Strait and is valid until 1200 of the next day. The word "nil" is used if there is no information to report, as for example in storm warnings.

Vessels at sea can request a forecast and state of the weather at any time from Meteoro Baires, through Pacheco—LPD on 4177, 4187, 8354, 8374, 11531, 12561, 16708, 16748, 22220 and 22270 kc/s.

Radio Trelew	LPZ	20	527 kc/s.	3 kW	at 1730
Radio Comodoro Rivadavia	LPX	2	474 kc/s.		at 0400 and 1800 as above.

Vessels at sea in this area can request a forecast from Meteoro Comodoro Rivadavia through LPX 2.

Notices to Mariners and Urgent River Notices. Are transmitted in Spanish and repeated in English by Radio Pacheco and Radio Comodoro Rivadavia.

Radio	LPD 5	512 kc/s.	5 kW	A2 at 00.30 Plate Area
Pacheco	LPD 6	4268 kc/s.	0.25 kW	A1 at 12.30
Comodoro	LPX 2	474 kc/s.	3 kW	A2 at 13.30 20.00
Rivadavia	LPX 27	4428.6 kc/s.	0.5 kW	A3 at 04.00 08.00 12.00 21.00

This station only reports on Lat. 42° S. to 52′ S.

In both cases messages are repeated twice at intervals of 1 minute at the times indicated. Notices are repeated daily during 6 days from publication, preceded by the signal TTT, followed by the number of the notice, the letter R and then the text in this sequence:

Zone, sea, river, province, locality, etc.

Lat. and Long. if necessary.

News in question.

Sign off with SHN to indicate the authority (Servicio Hidrografia Naval).

If there is no notice to transmit, the stations will transmit "no hay avisos para navegantes", "no notices for mariners".

Notices to Mariners, and other items, in Spanish only—Notices to Mariners and other special information are given in Spanish only as follows:

Rosario—LSQ 38, 477 kc/s., A1, at 13.05:
Depth of water in the Parana River from Los Pajaros to Los Ratones and also the minimum depth between Santa Fe and Rosario.

Concepcion del Uruguay—LSQ 57, 477 kc/s., A1, 0.5 kW at 13.00:
Information on the Uruguay River from San Javier to Gualeguaychu.

Buenos Aires South Dock (Darsena Sur)—LSQ 9, 477 kc/s. A1, 1.5 kW at 0400, 0500, 0600, 0700, 0800, 0900, 1000, 1100, 1200, 1300, 1400, 1500, and 1545 hrs. except on Sundays and holidays.
Depth of water on the gauge at Riachuelo.

Buenos Aires Central de Comunicaciones (Prefectura Naval Argentina) —LSQ 4, 524 kc/s., A2, from 05 to 10 minutes each hour:
Depth of water indicated by the semaphores at Puerto La Plata and Riachuelo, and of the El Codillo zone of the Punta Indio Channel referred to zero on the Oyarbide tide gauge which is between pairs of buoys 24 and 25 in the Main Channel, and the new tide gauges referred to under "Buenos Aires", Tidal Signals.

Buenos Aires, Meteo (All A1)—LSV 3220.4; LSV 2, LSV 6, 5907.5; LSV 4, 12100; LSV 5, 17520 kc/s. at 1705 hrs.
Depth on the River Plate, River Parana, River Paraguay and River Uruguay zones. Buenos Aires, Radio Nacional LRA 870 kc/s. A3, at 0100, 1100, 1500, 1800 and 2100 hrs.
Depths of water and met. forecast for River Plate zone, this station also transmits tidal forecasts at 0100, 1000, 1315, 1600, 1900 and 2200 hrs.

Intersection Pontoon River Plate—LOI, 524 kc/s., A2:
Continuous information on local depths of water, on request.

Recalada Pontoon—LSR, 524 kc/s., A1:
Same as Intersection.

Buenos Aires, Central de Comunicaciones (Navy—LOL 457.2, 2162.5, 4856, 8030, 13101, 17180, 22840 kc/s., A1, at 0230, 0300, 1300, 1330, 1930 and 2030 hrs.
Urgent Notices to Mariners, and Notices to Mariners covering the Argentine Coast and river systems.

Santiago River (La Plata)—LOM, 524 kc/s., A2,
from 05 to 10 minutes each hour:
Depth of water on the semaphore at La Plata.
From 10 to 15 minutes each hour:
State of tides in El Codillo zone of Punta Indio Channel, referred to zero on the Oyarbide tidal gauge (between pairs of buoys 24 and 25).

All Atlantic ports also transmit local notices to Mariners and weather forecasts in Spanish, the call signs and frequencies are indicated under each individual port, but between the powerful stations at Pacheco (Buenos Aires) and Comodoro Rivadavia, the whole coast is covered by the regular information given in both Spanish and English.

Facsimile Reports. Buenos Aires also transmits facsimile reports, of which the following correspond to surface forecasts, valid for 24 hours, and weather on Mercator projection.

		0800/0815 and 2000/2015 hrs.
From station	LRO 69	5185 kc/s.
and	LRB	10720 kc/s.

both of F4, white and black with a variation in frequency of plus 400 minus 400–5 kW and referred to observations made 8 hours earlier.

From the Antarctic, the Argentine Met. station at the South Orkney Islands transmits an analysis of the Atlantic area at 0300 and 1700 hrs. from LOK on 4250 kc/s. and 13051.5 kc/s.

Traffic Control and Safety at Sea. The Prefectura Naval Argentina, in charge of shipping activities including safety at sea, maintains a control centre at Buenos Aires, and another at Mar del Plata (where several hundred fishing vessels operate).

Objectives are to prevent collisions at sea or groundings and to keep a safe, expedite and orderly flow of traffic, as well as to alert safety and salvage systems when vessels need assistance.

A. – The Controlled area, from Buenos Aires, covers from parallel 57° W passing through pair of buoys No. 21 in the main entrance Channel to a line from San Isidro (Buenos Aires) to the mouth of the Parana Guazu river.

The Centre is on permanent duty in the following VHF-FM channels

16 frequency	156.8	mHz	for calls, assistance, urgency and safety.
12	156.6		notices to mariners.
14	156.7		annex to Channel 12.
6 and 8	156.3/4		bridge to bridge use.

Information all vessels in the area, both foreign and national, must inform the Centre of the following:

1. On entering the systems.
2. On leaving the systems.
3. On crossing km 57 in the main channel.
4. On arriving at Intersection Pontoon.
5. On crossing km 11 of the access channel to/or from Buenos Aires.
6. When anchoring, mooring or unmooring.

In each case, except 2 and 6, they will give the estimated hour of arrival at the next point en route.

Vessels will also report, on Channel 16, the following:
(a) Accident or fire on board.
(b) Sighting another vessel in apparent difficulties.
(c) Sighting any dangerous obstacle to navigation.
(d) Any serious reduction in visibility.

They will also advise, on Channel 12, as soon as possible, if any mark, light or navigational aid is damaged, missing, functioning badly or evidently out of position. Vessels must keep constant watch on Channel 16 from entering the zone to leaving it, and immediately after using any of the other channels will continue to listen on Channel 16. If, for any reason, this is not possible, they will report this to Control office by Channel 12.

The Centre transmits as routine information urgent Notices to Mariners, ruling weather conditions every 4 hours from 0000 and depth of water at El Codillo, La Plata port, Riachuela and Martin Garcia Bar 5 minutes after every hour.

Also tide and met. forecasts at 0900 and 1500. Storm warnings, visibility reports and obstructions in channels will be transmitted immediately on being reported, and then included in the next routine transmission.

Information can be requested from the Centre at any time.

The Administration procedure is that figuring in the International Union of Telecommunications and/or the Manual for the Use of Mobile services.

Time used in this service is local Argentine time, i.e. GMT less 3 hours.

Language: Personnel on duty in the Control centre will use only Spanish.

If necessary recourse can be had to the Code groups in the International Signal Code in use, and the spelling and lettering tables therein, or to Code Q.

B. – Mar del Plata Centre controls the area from 35° 30′ to 41° S. In this zone the system is voluntary for foreign flag vessels. The Centre operates on the folowing frequencies:

		Coastal Frequency						*Ship frequency*	
One:	Type	A3	H	2182	kHz	LSO	20	2182	a
				2100		LSO	69	2100	d
				4409.4		LSO	70	4410.8	f
				8754.4		LSO	71	8220.4	g
				13189.5		LSO	72	12410.5	i
	A1	A2		500		LSO	20	500	
	A1			437		LSO	20	437	
				4325		LSO	21	4325	
				12728		LSO	57	12728	

Two: The Mar del Plata Centre maintains a continuous listening watch on:

A1	A2	500	kHz	LSO	20
A1		4325		LSO	21
A3	H	2182		LSO	20
		4110.8		LSO	70
		8220.4		LSO	71

and also listens from 00 to 05 minutes each hour on A1 12728 kHz and from 45 to 50 minutes every hour on A3 H on 2100 and 12410.5 kHz.

Vessels can use any of the frequencies listed under "one" after calling any of the frequencies in "two". In radiotelephony, except for frequencies 2100 kHz and 2182 kHz traffic will be routed in semi-duplex as per frequency pairs as indicated in "one" f. g and i.

In this are Notices to Mariners and Safety information will be transmitted as follows:

A3	H 2100	8754.4	0005 and 0505	Argentine time (GMT −3)
	4409.4	7854.4	0805	Argentine time (GMT −3)
	4409.4	13189.5	1205 and 1605	Argentine time
A1	437	4325	0100 and 0600	Argentine time
	4325	12728	1300 and 1900	Argentine time

Storm warnings or other urgent information will be transmitted in A3H and A1 on 500 kHz and 2182 kHz.

Information: Vessels on entering or leaving the zone will indicate:

1. Position, course, speed, whence proceeding, whither bound.
2. Sailing from or entering ports in the area.
3. Report geographical position every 12 hours counted from time of first advice, giving course and speed.
4. Any change in course or speed which alters the normal route and time at which it occurred.
5. Anchoring in or leaving the area.

Happenings: All vessels will immediately advise the centre of:
(a) Accident or damage to own or another vessel.
(b) Sighting any object dangerous to navigation.
(c) Any serious reduction in visibility, or unfavourable meteorological conditions.
(d) Having observed if any lighthouse, beacon, buoy, etc., is not working properly or is out of its correct position.

Language and Time: As in River Plate centre.

Time Signals. Time signals are transmitted from LOL Buenos Aires as follows: frequency 475.5, 2162.5, 4856, 8030, 13101, 17180, 22840 kc/s., A1. at 0100, 1300 and 2100 GMT, using the modified modern American system, with dots every second from 54.30 to 54.50, a dash of eight seconds ending with four half-second dashes, every minute to the hour, ending with a dash.

LOL also transmits on 5, 10 and 15 Mc/s. simultaneously in A1, A2, A3. Carrier waves are modulated in 1000 and 440 c/s. alternately.

Signal consist of dots every second, omitting the 59th second, and with one second interval before the next period commences. Transmissions is from 0800 to 0900, 1100 to 1200, 1400 to 1500, 1700 to 1800, 2000 to 2100, and 2300 to 2400 hrs. Argentine time (GMT less 3 hours daily), except Sundays and national holidays.

At the end of each period of transmission the call sign is given in morse, and before each period the words Observatorio Naval Argentino are followed by the hour and minute corresponding to the commencement of the next signal.

Modulation on 440 c/s. corresponds to the note LA of the fifth octave in the musical scale.

D/F BEACONS: A number of radio beacons specially for shipping have been installed down the coast, in addition to the airbeacons which can also be used, though with less accuracy.

There are 8 beacons, and 18 aerial beacons in use as follows:

Practicos Recalada – 35° 10′ 06″ S. 56° 15′ 00″ W. range 150 miles (on the lightship) frequency 320 kc/s., A2.

Signal PR once 9.7 seconds, followed by silence 2.3 seconds, a long dash 17 seconds, silence 1 second, dash 17 seconds., silence 1 sec. PR repeat the cycle, PR again and final silence 14.3 seconds, making a period of 120 seconds (2 minutes).

In good weather there are two transmissions every 2 minutes, from 02 to 08 and 32 to 38 minutes each hour.

In fog, one 2-minute transmission every 4 minutes from 02 minutes.

Punta Mogotes – 38° 05′ 32″ S. 57° 32′ 28″ W. range 120 miles. (On the lighthouse) frequency 295 kc/s., A2.

Signal PM once 9.8 secs., followed by silence 2.2 sec., dash 17 secs., silence 1 second, dash 17 secs., silence 1 second PM and repeat cycle. PM again, final silence 14.2 seconds, total period 2 minutes of the hour.

In good weather 2 transmissions as from 06 and 36 minutes of the hour.

In fog, continuous commencing on the hour.

Bahia Blanca – (On the Recalda Lighthouse) 38° 59′ 33″ S. 61° 15′ 38″ W. range 350 miles frequency 310 kc/s., A2, 0.2 kW.

Signal BB 9.8 seconds, silence 2.2 secs., dash 17 seconds, silence 1 second, dash 17 seconds, silence 1 sec. BB and repeat cycle, then BB and final silence 14.2 seconds, total period 2 minutes.

In good weather 2 transmissions 4 minutes apart from 04 and 34 minutes after the hour.

In fog, 1 transmission every 4 minutes from 04 each hour.

Bahia Blanca – (On the Light buoy El Rincon) 39° 23′ 12″ S. and 62° 00′ 48″ W. range 200 miles, frequency 310 kc/s., A1 and A2, 0.15 kW.

Signal RN once, 7 seconds, silence 2 seconds, 2 long dashes 41 seconds, silence 2 seconds RN repeat cycle, but 1 second first silence after signal then as before repeat RN and final silence 250 seconds, total 6 minutes.

In good weather, 2 transmissions from 02 and another 2 from 32 minutes of each hour.

In fog continuously from 02 each hour.

Bahia Blanca – (On the Segunda Barranca lighthouse) 40° 47′ S. 62° 16′ W. approx. range 200 miles, 310 kc/s., A2.

Signal SB 9.8 seconds, silence 2.3 secs., dash 17 seconds, silence 1 second, dash 17 seconds, silence 1 second SB and repeat cycle, repeat SB final silence 14.8 seconds, total period 2 minutes. In good weather, 2 transmissions every half hour, at 00/02 06/08 30/32 and 36/38 minutes on the hour, in fog, every 4 minutes 00/02, 06/08, etc.

Punta Delgada–Los – 42° 46′ 00″ S. 63° 38′ 00″ W. range 200 miles, frequency 315 kc/s., modulation 1000 c/s. modulated A2 signal PD 9.7 seconds, silence 2.3 seconds, long dash 00 seconds, silence 1 second, long dash 17 seconds, silence 1 second PD repeat cycle, PD final silence 14.3 seconds total period 2 minutes, good weather 4 transmissions every hour at 04, 10, 34 and 40 minutes after the hour. In fog, 2 minutes transmission and 4 minutes silence from 04 of the hour.

San Gregorio – 45° 01′ 30″ S. 65° 37′ 51″ W. range 200 miles, frequency 295 kc/s., A2, 2kW.

Signal IL 9 seconds, silence 3 seconds, long dash 17 seconds, silence 1 second, long dash 17 seconds, silence 1 second, IL repeat cycle. IL final silence 15 seconds, 2 minutes period in good weather 4 times every hour, 2 minutes each from 00, 06, 30 and 36 after the hour.

In fog, one 2-minute transmission and 4 silence, from 00 in the hour, but fog transmission temporarily suspended.

Cabo Blanco–Loa – 47° 12′ 12″ S. 65° 44′ 33″ W. range 200 miles (on the lighthouse) frequency 295 kc/s., A1, A2, 0.15 kW signal CB 12 seconds, 2 long dashes 37 seconds, CB repeat cycle CB final silence 250 seconds, total period 6 minutes. Good weather, twice from 08 and twice from 38 minutes after the hour; fog, continuously from 02. Temporarily out of service.

Medical Advice. Medical consultations can be made, without charge, from vessels at sea with urgent illness or accidents on board. Messages should be brief, but clear and concise, describing the symptoms of the illness with all possible details, including age and sex of patient and informing what first aid equipment is available on board.

For priority, messages should be preceded by the urgent signal XXX and be signed by the Master of the vessel.

The Medical section of the International Signals Code, 1931 volume 2, can be used, as also clear language if it is necessary to amplify the message.

Messages should be radioed to "Consulta Radiomedica" followed by the name of the coastal station used.

All consultations are gratuitous, they must be composed in Spanish, and indicate in this order:

Sex; Age; clinical antecedents; symptoms leading to the consultation; probable cause of the illness or conditions in which accident occurred; any other data which could assist diagnosis and facilitate treatment, such as pulse rate, temperature (in Centigrade) character and appearance of the wound, etc., and informing what first-aid equipment is on board.

The following stations at Buenos Aires give continuous service for this purpose:

LPD	4	44.5	kc/s.	A1	A2
LPD	68	4268	kc/s.	A1	
LPD	86	8646	kc/s.	A1	
LPD	32	13002	kc/s.	A1	
LPD	46	17045.6	kc/s.	A1	
LPD	91	22419	kc/s.	A1	
LPD	44	4434.5	kc/s.	A3	
LPD	8	8811.5	kc/s.	A3	
LPD	9	13180	kc/s.	A3	

LOAD LINE: Vessels are permitted to load to their Summer marks all year round at all River Plate Ports as well as Atlantic ports as far South as Cape Tres Puntas; inclusive (47° 06′ S. 65° 05′ W.) and provided they are Northbound or Eastbound. All ports in the River Parana, River Uruguay and the River Plate proper are fresh water.

With regard to Loaded Draft, the mean draft and not the maximum must be taken into account, and this should not exceed the Load Line marks.

On the mean draft an allowance will be made equal to the weight of the fuel vessel will consume until it reaches the Sea from up-river ports. No allowance is given to vessels leaving Buenos Aires or La Plata.

LIGHTENING ANCHORAGE: Vessels wishing to lighten cargo and perform topping-off operations may do so in the following positions:

Position No. 1	34° 42.0′ S. 57° 57.2′ W.
No. 2	34° 44.1′ S. 56° 48.0′ W.
No. 3	34° 46.0′ S. 56° 48.0′ W.
No. 4	34° 43.9′ S. 57° 57.2′ W.

For ships performing such operations in the River Parana, after passing Martin Garcia, the respective zone is between km. 172 and km. 173 in the River Parana Guazu, outside the channel. It is forbidden for ships not lightening or topping off to anchor at these points.

SPEED: *Maximum speed in Ports, Channel and rivers* – Vessels operating in the proximity of an open port, close to quays or loading places where other vessels or barges are operating, will reduce speed to a maximum six knots.

In particular this refers to

Rosario	between Saladillo and Punta Barrancos (La Florida)
San Nicolas	between km. 347 and 351
Ramallo	between km. 322 and 326
Zarate	between km. 104 and 111
Campana	between km. 96 and 98

FUMIGATION: *(a) Exemption.* Vessels of foreign registry will be fumigated when proof is not shewn that fumigation has been effected by competent authority, and in a port duly authorized by the International Office of Public Hygiene, or that they have been exempted from such operation by the Health Ministry at authorized ports, within the last 6 months. Vessels arriving with an expired Fumigation or Exemption Certificate, will be fumigated except where a request of one month's grace is made to allow vessel to return to home Country or a request is made for an inspection. Should the vessel be in either case in a sanitary condition and have *no trace of rats,* an Exemption Certificate will be granted.

(b) Certificates are of no value if vessel is not in good sanitary condition. The Authorities will not recognize the validity of any Certificate or issue any Exemption Certificate to those vessels which in the opinion of the National Health Ministry, after inspecting the vessel, are not in a good sanitary condition. Both cyanide and sulphur (Clayton process) Fumigation Certificates are accepted by the Health Ministry.

(c) Permit to commence loading of vessels ordered to fumigate. No vessels which have had an annotation on their Free Pratique Certificate to the effect that they must be fumigated or inspected, are permitted to commence loading before these requisites are complied with. To this effect the necessary advice will be passed by the Customs or Port Authorities to the Health Ministry for intervention.

(d) Ports where vessels can fumigate. The sulphur fumigation is exclusively effected by the Health Ministry at the ports of Buenos Aires, La Plata and Rosario. The cyanide process is effected by private companies at practically every port of the Republic, provided sufficient notice is given, as at some ports it is necessary to bring the equipment from other ports.

Masters are recommended to ensure that their vessels are in good sanitary condition and free from traces of rats on arrival. Even although vessels may be given a Free Pratique Certificate, this does not always free vessel from fumigation if on arrival at port of loading, the Authorities discover traces of rats on board. The granting of Free Pratique has, in fact, no relationship to the granting of fumigation exemption, and permission to load.

The Following Beacons, all on A2, may be of assistance

				Freq.	*Time*
Bs. Aires, Aeroparque	OP	34° 31′ 18″ S.	58° 29′ 00″ W.	260	kc/s. continuous
Bs. Aires, el Palomar	PAL	34° 37′	58° 36′	400	from sunset, on req.
Bs. Aires, Moron	MOR	34° 40′	58° 38′	355	continuous
Bs. Aires, Ezeiza	EZA	34° 49′	58° 32′	365	continuous
La Plata	PTA	34° 53′	57° 56′	250 or 275	continuous
Punta Indio	PDI	35° 18′	57° 16′	325	09/2300
Dolores	DOL	36° 20′	57° 42′	235	on request, range 120 miles
Bahia Blanca	BCA	38° 43′	62° 12′	330	daylight only, not Sundays/holidays, range 250 miles
Comandante Espora	EPO	38° 45′	62° 10′	370	daylight
San Antonio Oeste	SAO	40° 44′	64° 58′	220	daylight
Trelew	TRE	43° 14′	65° 19′	205	daylight, range 300 m.
Comodoro Rivadavia	CVR	45° 47′	67° 30′	230	daylight, range 230 m.

Ushuaia	USU	54° 49′	68° 19′	235	on request 200 miles

(e) Weevil. The National Grain Board is very strict on inspecting for weevil on board vessels destined to load grain.

TIDES: Following data indicates the tidal range at Spring and Neaps in feet and tenths of a foot indicating the Argentine chart number on which the respective datum is given, and the height to be added to or deducted from that datum at the various ports, which are given in North/South rotation.

	Springs	*Neaps*	*Chart number*
Martin Garcia	2	0.4	70
Buenos Aires	3.2	0.8	176
Mar del Plata	3.8	1.2	18
Quequen/Necochea	5.2	2	18
Puerto Belgrano (Bahia Blanca)	12.6	6.4	74
S. Antonio Oeste	30.4	11.8	6
Puerto Madryn	18.8	6	92
Comodoro Rivadavia	19.6	7.4	30 (plus 0.6 feet)
Puerto Deseado	17.2	6.2	21
San Julian	28	9.2	H 350
Santa Cruz	39.8	9.4	2
Rio Gallegos	39.4	9.6	H 451/2
Cabo Virgenes	37.8	7.4	203 (minus 2.5)
San Sebastian	33.8	9.4	84 (minus 0.7)
Rio Grande	22.6	7.6	67 (minus 2.1)
Ushuaia	5.2	2.2	45
and for comparative purposes.			
Montevideo	0.8	0.4	242 (plus 0.8)
Punta Arenas	5.6	1	British chart 545

FUEL: Bunker stocks of diesel oil are available in bond at Buenos Aires, Bahia Blanca and Montevideo, thus these ports are the most convenient for taking Diesel bunkers. It is available at other ports, but has to be transported by lorry from Buenos Aires. Lorries are unable to go alongside at some of the elevator berths, and there are no oil barges at Rosario, San Nicolas, or Necochea.

At Buenos Aires there are barges of 150 to 550 tons with tanks to carry all classes of oil. If smaller quantities are required transportation can be effected by lorries from the tanks, the cost being cheaper than barging.

Oil can be transported by lorry to any berth in the port of Buenos Aires.

STEVEDORES: Working hours are officially 0700/1300; 1300/1900; 1900/0100 and 0100/0700. From 1900/0100 and 0100/0700 there is a 100% surcharge on Mondays to Fridays, or 200% on Saturdays, Sundays or holidays. On Saturdays the second shift (1300/1900) and on Sundays/holidays the two day shifts (0700/1300 and 1300/1900) are paid with 100% surcharge.

In Parana River ports, shifts start and finish one hour earlier, except at Santa Fe.

It is forbidden for a man to work more than one shift daily, unless no other labour is available at the halls, and the Port Captain agrees.

Use of mechanical appliances is encouraged, and when the Port has not sufficient available, the Stevedoring companies hire this to the vessel to speed up operations.

Stevedoring damage: It is essential that Master and/or Agent leaves on immediate record any damage done to vessel or cargo by the stevedores, in order to assist in recovering the cost of repairs.

Holidays and Non-Working days: National Holidays: January 1st (New Year's Day), Good Friday, May 1st (National Workers' Day), May 25th (National Independence Day), June 20th (Argentine Flag Day), July 9th (Independence Day), August 17th (Death of Gral. San Martin), December 25th (Christmas Day).

Non-Working Days: Maundy Thursday, December 8th (Catholic Holiday).

Drinking Water. A good supply of drinking water should be available on board, and in hot weather this must be iced.

GRAIN LOADING: On a North/South basis. See table below.

DRY DOCKS AND FLOATING DOCKS: There are two dry docks at Buenos Aires and two at Bahia Blanca, and six floating docks at Buenos Aires, with smaller ones available at Rosario and Corrientes.

The four dry docks are under the control of the Ministry of Marine as are some of the floating docks, but all are available for merchant vessels, and private repair companies are permitted to carry out work in these Government docks.

(a) Applications for entering either Dry or Floating Docks are the same:

Name and class of vessel; flag, characteristics; NRT as per Register; nature of repairs; estimated stay in dock, date when ready to enter dock; vessels' Register number and plans of the hull for docking.

Tank vessels must also supply a "Gas Free" certificate.

(b) Buenos Aires.—The two dry docks are at right angles in the North Basin, on the Northeast side and have the following dimensions:

No. 1 493 ft. (150 m.), breadth at top of entrance 66 ft. (19.75 m.) gradient 1: 300.

No. 2 590 ft. (180 m.), breadth at top of entrance 92 ft. (22.10 m.).

Vessels with large beam can only enter if their draft does not exceed 20 ft.

(c) Bahia Blanca.—The two dry docks are in the Naval Dockyard base.

No. 1 is 705 ft. (215 m.) in length, width on sill 72 ft. 6 in. (22.12 m.).

No. 2 is 672 ft. 6 in. in length (closed) (205 m.).

TABLE A

		Berths	*Spouts*	*Workable simultaneously*	*Rate per hour each*	*Total*
Santa Fe						
72,500 tons	Unit 1	2	8	3	300/400	1200

	7/8	2	10	2/4	480	960
	new elevator 9	1	12	2	1000	2000

(d) Floating Docks.—There are seven in Buenos Aires, as follows:

	Lifting Capacity	*Length*		*Internal Breadth*	
No. 1	3,500 tons	413′	126.10 m.	56.0′	17.10 m.
No. 2	1,500 tons	300′	91.50 m.	41.0′	12.50 m.
No. 3	750 tons	216′	65.79 m.	44.0′	13.32 m.
No. 4	750 tons	216′	65.79 m.	44.0′	13.32 m.
No. A	12,000 tons	565′	172.50 m.	86.0′	26.20 m.
No. B	2,800 tons	397′	110.00 m.	60.7′	18.05 m.
No. C	1,000 tons	246′	75.00 m.	51.4′	15.68 m.

All supply cranes, fire fighting equipment, compressed air, water pumps, electric supply – 380 V. and 110 V. AC or 220 V. DC. Telephone, sanitary discharge for ship's bilges and sanitary services on the dock.

WATCHMAN: The use of watchmen is obligatory in all ports, and they are the auxiliary delegates of the Maritime Authority. One man per gangway must be placed. Masters may also place a crew member on watch, but in ports where there is an official service the official watchmen must be used. His duties are to control access to the vessel, control the shipment or discharge of prohibited articles, to revise all packages brought on board or landed, see that the moorings are in order, that the gangway is duly illuminated and that rat guards are in place.

WHARF CLEANING: It is the Master's duty to see that the Wharf is properly cleaned up before his vessel vacates a wharf. Port authorities can do this, and charge the Agents of the vessel last berthed with the cost.

HATCHES: Opening and closing normally carried out by the stevedores in each port. All hatches must be kept closed when vessels are not operating, and when leaving port, must be well battened down and covered with two tarpaulins.

RAT GUARDS: All moorings must be provided with regulation pattern rat guards, 80 cm. diameter.

As part of the rat control gangways must be painted white and fully illuminated at night. Fines are imposed for non-compliance.

FENDERS: At all ports, vessel must be boomed off the quay at least one m. fifty cm. Any type of fender meeting this requirement will do, but at San Nicolas, special fenders are supplied.

NIGHT LIGHTS: All vessels when made fast must illuminate that side towards the water with at least one screened light. When vessels are double berthed, the one lying second off must comply with this rule. Similarly, vessels moored with either stern or bows to shore must show a light over the anchor chain to seaward. Vessels laid up or being dismantled are exempt from this, but owners are responsible for any resulting damages.

DESTINATION CHANGE: When at sea if there is any change in destination, within the Argentine, Masters must report this by radio to the Marine Prefecture, indicating the reasons for such change.

DESPATCHES: Once despatch is granted, this is valid for twelve hours only, after which period new despatches must be requested, and reasons given for not sailing. In ports where local conditions impose a longer limit, the maximum allowable is thirty hours.

SEAMEN'S INSTITUTES, HOME AND CHURCHES: There is one hostel for seamen, and five institutes operating in Buenos Aires and one in Rosario, as follows:

Stella Maris (Apostleship of the Sea)

Independencia 20 (corner Ing. Huergo). Telephone: 33–0832

Chaplain – Father Alex Dalpaiz CS. Open every day. Vessels visited daily. Hotel – Rooms, Meals, Bar. Information – Port Office, Books, Money Exchange, Souvenirs. Amusements – Dancing, table tennis, billiards, television, excursions. Salon Dance – Wednesdays, Saturdays and Sundays.

Religion – Mass every Sunday at 1930 hrs., and in the morning on board ship by request. Confession at all times. Night prayer for all seamen.

Football games arranged. Books freely exchanged.

The Missions to Seamen

Cochabamba 223. Telephone 33–0326

Chaplain – The Rev. E. W. Casson. Open daily from 1900 hrs., with dances on Tuesdays, Thursdays and Saturdays from 2100 hrs. Shop, post office, billiards (three tables), snooker, table tennis, television, bar (beer, no spirits), etc.

There is a service of Holy Communion at 1900 hrs. every Sunday. Football games and excursions arranged. Vessels are visited.

Sjomandskirke

Ing. Huergo 1263. Telephone: 33–3861

Open daily from 0800 hrs. Library, billiards, table tennis, sightseeing visits arranged, as also football matches. Vessels visited every day.

Church services every first Sunday at 1030 hrs.

Axel Johnson Minne till Svenska Sjoman

Juan de Garay 80. Telephone: 33–7304

Open daily from 1800 hrs. Library, sightseeing arranged.

Details of religious services on board of Swedish Church in Azopardo 1428 (round the corner from the Johnson Foundation).

Dansky Kirke

Carlos Calvo 257. Telephone: 33–9154

Danish seamen are welcome at the Norwegian Centre, while at the Church the office is open every Tuesday from 2000 hrs. to 2200 hrs. for assistance, and the Young People meet on Tuesdays and Fridays from 2000 hrs. to 2200 hrs., all being welcome.

Church services are at 1000 hrs. every Sunday, and on third Sunday in every month at 1600 hrs.

Finnska Sjomens-Kyrken. Suommerimien Kirkko

San Juan 234. Telephone: 33–6797. Open daily 1800 hrs. to 2200 hrs.

Rosario: The Missions to Seamen at Sarmiento 209.

THE RIVER PLATE

The River Plate, or Rio de la Plata, is formed by the rivers Parana and Uruguay, and is one of the greatest river systems in the world, the Basin covering nearly four million square kms. It is some 150 miles long, and the mud and sand in the waters give a thick brownish colour. Tides are small, but the water level is subject to frequent and sudden fluctuations on account of the weather.

The official depth at zero of the long entrance channel from Recalada to the Port of Buenos Aires is presently (this varies slightly from time to time):

	Width of Channel m.	*Depth* ft.	in.	*Alternative Width* m.	*Depth* ft.	in.
Punta Indio	110	28	6	200	22	
and of the access channel from the Roads (km. 37 to km. 9.8)	50	29		80	27	
North Channel (km. 9.8 to Anteport)	50	25		80	18	6
South Channel (km. 8.2 to Boca)	30	23		50	21	6

From Recalada Lightship West the Bay is all fresh water.

Vessels drawing 31 ft. or even 32 ft. (fresh water marks) frequently navigate safely. The tidal rise and fall is from three to five feet, but the state of the river is influenced to a far greater extent by the force and direction of the wind. There is no guarantee that a vessel drawing 31 ft. may not be caught by low water caused by a North wind, which carries the water seawards. Just as a North wind will reduce the depth of water, so a Southerly or Southeasterly wind raises it considerably, often several feet.

Winds from S.W. to E.N.E. through N. make the level drop, North being the strongest in this sense.

E.N.E. to S.S.W. winds make the water rise, S.S.E. having the greatest influence.

Between S.W. and S.S.W. or N.E. and E.N.E. the influence of the winds is much less.

Vessels often touch bottom, or even bump slightly, but as the bed of the river is soft mud and silt, one never learns of these ships reporting damage. The Plate Pilots, of course, warn Masters of this not infrequent occurrence. The docks and basins in the port also have soft mud bottoms, except for the entrance between North Basin and Dock 4, and it is quite customary to see vessels lying safely aground when loading or discharging.

RECALADA LIGHTSHIP: Vessels enter the Plate system passing the Recalada Lightship, 16.8 miles South of Montevideo at 35° 10′ 06″ S. and 56° 15′ W. At this point it is obligatory to take an Estuary Pilot, if proceeding West, and a minimum 48 hours notice must be given both to Agents in Buenos Aires and to Recalada Lightship.

The Recalada Lightship and pilot station is a small vessel, whose hull is painted in vertical black and white stripes, 2 m. wide, and with an orange/red housing.

Apart from the usual pilot lights (white above red) there is a lantern on the foremast, with a white flash every 8 seconds (1 second light, 7 seconds eclipse) placed at 19 m. above river level, range 12 miles.

The lightship also has a fog signal, period 30 seconds sounding for 3 seconds and silent for 27.

Radio call sign is LSR on 500 kc/s. type A1, transmitting in clear every hour from 05 to 08 and 35 to 38 minutes. Operator on watch 08/10, 12/14, 16/18 and 20/22, also listens on 462 kc/s using 437 kc/s as working frequency. For ship to ship 468 kc/s or 156.3/156.4 mHz. 2182 kc/s and 2065 kc/s are used in A 3 H/J as well as 4125/4239.5 in A 1 or 3860.5 in A3, for P 3 156.8 or 156.7 mHz.

Punta Indio Channel

The term "Adjacent Zone" comprises the zones of the main channel of the River Plate which extends 500 m. to either side of the buoy at km. 57 and Buoys No. 30 at Punta Indio Channel, likewise 300 m. on each side, outwards, of the pairs of buoys marking the Punta Indio Channel between Buoys No. 30 and 1.

Vessels navigating in these zones have equal privileges to those navigating the Punta Indio Channel, which comprises the zone of the general channel of the River Plate between Buoy No. 30 and the Recalada Lightship following the route buoyed for ocean going vessels by the Ministry of Public Works.

Vessels drawing over 24 ft. entering or leaving the River Plate are obliged to traverse the Punta Indio Channel from Buoys 1 to 30, and the Adjacent Zones existing between Buoys 30 and km. 57.

Westbound traffic, after passing Buoy 30 will leave Buoy 31 on the port side, and continue along the North adjacent zone to km. 57.

Eastbound, when water level permits, after passing km. 57 will keep to the South adjacent zone as far as Buoy 32, then to the North leaving Buoy 31 to starboard and then heading for pair of Buoys 30. Should the water level not allow this at km. 57, vessels will follow the North adjacent zone to km. 66, then take the South zone to Buoy 32 and then as above, leaving Buoy 31 to starboard.

Vessels drawing 21 ft. and up to 24 ft. inclusive must follow the route of the general channel and the corresponding Adjacent Zones and may

make use of the Punta Indio Channel or not, depending on the depths of the river.

Vessels drawing 19 ft. but under 21 ft. must use the general channel of the River Plate and the corresponding Adjacent Zones, but can only use the Punta Indio Channel between Buoys 19 and 23 when depth of the river makes this advisable.

Vessels drawing less than 19 ft., wishing to follow the route of the main channel, may do so through the corresponding Adjacent Zones but are forbidden to navigate along the Punta Indio Channel unless there are no other ships in that channel, which by reason of their draft, must navigate there. They must use the adjacent North zone when Westbound, or South zone if Eastbound.

Between pairs of Buoys 20 and 30 no crossing is permitted in the channel, neither is overtaking allowed. The Eastbound vessel should adjust speed to avoid such crossing with an entering (Westbound) vessel.

INTERSECTION LIGHTSHIP: This pilot station, near km. 37 and 166 km. West from Recalada is on the South side of the principal channel, at 34° 41′ 04″ S. and 57° 57′ 05″ W.

Hull, mast and superstructure are painted sky blue and the inscription on the hull is "Practicos Interseccion" in black letters. At night, 2 lights are shown on the fore-mast, 1 white about 11 m. from the deck, and below this a red light at about 7 m.

Call sign is now LSP on 500 kc/s or other frequencies as for Recalada. Operator on duty from 8 to 10, 12 to 14, 16 to 18 and 20 to 2200 hours.

At this point the estuary Pilot concludes his stint, inwards, or takes over outwards, and port Pilots for Buenos Aires take over or finish. Similarly up river Pilots for vessels bound for Uruguay or Parana rivers take over or deliver vessels here.

If, owing to the bad weather or force majeure, the pontoon's launch cannot transfer Pilots, by day the blue flag with the letter "P" normally flown at the fore will be struck, or by night the red and white Pilot lights will be extinguished, and a red light exhibited at the stern.

At Intersection vessels anchor while waiting for draft to proceed to the Parana or Uruguay rivers, as well as those awaiting berth in Buenos Aires. Such vessels should keep well clear of the Pontoon to leave ample room for those taking or disembarking Pilots.

The holding ground here is not good, being soft mud. All ships drawing more than 15 ft. must, before leaving Martin Garcia or Interseccion outward bound, ascertain the state of the channel from LSP (Radio Interseccion) who will give the departure time, draft, and speed of vessels navigating in the channel. Only after receiving this dual information can Masters and Pilots decide to proceed, and then must communicate time, draft and speed to Radio Interseccion. Vessels drawing less than 15 ft. can navigate freely between Martin Garcia and Interseccion, but must give way to vessels of deeper draft.

INTERSECTION TO MARTIN GARCIA: No vessel may cross the bar drawing more than 7.92 m. (26 ft.) (often less) and with a minimum speed of 10 knots. For those with less than 10 knots but not below 8 knots, vessels of 5,600 tons or over cannot exceed a draft of 6.70 m. (22 ft.) or those of lesser tonnage, 6.85 metres (22 ft. 6 in.).

If speed is below 8 knots but above 5 knots, the maximum draft admissible is 6.1 m. (20 ft.) but such vessels must request a clear channel. Ships of less than 5 knots, and tug convoys will request special permission from the Naval Prefecture.

From Intersection (km. 38) to Martin Garcia (km. 106) vessels will anchor near km. 37 until there is sufficient water, with 1 ft. under the keel and a rising tide or river. If it is calculated that the vessel will have 3 ft. clear through the whole passage, she may leave, but on a falling or stationary river, she must adjust speed to avoid the difficulties between km. 37 and km. 79.

From Martin Garcia to Intersection, vessels drawing 22 ft. 6 in. or more will leave when conditions assure 1 ft. 6 in. of water under the keel. It is essential to radio LSP as above to check on tides, etc. Such vessels coming down river must also communicate to LSP the passing of km. 101 and 38, while those going up river must advise passing km. 38, 72 and 101.

In the sector Intersection/Martin Garcia vessels may anchor in any suitable place until depth of water permits them to go upstream on a rising river.

No vessel drawing over 4.6 m. (15 ft.) may cross or overtake another between km. 47/52; 57/72; 83.5/95 and 100/106; Should a crossing appear necessary in any of the prohibited zones between km. 38 and 79, the ship which commenced to navigate with 6.8 m. (22 ft. 6 in.) and with 0.45 m. (1 ft. 5 in.) under keel will hold back or manoeuvre to avoid crossing, except when the vessels which sailed from Intersection did so on a falling tide. If the crossing were to occur between 83.5 and km. 96 or 100 to 106 the vessel proceeding upriver will manoeuvre or regulate speed. Nevertheless, if crossing appears inevitable, any vessel affected by such a manoeuvre has the right to lodge a protest on arriving in port or at Intersection.

Vessels drawing 6.7 m. (22 ft.) or more are recommended to cross between km. 72/74, 80/82 and 96/98. Those drawing less than 6.7 m. (22 ft.) may cross between km. 52/56 and 98/100 provided that they keep 0.9 m. (3 ft.) beneath their keel.

In any case of grounding which may obstruct navigation, totally or partially, owners must take immediate action to remove the obstruction, including immediate lightening of the ship without waiting for any summary report.

MARTIN GARCIA BAR: The Island itself, in Lat. 34° 11′ S. and Long. 58° 17′ W. is an almost circular mass of granite, about 26 m. high and some three miles in circumference. Shores are muddy but also rocky.

It commands the entrance to the Rivers Parana and Uruguay, and all vessels using these rivers must pass within half a mile of the shore on the South side, or within less than a mile by the Northern channel. There is an Argentine Naval detachment there.

Important: It is always said that Martin Garcia Bar rules the rivers; this is not strictly correct as, usually in the second half of the year, there may be less water in the stretches above Rosario, and at times even below San Nicolas to San Pedro, where new shallows keep forming which have constantly to be watched. Caution should be used, therefore, from July to January in this connection.

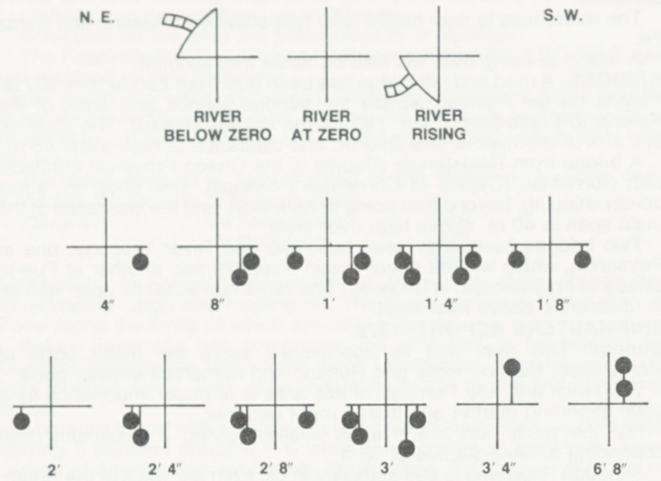
Lighthouse. At an elevation of 38 m. a light is shown from a circular stone tower standing 13 m. high in the centre of the island.

Tidal Signals. These are made from a signal mast placed alongside the lighthouse.

Night Signals

(White flash)	Cycle: 30 seconds
(Red flash)	Long flash: 2.5 sec. each.
(Green flash)	Short flash: 6/10 sec. each.
White flashes	Rising tide: One long. Falling tide: Two short.
Red flashes	Above zero: For each m.: One long. For each 10 cm.: One short.
Green flashes	Below zero: For each m.: One long. For each 10 cm.: One short.
Green and red flashes	Zero: One green and one red, both short.

Day Signals



The figures given below the corresponding signals indicate the level of the river in feet and inches either above or below zero mark.

To obtain the effective depth in Martin Garcia Channels, 26 cm. (10 in.) should be deducted from the draft of water indicated on the semaphore

Depth of water here varies from hour to hour, with no pattern, and is not dependant on the depth of water in the Parana. The only relation between the River Parana and Martin Garcia and San Pedro Bars, seems to be that with a full and strong river, the water which is blown into the Plate Estuary by Southerly winds against the strong head of the river, makes deeper water than a similar Southerly wind opposed to a smaller stream from the river. Likewise, the water blown out to sea by Northerly winds causes lower depths when the river is running strongly than when it is low. The effect is almost that of a new or full moon on the lunar tides.

It must always be remembered, therefore, that the dominant factors from Martin Garcia seawards are the direction and force of the wind. A Southerly wind will bank up the water, while a Northerly wind will blow it out. There may be, say, 30 ft. in the Parana, with a strong North wind, and less than 20 ft. on Martin Garcia. With the wind in the S.E., the depth at Martin Garcia can rise in a few hours up to 30 ft.

A prudent course is never to attempt to cross Martin Garcia drawing more than 25 ft. even with the river at its highest.

Martin Garcia lies at km. 99.4 from Buenos Aires, via Intersection, i.e. at km. 62.4 from Intersection.

Vessels continue North to km. 140, at which point the Uruguay and Parana Rivers meet to form the River Plate. This is opposite Nueva Palmira in Uruguay, and at this point the River Uruguay buoy numbers start from km. 0, while the Parana numbering continues from 140 on through the Parana Bravo, which is the Northerly arm of the extensive Parana Delta.

WEATHER: *The yearly average direction of winds* of Force 7 or more, as observed at Recalada Lightship shows:

N.	N.E.	E.	S.E.	S.	S.W.	W.	N.W.
0.8	1.3	2.7	3.4	5.2	3.7	1.9	1.3

expressed in per cent of winds observed, the least frequent being the North. Division is relatively even over the year, with perhaps August showing a higher incidence of storms.

The average velocity of winds from the various directions, over the year, is 6.8 knots on the coast or 12.5 knots at Recalada Lightship, the highest figures being from S.E., S. and S.W. at 8.3, 9.3 and 9.2 knots respectively.

Percentagewise the direction of the winds through the year is remarkably even:

N.	N.E.	E.	S.E.	S.	S.W.	W.	N.W.	calm
12.7	15.8	14.4	14.2	11.3	9.7	6.8	9.2	5.8

Visibility in the Plate area is normally good; rain storms may temporarily affect it, but these are usually of short duration. Fog (visibility less than 1,000 m.) or mist (visibility 1/2,000 m.) occurs from April to October, with June showing the highest percentage of fogs (13%). North winds seem to favour the forming of fog, as these figures show.

Calm	%fog 11	SE	12
N	24	S	6
NE	17	SW	0
E	5	W	3
		NW	13

Fog on the river forms by a cooling from below of warm air which drifts from E. or N.E., and is formed only when the temperature of the air is greater than that of the water. If the current augments its velocity, the fog lifts and visibility improves at sea level. Shore fogs usually affect only the coast and are of short duration.

Rain falls, on average, 92 days a year, with a total of 1,089 mm. yearly in Buenos Aires, spread evenly through the year with a high in January of 113 mm.

Humidity is high, on average 77% with 82% Winter, and 71% Summer months.

Electric storms are not frequent, and usually limited in extent.

Average yearly temperature is 16.6° C, in Summer 22.2°, Autumn 17.2°, Winter 11.2° and Spring 16°. Extremes correspond to January 43.3° (all-time high) and minus 5.6° in July.

ACTION OF THE WIND ON TIDES: In this large body of enclosed and shallow water winds up and down its axis raise or lower the water level very appreciably.

Cross winds in general have much less effect, and the inner and centre sections of the Plate show greater variations than the outer part. We show below a table as estimated by the Hydrographic Office, based on many years observations showing the variations, in cm., due to speed and direction of the winds. The values quoted must be applied to the astronomic tidal figures to arrive at a net level over datum.

Four new tide-gauges have been installed – two in Punta Indio Canal, at km. 99 and km. 180, and two up-river. Eventually four more will operate at Palermo, Banco Ortiz, Martin Garcia and Atalaya. Connected to the Hydrographic Office, the date will be incorporated into the regular tidal bulletins.

(Source: Naval Hydrographic Service)

The tidal forecasts transmitted regularly over LRA (870 kc/s.), in telephony, in Spanish are, therefore, a combination of astronomical tide figures and meteorological influences on this basis.

Wind direction also affects the hours of the tide. In general, time of high water is not affected, but low water can be delayed or advanced by the wind force.

MITRE CANAL: The new channel, 5 miles off shore and 28 miles long was opened in 1976. It is between km. 12 of the access channel to Buenos Aires and km. 56 of the Parana de las Palmas branch of the River Parana, opposite San Fernando.

It was dredged to depth of 32 ft. with a width of 130 m. but silting up and lack of dredging have reduced the depth to 29 ft..

At present, ships going up river are allowed to use the channel but to proceed only as far as Zarate, with a draft of not more than 27 ft. (a maximum draft of 28 ft. is permissible but 2 ft. safety margin must be kept below the keel) and, because of the sharp bends in the river, the length must not exceed 220 m.

All the ships navigating down river can use the channel en route to ports in the Plate or to the sea, and the draft is limited to 27 ft. and the length to 220 m., as above.

The Mitre Channel shortens the distance between Buenos Aires and the grain loading ports up river by 36 miles compared to the Martin Garcia route. Both routes are almost the same distance from Intersection. Campana is brought 95 miles closer to Buenos Aires, and Intersection about 90 miles.

The big advantage of the Mitre Channel is that ships can navigate with a draft of 27 ft. compared to an average 24 ft. via Martin Garcia, and without the risk of having to wait for more water at the bar, especially if drawing over 24 ft. This applies to ships loading grain at up-river ports and to those proceeding to and from Campana.

Vessels proceeding up river to ports beyond Zarate must still use the old Martin Garcia route. It is expected that such vessels drawing up to 27 ft., will soon be allowed to use the Mitre Channel, but some of the bends in the river above Zarate will probably have to be straightened out first.

Ships coming down river from km. 456, just above San Lorenzo, or further South, if intending to proceed via the Mitre Channel must not draw more than 27 ft. As a point of interest, the depth of the river from Rosario to San Pedro is, on average, more than enough for ships to load to the 27 ft. maximum fixed, at present, from km. 177 to Zarate. The Hydrographic office records the river level, and can estimate ahead prospects of the depth of the water, and Owners should consult Agents before committing a vessel.

The regulations state that vessels over 120 m. in length or 18 ft. in draft may navigate only in day-time. The maximum speed is 12 knots, unless expressly agreed with the Coastal Radio station.

In the stretch between Zarate and km. 177 (the junction with Parana Guazu) navigation down river is without restrictions but up river it is limited to pushed convoys not more than 225 m. long or 28 m. wide or 9 ft. draft, to ferry boats or to vessels not over 35 m. long or drawing not more than 11 ft. At night time, navigation is permitted to ships with a length or draft not more than 12 m. or 18 ft., respectively, to pushed convoys as above, and towed convoys not over 180 m. long or 28 m. wide

Vessels over 35 m. long which cannot communicate with another by VHF or with the Coastal stations must not cross or overtake in the bends and stretches given below, and in any case, no vessel over 60 m. in length may do so; between km. 175/177; 156/158; 148/149; 138/142; 134/137; 130/132; 124/128; 118/120; 105/108; 99/101; 89/91; 46/52.4. Any vessel navigating up stream in the Parana de las Palmas and meeting another coming down in the stretch 175/177 (i.e. the fork of the Parana de las Palmas – Parana Guazu), must regulate its speed until the other has cleared the sector. Similarly, if coming down river towards the Parana de las Palmas a vessel sighting another between km. 230/235 of the Parana Guazu must regulate her speed until the other has left the stretch. Also, any vessel in the River Parana or Parana Guazu about to enter the Parana de las Palmas and sighting another coming up that branch of the river, is obliged to regulate her speed until the other has cleared km. 177.

Ships over 35 m. long or 11 ft. draft must not anchor outside of the waiting zones which are between km. 62/75; 108/111; 120/123; 149.5/153, and those under 35 m. in length or 11 ft. draft must not anchor in the dredged channel between km 46.5 and 56 or in the bends and stretches between km. 177 and 46, indicated above, or off Campana between km. 95/99.

It is prohibited to extract sand or to practice nautical sports and water-skiing along the route.

Ship navigating between the Mitre Channel and the port of Buenos Aires may turn either at km. 12 (the junction of the Mitre Channel and the Access Channel) or at Intersection depending on the weather, cargo and manoeuvrability of the ship, and with the prior consent of the Traffic Control of Buenos Aires. At km. 12 at least one tug must be used for ships between 120 and 200 m. in length, and two tugs, if over 200 m.

Ships over 120 m. long when turning at Campana to come down river, must use one tug. Permission from the Zarate Coastal station is required for berthing and unberthing.

When passing under the Zarate-Brazo Largo bridges, ships must have an anchor at the ready and an emergency electric generator on stand-by.

Ferries crossing the rivers must coordinate their movements with other vessels navigating, through the Zarate coastal station.

In the stretches where crossing is not allowed in the Parana de las Palmas, vessels longer than 60 m., going down river, must blow 3 blasts on the whistle – one long, one short, one long – to indicate that their length is more than 60 m.

All ships must reduce speed, consistent with their steerage-way, in the following stretches: off the ports of Zarate and Campana; when passing under Zarate-Brazo Largo bridges; between km. 69/70 (local quay).

Pilotage regulations are that of Buenos Aires port. Pilots take vessels between Intersection and km. 12 of the Access Channel. However, revised regulations make an exception for Parana Pilots who are now authorised to operate on this stretch when vessels are proceeding to and from the Mitre Channel/Parana de las Palmas. This avoids the inconvenience and expense of having to send out the port Pilot by tug to km. 12 or to bring him back, and the alternative of having to embark and disembark him at Campana.

When ships are coming to Buenos Aires from up-river ports, the port Pilot is sent out on the tug needed to turn the vessel at km. 12, and vice versa.

PARANA RIVER: Maximum drafts permitted up to km. 585 (Santa Fe) are governed by the Martin Garcia Bar, and must also, logically, take into account river conditions.

The River Parana rises in Brazil, and is formed by a junction of a number of rivers, the principal tributary being the Paraguay River.

It is a great river at all times, conveying an immense volume of water to the Atlantic. The Northern bank is comparatively high and rocky, the Southern bank low.

The stretch above Rosario is entirely riverlike in behaviour with an annual flood, rising and falling yearly. From Rosario to Martin Garcia Bar, where the river joins the Uruguay River to form the River Plate, there is also an annual flood, but this part is also influenced by the Plate tides. This section can be divided into two, from San Pedro to Villa Constitucion where the tidal fluctuations are always felt, and from Villa Constitucion to Rosario where the tide makes its influence felt only in periods of low water in the river.

Maximum depth in the river is normally reached in March and the low in September, but it is irregular in behaviour. There is a possibility that the series of dams being built in Brazil for hydroelectric purposes may eventually regularize the river by permitting some control over the seasonal increases.

When the river commences to fall, care must be taken in calculating loaded draft a few days ahead, as the official figures may be reduced one or more feet without warning.

HIGH AND LOW WATER: Maximum and minimum figures registered between Rosario and San Pedro in the last ten years.

		Jan.	*Feb.*	*March*	*April*	*May*	*June*
High	Max.	32′	32′ 8″	33′ 7″	36′ 3″	37′ 9″	30′ 5″
	Min.	27′ 2″	29′ 2″	29′ 2″	28′ 7″	29′ 5″	25′ 3″

	Min.	23′ 9″	21′ 8″	21′ 7″	23′ 3″	24′ 3″	24′ 3″

MAXIMUM DRAFT UP RIVER: When vessels by reason of their loaded draft have to complete loading at Buenos Aires or La Plata, they should never load deeper than 2 ft. less than the offical draft on the River Parana.

In the sector San Lorenzo/River Plate, when the height of the river is 4 ft. or more, one ft. must be calculated below keel depth; when the river is under 4 ft., two ft. clearance must be calculated.

In the sector Parana (Santa Fe)/San Lorenzo, when the height of the river on the hydrometer at Santa Fe is 5 ft. 7 in. or more over zero, 2 ft. must be calculated under the keel with vessels of under 50 fiscal units, or 2 ft. 6 in. over that size. When the depth on the hydrometer is less than 5 ft. 7 in. (1.70 m.) then 2 ft. 6 in. and 3 ft. 6 in. respectively must be allowed.

These safety margins for the Parana/San Lorenzo/Santa Fe zone refer to river navigation; in access channels and ports a margin of 1 ft. is sufficient.

The references to river height refer respectively to Rosario and Santa Fe.

A falling or rising river will also be taken into account.

BRIDGES: A road and rail bridge has been built from Zarate (km. 107 on Parana de las Palmas) across the various islands and arms of the Parana to Brazo Largo (km. 180 on the Parana Guazu). The span on this arm of the river is over 200 m. and clearance at high water 45 m.

A bridge from Resistencia (Capital of the Chaco Province) connects with Corrientes (Capital of Corrientes Province). This does not affect ocean shipping, beyond that going to Asuncion, and the clearance of the main span is 40 m. above high river level.

Two bridges have also been built over the River Uruguay, one at Paysandu, which will not affect ocean shipping, and another at Puerto Unzue to Fray Bentos, in Uruguay. This latter has a 220 m. span with 36 m. clearance above river level.

SHIPMASTERS REPORT: 1979.

General: This river and its approaches serve the major ports of Montevideo, Buenos Aires and Rosario and numerous smaller ports.

The hinterland and Pampas of this area is of major importance as a grain exporting market and frozen meat exporter.

For the most part the river is shallow giving a maximum draft depending on suitable tide of 33 ft.

Although Argentina is self sufficient in oil, from her wells in the South, with prices around 70p per gallon (20.7.79) cheap by world standards, she imports about 300,000 tonnes of LPG per annum mainly from the Gulf and Venezuela.

The majority of the LPG is shipped during the Southern Winter with approximately eight 30,000 tonne shipments annually.

Shipments from Venezuela are in smaller vessels of the 15 – 30,000 cu.m. size.

All LPG is for the Account of Gas Del Estado, the state Gas Corporation, who tender for contracts from the major Gas traders generally bi-monthly.

The storage capacity at Doc Sud Buenos Aires is about 20,000 tonnes.

Currency is the Pesos which is very much orientated towards the US dollar. The dollar is used for most commercial transactions.

Approaches to The River Plate:

Chui D/F (ALRS 5046) on Brasilian border is good.

A good longitude is obtained by 200 m. line. On chart BA. 3064 the bank in the region of 35° 08′ S. 53° 34′ W. is pronounced.

Cape St. Maria comes in at 35 miles on radar.

Punta Jose Ignacio is distinct on radar at 22 miles, Light observed at 19 miles.

Isla Lobos observed at 26 miles on radar.

A strong N.E. current set is apparent from the 200 m. line to Isla Lobos, particularly so about 40 miles East of Lobos. Pta Del Este light is difficult to pick out from the shore lights. This area is an important holiday resort area. A new light has been established: Fl. R. ev. sec. position 34° 51.8′ S. 54° 44.0′ W. Vis. 25 miles.

Anchorages: On 2 occasions the vessel has anchored well East of Zone Alpha before proceeding to lighten. Once each in position 35° 10′ S. 55° 32′ W. in 15 m. and 34° 57.5′ S. 55° 37.5′ W. in 13 m.

It is wise to pay out plenty of cable as the wind can increase quickly.

There are 3 lightening or Topping Off anchorages – Alpha the most commonly used one being 10.5 miles South of Montevideo Pta Brava, Delta 39 miles to East and Bravo 36 miles to S.W. are little used.

Areas as marked on Argentina Charts H. 113 and H. 116 are not rigidly binding and it is as well to take advantage of the deeper water 3 miles to East of Zone Alpha.

There are 3 D/F stations in the area.

Carrasco (CAR) as Admiralty light and Radio signals (ALRS) 5036 good – Montevideo Airport. Continuous Aero 24 hours.

South Airport (CRO) 305.7 m. – 34° 50.5′ S. 56° 01.5′ W. Aero Cont. 24 hours

Pta Gorda (BC) 340 m. – 34° 54′ S. 56° 05′ W. Aero Cont. 24 hours. Banco Ingles North Buoy moved position about 1.2 miles East to 35° 05.4′ S. 55° 52′ W. light very weak.

The foul areas marked on Argentina Chart H. 113 and BA. 1749 (C) do not exist according to the Masters of local lightening ships and Pilots.

A	– 35° 03.0′ S.	55° 59.0′ W.	
B	– 35° 03.0′ S.	56° 04.0′ W.	
C	– 35° 08.8′ S.	56° 12.7′ W.	BA 1749
D	– 35° 09.0′ S.	56° 15.9′ W.	
E	– 35° 11.0′ S.	56° 14.0′ W.	

The D/F on Isla Flores (ALRS 5038) is not operating and the light is very weak.

The 2 buoys to S.W. of Zone Alpha to Recalada are in position but no lights observed on passing them (20.7.79)

Communications: VHF: Montevideo Movement Control (ALRS 6-H1010) speaks little English. We tried to contact them on arrival but got no response. The Agents advise vessel to cable anchoring positions to its call sign 'CWC 104'.

Recalada pilot station works on Channel 12, English reasonable.

Interseccion pilot station works on Channel 12, English reasonable.

Lightening vessel "Permian Gas" – Channel 68.

Lightening vessel "Lavoisier" – Channel 8.

Bulk Topping off vessel on station Zone Alpha 'Arylanza' of Argentina flag with cranes works Channel 6.

Generally all Spanish communications – ALRS G 2655, 2670, 2680.

Montevideo R/T: Punta Carretas (CWF) 6020 transmits 2182 or 2768. Spanish and good English. Telephone only Montevideo area. Good.

Argentina: 'Pacheco' LPD, LPL, LPQ 5905 (no English).

Weather: Generally the weather in this region has been well documented. Reading publications one gets the impression at times that it can be severe all the time in mid winter. But this is not the case, although one should be on the guard all the time, we had very good weather during a stay of 16 days in July, generally light winds, clear skies, and little rain. Although quite quickly the opposite can happen.

Visibility can be excellent, up to 20 miles.

Forecasts for the area are predominately in Spanish.

The Fascimile that is published for Buenos Aires LRB, LRO 5910 was not received on any frequency.

Tides: Again very well documented. Generally out at Zone Alpha the tide is not strong and has little effect. Getting into Recalada and farther West to Interseccion the tide has a big effect and can alter very quickly with the wind.

The tides strength is very marked in the shipping channels from Recalada Westwards to Buenos Aires.

Density:	At Zone Alpha	:	1019
	At Recalada	:	1012
	At Km. 45	:	1005

Lightening: As previously mentioned there are three Zones for transhipping cargo and topping off. The most commonly used area is Zone Alpha the limits of which are not obligatory.

Before lightening can commence the ship has to be cleared by Customs/Immigration who come from Montevideo after travelling up from Buenos Aires. They either board by tug or by the first lightening tanker.

9 persons board with 4 persons leaving when formalities are complete leaving 5 persons onboard – 6 when Pilot boards at Recalada. They consist of Agency Representative, Immigration, Customs, Prefectura of Police, Gas Del Estado rep. etc. Those that stay being Agent, Police (1), Customs (1), Surveyor (1), Gas Del Estado (1). As long as vessels paper work and passes have been well prepared the formalities are quickly dealt with. Generally vessels proceed to Zone Alpha when the Officials/Lightening Tanker is due otherwise needless standby is required because of the close proximity of other lightening operations and draft.

We anchored with Pta Brava 320°×10.4 miles depth at HW 12.5 m. Plenty of cable on port anchor is required, say up to 8 shackles to guard against any sudden gusts of wind. On occasions up to 10 shackles have been out.

Ships passing through this area are required by Argentina Law to proceed at slow speed, but rarely do with some narrow scrapes. Zone Alpha is joint Uruguay/Argentina territory.

Pratique: Cable to be sent (in Spanish) to Agent 12 hours before initial arrival. Granted when officials board.

Notice of Readiness: Send cable when vessel has anchored, N.O.R. received when Agent boards at Zone Alpha.

Mail: Agent will bring out mail at Zone Alpha and also give to Interseccion Pilot who boards after lightening at Km. 45 if requested in advance.

Money: If requested well in advance Agent will bring money out at Zone Alpha. This helps when berthing at Doc Sud as people can get ashore quickly without waiting for money.

Time: The Time Zone used at Alpha is Argentina time GMT – 3 hours. Uruguay time is on GMT – 2 hours.

Lightening Tankers: At present there are 2 vessels in this operation, however a 3rd vessel may soon be allocated. In the past numerous LPG ships of different owners have been used.

"LAVOISIER": A small semi-pressurized tanker of Argentina registry owned by Navigas.

Vessel has 3 Yokohama fenders floating and 2 small fenders hanging aft. Very good co-operation maintained – vessel was very efficient. The chief officer speaks little English but Master and one Second Mate spoke very good English. All very helpful.

Lines: 3+1 each end in moderate weather. No STBL lines.

Hose: 6 in. Braided wire (wear gloves) – 18 m. total length – 150 ASA couplings.

Tanks: 6 tanks max. temperature: −6°C 4 bar.

Capacity: Approximately 2,800 tonnes.

Rate: 300 t.p.h. Butane, 90 t.p.h. Propane which has to pass through heater for pressurization.

B.P.: Max. 8 bar.

Gangway: Use STBL gangway aft.

Radio: Use STBL UHF sets.

Vessel will take motors, etc., ashore if she is returning to Doc Sud for repair by Cromwell Engineering.

"PERMIAN GAS": Owned by Maritime Overseas. Liberian Flag – call sign A8UR. Chartered by Gas Del Estado.

Has 2 Yokohama fenders and tyres forward and aft. Not very satisfactory as operations have to be broken off in any type of wind.

Lines: 3+1 plus two from STBL F & A.

Hoses: 6 in. 300 ASA with 300/150 spool piece. Compoflex type with rope lagging. Total length approximately 18 m.

Tanks: 6 semi pressurized – 6 bars 2 grades handled – not together.

Capacity: 5,200 tonnes max.

Rate: 350 t.p.h.

Gangway: From STBL, a short BOT type.

Radio: Motorola UHF sets from 'Permian Gas'.

Navigas are purchasing another LPG vessel about the same size as 'Permian Gas' and should be on station in October 1979. Generally the transferred cargo is taken to the smaller outports up the River Plate and down the coast, the vessel can be away for up to four days.

With a mixed cargo of Butane/Propane of 30,000 tonnes two to three weeks is the normal length of stay in the River Plate.

Pilot: Pilot does not board at Zone Alpha.

Pilot boards at Recalada pilot station at the end of the buoyed channel Canal Indio. Pilot vessel is an old coastal troop transport and has been on station for 10 years. It is painted with red upperworks and black and yellow stripped hull.

Pilots board from small white launches which lie alongside the pilot vessels lee side.

Only 1 ship handled at one time, the launch returns to the pilot vessel. Long delays can occur if ships have got bunched up inwards and outwards.

Will use hoist, but have gangway and fixed pilot ladder arrangement ready. Make good lee otherwise Pilot will not board. Inwards pass to North of pilot vessel. Outwards to the South. Pilots generally speak good English.

Pilot vessel new position: 35° 10.8′ S., 56° 06′ W.

Racon shows up well at 20 miles. No D/F. No boarding with wind speed above 30 m./sec. No anchoring within 1 mile of pilot vessel. Make arrangements for Pilot through Agent via Recalada or Pacheco Radio Station at least 48 hours in advance.

One Pilot to Interseccion Pilot Station, about 7 hours depending on tide. If stopping at Km. 45 for lightening, Pilot stays on board and changes at Interseccion.

In the vicinity of Recalada numerous vessels are anchored so its a case of having to proceed with caution.

Canal Indio: From Recalada to Interseccion, 95 miles.

This channel is marked by light buoys leads to the deeper water off Banco Chico near La Plata and is 50 miles in length to Canal Intermedio with a bend at Codillo.

Generally the depth is 28 ft. CD but patches of 27 ft. have been found between Recalada Pilot Station and No. 1 buoys.

We attempted to manoeuvre with a draft of 28 ft. 9 in. but constantly grounded near the wreck buoys East of No. 1 buoys.

The channel from Recalada to No. 1 buoys passes South of the wreck buoys, these wreck buoys should not be confused for channel buoys as has happened in the past.

Generally the max. draft is 31 ft. with a tide of 1.20 m.

Pilots always seem to think of drafts in terms of feet and tide heights given out in metres.

Vessels of up to 33 ft. have safely transitted.

Once inside the channel at No. 1 buoys the channel is very marked and steeply shelving.

The wreck at No. 17 buoys is to be lifted by a Japanese crane barge early in 1980. There is no passing at this point.

No dredging has been undertaken for five years in Canal Indio but it is hoped to resume in 1980 after Canal Nord and Sur have been dealt with.

On the day we left (20.7.79) three Spanish built suction dredgers arrived ("Buenos Aires", "Terra Del Fuego" and "La Plata") with three more to follow. It is reported that a total of 20 dredgers have been contracted for, partly Government owned as are the Spanish built dredgers and partly German contract work.

It is hoped dredging will start in Canal Nord and Sur late 1979 moving to Canal Indio in 1980 and Canal Mitre 1981.

The buoys are often missing or the lights out.

24 hours transit of all vessels is undertaken. Vessels of less than 22 ft. navigate outside the channel when deep draft ships approach in channel.

Vessels of less than 18 ft. navigate outside channel at all times.

No overtaking from Codillo Bend to Recalada.

Tides can be strong.

Km. 99-Racon not working (as BA.1749)

Tides given on VHF every hour plus 5 minutes in cms.

As long as no hinderances with ships ahead or draft a speed between manoeuvring full and full sea speed is requested.

La Plata Km. 45 Lightening: Further lightening is undertaken off La Plata in the deep water position: Lat. 34° 44.5′ S., Long. 57° 49.5′ W.

Pilots report that the foul area just South does not exist.

Interseccion: Pilots changed here after lightening at Km. 45.

Pilot Boat: An old coastal troop transport similar to that at Recalada, painted red all over.

Racon good at 15 miles.

White launches tie up on its lee side.

Will use pilot hoist but have gangway pilot ladder arrangement ready.

In new position: Lat. 34° 40.8′ S., Long. 57° 56.5′ W.

No anchoring within half a mile.

A large number of anchored vessels, bulk carriers and liners with some product carriers awaiting berths in Buenos Aires, at this anchorage.

Canal Accesio Buenos Aires: This channel is 15 miles in length and leads from Interseccion pilot vessel to the junction of Mitre Canal, Canal Nord and Canal Sur.

It has a depth of 31 ft. CD min. and is probably the deepest of all the channels in the area.

It presents no problems after final lightening.

The Beacon at Km. 14 on the North side of the channel has been destroyed.

At Km. 14 a forward tug can be engaged at extra charge. This is well worth the additional expense to get the vessel around the bend into Canal Sur and over the shallows.

Canal Sur: This relatively short length of channel leading to the Doc Sud area is 4 miles in length. It presents the worst problems with regard to draft in all the channels but the bottom is of soft mud and no grounding damage has been reported.

Ships invairably always bottom and the channel is kept open by the dredging action of vessels.

The worst area is the Eastern end between Km. 8.2 and Km. 7 with a poor area continuing to Km. 5.

The after tug is taken at Km. 8.2.

The least depth is 22 ft. CD which means vessels up to 24 ft. 6 in. can normally transit and up to 26 ft. with very high tides.

We had 60 cm. tide with a draft of 24 ft. and had to use full power with the vessel listing 5° to starboard when we got to the edge of the channel – Southern edge. The tugs were invaluable at this point.

Pilots report Southern edge of channel worst area. (One large LPG ship recently aground for 2 days at draft of 25 ft. 6 in.–60 cm. tide and falling. Vessel aground between Km. 8.2 to 7.6.)

As soon as Canal Accesio is left at Km. 10.1 steep shelving occurs which is very marked on Echo Sounder and vessel is bottoming.

No night movements of LPG carriers.

At Km. 1 another shallow area of 21 ft. 6 in. CD is reported but we experienced no difficulty in this region.

Tugs: As previously stated forward tug can be taken at Km. 14 and after at Km. 8.2. When outward bound forward tug leaves at Km. 11 (extra charge) and after tug at Km. 5.

Tugs power varies from 2,000 h.p. to 3,500 h.p.

2 good lines are given to each tug through centre leads fore and aft, they will need them with large LPG carriers when turning in the narrow confines of Doc Sud.

Ante Puerto Sud: Vessel is swung in this area so as to enter Doc Sud stern first.

Clearance is very tight.

Pilot requires both anchors ready and engines prepared for maximum astern power.

Tide depth gauge on North inner entrance.

In Darsena 2 there are 2 floating dry docks capable of handling ships up to 15,000 d.w.t.

In Darsena 1 a Navy Synchrolift of 10,000 d.w.t. capacity has recently been constructed (vertical hoist type, not ramp type).

The new dock outside at Km. 1 in position: Lat. 34° 38′ S., 58° 20′ W., has been completed but not dredged. This is to be undertaken 1980/81 and is intended for large LPG carriers for Gas Del Estado. The breakwater is completed and extends to Lat. 34° 37.9′ S. – 550 m. in N.E. direction.

Doc Sud: Least depth 33 ft. CD. In section 2 on the East side is the oil complex with Gas Del Estado berth North end section 2, South side of bend, East wall second berth. On West side are grain and frozen meat berths. Ships always berth head out. Starboard side to East wall, port side to West wall.

Narrow entrance which large vessels frequently hit, particularly the knuckle on East side which should be guarded against with fenders. From Interseccion to completion of tie up about 4.5 hours. In all of Doc Sud no engine movements are permitted. This is a new regulation.

If using midship gangway this has to be turned forward before arrival so as to land on small pipe jetty. If gangway is aft vessel has to use fixed section or hire boat on the offshore side.

Mooring: 2 headlines, 2 breastlines and 2 springs each end, the leads are not very good. Springs onto dolphins. Dolphins have poor fenders so advise use ships fenders.

Manifold: 12 in. – 150 ASA liquid, 8 in. – 150 ASA Vapour return, VRL has to be left open.

Tanks: Max. tank pressure on arrival to be 50 mbs.

Pumping: 500 to 700 t.p.h.

Berthing: Daylight hours only.

Labour: Shore labour for connection.

Surveyor: Surveyor from independent firm joins at Zone Alpha and makes survey together with Chief Officer before and after each transhipment and at Doc Sud. Generally paper work after each transfer takes about 1 hour. Ensure that signed statement of complete cargo discharged obtained.

Samples: An attempt is made to take samples at Zone Alpha.

Fresh Water: By Barge.

Stores: Arrange by Barge, very difficult otherwise.

Repairs: Cromwell Engineering: – 'Cromeng' generally good. By boat. As previously stated vessel can land motors etc. by lightening tanker if returning to Doc Sud for Cromwell to pick up.

Taxis: Difficult to obtain. Best obtained via Gas Del Estado office. Doc Sud is outside Buenos Aires municipal boundary so off meter. Meter starts at Boca bridge. Generally about £6 into town in daytime and £10 back at night. No difficulty in getting taxi back at night, try and agree fare. Do not go ashore alone.

Do not take much money with you. Have shore pass. About 20 minutes to town if no delays.

Customs/Immigration: Board at Zone Alpha and again at Doc Sud and on Departure.

Formalities:

2 Store lists per department (Deck and Engine combined) (Argentine Official Papers).

1 copy taken off at Zone Alpha, 1 copy for customs at Doc Sud.

2 Copies International Maritime Declaration Health (Standard Form)

1 copy Zone Alpha, 1 copy Doc Sud.

2 Crew Personnel Declarations – (Argentina Forms)

Both Zone Alpha.

30 Crew lists (Ships form)

One is stamped by Immigration at Zone Alpha for Doc Sud. No officials onboard at Doc Sud.

Crew Passes – Fichas – Argentine Official Forms.

One for each crew member must contain photo. We used ships Polaroid camera. (Two heads to a shot.)

Stamped at Zone Alpha and *must* be handed back before departure Doc Sud for stamping and then given to Master.

2 Vaccination Lists (Ships form)

Each time the vessel shifts/heaves up anchor the Agent onboard has to make out a departure declaration for Master to sign and give to Police onboard.

As long as vessel has Argentina papers and photocopier onboard no difficulties should exist.

Bond: Not sealed, quite in order and usual as long as ships staff only consume liquor.

ATUCHA:

"C" category port. Km. 132 – River Parana de las Palmas Province of Buenos Aires.

Situated on the left bank of the Parana de Las Palmas at km. 132, fifteen miles upstream from Zarate, and 80 miles by river from Buenos Aires, via Mitre Channel.

BERTH: A small berth 33 m. long with two dolphins in 40 ft. built especially for the discharge of heavy material for the new Atomic Energy Plant. There is a 300 ton heavy lift crane on the concrete platform. The plant is now in full operation.

PORT AUTHORITIES: There are no port authorities here, and the port comes under the jurisdiction of Zarate.

BUENOS AIRES: 34.36 S. 58.22 W. (See Plan Book)

"A" category port

Refer to beginning of Argentina and River Plate Ports.

APPROACHES: Access is by the "Punta Indio" channel which requires constant dredging and commences just West of the Recalada Lightship, which is situated 30 km. due South of Montevideo. The channel with 28 ft. 6 ins. on a width of 100 m. or 23 ft. over 200 m. winds up to the Outer Roads, which are some 37 km. from the Port. Direct entrance is by a channel, dredged to 29 ft 6 ins. with a 50 m. width, and 28ft. 6 ins. on an 80 m. width, to within 10 km., where the channel divides into North Channel, serving the New Port and Madero Port berths, and South Channel, for the rest of the port. North Channel at present has a depth of 25 ft. with a width of 50 m. or 19 ft. with 80 m. width. South Channel has 23 ft. 6 ins. with a width of 35 m., or 21 ft. 6 ins. over 50 m. All depths given here and elsewhere refer to the zero of the Riachuelo tidal indicator and semaphore in Buenos Aires port, which practically corresponds to the level of the ordinary lowest water, and is marked 0.72 m. under the average medium level of tides. Tides average 3 ft., but the principal factor is that of wind, which can raise or lower the water by 5 ft. or more.

The Mitre Channel enters the access channel at Km. 12, and under existing regulations the Mitre Pilot ceases his job there, and a Buenos Aires Port Pilot will either take the vessel into Buenos Aires or out to Intersection, or vice versa. This involves use of tugs for the changeover, unless the vessel goes only to Campana or comes from there, when the Buenos Aires Pilot can travel by land.

When large passenger liners or LASH vessels are entering or leaving, it is possible to have the access channel closed to all other traffic for a period of four hours on account of the narrowness of the dredged channel.

ROADS: The Outer Roads are between Buoys 25 and 37, according to draft. The Inner Roads are between Buoys 12 and 15. Intersection Pontoon, or Pilot station, is at Buoy 37, North side.

PORT: The port, which is artificial, comprises:

Puero Madero	North Basin, Docks 4, 3, 2, 1 and South Basin.
New Port	Basin A, B, C, D, E and F.
South Dock	First and Second sections.
Liquid Gas Basin	On the South side of the South Channel before reaching S. Dock
Inflammable Basin	On the South side of the South Channel between Liquid Gas Basin and South Dock.
East Basin	On the North side of the South Channel.
Riachuelo	The Districts known as Boca and Barracas.

BERTHING:

Puerto Madero (Central Zone): This is the oldest part of the Port. Ocean going vessels mainly operate in North Basin, and Docks 4 and 3.

North Basin. Built in the form of an irregular pentagon, with the entrance, 100 m. wide in one angle. The two piers at the entrance are 200 and 225 m. long, respectively. The West side is 390 m. long and the South 377 m., North 335 m., and with a depth presently 22 ft.

As the basin was built for a depth of 21 ft., and later dredged, when vessels load deeper than 20 ft. they should be careful to keep well off the quay wall to prevent grounding. Up to three vessels can discharge at anchor.

There are two dry docks in the basin, and a repair shop.

Usually only one berth, section 6, is used for loading/discharging operations and can be used for containers. Sections 1 and 2 are used by vessels repairing or laid up, while sections 3 and 5 are for Navy use. The warehouse of section 7 is used by the Custom House.

Dock 4. Connected to North Basin by a lock 197 m. long, and 25 m. wide. The dock itself is 630 m. long and 160 m. wide, with 20 ft. of water.

On the West side there are four warehouses, each 4 storeys high and twelve 3-ton cranes. Berths, or sections, numbered 1 to 4.

On the East side there are four two-storey warehouses and twenty-three 2.5-ton cranes. There are also several sheds behind and parallel with the warehouses which give on to the dock, sections numbered 5 to 8.

Between berths 6 and 7 on the East side there is a large open space where vessels or lighters can discharge direct to trucks or to railcars. Trucks may also go alongside at the other berths, at all of which there are railway lines, but space is limited.

The dock heads are used for discharging sand and gravel from barges.

Dock 3. South of Dock 4, connected by a cutting 70 m. long by 20 m. wide, with a swing-bridge. This dock is 690 m. long and 160 m. wide, depth also 20 ft.

On the West side, berths 1 to 5, there are four four-storey warehouses, and there are thirteen 3-ton cranes. There was a fifth warehouse at No. 3, burnt down and not rebuilt; this now forms part of the open space for general discharge and storage of imperishables.

On the East side, which is fitted with six 3-ton cranes, there are two elevators for grain. Unit three, with capacity for 6,000 tons in bulk and 1,200 tons in bags, fitted with 3 tubes and 3 chutes, can load 500 tons an hour bulk, or 160 bagged, by one spout only at a time. It is used for the smaller vessels in the trade with Brazil only. The other elevator in this Dock, No. 5, is used for storage.

Between the elevators, on the East side, there are open spaces where vessels may berth and discharge lumber or drummed cargo, but this section is limited to medium and small vessels only.

Dock 2. This is connected with Dock 3 by a cutting 60 m. long, and 20 m. wide, with a swing-bridge. The Dock is 570 m. long by 160 m. wide and 20 ft. deep at zero.

On the West side there are four berths, each with a warehouse, Nos. 1 and 4 being 3-storey, and 2 and 3, 4-storeys high. There are fifteen 3-ton cranes.

Section 1 is no longer used for the storage of dangerous or noxious cargoes, although Section 2 is in use for parcel storage.

The grain elevators on the East side of the dock are in a state of disuse. Their demolition is envisaged in order to provide an open storage area.

Dock 1. Connects with Dock 2 by a cutting 80 m. long, 20 m. wide, with 19 ft. This dock is chiefly used by Government-owned river craft. On the West side there are 5 warehouses, and 18 cranes. There are also ample open spaces. On the East side there is an elevator, capacity 27,000 tons in bulk, and three sheds between Docks 1 and 2, at about 300 m. from the quay.

At the southern end of this dock a hazardous and inflammable cargo store has been established, known as Shed 0 (zero).

South Basin. This basin is connected with Dock 1 by a lock 184 m. long by 20 m. wide, with a swing-bridge.

None of the lock gates in Docks 1 to 4 are used as water gates, water level is tidal, and the gates are simply means of communication. There are only gates proper into Dock 4 and Dock 1 from the North and South basins respectively. These have not been used for many years, although they were originally functional and formed one lock of all the docks.

The basin is 1,029 m. long and an average width of 110 m. It is used by river craft, cross river passenger ferry boats, coasters, etc. A new ferry boat terminal has been built here, on the land side of the basin, with waiting rooms, Customs section, etc.

New Port: The New Port, lies to the North of Puerto Madero, and entrance is via the Northern Channel. A breakwater extending from the North anteport protects the basin of the New Port from rough seas, and extends as far as Basin D, from which point another breakwater protects Basin E. Between the two, a channel is kept dredged for the movement of coasters to and from upriver. Basin F is used entirely for small coasters and river craft.

The five basins of this part (excluding F, coastal) offer good accommodation for the larger vessels entering Buenos Aires, and in all the berths there is sufficient water to float any vessel which can navigate the entrance channels.

Basins are numbered from South/North.

Basin A. Used by passenger vessels as well as general cargo. A landing station for passengers has recently been opened here and all vessels carrying over 50 passengers must land them here, shifting later to another berth if necessary.

The basin is 365 m. long by 140 m. wide, with 870 m. of wharfage. Northern side can accommodate two medium/large ships. Western side is frequently reserved for the Argentine Navy. On the S.W., passenger section, there is room for one vessel. On the S.E. another berth is available if the vessel operating at the Maritime Station is medium size only.

Pier head No. 1 is 100 m. long, but is mostly used as waiting berth for river going vessels. There are two railway lines on each side of the basin, and also at the back of the deposits. There are five warehouses and a total of 14 three-ton cranes.

Basin B. Used for general cargo vessels, is 525 m. long on the North side, 464 m. on the South and 151 m. wide at the Western end, with 1,165 m. of wharfage with room for seven medium/large ships.

There are ten warehouses, and a total of 29 cranes, all three tons.

Pier head No. 2 is 202 m. long. There are three 3-ton cranes, and as a rule large passenger vessels occupy this berth after shifting from the passenger station.

Section 6 and 7 of this basin are reserved for the State Fleet vessels, or if used by others must be vacated if required by the national vessels.

Basin C. This is 495 m. long on the North, 585 m. on the South and 175 m. wide at its Western end, with 1,284 m. wharfage for seven medium/large vessels.

On the South side there are three warehouses, built 20 m. back from the quay to facilitate operations. There are thirteen 3-ton cranes.

On the North and West sides there are no sheds, and this is used for operating directly to or from trucks or rail cars.

There are seven 3-ton cranes on the North and three on the West side.

On Pier head No. 3 which is 236 m. long there are two 3-ton cranes and a 20-ton crane.

Railway tracks are fitted with a third rail for narrow gauge traffic.

The South side of this basin is reserved for ELMA (State Fleet) vessels.

The North side 1/2/3 is used for grain in times of congestion.

Basin D: This is 495 m. long on the North, 585 m. on the South and 194 m. wide at its Western end, with 1,300 m. of wharfage.

Along the Southern side is the Grain Elevator, which occupies all the water front and extends also along Pier Head No. 4 — 295 m. Capacity is at present 150,000 tons, with another 20,000 being added. It can deliver 13,500 t.p.d. to a total of five vessels. On the North and Western sides, vessels may work to or from trucks for direct delivery cargo. There are nine 3 ton cranes on the North and three on the West, and also three cranes capacity 30 tons each.

On the North side a Container yard has been operating with 25,000 sq.m. of pavement and 1 shed, 100 m. long, 10 m. high and 30 m. wide. There are also two side loaders for 20/22 tons and one for 35 tons. Eventually the flooring will be extended to twice the area. 20 ft or 40 ft. Containers can be handled. The handling of Containers has become quicker.

For vessels with a reduced number of Containers, Basin E, North side, can also be employed, using the same concentration area at the Ericson yard.

Basin E: The basin is 495 m. long on the North side, 585 m. on the South and 194 m. at the West end. Coal is discharged on the North side and there is also a warehouse there for other cargoes, although basically this basin is used for coal.

On Pier Head No. 5, which is 523 m. long, the Power plant discharges its coal or oil. There is one oil intake and two travelling grabs, capacity 4 tons each, and also a 30 ton crane.

On the South side of this Basin vessels operate loading or unloading fruit and generals.

On the West, or shore side of the basin there are 20 tanks (more building) for caustic soda, present capacity 7,400 cu. m. These are all steel tanks, and there are 11 lines to the pier. There are truck loading installations in the plant, and a weighbridge, but no fire-fighting installations. Wine tanks are also being built.

Basin F: This faces North, and is used for river craft only, pusher barges and tugs, while on the land or West side there are discharging facilities for sand hoppers.

Pier Head No.6, between Basins E and F is 310 m. long, with room for one vessel only, and with two intakes for fuel oil and a 7.5 ton travelling grab for discharging Coal, capacity 150 t.p.h.

South Dock

First section. The first section has continuous quays on both sides, and a width of 90 m., widening to a turning basin before reaching the connecting channel to the second section.

Before the turning basin are 8 steel tanks for chemical or vegetable oil products, total capacity 5,260 cu. m., with two 6 in. stainless steel lines and two 4 in. steel lines, maximum discharge rate is 175 t.p.h.

Nearer the basin itself are 28 tanks, capacity 14,494 cu.m. plus 8 more tanks in the installation for use both with caustic soda and other chemicals or alcohol. Only one tank (No. 3) of 320 cu. m. is of stainless steel, the others are all steel.

The West quay is 911 m. long, and the East side 1,109 m., both in use for liquids and general.

The old Freezing plant is inactive and on the East side of the turning basin there is an elevator capacity 6,500 tons, 4 tubes and 3 chutes, plus another storage shed for 19,100 tons grain. Only 1 tube at a time may be used at 400 t.p.h.

At warehouse 10 there are 3 steel tanks capacity 10,600 cu. m. with a 10 in. line used for caustic soda, and by the grain board elevator 11 tanks capacity 23,640 cu. m. for vegetable oils.

On Pier A there are 41 tanks, capacity 18,580 cu. m. with two load lines for use with inflammables, handling usually caustic soda, fatty acids, tallow dodecilbencene and vegetable oils.

At Piers E and G there are 19 tanks total capacity 21,058 cu. m. for alcohol and chemical products, with 4 lines to the pier.

At F and G there are also 15 tanks, capacity 8,199 cu. m. for caustic soda, alcohol and chemical products.

Pier G has a further 6 tanks, total 3,259 cu. m. for any kind of chemical products, with 5 lines to the pier.

Second section:— The connecting channel is 90 m. wide, with earth banks. Jetties for discharging petroleum are placed along the East side, while on the West there is a continuous quay 1,000 m. long, on which there are 4 × 3 ton cranes and 8 × 1.5 ton cranes for discharging sand.

There are 7 berths, 5 of which are for general use, 1 for the Power plant for discharge of coal, with a 5 ton grab, and 1 elevator berth, Unit 10, capacity 23,500 tons. The loading bridge has five turrets, each with 2 tubes and 1 chute. Only one can load at a time, rate 400 t.p.h.

There are also 6 tanks, total 4,698 cu. m. for use with Tung oil with one line to the pier.

There are 8 petroleum jetties on the East side for the discharge of tankers and loading oil barges ex-shore tanks. The jetties are marked A to H. On reaching a draft of 23 ft. 6 in. vessels must shift to New Port.

The gangways to the mooring dolphins for tankers are in a very precarious state, which may lead to the closing of this sector.

It will be seen that there has been a considerable increase in number and capacity of tanks, all for private companies. In South Dock there are 134 tanks, capacity 87,147 cu. m.

Liquid Gas Basin. The Liquid Gas basin lies on the South side of the channel, immediately East from the Inflammables Basin, and consists of a central mooring platform 356 m. long, with four pairs of dolphins and two mooring blocks at each end, all joined by a foot gangway. The basin is protected from the S.E. by a breakwater 850 m. long, in the form of an inverted "L". The Gas lines are insulated to carry Liquid gas at minus 45°C.

Only two tankers are allowed to use the basin at a time.

As with the Inflammables Basin, all transit to land is by launch.

Inflammable Basin. This is situated outside the South Channel in front of km. 0.500 and about 300 m. distant from the axis of the Channel and at a right angle. The dimensions are as follows: length: 483 m. on the East side, 323 m. on the West side, 185 m. on the S.W. side and 72 m. on the South side. The dock walls at the entrance are 44 m. long on each side. The entrance is 50 m. wide. All the dock walls of this basin are of cement, as well as the intakes and landing dolphins. It has 6 intakes, 6 dolphins and 12 jetties for mooring vessels. The present tank storage in South Dock lies to the S.E. of this basin at a distance of about 1,000 m. The land lying between the South Dock and the Inflammables Basin is used for erecting tanks.

Ocean going tankers discharge at the piers on the West side. There are no facilities for reaching the city by land and therefore all the transport of officials, crew, stores, etc., must be done by launch.

The oil for the Y.P.F. tanks on the East side of the Basin and the M.O.P. workshops is sent from South Dock by piping under the South Channel.

East Basin. At the entrance to the South Anteport, a breakwater and two new basins have been constructed.

Basin No. 1 is used exclusively by the Port Works Department for laying up and repairing dredgers and other maintenance craft. It also contains a dry dock and a shipyard. Depth of water is 24 ft. in the basin but only 16 ft. at the entrance.

Basin No. 2, in form an irregular quadrilateral, is separated from No. 1 by a mole, and is 146 m. wide at the entrance, 170 at the base and with walls 372 m. long to the S.E. and 294 m. long to the West, allowing a number of vessels to berth. Alongside this mole is the SEGBA Power Plant. Depth in the basin varies from 24 ft. to 14 ft. at the entrance.

From No. 2 there is a mole parallel to the South Access channel, 260 m. long, with a central salient 120 m. long, and two side salients 15 m. long each, and at 55 m. from the central mole. This is used by tankers discharging fuel for the Power Plant. There is one crane, 16 tons, and a narrow gauge railway line.

The breakwater has been built on the South side of the access channel as a protection for the basins, and commences 100 m. South of the light buoy on km. 1 of this canal.

South Anteport. The construction of the Inflammables Basin, and of the East Basins, before arriving at the entrance to South Dock, Riachuelo or South Basin has created an Anteport. The North part has a mole 384 m. long from East Basin No. 1 to South Basin. This is used by the Port Works Department for workshops, deposits and offices.

The Prefecture has an office here, on top of which is a mast 2 m. high, used as a signal station. A white-edged red flag by day or a flashing red light by night indicates that a vessel is entering by the Southern Channel from km. 8 to the Anteport. This signal will remain until the vessel reaches the Anteport, and signifies that the Channel is closed to all except tugs, sand hoppers and river passenger craft, provided draft does not exceed 14 ft.

Riachuelo. This is a narrow, winding stream which flows to the Plate by way of the South channel. It has a depth in its axis of 21 ft. and from 17 ft. to 19 ft. at the berths, while the banks being sloping can cause trouble with moorings on a falling tide. Ocean-going vessels rarely use this now, except for occasional discharge of timber, and it is used mainly by lighters and coastal craft, as well as by laid up vessels and what are now virtually wrecks.

This is the old time Boca and Barracas area.

TUGS: From vessels drawing up to 22 ft., service is rendered by a bow tug from km. 5, and a stern tug from km. 1, or vice versa, and to or from kms. 8 and 4 respectively when draft exceeds 22 ft.

Stand-by time will be charged if a vessel is delayed in entering or leaving by bad weather, fog, low water, no berth, etc., plus usual Sunday/holiday surcharge.

Tug hours now coincide with ordinary port working hours and time is counted from the hour they leave their moorings and until they return.

When a vessel is leaving port, and tugs are ordered to accompany her beyond normal limits, an overcharge will be made on an hourly basis.

Once a vessel is moored, all further service in the same section will be charged by hour. If the vessel shifts section, this movement is charged plus the sections traversed.

A special compensation charge is made when tugs are ordered but not used.

For the services of tugs supplying electricity or steam, charges are made per day and per hour, varying with the size of the tug.

If vessels do not use their engines while under tow, a surcharge of 50% is made.

Tow ropes must be supplied by the vessel, but can also be hired. The towage company is not responsible for breakages, fouling of propeller, expenses of diver or any other consequence.

DENSITY: Fresh water.

FRESH WATER: There are hydrants at all berths, with very few exceptions, at which vessels can take water at a charge per cu.m.

There are no hydrants in the Inflammable Basin, and only at Berth No. 1 on either side of Basin E in the New Port.

Delivery rate varies from 5 to 10 t.p.h., depending on the number of vessels taking water, time of day, etc. An extra charge is made in overtime.

FUEL: Available, by barge.

CARGO: *Classification of import cargo.* Argentina being a tariff protected country, all cargo landed is subject to Customs control.

To facilitate control, there are Custom House warehouses on the city side of the dock zone, on the quays, in the South Dock, and others away from the quays. The Dock Zone is enclosed.

The transport of all goods from vessels is currently effected by State owned vehicles. There are no longer any private warehouses.

All fine cargo, cargo in cases, and most baled cargo must be discharged to Custom House Warehouses, direct from the ship, by means of dock cranes.

Other cargo in cases, barrels, etc., which might be damaged if stowed in the open air, also cargo which from its nature might damage other cargo stowed with it must go to the Custom House Warehouses away from the quays, and is conveyed there by port railway wagons that take the cargo from alongside the ship. This same class of cargo can also be sent to private fiscal warehouses and is similarly conveyed there from the ship's side by railway wagons.

Cargo that can be stowed in the open air without risk of damage, such as cases of glass, motor cars, sanitary ware, etc., is also conveyed from the ship's side by railway wagons to open spaces (plazoletas) within the dock zone, reserved for the stowage of such cargo.

Certain classes of cargo, such as bales of gunnies, jute, rice, agricultural implements, and all articles the nature of which can be seen at a glance, can be discharged direct to consignees' carts, motor lorries, etc., from the ship's tackle. Also certain classes of rough cargo, such as coal, lumber, iron, cement, etc., must be discharged direct in this way.

The Custom House, in order to expedite despatch, has enlarged the list of goods that can be discharged in this manner, and also authorises the carrying out of these operations outside ordinary working hours, which has hitherto been prohibited.

Storage of goods in Custom House Deposits is limited to six months, counting from the date of the vessel's entrance to port.

All classes of cargo can be discharged into lighters (by permit from the Custom House).

Discharge to lighters can take place in all sections of the port.

Use of special deposit called "Transit" for reception of general cargo. In order to facilitate the discharge of vessels with general cargo for delivery to Fiscal Warehouse, the Custom House authorities have authorised the direct discharge from vessels to a special warehouse which receives all the cargo as it comes out of the hold, labour being supplied by Agents.

This facility is only available at certain sections of the port and whenever a vessel discharges at a berth where there is a "Transit" deposit, this must be used unless the vessel carried homogeneous cargo or of such a nature that it does not require the use of the "Transit" deposit.

The cargo discharged in these special warehouses must be delivered by the Agents at ship's expense, into the Customs warehouses.

Cargo in transit to or from Paraguay is now stored in sections of Warehouse No. 5 of Dock 4. The goods may remain in the warehouse, once onwards transportation has been arranged, for three days, where the ocean carrier is operating, or in a special shed in Section 1 of Dock 2, where the river vessels load for that country.

Cargo in transit for other countries can be deposited in any approved space. In all cases, special permit must be obtained in order not to lose the status of "transit cargo".

Time limit for the permanency of "In transit" cargo in lighters. Maximum time limit is set at ninety days, but it is possible to renew this, while on the expiry of such authorisation, the cargo must be discharged to fiscal warehouses, and be subject to all the rules and conditions governing this operation.

The Custom House is authorised to grant an extension of time when the interested party requests this before expiration date, and providing the causes are, in the opinion of the Custom House Authorities, justified.

Cargo in transit that is discharged by mistake to fiscal deposit, has to be removed from there within 48 hours; otherwise it must be added to the cargo manifest as a surplus discharge.

A tariff in the style of railway tariffs is in force with a variety of charges, all depending on the class and nature of the cargo that is being trans-shipped. Therefore, Shipowners, their Agents and Forwarding Agents should, in every case, communicate with their Agents in Buenos Aires to ascertain the exact cost of these charges. Subsequently to the new tariff being enforced, various increases were declared, so that the extra freight on cargo trans-shipped is now an important item to be considered when accepting through bookings.

Delivery of cargo. The receiver of the merchandise or holder of the Bill of Lading must deliver this document to the Custom House to clear the goods. The merchandise, whether for deposit of direct despatch is delivered to the Consignees without the intervention of the Master of the vessel or the Agents. The Bill of Lading remains with the Custom House, under whose control the cargo is delivered. The Custom House verifies the legitimacy of ownership, and whether all the import dues or services have been paid on the merchandise before leaving warehouse.

Collection of freights on imported goods. In the Argentine, the Custom House releases the cargo, and not the Agent, therefore the only means of ensuring collection of freight when payable at destination, is for the Agent to place a judicial embargo on the entire cargo. This action necessitates the Consignee first obtaining the Agent's conformity to the documents before the Custom House will accept them and deliver the goods.

Without an embargo the Agent, once he has presented the Cargo Manifest, cannot intervene between the Custom House and Consignee. Not even the retention by Shipper of all the signed original Bills of Lading is a safeguard, because the Custom House, which is only concerned with the delivery of the cargo to the lawful Owner and is in no way concerned with the freight payment, will deliver the cargo against production by consignee of a bank guarantee that the Bills of Lading will be forthcoming in due course.

From the foregoing it may be gathered that freight should always be prepaid when possible.

The Custom House usually does not release the cargo, if the Bills of Lading are claused "Payable at destination", until the importer produces an account for freight, duly receipted by the Agent, but this is not a sufficient cover, as the Customs are not under any legal obligation to effect this control, and therefore cannot be held responsible for the freight of goods delivered without it being paid.

Cargo discharged to or loaded from vehicles. The Custom House Administrator has authorised the access of vehicles of all classes to the quays of this port for the reception or delivery of cargo of any class, size or weight.

It is necessary for the importers, exporters or Custom House brokers to obtain a permit for this, and the applicant is held responsible for any damage to port installations caused by said vehicles. Sufficient space must be left between truck and sheds to allow passage of Port Authority vehicles and fire engines.

The authorities will not be responsible for any accidents to the vehicles, their crew or their cargo. The vehicles must be so handled as not to interfere with the railway traffic.

Discharge of Inflammables. This is now permitted in the Port of Buenos Aires under strict security control.

Discharge of Sulphur. It is compulsory to have a motor launch fire extinguisher alongside vessels during the discharge of sulphur. An extra man is also required at each hold for carrying water to the stevedores.

Delivery of fresh fruit. The Custom House allows the consignees of fresh fruit to take away their cargo immediately on vessel's arrival, upon presentation of a special permit endorsed by a bank and Agents, and whereby the receivers guarantee presentation of the Bill of Lading in due course.

Placing of Lighters between Vessel and Wharf. When lighters are placed between the vessel and the wharf for the convenience of discharging a vessel's hold, full Port Service Dues are charged.

Lighters may be placed between the vessel and the wharf when the vessel's work to shore is not interfered with thereby. In such cases the vessel will continue to pay full dues. Lighters are, in fact, not considered as occupying any berth unless they are allotted a special berth by the Custom House to load or discharge. It is only when lighters are so commissioned by the Custom House, that a vessel going alongside these lighters would be charged in the category of a vessel lying second off.

Discharge of Heavy Lifts. There are three floating cranes, one for lifts of up to 60 tons, another of 100 tons and a new one of 250 tons. The first two may have lost part of their capacity. The 250-ton crane can navigate carrying its cargo, so making special movement of the vessel unnecessary, but the two smaller cranes must operate between ship and shore in swivelling movement.

There is also a floating crane capacity 30 tons belonging to the Navy, and two others, each 75 tons capacity, belonging to the State Fleet.

Hire counts from getting the crane alongside, and in condition to work, until work is completed, plus an extra hour to compensate crews from getting the crane back to its mooring place. Slings must be supplied by the lessee, and no responsibility is accepted for damage or breakage, the charge being on a tonnage/hour basis.

The 250-ton crane is not self propelled, and has a length of 45 m., 23 m. beam and a draft of 5 m., displacing 1,400 tons. If required it can be used in salvage operations, towage being for account of lessee.

Normally these cranes, except for the 250-ton crane, navigate under their own power, but the Craneman has the right to employ a tug or tugs for lessee's account when he considers it necessary and two tugs are also generally employed.

Wharf Cranes. The hire of shore cranes is charged by the Port Administration to the Agents of the vessel requesting their use. Special permission must be obtained for overtime work, and also to have shore cranes handle ship's machinery, ballast, or any other non-commercial commodity.

Movable Cranes. Charged per hour from arrival until work finishes. These are used for shifting cargo from one wagon to another, or for shifting cargo for convenience of consignees.

Advertisements. Advices of arrival of vessels with cargo, inspections of general cargo and notices of general average are published in the local press.

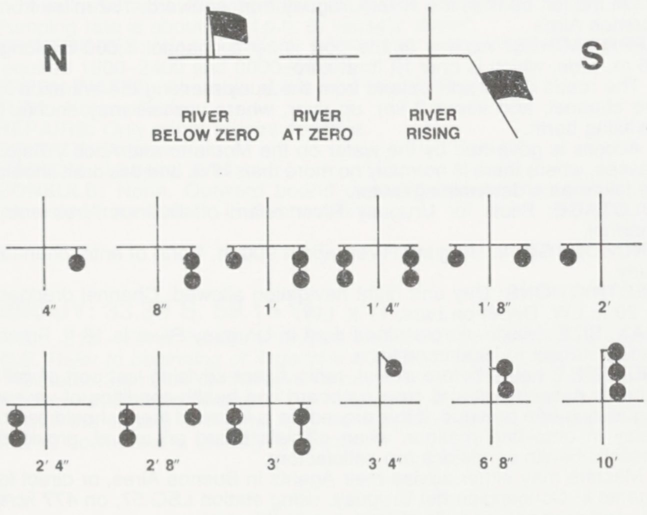
Notarial Protest and extensions. When vessels arrive with cargo it is customary to note protest before a Public Notary, for which there are fixed fees per page to be filled in, plus further fees should an extension be necessary later.

TIDAL SIGNALS: The following tidal signals, shown from a semaphore on the North side of the entrance to South Basin Lat. 34° 38′ S. Long. 58° 21′ W. (approx.), indicate the height of the water above or below zero.

The signals are made with balls and black flags by day and with flashes by night as shown in the diagram below, seen from the Anteport looking out towards the river.

To indicate that no signals are being made at the semaphore, a flag is hoisted to the masthead, and another at the yard-arm.

SIGNALS BY DAY



SIGNALS BY NIGHT

(White flash) Cycle: 30 seconds.
(Red flash) Long flash: 2.5 secs. each.
(Green flash) Short flash: 6/10 sec. each.

White flashes — Rising tide: One long.
Falling tide: Two short.

Above zero:
Red flashes — For each metre: One long.
for each 10 centimetres: One short.

Below zero:
Green flashes — For each metre: One long.
For each 10 centimetres: One short.

Zero:
Green and red flashes — One green and one red, both short.

A weekly bulletin is issued by the public works ministry and widely distributed among Pilots and Agents reports depths referred to the zero of the Riachuelo Indicator in channels, passages, basins and berths and it is possible to know the real depths at that moment in each part of the port area.

GENERAL: *Port Zone.* No one is permitted to enter the port zone on Sundays or holidays, or any working day after 1800 hrs., unless supplied with a pass. Visitors to ships must have cards issued by the Agents and approved by the authorities.

There are several access gates open during day time, but after working hours and on Saturdays/Sundays and holidays only those at Cangallo Street (by Dock 4) and Maipu (New Port) are open on a 24-hour basis.

Allotment of Berths. Vessels to discharge are allotted berths by the Port Authorities in strict turn, as from arrival in the roads, and according to the nature of the cargo to discharge or load and its quantity. A certain time is granted for completing operations, though an extension can usually be obtained, the Port Authority reserving the right to order a vessel out if operations are not completed on time.

Berths are allotted in South Dock when the greater part of a vessel's cargo is for the factories in that zone.

Berths at the Elevators. These are allotted in accordance with the certificate given by the National Grain Board, and in strict order of arrival in the roads.

Time limit for occupying berths and commencing operations. Vessels which do not commence operations within four hours of the first ordinary period, are liable to have the berth given to others. Similarly those which suspend operations without due cause may lose the berth.

ELMA berths in New Port. Any vessels may solicit one of the reserved berths, if vacant, but must shift as soon as a State vessel requires the berth.

Discharge of Inflammables. Consignees must take delivery from alongside. Should Customs clearance for such cargo not be ready, it must be discharged into lighters and the authorities will indicate where it must be placed.

Entrance. Vessels can enter or leave at any time of day or night, with advance notice to the authorities.

Movements. Vessels are not allowed to shift if their draft is not at least ten inches less than the depth of water on the semaphore, with a rising river. No vessel can interrupt the operations of another to shift within the port, but if ready to sail, the other vessel must facilitate its departure whatever the hour may be.

All vessels moored alongside one another, at the quay, must reciprocally facilitate their operations, and open out when the vessel on the inside finishes her operations, and must leave or change berth. They must also make room for lighters with cargo for the vessel next to the quay, outside working hours.

When a vessel has to shift along the quay up to one ship's length to discharges or load from another hatch, neither towage nor pilotage is necessary when the shift is between the forward hatches, or the after hatches. Prior permission must be obtained.

Shifting from North to South or vice versa. There is no set rule, but usually vessels going from say, South Dock to New Port, will let tugs go and sail out to Intersection Roads to turn round and take up tugs again in the North Channel. It is also possible to have tugs follow out to km. 9, where the North and South Channels meet, turn there and come into the new berth with the same tugs, if length of vessel permits.

It is for the Master and Pilot to decide where the vessel will turn, depending on weather, draft, current, etc.

Opening of Dock bridges. The established time table, twice an hour is not observed, and Agents arrange for this when a vessel is ready to move through. Vessels should not attempt to pass the lock gates if clearance is less than ten cm. and the river is not rising. It must be remembered that the sole of the locks in each case is of concrete.

It is frequent in Madero docks to see vessels resting on the soft muddy bottom.

Prefecture Control. On both entering and leaving the Prefecture officers may control with the crew list that all members of the crew are on board, particularly on sailing.

Draft on sailing must be checked by the Pilot and Master, and duly recorded in the Pilot's book. Load lines are strictly checked; in case of hogging, drafts fore and aft are taken while in sagging marks will prevail.

Shiftings and manoeuvres in port are carried out under the responsibility of the Master, but Pilots are also responsible, at least to the Prefecture, since they are under direct authority and at the same time considered assessors to the Prefecture.

Trim is also controlled, no list is allowed, and maximum tolerance for difference of draft fore and aft is 6 to 7 ft. according to vessel's length overall. Vessels should not be down by the head.

Hatchways. All hatches must be kept closed when a vessel is not working. If hatches are found open when a vessel is idle, the vessel is fined.

Garbage. A garbage barge goes round the port every morning to take away the garbage, which must be left in drums slung over the stern ready for lowering into the barge. It is also possible to arrange for a barge to take off refuse from holds, old dunnage, bedding, etc. Collection is often a rushed affair, and good watch must be kept for the barge. Fines are imposed if garbage is not removed.

Working Hours. Ordinary working hours are now fixed as from 0700 to 1300 and 1300 to 1900 hrs. Tugs are now also on this same time table.

Overtime can be worked from 1900 to 0100 hrs. and from 0100 to 0700 hrs., but Stevedores are not allowed to take two consecutive shifts.

Custom House guards and other official workers follow the same schedule from Monday to Friday, but earn overtime on Saturdays, Sundays and holidays.

TELEPHONE: There is no special installation for vessels in port. Many Agents have one or more lines of their own, which can be placed on board, if there are connections available in that sector. The telephone company makes a connecting charge each time, at a high cost to the vessel, plus the usual charges for the service.

SHIPMASTERS' REPORT: September 1980.

Documents: In additon to the papers mentioned in the "Guide" the following papers were requested.

2 Vaccination lists. (Especially with smallpox information).
3 Arms lists.
2 Crew lists with the numbers of the passports.
1 List of loading ports of the last voyage with dates of arrival and departure.

The I.D. cards were checked before departure and stamped again.

AUTHORITY: Administrador del Puerto Buenos Aires.

CAMPANA: 35.15 S. 58.58 W. (See Plan Book)

(Province of Buenos Aires) "B" category port.

N.B. Refer to beginning of Argentina I and River Plate Ports.

On the left bank of the Parana de las Palmas arm of the Delta from seaward, 155 miles by river from Buenos Aires, Martin Garcia, or 60 miles via Mitre Channel.

The port is mainly used for receiving and despatching petroleum and its products. There are also facilities for handling timber and general cargo, as well as steel tubes for the petroleum industry, both for internal requirements and for export, which are made here.

PILOTAGE: Compulsory.

RESTRICTIONS: Draft is controlled by depth of water at Martin Garcia Bar. Daily draft forecasts made by local authorities. See "Mitre Channel" (in River Plate section).

MAX. SIZE: Up to 27 ft. draft, dependent on local river conditions.

HEALTH: Free Pratique can be obtained in the usual way, by notifying Buenos Aires Agents. Tankers lightening part of their cargo in Buenos Aires Roads, can take pratique here, provided that the convoy formed by the tanker and barges follows up to Campana, and no one on board has any contact with shore until after the medical visit. If the vessel is "unclean" however, pratique is taken before lightening.

RADIO: Use Buenos Aires stations for overseas, but for traffic control this comes under Zarate VHF (Channel 14) LSO 23.

TUGS: Required for vessels over 120 m. LOA.

BERTHS: From North to South the berths are:

Dalmine: At km. 98.5 on the Parana de las Palmas, (from Buenos Aires), and 2 km. above Campana port. A newly installed marginal wharf, 185 m. long, in 35 ft., with flashing yellow lights at either end. Discharging of iron ore is by grab to a travelling hopper, working the full length of the wharf, leading to an endless belt at the Western end, and thence to stockpiles ashore; Air draft below the discharging arm is 23 m. (depending on river level) and maximum operating distance off is 22 m. from the line of the rubber fenders on the wharf.

Theoretical discharge rate is 800 t.p.h., but in practice only 4/500 t.p.h. is obtained.

This plant now produces its own steel, for use in making seamless tubing for the petroleum industry; installed capacity is 800,000 tons per annum, shipped over the National Mole at Campana itself.

National Mole. 20 ft. alongside, used for shipment of the steel tubes and movement in general. The mole is 116 m. long, with three electric cranes, 4 ton capacity and two mobile cranes.

Esso Mole H. Concrete pierhead, 16 m. long, over which crude oil is discharged through an 8 in. line. there is deep water at this mole which is mainly used for import cargo. There is also a belt conveyor equipment for loading petroleum coke in bulk.

Esso Mole G. A mile South of Mole H, fitted with an 8 in. line for discharge of crude from smaller tankers, in 18 ft. Length 14 m.

Esso Mole E. 130 m. long, with 24 ft. There are two intakes on this mole, of 6 in. the former being used for shipments of clean products and the latter both for crude and for shipment of clean products.

Esso Mole F. In 26 ft., 16 m. long, with a 10 in. line which can be used crude and for lubricants.

200 m. downstream there is a wharf, 70 m. long, in 14 ft. used for discharge of timber and sand.

There are no facilities for handling of grain or other produce.

MEDICAL: Doctors and hospital available.

DENSITY: Fresh water.

FRESH WATER: Available at Esso Moles and National Mole.

FUEL: Available at Esso berths. No barges.

CONSULS: Italy.

REPAIRS: Can be effected.

DEVELOPMENTS: Studies are now being made for improving the port installations as the Mitre Channel is now operating, as this is the first upriver port, and the zone is highly industrialised, with much movement for export to Buenos Aires by road and rail.

AUTHORITY: Administracion de los Puertos Parana.

CONCEPCION DEL URUGUAY: 32.29 S. 58.12 W. (See Plan Book)

Km. 183 – River Uruguay (Province of Entre Rios) "B" category port.

N.B. Refer to beginning of Argentina and River Plate Ports.

On the left bank of the River Uruguay from seaward, 182 miles from Buenos Aires.

APPROACHES: Access to the port is by a channel 1,000 m. long, 45 m. wide, which is now 19 ft. at zero.

The roads of the port extend from the buoy marking the entrance to the channel, and about 2 km. up river, where vessels may anchor if awaiting berth.

Access is governed by the water on the Montana and Altos y Bajos passes, where there is normally no more than 17 ft. and this draft should be taken as a determining factor.

PILOTAGE: Pilots for Uruguay River board off Buenos Aires entry channel.

ANCHORAGE: In Uruguay River, about 900 m. North of entry channel buoy.

RESTRICTIONS: Day and night navigation allowed. Channel dredged to 20 ft. LW. Depth on bars, 17 ft. LW.

MAX. SIZE: Maximum permitted draft in Uruguay River is 18 ft. Fresh water, subject to local conditions.

HEALTH: 8 hours before arrival, radio Agent advising last port of call, number passengers and crew on board and health condition of vessel requesting free pratique. If this procedure is followed there should be no delay in obtaining pratique when officials board on arrival, provided vessel's health conditions are satisfactory.

Masters may either advise their Agents in Buenos Aires, or direct to Agents in Concepcion del Uruguay, using station LSQ 57, on 477 kc/s A1, and may proceed direct from sea to this port.

RADIO: The port station LSQ 57 transmits daily information at 1300 hrs. GMT on the state of the River Uruguay from San Javier to Gualeguaychu. It operates on 477 kc/s, A1 power 0.5 kW.

TUGS: Compulsory both for entering or sailing and for movements in port.

BERTHS: There is a quay frontage of 1,500 m. of which 1,100 m. are for ocean-going vessels, with presently 19 ft. alongside at zero. The other 400 m. is for river traffic.

There are 5 cranes on the quay, 1 of 5 tons, the others of 3 and 1 tons, and there are 2 portable 5 ton cranes.

New elevator capacity 20,000 tons, working with one tube 300 t.p.h.

There are several wharves at the South end of the mole for discharge of tankers.

Due to silting alongside quay, vessel should be prepared to be fendered about 1.5 m. off the quay.

MEDICAL: All medical facilities available.

TANKERS: Two berths for tankers up to 18 ft. draft.

YPF Berth: Eight hose connections, 12 in. and 6 in. diameter.

Esso Berth: Hose connections, 8 in. for naphtha, 6 in. for other products.

DENSITY: Fresh water.

FRESH WATER: Available, there are several hydrants of 1.5 in. diameter on the mole.

FUEL: Available from the State Oil Company at the pier, or by drums from other suppliers.

REPAIRS: National and privately owned workshops for all types of minor repairs.

DRY DOCKS: One, owned by Ministerio de Obras Publicas, length 70 m.

REPATRIATION: Can be arranged subject to Immigration formalities.

AIRPORT: Situated 3 km. away, with daily services to Buenos Aires.

CONSULS: There are Italian, French, Spanish and Uruguayan representatives.

POLICE/AMBULANCE/FIRE: Police tel. 2222; Fire Service tel. 2860; Ambulance tel. 1792; Hospital tel. 2464.

TELEPHONES: Arrangements can be made for placing telephone on board.

SHORE LEAVE: Permitted subject to Immigration control.

AUTHORITY: Capitania del Puerto Concepcion del Uruguay.

DIAMANTE: 32.05 S. 60.33 W. (See Plan Book)

Km. 533 – River Parana (Province of Entre Rios) "B" category port.

N.B. Refer to beginning of Argentina and River Plate Ports.

On the right bank of the River Parana from seaward, above Rosario and 286 miles by river from Buenos Aires.

APPROACHES: There is ample depth of water in the port and approaches, which is governed by the water on the various bars on the river, the shallowest above Rosario being Isla de los Pajaros, at km. 468 to km. 473.

PILOTAGE: There is no resident port Pilot, and Pilot has to be ordered from Rosario. Minimum 10 hours notice required. The river Pilot ends his duties in the outer roads. Vessel must sail to make Los Pajaros Pass in daylight.

HEALTH: Vessels arriving directly from abroad must take Free Pratique at San Nicolas or Rosario, with the usual pre-advice to Agents there, which is essential for preparation of Notice of Readiness.

RADIO: Nearest station is Rosario LSQ 38, on 477 kc/s. A1 LSQ broadcasts daily, at 1305 hrs., the depth of water in the Parana River from Los Ratones to Los Pajaros, and also the minimum depth between Santa Fe and Rosario.

TUGS: None available locally, but one tug is required on sailing from the new elevator berth and has to be ordered from Santa Fe.

BERTHS: Grain is loaded from the new elevator at the North end of the port, section 4, where there is 30 ft. Only one vessel may load at a time. Loading rate is up to 600 tons per tube per hour, work being possible with two tubes simultaneously.

It is possible to load a second vessel, lying second off, if the beam of the vessel alongside permits.

Storage capacity in port is about 50,000 tons, of which 20,000 tons are in elevator at section 4.

There are tanks for vegetable oil with a capacity of 4,000 tons. Pumping rate is about 120 t.p.h. to vessels' tanks.

STEVEDORES: Working hours: 0600–1200, 1200–1800. Overtime if required 1800–2400 and 0000–0600 hrs.

FRESH WATER: Available at the new elevator berth.

FUEL: Not available.

REPAIRS: Only minor repairs possible.

DENSITY: Fresh water.

MEDICAL: Hospital available.

CONSULS: None. Outward bound consulate despatches should be requested from Rosario or Buenos Aires.

IBICUY: 33.39 S. 59.15 W.

Km. 218 – River Parana (Province of Entre Rios) "B" category port.

N.B. Refer to beginning of Argentina and River Plate Ports.

Situated 3.5 miles up the River Ibicuy, on the right bank of the River Parana Pavon from seaward, 177 miles from Buenos Aires by river.

With the closing of the rail ferry from Zarate this port has now been closed down, and is unlikely to reopen.

LA PLATA: 34.54 S. 57.55 W. (See Plan Book)

(Province of Buenos Aires) "B" category port.

N.B. Refer to beginning of Argentina and River Plate ports.

This port is situated on the left bank of the estuary of the River Plate from seaward, 30 miles South of Buenos Aires. It is the capital of the Province of Buenos Aires and is rapidly becoming industrialised.

APPROACHES: Access to the port is by a channel, which leaves the main entrance channel to Buenos Aires at km. 57. It can be dredged to 28 ft. maximum. La Plata Roads extend for 3.5 miles from the moles.

PILOTAGE: Coming from the sea, or Montevideo, the Recalada or Uruguayan pilot will take the vessel to La Plata Roads 27 ft. where a La Plata port Pilot comes aboard.

From up river to La Plata, the river Pilot is dropped at Intersection, where a new Pilot takes the vessel to La Plata Roads for the port Pilot to come aboard.

ANCHORAGE: Four miles S.E. of Recalada.

RESTRICTIONS: Vessels navigating in the entrance channel have preference over those in the River Santiago, and those which by reason of size must turn at Four Mouths have priority over others in their vicinity.

There must be no crossing or overtaking of vessels over 60 m. long or 9 m. beam, or 20 ft. draft and for this reason vessels ready to sail from Gran Dock will not let go while any vessel is entering by the entrance channel.

Vessels over 190 m. in length can only manoeuvre in daytime, with a minimum visibility of 1,500 m. and with a wind not exceeding 10 knots.

On entering or sailing on a rising tide minimum depth cannot exceed vessels draft, and on a falling tide there must be 50 cm. (1 ft. 8 in.) under the keel.

Regulations for the Santiago River Channel prohibit movement between sunset and sunrise for vessels over 140 m. long, or drawing over 24 ft. Vessels over 11 m. beam cannot cross or overtake, and vessels in this channel must not interfere with those moving in Four Mouths (Cuatro Bocas).

MAX. SIZE: Regulations limit length, beam and draft to 215 m., 30 m. and 9.15 m. (30 ft.) respectively.

HEALTH: Free Pratique — radio messages should be sent direct to Agents in La Plata if vessel is entering direct.

RADIO: Station LOM 524 kc/s., A2. State oilfields have a VHF service, range 50 km. for communication with their vessels on 156.5 Mc/s. during the first 15 minutes of each hour.

TUGS: Two tugs must be used, each of a minimum 820 h.p. Normally join vessel in entrance channel.

BERTHS: The port comprises Rio Santiago, Gran Dock and the Propulsora berth, 5 km. up the river Santiago, also known as Port Ingeniero Rocca.

Rio Santiago: The grain elevators on the West side of the entrance channel are no longer in use, and their installations would require considerable repair. This berth is 450 m. long, due West of the Four Mouths turning basin. Four tanks for reception of liquid chemicals have been installed here, capacity 2,300 tons.

There are no fixed cranes at the berths, but a number of mobile units are in use. No lighters are available, unless brought from Buenos Aires.

Of the two Packing plants, one, Armour, is completely closed down and would need considerable repair to re-open. The other, Swift, is operating at less than capacity, for local demand, and any export meat is trucked to Buenos Aires for shipment.

Gran Dock: Seventeen berths, depth 26 ft. alongside. Also see "Tankers".

Berth No. 11 at the N.W. end of the dock is used for handling Ammonium Nitrate, in 1,000 ton lots. There are no sheds or cranes here, though portable cranes are available. Smoking is prohibited within 25 m. of either end of the ship on shore, and no naked lights are allowed on board.

Maize and sugar is loaded over this berth (slitting bags) and it is also used for discharge of steel in rolls for Propulsora when the one berth at Ing. Rocca is occupied.

Berth No. 10 is used for petroleum coke, about 10,000 tons monthly, which is stockpiled alongside. Vessels should have their own grabs for use on their own gear and normal yield is 4,000 tons in a 12 hour double shift day.

The old grain elevators on the Western head of Gran Dock are no longer in use and the proposal to repair them has been shelved. The wharf here is 380 m., and there are 4 tanks for reception of imported chemicals.

The two old packing plants on the Eastern side of Gran Dock were sold early in 1978, but nothing is yet known of their eventual use. The ex-Armour plant is completely closed down and the ex-Swift plant working for local demand only.

Propulsora: A cold rolling steel mill has been built inland and a 5-km. channel dredged to 30 ft. from "Cuatro Bocas". There is one berth here, 154 m. long, though vessels of up to 205 m. LOA have operated here. The material used in the mill is imported in coils, and exports of cold rolled sheets and wire are also handled. There are two cranes, 30 ton and 32 ton capacity and combined rate of discharge is 500 t.p.h. Work is continuous.

Some 600 m. from the wharf itself, there is a turning basin 300 m. diameter. Vessels go in bow first, as there is less water to the South end of the wharf, and turn in this basin before returning down channel to La Plata proper. Only one vessel can operate at a time here. Vessels are secured to bollards on shore at the bow, and a mooring buoy astern.

TANKERS: *Gran Dock:* There are 11 petroleum intakes in Gran Dock, including one 24 in. line and several of 16 in., 14 in. and 12 in. At No. 5 there is an 8 in. connection from the Petrochemical plant some 6 km. away for loading of benzene and other petrochemicals.

The turning basin at the South end of the Dock is 180 m. in diameter, and for those vessels unable to use this there is turning space in 27 ft. at Cuatro Bocas, the junction of the Santiago River, access channel and Gran Dock. Vessels using this must turn here and reverse to their berth in the Dock, usually for Nos. 11, 10, 4 and 5 only.

Special regulations for Gran Dock permit vessels to moor with bows either inwards or outwards, indiscriminately. Those moored bows inwards (facing South) will be assigned, preferably to intakes 4, 5, 10 and 11, and must sail immediately after finishing operations, taking preference over others about to sail.

Vessels between 175 and 215 m. length, or drawing 22 ft. or more can navigate ahead or astern, and will turn in Four Mouths on entering or sailing as the case may be. When such vessels are moving stern first, the Prefecture will make sure that there are no craft of more than 5 m.

beam moored on either side of the Armour Freezer, shifting these if necessary.

Vessels of less than 175 m. length or with a draft of less than 22 ft. must turn in the Turning Basin on entering or sailing.

Turbine steamers of over 140 m. in length will only use the Turning Basin in daylight.

For safety reasons there must be one tug and one fire-fighting craft on service and ready to sail.

No mooring second off is permitted except for tugs and vessels receiving dirty ballast or liquid from cleansing of tanks, or when supplying steam.

Degassing tanks is prohibited in port.

Heated repairs can only be carried out under deck and on special authorization from authorities.

MOORING: Vessels of up to 150 m. length will employ 4 men for mooring, and those over 150 m., 6 men. Mooring hours in ordinary time are from 0600/1800 hrs. on week days, 0600/1200 hrs. on Saturdays. There is a 50% extra from 1800/2400 hrs. on week days or from 1200/1800 hrs. Saturdays, and 100% at all other times.

SEMAPHORE: For night signalling of the depth of water in the access channel, the system is similar to that at Martin Garcia and Riachuelo, Buenos Aires. By day signals are hoisted on a tower at km. 4,460 on the access channel arm if tide is rising. If the river is stationary or falling, no flag is hoisted.

MEDICAL: Doctors and hospital facilities available.

FRESH WATER: Delivery by barge, capacity 300 tons and pumping with barge's own pump, 100 t.p.h. There are also connections at the berth.

FUEL: Available alongside and by barge.

REPAIRS: All repairs can be effected except those requiring a dry dock.

CONSULS: Following countries are represented in La Plata: Belgium, Brazil, Great Britain, Italy, Norway and Spain. All other consuls at Buenos Aires.

SHORE LEAVE: Allowed, provided crew members in possession of Identification Cards.

AUTHORITY: Capitan de Puerto de La Plata.

RAMALLO: 33.32 S. 59.59 W. (See Plan Book)

Km. 326 – River Paraną (Province of Buenos Aires) "B" category port.

N.B. Refer to beginning of Argentina and River Plate Ports.

APPROACHES: The port is on the left bank of the Parana from seaward, where the river is divided into two by the Isla de las Hermanas. Traffic up river normally keeps to the starboard channel at this point, or the port when downstream and the entrance into Ramallo, although buoyed, is not lighted. No depths are given for the access but as a guide, when the main channel of the Parana is at say 24 ft., then vessels can safely load to 18 ft. in Ramallo. However, with the building of a new elevator, 20,000 tons capacity to replace that damaged some years back, movement has recommenced and the River Bulletin publishes 21 ft. for the elevator mole, and 24 ft. 6 in. for the hardboard mole. Nevertheless, it is advisable to check on access depths.

PILOTAGE: According to the Maritime Digest, port Pilot must bring the vessel in from the main channel, and take her out there again, a distance of 5 miles. The Roads are technically in the main Parana, but it is usual to anchor 150 m. off the wharves. 6 hours notice required for Pilot as he has to come from Rosario.

RADIO: Agents at San Nicolas must be contacted either through Buenos Aires Radio, or via Rosario, LSQ 38, on 477 kc/s. A 1.

TUGS: None required; in case of need they could be brought from Villa Constitucion.

BERTHS: Apart from two damaged moles, out of use, there are, from South/North:

Grain Board Mole. There is an elevator, capacity 12,000 tons and two loading belts, load rate 250/300 t.p.h. each. The berth, for one vessel not over 145 m. length, consists of a small jetty and several dolphins and two mooring buoys.

National Mole. Concrete wharf 100 m. long, with three sheds on it, used by sand hoppers, and by river craft.

Fiplasto Mole. Used for discharge of fuel to the hardboard factory, from tankers. There are two dolphins with 24 ft. 6 in. water. As the current runs fast here, vessels may roll with any wind, and it is recommended to put out more ropes than usual, both fore and aft.

FUEL: Not available.

FRESH WATER: Not available, except by drums from a tank on the National Mole.

MEDICAL: Attention available, but no hospital.

CONSULS: None, consular clearances can be effected at San Nicolas.

REPAIRS: No repair facilities.

ROSARIO: 32.57 S. 60.33 W. (See Plan Book)

Km. 420 – River Parana (Province of Santa Fe) "B" category port.

N.B. Refer to beginning of Argentina and River Plate Ports.

APPROACHES: Outer Roads, between buoys 410 and 413.

PILOTAGE: The port Pilot will come on board off km. 411, by launch. Vessel should whistle for him if not here to meet the ship (2 long, 1 short).

ANCHORAGES: Between kilometres 410 and 413. Both anchors should be used.

RESTRICTIONS: *Fog.* In thick fog, special permit must be obtained to enter or leave. There is an average of 6 days fog per month in the period April/August but only 1 day per month in the rest of the year. Electric storms are frequent.

Maximum speed in Zone. From Saladillo stream North, there is a limit of 6 knots, up to Punta Barrancas.

There are no restrictions as to length and breadth of vessels, but draft and size of vessels are subject to river depth, which is very variable and no standard information can be given. Vessels up to 27 ft. draft are permitted to navigate the River Parana up to Rosario and San Lorenzo, provided vessels speed exceeds 10 knots and that there is at least 1 ft. keel clearance. Above Rosario controlling depth 22 ft. Vessels loading in Parana Ports must keep close contact with Agents for daily forecasts of admissible draft crossing Martin Garcia Bar to avoid risk of overloading and consequent delays.

HEALTH: Free Pratique, use Radio LSQ 38, on 477 kc/s., or via Buenos Aires Radio.

TUGS: Two tugs are available, controlled by Port Authority. However tugs are not normally required for berthing or unberthing.

RADIO: All messages through Pacheco Radio, call sign LPD, operating on 425 kHz. Pilots equipped with VHF radio Channel 16.

BERTHING: A new concrete wharf, 616 m. long, is ready just North of Unit 6 (previously Unit 13), and immediately behind this a larger basin is being built, to 30 ft., which will add 4,250 m. of new quay frontage to the port. It is intended to centralise here the movement in fuels, coal, gravel, sand, etc., and to use it for discharge of grain barges which now form a large part of the pusher trains in use on the river, and which have materially changed the type of river transport. Dredging of the basin itself is ready, but the necessary retaining walls or wharves have not been commenced, so that much of the dredging effort is being lost through crumbling of the sides: Work continues on a 80,000 ton elevator (Unit 7) South of the 616 m. wharf, to load either to the river side or into the new basin berths, to the West, but work has also been delayed.

At the present time, the situation from North to South of the various piers is as follows:

Montserrat Wharf. Used by river craft only.

Unit I. Of the 4 jetties, only Nos. 1 and 2 are in use, and can deliver 170 tons of grain per hour each, accommodating one vessel in 21 ft.

Refineria Argentina Mole. In use for discharge of fuel oil only.

Unit II. Only 1 berth in 24 ft. 9 in. with 2 spouts, 200 t.p.h. each or 125 tons by-products.

Unit III. Known previously as Unit IV, can work with 2 tubes, 250 tons each, berth for 1 vessel only. The space between Units II and III is now out of use.

Unit IV. This is still under repair, a belt joining the 3 sheds previously known as Units 5, 6 and 7 is being installed. Eventually there may be 2 loading tubes and berth for 1 vessel.

Old Unit No. 8 has been dismantled and taken to Victoria.

Deposits 3 to 30. These still exist, but the area 3 to 17, originally allotted to Bolivia for use as a Free Zone, has now been replaced by the transfer of sheds 23 to 30 to the Bolivian zone.

In 1978 only sheds 23/4 and 25 had been readied for Bolivia, using a frontage of 342 m., with 3 portal cranes. The final transfers will be for a total of 54,667 sq.m., against the present 17,300 sq.m. and a frontage to the river of 998 m. There is no indication as to when this longstanding agreement will be fulfilled, and in the meantime, the area of sheds 3 to 17 is being used for transhipping cargo to Paraguay.

Sheds 29/30 have been rented, and the wharf being used in breaking up the navy aircraft carrier.

Unit V. Is the Old Unit X, renumbered. Two vessels can berth here and there are 2 spouts workable per vessel at 200 t.p.h. each spout.

What was Unit XI is now rented for the storage of oilseeds, and Unit XII has been dismantled. Vessels can berth here to load expellers by belts.

New Pier. At this point the new pier, 616 m. long, has been finished, though with no cranes installed as yet, lines being in place for the expected portal cranes. Neither are there any sheds and for the moment the wharf is used for loading expellers, ex truck, over portable conveyors and vegetable oil ex-tank. There is a 30 m. gap between the South end of the wharf and Unit VI, with a slight change in line of the river front. The former petrol storage tanks, behind the elevator, are now used for vegetable oils, load rate 120 t.p.h., one line. Tank capacity total 3,200 tons.

Unit VI. The South Elevator, previously numbered XIII, now has 29 ft. at zero, and can handle 2 vessels, if both under 150 m., or one if over that length. Load rate is 1,200 t.p.h per berth, over 3 tubes to each vessel, or 5 tubes if to 1 vessel only (2,000 t.p.h.). Storage capacity is 125,000 tons. A further 360,000 tons storage capacity in the underground deposits in the cliffs on the far side of the future river basin will eventually be connected to Unit VI. At present their cargo is shifted to truck or rail.

Immediately South of the existing elevator a new 80,000 ton elevator is under construction, and which will form part of the Unit VI complex, which will then have 6 berths to the river front, and possibly others to the river basin. Expected to be ready 1980/81.

Entrance to the future river basin will be South of the extended Unit VI, and to the North of the Meat packing plant and cattle ramp, while South of this a shipbuilding yard is under study. The pier at the packing plant is 175 m. long.

The port zone proper ends at Saladillo stream, on the South side of which the Swift Meat Packing plant has a pier, 175 m. long, for the loading of its products. There is also a line here for loading vegetable oils in bulk, capacity 100 t.p.h.

The projected basin will have its entrance between the Inflammables zone and the Cattle berth, and South of the Cattle berth a shipbuilding yard is projected.

Cranes. There are a large number of electric cranes, and the port is built in such a way that with few exceptions all cargo discharged must be handled by shore cranes. If the river is high, and shore cranes cannot operate to the vessel, the ship may discharge to shore, for the shore crane to place on railway cars, etc.

Bills of Lading covering lifts of 2.5 tons or more should be claused in such a manner that any extra expense in landing them is for account of the cargo.

Floating cranes. There are two, 90 and 50 tons.

Allotment of berths. May depend on the availability of grain to the particular shipper, but normally berths are allotted in order of arrival.

Fenders. Vessels must use fenders for keeping them off, and can use their own or hire from the port.

Ashes, etc. Arrangements can be made with Agents for daily removal.

STEVEDORES: Gangs supplied according to vessels requirements by private companies under Government supervision.

Normal capacity per gang, per shift:
20 to 25 t.p.h. frozen meat.
120 to 140 tons per shift general cargo.

MEDICAL: Private and state-owned hospitals. All facilities available.
TANKERS: Discharge at Moles 3 and 4.
FRESH WATER: Only available at the berths on the Southern part of the port, except at the new wharf.
FUEL: All grades available, by barge.
REPAIRS: All repairs excluding dry docking, can be effected.
AIRPORT: 16 km. from port. Daily flights to Buenos Aires.
CUSTOMS ALLOWANCE: 60 cigarettes per day, and 2 bottles spirits each man.
CONSULS: The following countries are presented at Rosario:

Belgium
Brazil
Chile
Denmark
Dominican Republic
Ecuador
Finland
France
Germany
Great Britain
Greece
Italy
Lebanon
Netherlands
Nicaragua
Norway
Panama
Paraguay
Peru
Spain
Sweden
Switzerland
Syria
Uruguay
Yugoslavia

POLICE/AMBULANCE/FIRE: Police 29071; Ambulance 45600; Fire 20147.
TELEPHONES: Can be placed aboard.
SHORE LEAVE: No restrictions.
AUTHORITY: Rosario Port Administration.

SAN LORENZO: 32.45 S. 60.38 W. (See Plan Book)

Km. 442 – River Parana (Province of Santa Fe) "B" category port.
N.B. Refer to beginning of Argentina and River Plate Ports.

On the left bank of the River Parana from seaward, 16 miles above Rosario and 238 miles by river from Buenos Aires or 202 miles via the Mitre Channel.

The port includes the separate sections of Puerto Borghi, Puerto San Lorenzo and Puerto San Martin.

PILOTAGE: Available, six hours notice required.
APPROACHES: Access is controlled by the passes Destileria and Borghi above Rosario.
ANCHORAGE: Vessels may anchor in the roads between buoys 447 and 449.
MAX. SIZE: Up to 27 ft. draft depending on river depths.
HEALTH: Vessels coming in from abroad, should take pratique in Rosario Roads, advising Agents there in good time.
RADIO: Use Radio Rosario LSQ 38, on 477 kc/s. A1. This broadcasts, in Spanish at 1305 hrs. daily, depth of water in the river between Santa Fe and Rosario.
TUGS: Not required.
BERTHS: *Puerto Borghi.* Is a privately owned berth used for loading zinc ores, cinders and sulphuric acid. It consists of 3 dolphins each 6 × 9 m., spaced 21 m. apart, giving 60 m. alongside which vessels can lie. Both anchors must be laid out and moorings taken to shore. There is a conveyor belt, rate 60/80 t.p.h. fixed by a crane to work at an angle of from 20/25 degrees, so that if vessels are loading both fore and aft they must shift to position their holds. The belt is reversible, and can be used for discharging vessels fixed with bucket dredge gear in each hold. There is ample water alongside.

This port comes under Rosario for Customs, but under San Lorenzo for Maritime Prefecture control, and stevedores are taken from San Lorenzo.

San Lorenzo proper is a third category Custom House and thereby independent of Rosario. There is an important petrochemical complex here which is being extended, which may lead to an improvement in port facilities.

The roads are between buoys 443 and 445 in the main navigation route and within this area vessels may anchor to await entrance to port, without paying dues.

This was originally a grain port but this now takes second place to industrial developments.

At km. 443 there is a short concrete mole 50 m. long, with 21 ft. alongside used for liquids, (Duperial Berth), chemical and petrochemical products.

There is a grain elevator at Unit VIII (ex. 14), with a total storage capacity of 80,000 tons, and 39 ft. alongside. The elevator has one tube, with a load rate of 150/180 t.p.h. Bulk sugar also stored in sheds and loaded over belts at up to 300 t.p.h.

There is also a pipe-line at this berth for loading vegetable oils in bulk, rate from 120 t.p.h.

A line for loading fuel oil has also been installed here.

State Oilfields YPF have a large cracking plant here, with 3 concrete piers of 80, 60 and 80 m. long respectively, in deep water and situated just North of Unit VIII. Piers 1 and 3 operate in the discharge of crude from overseas or coastal tankers and in the loading of products with four 6 in. and 10 in. lines. No. 2, with the same size lines is used for coastal tankers only. Rate 700/800 t.p.h.

Esso have two dolphins here for discharge, with 6 in, and 10 in. lines respectively, but in 23 ft. only.

San Martin port starts after the Esso berth, and at the commencement is the old car ferry, now used for launches only, draft 6 ft.

Next to this is the *Gas Mole,* receiving Propane at 200 cu.m. per hour, or Butane at 150 cu.m. per hour. These rates drop appreciably with back pressure in the tanks.

At 400 km. is the *Dempa Mole,* with two lines for loading vegetable oils at 150/230 t.p.h. Expellers are also loaded over belts at 250/300 t.p.h.

El Transito mole is used for loading linseed or soya oil over a 10 in. line, and there is also a line for discharge of fuel oil. Expellers are loaded at 150/180 t.p.h., one spout.

El Litoral mole takes the place of the old Bellavista wharf, and operates in grain by belts, rate 300/350 t.p.h.

At km. 451 is the *Pasa* petrochemicals installation, with dolpins at either side of the head. Small vessels (under 80 m.) can berth along the arm working to trucks which operate round the base, while for larger vessels, berthed to the dolphins, trucks turn and reverse up the longer arm. At this site only one gang can work, though there are a number of pipe-lines, capacity up to 1,000 t.p.h., for the various products. Hydrocarbons for the plant are received by pipe-line from the refinery at San Lorenzo.

STEVEDORES: Working hours – 0600/1200, 1200/1800, in ordinary time, and in overtime, if required, from 1800/2400, 0000/0600.
FUEL: Available.
FRESH WATER: Small quantities available; Masters are recommended to take elsewhere if possible.
MEDICAL: Attention available.
REPAIRS: Small repairs attended to. It is also possible to bring specialists from Rosario if bigger jobs have to be handled.
CONSULS: Consular clearances must be made at Rosario.
AUTHORITY: Administracion de los Puertos Parana Medio.

SAN NICOLAS: 33.20 S. 60.13 W. (See Plan Book)

Km. 343 – River Parana (Province of Santa Fe) "B" category port.
N.B. Refer to beginning of Argentina and River Plate Ports.

On the left bank of the Parana River, from seaward, below Rosario, and 188 miles by river from Buenos Aires.

PILOTAGE: Compulsory. 6 hours notice required to bring Pilot from Rosario.
APPROACHES: Between San Nicolas and Rosario are the "Paso Paraguayo" and "Abajo Yaguaron" passes, and below San Nicolas, apart from Martin Garcia, the "Tonelero" and las "Hermanas" passes.

The old-time characteristic of a grain port has been submerged in the industrial complex which has grown up around the steel mill, but grain is still shipped here.

The entrance channel to the port from the river is kept dredged to 24 ft. 6 in. at zero.

MAX. SIZE: Draft up to 24 ft. depending on river conditions.
RADIO: Use LSQ 38, Rosario, on 477 kc/s. A1.
BERTHS: From North to South the sections of this port are:

Old Port. Out of use.

New Port. Consists of a 287 m. long berth, with ample water alongside, with two dolphins upstream. Here a 250 m. extension is being built to make a total frontage of 537 m., probably ready by 1980. There are no sheds on the dockside, but one railway line exists, and there are 7 portal cranes, one of which is out of use. Two cranes can handle 20 tons each at 15 m. radius or 12 tons at 25 m., three of 1.5 tons and the remaining crane 3 tons.

New Port Administration and Naval Prefecture offices have been installed on the cliff above the berth, they were previously in the old port 4 km. away. Agency offices are in the old town.

Grain Berth: 90 m. downstream is the recently finished Grain Berth, which came into operation in 1977. It has 6 telescopic tubes, on a 143 m. length and with 25 m. between tubes. There are four breasting dolphins and a vessel's bows can be moored to the end of the New Port wharf.

With one belt as installed loading rate is 600/800 t.p.h. A second belt is to be installed and then rate will increase to 800/1,000 t.p.h. on each. The existing belt is connected to the new elevator, 14,000 tons capacity, and the former Alcohol factory has been converted to an elevator capacity 45,000 tons and connected with a long overhead conveyor to the new elevator. It will also connect directly to the second belt.

Superusina Mole. This is the last of the sectors of San Nicolas proper, and consists of a concrete mole 200 m. long, with ample water alongside. There is a fixed heavy lift crane here, with a reach of 25 m. and capable of lifting 140 tons out of the square of the hatch of a vessel, or 180 tons from on deck. This part of the mole is reinforced.

There are also a 16 ton and an 8 ton crane for grab discharge of coal to an endless belt system working a coal stacker, handling 1,500 tons daily.

Puerto Buitagro lies South of the Ramallo brook, and comes under the district of Ramallo, although administered by the San Nicolas port authorities. It handles all the movement of the State Steel Mill, Somisa, the capacity of which is presently being increased to produce 2,500,000 tons of steel per year.

Again, from North to South, the moles are:

Ing. Buitagro general mole. 300 m. long, for movement of general cargo. It is 16 m. wide and has 1×30 ton crane and 2×15 ton cranes.

Somisa Wharf (Ex-Gotaas Larsen berth). This berth consists of 4 dolphins, 35 m. apart, with bollards on the 1st and 4th used by the lightening vessels for discharge of coal or iron ores, while ocean carriers discharge direct at the Buitagro Wharf.

Ing. Buitagro Bulk Wharf. 680 m. long, immediately South of the Gotaas Larsen berth. Dredging is carried out continuously and there is 26 ft. at zero alongside. Four vessels of up to 22,000 tons can operate, plus 2 more in second tier. Storage capacity in the yards adjacent to the wharf is 1,370,000 tons iron ore and 300,000 tons of coal. Discharge is by grab, 1×45 tons and 2×12 tons each giving a discharge rate of 4–500 t.p.h. provided hatches are sufficiently wide to permit easy working.

Capacity of the belts is being increased, to meet the requirements of the larger capacity, now raised to 2,500,000 tons installed capacity, and which will be increased to 4 million tons in 1980. These include a new 1,400 t.p.h. discharge unit for ore and/or coal, a new system of conveyor belts 860 m. long, a stock piler capacity 5,000 t.p.h. and belts for moving coal 1,200 m. from stock pile at 3,000 t.p.h. with a transfer tunnel 600 m. long fitted with 13 vibratory screen feeders.

At Puerto Buitagro all discharge or loading is carried out by factory personnel, no outside stevedores engaged.

The bulk wharf has been extended South with a berth for self-discharging ore carriers, or colliers, and also for ore carriers using shore installations. At the moment this berth is used by the Gotaas Larsen lightening vessels only.

TUGS: None needed at the New Port or Buitagro berths, as vessels enter bow upstream, and the current is strong enough to turn them on leaving. Only in the event of high winds should tugs be ordered from Villa Constitucion.

DENSITY: Fresh water.

FRESH WATER: Available at berths.

FUEL: Available, but must be delivered from Buenos Aires or San Lorenzo by truck.

REPAIRS: Possible.

MEDICAL: Doctor, hospital facilities available.

CONSULS: Italian, Portuguese and Spanish.

SAN PEDRO: 33.42 S. 59.39 W. (See Plan Book)

Km. 277 – River Parana (Province of Buenos Aires) "B" category port.

N.B. Refer to beginning of Argentina and River Plate Ports.

On the left bank of the Parana River from seaward, below Rosario and 151 miles from Buenos Aires, by river.

APPROACHES: There are no bars below this port, except Martin Garcia, and vessels can therefore load to the limits of either Martin Garcia or Mitre Channel at its maximum of 30 ft.

The roads are 1,500 m. down-stream from the entrance channel. Also see "Berthing".

PILOTAGE: Pilot sent from Rosario.

ANCHORAGE: Vessels can anchor if necessary about 500 m. from wharf.

HEALTH: Free Pratique can be taken, but it is advisable to radio Agents at Buenos Aires for them to arrange, since there is no radio here and the Doctor must come from San Nicolas.

RADIO: None; use Rosario LSQ 38, 477 kc/s. A1, or Buenos Aires.

TUGS: Can be made available if required.

BERTHING: Access channel from the roads is kept at over 32 ft. and vessels must order their Pilot 6 hours in advance, since he comes down from Rosario by road. Draft in all the overseas basin is well beyond 30 ft., soundings taken in April 1977 showing 45 ft. in the centre and a minimum of 28 ft. at plumb of the wharf (taken on a river height of 2.48 m.) the loading gallery, at 35 m. high, has 7 tubes, and an overall length of 110 m. Tube radius is 16 m., and extension to the telescopic arms is available. Vessels moor bows to the N.E., swinging in the basin East of the wharf, with a maximum turning length of 225 m., and turn on their engines, use of tugs not being necessary, since wind problems are minimal with the high cliff close in.

Vessels moor port side to with three lines from the bow, two astern and two springs from midships aft. Maximum beam is 32 m.

Elevator capacity is 7,000 tons in one, plus 24,000 tons in a second elevator which came into use in early 1978, and another 90,000 tons in underground chambers connected by belts to the main elevator. At the moment only one belt is working, capacity 500/600 t.p.h. A second belt is to be installed with a similar capacity shortly. Hand trimmers are available if needed and there are also centrifugal trimmers for use on the tube. Any bagging needed must be done on board.

By-products are also loaded over a second berth at the head of the wharf, 88 m. wide at this point, taking vessels of up to 150 m., shifting as needed. Loading is over portable conveyor belts, of which there are three in use, loading 80 t.p.h. each. The by-products are loaded ex-truck onto the conveyors, and can be stored in a shed on the main mole.

There are no cranes or railway lines, in the port, the station being some 4 km. away, and the grain enters by truck from the large hinterland nearby.

The coastal basin, N.W. from the main basin, can only take river barges, maximum depth being 11 ft., and some by-products enter there.

Authorisation has been granted for a second grain berth to be installed on the South side of the overseas basin, which is 100 m. wide. This will be a privately owned berth, with elevators for 150,000 tons, and an estimated yearly tonnage of 500,000 tons to be ready by 1981.

DENSITY: Fresh water.

FRESH WATER: Available at the berths.

FUEL: Not available.

MEDICAL: All medical assistance can be obtained. Hospital.

REPAIRS: Minor repairs can be effected.

CONSULS: None; consular clearances effected at San Nicolas.

SANTA FE: 31.40 S. 60.37 W. (See Plan Book)

Km. 585 – River Parana (Province of Santa Fe) "B" category port.

N.B. Refer to beginning of Argentina and River Plate Ports.

Situated on the Santa Fe river, a tributary of the Parana, 90 miles by river from Rosario and 312 miles from Buenos Aires or 226 miles via Mitre Channel.

APPROACHES: Entrance to the port is through an access channel, 6,085 m. long, and with 24 ft. at zero.

On this section of the river, from Rosario to Santa Fe, vessels must keep 2 ft. under the keel if measuring less than 50 fiscal units, or 2 ft. 6 in. if over. This applies when the hydrometer at Santa Fe indicates over 1.70 m. of water over zero. If the hydrometer measures less than 1.70 m. (5 ft. 7 in.) then vessels must have 2 ft. 6 in. and 3 ft. 6 in. respectively under the keel.

PILOTAGE: Port Pilot comes aboard in the Parana, at the mouth of the entrance channel. 6 hours advance notice is required for the Pilot to be in position.

ANCHORAGE: Although partially dredged in 1975, restrictions have not been lifted and vessels can only enter or sail between 0900 and 1700 hrs., and if unable to enter within this period must wait in Diamante Roads (km. 533) and follow radio instructions from the Prefecture. If the Diamante Roads have already been passed, a vessel may lie below Punta Alvear, or eventually at km. 568 (Animas de Paracao) but must immediately notify the Santa Fe Prefecture.

Vessels sailing must leave with sufficient margin to be able to pass "Los Pajaros" (km. 468/473) in daylight, and avoid anchoring in the sectors indicated above as reserved for Northbound vessels.

Exceptionally vessels under 160 m. LOA may anchor in Diamante Roads, if they leave in daylight and arrive in the roads before sunset, and provided there is no other ship anchored there. These instructions apply under normal hydrological conditions, and with unusual changes in water depth may be changed by the Prefecture.

SIGNALS: There is a signal station on the top of the tower of the new elevator (unit 1) in visual and radio contact with the control station tower at the river end of the access channel, where the signals are hoisted. It is also possible to observe movement in the roads from here.

The signals in the entrance channel are:

By day (shown at both ends of the access channel)

White globe, 60 cm. diameter	Channel free for overseas vessels.
Red biconic mark	Exit only for overseas vessels.
Green cone	Free movement of coastal vessels.
Yellow cone	Movement of coastal vessels allowed, but with precaution.

By night (interior signal staff only)

White flashes	Entrance free for overseas vessels.
Red flashes	Exit free for overseas vessels.
Green flashes	Free movement for coastal vessels.
Green and red flashes	Coastal movement only with restrictions.

Absence of signal – signifies port and channel closed.

All vessels will await the corresponding signals, which can be asked for by whistling, repeating 1 long, 3 short, for overseas vessels, or 2 short, 1 long, for coasters.

Should the absence of signals be due to a failure of the system, instructions will be sent by the Authorities.

NAVIGATION: *In the Channel.* Maximum speed in the entrance channel is 5 knots, however, the Pilot can advise on other speeds.

Movement by night is possible, but usually Pilots will not take a vessel out after 1500 hrs., since navigating the passes down river might oblige a vessel to lie in the roads, and turning there would require the use of 2 tugs, it being easier to wait until through transit down stream is possible.

During fog. Usual international precautions must be observed, but if the fog is very thick, entrance or departure of vessels is prohibited without special permission. There are no official statistics as to frequency of fog, but in the period May/August there may be 5 to 6 foggy days a month, and in the rest of the year one or two a month.

HEALTH: As there is no radio station here, Master should radio Agents with the usual request for Free Pratique.

RADIO: Regulations in this port state that Agents or Consignees must give written notice to the Port Authorities 24 hours before ETA, with details of vessel, cargo carried etc., or if in ballast, indicating for account of whom the vessel will load.

ETA should be confirmed if there is any change, since the port Pilot and tugboat must be sent out to the main river to meet the vessel. This will also allow the preparation and presentation of the Notice of Readiness without delay.

Radio LSQ 38, on 477 kc/s. A1, at Rosario, transmits river depth at 1305 hrs. GMT.

TUGS: One tug is required by all vessels over 20 Fiscal units and up to 165 m. LOA, with a second tug standing by at km. 592 unless the Pilot calls for its services (high winds, etc.).

Vessels over 165 m. will have a second tug standing by in the roads. Outbound vessels over 20 fiscal units will take two tugs, and let go the stern tug at km. 592, the bow tug continuing until the roads are reached. However, if sailing from Basins 1 or 2 or the Terminal berth and with no other vessels in the way, one tug only may be taken, provided the wind is below 22 knots.

BERTHS: The port is composed of four parts:

Dock No. 1, with stone wharves, 564 m. frontage on the East and 672 m. on the Western side, 120 m. wide and well equipped with cranes, and sheds; 24 ft. at zero.

Between Dock 1 and Dock 2, on the pierhead are tanks for vegetable oil, capacity 5,000 tons and pumping capacity 2/300 t.p.h.

Dock No. 2 lies parallel to Dock 1, and has a piling frontage 900 m. long on the East, 720 m. on the West and 120 m. wide. 22 ft. at zero.

Both docks are served by broad and narrow gauge railway lines.

Derivation Channel. 2,178 m. long, lies to the West of Dock 2. It has open banks, with no stone or wooden frontage. There are a number of dolphins and mooring facilities. It is reserved for Inflammables and there are also two deposits for Quebracho logs and for bones. Although there are railway lines, there are no cranes or facilities for handling cargo. Vessels awaiting orders or effecting repairs can lie up in the Eastern side of the Channel, North of the Esso plant. Shell and YPF plants on the Western side, where vessels may take on bunkers.

Coastal Wharf. Concrete wharf, 810 m. long, lying between the West side of Dock 1 and the Elevator at Unit 1. It has 4 dolphins and can berth and work 2 vessels simultaneously in 24 ft.

Allotment of berths. Allotted by the port by order of arrival. If berthing in the Derivation Channel, spars must be placed to fend the vessel off the bank, and an anchor may also be cast, but this must be done under the direction of the port Pilot.

Loading Grain. There are 2 units, comprising 3 elevators in use. Unit 1 on the South end of the West quay of Dock 1, next to the coastal section, can berth 2 vessels in 24 ft. The elevator has a capacity of 50,000 tons, and the loading gallery has 8 spouts with 3 belts, so that both vessels can operate simultaneously, although no more than 3 spouts can be in use together, with a load rate of 300 tons each, rising to 400 tons in favourable conditions, or when only 1 vessel is loading.

Unit 2 is now composed of the ex-Bunge Elevator on the Northwest of Dock 2, capacity 12,000 tons, and with 6 tubes, loading simultaneously by 2 at a rate of 200 t.p.h. each, and also of the De Ridder Elevator, on the S.W. side of the dock, capacity 6,000 tons, and with 2 tubes, capacity 200 t.p.h. each.

STEVEDORES: Working hours: 0700 – 1300 hrs. and 1300 – 1900 hrs.

FUEL: Available at the pipe-lines in the Derivation Channel. If small quantities only are required, these can be delivered by truck.

FRESH WATER: From hydrants in Docks 1 and 2, or by tug in the Derivation Channel.

REPAIRS: Can be arranged. There are several tugs and lighters equipped to render assistance to vessels.

MEDICAL: Doctors and hospital facilities available.

TANKERS: Berths owned by Esso, Shell, and YPF in Derivation Channel.

CONSULS: At Santa Fe following countries are represented: Italy, Paraguay, Spain. Other consuls at Rosario and Buenos Aires.

AIRPORT: 17 km. from Santa Fe, regular flights to Buenos Aires and other Argentine cities.

CUSTOMS ALLOWANCES: For consumption on board each man allowed 40 to 60 cigarettes a day and 1 litre of spirits a week.

POLICE/FIRE/AMBULANCE: Police: Tel. 21141; Ambulance: 36220 and 24687; Fire: 21212.

TELEPHONES: On board connection is only made for naval vessels.

SHORE LEAVE: Allowed, provided Crew members in possession of identification cards.

AUTHORITY: Administracion de los Puertos Parana Medio.

VILLA CONSTITUCION: 33.15 S. 60.17 W. (See Plan Book)

Km. 365 – River Parana (Province of Santa Fe) "B" category port.

N.B. Refer to beginning of Argentina and River Plate Ports.

On the left bank of the River Parana from seaward, 33 miles below Rosario and 197 miles by river from Buenos Aires.

PILOTAGE: Port Pilot available, and obligatory.

MAX. SIZE: Up to 25 ft. draft depending on river depths.

TUGS: Vessels over 2,000 NRT must use 2 tugs.

RADIO: Rosario LSQ 38, on 477 kc/s., A1.

BERTHS: *In Villa Constitucion* the old overseas moles are closed. The coastal wharf is also being dismantled, but a concrete mole next to it is being used for this trade. There is a proposal to recondition the old railway wharf in view of increasing movement.

At the Elevator berth 2 vessels can operate, in 27 ft., North and South. At each berth there are several loading tubes, but only one can operate at a time, giving 3/400 t.p.h. on each berth.

Capacity of the elevator is 50,000 tons, plus 170,000 tons in underground deposits. There is also a belt for bag loading.

Puerto Acevedo. Two km. South of Villa Constitucion is Acindar Mole, otherwise known as Puerto Acevedo, where a large steel mill is installed. The port is under the jurisdiction of Villa Constitucion and pending a definite resolution as to Villa Constitucion Roads, vessels awaiting berth anchor off the Acindar mole.

The mole is 110 m. long by 34 m. wide, in 29 ft. and is used for the discharge and storage of steel billets. It is fitted with two 45-ton electric cranes on rails. Vessels of any length can moor, but must shift to present distant hatches. Two new cranes are to be installed shortly, and the former cranes retired from service. Discharge rate reaches 400 t.p.h. per crane with steel billets.

Port Pilot from Villa Constitucion attends here, but tugs are not necessary. No facilities are available, except for water, to obtain which a vessel will have to supply a long hose to be coupled up to the factory itself.

FRESH WATER: Obtainable.

FUEL: Not available.

MEDICAL: Doctor and hospital facilities available.

REPAIRS: Can be effected, if necessary bringing men and equipment from Rosario, or San Nicolas.

CONSULS: Consular despatches must be taken at Rosario.

ZARATE: 34.09 S. 59.05 W. (See Plan Book)

"B" Category port. Province of Buenos Aires.

Situated on the West bank of Parana River, 150 or 65 miles by river from Buenos Aires, and 5 miles upstream from Campana.

N.B. Refer to beginning of Argentina and River Plate Ports.

TUGS: Not required.

MAX. SIZE: Up to 26 ft. depending on river depths.

BERTHING: The river here is wide and deep, but the old moles are no longer in use, having been silted up, with a maximum of 10 ft. at the National Mole. With the opening in 1978 of the rail road bridge over both branches of the Parana (de las Palmas and Guazu) to the Entre Rios Province the rail ferry has been closed down, and there is no sign of any new port works being undertaken here.

The Naval Prefecture at Zarate remains in charge of transit under the bridges and Pilots must maintain VHF contact with Zarate while in this zone (Channel 14). (LSO 23) Vessels not carrying VHF must use medium wave.

DEVELOPMENTS: One of the first developments has already been authorized by the Port Authority. This will be a Petroleum storage plant for Paraguay, at km. 112.6 on the Parana de las Palmas river, just upstream from Zarate. It will be for the exclusive use of Crude imports for Paraguay, where ocean tankers will discharge to tanks, and river tankers continue transport to Medin, near Asuncion. Work is expected to commence shortly, but it is not known yet if the berth will be known as "Zarate" or by some other name although it will come under the Zarate port authority.

FRESH WATER: Available at Smithfield Wharf.

FUEL: Not available.

MEDICAL: Doctor and hospital facilities available.

CONSULS: Italy is represented locally. All other consuls at Buenos Aires.

REPAIRS: Small repairs can be effected.

BAHIA BLANCA: 38.47 S. 62.16 W. (See Plan Book)

(Incl. Galvan, Ingeniero White, Puerto Belgrano, Puerto Rosales, Punta Ancla and Punta Ciguena.)

(Province of Buenos Aires) "B" category port.

N.B. Refer to Argentina, Section I.

PORT LIMITS: Berthing priority is fixed when vessel arrives at No. 11 buoy in the channel entrance.

Final berthing marks the commencement of time authorised for loading and/or discharging.

DOCUMENTS: Required by foreign vessels.

Registration Certificate.
International Tonnage Certificate.
International Freeboard Certificate.
International Safety Certificates.
General Declaration, Crew List and List of Passengers (signed by the Master).
Sailing Clearance Certificate from port of origin or from last port of call, whichever the case may be.

APPROACHES/PILOTAGE: *Entrance Channel.* Commences at Rincon Light Buoy, which is a whistling buoy, fitted with radar reflectors and is stationed some 17 miles S.S.W. from the Recalada Lighthouse. It is a large buoy, painted with black and white vertical stripes, it can shift or be extinguished, being rather exposed. In case of doubt vessels are recommended to sound and stay outside the 10 fathom line until daylight or fog has cleared. Pilots must be requested 24 hours in advance. See "VHF".

From this buoy vessels must proceed past buoys 1 to 10, and the Bay Pilot comes aboard near buoy 11 (39° 05′ S. and 61° 48′ W.). There is no pilot ship on station, and vessels arriving at this point after sunset must stand off until daybreak, unless a Pilot has been ordered and is approaching, when vessels can anchor and wait near buoy 11. To avoid delay and waiting time, Masters should keep Agents well advised by radio to station LPW 2, which listens from 0700 to 2400 hrs. on 500 kc/s. from 19 to 25 minutes past each hour, every hour. As the coast is shallow here, with South or East winds it is advisable to stand well off at night as there is also a tidal current favoured by these winds.

Locations where the Pilot can be taken on board are: buoy 11, buoy 22 and exceptionally buoy 1 (at Master's request).

Pilot vessels intended for this service are: Launch "Skipper" – length 18.40 m., beam 5.6 m., depth 2.60 m., 85 h.p. engine, capacity 10 persons, steel hull; Launch "Carumbe" – length 18.6 m., beam 3.6 m., depth 1.20 m., 105 h.p. engine, capacity 10 persons, wooden hull; Launch "Alo" – length 10.46 m., beam 2.71 m., depth 1.74 m., 105 h.p. engine, capacity 10 persons, wooden hull.

The Bay Pilot takes the vessel to the Bahia Blanca roads, which commence for Ing. White and Puerto Nacional between Naposta Brook and the South Elevator. For Galvan he takes the vessel as far as the South Elevator. At either of these points the port Pilot comes aboard for actual berthing operations.

Vessels bound for Punta Ciguena, Punta Ancla, Rosales or Puerto Belgrano, take on their port Pilot (ordered in advance through the Agents by radio), at buoy 17.

In the access channel the following regulations must be observed:

(a) in the areas included between the pairs of buoys 07–08, 12–16, and 26–29, it is prohibited to approach or cross in front of any vessel which because of its draft has to remain in the centre of the channel, such vessels always having priority.

(b) in the event of two vessels meeting whose drafts do not permit them to depart from the centre of the channel, the vessel leaving port

has priority, the vessel entering having to effect such necessary manoeuvres so as to not interrupt its navigation.

The access channel is 150 m. wide and is marked with light buoys, which permits navigation by night. Between buoys 12–16 the depth is 30 ft. and in the access channel to port Ingeniero White, between pairs of buoys 24 and 29, the depth is 33 ft. with a width of 170 m. The maximum draft for vessels navigating the channel is 35 ft., and dredging operations are in hand to bring the depth to 39–40 ft.

Buoys 01, 02, 03, 04, 05, 06, 09, 18, 19, 20 and 21 are mid-channel, and all illuminated. There is a degaussing buoy between Nos. 18 and 19, conical, painted blue and white checks.

Special warning. At very low neaps, and with strong North winds there may be up to 5 ft. less water than is shown on charts.

Tidal range is 12.6 ft. at springs to 6.4 ft. at neaps, but as much as 19 ft. has been observed with S.W. winds, whose action is similar to the Plate winds.

Inner Roads. From Ing. White to Galvan there is room for two vessels drawing 32 ft. to anchor, as well as a number of vessels drawing 24 ft. The access channel to Galvan has been dredged to 32 ft. for the new Inflammable berths, and a turning basin 400 m. in diameter at 33 ft. dredged due South of Galvan pier. The Inflammable berths are at 40 ft.

ANCHORAGE: *Anchorage for merchant vessels:* Buoy 11, 7. The anchorage area has been rendered suitable for merchant vessels. This area is limited by six lit (white) buoys which mark a zone approx. 6 miles by 1.6 miles. Depth of water in the area is 10.5 m.

Punta Ancla Oil Loading point: Constituted by a revolving buoy of the "Swedish" type, situated 1.25 miles to the East of the mid-channel buoy No. 9. It is recommended that vessels do not navigate in this area nor anchor to the North of the axis of the channel.

Punta Ciguena Oil Loading Point: One mile to the South of Punta Ciguena is the oil loading point; its alignment for anchorage is 036.7° formed by the front and rear buoys.

Ingeniero White Roads: The port roads are considered to be from the mouth of the Naposta stream to the front of the Ingeniero White South Elevators Quays, and roads "B" as far as the quays of Puerto Galvan. At high tide, the banks cannot be seen.

RESTRICTIONS: *Puerto Galvan:* Night entries are not authorised, sailings being subject to favourable weather conditions.

Shipmasters' Report: 1979.

The Port Authority will not allow vessels with a list to sail.

MAX. SIZE: Entry into the port is allowed for vessels up to 230 m. LOA with a keel clearance of 1 ft.; in the access channels the safety margin is 2.5 ft. In accordance with the current dredging conditions, this allows operation with 34 ft. 9 in. draft, but during 1980 it is expected to be able to operate with 39–40 ft.

In Puerto Galvan, Max. lengths of 195 m. are allowed. In Puerto Ingeniero White, at the Elevators Nos. 7 and 8 berth, operations are limited to length of 200 m. and beam of 30 m.

HEALTH: It is necessary to present:
- Crew List.
- Certificate of Deratting or Exemption Certificate.
- Inspection Certificate of Maritime Health.

The Ship's Agent carries out all orders for obtaining free pratique. The health inspection takes place normally at the mooring berth, and is effected by the doctor who comes on board. Notice must be given 24 hours in advance of ETA, with indication of the port from which the vessel has recently left together with any intermediate ports of call. Likewise, an indication must be given of any illness on board, particularly anything of an abnormal nature.

The Master of the vessel must indicate the number of crew members, passengers if any, and the non-existence of the six "plague" diseases: Cholera, Yellow Fever, Smallpox, Exanthematous Typhus, Recurrent Fever and Bubonic Plague. Also there is a requirement for declaration that there is no transmittable illness on board.

RADIO: LPW 2 on 500 kc/s. A2, working frequency 431.5 or, LPW 45 on 4415.8. A3.

For weather forecasts in English, use either Radio Pacheco at Buenos Aires LPD 5 on 512 kc/s. A2, or Radio Comodoro Rivadavia LPX 2 on 474 kc/s. A2.

VHF: Pilots now use VHF, and Channel 12 is set as a "listening channel' during transit of the entrance and the Naval Base at Belgrano acts as receiver/repeater.

Channel 8 is kept for manoeuvring in port, after contacting tugs and walkie-talkies are used by Pilots and tugs in this band.

Any "bridge to bridge" communications will use Channel 6, returning later to Channel 12.

Channel 9 is reserved for oil tankers for Punta Ancla or Punta Ciguena.

Channel 4 is reserved for Navy use in the Navy Base, but may be used in emergency.

RADAR: No service available.

TUGS: No tugs are required at Punta Ancla or Punta Ciguena. For Rosales and Puerto Belgrano tugs are requested from the Naval Base at Puerto Belgrano, and make contact between buoys 24 and 25.

For the other ports (White, etc.) tugs come alongside in the anteport, where the port Pilot boards.

Argentine vessels are berthed by the Bay Pilot at any of the berths, but foreign flag vessels take a Port Pilot, who comes on board at the Inner roads on one of the tugs, regulations for which are as follows:

Vessels over 3,000 tons gross require 2 tugs, those from 500 to 3,000 tons, 1 tug, and under 500 tons none.

For the Iron mole, vessels up to 10,000 tons do not need a tug, from 10,000 to 15,000 gross, 1 tug and over 15,000 tons 2 tugs.

For Puerto Galvan, vessels over 3,000 tons gross take 2 tugs on entering, and one on leaving provided they berth bows outwards, otherwise they need 2 tugs. Between 1,000 and 3,000 tons, vessels take 1 tug when entering and leaving if they berth bow inwards. If mooring bow outwards they must take 2 tugs on berthing, but require none on leaving.

These rules are for normal weather conditions. Masters can ask for more tugs, or alternatively not pass cables to the tugs if this could be dangerous to the vessel or tugs, but in this case, tugs must accompany the vessel during the manoeuvre to act in emergency.

BERTHS: N.B. Agents must give 10 days advance notice of arrival of reefer vessels to the Authorities, and check this with 48 hours confirmation of arrival. Tankers are exempt from this rule but must confirm arrival time at buoy No. 11, 48 hours in advance. Precedence for berthing granted in accordance with arrival at buoy 11 at the entrance channel. All requests for free pratique by radio are made in the usual manner to Agents, with 12 hours advance notice.

The ports in the Bahia Blanca area are, from East to West:

Punta Ciguena Puerto Rosales Puerto Belgrano	adjacent to each other between buoys 21 and 22 of the access channel.
Ingeniero White	approx. 14 miles West of Puerto Belgrano.
Puerto Galvan	approx. 2 miles West of Ing. White.

Punta Ciguena and Punta Ancla

There is a rotary buoy with connection on the starboard side of tankers. The oil tanks belonging to the State Oil Company have a capacity of 240,000 cu.m. and are connected by pipe-line to the State Refinery at La Plata.

At Punta Ciguena there is a mooring for tankers with four mooring buoys and port side connection. It is currently out of service, and it is intended to replace it by another rotary buoy. As at Punta Ancla, this mooring belongs to the State Oil Co.

Puerto Rosales

An old grain port which is used by small craft, shortly to be fitted out as a private fishing port. The pilot launches are based here.

Puerto Belgrano (Saluting Base)

The entrance channel, 2 miles West of Punta Ciguena buoys, is 1.7 miles long, 150 m. wide and dredged to 30 ft. at zero.

Being a Naval base, care must be taken to observe regulations. In daytime signals are hoisted at the head of Mole C, and at night lights are shown at a height of 34.5 m. from the signal station, being visible for ten miles. A strong green light prohibits entry, and a white light above green prohibits sailing from the port. Two green lights, vertical, both entry and leaving prohibited.

Gunnery Exercises. Captains are warned that in order to avoid any danger, the greatest care should be taken when navigating or anchoring in the security zone, between the coast and an imaginary broken line which passes through the following:

(A)	Lat. 39° 00′ 01″ S.	Long. 61° 37′ 01″ W.
(B)	Lat. 39° 05′ 02″ S.	Long. 61° 40′ 01″ W.
(C)	Lat. 39° 02′ 05″ S.	Long. 61° 47′ 09″ W.
(D)	Lat. 38° 58′ 02″ S.	Long. 61° 51′ 00″ W.

Danger Zone. Situation Lat. 38° 53′ S., Long. 62° 06′ W. (approx.).

During gun practice at the Naval Base of Puerto Belgrano, navigation is prohibited in the circular area of 180° from the central point of the Signal Station which extends from 152° to 332°. The boundary of this area passes 9 miles off the Signal Station.

While gun firing is being carried out, the Signal Station will hoist during the day 2 "B" flags of the International Code on the same yard-arm. This signal will be hoisted half an hour before practice commences and will be furled when firing ceases.

At night the signals will be substituted by 3 vertical lights, the top one, red, and the following two, white. In addition a searchlight will sweep the zone every 15 minutes, casting a beam of 3 minutes duration.

The Prefecture of Ingeniero White will notify all ships in good time of the expected hour and date on which firing practice will commence.

Should exercises not commence on the date and hour fixed for same, the fire signal will be hoisted half an hour before the appointed time, and on the other yard-arm, the flag "N" (negative of the International Code). These signals will be shown for half an hour from the time they are hoisted.

During exercises, the firing intervals will be signalled in the following form: during day, by hoisting "N" flag, and at night by 2 vertical lights; the top one white, and the bottom one, green.

Ingeniero White (See Plan)

Berths 1, 2, 3 and 4: Reserved for auxiliary vessels.

Berths 5 and 6: Assigned for loading cereals, length 300 m., dredged to 30 ft. above datum. Berth has 5 tubes and 2 belts of 480 t.p.h. capacity.

Berths 7 and 8: Same as berths 5 and 6.

Berth 9: Assigned for loading cereals. Possibly general cargo using ship's derricks. Length 227 m., dredged to 40 ft. above datum. Berth has 6 tubes with a capacity of 500 t.p.h.

Iron Quay: Its commercial use is restricted. Intended for repair, and waiting at berths 11 and 12, with a length of 400 m., been dredged to 29 ft.

Berths 13 and 14: Reserved for official dredging craft.

Berth 10: Out of service.

Berths 15 and 16: On high level quay (Alto Nivel), out of service.

General Cargo Quay, berths 17, 18 and 19: With a total length of 450 m., dredged to 25 ft. Has 4 cranes of 3,000 kgs. capacity.

Berth 20: Length 211 m., and dredged to 25 ft. (5 m. from the quay). Berth has 3 cranes of 3,000 kgs. capacity. On these quays there is a useful working width of 25 m. on which it is possible to work with wagons and lorries.

Berth 21: Length 60 m., for waiting and repairs to small craft.

Puerto Galvan (See Plan):

Berth 1: Assigned for general cargo, with a length of 150 m., and dredged to 25 ft. No cranes.

Berth 2: Length of 120 m., and dredged to 25 ft. Berth has an obsolete elevator. Can possibly be used for waiting and repairs.

Berth 3: Assigned to general cargo, with a length of 140 m. and dredged to 25 ft. No cranes.

Berth 4: Assigned for waiting and repairs, with a length of 75 m., and dredged to 25 ft. No cranes.

Berth 5: Assigned to general cargo, with a length of 150 m., and dredged to 29 ft. Berth has 2 modern cranes with a capacity of 35 tons at 16 m. radius, and 20 tons at a 27 m. radius.

Berth 6: Assigned to general cargo, with a length of 115 m., and dredged to 27 ft. No cranes.

Berths 7, 8, 9 and 10: Assigned to auxiliary craft and possibly general cargo for small craft with lengths of 60 to 65 m., dredged to between 15 and 20 ft.

Inflammable Quay: 2 berthing fronts of 370.80 m. each, dredged to 40 ft. Each berth has a platform of 30.80 m. length and 20.80 m. width. Berth 1 is intended for oil and its derivates, and berth 2 for gas handling.

CRANES: The Puerto Belgrano Naval Base has a floating crane of 50 ton capacity, which can be hired. Also see "Berthing".

SPECIAL CARGO HANDLING FACILITIES: The cranes located at berth 5 of Puerto Galvan are suitable for handling small containers and have grabs of 8 cu.m. capacity for operation with bulk cargo (minerals, bi-products, etc.).

The port has mobile cranes of up to 45 tons capacity. The stevedoring companies have vehicles with automatic elevators and various equipment basically suited for loading boxes of fruit, loading and discharge of boxes of frozen fish, etc. There are no special facilities for ro/ro traffic. The elevator quays have special installations for bulk loading of cereals.

BRIDGES: There are no bridges in the access channel or in the port.

STEVEDORES: Permanent stevedores available, no prior advice being required for their availability. The vessel requiring labour must present their order 45 minutes prior to the contracting time to the Port Captaincy at the Contracting Centre.

Contracting times are 0630, 0930, 1230, 1530 and 1830 hrs. (on this shift contracting is also made for night working).

The usual working period is from 0700 to 1900 hrs. from Monday to Friday, and from 0700 to 1300 hrs. on Saturday. Nevertheless, it is possible to operate 24 hours a day, including Sundays and Holidays, but premium rates for this will apply.

DRY DOCKS: Capacity of the dry docks are:

No. 1 215 m. OA, width on the sill 22.12 m. or at 34 ft. above the sill, 26.25 m.

No. 2 235.45 m. OA, afloat, or 205 m. closed there is also a floating dock for smaller vessels 65.8 m. OA, beam 13.46 m., capacity up to 750 tons.

The dry docks are located at the Puerto Belgrano Naval Base, and vessels of the Argentinian Navy have priority of usage.

SURVEYORS: American Bureau, Norske Veritas, Bureau Veritas, Lloyds (insurance only).

HATCHES: Work on deck is prepared by the stevedores during working hours. Preparation of the gangway to be effected by the ship's crew. Stevedores only will close and open hatches with mechanical means. Covered ways will be closed and opened by the stevedores.

LOAD-LINE: Vessels North- or East-bound may load to Summer Marks all year round.

WEATHER: Average velocity of winds is 11 knots, direction North and N.E. 30%, and West and N.W. 32%.

Rainfall averages 558 mm., with July/August the driest months.

Maximum temperature in Summer about 31° C, with an absolute maximum of 42.5° C, and a minimum of about 15° C. In Winter, maximum of about 15° C, average minimum 3.5° C, and absolute minimum minus 8.8° C.

MEDICAL: All kinds of medical treatment are available, there being various state and private hospitals. For very specialised treatment, in extreme cases, evacuation to the city of Buenos Aires is possible.

DENSITY: The salinity in the external area of the Port of Bahia Blanca is 33.6 – 34% in Autumn and Winter. In the inner area the minimum salinity is 16.53% and the maximum 38.57%.

FRESH WATER: Available at any berth at Ing. White, Galvan and Puerto Belgrano, at 10 t.p.h.

FUEL: All grades available ex-wharf or by barge.

GANGWAY/DECK WATCHMEN: Vessels Agent must ask Port Authority for watchman.

FIRE PRECAUTIONS: Tankers, during loading or discharge operations, whether in port, in the roads, at loading points or to other vessels, will comply with the following requirements:

All conduits for loading or discharge of hydrocarbon oils which are land-based for connection to a tanker vessel, must have insulated installations, or, in the absence of same, non-conductive hoses must be used in such a way as to constitute an insulating circuit between the main pipe-line and the connecting flange with the ship.

Pipe-lines carrying hydrocarbon oils, converging on the quay, must be earthed in an effective manner, in the immediate section adjacent to the existing insulating flange on the quay or in the section of hose which is not electrically conductive.

In the event of pipe-lines being used with cathodic protection connected to the vessel with non-conductive loading hoses, insulating flanges must be fitted at their ends. If the pipe-line does not have cathodic protection, it must be earthed conventionally.

At the commencement of and during operations, tankers must fly the "B" flag during hours of sunlight and during the rest of the day a red light in adequate safety conditions.

It is necessary to check that the connecting hoses for loading and discharge operations are in good condition, do not show any cracks or any signs of deterioration.

It is necessary to check that the connecting flanges, when they are bolt-connected, are fixed with all the bolts which they require, and when they are of another type, they must fulfil also the maximum requirements of mechanical efficiency for prevention of oil leaks.

Beneath each of the connecting flanges must be installed drip trays to prevent product reaching the water or the quay; in the same context, all loading deck scuppers must be blocked.

Loading hoses must be installed in such a way that there are no sharp bends nor sudden changes of direction. In the event that the hoses have to rest on sharp edges, adequate protection must be used, to prevent any possibility of wear.

In the event of excessive movement in the berthing area, either during bad weather or due to the manoeuvring of an adjacent vessel, pumping of the product must be stopped. Likewise, if there is any untoward occurrence, such as fire or explosion on the quay or in the quay safety area, on adjacent vessels, or in the event of electric storms of great intensity, or if leakage of the product is observed, pumping must be stopped.

In the event of operations at loading points with long pipe-lines connected to the land, approved communication systems must be used between vessel and the shore to permit the need to stop operations immediately in the event of damage to the pipe-line or any other untoward occurrence.

Whenever it may be necessary to keep open any observation cover of a tank the flame prevention fabric must be positioned.

Constant vigilance must be maintained at the access to the vessel and on deck to prevent the entry of unauthorised persons.

With the exception of very high frequency equipment, which are safe for use, the vessel's radio/electrical equipment must not be used, the wireless room being sealed.

Loading and discharge of tanks must be effected solely by the corresponding pipe-line, the usage of the integral outlets of the tanks being prohibited.

Double berthing of vessels is not permitted, unless they are carrying out operations of lightening, repairs or in the event of emergency.

A foam extinguisher must be placed next to the connecting flange of a hose, and the fire pump must be maintained operational, except where the latter incorporates a remote control system which is approved.

The hose at the loading point and on the main deck must have a proper sealing joint in its unions.

The sealed doors on the main deck must remain closed.

Tankers effecting operations between one another, in the roads or at suitable anchorages, must have main engines ready to manoeuvre at all times; likewise, the necessary personnel for operations of anchors, chains and mooring equipment.

Masters or Owners are obliged to order cessation of any operation, and to request, if necessary, the collaboration of the Maritime Authorities, whenever at the operations quay or in its safety area, in the vessel operating under their control, the requisite safety stipulations are not being met.

During degassing operations, those involved with cleaning, repairs and maintenance, tankers must comply as follows: during degassing operations, no passengers or other unauthorised persons must be on board the vessel.

Whilst gasses are being liberated during the degassing process, the use of galleys must be reduced to a minimum, and open flame burners must be sealed, except boilers and heaters. Under the same circumstances, openings to quarters on deck must be kept closed, so as to obviate any contamination, and smoking must not be permitted anywhere in the vessel.

Boilers must not be lit up, and the combustion pattern must not be altered.

On decks no rags, or absorbent material impregnated with fuel may be deposited. Such material must be placed in adequate receptacles, with covers, for transporting away from the vessel.

When opening covers, and parts of them have to be struck, only anti-spark tools must be used.

Tankers effecting minor repairs, which do not involve cutting or welding of metals but cause sparks or other risky operations of a similar nature, must carry out such work only at the quays in the oil area appropriately equipped, or outside the oil area. When work of a greater magnitude is carried out, this cannot be effected at the special quays, except where reasons of emergency dictate, and in any case only after prior permission has been obtained from the Prefecture.

All degassing operations or opening of tanks not certified as being gas-free are prohibited in the ports, docks, breakwaters, piers or quays intended for operation with combustible or inflammable products or hydrocarbon derivates.

The tasks of washing or cleaning of tanks in port, docks, breakwaters, piers or quays intended for operation with combustible or inflammable products or hydrocarbon derivates may only be effected when a Certificate for Safety of Work has been issued.

Cleaning or degassing of tanks is prohibited in vessels carrying out movement operations of combustible or inflammable products which are hydrocarbon derivates in ports, docks, breakwaters, piers or quays.

CUSTOMS ALLOWANCES: 60 cigarettes and 1 litre of liquid per day. No cigarettes or alcohol may be taken ashore.

REPATRIATION: Possible.

REPAIRS: All classes of repairs possible including dry-docking.

CONSULS: Belgium, Chile, Denmark, France, Greece, West Germany, Italy, Netherlands, Norway, Peru, Portugal, Spain, Sweden.

AIRPORT: Regular air service with Argentine cities.

TIME: GMT minus 3 hours.

HOLIDAYS: (a) National holidays – January 1st, Good Friday, May 1st, May 25th, June 20th, July 9th, August 17th and December 25th.

(b) Not worked – Holy Thursday – December 8th. Nevertheless, the port can work; The stevedores receive an extra of 75% on their pay.

POLICE/AMBULANCE/FIRE: Argentine Naval Prefecture is responsible for port safety, Tel. 71720/71727/71833. Ingeniero White Volunteer Fire Brigade, Tel. 70115. Ambulance of the Port and Maritime Chamber can be requested from the hospital at Ingeniero White, Tel. 70267.

TELEPHONES: There are no facilities for installation of telephones on vessels at the quay. The offices of Maritime Agents, stevedoring contractors and official bodies have telephones and telex. There are public telephones in cabins at Puerto Ingeniero White and Puerto Galvan.

SERVICES: These can be obtained via private firms.

SHORE LEAVE: No restrictions.

IDENTITY CARDS: Seaman book is sufficient.

REGULATIONS:

a. Owners and Maritime Agents must communicate to the Port Captaincy and Port Administration the intention to position the vessel for loading and/or discharge five days in advance (exception to this is made for tankers and grain ships).

b. ETA at buoy 11 must be confirmed 48 hours in advance (including tankers and grain vessels), indicating overall length, estimated draft on arrival and departure, and type of operation to be effected, with specification of tons, packages or volumes to be loaded or discharged.

c. At anchorage at buoy 11 or on passing it, in the event of direct entry, ETA must be confirmed. This time gives the priority for entry, provided the previous communications have been made.

d. Minimum quantities authorised for loading and discharge are:

Cereals	10,000 tons per day
Fruit	21,000 boxes per day
Loading frozen fish	600 tons per day
Discharge of frozen fish	200 tons per day

Other cargoes: The Port Administration determines this in each individual case.

e. These and other regulations with regard to the operations of loading and discharge, obligation to free quays, etc., are recorded in a Circular issued jointly by the Port Captaincy and the Port Administration.

DELAYS: Normally, there are no delays in berthing of vessels, although occasionally during the peak period for cereal exports grain ships may be delayed. It can be considered that vessels load as quickly as they can receive if the cargo is in port.

DEVELOPMENTS: With the dredging work already carried out in the entry channel, and that which is to be effected in the access to the elevators it is expected that during 1980, vessels of up to 40 ft. draft can operate. A study carried out under the auspices of the P.N.U.D. is on the point of being implemented, under which a notable improvement will be made in the loading conditions of cereals by means of the construction of a new elevator, remodelling those already in existence, construction of three quays in place of those already there, construction of waiting berths, etc.

SHIPMASTER'S REPORT: July 1980

Documents: See 'Guide to Port Entry'.

Pilotage: Pilot boards at buoy No. 11 and requires 48 hours notice. Pilotage compulsory. Vessels are not able to dock or undock at berths 19 or 20 without the aid of a Pilot.

Restrictions: Vessels are able to enter and leave during hours of darkness.

Max. Size: LOA 200 m. Max. draft: 36 ft. The mean tidal range is 12 ft. Keel clearance of 1 ft. required.

Tugs: Vessel is required to use tugs. 3×1,250 h.p. and 1×1,200 h.p. available.

Radio: Bahia Blanca Radio (LPW). Telephone Nos. of the radio station are 29347,22418 and 22413.

VHF: Pilot and Port Authority on Channel 16.

Berthing: Vessel berthed at general cargo berth No. 19 which is 21 miles from the entrance. Max. size of vessel that can safely berth is 200 m. LOA and 32 ft. draft. The least depth of water in the channel from sea to berth is 36 ft. and the mean tidal range at the berth is 12 ft. Nature of bottom of the berth is mud/silt.

Consuls: Greece, Germany, Spain, Italy, Sweden, Chile, Norway and Denmark.

Services: The following services are available: Fresh water, fresh provisions, minor repairs, dry dock, machine shop, airport, surveyors, laundry services, bunker fuel oil, gas oil, lubricating oil, doctor and hospital, groceries and meats. There are no slop facilities.

General: Vessel arrived at pilot station at buoy No. 11 at 0800 hrs. as arranged, but had to wait until 0900 hrs. for Pilot to come alongside. Whilst waiting it was very difficult to keep vessel in position between sandbanks with floodtide running.

Approach to port not the best as only one buoy lit and the first two buoys missing completely of the first five approach buoys.

Vessel docked about one hour before high water, starboard side-to at berth No. 19. Draft of vessel, forward 13 ft. 11 ins., Aft 20 ft. 07 ins.

As expected vessel was aground at low water. Vessel was sounded round and it was estimated that water at berth on low water 17 ft. forward and 20 ft. aft (difficult to be accurate as all soundings showed very soft silt).

As loading progressed vessel was aground as much as two hours before low water.

Intakes for this vessel are all on the port-side, but even so the intakes are only just above mud level, which naturally meant that the fire main could not be used at low water (being choked with mud), and the toilets were being flushed with solid mud.

I asked the docking Pilot when he next expected the berth to be dredged (in the past dredging had taken place during the month of January) he stated that "the dredger they have is old and new dredgers are expected", however, the Government is concentrating on developing Puerto Madryn.

Many local trawlers have already moved their home base to the South.

Berth No. 20 has I believe slightly more water. River berth now unusable as the mooring bollards are missing.

AUTHORITY: Capitan de Puerto Bahia Blanca.

COMODORO RIVADAVIA: 45.51 S. 67.27 W.

(Province of Chubut) "B" category port.

N.B. Refer to Argentina, Section 1.

On the San Jorge Gulf, 947 miles South of Buenos Aires.

ANCHORAGE: Anchorage within the five or six fathom line offers little difficulty for regular work to lighters, but the reserved zone off the YPF pier must be respected.

RESTRICTIONS: Port should be entered at high water in daylight only. Tidal range from 19 ft. 6 in. to 7 ft. 4 in.

MAX. SIZE: Dry Cargo, Length 150 m., draft 15 ft. Tankers up to 30 ft. draft.

RADIO: For radio regarding free pratique, or reporting ETA call LPX 2, on 474 kc/s. This station transmits weather forecasts in English at 0400 and 1800 hrs. GMT.

TUGS: Not required.

CARGO: It is advisable to stow inwards cargo aft for this port, as lighters lying at hatches one or two receive little protection from sea and swell, and in any case, owing to the limited number of lighters, vessels usually work with two or three gangs at most.

To avoid loss of time, it is the custom in this port to leave the sling loads "as is" in the lighters and therefore a larger quantity than usual of slings have to be hired from the Agents.

It is advisable to establish in Bills of Lading that lighterage is at the risk of the cargo.

BERTHS: The main part of the port consists of:

National wharf. At the end of the breakwater built over the Punta Borja reef, and still unfinished. It is L shaped, presently 1,160 m. long with 23 ft. at the extreme. Vessels can only go alongside in the last inner sections, with 15 ft. at zero. The breakwater gives some protection from the S.W. and S.E. winds, but vessels with large superstructure should not go alongside, and it is recommeded to leave the pier after work is finished each day in case North or West winds blow strongly.

No export cargo is shipped now, as what wool there is moves from the farms North by road, and port conditions are precarious, except for the oil berths. The Titan crane is restricted to 30 tons, and there are two 5-ton steam cranes on the wharf. The railway now operates only up to km. 27, in the oil fields, having been dismantled further inland for lack of movement.

YPF Mole also known as km. 3, is built over the Coronel reef a short distance North of the town. It has a length of 956 m. and 21 ft. at low water. It is used exclusively for discharging cargo consigned to YPF and for loading their oil and other products, so that special permission from YPF is required to operate here. There are two 15-ton cranes and one 4-ton crane on the mole.

The privileged zone extends 150 m. either side of an imaginary line projected from the mole, and 2,500 m. seawards, reserved for tankers loading YPF products, and other vessels cannot moor in this area. There are five mooring buoys, two each side of the mole near to its head, the fifth is 200 m. from the beacon at the sea end of the mole bearing 020°.

Kilometre 5. Three miles North of the town there is a wooden wharf, 75 m. long, with only 3 ft. at low water. Vessels using this wharf for discharge over lighters, anchor 1.25 miles off the coast.

The wharf shows a fixed red light at its head and is used for cargo consigned to the Railways. There is one 8-ton electric crane and two 5-ton steam cranes on the wharf. With East or S.E. winds the wharf cannot work.

TANKERS: The oil berths within the Comodoro Rivadavia port area are, from North to South:

Caleta Olivares, at 45° 46′ S. and 67° 22′ W.

A loading berth for crude, which can only operate by day. A minimum of twelve hours advance notice of arrival must be given to Agents in Comodoro Rivadavia. There is a launch which assists in mooring to the four bouys, which are cylindrical painted black and clearly numbered. There is another cylindrical buoy, also black, but unnumbered marking the end of the line.

It is necessary to obtain, in advance, from the pumping station the regulations, instructions and signal code in use, signals which are made from a semaphore mast, 13 m, above sea level (land height 7.4 m.) both by day and night. There is a small wharf for landing of passengers, crew, etc., and a floating crane, capacity 30 tons. All supplies, water, etc., must be made through Comodoro Rivadavia.

Caleta Cordova, at 45° 43′ S. and 67° 21′ W. approximately, and some 10 miles North of Comodoro Rivadavia, to which it is connected by phone. This is also a loading berth for crude. Four light beacons on shore indicate the entrance. Astra, showing its light at 40 m. elevation, Loma Blanca at 55 m. (white light). With these two lights in line the concrete block, in 34ft. which sustains the end of the loading line, is 1,325 m. from Astra. Vessels should enter bearing these two lights or marks on 268° and anchor where the cross bearings of this line intersect with the line from the Novales beacon, a white light at 79 m. height, and Cordova, also a white light at 53 m.

This point is 300 m. from the block or pillar, in 36 ft. Vessels then swing on their anchor to moor by the stern to the four moorings buoys. Anchorage is good, in spite of an uncomfortable sea with winds in the 1st, 2nd or 3rd quadrants. S.E. storms are dangerous, however, and it is necessary then to go out to sea at the first sign thereof.

There are two small wharves for small boats, in the S.W. of the bay, one for high and another for low-water, the latter being covered at half tide.

There is also a floating crane for heavy lifts, but as in Olivares, all supplies, etc., must be taken via Comodoro Rivadavia.

Caleta Olivia, the third oil-loading berth, is South of Comodoro Rivadavia at 46° 26′ S. and 67° 31′ W.

There are two petroleum intakes here, North and South, a mile apart, each well buoyed.

A small wharf, 70 m. long, is used for discharge of lighters or landing boats at high tide only. Stores are available here, and the small town is connected by phone with Comodoro.

An SBM has recently been installed here, lying 2,700 m. off shore in 22 m. It is fitted for deballasting (14 in. discharge line) and with a 30 in. loading line, able to handle vessels of up to 150,000 d.w.t.

WEATHER: Average wind velocity 17 knots, with 79% from S.W., W. or N.W.

The port is open to N.E. and E. winds.

Rainfall is scarce, 189 mm. yearly, evenly distributed.

Temperature. Summer maximum is 25.5° and minimum 13.4° C, while in Winter maximum averages about 11° and minimum 3°.

FRESH WATER: Obtainable at National wharf and YPF wharf. Ships supply own hoses.

FUEL: Fuel oil and diesel available at the YPF pier in Comodoro Rivadavia.

DEVELOPMENTS: Dredging to increase depth to 26 ft. alongside wharves.

WATCHMEN: Recommended. Normally arranged by Agent.

HATCHES: According to port regulations, stevedores open and close hatches at commencement and end of cargo operations.

MEDICAL: Hospital available.

CUSTOMS ALLOWANCES: Only sufficient for normal daily consumption on board. *Custom House.* Fully authorised for import/export cargo, including reception of explosives for commercial use.

REPAIRS: Urgent repairs can be carried out by the oil companies, and there is a permanent service of divers, equipped to operate to 150 ft.

CONSULS: British, Chilean, Dutch, Greek, Italian, Belgian and Spanish.

AIRPORT: Situated 11 km. from port. Daily services to Argentine cities.

POLICE/FIRE/AMBULANCE: Regional Hospital 2451; Clinica Central 2282; Police 2778; Fire Brigade 2505.

TELEPHONES: No connection aboard vessels.

AUTHORITY: Capitania de Puerto de la Patagonia.

MAR DEL PLATA: 38.00 S. 57.32 W. (See Plan Book)

(Province of Buenos Aires) "B" category port.

N.B. Refer to Argentina, Section 1.

On the Atlantic Coast, 302 miles from Buenos Aires.

APPROACHES: The port is some 3 miles South of the main town, sheltered by 2 breakwaters (Northern arm 1,099 m. long, Southern arm 2,750 m., entrance, facing North 300 m. wide). Both breakwaters carry roads and access is open to all traffic, so that car headlights and street lighting can cause confusion at night on taking the Southern bearing.

DEPTHS: The dredged channel is officially 100 m. wide, but dredging is now only occasional, and the official depth is 26 ft. 9 in. and tidal ranges 3 ft. 8 in. Spring to 1 ft. 2 in. Neaps, with constantly forming sandbanks off the South breakwater.

There is often a heavy swell in this port, causing vessels to range in all berths, fenders being essential. It is safer to lie outside in 36 ft. to 42 ft. if awaiting berth than in the anteport within the breakwaters.

PILOTAGE: Pilotage compulsory. Pilots requested through Agent, or in emergency, direct to Prefecture Maritime Station frequency 500 kHz. ETA by radio to Agent required 24 to 48 hours in advance.

Pilot boat about 8 m. long, grey-white in colour. Pilot boards approximately 1 mile from port entrance.

ANCHORAGE: The best anchorage bears 191° on the Southern breakwater light beacon and 313° on the Cape Corrientes buoy, or even farther out. Holding ground is good and strong winds may safely be ridden out here, even with a big swell.

MAX. SIZE: Draft dependent on state of tide. Keel clearance of 2 ft. 6 in. required. Normal maximum draft 27 to 30 ft., or up to 33 ft. maximum in best possible conditions.

RADIO: For radio regarding free pratique or reporting ETA call LPM 2 on 512 kc/s. A2. English weather forecasts from Radio Pacheco, Buenos Aires, LPD 5, on 512 at 0148 and 1630 hrs. GMT.

TUGS: Use of tugs is obligatory; vessels over 1,000 N.R.T. must use 2 tugs.

BERTHING: Big swell causes vessels to range, therefore Masters recommended have ready fenders for use at berth. Vessels can enter or sail any time day or night.

There are three basins in the commercial port, of which the smaller fishing vessels or inshore craft use the most Southerly, and the trawlers the Coastal basin. Here an extension of the marine railway and dry docking facilities is now ready.

The third basin, or overseas, has an Elevator on its Northern side, capacity 20,000 tons, with 8 tubes and 2 belts, load rate 400 t.p.h. per belt. The berth is 300 m. long, with officially 30 ft. alongside, numbered 12 and 13, berth 11 is at the shore end of the basin, with berths 9, 10 and 8 along the South side, 300 m. long. Berth No. 7 is at the head of the basin, and immediately opposite this a jetty has been built out from the Southern breakwater, for discharge of liquid gas or petroleum products to the tank farm on shore. This also serves to shelter the Coastal and Fishing basins from the constant swell.

Grain shipments are now very infrequent, and the port is quickly becoming a fishing centre. Reefers can only load, however, up to 1,500 tons of deep frozen fish, due to the lack of storage facilities. There is one very small storage shed in the port, and the several factories each have their own storage units. Most of the fish is still landed fresh, for filleting and freezing on shore, and goes to Buenos Aires for the local market. Some of the newer trawlers, however, have their own filleting and freezing facilities and shipments are usually timed to meet their arrival in port and make a direct transhipment. From 300 trawlers and fishing boats in operation here ten years ago, the fleet has grown to nearer 500 trawlers.

On the inside of the Northern breakwater arm, there is a berth for passenger/tourist vessels, admitting vessels up to 220 m. LOA but with no facilities beyond those for landing tourists with vessel's gangway to a paved road. Depth alongside is 30 ft. Vessels at this berth must moor bow to the South, laying out their starboard anchor.

Floating crane. There is a 40-ton floating crane (Navy), present capacity 20 tons, and also 4 mobile 2-ton cranes.

MEDICAL: Assistance obtainable alongside. Captain should telegraph Agent in good time expected date and hour of arrival. Hospitals and sanatoriums.

TANKERS: Only fuel oil discharged at berth No. 7.

DENSITY: Sea water.

FRESH WATER: Available at all berths, delivery from 7 to 10 t.p.h.; at the Northern tourist berth through 3 hydrants, total 60 t.p.h. Being slightly salty it is not recommendable for boiler use.

FUEL: Fuel oil and diesel available at Berth No. 7.

DEVELOPMENTS: Dredging to obtain depth of 30 ft. in channel and port.

WATCHMEN: Compulsory. Arranged by Agent.

STEVEDORES: Gangs engaged by Port Authority according to vessels requirements.

Normal capacity per gang, per shift:

150 to 175 tons fish (direct transhipment).

70 to 100 tons general cargo.

OPENING/CLOSING HATCHES: Can be performed by crew, but in any case subject to charter party terms.

CARGO: *Loading marks.* Vessels can load to their Summer marks all year round if sailing Northbound.

Import cargo. This is a fully authorised Custom house. Berth 9 in the central basin is the most appropriate berth for handling import cargo, there being little space on shore at the other berths. Berth 7, the pierhead here, has 30 ft. and is also reasonably suitable for discharging, but in the Northern basin there is little or no room for depositing cargo alongside.

Import of Potatoes. Is permitted here, this being near the main potato growing region but permission must be obtained for the discharge of certified seed potatoes.

WEATHER: *Wind.* There is no really predominating wind, 42% being from W., N.E. and N.W., average velocity being 11 knots.

Rain. Rainfull averages 941 mm. evenly distributed.

Temperature. Summer maximum about 25° and 13° minimum, while in Winter the maximum averages 14° and minimum 3.5°. Absolute maximum and minimum are 41.6° and minus 6.7° C.

REPATRIATION: Can be arranged.

IDENTIFICATION CARDS: Compulsory. Arranged on board immediately after arrival.

CONSULS: French, Italian, Portuguese, Spanish, Uruguayan.

REPAIRS: All types of repair possible, except dry-dock repairs. Divers available.

AIRPORT: Six miles distant. Two regular lines: Austral and Aerolineas Argentinas, 2 services/day between Mar del Plata and Buenos Aires.

HOLIDAYS: None. Work every day during year.

TELEPHONES: No telephones are available on board or on the berth.

DELAYS: In accordance grain elevator capacity. Normally none.

AUTHORITY: Captain of the port: Port Administrator.

PUERTO DESEADO: 47.46 S. 65.54 W.

(See Plan Book)

(Province of Santa Cruz) "B" category port.

N.B. Refer to Argentina, Section 1.

988 miles South of Buenos Aires. The port is situated on the right bank of the river, and at its mouth. There is a meat packing plant.

APPROACHES: The approaches and entrance to the harbour are determined by two pairs of beacons as range or leading lights. Care must be taken not to confuse the installed portal cranes, each 18 m. high, with the beacons, which are painted the same colour.

There is 27 ft. on the bar, at low water: tidal range is 17 ft. 6 ins. to 6 ft. 2 ins.

PILOTAGE/ANCHORAGE: The Pilot will be on board, under standard instructions, but if for any reason he has to be picked up here, he will only come out about one mile, for lack of suitable craft. In such cases vessels should anchor in the roads at 47° 47′ 5″ S. and 65° 47′ 8″ W.

RADIO: For radio regarding free pratique, or reporting ETA call LPO 5 on 461 kc/s. A1. For weather reports in English, listen to Comodoro Rivadavia LPX 2, on 474 kc/s., at 0400 and 1800 hrs. GMT.

TUGS: No tugs available.

BERTHING: Vessels moor starboard side. Best time for entering is on an ebb tide and sailing on a rising tide, and for berthing within the hour of high tide. With a narrow entrance channel flow of tides often exceeds five knots. There is a mud and gravel bank almost opposite and slightly West of the wharf, some 200 yards out from it, with only 16 ft. at zero. When sailing, a back current runs inside the bank, and assists in opening the bows from the wharf. Vessels then usually steam across the bank, drop anchor on the outer edge and swing on the still rising tide until facing the entrance.

The fiscal wharf has been extended to 129 m. overall, in 27 ft and is being extended to 275 m. There are two portal cranes on it, each 12 tons capacity. West of this, there is a space of 90 m. which is being filled in to extend the wharf, and then a 62 m. concrete wharf also in 27 ft., but bearing 312° while the fiscal wharf is on 284°. Both sections of the wharf have wooden fenders and there is ample storage space. Rail connections have not yet been extended to the more Westerly section, where coastal vessels discharge direct to trucks.

FUEL: Available by truck from Comodoro Rivadavia.

FRESH WATER: Available at the wharf, but in limited supply in Summer.

MEDICAL: Attention available.

REPAIRS: Minor repairs only.

CONSULS: British, Chilean and Spanish.

WEATHER: Conditions are generally good, and winds seldom exceed 40 knots. If anchored awaiting Pilot or berth, care should be taken to watch for strong winds against the current. When a strong W. wind blows there can be heavy dust storms, which impede proper visibility; in such cases it is advisable to keep position by radar and stand off or anchor until the visibility improves.

Yearly average for winds is 14 knots, 63% of the time from W., S.W. or N.W.

Rainfall is low, 202 mm. yearly with an average 74 days a year evenly distributed. Maximum temperature in Summer months is 35.6° C., while in Winter maximum ranges to 15.6° and minimum to minus 8.6°.

PUERTO MADRYN: 42.46 S. 65.02 W. (See Plan Book)

(Province of Chubut) "B" category port.

N.B. Refer to Argentina, Section 1.

On the Atlantic coast, 767 miles South of Buenos Aires. One of the most sheltered and deepest harbours in Argentina.

PILOTAGE: This is obligatory both on entering and sailing. There is no resident Pilot, and one of the Southern zone group of Pilots is sent from Buenos Aires by air as required, staying on for sailing if stay in port is to be short, 72 hrs. notice required. The Pilot will board at anchorage, unless he has brought the ship in from elsewhere. As there are no tugs it is advisable to berth in the early morning, before the wind rises.

ANCHORAGE: Half mile from pier terminal good anchorage in 60 ft. depth in protected bay. Anchorage used for transhipment cargo to smaller vessels.

RADIO: For free pratique, or reporting ETA call LPZ 20, at Trelew, on 527 kc/s. A1, and for weather forecasts to LPX 2, at Comodoro Rivadavia in English, at 0400 and 1800 GMT, on 474 kc/s.

TUGS: None.

BERTHING: The new pier for the aluminium plant is 1,477 m. in length, the first viaduct being 1,133 m. long, 12 m. wide, of which 3 m. are for the conveyor belt; there are 2 general cargo berths, on the Southside, one for vessels drawing 20–24 ft., lying in 20–29 ft. and which consists of a series of 7 mooring dolphins, close to the pier. Any vessel operating here would have to discharge ashore with her own gear.

The main general cargo berth, with 31 ft. at zero at the shore end and 37 ft. at the East end is 130 m. long and can take vessels up to 160 m. in length, drawing 30 ft. There are 2 mooring dolphins, one at each end of the berth, which is ample and wide – a total width of 55 m. at this point, vessels discharge with their own gear, to trucks, the long viaduct having room for 2 trucks to pass easily. There are two 12 ton electric cranes at this point, and two 25 ton cranes are also to be installed.

To seaward, on the North side of the pier, is the bulk berth, with 37 ft. at the shore end and 50 ft. at the East end, 217 m. long and 35 m. wide. There are 2 mooring dolphins, one off each end. Discharge is by grab, on a travelling tower which moves the full length of the berth, and delivers on an endless belt to the stockpiles on shore. Installed capacity is 1,000 t.p.h., but actual yields are much lower. On windy days there is a problem with the dusty Bauxite blowing, and it is advisable to keep the ship's quarters tightly shut.

The old jetty, 458 m. long, with 16 ft. at the head and 12 ft. at 125 m. in, at low water, lies 2,500 m. to the South and is still in use for smaller vessels operating with their own gear. There are no lighters in the port.

MEDICAL: Attention available.

FUEL: By truck from Comodoro Rivadavia or Bahia Blanca.

FRESH WATER: Presently available at the end of the old pier, 5 t.p.h. and on the new jetty at 10/15 t.p.h., vessel supplies hose.

WEATHER: *Winds* mainly West, with a yearly average of 8.3 knots but reaching 15 knots in Summer months.

Rainfall scarce, average 173 mm. evenly distributed throughout the year.

Temperature. Summer maximum is 27° C and minimum 13°, and in the rest of the year maximum 21° minimum 8°.

Tidal range is 18 ft. 8 ins. and 6 ft.

HATCHES: According to Port Regulations, stevedores open and close hatches at commencement and end of cargo operations.

CUSTOMS ALLOWANCES: Sufficient for daily requirements only.

CREW IDENTIFICATION CARDS: Required.

CONSULS: Italian Consular Agent at Madryn. British and Spanish consuls at Trelew.

REPAIRS: Minor emergency repairs only, also divers available.

REPATRIATION: No facilities for effecting crew changes. Repatriation facilities only.

AIRPORT: Trelew distant 64 km. Scheduled flights to Buenos Aires and other cities.

POLICE/AMBULANCE/FIRE: Police and fire tel. 249. Hospital 240.

TELEPHONES: No arrangements for placing telephones on board.

SHORE LEAVE: Crew members allowed ashore but must be provided with identification cards.

DELAYS: Possible delays due congestion owing berth shortage and tide.

DEVELOPMENTS: There are plans in hand for installing a shipyard, to build vessels of up to 150,000 tons, and also for setting up a new Steel mill, but it will be some time before either develops.

SHIPMASTERS REPORT July 1980:

Pilotage: Compulsory. Pilot requires 24 hours notice. At present the pilot boat is small with only about 1 ft. freeboard therefore vessels do not berth or unberth in any sort of wind, sea or swell.

Restrictions: Vessels can berth and unberth at any state of the tide, day or night.

Tugs: None available. Vessel able to dock and undock without aid of tugs.

Health: Authorities require 72 hrs. notice.

Radio: Bahia Blanca (LWP) and General Pacheco (LPD).

Documents: See "Guide to Port Entry".

Services: Fresh water available. Limited amount of fresh provisions available. Minor repairs possible. Airport, Doctor and hospital available. Groceries, meats and laundry services also available. Dry docking facilities, surveyors, fuel and slop facilities not available.

Consuls: No Consular representative. Nearest at Buenos Aires.

Anchorage: In position 42° 44′ S., 65° 00′ W.

Berthing: Vessel berthed at a general cargo berth in position 42° 44′ S., 65° 01′ W. Berth being about one mile from the pilot station. Any medium sized vessel able to dock at the southern berth (general cargo berth). Vessel able to dock and undock at any stage of the tide day or night.

Density: 1025.

Cargo Handling Facilities: There is a Bulk Aluminium berth opposite the general cargo berth. Two small cranes of approximately 2.5 tonnes capacity available. No floating cranes or Ro-Ro facilities. No facilities for handling containers or palletised cargoes.

PUNTA COLORADA: 41.41 S. 65.00 W.

(See Plan Book)

The mechanical loading arm for iron ore movement from Sierra Grande iron ore mines has finally been placed at Punta Colorada, a small peninsula, mid-way between Point Pozos and Point Porfido, the neck of land often being under water at high tide. After grinding and concentrating at the mines, which are some 25 km. due West from the coast, the slurry will be pumped to the Pelletizing plant at Punta Colorada, stockpiled there and taken by conveyor some 1,600 m. to a retractable loading arm. This will have a loading rate of 2,000 t.p.h., and turns on an arc permitting it to load over a length of 112 m, without shifting position of the vessel. There is 42 ft. in the berth at LWST, vessels lying due North/South as shown on the plan.

The port will be privately owned and run by the Mining Company itself; output is expected to be two million tons of Pellets, 69% Fe. In the first year, all destined for the Steel Mill at San Nicolas.

Pilotage is obligatory, and 72 hours advance notice must be given in Buenos Aires for the Pilot to travel down.

PUNTA MEDANOS: About 280 km. South of Buenos Aires.

New deep-water port project to be completed 1980. Expected to accept vessels up to 50 ft. draft.

PUNTA QUILLA (Santa Cruz): 50.07 S. 68.25 W.

(See Plan Book)

(Province of Santa Cruz) "C" category port.

N.B. Refer to Argentina, Section 1.

On the estuary formed by the rivers Santa Cruz and Chico, 1,172 miles South of Buenos Aires.

APPROACHES: The entrance to the port is by a channel ten miles long. The Santa Cruz lighthouse and nine other beacons determine four pairs of leading lights for the approaches and entrance to the harbour, which can be entered only at high water, as both in the bar, either North or South passage, there are shoals on the leading lines, and also just before taking the anchorage in front of the town.

PILOTAGE: Southern Zone Pilot must be on board.

ANCHORAGE: The port is well sheltered and vessels can lie in up to 30-36 ft. half a mile off the town in good holding ground.

RADIO: For radio regarding free pratique or reporting ETA call LPT 2 on 441 kc/s. A2. For weather forecasts in English tune to Comodoro Rivadavia LPX 2, on 474 kc/s., at 0400 and 1800 hrs. GMT.

TUGS: None.

LOADING: A new wharf is ready at Punta Quilla, 225 m. long, depth 42 ft., but with no services or facilities, and a distance of 18 kms. from the town, from which all labour, authorities, etc., must be brought. At the same time, there are no more lighters in service, and unless the old freezer recently sold at auction, reopens movement appears negligible although it is expected that petroleum products will be moved over this wharf to relieve the strain on the pipe-lines.

FUEL: Available in small quantities, in drums, from the local YPF agency.

FRESH WATER: Available in drums, ex lighter, to be pumped out by the vessel.

WEATHER: A dry zone, with an average of 186 mm. rain, spread over 72 days throughout the year. Wind averages 11 knots and the average, maximum/minimum temperature, Summer and Winter, is 20°C or 7.9° and minus 8°, the maximum ever recorded being 34.9° Summer or 15° Winter, and absolute minimum 7.9° Summer, or minus 8° Winter.

Tidal range is 39 ft. 8ins. to 9 ft. 4 ins.

MEDICAL: Attention available.

CONSULS: None.

REPAIRS: Minor repairs only.

QUEQUEN/NECOCHEA: 38.35 S. 58.42 W.

(See Plan Book)

(Province of Buenos Aires) "B" category port.

N.B. Refer to Argentina, Section 1.

On the Atlantic Coast, 375 miles South of Buenos Aires, Necochea, is on the right bank, and Quequen, on the left bank of the Quequen River. The ports, whose administration is centered in Quequen, are the outlet for a very rich agricultural zone.

APPROACHES: The port is at the mouth of the river, protected by two breakwaters, the western arm being 1,192 m. long, lying from N.W. to S.E., and the easterly arm 572 m. long and lying North/South. The passage between the arms is 210 m. wide, and the entrance channel proper 100 m. wide. The channel is at present dredged at 27 ft. but improving constantly.

PILOTAGE: Pilots must be applied for as usual through Agents at least 24 hours ahead, using Radio Pacheco LPD 5 on 512 kc/s. A2, since there is no radio station at Quequen. This can be done by phone from Buenos Aires or other ports if vessels are not coming from abroad.

No Pilots will come out in bad weather. The small pilot boat is painted grey, with a yellow deckhead, and the Pilot comes aboard about 1.5 miles off the South end of the breakwater.

ANCHORAGES: Not advisable to anchor in bad weather due extremely dangerous winds from West through South to East. Anchorage in open sea 800 – 1500 m. from cliffs.

RESTRICTIONS: Day and night entry possible. Vessels with length in excess of 175 m. require channel navigation permit obtainable from Maritime Prefecture.

MAX. SIZE: *Admissible Draft.* The following restrictions now rule vessels up to

150 m. LOA	26 ft. 07 in. at zero
175	26 ft. 02 in.

However, vessels lying close up to the dolphins often find less depth, as the dredgers could not work too close in. The pool inside the breakwater is at 30 ft. but as there are no buoys for mooring, it is safer for vessels to await their turn outside.

HEALTH: Free Pratique is now given only when alongside, or in the pool. Master should advise agent in advance of health situation aboard. If proceeding from another Argentine port, health inspection not required. Deratisation Certificate to be shown.

RADIO: For radio regarding free pratique, or reporting ETA call Radio Pacheco LPD 5, on 512 kc/s. There is no station here and advice to Agents can be given by phone or telegraph from Buenos Aires or other ports, also Costera del Mar de Plata (LPM).

TUGS: Two tugs must be used both on entering and leaving and these come alongside at the entrance, and are also needed for movements in the port. Both are old, however, and within sufficient power for anything other than work inside the port. Ship's lines used.

Two vessels cannot be in the entrance channel at the same time. Should the weather make it imprudent for the safety of the ship and/or tugs to make fast ropes in any position, the tugs will continue at the side of the vessel to be engaged when necessity arises. In every case tugs must be paid for, used or not, and any damage done by the non use or late engagement of the tugs will be attributable to the vessel.

BERTHING: Allotment of berths is effected by order of arrival, and vessels awaiting turn to load must do so in the outer roads until the pool inside the breakwater is fully dredged. Shippers consider the Outer roads as open sea, and will not accept Notice of Readiness until a vessel enters port.

There are only eight berths in the port, one of which is not yet in service. No work lying two abreast is possible, since the tubes will not do more than just reach, and with the restricted number of loading points only one vessel could work at a time.

Total storage capacity of grain in the port and anteport can be estimated at 600,000 tons.

Loading marks. Vessels are authorized to load to their Summer marks all year round, provided they are Northbound.

Movement inside the Port. At this port it is customary for the vessel lying second off to pay for the tugs attending her own movements. Vessels lying second off must shift to allow the inside vessel out, and then occupy the vacant berth, effect two movements, as there are only two tugs available. Of these two movements only one is charged to the vessel second off, but if either of the movements is in overtime, the extra is also charged.

Fenders. Good fenders are often needed in this port, although surge has diminished with the extension of the breakwater. It is recommended that these should be at least 3 ft. thick.

QUEQUEN SIDE

Unit 1 National Elevator "Ministro de Tomaso" (Dolphins 3/4 5/6 l.h.)

This elevator, built by the Government, has a capacity of 80,000 tons, a loading bridge with eight tubes but only four conveyor belts. Two vessels can load simultaneously.The berths consist each of two piers 10 m. wide and 70 m. apart, with two railway sidings (broad gauge) running parallel to them. There are twelve mooring bollards distributed between these landing places. A loading bridge has been constructed for the new berth from the Elevator Terminal, while it receives directly from an automatic truck discharging plant at 600 t.p.h., and being at a slight angle it is feared will interfere with a vessel of more than 140 m. long loading at Dolphins 5 and 6.

Unit II (Ocean going vessels and Ultramar).

On this wharf which is 350 m. long there are 12 mooring bollards and two large sheds, one of 7,650 tons storage capacity and the other of 16,000 tons. There are also two railway sidings running parallel to it. On the cliff at the back of the sheds there is an elevator of 14,000 tons connected to the Ultramar berth by a loading bridge 85 m. long. The Ultramar Prolongation berth has a loading bridge with two tubes and two conveyor belts, and is fed from adjacent piles and wagons. These two bridges are connected by an underground conveyor, load rate 230 t.p.h., each two vessels being to berth here, one tube each. Unit II has been modified for the loading of cereals. Depth at zero tide is 36 ft.

Unit III (Dolphins 1 & 2 r.h.)

Beyond Unit III, in the direction of the breakwater, there are four sheds with a capacity of 29,750 tons and two piers reinforced concrete, 10 m. wide and 70 m. distant from each other. A pipe line runs alongside the pier for the purpose of eventually discharging tankers. Beyond these two piers, and at right angles to them, a breakwater of 120 m. length has been built as a further protection to ships at this berth.

NECOCHEA SIDE

Unit IV (Coasting vessels: Dolphins 1, 2 & 3 l.h. and 4 & 5 r.h.).

Situated on the western bank of the river and consists of the following berths: (Coasting vessels) A concrete pier 300 m. long with 12 mooring bollards. There are three brick-built sheds known as "Galpones A, B & C" of 5,000 tons each. Two vessels can moor at the same time, and load bagged cargo depth between 18 ft. and 20 ft.

Dolphins 1, 2 & 3 l.h. and 4 & 5 r.h. consists of three piers 18 m. wide and 70 m. apart and two piers 18 m. wide and 70 m. apart respectively. There are two direct discharge lines for Fuel oil for the Power plant.

The right-hand dolphin quays Nos. 1, 2 & 3 are used for fuel discharge, the pipelines are 12 in. diameter.

There are two sheds, Nos. 4 and 5 of 9,750 tons, one at each pier. Vessels can load bags or bulk by cutting bags on board. There are seven mooring bollards distributed between two berths. These, however, are not used now for export movement.

The old railway bridge is now used for road traffic, and the railway crosses higher up the river. The previous road bridge has been cut in the middle, and the area between the two bridges is being converted into a fishing port, which in turn will ease the congestion in port, especially on the Necochea side where trawlers and fishing vessels presently operate.

Importation of cargo. The Custom house here is authorised as a deposit zone, thus permitting the import of cargo.

WEATHER: *Winds,* average velocity is 7 knots, with 46% from N., N.E. and E., and only 29% from S.W., W. and N.W.

Rainfall. Averages 909 mm., evenly distributed.

Temperature: Summer maximum averages 26° C and minimum 14 with an absolute maximum of 39.9°, while in Winter the maximum is around 13° and the minimum 4°, with an absolute recorded minimum of minus 4°.

Tidal range is 5 ft. 2 ins. spring to 2 ft. neaps.

TANKERS: Fuel oil discharged.

DENSITY: Salt water.

FRESH WATER: Obtainable from hydrants on the wharves, vessel must supply hoses.

MEDICAL: Attention available.

FUEL: Advance notice essential as deliveries must be lightened from Buenos Aires, Mar del Plata, or Bahia Blanca.
DEVELOPMENTS: New quay in operation under the name of Ultramar II operating with 2 tubes of 400 t.p.h. capacity each, for loading cereals. Max. permitted overall length 170 m. Actual depth at foot of quay 40 ft.

Can be used for loading or discharging general cargo.

The dredging has been finished, although not to the target of 40 ft., and the present max. length admissible is 160 m., with an official figure of 26 ft. draft at zero. However, vessels lying close up to the dolphins often find less depth, as the dredgers could not work too close in. The pool inside the breakwater is at 30 ft. but as there are no buoys for mooring, it is safer for vessels to await their turn outside, from 800–1,500 m. from shore, in 50–60 ft., but with heavy winds from West through South to East they must put out to sea.

In May 1978 International Invitations for tender were issued for the following:—

1. For dredging the access channel and adjacent areas with a suction dredger to clean the channel and sandbanks.

2. To deepen the channel between profiles No. 90 and No. 123 with cutting dredger to bring the entrance to a common depth of 35 ft. in relation to zero tide and 120 m. width.

Estimated time for this work 30 months (Completion November/December 1980).

WATCHMEN: Compulsory.
HATCHES: Opened/closed by stevedores additional charge made.
REPAIRS: Minor repairs only.
REPATRIATION: Through Buenos Aires.
AIRPORT: 5 miles distant. Daily flights to Buenos Aires.
TIME: GMT minus 4 hours.
CONSULS: Danish, Italian and Spanish. Consular clearances for France and Uruguay must be effected in Mar del Plata, and must be done the day the vessel sails. Brazilian clearances have to be taken at La Plata Consular offices.
HOLIDAYS: Vessels worked every day of year.
POLICE/AMBULANCE/FIRE: Police, Necochea 2148 and Quequen 6008; Ambulance, Necochea 2350 and Quequen 6052; Fire, Necochea 4900.
TELEPHONES: No arrangements for placing aboard.
SERVICES: Any special services required, technicians sent from Buenos Aires.
SHORE LEAVE: Not permitted.
DELAYS: Daily cargo work 18 hours/day. One waiting berth available. Delays up to four days can occur in January and February.
AUTHORITY: Capitania de Puerto, Administrador de Puerto.

RIO GALLEGOS: 51.33 S. 68.59 W.

(Province of Santa Cruz) "B" category port.
N.B. Refer to Argentina, Section 1.

About eight miles up the river, 1,247 sea miles South of Buenos Aires.
PILOTAGE: Access to the channel is well buoyed, and the authorised Southern zone Pilot must be on board. There are 2 channels for entering port, the Southern channel though of less depth is preferred as it is more sheltered and the current is weaker.
ANCHORAGE: Good anchorage when awaiting tide is off Punta Loyola in 30 ft. or on the Northern coast in front of Punta El Gancho or between Punta Bustamante and Isla Deseado, this latter in the case of N.W. storms only.

In the port itself, the town anchorage is the best and is deepest in front of the packing house plant. Vessels discharge to or load from lighters, and ocean going vessels are permitted to use their own launch for connection with shore while in port.
RESTRICTIONS: Entrance to the anchorage is buoyed. The Northern Channel has a shingle bank bar 13 ft. at low water. The Southern Channel is more sheltered and the current not so strong. Rio Gallegos is a tidal port, the height of tide being as much as 40 ft. at times.

The port is characterised by the intensity of the currents, up to six knots, and should be entered on a rising tide there being only 22 ft. in the pool of the port at low water.
RADIO: For radio regarding free pratique, or reporting ETA call LPG 2 on 486 kc/s. A2. For weather reports in English tune to Comodoro Rivadavia LPX 2 on 474 kc/s. at 0400 and 1800 hrs. GMT.
TUGS: Tugs are not required but there is a small tug available.
BERTHS: Apart from the freezer wharf, there is the coal wharf, T shaped, fitted with an endless belt capacity 300 t.p.h., for the loading of the coal vessels taking the coal to Plate ports. There is only 20 ft. at this wharf.

There are nine lighters with varying capacity from 120 to 400 tons, which are usually unloaded or loaded when aground at low water.
FRESH WATER: Available by barge in very limited quantities. Vessel's pumps used.
FUEL: Available in drums or ex-truck from Comodoro Rivadavia.
MEDICAL: Doctor available.
REPAIRS: Workshop facilities for small repairs.
AIRPORT: Daily air service to Buenos Aires.
WEATHER: *Winds.* Characterised by constant winds from W. and S.W. averaging 16 knots during the day. In Spring and Summer 25 knots rising to 75 knots at times. Easterly winds are rare, usually with rain.

Rain. There are usually about 100 days with rain, in total 222 mm. distributed from April to October.

Temperature. Average maximum temperature in Summer is 18° C, maximum recorded being 29°, Summer minimum is 5.8° while in Winter the average maximum is 6.5° and minimum minus 11.

Tidal range is 39 ft. 4 ins. spring and 9 ft. 6 ins. neaps, tides of over 40 ft. have been registered.
CONSULS: British, Chilean, Spanish and Italian.

DEVELOPMENTS: Plans are under study to install a coal loading berth at Punta Loyola, in keeping with the projected large increase in coal production. This would also entail modernizing the narrow gauge railway from the mines, but although a road has been built in 1977 down to the site, the work has been suspended due to the poor demand for coal of this type, and it is difficult to foresee any reaction, the intention was to have a stockyard circled by the railway fitted with stackers and a reclaimer, and to build a pier with two berths in 35 ft., for 25,000 t.d.w. to operate at 2,000 t.p.h. loading. It will be a finger pier with a mooring dolphin at the Northern end, and travelling loaders on either side as well as facilities for receiving cargo and ro-ro vessels as a terminal for the eventual service to San Sebastian and/or Ushuaia in Tierra del Fuego.
AUTHORITY: General Ports Administration.

SAN ANTONIO OESTE: 40.49 S. 64.55 W.

ANCHORAGE: There is a natural deep water pool here which will allow vessels of up to 33 ft. to lie in complete shelter.
BERTHS: A new pier is being built on the North side of Villarino Point on the opposite side of the bay from the old fishing port, now abandoned.

Plans have been changed slightly from the original, and there will be a viaduct, 290 m. long and 12 m. wide, at an angle of 170° to shore, widening to 18 m. at the end with a 45 m. by 16 m. floating pontoon, for fishing vessels. The viaduct serves a jetty 200 m. in length. Expected ready by end 1979.

The main object is to handle the movement of the Solvay Soda plant to be built here.

SAN JULIAN: 49.18 S. 67.43 W.

(Province of Santa Cruz) "C" category port.
N.B. Refer to Argentina, Section 1.

In the creek of the same name, 1,111 sea miles South of Buenos Aires.
APPROACHES: Access is well buoyed, but vessels must wait for high tide to enter.
PILOTAGE: Southern Zone Pilot must be on board.
ANCHORAGE: Best anchorage situated in front of the town, in 22 ft. at LWS. When heaving anchor care must be taken as the 3-knot current drives vessels towards the shore. Puerto Scholl is the best of several anchorages.
RADIO: For radio regarding free pratique, or reporting ETA call LPY on 428.5 kc/s. A2. For weather forecasts in English, tune LPX 2, Comodoro Rivadavia on 474 kc/s, at 0400 and 1800 hrs. GMT.
TUGS: None.
BERTH: A quay has recently been put into use, 62 m. long by 20 m. wide, and in 24 ft. with two mooring dolphins, so ending the previous use of lighters.
FUEL/FRESH WATER: Not available. In emergencies, water could be supplied by lighter in drums.
MEDICAL: Doctor, and hospital available.
CONSULS: None.

NOTES

Please also advise Shipping Guides Ltd.

Australia

GENERAL:
Pilot Ladders: The Merchant Services Guild of Australia has advised that as from 1st December, 1975, Pilots will not board any ships on which the height from sea level to point of access exceeds 9 m., unless prior written assurance is given by the owner or Agent that arrangements have been, or will be, made to satisfactorily alter the ship's construction or equipment at the earliest opportunity. The only acceptable means for boarding ships with freeboard in excess of 9 m. is by a pilot ladder secured at an opening in the ship's side, or by an approved combined system of pilot ladder and accommodation ladder. The notice has been issued by the M.S.G.A. as, although the "9 m. rule" has been part of Australian and SOLAS regulations for some years, their members have found that a high number of vessels are not fully complying.
Hold Ladder Policy: For easy reference, summarised below is the Waterside Workers Federation official policy for hold ladders in Australia. Details of acceptable designs for special type vessels, i.e. car carriers, shallow 'tween deck refrigerated ships, etc. are available from Agent's office upon request.
1. General Cargo Vessels – The standard acceptable ladder construction would be an upper vertical section limited to 3 m. (subject to this being technically possible) with the balance of the access hold ladders being of stairway design angled to the tank top.
2. Bulk Cargo Vessels – The standard acceptable ladder construction would be an upper vertical section limited to 3 m. (subject to this being technically possible) with a bottom vertical section limited to 6 m., (in order to reduce damage by grabs, bulldozers, etc.) and with the balance of the access ladders between the upper vertical section and lower vertical section being angled and of stairway design with the angle being not greater than 65° in both the above classes of vessels.

ADELAIDE, S.A.: 34.51 S. 138.30 E. (See Plan Book)

PORT LIMITS: The seaward boundaries of the port are: An area embraced by a line drawn to seawards 4 miles from Outer Harbour through the Fairway Beacon and then extended 5 miles North and South returning due East to the coastline.
DOCUMENTS: See "Melbourne".
PILOTAGE: Advance notice 24 hours, telegraphic requests through ship's Agent. VHF Channel 16. Call sign "Adel. OH" Pilot launch orange hull, yellow deck house, "Pilot" on each side in black letters. Give pilot launch good lee and safe pilot ladder. Pilot boards 1.5 miles seaward of Fairway Beacon.
ANCHORAGE: 0.5 mile West of Fairway Beacon.
RESTRICTIONS: Controlling depth in channel to container berth 36 ft. (11.0 m.) and to Inner Harbour 30 ft. (9.1 m.) ISLW.

Vessels up to 28 ft. (8.5 m.) require 3 ft. (0.91 m.) keel clearance; vessels up to 28–30 ft. (8.5–9.1 m.) require 3 ft. 6 in. (1.06 m.) keel clearance; vessels over 30 ft. draft require 4 ft. (1.21 m.) keel clearance.

Night berthing/unberthing subject to Harbour Master's approval.
MAX. SIZE: Inner Harbour – length 640 ft. (195 m.) OA; draft 31 ft. (9.4 m.) Neaps, subject to tide; 34 ft. 06 in. (10.5 m.) Springs. Outer Harbour (Container Berth) – length 940 ft. (286 m.) OA; draft 37 ft. (11.3 m.) Neaps, subject to tide; 39 ft. (11.9 m.) Springs.
HEALTH: Including Document A in short form. Also see "Melbourne".
RADIO: Adelaide Radio VIA.
RADAR: Decca Type RR 1219 installed in new signal tower.
TUGS: 4 available. Use tugs wires.
BERTHING: Tug power as required by Pilot. Depth at berths: Inner Harbour: 27 ft. (8.2 m.) – 36 ft. (11 m.). Outer Harbour: 33 ft. (10.1 m.) – 40 ft. (12 m.).

Berth	*Length (m)*	*Depth at L.W. (m)*	*Type*	*Cargo*	*Cranes*

2	177	9.1			
O.H. 2	183	10.1	Passenger terminal	Passengers	—
O.H. 4	214	10.7	Ro/Ro quarter ramp	Containers	—
O.H. 6	298	12.0	Container berth	Containers	45t container crane 60t on hook

STEVEDORES: No advance ETA required.
MEDICAL: Contact Quarantine Department in ample time.
TANKERS: Vessel carrying inflammable cargoes or not gas-free restricted navigation during darkness. "Leak free" advice to Harbour Master to be given through Agent. 500 tons slop discharge facilities. 6 Berths. Unauthorised persons not allowed on board.
Berths:

"J"	Shell Co. Depth alongside 8.2 m.
"L"	Mobil Oil Co. Depth alongside 8.5 m.
"M"	B.P. Ltd. Depth alongside 8.5 m.
"N"	Caltex Co. Depth alongside 8.5 m.
O.H.4	Amoco. Depth alongside: 10.7 m.
OSB. 1	Terminal Properties: Depth alongside 9.8 m.

DENSITY: Slightly denser than sea water; not affected by tide.
FRESH WATER: Inner Harbour: Through Hydrants at 12–15 t.p.h. Outer Harbour: 135 t.p.h.
FUEL: Fuel oil, thin fuel oil, diesel, gas oil. 48 hours notice required. A bunkering barge capable of transporting 1,000 metric tons of bunkering oils operates in the port. The use of this bunkering barge will enable vessels to bunker without leaving their loading berths or using road tankers.
GANGWAY/DECK WATCHMEN: Optional except for white spirit tankers. Cost varies according to time of shift.
OPENING/CLOSING HATCHES: Carried out by crew.
CERTIFICATES:
Last Port Customs clearance.
Ship's Register.
Load Line Certificate.
Safety Radio Certificate.
Safety Equipment.
Light Dues Receipt.
Ship's Articles (British Vessel).
CUSTOMS ALLOWANCES: Each Crew member 200 cigarettes or 40 cigars or 8 oz. tobacco. Limited amounts of spirits per man.
CARGO GEAR: Accordance Australian Regulations. See "Melbourne".
IDENTIFICATION CARDS: See "Melbourne".
CONSULS: The following countries are represented:
USA
Austria
Belgium
Denmark
Finland
France
Germany
Greece
Guatemala
Italy
Japan
Lebanon
Liberia
Netherlands
Norway
Peru
Philippines
Portugal
Sweden
REPAIRS: All repairs possible.
DRY DOCKS: None.
REPATRIATION: Available.
AIRPORT: Adelaide 8 miles, regular airlines.
TIME: GMT plus 9 hours 30 minutes. Daylight Saving Time from last Sunday in October to first Sunday in March – GMT plus 10 hrs. 30 mins.
HOLIDAYS: Xmas Day, Waterside Workers' Picnic Day (late January), Good Friday, Anzac Day (25th April), Adelaide Cup Day (3rd Monday in May), Eight Hours Day (2nd Mon. October). Restricted holidays, Boxing Day, New Year's Day.
TELEPHONES: Port Adelaide Police 49-6111, Ambulance (Wharf) 461616, Fire Brigade 471515.

Note: $30 connection fee plus cost of calls.
SERVICES: Garbage disposal, cleaning out and fitting out and compass adjusting.
DEVELOPMENTS: The navigation channel at Outer Harbour is being deepened from 11 m. to 12 m. LW as far in as the container berth. Also a swinging basin opposite the berth is dredged to 12 m. LW and width of 460 m.
AUTHORITY: Dept. of Marine and Harbors.

AGENT: Patrick Agencies, POB 107. 15 Divett Street, Port Adelaide SA 5015. Tel. 47–4655. Telex AA. 82624. Cables: "Rikpat Adelaide'.

ALBANY, W.A.: 35.02 S. 117.53 E. (See Plan Book)

PORT LIMITS: All the waters of King George Sound and Princess Royal Harbour Westward of a line drawn from Herald Point to Bald Head.
DOCUMENTS: See "Melbourne".
PILOTAGE: Compulsory service provided by State Harbour and Light Department. Pilot boards vessel about 1.5 nautical miles East of King Point.
ANCHORAGE: 1.5 miles (2.4 km.) East of Possession Point (or in Frenchman's Bay if going to Whaling Station or for shelter).
RESTRICTIONS: The entrance channel from King George sound to Princess Royal Harbour has a width of 550 m. land to land. The Navigation channel therein being 145 m. wide, with a depth of 10.06 m. LWOST. Depth of swinging basin in the harbour is 10.06 m. and vessels with a draft of 9.45 m. can work the port. Although some margin is allowed at the Harbour Master's discretion dependent on weather and tidal conditions, (HHW 0.9 m.). Vessels can be berthed day or night.
HEALTH: Master should supply answers to a prescribed questionnaire 24 hours before arrival. Details of the questionnaire can be obtained from vessel's Agent and answers should be radioed to Agent who will arrange medical pratique.
VHF: Call sign is "Albany Port" and limited service is available on Channels 6, 12 and 16 on pre-arranged schedules.
TUGS: Motor tug available, bollard pull approx. 14 tons.
BERTHING:

King George Sound: Safe anchorages are available and at Frenchman's Bay, a mooring is provided for vessels loading whale oil in bulk from the Whaling Station by means of a submarine pipe-line.

Princess Royal Harbour: The following berths are available:
Deepwater Jetty: No. 1 Berth (South side) length 240 m., depth 10.06 m. No. 2 Berth (North side); length 180 m., depth 7.62 m. (no fendering).

Land Backed Wharf: A continuous wharf face of 608 m. allocated into 3 berths. No. 1 – length 209 m., depth 10.06 m. No. 2 – length 172 m., depth 10.6 m. No. 3 – length 227 m., depth 11 m. There is no swell at any of the berths.

The jetty berths are served by road transport only whilst the wharf berths are served by both road and rail transport. The rail transport is connected with the Western Australian Government Railways state system.

Berth uses: No. 1 Jetty Berth, for receival of petrolum products and the provision of oil bunkers. No. 1 berth has a transit shed with a floor area of 4,300 sq.m. and is used mainly for general cargoes. Whilst the berth has not been constructed to receive ro/ro vessels, it has been possible to work them at this berth.

No. 2 Wharf Berth, for the loading of bulk grain. The facilities provided by Co-operative Bulk Handling Ltd. have a loading rate of 400 tonnes per hour. The grain is transported from the terminal to a shipping gallery which is at the rear of the wharf. The gallery is 127 m. long with 6 loading booms, each 17.7 m. long at 17.1 m. centres.

No. 3 Wharf Berth, is a general purpose berth and has been designed to receive ro/ro vessels and container traffic. Holding yards for live sheep are erected at this berth capable of holding sheep.

FRESH WATER: Available all berths. Rate 60–80 tonnes/hour.

STEVEDORES: No ETA required. Private companies.

Normal Working Day: Day Shift (Ordinary Time) 0800 to 1600 hrs. with meal break 1200 to 1300 hrs. Shift extension through to 1700 hrs. any night with selected nights through to 1900 atdouble time. Evening Shift (Time and Half) 1800 to 2400 hrs. Night Shift (Double Time) 0000 to 0700 hrs. Saturday (Double Time) 0000 to 0700 hrs, 0800 to 1700 hrs. (Lunch break 1200 to 1300 hrs.). Sunday (Double Time and Half) 0800 to 1700 (Lunch Break 1200 to 1300 hrs.) and 1800 to 2400 hrs.

FUEL: Marine fuel oil and light marine diesel oil is available at all berths. Rated average at 150 t.p.h. (fuel) and 100 t.p.h. (diesel).

REPAIRS: A slipway of 300 tonne capacity is available. Small repairs only are dealt with by Board of Trade Engineers. Fitting out for grain loading is done by several contractors.

CERTIFICATES:

- Last Port Customs Clearance.
- Ship's Register.
- Load Line Certificate.
- Safety Radio Certificate.
- Safety Equipment Certificate.
- Light Dues Receipt.
- Ship's Articles (British Vessels).

CUSTOMS ALLOWANCE: Each crew member 200 cigarettes or 40 cigars or 226.8 gm. tobacco. Limited amounts spirits per man.

IDENTIFICATION CARDS: See "Melbourne".

TIME: GMT plus 8 hours.

HOLIDAYS: As for Fremantle except W.W.F. picnic day is late January.

CARGO GEAR: Vessels use own lifting gear. Wharf gear includes 2 mobile cranes (8 tonne and 5 tonne) 4 fork lift trucks (2×3,600 kg. and 2×2,500 kg.).

AIRPORT: 11 km. from Port.

DEVELOPMENTS: A contract has been awarded which on completion will result; outer end of approach channel 12.8 m. decreasing to 12.2 m. in entrance channel turning basin and No. 3 wharf berth. Nos. 1 and 2 wharf berths will be deepened to 10.4 m. The 2 jetty berths will remain unaltered.

AUTHORITY: Albany Port Authority.

AGENT: Patrick Agencies, Box 525 PO, Port Road, Albany, Western Australia, 6330. Cables "Rikpat". Tel. 413538.

ARDROSSAN, S.A.: 34.26 S. 137.55 E.

DOCUMENTS: See "Melbourne".

PILOTAGE: Compulsory (except for B.H.P. vessels).

APPROACHES: *Navigation Beacon:* The light beacon, flashing white every second, marks the Northern side of the seaward limit of the dredged exit channel.

Lead Lights: Lead light towers line up on a grid bearing 249°. Towers are located approximately 10 m. from the clifftop edge and approximately 610 ft. from clifftop edge.

MAX. SIZE: Max. size 46,000 d.w.t. for berthing and loading.

VHF: Manned weekdays 0730 hrs. – 1200 hrs. and 1245 hrs. – 1615 hrs.

TUGS: Available from Port Adelaide.

BERTHING:

B.H.P. Jetty:

Length 931 m. "T" head – 6 Dolphins and 2 mooring platforms. Total berth length 409 m. Continuous fendering is installed from Dolphin No. 2 to Dolphin No. 5 for 160 m. length. Depth of water – 9.2 m. MLWS.

Loading is via a Belt Conveyor System. Two fixed loading booms are available for use. One boom is set higher with a longer reach. Only 1 boom may be used at a time. The fixed boom necessitates vessel warping along "T" head during loading.

Loading rates:	Dolomite 2,400 t.p.h.
	Wheat 400 t.p.h.
	Barley 400 t.p.h.

Northern Boom:

Height of chute above MLWS – 12.38 m. Loading chute extends across vessel from wharf face – 12.3 m.

Southern Boom:

Height of chute above MLWS – 16.18 m. Loading chute extends across vessel from wharf face – 16.1 m.

TIDE: Average rise and fall 1.8–2.4 m. max. 3.1 m. at Spring tides.

FRESH WATER: Small quantities can be made available by special arrangement. (Flow rate is approximately 3 tonnes/hour).

FUEL: Not available.

STEVEDORING: Arranged with private companies.

Operations: Working hours are flexible to suit vessel's requirements.

Working Hours –	Night Shift	0001–0800 hrs.
	Day Shift	0800–1600 hrs.
	Afternoon Shift	1600–2400 hrs.

AUTHORITY: The Broken Hill Pty Co. Ltd. Whyalla.

AGENT: Sub-agent of Patrick Agencies, Adelaide.

BALLAST HEAD, Kangaroo Is.: 35.45 S. 137.48 E.

(See Plan Book)

In Eastern Cove, Kangaroo Island. Private bulk loading installation from which charter vessels load gypsum for shipment to factories in Eastern Australian states. No facilities for discharging cargo and no Customs, health or other government departments' facilities available.

DOCUMENTS: For vessels chartered to carry gypsum to Eastern Australian ports, Bills of Lading prepared on completion of loading.

PILOTAGE: No Pilots resident at Ballast Head but pilotage can be arranged through Harbour Master, Port Adelaide if required.

ANCHORAGE: Sea approach is unobstructed, with deep water anchorage and turning basin of Eastern Cove, 4.5 km. wide and extending 0.8 km. South of berth. Minimum depth about 10.5 m. Sand bars exist immediately South of berth but well inside line of dolphins.

RESTRICTIONS: Vessels may proceed to anchorage at any time, but can berth only during daylight hours. Loaded vessels can leave berth or anchorage at any time without concern for tide conditions.

HEALTH: Pratique must be obtained at Port Adelaide.

RADIO: Ship-shore VHF radio. Call sign "Ballast Harbour". Frequencies, 150.80 mc/s. for distress and calling; 156.60 mc/s. for working.

Arrival advice: At least 8 hours notice of ETA is required to S.A. Gypsum Adelaide Office, tel. 2687855 or after hours, Adelaide 356.5606 or Kingscote 2.2287.

TUGS: No tugs are available, but can be arranged from Port Adelaide, if required. However, a launch is available for running ships' lines, and must be used.

BERTH: The berth consist of a line of 10 dolphins running North/South, 293 m. overall length forming a T-head jetty with loading conveyor gantry. Depth of water alongside 26 ft. (7.9 m.) LWOST. Berthing signals by radio instruction or mast head.

MAX. SIZE: Jetty can accommodate vessels up to about 16,000 tonnes d.w.t. Maximum length 250 m. Maximum breadth 25 m. Ships must exercise extreme care in berthing to avoid damage to dolphins or head frame. Max. approach velocity 0.15 m./sec.

LOADING FACILITY: Loading equipment consists of conveyor system to fixed loading gantry supporting luffing boom conveyor. Discharge from boom conveyor feeds to gimbal-mounted chute that can be pivoted mechanically in any direction up to 20° off vertical to trim to square of hatch. Boom conveyor operates only in horizontal position and loading chute does not telescope. Fixed loading gantry situated at centre of line of berthing dolphins. Distance from face of fenders to centre line of loading spout is 12.0 m. Distance from low water level to outlet end of loading chute in loading position – 6.4 m. Maximum handling rate of rock gypsum on conveyor system, 870 t.p.h.

MEDICAL: Doctor available at Kingscote, 40 km. distant. Hospital also at Kingscote.

FRESH WATER: None available.

FUEL: No facilities available.

GANGWAY/DECK WATCHMEN: None required.

OPENING/CLOSING HATCHES: Carried out by crew.

CONSULS/REPAIRS/DRYDOCKS/REPATRIATION: No facilities available.

AIRPORT: Local airport approximately 32 km. distant. Regular air service to Adelaide – at least one flight daily.

TIME: 9 hrs. 30 mins. in advance of GMT from March to October inclusive. One hour Summer saving time operates from November to February inclusive.

HOLIDAYS: Loading carried out on any day but at least 24 hours notice of ETA required for loading on public holidays.

POLICE/AMBULANCE/FIRE: Police station, Kingscote 2.2018; Ambulance, Kingscote 2.2037 or 2.2028; Fire, Kingscote 2.2200.

TELEPHONES: No arrangements exist for placing telephones on board.

SERVICES: None available.

DELAYS: Berth accommodates only one vessel at a time, but once berthed the loading continues without break until completion except for the time taken to shift ship from hatch to hatch and to check draft.

AUTHORITY: S.A. Gypsum, Division of CSR Ltd.

BARROW ISLAND, W.A.: 20.49 S. 115.33 E.

(See Plan Book)

LOCATION: The Barrow Island Tanker Terminal, owned and operated by West Australian Petroleum Pty. Limited, is a crude oil loading installation located on the East side of Barrow Island, Western Australia. The tanker moorings are located approximately 32,400 ft. (9,875 m.) offshore at Lat. 20° 48′ 52″ S, Long. 115° 33′ 04″ E. Refer to current hydrographic chart AUS-742 for further information.

DOCUMENTS: Refer to "Melbourne" — Also see "Health".

MINIMUM REQUIREMENTS:

Minimum Requirements for Tankers Loading:

1. A Mooring Master is assigned to tankers calling at Barrow Island to assist in mooring and unmooring, in connecting and disconnecting the submarine loading hose, and to advise on matters concerning the safety of the tanker and terminal facilities. The Master of the ship shall be in full command at all times. In the event of negligence on the part of the Mooring Master causing damage to or loss of the vessel, the Owners and Charterers of the vessel indemnify the Mooring Master and West Australian Petroleum Pty. Limited against all claims by the vessel's Owners, Charterers and third parties arising therefrom.
2. West Australian Petroleum Pty. Limited may, at its discretion without prior written approval, refuse to moor or load any tanker that does not conform to the minimum requirements listed below. The Company also reserves the right to reject any tanker, that in

the judgement of the Mooring Master, is deficient in any manner whatsoever. The onus is exclusively on the Master, Owner and Charterer of each Tanker entering the Terminal to ensure that the vessel is sea-worthy and that all equipment is and remains in good working order. Failure by WAPET to reject any vessel not meeting these requirements will not relieve the vessel's Owner or Charterer of liability.

Vessels which could possibly contravene pollution regulations (both Commonwealth and State) will not be accepted.

3. Tankers exceeding the following dimensions cannot be accommodated at the sea berth:
   a. Deadweight tonnage (loaded) — 71,000 tonnes.
   b. Overall Length — 820 ft. (250 m.).
   c. Moulded depth — 58 ft. (17.67 m.)
   d. An under-keel clearance of not less than 5 ft. (1.56 m.) must be maintained.
4. Tankers must have at least one set of mooring bits on the port and starboard sides at the after end of the main deck and a minimum of four sets of mooring bits on the poop deck to which mooring lines and/or wires can be hove tight and made fast.
5. Both bow anchors are required to have a minimum of ten shackles of chain. All anchors and chains are to comply with the requirements of a Classification Society recognised by the Australian Department of Transport.
6. Tankers should have sufficient mooring ropes and/or wires so that single or doubled up they have a total breaking strain of 80 tonnes to each of the six mooring buoys. Six such lines or combinations not less than 120 fathoms in length are required.
7. The tanker's derrick or crane must be capable of lifting the 5 tonne submarine hose on the starboard side.
8. Tankers are required to furnish the necessary personnel to perform all work involved in the connecting and disconnecting of the cargo hose.
9. Tankers manifolds must be capable of being bolted to the 10 in. U.S.A.S. flanges used by West Australian Petroleum. One adaptor from 10 in. (25.4 cm.) diameter U.S.A.S., flange pitch circle diameter 14.25 in. (36 cm.) to 10 in. (25.4 cm.) diameter British Standard, flange pitch circle diameter 15 in. (38 cm.), known as American Standard Association — A.S.A.
10. Tankers are required to arrive ballasted to at least one quarter of their summer deadweight. It is recommended that they arrive with clean ballast and preferably deballast concurrently with loading. If this is not possible then tankers must be capable of loading at least one third of their summer deadweight tonnage before deballasting operations begin.
11. Tankers are required to victual and provide sleeping accommodation for the Mooring Master and Operators and to victual only, the three man launch crew.

READINESS: Notice of readiness is accepted:

(a) *When the Marine Terminal is available:*

When the vessel is all fast in the berth, i.e. all lines secured to the buoys and preventers made fast.

(b) *Where the berth is not available:*

6 hours after the vessel drops anchor at a nearby anchorage. Laytime ceases for the period of time taken for the vessel to move from the anchorage and is resumed when the vessel is all fast at the berth.

(c) *Where a vessel with inadequate lights arrives at night:*

6 hours after daybreak following arrival or when the vessel is all fast at the berth – whichever occurs first.

PILOTAGE: A terminal Mooring Master will meet and board tankers bound for the Island Tanker Terminal in an approximate position with tanks (conspicuous) bearing 300° and two nautical miles off the moorings. Tankers waiting to berth etc. are requested to anchor in this position.

ANCHORAGE: See "Pilotage".

RESTRICTIONS: Vessels equipped with adequate searchlights may be berthed during the hours of darkness. Two × 12 in. (30 cm.) reflector diameter searchlights, one fitted to each port and starboard wing of the bridge in such a manner as to provide a wide scanning range, are considered adequate. Tankers not fitted with searchlights may berth in daylight hours only.

MAX. SIZE: The minimum depth of water in the vicinity of the berth is 43.3 ft. (13.2 m.) and an under keel clearance of 5 ft. (1.56 m.) is required at all times. Also see "Minimum Requirements" – No 3.

HEALTH: Tankers arriving from foreign ports must make prior arrangements for quarantine and customs clearance through their agents. Port Walcott, Western Australia, is the nearest port where customs and quarantine clearances can be obtained.

RADIO: All tankers proceeding to the Barrow Island Terminal shall notify the West Australian Petroleum's Perth Office, telephone No 325-0181 (contact available 24 hours/day) or cable address WAPET, Perth, during normal business hours, their ETA, not less than 96 hours before arrival, amending or confirming this ETA at intervals of 48 and 24 hours prior to arrival. A final ETA is to be confirmed 12 hours before arrival at Barrow Island. Failure to comply with the above procedure may result in a Mooring Master not being available on the tanker's arrival. Quantity and condition of ballast on board should be advised in original ETA message.

During normal daylight working hours, the Company's Mooring Master, Barrow Island, can be contacted by means of the International Maritime VHF. Frequencies in use are:

Channel 16 156.8 mc/s. – safety and calling
Channel 14 156.6 mc/s. – terminal operations,
ship/shore
Call sign 'Barrow Island'
Channels 8 & 12 are also fitted

At times other than normal working hours, contact may be made by pre-arranged scheduling. In all events tankers are required to tune their VHF sets to Channel 16 when within 100 nautical miles of Barrow Island.

TIDES: Slack water at the terminal moorings occurs approximately 1 hour after HW and LW. The direction of the flow is approximately 245° flood tide and 065° ebb tide, and attains a rate of approximately 1 knot at springs.

Times and heights of high and low waters occurring at the Terminal Moorings are to be published in the Australian National Tide Tables effective 1978 (supplement). The above tidal information can only be taken as a guide as times, direction, rate and heights cannot be implicitly relied upon.

BERTHING: West Australian Petroleum will furnish a suitable launch and crew to secure and cast off the tanker's lines to the mooring buoys.

Tankers must have at least 2 sets of mooring bits on the port and starboard sides at the after end of the main deck or, alternatively a mooring winch and 1 set of bits, and on the poop deck, in addition to mooring winches, 4 sets of mooring bits to which mooring lines and/or wires can be hove tight and made fast.

To facilitate berthing, 2 mooring lines on the after end of the main deck, and 2 mooring lines on the poop deck should be securely joined together giving an effective length of approximately 240 fathoms (440 m.).

In the case of self-tensioning winches, each should have approximately 70 fathoms (128 m.) of wire or rope flaked out on the deck ready for running by the mooring launch to the mooring buoys.

Permanent 5 in. circumference wires are fitted to No. 1, 2, 3 and 6 mooring buoys. These wires are provided to supplement the tanker's own lines relative to the prevailing weather conditions at the time. These wires are fitted with 160 ft. (48.7 m.) of 3.125 in. (9.6 cm.) wire and 4.5 in. × 100 ft. (110 cm. × 30 m.) terylene messengers. A good ship's rope messenger is required to bring the messenger to the tanker's winch drum.

West Australian Petroleum reserves the right to refuse to load any tanker that is deficient in any manner whatsoever or presents a pollution hazard.

DEBALLASTING: There are facilities for receiving ballast from vessels loading at Barrow Island.

Tankers are required to arrive ballasted to at least one quarter of their summer deadweight tonnage and with propeller submerged.

Owing to the time factor involved in pumping dirty ballast ashore, it is recommended that tankers arrive with clean ballast and preferably deballast concurrently with loading.

However, if required, ballast on arriving tankers may be pumped to shore using ship's pumps through the submarine line then through a deballasting line to the ballast receiving pond. The following deballasting procedure is used at the Terminal:

After the hose has been connected, at least one-third of the summer deadweight tonnage must be loaded before deballasting. Part of this oil is to be used to displace ballast from the submarine line. The line displacement of the submarine loading line is approximately 12,250 barrels (1,680 tonnes).

It is necessary to load at least one-third of the summer deadweight tonnage before deballasting operations begin in order to keep the ship in as heavy a condition as possible and thereby minimise the effects of sudden changes in sea and weather conditions.

When the preceding operation is complete, deballasting operations start. When the oil-water interface is detected onshore, the stream is diverted from the crude oil storage tanks to the ballast receiving pond. Pumping of the ballast continues until all ballast is discharged from the ship. Pressure at the ship's rail during deballasting should not exceed 100 p.s.i. At this pressure the discharge rate is approximately 1,120 tonnes per hour.

When all ballast is discharged Barrow Island crude oil previously loaded is pumped into the line in order to displace all ballast from the submarine pipe-line. When approximately 11,000 bbls. (1,500 tonnes) of crude has been pumped the Mooring Master and the shore Terminal are to be advised.

When the water-oil interface is detected ashore, the stream is then diverted to the shore tanks and the ship's pumps are requested to be stopped. During the displacement operations, pumping rates should be kept as high as possible to keep line contents in a turbulent condition in order to sweep the lines as clean of water as possible.

LOADING: The tanker should, if possible, arrive with the derrick or crane rigged on the starboard side and in all respects ready to lift the deck hose, hanging off chain, etc., from the mooring launch.

The onshore terminal facilities consist of five 200,000-bbl. capacity floating roof storage tanks, two gas engine driven centrifugal loading pumps with necessary auxiliary equipment. The loading pumps are rated to deliver a maximum of 17,000 bbls. per hour of crude oil to tankers with a nominal pressure of 10-25 p.s.i.g. at the ship's side.

Barrow Island crude oil has an approximate API gravity range of 35.5 to 37.1 and an approximate temperature range of 74°F to 98°F (23°C – 37°C).

The sea line delivering the oil is 20 in. O.D. × 0.375 in. (51 cm. × 9 mm.) steel pipe with a 2 in. (5 cm.) thick concrete external coating. The line is terminated with 200 ft. (61 m.) of flexible submarine loading hose consisting of 150 ft. (45 m.) of 16 in. (40 cm.) and 50 ft. (15 m.) of 12 in. (20 cm.) hose. The sea end of the pipe-line is marked with a white spar buoy, and the pick-up end of the flexible hose is marked with a white cone buoy.

The submarine line is left full of crude oil between tanker arrivals. (After picking up and connecting the hose, the system will be pressurised to about 25 p.s.i.). After the hose has been hoisted and secured at the ship's rail, the blank flange on the end of the hose assembly is removed and the hose connected to the tanker's manifold by the deck hose and the adaptor spool assembly previously delivered to the tanker by the mooring launch.

During loading operations, a responsible deck Officer must be present to approve the hose connections and supervise the tanker's crew members in this work.

Two deck hoses, one 25 ft. × 10 in. (7.6 m. × 25 cm. I.D.) and one

18 ft. × 10 in. (5.4 m. × 25 cm.). Reducers of 14 in. to 12 in. and 12 in. to 10 in. are available (36 cm. to 30 cm. and 30 cm. to 25 cm.).

All flanges are U.S.A. Standard, formerly known as American Standards Association. An adaptor from 10 in. diameter U.S.A.S. (flange pitch circle diameter 14.25 in.) to 10 in. diameter British Standard (flange pitch circle diameter 15 in.) is available.

The Mooring Master is to be advised when 200 tonnes is required to complete loading so that the pump motors can be eased down slowly, and again at 50 tonnes when the pumps will be stopped and loading completed by gravity. On completion of loading, the manifold valve is to be closed slowly to minimise the surge of oil in the pipe-line and the consequent quick build up of back pressure.

Portable radios are supplied for communication between tankers and the Terminal. To minimise the possibility of a dangerous position arising due to an undetected radio failure, tankers are required to keep an hourly test call schedule with the Terminal at which time they should advise the Terminal of the back pressure at the ship's rail.

CAUTION – When all hose connections have been made the Cameron valve and the ship's manifold are opened and gravity loading takes place until such time as the ship's checks are completed and clearance is given to start the loading pumps. Whilst loading, the flow of oil from the shore pumping station via the submarine pipe-line is not to be shut off by closing ship's valves or the pipe-line valve without prior approval of the Mooring Master. At least one tank is to be fully open to the inflow of oil from the submarine pipe-line at all times, and in order to reduce back pressure as many tanks as possible should be open during loading. In all events the back pressure at the ship's rail is not to exceed 100 p.s.i.

GENERAL: Ships must load promptly and leave the mooring Terminal promptly or risk demurrage charges which may accrue to other vessels waiting and ready to load.

Medical facilities, telephone, Consuls or Foreign Government Representatives, bunker oil, fresh water, cargo or tank inspection services, and facilities for ship's laundry, stores or repairs are not available at Barrow Island Tanker Terminal.

Ship's crews cannot be accommodated ashore on the Island.

The dumping of any rubbish overboard is prohibited.

AGENCY: No ship's agent's services are furnished by West Australian Petroleum.

BOTANY BAY, N.S.W.: 34.00 S. 151.14 E.

(See Plan Book)

DOCUMENTS:

2 Crew Lists (Form M. & S. II).
Stores List (Form 42 A).
Personal Effects List (Form 5).
2 copies Health Report (Form A Q360).
3 copies Ports of Call List (Form C & E 886).

If vessel has an animal aboard as ship's pet, Master will also be required to complete Forms QA 4 and QA 5.

PILOTAGE: Compulsory. Ordered by Agent basis Master's ETA. Pilot boards outside Botany Bay Heads. Vessels waiting for Pilot not to proceed West of 151.15 E. Pilot vessels fitted with VHF for communication with other ships. Watch maintained on Channel 13 while at sea and messages conducted on Channel 6.

ANCHORAGE: Inside Heads for vessels up to 9.45 m. draft. In bad weather vessels should not anchor but put to sea.

RESTRICTIONS: Vessels not berthed after sunset. Mooring normally effected two hours before HW.

RADIO: Sydney Radio. VHF to Harbour Control, Sydney. Also see "Sydney – VHF".

MAX. SIZE:

Kurnell	No. 1	Length	183 m.	Draft	10.02 m.
,,	2	,,	198.2 m.	,,	11.1 m.
,,	3	,,	228.5 m.	,,	11.5 m.
Bulk Liquids Berth		,,	185 m.	,,	14.0 m.

SBM Terminal, up to 12.8 m. draft.

TUGS: 24 hours notice required. Tugs join vessel at sea buoy. Ship's lines used.

BERTHING: *Kurnell No's. 1 & 2:* Operators: Australian Oil Refining Pty. Ltd. Finger pier with 2 berths; No. 1 – Eastside. No. 2 – Westside. Crude 1 × 26 in. 1 × 18 in. lines – 8 in. hoses. Fuel 1×24 in. 1×12 in. lines – 8 in. hoses. White 6 in. – 16 in, Bunkers and FW ex-wharf. Slop facilities up to 8,200 tons.

Kurnell No. 3 Berth: Operators: Australian Oil Refining Pty. Ltd. Vessel moors using both anchors forward and ropes to 5 buoys and 2 swamp moorings, semi-circle (astern). Hoses connected midships – 2×12 in. to submarine line (crude). Bunkers, fuel and diesel. FW 70 t.p.h. ex-pipe-line.

SBM: A single point mooring for up to 80,000 d.w.t. tankers, at 12.8 m. draft, located just inside bay entrance. Crude: 1×16 in., 1×12 in. hoses, up to 1,500 t.p.h. White Products: No bunkers available. Fresh water ex-tug at 100 tons per lift.

Bulk Liquids Berth: Bulk liquid chemical and petrochemical cargoes piped to adjacent tank farms. Max. length of vessel – 185 m. Depth alongside 19 m. Max. draft 14 m.

Brotherson Dock: Six berth container terminal complex commissioned December 1979. Dredged to 15.3 m., swinging basin at entrance dredged to 13.1 m. Northern terminal leased to the Australian National Line – 42 ha., wharfage 1,000 m. comprising 3 berths each with Ro/Ro ramp (Berths to be equipped with 3×35 tonnes gantry cranes). Southern terminal leased by Container Terminals Australia Limited – 38 ha., wharfage 936 m., comprising 3 berths. Expected to be operational in 1981.

DENSITY: 1025.

FRESH WATER: Available at all berths with the exception of the SBM.

FUEL: Marine Fuel and Diesel Oil available at No's. 1, 2 & 3 Kurnell Berths.

FIRE PRECAUTIONS: Normal restrictions.

GANGWAY/DECK WATCHMEN: None available.

IDENTIFICATION CARDS: See "Melbourne".

DEVELOPMENTS: Major port development for container and bulk trades, with channels of up to 19.2 m. in depth and entrance of Bay 2 km. wide is being developed on the Northern foreshore. Extensive dredging and reclamations have been undertaken.

A wharf for bulk liquid chemicals and petrochemicals was commissioned in April 1979, and extensive storage facilities have been constructed on port land adjacent to the wharf.

Two container terminals of 42 (Northern) and 38 (Southern) hectares have been developed along the sides of the Brotherson Dock. These two new terminals will more than double the container handling capacity of Sydney Ports.

Each of the terminals will have three berths involving almost 2 km. o wharfage. The water depth at these berths will be 15.2 m.

The first of the two terminals, the A.N.L. facility (Northern), was officially opened in December 1979, while the C.T.A.L. (Southern) terminal is expected to open early in 1981.

REPAIRS: Most repairs. Ships not allowed to be immobilised.

DRY DOCKS: Nil.

AIRPORT: 6 km. – regular airlines.

TIME: GMT plus 10 hours. (Plus one hour for daylight saving wher applicable).

HOLIDAYS: Cargo worked all days.

POLICE/AMBULANCE/FIRE: Tel. 000.

TELEPHONES: At Wharf and Kurnell No. 3. AOR Ltd.

SERVICES: Compass adjusting only.

DELAYS: Normal only.

AUTHORITY: Maritime Services Board of NSW.

AGENT: Patrick Agencies, Head Office, Box 3918 GPO, Sydney, NSW 2001.

BOWEN, Queensland: 20.01 S. 148.15 E.

(See Plan Book

PORT LIMITS: The Port of Bowen limits is an area comprised within line commencing at Cape Edgecumbe and proceeding thence to Cap Gloucester.

DOCUMENTS: See "Melbourne".

PILOTAGE: Vessels requiring a Pilot should radio Agent givin sufficient advance notice. No VHF communication presently available Pilot boarding ground is 1 mile outside Fairway Buoy, a distance of miles from the port. Pilot requires ladder, rigged 5 ft. above the wate man-ropes rigged and heaving line ready.

RESTRICTIONS: Vessels will not be berthed at night. It is necessary fo vessels to be at Pilot boarding ground 1 hour before sunset. Vessel should have at least 1 ft. keel clearance in the swinging basin.

Depths available: South Entrance Channel 23 ft. LWOST;
North Entrance Channel 12 ft. LWOST;
Swinging Basin 22 ft. LWOST.
Vessel may sail at night.

MAX. SIZE: Length about 540 ft. overall. Berth depth from 22 ft. 9 in. t 30 ft. LWOST.

HEALTH: See "Melbourne".

RADIO: Vessels arriving from the North use Townsville Radio. Vessel from the South use Sydney and Brisbane radio stations.

TUGS: Tug available for berthing and departure. Motor launch used t run lines to berth.

BERTHING: Normally carried out at high water.

Berth	*Length (Metres)*	*Depth (Metres)*
No. 1.	203.00	7.6
No. 2.	203.00	7.6
No. 3.	167.64	9.1
No. 4.	152.40	6.9

SPECIALISED CARGO-HANDLING FACILITIES: Berth No. 3 i specially equipped for the handling of the export of bulk cargoes (coa ore, grain, mineral, sands, etc.) by a ship loader equipped wit telescopic chute and jet slinger fed by a belt conveyor from stockpil areas. Loading rate 610 t.p.h.

STEVEDORES: Ordered by Agent. Port quota is 55 men which allows gangs. Loading rates: coal 600 t.p.h.; bulk tallow 60 t.p.h.; frozen meat tons per gang/hour; hides 8 tons per gang/hour; bagged bone meal 1 tons per gang/hour.

A ship loader with loading belt conveyor, telescopic chute, and j slinger, with loading capacity of 700 t.p.h., can handle coal, minerals an maize.

MEDICAL: Hospital facilities available. No advance notice required. Te No. 29.

DENSITY: Average density at berths 1025 to 1027.

FRESH WATER: Available at all berths up to 50,000 gallons/hr.

FUEL: Oil bunkers not available but small quantities can be obtaine from Townsville by road or rail tankers.

GANGWAY/DECK WATCHMEN: Watchmen available, but n compulsory.

OPENING/CLOSING HATCHES: Can be performed by crew stevedores.

REPAIRS: Engineering and welding services available.

DEVELOPMENTS: A five-year development plan includes improveme of coal export facilities, and building a single buoy mooring terminal f bulk liquid carriers.

Plans call for the port to be dredged to 70 ft. for VLCC's in the futur

AIRPORT: 3 miles away with connecting services to major Australian airports.
HOLIDAYS: Christmas Day, Good Friday, Labour Day, and Picnic Day; no work performed on these days.
POLICE/AMBULANCE/FIRE: Police, tel. 861333; Ambulance, tel. 861211; Fire Brigade, tel. 861444.
TELEPHONES: Ship-board telephones can be rented.
AUTHORITY: Bowen Harbour Board.

AGENT: Sub-agent of Patrick Agencies, Brisbane.

BRISBANE, Queensland (including Fisherman Islands, Hamilton, Pinkenba): 27.27 S. 153.04 E.

(See Plan Book)

PORT LIMITS: A vessel is considered an "arrived vessel" when it is at the Pilot boarding grounds off Caloundra.
DOCUMENTS: See "Melbourne".
PILOTAGE: Notify Agent approximately one week in advance. Confirm ETA to Duty Harbour Master 24 hours before arrival at pilotage ground, plus max. draft. Master of vessel to radio ETA Pilot boarding ground 8 hours before arrival. Messages should be addressed: Shipserv Caloundra Signal Station.

Contact Caloundra Signal Station by VHF Channel 16 when within range. Pilot boards 3 to 6 miles S.E. of Cartwright Point. Pilot vessel white hull with words 'PILOTS' in black letters. Orange superstructure. Place ladder about 6 ft. from water.

Pilot ground is 44 miles from entrance to river. River then navigable to ocean going vessels for 14 miles from the mouth.

Same Pilot remains to berth vessel. Pilotage time about 5 hours.
APPROACHES: Good navigation conditions in Moreton Bay except in exceptionally heavy weather in N.W. channel. Minimum depth in N.W. channel 13 m., and N.E. channel 7.5 m., in Bar Cutting 11.6 m., in Swinging Basin at Luggage Point 11.7 m., to Hamilton 9.1 m., and to Bulimba Point 8.1 m. (all LWOST). Dredged channels in Moreton Bay minimum 300 m. width. River Cuttings 120 m. width, Bar Cutting 180 m. width.

In Moreton Bay and Brisbane River the mean spring rise is 2.13 m. above LWST and mean neap rise is 1.74 m. above LWST. The lowest neap tide 1.22 m. above LWST and maximum spring tide 2.7 m. above LWST. The visibility generally good except in cyclonic weather when heavy rain.
RESTRICTIONS: Berthing times dependent on vessel's draft in relation to state of tide.
MAX. SIZE: Waterline length in river 250 m. at 9.7 m. draft (special provision made for larger vessels, especially when light draft condition preparing entering Graving Dock). Draft at HWOST for tankers 12.2 m.; for cargo vessels 9.7 m. No limit on height at present – see "Bridges".
HEALTH: See "Melbourne". Doctor boards at river entrance or at berth. Available 24 hours per day.
RADIO: Most traffic channelled through VIB, coastal radio station Brisbane. VHF Channel 16, 156.6 mc/s. and 156.8 mcls.
RADAR: Continual watch kept at Caloundra Head, and Lytton Hill Signal Station.
TUGS: Six tugs available, 4×33 tonnes and 2×42 tonnes bollard pull. Tugs are privately owned. Tugs join vessel approaching the berth, or as may be required elsewhere in the river. Line boats available.
BERTHING:

Berth		*Length (m.)*	*Depth (m.) LWOST*

Shirley's Wharf		210	9.8
Consolidated Fertilisers Wharf		220	8.5

BULK LOADING FACILITIES: *Hamilton Wharf Berth No. 4;* gross handling rate for loader is 700 t.p.h. Moveable conveyor system services 110 m. of wharf.
Pinkenba No. 1: Two belt conveyors serving seven loading spouts of which four can be used simultaneously. Nominal handling rate is 1,600 t.p.h.
Pinkenba No. 2: Single shiploader. Loading rate for grain 1,000 t.p.h. Loading rate for rutile sand 7,000/8,000 tonnes per day.

TANKERS: Two refineries at mouth of Brisbane River. Gas-freeing facilities not available, but chemist available to issue Gas-free Certificate. There are slop discharge facilities at both refineries.

Amoco Products Wharf: On North bank, oil bunkering and export berth, 240 m. length, 9.8 m. depth LWOST.

Amoco Luggage Point Wharf: On North bank, crude import berth. Berth length 280 m. depth 12.2 m. LWOST.

Ampol Products Wharf: On South bank, berth length 280 m., depth 9.8 m. LWOST.

Ampol Fisherman Islands Crude Oil import berth: Berth length 330 m., depth 12.8 m.

Shell Wharf: On North bank. Berth length 220 m., depth 9.8 m. LWOST.

Mobil Wharf Colmslie: On South bank, berth length 190 m., depth 8 m.
BRIDGES: None at present, but one being considered lower reaches of river restricting height to 45 m.
STEVEDORES: Ample labour available for all cargo working except rush periods.

Normal capacity per gang per shift: 60 tons break bulk; 75 tons palletised cargo. A 45 ton (45.72 tonnes) portainer crane is situated at the Hamilton Wharves. Other cranes from 4 tons (4.06 tonnes) to 30 tons (30.5 tonnes) are available at various wharves.
Shipmaster's Report: August 1980.

Hours of work:

Day shift:	0730–1430 hrs.
Twilight:	1500–2200 hrs.
Night:	2300–0600 hrs.

Allocation (Ordering):
Monday, Saturday and Sunday – 0930 Friday
Tuesday to Friday – 0930 previous day.
DENSITY: 63.6 lb. per cu. ft.
FRESH WATER: From mains 90 psi. 180 t.p.h. at all berths.
FUEL: Oil bunkering available at all oil wharves. Also by road tanker at cargo berths. Distillate diesel fuel or fuel oil. Largest bunkering barge is 1,400 tons for fuel oil.
DEVELOPMENTS: The Port of Brisbane Authority is well advanced on the construction of new container and Ro/Ro facilities, wharves and terminal at Fisherman Islands, at the mouth of Brisbane River, and capable of handling ships up to 60,000 d.w.t. These will be operational in 1980.
GANGWAY/DECK WATCHMEN: Normally by crew, but can be hired.
OPENING/CLOSING HATCHES: Performed by stevedores/crew.
CUSTOMS ALLOWANCES: see "Melbourne".
CARGO GEAR: Heavy lift facilities up to 45 tons available certain wharves. Also see "Melbourne".
IDENTIFICATION CARDS: See "Melbourne".

REPAIRS: All major repairs undertaken, including main propulsion diesel engines, steam turbines, boilers, reduction gearing servicing, propellers, tailshafts, stern bearings, all engine-room repairs, deck gear, radar, radio and sonar equipment, fitting-out berths.
DRY DOCKS: Largest vessel handled, m/v *Clutha Capricorn,* 83,500 d.w.t. All major facilities available.

The Dock has a bottom width of 33.5 m., a total depth of 15.5 m., and a length of 268 m.. Depth over sill 9.1 m. LW. The Dock is fully equipped for repair services, including facilities for water blasting, sand blasting, compressed air, Radiographic (X-Ray) facilities, hull cleaning and painting, mechanical and structural repairs, etc. Heavy lift cranes available.
TIME: GMT plus 10 hours.
HOLIDAYS: New Year's Day; W.W.F. Picnic Day; Australia Day; Good Friday; Easter Monday; Anzac Day; Queen's Birthday; Christmas Day; Boxing Day.

Close Holidays – Christmas Day, Good Friday, Anzac Day, Labour Day, W.W.F. Picnic Day (No labour available these days). Some public holiday dates vary from year to year. Consult Agent for current information.
POLICE/AMBULANCE/FIRE: Tel.: 000 and ask for service required.
TELEPHONES: At most wharves. Can be connected on board.
AUTHORITY: Port of Brisbane Authority.

AGENT: Patrick Agencies, 443, Queen Street, Box 1460, G.P.O., Brisbane, Queensland 4001. Cables "Rikpat". Tel: 31–1871. Telex AA40260. After hours tel.: 379–3665.

BULK HANDLING FACILITIES:
Bulk Sugar Terminal Loading: No. 12 Wharf.
(a) 1 travelling gantry loader, consisting of a luffing boom supported from a shore based structure (mobile).
(b) Maximum distance from wharf edge to loading unit 14.2 m.
(c) Maximum length of traverse of loading unit 143.2 m.
(d) Maximum length permissible for ship using bulk berth – wharf length 183 m. plus dolphin in line with wharf and 39.6 m. distant each end. No limit anticipated.
(e) Maximum beam permissible for ship using bulk berth 24.4 m.
(f) Maximum clearance of loading unit at highest high water (for non retracting loader), not applicable, boom of loader at horizontal working position 13.5 m. above high water level but boom is capable of being lifted to a vertical position.
(g) Gross handling rate for loader – 864 t.p.h.

Bulk Molasses Terminal:
Total capacity of 19,000 tons with pipe-line connection to wharf. Loading rate 305 t.p.h.

Bulk Tallow Tanks:
Rear of No. 6 Wharf. 2 tanks; one with a capacity of 304.8 tons and one with a capacity of 813 tons. Loading rate of 56 to 61 t.p.h.

Grain Handling Facilities:
No. 3 Wharf shed with a loading capacity of up to 152 t.p.h. with a rail to shed transfer system.

Container Handling Facilities:
There are facilities at No. 6 Wharf for handling containerised and unitised cargoes, including a 25-ton stiff-legged derrick crane and an adequate assembly area adjacent to the wharf.

STEVEDORES: Port quota 80 men.
TANKERS: Tankers berth at Berth No. 8 or 10. Max. LOA 183 m. Berth No. 10 is served by various oil pipe-lines and L.P. gas pipe-lines to company depots. No. 8 Berth is the alternative oil berth.
FRESH WATER: Fresh water is available on all wharves. Rate of supply is 70 t.p.h.
FUEL: Oil bunkering facilities are available at No. 10 Wharf. No. 8 Wharf is an alternative oil berth. Nos. 8 and 10 Wharves are connected by pipe-line to adjacent oil tank farm installations.
DRY DOCK: A dry dock, 61 m. long and 12.2 m. wide accommodates vessels up to 58 m. in length. De-watering rate is 303–379 litres per minute. Draft of vessels which can be accommodated is equivalent to the height of tide at the particular time.

Slipways: The Harbour Board owns a Slipway in Trinity Inlet, between Hayles Terminal and No. 1 wharf which is leased to the Cairns Cruising Yacht Squadron. It is available for small craft up to 51 tons and 18.3 m. in length. North Queensland Engineers and Agents Pty. Ltd. slipway in Smith Creek is able to handle vessels to 61 m. in length.
TELEPHONES: There are plug-in points available to shipping from Nos. 1 to 6 Wharves, and No. 8 Wharf.
DEVELOPMENTS: A site for a future deep water port, with a minimum depth of 32.8 m. of water, in the area adjacent to King's Point and Little Turtle Bay on the mainland opposite Fitzroy Island is under investigation. The port limits are to be extended to include this area.
AUTHORITY: The Cairns Harbour Board.

AGENT: Sub-agent of Patrick Agencies, Brisbane.

CARNARVON (Including Useless Loop & Cape Cuvier):

(A) CARNARVON: 24.53 S. 113.40 E.
BERTHING: One jetty for the import of petroleum products. Length of berth face 97.5 m. Depth 5.0 m. Max. tidal range 1.5 m. Coir springs provided as there is swell movement.

(B) CAPE CUVIER: 24.13 S. 113.20 E. **(See Plan Book)**
This port is now incorporated in the Port of Carnarvon the limits of which have been extended as follows:—
"A line due West for 4 nautical miles from a point on the mainland in Lat. 24° 10′ S. and Long. 113° 26′ 4.5″ E., and thence in a S.S.W. direction to Cape Ronsard at the North End of Bernier Island" and then as for Carnarvon to the starting point.
OPERATORS: Dampier Salt Pty. Ltd.
DOCUMENTS:
1 Form 5 Personal Property Declaration.
1 Form 42A Stores List.
1 Form AQ 360 Health Form.
2 Forms (M & S11) Crew Lists (prescribed form).
1 Form C & E 886 Previous Ports of Call.
APPROACHES: Red Bluff about 12 miles North of Cape Cuvier can be picked up by radar at a distance of about 20 miles. Cape Cuvier is easily identified by large white salt hill.
PILOTAGE: Pilots will board approximately 200° 1.5 miles from jetty.
Pilot will remain on board after mooring and until vessel is loaded or should weather deteriorate until vessel anchored.
Notice for Pilots is by 'Shipserv' message to Harbour Master, Carnarvon 48 and 24 hours prior to arrival.
Pilots board by tug or workboat.
ANCHORAGE: Recommended anchorage is in position with the jetty bearing approximately 200° (T) at a distance of 1.5 miles. Depth at anchorage is about 15 fathoms. 3 cables off the shore, the depth is about 9 fathoms. Holding ground is good.
RFSTRICTIONS: No berthing at night.
MAX. SIZE: Vessels of 65,000 d.w.t. call on a regular basis. Depth alongside is 52 ft. (15.85 m.).
RADIO: Carnarvon Radio. Also on VHF.
PRATIQUE: Radio pratique is not available.
TUGS: One large and one small tug available.
BERTHING: (Loading Jetty severely damaged by cyclone "Hazel" in March 1979, and presently under reconstruction and not yet in use). Vessel is moored to four buoys for'd and four buoys aft, and mooring is attended by mooring crew. Vessel is required to have available five nylon ropes for'd and five aft, in each case three of the ropes should be 300 m. in length and the remaining two ropes should be 200 m. in length.
Berthing is not carried out in adverse weather causing a swell of over 5 ft. in height, nor if wind is from either a North or South direction.
Due to adverse weather vessels may have to wait as much as 24 days to complete loading.
STEVEDORES: Dampier Salt Pty. Ltd.
DENSITY: 1025.
FRESH WATER: Not available. Due to possible loading delays caused by adverse weather it is recommended that vessels arrive with all fresh-water tanks full.
FUEL: Not available.
DEVELOPMENTS: A new warehouse under construction for storage of potash. New conveyor belt for loading potash operational.
WATCHMEN: No shore watchmen available.
HATCHES: To be opened/closed by ship's crew.
CUSTOMS ALLOWANCES: 200 cigarettes in opened carton, or 0.25 lb. cigars, or 0.5 lb. tobacco, and one opened bottle spirits per crew member.
CARGO GEAR: Not required. Salt loading is by conveyor belt.
REPAIRS: Not available.
DRY DOCK: None.
REPATRIATION: Road connection to Carnarvon, which is 65 miles distance from Cape Cuvier, thence air connection with Perth where international flights available.
AIRPORT: Private airfield only, about 10 miles from port of Cape Cuvier.
TIME: GMT plus 8 hours.
TELEPHONE: Available in Harbour Master's office.
SHORE LEAVE: Allowed. A bus connection is available, leaving Cape Cuvier at 0730 hrs. for Carnarvon, and returning with departure from Carnarvon at 1530 hrs.
GENERAL: Port is gazetted under Western Australian legislation and controlled under Ports and Harbours Regulations. Mooring and loading facilities operated by Texada Mines.
Loading is carried out by Texada Mines Personnel.
AUTHORITY: Harbour & Lights Department, Fremantle.
AGENT: See "Fremantle".

(C) USELESS LOOP (Shark Bay): 26.05 S. 113.24 E.
DOCUMENTS: See "Melbourne".
PILOTAGE: Compulsory. Notice for Pilots is by 'Shipserv' message to Harbour Master, Carnarvon, 7 days, 48 hours and 24 hours prior to arrival.
Pilot boarding ground is 5 nautical miles 270° from Babbage Island Light Tower, Carnarvon.
Pilots remain on board during transit to Useless Loop, when berthed alongside jetty and until disembarkation in above position.
RESTRICTIONS: Continuous strong "Southerlies" may result in abnormal tides which could result in large vessels having to leave berth prior to completion of loading on rare occasions.
TUGS: None.
BERTHING: One berth. Owned and operated by Shark Bay Salt Pty Ltd. Conveyor belt system from Salt Stock Pile to ship gross rate 700 t.p.h. for salt, 400 t.p.h. for gypsum. Dolphin type jetty length 620 ft. runs approximately North and South directions and 2.1.cables from Topper Island. Min. depth at berth 33 ft. LWOST. Rise of tide approximately 3 ft. Winds predominantly S.E./S.W.
FUEL: Not available.
FRESH WATER: None available.
REPAIRS: Not available.
AUTHORITY: Harbour & Light Department, Fremantle.
AGENT: See "Fremantle".

DAMPIER: W.A.: 20.38 S. 116.45 E. (See Plan Book)

LOCATION: Port Dampier is located on the N.W. coast of Australia in the Dampier Archipelago. Legendre Island in position Lat. 20° 21′ S., Long. 116° 51′ E. forms the N.E. extremity of the Archipelago and Rosemary Island in position Lat. 20° 28′ S., Long. 116° 37′ E. forms the N.W. extremity of the Archipelago.
The port facilities are constructed: adjacent to Parker Point in Lat. 20° 39′ S., Long. 116° 43′ E. East Intercourse Island in Lat. 20° 39.03′ S., Long. 116° 40.4′ E. Mistaken Island in Lat. 20° 39.2′ S., Long. 116° 39.6′ E.
APPROACHES: From the 100 fathom line in Lat. 19° 20′ S., Long. 116° 20′ E., a channel 15 miles wide, leading 157° was surveyed by the Royal Australian Navy in 1963 and found to be clear of dangers. This approach is recommended for ships arriving from the North and N.E. Ships arriving from the West pass North of Tyrell Rocks situated to the N.W. of the Monte Bello Islands and then should pass not less than five miles to the North of Rosemary Island on the Latitude of Legendre Island Light. When in a position 6 miles West of Legendre Island Light, course should be altered to the S.W. to pass into the Archipelago.
PORT LIMITS: A vessel is considered to be an arrived vessel from the time of crossing the quarantine line, which runs due East from Courtenay Head Lighthouse.
ARRIVAL ADVICE: Dampier is a first port of entry and all ships bound for this port are to radio through the normal recognised coast stations, addressing their messages "Pilharb Perth" and prefixing the message "Shipserv".
(a) In the case of vessels arriving from overseas.
(i) 10 days before intended arrival at the port ETA and whether the port is the first port of call in Australia.

(ii) 7 days before intended arrival at the Port, confirmation of any variation of the advice given pursuant to paragraph (i) above including in the message the forward and after arrival draft.

(b) In the case of all vessels, cable "Shipserv Pilharb Perth".

(i) 72 hours before intended arrival at the Port advising ETA at the Pilot boarding ground East of Malus Island, including in the message if not previously given the forward and after arrival draft and deepest departure draft.

(ii) 48 hours before intended arrival confirmation or any variation of ETA.

(iii) 24 hours before intended arrival confirmation or any variation of ETA.

Note: Berthing and sailing times must be fixed with Pilbara Harbour Services prior to 1500 hrs. each weekday and 0700 hrs. on Saturday for service between the hours of 2359 Saturday to 0830 Monday. It is therefore imperative that ample notice is given on arrival times particularly for weekend arrivals.

HEALTH: In the case of all vessels arriving from overseas following information shall be sent to port health authorities between 12 and 24 hours before arrival, addressing message "Port Health, Pilharb Perth" and prefixing the message "Shipserve". (Also see "Melbourne").

(i) The expected hour and date of arrival of the vessel.

(ii) Confirmation that the Master has individually inspected all persons on board within 24 hours of arrival and that there are no cases of febrile illness (high temperature or fever) or skin rashes on board.

(iii) Particulars of any cases of illness on board.

(iv) Confirmation that all persons on board are satisfactorily vaccinated against smallpox and in possession of valid Vaccination Certificates.

(v) A request to cross the Port Quarantine line.

(vi) On receipt of quarantine message Harbour Master will advise anchorage position if vessel not berthing on arrival.

(vii) Inspections may be carried out at the jetty or at anchorage at the discretion of the Quarantine Officer.

(viii) Rat guards are to be maintained on all mooring lines while vessels are berthed in Dampier Harbour.

PILOT STATION: The Pilot boarding area commences from a position bearing 090° distance 1.5 miles from Courtenay Head Light, thence 195° distance 2 miles, thence 090° distance 1.7 miles, thence 015° distance 2 miles, thence 270° distance 1.7 miles to point of commencement.

Pilotage is compulsory for all vessels entering, leaving and manoeuvring within the Port except those of a tonnage of 150 tons or less and those whose Masters hold a valid pilotage exemption. Pilotage services operate from the pilot cutter "Pilbara Star".

RADIO: Perth Radio – VIP. Broome Radio – VIO.

VHF:

Call Sign	Dampier Port control
Frequency	Channels 16, 67, 11, 13, 72 and 68.
Channels	11, 13 and 72 are port working frequencies.
Channel 68	Can be used vessel to vessel.

Channel 67 is an emergency working frequency.

A continuous watch is maintained on VHF Channel 16. All vessels approaching the Port or at anchor must maintain a continuous watch on this frequency.

TUGS: Pilbara Harbour Services Pty. Limited own and operate the tugs and lines launches which are available to shipping at all hours.

The following craft are available to assist in berthing and unberthing and for hire:

"Pilbara Mars"	1,700 h.p.	Bollard Pull	27 tons
"Pilbara Comet"	2,400 h.p.	Bollard Pull	33 tons
"Pilbara Neptune"	1,900 h.p.	Bollard Pull	28 tons
*"Pilbara Jupiter"	2,600 h.p.	Bollard Pull	42 tons

Three (3) Lines Launches
Two (2) Workboats – 400 h.p.

MOORING: Mooring lines are taken ashore by linesboat. Vessels using heavy wire ropes are to have the ends terminated with a 9 m. (30 ft.) rope spring finished with a standard eye for placing over the bollards and slip hooks.

All mooring ropes and wires to have a 6 m. (20 ft.) tail of light rope spliced into the eye to facilitate the transfer from the boat to the dolphin.

Vessels shall be ready in all respects to commence loading on completion of mooring, hatches cleaned and opened.

LOADING IRON ORE: Vessels loading iron ore are recommended to exhibit either on top of the hatch lids or on the deck or coaming adjacent to the hatch, numerals identifying the hatch. These are to be of such a colour and size as to be clearly visible to the shiploader operator stationed at the end of the shiploader boom.

Reference to loading is to be made by hatch, not hold and all weights are to be expressed in metric tonnes.

Confirmation in writing of the cargo booking is delivered on board prior to berthing by the Pilot.

This document contains four copies of the loading sequence. The first copy is retained on board, the remainder completed and passed to the shiploader operator immediately on berthing. Attention is drawn to the run off quantity required to be loaded to clear the conveyors at the completion of loading.

Red, green and white list lights, clearly visible to the shiploader operator are recommended fittings on all vessels loading iron ore. A fixed white light shall indicate the vessel is upright.

Masters are cautioned the loading of iron ore is carried out by draft. Frequent "on the run" draft checks between hatch changes should be carried out. Whilst shiploading sequences are equipped with weight scales, these figures are to be used only as a guide and reference to them will not relieve the Master of the responsibility of adequately maintaining draft checks and supervising the loading accordingly.

Final confirmation of tonnages on board will be the result of a draft survey carried out by the Master and the Company's surveyor.

Ballast shall be adjusted to ensure at high water a minimum clearance of 0.64 m. (2 ft.) is maintained between the vessel's structures and the shiploader. Ballast to be discharged at a rate which prevents disruption to loading, final trimming and completion.

On completion of loading vessel shall subject to tidal conditions vacate the berth without delay. No repairs which would immobilize the vessel shall be carried out alongside any wharf or jetty.

STOWAGE FACTORS: The following stowage factors are provided for guidance:

Lump Ore	16.0 cu.ft./ton	Fine Ore	15.0 cu.ft./ton
Low Grade Ore	16.5 cu.ft./ton	Pellets	18.5 cu.ft./ton

PARKER POINT ORE JETTY: The ore jetty consists of a tubular steel pile structure carrying a deck and rail traverse of a slewing boom shiploader.

Eight multi-spring pile dolphins fitted with hardwood facings are situated clear of the ore jetty structure and vessels berth port side alongside and moor to these dolphins.

Iron ore is the only product handled and following are principal dimensions:

Length of jetty:	268.9 m. (882 ft.)
Depth of water alongside:	16.15 m. (53 ft. at ISLW)
Travel of shiploader:	166.2 m. (545 ft.)
Radius of ore delivery from fender facing:	23.2 m. (76 ft.)
Ht. under side boom above ISLW:	21.64 m. (71 ft.)
Total length of fendering, No. 1 to No. 8 dolphins:	354.8 m. (1,164 ft.)
Rated capacity of shiploader:	6,000 long t.p.h.

The ore jetty is connected to the East Intercourse Island departure channel by a 152.4 m. (500 ft.) wide departure channel dredged to 15.24 m. (50 ft.) ISLW in 1969.

Parker Point ore loading facility accommodates vessels up to 130,000 d.w.t.

The maximum departure draft from this berth is 16.46 m. (54 ft.) on certain tides.

EAST INTERCOURSE ISLAND ORE JETTY: The ore jetty consists of a tubular steel pile structure carrying a deck and rail traverse of a slewing boom shiploader.

Nine multi-spring dolphins fitted with hardwood facings are situated clear of the ore jetty structure and vessels berth starboard alongside, mooring to these dolphins.

Iron ore is the only product handled over this facility and the following are principal dimensions:

Length of jetty:	341.4 m. (1,120 ft.)
Depth of water alongside:	18.59 m. (61 ft.)at ISLW
Travel of shiploader:	237.8 m. (780 ft.)
Radius of ore delivery from fender facing:	25 m. (82 ft.)
Ht. under side boom at ISLW:	23.55 m. (77 ft. 3 in.)
Total length of fendering, No. 1 to No. 9 dolphins:	429.8 m. (1,140 ft.)
Rated capacity of shiploader:	7,500 long t.p.h.

The ore jetty is connected to the open sea by a 167.7 m. (550 ft.) wide departure channel dredged to 15.85 m. (52 ft.) ISLW.

East Intercourse Island ore loading facility accommodates vessels up to 150/160,000 d.w.t. The departure draft from this berth is 17.07 m. (56 ft.) however, a slightly greater draft may be permitted on certain tides.

SERVICE WHARF: All general cargo is received over this facility and vessels are acceptable up to a max. draft of 7.69 m. (25 ft.).

The wharf consists of steel sheet pile cells constructed in water of surrounding depths of 7.01 m. (23 ft.) below ISLW.

A berthing basin 243.8 m. (800 ft.) long and 38.10 m. (125 ft.) wide has been dredged to a depth of 8.23 m. (27 ft.) ISLW on the Western side.

The wharf is 69.5 m. (228 ft.) in length and faced with piles on which are secured rubber fenders. Mooring buoys are positioned off the N.E. and S.W. extremity of the wharf and head and stern lines are secured to these buoys.

Generally ships berth portside to this facility and normal discharge is carried out by 3 gangs using ship's own gear.

Vessels are required to berth ready in all respects to work cargo with hatches open and cargo gear rigged.

On completion, vessels may be required to vacate the berth and cover hatches, stow gear, etc., at anchor.

Tankers delivering oil products are accommodated at this wharf.

MISTAKEN ISLAND SALT BERTH: The salt berth owned and operated by Dampier Salt Limited consists of a tubular steel pile approach structure carrying conveyor belt to a fixed position, cantilever shiploader.

7 multi-spring pile mooring dolphins are situated clear of the shiploader platform, ships berthing starboard side of these dolphins.

Due to the fixed nature of the loader, ships have to be warped along the line of dolphins, to bring each hatch in sequence under the loading boom.

This wharf was built by Dampier Salt Limited, for the handling of salt from their salt pans, situated 6.4 km. from the wharf. The following are the principal dimensions:

Total length of fendering No. 1 to No. 7 dolphins:	358.2 m. (1,175 ft.)
Minimum depth of water on approach path	10.0 m. (32 ft. 9.5 in.).
Depth of water alongside:	12.5 m. (41 ft.)
Outreach of loader boom from line of fendering:	17.4 m. (57 ft.)
Ht. under side boom at ISLW:	19.51 m. (64 ft.)
Rated capacity of shiploader:	Max. 3,200 tonnes per hour. Average 2,000–2,500 tonnes per hour.

Underkeel Clearance: underkeel clearance of 1.0 m. required whilst alongside. On departure vessels up to 35,000 d.w.t. to maintain 1.0 m. keel clearance and vessels over 35,000 d.w.t. to maintain 1.5 m. keel clearance.

Condition to load Salt:

1. Ensure that vessel's holds are thoroughly washed – to remove all traces of the previous cargo.
2. Ensure that vessel's holds are thoroughly lime washed with slaked lime (Calcium Hydroxide – $Ca(OH)_2$) and that no other substances are mixed with it.

3. Vessels should ensure that mooring lines are laid out in readiness for berthing. See Plan.

Note: Limewashing: This requirement is a pre-requisite of vessels loading. If vessel's holds are not deemed, by an independent Marine Surveyor, to be in a condition of cleanliness normally acceptable to Dampier Salt (Operations) Pty. Limited, the vessel may not be loaded until such time as the Surveyor is satisfied that the holds meet the standards set by Dampier Salt (Operations) Pty. Limited. This may mean that unacceptable vessels will be laid at anchor until the holds are deemed to be acceptable for loading salt. The Master may be required to sign a "Letter of Indemnity" accepting the cargo on behalf of the Operating Line – with holds in a condition described in a report by the independent Surveyor, if the holds are not acceptable. In these cases, no cleanliness certificate will be issued by the Surveyor.

Provided the vessel's holds are acceptable to the Surveyor as being "clean" the Surveyor will issue a Hold "Cleanliness Certificate".

The above stipulation is for the contamination effects on quality control and is a requirement of both Shippers and Receivers of the Salt. Limewashing also protects the vessel against adverse action on the vessel's holds caused by the salt.

Loading Procedure: The vessel is to ensure that the first two holds to be loaded have the hatch covers removed on berthing. On berthing the vessel will be positioned by the Pilot such that the loading can commence immediately upon acceptance of the notice of readiness and verification that vessel's holds are sufficiently clean to standards determined by Dampier Salt (Operations) Pty. Limited as acceptable to load.

An independent Ships' Surveyor, retained by Dampier Salt (Operations) Pty. Limited will take all draft readings during the berthing operation in order that the commencement of loading will not be delayed. Ship's arrival condition and ballast readings prior to commencement of loading will be agreed between the Chief Officer and Surveyor.

An Operations Supervisor from Dampier Salt (Operations) Pty. Limited will board the vessel immediately following mooring to check that the vessel is in readiness to load, and then commence the loading operation. This Officer will then agree with the Chief Officer loading sequence, loading schedule, warping procedures, draft problems (if any) and any other matters pertaining to the loading of the vessel.

He will draw up a loading schedule confirming with the Chief Officer the approximate hold loading duration, times of warping and the estimated time of completion of loading, and sailing time.

An Operations Foreman will remain on board the vessel for the duration of loading in order to liaise with the Chief Officer concerning the procedures and times to move the vessel so as to load each hold in warp sequence and maintain critical draft, where applicable.

A belt weightometer is used by Dampier Salt (Operations) Pty. Limited, to indicate loading rates and tonnages loaded in each hold. This instrument has a proven accuracy of ±1.5%. It is the practise of Dampier Salt (Operations) Pty. Limited, for the surveyor and Chief Officer to agree a preliminary draft survey when the second last hold is approximately 80% loaded. This survey then allows the correct loading of the remainder of the cargo so as to ensure correct trim and prevent inadvertent overloading. The final loaded cargo tonnage is determined by draft survey, calculated by and agreed between the Surveyor and Chief Officer.

No labour is available at Dampier to board the vessel for any shipboard duties. Trimming is by conveyor discharge at the end of the loading spout only. Any subsequent trimming required must be undertaken by the ship's crew.

Stowage Factor: Stowage density 32 cu.ft. per long ton or 0.89 cu.m. per metric tonne. Angle of repose 33°. It has been found that the cargo does not shift during the vessel's voyage to discharge port.

Typical Specification – Australian Salt NaCl (Sodium Chloride):

Appearance: Generally clear, white and free from organic matter.

Additives: Nil additives in final washed product.

Component:

(percentage by weight)	*Average*
Moisture content:	2.25
Calcium content:	0.03
Magnesium content:	0.02
Potassium content:	0.01
Sulphate content:	0.11
Chloride content:	58.97
Water insolubles content:	0.02
Heavy metals:	less than 15 ppm.
NaCl content:	97.50

Chemical analysis expressed in combined form:

NaCl	97.50%
$CaSO_4$	0.12%
$MgSO_4$	0.05%
$MgCl_2$	0.04%
KCl	0.02%
Moisture	2.25%
Insolubles	0.02%

Location of Berth in relation to Dampier Township:

The berth although geographically in close proximity to the township of Dampier is in fact a journey of some 40 km. by road. The only land access to the berth being through Company property. During shiploading and/or replenishing of the salt stockpile on Mistaken Island, there is a continuous 24 hour per day movement of large heavy haulage trucks along a narrow causeway which makes the movement of private vehicles, taxis or individuals extremely hazardous. Therefore access to the township through Dampier Salt property is strictly controlled and limited.

Vessel Arrival Requirements:

Dampier Salt (Operations) Pty. Ltd. operates its own shipping agency department. All vessels calling at the salt berth are attended by a nominated Dampier Salt (Operations) Pty. Ltd. shipping officer who acts in the capacity of both owners and charterers agents.

Services Required:

1. Master to advise by telex via coastal radio if any crew members are required to attend doctors or dentists. Prior advice will generally ensure adequate arrangements can be made to accommodate the requests. Insufficient notice, or advice on berthing may jeopardise the chances of obtaining normal medical/dental treatment. Emergency medical treatment is available at all times.
2. Telex advice of any and all stores requirements should be given to Dampier Salt (Operations) Pty. Ltd., at least 4 days prior to arrival. Stores orders received later than this may not be able to be filled, although the majority of items normally requested are carried locally by the ships' providores.

   Prior telex advice will ensure the maximum supplied – whilst advice to the Agent on arrival may not be sufficient time to fulfil the full requirements of the vessel.

MEDICAL: A doctor is permanently resident at Dampier and a modern 41-bed General Hospital is situated in the town site.

STEVEDORES: Subject to application. Apply: Hammersley Iron Pty. Ltd.

CARGO GEAR: See "Melbourne".

FIRE PRECAUTIONS: 1 firefighting tug.

FUEL/WATER/REPAIRS: fuel for ships' bunkers is not available.

A limited supply of fresh water is available in an emergency.

Stores and provisions can be arranged. For large orders Masters are recommended to cable their Agent giving 7 days notice of their requirements.

Ship repairs, turning, machining and general marine engineering services are provided by Pilbara Harbour Services Pty. Limited.

Masters requiring major work are recommended to cable "Shipserv Pilharb Perth" advising their requirements in advance.

A 500-ton slipway is available for slipping harbour tugs.

GANGWAY/DECK WATCHMEN: Crew.

OPENING/CLOSING HATCHES: By crew.

SHIP CERTIFICATES: See "Melbourne".

REPATRIATION: Limited facilities available.

AIRPORT: Twice-daily service to Perth, and twice-weekly service to Darwin. Karratha Airport is 15 km. from the port.

TIME: GMT plus 8 hours.

TELEPHONES: Ship-to-shore telephones are available at all berths for ship-to-shore communications. Ships and jetty telephones are barred access to STD and trunk line facilities.

WEATHER: The Archipelago is situated in the cyclone belt with an average statistical incidence of three tropical cyclones per year in the area extending from Port Hedland, South to North West Cape.

The cyclone season generally extends from November 1st to March 31st. However, cyclones have periodically occurred outside this period.

Prevailing winds are Easterly in Winter and Westerly in Summer but surrounding hills give considerable protection. Forces in excess of 20 knots are seldom experienced.

Vessels are advised to listen to daily weather broadcasts by:

(1) Perth Radio at 0100 GMT and 1200 GMT on 484 kHz, 8,597 kHz, 12,994 kHz or at 0200 GMT and 1000 GMT on 16,947 kHz or 22,315 kHz.

(2) Broome Radio at 0010 GMT and at each succeeding 4 hourly interval on 6 mHz.

The salt berth is situated in sheltered waters and experiences only slight seas and occasional low Northerly swell in the Summer months.

TIDES: Tidal streams are weak within the port, the flood flowing to the South with a maximum strength of less than one (1) knot at Spring tides in the berthing area. However, the rate and direction of tidal streams in Mermaid Straits are greatly influenced by prevailing winds. Rates of up to 2.5 knots can be expected after prolonged blows.

Spring tidal range is 15.61 ft. or 4.75 m.

Neap tidal range is 3.01 ft. or 0.91 m.

Mean sea level is 7.51 ft. or 2.29 m.

(Above Indian Spring Low Water).

Dampier is a standard port in the Australian National Tide Tables, published by the Hydrographer Royal Australian Navy. Available from Department of Harbour & Lights or the Royal Australian Navy Hydrographer.

SERVICES: A Walport film exchange is available – contact ship's Agent.

A sealed road connects Dampier with Perth extending North to Port Hedland. This highway provides all weather access from the State capital.

A bus service operates between Dampier and Perth and Dampier and Port Hedland.

Postal and telegraphic facilities are available at Dampier Post Office. Business Hours: 0900–1230 hrs., 1330–1700 hrs. weekdays.

Customs: A sub-collector of Customs and staff are resident in Dampier and regulations of the Department of Business and Consumer Affairs–Bureau of Customs will apply.

Police: A police sergeant and police officers are stationed at Dampier.

Township: Dampier is a modern township built overlooking Hampton Harbour at the S.W. extremity of the Archipelago. It has a population of approximately 4,000 and an enclosed air-conditioned shopping centre and hotel-motel cater for everyday requirements.

GENERAL: *Gas-freeing of vessels:* The port requirements regarding gas-freeing of OBO or other vessels presenting at the port are as follows:

1. Where vessels have been issued with a Gas-Free Certificate prior to their call at Dampier, such vessels can berth on arrival or whenever the berth is free.
2. Where vessels arrive at the Port of Dampier without a Gas-Free Certificate on board, such vessels must be issued with a Gas-Free Certificate before berthing.
3. No Gas-Free Certificates signed by the Ships' Masters will be accepted.

4. Gas-Free Certificates will be acceptable only from an industrial chemist or any other competent person approved by the Port Authority, Pilbara Harbour Services Pty. Limited.

AUTHORITY: Pilbara Harbour Services Pty. Ltd., Dampier.

AGENT: Pilbara Harbour Services Pty. Ltd.

DARWIN, N.T.: 12.28 S. 130.50 E. (See Plan Book)

PORT LIMITS: A line drawn between Charles Point and Lee Point defines the seaward limits of the port.

DOCUMENTS:

2 Crew Lists, Form M & S 11.
2 Passenger Lists, Forms M308, 309, 310. (2 each).
2 Port of Call Lists.
1 Crew Personal Effects List, Form 5.
2 Barber's and Ship's Stock, Form 5AA.
1 Stores List, Form 42A.
1 Animal Pets aboard, Form QA4.
Ship's Log.
Last Port Clearance.
Safety Certificates: Construction
Equipment
Safety Equipment
Loadline
Radio
International Oil Pollution Prevention
Equipment (Tankers Only).

Where possible, cargo manifests and stowage plans should be forwarded by airmail, ahead of the vessel to the local agents.

PILOTAGE: Refer to AUS 27, AUS 28, Admiralty Pilot Vol. 5, Admiralty List of Lights Vol. K, Australian National Tide Tables, Marine Information Manual Australia.

Darwin buoyage is IALA "System A". Pilotage is compulsory for all craft exceeding 20 m. LOA unless a current Pilotage Exemption is held by the Master.

Notice of ETA and request for a Pilot must be made to the Harbour Master not less than 24 hours before ETA at Channel Rock Buoy. Cable address "SHIPSERVE NORPORT DARWIN". There is no telex facility. Confirmation of ETA is required two hours before arrival at Channel Rock Buoy. Channel 16 VHF is continuously watched and ETA may be confirmed or adjusted on this frequency. Pilot boat is 17 m. LOA, white and yellow upper works, blue hull with the word "PILOT" on each side. The usual international signals may be employed by vessels requiring a Pilot.

The usual pilot boarding point is 1 mile North-West of Channel Rock Buoy. By arrangement with deep draft vessels, Pilot will board to seaward of Charles Point Patches Buoy (No. 5) at an extra charge. In case of bad weather, the pilot boat will lead ahead to sheltered waters, using VHF Pilot boarding arrangements must be according to IMCO rules. Vessels awaiting Pilot may anchor between 1 and 2 miles North-West of Channel Rock Buoy in 25 m. of water, sand bottom and good holding ground.

ANCHORAGE: Also see "Pilotage". Masters familiar with the Port may be invited to proceed to the "Quarantine" area, 3 to 5 cables West of "Q" Buoy (Iso. Y. 2 Sec.) where there is good sand holding ground in 15 m. of water. Electric power cables cross the Port North of Emery Point and anchorage in this area is prohibited. Usual water density 1025 may be reduced to 1022 during the "Wet" Season.

RESTRICTIONS: Petroleum Tankers are not moved during the hours of darkness except in emergency conditions.

MAX SIZE: Ships up to 230 m. LOA and 12.20 m. draft can be accepted at the Bulk Ore Berth. No restriction on beam. Greater drafts may be accepted by prior consultation, depending on tidal predictions. Max. draft available at Stokes Hill Wharf is 9.70 m., any length or beam.

HEALTH: Australian Commonwealth Rules apply. First entry vessels will usually be cleared alongside with the exception of livestock carriers. "Alongside Clearance" should be requested in ETA cables to Agents.

RADIO: Sydney Radio (VIS) or Fremantle (VIP) are the long range area stations. Darwin Radio (VID) should be worked as early as possible.

VHF: A high powered base station operates at Stokes Hill Wharf, using call sign "Darwin Harbour". A continuous watch is maintained in office hours on Channel 16. After hours and on holidays, the watch is intermittent. All calling should be on Channel 16. Tugs are worked on Channel 12. Intership working is on Channel 6. All other authorities such as Customs and Quarantine work the same frequencies.

RADAR: There is no Port Control Radar but the pilot boats are radar equipped. Fog is unknown and rain squalls are usually brief. Visibility offshore may be affected during the "Wet" Season (November to March) by humid air conditions and during the latter part of the "Dry" (April to October) by dust.

TUGS: Normally join the vessel at "Q" Buoy. An extra charge is made for use of tug's lines. Present tug is m.t. "Goyder" of 900 b.h.p. and 10 tonnes bollard pull.

BERTHING: Main general cargo berth is Stokes Hill Wharf. This is a concrete decked steel piled wharf with a trestle approach. Permissible wheel loading for standard type vehicles is 6 tonnes. The main berth is 292 m. length, least depth 9.75 m. Least depth on the inside berths is 4.75 m. and maximum length of ship 80 m. Two cargo sheds total 3,200 sq.m. of deck space. Wharf decking is ramped to provide height above datum of 10.6 m. on the outer face and 9.5 m. on the inner.

Bulk cargo discharge is handled at No. 1 berth, general and containers handled at both berths. All grades of bunkers can be handled by 12 cm. pipe-lines. Ship's cargo gear is usually employed but mobile cranes up to 72 tonnes are available at short notice for extended hire.

Bulk Ore Wharf is a dolphin type berth with face length of 142 m. and mooring dolphins East and West 69 m. able to accept vessels up to 230 LOA and 12.2 m. draft for discharge of bulk petroleum, bulk sulphuric acid and L.P. Gas. Ores and dry bulk cargo can be loaded at a gross rate of 1,100 tonnes per hour (iron ore) by a travelling belt loader, having a transit of 140 m. and outreach of 14 m. High water air-draft of loading boom is 11.0 m. at wharf fender face.

A livestock loading race is installed with a ramp able to work at any stage of the tide.

Product lines installed:

Black Oil	30 cm.
White Oils	25 cm.
Distillates	20 cm.
Marine Diesel	15 cm.
L.P.G.	10 cm.
Bulk Sulphuric Acid	10 cm.

Discharge rates up to 300 tonnes per hour (1000 Kpa) can be accepted.

Specialised Facilities: There is no berth specially equipped for Ro-Ro traffic.

Fort Hill Wharf: Is being superseded by new constructions adjacent (see "Developments") and is presently restricted to small or special vessels by arrangement with the Harbour Master.

BRIDGES: There are no bridges or other restrictions to prevent access to the Port by vessels of not more than 12 m. draft. Ships of greater draft may need await tide at Charles Point Patches.

STEVEDORES: Working hours from 0800-2200 hrs. (2 shifts) Sundays to Fridays, extension to 2400 hrs. if vessel sails. Saturdays to 1200 hrs. with extension to 1600 hrs. if vessel is sailing. Night shifts by arrangement. Weekend and Monday labour (including mooring gangs) must be ordered by 1300 hrs. Friday. Average rate on break bulk general is 9 tonnes per hour per gang.

MEDICAL: Full hospital facilities available without prior notice.

FRESH WATER: Good quality potable water available in unlimited quantities at 30 tonnes per hour per connection.

FUEL: All grades of fuels and lubricants are available. Darwin is the only Port between Fremantle and Townsville which can supply Bunker C. Longest possible notice is desirable.

TANKERS: See "Berthing"

Precautions: Governed by Australian Ports Association standards. Copies of Port tanker rules are supplied on arrival and will be amplified by Pilots if necessary.

CONSULS: Consulates exist for the following countries:

United Kingdom
Finland
Greece
Indonesia
Italy
Japan
Portugal
Switzerland
Philippines

REPAIRS: Routine maintenance and boilermaking assistance to light engineering standards. There is no foundry in the Port.

DRY DOCKS: (See "Developments"). A slipway of 150 tonnes displacement is available.

SURVEYORS: Lloyds Agents also represent other Classification Societies and Surveyors can be brought from interstate at short notice. A Commonwealth Surveyor is appointed at the Port.

GANGWAY/DECK WATCHMEN: Gangway and Gate Watchmen can be supplied at Union award rates. Hold Watchmen are not necessary. Shed Watchmen may be required during discharge of dangerous cargoes.

OPENING/CLOSING HATCHES: Normally handled by Stevedores while alongside or by ship's crew before arrival.

CUSTOMS ALLOWANCE: Australian Commonwealth Regulations apply.

CARGO GEAR: Discharge of general and containers is usually by ship's gear however a wide range of mobile cranes up to 72 tonnes capacity is available for extended hire at short notice. (See "Developments").

REPATRIATION: Scheduled aircraft connect with all States several times daily. Direct overseas flights leave from and arrive at Darwin several times a week. All facilities exist for changes of crews and repatriation of seaman.

TIME: Local time is GMT plus 9 hours 30 minutes. Summer time is not used. All ETA and other messages should be made in local time.

HOLIDAYS: The Port is closed for work on Christmas Day and Good Friday.

POLICE/AMBULANCE/FIRE: All emergency services are available through the Harbour Office. Automatic fire alarms are installed throughout the Port and alarms can be raised or emergencies reported on Channel 16 at any time.

Police	81.5555
Fire	81.2222
Ambulance	27.9000

TELEPHONES: This service is available aboard ships at all berths by prior arrangement through the Agents. Standard rates apply.

SHORE LEAVE: When Immigration and Customs requirements have been satisfied there is no restriction on crew shore leave so long as they rejoin the vessel before departure. There is no need for identity cards or shore passes except in so far that non-English speaking persons may wish to be able to identify themselves. Interpreters are available for most of the major European and Asian languages.

DELAYS: Berthing delays are very infrequent. Occasional labour shortages develop when several general cargo vessels are working.

SERVICES: A Compass Adjuster resides at the Port.

REGULATIONS: Darwin is within the Southern zone of tropical revolving storms. The season extends from November to April each year and the Port may be more or less affected at any time during that period. All vessels entering Darwin during the "cyclone season" are supplied with copies of the Port Procedures which set out in full the various stages of alert and preparation to be observed in the case of an approaching cyclone. Ships may be placed on short notice for sea in such circumstances and required to maintain themselves in seagoing condition at all times.

DEVELOPMENTS: A new landbacked wharf is under construction adjacent to the existing Fort Hill Wharf. The berth will be 150 m. long and capable of handling vessels up to 200 m. LOA and 12.0 m. draft. The deck will be stressed to handle laden 25 tonne fork lifts. Petroleum product lines will be fitted to the same standard as the Bulk Ore Berth.

Second stage of the design includes a rail mounted crane for container and bulk dry cargo handling and the wharf is intended as a basis for the long term redevelopment of the Port. Completion of Stage 1 is expected by May 1981.

Construction is proceeding in Frances Bay of a joint Small Ships Facility. This will comprise a ship repair works including 350 tonne Syncrolift slip. The associated facility will include 6 berths dredged to 4.0 m. for fishing vessels up to 30 m. LOA and full facilities for discharge and storage of catch as well as repair and maintenance work. This development is scheduled to be operational by early 1981.

AUTHORITY: The General Manager, Northern Territory Port Authority, Darwin.

AGENT: Sub-agent of Patrick Agencies, Sydney, NSW.

DERBY: W.A.: 17.17 S. 123.35 E. (See Plan Book)

CERTIFICATES/DOCUMENTS: See "Melbourne".

PORT LIMITS: All waters to South and Eastward of a line through Valentine Island in a 053° – 233° direction to the mainland on each side.

PILOTAGE: Not compulsory but recommended. Private Pilots arranged by Agents at Fremantle or Derby. Pilot boards Cockatoo Island in Yampi Sound. Two weeks advance notice required of Pilot requirement.

ANCHORAGES: N.N.W. of North Mary Ann Island with Derby front lead bearing 141° dist. 6.4. miles.

RESTRICTIONS: Numerous islands and reefs, strong tides. Navigate during day.

MAX. SIZE: 575 ft. length.

HEALTH: First port of entry. Vessel examined for pratique alongside. Also see "Melbourne".

VHF: Limited VHF, Channels 6 and 16.

BERTHING: Tide range one of biggest in the world. Berth alongside dries 2 ft. 6 in. at Springs. Several patches dry, 1 – 2 ft. Ground in berth level and it is "Practice of Port" vessels stay aground if stay over tide. Important to note above for circulating water for ships auxiliaries, as vessel makes own arrangements on board.

STEVEDORES: Irregular, but usually three gangs, 0800 – 1700 hrs. with reasonable overtime.

TANKERS: Oil – discharge connection 236 ft. from Southern end of jetty.

FRESH WATER: Up to 224 tons at 15 t.p.h. Could be restricted by drought.

TIME: GMT plus 8 hrs.

CARGO GEAR: Due to extreme range of tide vessels with short derricks will have difficulty at LW. Also see "Melbourne".

AUTHORITY: Harbour and Light Dept., Fremantle.

AGENT: Sub-agent of Patrick Agencies, Fremantle.

DEVONPORT, Tasmania: 41.09 S. 146.24 E. (See Plan Book)

PORT LIMITS: Within all waters that extend 3 miles to seawards bounded on the Eastward by an imaginary line drawn 000° distance 3 miles from the coastline and intersecting the most Easterly point of Wright Island and to the Westward by another imaginary line drawn 000° distance 3 miles from the Western side of the entrance to the River Don.

DOCUMENTS: See "Melbourne".

APPROACHES: Port situated 1 mile inside Mersey River, entrance to which sheltered by Mersey Bluff on West and by breakwater on East bank. Good anchorage in vicinity boarding ground, but inadvisable remain at anchor during strong on-shore winds. Inner harbour provides all-weather shelter.

PILOTAGE: Compulsory. 24-hr. service. Pilots will board when required at a position within 400 m. of a point Mersey Bluff Lighthouse bearing 242° by 1.93 km.

Masters of vessels requiring the service of a Pilot are advised to radio the Harbour Master, Devonport, their ETA and vessel's draft 12 hours prior to arrival.

ANCHORAGE: The quarantine anchorage is defined as to the North of a line running East and West through the Mersey Bluff light. Vessels must lie clear of the fairway into the River.

RESTRICTIONS: Approach channel 26 ft. LW. Tidal range 9 ft. Enquiries should be made for vessels exceeding 29 ft. draft or 600 ft. length.

MAX. SIZE: Vessels 20,000 g.r.t., LOA 199.01 m. and draft 8.5 m. have entered safely.

VHF: 24-hour service on Channel 16, Channel 12 working.

TUGS: Modern tug 1,200 h.p. also auxiliary 250 h.p. Additional tugs available at short notice.

BERTHING:

West Wharf:

No. 1 Berth	length 167.6 .	depth 8.5 m.
No. 2 Berth	length 189 m.	depth 8.5 m.
No. 3 Berth	length 167.6 m.	depth 7.8 m.
No. 4 Berth	length 198 m.	depth 8.5 m.
Stock Jetty	—	depth 4.27 m.

East Wharf:

No. 1 Berth. Length 122 m. Ferry berth with stern loading facilities and passenger terminal. Depth alongside 7.01 m.

No. 2 Berth. Length 213 m. Roll-on/Roll-off ramp. Depth alongside 8.5 m.

TANKERS: 2 berths with 10-in. discharge lines for black and white oils.

BULK HANDLING FACILITIES:

Tallow: One berth, loading connections from 1,500 tonne capacity silos.

Wheat. One berth, discharge connections to 12,000 ton capacity silo.

Cement. One berth, loading connections from 4,000 ton capacity silos.

Ores, etc. Two berths. One fitted with 16-ton grab and 40-ton capacity hopper. Ship's gear discharge on wharf apron on second berth. Conveyor available to load industrial sands.

Roll-on/Roll-off Container Berths. 2 berths fitted with stern loading ramps. Fully equipped to handle cellular and vehicle deck ships. 1 travelling crane 30 ton capacity. One 30-ton travelling container handling crane. 6 acres hardstanding storage area for ISO container. 60 power points for refrigerated units.

Livestock Berth. 1 jetty with loading ramp and adjacent holding area. Suitable for ships up to 250 ft. length.

Floating Crane: Capacity 35 tons available.

STEVEDORES: Agents for ships arrange stevedores.

MEDICAL: Hospital available five miles from port.

REPAIRS: Limited repairs carried out, foundry and machine shop available.

SURVEYORS: Department of Transport surveyor in residence.

CARGO GEAR: Australian Navigation (Loading and Unloading) regulations apply.

FRESH WATER: Available all wharves. 40 t.p.h.

FUEL: Road tanker delivery only.

TELEPHONES: Available each berth.

HOLIDAYS: Work all days except Christmas Day, Good Friday, Anzac Day, Labour Day, Picnic Day W.W.F.

POLICE/AMBULANCE/FIRE: Fire 24–5449 (Other than alarm, 24–1887); Police 24–5499; Ambulance 24–1551.

TIME: GMT plus 10 hrs. (Summer time GMT plus 11 hrs. mid-October to mid-March).

AIRPORT: Approximately 5 miles away. Regular service.

SERVICES: Shipwrights and carpenters available at 24 hours notice. Underwater diving services available.

DEVELOPMENT: Channel improvements including widening and deepening of channel.

Harbour protection rock breakwater on Western bank under construction.

AUTHORITY: Marine Board of Devonport.

AGENT: Sub-agent of Patrick Agencies, Melbourne.

ESPERANCE, W.A.: 33.52 S. 121.53 E. (See Plan Book)

DOCUMENTS: The following documents should be available for inspection:

Ship's Papers, including the following certificates:
(a) Register.
(b) Load Line.
(c) Safety Equipment.
(d) Safety Radio.
(e) Safety Construction.
(f) Australian Light Dues Receipt.
(g) Articles of Agreement and Account of the Crew (or equivalent).
(h) Western Australian "Port Bill" – Tonnage Dues Receipt.
Valid Deratisation or Exemption Certificate.
Crew's Identity Documents.
International Vaccination Certificates of all persons aboard.

PILOTAGE: Pilotage is compulsory except where Exemption Certificates are held. Radio "Harbour Master – Esperance" 48 and 24 hrs. before arrival. VHF Channel 16 – pilot boat and base set. Base set not manned continuously but pilot boat may be contacted 1 hr. before arrival. Pilot boat painted white with black rubbing band and white centre house. Word "Pilot" painted on both sides of house. Pilot boards 1.5 miles N.E. of Gull Island. Pilot ladder and ancillary equipment must comply with international regulations. Lee to be provided against swell.

It is more usual for vessels to approach from the Westward. In this case use may be made of either West or Causeway Channels. Approaching from the Eastward is not recommended during the hours of darkness or in weather which is in any way restricting visibility.

ANCHORAGE: Vessels proceeding to anchorage should anchor in an E.N.E. direction from the Eastern extreme of the breakwater. Good holding is found in depths ranging from 14.5–27.5 m. However, plenty of cable should be veered and at least 6 shackles is recommended. In the most boisterous conditions vessels have held well with from 6 to 8 shackles out. However, the vessel should always be watched. A pilot ladder and not accommodation ladder is recommended for vessels at anchor due to the swell conditions which normally prevail at the anchorage.

PRATIQUE: Vessels requiring "Free Pratique" are cleared between 0600 and 2000 hrs. daily.

Vessels may be cleared outside these hours upon request and at the discretion of the local Medical Officer.

Vessels are cleared alongside and rarely at anchor.

Please also note that a Health Message is required at the first port of entry from overseas. This is to be despatched within the period 12 and

24 hrs. prior arrival at the first port of entry, and to advise the following information:

Name of vessel, and ETA.
Last port of call.
Date of departure.
Number of crew on board.
Number of passengers on board (if any).
Confirmation that all on board have valid smallpox vaccinations and details of any sickness.

RADIO: Esperance: Radio call sign VIE (operative from 0700 to 2000 hrs.). Perth: Radio call sign VIP (continuous).

Port VHF limited to Channels 6 and 16. Call sign "Esperance Harbour".

TUGS: One tug with 9.5 ton bollard pull will be used.

BERTHING: The Inner Harbour consists of one land-backed berth of 244 m. (No. 1). A second berth of 213 m. in length adjoining the first is to the S.E. (No. 2). The depth in the approach Channel, manoeuvring area and alongside is 11 m. Maximum draft permitted is 10.0 m., pending maintenance dredging, and length overall 186 m. On occasions it may be possible to exceed this draft but reference must be made to the Harbour Master before so doing, who may at his discretion permit an increase dependent on tide and prevailing weather conditions.

At all berths shore coir and/or nylon springs are used to supplement ships moorings.

24-hr. port but entry not generally carried out at night.

Tankers berth at No. 2 Berth, Inner Harbour. Tankers berth during daylight hours only but may be permitted to sail at night at the discretion of the Harbour Master.

Tanker discharge line 14 in. reduced to 8 in. at discharge manifold. Average discharge rate 465 tonnes per hour.

STEVEDORES: 40 men. Working hours 0800–1700, 1800–2400, 0000–0700. No work from 1700 Saturday to 0800 Sunday. ETA to Agent by 1600 previous day for labour requirements Tuesday to Friday. For weekend requirements ETA to Agent by 1600 on Thursday. For Monday labour ETA to Agent by 1600 Friday. Notice for labour pick-up has to be posted by 1700.

OPENING/CLOSING HATCHES: Preferably handled by crew or as per charter party.

MEDICAL: Advance notice not required. Normal facilities and hospitalisation available.

DENSITY: 1026–1028.

FRESH WATER: Available at all berths; 25 t.p.h.; charge, 35 cents per kilolitre.

FUEL: Available by road tanker only. Advise Agent of grade and quantity at least one week before arrival.

GANGWAY/DECK WATCHMEN: Shore watchman is supplied at entrance to Tanker Berth in the case of tankers only. Shore watchmen are available if requested by vessel. It is more normal for ship to provide gangway watchmen from crew. Irrespective a gangway watchman must be on duty at all times at any berth.

CARGO GEAR: No shore cranes and discharge effected by ship's gear. Inner Harbour berths, two link belt bulk loaders used. One loader for grain and salt at No. 1 berth. One loader for nickel concentrates at No. 1 and No. 2. Rates achieved on various commodities — salt 850 t.p.h., grain 500 t.p.h., nickel concentrates, copper concentrates, magnesite 200 t.p.h., phosphate and sulphur 25/30 t.p.h. with conventional ship's gear in union purchase.

IDENTIFICATION CARDS: see "Melbourne".

CONSULS: Nearest at Fremantle.

REPAIRS: Welding, rewinds, under-water inspections. Large structural repairs not possible.

DRY DOCKS: Nil.

REPATRIATION: Facilities exist for repatriation of crews.

AIRPORT: Feeder airline services connect with Perth and international flights. 12 flights per week in either direction. Airport is 25 km. from harbour area. No flights Sundays.

TIME: GMT plus 8 hrs.

POLICE/AMBULANCE/FIRE: Police 711900; Ambulance 711711; Fire 712328.

TELEPHONES: Available all berths.

SHORE LEAVE: Crew allowed ashore provided Immigration Act complied with in relation to Identification Cards.

DELAYS: Not normally encountered.

AUTHORITY: Esperance Port Authority.

AGENT: Sub-agent of Patrick Agencies, Fremantle.

FREMANTLE, W.A.: 32.03 S. 115.44 E. (See Plan Book)

DOCUMENTS: See "Melbourne". Also Inward and Outward manifests accordance Regulations Nos. 142 and 143 and schedule. These documents supplied by ship's Agents.

APPROACHES: Channel leading from Gage Roads into Cockburn Sound presently 45 ft. (13.7 m.) deep, planned to be deepened to 55 ft. (17 m.) to take ships of 120,000 tonnes.

PILOTAGE: Pilotage is compulsory in the Port of Fremantle except for ships not exceeding 150 gross registered tons, and for coastal and inter-state ships, the Masters of which hold operative Pilot Exemption Certificates. There are 2 pilot boarding grounds: the outer boarding ground which is situated 3.5 nautical miles N.E. of Bathurst Point, Rottnest Is., and the compulsory pilot boarding ground in Gage Roads to the Westward of Hall Bank Buoy, which is approximately 2 miles from the entrance to the Inner Harbour.

Note: Pilotage is compulsory from the Outer Boarding Ground for ships drawing 11.6 m. or more.

It is necessary for all vessels to give 24 hours notice by radio telegraphy of the expected time of arrival at Fairway Buoy, followed by a second notice, confirming or amending the previous notice, 2 hours ahead of the expected arrival time in that locality.

Ships requiring a Pilot at the non-compulsory ground must include this requirement in their 24 hours notice of arrival.

Two pilot vessels available, one has royal blue hull, white superstructure and the other, a fast pilot launch, is painted international orange. Pilots may be contacted by VHF Channels 16, 12, 8 and 6.

Usually pilot ladder is required on the port side for vessels inward and starboard side for vessels outward, even when the wind is in the East, unless Easterly wind is very strong as there is nearly always a West to N.W. swell. If in doubt call Port Signal Station on VHF Channel 16.

Pilot does not board vessel at anchor.

Pilot ladder to be 4-5 ft. above sea level with manropes slightly shorter. Boat-rope not required. The ladder should be clean and conform with Regulation 17 of SOLAS. The vessel should be making 3-4 knots.

SOLAS regulations are strictly adhered to i.e. Single length of ladder, non-slip surface (Aluminium Not acceptable), 12 in. spacing between steps, no more than 2 replacement steps, all ropes on ladder and manropes to be manila and not covered (Nylon and polypropelene not acceptable), Regulation 17(a) part (VII) and (VIII) very important, a responsible officer to standby and not a sailor.

Check with Signal Station and find out if Pilots preference is ladder or mechanical hoist (if available).

ANCHORAGES: Gage Roads 44 ft. (13.4 m.) Owen Anchorage 42 ft. (12.8 m.) Cockburn Sound 50 ft. (15 m.).

RESTRICTIONS: *Inner Harbour:* Basin and entrance channel dredged to minimum of 36 ft. (11 m.) below datum.

Outer Harbour: Main approach channels dredged to minimum of 45 ft. (13.7 m.) below datum – secondary channels leading to alumina refinery jetty and steelworks jetties dredged to minimum of 38 ft. (11.6 m.) below datum.

MAX. SIZE: Limited by draft. Minimum under-keel clearance of 0.9 m. required.

Outer Harbour, up to 41 ft. 6 in. (12.6 m.) draft.

Inner Harbour, up to 34 ft. 6 in. (10.5 m.) draft but with suitable tide and by special permission of Harbour Master up to 35 ft. (10.6 m.) draft.

Tankers: The maximum ship draft acceptable at the Oil Refinery Jetty at Kwinana is 41 ft. 6 in., this being the maximum draft permitted in the approach channels.

HEALTH: No restrictions except quarantine. Doctor not normally available between 2200 and 0600 hrs. See "Melbourne".

Port Quarantine Regulations:

(a) The accommodation, galley and other areas must be free from cockroaches and rodents.

(b) Garbage cans, either belonging to the ship or to Fremantle Port Authority, when used must be at all times covered with satisfactory tops.

(c) Rat guards must be fitted to all lines and regularly checked including weekends where the Department of Health have increased their inspections.

It is also to be noted regardless of the existence of current derating or deratisation exemption certificates, all vessels are inspected for rodents.

RADIO: VIP Perth.

TUGS: *Inner Harbour:* 4 available up to 2,600 h.p. (1,940 kW), join vessel in Gage Roads – extra charge if tug's line is used.

Outer Harbour: 3 tugs, including 2 special tugs equipped as fire tenders are also stationed. Tugs join ships approx. 2.5 miles from berths – extra charge if tug's line is used.

VHF: Port Authority signal station manned 24 hours. Keeps watch principally on Channel 16. Channels 6, 8 and 12 used for ship-tug communications. Channel 14 for B.P. Refinery use.

BERTHING: *Inner Harbour:* Victoria Quay – continuous quayage 5,359 ft. (1,633.3 m.); 8 berths.

North Quay – continuous quayage 5,877 ft.; 10 berths. Container berth (No. 11 & 12) 1,427 ft. (429 m.); 1 berth.

All berths in the Inner Harbour, including Victoria Quay, North Quay and the container berth are dredged to a minimum of 36 ft. (11 m.) below datum.

Outer Harbour: Alumina Refinery Jetty, length of berth 800 ft. (244 m.), depth 38 ft. (11.6 m.). Steelworks Jetty No. 1, length of berth 640 ft. (195 m.,) depth 36 ft. (11.0 m.). Steelworks Jetty No. 2, length of berth 880 ft. (268 m.), depth 40 ft. (12.2 m.). Oil Refinery Jetty, see "Tankers" below. Bulk Cargo Jetty, length of berth 1,603 ft. (489 m.), depth 44 ft. (13.4 m.).

A bulk grain jetty of 955 ft. (291 m.) depth 55 ft. (16.8 m.) has been constructed at Kwinana to serve Co-operative Bulk Handling Ltd's grain terminal.

The jetty is equipped with conveyors and ship loaders capable of handling bulk grain at the rate of 5,000 t.p.h. It will eventually be able to handle vessels up to 100,000 d.w.t.

STEVEDORES: Shipboard stevedoring by private contractor, shore side by FPA – usually arranged by ship's Agent. ETA should include particulars of cargo, showing heavy lifts, dangerous or hazardous cargoes, hatch stowage, gangs required, etc.

MEDICAL: Notice not necessary but advisable if treatment required. Full hospital facilities available. Cholera and smallpox vaccinations essential if ship comes from affected areas. International certificates must be current.

TANKERS: *Kwinana Oil Refinery Jetty:* 2 berths for tankers up to 752 ft. (229 m.) – depths 44 ft. (13.4 m.) and 45 ft. (13.7 m.) 1 berth for tankers up to 860 ft. (262 m.) – depth 45 ft. (13.7 m.). Oil separation tanks ashore serve each berth.

DENSITY: Salt 1025, generally at all tides.

FRESH WATER: Available 24 hrs. a day, delivered by up to 8 hoses each of 50 tonnes per hour. 80 cents per kilolitre.

Note: The current water shortage in the Fremantle area may limit the amount of water which can be supplied to ships.

FUEL: Marine fuel (2 grades); Marine diesel. Notice 14 days then 48 hrs.

FIRE PRECAUTIONS: Watchman to be on duty. Ship heading out. Fenced off on land. Buoys 50 ft. (15 m.) out from ship marking prohibited area.

DEVELOPMENTS: State Government approval has been granted in principle for the development of 3 deep-water berths at Point Peron adjacent to the causeway linking Garden Island with the mainland.

No. 12 Berth, North Quay is fitted with a ro/ro ramp, and another Portainer Crane is to be provided for North Quay.

GANGWAY/DECK WATCHMAN: Watchman required – member of crew, or shore-based watchman available. Ordinary rate currently A$6.68 an hour.

OPENING/CLOSING HATCHES: By arrangement between ship's Agent and Stevedore.

CERTIFICATES: Health; Deratisation; Load Line; Ship's Register; Articles. Also see "Melbourne".

CUSTOMS ALLOWANCE: According to local customs dept.

CARGO GEAR: Strict surveillance of cargo handling gear by Commonwealth Government Dept. of Transport. Also see "Melbourne".

IDENTIFICATION CARDS: See "Melbourne".

CONSULS:

America, United States of
Austria
Belgium
Denmark
Finland
France
Germany
Guatemala
Italy
Japan
Netherlands
Norway
Philippines
Portugal
Sweden

REPAIRS: All types of deck and engine repairs possible.

DRY DOCKS: No dry docks – slipway up to 3,000 tons.

REPATRIATION: Facilities exist for repatriation of crews.

AIRPORT: 17 miles (23 km.) to Perth International Airport.

TIME: GMT plus 8 hours.

HOLIDAYS: *Extraordinary Holidays – Port closed:* Labour Day (1st Monday in March); Good Friday; Anzac Day (25th April); Union Picnic Day (celebrated on the first Tuesday in November); Christmas Day (25th December).

Ordinary Holidays: New Year's Day (1st January); Australia Day (celebrated on a Monday late in January); Easter Monday; State Foundation Day (1st Monday in June); Boxing Day (26th December).

On ordinary holidays waterside labour available to work ships in following categories:

(a) Scheduled passenger ships.
(b) Marine casualties.
(c) Ships that can complete cargo handling operations prior to the next engagement of labour.

POLICE/AMBULANCE/FIRE: Victoria Quay Police Station Tel. 335.2783 or 335.5016; Ambulance 335.1601; Fire Brigade 335.6262.

TELEPHONES: Telephones can be supplied to any vessel – $60 installation time plus proportion of annual rental plus cost of calls.

SERVICES: All special services available.

REGULATIONS: Normal port regulations. Special Regulations for Tankers berthing at Oil Refinery Jetties.

AUTHORITY: Fremantle Port Authority.

AGENT: Patrick Agencies, POB 656, 10, Phillimore Street, Fremantle, W. Australia 6160. Tel. 335–6311. Telex Perth AA 92434. Cables: "Rikpat Perth WA."

GEELONG, Victoria: 38.09 S. 144.22 E. (See Plan Book)

PORT LIMITS: A line in a 150.5° direction from a beacon 1.5 chains West of the Little River entrance intersecting with a line in a 009° direction from the N.W. extremity of Sproat St., Portarlington. N.B. – This seaward limit passes 2 cables Eastward of No. 1 beacon Pt. Richards channel.

DOCUMENTS:

3 Crew Lists Form M & S 11.
Store List Form 42A.
1 Articles owned or in possession of Master, officers or crew, Form 4.
3 ports of call Form C & E 886.
1 Form QA 3 ship's cargo.
1 Form QA 4 ship's pets.
2 Form QA 5 Shipmaster's bond.
2 Form AQ 260 Health reports.

PILOTAGE: See "Melbourne". Radio ETA to "Seapilots Melbourne" 24 hours prior arrival advising deepest draft. Pilot equipped with radio-telephone continuous watch on 2182 kHz., and VHF Channel 16. Pilots carry portable sets.

ANCHORAGES:

1. Quarantine. As directed.
2. Explosives.
   (a) Outer: 088° from Pt. Wilson Beacon 3.52 miles. Circle 0.25 miles (463 m.) radius. Depth 32 ft. (9.7m.).
   (b) Inner: 077° from Pt. Wilson Beacon 1.77 miles. Circle 0.15 miles (278 m.) radius. Depth 21 ft. (6.4 m.).
3. Vessels over 30 ft. (9.1 m.) draft: outside No. 2 Beacon Pt. Richards and South of the line of prolongation of the Pt. Richards Channel. Least depth 12.5 m.
4. Vessels over 27 ft. 6 in. (8.4 m.) draft: East of and within 1 mile of No. 18 Beacon Pt. Richards Channel. Least depth 9.1 m.
5. Inner Harbour: Reference Point Breakwater Pier F.R. Triangular Light 38° 6.9′ S., 144° 21.8′ E.).
   (a) 067° 9.3 cables (1,722 m.) from the above position. Least depth 29 ft. (8.8 m.).
   (b) 092° 8.2 cables (1,520 m,) from the above position. Least depth 29 ft. (8.8 m.).
   (c) 117° 8.7 cables (1,612 m.) from the above position. Least depth 29 ft. (8.8 m.).
   **(d)* 133° 1.42 miles (2,163 m.) from the above position. Least depth 26 ft. (7.9 m.).
   **(e)* 147° 1.43 miles (2,631 m.) from the above position. Least depth 26 ft. (7.9 m.).

**(d)* and *(e)* are preferred anchorages for vessels requiring launch communication with the shore, for any purpose.

Masters of vessels are cautioned *(a)* that the bottom of the Inner Harbour is soft mud and is not good holding ground and *(b)* that vessels should not be immobilised unless with the express permission of the Harbour Master. Vessels at anchor should retain the maximum quantity of ballast on board.

RESTRICTIONS: Vessel must have at least 2 ft. (0.6 m.) of water under the keel with a maximum of 6 in. (0.15 m.) for tide.

Night navigation is not normally permissible for any vessel over 10.4 m. draft or inward 215 m. in length.

MAX. SIZE: Tankers: 825 ft. (250 m.) length with 34 ft. 6 in. (10.5 m.) draft. Other vessels: Enquiries should be made with regard to vessels over 658 ft. (200 m.) length.

HEALTH: An overseas vessel approaching the port requiring pratique shall send a message to the Quarantine Officer not more than 24 hours and not less than 12 hours before arrival containing the following information: name of vessel, ETA, number of passengers, number of crew, number of passengers disembarking, port of departure and date, disease on board.

By supplying by radio to Agent the answers to 12 questions on the form Q.2 (below), the vessel may be permitted to berth prior to the granting of pratique.

Question		*Answer*
A.	Name, type and nationality of vessel	
B.	Itinerary for last 15 days. If over 15 days from last port, please give name of port and date of departure.	
C.	Name of first Australian port and ETA.	
D.	Number of crew.	
E.	Number of passengers.	
F.	Have you had cases of illness accompanied by a temperature of 38°C or above for more than two days, or accompanied by rash, jaundice or glandular swelling during voyage?	
G.	Have you had any deaths on the voyage? If so, please give details.	
H.	Have you had cases of illness including diarrhoea sufficiently severe to interfere with normal work or activity during the voyage?	
I.	Have you had persons suffering from venereal disease during the voyage?	
J.	What live fish, birds, reptiles or other animals are you carrying? Ships' pets should be mentioned.	
K.	Have you carried livestock on previous voyages in the last six months? If yes, please advise type of livestock, date of voyage and ports visited. Have all stock-carrying compartments been thoroughly cleaned and disinfected?	
L.	Do you request approval to berth?	

On arrival the health report shall be given to the Quarantine Officer, 2 copies being furnished on the prescribed form, 1 of which will be signed by the Quarantine Officer and returned to the Master.

RADIO: Coastal radio station for local messages "Radio Melbourne" VIM. The Geelong Harbor Trust Commissioners maintain a Signal Station at Point Henry at which a 24-hour watch is kept. (38° 7′ 51″ S., 144° 25′ 28″ E.). The building is a cream brick tower 11.3 m. in height to the roof, situated at the Northern end of the high land of Point Henry, and is surmounted by a white signal mast. Movement of traffic within the port is controlled through the Signal Station. Communication is affected as follows:

1. Telephone. Geelong 9-8014.
2. Radio Telephone VHF F/M (International Channel).
   (i) Channel 16. 156.8 M/cs. Calling (continuous watch).
   (ii) Channel 12. 156.6 M/cs. Working.
   (iii) Channel 8. 156.4 M/cs. Pilots and Tugs (continuous watch).
   (iv) Channel 6. 156.3 M/cs. Tugs.
   (v) Channel 67. 156.375 M/cs. Safety.

These frequencies are the same as those operated by the pilot vessels, Point Lonsdale Signal Station, Melbourne Harbour Control and all Port Phillip tugboats on commercial towage.

TUGS: Vessels normally towed from Hopetoun Channel to berth, extended towage if required. 3 large tugs available. Use of tug's line optional. Tugs equipped with VHF Channels 6, 8, 12 and 16.

STEVEDORES: Labour ordering: Day labour must be ordered by 1600 hrs. the preceding day. Twilight shift labour by 1600 hrs. preceding day, and midnight shift, but these can be subject to confirmation 0800 hrs. Saturday labour must be ordered by 0900 hrs. Friday, Sunday labour by 1100 hrs. Friday (day and twilight shift), Sunday midnight before 0900 hrs., Friday. Monday labour is ordered at 1600 hrs. Sunday. Ships can order for a 1000 hrs. start, at 1600 hrs., which is subject to 0800 hrs. confirmation. Special requirements exist for labour requirements on public holidays.

BERTHS:

	No.	Length (m)	Depth (m)	Use and facilities
Cunningham Pier	4	328	9.7	Gen. cargo – cargo shed 137m. × 15 m. Rail access.
Bulk Wheat Pier	2	201	11.0	Bulk grain export. Gantry extends 154 m. of berth.
Corio Quay South 1	1	183	9.7	Stern loading ramp for roll-on/roll-off. Rail access.
Corio Quay North 1	1	183	9.7	Steel and dry bulk cargo.
2	1	183	9.7	Rail access Four 6 t. Portal cranes. Gen. cargo shed 91 m. × 30.5 m.
Corio Quay North 3	1	161	9.7	Gen. cargo shed 97.5 m. × 27 m.
Lascelles Wharf 1	1	173	11.0	Dry bulk cargo.
2	1	173	11.0	Four 7.5 ton Portal cranes. Cargo shed 30 m. × 27 m.
3	1	275	11.0	Under construction as Container Berth.
Refinery Pier 1 & 2	2	213	11.0	Petroleum products.
3 & 4	2	275	11.0	Crude oil, chemicals and LPG export.
Pt. Wilson Explosives Pier	2	168	9.1	Dangerous cargo. Commonwealth Government controlled.
Pt. Henry	1	152	9.1	Bulk alumina and allied products. Unloading gantry.

TANKERS: Refinery Pier. 4 berths, depth alongside 36 ft. (11 m.) Pumping platform 16 ft. (4.9 m.) above low water, wharf 12 ft. (3.7 m.) above low water. One-ton crane at each berth and accommodation ladder.

No. 1 and 2 Berths: Pier 2,909 ft (887 m.) long, direction 315° berth 700 ft. (213 m.) approx., suitable for ships up to 200 m. LOA. Ships moor to 2 spring dolphins 61 m. apart; pumping platform set back 1.7 m. from line of these dolphins. Barge platform inshore of each berth.

No. 3 and 4 Berths: a branch from the main pier, direction 330°, berth 275 m. approx., suitable for ships up to 260 m. LOA. Ships lie alongside a concrete sprung berthing beam 73 m. in length. No. 4 Berth equipped with capstans and 90 tonnes S.W.L. mooring hooks for berthing large vessels. Distance between backspring bollards 35 m. 8 in. hoses – reduction from 10 in. available. Shore accommodation ladder provided at all berths. Ballast and slop discharge available all berths.

MEDICAL: Comprehensive medical facilities available, including 459-bed Geelong Hospital. If vessel to be in port less than 24 hours it is advisable to radio Agent informing him of medical requirements prior to vessel's arrival.

DENSITY: Normally 1025, may decrease to 1023 after much rain, or increase to 1027 in Summer after prolonged dry spell.

FRESH WATER: Available at all berths from shore hose at 40–50 t.p.h. Water may be provided to vessels at anchor by using a tug as waterboat, delivery 25-30 t.p.h., tug hire $490 per hour. At Lascelles Wharf, special water delivery facilities available from 9 in. main at 150 t.p.h. Charge 40c per kilolitre plus service charge.

FUEL: Marine fuel to 650 sec. and diesel fuel available Corio Quay North and Lascelles Wharf; all grades to 3,500 sec. available at Refinery Pier berth.

FIRE PRECAUTIONS: Stringent restrictions against burning or welding on vessels carrying dangerous cargoes. Standard fire precautions.

GANGWAY/WATCHMEN: Shore gangway man compulsory. Penalty rates after hours.

OPENING/CLOSING HATCHES: Crew or stevedores, to Master's requirements. It is normal to request bulk carriers to arrive at berth with hatches all open.

CERTIFICATES:

Deratisation Certificate (Health Requirement).
Ship's Articles (British) (Customs requirement).
Ship's Register (Customs requirement).
Load Line Certificate (Customs requirement).
Safety Equipment Cert. (Customs requirement).
Safety Radio Cert. (Customs requirement).
Last Port Clearance (Customs requirement).

CUSTOMS ALLOWANCE: 200 cigarettes, 250 gm. pipe tobacco, 40 cigars. Spirits: any bottle opened not to exceed 1 litre.

CARGO GEAR: Australian Navigation Act requirements. See "Melbourne".

IDENTIFICATION CARDS: See "Melbourne".

CONSULS: Consulates in Melbourne available if required:

Austria
Belgium
Brazil
Chile
China
Denmark
Dominican Rep.
Ecuador
Finland
France
Germany
Greece
Honduras
Iceland
Italy
Japan
Latvia
Mexico
Monaco
Netherlands
Norway
Panama
Peru
Philippines
Portugal
Spain
Sweden
Switzerland
Thailand
Uruguay
USA
Venezuela

REPAIRS: All services available. Most Melbourne repair and service firms will also undertake work in Geelong.

DRY DOCKS: *Rippleside Slipway:* 1,000 tons on 47.85 m. B.P. and repair workshop.

REPATRIATION: Possible without difficulty.

AIRPORT: Nearest major commercial airport is Tullamarine, 50 miles distant, from which there are frequent interstate and international flights. Airport accessible by road in about 1 hour 15 minutes.

TIME: GMT plus 10 hours. Summertime, GMT plus 11 hours.

HOLIDAYS: Closed holidays: Christmas Day; Waterside Workers' Picnic Day; Labour Day; Good Friday; Anzac Day (Tanker operations excepted). Other holidays: Australia Day; Queen's Birthday; Geelong Cup Day.

TELEPHONE: Always placed aboard on arrival; ship charged for trunk line calls, etc.

SERVICES: Cleaning, painting, fitting out, etc., fumigation. Good fresh stores available.

POLICE/AMBULANCE/FIRE: Police 21 6111; Ambulance 21 2655; Fire 21 2755.

SHORE LEAVE: No restrictions. Seamen aboard vessels berthed at Refinery Pier sign book on leaving pier and again on re-entering; this is in lieu of any form of dock pass.

AUTHORITY: The Geelong Harbor Trust Commissioners.

AGENT: Sub-agent of Patrick Agencies, Melbourne.

GERALDTON, W.A.: 28.46 S. 114.36 E.

PORT LIMITS: Inner Harbour includes all that area of water in Champion Bay bounded by a line drawn from Gregory Street, Geraldton, along the foreshore to a point due South of the Western extremity of the breakwater; thence along the breakwater to the Western extremity of the Eastern breakwater; thence S.E. to the foot of the said Gregory Street, and also including the Entrance Channel thereto.

Outer Harbour includes all that area of water in Champion Bay and Geelvink Channel bounded by an imaginary line drawn from Point Moore lighthouse true West as far as Longitude 114° 30′ E. thence true North to the shore of the mainland about 2.75 nautical miles (N. and W. from Woolawar Gully), but excluding the waters of Geraldton Inner Harbour and the Entrance Channel thereto.

ETA: "Shipserve Harbour Master Geraldton" requires 48 and 24 hours notice prior arrival. The 24 hours message should be timed to be delivered before 1630 hrs. local time on the day before arrival so that arrangements can be finalised, when possible, in working hours. Please also indicate fore and aft draft in the 48 hours notice.

Masters are advised for medical and or other emergencies; the Harbour Master should be contacted through Principal or Local Agents.

Vessels arriving in ballast are requested to retain all clean ballast until after berthing. Discharging ballast before arriving may preclude berthing if strong wind conditions prevail.

DOCUMENTS: Quarantine notice and declaration QA3 Form A, Quarantine Notice QA 4 Form E2, Shipmaster's Bond QA 5, Departure Notice, 2 Crew Lists. Also see "Melbourne".

PILOTAGE: Compulsory. Pilot boards in position Point Moore Lighthouse 2.2 miles, bearing 135°. If conditions abnormal pilot launch may not be able to reach this position then Port Control will advise boarding point. Usually off No. 1 Buoy (formerly Inner Knoll Buoy).

ANCHORAGE: Vessels of up to 150 m., Moore Pt. Lt. Ho. 195° distance 2.2 miles in 11 m. Vessels in excess of 150 m. are advised to anchor close to and to seaward of Pilot boarding ground, unless weather conditions are excellent. The former position is referred to as the "Inner Anchorage" and the latter, the "Outer Anchorage".

MAX. SIZE: Length 213 m.; Beam 30.4 m. Permissible drafts: 8.7 m. at LW – 9.1 m. at 0.8 m. of tide, 9.3 m. at 1.1 m. tide provided swell at Waverider buoy does not exceed 3 m. Vessels wishing to load to maximums dependent on tide prevailing should contact Harbour Master before so doing.

RESTRICTIONS: Swells up to 5.0 m. in outer approaches. Loaded ships advised not to enter when swell excessive.

Bluff Point leads or Outer Channel. Depth of water 10 m., minimum LWIS width of channel 180 m.

Curved section of channel. Depth of water 9.7 m. to 9.4 metres LWIS.

Inner Harbour channel and Manoeuvring area. 9.1 m. LWIS. Depth alongside berths: No. 2-5 9.4 m. LWIS.

HEALTH: First port of entry, radio Port Authority not less than 12 hours prior to arrival advising state of health. Also see "Melbourne".

TUGS: One 13 tons bollard pull and one 6 tons bollard pull. Compulsory.

RADIO: VHF available for communications with Pilot. Channels 6, 9, 12 and 16. Continuous watch not maintained.

BERTHING: The wharf is divided into 4 berths numbered 1, 2, 3 and 4 from East end, 3, 167 m. in length and the fourth 181 m.

No. 1. Berth has a transit shed with a 1,000 ton capacity, and an old shed which has been used for bulk storage of wheat and salt. The berth is used as a general purpose berth.

No. 2. Used as the tanker berth, and also for the discharge of bulk phosphate, sulphur and allied cargoes. Also for loading bulk cargo other than wheat. General cargo can also be handled and facilities are available for the holding and loading of sheep. Has an unobstructed apron of 27.5 m. for almost the full length of berth.

No. 3. Berth mainly for loading of bulk grain. There are 2 loading gantries on the wharf each capable of loading wheat at the rate of 400 t.p.h.

No. 4. It is possible to use No. 4 for general purposes, but a loading gantry and conveyor system at the berth is used for loading mineral sands. Max. rate 1,000 t.p.h. Air draft for loader not to exceed 11 m.

No. 5 berth is situated to the West of the main wharf and runs in a NNE direction. The berth is 213 m. in length with mooring dolphins either end. Currently the berth is used for general purposes.

CARGO GEAR: See "Melbourne".

STEVEDORES: 55 men working hours 0800–1700 hrs. Monday – Friday. Extended shifts Monday – Thursday. Evening shifts all days except Saturday.

FRESH WATER: At each berth 25 t.p.h.

FUEL: Light diesel oil 80 t.p.h.

REPAIRS: Engine repairs available.

CUSTOMS ALLOWANCES: Each crew member 200 cigarettes or 40 cigars or 8 oz. tobacco and limited amounts spirits per man.
TIME: GMT plus 8 hrs.
TELEPHONES: Available at each berth (ordered through Agent).
AUTHORITY: Geraldton Port Authority.
AGENTS: Sub-agent of Patrick Agencies, Fremantle.

GLADSTONE, Queensland (including Barney Point): 23.51 S. 151.15 E. (See Plan Book)

PORT LIMITS: Inside a line commencing at a point 1.5 miles North of East Point, Facing Island; thence to the outer extremity of Jenny Lind Bank, and thence by a line to Tiber Point.
DOCUMENTS: See "Melbourne".
PILOTAGE: ETA's may be sent through Brisbane or Rockhampton Radio Stations, not less than 24 hours before arrival, followed by amended advices where necessary as takes pilot launch 2 hours to reach Pilot boarding Ground from town. Pilotage compulsory all merchant ships. Pilot boards at the Fairway buoy which is approx. 28 km. West of Bustard Head. VHF Channel 16 may be used to contact pilot station, call sign "Gladstone Harbour Control"; 24 hour watch maintained. Pilot boat also has VHF. Pilot boat orange launch and displays usual signals.
ANCHORAGE: Good anchorage inside Gatcombe Head about 7 cables South of Bushy Islet in 8 to 10 fathoms, sand and mud, North of Facing Island leads.
RESTRICTIONS: The port is served by an entrance channel, some 6 miles long, with a bottom width of 183 m., dredged to 10.36 m. at low water.

The allowable draft of a vessel passing through the channel is determined by the following formula:
Allowable draft in metres = 10.36 m. + tide height −1.5 m.
The 1.5 m. is deducted to allow for keel clearance.
The max. daily tide height is 4.9 m.
The min. daily tide height is 2.7 m.

Tankers carrying petroleum products may enter during hours of darkness only at Harbour Master's discretion.
MAX. SIZE: Max. draft for entrance channels varies from 11.58 m. (38 ft.) to 12.80 m. (42 ft.), depending upon tidal conditions. Length and breadth dependent upon wharf to which vessel is to proceed. Principal wharves are:

Auckland Wharf	No. 1	Depth	11.28 m.	at LW
,, ,,	No. 2	,,	9.80 m.	,,
,, ,,	No. 3	,,	10.05 m.	,,
Barney Point		,,	12.20 m.	,,
South Trees	East	,,	13.72 m.	,,
,, ,,	West	,,	12.80 m.	,,

HEALTH: Pratique granted when alongside wharf, unless proceeding to anchorage inside port, in which case quarantine officials board at anchorage. Agents should be advised in advance in event of any suspected fever or disease on board. Pratique granted in Australian ports normally covers vessel for any subsequent ports. Also see "Melbourne".
RADIO: Radio messages passed to Agents via any coastal radio station. All shipping cables to Agents, etc., should be prefixed "Shipserv" to enable delivery destination outside ordinary postal hours if necessary.
VHF: Shipping movements are controlled by VHF Radio, the base station being operated by the Harbour Master and his Staff.
TUGS: 4 tugs in service with bollard pulls of 42, 34 and 2 of 27 tonnes. Tugs normally join vessel in vicinity of South Trees Point. Tug's lines always used when vessels are piloted. There is no extra charge for use of tug's lines.
BERTHING: Large vessels requiring load coal either Auckland Point Wharf or Barney Point Wharf normally swing and berth starboard side to, head to sea, on flood tide. Smaller vessels using these berths either port or starboard side to, depending upon tide. Vessels requiring discharge bauxite South Trees Island Wharf berth at periods of slack water (high or low) only. Vessels loading alumina this wharf berth either on flood tide or slack water – *never* on ebb tide.

Auckland Wharf: 3 berths owned by Gladstone Harbour Board, total length of wharf 578 m. with dolphins at either end. Cargo handled: coal, wheat sorghum, petroleum products, general and heavy lifts.

Barney Point: 1 berth owned by Theiss Dampier Mitsui Coal Pty Ltd., total length of berth 205 m. with dolphins. Cargo handled; coal.

South Trees Wharf: 2 berths owned by Queensland Alumina Ltd., total length of wharf 483.41 m. with dolphins at either end. Cargo handled: alumina, caustic soda, bauxite and fuel oil.

Clinton Coal Facility: One berth owned by Gladstone Harbour Board. Construction completed April, 1980. Shiploader loads at the rate of 4,000 tonnes per hr. Initial dredged depth at berth will allow for vessels of 60,000 d.w.t. capacity to load. Design of wharf and shiploader will cater for vessels of 120,000 d.w.t. capacity on completion of Stage II of dredging works. Cargo handled: Coal.
STEVEDORES: Special ETA advices necessary if week-end labour required and must be ordered by 1400 hrs. on previous Friday. Monday labour for vessels arriving after Friday must be ordered by 1500 hrs. on Friday. The only commodities requiring shore labour are bulk grain and general cargo.
MEDICAL: Dependent duration stay in port, prior notice for medical attention not required (other than notice of infectious diseases). Hospital facilities available. Current vaccination certificate for each member of crew required.
TANKERS: Diameters of discharge lines 12 in., (0.305 m.) and 8 in. (0.203 m.) for white oils and 6 in. (0.152 m.) black oils, no slop discharge facilities. Main tanker berth at Auckland Point Wharf min. depth alongside 33 ft. (10.06 m.) LWOST. Black oil also discharged South Trees Island Wharf for use in alumina plant only.
DENSITY: Average density 1024–1028.
FRESH WATER: Available all wharves. Fresh water hydrants placed at intervals along wharves.
FUEL: Fuel oil is available by bunker lines at Auckland Point No. 1 and No. 3 Berths and South Trees Island Berths. (Fuel oil at South Trees Island is available to Queensland Alumina's vessels only). Lubricating oils and diesel are available by road tanker. Coal also available.
FIRE PRECAUTIONS: Where petroleum and goods of dangerous inflammable character are being unloaded, watchman shall be employed to collect matches from all persons in vicinity and to patrol wharf within the limits in which petroleum cargo is being handled. Every vessel carrying inflammable liquids when in any Queensland port shall display red flag, not less than 1 m. (3 ft.) square with white circular centre 15 cms. (6 in.) in diameter.
OPENING/CLOSING HATCHES: Either by ship's crew or shore labour.
GANGWAY/DECK WATCHMEN: Services of watchmen is not recommended except in the case of petroleum tankers previously mentioned.
SHIP CERTIFICATES: List of certificates usual for Australian ports. See "Melbourne".
CARGO GEAR: To be in accordance with Commonwealth Navigation (Loading and Unloading Safety Measures) Regulations. See "Melbourne".
CUSTOMS ALLOWANCES: 0.5 lb. of tobacco or 200 cigarettes, to be opened. 1 only 26 ounce bottle, to be opened.
IDENTIFICATION CARDS: See "Melbourne".
CONSULS: None.
REPAIRS: Minor engine and deck repairs are undertaken.
DRY DOCKS: None available. Slipway capable of lifting vessels up to 125 tons displacement with max. beam 23 m. and max. draft forward of 6 ft.
REPATRIATION: Facilities for effecting crew changes and necessary repatriations can be arranged. Prior notice required.
AIRPORT: Airport approximately 5 miles from port and is regularly served by 2 internal airlines. 4 daily flights to Brisbane where connections with overseas airlines.
TIME: GMT plus 10 hours.
HOLIDAYS: Only 5 official holidays in year when it is *not* possible to arrange cargo work: Christmas Day; Anzac Day (25th April); Labour Day (1st Monday in May); Good Friday; Picnic Day (2nd Friday in July).
POLICE/AMBULANCE/FIRE: Telephone number of these services in cases of emergency only is "000" and ask to be connected to the required service. Emergency call to Hospital is 72.1033.
TELEPHONES: Public phones available on wharf.
DEVELOPMENTS: The channels to the port were deepened. The changes are as follows: Entrance Beacons to South Trees, to 10.3 m. (34 ft.) LWOST. South Trees to Barney Point 9.5 m. (31 ft.) LWOST.

A gas terminal is planned.

The Queensland Government has agreed to a A$ 40 million plan to deepen the port of Gladstone to allow vessels of 140,000 tonnes to load coal. Although specific details have not yet been agreed, the following broad outline of plans will form the basis of the work.

The channel from the Fairway buoy to the new Clinton Wharf, a distance of 17.5 miles, will be dredged to approximately 15 m. at datum. The depth alongside the berth will be dredged to 16.5 m., which will allow vessels of 120,000-140,000 tonnes deadweight to load. This work is expected to take about 2 years to complete.

BULK HANDLING FACILITIES: *See Table below.*

Location Number of Units	Auckland Point No. 1 2	Auckland Point No. 2 1	Barney Point 1	South Trees East 1	South Trees West 2	Clinton Facility 1
Type of Unit	Mobile Gantry Loader	Mobile Gantry Loader	Mobile Gantry Loader	Mobile Gantry Loader	Mobile Gantry Grab Unloader	Mobile Gantry Loader
Length of Travel (metres)	142 (Combined)	121	149	168	198	181
Max. Outreach from Wharf (metres)	15.2	28.3	16.2	25.6	26.7	27.72
Throw of Trimmer (metres)	15.2	N/A	11.0	N/A	N/A	Deflector Pla Fitted
Max. Beam of Vessel (metres)	32	30.5	35.4	35.4	35.4	42
Capacity (t.p.h.)	1,600	400	2,000	1,200	2,000	4,000
Commodity Handled	Coal	Grains	Coal	Alumina	Bauxite	Coal (Initial)
Storage (Tons)	300,000	48,000	400,000	238,000	1,000,000	600,000

GENERAL: No cranes on wharves. Mobile cranes available for hire. No lighterage facilities. Electricity available to ships. Passengers not normally embarked or disembarked this port, as no facilities for them.
SERVICES: No tank cleaning facilities. No slop facilities.
SHORE LEAVE: Crew members allowed ashore provided vaccination certificates in order.
DELAYS: No unusual delays other than berth availability or unusual tidal conditions.
AUTHORITY:

1. The Harbour Master, Department of Harbours & Marine.
2. Gladstone Harbour Board.

5 Passenger Lists, Forms M. 308 and 309.
1 Ports of Call List.
3 Barber's stocks and stock in ship's shops and canteens (Form 5) continuation of the back Form 5 AA.
1 List of Customable Articles, Form 5 (crew).
3 Return of Goods of Barber's stock, etc., Form 5 AA.
3 Stores List Form 42 A.
1 Clearance from Last Port.
Ship's Log.
1 Derat. Certificate.
1 Light Dues if paid previously.

PILOTAGE: Compulsory for vessels proceeding to Nabalco facilities. The Pilot will board at the anchorage position.
ANCHORAGE: Melville Bay affords good holding ground, the bottom being either sand or mud and the depths ranging up to 48 ft. (14.64 m.) West of Dundas Point. Vessels awaiting a berth should anchor approximately 1.5 miles (2.41 km.) Westward of West Woody Island close by the fairway buoy. The Quarantine Officer and Customs Officer normally clear vessels alongside the berth, but may on occasions board at the anchorage.

A vessel is considered to be an "Arrived ship" for purposes of laytime when she enters the Quarantine Anchorage.

We quote below Australian Notice to Mariners No. 510/1978.

Gove Harbour – Quarantine Anchorage altered:

(a) A pecked line is to be inserted joining the following positions:
From 12° 11.12′ S., 136° 37.5′ E. on the Harbour Limit to
12° 09.58′ S., 136° 37.5′ E. thence to
12° 09.58′ S., 136° 39.6′ E. and thence to
12° 11.12′ S., 136° 39.6′ E. on the Harbour Limit
On Plan, from Long. 136° 39.6′ E. in the N. border to
12° 11.12′ S., 136° 39.6′ E. on the Harbour Limit.

(b) The Legend *Quarantine Anchorage* is to be inserted within the area of 1(a).

RESTRICTIONS: Approach Channel to bulk cargo and tanker jetties has min. depth 13.8 m.

Approach Channel to general cargo jetty has min. depth 30 ft.

PRATIQUE: The port of Gove has been declared a port of first entry for health clearance of vessels arriving from overseas.

The Commonwealth quarantine regulations provide for health clearance of a vessel between sunrise and sunset. However, the Quarantine Officer has direction to clear ships up to 2200 hrs. local time. Arrangements can be made for vessels to depart up to 2030 hrs. local time, as health clearance is not necessary for outgoing ships. Vessels will usually be cleared alongside the berth.

If pratique is required, vessel must provide:
(a) Primary Health Report;
(b) A Vaccination Register proving that all persons have been currently vaccinated against smallpox;
(c) Usual valid Cholera Certificate if the vessel is less than 5 days from a cholera-infected area.

RADIO: *Notice of Arrival:* Prior to arrival, vessels are requested to radio the following information:

(i) For all vessels:
(a) ETA Gove – 72 hours out
– 48 hours out
– 24 hours out
(b) Anticipated draft forward and aft.
(ii) For bulk carriers, anticipated hatch loading plan, loading sequence and quantity required in each pour.
(c) For petroleum tankers, approximate quantities to be discharged and grade of product desired for first discharge, and order of unloading various grades if more than one grade is carried.

Radio messages should be addressed to "GOBAUX", Darwin. The call sign of the Radio Station at Darwin is VID. Radio messages will be passed by teleprinter to Gove.

Cable messages for Nabalco should be addressed to "SHIPSERV", Gove.

Vessels should note that berthing cannot be effected between 22.00 hrs. local time and sunrise unless quarantine clearance has been received.

VHF: The Nabalco Harbour Master's Office maintains a listening watch on Channel 16 during office hours. VHF frequencies used are 16, 12 and 6. Call sign "Gove Harbour".
TUGS: There are 3 work boats available for hire in the port, max. h.p. 2000. Tug's lines are used in most instances, but no extra charge is made.

BERTHING: *Bulk Cargo Wharf:* The bulk cargo wharf runs in a N.W./S.E. direction and bears 189° true 2,440 m. (8,000 ft.) from West Woody Island triangulation point. The wharf has a 'T' head which is connected to the shore by an access bridge 946 m. (3,120 ft.) long and 3.05 m. (10 ft.) wide.

The northern branch of the wharf head constitutes the bauxite/alumina berth and the southern branch the bulk liquids berth.

The bauxite/alumina berth is mounted with a travelling, luffing shiploader with telescopic trimming spout having an outreach of 31 m, (101 ft. 6 in.) from the fender line. The distance of travel along the berth is 164.2 m. (540 ft.). The clearance beneath the spout at maximum elevation for loading is 16.7 m. (55 ft.) above chart datum (low water ordinary Spring tide) at berth side.

The shiploader has a designed capacity of 2,000 metric t.p.h. for bauxite and for alumina.

The shiploader is connected by a belt conveyor system to the bauxite stockpiles and to the alumina silos, 3,202 m. (10,500 ft.) and 2,592 m. (8,500 ft.) distant respectively from the wharf head.

The bulk liquids berth consists basically of mooring dolphins and fenders associated with a pipe bridge support. Three pipe-lines are provided namely:
(1) 46 cm. (18 in.) diameter for bunker fuel oil.
(2) 30 cm. (12 in.) diameter for caustic soda.
(3) 25.4 cm. (10 in.) diameter for diesoleum, petroleum and aviation kerosene.

During the tanker discharging operations, connection between ship and shore is provided by 20.3 cm. (8 in.) diameter flexible hoses with BS Table "F" 8-hole fittings at each end. BAS reducers from 30.5 cm. (12 in.) to 20.3 cm. (8 in.) are available.

If other types of fittings are required to effect discharge, arrangements should be made by the tanker vessel to provide such items.

The length of each pipe-line is approximately 1,982 m. (6,500 ft.) covering the distance from bulk liquids berth to shore tank farm.

A depth of water of 13.9 m. (45 ft. 08 in.) below chart datum (at low water ordinary spring tide) is available at both the alumina/bauxite and bulk liquid berths.

This will allow simultaneous occupancy by a tanker and bulk carrier, each of up to approximately 60,000 d.w.t., under ordinary conditions. A minimum clearance under the keel of 10% of the draft is required for berthing and unberthing.

General Cargo Wharf: This wharf extends in a S.E. direction from the Eastern side of the land strip leading to Dundas Point. The wharf bears 315° (T) × 1,342 m. (4,400 ft.) from Half Tide Rock and is a substantial structure 94 m. (310 ft.) long by 27.89 m. (91 ft. 6 in.) wide connected to the shore by an access jetty 287.2 m. (950 ft.) long and 5.49 m. (18 ft.) wide.

The wharf has been designed for vessels of max. length of 182.8 m. (600 ft.) and of up to 20,000 d.w.t. to berth at each side under normal conditions. Vessels of up to 30,000 tons can be accommodated under suitable tidal conditions.

The depth of water alongside is 11.59 m. (38 ft.) below chart datum (low water ordinary spring tide) on both sides of the wharf head.

Jetty: A wooden jetty with a depth alongside of 4.27 m. (14 ft.) below chart datum (low water ordinary spring tide) is located at the head of Melville Bay. Use of this jetty is generally reserved for vessels of the landing barge type.

STEVEDORES: No local stevedoring companies.
TANKERS: See "Berthing".
FRESH WATER: Available at all berths.
FUEL: Not available, however distillate can be supplied ex-road tanker in cases of emergency at the general cargo wharf.
MEDICAL: Medical services and a large modern hospital with comprehensive theatre, medical and surgical facilities, at Nhulunbuy, 9 miles from the port.
AIRPORT: Gove is served by commercial flights to and from Darwin on 7 days a week and by commercial flights several times a week from Brisbane and Sydney via Cairns and Mount Isa. Services to other parts of Australia and the rest of the world are frequent from Darwin.
TIME: The time used is Zone −9.5, and all reference to time should be given in Local Time.
REPAIRS: Limited facilities, minor repairs only.
DENSITY: 1025.
SURVEYORS: Lloyds Surveyors available from Darwin.
HATCHES: Opening and closing carried out by ship's crew.
REPATRIATION: Facilities exist for effecting crew changes and repatriation.
CUSTOMS ALLOWANCES: 200 cigarettes and one litre of spirits per crew member.
IDENTIFICATION CARDS: Not required.
SHORE LEAVE: After clearing inwards crew members may proceed ashore without special permission.
REGULATIONS: It is forbidden to take firearms and alcoholic beverages ashore.
AUTHORITY: Nabalco Pty Limited.

AGENT: Agency undertaken by Nabalco Pty Limited.

GROOTE EYLANDT (Milner Bay), N.T.: 13.52 S. 136.25 E. (See Plan Book)

LOCATION: Milner Bay is situated on the Northwestern corner of Groote Eylandt which is itself situated in the Southwestern area of the Gulf of Carpentaria.

It is a "Port of First Entry" to Australia. Customs, Quarantine Doctor, Police, are in residence on the Eylandt.

DOCUMENTS:

3 Crew Lists.
5 Passenger Lists.
1 Port of Call List.
3 Stores Lists.
1 Crew's Personal Effects List.
Derat. Certificate.
Clearance from Last Port.

PORT LIMITS: The waters in Milner Bay bounded by a line commencing at the HW mark on the N.W. coast of Groote Eylandt in position Lat. 13° 50′ 05″ S. Long. 136° 24′ 29″ E. and proceeding in a 260° 44′ 10″ direction to a point in Lat. 13° 50′ 28″ S. Long. 136° 22′ 03″ E. at the high-water mark on the East coast of Connexion Islet; thence by a line following the contour of the coast of Connexion Islet at the HW mark to "Boulder" in position Lat. 13° 50′ 46″ S., Long. 136° 20′ 14″ E.; thence by a line bearing 151° 30′ to a position Lat. 13° 53′ 34″ S. Long. 136° 21′ 47″ E.; thence by a line bearing 80° 44′ 10″ to a point being Lat. 13° 52′ 54″ S. Long. 136° 25′ 58″ E. thence by a line following the contour of the coast at high-water mark to the point of commencement.

PILOTAGE: There is a Port Officer at Milner Bay who will assist Masters in berthing and departing from the jetty. Approaching Groote Eylandt from the Northwards, vessels should steer to a position 10 miles North of the Northeast Islet, which is rocky on the Northern coast and rises to grassy hills. From the above position, steer to pass about 3 miles North of Chasm Islet until the recommended track on chart Aus. 14 is reached. This track 221° passes about 1 mile East of Brady Rock (light GP. FL. (3) ev. 12 secs.) and continues on this course until Bickerton Island Light (FL. 5 secs.) bears 250° when the course should be altered to steer for Hand Islet on the recommended track (250°) until reaching the position to alter course to 195° to pass down the middle of Warwick Channel. It is recommended to remain on this course until reaching the patch South of Connexion Island.

If vessels enter via the Connexion passage, care must be taken to avoid the 3 fathom patch off N.W. Bluff and keep clear of the 27-ft. patch about 3.5 miles N.E. of Connexion Islet.

ANCHORAGE: Good holding ground is found 1 mile West of the jetty where there is a good sand bottom free of obstructions with about 40 ft. of water. Quarantine is granted at this anchorage.

MAX. SIZE: The max. LOA is 700 ft. and max. breadth 96 ft. The max. draft is 35 ft.

RADIO: The Port is able to communicate with vessels which are fitted with VHF radio through normal international Maritime Channels and the call sign is "Groote Eylandt". However, the shore station is only open during office hours unless prior telegraphic arrangement is made. Office hours are 0800 to 1645 hrs. Monday to Friday and 0800 to 1230 hrs. Saturday.

It is requested that vessels arriving at any hour of the day should monitor VHF Channel 16 as sometimes attempts are made to contact vessels outside of office hours.

ETA's are required at least 72 hrs. 48 hrs. and 24 hrs. prior to arrival. Telegraphic address is: Manager, GEMCO, C/-Hematite, Darwin. Telex AA70858. Or Manager, GEMCO, Alyangula, N.T. 5798. Radio telephone: Darwin 81-6589, or Cairns 3547.

PRATIQUE: Vessels are granted Pratique at the Anchorage one mile West of the wharf. The ship's gangway must be lowered for the boarding of the Quarantine Doctor.

BERTHING: The ore-loading jetty is situated in approximately 13° 56.5′ S. 136° 25′ E., with a depth of water alongside of 36 ft. (11.0 m.) MLWOST with a tide range of 6 ft. A small tug is available to assist in berthing vessels and a launch is provided for running lines. The jetty consists of a central landing 324 ft. long and 36 ft. wide, with two breasting dolphins on the North and South ends of the central landing. A roadway extends from the shore to the central landing, virtually parallel to and on the North side of the loading conveyor belt. As there is no tidal information for this area, the tidal direction should be checked with the shore prior to berthing, as the tidal stream is sometimes different half a mile from the jetty.

The line of dolphins is offset 8° from the jetty stem which runs out 1,350 ft. from the shore in a 249° 45′ direction so that care must be exercised in placing the vessel for loading. All breasting dolphins are fendered with vertical timbering. When berthing, vessels should keep well clear of the loading head in the centre of the jetty, as it is possible that a vessel on a too fine approach could cause damage to the loading boom with the flare of the bow.

Vessel must have rat guards in position at all times (except while shifting ship), otherwise they will be liable to a fine. As Groote Eylandt is a reserve this requirement is rigidly enforced.

Loading rate is 900-1,100 t.p.h. and the vessel is required to shift ship to load each hatch as the loading boom is fixed. Shore labour is available to shift lines, etc., as required. Shore labour will not trim manganese ore, which is dump loaded from the conveyor.

This is a seasonal tropical loading zone from 1st April to 30th November.

FRESH WATER: Available. Rate 9 tonnes/hour.

STORES: Not available.

FUEL: Not available.

CUSTOMS ALLOWANCES: 200 cigarettes, 1 bottle spirits, 3 bottles of beer per man.

MEDICAL: There is a Medical Centre and medical staff available if necessary. Valid vaccination certificates are required, covering the requirements of the Australian Government Department of Health.

FIRE PRECAUTION: A permanent fire-fighting facility is installed on the ore-loading jetty. It is an automatic system which starts as soon as a fire hydrant is turned on, and delivers a 140 p.s.i. through a 2.5 in. hydrant with a 5 TPI V thread connection.

All shore hoses are 2.5 in. and are equipped with fog nozzles. Foam equipment is also available on the jetty with an output of approximately 1,000 gallons per minute. Fire-fighting lines on the jetty deliver salt water only. International shore connection available.

TIME: Time kept is Northern Territory "Standard Time" GMT plus 9 hr. 30 min.

WEATHER/WIND/TIDE: Tides cause some eddying in both the Connexion and Warwick Channels, but these cause no concern provided normal care is exercised.

Prevailing winds from May to October are S.E. and blow strongly at times during the day but ease off considerably after sunset.

There are occasional heavy fogs in the area in June and July in the early morning and these sometimes persist until 1000 or 1100 hrs.

From November to May the wet season prevails with winds blowing mainly from the N.W. with heavy rains and occasionally, more than moderate seas.

IDENTIFICATION CARDS: Seamen calling at this port have to be in possession of Seamen's Identification cards, form M315, issued by the Commonwealth of Australia, however, certain nationalities are exempt.

Facilities at Groote Eylandt are severely restricted and the Port Authorities recommend seamen should be provided with the required card before arriving at Groote Eylandt. For information, we would advise that Greek nationals are not exempt from this requirement, but nationals of Great Britain, Norway, Japan, Hong Kong, India and the People's Republic of China are.

REPATRIATION: Can be effected to most countries from Groote Eylandt via Darwin which is serviced by Qantas and British Airways. Due to the remoteness of Groote Eylandt, repatriation of crew members should only be considered in a 'Force Majeure' circumstance. All necessary bookings and reservations are made through the local airline office and Seamens' Discount Fares, where applicable, are utilised.

AIRPORT: MacRobertson Miller Airways operate a twice weekly jet service to and from Darwin. Bush Pilots Airways operate a thrice weekly DC3 service to and from Cairns.

ACCOMMODATION: Visitors accommodation in the GEMCO township of Alyangula, is severely limited and shipowners who are arranging for a change of personnel at Groote Eylandt are requested to ensure that the arrival of crew members at Groote coincides as closely as possible with the arrival of the vessel.

NOTARY PUBLIC: A Notary Public is available.

HOLIDAYS: Cargo worked on most holidays by arrangement.

SHORE LEAVE: The area is an Aboriginal reserve and *shore leave is allowed in the town area only* provided the vessel has a permit which is supplied by the Agent on berthing.

AUTHORITY/AGENT: The Groote Eylandt Mining Company Pty. Ltd. act as ships' Agents in all cases.

Mail for steamers to be addressed to: "Vessel", Groote Eylandt Mining Co. Pty. Ltd., Groote Eylandt, N.T. 5798.

HAY POINT, Queensland: 21.16 S. 149.19 E.

(See Plan Book)

LOCATION: Hay Point lies 19 km. South of Mackay in Lat. 21° 16′ S. Long. 149° 19′ E. The port is managed by Hay Point Services Pty. Limited. The loading wharf is at the end of a pier, 6,750 ft. long, extending from the shore.

DOCUMENTS, and all general information refer to "Melbourne".

PILOTAGE: Pilotage is compulsory on all vessels except in the cases where the Master holds an exemption certificate for the port.

The area for boarding will be determined by the Pilot but will generally be at a point within an area 1.5 miles East of the port.

ANCHORAGE: Off Hay Point anchor 2 miles East of berths in 13.7 m.

Off Mackay Harbour anchor 1.5 miles S.E. of Slade Island in depths of 11.0 m.

Vessels berth on the slack current approximately 1 to 1.25 hours prior to the high or low tide times.

MAX. SIZE: Max. length 950 ft. (not including bulbous bow). Max. draft dependent on tide height. A 5 ft. (1.6 m.) under keel clearance is recommended in the berth, which has a depth of 55 ft. (16.7 m.). Under keel clearance required at departure is 10% of max. draft, plus 2 ft. (0.6 m.). Least water on departure is 44 ft. (13.4 m.).

PRATIQUE: Pratique is available on a 24 hour basis, 7 days per week in the berth.

Pratique can also be given by radio to vessels which have a Medical Officer aboard as a Crew member. The radio message must contain details of the ship and personnel and making formal request for radio pratique.

Whilst in the vicinity of the port, vessels are required to store garbage aboard in containers approved by the Quarantine Inspector.

RADIO: *Arrival Advice:* Vessels shall communicate with the Terminal via the Shipping Agents.

It is required that the Master of an incoming vessel notify by radio of the ETA at the port, 7 days, 48 hours and 24 hours prior to expected arrival. Local time should be used in all communications. The loading plan should be provided 48 hours prior to expected arrival time.

The Postmaster-General's Dept. has a facility, known as "Shipserv" which will expedite the handling of ship's radio-telegrams requiring special treatment after normal Post Office hours. This facility has been introduced to obviate likely delays affecting business communications between vessels and their Port Agents.

To ensure that shipping messages will continue to receive "after hours" service, the sender should include the service routing indicator "Shipserv" as the first word in the address of all telegrams requiring special treatment. Action will then be taken to telephone the message to the addressee, who will be required to pay the relevant trunk call charge only.

VHF: There are VHF marine radios installed at the berths, and on the tugs and lineboats, for communications during berthing and unberthing operations.

The call sign for the port is – "Hay Point".

The following Channels are available:
Channel 12 – 156.60 mHz – Operations.
Channel 13 – 156.65 mHz – Operations.
Channel 14 – 156.70 mHz – Operations.
Channel 16 – 156.80 mHz – Calling.

TUGS: The port is serviced by tugs and lineboats owned and operated by J. Fenwick and Co. Pty. Ltd. – Sydney. It is required that the Master of a vessel entering or departing from the Terminal engage the services of the port tugs through the Shipping Agents.

BERTHING: *Berth No. 1:*
(Note: All levels refer to chart datum.)

Berth Alignment	350° True
Design ship size	14,500 to 100,000 d.w.t.
Dredged depth	−55 ft. (−16.76 m.)
Dredged width	200 ft. (60.96 m.)
Dredged length	1,125 ft. (342.90 m.)
Depth outside dredged area	−43 ft. (−13.11 m.)
HHWS	+23 ft. (+7.01 m.)
MHWS	+18 ft. (+5.49 m.)
MLWS	+2 ft. (+0.61 m.)

Shiploader

Nominal loading rate	4,000 t.p.h.
Longitudinal travel distance	620 ft. (188.98 m.)
Longitudinal travel speed	100 ft.p.m. (30.48 m.p.m.)
Maximum outreach of telechute	87 ft. (26.52 m.) from fender face

Shiploader has pivoted boom.

Mooring Details: (See Plan Book)

(a) Mooring Dolphins
1MD1 – 4×100T sliphooks with capstan
1MD2 – 3×100T sliphooks with capstan
1MD3 – 3×100T sliphooks with capstan
1MD4 – 3×100T sliphooks with capstan

(b) Breasting Dolphins
1BD1 – 2×100T sliphooks with capstan
1BD2 to 5 – 1×150T sliphooks with capstan
1BD6 – 2×100T sliphooks with capstan

S.A.M.I. (Speed of Approach Measuring Instrument)

The Berth is fitted with instruments to measure the speed of approach of vessels as an aid to berthing.

Berth No. 2:
(Note: All levels refer to chart datum).
Berth Details:

Berth Alignment	330° True
Design ship size	25,000 to 100,000 d.w.t.
Dredged depth	−56 ft. (−17.07 m.)
Dredged width	200 ft. (60.96 m.)
Dredged length	1,200 ft. (365.76 m.)
Depth outside dredged area	−43 ft. (−13.11 m.)
HHWS	+23 ft. (+7.01 m.)
MHWS	+18 ft. (+5.49 m.)
MLWS	+2 ft. (+0.61 m.)

Shiploader

Nominal loading rate	6,000 t.p.h.
Maximum longitudinal travel distance	628 ft. (191.41 m.)
Normal longitudinal travel distance (between limit switches)	595 ft. (181.36 m.)
Telechute travel height	60 ft. (18.29 m.)
Maximum outreach of telechute	95 ft. (28.96 m.) from fender face
Intermediate outreach of inner shuttle	12 ft. (3.66 m.) inside fender face
Outreach of telechute corresponding with intermediate position of inner shuttle	70 ft. (21.34 m.) from fender face.
Elevation of telechute fully extended	+18.5 ft. (+5.64 m.)

Mooring Details (See Plan Book)

(a) Mooring Dolphins
2MD1 – 4×100T sliphooks with capstan
2MD2 – 3×100T sliphooks with capstan
2MD3 – 3×100T sliphooks with capstan
2MD4 – 3×100T sliphooks with capstan

(b) Breasting Dolphins
2BD1 – 3×100T sliphooks
2BD2 to 5 – 1×100T sliphooks on each
2BD6 – 2×100T sliphooks

S.A.M.I. (Speed of Approach Measuring Instrument).

The berth is also fitted with instruments to measure the speed of approach of vessels as an aid to berthing.

LOADING: Vessels will be generally loaded in turn, in the order of arrival provided that:

(i) The vessel is ready in all respects to receive cargo.
(ii) All the cargo is available at the Terminal.
(iii) It is in accordance with the instructions of the Charterer or his Agent.

Vessel shall present a detailed loading plan immediately on arrival including hatch quantities with loading sequence and quantity of coal to be reserved for fore and aft trimming by hatches.

The weight of each shipment shall be determined by an independent Marine Surveyor. The time used for all surveys shall be to the vessel's account unless alternative arrangements have been made.

BULK HANDLING FACILITIES: The Shiploader on Berth No. 1 has a Luffing Boom with a travelling telescopic chute and mechanical trimmer. The Shiploader has a nominal loading rate of 4,000 t.p.h. On Berth No. 2 the Shiploader has rail mounted shuttles, both Inner Shuttle and Outer Shuttle. The telescopic chute with trimmer is mounted on the Outer Shuttle with a nominal fast rate of 6,000 t.p.h. and a trimming rate of 2,000 t.p.h.

STEVEDORES: No notice required. Loading facilities working three shifts of 8 hours each.

MEDICAL: Hospital and doctors at Mackay, 23 miles away by road.

DENSITY: 1025.

FRESH WATER: Not available.

FUEL: No facilities are available for providing bunker or diesel fuel. It is strictly forbidden for drums of oil or fuel to be loaded at the Terminal.

IDENTIFICATION CARDS: See "Melbourne".

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Crew operate hatches.

CONSULS: No local representatives.

REPAIRS: Only light repairs may be effected.

REPATRIATION: Can be arranged.

AIRPORT: Regular services to Northern and Southern ports are available from Mackay Airport.

TIME: GMT plus 10 hours (Eastern Australian Standard Time).

POLICE/FIRE/AMBULANCE: Police, Mackay 2468; Ambulance, Mackay 2222; Fire, Mackay 2244; Police Sarina 20; Ambulance, Sarina 1; Fire, Sarina 100.

TELEPHONES: Placed on board whilst alongside. Hay Point 56–31–52, at berth No. 1 and Hay Point 56–31–06 at berth No. 2.

DELAYS: Berth is exposed and delays occur when wind speeds exceed 25 knots.

SHORE LEAVE: Allowed, taxis may be called from Mackay but are expensive, about A$9 each way. Crew members not allowed along pier on foot.

POLLUTION: Government Authorities demand that no person using the port shall discharge any garbage, refuse, vegetable or food matter, deck cleanings, polluted bilge water, oil or rubbish of any description in the vicinity of the port or within 50 miles of the Great Barrier Reef. Heavy penalties will be imposed for breaches of the relevant regulations.

It is a requirement of the Dept. of Harbours and Marine that before the Pilot may proceed with the berthing of a ship likely to deballast at the Port, the Pilot must receive a certificate from the Master stating that the ballast on board is clean.

STORES: Nautilus Trading Co. Pty. Ltd. are able to supply all vessels, with all types of provisions, bond stores, deck and engine stores, from their warehouses and freezers, situated at Hay Point and Mackay.

GENERAL: *Firearms, Explosives, Inflammables:* No person shall discharge any firearm or explode any detonator or any other signal except as a distress signal, or use any explosive upon any vessel or otherwise within the Terminal.

Explosives or highly inflammable goods shall not be loaded or unloaded at the port except with the expressed written permission of the Port Manager.

Repairs in Port: The Owner, Master or Agent shall notify and obtain written approval from the Port Manager prior to undertaking any repairs to engines or any part of the mechanism of the vessel which would prevent sailing at short notice. The vessel shall not be immobilised at the wharf.

Tides and Currents: In the absence of formal tide tables for the port of Hay Point, it is recommended by the Dept. of Harbours and Marine that the tidal predictions for Mackay should also suffice. From the Department's records, it appears that the time difference of high and low water is only of the order of 5 to 10 minutes after Mackay.

From studies carried out in the Hay Point area by hydrographic investigators there is an indication that the tidal currents flood in a direction between 145° to 170° True and the ebb current flows in a direction of 330° to 360°, with a maximum speed (in knots) approximating one-tenth of the predicted tidal range (in feet) at that time. A maximum current speed occurs in a direction of 340° True with an ebbing tide. The change of direction in the current occurs about half an hour before the tidal extremes.

AUTHORITY: Owned and operated by Hay Point Services Pty. Ltd. Pilotage by Department of Harbours and Marine.

AGENT: Sub-agent of Patrick Agencies, Brisbane.

HOBART, Tasmania (including Risdon, Electrona and Port Huon): 42.53 S. 147.20 E. **(See Plan Book)**

PORT LIMITS: Seaward boundaries (Hobart, Risdon, Electrona and Port Huon for vessels bound from the East); the mouth of the River Derwent, an imaginary line from Iron Pot to Kelly Pt. On Bruny Is. (Port Huon, Electrona for vessels bound from the West); the Southern end of the D'Entrecasteaux Channel, an imaginary line from the Southern end of Partridge Is. to Southport Is. Vessels are considered "arrived" after clearing doctor and a notice of readiness presented to Agent.

DOCUMENTS: See "Melbourne".

PILOTAGE: Pilotage compulsory for all vessels exceeding 35.0 m. LOA not under the command of a duly exempted Master or without special permission of Harbour Master. ETA usually sent to vessel's Agent at least 24 hours prior to arrival Pilot (advisable also to send ETA to Harbour Master) through Hobart Radio (VIH) between 0730–1730 hrs. Monday–Saturday, 0800–1600 hrs. Sunday, after hours through Melbourne Radio (VIM). Continuous watch kept on VHF Channel 16, call sign "Hobart Harbour" (Pilot launches also maintain watch on Channel 16); Channel 12 reserved ship to shore; Channel 8 and 6 ship to ship.

Three launches used for pilotage work. Usual vessel 41 ft. steel-built launch painted dark blue with "Pilots" painted in white on hull on both sides. Superstructure painted light grey. No specific sound signals. For pilotage purposes Hobart is divided into three zones namely "A" (Hobart), "B" (Risdon, Self's Pt.), and "C" (Port Huon, Electrona and Channel Ports). For zones "A" and "B" Pilot boards all vessels in excess of 60.0 m. LOA, on an imaginary line joining White Rock and Crayfish Pt. Vessels under 60.0 m. LOA are boarded on a line East from John Garrow Beacon. Pilots disembark from all vessels outward on a line East from John Garrow Beacon unless requested to proceed to White Rock. For zone "C", for vessels from Eastwards, Pilots embark on an imaginary line joining Piersons Pt. and Kelly Pt., or from Westwards on an imaginary line joining Southern end of Partridge Is. and Southport Is. No alternative Pilot grounds. Vessels inward to zones "A" and "B" wishing to anchor prior to embarking Pilot should do so off White Rock, whether to proceed to berth or quarantine anchorage.

Specific requirements for embarking Pilots are those in force in most ports, namely provide a good lee, a pilot ladder fitted with spreaders and manropes and adequately lit at night, preferably from aft of the ladder.

Also see "Bridges".

ANCHORAGES: Anchorages with excellent holding can be found everywhere in estuaries of Derwent and Huon Rivers. Quarantine anchorage situated off Kangaroo Bluff where excellent holding obtained in 10 to 13 fathoms.

RESTRICTIONS: No restrictions in force, except very deep draft at night at Risdon.

Vessels in excess of 25 m. LOA are not permitted to navigate under the Tasman Bridge between the hours of 0700–0915 and 1600–1830 on weekdays and on other days as directed by the Harbour Master. (Restrictions subject to review at regular intervals).

MAX. SIZE: Risdon to 35 ft.; Self's Pt. Oil Wharf, Macquarie No. 2 and No. 3 General Cargo Wharf dredged to 36 ft. (10.97 m.). Macquarie No. 4, max. draft 42 ft. (12.8 m.). Max. beam practicable at Risdon 30.5 m. (100 ft.).

HEALTH: Vessels requiring pratique anchor in quarantine anchorage and there boarded by doctor, immigration and customs officials. Full crew muster required. Quarantine authorities must be informed of suspected disease or fever at least 18 hours prior arrival. Pratique automatic if granted at previous Australian port. Also see "Melbourne".

RADIO: Hobart Radio, call sign VIH. Hours of duty Eastern Standard Time (add 1 hour for Summer Time) Monday to Saturday inc. 0730–1730 hrs., Sunday 0800–1600 hrs. After hours messages through Melbourne Radio VIM.

TUGS: Normally join vessels approximately one mile from berth. Usual to use tug's line for which additional charge is made, but ship's line may be used.

BERTHING: Port operates on a 24-hour per day basis. No restrictions on tanker movement.

Berths available Hobart, to 42 ft. (12.8 m.).
Berths available Risdon, to 35 ft. (10.67 m.)
Berths available Self's Pt. (Oil) to 36 ft. (10.97 m.)
Berth available Channel Ports
(General) Port Huon 2, to 32 ft. (9.75 m.)
Explosives Jetty to 30 ft. (9.14 m.)

SPECIALISED CARGO-HANDLING FACILITIES: Bulk wheat is discharged at Princes Wharf. Liquid caustic soda and feedstock for the gas company are discharged at Macquarie Wharf No. 2. Risdon Wharf, owned by the Electrolytic Zinc Company of Australasia Ltd., handles bulk cargo consisting of phosphate rock, zinc concentrates and potash. The wharf also has facilities for loading bulk sulphuric acid. Australian Paper Manufacturers Pty Ltd. own a wharf at Hospital Bay, Port Huon, which is used for loading wood pulp in bulk. Roll-on/roll-off traffic accommodated at Princes Wharf No. 1, and at Princes Wharf No. 4, which is also equipped with a 22-ton crane for handling containers.

Roll-on/roll-off facilities at new berths Macquarie No. 5 and No. 6 now available. Live load of ramps 210 tonnes. Ramp beam 10.97 m.

The port is equipped with a Coles "Colossus" 254 tonne capacity fully mobile crane. This high capacity crane is used both for heavy lift requirements and container handling. For container work 30 tonnes can be handled at 33 m. outreach.

BRIDGES: Only one bridge, the Tasman Bridge, required to be navigated and this only when berthing at Self's Pt. Oil Wharf or the Electrolytic Zinc Company's Wharf at Risdon. Clearance 155 ft. (47.24 m.) at HWS and 240 ft. (73.14 m.) wide. Pilotage under bridge is compulsory for all vessels of length 35.0 m. and over. Also see "Restrictions".

STEVEDORES: Gangs ordered by 1600 hrs. on previous day, or 1400 hrs. on Fridays.

MEDICAL: Advance notice of required medical attention necessary including if possible, symptoms of complaint. As much notice as reasonably possible is required. Vaccination for smallpox compulsory. Inoculation against yellow fever or cholera necessary if vessel has visited a port where either disease proclaimed.

TANKERS: Tankers when sending their ETA must state whether or not there are any leaks in hull. All oil discharge lines 8 in. diameter. One oil berth, max. draft alongside 36 ft. (10.97 m.).

Self's Pt. Oil Wharf is used for discharge of bulk petroleum products and has facilities for the discharge of liquid petroleum gas.

DENSITY: Variable.

FRESH WATER: No restriction on availability. Rate of delivery approximately 30 t.p.h./per hose. Water available all berths. No water boats. Cost per 1,000 gallons 45 cents or part thereof.

FUEL: The following grades of fuel are kept in stock: marine fuel oil, light diesel and gas oil. Twenty-four hours notice required for bunkering.

FIRE PRECAUTIONS: No special fire precautions other than non-smoking or lighting of fires or use of naked lights.

DRY DOCK (SLIP):		
Dimensions of cradle		180 ft. (54.86 m.)
Clear width		40 ft. (12.2 m.)
Minimum depth over blocks when slipping	F	5.6 ft. (1.71 m.)
	A	13.1 ft. (3.99 m.)
Range of tide		4.7 ft. (1.43 m.)

Available for vessels up to 1,200 tons displacement.

SURVEYORS: Agents and Surveyors for Lloyds Register of Shipping, American Bureau of Shipping, Bureau Veritas: Mr. R. B. Thompson, Mr. C. Wells, 5 Gladstone St., Hobart. Tel 237328. Also appointed Surveyors for Norske Veritas.

GANGWAY/DECK WATCHMAN: Gangway watchmen are recommended. Watchmen work 12-hour shift. On Saturday, Sundays and holidays, twice normal rate.

OPENING/CLOSING HATCHES: Normally by stevedores.

CERTIFICATES: Register, Load-line Certificate, Deratisation Certificate, Light Dues, Articles of Agreement, Clearance from previous port.

CUSTOMS ALLOWANCES: If vessel arrives at first port, allowance of tobacco for crew is 200 cigarettes in opened carton or equivalent in tobacco or cigars. Allowance of wines or spirits is any opened bottle, but not exceeding 26 fluid ounces.

CARGO GEAR: No additional requirements. See "Melbourne".

IDENTIFICATION CARDS: See "Melbourne".

CONSULS:

Belgium
China (Republic)
France
Greece
Italy
Netherlands
Norway
Denmark
Sweden
Germany

REPAIRS: No facilities for major repairs, but a number of engineering works which can perform small repairs.

REPATRIATION: Facilities available.

AIRPORT: Situated 11 miles from Hobart, and is served by regular airlines connecting with Melbourne from where services operate world wide.

TIME: Local time (Eastern Standard Time) 10 hours ahead of GMT. Summer time in force from last week-end in October to first week-end in March, when clocks advanced one hour.

HOLIDAYS: Official Holidays observed in Hobart. New Year's Day; Australia Day (late January); Regatta Day (mid February); *Labour Day (early March); *Good Friday; Easter Saturday; Easter Sunday; Easter Monday; Easter Tuesday (Bank holiday); *Anzac Day (April 25th); Queen's Birthday (mid June); Show Day (third Thursday in October); *Christmas Day; Boxing Day.

*Days on which no work is performed.

POLICE/AMBULANCE/FIRE: Police 381101; Ambulance 343131; Fire 345655. In emergency dial "000".

TELEPHONES: Arrangements exist for placing telephones aboard vessels at all berths.

DELAYS: Not usual for any delays to occur in berthing. Occasionally a deep-loaded bulk carrier has to wait for high water at Risdon.

AUTHORITY: Marine Board of Hobart.

AGENT: Sub-agent of Patrick Agencies, Melbourne.

INNISFAIL/MOURILYAN, Queensland:
17. 32 S. 146.02 E. **(See Plan Book)**

PORT LIMITS: Mourilyan Harbour, the area to the West of a line joining Hall Point and the outer extremity of the North Head.

ARRIVAL: Requirement for vessels in ballast; min. forward draft to be 2% of overall length, min. after draft – propellor immersed. Draft to be notified to Agent in arrival telegram.

CERTIFICATES/DOCUMENTS/CUSTOMS ALLOWANCES: See "Melbourne".

PILOTAGE: Order Pilot through Agent, as early as possible. Confirm through Agent or direct to Harbour Master, Innisfail. Pilot vessel, located in Mourilyan Harbour, watches on VHF 16 when vessel expected to berth (Channels 12, 8, 13 and 6 available). Pilot vessel white with yellow cabin tops and blue trim. Pilot boards 2 miles East of harbour entrance. Approved pilot ladder and good lee required, *not* accommodation ladder. Vessels awaiting Pilot anchor in boarding position above, good holding. Leading beacons – in line 270° T, showing fixed red neon. Entrance beacons flashing – red port, green starboard.

RESTRICTIONS: No night-time arrival pilotage. On spring tides, entry restricted to at or near slack water. No turbine-powered vessels accepted. Berthing daylight only. Night-time sailings permitted. Vessels entering or leaving – Forward draft not to be less than 2% of overall length and propellor to be immersed.

MAX. SIZE: 600 ft. LOA. Beam unrestricted.

Draft Arrival: Limited by swing basin, maximum depth 7.1 m. less 0.6 m. keel clearance, all vessels swing and berth port side to main wharf.

Draft Departure: Limited by entrance depth of 8.53 m. less 0.91 m. keel clearance.

HEALTH: See "Pilotage". Also see "Melbourne".

RADIO: VIT Townsville (MF) VIK Cairns, has been discontinued.

TUGS: Tug stationed at Mourilyan. Second tug comes from Cairns or Townsville when required, e.g. when vessel over 580 ft. LOA or beam over 75 ft. Tug usually required for unberthing. Tug normally pushing or using tug's lines, no extra charge.

A second tug will be stationed at Mourilyan in March 1980 (See "Cairns").

BERTHING: Ships always berth port side to at Mourilyan. One sugar and molasses berth, length 633 ft. depth 10.10 m. LWOST.

BULK HANDLING FACILITIES: Mobile bulk sugar loading gantry, rate 1,400 t.p.h. Bulk molasses loading rate 300 t.p.h.

STEVEDORES: No waterside workers employed. Normal ETA advices to Agents for arrangement of bulk-loading staff.

MEDICAL: Hospital facilities available, port health doctor also general practitioner.

DENSITY: Usually 1024-1027 irrespective of tide. After heavy rains, particularly January-April, considerable freshening occurs to 1008.

FRESH WATER: Good water readily available, shore hoses from wharf face. Approx. 25 t.p.h. capacity. 15c. per 1,000 litres.

FUEL: Limited quantities of fuel oil and diesel oil available by road-tanker.

GANGWAY WATCHMEN: Not normally required.

HATCHES: Worked by crew.

CARGO GEAR: See "Melbourne".

CREW I.D. CARDS: See "Melbourne".

CONSULS: Nil.

REPAIRS: No major facilities available. Most types of welding, light machinery, and pipe-fitting can be arranged. Technicians can usually be obtained for radar, etc., with advance notice by radio to Agents.
REPATRIATION: Possible.
AIRPORT: Nearest airport at Cairns, 55 miles. Regular flights available.
TIME: GMT plus 10 hours.
HOLIDAYS: Various national, state and local holidays. Cargo usually worked on all holidays except Christmas Day.
POLICE/FIRE/AMBULANCE: Ring 000 on shore public telephone or ship's telephone if fitted.
TELEPHONE: No telephone aboard.
GENERAL: Port normally used only for export of sugar and molasses. Deadweight (cargo on board on arrival) restrictions may apply to certain classes of vessel. Agents will advise details if applicable.
SHORE LEAVE: Not normally restricted. Distance to nearest township (Mourilyan) 6 miles, to Innisfail 10 miles. No public transport services from harbour.
DELAYS: Awaiting daylight or tide or, exceptionally, awaiting vacancy of berth or moderation of weather. No delays usually in loading.
AUTHORITY: Dept. Harbours and Marine.

AGENTS: Sub-agent of Patrick Agencies, Brisbane.

LAUNCESTON, Tasmania (including Inspection Head, Beauty Point, Bell Bay): 41.27 S. 147.07 E.

(See Plan Book)

PORT LIMITS: A vessel is considered to have arrived when at the Pilot boarding ground.
DOCUMENTS: Agents prepare Bills of Lading and Shipping Documents. Only documents required Crew List and Passenger List. Light Dues receipt is necessary if payment is made before arrival.
PILOTAGE: Compulsory for vessels over 50 tons d.w.t. Pilot boards off Low Head lighthouse, slightly to East of leads in line.

Contact Pilot by radio giving ETA 24 hours before arrival. Telegraphic address "Harbormstr". Pilots equipped with VHF Channels 16 and 12. "G" Flag to be flown on arrival.

Instructions for boarding given by Pilot over radio-telephone.

ANCHORAGE:
Position *(a)* Low Head 41° 03′ 32″ S., 146° 47′ 18″ E.
(b) 1.15 miles 280° from *(a)*
(c) 0.9 miles 308° from *(b)*
(d) 0.85 miles 038° from *(c)*
(e) 0.9 miles 128° from *(d)*
thence 0.85 miles 218° to *(b)*

RESTRICTIONS: Night navigation undertaken (tankers now operate at night). Over 168 m. at Pilot's discretion.
MAX. SIZE: Max. permissible draft 9.0 m. at zero water. 11.10 m. at high water. Length restricted to approx. 229 m. Vessels over 168 m. length cannot work Channel during ebb tide. Under keel clearance to be 1.3 m.
HEALTH: Organised by ship's Agent. Notify Agent prior to arrival. Pratique automatic if vessel visits other ports in Australia prior calling Launceston. Also see "Melbourne".
RADIO: Melbourne VIM or Hobart VIH.
TUGS: Two tugs, 21 and 32 ton bollard pull at the deep water berths.
VHF: Port Control keeps 24 hour watch on Channel 16. Pilot boat, tugs and launches fitted with Channels 16, 12, 8 and 6.
BERTHING:

Bell Bay: On the Eastern shore within 11 km. of the entrance.

No. 3 Berth: Length 152 m. Depth alongside 11.29 m. at LWST. The wharf is able to handle loads of 140 tonnes on suitable transporters. General and bulk cargoes handled. Quay equipped with a 12.5-tonne grab able to handle 450 t.p.h.

No. 1 Berth: Length 152 m. Depth alongside 10.97 m. at LWST. Quay equipped with two 12.5-ton grabbing cranes, each with a rated capacity of 300 t.p.h.

No. 2 Berth: A specially designed terminal for the Bass Strait and Sydney vehicular deck ships equipped with stern loading facilities, capable of carrying wheeled and mobile cargo in excess of 120 tons gross weight. Also a 25-ton capacity wharf crane for handling containers and unit loads. Depth alongside 8.23 m. at LW.

No. 4 Tanker Berth: 30.5 m. by 9 m. with separate fender dolphins 61 m. apart and mooring dolphins 262 m. apart. Depth alongside 11.28 m. at LWST.

No. 5 Common User Berth: Length 174 m., depth alongside 12.19 m. to 9.14 m. at LW. The berth is designed for container, Ro/Ro, conventional and bulk cargoes. The berth is equipped with a 50-ton travelling crane, and a 8.2 m. wide stern loading ramp with a capacity in excess of 180 tonnes.

Long Reach: On the Eastern shore within 16 km. of the entrance.

Thermal Station Berth: Length 30.5 m., fender dolphins 61 m. apart. Depth alongside 12.34 m. at LW.

No. 1 Chip Berth (Northern): Length 229 m., depth alongside 11.58 m. at LW. Operators, North Woodchips Pty Ltd. The berthing face consists of 5-fender dolphins and 4 mooring dolphins.

No. 2 Chip Berth (Southern): Length 229 m., depth alongside 11.28 m. at LW. Operators, Associated Pulp and Paper Mills Ltd. The berthing face is the same as No. 1 berth.

Inspection Head and Beauty Point: On the Western shore within 11 km. of the entrance.

Inspection Head Wharf: Length 335 m., depth alongside 10.06 m. at LW. The wharf provides two overseas berths with 3,675 sq. m. of shed space, including cool storage and low temperature storage of 966 sq. m., capacity 1,200 tons.

Bulk tallow storage of 1,400 tons and 200 t.p.h. loading rate. Swing room of 198 m. available off the berth.

Hillwood: On the Eastern shore 32 km. from the entrance.

Explosives Jetty: Length 18 m. × 24 m., depth alongside 4.27 m. at LW.

Launceston:

King's Wharf: Total berthing length 293 m., depth alongside 5 m. at LW. Berthing restricted to wheat berths Nos. 3A, 3B and 4A. Also see "Developments". 17.5-ton cargo handling crane is available.

BRIDGES: No bridges for large overseas shipping. Some inter-state vessels proceeding to Launceston will pass under Batman Bridge – 27 m. mast clearance HW allows 0.91 m. clearance.
STEVEDORES: Agent for ship arranges stevedores. No ETA required.
MEDICAL: Agents should be notified to prepare for medical attention or hospitalisation. Hospitals at Launceston, Beaconsfield, and George Town.
TANKERS: One oil berth at Bell Bay suitable for tankers up to 189 m. length. Vessel berths alongside loading platform and dolphins. Length between mooring dolphins 262 m. Depth alongside berth 11.28 m. LW.

Also one private tanker berth (HEC) with depth 12.0 m., alongside.

BULK HANDLING FACILITIES: One 450 t.p.h. bulk handling crane at Bell Bay Wharf. Two 300 t.p.h. bulk handling cranes at Comalco Private wharf. One 25 ton luffing crane at Ro/Ro Berth.
DENSITY: 1025 to 1028.
FRESH WATER: Fresh water available at all berths. Delivery 30 t.p.h. by hose. Cost 25c to 40c 1,000 gallons plus $4 service charge.
FUEL: Bunkers are available from Mobil and B.P. installations at Bell Bay by wharf line at the oil berth or by road tankers at other berths.
GANGWAY/DECK WATCHMEN. Most vessels supply their own. May be supplied if required. Tidal port makes this requirement necessary.
OPENING/CLOSING HATCHES: Usually by Stevedores.
CUSTOMS ALLOWANCES: Allowance 40 cigarettes per day per man. Stores sealed on arrival; allowance per day per man 2 bottles beer, 1 wine; spirits 1 bottle per 10 days.
CARGO GEAR: Certificates of loading gear and derrick tests to be produced. Also see "Melbourne".
IDENTIFICATION CARDS: See "Melbourne".
CONSULS: Nil.
REPAIRS: All repairs possible.
DRY DOCKS: Steel and concrete graving dock located Launceston. Will accommodate ships up to 62.5 m. length and 3.66 m. draft. Clear width of entrance 12.80 m. Also see "Developments".
REPATRIATION: Arranged through ship's Agents.
AIRPORT: Approx. 64 km. to airport, regular services.
TIME: EST; clocks advanced by 1 hour October-March.
HOLIDAYS: Good Friday, Anzac Day, Christmas Day and New Year's Day close hol days. Work on other holidays may be arranged through Agents.
POLICE/AMBULANCE/FIRE: Beauty Point and Inspection Head 83 1141; 83 1204; 83 1109 (fire calls only), Bell Bay 82 1566; 82 1680; 82 1717 (fire calls only).
TELEPHONES: Ship-to-shore phones available.
DEVELOPMENTS: Synchrolift under construction at berth 4B of Kings Wharf in Launceston.
AUTHORITY: Port of Launceston Authority.

AGENT: Sub-agent of Patrick Agencies, Melbourne.

MACKAY, Queensland: 21.06 S. 149.14 E.

(See Plan Book)

CERTIFICATES/DOCUMENTS/CUSTOMS ALLOWANCES: See "Melbourne".
PORT LIMITS: As for anchorage.
PILOTAGE: Compulsory, service obtained by radio to Agents at least 24 hours before ETA. Pilots will board either at the anchorage (E.S.E. of the Harbour) or 1 mile South of Slade Island heading North. To allow time for manoeuvring, vessels should be under weigh at the Pilot boarding time. Masters are advised not to manoeuvre West of a line between Slade Island and Flat Top Island.
ANCHORAGES: To South of the line of sea leads, with Slade Island summit bearing 351° (343° Mag.), and green light on Southern side of breakwater entrance bearing 294° (286° Mag.), good anchorage with not less than 30 ft. (9.1 m.) LWOS. Bottom sand and good holding ground.
RESTRICTIONS: None. Day or night access.
MAX. SIZE: Up to 620 ft. (189 m.). Largest vessels load at bulk sugar berth, max. length governed by length of traverse of loading appliance winch 445 ft. 8 in. (136 m.) between hatches.
HEALTH: See "Melbourne". Inspection at anchorage or at berth.
TUGS: Two tugs available, 1×10 tons and 1×12 tons bollard pull.
RADIO: See "Brisbane". A VHF Port Radio Station has been established at Mackay Harbour. Frequency: Channels 6, 12, 16, call sign "Mackay Harbour". Hours: every hour on the hour and monitoring will commence five minutes before the hour and five minutes after the hour.
BERTHING:

Berth No.	*Length (Metres)*	*Depth (Metres)*
1.	198.12	10.4
2.	198.12	10.1
3.	198.12	10.3
4.	182.88	10.4

Slack water entry. Swinging basin 28 ft. (8.5 m.) LWOST. Mean high neap tide rise 13 ft. 4 in. (4.1 m.). Mean high spring tide rise 18 ft. 1 in. (5.5 m.). Depth at berths 33–35 ft. (10.1-10.4 m.).
SPECIALISED CARGO HANDLING FACILITIES:
Sugar Loading Gantry
(a) Loader Height: Clear height of loader in horizontal position from top of the pier, 26 ft. (7.9 m.). Height of pier above low water, 34 ft. (10.4 m.). Can be used in lifting slope "V" position up to 14°

above horizontal. Max. vessel's hatch height above sea surface with which vessel may start loading even at high water, 35 ft. (10.7 m.).

(b) Outreach: Max. outreach of loader from side of pier, 40 ft. (12.2 m.). Breadth of permanent fender from side of pier, 2 ft. 6 in. (0.8 m.). The chute can be traversed along the boom for a max. distance of 20 ft. (6.1 m.).

(c) Movable Range. Length of movable range along pier, 445 ft. 8 in. (135.8 m.).

(d) Capacity: Average loading rate 1,400 tonnes per hour.

Container/Unit Load Facilities

Berth: length 600 ft. (183 m.); depth 34 ft. (10.4 m.); width 100 ft. (30.5 m.). Wharf deck: 126 ft.×60 ft. plus 2 ft. 6 in. breadth of permanent fender (38 m.×18 m. plus 0.8 m.); height above low water 28 ft. (8.5 m.) Crane: 25 tons (25.4 tonnes) capacity at 110 ft. (33.5 m.) radius.

STEVEDORES: As much notice as possible.

TANKERS: Berth at Breast Wharf. Load rate for bulk molasses 300 t.p.h. through 18 in. (46 cm.) dockline. 8 in. (20.3 cm.) (Caltex) dockline for white petroleum. 10 in. (25.4 cm) dockline (Mobil) for black petroleum products. 8 in. (20.3 cm.) dockline (CSR) for export of industrial alcohol. 4 in. (10.2 cm.) dockline (gas suppply) for import LPG.

DENSITY: Sea water.

FRESH WATER: Available all berths, rate of load 45 tons (45.7 tonnes) per hour.

FUEL: Available at Breast Wharf and North Pier Berth.

FIRE PRECAUTIONS: Normal requirements.

DEVELOPMENTS: 240,000 tonne extension to bulk sugar terminal to total capacity of 727,000 tonnes.

WATCHMEN: Not obligatory.

OPENING/CLOSING HATCHES: Normally by crew, but can be done by stevedores if required.

CARGO GEAR: See "Melbourne".

IDENTIFICATION CARDS: See "Melbourne".

REPAIRS: Small repairs can be carried out. Oxy-welding and electric welding plants, compressors and air tools available. Salvage divers available.

REPATRIATION: Facilities available.

AIRPORT: Daily service to Brisbane and thence to world-wide destinations.

TIME: GMT plus 10 hours.

HOLIDAYS: Bank holidays as for Brisbane, plus Waterside Workers' Picnic Day.

POLICE/AMBULANCE/FIRE: Police 572468, Fire 572244, Ambulance 572222.

TELEPHONES: Ships' extension telephones may be connected at all berths.

AUTHORITY: Mackay Harbour Board.

AGENT: Sub-agent of Patrick Agencies, Brisbane.

MARYBOROUGH, (incl. Urangan) Queensland:

25.18 S. 152.54 E. **(See Plan Book)**

PORT LIMITS: The area between the mainland and Great Sandy Island from a line joining Hook Point and the Eastern extremity of Inskip Point to the parallel of 25° 7′ S. latitude, including all rivers, creeks and navigable waters in the above named area.

APPROACHES: Via Hervey Bay and the Pearl Channel.

The width of the Channel to Urangan is 500 ft. (152.4 m.) and the Mary River 100 ft. (30.48 m.).

The depths of water at LWOST in this port and approaches are:

	Metres
Urangan Channel	5.18
Mary River	1.22
Sandy Straits	0.60

The swinging basin at Urangan has a width of 1,800 ft. (548.64 m.) and a depth of 27 ft. (8.23 m.).

The swinging basin in the Mary River at Maryborough has a width of 400 ft. (122 m.) and a depth of water of 30 ft. (9.14 m.).

DOCUMENTS: See "Melbourne".

PILOTAGE: Vessels requiring the services of a Pilot should advise the Harbour Master at least 24 hours before their expected time of arrival at the Fairway Buoy and also advise vessels draft.

Note: Pilots for the Sandy Straits are not available on Saturdays, Sundays or holidays unless the vessel is bound for Maryborough.

Pilots Boarding Ground is located off the Fairway Buoy, Hervey Bay and the distance therefrom to Urangan Jetty is 13 miles, and upriver to Maryborough 45 miles.

RESTRICTIONS: Tankers with highly inflammable liquids are not allowed to berth at Urangan in the hours of darkness.

MAX. SIZE: Max. draft of vessels that may enter the port are:

Urangan: HWOST 24 ft. (7.3 m.) and at LWOST 14 ft. (4.27 m.) allowing 3 ft. (1 m.) under keel.

Maryborough: HWOST 12 ft. 6 in. (3.8 m.) allowing 2 ft. (0.6 m.).

HEALTH: Pratique available 24 hours a day, 7 days a week.

TIDES: The mean Spring rise is 10 ft. (3.048 m.) at both Urangan and Maryborough, while the mean neap rise is 8 ft. (2.438 m.) at Urangan.

TUGS: Towage is not available at this port. Arrangements for tugs would need to be made in advance to allow steaming time from Bundaberg, the next nearest port.

BERTHING: The berths in the port number 2 in all, one (1) at Urangan and one (1) at Maryborough.

The jetty at Urangan is 26 miles by road from Maryborough.

The length of each berth and respective depth of water at LWOST are:

Urangan

(i) 1 Berth 390 ft. (118.87 m.) in length; depth of water 7.6 m. Max. length of vessel which can be accommodated is 560 ft. (170.69 m.).

Maryborough

(ii) 1 Berth – 120 ft. (36.576 m.) in length; depth of water 20 ft. (6.096 m.); Max. length of vessel which can be accommodated is 150 ft. (45.7 m.) approximately.

Wharf Use

The wharf at Urangan is a dual-purpose berth used as an oil tanker berth and general cargo berth. The oil tanker berth is used by Caltex Oil (Australia) Pty Limited.

Shed Accommodation

(i) Urangan Wharf Shed – 7,000 sq. ft. (650.3 sq.m.) approx.

(ii) Maryborough Wharf Shed – 4,000 sq. ft. (371.6 sq.m.) approx.

Wharf Cranes at Maryborough.

A 40-ton Sheerlegs at 27 ft. 6 in. (8.54 m.) radius at Walkers Shipyard Wharf.

Mobile Equipment

Urangan: Electric capstans are available to move rail trucks.

Maryborough: Mobile cranes are available for hire.

REPAIRS: Available.

FUEL: Oil bunkering is available at both Urangan and Maryborough.

FRESH WATER: Water is available at the Urangan Jetty and the Maryborough wharves at the rate of $0.75 per 1,000 gallons ($0.17 cents per 1,000 litres) (minimum charge $0.75).

CONSULS: None.

MEDICAL: The Hospital, situated at 185 Walker Street, Maryborough may be contacted on telephone number 21.2222.

POLICE/AMBULANCE/FIRE:

Fire Services

For emergency calls, dial "000" and ask the operator for the Fire Brigade. General enquiries should be directed to telephone number 21.2535. The Brigade Station is situated at 98 Lennox Street, Maryborough.

Police Services

For emergency calls, dial "000" and ask the operator for the Police. General enquiries should be directed to telephone number 21.2211. The Police Station is situated in Lennox Street, Maryborough.

Ambulance Services

For emergency services, dial "000" and ask the operator for the Ambulance. General enquiries should be directed to telephone number 21.2244. The Brigade is situated at 155 Neptune Street, Maryborough.

AUTHORITY: Dept. of Harbours & Marine, Brisbane.

AGENT: See "Brisbane".

MELBOURNE, Victoria (including Maribyrnong River, Holden Oil Dock, Port Melbourne, Williamstown, Yarraville):

37.50 S. 144.58 E. **(See Plan Book)**

PORT LIMITS: Vessels at anchor off Gellibrand Lighthouse are considered "arrived" for the purposes of priority of berthing.

DOCUMENTS:

	No. of copies required
Form M & S 11 (List of crew)	2
Form 42A (Store List)	1
Form 5 (Articles owned or in possession of Master, Officers or crew)	1
Form C & E 886 (Ports of call)	3
Form QA3 (Declaration of animals carried as cargo)	1
Form QA4 (Declaration of ship's pets)	1
Form QA5 (Shipmaster's Bond to cover ship's pets)	1
Form A Q360 (Health Report)	2

Of the above, Forms 42A and 5 need only be compiled at first port of call in Australia. Passenger — individual Passenger Cards are utilised therefore no list of passengers required. Agents require 7 copies of Manifest of cargo on board and at least 1 set copies Bills of Lading. These normally received by airfreight or airmail direct from Agents at loading port outside Australia therefore not necessary for Masters to be in possession of either Manifest of cargo on board or appropriate copies of Bills of Lading.

PILOTAGE: The Port Phillip Sea Pilot Service has been undergoing constant change since its inception. It is now anticipated that towards the end of 1979, there will no longer be a cruising pilot cutter on duty in the area around Port Phillip Heads. A shore based radar control station will be established, and in the immediate future Pilots will embark and disembark solely from fast launches.

The Pilot Boarding Ground for Port Phillip lies 3 – 5 miles Southwest of Point Lonsdale, and for Westernport 3 miles South of West Head.

The Control Station will be equipped with radio telephone and VHF, and will be manned at all times by a Master Pilot, maintaining a continuous watch on 2182 kHz and Channel 16 VHF.

The Master of a vessel requiring a Pilot is requested to advise the Pilot Service of her ETA at Port Phillip Heads or Westernport 24 hours before arrival, together with the vessel's deepest draft. Changes in the ETA of more than 1 hour should be amended immediately, and the final ETA confirmed 4 hours before arrival.

VHF Procedure:

Two hours prior to arrival at the boarding ground, VHF contact should be made on Channel 16 by calling "Port Phillip Sea Pilots". Please give position, course and speed; and ETA at Pilot Boarding Ground.

Following the initial contact a listening watch should then be kept on Channel 12 for any further instructions regarding boarding.

The pilot launch will make direct contact when abeam of Point Lonsdale or West Head outward bound, at which stage vessel will be requested to switch to Channel 13 in order to avoid interruptions from other stations during Pilot boarding.

Tides at Port Phillip Heads: (See cautionary notice on Charts AUS, 143 & 158).

In the entrance the tidal stream runs at its strongest at times of High and Low Water, and the ebb stream may at times exceed 9 knots. You will be required to be in a position WESTWARD of the tidal stream in the fairway when embarking a Pilot.

Low powered vessels and vessels of over 10.5 m. draft should indicate such condition in their first telegram/telex, as the time of their passage through the Port Phillip entrance may be governed by the tidal stream.

Requirements for embarkation of Pilots:

1. Make a *good lee* for the pilot launch with the wind and sea well abaft the beam on the weather side, and a speed of about 7 knots.
2. The pilot ladder (see plan) constructed and rigged in accordance with I.M.C.O. requirements (see Chapter V of SOLAS 1960 for pilot ladders, and Aust. D.O.T. Notice No. 12/1976). The ladder should be clean, properly fitted with spreaders, well clear of all discharges and outlets, and all outboard fittings which might foul the pilot launch. The bottom of the ladder should be 1.5 m. or 5 ft. above the water. The distance from the waterline to the point of access must not exceed 9 m.
3. Two clean *manila* manropes of not less than 24 mm. dia. and not more than 32 mm. dia. are to be securely made fast to the ship, and *must not* be made fast to the ladder at any point. The manropes must not be longer than the ladder.
4. Where the ladder is rigged over a bulwark, *two* stanchions are to be securely fitted in the top of the bulwark, one on each side of the ladder, and steps are to be provided from the top of the ladder to the deck.
5. A heaving line is to be provided for mail and the Pilot's bag.
6. By night a bright light is to be provided, shaded to show *downwards and forward* to clearly illuminate the ladder and the ship's side.
7. Tripping lines and boat ropes are *not* to be used.
8. An officer should be in attendance at the ladder, with life-saving appliances ready for immediate use.

Masters are urged to have all gear kept in first class condition, to have it inspected regularly, and to ensure always that the ladder and manropes are securely made fast. Serious accidents have occurred through inattention to these matters.

Should the gear and the manner in which it is rigged not be satisfactory, pilotage services may be withheld.

ANCHORAGE: Quarantine Anchorage: if, from Quarantine Regulations, Southerly gales, or other causes, it is necessary to anchor off Quarantine Station, a vessel drawing more than 20 ft. should anchor to Northward, with jetty bearing 195°, in depths of from 48 to 54 ft., from 3 to 6 cables off-shore; and at night in white sector of jetty light, visible from 126° through South to 195°, preferably with that light bearing 180°, and Point Lonsdale light bearing 280°.

Symonds Channel Anchorage: good anchorage clear of all fairways, in red sector of Low light, and well to windward of Southern shore in Northerlies, is to be had in the middle of Symonds Channel close to its Southern end. A good berth is in a depth of about 40 ft. with Queenscliff High Light bearing 286°, and No. 3 (Tuckey) West Channel in transit with Coles Channel Light. Queenscliff Anchorage: in anchoring off Queenscliff, care should be taken to keep clear of West Channel fairway by bringing up as near as possible to N.W. side of channel. A good berth in a depth of 38 ft. and in red sector of Low light, may be obtained with High Lighthouse bearing 284° distant half a mile, and fixed green light at Queenscliff South pier head bearing 336°.

Vessels awaiting berths in the Port of Melbourne are normally directed to anchor at Pilot's discretion South of Gellibrand light and clear of the Melbourne ship channel.

RESTRICTIONS: Mean Tidal Range is 0.50 m. and mean of all High Waters for 1977 was 0.82 m. Tide is used for the navigation of vessels having drafts in excess of those given in Column 4 of "Max. Size". For the navigation of channels, a minimum under keel clearance of 0.6 m. is required for vessels drawing up to and including 10.9 m. and a clearance of 0.9 m. for vessels having a draft between 10.9 m. and 12.2 m. Vessels over 183 m. in length. Pilots require 10% of maximum draft under keel clearance to navigate River Channel at all times, subject to draft restriction in Column 5 "Max. Size".

Tankers which are not gas-free or with cargoes which have a flashpoint of less than 150°F will not be navigated to or from river berths at night.

MAX. SIZE: See page 60.

PRATIQUE: All overseas vessels at first port of entry to Australia or at any subsequent ports, subject to quarantine until pratique granted or until vessel released from quarantine. If examinations and inspections satisfactory vessel granted pratique for all Australian ports, provided all on board have satisfactorily completed Certificate of Vaccination within last 3 years, or if vessel is 14 days or more from date of departure from last overseas port. A list of names and addresses of passengers also required at first port of entry. 24 hours quarantine clearance of overseas vessels available. Treatment of Crew members for illnesses other than quarantinable diseases arranged by private practitioners through ship's Agent.

Radio Pratique: Concession of radio pratique is to all vessels carrying surgeons, provided these officers medical graduates of a university. Following requirements to be met in the case of a vessel requiring radio pratique.

(a) (1) ETA.

(2) that individual inspection of all persons on board has been made by ship's surgeon within 24 hours of expected time of arrival and no cases of quarantinable diseases or varicella in an adult or coloured person, not associated with cases in children, then existed on board or had occurred or had been on board within previous 14 days: and

(3) that all members of crew currently satisfactorily vaccinated against smallpox (i.e. not less than 8 days nor more than 3 years previously in the case of revaccination) and a satisfactory Vaccination Register is kept on board;

(4) that all passengers over age of 12 months have been satisfactorily vaccinated against smallpox before embarkation and are in possession of current valid International Certificate of Vaccination against smallpox (i.e. all certificates duly authenticated, show that vaccination has taken place not less than 8 days nor more than 3 years previously in the case of primary vaccination and not more than 3 years previously in the case of revaccination) except those who before embarkation submitted a medical certificate stating that they have a medical disability which would make vaccination inadvisable and except those who before embarkation signed a statutory declaration stating that they object to vaccination on religious grounds.

(b) Commonwealth Director of Health will advise Master by wireless whether radio pratique is granted or not.

(c) A vessel granted radio pratique will fly "Q" flag by day and Quarantine signal by night and will on arrival at quarantine anchorage be boarded by Quarantine Officer with Immigration and Customs Officers. Quarantine Officer will inspect crew Vaccination Register and passenger manifest on which must be stated full name, address in Australia and vaccinal status of each passenger and will see cases of illness brought to notice by ship's surgeon, including all cases infectious disease and will receive Primary Health Report. If no cases of illness as referred in sub-paragraph *(a)* (2), Quarantine Officer will confirm radio pratique and issue Pratique Certificate for all ports. Master will not be required to submit Supplementary Health Report at subsequent ports. When pratique confirmed, "Q" flag may be lowered.

(d) Notwithstanding that pratique for all ports may have been granted, Master will still be responsible for reporting any case of infectious diseases which may subsequently occur whilst vessel in Australian waters.

Should a case of infectious disease (not being a quarantinable disease or varicella in an adult or coloured person not associated with cases in children) occur on board whilst vessel at sea in Australian waters Master will be required to advise by radio Commonwealth Director of Health for State in which next port situated, who will arrange for a Quarantine Officer to see case on arrival, Master will not be required to fill in a Supplementary Health Form and vessel will be permitted to proceed direct to berth without flying "Q" flag.

Should a case of suspected quarantinable disease or a case of varicella in an adult or coloured person occur on board whilst at sea in Australian waters, Master required radio details to Commonwealth Director of Health for State in which next port situated and await instructions. Commonwealth Director of Health will decide according to circumstances whether inspect vessel outside Quarantine Line or permit it to proceed to berth and will advise Master.

(e) Should it come to notice in any particular case that radio pratique has been granted as a result of a wireless message sent in accordance with sub-paragraph *(a)* whereas in fact wireless message contains false information, matter will be investigated thoroughly and reported to the Director General of Health who will decide whether radio pratique will be denied in future to vessels on which Master and the ship's surgeon hold responsibility.

RADIO: Melbourne Radio VIM.

A Shipping Control Centre referred to as "Harbour Control" is established on the southern side of Victoria Dock entrance. It is a two storied structure supported on a rectangular tower with an overall height of 39.6 m. Traffic signals are exhibited at a height of 36.6 m.

Movement of traffic within the Port of Melbourne is controlled by the Harbour Master through Control Officers operating from this Centre who direct all shipping movements in and out of the port, and co-ordinate all ancillary services connected with shipping movements on a 24 hour basis.

The radio call sign is "Harbour Control", and the following frequencies and channels are available—

156.3 mHz Channel	6	used generally for Interstate Shipping.
156.4 mHz Channel	8	pilots and tugs (continuous watch).
156.6 mHz Channel	12	working.
156.8 mHz Channel	16	calling (continuous watch).

When approaching the Port of Melbourne radio communication is made with "Harbour Control" initially on Channel 16 and then on a channel as directed for berthing instructions and information regarding the movement of other vessels. The Master of a vessel proceeding inwards shall not pass Gellibrand Pile Light until permission has been granted by Harbour Control. Breakwater Signal Station may be used as an alternative to communicating with "Harbour Control".

TUGS: Tugs attend for inward-bound vessels at or in vicinity of Gellibrand Light for vessels proceeding either up river or to Port Melbourne berths. On departure and should vessels require attendance down river, service terminated in vicinity of river entrance. Tugs present for service at any point required by Owner or Agent. Ships lines, or tug lines at charge of A$10.00. Crews of tugs will not accept wire tow line. Wire tow line with rope end of 5 or 6 fathoms acceptable, rope section being available for tugs towing hook.

MAX. SIZE: In the Port of Melbourne, draft and length limitations for navigation of vessels are determined by the Port Phillip Sea Pilots, and these divisions are outside the jurisdiction of the Port Authority, the Melbourne Harbour Trust Commissioners.

Particulars concerning maximum lengths and draft of vessels navigating by day and night to and from berths in the port.

Conversion of relative lengths and draft to feet;

Length	*Draft*
305 m. = 1,000 ft.	11.6 m. = 38 ft. 0 in.
289 m. = 950 ft.	11.3 m. = 37 ft. 1 in.
259 m. = 850 ft.	11.0 m. = 36 ft. 1 in.
253 m. = 830 ft.	10.6 m. = 34 ft. 9 in.
250 m. = 820 ft.	10.4 m. = 34 ft. 1 in.
228 m. = 750 ft.	10.2 m. = 33 ft. 6 in.
222 m. = 730 ft.	9.8 m. = 32 ft. 2 in.
213 m. = 700 ft.	9.7 m. = 31 ft. 10 in.
207 m. = 680 ft.	9.4 m. = 30 ft. 10 in.
198 m. = 650 ft.	9.1 m. = 29 ft. 10 in.
183 m. = 600 ft.	8.8 m. = 28 ft. 10 in.
178 m. = 585 ft.	8.5 m. = 27 ft. 11 in.
168 m. = 550 ft.	7.9 m. = 25 ft. 11 in.
152 m. = 500 ft.	7.7 m. = 25 ft. 3 in.
150 m. = 495 ft.	7.6 m. = 24 ft. 11 in.
144 m. = 472 ft.	7.3 m. = 23 ft. 11 in.
140 m. = 460 ft.	6.4 m. = 21 ft. 0 in.
137 m. = 450 ft.	0.6 m. = 2 ft. 0 in.
91.5 m. = 300 ft.	
26.5 m. = 87 ft.	

All vessels over 183 m. navigating the River and Webb Dock must have 10% of Draft under keel clearance. (Pilots' Requirement). Trust requires 0.6 m. under keel clearance at all times. Tidal readings may be applied to drafts shown in Columns 3 and 6.

All movements must be considered subject to weather conditions.

See also "Tankers".

CRANE: Self-propelled floating crane with 250 tonne capacity available.

STEVEDORES: ETA Advices: Firm ETA, if possible, before noon on previous day to arrival. If not possible no later than 1500 hrs. on day previous to arrival.

MEDICAL: No advance notice necessary for medical attention required on vessel's arrival. All hospital facilities available. No inoculations required for vessels coming to Australia but Master should possess International Health Cards for each member of crew.

TANKERS: Holden Oil Dock at Yarraville suitable for tankers up to 183 m. length, draft 9.4 m.

Williamstown: Gellibrand Pier, depth alongside 39 ft. can accommodate tankers up to 290 m. length. Discharge via Chiksan arms.

Breakwater Pier, depth alongside 39 ft. accepting tankers up to 740 ft. length.

Maribyrnong: No. 1 berth, depth 9.1 m. can accommodate tankers up to 178 m. length. Petrochemical and molasses berth, depth alongside 9.1 m.

Ballast: Slop facilities only at Holden Oil Dock.

DENSITY: 1,000.

FRESH WATER: Water available at wharf face at 100 ft. intervals. Rate 50–100 t.p.h.

FUEL: 24 hours notice required. All grades 1–1500 secs. Rl. Marine Diesel. Light Marine Diesel. Gas Oil 34 sec. Red No. 100F. Bunker Fuel 600 sec. Red No. 100F. Light Diesel 37 sec. Red No. 100F.

At Gellibrand and Breakwater Piers. Min. notice 48 hours; prefer notice 4–5 days.

Tanker fuel oil 450 SSF at 122° F. Volume – unlimited if 4 to 5 days notice given.

FIRE PRECAUTIONS: Copy of Handbook "Emergency Action" is handed to Master of tankers together with booklet "Advice to Masters" printed in eleven languages.

DEVELOPMENTS: Lower Yarra Crossing: New bridge with clearance of 169 ft. under construction, on completion vessels with a draft of 12.2 m. and length of 289 m. will be able to navigate the river 24 hours a day.

Improvements: The Port of Melbourne Authority is currently engaged in an A.$38 million improvement project. Three docks are involved in the plan: No. 16 Victoria dock, No. 3 East Swanson dock and No. 5 Webb dock. At Victoria dock, the A.$11.8 million project will turn the berth into general purpose facility with a gantry crane and five hectares of paved back-up area. A.$16.2 million is allocated to No. 3 East Swanson dock and will provide an extension of the dock itself, together with an additional 4 hectares of common user space. No. 5 Webb dock will be converted into a ro-ro facility which will cost an estimated A.$10 million. All of the work is scheduled for completion by September 1981.

GANGWAY WATCHMEN: Shore/Gangway Watchman compulsory.

OPENING/CLOSING HATCHES: Normally carried out by Stevedores. Ship's crew may if required by vessel to do so. Crew may close hatches prior to sailing; but if Stevedores instructed to do so, they then claim right to finish, unless ship sails before completion of work.

SHIP CERTIFICATES: Register – showing vessel's name, port of registry, gross and nett tonnages and Owner. Loadline Certificate which must be current. Safety Radio Certificate. Safety Equipment Certificate. Light dues receipt, ship's Articles (British), Clearance from previous port.

CUSTOMS ALLOWANCES: 200 cigarettes in an opened carton *or* 0.5 lb. cigars *or* 0.5 lb. tobacco. 1 bottle spirits (opened).

CARGO GEAR: This must comply with Australian Regulations, as issued by the Ministry of Shipping and Transport.

When working cargo with ship's gear, certificates should be available to attest to identification and good condition of all such gear. If vessel on first visit to Australia and certificates not available, a declaration by Master will be accepted provided gear in order. On subsequent visits certificates and identification of each item of gear must be readily produced.

IDENTITY CARDS: Not required to be carried by crew going ashore in Australia. However, Section 23 of the Migration Act 1958/1964 provides that Masters of vessels entering Australia from overseas shall have in their possession an identity card in an approved form for each member of crew. These provisions included in the Act to ensure positive identification available to departmental officers should any Seaman, not being an Australian citizen, desert vessel. Should vessel arrive Australia without required Seamen's identification cards. Seamen unable to go ashore until photographer called to vessel order photograph each crew member, and identification cards completed.

Following nationalities need not complete identification card required under Migration Act provided Crew members in possession of relevant Seamen's identity certificates/discharge book; Canada, Denmark, Fiji, Ghana, Hong Kong, India, Israel, Italy, Japan, Malaysia, Norway, South Africa, South Korea, Pakistan, United Kingdom.

Masters of vessels, Australians and New Zealanders are not required to have such an Identification Card.

Masters are reminded that Crew members' travel documents and Commonwealth of Australian Forms M.315, where applicable, are to be retained in the custody of the Master at all times, and are to be produced to Customs Boarding Officers upon demand.

CONSULS: The following countries are represented by consuls at Melbourne:

Belgium
Brazil
Chile
China
Denmark
Dominican Rep.
Ecuador
Finland
France
Germany
Greece
Honduras
Iceland
Italy
Japan
Mexico
Netherlands
Norway
Panama
Peru
Philippines
Portugal
Spain
Sweden
Switzerland
Thailand
U.S.A.
Uruguay
Venezuela

REPAIRS: All major repairs possible.

DRYDOCKS: Three. Largest Dock is a floating dock 156 m. × 24 m.

REPATRIATION: All facilities available for effecting crew changes and repatriation – namely sea, air and rail.

HOLIDAYS: Sunday, Christmas Day, Good Friday, Labour Day, Picnic Day, Anzac Day: with exception of Sunday are regarded as "close holidays" and waterside workers cannot be required to work on these days. Only work of special nature performed on these days by agreement.

Following ordinary holidays observed: Boxing Day, New Year's Day, Australia Day, Easter Monday, Queen's Birthday, Melbourne Cup Day.

On Boxing Day and New Year's Day, waterside workers will work on following classes of vessels only, namely:

(a) Passenger ships to sail on schedule.
(b) Ships to finish and sail before next pick-up of labour.
(c) Ships which in opinion of local Board of Reference, should be declared "Urgent Vessels".
(d) Marine casualties.

On remaining ordinary holidays work performed if required by an employer. Work performed on holidays subject premium rates of pay.

POLICE/AMBULANCE/FIRE: Fire, Ambulance, Security – Port Emergency Service. Tel. 61-2861 or, by VHF Radio Channel 16 "Melbourne Port Emergency".

TELEPHONES: Telephone can be placed aboard at all berths. Charge 90 cents per quarter day includes service charge and local calls. Trunk calls cannot be made from shipboard phones.

SERVICES: Tank cleaning. Compass adjusters available.

SHORE LEAVE: Crew allowed ashore. Visitors to ship after dark require permit issued by Master. No passport required while ashore.

SHIPMASTER'S REPORT: August 1980.

Pilotage: Care should be taken that the man-ropes are not fastened to the bottom of the pilot ladder and that the lower ends have no knots in them, rigging and man-ropes should not be made of synthetic fabric.

Quarantine: 24 hours before arrival, Agents should present the Department of Health with the answers to the following questionnaire:

a. Name, type and nationality of vessel.
b. Itinerary for last 15 days. If over 15 days give name of ports and date of departure.
c. Name of first Australian port and ETA.
d. Number of crew.
e. Number of passengers.
f. Have you had cases of illness accompanied by a temperature of 38°C or above for more than 2 days or accompanied by rash, jaundice or glandular swelling during voyage?
g. Have you had any deaths on the voyage? If so please give details.
h. Have you had cases of illness including diarrhoea sufficiently severe to interfere with normal work or activity during the voyage?
i. Have you had persons suffering from venereal disease during the voyage?
j. What live fish, birds, reptiles or other animals are you carrying? Ship's pets should be mentioned.
k. Have you carried livestock on previous voyages in the last 6 months? If yes, please advise type of livestock, date of voyage and ports visited. Have all stock-carrying compartments been thoroughly cleaned and disinfected?
l. Do you request approval to berth?

Stevedores: Three shifts.

Weekdays:	day	0730–1430 hrs.
	twilight	1430–2130 hrs.
	midnight	0000–0700 hrs.
Saturday		0730–1130 hrs.
Saturday/twilight		nil
Saturday/night		nil
Sunday		0730–1430 hrs.
Sunday/twilight		1430–2130 hrs.
Sunday/night		0000–0700 hrs.

Labour Allocation (ordering):

Weekdays	noon previous day
Saturday	1000 hrs. Friday
Sunday	0900 hrs. Friday

Developments: Lower Yarra New Bridge completed, no restriction for bridge, clearance 50.8 m., name Westgate Bridge.

AUTHORITY: Port of Melbourne Authority.

AGENTS: Patrick Agencies, Box 4329 GPO, 8/12 Market Street, Melbourne, Victoria, 3001. Cables: "Rikpat". Tel. 61–2941. Telex. AA. 30456. After hours Tel. 61–2941.

NEWCASTLE, N.S.W.: 32.56 S. 151.47 E.

(See Plan Book)

PORT LIMITS: The port limits are at the entrance between the end of the breakwater. New charter parties accept vessel off the port.

DOCUMENTS: See "Melbourne".

PILOTAGE: As much notice as possible through Maritime Radio, Sydney (VIS), amending 2 hours prior arrival. Amendment through Channel 16 VHF, to Harbour Control. Telegraphic address "Marboard". Pilot vessel painted high-visibility orange, "Pilots" on deck-house in black paint. Boarding ground on side East of entrance. A good lee, speed 3-5 knots, no boatrope, ladder 8 ft. above water with manropes.

ANCHORAGE: No good anchorages off port. A restricted anchorage exists immediately off entrance. No anchorages within the port.

RESTRICTIONS: Entrance channel dredged to 11 m. ISLW. – a minimum keel clearance of 10% draft required. Certain berths within port may only be worked during slack water or early ebb tide.

MAX. SIZE: Max. d.w.t. for bulk cargo vessels 65,000. Max. length of 800 ft., no beam restriction, draft up to 38 ft. ISLW. Vessels over 700 ft. navigated in daylight only (inward).

HEALTH: Refer to "Melbourne".
RADIO: All radio messages through Sydney (VIS).
RADAR/VHF: No port radar. VHF Channels 16, 13, 12, 4. Pilot has own set. Also see "Sydney-VHF".
TUGS: Tugs usually come alongside shortly after entering breakwater. Ship's lines for towing lines, tug's lines for tugs alongside.
BERTHING: See "Restrictions".

Thirty berths with lengths from 500 ft. to 2,025 ft. Depths alongside up to 38 ft.

New Cargo Berth suitable for unit and limited container traffic, depth alongside 36 ft. ISLW.

New grain berth with 4 loading heads can accommodate vessels up to 800 ft. length. Depth alongside 38 ft.

There is a Ro/Ro berth in the Western Basin.

BULK HANDLING FACILITIES: Coal Basin berth numbers 1 and 2 loading capacity 2,000 t.p.h.

Dyke Coal Loader: loading capacity 600 t.p.h.

Western Basin: Berth number 3, bulk wheat loading.

Kooragang Island Bulk berth: two gantry cranes each of 10 tons capacity. Grab unloading 650 t.p.h.

Grain – No. 3 Western Basin – four 1,000 t.p.h. loading heads.

Coal – No. 1 Basin Coal Loader – two 1,000 t.p.h. heads and Steelworks Channel Loader – 2 heads 2,000 t.p.h.

Iron and Limestone – BHP No. 5 berth – 3 ore bridges with 10 to 20 ton grabs.

Bulk Berth – two 650 t.p.h. bulk unloaders used for phosphate, sulphur, alumina, petroleum coke and cement clinker.

Containers – 1 general cargo berth, No. 1 Throsby, fitted with 26-ton luffing crane. 30 ton Portainer at West Basin.

Liquid Chemicals and LPG – now use Bulk Berth, Kooragang. Will use new Bulk Liquid Berth, Kooragang which is under construction.

New coal loader with a capacity of 10,000,000 tons annually constructed. The existing coal loader will continue operation. Nos. 4 and 5 Dyke berth used for coal vessels. No. 4 waiting berth. No. 5 loading berth. 2 heads, each 2,000 t.p.h. Also see "Shipmasters Report".

MEDICAL: All hospital facilities available.
TANKERS: One tanker berth – 33 ft. depth water alongside, 600 ft. in length.
DENSITY: Density varies considerably throughout port, with particular reference to upstream rains.
FRESH WATER: Available all berths, 4–15 t.p.h. delivery, dependent on other demands.
FUEL: Normal bunkering available by either road or barge, or pipe-line at inflammable liquids wharf.
FIRE PRECAUTIONS: Written notice to Fire Brigade for tankers.
DEVELOPMENTS: New bulk liquids berth built at Kooragang Island.

Coal loading facilities to be updated.

GANGWAY/DECK WATCHMEN: Services of watchmen available and recommended ($1.50 hourly average).
OPENING/CLOSING HATCHES: Dependent on type of cargo and hatch (coal, wheat, ship's crews closing hatches).
CERTIFICATES AND CUSTOMS ALLOWANCES: See "Melbourne".
CARGO GEAR: No additional other than wire preventers to derrick heads if rope guys used. Also see "Melbourne".
CREW I.D. CARDS: See "Melbourne".
CONSULS: The following countries are represented at Newcastle: Belgium, France, Netherlands, Norway and Sweden.
REPAIRS: Most deck and engine repairs.
DRY DOCK: One floating dock, Government managed, 630 ft. length and 82 ft. beam. Capacity about 9,000 tons.
REPATRIATION: Normal facilities available.
AIRPORTS: Two, roughly 7 miles from city. Several flights daily to Sydney.
TIME: GMT plus 10 hours. Clocks advanced 1 hour between October and February.
HOLIDAYS: Christmas Day; Good Friday; Labour Day; Picnic Day; Anzac Day are regarded as close holidays and waterside workers cannot be required to be worked on these days. On Boxing Day, New Year's Day, waterside workers will work on following classes of vessel only;

(a) Passenger ships to sail on schedule; *(b)* ships to finish and sail before next pick-up of labour; *(c)* marine casualties; *(d)* other vessels which are agreed between employer and WWF branch officials in the port concerned; if there is no agreement on a port basis, agreement as to any such ships, to be reached at Federal level.

On remaining ordinary holidays, work performed as required by an employer. Work performed on holidays subject to premium rates of pay. No Saturday afternoon work unless vessel is proceeding to sea.

POLICE/AMBULANCE/FIRE: Dial "000" for Emergency.
TELEPHONES: Available at all working berths. Costs 50 cents daily plus cost of calls plus 30 cents booking fee.
SERVICES: Compass adjusters and surveyors available.
DELAYS: Waiting for coal berths occasionally, usually no wait for general cargo wharves.
SHIPMASTER'S REPORT: 1978.

New Coal Berth No. 5.

Air draft 61 ft., entering with slack water – by day only. Sailing with the tide – night and day.

Harbour control: VHF Channel 13.

Anchorage: liable to the weather – attention to be paid to the Easterly, South Easterly and Southerly winds which can suddenly blow strongly within 1 hour's time. Best anchorage: 108°, two miles from South breakwater. Not recommended to anchor North of Latitude 32° 55′ South.

AUTHORITY: Maritime Services Board of New South Wales.

AGENT: Patrick Agencies, 78 Hannell Street, (P.O.B. 95), Wickham, Newcastle, N.S.W. 2293. Telephone: 69.2955. Telex: 28192. Cables: "Rikpat Newcastle NSW".

PORT AUGUSTA, S.A.: 32.29 S. 137.46 E.

CERTIFICATES/DOCUMENTS/HEALTH: See "Melbourne".
PILOTAGE: One mile N.W. of Eastern Shoal North Beacon. The regulation pilot ladder secured four steps up from water and manropes are required. Boat ropes not required.
RESTRICTIONS: 16 ft. low water. Min. 2 ft. under keel. No navigation at night. Max. length 450 ft. overall. Tug required for vessels 410 ft. and over.
TUGS: From Port Pirie or Whyalla.
BERTHING:

No. 1	South	370 ft.	Depth	20 ft.
No. 2	Centre	400 ft.	,,	20 ft.
No. 3	North	420 ft.	,,	18 ft.

Total length of wharf 1,190 ft.

FRESH WATER: 10 t.p.h.
REPAIRS: Minor repairs only.
TIME: GMT plus 9.5 hours.
TELEPHONE: Police 42–3000; Fire Brigade 42–2000; Hospital 42–2011.

AGENT: See "Adelaide".

PORT GILES, S.A.: 35.02 S. 137.46 E.

On Western shore of Gulf of St. Vincent, 36 miles S.W. direction from Port Adelaide. For entry formalities not listed below, see "Adelaide".
PILOTAGE: Compulsory. If vessel on first entry to Australia, pratique and surveys are carried out at Semaphore anchorage, Port Adelaide, where Pilot will board.

If proceeding direct to Port Giles, 12 hours' notice required to Dept. of Marine and Harbours, Port Adelaide. Pilot boarding station is at Northern end of Troubridge shoal, about 1 mile West of MacDonnell Sound Light Beacon.

ANCHORAGE: MacDonnell Sound, 7 miles from berth. Also see "Pilotage".
MAX. SIZE: Vessels up to 40,000 d.w.t. able to load fully and depart at lowest tide. Normal limit to length of vessel 675 ft. (206 m.), beam 130 ft. (40 m.).
VHF: VHF radio telephone.
TUGS: None. Mooring launch available, but if tugs required, must be obtained from Port Adelaide.
BERTHING: The new jetty, about 1.5 miles North of Giles Point, reaches out from the shore some 2,000 ft. (610 m.) to the seaward end dolphin. The ship's berth has a depth of 38 ft. (11.6 m.) below low water over a length of 840 ft. (260 m.). Grain transported from Silos to ship's side by conventional belt conveyor capable of handling 800 tonnes an hour. Alongside ship, elevated gallery with five swivelling and telescopic booms feeds grain into any hold without movement of ship along berth. Each boom has a max. load rate of 400 tonnes an hour so that at least two must be used to achieve full ship loading rate.
FRESH WATER: Available.
FUEL/REPAIRS: None.
TELEPHONES: Available on berth.
TIDES: Mean high water springs 6.6 ft. (2 m.), mean high water neaps 4.0 ft. (1.2 m.) (Edithburgh).
AUTHORITY: Department of Marine and Harbours, Adelaide.

AGENT: Sub-agent of Patrick Agencies, Adelaide.

PORT HEDLAND, W.A.: 20.18 S. 118.35 E.

(See Plan Book)

PORT LIMITS: An arc of a circle of 10 miles radius with centre at Hunt Point Beacon.
APPROACHES: Port Hedland, entered between Airey Point (Lat. 20° 18′ S. Long. 118° 35′ E.) and Hunt Point, about 3.25 cables N.N.W., is a secure harbour with dredged Channel giving a depth of 11.8 m. below datum, a turning basin with a depth of 8.2 m. below datum. The Channel extends some 7.75 miles seaward from the turning basin and is defined by beacons, buoys and leading marks.

The most conspicuous object in daylight is the Crushing Plant owned by the Mt. Newman Mining Company. This plant is 47.24 m. above sea level, and is of oblong shape, situated 095° (T) by 1,383.74 m. from the Shipping Control Tower at Lat. 20° 19′ S. Long. 118° 34′ 50″ E. Cooke Point, which terminates in black, steep-faced rock, is sharply defined. Finucane Island water tank, 5 cables W.N.W. of Hunt Point, is also conspicuous.

Shipmaster's Report: Proceeding from Kobe, the vessel passed 10 miles East of Imperieuse Reef L.H. thence to position 7 miles North of Bedout Island L.H. From there the track printed on the Australian charts was followed until the Sea buoys were picked up. From Bedout Is. the Decca was found to be fairly reliable improving as we neared the land.

The buoyage system is as follows:

Name or No. of Buoy	Position	Type	Inwards Pass
Cornelisse Shoal Buoy	20° 02′ 10″ S 118° 22′ 51″ E	Conical GP.Fl.(3) 9 sec.	Stbd. Hand
C.1	19° 59′ 58″ S 118° 25′ 45″ E	Conical Fl.3 sec.	Stbd. Hand
C.2	20° 02′ 24″ S 118° 25′ 07″ E	Can Fl.R.ev. 5 sec.	Port Hand
C.3	20° 04′ 36″ S 118° 25′ 32″ E	Can Gp.Fl.R (4) ev. 12 sec.	Port Hand
C.4	20° 06′ 33″ S 118° 28′ 02″ E	Conical Fl.2.5 sec.	Stbd. Hand
C.5	20° 10′ 29″ S 118° 30′ 36″ E	Can Fl.R.5 sec.	Port Hand
C.6	20° 11′ 32″ S 118° 31′ 11″ E	Sarus Tower Fl.R. 10 sec.	Port Hand

Charts L (D4) Aus. 53 and L (D4) Aus. 739 are Decca lattice charts.

Cooke Pt. Lt. is exhibited from position Lat. 20° 18′ 16″ S., Long. 118° 37′ 52″ E., Gp.Fl.(3) ev. 15 sec. 37 m. high. Visible for 17 miles.

Port Hedland is entered between Airey Pt. (Lat. 20° 182 S., Long. 118° 35′ E.) and Hunt Pt. 3.25 cables N.N.W. It has a dredged channel with a depth of 11.8 m. below datum (the datum was lowered by 1.0 m. in 1975), a turning basin with a depth of 8.2 m. below datum. The channel extends for 7.75 miles to seaward from the turning basin and is well marked by buoys. The limits of the port are defined as: "all that piece of water within a radius of 10 miles off Hunt Pt. Beacon (No. 29)". Numerous shoals exist either side of the approach channel.

At the entrance to Newman Channel is No. 8 buoy, (No. 7 buoy is now non-existent). A pair of Beacons No. 9 and No. 10 showing red and green lights respectively also mark the entrance to the channel. The Pilot boards in this vicinity.

Cornelisse Buoy is fitted with a radar reflector and marks. "Cornelisse Shoal", has been known to shift from its position and should be passed well to the Eastward.

The buoy known as "Spoil Ground Buoy" is in a position 357° True, 5.4 miles from Finucane Is. Water Tower and in conjunction with No. 6 buoy marks the Southern end of the anchorage. Vessels should anchor North of the line joining these two buoys. The bottom is sandy, but the holding ground reported good.

Vessels should call Broome Radio for emergency Notices to Mariners affecting Port Hedland approaches.

Vessels inward bound may encounter vessels outward bound displaying signals for deep drafted vessels, showing that they must keep to the buoyed tracks.

DOCUMENTS:

2 Copies Health Report Q360 for Quarantine Office to be accompanied by Crew List showing Vaccination dates.

1 Copy Store List Form 42A. All narcotics and restricted drugs to be identified by type, size and quantity. Report is to include lifeboat kits.

1 List Crew Possessions. Form 5 including Declaration Sheet. In declaring goods, quantity, description and value to be stated. In the case of all watches, radios, cameras, binoculars and the like, maker's name or brand and serial numbers must be shown.

1 Crew List. Form M & S 11. Comprised White Cover Sheet, 2 copies plus Green Listing Sheet, 2 copies.

1 List Ship's Pets. QA4. If any pets, including any animal, bird or fish on board to be accompanied by 1 pink QA5.

5 Copies Crew List. Company type. (Customs 3, G.M.L. 1 and Agent 1).

Identification Card. Form M315. One per crew member, except as detailed below.

With reference to Seamen's Identification Cards, a Passport size photograph of the seamen is sufficient. A side-face photograph is not required. Seamen in possession of the following National travel documents are no longer required to have an Identification Card in Commonwealth of Australia Form M315.

Canada	Passport or Seaman's Identity Certificate
Chile	Passport or Seaman's Book
Denmark	Seaman's Book
Egypt, Arab Rep. of	Passport or Seaman's Book
Fiji	Passport or Seaman's Certificate of Nationality and Identity
Ghana	Passport or Seaman's Certificate of Nationality and Identity
Hong Kong	Seaman's Identity Book
India	Seaman's Identity Book
Iran	Passport or Seaman's Identity Card.
Israel	Seaman's Book
Italy	Libretto de Navigaziona
Japan	Mariners Pocket Ledger
Kenya	Passport or Seaman's Identification Certificate
Lebanon	Passport or Seaman's Identification Certificate
Malaysia	Passport or Seaman's Identity Card
Malta	Discharge Book
Nauru	Seaman's Document of Identity
New Zealand	Identity Book
Norway	Seaman's Document of Identity
Pakistan	Seaman's Identity Card or Continuous Discharge Certificate
South Africa	Seaman's Record Book and Certificate of Discharge or Seaman's Identity Certificate or Certificate of Naturalization or Identity
South Korea	Seaman's Certificate Book
Taiwan	Passport or Seaman's Book
Tanzania	Passport or Seaman's Book
United Kingdom*	Passport or Seaman's Record Book and Certificate of Discharge

*United Kingdom Passports may be held for surrender only if grantee is agreeable, otherwise an Australian Identification Card must be available.

Masters are reminded that crew members' travel documents and Commonwealth of Australia Forms M315, where applicable, are to be retained in the custody of the Master at all times and are to be produced to Customs Boarding Officers upon demand.

PILOTAGE: Pilotage is under the control of the Harbour Master and is compulsory for all overseas vessels and for Australian vessels over 6,500 g.r.t. Pilots will board vessels either by helicopter or pilot boat.

Pilot boarding by helicopter:

Requirements: (Unrestricted Operations). Allows for a beam approach and departure and landing either athwartships or fore and aft by both day or night.

1. *Touchdown Area:* An area of 4.65 m. diam. minimum or having sides not less than 4.65 m. Lateral or longitudinal slope not exceeding 1:8. No projection likely to cause damage to or restrict horizontal movement of the floats.
2. *Termination Area:* A surface of 10.15 m. diam. minimum, concentric with the Touchdown Area, which provides ground effect for the helicopter rotor system.
3. *Obstruction Free Area:* (Day) – An area of 19 m. diam. minimum concentric with the Termination Area, within which there is no projection extending more than 0.5 m. above the level of the Touchdown Area.

   (Night) – At night the Obstruction Free Area shall be 31.5 m. diam. minimum.

The approach paths to the helipad and across both sides of the ship shall be free of obstructions above hatchtop level.

At night the hatch must be well illuminated and all obstacles clearly visible.

At night a flag or pennant must be illuminated so the helicopter pilot can see the wind direction.

All crew members should be kept clear of the landing area and should not attempt to approach the helicopter unless requested to do so. When the Pilot has disembarked an officer should be available to guide the Pilot to the bridge.

Boarding by pilot vessel:

It is most important that a lee be given to allow the Pilot to board, whether the vessel be under way or at anchor. In the latter case with the anchor still down, a steady ahead movement on the engines with the helm hard over usually affords the necessary lee. Failure by the Master to afford a lee may result in the Pilot being unable to board, with consequent delay.

Vessels will be advised of Pilot Boarding and in the interest of expediency whenever required, vessels should be under way before the Pilot boards. Pilot ladders should be clean and properly constructed, fitted with spreaders to prevent turning and spacing pieces to maintain treads in a horizontal position. Manropes of 3 in. Manila should be rigged on each side of ladder and the full length thereof.

Where pilot ladders are led over bulwarks, suitable stanchions should be rigged and steps provided inboard. In addition to cleanliness of the pilot ladder on arrival, *the gangway or accommodation ladder must be washed down after completion of loading,* before the Pilot boards for departure.

Unless the ladder is satisfactorily washed down and free of ore dust, Pilot may refuse to board with resultant loss of time and expense until ladder is washed down to Pilot's satisfaction. Failure by Masters to comply with these requirements in the past in Australian ports has resulted in delays and off-hire situations in the case of time chartered vessels, heavy fines for the Master plus court costs and substantial compensation for the injured against the owners.

A boat rope is not required at this port.

Shipmaster's Report: There are well defined instructions for ships embarking Pilots by helicopter by day or night, however, the Pilot said that our ship was unsuitable for this operation owing to our corrugated hatch tops.

Boarding by boat, the Pilot requires a good lee at all times. Anchored vessels taking a Pilot should get underway before the Pilot boards.

ANCHORAGE: Vessels should anchor North of a line between Spoil Ground Buoy (flash red every 20 seconds) and No. C 6, as the area immediately North of this line is the Pilot boarding area. The bottom is sandy but the holding ground reported to be good.

A prohibited anchorage exists, bounded as follows: From No. 15 buoy (20° 14′ 46″ S. 118° 34′ 00″ E.) 309° 1.63 miles, thence 046° 2.00 miles, thence 180° 2.31 miles to No. 16 Beacon (Lat. 20° 14′ 4″ S. Long. 118° 34′ 00″ E.).

RESTRICTIONS: All Channels from seaward as far as the Swinging Basin are dredged to 11.8 m. below datum, and 183 m. wide in the straight sections, widening to 244 m. on curves. The N.W. section of Swinging Basin is dredged to 8.2 m. below datum. Total width of Basin is 600 m. Also see "Berthing".

MAX. SIZE: Max. size vessels entered: Length 1,030 ft. 183,526 M/T (d.w.t.) Draft 16.76 m. Vessels over 282 m. are handled at night. Subject to certain restrictions.

The official scale of keel clearances required for Port Hedland is as follows:

Draft of vessel	*Clearance inside harbour*	*Clearance outside harbour*
Up to 12.3 m.	1.0 m.	1.2 m.
12.3 to 12.5 m.	1.2 m.	1.5 m.
12.5 to 13.1 m.	1.2 m.	1.8 m.
13.1 m. and over	1.2 m.	2.0 m.

Arrival Draft: The Harbour Master has instructed that vessels arriving at Port Hedland should trim to 5.18 m. forward, and 6.41 m. aft for 50,000 tonners, increasing to 7.32 m. forward and 7.93 m. aft fo

100,000 tonners. Other vessels should retain max. ballast and advise their draft to the Harbour Master, 24 hrs. prior to arrival.

PRATIQUE: The Quarantine Officer will board by the gangway which should be turned out and rigged ready for lowering prior to entering the harbour. Vessels should show the appropriate pratique signals whether by day or night. Only in exceptional cases at the convenience of the Health Department will vessels be boarded by the Quarantine Officer to seaward of Hunt Point. The Quarantine Officer will inspect the crew on arrival at the berth.

Vessels may be cleared at any time during the day or night subject to the Quarantine Officer being available and willing to do the clearance, and providing the Master forwards a radio message not more than 24 hrs. before arrival giving following details.

(a) The expected hour and date of arrival of the vessel.

(b) Confirmation that the Master has individually inspected all on board within 24 hours of arrival and that there are no cases of febrile illness (high temperature or fever) or skin rashes on board.

(c) Particulars of any cases of illness on board.

(d) Confirmation that all persons on board are satisfactorily vaccinated against smallpox (i.e. vaccinated not less than eight days and not more than three years previously in the case of primary vaccination and not more than three years previously in the case of revaccination). A vaccination register, signed by the Master or individual international certificates for all crew members, must be retained on board, and all passengers should have International Certificates of Vaccination.

Vessels may proceed direct to the berth to await clearance there, subject to the requirements specified above, and providing that adequate security is provided to ensure that there is no contact between ship and shore prior to the granting of pratique. Under no circumstances must anybody be permitted to leave the vessel and have contact with shore until the vessel has been granted pratique. This also includes the Pilot. There is no objection to the Pilot, Customs and Immigration Officers boarding the vessel before the Quarantine Officer, providing they remain on board until pratique is granted.

If the Quarantine Officer is not available because of medical emergencies ashore, the vessel may be permitted to go alongside and commence loading, providing there is no physical contact between any person on the ship with the shore, until pratique is granted, excepting the special provisions made in the preceding paragraph. Rat guards are required on all mooring lines.

RADIO/VHF: Vessels trading Japan to Port Hedland use Sydney, Darwin and Broome Radio Stations. There is no Radio Station in Port Hedland. Broome Radio transmits navigation warnings including alterations to buoy positions in the approach to Port Hedland.

Vessels bound for Port Hedland should advise the Harbour Master 48 hours and 24 hours before their arrival, indicating their draft, fore and aft, and last port (Address: Harbour Master, Telex No. AA 99213, Port Hedland. If telex number not included messages may be delayed). A continuous watch is kept in the Port Shipping Control Tower, which is fitted with VHF, and vessels should call "Port Hedland Harbour" on Channel 16, 2 hours before arrival at anchorage to confirm their ETA and in order that they may be kept acquainted with berthing instructions and the movement of other vessels. The Tower will also assist ships by giving them their bearing and distance by radar from the Tower. No ship may enter the dredged channel or depart from any berth without permission from Port Control. Signals will be exhibited from the Tower at night to indicate if the port is closed and the state of the tide. The height of tide is no longer indicated, but such information is available and will be transmitted to vessels by VHF or Aldis upon request.

Vessels equipped with VHF should guard Channel 16 (156.8 Mc/s) when in range of Port Hedland, and also whilst at anchor. This channel is in direct communication 24 hours a day with Port Control (call sign "Port Hedland Harbour") and will avoid superfluous launch trips to advise Masters of changing conditions. Visual signals may be used in addition to a constant VHF watch. Should the Master of a vessel at anchor wish to communicate by VHF with another vessel, then he must first advise "Port Hedland Harbour" who will allot him a working channel.

TUGS: Six tugs, each of 2,400 h.p., are available. Line-running launches and ferries are also available. Two small tugs of about 350 h.p. are also available.

BERTHING: (Due to the tidal range and strength of current, ships over 20,000 d.w.t. do not sail on the ebb tide). Vessels usually berth close to low or high slack water.

Note: As a general rule –

(a) Vessels of less than 20,000 tonnes d.w.t. may sail on an ebb tide with range of less than 4.9 m.

(b) Vessels of less than 10,000 tonnes d.w.t. may sail on an ebb tide with range of less than 5.8 m.

(c) Vessels of less than 5,000 tonnes d.w.t. may sail at any time.

Goldsworthy Pier: This is situated on the Western side of the Harbour on Finucane Island, and lies S.W. of Hunt Point Beacon (No. 29). The face of the jetty extends over a distance of 177 m. and lies in the line 017°–197° (T) and consists of six breasting dolphins, each of which has a floating fender unit. There are two dolphins ahead and astern of the jetty to facilitate the mooring of vessels. These dolphins are set back from the line of the berth face and have no fenders.

The distance from the No. 1 or North Dolphin to the No. 10 or South Dolphin is a total of 378 m. and the dredged mooring basin 366 m. long, 61 m. wide, has a depth of 15.85 m. below datum. The shiploader has an overall length of travel of 180 m. and a max. capacity of 4,500 t.p.h.

Fresh water and fuel are not available at this berth.

Vessels will normally berth port side to, heading out to sea. Ship's gangways should be rigged prior to berthing on the off-side as gangways are not acceptable on the jetty. A launch service is available to ferry personnel to the town. Ship's personnel are not allowed on the loading facility. Provision for a future second loading berth ahead of the existing jetty has been made.

The height of the shiploader underside in the raised portion above chart datum is 24.1 m. The loader is not completely retractable behind the berth face but retracts to a position 0.84 m. behind the fender line.

No. 1 Berth. This landbacked berth lies in a 350° – 170° direction and has a length of 213 m., with a mooring dolphin 58 m. from the Northern end. Depth alongside is 11.2 m. A dry cargo storage shed adjacent to the berth has a floor area of 5,300 sq. ft. and general cargo will be handled by fork lift vehicles to and from the vessel. Provision for tanker berthing. Provision for heavy lift crane/and/or bulk handling installation in the future.

Stack load on berth 3,418 kg/sq.m. Fork lift capacity 27.2 m/t. Max. axle loading 8 tonnes on dual axle. Raykin fender system.

Oil fuel, fresh water and telephone are available at the berth.

Cargo is handled by fork lifts and/or road trucks to a cargo receival shed a short distance away. The berth is equipped to receive bulk fuel. Limited grades of bunkers and fresh water are available. Fresh water can be supplied at the rate of 35 t.p.h., and bunkers at 80 t.p.h. Amounts of 200 tons of water are always available, and vessels requiring more than this are requested to give at least 48 hours prior notice, through their Agents.

No. 2 Berth has been demolished. There are plans for replacing it at a future date.

A pipe-line for loading bulk drilled mud is fitted and is operated by a private company. This is located at the South end of No. 1 Berth.

No. 3 Berth: No. 3 Berth is situated to the South of Mangrove Point and runs in a 117° – 297° (T) direction for a distance of 183 m., with dolphins 46 m. ahead and astern to facilitate the mooring of vessels. There is a mooring basin 274 m. in length dredged to 11.20 m. below datum alongside the berth and dolphins.

Cargo is handled by form truck into the sheds or storage area at the rear of the shed, or loading direct into road truck. The full length of the wharf is protected by a fender system.

A mechanical bulk-loading facility is operated by the Leslie Salt Company on this wharf. The loader has a capacity of 1,500 t.p.h.

Fresh water is available at normal rates of 35 t.p.h. Bunkers can be obtained at rate of 100 t.p.h. Provisions for tanker berth.

Mount Newman Piers A and B: These two berths form a continuous line running in a 117° – 297° (T) direction from a position immediately South of No. 3 Berth towards Nelson Point. Pier A is the Northward berth and extends for a distance of 305 m., the depth alongside being 17.29 m. Pier B, the Southward berth, has a length of 353 m. and is dredged to a depth of 16.07 m. below datum.

The two shiploaders are fully retractable and have an average capacity of 6,000 t.p.h. each. No. 1 loader, at "B" Berth, has a boom reach of 28 m. from the wharf face, and the height of the underside of the loader is 24.5 m. above datum. Loader No. 2, "A" Berth, has a boom reach of 29.6 m. and a height above datum of 27.5 m. Vessels will normally swing on entry and berth starboard side to on these berths. Starboard gangways should be rigged prior to arrival so that no delay is incurred in the boarding of Quarantine and Customs Officials on berthing.

Bunkers are not available on these berths.

MEDICAL: Medical attention may be arranged through the Agent. No person will be attended unless he is provided with a letter from the Master authorising such treatment. All charges incurred will be charged to the vessel.

TANKERS: *Connections:* Ten-inch lines with 8 in. flexible hoses. Discharge rates depend on grade and consignee.

Local Installations: Mobil, Shell, B.P., Caltex and Ampol.

DENSITY: Average 1026.

REPAIRS: Minor repairs only can be effected. Radio and radar technicians, electricians, plumbers, welders and divers are available. There are a number of machine shops and a foundry is being constructed. Sand-blasting equipment and fumigation facilities are available.

AIRPORT: Daily jet flights to Perth and regular services to Darwin are available. In addition, there are several small charter planes available. Airport 7 miles from port.

CONSULS: At present, there is no Consular representation at Port Hedland.

TIME: GMT plus 8 hours.

SURVEYORS: Department of Transport Surveyor, Captain J. Cook. Tel. 732598 (also acts as Shipping Master). Classification societies situated in Perth.

POLICE/AMBULANCE/FIRE: Police 731444; Ambulance 731800; Fire 731222; Hospital 732144.

CARGO GEAR: Ship's gear used. Mobile cranes up to 31 tons capacity may be hired. Crane of 120 tons capacity owned by Mount Newman Co. Fork lifts of 4,000 lb., 8,000 lb. and 10,000 lb. available.

CERTIFICATES: The following documents should be available for inspection:

Ship's papers, including the following certificates:
(a) Register.
(b) Load Line.
(c) Safety Equipment.
(d) Safety Radio.
(e) Safety Construction.
(f) Australian Light Dues Receipt.
(g) Articles of Agreement and Account of the Crew (or equivalent).
(h) Oil Record Book.
(i) Register of Cargo Gear.
(j) Gas Free Certificates for Obo's.
(k) Western Australian Conservancy Dues Receipt (Port Bill).

Valid Deratisation or Exemption Certificate.
Crew's Identity Documents.
International Vaccination Certificates of all persons aboard as well as crew list giving vaccination dates.

STOWAGE FACTORS: Basis most recent experience, stowage factors of iron ore cargoes loaded at Port Hedland have been approximately as follows, per ton of 2,240 pounds: Lump ore approx. 15 cu. ft. Fines approx. 13 cu. ft.

However, as these factors sometimes vary from cargo to cargo, it is recommended that Masters check with loading Agents for each shipment before finalising stowage plans,

GENERAL: If the Master wishes to anchor outside prior to proceeding to sea, he must advise the Pilot when leaving the berth, and the Pilot will advise suitable anchorage. The Master will advise the Pilot of estimated time of departure in order that this may be reported to the Port Control.

DELAYS: Delays of port operations, including delays of other vessels waiting for berth, caused by a vessel which for any reason is not prepared and able to move from the berth when so ordered, are chargeable to the vessel which causes such delays.

STORES: Ship Providores, Elder Smith Goldsborough Mort Ltd. of Port Hedland, were able to provide a varied and comprehensive service, particularly in catering stores. Despite the fact that most foodstuffs have to come 1,000 miles from Perth, this firm have large storage and refrigeration facilities in Port Hedland and have no difficulty in satisfying most ships' requirements, particularly dry stores and refrigerated meats and fish. The only difficulty is with Muslim killed meats, in order to fulfil any orders for this commodity they require seven day's notice, as the meat has to be ordered from Perth. All other stores can be ordered after berthing.

AUTHORITY: Port Hedland Port Authority.

AGENT: Sub-agents of Patrick Agencies, Fremantle.

PORT KEMBLA, N.S.W.: 34.28 S. 150.54 E.

(See Plan Book)

PORT LIMITS: In the absence of any specific clause in the Charter Party, the local custom is that a vessel, having obtained pratique, is considered to be an "arrived ship" when it is anchored off the port.

CERTIFICATES/DOCUMENTS/HEALTH/CUSTOMS ALLOWANCES/CARGO GEAR: See "Melbourne".

PILOTAGE: Pilotage is compulsory for all foreign vessels and Australian Masters without an exemption; this service operates 24 hours per day. When entering or leaving the Inner Harbour, the Pilot requires 3 ft. clearance under the keel, vessels over 244 m., 1.4 m. required. Pilots equipped with VHF.

The pilot boarding station is off the Wollongong Head Lighthouse, – distance 1.25 miles from Harbour entrance.

RESTRICTIONS: An artificial harbour, formed by two breakwaters with an entrance of 305 m. and a depth of 16.75 m. ISLW at the entrance. Leading from the Outer Harbour there is an inner harbour basin, which is entered through a 165 m. wide Channel, having a depth of 15.25 m. ISLW. The port consists of two harbours, locally referred to as the Outer Harbour and the Inner Harbour. In the Outer Harbour the swinging basin is approximately 457.2 m. with a min. depth of 10.70 m., and in the Inner harbour the swinging basin is approximately 365 m. with a min. depth of 13 m.

MAX. SIZE: The deepening project at Port Kembla has been completed and the Port can now handle vessels in the 100,000 d.w.t.. range for ore discharge. The depths are now as follows:

Entrance Channel 15.25 m. ISLW.

Iron ore discharge berths:

No. 1 Depth alongside 13 m. ISLW.
No. 2 Depth alongside 15.75 m. ISLW.

The Harbour Master advises that vessels are be able to operate with a maximum load draft of 14.8 m.

PRATIQUE: Quarantine service is available 24 hours a day with all vessels being granted pratique alongside the berth.

RADIO: A continuously manned communication centre maintains constant contact with the Pilot, pilot tender, tugs and launches. In addition, a VHF radio-telephone system (operated by the Central Control Point in Sydney) provides communication for vessels at sea or under the control of a Pilot.

Whilst anchored off the port of Port Kembla, it is necessary to maintain radio watches, as officially a vessel is at sea until entering the breakwaters into the port.

TUGS: At the present time four tugs are available, 24 hours per day, provided previous notification is given.

The tugs have bollard pulls ranging from 42 to 17.5 tons.

BERTHING: Outer Harbour:

No. 3 Jetty – General Cargo Berth: depth of water ranging from 11 m. seaward end to 3.7 m. shore end.

No. 4 Jetty – General Cargo Berth: depth of water ranging from 10 m. seaward end to 4.5 m. shore end.

No. 5 Jetty – Used exclusively for the discharge of bulk petroleum products. It is situated on the southernside of the breakwater, and can accommodate vessels up to 183 m. length, depth alongside 10.67 m. This berth is also used for bunkering however, no priority is given for bunkering ships over tankers.

No. 6 Jetty – General Cargo Berth: depth of water ranging from 9.8 m. seaward end to 7.3 m. shore end.

Inner Harbour: Four of the six wharves in the Inner Harbour are privately owned, three by the Australian Iron & Steel Pty Limited and one by Australian National Line

AIS No. 1 Loading Berth – depth 11 m.

AIS Discharge Berth – this berth is serviced by two 15-ton capacity grabs capable of 500 t.p.h. each, and has both road and rail transport. It is actually a continuation of the loading berth and also has one coal/coke loader, capable of a loading rate of 600 t.p.h. Also No. 2 Discharge Berth with 2×35 tonne grabs capable of 2,000 tonnes per hour. Depth alongside 15.75 m.

AIS No. 2 Loading Berth – depth alongside 12.2 m.

Roll-on/roll-off Berth – depth alongside 9.2 m.

Coal Berth – length of berth 215 m. The coal or coke is loaded by means of a travelling gantry, with trimmer. The unit has been designed for a loading rate of 2,000 tons of coal or 800 tons of coke per hour, and the trimmer for loading vessels to 110 ft. beam. The average rate is approximately 1,250 tons coal and 550 tons coke per hour. The loading boom (in the horizontal position) and loading chutes will clear the hatch coaming at 17.37 m. above ISLW. Also see "Developments".

Multi-purpose Berth – This berth is under demolition to make way for a new coal loader to be operative in 1982. Work is in progress for a new multi-purpose berth programmed for completion in mid 1982.

TANKERS: Max. size of vessel 183 m. length, 11.6 m. draft.

DENSITY: Average 1025.

STEVEDORES: The Stevedoring Employers of Australia Ltd. controls labour in the port, the present total strength being 354 men.

Working times:

1st shift: 0730 to 1430 hrs. – Monday to Friday, Sunday
2nd shift: 1500 to 2200 hrs. – Monday to Friday, Sunday
3rd shift: 2300 to 0600 hrs. – Monday to Friday, Sunday
1st shift: 0730 to 1130 hrs. – Saturday only
or: 0730 to 1430 hrs. – Saturday only.

There are sufficient forklifts, tractors, bulldozers, etc., available to handle all general and bulk cargoes as necessary.

FRESH WATER: Fresh water is available at all berths.

FUEL: Furnace and diesel oil is obtainable by pipe-line at the inflammable liquid berth and No. 6 Jetty and also at the AIS discharge berth and AIS No. 1 loading berth Limited quantities are available by road tanker at No. 3 jetty, the coal loading berth and the multi purpose berth. No bunkering barges are available.

Delivery capacity by pipe-line is approx. 120 t.p.h. Delivery capacity by road tanker is approximately 20 t.p.h.

MEDICAL: There are sufficient doctors, dentists, etc., to handle all eventualities; also two well equipped modern hospitals.

REPAIRS: There are no drydocking facilities, but several marine engineering companies operate here, who can handle most types of repairs.

HOLIDAYS: See "Sydney".

GANGWAY/DECK WATCHMEN: Carried out by Shore Watchmen.

OPENING/CLOSING HATCHES: Crew/stevedores.

CREW IDENTIFICATION: See "Melbourne".

TIME: GMT plus 10 hours.

AIRPORT: Kingsford Smith International Airport, Sydney.

TELEPHONES: Pilot station 740761; Signal station 744571. Telephones available.

AUTHORITY: Maritime Services Board of NSW.

AGENT: Patrick Agencies, Foreshore Road, P.O. Box 83, Port Kembla, N.S.W. 2505. Cables "Rikpat". Tel. 74–0335 and 74–0339. Telex AA 29025.

PORT LATTA, Tasmania: 40.51 S. 145.23 E.

DOCUMENTS:

4 Crew Lists, Commonwealth No. MS11.
1 Customs Store List, Commonwealth No. 42A.
1 Personnel Effects, Commonwealth No. 5.
1 Quarantine/Animals, Commonwealth No. QA4 and QA5.
1 Smallpox Vaccination Register.

PILOTAGE: Compulsory pilotage from anchorage to berth. Pilot remains on board throughout loading. Pilot station equipped VHF radio Channels 16, 12 and 6. Pilots and line boats stationed at small boat harbour, Port Latta. Pilot boards at anchorage. Vessels communicate with Port Latta Marine Department on normal ship-shore frequencies, through Australian coastal stations, addressing message to "Pickands Burnie" prefixed "Shipserv". ETA required 10 days, 2 days, 1 day prior. Accommodation ladder to be rigged and ready on port side.

ANCHORAGE: 1 mile radius from point with Rocky Cape Light. Bearing 130° (T) × 5 miles (16 fthms).

RESTRICTIONS: Vessels berth on arrival day or night, weather permitting. Approach channel and depth alongside berth 50 ft.

MAX. SIZE: Length, 900 ft. LOA; beam 130 ft.; draft 50 ft.; 9 ft. range of tide. Greater draft by prior arrangement.

HEALTH: Commonwealth appointed Quarantine Officer will board on arrival, weather permitting. Quarantine Officer requires 1 copy Crew List and 1 copy Smallpox Vaccination Register. Doctor boards only when Port Latta first port of call.

RADIO: Radio messages addressed to "Shipserv. Pickands, Burnie" and Agent.

TUG: Will join vessel at anchorage. Tug stationed at Port of Stanley and will stay with vessel throughout loading. The use of tug or ship line is at discretion of Pilot. No extra charge made for use of tug lines.

BERTHING: Vessels berth either side alongside using anchor. Lines required: Six 120 fathom lines and one wire backspring at each end of vessel. 1 berth where vessel moors to buoys and alongside 2 dolphins. A 6,000 ft. long steel structure carries ore conveyor to 2 ship loaders each protected by a dolphin.

Minimum depth of water in berth and approaches 50 ft. (15.24 m.).

MEDICAL: Minimum of 24 hours notice required by Agent to arrange doctor. Hospitals situated at Smithton, 19 miles; Wynyard, 25 miles.

TANKERS: Berth at anytime. Hose 10 in. diameter, discharge line only, no facilities for receiving ballast or slops. Maximum permitted draft 45 ft.

DENSITY: 1025.

FRESH WATER: Limited quantity from tug – 70 tons.

FUEL: Not available.

FIRE REGULATIONS: Standard Mines Department fire regulations.
OPENING/CLOSING HATCHES: Ship's responsibility.
CERTIFICATES: Required: De-rat., Safety Equipment, Load Line, Registered Tonnage.
CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes or 8 ozs. tobacco per man. Wine/Spirit, 1 quart per man, bottle/bottles must be unsealed.
CARGO GEAR: None required.
IDENTIFICATION CARDS: See "Melbourne".
CONSULS: No consulates.
REPAIRS: Minor repairs can be carried out by local contractors.
REPATRIATION: Agents can arrange repatriation and crew changes.
AIRPORT: Nearest airport 25 miles at Wynyard with daily domestic flights to mainland for international flight connections.
TIME: Local time on Eastern Australian Standard. GMT plus 10 hours. Tasmanian Summer exists between October and March, GMT plus 11 hours.
HOLIDAYS: Cargo loading continuous throughout public holidays.
POLICE/AMBULANCE/FIRE: Police, Stanley 581104; Ambulance, Smithton 521221; Fire, Stanley 581202.
TELEPHONES: No arrangements available for placing phone on board ship. Use of company phone can be arranged for business matters.
SHORE LEAVE: Shore leave is allowed provided sufficient crew remain on board to handle vessel for clearing berth.
AUTHORITY: Port Latta Marine Department.

AGENT: Sub-agent of Patrick Agencies, Melbourne.

PORT LINCOLN, S.A.: 34.42 S. 135.50 E.

(See Plan Book)

DOCUMENTS: See "Melbourne".
PILOTAGE: Compulsory. Pilot boards 1.5 miles South-east or East-south-east of Boston Point.
APPROACHES: Depth in approach Channel 30 ft.
TUGS: 1 tug available.
VHF: Radio telephone in operation.
BERTHING: Kirton Point Jetty oil tanker berth at "T" head, berthing space 900 ft. (275 m.), depth 32 ft. (9.75 m.). Shipping pier depth 27 ft. (8.2 m.) and 28 ft. (8.5 m.).

A new bulk grain loading jetty has been built, 660 m. long, depth 15 m., with two travelling loaders with combined capacity of 4,000 tonnes an hour and an outreach of up to 35.5 m. on each side of jetty. Vessels up to 60,000 d.w.t. can be accommodated.

A new berth, 247 m. long, depth 12 m. to accommodate vessels discharging phosphate rock has also been completed.

Broken Hill Jetty (Proper Bay) jetty and berth with mooring dolphins. Distance between outer dolphins 882 ft. (270 m.). Depth 34 ft. (10.4 m.) MLWS. Loading rate 1,900/2,000 t.p.h. Max. beam permissible 80 ft. (24 m.).

FUEL: Not available.
FRESH WATER: Available at jetty and shipping pier. Not available at Broken Hill (Proper Bay) berth,
AIRPORT: There is a scheduled one hour air service to Adelaide with up to four flights a day.
AUTHORITY: Department of Marine and Harbours, Adelaide. For Proper Bay: Broken Hill Proprietary Co. Ltd.

AGENT: Patrick Agencies, 32 Edinburgh St, Box 399. P.O., Port Lincoln, South Australia 5605. Cables: RIKPAT. Tel: 82 1011/1167. Telex: AA 80474.

PORT PIRIE, S.A.: 33.11 S. 138.01 E. (See Plan Book)

CERTIFICATES/DOCUMENTS/HEALTH: See "Melbourne".
PILOTAGE: Compulsory. The Pilot Boarding Station is South-West to West and within 3 miles of Eastern Shoal North Beacon.

The regulation pilot ladder should be secured so that the lowest step is 1.22 m. clear of the water. Manropes must be provided but a boat rope is *not* required.

Pilotage distance is 17 miles and time occupied is approximately 2 hours.

ANCHORAGE: Vessels awaiting a Pilot should anchor near the Pilot Boarding Station which is good holding ground.

Exempt vessels may anchor within Germein Bay. However, anchorage near Cockle Spit is not recommended for vessels of light draft under adverse weather conditions.

RESTRICTIONS/MAX. SIZE:
Daylight: Max. length 178.30 m. (585 ft.) OA } i.e. Port Limits
,, beam 25.92 m. (85 ft.) OA }
At Night: Max. length 167.63 m. (550 ft.) OA
(Cut only) Conventional vessels only i.e. Bridge amidships
,, ,, length 167.63 m. (550 ft.) OA
Bulk Carriers i.e. Bridge aft.

Vessels are *NOT* piloted inwards or swung at night. Vessels over 167.63 m. (550 ft.) OA are swung only when No. 6 Berth is vacant.

The entrance channel and harbour is dredged to 6.4 m. LWOST. The minimum keel clearance of any vessel proceeding in the harbour or channel should be 0.61 m. For vessels with a beam in excess of 21.33 m. the minimum keel clearance should be 0.76 m. and vessels over 22.25 m. the minimum keel clearance should be 0.91 m.

Vessels have sailed from the port under suitable tidal conditions with drafts in excess of 8.23 m.

Port Pirie Channel Information: The table shows the *maximum* depths to which vessels may load when the sailing or berthing time is 2 hrs. before HW (i.e. allowing 0.3 m. (1 ft.) rise of tide) and to provide the following keel clearances:

N.B. Berthing time means the pilot boarding time at Eastern Shoal North.

Note 1: It is recommended that the maximum draft shown on the table should be *decreased* by 0.15 m. (6 ins.) when "fixing" vessels in advance, to allow for possibility of the tide being less than that predicted due to weather conditions.

Note 2: The LW heights should be considered when fixing deep vessels to ensure that the vessel always remains afloat in the berth.

		Minimum Keel Clearance
Column 1	Up to 21.33 m. (70 ft.) beam	0.6 m. (2 ft. 0 ins.)
2	From 21.33 m. to 22.25 m. (70 ft. to 73 ft.) beam	0.76 m. (2 ft. 6 ins.)
3	Over 22.25 m. (73 ft.) beam	0.91 m. (3 ft. 0 ins.)
4	10% of draft	0.6 m. (2 ft. 0 ins.)

Predicted height of tide	Depth in Channel	1	2	3	4
	m. ft. ins.	m. ft. ins.	m. ft. ins.	m. ft. ins.	m. ft. ins.

RADIO/VHF: Port Pirie is serviced by VHF R/T Channels 16, 12 and 6. "Pirie Harbour" maintains a continuous watch on Channel 67 and Channel 16. Vessels entering the port should advise "Pirie Harbour", as soon as contact can be established, of their ETA and draft, also the position anchored, if applicable. Exempt vessels should advise when ready to depart.

There is no visual signal station.

There is no radio telegraph station at Port Pirie. All such messages are handled through "VIA" Adelaide and are forwarded to or from Port Pirie by land-line.

TUGS: Tug will be required for vessels of 410 ft. (125 m.) and over.
BERTHING: Vessels are normally berthed in the order of first arrival at the Pilot Boarding Station and are usually swung prior to berthing.

Main engines must not be immobilised and static engine tests must not be made without prior approval of the Harbour Master.

Berths: Vessels berthed at No. 1 should not exceed 152.40 m. (500 ft.) OA length.

At Berths Nos. 2, 3, 5, 6, 7, 8, 9 and 10 the OA length limit of 178.30 m. (585 ft.) applies, provided adequate berthing space is available.

	Dredged to:

*Fuel Oil can be discharged at these berths, for B.H.A.S.

CRANES: Eight 7.5 ton electric cranes are available as under:—
No. 7 Berth – 2 for concentrate loading (Interstate only).
Nos. 8 and 9 and 10 berths – 6 plus the 2 from No. 7 if not required at that berth.

Two 7.5 ton cranes situated at No. 7 Berth are the property of E.Z. Company and the balance of the 7.5 ton cranes are the property of B.H. Associated Smelters and can only be procured when they are not required by the Company or when it is stipulated in contract, agreement or Charter, that cranes to be supplied.

BULK HANDLING FACILITIES: The boom of the shiploader is 70 ft. (21.3 m.) in length and when lowered to the horizontal position for pouring should plumb the midship line of most ships loading from this machine. The "jet-trimming slinger" at the lower end of the loading chute is capable of throwing a stream of ore some 60 ft. (18.3 m.) through 360 degrees and can be directed to any position within the vessel's hold.

Bulk wheat and barley can be delivered ex-silo on a conveyor belt which is capable of delivery at the rate of 400 t.p.h. Five outlets are available but the maximum is 400 t.p.h.

FRESH WATER: Fresh water available all berths at rate of approx. 15 t.p.h.

FUEL: There are no bunkering facilities at any berth. Limited quantities of diesel oil may be obtained by road tanker.

TIME: Local time is Central Standard Time, GMT plus 9.5 hrs.

TIDES: MHW Springs 2.65 m., Neaps 1.65 m. Generally tidal heights of 2.74 m. or over occur at Springs about 50% of the days of the year. However, tides are affected by weather and may be up to 0.61 m. above or below predictions.

REPAIRS: Subject special arrangements.

TELEPHONES: Police 32 1200; Fire Department 32 3000; Harbour Master 32 1455.

AUTHORITY: Harbour Master, Port Pirie. Department of Marine and Harbours, Adelaide.

AGENT: Patrick Agencies, POB 38, 15 David Street, Port Pirie. S.A. 5540. Tel. 32 3222. Cables: "Rikpat".

PORT STANVAC, S.A.: 35.06 S. 138.28 E.

(See Plan Book)

DOCUMENTS: The following Australian forms are required at first port of call. If not on board, they must be completed on arrival:

2 copies Form M & S 11 or M & S 14 (Crew List).
1 ,, ,, 42 A (Store List).
1 ,, ,, 5 (Customs Manifest).
2 ,, ,, C & E 886 (Ports of Call).
1 ,, ,, QA 3 (Cargo).
1 ,, ,, QA 4 (Pets).
1 ,, ,, QA 5 (not necessary if no pets on board).
2 ,, ,, FQ 360 (Health Report).

PILOTAGE: Compulsory. Mooring Master acts as Pilot. On approaching port, contact Port Stanvac Information Station on VHF Channel 16, day or night, for latest orders.

Pilot ladders must comply with IMCO/SOLAS requirements or Pilot may refuse to board – ALL VESSELS.

Crude Carriers only. Accommodation ladder required to be rigged on the starboard side.

RESTRICTIONS: Approaches from the West, through Investigator Strait; from the East, through Backstairs Passage.

Minimum depth in channel to jetty berth is 40 ft. (12.2 m.). Minimum depth in Channel to Sea Line berth is 60 ft. (18.3 m.).

Height of tide, 9.0 ft. (2.7 m.) HHW, and 4.6 ft. (1.4 m.) LHW.

ANCHORAGE: Crude vessels — with Marino Rocks Lighthouse 065° distance 3.5 miles in 14 fathoms of water.

Product vessels – with Marino Rocks Lighthouse 065° distance 3 miles in 11 fathoms of water.

Not recommended anchor West of sea berth due to presence of sunken barges, although deep water.

MAX. SIZE: At Jetty berth: length 560 ft. (170 m.), draft 32 ft. (9.7 m.).

At Sea Line berth: length 1,000 ft. (305 m.), draft 51 ft. (15.5 m).

RADIO: VHF radio telephone Channels 16, 14 and 9. Call sign "PORT STANVAC". Mooring Master in radio contact with terminal while at berth.

TUGS: Obtainable from Port Adelaide. Normally 1 tug assists berthing.

BERTHING: Jetty extends over a stone causeway and thence north-westward for about 2,000 ft. (610 m.). Causeway is about 1,000 ft. (305 m.) long. The "L" head of the jetty is about 400 ft. (122 m.) long in a N.E. direction, with a depth of 35 ft. (10.7 m.) alongside.

A pipe-line extends about 1,800 ft. (548 m.) from the jetty head in a N.W. direction to the Sea Line berth in a depth of 60 ft. (18.3 m.) of water. At the Sea Line berth vessel moors using both anchors and ship's ropes to 5 buoys aft. In addition, up to 5.5 in. (0.139 m.) wires may be picked up from the sea bed. Use of these wires is recommended as vessel is moored beam on to tidal streams. After westerly storms, berth is exposed to heavy swell.

HOSES: Sea Line berth; two 12 in. (0.3048 m.) hoses connect vessel with 34 in. sea line. A shore gang of fitters joins ship to connect hoses under Berthing Master's supervision. These men are accommodated on board.

Ship's port derrick to be rigged with a single runner. Diver goes under water to connect hose.

Shore tanks situated 120 ft. (36.5 m.) above sea-level, high back pressure to be expected.

FRESH WATER: Fresh water available at the Products Wharf only, at an approximate rate of 25 t.p.h.

FUEL: Fuel and diesel oil available at jetty. Only Bunker "C" available at Sea Line berth.

MEDICAL: Doctor available.

REPAIRS: No facilities for repairs.

TIME: GMT + 9.5 hours. Daylight saving time (GMT + 10.5 hrs.) usually from last Sunday in October to first Sunday in March.

BALLAST: Facilities available to receive 12,000 L/T dirty ballast ashore from Product Wharf only.

POLLUTION: No dirty ballast or bilges may be pumped overboard. A maximum penalty for pollution of local waters is $A50,000 plus cost of any cleaning necessary.

REGULATIONS: This Terminal is in an open exposed roadstead. During the time a vessel is berthed at the Terminal, the ship's engines and propulsion machinery should be maintained in readiness to leave the berth under full power at short notice. No repairs which would interfere with this requirement are permitted.

SHORE LEAVE: Allowed. Launch service can be arranged. Crew members not allowed through refinery on foot, must use taxi or approved transport.

SHIPMASTERS REPORT: (1976).

Anchorage: Crude tankers normally in position, Marino Light bearing 075°T, distance 3.5 miles.

Moorings: 6 ship's ropes to Buoy No's 1-6 plus a minimum of 4 wires from buoys to ship. Carpenter's stoppers for wires provided by shore.

Hoses: Shore gang connects hoses under supervision of Mooring Master. Ship's crew handle winches. 1 officer to be present. Shore gang is not accommodated on board.

Time: GMT plus 9.5 hours but daylight saving time (plus 10.5 hours) is kept from last Sunday in October until first Sunday in March.

AUTHORITY: Petroleum Refineries (Australia) Pty. Ltd.

AGENT: See "Adelaide".

PORT WALCOTT, W.A.: 20.37 S. 117.11 E. (including Cossack and Point Samson (defunct), Cape Lambert (operational) and Dixon Island (possible future)

(See Plan Book)

PORT LIMITS: Bounded on the South and on the West by the sea-coast Westward from the mouth of the Sherlock River to the North end of Dolphin Island, including all the intermediate bays, creeks, coves, inlets and navigable waters; on the North by lines extending from the North end of Dolphin Island to the South end of Legendre Island and thence to the North end of Delambre Island and then South-Easterly to the North end of the East boundary herein next described:– and on the East by a straight line extending 5 statute miles true North from the mouth of the Sherlock River aforesaid.

The port limit line is also the 'Quarantine Line'. Permission from Port Health must be obtained prior to crossing this line. Ships 'arrive' when crossing port limit line, when Pilot boards or when anchored.

Area is covered by Decca Channel 8E. Charts AUS.55 L(D8), 740L(D4D8) and 326 L(D4D8).

DOCUMENTS: See "Melbourne".

PILOTAGE: Pilotage is compulsory. Pilots resident at Wickham. 24 hours service.

Pilot Ladders, Hoists, etc: On arrival, Pilots will accept a pilot hoist, a pilot ladder not exceeding 9 m. in length, an accommodation ladder if the weather is suitable or a combination of pilot ladder and accommodation ladder.

Owing to swell conditions, a clean pilot ladder is required for departure. This should be rigged so that it is 1 m. above sea level and provided with 2 clean manropes.

This ladder is required to comply with Australian Standard Specification No. 1267 of 1975 which is based on the requirements of the SOLAS Convention and the Navigation Act.

A pilot hoist or accommodation ladder is *not* considered suitable for disembarking.

Whilst in the berth, the appropriate accommodation ladder is used for access to the ship.

ANCHORAGE:

Suggested anchorage positions:

Bearings of Jarman Island Lighthouse.

'A'	185°×5.5 miles	depth 11 m.
'B'	190°×6.0 miles	depth 12 m.
'C'	195°×6.5 miles	depth 14 m.

For vessels bound for Lambert Service Jetty – 8.8 m. (29 ft.).

Berthing of ore carriers is usually carried out at about one hour before HW or 1.5 hours before LW.

Owing to tidal peculiarities, berthing at the Lambert Service Jetty is either at about 2.5 hours before HW or 3.5 hours after HW.

TIDES: Spring Range is 5.8 m. (19 ft.).

MAX. SIZE: Largest vessel to date (July 1978) 264,593 d.w.t., loaded 185,455 tonnes cargo.

RADIO: VHF is available on Channels 16, 67, 6, 9, 10, 12, 14, 71, 73, 74. Though a continuous watch is not kept, ETAs to be given 10 days, 48 hours and 24 hours in advance, addressed "Shipserve Harbour Master Portwalcott" or sent via Agent.

HEALTH: Quarantine Doctor will not board at anchorage – only when ship berthed. Pratique is automatic if having called at another Australian port. Also see "Port Limits".

TUGS: Two tugs, "Roebourne" and "Wickham", are available for use at Cliffs jetties only. Each is 3,200 h.p. with a bollard pull in excess of 50 tons. They are twin screw with Kort nozzles. One lines launch is available. Tugs supply towing equipment.

BERTHING: *Cape Lambert*

Cape Lambert Service Jetty is owned by Cliffs Robe River Iron Associates (C.R.R.I.A.). The neck is 1,500 ft. long and the berthing head is 510 ft. long. Off each end of the head is a mooring dolphin some 90 ft. away. This permits a vessel of about 625 ft. long to berth. There is a min. depth of 10 m. at LW. The height of the jetty, above LW, is 35 ft. Cargo is handled by ship's gear. The jetty is designed for road transport only. This is not a common-user berth and permission must be obtained from the Port Authority before any cargo, other than C.R.R.I.A. cargo, is handled.

Lambert Ore Jetty is owned and operated by C.R.R.I.A. It extends 8,760 ft. to sea in a 046.75° direction. It is double sided and capable of handling ships up to 170,000 m.d.w.t. The depth of water in No. 1 (South) berth is 57 ft. (17.37 m.) and in No. 2 (North) berth is 63 ft. (19.2 m.). There is a single shiploader designed to operate at 6,000 t.p.h. Ships usually berth 'head out' and are secured to dolphins, parallel to the wharf. These dolphins are 25 ft. (7.6 m.) above LW. The height of the jetty is 61 ft. above LW and the boom of the shiploader is about 100 ft. above LW. The shiploader is capable of travelling over a distance of about 650 ft. (197 m.) but the boom will reach over a distance of about 870 ft. (265 m.). The boom will reach about 72 ft. over a ship.

STEVEDORES: Labour for stevedoring purposes is controlled by the Association of Employers of Waterside Labour. There are about 20 men available. Requests for labour should be made through an Agent or Stevedore. Hours of work are usually 0800–2130 and 2130–0630. This labour operates at Lambert Jetty.

TANKERS: Usually berthed 'head-in' at the Lambert Service Jetty as the deeper water (35 ft.) is at the seaward end. Discharge is through an 8 in. pipe-line which is situated about the centre of the berth. Tankers at the Lambert ore jetty are moored with two anchors and stern moorings to the berth.

A basin has been dredged to 15.24 m. (50 ft.) to accommodate tankers. Discharge is through either a 24 in. or 12 in. pipe-line via a pair of "Wheaton Arms".

CARGO GEAR: See "Melbourne".

FRESH WATER: Fresh water available – ships supply own hoses with 2.5 in. quick release fittings.

FUEL: Not available.

TIME: GMT plus 8 hours.

STORES: Dry, chiller, freezer and Bond stores are available. It is suggested that ample notice be given.

GENERAL: Port Walcott is connected by sealed roads to the towns of Wickham, Roebourne, Karratha, Dampier and Port Hedland, each of which has a hospital and other facilities. The sealed road also extends to Perth, some 1,100 miles away.

AIRPORT: At least 2 jet flights per day to Perth from Karratha (2 hours).

CERTIFICATES: Ore/Oil carriers require inspection by surveyor if previous cargo oil. Gas-free Certificates over 24 hours old are not accepted.

CHARTS: AUS.55, 740, 741, 326 & 327, plain or Decca are available at Harbour Master's Office, also AUS.56 and Aust. Nat. Tide Table. Notices to Mariners, U.K. & Aust. are available for inspection.

REPATRIATION: Carried out regularly.

TELEPHONES: Not available at the berths.

HOLIDAYS: Iron ore is loaded 24 hours per day, except for one 24 hour period over Christmas (usually 2300/24th to 2300/25th December).

SHORE LEAVE: Crew members are allowed ashore by pre-arranged bus or taxi – nearest town is 10 miles away.

DEVELOPMENTS: Considerable oil-drilling activity is expected in the near future, off the coast. Oil rigs and many rig tenders may be encountered.

AUTHORITY: Harbour and Light Department, Fremantle. Harbour and Light Department, Point Samson.

AGENTS: Sub-agent of Patrick Agencies, Fremantle.

PORTLAND, Victoria: 38.20 S. 141.36 E.

(See Plan Book)

PORT LIMITS: As much of the waters of Portland Bay as lie Westward of a line bearing due North from Point Danger to the opposite shore of Portland Bay.

DOCUMENTS: Refer to "Melbourne".

PILOTAGE: Compulsory except for exempt Masters. Pilot boards about 0.75 mile N.E. of main breakwater.

Approach from the West: A safe course into Portland Bay can be maintained by rounding Lawrence Rocks at a distance of 1.5 miles and altering until a course of 330° can be steered, which will clear the Southern side of the Bay between Danger Point and Portland by 1.5 miles. Steer this course until Whaler Point Lighthouse bears 270° about 2.5 miles distant where course can be altered for the harbour entrance.

Approach from East: Is a straight course after rounding Lady Julia Percy Island, 18 miles from the breakwater.

ANCHORAGE: Portland Bay is clear of all dangers and safe anchorage may be found 0.25 to 0.5 mile North and N.E. of the main breakwater and for smaller vessels between the Lee Breakwater and Whaler Reef. Holding ground is good, and excellent shelter is obtained from Westerly weather. Anchoring is not recommended in strong Easterly or South-easterly weather, as there may be a confused sea and swell.

RESTRICTIONS: The Harbour is bounded by 2 breakwaters, enclosing 101 hectares. The entrance is 244 m. wide.

Swinging Basin: Between the 2 breakwaters, bounded by No. 6 Berth and the Lee Breakwater.

Depth of water in the harbour is based on a datum of 0.082 m. above LWOST, which ensures a depth of not less than 11 m. under all tidal conditions. Mean rise and fall is approximately 0.75 m. but the prevailing wind has a certain influence on the tide.

MAX. SIZE: The largest vessel to use the port to date was with a departure draft of 11.89 m.

Also see "Tankers".

HEALTH: Portland is a first port of entry. When requiring pratique, inform the Port Health Officer of the ETA, number of crew and passengers and the state of health of the complement. Use the prefix "Shipserv" for all cabled messages. All requirements as for Melbourne.

RADIO: Maritime VHF operating on Channels 12 and 16 is installed in the Harbour Master's Office and on the tugs.

Listening on Channel 16 between 0800 and 1700 hrs. and when shipping is expected.

Radio Advice of Arrival: Address ETA telegrams to the Harbour Master, using the prefix "Shipserv".

TUGS: 1 of 1,600 h.p. and 1 of 600 h.p. available.

BERTHING: The main breakwater extends 1,280 m. in a North-South direction from Battery Point with its Northern extremity in 14 m. of water. There are 2 berths at the inshore end known as No. 1 and No. 2, K. S. Anderson Wharf.

Depth alongside No. 2 berth, is 11 m. LW with limestone and sand bottom. Max. draft is 10.5 m., which may be increased if written application made to Harbour Master, stating the maximum required.

No.1 Berth is suitable for bulk or general cargoes. It is also used for the discharge of diesel and fuel oil and for bunkering. It is a berth ideally suited for unit loads as both road and rail transport can be utilised.

No. 1 Berth has been dredged to 12.2 m. depth for a length of 200 m. and a 12.2 m. channel 91 m. wide is dredged to the entrance. Max. draft 11.6 m. which can be increased if written application is made to the Harbour Master. Both Nos. 1 and 2 can be used for bulk grain loading.

No. 2 Berth is a continuation of No. 1, and is also the grain loading berth with the silos situated at the South end of the wharf, and the loading gantry running along the roof of the shed. 2 mobile ship-loaders operate over the length of the berth; when used simultaneously capacity is up to 300 t.p.h. used singularly up to 400 t.p.h. for oats, 500 t.p.h. for barley and 600 t.p.h. for wheat. The berth is also used for discharge of diesel and fuel oil, and as a bunker berth.

BULK LOADING FACILITIES: Located at No. 1 and No. 2 berth K.S. Anderson Wharf. The loading units consist of two 27 m. high lateral traversing ship-loaders, for the delivery of bulk grain.

Maximum distance of traverse is 305 m. with telescopic delivery spouts providing an additional 25 m. at either end. Maximum permissible length of ship with a draft in excess of 11.10 m. is restricted to 226 m.

Gross handling rate per hour: oats 400, wheat 600, and barley 500 t.p.h. Rates are reduced when trimmers are used.

No. 5 berth, a multi-purpose, heavy duty wharf located on the East-side of No. 2 Quay. No. 5 Berth has an alongside depth of 11 m. and is 122 m. in length. Facilities located adjacent to No. 5 Berth include a bulk tallow installation and 7,230 cu. m. capacity cold store.

No. 6 berth is at right angle to K. S. Anderson berths. The berth is designed and built for the discharge of bulk cargoes but is also used for the handling of general cargo, as is the case with No. 5 berth a tallow line runs to No. 6 berth.

It is 228.6 m. in length with 11 m. alongside and a clay bottom. Max. draft is 10.5 m., with the same conditions as for Nos. 1, 2 and 5.

Cold Store: Of 7,230 cu. m. capacity is situated on No. 2 Quay, at minimum temperature that can be maintained is −30°C.

Container Park: A container park with facilities for 80 refrigerated and 500 dry containers is located on No. 2 Quay, adjacent to Nos. 5 and 6 Berths.

TANKERS: S.L. Patterson Berth and Lee Breakwater protrudes in an Easterly direction from point 3.7 cables South of Whaler Point Lighthouse for a distance of 1,180 m., with its extremity in 12.2 m. of water.

The S. L. Patterson Berth is situated on this breakwater about 457 m. from the seaward end.

The wharf is 76 m. in length and designed for vessels of up to 38,000 d.w.t. Depth alongside is 10.4 m. LW. Maximum draft permitted is 9.9 m.

Berthing and unberthing of tankers is on a 24-hour basis, at the discretion of the Harbour Master. During darkness, a Pilot is compulsory.

The Shell Company of Australia Limited, and Ampol Petroleum (Victoria) Pty Limited have pipe-lines to the berth. Average discharge rate is approximately 300 t.p.h. This wharf can also be utilised as a loading berth ex-road transport and as a fitting out repair berth

STEVEDORES: There are 68 registered members and in excess of 100 casual water-side workers available.

Hours of work are from 0800 hrs to 1700 hrs., from 1700 hrs. to 2300 hrs. and midnight to 0700 hrs.

Extended shifts are allowed to be worked to 1900 hrs. each day (except Thursday and Sunday) when no twilight labour is available.

Pallets can be manufactured locally by prior arrangement.

Vessels can be serviced expeditiously under skilled supervision including fitting out for grain, battening out for freezer or general cargo

Calling) using International R/T distress signal "Mayday" or urgency signal "Pan" followed by name of vessel and signal letters, giving its position and type of emergency and if assistance required.

Other vessels on hearing a distress message must cease any transmissions immediately.

The signal "Mayday" should be used only when ship sending it is threatened by grave and imminent danger and requires immediate assistance.

The signal "Pan" (pronounced "Panne") should be used by a station having a very urgent message to transmit concerning its safety, or that of another ship, or of some person on board or in sight.

TUGS: Powerful modern tugs, operated by private companies, available.

BERTHING: See "VHF".

Woolloomooloo: 7 berths, depths 8.53 m. to 11.27 m.
Darling Harbour: 15 berths, depths 2.43 m. to 11.8 m.
Pyrmont: 14 berths, depths 8.23 m. to 11.1 m.
Glebe Is.: 5 berths, depths 9.75 m. to 12.8 m.
Sydney Cove: 3 berths, depths 3.65 m. to 10.66 m.
Walsh Bay: 8 berths, depths 7.01 m. to 12.19 m.
Balmain: 1 berth, depth 11.58 m.
White Bay: 3 berths, depths 10.97 m.
Rozelle Bay: 6 berths, depths 2.74 m. to 6.09 m.
Snails Bay: 4 berths, depths 10.97 m. to 12.19 m.
Mort Bay: 2 berths, depth (approx.) 9.74 m.
Oil Terminals: See "Tankers".

HEAVY LIFTS: *Wharf Cranes:* Woolloomooloo: Berth No. 11: 2 portal cranes 26.4 tonnes max.

Darling Harbour: Berth Nos. 8, 9 and 10: 1 portal crane, 26.4 tonnes max.

Container Berths: White Bay: Berth No. 4: 1 twin lift 45.72 tonnes container crane, and terminal equipment.

White Bay: Berths Nos. 5 and 6: 3 twin lift 45.72 tonnes container cranes, and terminal equipment.

Glebe Island: Berth Nos. 1 and 2: 2 single lift 35.56 tonnes container cranes and terminal equipment.

A 152.4 tonnes floating crane available, and a 254 tonnes crane on Fitting Out Wharf at Garden Island Dockyard.

BULK LOADING FACILITIES: Glebe Island, Berth No. 7 (bulk wheat). Max. permissible length and beam of ship using bulk berth: length 224.06 m., beam 32.61 m.

Berth No. 8 (bulk soda ash). Max. length 99.36 m., max. beam 13.71 m. This is a private berth leased by Imperial Chemical Industries of Australia, and the plant is suitable only for the unloading of bulk soda ash.

Balmain: Berth No. 1 (bulk coal). Max. length 198.4 m., max. beam 29.56 m. Loading capacity 1,000 t.p.h. max.

Berth to be upgraded to max. LOA 225 m. Max. beam 32.3 m. Depth to be increased to 11.6 m. and channel to 12.2 m. Loader to be upgraded to 1,250 tonnes per hour. Dredging expected to be completed March 1980.

STEVEDORES: Private companies. Stevedoring regulations are the responsibility of an operations supervisor, nominated by the ship's Agent when applying for a berth.

Shipmasters Report: August 1980:

Working Hours:

Monday to Friday: 0730 – 1430 hrs.;1500 – 2200 hrs.; 2300 – 0600 hrs.

Saturday: 0730 – 1100 hrs.; 0730 – 14.30 hrs. to finish ship only.

Sunday: Shift times as above.

Allocation (Ordering):

Weekdays: 1100 hrs. previous working day.

Weekend: 1100 hrs. Friday.

TANKERS:

	Max. permissible length of vessel	*Depth alongside*
Gore Bay No. 1 (Shell)	259 m.	13.4 m.
Gore Bay No. 2 (Shell)	171 m.	9.45 m.
Gore Bay No. 3 (Shell)	171 m.	9.14 m.
Berrys Bay No. 1 (B.P.)	160 m.	8.53 m.
Berrys Bay No. 2 (B.P.)	183 m.	10.06 m.
Ballast Point (Caltex Oil)	213 m.	8.83 m.
Pulpit Point (Mobil Oil)	168 m.	8.53 m.
Chowder Bay (Dept. of Navy)	171 m.	9.45 m.

FRESH WATER: Available at all berths at a rate of flow of approximately 30 t.p.h.

FUEL: All grades available.

IDENTIFICATION CARDS: See "Melbourne".

CONSULS: The following countries maintain consuls in Sydney:

Argentina
Austria
Belgium
Brazil
Bulgaria
Canada
Chile
Colombia
Costa Rica
Cuba
Czechoslovakia
Denmark
Dominican Republic
Ecuador
Egypt
Ethiopia
Finland
France
Germany
Great Britain
Greece

REPAIRS: Every facility available.

DRY DOCKS: Captain Cook Dock, Garden Island – length 347.16 m., No. 1 Sutherland, Cockatoo Island – length 210.33 m., No. 2 Fitzroy, Cockatoo Island – length 145.67 m. Several smaller dry docks and a number of slipways available.

GANGWAY/DECK WATCHMEN: Compulsory.

CERTIFICATES:

Last Port Customs Clearance.
Ship's Register.
Load Line.
Safety Radio.
Safety Equipment.
Ship's Articles (British Vessels).
Safety Construction.

SPECIAL REGULATIONS: *Smoke Restrictions:* Ringelmann 2 limited to 10 minutes overall, 5 minutes continuous, in 60 minutes, Ringelmann 3 limited to 3 minutes in 30 minutes, in special circumstances only and as far as practicable from shore, Ringelmann 4 prohibited absolutely. Tubes must not be blown in port.

Breaches of Port Laws by a ship (in particular, oil spillages) dealt with by requiring Master to authorise ship's Agent to accept any summons and the Agent to undertake to appear, so as not to delay sailing. If Master refuses, he may be arrested, charged and released on bail. However, it is in Master's interests to give authority, because this allows time for consideration of whether any action is to be taken.

DUES: Commonwealth Light Dues payable on the nett register tonnage of vessel, valid for a period of 3 months, in Australian waters. Harbour and Light Dues payable on vessels gross tonnage valid for 6 months for the State of N.S.W. only.

GENERAL: *Crew Members and Visitors Arriving Sydney Airport:*

There have been numerous cases where Crew Members have arrived in Sydney without Australian visas. On a few occasions, the Immigration Department has allowed certain people to enter the country but they now advise that any person arriving without a visa will be returned to their country of origin on the next departing aircraft.

Agents request, therefore that Principals ensure that Crew Members or other visitors have the correct documentation before departing for Australia.

Difficulties have also been experienced in meeting Crew Members and visitors at Sydney International Airport as there is no paging system in the arrival area and consequently, it is not easy for Agents representatives to locate incoming passengers. In future, therefore, persons meeting an Agent's representative on arrival at the airport should proceed to the Travellers Information Centre where representative will wait.

Shifting Vessels: Due to the location of the coal berth at No. 1 Balmain and its proximity to the grain loading berth at No. 7 Glebe Island, vessels loading grain at No. 7 Glebe are required to haul astern into the adjacent No. 6 Glebe berth when coal loading ships are moving in or out of No. 1 Balmain, in order to avoid the possibility of collision damage.

Previously, this has been done by warping between the No. 7 and No. 6 Glebe berths, the wharf-face being continuous.

However, due to the condition of No. 6 berth, which is in a state of dis-repair, linesmen will no longer carry mooring ropes between the berths and the Maritime Services Board now insist that a Pilot and tug must be available whilst hauling between the berths. This naturally involves additional expense being placed on the owners or operators of grain vessels loading at Sydney.

Whilst representations have been made to the MSB, no indication has been given as to whether the position will be rectified.

AUTHORITY: The Maritime Services Board of N.S.W.

AGENT: Patrick Agencies, POB 3918, 33/35 Pitt Street, Sydney, New South Wales 2001. Tel. 27–6611. Telex. AA. 20618 Cables: "Rikpat".

THEVENARD, S.A. 32.09 S. 133.39 E.

(See Plan Book)

CERTIFICATES/DOCUMENTS/HEALTH/CARGO GEAR: See "Melbourne".

PILOTAGE: Compulsory. Pilots board 2 miles seaward of No. 1 light beacon. Berthing during daylight hours only, departure anytime.

MAX. SIZE: LOA 550 ft. Max. beam 80 ft.

RESTRICTIONS: Channel depth 27 ft. (8.2 m.) LW. There is a min. depth of 18 ft. (5.5 m.) LW in the swinging area off the berths.

BERTHING: *Berth dimensions:* Length 650 ft. (198 m.) at the bulk loading berth; beam 100 ft. (30 m.). Draft subject to keel clearance of 2 ft. 6 in. (0.76 m.) for vessels up to 27 ft. (8.2 m.) draft and keel clearance of 3 ft. (0.91 m.) for vessels over 27 ft. (8.2 m.) draft provided weather and sea are calm.

Two berths, depth alongside 32 ft. (9.8 m.) LW. Vessels will be berthed head out if the draft on arrival is suitable to the depth of water in the swinging area. This particularly applies to deep loading vessels. A small tug stationed at the port to facilitate the berthing and departure of vessels. The bulk loading plant will be manned on a two shift basis with overtime as found necessary.

Bulk handling plant rates:

Wheat	300/550*	tonnes per hour
Oats	200	tonnes per hour
Barley	480	tonnes per hour
Gypsum	900	tonnes per hour
Salt	800	tonnes per hour

*Dependent on which silo grain is taken from.

FUEL: Not available.

FRESH WATER: Small quantities available. Rate 12 tonnes/hour.

REPAIRS: None.

AUTHORITY: Department of Marine & Harbours, Adelaide.

AGENT: Sub-agents of Patrick Agencies, Adelaide.

THURSDAY ISLAND, Queensland: 10.35 S. 142.13 E.

(See Plan Book)

DOCUMENTS/HEALTH: See "Melbourne".
PILOTAGE: Pilotage compulsory. ETA 24 hrs. before arrival stating max. draft and direction from which vessel arriving to: Harbour Master, Thursday Island. Further amended ETA if necessary prior to arrival. Pilot boards S.W. of Tucker Buoy or Scott Rock Buoy as required. Harbour Master will advise boarding ground after receipt of max. draft and direction from which vessel arriving. Pilot vessel white hull, orange top, flying pilot flag. Vessel awaiting Pilot to anchor West of Black Rock in Normanby Sound or off Scott Rock.
ANCHORAGE: West of Black Rock in 5.5 fathoms. Nurses' Home over shoulder of Black Rock 098° (T) with two white beacons S.E. side Goods Island in line 005° (T).
RESTRICTIONS: Daylight movements only. Draft restricted to 23 ft. (7.01 m.) LWOST.
RADIO: Thursday Island "VII" via telex to Harbour Master's office, for ETA's etc.
VHF: Call sign "Thursday Island Harbour". Listening watch during working hours. Channels 67, 16, 12 and 6.

Torres Straits Pilots on VHF Channels 16 & 12. Call sign "Reef Pilots". Watch maintained 24 hrs.
TUGS: No tugs.
BERTHING:

Wharf	*Length (m.)*	*Depth (m.)*
Main	30.0	4.00
Engineers	23.0	3.80
Caltex	22.9	5.48
Horn	12.5	5.00

STEVEDORES: 0800 hrs. pick up for day work. 1000 hrs. notice for night work. 1600 hrs. Friday notice for week-end work. Mainly general cargo handled. Approximately 8 t.p.h.
MEDICAL: Notice of required medical attention with ETA message to Harbour Master. Hospital, four doctors available. Vaccinations etc., as per Commonwealth of Australia requirements.
DENSITY: Salt at all states of tide.
FRESH WATER: Available in limited quantities most of the year.
FUEL: Small amounts diesel and distillate available at Main Jetty. Bulk distillate available at Caltex Jetty, approx. 20 t.p.h.
GANGWAY/DECK WATCHMEN: Crew member on gangway sufficient.
OPENING/CLOSING HATCHES: By Stevedores.
CERTIFICATES: Normal Commonwealth of Australia requirements. See "Melbourne".
CONSULS: Nil.
REPAIRS: Deck and engine repairs, excluding large castings.
REPATRIATION: Available.
AIRPORT: Airport on Horn Island, 2 miles by launch, 4 miles by bus. Six flights per week. Ansett Airlines of Australia regular airline. Private charter plane available.
TIME: Australian Eastern Standard Time.
HOLIDAYS: Normal Queensland Public Holidays. No cargo can be worked on Christmas Day, Good Friday, Anzac Day.
POLICE/AMBULANCE: Police 20. Ambulance 77.
TELEPHONES: None.
SERVICES: Garbage disposal. Apply to Harbour Master.
DELAYS: As wharf space limited and berthing is on a "first come, first served" basis, delays vary with amount of shipping.
AUTHORITY: Harbour Master, Department Harbours & Marine.
AGENT: Sub-agent of Patrick Agencies, Brisbane.

TORRES STRAIT:

MAXIMUM DRAFT & UNDERKEEL CLEARANCE: The Queensland Coast & Torres Strait Pilot Service will pilot vessels through Torres Strait on a maximum draft of 11.89 m. (39 ft.). This draft limitation extends from Booby Island to Bramble Cay on the Great Northeast Channel Route and from Booby Island to Cairns on the Inner Route of the Great Barrier Reef. On completion of currrent (1978) survey and tidal analyses it is possible that a deeper maximum draft will be attainable and up to date information may be obtained from "Torres", Sydney.
GANNET PASSAGE (BOOBY ISLAND) & PRINCE OF WALES CHANNEL: These are the two tidally restricted and, therefore, controlling areas for traversing Torres Strait, the Great Northeast Channel and the Inner Route. Gannet Passage has a least depth of 9.8 m. (32 ft.) and is marked by two light buoys which may be shifted from time to time. Daily tidal rises enable vessels to cross Gannet Passage allowing a minimum U.K.C. of one metre at all times of the year, weather conditions permitting and at the Pilot's discretion. There is an automatic telemetric tidal gauge situated on Booby Island (see No. 4055 – Admiralty List of Radio Signals & Radio Navigation Aids; Vol. 2, 1977) which promulgates exact tidal heights in Gannet Passage. A recent detailed hydrographic survey by H.M.A.S. "Flinders" (1977/78) established a least depth of 11.6 m. (38 ft.) on the usual pilotage track in P.O.W. Channel. It is planned to establish, in the near future, further automatic telemetric tide gauges in this channel. Masters of deep draft vessels are advised that reductions in speed may be necessary in both Gannet Passage and P.O.W. Channel.
BOARDING STATIONS: Pilots will board 4 miles West of Booby Island lighthouse or 3 miles West of Goods Island lighthouse, as required. Pilot launches keep a listening watch on VHF Channel 16 when on station. Masters are requested to ensure that pilot ladders and boarding arrangements comply with international and Australian standards of safety.
COMMUNICATIONS: *(a)* Vessels should confirm ETA, at Booby or Goods Islands, 24 hours prior to arrival and again when position has been established off the Carpentaria lightvessel. These radio messages should be addressed to "Torind", Thursday Island and relayed via Thursday Island radio station (VII).

(b) ETA messages should be given in local time (GMT + 10 hours) and be prefixed with the non-chargeable code word "Shipserv" which will ensure prompt delivery 24 hours a day, every day.

(c) When 10 miles West of Booby Island, vessels should open VHF Channel 16 and establish contact with the Thursday Island base pilot station (call sign – "Thursday Island Harbour") which maintains a listening watch on Channel 16 and operates on Channel 12. Masters should bear in mind that no Pilots are stationed on Booby Island and that it takes a pilot cutter approximately two hours to reach the Booby Island boarding station from Thursday Island.

(d) All vessels (piloted or unpiloted) are requested to keep International Radio watch hours when between Carpentaria L/V. and Bramble Cay (Great Northeast Channel Route) or between Carpentaria L/V. and Cairns on the Inner Route – see Australian Notice to Mariners No. 415/1975. A continuous VHF watch on Channel 16 should also be maintained from a position 10 miles West of Booby Island to Wyborn Reef (Inner Route) or to Bet Reef (G.N.E. Channel Route). When within the Inner or Great Northeast Channel Routes it is extremely important, for traffic safety reasons, to open the VHF on Channel 16 whenever another vessel is sighted and not to close the set until both vessels have passed, and are well clear of, one another.

(e) Masters of deep draft vessels will be advised, by radio in advance, the time limits on day of arrival when tidal conditions will permit transit of Gannet Passage & P.O.W. Channel.
TO ORDER A PILOT:
South & East Bound: Masters are requested to advise "Torres" Sydney, five days in advance, which boarding ground (Booby or Goods Islands) is required, the ETA thereat, deepest draft and where bound. Thereafter, Masters are requested to confirm, or amend, ETA to "Torind", Thursday Island as advised in *(a), (b)* & *(c)* of the "Communications" section of this entry.
North & West Bound: If in an Australian port instruct Agents to arrange with "Torres" Sydney, giving as much notice as possible. If from an overseas port and requiring a Pilot to board at any Australian port fairway, Euston Reef or Fitzroy Island, radio "Torres" Sydney, preferably about five days in advance, giving ETA at embarkation point, deepest draft and where bound. Confirmation, or adjustment, of ETA to "Torres" is also requested 48 and 12 hours prior to arrival.
Papua New Guinea: Vessels Westbound through Torres Strait (via Great Northeast Channel) may obtain a Pilot at Basilisk Beacon (Port Moresby harbour entrance) and at all main ports elsewhere in Papua New Guinea including Kieta/Anewa Bay on Bourgainville Island.
Gulf of Carpentaria: Pilots are available at the ports of Weipa, Groote Eylandt and Gove.
Northern Territory: Pilots are available at Darwin.
Any Other Place/Position: By arrangement with "Torres", Sydney.

Masters are requested to note that all shipping radio messages to Australian addresses should be prefixed with the non-chargeable code word "Shipserv" to ensure prompt delivery 24 hours a day, every day. All messages to "Torres" will be acknowledged.
AUTHORITIES: Australian Pilot, Vol. 3, 1973; pp 81 & 234–237.

Australian Notices to Mariners Nos. 138/1970, 415/1975, 37/1978.

TOWNSVILLE, Queensland: 19.17 S. 146.48 E.

(See Plan Book)

PORT LIMITS: The Townsville Harbour Board exercises jurisdiction over the Port of Townsville which is located at 19° 17′ South Latitude and 146° 48′ East Longitude and is the area comprised within a line connecting Cape Cleveland with the N.E. extremity of Magnetic Island, thence by the line of high water mark to the most Northerly extremity of Magnetic Island, thence by a line to the White Rock, thence to Bay Rock, thence to Cape Pallarenda, thence by the line of high water mark on the mainland to the point of commencement, and including all navigable rivers communicating with that area and the banks and foreshores thereof.
APPROACHES: The approach to Cleveland Bay anchorage from the Southward is clear of dangers, with the exception of Salamander Reef, the Four-foot Rock, and the Twenty-foot Rock, all these lying within a radius of 3 miles of Cape Cleveland Lighthouse.

To clear these dangers, passing North of them bring Mount Marlow in transit with the extremity of Hawkings Point, bearing 265° (258° Mag.) before approaching within 5 miles of Cape Cleveland, which will then bear 252° (245° Mag.); and, if passing between them, the leading lights on Cape Cleveland should be brought in line bearing 291° (284° Mag.) before they are approached within 5 miles. Proceeding into Cleveland Bay a depth of not less than 8.2 m. will be obtained by keeping North of the line Mount Marlow in line with Hawkings Point.

Approaching Cleveland Bay from the Northward, passing East of Magnetic Island a vessel should keep at least half a mile off Magnetic Island shore to obtain not less than 11 m. of water at LWOS. The shore is steep to except for Orchard Rocks off the N.E. extremity of the island.
ENTRANCE CHANNELS: 10 pairs of lighted beacons (numbered East and West from seaward) and the East and West Breakwater beacons mark the entrance channels into Townsville Harbour. The Fairway beacons are 210 m. apart transversely. Nos. 2 and 3 beacons are 164 m. apart and all other pairs of beacons are 180 m. apart.

Sea Channel: This Channel 1.75 miles in length (for use by vessels with draft exceeding 8 m.) lies between Nos. 1, 2, 3 and 4 beacons which are spaced at 1,070 m. intervals. Only Nos. 1 and 4 beacons are fitted with day marks.

The centre line of this channel is marked by the V-shaped white Sea Leads in line bearing 201.5° (194.5° Mag.), at night the Front Lead (No. 5 East Beacon) exhibits a white light flashing every second.

The Back Sea lead, 915 m. from the Front Lead, exhibits a white light flashing every 1.5 seconds.

Platypus Channel: The channels alter in direction at No. 4 Beacons and the centreline of the Platypus Channel proceeds in a 212° (T) direction 3.5 miles to the harbour entrance and is marked by 2 V-shaped Gayglo orange triangular leads with black centre, in line bearing 212° (205° Mag.), at night these leads each exhibit a red neon candle light. No. 5 beacons are 520 m. from No. 4 beacons, thence there are 5 pairs of beacons and the East and West Breakwater beacons at 1,000 m. intervals.

Ross River Channel: This daylight only channel which commences 1 mile 128°(T) from harbour breakwater entrance is 1.35 miles in length, 30 m. wide and carries 2.5 m. L.W.S.

Four beacons carrying red square topmarks numbered 1 to 4 from seaward are situated 15 m. from the eastern edge of this channel, spaced at 750 m. intervals. The outer (No. 1) Beacon exhibits a light flashing red every 3 seconds. All beacon topmarks at an elevation of 3.7 m.

The centre line of this channel is marked by 2 V-shaped white leads with black centres 700 m. apart in line bearing 219°(T). The leads are not lit.

Shortly after passing No. 4 beacon the 60 m. wide swinging basin is entered, on the Western side of which is situated a fishing company wharf. Depth in the swinging basin and alongside wharf is 2.5 m. L.W.S.

South of the swinging basin overhead power lines cross the river, the clearance under which is 8 m.

Presently only shallow draft vessels can proceed up river beyond the swinging basin. Dredging is in progress.

DOCUMENTS: *Customs:*

3 Crew Lists, Form M and S–11.
3 Passenger Lists.
3 Lists of Ports of Call.
1 Form 42A Ships Stores.
1 Form 5 Articles Owned by or in the possession of Master, Officers and Crew.
1 Form QA4 Quarantine Notice.
2 Forms QA5 Quarantine Shipmaster's Bond.
2 Inward Manifests.
1 Bill of Lading.
1 Outward Manifest.
1 Form 40 Application for Clearance and Guarantee to Pay Duty.

Health:

Form Q360 Health Report which is taken aboard by inspecting Officer.

Harbour Authority:

2 copies of Inward and Outward Manifest.

PILOTAGE: The Pilot is ordered through the ship's Agent or direct to Harbour Master at least 24 hours before arrival or last port of departure stating ETA and draft. Telegraphic Address "Harbour Master". VHF Channel 16. Call sign "Townsville Harbour". Pilot launch is 42 ft. wooden launch equipped with VHF Channels 6, 12 and 16. Light or sound signal by vessel requiring Pilot is International Call G. For other than deep draft vessels Pilots board within 1.5 – 2.0 miles East of Hawkins Point. Ladder placed on starboard side. Location of anchorage for vessels awaiting a Pilot is off Magnetic Island between Bremer and Hawkins Point.

ANCHORAGES: Boundaries: Orchard Rocks/Cape Cleveland. Cleveland Bay Depths 8.2 m. to 12.2 m.

RESTRICTIONS: 0.6 m. of water under keel at all times.

Harbour Depths:

Sea Channel and Platypus Channel (width 92 m.)	10.7 m.
Swing Basin (396 m. diameter)	10.7 m.
No. 1 (tanker) berth (4.6 m. off)	12.5 m.
No. 2 (20t crane) berth (4.6 m. off)	10.6 m.
No. 3 (Container crane) berth (4.6 m. off)	11.1 m.
No. 4 (Gen. & Ro-Ro) berth (4.6 m. off)	10.3 m.
No. 6 (No. 1 Pier E) Gen. cargo berth (4.6 m. off)	8.2 m.
No. 7 (No. 1 Pier W) Minerals shiploader berth (4.6 m. off)	11.0 m.
No. 8 (No. 2 Pier E) Freezer berth (4.6 m. off)	10.0 m.
No. 9 (No. 2 Pier W) Sugar shiploader berth (4.6 m. off)	10.8 m.
No. 10 (Container Ro-Ro berth)	7.0 m.
Between berth 4 and 6 (77 m.)	9.0 m.
Between berth 7 and 8 (84 m.)	9.7 m.
Between berths 9 and 10 (142 m.)	9.0 m.

MAX. SIZE:

Berth No.	*Length*	*Max. Length of Vessel*
1	244 m.	238 m.
2	256 m.	238 m.
3	256 m.	238 m.
4	246 m.	238 m.
6	134 m.	160 m.
7	183 m.	195 m.
8	217 m.	220 m.
9	230 m.	228 m.
10	160 m.	152 m.

Generally, the limit in size of vessels entering the harbour will be 238 m. in length and 34 m. beam. Large vessels will only be taken into No. 4 berth on condition that no vessels are berthed at No. 3 berth closer inshore than mark No. 18 on arrival and mark No. 16 on departure and that a vessel berthed at No. 6 berth is shoreward of No. 4 mark on both arrival and departure of a vessel at No. 4 berth.

When tankers of over 213 m. in length are being berthed at No. 1 berth, no vessel at No. 2 berth is to be seaward of mark No. 33.

Decking of all wharves is between 4.81 m. and 5.79 m. above datum.

Largest single cargo: Inward 56,506 tonnes of bulk oil. Outward, 43,772 tonnes of raw sugar.

Deepest draft vessel, 12.04 m. Longest vessel, 252.36 m. Largest vessel (Tanker) 85,180 d.w.t.

HEALTH: Townsville is a first port of entry and notification of quarantine inspection requirements should be made not more than 24 hours nor less than 12 hours in advance. Inspections may be carried out at the wharf or at the quarantine anchorage, at the discretion of the Quarantine Officer. Rat guards are to be maintained on all mooring lines while vessels are berthed in the Townsville Harbour.

RADIO: Townsville Radio. The Port Radio Station "Townsville Harbour" keeps continuous watch on VHF Channel 16. Working Channels 6 & 12.

TUGS: Normally join at harbour entrance. Tug lines or (optional) ship's lines. Tugs equipped with VHF radio and operate on Channel 16, the same as Townsville Harbour. Two tugs available bollard pull 26 tons each.

VHF: Continuous watch maintained on Channel 16. Call sign "Townsville Harbour". Channels 6 and 12 also available.

BERTHING:

No. 1 berth (isolated) is used exclusively by tankers for bulk oil discharge and by all types of vessels for bunkering.

No. 2 berth (Eastern breakwater) has two 20 t. electrically operated, level luffing, travelling jib cranes, one with an outreach of 13.7 m. and height above wharf of 18.288 m. and a second crane of similar design has been being modified to give a greater outreach with reduced lifting capacity.

No. 3 berth (Eastern breakwater) is equipped with a container crane which is leased to Townsville Transport & Services Pty. Ltd. and is operated and controlled by Northern Shipping & Stevedoring Pty. Ltd. Both of these companies are part of the M.I.M. Holdings Group. The crane has lifting capacity of 55 tons and its equipment includes an extendable spreader to suit all sizes of containers, a grab of 7.6 cu.m. capacity and a heavy lift hook. Maximum height of lift above wharf deck is 27 m. whilst the outreach beyond the wharf face is 31.85 m. and outreach over rail and road services is 23.77 m. Distance between bogies is 32.61 m. The crane traverses the full length of berth No. 3.

A recently constructed landing pad at the berth allows simultaneous use of the container crane and stern angle ramp for Ro-Ro traffic.

No. 4 berth (Eastern breakwater) has a landing pad, supported by steel piling, to service stern angle ramp Ro-Ro vessels in the U.K./Continent trade.

No. 6 berth (No. 1 pier E.) is a general purpose berth with oil bunker and bulk molasses loading pipe-line facilities.

No. 7 berth (No. 1 pier W.) supports a bulk shiploader through which passes mineral concentrates, phosphate rock and ores up to 102 mm. aggregate at the rate of 1,000 t.p.h. The berth is also equipped with bulk molasses loading pipe-line facilities.

No. 8 berth (No. 2 pier W.) services the export frozen beef trade with cargoes drawn from freezer stores erected on the pier. It also serves as a general purpose berth.

No. 9 berth (No. 2 pier E.) is the raw sugar loading berth. A bulk shiploader delivers sugar to carriers at the rate of 1,500 t.p.h.

No. 10 berth (A.N.L. Ro-Ro berth) is equipped with a stern ramp for Ro-Ro traffic and 25 tonnes, 32 m. radius, travelling jib crane for container and unit load handling.

Wharf Sheds: No sheds are available for general cargo storage at the harbour. Both free and bonded warehousing is available within 4 km. of the wharves.

Storage facilities: Oils – all major Oil Companies operate ocean terminals close to the Harbour.

Raw Sugar – 2 storage sheds of 285,000 tonnes total capacity.
Molasses – 4 bulk storage tanks of 35,000 tonnes total capacity.
Zinc Concentrates – 40,000 tonnes covered storage area.
Frozen Meat – 2 cold stores on No. 2 Pier, total capacity 2,500 tonnes.

Open space storage for Rock Phosphate, Sulphur, Crude Lead and Refined Copper.

Container Terminals: No. 3 berth, with an area of 1.2 ha., has storage accommodation for 184 dry containers.

No. 10 berth, with an area of 2.6 ha., can accommodate 400 containers, 18 of which may be connected to refrigeration power outlets.

Northern Shipping and Stevedoring Terminal with an area of 0.66 ha., has a holding capacity of 112 refrigerated containers.

Container Terminals work 24 hours per day, 7 days per week to effect speedy turn around of shipping.

STEVEDORES: Times for ordering labour: Normal 1400 hrs. previous working day. Bulk Cargoes 0930 hrs. for night labour. Saturday or holidays 0930 hrs. previous working day. Priority labour 1400 hrs. previous working day. Notice required for difficult or long tows or a cargo requiring particular or special handling.

MEDICAL: Advance notice not particularly required unless urgent assistance required. Hospital facilities available. Health book inspected by boarding doctor.

TANKERS: Diameter of load/discharge lines: white fuel 10 in., black fuel 12 in. No residue discharge facility available. One tanker at berth at any time. Max. permitted draft at berth 31 ft.

DENSITY: Average density 1025 at all times.

FRESH WATER: Fresh water is available at all berths: delivery is at the rate of approximately 90 t.p.h. using 4 hoses. Hoses have 2.5 ins. London V thread fittings.

FUEL: Bunker fuel oil and distillate is available through pipe-lines at berths 1, 6 and 7. Road tankers are used to bunker small ships at other berths.

FIRE PRECAUTIONS: Tankers required to have safety fire wires lead off foc'sle head and run as far aft as possible. Vessels at all times capable of manoeuvring with main engines.

DEVELOPMENTS:

In Progress:

1. Construction of a 457 m. rock wall extending from the Eastern breakwater in a Southerly direction and reclamation of 9 hectares which will be used to accommodate new Molasses and L.P.G. facilities and provide back-up land for the No. 3 Container Berth.
2. Construction of a small boat harbour in Ross River to accommodate a fishing fleet.

Planned:

1. Demolition of Magazine Hill.
2. Construction of one, and subsequently two, additional raw sugar storage sheds.
3. Construction of new rail access for sugar trains and marshalling yards in the area now occupied by Perkins Street.
4. Proceed with detailed plans for development of port facilities South of Ross River. A large area of land has been acquired for this purpose.

GANGWAY/DECK WATCHMEN: Services available at ship's option.
OPENING/CLOSING HATCHES: Optional for either crew or stevedores.
SHIP'S CERTIFICATES:
Passenger Ship Safety.
International Load Line.
Ship Safety Construction.
Ship Safety Equipment.
Ship Safety Radiotelegraphy.
CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes or 250 grams tobacco on arrival and then can be purchased by the packet from bar on board. Wine and/or spirits: 1 opened bottle (26 oz.) spirits or wine on arrival and then spirits by the glass and wine by the bottle, from the bar on board.
CARGO GEAR: Australian Navigation Dept. requirements.
CONSUL: Netherlands representative, Tel. 71.6188.
REPAIRS: All deck and engine repairs can be carried out.
DRY DOCKS: Slipway with a capacity of 1,525 tonnes d.w.t. Slip can accommodate a 67 m. length vessel. Air, power, and water are available at the slip.
REPATRIATION: Full facilities exist for effecting crew changes and arranging repatriation.
AIRPORT: Distance from airport 9.6 km.(6 miles), regular services.
TIME: East Australian Standard Time, GMT plus 10 hours.
HOLIDAYS: Cargo can be worked on all holidays except Christmas Day, Good Friday and the Waterside Workers' Picnic Day.
EMERGENCY TELEPHONE NUMBERS: Police, Ambulance or Fire "000", and ask to be connected to service required. Non-emergency numbers. Police 71.2121, Ambulance 79.3722, Fire Station 71.2111, Hospital 72.1333.
TELEPHONE: Ship to shore telephones are available at all berths. Oil tankers berthed in the port are required to have on board a flash proof telephone of a type approved by Telecom Australia.

Ships telephone lines are barred access to STD and trunk facilities.
SERVICES: Services available for compass adjusting, radio and radar service. A floating boom and an oil skimming device is available to deal with oil spills. Chemical dispersants are used for minor spills.

A garbage collection vehicle will call at each ship which has ordered the service before 0800 hrs. each day or at other times as directed by the Quarantine Officer. All garbage must be kept in drums with tight fitting lids on board the vessel until the arrival of the collection vehicle.

Ships crew is required to deliver garbage to the collection vehicle.
SHORE LEAVE: Crew members allowed shore leave.
AUTHORITY: Townsville Harbour Board.

AGENT: Sub-agent of Patrick Agencies, Brisbane.

WALLAROO, S.A.: 33.56 S. 137.37 E. (See Plan Book)

DOCUMENTS: See "Melbourne".
PILOTAGE: Compulsory. Pilot boards from 0.5 to 1 mile West of the No. 1 Fairway Beacon. Pilot vessel colours – orange hull, yellow superstructure.
RESTRICTIONS: No berthing at night. Approach Channel 27 ft. 09 in. (8.5 m) at low water.
VHF: Listening Channel 16. Working Channel 6
TUGS: One Tug available.
BERTHING: 6 berths. Depths various from 24 ft. (7.3 m.) to 31 ft. (9.4 m.). Bulk loading berth length 950 ft., dredged width 118 ft.
FUEL: Available by road tanker.
STEVEDORES: Arrangements with private companies.
FRESH WATER: Available all berths. Delivery rate 15 t.p.h. Boosted rate 60 t.p.h.
REPAIRS: Engineering firms available from Port Adelaide.
AUTHORITY: Department of Marine & Harbours, Adelaide.

AGENT: Patrick Agencies, P. O. Box 111, 2 Owen Terrace, Wallaroo 5556, South Australia. Telephone: 23-2412 or 23-2340.

WEIPA, Queensland (including Albatross Bay): 12.42 S. 141.41 E. (See Plan Book)

PORT LIMITS: Seaward boundary commencing at a point at high water mark on the Western Extremity of Duyfken Point, thence by a line in a 173° (T) direction to the high water mark at Boyd Point.
DOCUMENTS/HEALTH: See "Melbourne".
PILOTAGE: Vessels requiring Pilot may apply to Harbour Master, Weipa 48 hours before arrival, confirming ETA 24 hours before. Vessels to give Harbour Master their draft. Generally speaking minimum berthing draft should be, forward 2% of vessel's length and aft, the propellor completely immersed.

Pilot boat is 11 m. (length), named "Rowland Masterman" and painted orange. It may be contacted on VHF Channel 16. Pilot boards 1 mile S.W. of Fairway Beacon.
ANCHORAGE: Anywhere in Albatross Bay except between 2 lines situated 1 mile North and South respectively of the line of leads and extended to the port limits.
RESTRICTIONS: Weipa Approach Channel is 7.8 miles long with a min. depth of water 11 m. (36 ft. 1 in.) LWOST. Usually vessels up to 30,000 d.w.t. enter channel at any stage of the tide. Vessels of over 30,000 d.w.t. enter at any stage of the flood up to 2.5 hours before HW.

Usually vessels up to 30,000 d.w.t. can berth at any state of the tide. Vessels of over 30,000 d.w.t. due to their departure draft and existing tug power must berth starboard side alongside and can do so at any stage of the flood tide. Vessels normally depart 2 hours before HW. Some vessels up to 30,000 d.w.t. can depart on LW.
MAX. SIZE: Maximum LOA 254 m. (835 ft.) Beam 35.3 m. (116 ft.) Draft depends on height of tide and 90 cm. (3 ft.) keel clearance is required.
HEALTH: See "Melbourne".
RADIO: Forcomal, Sydney Radio and within 48 hours Thursday Island Radio.
VHF: Call "Weipa Harbour" on Channel 16 on arrival 1 mile S.W. of Fairway Beacon. Tugs operate on Channels 6, 8 and 12. Vessels to advise "Weipa Harbour" passing Fairway Beacon inward and outward and on arrival at and prior to departure from the wharf.
RADAR: No Port Radar.
TUGS: Vessels entering North of Cora Bank tugs join at No. 25 Beacon. Vessels entering South of Cora Bank tugs join at No. 19 Beacon. Tugs are usually used in the lashed up position using tug's lines.

3 tugs are available of 13, 23 and 24 Tonnes bollard pull.
BERTHING: Loading and discharge at Humbug Point generally by ship's gear but mobile cranes may be hired if required.

Evans Landing Wharf is generally only used for petrol and distillate discharge.
CRANES: 2×70 tonne P.&H. 1×31 tonne P.&H. 1×26 tonne P.&H. 2×12 tonne Austin and Weston. 1×12 tonne B.H.B. 1×8 tonne Cranville.
BULK HANDLING FACILITIES: Two Bauxite Berths, Lorim Pt. West old berth and Lorim Pt. East which is an extension of the previous old berth. Depth alongside Lorim East 12.5 m. (41 ft.) Lorim West 12.5 m. (41 ft.).

Loading rates are Lorim West 3,500 t.p.h. Lorim East 6,000 t.p.h. If there are vessels at both berths loading simultaneously the rates are West 3,500, East 4,500.
SPECIALISED CARGO HANDLING FACILITIES: Nil.
BRIDGES: Nil.
STEVEDORES: No special advice required. None available for working on ships.
MEDICAL: Inoculations per Australian Regulations. No notice required for medical attention. Urgent cases flown out and treated at Cairns or Thursday Island. Hospital facilities available for minor cases.
TANKERS: Eight inch discharge lines. Tankers berth at Evans Landing and Lorim Point.
DENSITY: Dry Season 1024. Wet Season 1012. These figures can vary considerably.
FRESH WATER: Available at all berths. 5 t.p.h.
FUEL: Not available.
FIRE PRECAUTIONS: No specific precautions.
STORES: Very limited stores are available. In emergency large orders could be supplied only if several days notice given by radio, as they have to be flown from Cairns.
DEVELOPMENTS: The Alumina Plant at Weipa has been deferred indefinitely.
GANGWAY/DECK WATCHMEN: Available.
OPENING/CLOSING HATCHES: Work carried out by crew.
SHIP CERTIFICATES: Ship's Register, Load Line, Safety Radio and Safety Equipment Certificates. See also "Melbourne".
CONSULS: None.
REPAIRS: Not available.
DRY DOCKS: Nil.
SURVEYORS: Lloyd's surveyor available at Cairns.
CUSTOMS ALLOWANCES: See "Melbourne".
CARGO GEAR: See "Berthing".
HOLIDAYS: Vessels are loaded and berthed or sailed at any time.
POLICE/AMBULANCE/FIRE: Police 733119, Ambulance 733444, Fire 733444. As no telephone supplied contact "Weipa Harbour" on Channel 16 for these services.
SERVICES: Not available.
SHORE LEAVE: See "Melbourne".
IDENTIFICATION CARDS: See "Melbourne".
REGULATIONS: Vessels may not immobilise without written permission from the Harbour Master.
DELAYS: The only delays to be normally expected are as under restrictions, i.e. awaiting tides.
REPATRIATION: Can be arranged.
AIRPORT: 7 miles from airport. Served by Ansett.
TIME: GMT plus 10 hours.
AUTHORITY: Harbour Master, Dept. Harbours and Marine, Weipa.

AGENTS: Sub-agent of Patrick Agencies (through Patrick's Melbourne).

WESTERNPORT, Vic.: 38.21 S. 145.14 E.

(See Plan Book)

PORT LIMITS: The Port Authorities consider a vessel to be arrived when she crosses an imaginary line between West Head and Point Grant.

DOCUMENTS: Application for berth, tugs, mooring launches, telephones, and notification to load or unload, to be delivered by Ship's Agent to Harbour Master not less than 24 hrs. before arrival.

Customs Documents required:

Form	M & S 11	Crew List and attachments, 3 copies.
	M 42 A	Stores List, 1 copy.
	5	Articles owned by or in possession of crew, 1 copy.
	C & E 886	Ports of call since commencement of voyage, 3 copies.
	QA 3	Quarantine Form. (Animals carried as cargo), 1 copy.
	QA 4	Quarantine Form. (Animals carried as pets), 1 copy.
	QA 5	Ship Master's Bond re animals carried, 1 copy.
	Q 360	Health report of all persons on board, 2 copies.
		Inwards Manifest, 1 copy.
		Outwards Manifest, 1 copy.
	40	Application for clearance.

PILOTAGE: Pilotage compulsory for merchant vessels except those specially exempted. Pilots for Westernport are available at any time provided notification of ETA is given 24 hours in advance and confirmed 6 hours prior to arrival. Pilot for Westernport will board from a launch, painted orange and showing the signals and lights prescribed for such vessels, by day approximately 3 miles Southward from West Head. By night in the white sector of McHaffie's Point Light, with Cape Schank Light bearing 295° (White), at the entrance to Westernport. Pilot launch is equipped with VHF Channel 16 (156.8 mHz).

In adverse weather, vessels to 9.5 m. draft may board Pilot adjacent to yellow buoy 2 miles – 084° from Flinders jetty light. At night buoy shows Fl. Y. 4 secs.

Harbour Master's Office requires notification of vessels ETA at Fairway Buoy 24 hours prior to arrival. Confirmation of ETA is required 6 hours prior to arrival. To minimise delays in co-ordinating Port services vessels expecting to arrive between the hours 0900 to 1700 hours should ensure Harbour Master receives confirmation by 0830 hours that morning.

Vessels expecting to arrive between the hours 1700 to 0900 hours should confirm ETA by 1530 hours that afternoon.

Vessels expecting to arrive during a weekend period should indicate ETA by 1530 hours on Friday, then follow above procedure.

Telex Number of this Office is PHWP AA 34051.

ANCHORAGES: Anchorage within port between Southern edge Tortoise Head Bank, and Northern shore of Phillip Island. Anchorage 4 miles in length, East to West, and 1.25 miles wide, depths 16 m. – 27 m. at Western end, decreasing 11 m. – 20 m. at Eastern end.

An anchorage area having a least depth of water of 8.5 m., has been established adjacent to Long Island Jetty.

RESTRICTIONS: No vessel shall enter port with less underkeel clearance than ten per cent of draft.

MAX. SIZE: Governed by underwater clearance. Vessels drawing up to 14.5 m. may enter depending on state of tide, but underkeel clearance shall not be less than ten per cent of draft.

Oil jetties can accommodate vessels of up to 100,000 tons, depending upon water available.

See "Tankers".

RADIO: *Advice to ships Masters on Westernport Harbour Control*

GENERAL INFORMATION

1. *Radio Watch*	A continuous radio watch will be kept by Harbour Control on VHF Channel 16. Main working channel is 14.
2. *Pilot Boarding Ground*	Position 3 mile × 180° from West Head will be identified as position "A".
3. *Fairway Buoy*	Position of Fairway Buoy (ISO. 2 sec.) will be identified as position "B".

INWARD BOUND VESSELS

1. Vessels shall report to Harbour Control at least 1 hour before arrival at position "A" or "B", giving ETA position "A" or "B", deepest draft and information re-hull leaks and health of crew, etc.
2. Vessels must request permission to enter port. It is an expressed condition of entry that any malfunction or impairment of machinery, steering and propellor indicators which could cause restrictions in the manoeuvring ability of the vessel, is reported to Harbour Control and to the Pilot when engaged.
3. Vessels shall advise Harbour Control when passing Fairway Buoy (position "B"). Sea lashings to be removed from anchor cables and anchors made ready for immediate use.
4. Vessels shall advise Harbour Control when rounding Sandy Point and request VHF Channel for berthing operations and tugs.
5. Vessels shall report to Harbour Control (Channel 16) when all fast, finished with engines and tugs dismissed.

OUTWARD BOUND VESSELS

1. Vessels shall contact Harbour Control 1 hour before fixed time of departure advising if they will/will not be ready to sail in 1 hour's time.
2. Vessels will be advised at sailing time by duty Harbour Master re permission to sail, port movements, etc.
3. When vessels clear their berth and tugs dismissed and proceeding they shall report this to Harbour Control (Channel 16).
4. Vessels to advise Harbour Control when (a) Rounding Sandy Point. (b) Clear of Port.

VESSELS PROCEEDING TO ANCHORAGE

1. Vessels inward and outward to an anchorage are to use the same procedure as in above for inward and outward vessels respectively. Vessels will be advised if required to anchor and what anchorage to use. Whilst at anchor vessels shall keep a continuous listening watch on Channel 16.
2. Vessels shall advise Harbour Control when they have anchored and also when vessels are underway again from an anchorage.

ENGINE TRIALS AND LIFEBOAT DRILLS, ETC.

1. Vessels wanting to carry out engine trials shall first obtain permission from the duty Harbour Master.
2. When lifeboat drills are to be held and boats swung out and put into the water the duty Harbour Master shall be given prior notice.
3. All vessels in the port shall notify Harbour Control (Channel 16) of any distress signals sighted or any untoward occurrence.

PRATIQUE: Advise state of crew's health 24 hrs. prior to arrival. If all healthy, pratique granted subsequent to berthing; if crew's health suspect, doctor boards prior to berthing. Pratique automatic when more than 14 days have elapsed since calling at a foreign port, and the vessel has subsequently been granted pratique first at another port within the Commonwealth of Australia. Pratique may be granted 24 hrs. a day.

TUGS: Two tugs are available both of 1,500 h.p. and 22 ton bollard pull. Tugs join vessel at Sandy Point. Ship's lines normally used by tugs. Tugs are fitted with VHF and radar and fire-fighting equipment. Additional tugs available from Melbourne given 24 hrs. notice.

BERTHING: Berthing subject to Harbour Master's direction. 3 oil berths, 2 steel works berths (one is Ro/Ro) and 2 tug berths are available.

Steel Industry Wharf (2 Berths) (16.5 n.m. from Entrance): Berths are owned and utilised by J. Lysaght (Australia). Approach channel has a depth of 9.1 m. Depth alongside both berths is 12.1 m. Swing basin diameter 457 m. Steel works is 2.5 Km. from berth.

Steel Industry Wharf No. 1: Ro/Ro Berth – Vessels with stern door up to 10,000 tons.

Ramp details: Length 28 m. (curved), width 8.5 m. Ramp made up of 7 sections which are hydraulically operated to allow accommodation of various types of stern loading/discharging vessels.

Ramp section is approximately 3 m. proud of stern berthing fenders.

Steel Industry Wharf No. 2: Conventional General Cargo Wharf. 152 m. long, 24 to 15.6 m. wide. Reinforced concrete wharf with wooden fendering. A mooring dolphin is provided 30 m. N.E. No. 2 Berth is adjacent and extends in a N.E. direction from No. 1 Berth.

Max. size of vessel to 200 m. length – 40,000 d.w.t.

Tidal range at berth:	Between 2 m. and 3 m.
Nature of Bottom:	Mud, clay and some rock.

Vessel can dock/undock at any stage.
Vessel can dock/undock during hours of darkness.
Vessels moor using ship's lines to Harbour Master's requirements.
Pilots used, unless Master holds special exemption. Water available.
Bunkers by Road Tanker only, subject to Harbour Master's approval.
Engines may be immobilized whilst ship is alongside, subject to Harbour Master's approval.
Stores and supplies can be delivered from dock or by launch.

STEVEDORES: Westernport is a class "B" port for stevedoring facilities. Port Waratah stevedores available. Require ETA's of vessels from Agent. Ordering time for labour: Tuesday – Friday, by 1430 hrs. previous day. Saturday – Sunday, by 1430 hrs. previous Friday. Monday, by 1430 hrs. previous Sunday. All close holidays observed.

CARGO GEAR: No shore cranes. All vessels must comply with Commonwealth of Australia Regulations prescribed under the Navigation Act.

MEDICAL: Four qualified medical practitioners available and 20-bed Nursing Hospital. Agent should receive prior notice of particulars of vaccinations required.

TANKERS:

Crib Point Jetty: (2 Berths, 13 n.m. from Entrance): Berths are State owned and utilised by B.P. (Australia). The approach channel has 14.3 m. below chart datum, swing basin has a diameter of 610 m., and depth of 14.3 m.

No. 1 Crib Point: Capable of accommodating 100,000 ton tankers with a depth alongside of 15.8 m. Shore gangway used at this berth.

No. 2 Crib Point: Capable of accommodating 40,000 ton tankers with a depth alongside of 12.8 m.

Crib Point Terminal General:

Grades Handled – Crude, Black Oils, White Oils, Bunkers.

Tank Height – Crude Tank base 17 m. above sea level.
Full 37 m. above sea level.

Distance of tank farm to Jetty Head – 2 km.

Hose and Pipe-line diameters:

Crude: 4×12 in. diameter hoses. 2×24 in. diameter pipe-lines.
Pumping rate up to 5,000 T/hr. Max. back pressure 150 p.s.i.

Black Oil: 4×12 in. diameter hoses. 1×16 in. diameter pipe-line.
Pumping rate up to 1,500 T/hr. Max. back pressure 150 p.s.i.

White Oil: 2×10 in. diameter hoses. 1×16 in. diameter and 2×12 in. diameter pipe-lines.
Pumping rate 700–1,000 T/hr. Max. back pressure 150 p.s.i.

Bunkers: 1×8 in. diameter hose. 1×12 in. pipe-line.
Pumping rate 200–500 T/hr. Max. back pressure 150 p.s.i.

Reducers: Refinery has reducers from 12 in. to 6 in.

Hoses connected by B.P. Airdraft to manifold 16 m. above MHW.

Ballast capacity 30,000 tons.

Long Island Jetty (1 Berth 15.5 n.m. from Entrance):
Berth is State owned and utilised by Esso (Australia). The approach channel has a depth of 14.3 m., swing basin has a diameter of 548 m. and a depth of 14.3 m. There is a depth of 15.8 m. alongside the berth. Berth used for export of Gippsland Crude and L.P.G. Can accommodate vessels up to 100,000 tons. Shore gangway used.

Long Island Terminal General:

Tank Height above sea level – Crude Base 13.7 m. Tank Full 28 m.
L.P.G. Base 7.6 m. Tank Full 36.6 m.

Distance of tank farm to Jetty – Crude 3 km. L.P.G. 1 km.

Hose and Pipe-line diameters:

No Hoses. "Chiksen" Arms used. Airdraft to manifold 16 m. above MHW.

Crude: 2×16 in. diameter Arms. 2×30 in. diameter pipe-lines.

Max. pumping rate 7,250 T/hr. Max. back pressure 125 p.s.i.

L.P.G.: 1×12 in. diameter Liquid Arm. 1×12 in. diameter Vapour Arm. 1×20 in. liquid pipe-line.

Max. pumping rate 1,750 T/hr. Max. back pressure 85 p.s.i. (Refrigerated).

Reducers: Terminal has 8 in., 10 in. and 12 in. A.S.A. Reducers. Arms connected by Esso.

Ballast, normal capacity 15,000 tons, up to 22,000 tons with 48 hours notice.

Pollution: Cases of discharging dirty ballast or oil spillage will be investigated and vessels are liable to fines and/or detention. Vessels shall not discharge into the waters of the port any part of the contents of their cargo, slop or ballast tanks (this includes clean ballast) or tank washings or bilges which are liable to pollute these waters. Masters shall ensure that pipe-lines and equipment are clean before using them for discharging anything into the waters of the port. Scuppers shall be plugged effectively and no leakage or spillage from any vessel shall be allowed to leak or be swept overboard.

Masters of vessels must seek permission from Harbour Master before pumping anything into the waters of the bay.

The State of Victoria has stringent laws in force concerning the pollution of the sea by oil.

Smoke emissions controlled under the Clean Air Act which will operate under the jurisdiction of the Environment Protection Authority.

Ballast (Tankers): All ballast contained in tanks connected in any way to the vessel's cargo carrying system, is to be discharged to shore tankage.

Fire Precautions: Tankers shall not immobilise main engines whilst alongside jetties. Vessels must observe Port Rule 113 (Dangerous Goods and Oil in Ports) 1974. No oil cargo handling or physical preparation for same permitted unless firewatch tug is on duty.

Tank Washing/Gas Freeing: Permitted alongside subject to approval from Harbour Master. All tank washings to be discharged ashore.

Garbage: Garbage and rubbish will be collected daily from vessels within the Port, all collections shall be a charge on the vessel.

Bunkers: Fuel oil and diesel oils available at Crib Point Jetty only via direct line from refinery. Delivery rate approximately 350 t.p.h. 48 hours notice is required for lubricating oil. Small quantities of marine fuel are available from road tankers at other berths.

Fresh Water: Available, approximate rate 100 t.p.h. Approximate price $1.00 per 4.5 cu.m. Delivered from hydrants at Jetty Heads at all Berths.

Density: Average density between 1025 and 1030 oz. per cu.ft.

Mooring: Vessels secure to oil jetties using ship's lines and shore preventor wires, at all times.

GANGWAY/DECK WATCHMAN: A shore watchman may be hired. Cost borne by the vessel.

CERTIFICATES:

- Clearance from last port.
- Ship's Register.
- Articles of Agreement.
- Official Log Book.
- Load Line Certificate.
- Safety Radio Certificate.
- Safety Equipment Certificate.
- Derat. Certificate.
- Light Dues Certificate (receipt).
- Pratique Certificate from last port (if to be used in this port).

CUSTOMS ALLOWANCES: *(a)* Tobacco: each crew member permitted either 200 cigarettes or 8 oz. of pipe tobacco, or 8 oz. of Fine Cut Tobacco out of Bond. *(b)* Wine and/or Spirit: each crew member is allowed 0.17 gallon of wines or spirits (opened).

IDENTIFICATION CARDS: Required for all nationalities except the United Kingdom, Canada, South Africa, Japan, Israel, Norway, Denmark, Fiji, Hong Kong, Malaysia, and South Korea. Also see "Melbourne".

CONSULS: None.

REPAIRS: Facilities for medium size deck and engine repairs. All repairs subject to Harbour Master's approval.

REPATRIATION: Facilities available.

AIRPORT: Nearest major commercial airport is Tullamarine, 55 miles distance, from which there are frequent interstate and international flights. Airport accessible by road in about 2 hrs. by taxi-car.

TIME: Summer, GMT plus 11 hrs. Winter, March-October GMT plus 10 hrs.

HOLIDAYS: Oil terminals work on all holidays. Steel works observe close holidays.

POLICE/AMBULANCE/FIRE: Police Hastings 791270; Ambulance Frankston 7832222; Fire. Hastings 791345, and Crib Point 839221.

TELEPHONES: Port Authority insists that Public Telephone is placed on board. Cost of this service $75.00, plus cost all trunk calls.

GENERAL: Vessels secure to oil jetties using ship's lines and shore preventer wires at all times.

SERVICES: Licensed Compass adjuster available. Underwriters' Representatives available. Radio and Radar repairs available.

SHORE LEAVE: Crew members permitted shore leave, and launches can be supplied to vessels at anchor, provided vessels have pratique, and have been cleared by customs.

DELAYS: No delays anticipated. Port operates 24 hrs. per day.

AUTHORITY: Ports and Harbours Branch, Department of Public Works, Melbourne; or The Harbour Master, Crib Point.

AGENT: See "Melbourne".

WHYALLA, S.A.: 33.02 S. 137.36 E. (See Plan Book)

LOCATION: Situated on Western shore of Spencer Gulf opposite to and 27 miles by sea from Port Pirie. Open to all Southerly winds, which seldom interfere seriously with operations.

BUOYAGE: "IALA" Buoyage system "A" has been adopted.

The system is that the port hand beacons are red in colour, lights red, topmarks can shape and even numbered. The starboard beacons are green in colour and lighting, topmarks cone shape and odd numbers.

FACILITIES: Jetty for iron ore loading, and dredged harbour with one main wharf for steel and general cargo, and for bulk cargoes of coal, coke, limestone, pigiron, salt, etc. Harbour berths are safe berths.

DOCUMENTS: See "Melbourne".

PILOTAGE: Compulsory except for those vessels whose Masters hold Exemption Certificates. Pilots board 0.5 to 1.5 miles East (105°) of Whyalla No. 1 Ore Loading Jetty. Vessels requiring Pilot should request service in sufficient time enable Pilot be ordered before 1600 hrs. Monday to Friday and should show prescribed signal within at least 10 miles of Whyalla. If delayed berthing, Master informed by radio and recommended anchor at Pilot boarding station (see above).

ANCHORAGES: Quarantine line extends in direction 241° from Black Point to Coast Southwestward of port. Quarantine anchorage shown on Australian Chart AUS.135, lies Southeastward of quarantine line and Eastward of jetty. Anchor preferably North of harbour leads. Vessels should not anchor on harbour or jetty leads, but should anchor, draft permitting, approximately 1 mile North of Outer Fairway beacon. Holding ground good with hard clay and sand bottom.

RESTRICTIONS: Vessels will not be moved within port by Pilot unless at least 10% of max. draft in water beneath keel. Min. clearance 2 ft. Also see "Berthing".

PRATIQUE: Whyalla is a port of first entry. 48 hours' notice of request for pratique required. Pratique granted at anchorage or in berth. Also see "Melbourne".

RADIO: Cable "Hematite Whyalla" also local Agent *(a)* on departure from previous port advising ETA and total cargo for discharge Whyalla (if any); *(b)* 48 hours prior arrival giving ETA; *(c)* 24 hours prior arrival giving ETA; *(d)* advise any alteration in ETA exceeding 2 hours; *(e)* advise estimated draft on arrival fore and aft. These cables necessary in order ensure loading and labour. Cables to be signed with Master's name. Cables sent outside working hours should be prefixed "Shipserv". In event vessel arriving direct from overseas port requiring pratique, following additional advice to be cabled: No. of crew, nationality, and whether health vaccination certificates required.

VHF: Port equipped with VHF. Service maintained 24 hours a day. Call sign "Whyalla Harbour".

TUGS: All tugs fitted VHF radio. 4 tugs available between 2.5 and 23 tons bollard pull. Wire towropes not to be used unless risk of damage to tug undertaken by ship. Charge for use of tug's lines. Orders for tugs to be made at least 2 hours before required and not later than 1530 hrs. Monday to Friday. Ferry services undertaken to ships at anchorage outside harbour when requested.

BERTHING: Iron ore loading jetty no longer in service, lies near Eastern side of town is 2,273 ft. long with T head formed by 6 dolphins. At night, the dolphin shows fixed white light,

No. 2 Jetty max. length of vessel 820 ft. Depth of water alongside 38 ft. LW. Approach Channel depth 35 ft. LWOST. Swinging basin, depth 35 ft. LWOST.

Stowage factor iron ore, 13–15 ft. per ton. No stevedoring incurred and generally cargo loaded lower holds and no trimming necessary.

Whyalla Harbour: About 1.25 miles to North or iron ore jetty. Entrance Channel 300 ft. wide and approx. 6,000 ft. length. Water depth in Channel and basin 9.5 m. LWOST. Depth of water at Harbour Wharf 10.7 m. LWOST. Berth length 600 ft.

DENSITY: Specific gravity of water approximately 1028 to 1035 therefore vessels must load light.

STEVEDORES: Shift work 21 hours per day on continuous 7 day roster. At least 24 hours notice for labour requirements.

MEDICAL: Resident doctors and hospital available.

FRESH WATER: Available at No. 2 Jetty and all wharves.

FUEL: Bunkering not normally undertaken. Fuel oil, coal and diesel oil available at Whyalla Harbour Wharf in emergencies only.

REPAIRS: Essential repairs only. Consult ship's Agents before maintenance or repairs undertaken.

STORES: Marine and bonded stores can be procured by arrangement with Adelaide. 5 days notice required.

SURVEYORS: Resident surveyors for Lloyds, also Department of Shipping & Transport. Lloyd's agents are Adelaide Steamship Co. Ltd.

GANGWAY/DECK WATCHMAN: Available at ship's option.

REPATRIATION: Air, road and rail facilities available.

AMBULANCE: In event of accident contact Agent or BHP 419 or BHP 2205. After hours BHP 699. St. John's Ambulance Services (tel.: 45–7777) available 24 hours daily.

Aerial Ambulance available for transfer of patients to a metropolitan hospital.

SHORE LEAVE: Crew members permitted shore leave, and launches, at ship's option, provide regular schedule to anchorage – weather permitting.

AUTHORITY: The Broken Hill Proprietary Co. Ltd.

AGENT: Sub-agent of Patrick Agencies, Adelaide.

WYNDHAM, W.A.: 15.27 S. 128.06 E. (See Plan Book)

PORT LIMITS: All waters in the Cambridge Gulf South of a line extending from Cape Dussejour to the summit of Hill 437 on Lacrosse Island, thence to Cape Donett.

CERTIFICATES/DOCUMENTS/HEALTH: See "Melbourne".

PILOTAGE: Compulsory for all vessels entering port except those whose Masters have pilotage exemptions. Pilot boards South of Lacrosse Island in a position with Lacrosse Lt. Ho. bearing 350° distant 5.5 miles. Vessels arriving early should anchor in or near this position. Preferably vessels should arrive at Pilot boarding ground at dawn, as Gulf negotiated during daylight only.

Pilot no longer stationed permanently at Wyndham, but there is usually one there from April to November/December. Early advice (2 weeks) to Harbour and Light Department in Fremantle initially is essential. 48 hours prior arrival give ETA to Harbour and Light Department, Wyndham.

All ships awaiting a Pilot should maintain listening watch on VHF Channel 16 at least 2 hours prior to Pilot boarding time, have engines on stand-by at least 1 hour before boarding time, and be ready to proceed in accordance with the Pilot's instructions given by VHF.

The approaches Channel has a min. depth of 6.4 m. LWOST.

ETA: Shipserve "Harbour Master Wyndham" required 48 and 24 hours notice prior arrival. The 24 hours message should be timed to be delivered before 1630 hrs. local time on the day before arrival so that arrangements can be finalised, when possible, in working hours.

Indicate max. draft in the 48 hours notice.

APPROACHES: Generally speaking, it is preferable to arrive at the Pilot station at daybreak. Approach Medusa Bank Buoy and pass Westward (buoy bearing 090° distance 1 mile). Steer 180° until Lacrosse Island lighthouse bears 040°, distance 2 miles. Alter course to 145° to a position with Shakespeare Hill and Cone Hill in transit (086°), Cone Hill distance 4 miles. The course should then be altered to 225°. Course clears Guthrie and East Banks and puts Black Cliff right ahead.

It will be noted that a conspicuous hill (un-named) is sighted immediately behind Black Cliff Point and these together form an excellent lead down this part of the Gulf to a position off Islet Point. From this point onwards pilotage is fairly complicated. There is a submerged wreck off the jetty, which must be considered when berthing and unberthing. Large vessels may only navigate the Hare Channel at half tide or better, as there is a 6.4 m. patch in the fairway.

RESTRICTIONS: The max. length of vessel permitted to navigate the Gulf is 189 m. overall. Longer vessels fitted with bow thrusters have used the port by special permission.

The Gulf is not navigable during hours of darkness at present.

MAX. SIZE: Length 190 m. draft 8.8 m.

HEALTH: Wyndham is a first port of entry. Masters are required to radio Port Health Authority, Wyndham, not less than 12 hours prior to arrival at pilotage station and giving state of health of the vessel. Examination for pratique is usually conducted after arrival alongside and nobody is permitted ashore until doctor's examination is completed.

BERTHING: There is a jetty of 283 m. in length. The Southern 210 m. having a least depth of 9.14 m., there is slightly less water at the Northern end.

Ordinary moorings are used. A launch is on station to run lines. There is no tug available.

FRESH WATER: Available at both berths. Supply is 10 t.p.h. approx.

STEVEDORES: Working hours: 0730 to 1130 hrs., 1230 to 1630 hrs., 1630 to 1830 hrs. When no extension of work, labour finishes at 1630 hrs.

Labour is organised by the A.E.W.L. WWF conditions prevail, four gangs are available. Prior advice as to labour requirements, hatches to be worked, etc., is of great assistance to stevedores.

CARGO HANDLING: By ship's gear only direct to railway wagons and motor transport. One 12-ton Coles slewing crane and two 5-ton mobile cranes are available, provided sufficient notice is given. A short railway connects the jetty, goodshed, and meatworks. Fork-lift trucks and pallets are used for handling general cargo where suitable.

A container park and facilities for handling and storage of reefer and dry containers ashore has been installed.

Bulk Loader on South Berth, grain loading rate 120 t.p.h.

FUEL/TUGS/REPAIRS: None.

TIME: GMT plus 8 hrs.

AUTHORITY: Harbour & Light Department, Fremantle. Local Authority: Harbour Master, Harbour and Light Department, Wyndham.

AGENT: Sub-agent of Patrick Agencies, Fremantle.

YAMPI SOUND, W.A. (Cockatoo Island and Koolan Island): 16.08 S. 123.38 E.

PORT LIMITS: The port limits, which are not marked on the charts of the area extend from a position in Lat. 16° 13′ 13″ South, Long. 123° 32′ 32″ East in a Northerly direction for 10 miles to about midway between Bathurst and Irvine Islands, thence Eastward for 15 miles, thence Southwards to the mainland passing nearly 0.75 of a mile Eastwards of Koolan Island. The Southern limits of the port includes all the intermediate coastline between the Eastern and Western limits as defined above.

DOCUMENTS: The following documents should be prepared prior to arrival if Yampi is the first port of entry to Australia:

Health:
2 copies – Form Q360
Customs:
2 copies – Form M&S 11 (List of Crew)
1 copy – Form 42A (Store List)
1 copy – Form 5 (Articles owned or in possession of Master, Officers or crew)
3 copies – Form C&E (Ports of Call)
1 copy – Form QA4 (Declaration of Ship's Pets)
1 copy – Form QA5 (Shipmaster's Bond) – completed only if pets on board
3 copies – Crew List – unofficial
3 copies – Ship's Bonded Stores – unofficial

The following Certificates are required to be produced if Yampi Sound is the first port of entry to Australia:

Loadline Certificate
Safety Radio Certificate
Safety Equipment Certificate
Safety Construction Certificate
Commonwealth Light Dues Certificate (receipt)
Custom's Clearance from last port

PILOTAGE: Yampi Sound is not a compulsory pilotage area. However, the Company's Port Officer holds a foreign going Master's Certificate, is well versed in local conditions and will act as Pilot for Masters requiring his service. The Port Officer will board at the quarantine anchorage.

As a Westerly wind is quite common, Masters are advised that their vessel should be adequately ballasted prior to berthing operations.

ANCHORAGE: Yampi Sound is a well sheltered deep water port with good all weather anchorages.

The quarantine anchorage is located on the Eastern side of Yampi Sound, with Nares Point bearing 090° True, distance 2 miles.

MAX. SIZE: *Koolan Island:* LOA, 260.7 m. (875 ft.). Breadth, 40.23 m. (132 ft.). Draft (ordinary) 15.54 m. (51 ft.) however loading permitted to 52 ft. on rising tide.

Cockatoo Island: LOA, 225.55 m. (740 ft.) Breadth, 36.57 m. (120 ft.). Draft (ordinary) 12.49 m. (42 ft.). However vessels can exceed the berth depth (42 ft.) by completing loading on a rising tide, to a max. draft of 13.41 m. (44 ft.).

HEALTH: Yampi Sound is a first port of entry to Australia, and valid Vaccination Certificates are required. The doctor is normally available during daylight hours only, excepting emergencies.

A gangway is required at the quarantine anchorages to allow the doctor and customs to board. A pilot ladder is not acceptable.

RADIO: The port is able to communicate with vessels which are fitted with VHF radio through the normal international maritime channels. The call sign is "KOOLAN ISLAND". A continuous listening watch is not maintained on Channel 16.

The telegraphic address for Yampi Sound is "Ironsteel", Derby, W.A., and Masters of vessels destined for Yampi Sound are required to advise their ETA by radio on departure from the previous port, and at 72 hours, 48 hours, and 24 hours prior to arrival, depending on the vessel's departure from that port.

TUGS: The following vessels are available for shipping movements within Yampi Sound.

Kalibah – 850 hp. Tug – 15 tonne bollard pull
Takora – 350 hp. Tug – 5.5 tonne bollard pull
Collendina – Line launch
Also available for general cargo work is
Wandi II – Landing Barge of 60 tonne capacity

TIDES: Tidal streams within Yampi Sound generally set Easterly with the flood, and Westerly with the ebb tide. At Koolan Island wharf, the tidal stream sets Eastward except for a period from 0.5 hour before to 2.5 hours after high water when the tidal stream sets Westward.

At Cockatoo Island jetty the tidal stream sets Eastward except for a period from 1 hour before to 3 hours after high water when the tidal stream sets Westward.

At spring tides these streams are most pronounced, however may become confused at neap tides.

Further advice on tides and tidal movement can be obtained from the Company's Port Officer.

LOADING ZONES: A Summer Loading zone exists at Yampi Sound with the exception of a Seasonal Tropical Allowance from 1st May to 30th November.

BERTHING:
Koolan Island

The loading berth at Koolan Island consists of a substantial, well fendered wharf 170.7 m. long with the centre located approximately 16° 08.3′ S., 123° 44.3′ E. Additional mooring dolphins are located each end of the wharf to accommodate vessels of up to 130,000 d.w.t. with a maximum beam of 41 m.

The depth of water alongside the wharf is 14.8 m. at LWOST with a tidal range of up to 10.67 m.

The shiploader consists of a travelling, retractable, luffing, conveyor boom capable of loading iron ore at a rate of 3,000 t.p.h., and can move a distance of 118.9 m. along the wharf. Larger vessels may be required to shift along the berth to complete loading operations, the vessel's Master being fully responsible for shifting operations at all times.

Loading is normally continuous with the exception of closed holidays such as Christmas Day, Anzac Day, Good Friday, etc.

General cargo handling facilities at this wharf include a 33 tonne travelling and luffing crane on the Eastern end. Shore labour is available only for use as mooring gangs, and loading and handling of cargo on the wharf only. There are no ship foremen.

Cockatoo Island

The loading jetty at Cockatoo Island consists of 6 dolphins aligned in a 117° T – 297° T direction over a distance of 210.3 m. with its centre, located approximately 16° 06.3′ S. 123° 36.8′ E. Berthing dolphins are located 111.9 m. and 82.9 m. from the centre of each West and East end dolphin respectively. The dolphins are well constructed with a facing of rubber tyres from the wharf decking to low water level.

The depth of water alongside is 11.8 m. at LWOST with a tidal range of up to 10.67 m.

The shiploader consists of a fixed, retractable, luffing conveyor boom located between the 2 centre dolphins and is capable of loading iron ore at a rate of 1,800 t.p.h.

Due to the fixed nature of the shiploader, ship's Masters are required to bring each hatch in sequence under the boom, by warping the vessel along the jetty. During these operations Company employees are in attendance for handling the shore end of mooring lines only. The vessel's Master is fully responsible for the warping operations at all times.

Loading is normally carried out from 0600 to 2000 hrs. local time. These hours may be extended to complete loading operations. Loading is not carried out on closed holidays such as Christmas Day, Anzac Day, Good Friday, etc.

General cargo is not handled at this jetty.

MEDICAL: There is a resident doctor on Koolan Island and a small medical centre on both islands. However, the nearest hospital facilities are at Derby, 140 km. from Yampi Sound, and all patients are transferred by aircraft.

SERVICES: Stores, laundry service, fresh water, repair facilities, divers and trading bank facilities are not readily available.

Fresh water can be supplied in an emergency while moderate amounts of stores are obtainable if sufficient notice has been given beforehand. Limited cash can be obtained.

Bunkers are not available, while distillate is available in moderate quantities only after prior arrangement.

The facilities in the townsites of Cockatoo and Koolan Islands are very limited and include a Post Office, Supermarket, Shop, Savings Bank, Open Air Cinema, and a Private Club. There is a swimming pool at Koolan Island townsite.

AIRPORT: There is an airstrip located on both Cockatoo and Koolan Islands and flights by the Company's Charter Aircraft connect with the Australian airline system at Derby, 140 km. from Yampi Sound.

FIRE PRECAUTIONS: There are no fire services available, except the Works Fire Brigade and the safety of the vessel, due to the isolated nature of the berths, remains the responsibility of the Master at all times.

International shore connections are readily accessible at both Cockatoo Island jetty and Koolan Island wharf.

POLICE/AMBULANCE/FIRE: In an emergency the Port Officer should immediately be informed.

Emergency telephone numbers:	*Koolan*	*Cockatoo*
Medical	60	20
Fire Brigade	23	32
Port Officer – Home	48	0–48
Office	72	0–72
Policeman	01	0–01

TIME: GMT plus 8 hours.

PORT REGULATIONS: Whilst in the Port of Yampi Sound, Masters are respectfully requested to observe the appropriate Quarantine Regulations, particularly in regard to the following matters:—

Garbage, waste oils and tank cleaning compounds should not be discharged into the sea whilst in Yampi Sound.

Rat guards should be used at all times.

SHORE LEAVE: Identity cards are not necessary for shore leave. The townsite on Koolan Island is 10 km. from the wharf and on Cockatoo Island 3.5 km. from the jetty. Transport to the townsite is very limited, and only during working hours. Seamen and visitors are not permitted to walk near the quarry areas, and are cautioned to keep clear of all machinery.

Permission must be obtained before seamen and visitors proceed ashore as blasting in the quarry areas can take place at any time.

GENERAL INFORMATION: The sole export from Yampi Sound is iron ore which is quarried on Cockatoo and Koolan Islands by the Dampier Mining Co. Ltd., a subsidiary of the Broken Hill Proprietary Co. Ltd.

The first shipment of iron from Cockatoo Island was made in 1951, while the first shipment from Koolan Island was made in 1965.

During the year ended November 1975, 3.5 million tonnes of iron ore were shipped from Yampi Sound by 72 vessels. The largest shipments loaded to date have been 105,159 tonnes by the Norwegian vessel "Mosfield" from Koolan Island, and 65,141 tonnes by the Norwegian vessel "Voywi" from Cockatoo Island.

From November to March Yampi Sound is near the Southern extremities of the N.W. monsoonal influence and cyclones can be expected during this period. The effects of cyclones are more prevalent in this area early in this period, however cyclonic conditions have been experienced at Yampi Sound during February/March.

During the season November to March (known locally as the "Wet"), the prevailing winds are Westerly, strong at times, particularly during the afternoon. Rain and thunder squalls are also frequent during the "wet", and Master's are warned to be watchful for storms, as the accompanying winds can be gale force.

The season April to October (known locally as the "Dry") brings a period of very little rain and frequent periods of strong South-Easterly winds during the mornings, giving way to light Westerly sea breezes in the afternoons. No cyclones are likely during this period.

	Koolan Island	*Cockatoo Island*
Depth of Water		
Berth	15.85 m. (52 ft.)	12.80 m. (42 ft.)
Turning Basin	20.10 m. (66 ft.)	16.45 m. (54 ft.)
Channel	20.10 m. (66 ft.)	16.45 m. (54 ft.)

NOTES

Please also advise Shipping Guides Ltd.

Azores

HORTA, Faial: 38.32 N. 28.38 W. (See Plan Book)

DOCUMENTS:
3 Crew Lists.
3 Passenger Lists.
For Customs
Arrival Declaration.
Manifest of Cargo for discharge or in transit.
Provisions List.
Request to commence load/discharge.
For Port Health
Deratisation Certificate or exemption.
Health Clearance from Last Port.
For Port Captain
Seaworthiness Certificate.
Certificate of Registry.
Tonnage Certificate.

PILOTAGE: Can be called by two long and one short blasts on the whistle, or by International Code flag "G". Radio contact with pilot station can be made by VHF Channel 16; Phone 2182; via radio station CUG, or in cases of urgency, through the Horta Naval Radio Station CTH.

Pilot launch painted black with "Pilotos" painted on each bulwark. If requested by Master, Pilot will board at entrance of Faial-Pico Channel or Faial-St. George Channel. Otherwise Pilot will board at port entrance. Vessels waiting for pilot must remain 1.5 miles from the breakwater with Ponta de Doca Lighthouse in line with Avia Larga Lighthouse on Pico Island.

ANCHORAGE: The best holding ground is with the breakwater light in line with the tower of San Francisco church bearing 272°, and with Ilheu Negro in line with Casa Joao Catita bearing 203°. Another line of good soundings is in the open Channel dos Ingleses.

MAX. SIZE: For berthing, max. draft 22 ft. Depth in the artificial port is 36 ft. at high water. Depth at buoy moorings: 33 ft. Vessels of any draft can anchor outside the port.

HEALTH: If vessel has not touched any contaminated port, Pilot will haul up signal "TO" and Health Inspector will give free pratique. Master is obliged to send the Maritime Declaration of Health given by the Pilot to shore within one hour together with a Crew List and Cargo Manifest. If vessel has suspected case of fever on board or is coming from a port in a contaminated zone, pratique will only be given after Health Inspector has boarded.

RADIO: Commercial station CUG and Naval station CTH.

TUGS: None available.

STEVEDORES: Gangs are provided by local stevedores syndicate when requested by Master or Agent.

MEDICAL: Doctors and hospital facilities always available.

FRESH WATER: Can be provided by one water barge, capacity 57 tons, cost 38.50 Escudos per ton.

FUEL: Not available.

GANGWAY/DECK WATCHMEN: Police Guard or Coast Guard (Cabos de mar).

OPENING/CLOSING HATCHES: Performed by stevedores.

CUSTOMS ALLOWANCE: Up to 150 grammes tobacco and small allowance wine or spirits for each man.

IDENTIFICATION CARDS: Not required.

CONSULS:
France
Greece
Germany
Italy
Netherlands
Norway

REPAIRS: Machinery and small electronic repairs can be effected.

REPATRIATION: Can be arranged.

TIME: GMT minus 1 hour all year round.

HOLIDAYS: 1st January; 25th April; 1st May; 10th June; 24th June; 15th August; Corpus Christi; 5th October; 1st November; 8th December; 25th December.

POLICE/AMBULANCE/FIRE: Police 22022; Ambulance 22122; Fire 22333.

TELEPHONES: Can be connected on board vessels berthed alongside.

SHORE LEAVE: Allowed.

AIRPORT: Several flights during the day from Faial Airport, 10 km. from the port, to Lajes airport and International Airport at Santa Maria. There is a daily boat service to Pico and several weekly to other islands.

AUTHORITY: Capitao do Porto da Horta.

AGENT: Casa Bensaude, Importacoes e Exportacoes SARL, Horta, Faial, Rua Vasco da Gama 42. Cables "Bensaude Horta". Tel. 23032/40 (9 lines).

PONTA DELGADA: 37.44 N. 25.40 W. (See Plan Book)

DOCUMENTS:
1 Store List.
4 Crew Lists.
4 Landing Passenger Lists.
4 In Transit Passenger Lists.
2 Manifests of Cargo Being Landed.
1 In Transit Cargo Manifest.
Ship's Register.
Load-line Certificate.
Safety Equipment Certificates (London Convention).
Deratting Certificate.

PILOTAGE: Good deep approach. Harbour Pilot boards 0.5 mile S.E. of breakwater. Radio Harbour Master direct or through Agent ETA 48 hours notice. ETA message to include draft, reason for calling, type of bunker required, fresh water required, oil products needed, nature of repairs and what cargo, if any, aboard.

Pilot station with visual signal tower and radiotelephony, at entrance of port installations. Telephone number 2.35.50. Pilot's motorboat – Pilotos in capital white letters printed both sides hull, as well as flag "P" hoisted during day or 1 red and 1 white light at night.

When necessary, Pilot motorboat will complete identification by flashing word "Pilotos".

Besides usual signals of ICS, Pilots' station, when necessary, will hoist on main signal tower the following:

By Day – Flag "X" of ICS – Wait outside Harbour (for Portuguese or foreign ships regularly visiting Ponta Delgada); Flags "OG" of the ICS – Wait outside Harbour (for all other ships);

By Night – Two green lights (one above the other) – Wait outside the Harbour (for Portuguese and foreign ships).

ANCHORAGE: Outside artificial harbour, in roadstead and off breakwater, anchorage suitable for all ships whose drafts are too deep for admission into artificial port – over 40 ft. depth. Good holding ground.

RESTRICTIONS: Vessel considered adversely trimmed when more than 10 ft. "by the stern" or 2 ft. "by the head".

MAX. SIZE: Up to 38 ft. draft.

HEALTH: The Pilot requests Master to hoist quarantine flag when vessel comes from an infected port, or when sick people carried on board. Port doctor then boards for inspection and nobody allowed to board or leave vessel before completion of inspection.

Animals: Importation and transit of all birds and small animals allowed but valid health certificate and valid rabic vaccination certificate required. All staff and Crew members of vessels arriving from a port officially declared infected by smallpox, not allowed go ashore, unless in possession of vaccination certificate.

RADIO: San Miguel Radio, call sign CUG. Transmitting on 1663.5 kHz. Receiving on 2182 kHz. Radio telephone frequencies 4415.8, 8792.8, and 13175.5.

RADAR/VHF: Harbour radar covers range of 20 sea miles; controls inside harbour waters. VHF location – main signal tower. Call sign – "Pilotos". Operating 24 hours on Channel 16. Range 20 to 25 miles.

Calls must be made on Channel 16 and then shift to Channels 20 or 22 as indicated by Port Operations Station. Channel 13 used for communications between tug, Pilot station, Pilot aboard, during manoeuvres of mooring and unmooring. It should be understood that the Port Operations Station is not to be used for ship's business with Agents or Shippers of cargo.

TUGS: Two tugs, 1,100 h.p. and 3,400 h.p. operated by Junta Autonoma available for assistance during berthing and unberthing.

BERTHING:
No. 1 – Quay for small craft.
No. 2 – West Quay, 1,069 ft. long, min. depth alongside, LW, 20 ft.
No. 3 – Central Quay, 678 ft. long, min. depth alongside, LW, 27 ft.
No. 4 – East Quay, 2,023 ft. long, min. depth alongside, LW, 40 ft.
Mooring buoys in depths ranging from 20 to 30 ft.

MEDICAL: Large well-equipped hospital. Santa Casa da Misericordia de Ponta Delgada, telephone number 2.23.22 and Clinica de Bom Jesus, telephone number 2.53.52.

TANKERS: Vessels carrying explosives, inflammable liquid or any other dangerous cargoes, before entering port, must hoist International Code Signal "B" at foremast during day and a red light at night. Upon boarding vessel the harbour Pilot enquires from the Master whether there are explosives and any other dangerous cargoes on board. Masters requested to supply accurate information as to quantity and nature in order to enable Port Authorities to select a suitable berth or anchorage for vessel.

Constant Readiness: Vessels carrying dangerous cargoes, while moored, must maintain engines and propulsion machinery in readiness to leave the port under full power, if necessary.

STEVEDORES: Available. Early advise to Agent recommended.

FRESH WATER: Available at all quays ex hydrants.

FUEL: Bunkers are readily available but, for their own convenience Masters should telegraph Agents quantity and type of bunkers required. In order to avoid possible delays to their own and other vessels, Masters are requested to replenish bunkers at the time suggested by their Agents.

GANGWAY/DECK WATCHMEN: Customs Guards are on duty upon the quay and at the entrance of the wharf. Customs guards are also placed on board and those assigned for this duty should be provided with meals (at regular meal times) and sleeping quarters on board.

CUSTOMS ALLOWANCE: Storerooms will be sealed but a reasonable quantity of stores, estimated as indispensable for consumption, may be removed before sealing. This amount should be ready for removal from the storeroom prior to arrival at berth.

CARGO GEAR: Mobile Cranes: 1×12 ton; 2×6 ton; 1×5 ton; 1×3 ton; 1×6 ton (auto-crane); 1×5 ton (Rapier motor crane); as well as 7 lift trucks from 2.5-4 tons. Tender for passenger vessels.

IDENTIFICATION CARDS: No Crew members allowed ashore without landing cards, which are supplied by Agents.

Greece	,, 2 41 29	U.S.A.	,, 2 22 16

REPAIRS: Engine or other repairs can be undertaken. Repairs to electric installations, motors and refrigerating systems can also be undertaken as well as repairs to wireless stations (including VHF, radio-telephone equipment, radar, Echo-sounders, direction-finders, gyro-compasses, steering-gear, Sal logs and cinema projectors).

Workshops duly equipped to undertake hull and engine repairs. Divers and equipment also available for some underwater work. Small tugs, motor-launches and lighters. Small slipway for vessels up to 200 ft. long. No dry-docking available. A seagoing salvage tug, owned by Junta Autonoma is stationed in the port.

REPATRIATION: Can be arranged.

AIRPORT: 3 km. from Ponta Delgada. Daily flights to Lisbon by TAP-Air Portugal and to Airport of Santa Maria and to Lajes Airfield (Terceira Island) and Faial by Sata Airlines.

Daily connections with flights of TWA and TAP-Air Portugal, to and from Europe and United States or Canada.

TIME: GMT, minus 1 hour. No changes.

HOLIDAYS: 1st January – New Year's Day, 25th April (Liberty Day), June 10th (Portugual Day), Corpus Christi, August 15th, October 5th, November 1st, December 1st, Monday before Ascension Day. Government offices close on afternoon of Maundy Thursday and on afternoon of Christmas Eve. Most firms close on Shrove Tuesday and Good Friday.

POLICE/FIRE/AMBULANCE: Police telephone 22022; Fire telephone 22333; Ambulance telephone 22022.

TELEPHONES: Any ship moored alongside can be connected to the city's telephone network, upon request through the ship's Agent.

GENERAL: Visual storm signals are shown on Main Signal Tower.

SERVICES: Fresh and dry provisions available all the year round.

SHORE LEAVE: Allowed.

REGULATIONS: Ballast: Vessels must arrive with sufficient ballast to permit safe handling.

Ratguards: It is advisable to use ratguards while moored alongside. Scupper Covers: Boards or other suitable devices must be used to cover outlets from lavatory discharges, etc., to prevent fouling of pier or craft alongside.

Garbage: It is absolutely forbidden to dispose of cinders, garbage, or any other refuse inside the harbour or within the territorial waters limit. Non-compliance is subject to heavy fines.

AUTHORITY: Junta Autonoma Dos Portos Do Distrito. de Ponta Delgada.

AGENT: Casa Bensaude, Sarl. P.O. Box 188, Ponta Delgada, St. Michael's, Azores. Telephone: 22201 (6 lines), after hours – 25450 and 25782. Telex: 82162 Gruben P. Cables: Bensaude Pontadelgadaazores.

NOTES

Please also advise Shipping Guides Ltd.

Bahamas

FREEPORT: 26.31 N. 78.46 W. (See Plan Book)

DOCUMENTS:

(a) Inwards:

Description	*Customs*	*Immigration*	*Agents*	*Total*
1. Crew Lists	2	—	1	3
2. In transit Passenger List	2	2	2	6
3. Disembarking Passenger List	2	2	2	6
4. Stores List	2	—	—	2
5. Gift shop inventory	2	—	—	2
6. Crew's Declaration	2	—	—	2
7. Ship's Report Inwards (supplied by Agents)	2	—	—	2
8. Maritime Declaration of Health (supplied by Agents)	1	—	—	1
9. Cargo Manifest for Freeport	4	—	2	6

10. Landing cards supplied by Agents to be completed by each disembarking passenger.
11. Baggage Declaration forms supplied by Agents to be completed by each disembarking passenger.
12. Clearance from last port will be collected by Customs.
13. Deratisation Certificate should be available for inspection.

If vessel's previous port of call was in Bahamas items (7), (8) and (13) need not be complied with.

When vessel requires Consular Despatch to country such as Venezuela, two extra copies items (1), (4) and (6) should be supplied.

(b) Outwards:

Description	*Customs*	*Immigration*	*Agents*	*Total*
1. Ship's Report Outwards (supplied by Agents)	2	—	—	2
2. List of embarking passengers (if any)	2	2	2	6
3. Outward Manifest Freeport cargo	2	—	2	4

If vessel clearing for another Bahamian port item (1) does not have to be complied with, but copy of next port's manifest required.

PILOTAGE: Compulsory for passenger vessels exceeding 199 gross tons and freighters exceeding 399 gross tons. Pilotage is compulsory for tankers berthing at Borco dock, but vessels calling for bunkers only may anchor and bunker by barge without using Pilot services. However, pilotage recommended. Pilot station located in position in which Freeport light bears 050° true, distance 3 miles. Approaching Freeport, particularly from North West, keep at least 3 miles from shore, and, when off port, remain at pilot station until boarded by Pilot. Pilotage area extends from pilot station to offshore refuelling moorings, anchorage to West of harbour entrance and harbour. Pilots available any time of day or night. Harbour signal station maintains a 24 hour watch for visual and radio signals. Borco on VHF Channel 16 only.

Vessels can communicate by RT on 2182 kc/s., and once they have established contact will normally be asked to switch to one of the following frequencies: 2638 or 2738 kc/s. Vessels can also communicate by VHF Channels 16 and 14. Freeport call sign on all frequencies is ZFP 81 or Freeport Harbour Control. Give ETA 48 hours in advance, with subsequent corrections as necessary.

ANCHORAGES: There is a good offshore anchorage approximately 2,500 feet to the North West from the entrance channel for a distance of 1.5 miles (submarine cable in existence) which is sheltered from Northerly winds. The bottom of the sea is lime and coral rock covered by sand and loose lime.

APPROACHES: The following landmarks are prominent when approaching the port: Borco Refinery 3 chimneys. 369 ft. above mean low water. White with red bands showing three sets of four red lights at night. Visible approx. 20 miles. Bahamas Cement Company storage silos just to West of harbour entrance. Visible approx. 15 miles.

Currents in the area are not predictable and are largely wind induced. Harbour is approached through straight channel 1,800 ft. in length, 300 ft. width and with controlling depth of 30 ft. below mean low water. Turning basin, 2,000 ft. by 1,800 ft. Vessels may enter and leave harbour on 24 hour basis, weather permitting.

MAX. SIZE: *Tanker Berths.*

Berth		*d.w.t.*	*Depth Alongside (MLW)*	*Max. Draft*
No. 3	up to	38,000	50 ft.	40 ft.*
4	,, ,,	55,000	54 ft.	47 ft.*
5	,, ,,	90,000	80 ft.	50 ft.*
6	,, ,,	312,000	87 ft.	83 ft.
7	,, ,,	65,000	53 ft.	40 ft.* Heading East 42 ft. Heading West
8	,, ,,	100,000	56 ft.	50 ft.*
9	,, ,,	130,000	68 ft.	51 ft.*
10	,, ,,	500,000	92 ft.	88 ft.

*Drafts on berths 3, 4, 5, 7, 8 and 9 are limited by depths over submarine pipe-lines in berth approaches.

HEALTH: Pratique granted by Customs Boarding Officer after Maritime Declaration of Health form completed by Master and Deratisation Certificate examined. Important that vessel should not commence refuelling nor work cargo until cleared. A vessel arriving from another Bahamian port, e.g. Nassau, does not require pratique. If any suspected disease or fever on board, pratique may be withheld, pending examination by Government Medical Officer.

RADIO: Recommended that radio messages giving ETA, etc., be transmitted via Miami Radio.

Tankers proceeding to Borco Installation should transmit the following information within 6 hours of clearing at last port:

(a) name of tanker;
(b) name of port at which the tanker last called;
(c) date and hour of estimated time of arrival at Freeport.

It is imperative that the Master of each tanker shall establish communications with the refinery at least 72 hours prior to the estimated time of arrival, and that the refinery be notified of any change in ETA. Four hours before arrival at Freeport the Master should establish contact by VHF radio and advise on vessels precise estimated time of arrival. Any berthing instructions will be passed to the Master at this time.

Radio Telephone: A continuous watch is maintained by the Control Tower of Freeport (Bahamas) Harbour on 2182 kc/s. and on VHF Channel 16 (156.80 Mc/s).

Working frequencies are:—

Medium Frequencies:

2638 kc/s. — Ship-to-Shore
2738 kc/s. — Ship-to-Shore
2782 kc/s. — Freeport Harbour (Private frequency).

VHF: Channel 14 (156.70 Mc/s).

In addition, Freeport Harbour can communicate on:

2031.5 kc/s. — Miami Marine.
2118 kc/s. — Miami Marine.
2198 kc/s. — Nassau Marine.
2670 kc/s. — Coast Guard

TUGS: NEPCO provide four tugs for assisting in berthing and unberthing. Two of these are of 4,300 h.p. and 2 of 1,000 h.p. In addition there are 2 chartered tugs of 4,000 h.p.

STEVEDORES: Freeport Harbour Company, Ltd., are the sole stevedoring company. Some limitation on labour availability and difficult to obtain more than 2 gangs at any one time. Normal discharging rate 10 d.w.t. per hook per hour. Port Authority operate forklift trucks ranging from 2 to 30 tons capacity. First ETA at least 48 hours prior arrival, to ensure labour booked in time.

MEDICAL: No port medical officers. Persons requiring attention must proceed approximately 7 miles to Freeport's hospital and dental clinic, or to Antoni Clinic or Lucayan Medical Group Clinic which approximately same distance from port area. Advance notice to Agent desirable but not essential.

SPECIALISED CARGO-HANDLING FACILITIES: *Cement:* Bahamas Cement Company own and operate the whole of Basin No. 3 (1,365 ft. by 350 ft. by 636 ft. – depth 30 ft. at MLW), with bulk handling facilities.

Roll-on/roll-off: Basin No. 1: 2 ramps for 2 vessels (passenger/car ferry type) at S.E. end. Depth 28 ft. MLW. Both ramps approx. 4 ft. above MHW. 1 is adjustable.

Basin No. 2: 2 ramps for 5 landing ship type vessels at S.E. end. Depth 15 ft. MLW. 1 ramp 4 ft. above MLW (4 vls.), the other 0 ft. (1 vl.).

TANKER BERTHING FACILITIES: There are 4 off-shore loading platforms (sea islands) situated between 2,500 and 3,600 ft. from the shore line at Pinder's Point. There are 2 berths on each platform making a total of 8 berths which can accommodate tankers ranging in size from 16,000 to 500,000 d.w.t.

Inside the harbour at Dock 1 are facilities for handling smaller vessels, mainly barge loading and import/export of refined products on a small scale. This is the only Mogas import berth for the island.

Borco Dock 1:

The No. 1 Dock area is the centre of Neptow's Operations. Neptow, an affiliated Company of Borco, is responsible for the maintenance and provision of all marine transport associated with the off-shore operation. Neptow provides tug-boats, mooring boats, personnel carriers, pilotage service and bunker barge facilities, the barges being used to bunker and water vessels in the harbour and in the anchorage.

The working length of the dock is 600 ft., it will accommodate vessels up to approximately 18,000 d.w.t. (Deadweight tons) with a maximum draft of 27 ft.

Neptow provide a bunkering service. This service is given to vessels visiting the Port of Freeport, (cruise ships, cargo ships), and to vessels anchoring outside the port solely to purchase, bunker fuel. The barge service is also used occasionally at Borco's marine facilities when it is more convenient to bunker a vessel by barge. Bunker fuel supplied to the above mentioned vessels ranges from diesel oil to heavy fuel oil, blends being made in between to suit individual customer requirements.

Products imported or exported via the No. 1 Dock loading facilities are:—

Imports:
1. Premium Gasoline.
2. Regular Gasoline.
3. Heavy Fuel Oils for Bunkering.
4. Heavy Fuel Oil, to be supplied as bunker fuel to visiting tankships.

Exports:
1. Diesel oil to small craft for inter-island distribution.
2. All grades of fuel oil into barges or tankships when scheduled for delivery to the Out-Islands or the East Coast of U.S.A.

Note: Tankships, except for gasoline imports, normally only use the No. 1 Dock facilities during occasions of extreme bad weather.

Loading Platforms:–The 3 loading platforms which accommodate berths 3 & 4, 5 & 6, 7 & 8 are of fully enclosed, box like type of construction the interior of which contain equipment for the operation of each respective platform.

The platform serving 9 & 10 Berths is of a slightly different design in-so-much that it is of an open type construction with no between decks storage space.

All of the platforms are situated in an elevated position approximately 40 ft. above sea-level and are supported by piling structures sunk into the sea-bed.

The platforms serving berths 3 & 4, 7 & 8 and 5 & 6, 9 & 10 are interconnected by cat-walks which extend in a N.W./S.E. direction, in line with prevalent weather conditions. The overall lengths of these structures are approximately 2,040 ft. and 3,000 ft. respectively.

Each loading platform is entirely self-sufficient in that they each have their own power supply, fresh water, office and store-rooms, fire fighting and anti-pollution equipment, slop systems, storm water systems and a host of contributory operating equipment. Communication systems amount to P.B.X. Telephones, Magneto Telephones (inter-Jetty communication) and 2 VHF Radio systems.

Two fresh water lines extend from the shore, one to 9 & 10 berths and the other to 3 & 4 berths. Fresh water is then supplied to 5 & 6 berths via 9 & 10, and 7 & 8 berths via 3 & 4. This water supply can also be used to water tankships alongside the platforms.

To enable tankships to be safely secured alongside the loading facilities, each platform and associated cat-walk unit has mooring dolphins with quick-release mooring hooks and integral capstans.

Berths 3 & 4. Situated approximately 2,500 ft. from the Pinder's Point shore-line with a platform size of 94 ft.×100 ft.× 12 ft. in depth. Submarine sea lines available are:

1×30 in. Diameter	Crude Oil Line.
2×24 in. ,,	Fuel Oil Lines.
1×20 in. ,,	Diesel Oil Line.
1×20 in. ,,	Kero/Jet Line.
1×20 in. ,,	Naphtha Line.
2×20 in. ,,	Dirty Ballast Lines.
1×18 in. ,,	Bunker Fuel Line.

These pipe-lines terminate at 12 in. Chiksan Marine Loading Arms – Counter balanced and hydraulically powered.

Berths 5 & 6. Situated approximately 3,600 ft, from the Pinder's Point shore-line with a platform size of 100 ft.×144 ft.×12 ft. in depth. Submarine sea lines available are:–

Berth No. 5.

2×30 in. Diameter	Crude Oil Lines.
1×24 in. ,,	Fuel Oil Line.
1×20 in. ,,	Diesel Oil Line.
1×20 in. ,,	Kero/Jet Line.
1×20 in. ,,	Dirty Ballast Line.
1×18 in. ,,	Bunker Fuel Line.

Berth No. 6.

2×30 in. ,,	Crude Oil Lines.
1×24 in. ,,	Fuel Oil Line.
1×20 in. ,,	Dirty Ballast Line.
1×18 in. ,,	Bunker Fuel Line.

These pipe-lines terminate at 16 in. Chiksan Marine Loading Arms of the same design as on berths 3 & 4.

Also incorporated on berth 6 is a Berthing Approach System which is used by the Pilots as an aid in safely moving vessels on or off the berth.

Berths 7 & 8. This platform was completed and handed over in 1973. Situated approximately 2,500 ft. from the Pinder's Point shore-line with a platform size of 110 ft.×90 ft.×12 ft. in depth.

Submarine sea lines available are:–

2×24 in. Diameter	Fuel Oil Lines.
1×20 in. ,,	Diesel Oil Line.
1×20 in. ,,	Kero/Jet Line.
1×20 in. ,,	Naphtha Line.
1×20 in. ,,	Dirty Ballast Line.
1×18 in. ,,	Bunker Fuel Line.

There is no crude oil facility available at this berth. Crude oils will be handled by berths 5, 6, 9 & 10 under normal conditions and by berths 3 & 4 if required.

The above listed pipe-lines terminate at 12 in. Chiksan Marine Loading Arms, again similar in construction to the berths mentioned previously. 6 arms service each berth of which 2 are bunker lines and the remaining 4 for product loading.

Berths 9 & 10. This platform, the most recent addition to the marine loading facilities at Borco was completed and handed over in 1974.

Situated approximately 3,600 ft. from the Pinder's Point shore-line with a platform size of 190 ft.×125 ft. (No below deck space) this facility is of a rather different design to the other loading platforms namely:–

The platform is of a completely open design with major operating equipment sited on the top surface. Ancillary equipment such as slop and storm water systems are situated below the platform. Because of its design, equipment is more readily available and build up of hydrocarbon vapours is eliminated.

Other features incorporated within the platform design are:–

1. Weather recording station.
2. Meter (Bunker) proving systems – electronically controlled.
3. Berthing approach system for No. 10 berth which is used by the Pilots as an aid in safety moving vessels on or off the berth.

Submarine sea lines available are:–

1×20 in. Diameter	Bunker Fuel Line.
1×24 in. ,,	Fuel Oil Line.
1×20 in. ,,	Ballast Water Line.
1×42 in. ,,	Crude Oil Line.
1×30 in.	Crude Oil Line.

As can be readily seen this platform is a crude oil/fuel oil loading/discharging facility only, white oil products are not available. The above stated lines terminate at 10 Chiksan Marine Loading Arms, again similar in construction to those on other platforms. The service per berth as below:–

No. 9 Berth.	1×12 in. Diameter	Bunker Fuel.
	1×12 in. ,,	Ballast.
	1×12 in. ,,	Fuel Oil.
	2×12 in. ,,	Crude Oil.
No. 10 Berth.	1×16 in. Diameter	Bunker Fuel.
	1×16 in. ,,	Ballast.
	1×16 in. ,,	Fuel Oil.
	2×16 in. ,,	Crude Oil.

BALLAST: Facilities are provided for discharge of dirty ballast at the tanker jetties. Each jetty is connected by a 20 in. ballast pipe-line. These lines have been tested to 350 lb. pressure and are designed for 150 lb. working pressure.

DENSITY: Salt water. Rise and fall of tide between 3 ft. and 3 ft. 6 in.

FRESH WATER: Fresh water available by pipe-line in the harbour. Average pumping rate 18 t.p.h. per connection with maximum 2 connections in the harbour. Fresh water also supplied by barge to the tanker berths at the rate of about 30 t.p.h.

FUEL: All grades available. 24 hours notice desirable. Bunkering facilities are provided at each tanker jetty. One 16 in. pipe-line provides "C" fuel and intermediate fuel, and one 16 in. pipe-line provides marine diesel and gas oils. Fuel also available to vessels at anchor by barge.

GANGWAY/DECK WATCHMEN: Not necessary as security guards patrol port area 24 hours a day.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

SHIP CERTIFICATES: Deratisation Certificate required.

CUSTOMS ALLOWANCES: 50 cigars or 200 cigarettes or 1 lb. tobacco and one quart of spirits per man.

CARGO GEAR: Currently no cranes based permanently in harbour area. However, mobile cranes can usually be made available, although essential shipowners consult Agents before accepting heavy lifts requiring shore facilities for discharge

CREW IDENTIFICATION CARDS: Not required.

CONSULS: No foreign Consuls Freeport.

REPAIRS: Only minor repairs.

REPATRIATION: Facilities for crew changes and repatriation by air.

AIRPORT: Approximately 4 miles from harbour, served by following airlines: British Airways, Eastern Airlines, Air Canada and Pan American Airways.

TIME: GMT minus 5 hours. Summertime, from April to October, GMT minus 4 hours.

HOLIDAYS: No cargo work in the port on following days: New Year's Day; Good Friday; Easter Sunday; Christmas Day. Work ceases 1700 hrs. on day preceding above holidays and commences 0800 hrs. on day after.

POLICE/AMBULANCE/FIRE: Police tel. 352-8333. Police station approximately 2 miles from harbour, and operates several radio-controlled vehicles. Ambulance tel. 352-6735. Ambulance based at Rand Memorial Hospital which approximately 7 miles from harbour. Fire tel. 352-8888. Fire Station approximately 7 miles from harbour and at present consists of 2 fire-trucks with auxiliary vehicles.

TELEPHONES: Can be placed on board at certain berths. There is a connecting charge.

AUTHORITY: Freeport Harbour Company, Ltd.

AGENT: Marine Agents & Brokers Ltd., 1st Floor, Building 12, Main Harbour, P.O.Box F-2637/38 Freeport, Bahamas. Tel. (809) 352-9744/45. Cables: MARBROK. Telex (297) 30013. VHF: Channels 9 and 16.

Branch Office: Burmah Terminal, Freeport, Bahamas. Tel. (809) 348-3044. Monitors VHF Channel 16.

NASSAU: 25.05 N. 77.20 W. (See Plan Book)

DOCUMENTS:

(a) Inwards:

Description	*Customs*	*Immigration*	*Agents*	*Total*
1. Ship's Report Inwards (supplied by Agents)	2	—	—	2
2. Maritime Declaration of Health (supplied by Agents)	1	—	—	1
3. In transit passenger manifest	2	1	2	5
4. Disembarking passenger manifest	2	1	2	5
5. Crew Lists	2	—	1	3
6. Crew Curio List	1	—	—	1
7. Stores List	2	—	1	3
8. Gift Shop Inventory	1	—	—	1
9. Cargo Manifest	3	—	3	6

10. Derat. Certificate – should be available for inspection.
11. Clearance from last port to be given to Customs.
12. Immigration landing cards must be completed by all passengers. (These are supplied by Agents.)
13. Customs Declaration forms must be completed by all disembarking passengers. (These are supplied by Agents.)
14. Cargo Tally books – two per hatch where Nassau cargo is to be discharged.

If vessel's previous port of call was in Bahamas items 1, 2 and 10 need not be complied with. Item 9 – two cargo manifests supplied to Agents should show freight charges in detail.

Note: All non-Bahamian passengers finally disembarking at Nassau must be in possession of return ticket or have proper Bahamas Immigration Entry Permit.

(b) Outwards:

Description	*Customs*	*Immigration*	*Agents*	*Total*
1. Ship's Report Outwards (supplied by Agents)	2	—	—	2
2. List of embarking passengers	2	1	2	5
3. Manifest covering cargo loaded	3	—	3	6

Note: If vessel clearing for another Bahamian port, item 1 does not have to be complied with, but copy of next port's manifest required.

PILOTAGE: Presently no signal station and Masters requested telegraph ETA at least 48 hours in advance with subsequent amendments as necessary to Agents, who will inform Pilots. Pilot normally boards in approximate position one mile North of Western end of Hog Island (Paradise Island). When port closed due to bad weather a red flag will be displayed at Western end of Hog Island by day and red light in same location at night. Vessels may anchor in vicinity of pilot station where depth of water allows. There are three Pilots and boats are clearly marked "Pilot" and display international pilotage signals. Pilots are accustomed boarding by pilot ladder.

ANCHORAGES: Anchorage just off Nassau Harbour extends over area North and East of Western point of Hog Island to approximately half a mile off shore, where it becomes too deep.

RESTRICTIONS: No restrictions apart from adverse weather conditions or excessive draft which may make it advisable to enter on certain state of tide.

MAX. SIZE: No restriction on length or breadth but safe draft is considered 35 ft. Largest vessel to enter harbour to date is QE II. Safe draft cargo pier 25 ft.

HEALTH: Provided vessel healthy Customs grant free pratique on receipt international declaration of health form completed and signed. If any suspected disease or fever on board Master should advise Agent by cable, who will inform appropriate authorities and advise Master clearance procedure. Once vessel obtained free pratique in one Bahamas Port and proceeds another there are no further procedures at next port.

RADIO: Communications can be directed through Nassau Harbour Control, which came into existence in 1974, in an effort to control shipping and movements in and out of the harbour of Nassau.

VHF frequencies used are Channels 6, 9, 14, 16, 12, 68, 73, 74, 79, 20, 65 and 66.

Single Side Band frequencies used are 282.5 – 3,300.0 – 4,139.5 – 8,100.0 – 8, 281.2 – 12,421.0 – 16,565.0 kc/s. Also transmits 2522 Khz, receive 2126 Khz upper sideband.

AM Radio Ship-to-Shore frequencies are 2182 Emergency – 2638 and 2738 kc/s.

TUGS: Tugs normally join vessel at entrance to turning basin. Usual for vessels to provide tow line.

BERTHING: No specific requirements but due to congestion essential that Agent is kept well informed of ETA.

CRANES: There are 2 lift cranes for Container Handling at the Union and John Alfred Wharves. Both wharves are geared exclusively for container traffic, but a limited amount of break bulk cargo is handled at the Union Wharf.

At the Union Wharf is an "American" Truck Crane of 120 ton capacity geared to handle 20 ft. and 40 ft. containers with a 100 ft. boom used in lo/lo method.

The John Alfred Wharf is served by a Manitowac Track/Crawler crane of 130 ton capacity with a 150 ft. boom. Here 20 ft. and 40 ft. containers are landed by lo/lo method.

The Union Wharf encompasses a total berth length of 546 ft., while at the John Alfred Wharf berth length is limited to 500 ft.

BULK CARGO FACILITIES: There are no facilities for this type of cargo.

BRIDGES: No bridges affecting entrance to main berths.

STEVEDORES: Master should include in ETA number gangs required and tons per hatch for discharge, as shipping documents do not always arrive in advance. Discharge rate approximately 10 t.p.h. 135 ton mobile crane available.

MEDICAL: Full medical services available. In serious cases requiring immediate attention Agent should be advised so that doctor may board on arrival.

TANKERS: Limited facilities provided for tankers at Clifton Pier on S.W. side of Island. Vessels moor to dolphins offshore and discharge through submarine pipe-line. Vessels proceeding Clifton Pier (unless otherwise advised) should pick up Pilot off Nassau and clear Customs. Only oil imports are for domestic purposes and there is no oil refinery. Max. draft Clifton Pier 36 ft.

DENSITY: 1025.

FRESH WATER: Available Prince George Wharf on old section but not yet provided on new deep water pier recently completed. Rate 10–15 t.p.h. from hose connections on dock. Public Water Department supplies hose end connections. Price approximately $9.55 per 1,000 gals. depending on amount required. No water barges available.

FUEL: No fuelling facilities available with exception of small quantities diesel which may be delivered by Tanker Truck (4,000 gals.) by prior arrangement.

Small tankers can deliver fuel (80,000 – 100,000 gals.).

FIRE PRECAUTIONS: No special requirements. Vessels carrying explosives should notify Agent in advance so that Authorities may be advised.

GANGWAY/DECK WATCHMEN: Vessel to supply own watchman if required.

OPENING/CLOSING HATCHES: Roller hatches usually opened and closed by vessel's crew but older wooden hatches and tarpaulins handled by stevedores.

SHIP CERTIFICATES: Only certificate normally required for in-spection is Derat. Certificate.

CUSTOMS ALLOWANCE: Quantity should be reasonably based on individual requirement and length of stay in port. Actual amount is at discretion of Customs Officer clearing vessel.

IDENTIFICATION CARDS: Not required.

REPAIRS: Only limited repairs and requirements should be passed to Agent in advance of vessels arrival.

REPATRIATION: Crew changes can be arranged but accommodation expensive and not always available at short notice.

AIRPORT: Extremely good air services. At certain periods airlines become fully booked and suggested that reservations be made in advance.

Peru	Honorary Consul	Nassau	57511	52177
Sweden	Honorary Consul	Nassau	77944 77785	77944
Switzerland	Honorary Consul	Nassau	28349	

TIME: Local time (Eastern Standard Time) 5 hours behind GMT. Daylight Saving Time 4 hours behind GMT applicable 27th April to 26th October.

HOLIDAYS: New Year's Day (1st January); Good Friday; Easter Monday; Whit Monday; Independence Day; Labour Day; Emancipation Day; Discovery Day (12th October); Christmas Day (25th December); Boxing Day (26th December); Cargo can be worked on all holidays except Labour Day and Christmas Day.

POLICE/AMBULANCE/FIRE: Police 24444; Ambulance 22221; Fire 919.

TELEPHONES: No facilities for placing telephones on board.

GENERAL: *(a)* Bonded Stores only available to passenger vessels regularly calling Nassau. *(b)* Passenger Vessels: Is of assistance to Agent to know how many passengers disembarking and how many in transit.

SERVICES: Most specialised services unavailable, e.g. radar, radio, gyro, tank cleaning, compass adjusting. If Agent given sufficient notice arrangements can be made for technicians to be flown from Miami.

SHORE LEAVE: No limitations.

AUTHORITY: Port Director, Port Department, Nassau.

SOUTH RIDING POINT: 26.37 N. 78.14 W.

(See Plan Book)

LOCATION: The terminal is situated at South Riding Point on the South coast of Grand Bahama Island, about 35 miles East of Freeport.

At a distance of 4,000 ft. offshore, the Sea Island mooring dolphin extremities are positioned thus:

No. 1 Mooring Dolphin: 26° 36′ 43.7″ N. 78° 13′ 49.5″ W.
No. 6 Mooring Dolphin: 26° 36′ 46.7″ N. 78° 13′ 33.6″ W.

BAHAMIAN FLAG: Bahamian national flag shall be flown during daylight hours by all vessels within Bahamian territorial waters.

DOCUMENTS: Incoming:

Prepared by Ship:

3 Copies of Declaration Form Y14.
3 Crew Lists.
2 Stores Lists.
2 Crew Declaration forms.
4 Copies of Bills of Lading.

In addition the ship will have to supply a clearance from last port of call, Deratization Certificate, vaccination lists and the usual ships papers viz: Register, Safety, Radio, Safety Equipment, Loadline Certificate. Oil Record Book must be up to date and available for inspection.

All vessels must have a valid certificate of insurance or other financial security in respect of civil liability for anti-pollution damage.

Prepared by Agent:

1 Copy of Maritime Declaration of Health.
2 Copies of Inwards Report.

Customs and Immigration: After pratique has been granted, an immigration and customs inspection is carried out. The Master will be required to furnish particulars including:

(a) Name and nationality of vessel.
(b) Last port or ports of call.
(c) Nature of cargo.
(d) Number of crew.
(e) Number of passengers.
(f) Port of destination and name of Agent.
(g) Number of days since departure from last loading/unloading port.

Copies of the crew list and stores remaining on board will be required before clearance is granted.

Masters of vessels must take every precaution to ensure that no drugs, wine or alcoholic liquors are supplied, sold or conveyed to any person at the terminal.

Outgoing:

Prepared by Agent:

4 Copies of Outward Cargo Manifest.
2 Copies of Outwards Report.
Port Clearance Certificate.

In order to comply with Immigration regulations, crews should be checked before sailing and any missing seaman reported to the Agent. In the case of seamen left ashore for any reason, Masters are requested to furnish a letter accepting responsibility for all expenses incurred, advances if any, and instructions for repatriation.

Documentation and Clearance:

Documentation on completion of cargo operations is normally attended to prior to the vessel vacating the berth. In cases where excessive documentation is anticipated a vessel may be asked to leave the berth to complete this standing off. In such cases launches would be made available to transport documents and personnel in order to expedite the vessel's departure.

Early Departure Procedure (EDP) is available on request.

PILOTAGE: Berthing and operational instructions will be given by Burmah Control on vessel's arrival at South Riding Point.

A vessel will be deemed to have arrived when in a position, 3 miles South of the sea island and in this position the Berthing Master will board from a tug.

Before a vessel is allowed to proceed the Master will be required to sign the following forms:

(a) Conditions of use of sea berths and inner harbour at South Riding Point (See "Appendix I").
(b) Tug Requisition (See "Appendix IIA and IIB"). The Master will also be provided with copies of the Fire and Safety Regulations (See "Appendix IIIA and IIIB") and a Ship/Shore Safety Check List Form (See "Appendix IVA and IVB").

APPROACHES: Vessels approaching South Riding Point from the Eastern entrance of Northwest Providence Channel are recommended to make departure from Great Stirrup Cay Lighthouse Gp. Fl. (4) 15 sec. 14m. and head directly for South Riding Point Terminal.

Preliminary extensive soundings by U.S. Hydrographic Department indicate no underwater obstructions up to 100 fathom line within Northwest Providence Channel.

Landmarks: Conspicuous towers are sited adjacent to South Riding Point Terminal in the following positions:

1. Position: 26° 36′ 40″ N., 78° 20′ 51″ W. Steel framework tower painted red and white, 175 ft. above sea level.
   Light: Air Occ. R. 4 sec. 1 F.W. 2 F.R. vert.
2. Position: 26° 36′ 51″ N., 78° 19′ 25″ W. Steel framework tower painted red and white, 407 ft. above sea level.
   Light: Air Qk. Fl. R. 2 F.R. vert.
3. Position: 26° 37′ 06″ N., 78° 18′ 47″ W. Steel framework tower painted red and white, 211 ft. above sea level.
   Light: Air Occ. R. 8 sec. 1 F.R. vert.
4. Position: 26° 37′ 44″ N., 78° 14′ 20″ W. Steel framework tower painted red and white, 241 ft. above sea level.
   Light: Air 2 F.R. vert.
5. Position: 26° 42′ 44″ N., 78° 09′ 27″ W. Steel framework tower painted red and white, 270 ft. above sea level.
   Light: Air Occ. R. 3 sec. 1 F.R. vert.

The F.6M. light exhibited from a white painted wooden mast close East of High Rock Settlement in position 26° 37.3′ N., 78° 16.1′ W. is kerosene lit and is therefore unreliable.

A conspicuous parabolic dish antenna is situated in position 26° 37′ 30″ N., 78° 17′ 58″ W. The antenna has a face diameter of 85 ft. and maximum height above sea level is 134 ft.

The large buff-painted oil storage tanks are visible behind the sea island. The terminal frontage is backed with pine trees and scrub.

Lights: A light, Fl.R. 3 seconds, is exhibited from a height of 140 ft. above sea level on top of the sea island control building on the central platform, whilst Nos. 1 and 6 mooring dolphins are marked by quick flashing red lights.

Two leading line (range) towers mark the 300 ft. wide approach channel centre line. Lights with clear lenses, each 2.5 seconds flash, 0.5 seconds eclipse, are exhibited from the top of the towers at elevations of 39.4 ft. and 53 ft. The towers are located at 26° 37′ 21.7″ N., 78° 13′ 10.2″ W., and 26° 37′ 22.8″ N., 78° 13′ 11.5″ W. respectively. Daymarks are attached as follows:

Leading mark: A 9 ft. triangle at the base of the tower.
Rear mark: A 9 ft. × 6 ft. diamond immediately below the light.
Both marks are painted with 'dayglo' orange.

Buoys: Red and Black Buoys mark the outer channel entrance to the inner harbour whose light characteristics of red and green respectively are each 2.0 seconds flash, 2.0 seconds eclipse.

Four international orange buoys with quick flashing white lights mark the contour of 50 ft. sea bed between the sea island and the shore.

ANCHORAGES: Three white buoys mark the seaward boundary of a designated anchorage area in the following positions:

West Anchorage Buoy: Quick Flash (Green) 26° 35′ 51″ N.
78° 17′ 27″ W.
Mid Anchorage Buoy: Quick Flash (White) 26° 35′ 57″ N.
78° 16′ 19″ W.
East Anchorage Buoy: Quick Flash (Red) 26° 36′ 00″ N.
78° 15′ 33″ W.

These anchorage buoys are laid in 15 fathoms and vessels wishing to anchor should drop their anchors in the transit line of the buoys which will provide ample swinging room for typical shuttle vessels of up to 100,000 tons d.w.t., in ballast conditions. No attempt should be made to anchor Eastward of the East Anchorage Buoy.

Whilst holding ground is considered good and is of sand, limestone and soft coral, vessels should maintain their engines at short notice readiness, especially during periods of strong onshore winds.

In all cases, vessels wishing to anchor should contact the duty Berthing Master, who will advise on anchorage procedures and whose services are available for pilotage on request and at operational convenience.

Anchorage or the lowering of anchors is prohibited at the sea island berths.

Vessels wishing to stand off until berth readiness are recommended to use the Westerly aerial tower (26° 36′ 40″ N. 78° 20′ 51″ W.) as Westerly boundary of standing off ground in order to avoid congestion with Freeport traffic.

HEALTH: On completion of mooring, Customs officials acting on behalf of Health and Immigration authorities will board the vessel to grant pratique.

RADIO: Vessels loading for South Riding Point should communicate ETA date to the terminal immediately after clearing loading port. They should also indicate cargo figures, draft and cargo disposition if multigrade, together with preferred discharge sequence. Intention to crude oil wash should be advised at this stage and supported with details of vessel and crew's experience.

Variations of this original ETA date should be communicated throughout the voyage.

Vessels proceeding to South Riding Point Terminal to load should communicate their ETA immediately upon clearing departure port, indicating draft, condition of ballast, amount of slops, previous cargo and intended lifting.

All vessels should upgrade ETA's 72, 48 & 24 hours prior to arrival.

VHF: Station "Burmah Shore Control" located at the terminal is equipped with VHF radio maintaining continuous watch on Channel 16. After making successful contact, vessels will be required to change to a working frequency, where information will be exchanged regarding berthing, manifold connections, quantity of ballast and deballasting time required.

The terminal is also equipped with approved intrinsically safe VHF walkie-talkie radio sets and vessels will have this additional communication with the terminal after boarding by the Berthing Master.

TUGS: 4 × 4,200 h.p. diesel tugs are stationed at the terminal. Each tug has a bollard pull of 50 tons.

All tugs are equipped for fire fighting and can deliver water at the rate of 2,000 gallons per minute through direct or fan spray nozzles. The tugs have foam making and oil dispersant equipment.

The tugs are owned and operated by Nassau Towing Company. Conditions of hire are given in Appendix IIA.

Small Craft: The terminal has one diesel engined personnel/general purpose carrier for up to 25 persons and three line handling boats. Two of the latter are equipped for anti-pollution duties. Launches are available for hire when operationally convenient.

Small Craft Landing: A landing is situated on the West side of the platform of the oil berths and there are additional landing stages at mooring dolphins Nos. 1 and 6.

BERTHING/UNBERTHING: *Responsibilities:* In all circumstances, the Master of any vessel shall remain solely responsible on behalf of his owners, for the safety and navigation of his vessel.

Tugs: Tank lids and openings should be securely closed before tugs are made fast. Tug utilization in berthing operations will be as required by the Berthing Master who will meet the vessel in position as directed off the sea island. Masters of calling vessels are reminded of their obligation to comply with statutory pilot ladder rules and associated safe access regulations

Mooring System: The Berthing Master will advise the Ship's Master of minimum mooring requirements. Usual moorings consist of 2 springs, 3 breast and 4 head/stern lines at each end

The berths have double and triple quick release hooks of 150 and 100 tons capacity. Mooring and berthing dolphins have electrically operated capstans with 2 ton line pull at 100 ft. per minute in association with mooring assemblies.

Ship Connection: The positioning of the vessel's deck manifold in relation to the loading arms on the berth must be carried out to a close tolerance to the requirements of terminal personnel and as directed by the Berthing Master.

Loading arm connection will be made to ship's manifold by the sea island crew.

Independent oil measurement representatives will attend to ullaging and sampling and/or inspection of cargo tanks in vessels discharging or loading.

Unberthing: Tug attendance and numbers will be dependent on weather conditions and on the advice of the Berthing Master.

BERTHING FACILITIES: The sea island has two berths interconnected for tanker to tanker transfer and to the shore tanks and inshore berths by 2×36 in. diameter submarine lines.

The island is 1,470 ft. long with a central platform 48 ft. above datum and 3 mooring dolphins 25 ft. above datum on each side.

The berths are equipped with a Sonar Doppler system for docking assistance with clock meter display indicators and associated lights showing distance off berth and speeds of approach. Current meters are sited on the sea island together with meteorological instruments and public address system.

There are 4 fixed and 4 oscillating foam/oil dispersant monitor units on the platform.

The berths have a sacrificial anode cathodic protection system and ships that have an impressed voltage cathodic protection system should it turn off in the vicinity of the sea island.

Berth No. 1: Tankers of 50,000 to 440,000 d.w.t. can dock at this outer berth which is equipped with a self levelling and articulated gangway and 4×16 in. diameter Chicksan loading arms with quick release couplings in sizes 16, 14 and 12 in. diameter.

Water depth at the berth is 100 ft.

Berth No. 2: Tankers of 35,000 to 100,000 d.w.t. with a max. LOA of 900 ft. can dock at this inner berth which is equipped with a self levelling and articulated gangway and 4×12 in. diameter loading arms with quick release couplings in sizes 12, 10 and 8 in. diameter.

Water depth at the berth is 85 ft.

Inshore Berths: Two berths are available within the inner harbour, each of which is equipped with a ship/shore gangway and 4×12 in. loading arms with quick release couplings in sizes 12, 10 and 8 in. diameter.

Though further development is proposed, use of the inner harbour is currently restricted to vessels not exceeding 675 ft. LOA and 36 ft. loaded draft.

Small Boat Harbour: This harbour is at the S.W. corner of the inner harbour and has a water depth of 25 ft. The harbour is used by the Company's tugs and small craft.

LOADING/UNLOADING:

Procedure: Once the vessel is secure, the Berthing Master, who also acts as Loading Master, will advise the Master and Chief Officer of their cargo programme and discuss the vessel's ability to comply. Any adjustments will be mutually agreed at this stage and be reflected on the Loading/Discharging instructions which the Master will sign. (See "Appendix VII").

Ballast Water: Ballast water can be received in the terminal oil and water separation tanks through one of the submarine or onshore lines at rates of up to 5,000 t.p.h. On no account may ballast water be otherwise discharged in territorial waters, unless vessel has segregated ballast system.

Dirty ballast and slops from ships' cargo tanks which, on the previous voyage, carried product including fuel oils or any crude requiring heat, cannot be accepted ashore. In such cases, vessels must arrive with clean ballast for shore reception.

During ballast operations at the berths, strict observance of rules and regulations governing the opening of sea valves is necessary and in correct sequence with ballast pump commencement to eliminate the risk of oil spills. Vessels may be required to ballast concurrent with discharge and throughout all cargo operations, maintain draft and trim conditions consistent with prevailing weather conditions, on the advice of Berthing Master.

Control: A responsible Ship's Officer is required to be on duty continuously.

The Terminal Operators in the control buildings offshore and onshore continuously monitor the cargo transfer rates and status of the onshore tanks or shuttle tankers receiving cargoes direct from VLCC's. The Ship's Officer will be advised immediately of changes necessary in the pumping programme.

The Terminal Operator in the offshore control room will activate all cargo movements from the tanker's manifold to or from shore tanks/receiving shuttle tankers.

Mooring Lines: It is the responsibilty of the Ship's Master to ensure that all mooring lines are kept tight. Berthing Master will constantly check a vessel's moorings and may at any time direct lines to be adjusted as circumstances warrant.

Tension Winches: When a vessel is fitted with tension winches, the latter must be set to manual operation and the brakes securely applied.

FRESH WATER: Not available.

FUEL: Not available.

MEDICAL: The Rand Memorial Hospital in Freeport is open on a 24-hour emergency service and two medical clinics, Lucayan and Antoni are open during regular office hours.

TIME: Bahamian Standard Time is 5 hours behind GMT. Daylight Saving Time is observed from the end of April through the end of October when clocks are advanced one hour.

SURVEYORS: The nearest Lloyd's Classification Surveyor is in Miami, but there is usually no delay in obtaining his service.

A marine engineer officially appointed by Lloyd's as acting surveyor is normally available in Freeport.

REPAIRS: Facilities for minor repairs to electrical, radio and mechanical equipment are available in Freeport but should these be required Masters should give as much advance notice by radio as possible.

TELEPHONES: The sea berths have a telephone connection to the shore and to the Freeport exchange. Calls are restricted to emergency use only. All other calls should be made from agency offices ashore.

STORES: Stores are not available at the terminal but may be obtained through the auspices of ships' agencies and chandlers. All deliveries to vessels are restricted to daylight hours and operational convenience. Transportation and handling must be arranged and attended by the vessel's Agent and it is imperative that advance terminal approval is obtained since responsibility cannot be accepted for custody should operational considerations cause delivery delays.

LAUNDRY: Limited services are available in Freeport but in view of the distance from the terminal (35 miles) and the relatively short time at berths, Masters are advised not to depend on such services.

WEATHER: From November to May, average temperatures in the 70's Fahrenheit prevail, with low humidity and little rain. From June to October, average temperatures rise into the 80's with relatively high humidity and rainfall of between 5 and 9 in. per month.

SEA CONDITIONS: Prevailing winds are from the S.E. During the Winter season numerous cold fronts transit the area producing a normally predictable wind veer to S.W. then Northerly with the passage of the front. A strong frontal system may cause seas and swell of up to 10 ft. but these quickly subside following frontal passage.

Current in the vicinity of the Sea Island seldom exceeds 1 knot and runs predominantly East and West. Tidal ranges above datum are Low Water 0–0.5 m. and High Water 0.8–1.5 m.

GENERAL: *Charts:* The best available charts of the area at present are U.S. Defense Mapping Agency Hydrographic Centre N.O. 26326 and British Admiralty No. 390.

Currency: Currency is the Bahamian dollar which is on a par with the U.S. dollar. U.S. dollars are generally acceptable anywhere without changing to local currency.

Garbage: Garbage or refuse disposal overside at berths or in terminal approaches is strictly forbidden.

SAFETY: *TERMINAL SAFETY REGULATIONS:* With the object of protecting all concerned against the possibility of fire hazards, oil and smoke pollution, vessels calling at South Riding Point Terminal must comply with the following safety regulations or other regulations which may be issued by the proper authorities from time to time.

Dangerous Area: The whole of the sea island and the onshore terminal are declared Dangerous Areas and the use of naked lights and smoking therein is strictly prohibited except in those places expressly designated by the Master of a vessel and the Terminal Manager.

A copy of the "Fire and Safety Regulations" (See "Appendix IIIA and IIIB") is given to the Master of every vessel by the Berthing Master on boarding and it is the responsibility of the Master to see that these regulations are strictly observed.

Inspection: The Berthing Master will conduct a safety inspection prior to the commencement of loading/unloading and at regular intervals thereafter to ensure that all safety regulations are being enforced.

A comprehensive list of safety requirements are detailed on a Ship/Shore Safety Check List (See "Appendix IVB") and must be signed by the Master of the vessel or his delegate and the Berthing Master.

Galley Fires: Only approved steam or electric galleys in selected locations in the after part of the vessel, as agreed to by the Master and the Berthing Master, are permitted.

Firewires: Firewires of steel must be made fast and hang over the outboard bow and quarter whilst alongside to enable tugs to connect readily in an emergency situation. Firewires must be tended on board throughout cargo operations in order to maintain towing eyes at water level.

Boiler Tubes: Boiler tubes must not be blown whilst vessel is alongside and emitting smoke is strictly prohibited while vessels are in the vicinity of the terminal. Every precaution must be taken to prevent sparks and soot particles escaping from the funnel.

Deck Scuppers: Deck Scuppers must be securely plugged and cemented before loading/discharging operations commence. Approved mechanical means of closing scuppers may be acceptable.

Spillage Trays: See "Oil Pollution – Minor Leakages Onboard".

Main Engine(s): Immobilization is prohibited whilst alongside a terminal berth. Minor engine repairs may be effected after receipt of written permission from the Berthing Master and providing the repair will not affect the prompt sailing of the vessel in an emergency or upon cargo completion.

Maintenance Work: No chipping, scaling, hot work or work of any kind that would cause a spark is allowed while alongside a berth.

Ventilation: When loading or discharging cargo or ballast, all open ullage pipes and sighting ports shall have installed approved flame arresters.

Cargo tank lids shall be closed and secured throughout all loading or discharging operations.

Lights: Lights, electric fittings and hand torches must be of types approved by a recognised classification society or government authority for use in a vapour laden atmosphere.

Radio Equipment: Radio, radar or other electronic equipment must not be energized while a vessel is at berth except approved explosion proof equipment.

This does not mean that essential servicing of ship's radio equipment cannot be performed alongside berths. Suitable arrangements for ensuring safety during this work should be made between the Ship's Master and the Berthing Master and will require a work permit.

Stores: Inflammable or explosive ship's stores shall be kept in a safe place securely fastened.

Bilge and Dirty Ballast Water: Disposal of bilge and dirty ballast water over the side is strictly prohibited by the authorities and any pollution of the sea through these mediums will result in heavy claims and fines. The terminal will, in case of an oily discharge, take such steps as may be deemed necessary to fight the pollution before it spreads.

If the discharge is due to faulty equipment or material on the vessel or to negligence on the part of ship's personnel, the terminal shall be indemnified for any expenses incurred in connection with the preventative action taken. (See Oil Pollution – "Oil Spills").

International Code Flag 'B': International Code Flag 'B' shall be flown during the day and a red light exhibited by night by all vessels during cargo or ballast operations.

Transfer Cargo Operations: Transfer cargo operations shall not be started, or if started, shall be discontinued by the Berthing Master or Terminal Control if any of the following conditions prevail:

(a) During severe electrical storms.
(b) If fire breaks out at berth or on vessel.
(c) Should any condition develop which represents a hazard to the vessel or terminal facilities.

Fire-Fighting Equipment: Fire-fighting equipment of vessels alongside must be kept ready for use at all times.

Gas-Freeing: Gas-Freeing of vessels alongside sea island berths will not be permitted.

Earthing and Bonding: All metal on the shore side of an insulating flange should be electrically continuous to the sea island or inshore berths earthing systems and all metal to the seaward side should be electrically continuous to the vessel.

Insulating flanges are fitted on each loading arm.

Small Boats or Craft: Small boats or craft will not be permitted to moor alongside a vessel during cargo or ballast operations, unless special permission has been granted by the Berthing Master.

Permitted Entry: Only persons holding authorized passes will be permitted entry to the terminal or sea island. The terminal reserves the right to refuse admission.

Safety Responsibilities: Nothing in these regulations will relieve Masters of their responsibilities in observing the normal safety, fire prevention and security regulations. The Berthing Master is authorized to advise and request Masters to take additional measures to ensure a higher degree of safety if they find that circumstances warrant such action.

FIRE FIGHTING:

Responsibilities: The Fire and Safety Officer is responsible for all fire fighting operations at the sea island and the onshore terminal.

Fire Alarm: Do not hesitate to raise the alarm in the event of fire however small it may be.

The ship's fire alarm at the terminal will be one or more blasts of the ship's whistle or siren, each blast of not more than 10 secs. duration supplemented by a continuous ringing of the ship's bell and continuous sounding of the general alarm system.

The fire alarm at berths or elsewhere within the terminal or harbour area will be a continuous blast on the sirens sited on the onshore and offshore control buildings.

Action Ship – Fire On Your Ship:

1. Raise alarm.
2. Fight fire and prevent it spreading.
3. Inform terminal of details.
4. Cease all cargo operations and then close all valves.
5. Standby to disconnect loading arms.
6. Bring engines to standby.

Action Ship – Fire On Other Ship: You will be advised of necessary instructions to:

1. Cease all cargo operations and then close all valves.
2. Standby to disconnect loading arms.
3. Bring engines and crew to standby ready to unberth.

Action Shore: The operator in the control room will immediately contact the Fire and Safety Officer by phone or VHF radio. The Fire and Safety Officer will then direct operations.

1. Raise alarm.
2. Cease all cargo operations and then close all valves.
3. Fight fire and prevent fire spreading.
4. Standby to disconnect loading arms.
5. Inform all ships of details.
6. Terminal emergency procedure is immediately effective.

Emergency Situation: During an emergency situation on board a vessel alongside, the Berthing Master will be in charge of organizing the preliminary fire-fighting/anti-pollution procedures assisted by the operators in the Control Room and at the berths until the Fire and Safety Officer at the terminal takes over the direction of all fire fighting operations.

The Berthing Master is to make use of all available means at his disposal, such as tugs, launches, terminal equipment and other facilities to assist the vessel and protect lives and terminal facilities.

OIL POLLUTION/ACCIDENTS:

Oil Spills: Oil spills from whatever source must be reported immediately to the Berthing Master or Terminal Control. Cargo movements will be ordered suspended upon such a report or upon observation of pollution by terminal personnel and they shall not resume until the source of leakage is determined and controlled and the pollution dispersed or contained. The terminal maintains adequate anti-pollution equipment to attend to minor spills and this will be mobilised promptly. Clean-up costs in regard to pollution known to be the responsibility of a vessel using the facility will be billed to that vessel. The terminal shall also be indemnified against any fines and claims for damages resulting from such pollution (See "Appendix V"). Vessels discharging oil into Bahamian waters are liable to fines not exceeding $120,000.

Minor Leakage Onboard: Spillage trays or other receptacles should be placed under the flange connection at the vessel's manifold. Oil absorbing material in suitable quantity should be available for immediate use in the event of oil leakage on deck.

Damage to Facilities: If a Master has reason to believe that damage has been caused to berth, other vessels, craft or terminal property by his vessel, he should immediately notify the Berthing Master in writing. (A Typical Accident Form See "Appendix VI").

APPENDICES:

Appendix I:

Conditions of Use of Sea Berths and Inner Harbour at South Riding Point, Grand Bahama

All facilities and assistance of any sort whatsoever provided by the Company in or in connection with the Port at South Riding Point, whether or not any charge is made by the Company therefore, are provided subject to the following conditions:

1. Neither the Company nor its servants (in whatever capacity they may be acting) shall be responsible for any loss, damage, or delay from whatsoever cause arising in consequence of any assistance, advice or instructions whatsoever, given or tendered in respect of any vessel, whether by way of pilotage or berthing services, the provision of navigational facilities, including buoys or other channel markings or otherwise howsoever. In all circumstances the Master of any vessel shall remain solely responsible on behalf of his Owners or Operators for the safety and proper navigation of his vessel.

2. While the Company takes every care to ensure that all terminal facilities, which for the purposes hereof shall include berths, pipe-lines, gear, craft, premises, facilities, equipment and other property, provided by the Company are safe and suitable for vessels permitted to use them no guarantee of such safety or suitability is given and the company shall not be responsible for any loss damage or delay of any sort that may be sustained by or occur to any vessel or her Owners or Operators or her cargo or any part thereof (whether such cargo is on board or in the course of loading or discharging) by whomsoever or by whatsoever cause such loss damage or delay is occasioned and whether or not it is due in whole or in part to any act, neglect, omission or default on the part of any servant, Agent or contractor of the Company or by any fault or defect in the terminal facilities or any part thereof.

3. The Company will not be responsible for any loss, damage or delay directly or indirectly caused by or arising from strikes, lockouts or labour disputes or disturbances whether the Company, its servants, Agents or contractors are parties thereto or not, or caused by or arising from an act of God, war, weather conditions, governmental restrictions or any other cause whatsoever over which the Company has no control.

4. If in connection with or by reason of the use or intended use by any vessel of the terminal facilities or any part thereof any damage is caused to such facilities belonging to or provided by the Company, and irrespective of whether or not such damage has been caused or contributed to by the negligence of any servant, Agent or contractor of the Company, and irrespective of whether there has been any neglect or default on the part of the vessel or the Owners or Operators, in any such event the vessel and the Owners or Operators shall hold the Company harmless and indemnified against all such damage and against all such loss sustained by the Company consequent thereon. Further, the vessel and her Owners or Operators shall hold the Company harmless against all and any claims, damages, costs and expenses arising out of any loss, damage or delay caused to any third party arising directly or indirectly from the use of the terminal facilities by the vessel or by her Master or crew or by any other servant or Agent of the Owners or Operators and further to hold the Company harmless from any claim made by any person in respect of injury or loss of life caused directly or indirectly by the use of the terminal facilities by the vessel.

5. If any vessel sinks or grounds or otherwise becomes, in the opinion of the Company, an obstruction or danger in any part of the port or the approaches thereto and the Owner or Operator of the vessel fails to remove the obstruction or danger within a period to be stipulated by the Company, the Company shall be empowered to take any steps it may deem to be necessary to remove the obstruction or danger and any expenses of such removal shall be recoverable from the Owner of the vessel at the time of the accident causing the danger or obstruction.

6. These conditions shall be construed according to the law of the Commonwealth of the Bahamas and the vessel and her Owners or Operators shall submit to the jurisdiction of the Bahamian Courts.

s.s./m.v. ....

I hereby acknowledge receipt of a copy of the conditions of use of the Port at South Riding Point by Burmah Oil Bahamas Ltd.

Time & date:.................... Signed:...

Master

BAHAMIAN LEGISLATION PROVIDES SEVERE PENALTIES, FINE AND/OR IMPRISONMENT FOR THE DISCHARGE OF OIL INTO TERRITORIAL WATERS.

Appendix IIA:

Tug Requisition

I/we hereby request and authorise Burmah Oil Bahamas Ltd. on behalf of the s.s./m.v. ....

to supply such tug or tugs as may be considered necessary by Burmah Oil Bahamas Ltd. for the moving or otherwise assisting of the vessel whilst entering, or within or leaving the Harbour Area at South Riding Point. Such hiring to be on the terms of your usual conditions as printed below.

Date:............................

Time:................... Signed:...

Master

Conditions of Hire of Tugs

1. For the purpose of these conditions, the phrase "Whilst Towing" shall be deemed to cover the period commencing when the vessel is in a position to receive orders direct from the Hirer's vessel to pick up ropes or lines or when the towrope has been passed to or by the tug, whichever is the sooner, and ending when the final orders from the Hirer's vessel to cast off ropes or lines have been carried out, or the towrope has been finally slipped and the tug is safely clear of the vessel, whichever is the later. Towing is any operation in connection with holding, pushing, pulling or moving the ship.

2. On the employment of a tug the Master and crew thereof become the servants of and identified with the Hirer and are under the control of the Hirer or his servants or his Agents, and anyone on board the Hirer's vessel who may be employed and/or are paid by the Tug Owner shall be considered the servant of the Hirer.

3. The Tug Owner shall not, while towing, bear or be liable for damage of any description done by or to the tug, or done by or to the Hirer's vessel, or for loss of or damage to anything on board the Hirer's vessel, of or for loss of the tug or the Hirer's vessel, or for any personal injury or loss of life, arising from any cause, including negligence at any time of the Tug Owner's servants or Agent, unseaworthiness, unfitness or breakdown of tug, its machinery, boilers, towing gear, equipment or hawsers, lack of fuel, stores or speed, or otherwise, and the Hirer shall pay for all loss or damage and personal injury or loss of life and shall also indemnify the Tug Owner against all consequences thereof, and the Tug Owner shall not whilst at the request expressed or implied of the Hirer rendering any service other than towing be held responsible for any damage done to the Hirer's vessel and the Hirer shall indemnify the Tug Owner against any claim by a third party (other than a member of the crew of the tug) for personal injury or loss of life provided that any such liability for loss or damage as above set out is not caused by want of reasonable care on the part of the Tug Owner to make his tugs seaworthy for the navigation of the tugs during the towing or other services – the burden of proof of any failure to exercise such reasonable care being upon the Owner of the tug.

4. The Hirer shall not bear or be liable for any loss or damage of any description done by or to the tug otherwise than whilst towing, as herein defined or for loss of life or injury to the crew of the tug. Nevertheless nothing contained herein shall prejudice any claim the Tug Owner may have in Admiralty or at common law against the Hirer.

5. The Tug Owner may substitute one tug for another and may sub-let the work, wholly or in part, to other Tug Owners who shall also have the benefit of and be bound by these conditions.

6. The Tug Owners will not be responsible for the consequences of war, strikes, lock-outs, riots, civil commotions, disputes or labour disturbances (whether they be parties thereto or not) or anything done in contemplation of furtherance thereof, or delays of any description, however caused, including negligence of their servants or Agents.

7. These conditions shall be construed according to the law of the Commonwealth of the Bahamas and any dispute arising in any way whatsoever out of these conditions shall be determined by a single Arbitrator appointed by the parties.

In consideration of Burmah Oil Bahamas Ltd. furnishing the services of tugs, line handling boats and services, crew/ferry services and a Berthing Master to any vessel for the purpose of assisting in the navigation, docking and servicing of such vessels at the facilities of Burmah Oil Bahamas Ltd., South Riding Point Transhipment Terminal, it is understood and agreed that when the Berthing Master boards such vessel he becomes the borrowed servant of the Owners and Operators of the vessel assisted in respect to giving of orders to any tugs which may be engaged in the assisting service and in respect to the handling of said vessel, and neither those furnishing any tugs, line handling boats and services, crew/ferry services and/or Berthing Masters nor the Owners, employers, Agents or charterers, Operators or managers thereof or the Berthing Master shall be liable for any losses, damages, delays or liabilities arising from any negligence, incompetence or incapacity of any Berthing Master or the personnel of any tug or tugs line handling boats or crew/ferry boats or arising from any unseaworthiness or any insufficiency of any tug or tugs, line handling boats or crew/ferry boat.

Owner and Operator of the vessel assisted hereby agree to indemnify and hold harmless the aforesaid persons from any and all losses, damages, delays and liabilities whatsoever, whether to third parties or otherwise arising from the acts or omissions of such person or persons.

Master

Appendix IIIA:

Safety and Fire Regulations

To be posted in prominent positions on board ship

The following Fire Regulations and Smoking Restrictions should be brought to the notice of all personnel on board and must be strictly enforced.

SMOKING IS PROHIBITED while alongside berths EXCEPT in the following rooms in the after part of the vessel specified by Master.

Masters and Officers must ensure that these SMOKING RESTRICTIONS are strictly adhered to.

Only approved electric and steam galleys, in selected locations in afterpart of the vessel, agreed to by the Master and the Shore Authorities, are permitted.

CIGARETTE ENDS AND HOT MATERIALS MUST NOT BE THROWN INTO THE WATER AT ANY TIME.

No chipping or scaling is allowed whilst alongside. Overside hull painting is not allowed on jetty side of vessel.

All ship's scuppers on main deck must be plugged and cemented oil tight.

Approved mechanical means of closing scuppers may be accepted.

All vessels moored at these berths must have the eye of a steel hawser paid out to the water's edge and securely made fast on board on the offshore bow and quarter, to be of sufficient strength to enable tugs to take the vessel to a place of safety. Main engines must be available for use at all times whilst alongside the jetty.

Fire hoses on forward and after decks to be rigged and ready for instant use.

It is the responsibility of the Master to ensure that the mooring lines of his vessel are tight at all times.

Alarm in case of fire

1. The ship's fire alarm at the terminal will be one or more blasts of the ship's whistle or siren, each blast of not less than 10 seconds duration supplemented by a continuous ringing of the ship's bell and continuous sounding of the general alarm system.

2. The fire alarm at berths or elsewhere within the terminal or harbour area will be a continuous blast on the sirens sited on the onshore and offshore control buildings.

Overflow or escape of oil into the water

In the event of an overflow and/or escape of oil into the water, loading will be suspended immediately on the vessel concerned. Loading will not be resumed until the area has been cleared of oil and conditions declared safe.

Terminal safety and fire inspections

It is the duty of the Berthing Master to make periodical inspections on board vessels at berth in respect of any breach of the Terminal Safety and Fire Regulations.

Inspectors must be allowed free access on board all vessels at all times for this purpose.

IN ALL CASES OF EMERGENCY CONTACT BURMAH CONTROL.

Appendix IIIB:

Instructions in case of fire

Ship's fire alarm at terminal

One or more blasts of the ship's whistle or siren each blast of not less than ten seconds duration or a continuous ringing of ship's bell supplemented by a continuous sounding of the general alarm system.

Terminal fire alarm

Continuous long blast on all fire sirens.

Action Ship

Fire on your ship

Raise alarm
Fight fire and prevent fire spreading
Inform terminal of details
Cease all cargo operations and then close all valves
Stand by to disconnect hoses or arms
Bring engines to standby

Fire on other ship at terminal

Cease all cargo operations and then close all valves
Stand by to disconnect hoses or arms
Bring engines to standby and crew to stand by ready to unberth

Action Shore

Fire on terminal

Raise alarm
Cease all cargo operations and then close all valves
Fight fire and prevent fire spreading
If required stand by to disconnect hoses or arms
Inform all ships of details
Terminal Emergency Procedure is immediately effective
In case of fire, terminal will direct movement of vessels.
Do not hesitate to raise the alarm.

Appendix IVA:

Burmah Oil Bahamas Ltd.
P.O. Box F-2530 Freeport, Grand, Bahama.

The Master, m.s./m.v. ....
Dear Sir,

South Riding Point Transhipment Terminal Safety Requirements

Responsibility for the safe conduct of operations on board your ship while alongside our terminal rest with you as Master. Nevertheless, since our personnel, property and other shipping may suffer serious damage in the event of accident aboard your ship, we wish, before operations start, to seek your full co-operation and understanding on the safety requirements set out in the Ship/Shore Safety Check List.

These safety requirements have been drawn up by a number of international terminal operators in conjunction with a representative section of the international tanker industry. They are based upon the provisions of the codes of safe practice currently accepted by the oil and tanker industries. We therefore expect you and all under your command to adhere strictly to them throughout your stay alongside this terminal. We, for our part, will ensure that our personnel do likewise and co-operate fully with you in the mutual interest of safe and efficient operation.

In order to assure ourselves of your compliance with these safety requirements, we shall, from time to time, instruct a member of our staff to visit your ship and, after reporting to you or your deputy, join one of our officers in a routine inspection of cargo decks and accommodation spaces.

If we observe infringements on board your ship of any of these safety requirements we shall bring this immediately to the attention of yourself or your deputy for corrective action. If such action is not taken in a reasonable time we shall adopt such measures as appear to us most appropriate to deal with the situation and shall notify you accordingly.

If you observe any infringement of these requirements by terminal staff, whether on the jetty or on board your ship, please bring this immediately to the notice of our representative who is nominated as your contact during your stay in port. Should you consider any immediate threat to the safety of your ship arises from any action on our part, or equipment under our control, you are fully entitled to demand an immediate cessation of operations.

WE RESERVE THE RIGHT IN THE EVENT OF CONTINUED OR FLAGRANT DISREGARD OF THESE SAFETY REQUIREMENTS BY ANY SHIP, TO STOP ALL OPERATIONS AND ORDER THAT SHIP OFF THE BERTH FOR APPROPRIATE ACTION TO BE TAKEN BY THE CHARTERERS AND OWNERS CONCERNED.

Terminal Manager

Appendix IVB:

Ship/Shore Safety Check List

Vessel: Date:
Berth No.: Time:

1. Are SMOKING regulations being observed? ....
2. Are GALLEY requirements being observed? ....
3. Are NAKED LIGHT requirements being observed? ....
4. Are electric cables to portable equipment disconnected from power? ....
5. Are the ship's main transmitting aerials switched off? ....
6. Are hand torches of an approved type? ....
7. Are portable R/T sets of approved design? ....
8. Are all external doors and ports in the amidships accommodation closed? ....
9. Are all doors and ports in the after accommodation that are required to be closed in fact closed? ....
10. Are ventilators suitably trimmed with regard to prevailing wind conditions? ....
11. Are unsafe air conditioning intakes closed? ....
12. Are window-type air conditioning units disconnected? ....
13. Is ship securely moored and agreement reached on use of tension winches? ....
14. Are cargo/bunker hoses in good condition? ....
15. Are cargo/bunker hoses properly rigged? ....
16. Are unused cargo/bunker connections blanked? ....
17. Is stern discharge line (if fitted) blanked? ....
18. Are sea and overhead discharge valves (when not in use) closed and lashed? ....

19. Are scuppers effectively plugged? ....
20. Is the agreed ship/shore communication system working? ....
21. Are all cargo/bunker tanker lids closed? ....
22. Are cargo tanks being loaded or discharged open to atmosphere via the agreed venting system? ....
23. Are fire hoses and equipment ready for use? ....
24. Are emergency towing wires correctly positioned? ....
25. Is the ship ready to move under its own power? ....
26. Are ship's flammable/explosive stores in a safe place? ....
27. Are ship's fire mains pressurised? ....
28. If fitted, is the inert gas system operating? ....

Remarks:

We have checked with each other the items on the above Check List and have satisfied ourselves that the entries we have made are correct to the best of our knowledge.

NOTICE:

Burmah Oil Bahamas Ltd.
P.O. Box F-2530 Freeport, Grand Bahama
South Riding Point Terminal.
To: Master
s.s./m.v. ....

Dear Sir,

During your stay at South Riding Point Terminal, your co-operation is requested with regard to shipboard visitations by Terminal staff.

With the exception of official visits necessary to the satisfactory performance of cargo and safety operations, none of our terminal staff should board your vessel.

We are particularly concerned in cases where food and drink have been unofficially provided by visiting ships and we would respectfully request that you bring to the attention of your crew, the need to disregard any requests of this nature.

We trust that your compliance and understanding will avoid any embarrassment for your vessel whilst alongside and that as a result our operating attentions will be rendered more efficient.

Thank you.

Terminal Manager

OPERATORS: Burmah Oil Bahamas Ltd.

AGENT: See "Freeport".

Bahrain

GENERAL

ANCHORING: It is compulsory for all ships entering Bahrain waters for reasons other than berthing at Mina Sulman, ASRY, Bapco, Alba, or other private jetties to obtain a prior written permission from the Port Director before anchoring in Bahrain waters. All ship's Agents are required to submit to the Harbour Master at the end of each month, a list of all vessels managed by their Agency which entered Bahrain waters.

MINA SULMAN: 26.12 N. 50.37 E. (See Plan Book)

TRAVEL TO SAUDI ARABIA: See "Sitra".

DOCUMENTS:

International Declaration of Health.
5 Crew Lists.
Ship's Report (given by Customs on arrival).
Cargo Gear Register (Blue Book).
Agents to submit cargo manifest 3 days before vessel's arrival.

Exports to Bahrain: Shipping documents for exports to Bahrain should include a certificate of origin bearing the stamp of a Bahrain embassy or consulate, where such representation does exist. Alternatively the stamp of any other Arab embassy or consulate will be acceptable.

Abeyance with the above regulation will help process the clearance of goods without delay.

PILOTAGE: Mina Sulman Pilots board either at Sitra Anchorage (see "Sitra") or by special arrangement at Outer Middle ground buoy. Pilotage compulsory except for naval vessels and small locally-owned craft whose Masters are familiar with the port and control.

Port equipped with 5 tugs, 3 of 800 h.p., and 2 of 1,600 h.p., 3 pilot cutters and a number of mooring launches and work boats.

Pilot cutters mostly black with white-painted wheel-house and cabin accommodation.

ANCHORAGE: Normal anchorage in vicinity of No. 27 buoy. Approximate position Lat. 26° 10′ N., Long. 50° 47′ E. Sitra anchorage now restricted anchorage and may only be used by special permission of Port Authorities.

MAX. SIZE: Vessel up to 300 m. may enter port subject to tide. Depth of channel 9.75 m. New berths dredged to 10.9 m. Finger pier, depth 30 ft. (9.1 m.).

HEALTH: Port Health Authorities board vessel on arrival at berth alongside Deep Water Jetty and grant pratique.

RADIO: Vessels intending call Mina Sulman should advise Agents via Bahrain Radio, call sign A9M, their ETA, draft, hatch distribution and any other requirements, giving as much notice as possible.

VHF: Vessels equipped with VHF should, when within range, contact Mina Sulman Harbour Office on Channels 6 or 16 which have frequencies of 156.30 and 156.80 respectively.

TUGS: Will usually join vessel between Nos. 7 and 8 Channel Buoys during final approach to Deep Water Jetty. Tugs fitted with VHF.

BERTHING: Finger pier 800 m. long, berthing on both sides with 10 berths each of 150 m. in length for vessels up to 9 m. draft. Four general cargo berths at new development each 200 m. in length with depth of 10.9 m.

Two container berths (Berths Nos. 11 and 12) each 200 m. in length and 10.9 m. depth equipped with 2 container handling gantry cranes 30.5 tons capacity with 38 m. outreach.

Berths for coastal vessel, length of quay 285 m. with depth of 7 m.

Small Ro-Ro ramp for vessels up to 5.5 m. draft. Width of ramp 15.5 m.

Each general cargo berth is provided with modern fork lift trucks, trailers and units to facilitate the movement of cargo.

Pallets are available to assist cargo handling. Two heavy lift mobile cranes of 40 tons capacity are available on request. Other equipment, including cranes, from 7 to 35 tons capacity and fork lift trucks from 2 to 30 tons capacity are also available.

Storage facilities: Storage facilities consist of 14 sheds (one of which is located in the container terminal area) having an area under roof of 1,000,000 sq. ft. in addition hard surfaced yards and the container terminal stacking/parking area provide extensive storage capacity.

GRAIN HANDLING: Two portable pneumatic suction/blowing units are used. Capacity 75 t.p.h. each. Wheat is discharged into 20-ton trailers, which takes about 8 to 12 minutes for each trailer.

STEVEDORES: Stevedoring gangs shall be ordered and paid for by Ships Agents.

Working Hours: The port will operate on a 2 shift basis 6 days per week. Additional work on Fridays and Public Holidays are subject to extra charges.

Saturday to Thursday – 0700 hrs. to 2300 hrs.

Working hours are subject to change at the discretion of the Port Authority. Requirements for Port Labour must be submitted by Ships Agents to the Port Authority by 1400 hrs. for work during the first shift on the following day and by 1000 hrs. on the same day for work on the second shift.

Special overtime to finish and sail a ship may be granted after 2300 hrs.

MEDICAL: Upon application to ship's Agent, the medical examination of crew members can be arranged. Personnel will either be sent to private doctor or to Public Health Department as circumstances dictate. Serious cases will be referred to government hospital doctor.

FRESH WATER: Well water available and can be delivered on berths at Deep Water Jetty at rate of approximately 20 t.p.h. per hose. Fresh water also available by barge with capacity of 300 tons.

FUEL: Bunkers available Mina Sulman and provided by barge of 8,700 barrels capacity, which is owned by the Bahrain Petroleum Company. All usual grades of commercial oil available. 48 hours notice required.

GANGWAY/DECK WATCHMEN: Not customary to employ deck watchman.

IDENTIFICATION CARDS: These cards necessary for any crew member wishing to proceed ashore. Identification card is surrendered to Immigration Authorities at main entrance to port in return of a pass. On return to port, the pass is surrendered and seaman's identity card returned to him.

REPAIRS: Good facilities for both hull and engine repairs which can be effected by the two principal slipway companies. Facilities exist to receive single vessels of 1,000 d.w.t., and a tower crane capable of a 15 tons lift at 40 ft. Also see "Dry Dock".

DRY DOCK: *Asry Dry Dock:* The dry dock measures 375 m.×75 m., the bottom structure being strong enough for double dockings.

This is the first repair dock in the world specially designed for shallow draft VLCCs. With the sill beam at 9 m., it can accept vessels of 34 ft. draft.

Four dockside arms, two per side, give access to almost the entire surface of a VLCC hull for cutting, welding, shotblasting and cleaning/painting purposes, without the need for scaffolding.

Manoeuvring Basin: The manoeuvring basin dredged to 10 m. allows ships of up to 32 ft. draft to dock at any time. If necessary, ships may lie directly on the basin's sandy, levelled bottom.

Jetties: The two finger jetties are 170 m. long × 21 m. wide and can accommodate at least four large vessels for in-water repairs.

Mechanical Shop: The mechanical shop is equipped with 36 major machine tools, plus additional supporting services.

Plate Shop: The plate shop is equipped with 45 machine tools and portable equipment, plus additional supporting services.

Pipe Shop: The pipe shop is equipped with 26 machine tools and portable equipment, plus additional supporting services.

Electrical Shop: The repair capability in the electrical shop is summarised as follows:

Motor rewinding
Transformer and operating coil rewinds
Generators (main and auxiliary), large motors; strip, inspect, clean, replace bearings and rebuild
Rewiring (limited facility)
Switchboards: clean and repair
Motor controllers: find fault and repair
Air conditioning equipment: servicing and repair
Engine and bridge control panels (limited repair facility).

Navigational equipment (radar, DF, UHF, gyro compass, auto pilot, echo sounder) repairs are carried out by manufacturers' agents, who are fully represented in Bahrain.

Cranes: Four rail cranes of 15 tons lifting capacity and 75 m. outreach are located on the two finger jetties and adjacent to the dry dock. In addition, one rail crane of 100 tons lifting capacity and 61 m. outreach is located adjacent to the dry dock.

These five rail cranes cover about 90% of Asry's outdoor production area. For the remaining production areas, 4 mobile cranes each of 20 tons capacity and 2 hydraulic lifting platforms of 80 tons each are available.

Inside the workshops, overhead cranes of 6, 15, 25 and 160 tons lifting capacity are available.

Floating Crane: A floating crane of 200 tons lifting capacity, specially designed to reach any point on the deck or superstructure of a VLCC in ballast condition, is available. This lifting equipment is installed on a pontoon which has an overall length of 35.5 m. and a beam of 23 m. The crane is of the luffing type, which permits the height of the hook to be maintained while the outreach can be adjusted in travel.

Tugboats: The yard has a fleet of 6 tugboats, each of 32 tons bollard pull, which have been specially designed to manoeuvre large ships both in the yard and at sea.

Each tugboat has an overall length of 33 m. and a moulded beam of 8.5 m., with a draft fore and aft of 2.55 m. and 3.05 m. respectively.

The main engine is rated at 2,400 b.h.p. at 500 revs. per minute in accordance with DIN 6270A, and provides each tug with a normal free navigation speed of 12.5 knots.

Tank Cleaning Station: Asry's tank cleaning station is the 35,000 d.w.t. tanker "White Beach", which has been fully converted for the purpose. It is able to receive, by a continuous segregation system, slops, dirty ballast and tankwashing water at a rate of up to 1,500 t.p.h.

The cleaning station is fully equipped to supply steam, electrical power, distilled water and compressed air. Temporary storage of bunkers is also available.

Asry repaired vessels totalling 22 million d.w.t. in 1979.
120 vessels repaired in 1979, of which 72 were VLCCs.
Largest vessel so far to enter dry dock was 411,000 d.w.t.
Largest vessel to be repaired was 508,000 d.w.t.

Total workforce is 1,400 persons. Management is in the hands of Lisnave of Portugal.

REPATRIATION: It is possible for whole crews or just individual crew members to join or leave vessels at Bahrain. As much notice as possible should be given to Agents to enable arrangements to be made for their reception, hotel accommodation and transportation.

AIRPORT: Bahrain International Airport regularly served by main international airlines, with frequent services to Europe, U.S.A., Far East, and Australia. Also frequent inter-Gulf flights.

TIME: GMT plus 3 hours.

HOLIDAYS: Public holidays in accordance with Muslim calendar as follows: 3 days during Ied Al Fittr; 3 days during Ied Al Adha; 3 days during Muharram; 12th R'Awal Prophet's Birthday; Accession of H.H. The Ruler, 16th December; 25th December; 1st January. Apart from 6 days, two during each of the religious anniversaries, all holidays will be worked in the port as on Fridays, the Sabbath day.

TELEPHONES: Can be provided at each berth on Deep Water jetty at charge of BD. 10.000 fils per day per phone (approx.). In case of emergency, dial 79 for ambulance; 77 for Duty Police Officer; 75 for Fire Brigade.

SERVICES: Bahrain well provided for services including repairs, stores and supplies, fumigation surveys, adjustments, radar and gyro compass repairs, professional diving, and underwater brushing.
SHORE LEAVE: Permitted.
AUTHORITY: Assistant Under Secretary, Customs and Port Affairs.
AGENT: Gulf Agency Co. (Bahrain) W.L.L., Awal Building, 1st Floor, Government Road, P.O.B. 412, Manama, Bahrain. Cables: "Confidence", Tel: 254228, 243381. Telex: 8211 (A/B "GAC BN"). After office hours Tel: 691129, 691758, 692266.

SITRA: 26.09 N. 50.40 E. (See Plan Book)

OPERATORS: The Bahrain Petroleum Co. Ltd., Awali, Bahrain. Cables "Bapco Bahrain.
TRAVEL TO SAUDI ARABIA: Travellers are permitted to travel from Bahrain to Saudi Arabia, *provided: (a)* They hold a valid International Vaccination Certificate showing that the holder was immunised at least 5 days before travelling to Saudi Arabia, but not more than 6 months previously; *(b)* that any traveller proceeding to Saudi Arabia from Bahrain should have taken the prescribed doses of Tetracycline over the 48-hour period immediately before travelling. The fact that the passenger has taken the Tetracycline should be certified by the Bahrain Health Department.
PORT LIMITS: A vessel is normally considered to be an "arrived vessel" when the vessel passes due South of Sitra Beacon, unless she has been instructed to anchor in the deep water S.E. of No. 27 Buoy. Also see "Loading/Discharging".

The Port of Sitra is an open roadstead situated on the N.E. side of Bahrain. Some protection is afforded to the anchorage during the prevailing N..W. wind by Muharraq Island and outlying reefs which lie to the North of the anchorage.

During Southerly winds some protection is also afforded by outlying reefs and sandbanks which lie to the Eastward of Bahrain Island. Prolonged winds from an Easterly or S.E'ly direction make the anchorage uncomfortable for small vessels.
SPECIAL FEATURES:

1. There are 6 oil loading berths for ocean-going vessels at the Port of Sitra, and in addition one berth where small vessels of up to 240 ft. in length and 16 ft. draft may be berthed. The Alba Island terminal has a jetty with 2 berths; nominally the outside berth being for bulk carriers unloading coke and alumina ore and the inside berth being for vessels loading metal products.
2. Company Mooring Masters advise and assist Masters in berthing, unberthing, mooring and navigating their vessels in the port.
3. All incoming vessels scheduled to load or discharge at either BAPCO or ALBA facilities should establish radio contact with BAPCO via "Cable & Wireless" at Manama, Bahrain, at least 48 hours prior to arrival giving a firm ETA, arrival draft and the requirements if any for bunker fuels. (See "Radio").
4. The laws of Bahrain are in force at Sitra and crew members are advised, for their own protection, to abide by them.
5. All vessels must display international quarantine signals when approaching Sitra and keep them displayed until pratique is granted. The national flag of Bahrain is to be flown at the foremast head during the vessel's stay in the port.
6. Safety is a prime concern and Masters must comply with all Safety Regulations pertaining to the port.

DOCUMENTS: Crew list 3 copies. Passenger list 3 copies. Customs Declaration 2 copies. Health Declaration 2 copies. Log Book for Inspection by Customs Officers.

Cargo and bunker documents are delivered to the vessel as soon as possible after the vessel has been cleared on quantity and quality. Delays are sometimes incurred. As a result, the Company reserves the right to unberth a vessel and deliver documents by launch so as to minimize berthing delays to subsequent vessels.

Early Departure Procedure (E.D.P.) is available on Master's request.
PILOTAGE: Not normally provided between Bahrain Light Vessel and Sitra Anchorage.
Harbour Pilotage: Under no circumstances shall any vessel, irrespective of size, be allowed to berth alongside Company wharves unless a Company Mooring Master is on board and correct documentation signed. A Company Mooring Master shall also be on board a vessel for the unberthing operation, however, under special circumstances, certain vessels may be allowed to unberth without a Company Mooring Master on board, providing the Mooring Master has given permission immediately prior to unberthing. The services of the Company Mooring Masters are provided without charge.

The Mooring Master will decide on the number of tugs to be used in berthing and unberthing operations. Normally, 2 tugs are used in each instance.
Boarding: The Company Mooring Master may board the vessel from either a Pilot cutter, tug or a tow-boat displaying the normal Pilot vessel signals.

If no berth is available, vessels should anchor in the prescribed anchorage until such time as a berth is available. Every endeavour will be made to give the Master berthing instructions prior to the boarding of the Mooring Master, and to this end, Masters are requested to maintain a continuous watch on the VHF. In cases where it is impossible to give prior berthing instructions, the Master and Chief Engineer are requested to co-operate with the Company by getting the vessel's engines ready for use with the least possible delay.
APPROACHES: Without accepting any responsibility, the following suggestions are made by Bapco marine staff, for the benefit of Masters not familiar with approaches to Sitra.

The courses inbound will depend upon draft of the vessel. Masters of vessels wishing to utilise the "Deep Water Departure Channel" should follow reciprocal of courses described for "Deep Water Departure Channel".

Masters of vessels with drafts of less than 30 ft. are requested to *Keep Clear* of this channel, and use "Sitra Inward" Buoy as follows.
(a) *Under 30 ft. Draft*
(i) From a position (Lat. 26° 27.8′ N. Long. 51° 00′ E.) 2.5 miles S.E. of No. 3 Beacon (Lat. 26° 28.5′ N. Long. 50° 57.4′ E.) a course should be set to position 0.75 mile North of "Sitra Inward" Buoy (Lat. 26° 21.2′ N. Long. 50° 49.7′ E.) leaving the "Caisson Wreck" Buoy (Lat. 26° 24.2′ N. Long. 50° 52.7′ E.) at least 0.5 mile to starboard.
(ii) From position 0.75 mile North of "Sitra Inward" Buoy a course should then be set towards No. 16 Buoy (Lat. 26° 12.9′ N. Long. 50° 46.3′ E.).
(iii) When the vessel has reached a position with No. 16 Buoy, 1.5 miles ahead, course can be adjusted to due South, passing westwards of "Vidal" Buoy (Lat. 26° 14.1′ N. Long 50° 47.2′ E.) until "Sitra Beacon" bears due West. The course can then be altered to pass South of No. 18 Buoy (Lat. 26° 10.3′ N. Long. 50° 43.9′ E.), and thence to Sitra Anchorage, thus keeping clear of the deep water channel.
(iv) All vessels, with the exception of coastal tankers, coastal freighters and tugs, should proceed to an *anchorage 1 mile South of No. 27 Buoy* until instructed by either Sitra Port Control, Asry Port Control or Mina Sulman Port Control. If permission is granted to proceed to Sitra Anchorage for special purposes, such as discharging into barges, loading bunkers by barge, etc., the vessel should proceed to anchor *North of an imaginary line joining Sitra Middle Ground Buoy and the Sitra Beacon.* The Sitra Middle Ground Buoy is the buoy 4 cables to the N.E. of BAPCO's Island Jetty. The above line delineates the Southern Limit of the anchorage, the Departure Channel is then kept clear for deep-drafted vessels entering and leaving the ports.
(v) The colours of beacon structures and buoys are often obliterated by Guano.
(b) *Deep Water Departure Channel*
(i) The following "Alteration of Course" positions are based upon a radius of turn of 5 cables. This may necessitate an increase in engine revolutions, together with full helm, on some vessels.
(ii) The Company Mooring Master unberthing the vessel will normally leave vessel after having crossed the Sitra Middle Ground Bar; and with the vessel proceeding to pass 2 cables South of "Sitra Beacon" (Fl. 3.3 sec.) and close North of No. 18 Buoy (Qk. Fl. R.).
(iii) When No. 18 Buoy comes abeam, course should then be altered to 090° (T) which will bring Sitra Beacon dead astern, bearing 270° (T).
(iv) As No. 27 Buoy (Qk. Fl. W.) comes abeam to port, course should be altered to 022° (T), until Buoys 21, 23 and 25 are sighted in line, bearing 344° (T), whence course should be altered to 344° (T).
(v) On course 344° (T) Buoy No. 25 (Fl. 5 sec.) and Buoy No. 23 (Int. Qk. Fl.) will be passed close on the port side and Buoy No. 16 (Fl. R. 6 sec.) a "Middle Ground Mark" on the starboard side.
(vi) As No. 21 Buoy (Gp. Fl. (3) 5 sec.) comes abeam to port, course should be altered to 015° (T), which should bring Buoy No. 12 dead ahead and Buoy No. 21 dead astern. The bearings of these buoys should be watched closely to gauge and correct for cross set which is sometimes quite strong on this course and the next. On this course No. 14 Buoy (Fl. R. 10 sec.) will be left to starboard.
(vii) On No. 19 Buoy (Fl. 3 sec.) coming abeam, course should be altered to 002° (T) bringing Buoy No. 15 (Occ. 5 sec.) dead ahead. Buoy No. 12 (Fl. R. 2 sec.) will then be left close to starboard and No. 17 Buoy (Qk. Fl. W.) will be left to port.
(viii) In order to pass over a cable eastwards of Buoy No. 15, course should be altered to 016° (T) as Buoy No. 10 (Gp. Fl. (3) R. 10 sec.) comes abeam to starboard and then altered to 356° (T) as Buoy No. 15 comes abeam to port. This course would pass 3.5 cables West of Bahrain Approach Buoy position. It may be advisable to reduce engine revolutions shortly after steadying on course 356° (T), in order to be able to increase if required to provide better steerage on rounding the buoy.
(ix) When the Bahrain Approach Buoy bears 051° (T) course should then be altered to 051° (T). As this heading is approached, it should be found that Buoys No. 8 (Fl. R. 2 sec.) and No. 6 (Gp. Fl. (3) R. 6 sec.) are in line to starboard, as Bahrain Approach Buoy comes abeam at 2.5 cables, and then should commence to open. Buoys No. 13 (Int. Qk. Fl.) and No. 11 (Qk. Fl.) are parallel to the course on the port side of the vessel, give clearance of the 43 ft. patches and give the extent of the bar which should be traversed at Slow Speed.
(x) On No. 11 Buoy coming abeam to port, course should be altered to 054° (T) passing between No. 9 Buoy (Fl. 10 sec.) and Buoy No. 4 (Qk. Fl. R.), followed by Buoy No. 7 (Fl. 5 sec.) to port.
(xi) When Buoy No. 2 (Gp. Fl. (2) R. 10 sec.) bears East, course should be altered to 071° (T) to pass close South of Buoy No. 5 (Fl. 3 secs.).
(xii) Buoy No. 5 should be close abeam to port, when the course is altered to 057° (T) and speed reduced to cross the spit which extends in a Southerly direction from No. 3 Beacon (Fl. 6 sec.) in a minimum depth of 43 ft. 6 in. at Chart Datum.
(xiii) When Buoy No. 1 (Fl. 1 sec.) bears 040° (T), course should be altered to 040° (T) bringing the Bahrain Light Vessel (Gp. Fl. (3) 20 sec.) on the starboard bow. One and a half miles after Buoy No. 1 has been left to port, the minimum depth of water is greater than 50 ft., and it is safe to go full ahead.
(xiv) Masters can expect to have to make adjustments from time to time, to the recommended courses, due to set. Effects of tide and current should be watched for at all times.

ANCHORAGE: The whole of the navigable waters to the West of Sitra Beacon are restricted for anchorage unless specific permission has been granted. The area South of an imaginary line joining Sitra Beacon and Sitra Middle Ground Buoy is the fairway to Mina Sulman, and the approaches to Bapco and Alba wharves and as such anchorage is prohibited.

The area to the North of an imaginary line joining Sitra Beacon and Sitra Middle Ground Buoy is an anchorage, bounded on the North by Asry Drydock and North Shoals Beacon where coastal tankers, coastal freighter, tugs, vessels' working barges and bunker barges may anchor after specific permission has been granted. This area is also the approaches to the Asry Drydock and vessels should not immobilize their engines without having received written permission from a Port Authority.

Masters of all vessels are requested to maintain a continuous watch on the VHF Channel 16.

Caution: Due to the presence of pipes and power lines, anchoring or the use of anchors is prohibited in the vicinity of or between No. 1 (Island) wharf and No. 2 wharf except upon the advice of a Company Mooring Master.

RESTRICTIONS: Berthing carried out night and day.

Merchant vessels carrying explosives not permitted entry Sitra Anchorage unlesss permission has been granted and anchorage allocated. The Masters of such vessels are advised to anchor in a position 2 miles due east of South Shoals Beacon.

The Deep Water Channel between Sitra Anchorage and Bahrain Light Vessel has minimum depth in the shoaler areas, of 43 ft. 6 ins. at Chart Datum. This permits unrestricted use of channel for vessels drawing up to 40 ft.

For vessels with drafts in excess of 40 ft., the following conditions will apply:

a. *Between 40 and 42 ft. draft.*
Neap Tides: Vessels can navigate the channel at all stages of the tide.
Spring Tides: Tidal sailings will apply, utilizing the rise of tide, so as to pass through the shoaler areas between Bahrain Approach Beacon and No. 3 Beacon over the high water period at reduced speed.

b. *Between 42 and 44 ft. draft.*
Utilization of the tidal range, to clear the shoaler areas, mentioned above, is mandatory, and these areas should be traversed at a reduced speed.

Masters of departing vessels requiring to utilize the rise of tide, to cross the bar N.E. of Bahrain Approach Buoy, and that South of No. 3 Beacon should be underway, passing Sitra Beacon not later than *3.5 hours before* the next predicted *High Water* at *Mina Sulman,* or at a time not later than that which would allow vessels to make the passage between Bahrain Approach Buoy and No. 3 Beacon at a reduced speed of 8 knots, having the full benefit of the tide, and passing Bahrain Approach Buoy *1.5 hours* before the predicted *High Water* at *Mina Sulman.*

MAX. SIZE: *Bapco Terminal:* See "Oil Wharves".

Special conditions for vessels over 80,000 d.w.t.:

Vessels from 80,000 to 110,000 d.w.t. will only be moored on berths 5 & 6 providing the following conditions are met:

1) Maximum berthing displacement 71,500 tons.
2) Maximum overall length 900 ft.
3) Maximum distance from Manifold to Bow or Stern 475 ft.
4) To have segregated permanent ballast system of at least 15% of d.w.t. This ballast to be retained until loading commences, then discharged balancing loading rate, 12,000 – 16,500 tons.
5) To have the propellor covered and a trim of 12 to 15 ft.
6) Mooring to consist of 7 lines at each end, 3 Bow/Stern lines to Outer Mooring Dolphins, 2 Quarter lines to Inner Mooring Dolphins, 2 Backsprings to Breasting Dolphins.

Alba Marine Facilities: Up to 35,000 tons d.w.t.

HEALTH: Bahrain Port Health Regulations based on International Sanitary Regulations adopted by World Health Organisation, May 1951.

In accordance with International practice, quarantine signals must be prominently displayed by all vessels approaching the port of Sitra.

Pratique is normally granted by the Bahrain Government Port Health Officer or the Agents' representatives. If neither is available, the Company Mooring Master is also authorised to grant Pratique to healthy vessels scheduled for immediate berthing.

No person, excepting Agents' Representatives and Mooring Masters, are permitted to leave or board a vessel until Pratique has been granted.

Rat guards should be properly placed on all mooring ropes as soon after berthing as practicable.

The port of Sitra is not classed as a "Plague Port" but all Crew members must have in their possession valid certificates of vaccinations and inoculations in accordance with current Health Regulations.

The Bahrain Government Port Health Officer has an office on Sitra Causeway Pierhead and is available by arrangement through vessel's Agent. The Port Health Officer, in addition to official duties, will provide consultation and treatment for other than quarantine purposes.

Deratisation and Deratisation Exemption Certificates are obtainable in Bahrain. Requests should be made through the vessel's Agent.

RADIO: The Company does not operate a coast radio station, long-distant radio communication being routed through Cable and Wireless Coast Station "Bahrain Radio" "A9M" of Manama, Bahrain, upon which a regular watch should be maintained. The cable address is "Bapcoship Bahrain". When within 50 miles of Bahrain, communication should be established with "Sitra Port Control", by VHF.

All communications to the Company should be quoted in GMT, and the appropriate letters, GMT, inserted after the time.

Masters of vessels having business with Bapco, may contact Bapco by Telex through A9M, on Telex: 8218 BN (Answerback being BAPSHIP) but messages to the vessel from BAPSHIP will all be relayed through to Bahrain Radio for onward transmission.

Bahrain Radio (A9M)

Sitra Port Control

R/T, VHF	Continuous	Ch. 16	Ch. 6, 8, 9, 12, 14
R/T, H/F	On demand	2182	2182, 2621, 2806

Masters of all vessels are requested to maintain a continuous watch on VHF Channel 16.

All vessels are requested to keep "Bapcoship Bahrain" fully advised regarding estimated times of arrival. It is requested that vessels provide "Bapcoship Bahrain" (Telex No. 8218 BN) with an ETA and arrival and departure drafts, not later than 48 hours steaming time from the port of Sitra.

A separate radio message should be sent to the Government Port Health Officer, Bahrain, advising last bill of health and present health conditions on board.

The Radio and Radar equipment of any vessel must *not* be operated whilst alongside Company wharves.

TUGS: The assistance of Company tugs is normally available on a 24-hour basis.

When assisting in berthing and unberthing operations, the tugs are under the direct orders of the Mooring Master.

The Company normally has 2 tugs on station. Each tug is fitted with fire pumps and monitors and can provide limited assistance fighting fires.

The Mooring Master will decide upon the number of tugs to be used in berthing and unberthing operations. Normally, 2 tugs are used in each instance.

If the assistance of a tug is required for purposes other than berthing or unberthing, the request should be directed to the Port Captain, Sitra, via the vessel's Agents.

Towboats: Normally there are 3 tow-boats of 365 h.p. on station. Primarily intended for other harbour duties, these tow-boats are available for assisting in the berthing/unberthing of the smaller class of vessel.

BERTHING: Under normal circumstances, berthing and unberthing operations are conducted on a 24-hour basis at the discretion of the Mooring Master; wind, weather, tide and other circumstances permitting.

Full power must be available on the main engines and the vessel must be sufficiently ballasted during berthing operations. Mooring Masters will decline to berth vessels if they are not properly equipped with satisfactory mooring lines, or if deck appliances are inoperable, or if steering gear, telegraphs and whistles are not in an efficient condition. Anchors and cables should be cleared ready for letting go. The Master should notify the Mooring Master of any defects or peculiarities pertaining to his vessel.

Minimum Manoeuvring Drafts for Tankers: Due to the exposed location of the wharves, vessels are required to be sufficiently ballasted with clean ballast water before coming alongside.

Minimum tanker drafts normally acceptable are:

Deadweight-tonnage	*Feet*		*Metres*	
	F.	*A.*	*F.*	*A.*
16,000 to 20,000	12	20	3.60	6.00
20,000 to 30,000	13	21	4.00	6.40
30,000 to 40,000	14	22	4.20	6.70
40,000 to 50,000	15	24	4.60	7.30
50,000 to 60,000	16	25	4.80	7.60
60,000 to 70,000	16	26	4.80	7.90
70,000 to 80,000	17	26	5.20	7.90
80,000 to 110,000	17	27	5.20	8.20

Ballast draft should be sufficient to completely immerse the propeller. Mooring Masters may decline to berth vessels if they are not sufficiently ballasted.

Handling Mooring Lines: The Company provides a shore gang for handling mooring lines on the wharves. This service is directed by the Company personnel on the wharf.

Vessels berthing at the wharves must be equipped with *at least* 5 lines forward and 5 lines aft, in addition to backsprings fore and aft. These lines must be sufficient length to enable moorings to be "doubled up" in bad weather. Method of mooring at discretion of the duty Mooring Master.

OIL WHARVES: Two wharves, which lie 146° - 326°, have been constructed to handle the main petroleum products produced by the Company, with a wharf lying 023° - 203° for coastal tankers in special services.

Whilst the main petroleum products, together with bunkers (fuel oil, marine diesel and gas oil) are available at all berths, the following specialities are handled on particular berths:

Asphalt, Berths 2, 4, 7; Refrigerated L.P.G. (Vapour Return/Loading Arm), Berth 1; Refrigerated L.P.G. (Vapour Return/Loading Arm), Berth 2; Caustic/T.E.L. imports, Berth 4; Drummed Asphalt, Berth 4; Blended Bunker Fuel Oil, Berths 2, 4.

No. 1 Island Wharf: No. 1 (Island) Wharf consists of one main central platform supported on steel piles with four inter-connected mooring dolphins, two positioned to the North-West and two to the South-East; giving the wharf an overall length of 923 ft. This wharf, which is supplied by submarine pipe-lines, provides two berths protected by four breasting dolphins each side.

Depths at this wharf are as follows:

Berth No. 5	46 ft. at Chart Datum Max. draft, 44 ft.	(14.03 m.)
Berth No. 6	43 ft. 6 ins. at Chart Datum Max. draft of 44 ft. permitted only under suitable tidal conditions	(13.26 m.)

Length limitations for these berths are 900 ft. with a maximum distance from manifold to ends of 475 ft. Owing to the breasting dolphin arrangement, the shortest tanker must exceed 540 ft. and no freighters are handled on these berths.

The maximum size of vessel berthed is 71,500 tons displacement, which approximates to 110,000 d.w.t. in ballast.

Also see "Max. Size".

No. 2 Wharf: No. 2 wharf is a pile driven 'T' head structure with three interconnected dolphins, two positioned to the N.W. and one to the S.E., giving the wharf an overall length of 1,666.5 ft., and providing four berths, two on the outside and two on the inside. Both outside berths (Nos. 1 and 2) and the N.W. inner berth, No. 3 are protected by berthing beams. This wharf is connected to the mainland by a causeway 3 miles in length.

Depths at this wharf are as follows:

Berth No. 1	42 ft. at Chart Datum Max. Draft 40 ft.	(12.801 m.)
Berth No. 2	42 ft. 6 ins. at Chart Datum Max. Draft 40 ft. 6 ins.	(12.954 m.)
Berth No. 3	39 ft. at Chart Datum Max. Draft 34 ft. but 36 ft. may be permitted under suitable tidal conditions.	(11.887 m.)
Berth No. 4	39 ft. at Chart Datum Max. Draft 34 ft.	(11.887 m.)

The length limitations are as follows:

Berths 1 & 2	Normally 820 ft., but may be exceeded depending upon the configuration of the vessel and the vessel utilising the other berth.	(250 m.)
Berth No. 3	560 ft.	(170 m.)
Berth No. 4	550 ft.	(167 m.)

The maximum berthing displacement on berths 1 and 2 is 58,000 tons, which approximates to 80,000 d.w.t. The maximum berthing displacement on Berth 3 is 33,000 tons, which approximates to 25,000 d.w.t. of cargo import.

Coastal Tanker Wharf: This wharf which lies 023° - 203°, is limited to vessels of under 240 ft. in length and less than 16 ft. (4.90 m.) draft. The wharf is a pile driven structure connected by a catwalk to the causeway. At its N.N.E. end there is a warping dolphin and it is protected on its Eastern side only, with a berthing beam.

This wharf handles bunkers (diesel gas oil, marine diesel and fuel oil), bulk asphalt and LPG only.

BALLAST: The discharge of dirty ballast within the territorial waters to Bahrain is strictly prohibited. As a further measure to avoid pollution by oil of the Marine environment, Masters of tankers are requested not to pump any oil overboard within the Gulf area.

There are limited facilities for the receipt of oily residues at Sitra Wharves. Vessels, which require to discharge ballast at Sitra Wharves after berthing, must, therefore, ensure that the ballast is clean prior to arrival in the Gulf Area.

In the event of a vessel spilling oil in Sitra harbour the Company will, at its discretion, clean up the oil and recover costs by charging the vessel.

ALBA WHARF FACILITIES: The "Alba" Wharf is a pile driven, inverted "L" shaped structure 562 ft. long with a reinforced concrete decking. A mooring dolphin is situated 165 ft. to the North West and a warping/mooring dolphin 197 ft. to the South East. These dolphins give the wharf an overall length of 924 ft.

Depths at this wharf are as follows:

Seaward berth: 35 ft. at Chart Datum (10.7 m.), 36 ft. at mean low water (11 m.); Inner berth: 30 ft. at Chart Datum (9.1 m.), 31 ft. at mean low water (9.4 m.).

Alba provide two shore springs which must be taken aboard upon completion of ships mooring.

The seaward berth is provided with berthing heads to accept vessels of up to 35,000 d.w.t. while the landward berth is designed to accept vessels of up to 12,000 d.w.t.

Loading and Unloading Facilities: Bulk carriers will be unloaded on the outside or seaward berth by two 10 ton capacity grab equipped cranes.

Metal exports will be loaded at the inner or landward berth using gear or, possibly, at the seaward berth when the jetty cranes may be used.

Due to the exposed location, vessels alongside the inner berth may experience considerable surging in rough weather and a careful watch should be kept on mooring ropes.

Services: Vessels using Alba Marine facilities are assisted by Bahrain Petroleum Company Limited Mooring Masters and tugs. Transportation between the Alba jetty and mainland must be provided by Agents.

Operators: Company cable address is "Metalba Bahrain".

MEDICAL: Advance notice to Agents preferable. Good hospital and medical facilities.

Emergency hospital cases will be treated as such, and will be handled by the vessel's Agent or by Company facilities, whichever is first available. Under normal conditions, the vessel's Agent should handle all personnel from vessels other than "Company" vessels.

Heat exhaustion. Experience over many years has shown incidence of heat stroke and heat exhaustion cases among the crews of vessels visiting Bahrain during the hot season, with some fatalities. The Company medical authorities have prepared notes on this subject which may be of assistance to Masters, but skilled medical assistance should be called for immediately a case of heat exhaustion or heat stroke is observed.

To enable heat exhaustion cases to be treated expeditiously a Heat Exhaustion Unit is located in the Port of Sitra shipping offices at the Wharf gate.

RESIDUES: Limited slop tank facilities for oily residues at all berths.

LOADING/DISCHARGING: *Readiness:* The following will apply in regard to Notice of Readiness.

Notice of readiness to load is a warranty on the part of the Master that the vessel is in all respects ready to load and that the tanks, pipes, pumps and accessories of the vessel are fit to receive the cargo to be loaded.

The Master or his representative is required to hand to the Company, within normal business hours, a written Notice of Readiness to load. Receipt of such Notice of Readiness by the Company does not necessarily imply acceptance.

The Company will make every effort to accept Notice of Readiness when tendered on arrival, provided vessel is in all respects ready to load. The Company will endeavour to load vessels upon arrival and/or as promptly as a berth is available.

Arrival, where used above, means when the vessel passes "Sitra Beacon" when proceeding either straight to the berth or to anchor in Sitra Anchorage. In the case of vessels coming from Mina Sulman it is the time when passing North range beacon. In cases where vessels are required to anchor in the area South of No. 27 Buoy, then the time of anchoring will be used providing that the presence of the vessel is made known to Sitra Port Control by VHF or BAPCOSHIP via Bahrain Radio on radio telephone, Awali 2662 at the time of anchoring.

Responsibility: Loading will not start until the vessel's loading officer reports the vessel is ready to receive cargo and the Company's Loading Master is satisfied with the preparations for loading. Any inspection made by the Company's Loading Master in this regard is performed without the Company assuming any liability.

All operations on board the vessel in connection with loading and discharging are the responsibility of the vessel.

A Company Loading Master will be available throughout the loading to offer advice to the Master on loading procedures and loading hazards.

Warning is given of the danger of closing a valve against an incoming oil stream. This procedure will create excessive pressures which may result in damage to the loading hoses, vessel's pipe-lines or Terminal facilities. Vessels will be held liable for damages resulting from failure to observe this precaution.

Hose handling: Without assuming any liability on behalf of the Company, Company employees will assist in connecting and disconnecting hoses to vessels. A ship's officer must be present, and the ship's deck officer on duty must approve the hose connection on board.

The Company has modern air-operated hose-handling equipment on all berths at the No. 1 (Island) Wharf and the No. 2 Wharf, except No. 4 Berth. However, the vessel's hose rigging derricks should always be in a constant state of readiness to give additional assistance as necessary. Company employees will not operate ship's derricks or winches.

Cargo inspection service: The service of the Bahrain Government Petroleum Inspectors are available for the inspection and certification of the condition of a vessel's tanks, pipes, pumps and appurtenances. the Agent will, upon request, arrange for the services of this Inspector.

The Company will not issue any certificate purporting to state that vessel's tanks, pipes, pumps and appurtenances are clean or acceptable for receiving cargo. In the event a Company representative either alone or accompanied by the Bahrain Government Petroleum Inspector, inspects the vessel, the Company will make no representation nor assume any responsibility in connection with the condition of vessel's tanks, pipes, pumps and appurtenances, nor will the Company assume any liability for contamination of cargo aboard ship caused by the condition of the ship's tanks, pipes, pumps or appurtenances.

Loading rates: This table prescribes the approximate maximum loading rates of products available at the Wharves:

Product		*Barrels per hour*	
Motor gasoline	up to	7,000	on 2 S/Ls
Naphtha (JP4) Jet fuel	,,	10,000	on 3 S/Ls
Kerosene	,,	5,000	on 2 S/Ls
White diesel	,,	12,000	on 2 S/Ls
Black diesel	,,	2,500	
Fuel	,,	25,000	on 3 S/Ls
L.P.G	,,	10,000	on 1 S/L

Loading rates of kerosenes and jet fuels are restricted due to static electricity hazards. These rates will be made available by the Company Loading Master.

A maximum pressure of 150 lb. is allowed on the loading hoses.

Discharging Rates: The discharge rates will be governed by the vessel's pumps, which must be limited to 150 lb. pressure.

DENSITY: Average 1030.

FRESH WATER: Limited quantities of well-water available at Sitra Oil

Wharves. It is saline and is mainly used for washing purposes. The use of this water in boilers and evaporators unless pretreated, will cause scale formation.

There is a nominal delivery charge.

Only in cases of extreme emergency will vessels be berthed for water alone, at an additional docking charge.

There is no water available on the Alba Wharves except by barge.

Water is available from lighters in the Sitra Anchorage. Requirements should be requested through the vessels' Agents.

FUEL: *Facilities:* Bunkers can be supplied at all oil berths and can be loaded simultaneously with bulk cargo.

Bunker quantities are measured by "Brodie" positive displacement meters.

Chief Engineers, on request to the Company's Loading Master, can avail themselves of the opportunity of checking the opening and closing counter readings on the meters supplying bunkers to the vessel.

Product	*Bunkering Rates are approximately*	
	Bbls/hr	*Tons/hr*
Fuel oil	up to 2,500	up to 360
Marine diesel	up to 1,500	up to 200

Bunker Barge Service: The Company operates a bunker barge service principally to supply bunker fuels to vessels at Mina Sulman. This service is also available to vessels in the Sitra Anchorage and Alba wharves, but may be temporarily suspended due to adverse weather conditions.

The service is maintained by the barges "Bapco 1", "Safala"and "Askar".

"Bapco 1". The barge with a loaded d.w.t. of 1,200 L.T. has a cargo capacity of approximately 8,900 barrels. Its approximate maximum capacities are as follows:

Marine diesel	1,800 bbls (240 tons)	or	5,200 bbls (720 tons)
	+		+
Fuel oil	6,350 bbls (950 tons)		2,800 bbls (425 tons)

The discharge rates for the "Bapco 1" are:

Marine diesel	50 – 750 bbls/hr.	(10 – 100 t.p.h.)
Fuel oil	100 – 1,500 bbls/hr.	(30 – 200 t.p.h.)

"Askar"/"Safala". Each barge has a capacity for 1,300 bbls (170 tons) of diesel gas oil which it can discharge at rates between 50 – 760 bbls/hr. (5 – 100 t.p.h.).

Application for the use of the bunker barge service should be made to the Company via the vessel's local Agent and it is desirable for the vessel to give as much advance notice as possible.

Lubricating oils and greases: A full range of Caltex lubricants and greases are available on request.

In order that lubricating oils may be promptly delivered, Masters of vessels are requested to radio "Bapco Bahrain" their requirements at least 48 hours prior to their arrival at the port of Sitra.

Empty lubricant containers are not accepted at Bahrain.

Drummed products: Limited quantities of gasoline, kerosene and diesel gas oil in drums are available at short notice.

To facilitate prompt delivery Masters are requested to radio "Bapco Bahrain" at least 48 hours prior to their arrival for orders exceeding ten drums.

All supplies are in non-returnable steel drums.

GANGWAY/DECK WATCHMEN: An officer must be on deck during all loading or discharging operations. A deck watch must be maintained for moorings and hose connections.

TOBACCO ALLOWANCE: No restriction.

WINE AND/OR SPIRIT ALLOWANCE: Ship's requirements. Bond sealed but can be re-opened upon application. Liquor trafficking between vessels alongside Wharves or between vessels and shore strictly prohibited.

IDENTIFICATION CARDS: Discharge Book or Passport to be deposited with Immigration when going ashore.

CONSULS: Several Embassies are established in Manama, Bahrain.

SURVEYORS: The American Bureau of Shipping and Lloyds Register of Shipping have Surveyors stationed in Manama, Bahrain.

REPAIRS: Local marine repair companies can undertake limited repairs of general nature.

Also see "Mina Sulman".

REPATRIATION: Facilities for crew change and repatriation by sea or air.

AIRPORT: Served by regular Airlines located about 15 miles from Sitra.

TIME: GMT plus 3 hours. No changes during year.

HOLIDAYS: Numerous holidays do not affect operation of Port, which operates 24 hours a day, 7 days a week. Local Sabbath is Friday.

TELEPHONES: No facilities for placing telephones on ships.

NAVIGATION: Port Captain will be available for advice concerning navigation of channel.

Navigation warnings: Attention is drawn to the service provided by the Middle East Navigational Aids Service (MENAS) in promulgating navigation warnings covering the whole of the Gulf area.

Mariners are requested to report any hazard/obstructions encountered, observed failure of or alterations to navigational aids, etc., to:

Middle East Navigational Aids Service,
Post Box 66, Bahrain,

or if the information is urgent, radio/cable to

Megulite, Bahrain.

Printed navigation notices:

(a) The notices, promulgate all navigational information of a permanent or semi-permanent nature.

(b) Each notice, which is serially numbered, in sequence each year, remains in force until specifically cancelled by a later notice, when the information in the notice is:
  (i) Known to have been promulgated in British Admiralty Notice to Mariners.
  (ii) No longer valid.
  (iii) Considered sufficiently promulgated.

(c) These printed notices are distributed to various Agents, Port and Harbour Authorities, where they can be viewed.

Radio navigation warnings:

(a) The warnings relate to navigational information which may immediately effect the safe navigation of ships at sea.

(b) These warnings are serially numbered, with the prefix "NAV" and authenticated by the signature "Megulite".

(c) The warnings are broadcast by Bahrain Radio (A9M) on 487 kc/s. at 0518, 0918, 1318 and 1718 GMT. For further details consult the latest edition of "Admiralty List of Radio Signals" Volume V.

(d) Each radio warning is rebroadcast for a period of from 24 hours to one month, depending upon the nature of the information it contains. At the end of which period it is either self-cancelling or superseded by a new warning.

WEATHER: *Winds:* The direction and strength of winds in this area vary and change at very short notice. However, the prevailing wind is from the North West.

Occasionally it is necessary to suspend berthing during adverse weather conditions.

For a more complete description of winds in the Gulf, refer to the "Sailing Directions".

Weather and Temperature: The local weather during the period May through September is hot and very humid with temperatures ranging up to 110°F in the shade.

Weather during the remaining months is pleasant with temperatures ranging between 50°F to 80°F.

SHORE LEAVE: *Permitted under following conditions:*

When persons going ashore are in possession of valid Vaccination Certificates, and inoculation against cholera certificates, if these required by Port Health Authority.

Persons going ashore must be in possession of valid passport, or Seamen's Discharge Book, which must be handed to the Immigration Officer, and recovered before returning on board.

No smoking is allowed on the wharf, or on board any launch between the wharves, or by any person within 900 ft. of the wharves.

Crew members are warned that it is an offence to bring ashore fire-arms or drugs, and any traffic in intoxicating liquor is strictly prohibited.

GENERAL:

Anchors: The offshore anchor should be cleared and lowered to the waterline, ready for letting go, before approaching the berths. Anchor buoys are not to be used.

Rat guards: Must be fitted. They are available for hire at a nominal rate.

Gangway: Every vessel at the wharves shall provide a gangway, which shall be adequately lighted during the hours of darkness.

Fire Wires: All vessels berthed alongside, in the Port of Sitra, must have the eye of a wire hanging over the outside bow and quarter, to enable tugs to connect up readily, in a fire emergency. The wire shall be suitable for the intended purpose and shall have sufficient scope on deck for free running.

Engines: The main engines and all gear must be in an operable condition and in a state of immediate readiness whilst the vessel is alongside the oil wharves.

Swimming: Not permitted in the vicinity of the wharves.

Provisions: Available.

Laundry: Available.

Publications and Charts: The following British Admiralty or U.S. Hydrographic publications are recommended for use in Bahrain waters:

British Admiralty Charts
No. 3789 – Plans in the Persian Gulf.
No. 3790 – Ras Laffan to Ras Tannura.
No. 3792 – Approaches to Bahrain.
No. 3798 – Bahrain Outer Approaches to Mina Sulman.
The current edition of "The Persian Gulf Pilot".

U.S. Hydrographic Office Charts
No. 3642 – Approaches to Bahrain.
No. 3652 – Approaches to Bahrain Harbour.
No. 3681 – Bahrain Harbour, including Khor Kaliya and Sitra Anchorage.
The current edition of "Sailing Directions for the Persian Gulf".

Launch Services: The Company does not provide launches for general use. Transportation of ship's personnel between vessel, the mainland of Bahrain and the wharves is provided by the vessel's agents.

Tank Cleaning and/or Gas Freeing: Tank cleaning and/or gas freeing are not permitted alongside the wharves.

Fishing: Fishing is not permitted from the wharves or from vessels alongside as nylon lines constitute a safety hazard to personnel travelling on the launches and foul launch propellers.

PORT REGULATIONS: Port Captain should be contacted for any queries not covered by lists of regulations provided on arrival.

SHIPMASTERS REPORT: December 1979.

Anchorage: East of No. 27 buoy, good holding ground with thick mud. Inner anchorage thick mud and VLCC's not dragging with 6 shackles out, in force 7 winds.

Fuel: HVF and Diesel available from barge which holds about 900 L/t (BAPCOSHIP). Barge will not come alongside after 1800 hours or in rough weather but will stay alongside pumping after 1800 hours if already there. Will only bunker in inner anchorage.

AUTHORITY: The Port Captain, Sitra. Bahrain Government Harbour Master.

AGENT: See "Mina Sulman".

Banaba (Ocean Island)

BANABA (Ocean Island): 00.52 S. 169.35 E.

DOCUMENTS:
Clearance from last overseas port.
2 Crew Lists.
4 Passenger Lists.
Bonded Stores List including Narcotics List (in duplicate).
Crew Store List (sometimes called search list or curio list).
4 Manifests.
1 International Health Declaration.
Documents to be completed when ship arrives at Banaba (Ocean Island):
List of unmanifested cargo; Passengers' Baggage Declaration if any, 1 copy per passenger.

PILOTAGE: Pilotage available on request without charge and Masters advised avail themselves of this service. Necessary that Masters, through Banaba (Ocean Island) Radio, inform telegraphic address "Phoscom" of ETA 48 hours before arrival, confirming or altering this 12 hours before arrival. Phoscom reply through Banaba (Ocean Island) Radio on receipt of second message giving time for vessel to close in to 0.5 miles West of loading plants, where Pilot will board. In case of adverse weather or congestion, Masters notified by radio or by VHF Channel 16, 156.8 Mc/s., with range of about 40 miles. Vessels handled inwards in daylight only, and should fly "G" flag when approaching island. A safe and clean Pilot ladder should be provided, and a good lee made for Pilot to embark.

ANCHORAGES: No anchorages available owing to extreme depths of water. Vessels waiting normally drift off and return at daybreak or when instructed to do so.

RESTRICTIONS: Tide and draft have no bearing on entry but not normal to handle vessels into berth in darkness. However, vessels are unmoored at all hours.

MAX. SIZE: Vessels have been handled up to overall length of 575 ft. Beam should not exceed 75 ft., draft limitations 34 ft. 6 in.

HEALTH: Masters of vessels approaching the Island required to send telegram addressed "Quarantine Officer, Banaba (Ocean Island)" within 24 hours of arrival. Telegrams should state name of last port, date, presence of any infectious disease. On receipt quarantine officer will send reply indicating whether or not pratique granted. It is still necessary to fill out International Declaration of Health and hand to Boarding Officer after berthing.

RADIO: Banaba (Ocean Island) Radio station call sign VQK. Daylight range not great but traffic may be passed through C2N Nauru. No radar on the Island. VHF Channel 16, 156.8 Mc/s.

TUGS: No tugs required for berthing.

BERTHING: Such special requirements which relate to berthing are contained in a Letter of Advice to Ship Masters issued by the BPC.

STEVEDORES: As stevedoring is carried out by Phoscom, no separate advice required. Loading rate of bulk phosphate is as high as 1,300 t.p.h.

MEDICAL: Medical treatment can be given at short notice. Limited hospital facilities available, and emergency surgery can be carried out. Smallpox vaccination required, and cholera if vessel from infected area.

TANKERS: Maximum length 600 ft., no draft restrictions. 8 in. discharge line to shore storage tanks.

DENSITY: Normal salt water all states of tides.

FRESH WATER: Island water imported, and water will be supplied only in emergency.

FUEL: Island stocks are imported for use in phosphate industry, and only limited quantities of heavy fuel or diesel oil available in extreme urgency.

GANGWAY/DECK WATCHMEN: Not required.

OPENING/CLOSING HATCHES: Carried out by crew.

CERTIFICATES: Deratisation certificate only.

CUSTOMS ALLOWANCE: Tobacco, 200 cigarettes or half lb. tobacco or 50 cigars for use on board; 25 cigarettes or 1 oz. of tobacco may be taken ashore for own personal consumption. Wine/Spirit, 1 bottle only for use on board; no bottles may be taken ashore.

CARGO GEAR: Cargo gear should be up to standard demanded in Australian ports.

IDENTIFICATION CARDS: Some form of identification, passport, discharge book, or identity card should be carried by crew members.

CONSULS: None.

REPAIRS: Small repairs such as welding, brazing, lathe work, etc., can be carried out, only when essential to allow vessel to proceed on voyage. Main engines cannot be immobilised whilst the vessel moored to any section of buoy system.

DRY DOCKS: None.

REPATRIATION: Repatriation can be arranged. No facilities for crew changes.

AIRPORT: No airport on the Island.

TIME: GMT plus 11.5 hours.

HOLIDAYS: Christmas Day, New Year's Day, and Good Friday normally closed holidays. Other National holidays occur during year but normally work carries on, on these days.

POLICE/AMBULANCE/FIRE: All emergencies handled by Harbour Masters, one of whom remains aboard vessel throughout time vessel attached to mooring system.

TELEPHONES: Telephones are put aboard for use of island staff working vessel.

GENERAL: Shore labour normally boards vessel with Pilot to assist in mooring to buoy system.

SERVICES: No special services available.

SHORE LEAVE: This may be granted at discretion of Master, but should in all cases terminate at 1700 hrs.

REGULATIONS: No vessel may immobilise main engines whilst moored to buoy system. Main engines should be on instant readiness, deck power should be available at all times, and vessel must proceed to sea when instructed to do so by Harbour Master.

DELAYS: Normally no delays expected. Vessels could wait a day, or possibly 2 due to port congestion, but this seldom happens, delays can occur due to adverse weather, duration of which unpredictable.

AUTHORITY: The Harbour Master, appointed by The British Phosphate Commissioners, Banaba (Ocean Island).

NOTES

Please also advise Shipping Guides Ltd.

Bangladesh, People's Republic of

CHALNA (Khulna): 22.35 N. 89.32 E.

PORT LIMITS: *To the North:* A line drawn due East-West from a point in position Lat. 22° 38′ 00″ N., Long. 89° 20′ 00″ E. to a point in position Lat. 22° 38′ 00″ N. Long. 89° 40′ 00″ E. *To the South:* A line drawn due East-West from a point in position Lat. 21° 27′ 00″ N., Long. 89° 20′ 00″ E. to a point in position Lat. 21° 27′ 00″ E. to a point in position Lat. 21° 27′ 00″ N., Long. 89° 40′ 00″ E. *To the East:* A line joining the point in position Lat. 22° 38′ 00″ N., Long. 89° 40′ 00″ E. to a point in position Lat. 21° 27′ 00″ N., Long. 89° 40′ 00″ E. *To the West:* A line joining the point in position Lat. 22° 38′ 00″ N., Long. 89° 20′ 00″ E. with the point in position Lat. 21° 27′ 00″ N., Long. 89° 20′ 00″ E.

DOCUMENTS: See "Chittagong".

ARRIVAL ADVICE: Inward ships must present themselves at Pussur fairway buoy at least 24 hours before high water to enter on a particular day.

The Master should send the following information to port via Khulna Radio call sign S3E and to duty pilot vessel call sign S2YS and pilot station call sign S3K 24 hours prior to arrival at Khulna fairway buoy. Fairway Buoy position: 21° 24.56′ N., 89° 28.82′ E.

1. ETA Pussur fairway buoy.
2. Fresh water draft.
3. Speed available.
4. Vessels length.
5. Vessels gross tonnage.
6. Fresh water requirements.

PILOTAGE: Compulsory. Master should in addition to usual ETA to Agents keep in touch with pilot vessels stationed at Hiron Point about 45 miles from the base calling S3K, depending on which vessel is stationed at the time. Pilot vessels are equipped with radio and maintain regular watches on 500 m. from 0600 to 0800, 1000 to 1200, 1400 to 1600 and 1800 to 2000 hrs. local time. If a message is not being picked up, by Khulna Radio call sign S3E, it should be relayed through Chittagong Radio or the pilot vessel.

Ships over 17 ft. draft are usually piloted on the flood to cross the bar and the pilot vessel, which has been in contact with the incoming ship leaves from Hiron Point, in time to coincide with the arrival of the vessels at the pilotage ground, situated about 7 miles Northwest of the Fairway "Lighted" buoy where ships can anchor in 9 fathoms of water. The channel from Fairway up to the Anchorage has been marked with lighted buoys and pilotage is carried out in daylight.

In rough weather and especially during the monsoon, ships are led into calm waters by the pilot vessel, which maintains close radio contact, and Pilots board inside the river.

ANCHORAGE: Chalna port consists of a sheltered deep-water anchorage at Mongla on Pussur River.

Depth of water 19 ft. to 45 ft. at LLWD. Distance from sea 65 miles.

RESTRICTIONS: Entrance to the Pussur River is about 6 miles wide at the mouth and has a bar over about 5 miles where the depth is 3 fathoms.

MAX. SIZE: Ships drawing up to 23 ft. can cross the bar in all seasons. In S.W. monsoons vessels up to 25 ft. 6 in. can be accommodated on spring tide. Also see "General".

HEALTH: On arrival at the mouth of the Pussur River, vessels are required to wireless "Quarantine" Khulna, giving health report, to avoid difficulties with Port Health Authorities.

RADIO: At present coast station at Khalishpur (Khulna Radio) of Telegraph and Telephone dept. maintain 24 hours W/T watch on 500 kc/s. call sign (S3E). In addition to the T & T system, the port has harbour control station (call sign S3K) at Mongla and pilot station (call sign S3K) at Hiron Point to maintain 24 hours W/T watch on 500 kc/s. The station at Hiron Point guides incoming and outgoing vessels from fairway to pilot grounds and vice versa and remains in touch with Khulna Radio, Mongla S3H and ships anchored at Hiron Point for movement of Pilots, mooring of vessels etc. the *Sarothi II* is equipped with W/T and VHF system and is kept on standby for emergency work.

VHF: At present there is no VHF Communication system owned by the port but ships lying in port may contact shore station through VHF owned by T & T. The port maintains two W/T stations. One at Hiron Point pilot station call sign S3K and the other at Mongla call sign S3H in addition to the above mentioned. W/T station coastal W/T station Khulna Radio call sign S3E owned by T & T remain in operation for maritime shipping. These three stations maintain round the clock watches.

TUGS: Two powerful tugs available to assist in emergency. Not required for berthing.

BERTHING: Fifteen swinging moorings and unlimited anchor berths.

CRANES: These facilities are not available at present. But will be available after completion of permanent port facilities.

STEVEDORES: Plenty of labourers available.

TANKERS: Oil is not handled at the port at the present time.

DENSITY: The density of water at the Outer Bar varies from 1005 to 1025 and at Mongla from 1002 to 1020.

FRESH WATER: Available by barges. Cost Tk. 40 per ton.

FUEL: Coal and fuel oil can be arranged in limited quantities if sufficient advance notice given. The government have occasionally suspended sale of bunkers to foreign vessels.

FIRE PRECAUTIONS: One buoy tender fitted with powerful fire fighting appliances and one modern fire fighting tug can be made available to meet emergency at very short notice.

CONSULS: None.

REPAIRS: Minor repairs can be arranged through Khulna shipyard. Repair facilities are being constructed along with the permanent facilities.

DRY DOCKS: A dry dock for sea-going vessels is under construction at Chittagong.

SURVEYORS: Lloyds/NKK. Surveyors are available at Khulna.

TIME: Six hours difference exists between GMT and local time.

HOLIDAYS: Eid-ul Azha, Moharram, Eid-I-Miladun Nabi, Independence Day, Jamat-ul-Bida, Eid-ul-Fitr, depending on the sighting of moons calculated in the basis of moon months.

POLICE/AMBULANCE/FIRE: Police telephone number 7 and for other purposes port telephone No. 3115 is available.

TELEPHONES: No arrangement is available at the anchorage for placing telephones on board the vessels.

SHORE LEAVE: Crew members of foreign vessels are allowed to disembark ashore as per master's request.

GANGWAY/DECK WATCHMAN: On receipt of orders from the Master the Stevedores will arrange to supply watchmen by day and night.

HATCHES: Opening and closing of hatches is normally carried out by the stevedores.

CARGO GEAR: Goods loaded and unloaded by the ships gear, no handling equipment available at the port.

REPATRIATION: Local shipping Agents are responsible for arranging repatriation of the Crew.

AIRPORT: Jessore, which is 70 miles from the port.

IDENTIFICATION CARDS: Seaman's book is sufficient for identification.

REGULATIONS: Crew members are not allowed to undertake chipping/painting of vessels whilst in the port. This is to be done by licenced contractors.

DELAYS: No unusual delay in the port.

GENERAL: Port of Chalna Authority

INSTRUCTIONS FOR MASTER'S OF VESSELS:

1. As these are fresh water drafts, the incoming ships should give necessary allowance. The outgoing ships may have to leave anchorage a day earlier to take advantage of next A.M. drafts at Outerbar.
2. Inward ships must present themselves at Fairway Buoy at least 3 hours before high water to enter on a particular day.
3. Masters should send the following information to Port Khulna, via Khulna Radio (call sign S3E) and pilot station S3K, 24 hours prior to arrival at Chalna Fairway Buoy: (a) ETA Pussur Fairway Buoy; (b) fresh water drafts on arrival; (c) anticipated fresh water drafts at the time of sailing; (d) speed available; (e) length; (f) gross tonnage; (g) fresh water requirements.

   In addition to Khulna Radio (call sign S3E) Harbour Control station (call sign S3H) and pilot station (call sign S3K), maintain 24 hours W/T watch on 500 kc/s. The ships are strictly to follow the instructions given by the Pilot while crossing the Outerbar and anchor 2 miles S.E. of Hironpoint and wait for the Pilot. The time of crossing the Outerbar is given by the pilot vessel or pilot station under instructions from the Pilot. QTG service available. VHF on Channel 16 and 11 available at pilot station Hironpoint, Harbour Control Mongla and Port Control Khulna.
4. *Important:* Ships due to enter must keep W/T watch while crossing Outerbar and International Radio watch while waiting for Pilot at Hironpoint and in the vicinity of Fairway Buoy. Whilst navigating in Port Limits, W/T watch would be maintained as advised by Pilot.
5. All vessels entering port shall display their signal letters and the mooring/anchor berth in addition to pilot flags. They are also to display their signal letters while waiting for Pilot at Hironpoint and/or in the vicinity of Fairway buoy.
6. The Port can reduce these declared drafts without notice.
7. Ship Owners and their Agents are advised to consult the Harbour Master's Office regarding incoming and outgoing deep draft vessels well in advance.
8. *Outward Ships* of deep drafts will leave the anchorage with the first of flood at Mongla.
9. Vessels entering or leaving Port must have full power on main engine and deck machinery and both anchors must be available for use at all times.
10. Masters are advised to manoeuvre with great care and make good lee while receiving and disembarking Pilots. A neat and clean pilot ladder as specified in Merchant Shipping (Pilot ladders) Rules 1967. Manropes and boat ropes should be ready on lee side. A responsible Officer must be present on the deck near the Pilot ladder while Pilot boards/disembarks and a lifebuoy must be kept handy near the Pilot embarkation/disembarkation point for emergency use and also bulwark ladder for climbing down on deck.
11. In spring tides, ships of less than 10 knots shall not be permitted to transit the river. However, if permission is given under special circumstances, a suitable tug will have to be hired from the Port to escort the vessel within the Port limits. Requests for the tug must be made at least 24 hrs. in advance.
12. In adverse weather if boarding is not possible at Hironpoint, the pilot vessel will lead incoming ships up to Sibsa (Akrampoint), where the Pilot will board in sheltered water.
13. Pilot vessels are liable to be withdrawn without notice.
14. Vessels of 600 ft. length or more are required to have a tug standing-by during in and outward river passage and if the length is more than 650 ft. a tug may be required to keep standby throughout her stay in the Port at the discretion of Port Authority.
15. The length of vessels entering the Port is restricted to 750 ft. and may be increased depending on the season and circumstance of the case and normally only 2 vessels of more than 600 ft. can be accommodated at a time.
16. Masters of the visiting vessels are advised to ensure that while their ships are in the anchorage, no Officer or crew travels to and from ships in native boat, sampan or any other boat, not authorised by the Port Authorities to ply in the anchorage for carrying passengers.
17. Masters of the visiting vessels are also advised to post 3 watchmen on duty, one on the forecastle, one aft and one on

gangway all the time the ships are at the anchorage. The watchmen shall be provided with lifebuoys for use in emergency.

18. While the vessels are in Port, the Masters are to ensure that no ship's crew is employed for chipping, painting and working overside.
19. In port limits, wireless communication with any station except those operated by Port or Khulna Radio (S3E) is strictly prohibited.
20. In case of *emergency* whilst at anchor/mooring in harbour limits, the Assistant Harbour Master should be immediately contacted: (a) by use of lamp signal to signal tower; (b) by W/T on 500 kc/s., call sign S3H; (c) VHF Channel 16, 11.
21. Masters of vessels are advised that more than 8 barges or 4 flats (one flat being equivalent to 2 barges) should not be allowed to lie alongside. Under adverse conditions, this permissible number may further be reduced.
22. Whilst in anchorage limits, adequate anchor watch should be maintained and power on main engines and deck machinery should be available on immediate notice, specially during spring tides and inclement weather.
23. Fire hoses should be rigged and water kept running when working cargo of jute, jute goods and any other inflammable cargo.

Deputy Conservator, Port of Chalna Authority, Khulna.

DEVELOPMENTS: Permanent port facilities with 7 jetties, transit shed and warehouses including 2 feeder container jetties are under construction on the East bank of the Pussur River adjacent to the present anchorage. These will be ready by the end of 1978. A scheme is under preparation to deepen the channel to allow vessels with deeper drafts to enter the port.

AUTHORITY: Chairman, Port of Chalna Authority.

CHITTAGONG: 22.19 N. 91.48 E.

DOCUMENTS: *Before vessel's arrival:*

2 copies Freight Manifest.
2 sets Bill of Lading.
3 copies Stowage Plan.
15 copies Passenger List.
4 copies Cargo Manifest.
3 copies Hatch Lists.
1 copy Exception Lists.
2 copies Passenger Money Manifest.
2 Copies Special Cargo List.
2 Copies Hazardous Cargo List.
2 Copies Heavy Lift Cargo List.

With vessel:

1 set Arrival Papers as per booklet available with Agent.
2 Copies Cargo Manifest.
Last Port Clearance.
Passenger Lists, disembarking and transit — 6 copies each.
Crew List 8 copies plus 2 for immigration police.
List of Favour Parcels 2 copies.
Currency declaration of ship's money, officers and crew, together with the personal property list.
Ships Stores Lists on local Customs forms – 3 copies.
Cargo Clearance Certificates.
Deratisation Exemption Certificate.
International Load Line Certificate.
Radio Safety Equipment Certificate.
Safety Equipment Certificate.
Record of Safety Equipment Certificate.
Load Line Certificate.
Ship's Article.
Ship's Register.
Light Dues Receipt.
Radio Telegraphy Certificate.
Safety Construction Certificate.
Deratting Certificate.
Voyage Licence.
Exemption Certificate of Crew Members.
I.P.B. Permission of Foreign Nationals.
Gear Register Book with Annealing Certificate
Authority Letter of Supernumerary.
Store List.

PILOTAGE: Pilotage is compulsory. Pilots board and leave vessels 1.5 miles W.S.W. of No. 1 Sea Buoy.

Inward ships must present themselves at Fairway Buoy at least 3 hours before high water to enter on a particular tide, both day and night (Full night navigation commenced November 1979).

APPROACHES: Since South Patches lightvessel is missing, it is advisable to make for Elephant Point/Cox's Bazaar, and then shape course to pass West of South Patches. Due allowances must be made for the state and rate of tide. In this area, the tide runs in a North–South direction.

Once it is ascertained that the vessel is West of South Patches, course can be shaped to pass 8–9 miles off Kutubdia Lighthouse. The buoys indicating the channel to Chittagong Outer Anchorage are mostly out of place or missing and cannot be relied upon. The buoys are unlit and without radar reflectors and navigating in their vicinity during hours of darkness can be hazardous.

Vessels must reach pilot grounds at mouth of River Karnaphuli 3 hours before high water of a particular tide. Both tides used for handling vessels.

ANCHORAGE: The Anchorage is considered safe and the holding ground is good. The bed of the river is soft mud and is harmless in case of grounding.

Holding ground off Kutubdia fairly good but strong tides render it necessary to pay-out extra length of cable.

Spring tides at outer anchorage are very strong (6 to 8 knots) and at times of freshets the rate may be more. It is advisable to keep engines ready at all times during Spring tides, and maintain continuous and efficient anchor watches.

Ship Masters approaching Chittagong Roads are advised not to attempt to cross bow of vessels at anchor/underway to avoid drifting on them resulting in probable collision in view of the prevailing strong current at Outer Anchorage. However, if it is inevitable to cross, Ship Masters may do so with caution by giving a wide berth to the vessel at anchor/underway considering the minimum velocity of the current being 6 knots and other marine factors.

RESTRICTIONS: Night sailings both inward and outward are permitted, however with restriction on the vessels of up to 540 ft. length for outward and 450 ft. for inward. Night sailing not permitted for vessels with the bridge on the bow, vessels with the bridge aft are allowed but only up to 500 ft. in length.

Draft: Normally between 24 ft. and 30 ft., depending on state of Karnaphuli draft restrictions. Published monthly.

MAX. SIZE: Anticipated safe drafts are predicted three months in advance. The depth of water over the Outer, Inner and Gupta Bars is maintained at 14.5 ft. at low water throughout the year. The bars are situated at distances of half, one and 4.75 miles from the entrance. In order to calculate the draft for entering and leaving port, the depth of 14.5 ft. over the bars is added to the height of water in the tide tables for day tides. Also see "Tankers".

HEALTH: All vessels must send the standard quarantine messages by radio. Vessels which have touched ports between Port Sudan and Durban, on the East Coast of Africa including these two ports, or any other yellow fever port or other port on the continent of Africa, or ports which are declared from time to time as quarantine areas, are suspected vessels on account of yellow fever or jigger, or other infectious disease as the case may be and may not have communication with the shore till declared by the Port Health Officer, who attends only between sunrise and sunset, except in special circumstances. The incubation period for yellow fever is 9 days, but vessels arriving later than 9 days are still not free from quarantine because there is no incubation period for jigger.

RADIO: Chittagong Radio Control. MF/RT distress frequency – 2182 kHz. SSB equipment with 200 mile range also available.

VHF: "Port Radio Control", Channel 16 and Channel 12.

RADAR: No service available.

TUGS: Available, under direction of Pilot.

BERTHING: 17 jetties including 2 Pontoon jetties ranging in jetty face length from 435 ft. to 630 ft. 13 are provided with shore cranes, 10 with transit sheds and 8 with railway tracks. Additional 4 jetties for cargo in bulk like foodgrain, cement clinkers, etc.

Also 7 moorings for oil tankers of various lengths, 4 moorings for dry cargo, 2 moorings for lighterage.

CRANES: Variety of cargo handling equipment, maximum lifting capacity 125 tons.

TANKERS: Crude oil tankers up to a draft of 34 ft. can be handled at the Outer Anchorage.

Clean tankers enter the river and berth at petroleum jetties inside the port, restricted to length of 560 ft. overall, and subject to published river draft.

Tankers up to 60,000 d.w.t. discharge into lighters at Kutubdia anchorage where depth is 7 fathoms.

MEDICAL: Doctors and Hospital facilities available.

DENSITY: From 1000 to 1004.

FRESH WATER: Available from quays. Also available at outer anchorage. Require 3–4 days notice. Capacity of water barge about 500 tons. Supply daylight hours only.

FUEL: All grades available at oil berths. Otherwise supplied by barge. The Government have occasionally suspended sale of bunkers to foreign vessels.

REPAIRS: Facilities for repairs available. No dry docks. Ships' engines may not be dismantled or immobilised whilst at berths or moorings without the prior sanction of the Port Authority. Construction of a Dry dock is in progress.

HATCHES: Opened by ship's crew.

CUSTOMS ALLOWANCES: 200 cigarettes or 0.5 lb. of tobacco and 1 bottle of wine/spirit per week per man or 2 pints of beer per day.

REPATRIATION: Possible.

STEVEDORES: Available through Agent. Working hours, Monday to Thursday and Saturday day shift, 0730–1200 and 1330 to 1700 hrs. Night shift, including Friday 2000–2400 and 0000–0400 hrs. Friday, day shift, 0700–1200 and 1400–1700 hrs.

HOLIDAYS: Eid-e-Milad, Shaheed Day, Independence Day, Bengali New Year, May Day, Buddhu Purnima, Shabe Barat, Jamatul Wida, Eid-ul-Fitr, Durga Puja, Revolution Day, Eid-ul-Azha, Muharram, Victory Day, Christmas.

POLICE/AMBULANCE/FIRE: Call "Port Control" Channel 12 and 16 call sign, "S2YA" or tel. 500101.

CARGO GEAR CERTIFICATES: International Cargo Gear Test Certificates not more than 12 months old must be presented to the Dock Labour Inspector before a vessel is allowed to use derricks/winches. Annealing and testing of gear at Chittagong is an expensive process. In certain cases dispensation can be obtained at the discretion of the Dock Labour Inspector.

AIRPORT: Patenga Airport about 5 miles from city.

SHORE LEAVE: Allowed, prior permission from Immigration arranged by Agent.

DEVELOPMENTS: More berths to be constructed and cargo handling equipment to be procured.

TIME: GMT plus 6 hours.

SHIPMASTER'S REPORT: September, 1979.
Pilotage: Pilot boards 1.5 miles W.S.W. of No. 1 Sea Buoy.
Radio: Chittagong Radio Co.
Radar: No Radar service.
Restriction: Normally up to 26 ft. depending on state of Karmaphuli draft restrictions, published monthly.
General: At the anchorage vessels should strictly guard against river thieves who board the vessel to steal hawsers, drums and dunnage.
AUTHORITY: Chittagong Port Authority.

NOTES

Please also advise Shipping Guides Ltd.

Barbados

BRIDGETOWN: 13.05 N. 59.36 W. (See Plan Book)

DOCUMENTS:

8 copies Crew Lists.
5 copies Passenger Lists.
1 copy Health Certificate.
3 copies Ship Particulars.
1 copy Vaccination Report on Crew.
1 copy Vaccination Report on Passengers.
Deratisation Certificate.
2 copies Manifest.
1 copy Bill of Lading.
1 copy Clearance from Last Port.
2 copies Ship Stores List.
2 copies Crew's Declaration List.
1 copy Animal Declaration List.

Ship should be entered within 24 hours and articles deposited in Shipping Office if staying longer than 48 hours.

PILOTAGE: Pilotage compulsory for all vessels entering Bridgetown Harbour. Agents of vessels intending visit port required give ETA as early as possible on Form A. 4 hours notice weekdays and 8 hours Saturdays and Sundays are min. requirements.

Watch kept on VHF Channel 16, 156.80 Mc/s. Working frequency VHF Channel 12, 156.60 Mc/s. Pilotage vessels power-driven launches approximately 12.19 m., painted grey. Signals for Pilot Boat: International.

Pilotage Station: 1 mile (1.61 m.) West of Breakwater Head. No alternative station in bad weather. Usual pilotage ladder in good condition should be rigged on port side when approaching harbour.

ANCHORAGES: Quarantine anchorage as indicated Admiralty Chart 502. Explosive anchorage as indicated on chart. Carlisle Bay anchorage see Chart 502.

RESTRICTIONS: Bridgetown Deep Water Harbour offers 24 hours service to ships with draft up to 9.6 m. A harbour for small craft (careenage) caters to ships up to draft 4.11 m. high water.

Tankers: May enter and leave any stage of tide, day or night, except Needham's Point where daylight berthing only.

MAX. SIZE: Max. length permitted in Deep Water Harbour 243.84 m. Vessels of greater length allowed to berth if fitted with bow thruster (up to 292.5 m.). Draft 9.6 m. Oil Carriers Pier outside Deep Water Harbour max. draft 11.58 m. Also see "Tankers".

HEALTH: Pratique may be obtained by radio or from Pilot or Health Officer on arrival. In case of suspected disease Port Doctor should be notified by radio through Agents.

Procedure for Granting of Pratique:

(1) The radio request should be sent not more than 18 and not less than 4 hours before the expected time of arrival.

(2) The message should be addressed to the Shipping Agent, who will inform the Medical Officer of Health (Port) of the contents of the Message.

(3) The Medical Officer of Health will inform the Shipping Agent whether or not pratique is granted, and the Shipping Agent will inform the Master, by radio, of the decision.

(4) The Medical Officer of Health will inform the officer on duty at the Signal Station whether or not radio pratique has been granted, and the officer on duty at the Signal Station will inform the Berthing Master and the Public Health Inspector of the decision of the Medical Officer of Health.

(5) The Berthing Master on boarding a ship which has been granted radio pratique will authorise the lowering of the Q flag, if still flying.

(6) The Berthing Master on boarding a ship which has not requested radio pratique will inquire as to the presence of any illness in the ship; if there is no illness, he will grant pratique in his capacity of Visiting Officer, *and will ensure that the Q flag is lowered.*

(7) If radio pratique has been refused or if the Berthing Master is informed that there is illness in the ship, the Q flag *must* be kept flying and the Public Health Inspector will board the ship, and if satisfied will grant pratique; if he is not satisfied he will refer the matter to the Medical Officer of Health (Port).

(8) Disembarking passengers (not passengers in transit) and any Crew members being signed off will be kept segregated on the ship until their vaccination Certificates have been inspected by the Public Health Inspector.

(9) No person except the Berthing Master, the Public Health Inspector, the Medical Officer of Health or the Immigration Officer will be permitted to board a ship before pratique has been granted. The granting of pratique is indicated by the lowering of the Q flag.

Notes: From the foregoing it will be seen:

- (i) that healthy ships will be granted pratique either by radio or by the Berthing Master;
- (ii) that ships with any illness on board will be granted pratique by the Public Health Inspector or the Medical Officer of Health;
- (iii) That the Public Health Inspector will board a ship for the following reasons only:
  - a. when radio pratique has not been granted and the Berthing Master cannot grant pratique;
  - b. to inspect Vaccination Certificates of disembarking (not in transit) passengers and signed off Crew members.
- (iv) that to avoid misunderstanding and delay the Q flag must be lowered as soon as pratique is granted.

(10) A ship with disembarking passengers may be granted pratique and permitted to work e.g. load or unload cargo, *provided* that disembarking passengers are kept segregated *on the ship* until Vaccination Certificates have been inspected and immigration formalities completed.

RADIO: Cable and Wireless, Barbados Radio: Call sign 8 PO. 24 hours watch is maintained on 500 kHz. ETA to include name and nationality of Master, number and nationality of Crew. Name of last and following ports of call and quantity and grades of cargo to be discharged, if any.

VHF: Barbados Radio VHF Channels 16 and 26. Barbados Port Department VHF Channels 12 and 16.

TUGS: Compulsory. Three tugs available, *Pelican, Culpepper* and *Barbados,* 1,100, 1,500 and 1,700 h.p. respectively. Tugs join ship at entrance to basin of the harbour; two tugs are compulsory for vessels over 10,000 tonnes or 167.64 m. in length. Three tugs for vessels 20,000 NRT, or over. VHF and ship's radar installed on tug *Barbados.*

BERTHING: Harbour is situated on the North-Eastern side of Carlisle Bay, approximately 0.75 mile (1.21 km.) North-West of the Molehead of the careenage. This harbour is dredged to 9.75 m. LWOST and was constructed by joining Pelican Island to the Mainland by reclamation, providing 518.16 m. of quay space and 822.96 m. approx. of protective breakwater, and offering berths for eight ocean-going vessels. All berths are equipped to supply water and telephone. Plans for expansion under active preparation.

BULK HANDLING FACILITIES: Inner arm of breakwater, 298.70 m. long, carries three sugar loading towers, with total loading capacity 500 t.p.h.

Delivery points on breakwater for loading molasses.

Other cargo handling is by ship's gear to apron where removed by fork-lift trucks to transit sheds. One mobile crane 5 tonnes capacity and one of 20 tonnes. Management must be notified prior acceptance of lift in excess of 5 tonnes.

STEVEDORES: Gangs must be ordered before 1500 hrs. on day preceding date of arrival and 1000 hrs. on Saturday for Sunday or following Monday. Average rate of cargo discharged:

Bag Stuff, 22 tonnes (weight) per hour.
General Cargo, 12 tonnes (weight) per hour.
Ships specially equipped for handling palletised cargo, 30 tonnes per hour.

Average rate of loading of cargo: General cargo 12 tonnes; Bag Stuff 18 tonnes.

MEDICAL: Agents should receive advance notice of required medical attention as soon as possible. Modern 800 bed hospital. Private clinics and usual medical facilities available.

TANKERS: Vessel's arriving during darkness for Needham's Point Terminal should anchor in Carlisle Bay. Services of a Pilot are not compulsory but a Pilot must be taken to berth and unberth.

Needham's Point: Mobil Oil Barbados Ltd. Multi-buoy-mooring Max. LOA, 600 ft. Max. draft, 10.06 m. Depth at MLW, 12.19 m. Nature of bottom, sand on coral. Daylight berthing only. Vessels may berth and unberth any stage of tide. No fuel or dirty ballast facilities. Fresh water available by tug. Product handled, crude oil. Sealine taken aboard on starboard side. One 12 in. (30 cm.) pipe-line, length 498.35 m. connected to 1×10 in. hose. Pumping rate 300 t.p.h. max. pressure, 50 p.s.i.

Esso Standard Oil S.A. Ltd.: 2 berths. Esso Jetty outside breakwater. "T"-Head finger jetty. Max. LOA, 243.84 m. Max. draft, 11.58 m. Depth at MLW 55 ft. Vessel berths port-side alongside.

Deep-water Harbour Oil Pier: Max. LOA 243.84 m. Max. draft 9.14 m. Depth at MLW, 9.75 m. Vessels berth either side alongside.

Fuel and fresh water available. No facilites for receiving dirty ballast.

Berth	*Grade Handled*	*Pipe-line ins.*	*Length (ft.)*	*Load/ Discharge Rate (t.p.h.)*	*Hoses ins.*
Esso Jetty	Bunker C	1×16	2000	400	1×8
	Marine Diesel	1×12	2000	270	1×8
	Light Marine Diesel/gasoil	1×8	2000	150	1×8

Max. Pressure 100 p.s.i.

DENSITY: 1025

FRESH WATER: Easily available. Delivery 50 t.p.h. Delivery by hose-pipe through hydrants installed in each berth.

FUEL: Bunker C, marine diesel, marine diesel medium (gas oil). Intermediate fuel, all grades available at all berths. 12 hours notice in advance of ETA.

DEVELOPMENTS: The Port is undertaking an expansion project and with its implementation, activities will be concentrated in the Port.

The Project includes extensive land reclamation. A new Container Shed has been operational since the latter part of 1979. The Container Park which will provide an additional 1,860 sq.m., will be completed by the end of February 1980, capacity 1,200 containers – 2 high. The bulk handling facility is in operation and the Shallow Draft facility is scheduled to be opened very shortly. The new Administration building has been occupied since January 1979 and is located at University Row, on the perimeter of the Port.

The Quay wall has been extended by 182.9 m., principally for Container ships. There is a Shed for the purpose of sorting out and unloading containers. A dredged channel allows for the pilotage of vessels to the Flour Mill docks or further inward to the Shallow Draft facility. The deepest draft to the Flour Mill is 9.6 m. and to the Shallow Draft facility 5.5 m.

GANGWAY/DECK WATCHMEN: Watchmen's services necessary.

OPENING/CLOSING HATCHES: By stevedores.

SHIP CERTIFICATES: Load Line Certificate, Certificate of Registry.

TOBACCO ALLOWANCE: Two packages or 100 cigarettes per person.

WINES AND SPIRIT ALLOWANCE: At discretion of Customs Officer.

IDENTIFICATION CARDS: Desirable for entrance to port from shore leave.

REPAIRS: Minor repairs can be carried out by Central Foundry Ltd.

DRY DOCK: One small dry dock length 73.15 m., breadth 14.02 m., depth 3.96 m. Lifting capacity 930 tonnes displacement.

SURVEYORS: Salvage Association. G. Pringle. Tel. 63512.

REPATRIATION: Facilities for crew changes available.

CONSULS: Consulates, Embassies and High Commissions:

Austria
Bahamas
Belgium
Brazil
Canada
China
Cyprus
Denmark
Dominican Republic
France
Germany
Grenada
Guyana
Iceland
Jamaica
Japan
Mexico
Netherlands
Norway
Sweden
Trinidad
Turkey
United Kingdom
United States
Venezuela

AIRPORT: Served by regular lines. Distance from harbour about 13 miles (20.92 km.). Island is served by flights from Europe and from N. America.

TIME: GMT Minus 4 hours. DST (Daylight Saving Time) 1 hour advanced is now being used from 16th April to 22nd October every year.

HOLIDAYS: New Year's Day, Good Friday, Easter Monday, May Day (May 1st), Whit Monday, Kadooment Day – Crop Over Festival (1st Monday July), Caricom Day (1st Monday in August), Emancipation (1st Monday in August), Clerks' Day (1st Monday in October), Independence Day (November 30th), Christmas Day (December 25th), Boxing Day (December 26th).

TELEPHONES: All berths equipped with telephones.

SHIPMASTER'S REPORT: 1979.

Pilotage: Compulsory. Pilot boards 0.5 miles West of breakwater. Ladder usually required on the port side.

Restrictions: Vessels able to enter and leave at any stage of the tide. Pilots usually commence berthing and unberthing operations at daybreak.

Max. Size: Max. draft 32 ft.

Tugs: Available. Use of tugs depends on which berth the vessel uses and which side to.

Radio: Barbados Radio.

VHF: Pilot on Channels 16 and 12.

Berthing: Vessel berthed at Berth No. 2 which is close to the entrance. Bulk handling facilities available. There is ample equipment for handling palletised cargoes, and ample storage space for breakbulk and palletised cargoes, there is also storage space for containers and sufficient equipment for handling 20 ft. and 40 ft. containers. Accommodation ladder required.

Services Available: Fresh water, fresh provisions, repair facilities, machine shop, airport, Lloyds surveyor, laundry services, telex, bunker fuel oil, diesel oil, lubricating oil, doctor, hospital, groceries and meats.

AUTHORITY: Barbados Port Authority.

AGENT: C. F. Harrison & Co. (Barbados) Ltd., PO Box 304, Barbados, West Indies. Cables "Harrison Barbados". Telex: 2267 SHIPAGNT.

NOTES

Please also advise Shipping Guides Ltd.

Belgium

ANTWERP: 51.14 N. 04.23 E. (See Plan Book)

DOCUMENTS:

Ship's Register.
2 Lists Passengers in Transit.
2 Lists Passengers Disembarking.
2 Personal Effects Lists.
3 Crew Lists indicating full date and place of birth, nationality and No. of Identity Document (Seaman's Book or Passport).
2 Store Lists indicating alcoholic beverages in bottles and size of bottles.
International Health Declaration.
Manifests and usual ship documents.

PILOTAGE: Access to River Scheldt is:

(*a*) Via Wielingen and Scheur Channels (West) (Wandelaar Station) where Belgian sea pilot cutter is stationed near A.1. Buoy. Cutter has black hull with a white number on bow, yellow funnel with black top, red flag with white letter "P".

(*b*) Via Oostgat Channel (North) (Steenbank Station) where Dutch sea pilot cutter is lying near the Middelsteen bank buoy.

The pilot cutters of both cruising stations can be called by the signals of the international code. They can also be contacted on VHF Channel 6.

ETA: Pilot cutter Wielingen or pilot cutter Oostgat should be given at least 4 hours notice before arrival at the pilot cutter, respectively via Ostend Radio (OST) to "Pilotage Ostend" or via Scheveningen Radio (PCH) to "Pilotage Flushing".

In case pilot service is suspended because of weather conditions, Flushing Pilot Station can be contacted on VHF Channel 14. At Flushing, the sea Pilot disembarks and the river Pilot boards the vessel and pilots her to the riverside berths or to the locks. For vessels bound for a berth in the docks, the dock Pilot takes over in the lock until the vessel is moored in berth.

DEEP SEA PILOTAGE: See "Brixham" or "Cherbourg".

ANCHORAGE: There is sufficient anchorage for deeply loaded vessels at all times around the A.1 buoy, and for smaller vessels around the MSB buoy. There are unlimited possibilities for anchoring at Flushing roads. Anchorage on the river is limited.

RESTRICTIONS: No restrictions on night entry. Tankers larger than 2,000 g.r.t. destined for berths on the river upwards of Baudouin-Van Cauwelaert-locks are not allowed to transit during hours of darkness.

LOCKS: Royers Lock, length 590 ft., width 72 ft. 2 in., depth at high tide 36 ft. 4 in.

Van Cauwelaert Lock, length 885 ft., width 115 ft., depth at high tide 49 ft. 2 in.

Boudewijn Lock, length 1,180 ft., width 147 ft., depth at high tide 50 ft. 10 in.

Zandvliet Lock, length 1,639 ft., width 187 ft., depth at high tide 60 ft. 8 in.

Kattendijk Lock, length 360 ft., width 81 ft. 4 in., depth 20 ft. 7 in.
Kallo Lock, length 480 ft., width 165 ft., depth 52 ft. 6 in.

MAX. SIZE: At high water under normal weather circumstances and depending tidal conditions vessels up to 850 ft. in length may enter on a max. draft of 44 ft. 6 in. (F.W.). Depending on a reduction of the allowed draft, larger vessels up to 900 ft. L.O.A. are accepted and providing a special permit vessels up to maximum 1,000 ft L.O.A. and 145 ft. beam can be admitted under certain conditions. It is however advisable to check in each case what maximum draft will be allowed for a specific vessel.

Vessels with less than 27 ft. draft can enter on all stages of the tide.

HEALTH: No special requirements to obtain free pratique. Vaccination Certificates must be valid. Recent Derat Certificate required. In case of contagious illness aboard, advise Agent.

RADIO: Cable Agents ETA Flushing, max. fresh water draft, and requirements via Ostend Radio-OST or OSU (radio telephone). Radio Antwerp-OSA operates only on medium frequency.

RADAR/VHF: A radar chain established from Hansweert to Doel, but only used to help Pilot determine position. Masters can keep close contact for information, day and night, on the following Channels: Pilot cutter Channel 6 – Flushing Radio Channel 14 – Zandvliet Radio Channel 12 and 14, when in appropriate sector – Harbour Office Channel 18 – A radar chain, using, depending the zone, the VHF Channels 19, 21 or 4 for communication, is established between Hansweert and Doel, but only used to assist the Pilot to determine position.

Vessels not equipped with VHF can rent a portable portaphone. The Scheldt information service gives information by VHF within an area extending from the sea to the mouth of the river Rupel, situated upstream of Antwerp. On every full hour plus 5 minutes until that hour plus 10 minutes, vessels should switch to Channel 16 to listen to the traffic list and navigation reports, issued by Antwerp Radio.

On every full hour plus 55 minutes, Flushing Radio (Channel 14) and Zandvliet Radio on every hour plus 35 minutes (Channels 12 and 14) transmit information regarding visibility, water level, hindrances, anchorages, etc.

As soon as one of the stations reports a decrease of visibility under 3,000 m., visibility reports are transmitted by Antwerp Radio on every hour plus 48 minutes.

TUGS: Tugs for berthing at a riverside berth or entering the lock are ordered at river Pilot's request according to weather conditions and tide. Generally at Liefkenshoek for Van Cauwelaert and Baudouin Locks and between Saftingen and N. Ballast Fort for Zandvliet Lock. For super-tankers, tugs may join at Bath. Ship's lines are usually used for towage. If ship asks for tug lines there will be an extra charge per line.

The number of tugs required in the dock area shall be mentioned on the "hailing bill". Eventually, "according to dock Pilot's advice" can be mentioned.

36 tugs available, up to 2,200 h.p.

BERTHING: Deeply loaded vessels normally moor at their berth in the docks 2 hours after high water.

BULK HANDLING FACILITIES: *Container Terminals:* At the Churchill Dock 6 terminals belonging to private firms operate in total 8 container cranes with lifting capabilities from 40 to 53 tons and 3 other 38 ton cranes suitable for container handling. 3 other 30 ton gantry cranes at railroad terminal. Full series of straddle carriers, etc.

Grain:

1. Sobelgra Terminal at sixth harbour dock has 5 elevators with capacity of 400 t.p.h. each for unloading and 2 loading towers of 400 t.p.h. each for loading seagoing vessels. Elevators are combined with conveyor belts for direct transhipment or storage in silo (106,000 tons). Water depth 48 ft. in dock for seagoing vessels, 24 ft. in dock for barges. Quay length 1,200 ft.
2. Grain handling plant of S.A. des Magasins a Grains (SAMGA) at Lefebvre dock. Quay length 500 m., draft 32 ft. fresh water, silo 120,000 tons, 5 elevators on quay plus use of floating elevators. Discharge rate 1,100 t.p.h. Loading rate 1,400 t.p.h. into barges.
3. Smaller installation of De Trouw (silo 10,000 tons) and De Molens van Antwerpen (silo 4,000 tons).
4. Sarandi terminal for seeds at Canaldock B1: storage capacity 30,000 tons.

Potash: Plant situated at quays No. 152/160 in the Albert dock, can accommodate vessels up to 35 ft., fresh water draft. Loading rate up to 6,000 tons per day. Storage capacity 286,000 cu.m.

Ore/coal/phosphate: Stocatra: Bulk handling plant situated at quays No. 232/254 of Hansa Dock. quay length 1,200 m., depth alongside about 43 ft., clearance of grabs above water level 15 m. Up to 48,000 tons of ore can be transhipped in 24 hours, out of 1 vessel.

Equipment: 5 travelling bridges 15 tons.
8 travelling bridges 25 tons.

SGM: Terminal at Canaldock: 4 bridges of 25 tons for non-ferrous ores. Quay length 500 ft., depth 50 ft., max. discharge rate 3,000 t.p.h. average discharge rate 2,400 t.p.h.

Coal terminal Vloeberghs: 3 cranes 10 tons. Quay length 300 m., Several smaller installations for coal.

Sulphur: Transhipment installations of Duval Sales (Antwerp Tank Cleaning) near Boudewijn lock with covered storage over 100,000 sq. ft.

Soda: The Solvay concern has built specialized warehouses on the South quay of the 5th Harbour dock, comprising 14 silos with a capacity of 6,700 tons of soda products. This installation is equipped with 10 cranes, 3 transporter bridges and 4 km. of conveyor-belt.

Fertilizers: Besides quays of chemical plants such as Bayer and BASF there are specialized terminals for fertilizers mainly at third harbourdock (Manuport) and Canaldock B1 (Manufert) and Ferchimex (the latter used for fertilizer, sulphur, phosphates etc.).

Total covered warehousing space for chemical fertilizers is 38,405 sq. m.

Other specialized installations include:

Refrigerated storage:	420,000 cu.m.
Tank storage capacity:	10.2 million cu.m.

CRANES:

Container cranes	(35/53 t)	11
Quay cranes	(2.5/100 t)	463
Floating cranes	(5/250 t)	22
Mobile cranes	(5/90 t)	71
Loading bridges	(15/25 t)	18
Grain elevators:	on quay	18
	floating	9

TANKERS: *S.I.B.P.* Petroleum installations located at the Marshall Dock and finger pier jetties No. 429-437 near the locks. Depth alongside about 43 ft. Hoses all 12 in. Facilities for ballast discharge. Bunkers ex pipe-line or barge.

Esso: Refinery receives crude oil along quays No. 417 to 421 of Hansa Dock and one pier in the Marshall Dock. Depth alongside 45 ft. Hoses 12 in. and 16 in., hydraulic couplings. Slop discharge possible when berth is free. Oils can be received at the rate of 4/5,000 t.p.h. Water from the quay. Bunkers ex pipe-line or barge.

Albatros: Refinery situated near Zandvliet Lock. Quay No. 661–665, depth 37 ft., Berth No. 2, depth 42 ft. Ballast discharge possible. Crude Oil is received at the rate of 5/6,000 t.p.h. Bunkers ex-barge or pipe-line.

R.B.P: Refinery at quays No. 279-285 in the fourth port basin. Depth alongside 37 ft. Oil is received at the rate of 3,500/4,000 t.p.h.

Petrol Pier South: One tanker berth in the river subject to tide. Max. ship's length restricted to 650 ft. Max. draft 32 ft. fresh water. Served by one 16 in. pipe-line. No facilities for slop discharge. Oil is received at the rate of 500/700 t.p.h. Tidal range 5 m. As only one large tanker can be accommodated, other tankers have to wait their turn in Flushing Roads.

Nafta: Situated on Canal Dock B–2, One pier, max. depth 50 ft. Crude oil received at rate of 6,000 t.p.h.

A tank-cleaning installation is situated between the Boudewijn Lock and the Bayer Plant.

STEVEDORES: To enable Agents to order gangs, important to obtain ETA Flushing before arrival. Latest time to order gangs, normal day shift 0800-1545 before 0630 hrs. same day. First shift 0600-1345, before 1400 hrs. previous day; second shift 1400-2145 before 1230 hrs. same day; night shift 2200-0545 before 1500 hrs. same day. First shift Monday, from 0600 to 1345 before 1400 hrs. previous Friday. Failure to give exact ETA may result in losing 12 to 24 hours and the cost of gang's idle time. No work performed on Saturday and Sunday unless overtime paid.

MEDICAL: Ample medical attendance in the port. Hospital facilities available.

DENSITY: Fresh water in the docks, slightly brackish in the river.

FRESH WATER: All berths supplied by shore connections. Fresh water available by barge.

FUEL: All grades available. Min. 24 hours advance notice preferred. All grades can also be supplied by barge. Tankers may not refuel by barge concurrent with working cargo or ballast.

FIRE PRECAUTIONS: No floating objects allowed alongside during loading/discharge/ballasting.

DEVELOPMENTS: The navigable channel and estuary are dredged continuously. The latest plans foresee the bypass of the curve at Bath, shortening the distance to the sea by about 10 miles and making port (right bank) accessible for vessels up to 125,000 d.w.t. Now maximum draft of vessels is 45 ft.

At right bank new dock (quay length 4,700 m.) water depth 40 ft. is under construction (completion expected 1980).

At right bank junction between fifth harbour dock and America dock nearing completion (new lock planned).

At left bank: Lock nearly completed (not yet made operational – depends on development of Left Bank Port. 1,180 ft.×165 ft.×52 ft. 6 in. First canal dock on left bank under construction.

New Scheldt-Rhine link (for 9,000 tons push convoys) has been opened.

Albert Canal (Antwerp-Liege) is being modernised for 9,000 ton push convoys.

GANGWAY/DECK WATCHMEN: Not compulsory but recommended in general and specially for ships berthed at river quays because of rise and fall of tide.

OPENING/CLOSING HATCHES: Normally opened/closed by crew. Stevedores usually helping lift beams. Tramp vessels according charter party.

SHIP CERTIFICATES:

Registered Tonnage Certificate.
Derat. Certificate.

CUSTOMS ALLOWANCES: 200 cigarettes or 20 cigars or 250 gr. tobacco per man. Spirits 0.25 litres per head.

IDENTIFICATION CARDS: Not required.

CONSULS: The following countries are represented:

REPAIRS: All kinds of repairs possible.

DRY DOCK: Beliard Murdoch: No. 1, length 738 ft., breadth 109 ft.; No. 2, length 885 ft., breadth 134 ft. Mercantile: 6 docks from length 480 ft., up to 1,024 ft., breadth 60 ft. up to 165 ft. City dry docks: 10 docks from length 169 ft. up to 685 ft., breadth 30 ft. up to 83 ft.

REPATRIATION: All arrangements for crew changes and repatriation can be made.

AIRPORT: Zaventem Airport (distance 50 km.) served by regular airlines. Antwerp airport Deurne (distance 15 km.) only regular service with Amsterdam and London (3 flights per day). Plans to extend.

TIME: Summertime: April to September (April to October) GMT plus 2 hours. Remainder of year, GMT plus 1 hour.

HOLIDAYS: New Year's Day; Easter Monday; 1st May; Ascension Day; Whit Monday; 21st July; Assumption (15th August); 1st November; 11th November; Christmas Day. Plus the replacement days when New Year's Day; 1st May; 21st July; Assumption; 1st November, 11th November or Christmas Day fall on a Saturday or a Sunday. Cargo work can be arranged when labour available and at surcharge 100 per cent.

POLICE/AMBULANCE/FIRE: Harbour Police tel. 32.18.40; Alarm and accidents tel. 906; Ambulance tel. 900; Fire tel. 900.

TELEPHONES: At shipyards and oil terminals telephone is placed on board or in the vicinity without extra cost for local calls. Long-distance calls at special request.

AUTHORITY: City of Antwerp Port Control.

AGENTS: Muller-Thomsen, Antwerpen N.V., 9, Ankerrui, Antwerp. Tel. (031) 338920. Telegrams Mineral. Telex 31259.

BRUSSELS: 50.51 N. 04.22 E. (See Plan Book)

DOCUMENTS: Same as Antwerp and to be handed to Agent at Antwerp roads, where clearance obtained.

PILOTAGE: Notice of ETA Antwerp roads should be given 24 hours beforehand to Antwerp Agent, who will apply for upper Scheldt Pilot. This Pilot takes over at Antwerp roads and brings ship up Rivers Scheldt and Rupel to Wintam lock. Canal Pilot boards Wintam lock. Boatmen service on canal optional, but advisable for ships over 164 ft. length and according weather conditions. Boatmen for possible mooring Wintam lock entrance always available. All locks equipped with VHF. Call and answer on Channel 13.

ANCHORAGES: Use of anchors strictly regulated on canal and only permitted certain areas in emergency.

ENTRY RESTRICTIONS: Ships proceed upstream from Antwerp to Wintam day and night accordance state of tide, direction of current, length and draft.

MAX. SIZE: Overall length: 344 ft. 06 in.; Extreme breadth: 48 ft. 02 in.; Max. draft: 19 ft.

HEALTH: See "Antwerp".

RADIO: See "Antwerp".

VHF: All locks and tug boats equipped with VHF.

TUGS: Normally tug joins vessel Wintam lock. Ship's lines always used. Although not compulsory, towage advisable in accordance length and draft or weather conditions.

BERTHING: No specific requirements for berthing in canal. Owing to dense traffic, ships should moor strongly.

The Brussels' Harbour extends over a length of 12.5 km. between Brussels (Sainctelettesquare) and Grimbergen (Pont-Brule).

The Inner port offers: 14 km. of quays and mooring berths 220,000 sq. m. of wharf areas. 390,000 sq.m. of storage areas. 169,000 sq. m. of warehouses.

Materials quay: Length: 710 m. Number of berths: 15. Draft: 3.5 m. 2 cranes of 2 tons lifting power, owned by the Canal Company.

Barges quay: Length: 710 m. Number of berths: 15. Draft: 3.5 m. Equipment: 1 crane of 2 tons lifting power owned by the Canal Company. 1 private installation for cargo handling.

Shipowners quay: Length: 920 m. Number of berths: 15. Draft: 6.5 m. Equipment: 3 cranes of 2 to 4 tons lifting power owned by the Canal Company. 6 private installations for cargo handling.

Steamers quay: Length: 920 m. Number of berths: 15. Draft: 6.5 m. Equipment: 7 private installations for cargo handling.

Factories quay: Length: 2,000 m. Draft: 6.50 m. (along the quay wall: 3.20 m.)

Leon Monnoyer quay: Length: 1,800 m. Number of berths: 20. Draft: 6.5 m. Equipment: 11 cranes from 3 to 10 tons lifting power, owned by the Canal Company. 9 private installations for cargo handling.

Heembeek quay: Length: 360 m. Number of berths: 4. Draft: 6.5 m. Equipment: 9 private installations for cargo handling.

Industrial Harbour Section: Length: 6,000 m. Number of berths: 60. Draft. 6.5 m. Equipment: 59 private installations for cargo handling, (electric cranes from 1 to 10 tons lifting power, grain elevators, belt conveyors, suction devices.)

Maritime Canal: Length: 20 km. Draft: 6.5 m. Equipment: 26 private installations of cargo handling.

SPECIALISED CARGO HANDLING FACILITIES: Private Cargo handling facilities exist in the whole of the Industrial Maritime Canal for grain, coal, fertilisers, liquid chemicals and L.P.G.

BRIDGES: Ships can reach outer harbour with clearance of 100 ft. and pass under fixed bridges to inner harbour with clearance of 20 ft. Road bridges open on demand. Railway bridges open according timetables, which subject to change.

STEVEDORES: Arrangements made by Agents.

MEDICAL: No notice required for medical attendance. Hospital facilities available. In case of accident or emergency call phone number 900. No particular inoculations or certificates required.

TANKERS: Oil usually imported by tank barges. No slop facilities. Max. draft permitted for wine tankers, gas tankers and acid carriers: 19 ft.

DENSITY: Canal is fresh.

FRESH WATER: Fresh potable water delivered from shore in Willebroek and Wintam locks at average rate of 10 t.p.h. during passage through lock, and in outer harbour at maximum rate of 20 t.p.h. according diameter of hose.

FUEL: All grades available. At least half a day notice should be given.

FIRE PRECAUTIONS: The usual precautions to be taken by tankers and ships handling inflammable or dangerous goods.

DEVELOPMENTS: Complete schedule for modernising canal, including building two larger locks, widening and deepening canal to be worked out over several years. Works of first new lock near present Kapellelock already completed.

GANGWAY/DECK WATCHMEN: Services of shore watchmen optional.

OPENING/CLOSING HATCHES: Carried out by ship's crew.

IDENTIFICATION CARDS: Not needed.

CONSULS:

REPAIRS: No shipyards in Brussels, but in Boom and Temse, not far from Brussels, and Antwerp. Minor deck and engine repairs by small shipyard on canal.

REPATRIATION: Arrangements for repatriation can be made with Maritime Authorities on Antwerp Roads or at Brussels with the Harbour Authorities. Consuls in Brussels arrange for crew changes or repatriations (Consulates closed Saturdays, Sundays and Holidays).

AIRPORT: Brussels Airport served by regular airlines. Air terminal situated in town centre, directly connected with Airport by special railway.

HOLIDAYS: Official Holidays Belgium: January 1 (New Year), Easter Monday, May 1 (Labour Day), Ascension Day, Whit Monday, July 21 (National Holiday), August 15 (Assumption Day), November 11

(Armistice Day), December 25 (Christmas). Most offices closed on Saturdays.

POLICE/AMBULANCE/FIRE: General call, Ambulance/Fire: 900; Police: 906; Fire: 02/511.55.55.–512.22.22. Police 02/513.28.40.

TELEPHONES: Only placed for warships at one particular berth.

GENERAL: Bus 47 near left bank and street-car 58 near right bank of outer harbour, lead to town centre (10 minutes). General Information Office situated on de Broukeresquare (town centre). Ship stores can be obtained, but no bonded stores.

SHORE LEAVE: Crew members allowed ashore without restriction.

REGULATIONS: At night only main gate of outer harbour on right bank is open.

AUTHORITY: "Societe du Canal et des Installations Maritimes de Bruxelles" (Port of Brussels Authority).

AGENT: See "Antwerp".

GHENT: 51.02 N. 03.44 E. (See Plan Book)

PORT LIMITS: As a rule, the notice of readiness must be given in writing and will generally not be accepted by the receivers before the ship has berthed. Exceptionally, when the berth is occupied, the notice can be tendered as soon as the vessel has dropped anchor at Flushing or Terneuzen Roads, or has moored at a waiting berth. Strictly speaking, ports limits are at the border between the city of Ghent and the town of Zelzate, i.e. at about 3 kms. from the Dutch border.

DOCUMENTS:

Documents needed for Customs:

1 Cargo Manifest No. 125.
1 Store List.
1 Crew List, with the list of personal effects of the crew, such as cameras, guns, cigars, cigarettes, tobacco, alcohol.

Documents needed for the Water Bailiff:

1 Crew List.
1 Passenger List.
Tonnage Certificate.
Oil Register.
Certificate for Civil Liability when the ship carries more than 2,000 tons of oil in bulk.

PILOTAGE: For seaward approach, position of pilot-cutters and ETA-messages: see "Flushing". Pilotage is compulsory for all ships, except those in ballast having a draft of less than 22 decimetres (7.2 ft.). All vessels proceeding to Ghent have to pass the locks at Terneuzen. The canal-pilot normally boards a ship bound for Ghent when she passes Flushing. Ships coming from the North always have a Dutch sea-pilot on board who brings the ship to the Terneuzen locks where a Dutch canal-pilot takes over.

ANCHORAGE: The roads of Terneuzen offer a safe and spacious anchorage outside the fairway, at the so-called Pit of Terneuzen. Depth is at least 49 ft.

RESTRICTIONS: Navigation day and night. There are no restrictions for entering the locks at LW for vessels with a draft not exceeding 32 ft.

MAX. SIZE: In normal practice, length 245 m., breadth 33 m., draft 12.25 m. Subject to special authorization to be granted by the Dutch authorities: length 255 m., breadth 34 m., draft 12.25 m.

RADIO: All cables to Agents, receivers, etc. to be sent via Ostend Radio (call sign OST), eventually via Scheveningen Radio (PCH) for vessels coming from the North.

VHF: Contact pilot-cutters via Channel 6, Flushing Radio via Channel 14 and Terneuzen Harbour via Channel 11. All communications with the Harbourmaster's office in Ghent should go via Channel 5.

RADAR: see "Antwerp".

TUGS: Tugs needed for entering the locks usually meet the vessels near buoy 23. The Master decides whether to use own lines or not.

BERTHING: The Alderman Siffer dock, Petroleum dock (Texaco), Rodenhuize dock and the Sidmar quay can all accommodate ships with a deadweight up to 70,000 tons. The older docks (Noord-, Midden- and Zuiddok, Port-Arthur quay and the Fore Harbour) have depths ranging from 7 to 8.75 m.

CRANES: All the docks mentioned above are equipped with handy, powerful cranes, the majority of which are owned by the Port Authority.

At the Sifferdok there are two container-handling gantry cranes of 55 tons and two multipurpose cranes of 40 tons. The Sifferdok, Middendok and Zuiddok each have two bulk-handling gantry cranes of 10 tons. Two floating cranes of 25 tons are also available.

BULK CARGO FACILITIES:

Sifferdok: The installations of Euro-Silo at the end of the dock offer facilities for all kinds of grain and derivatives. Quay length: 475 m. Storage capacity: 86,000 tons heavy grain. Under construction: a warehouse for flat storage of 40,000 tons of heavy grain. Equipment: 2 pneumatic discharge towers of 500 t.p.h. each; 2 screw unloaders of 700 t.p.h. each; 2 mobile cranes for grab discharge of barges; 2 train unloading stations of 500 t.p.h. each. 2 mobile and 1 fixed loading tower of 600 t.p.h. each; 2 loading stations for trains of 600 t.p.h. each. The Compagnie Belge de Manutention (CBM) situated on the left bank of the Sifferdok specializes in the handling of bulk cargoes such as pyrites, ores, phosphates, coal, cokes etc. Equipment: two 15 ton and three 10 ton cranes for grab discharge. Also mechanical shovels for the discharge of bulk goods into rail-wagons. Storage capacity: 2,500,000 tons.

The same commodities are also handled by CBM in the Zuid- and Middendok; grab discharge with 10 ton cranes.

Rodenhuizedok: The new grain silo "Ghent Grain Terminal" can accommodate vessels up to 70,000 tons. For unloading there are 2 mobile pneumatics and 1 fixed tower with a total capacity of 1,800 t.p.h. For loading there is 1 mobile post and 1 fixed post with a total capacity of 1,600 t.p.h. Vertical storage capacity of the silo is 60,000 tons. Quay length: 670 m.

Sidmar: Steel plant situated on the right bank of the ship-canal to Ghent, with 1,050 m. quay length of which it is the exclusive user. Maximum depth at terminal: 13.50 m. Equipment: for the loading of steel sheet and coils, one 25 ton and one 35 ton crane. For grab discharge: 2 portal cranes of 25 tons each and one 15 ton crane.

SPECIALISED CARGO-HANDLING FACILITIES: Specialised berths where equipment for handling fertilisers is available are No. 27 (Grootdok) and No. 83 (Sifferdok); cranes for grab discharge, funnels and conveyor belts.

Liquid chemicals are currently handled at the U. Kuhlmann factory in Rieme on the left bank of the ship-canal, most commonly liquid sulphur and propylene. No berths for LPG-carriers exist in Ghent.

Containers can be handled on the right bank of the Sifferdok (see "Cranes").

Three roll-on/roll-off berths exist on the right bank of the Sifferdok, each with a fixed concrete ramp. One double berth is situated at quay No. 101/102 and has a ramp on each side of 20 m. width. The other ramp is situated at quay No. 98 and is only 15 m. wide. Maximum draft: 12.25 m.

TANKERS: There are 3 tanker berths for seagoing vessels, 2 owned by Texaco in the petroleum dock and 1 owned by Ghent Tanking Co. in the Rodenhuizedock. Each berth can accommodate ships of 70,000 tons with a draft of 12.25 m. maximum.

Texaco have load/discharge lines of 10 in., but all kinds of fittings are available. They also have 2 tanks for the reception of dirty ballast (120,000 barrels) and 2 tanks for the reception of oil residue (10,000 barrels).

The diameter of load/discharge lines at the jetty operated by Ghent Tanking Co. is 8 in. No tanks for ballast or slop discharge available. Vessels to discharge with own pumps.

BRIDGES: There are 3 bridges across the Ghent/Terneuzen canal, namely at Sluiskil, Sas-van-Ghent and Zelzate. They open day and night, on signals by Pilots.

High tension cables cross the canal at the Rodenhuize and Langerbrugge power-stations. Maximum air draft permitted: 48.90 m.

STEVEDORES: Will be advised by Agents of ETA. Gangs must be ordered by noon in order to commence at 0600 hrs. next working day (morning shift); by 1700 hrs. to commence at 0750 hrs. next morning (normal working day); by 0700 hrs. to commence at 1400 hrs. same day (afternoon shift); by 1300 hrs. to commence at 1325 hrs. (half working day).

MEDICAL: Agents to be advised by radio or cable if urgent medical assistance required. Ample hospital facilities available.

DENSITY: Water in the docks and the Ghent-Terneuzen canal is practically fresh.

FRESH WATER: Supply by barge. Within normal working hours at 85 F per cu.m.; outside normal working hours at 145 F per cu.m., with a supplement ranging from 1,120 F to 5,040 F. A minimum of 10 cu.m. will always be charged. Rate of delivery: ± 40 t.p.h.

FUEL: All grades are delivered either by barge or truck. At least 24 hours notice required.

REPAIRS: Practically all kinds of deck and engine repairs are possible. Radio and electronic apparatus can also be repaired.

DRY DOCKS: There are 2 dry docks for ships with following dimensions.

(1) length: 120 m. breadth: 13 m. draft: 5 m.
(2) length: 70 m. breadth: 11 m. draft: 3.90 m.

SURVEYORS: All major Classification Societies have branch offices in Antwerp.

GANGWAY/DECK WATCHMEN: Not compulsory, but recommended. Cost per watchman: 4.087 B.F. (morning shift), 5.053 B.F. (afternoon shift).

HATCHES: Opening and closing is normally done by crew, if not otherwise specified by Charter-Party.

CUSTOMS ALLOWANCES: 200 cigarettes or 50 cigars or 250 gr. tobacco or 100 cigarillos. Wine is practically free. Spirits, one opened bottle per crew member.

CARGO GEAR: Either shore or ship's gear may be used. Public property: 85 cranes with lifting capacity from 2.5 to 15 tons. Two floating cranes of 25 tons. Two multipurpose cranes of 40 tons. Two container gantry cranes of 55 tons. Private property: 39 cranes and 27 bridge-cranes of 15 tons.

REPATRIATION: All arrangements for crew changes and repatriation can be made.

AIRPORT: National airport of Zaventem near Brussels is 70 km. Ostend airport (Middelkerke) is 50 km.

TIME: Summertime, GMT + 2 hours, from beginning of April to end of September. Otherwise, GMT + 1 hour.

HOLIDAYS: New Year; Easter Monday; Labour Day (1st May); Ascension; Whit Monday; National Day (21st July); Assumption (15th August); All Saints (1st November); Armistice (11th November); Christmas Day. Work on these days is possible at special overtime rates.

POLICE/AMBULANCE/FIRE: Dial 900 for any emergency. Dial 906 for Police assistance. Harbourmaster's office: 51.04.57 or by VHF, Channels 5 and 11.
TELEPHONES: Only placed on board visiting warships.
SERVICES: All kinds of special services are available, e.g. tank-cleaning, reception of waste oil, discharge of tank-washings or slops, compass adjusting, etc.
SHORE LEAVE: No restriction of any kind. Seaman's book is sufficient.
AUTHORITY: Board of the Burgomaster and Aldermen of the City of Ghent.

AGENT: See "Antwerp".

OSTEND: 51.14 N. 02.55 E. (See Plan Book)

DOCUMENTS:
2 Crew Lists or Passenger Lists.
4 Cargo Manifests.
2 Copies Bills of Lading.
3 Freight Lists prepared by Agents.
2 Customs Provision Lists prepared by Agents.
General declaration prepared by Agents.
Customs declaration outward bound prepared by Agents.

PILOTAGE: *(a)* from Pilot boat between "S.W. Akkaert" and "A.1" lightbuoys. Black hull, white number forward on both sides of hull, yellow funnel black top. Displays by day at top of mast, red square flag with letter P in white; by night lights prescribed by International Regulations. Contact Pilot boat: Channel 6 VHF. Morse or flag signal: G.8. In low visibility: sound signal G.8 to be made at least 3 seconds after usual fog signal. Pilot boat answers with sound signal H at least 3 seconds after sounding prescribed fog-signal.

Anchorage awaiting Pilot: between S.W. Akkaert, N.E. Akkaert and A.1 lightbuoys. Depths at least 18 m. MLLWS. Advice from Pilot boat VHF Channel 6. If Pilot boat not on station, shipping informed by Ostend Radio in radiotelephonic frequency 2761 kHz (108 m.) announced on 2182 kHz (137 m.) on following hours: 0103–0803–1303–1603 and 2103 GMT.

(b) from Pilot station Ostend. ETA to "Pilot Station Ostend" via "Radio Ostend" at least 2 hours before arrival. Harbour Pilot boat will meet as far as 51° 15′ 30″ N. 2° 30′ E. Pilot boat shows by day: red square flag white P; by night: international prescribed lights. Anchorage: 51° 15′ 30″ N. 2° 30′ E. Depths: at least 7 m. MLLWS. Pilot station Ostend operates VHF Channel 9 (only for Pilotage matters).

RESTRICTIONS: Any restrictions imposed are shown on mast of signal station at end of Eastern harbour entrance pierhead.
MAX. SIZE: Entrance of lock to Commercial Docks restricted to max. length 124 m., max. beam 57 ft. 6 in. and draft max. 24 ft. Entrance to lock of Fishing Port restricted to ships with max. length 90 m., max. beam 50 ft. and max. draft 23 ft. Harbour channel restricted to 30 ft. draft.
HEALTH: Pratique obtained from Belgian Pilot. Any advice on health matters also obtainable from Pilot services.
RADIO: Ostend Radio – OST.
TUGS: Government tug 1250 Pk available, meets outside harbour. Tug lines optional; charge for use of tugs' lines: BRT 250 tons and less: 40 FB per half hour. BRT more than 250 tons: 50 FB per half hour.
BERTHING: According draft. Any specific instructions given by Harbour Pilots or Agents.
BULK HANDLING FACILITIES: Roll-on/roll-off berths in timber dock and on deep water quay with facilities for loading and unloading containers.
STEVEDORES: ETA advices week-days before 0600 hrs. For Sat. or Sunday work advise before 1500 hrs. Fridays. All stevedoring arrangements made by Agents.
MEDICAL: Advance notice to Agents for medical attention 6 hr. before arrival. Hospital services available. Medical information can be obtained on R/T via Ostend Radio.
TANKERS: Only small coastal tankers. Only discharge in Fishing Port. Max. length 285 ft., max. beam 50 ft., max. draft 23 ft., or Ostend-Bruges canal, max. length 312 ft., beam 57 ft., max. draft 21 ft. 16/5 to 16/10; max. 18 ft. 16/10 to 16/5.
FRESH WATER: Available quayside in docks. Rate delivery approx. 15 t.p.h.
FUEL: All grades.
DEVELOPMENTS: New deep water quay with max. depth 7.20 m. LLW, to be increased to 10 m. in the near future. Fresh water alongside.
GANGWAY/DECK WATCHMEN: Not necessary. If required, cost approx. 900 frs. per shift of 8 hrs.
OPENING/CLOSING HATCHES: Normally carried out by crew. Can be done by stevedores but will then be charged.
CERTIFICATES: Load line cert. Tonnage cert. Radar and radio certificates.
TOBACCO ALLOWANCE: 200 cigarettes or 100 cigarillos or 50 cigars or 250 gr. tobacco. Fresh supply weekly.
WINE AND SPIRIT ALLOWANCE: 1 litre per man in opened bottles.
CARGO GEAR: No additional requirements.
CONSULS:
Austria
Guatemala
Germany
Portugal
Norway
France
Finland
Chile
Great Britain
Monaco
Denmark
Uruguay
Sweden

REPAIRS: All types deck and engine repairs.
DRY DOCKS: In Fishing Port 2 slipways available, one 1,000 tons deadweight, the other 500 tons; one of approx. 3,000 tons is planned. One floating dry dock of 5,700 tons in Government berths.
REPATRIATION: Through immigration officers and Maritime Police, tel. 500925 and 500926.
AIRPORT: 3 miles from port, served by regular airlines.
TIME: Local time GMT plus 1 hour all year round.
HOLIDAYS: New Year (1 Jan.); Easter Monday (changeable); Labour Day (1 May); Ascension Day (changeable, in May); Whit Monday (changeable); Independence Day (21 July); Our Mary Ascension Day (15 Aug.); All Saints' Day (1 Nov.); Armistice Day (11 Nov.); Christmas Day (25 Dec.). Cargo work can be arranged on those days at sufficient notice.
POLICE/AMBULANCE/FIRE: Police tel. 701111 and 701057; Ambulance tel. 900; Fire tel. 701010 and 701086.
TELEPHONES: No arrangements for placing on board.
SERVICES: Compass adjusting, radio and radar repairs.
AUTHORITY: Harbour Master – Director.

ZEEBRUGGE: 51.20 N. 03.12 E. (See Plan Book)

DOCUMENTS:
1 List of Dangerous Goods.
2 Crew Lists or Passenger Lists.
4 Cargo Manifests.
2 copies Bills of Lading.
3 Freight Lists prepared by Agents.
2 Customs Provision Lists prepared by Agents.
General Declaration prepared by Agents.
Customs Declaration, outward bound, prepared by Agents.

PILOTAGE: Compulsory except for small coasters. Pilot vessel located at A.1 buoy off Ostend and 14 miles N.W. of Zeebrugge. Black hull, white number forward on both sides of hull, yellow funnel with black top. Displays by day at top of mast, red square flag with letter "P" in white; by night, lights prescribed by international regulations. Pilot can be contacted by VHF, Channel 6, Morse or flag signal.
ANCHORAGE: In the vicinity of A.1 buoy pilot station, approx. position 51° 22′ N. 02° 53′ E. Depths up to 18 m.
RESTRICTIONS: Vessels with a draft of over 30 ft. are dependent on tide for entry.
MAX. SIZE: Length not limited. Max. draft up to 42 ft. depending on tide.
HEALTH: Pratique is normally given at pilot station provided health situation satisfactory. Any advice on health matters also obtainable from pilot service.
RADIO: Ostend Radio used for all messages. VHF Channel 9 used for Pilot. VHF Channel 13 used by "Port Control" and tugs.
TUGS: Four permanent powerful tugs available. Normally join vessel at harbour entrance, ship's and/or tug's lines used. Additional tugs available with 4 hours notice.
BERTHING: Zeebrugge mole, for coal and other dry cargo, depth alongside 34 ft. LW.

Texaco Zeebrugge Marine Terminal: Two tanker berths, depth alongside 42 ft. LW. No slop disposal facilities.

Container Quay, depth alongside 43 ft. LLWS.

DENSITY: 1025.
FRESH WATER: Available from the berths, rate 30 t.p.h.
FUEL: All grades available. Can be supplied ex-wharf or by barge provided advance notice given.
STEVEDORES: 24 hours notice required to arrange gangs.
MEDICAL: Advance notice advisable for medical attention. Doctor and hospital facilities always available. Vaccinations can be arranged.
DEVELOPMENTS: Work commenced 1972 on new sea lock to handle ships up to 125,000 d.w.t. Work expected completed early 1982. The lock will be 500 m. long, 57 m. wide and will have a max. depth of 18 m. LW.
GANGWAY/WATCHMEN: Advisable for gangway, 2 for moorings.
OPENING/CLOSING HATCHES: Normally by crew.
CERTIFICATES: Registry, tonnage and usual certificates.
CUSTOMS ALLOWANCES: Daily normal use.
CARGO GEAR: Normal requirements. Ten cranes 3 tons up to 16 tons.
IDENTIFICATION CARDS: Normal papers.
CONSULS: None.
REPAIRS: Repairs afloat by local workshop.
REPATRIATION: All facilities.
AIRPORTS: Ostend, Brussels, Antwerp.
TIME: GMT plus 1 hour. Summertime (1980: March 16th to October 26th), GMT plus 2 hours.
HOLIDAYS: Work possible any day.
POLICE/AMBULANCE/FIRE: Telephone 900.
TELEPHONES: Only shore telephones. Ships' connections at Container and Tanker berth.

AGENT: See "Antwerp".

Belize

BELIZE: 17.29 N. 88.11 W.

PORT LIMITS: Usually upon arrival at English Caye Pilot Station for vessels arriving from North and East and at anchorage in Belize Harbour for vessels arriving from South inside the reef.

DOCUMENTS:

Crew Lists – 5 copies for local use plus 10 Spanish copies for Consular Clearance.

Passenger Lists – 5 copies for local use plus 10 Spanish copies for Consular Clearance.

Stores List – 3 copies for local use plus 10 Spanish copies for Consular Clearance.

Manifests – 8 copies.

Customs Documents – Clearance for last port and crew declaration.

Health Documents – International Declaration of Health plus one copy crew vaccination list.

Ship's Papers and Certificates should be available on request.

PILOTAGE: A Pilot is always on station at English Caye. They are kept informed of ships' movements by the respective Agents; for vessels with no appointed Agent, contact can sometimes be made with the Pilot station on 2182, failing this Belize Customs control keep a constant watch on 2750. Vessels consigned to Eurocaribe can make contact on 2182 HF or Channel 16 VHF. Various small boats are used by and are owned by individual Pilots.

ANCHORAGES: Depths in harbour anchorage area vary due to a natural slope; for example, a vessel drawing 14 ft. can anchor within 0.25 mile; 16 ft. 0.5 mile; 20 ft. 1 mile and so on Southward. Masters should refer to Pilot for this information.

RESTRICTIONS: The Pilots do not consider the Eastern Channel lights sufficiently efficient for night-time transit and it has therefore become established that no night arrivals and departures are made. Recently, however, large modern freighters have insisted on making night arrivals using radar with no apparent difficulty

MAX. SIZE: With no berths, size and length, within reason is not a problem. Tankers bringing oil to the Esso storage depot secure to buoys fore and aft. Max. draft 19 ft. 6 in.

PRATIQUE: Granted by Customs after boarding in harbour.

RADIO: Most ships' Agents man their own radio stations and usually stand-by on 2738 HF. Customs stand-by on 2750. Eurocaribe Belize stand-by on 2182 but in addition has frequencies 2045, 2190, 2400, 2638, 2670, 2738 and 2750 HF, and stand-by on Channel 16 VHF with alternative at Channels 6, 11, 12, 13 and 14.

TUGS: Tugs are not normally necessary but small ones are available.

STEVEDORES: Gangs usually require 2 hours notice during normal working hours. Work rates average between 3 and 10 tons per gang hour and cost: average between U.S. $4.00 and U.S. $7.00 per revenue ton depending on type of cargo.

MEDICAL: Hospital facilities are available. Smallpox vaccinations required.

TANKERS: Undersea pipe-line 8 in. in diameter.

Hand-pump discharging rate 250 to 300 g.p.m., also gravity flow. Normal discharge rate 2,000 barrels per hour.

DENSITY: Density varies with outflow from rivers during wet season (July-December).

FRESH WATER: Very scarce and expensive.

FUEL: Light diesel oil 45/48 available subject to Government Approval. Can be at buoys with 8 in. dia. pipe (reductions to 4 in. available or by barge).

FIRE PRECAUTIONS: None.

CONSULS:

United States
West Germany
Guatemala
Mexico
Honduras
Lebanon
Nicaragua
Holland
France
Belgium
Norway
Sweden
Denmark
El Salvador
Panama

REPAIRS: Only small minor repairs possible.

SURVEYORS: Lloyds and A.B.S.

GANGWAY/DECK WATCHMEN: Not required.

HATCHES: Stevedores open and close hatches except McGregor type.

CUSTOMS ALLOWANCES: 200 cigarettes plus 1 bottle spirits (0.20).

CARGO GEAR: Ship's gear; no heavy lift cranes available.

REPATRIATION: Possible, regular air services to and from Miami, New Orleans, and neighbouring Republics.

AIRPORT: Belize International Airport 10 miles from Belize City.

TIME: Normally 6 hours behind GMT.

HOLIDAYS: Public Holidays: New Year's Day*; Baron Bliss Day (9th March); Good Friday; Holy Saturday; Easter Monday*; Columbus Day (12th October); Labour Day* (1st May); Commonwealth Day (24th May); National Day* (10th September); Carib Settlement Day (20th November); Christmas Day* (25th December); Boxing Day* (26th December).

*No work whatsoever, all other days subject to overtime rates.

POLICE/AMBULANCE/FIRE: All emergencies dial 90.

SHORE LEAVE: Possible.

IDENTIFICATION CARDS: Seaman's book sufficient.

REGULATIONS: None.

DELAYS: Discharge and loading operations occasionally delayed by weather (rain) and sometimes by shortage of equipment (barges, etc.).

DEVELOPMENTS: A new port is being constructed. Depth probably about 20 ft.

GENERAL: Starboard anchor usually used to make lee for operations on portside. It is necessary for vessels to provide toilet facilities for stevedores. Feeding of Supervisors and Customs Officials is normal.

AUTHORITY: Port Authority will operate after opening of new port.

AGENT: Eurocaribe S.S. Ltd. PO Box 281, 14 Fort St., Belize City, Belize, C.A. Tel. 2100. Cables "Unibranco Belize". Radio call sign: United Brands, Belize. Telex: 224 Belize.

NOTES

Please also advise Shipping Guides Ltd.

Benin, People's Republic of

COTONOU: 06.20 N. 02.32 E. (See Plan Book)

PORT LIMITS: The area contained within an arc of a circle of 1 mile radius centred on the red light at the West Jetty.

DOCUMENTS: (Also see "Shipmaster's Report".) Once berthed the ship must be able to produce to the port authorities:

6 copies Crew List.
4 copies List of Ports of Call.
6 copies Passenger List, and passengers in transit.
3 Customs Declarations (personal effects list).
2 Maritime Declarations of Health.
3 Lists Provisions and Stores, including foodstuffs.
10 copies Manifest.
1 Bill of Lading.
1 Declaration of Arms and Ammunition.
3 Lists of Dangerous Cargo (unloading or in transit).

Also international documents of ownership and safety.

PILOTAGE/APPROACHES: Vessels must advise ETA to Port Authority "Dirport Cotonou" 24 hours prior arrival weekdays, and before midday Saturday for Sundays and before midday on day preceding holidays. Cable address Pilot station "Commandant du Port, Cotonou". Telex: 5004 "Dirport Ctnou" On approach to port vessels may also call Pilot station on 2182 kc/s or VHF Channel 16. Permanent radio watch kept by port Coast-Guard Station. Pilot services permanent and operate night and day, Sundays and holidays, except for nights of 24th and 31st December from 1800–0600 hrs. Ships drawing more than 30 ft. must enter on high tide. On arrival in approaches, ships coming from West or South must steer a Northerly course in direction of lighthouse, and take Pilot about half a mile from fairway. If arriving from East, vessels should take Westerly course in direction of fairway and take Pilot about half a mile from fairway. Pilot boat is small cutter with black hull and white superstructure, by day carries flag "H" and by night carries statutory lights for pilot boats. Piloting obligatory for ships over 100 net tons.

ANCHORAGES: In cases of bad weather or of waiting for Pilot, ship must anchor approx. 1 mile to South of lighthouse. Sound anchorage with sand bottom and depth 14 m. Forbidden to anchor within radius of 700 m. from red light of West Jetty.

Prohibited Anchorage: All the area to the West of the meridian of the West breakwater red light.

RESTRICTIONS: No restrictions on hours of entry or exit.

MAX. SIZE: Length 230 m. and draft 31 ft.

HEALTH: Free Pratique generally given by Agent.

RADIO: Advisable give Agent 72 hours notice of ETA. Thereafter re-confirm 36 hours prior arrival.

RADAR/VHF: No port radar service. VHF Channel 16. R/T 2182 kc/s.

TUGS: Tug assistance performed by Port Authority of Cotonou and compulsory for every vessel over 500 g.r.t., mooring, unmooring, at berth or shifting. Extra charge for using tug's lines. Vessels with length over 135 m. require 2 tugs.

BERTHING: Berthing quay 620 m. long which will accept alongside a minimum of 4 ships working together. Harbour dredged up to 9 m. under zero of chart and will permit almost all sizes of ships to work safely. Railway line runs 4 m. side of quay, under ship tackles, and used only for heavy lifts. Berthing priority only given cargo ships and tankers which have specially reserved berths. Other ships berth dependent on berths available and in order of arrival. As well as two tanker berths there is loading berth for bulk palm-oil, one waiting berth at harbour entrance, and 4 quays with warehouses for import/export traffic.

STEVEDORES: Ship must advise Agent in advance of number stevedore teams required, and specify number of hours work required. This must be done 24 hours in advance on weekdays, and before midday Saturday for Sundays, and before midday on day preceding holidays. Loading and unloading rate: Working days – 600 tons for bagged cargo. 400 tons for other cargo. Sundays and holidays, half above rates. Days counted as 24 hours starting from first break following berthing. For ships having to handle smaller quantities, assessment of time calculated in multiples of 300 tons for bagged cargo and 200 tons for other cargo, per 12 hours. Loading and unloading operations can be carried out on Sundays and public holidays if Ship's Master wishes, with exception of Labour Day (May 1st), 26th October, 30th November, 31st December and Independence Day.

MEDICAL: Well-equipped modern hospital in Cotonou – smallpox vaccinations required.

TANKERS: 2 tanker quays for ships of 230 m. length and 31 ft. draft. Unloading carried out by 100 mm. pipe-line. Loading of petroleum products carried out by pumping (80 cu.m./h.) or by gravity (50 cu.m/h.). Products are aviation spirit 100/130, "Super" petrol, low-grade petrol, Kero Avtur, and gas oil.

FRESH WATER: Supplies available at all berths on quay by pipe-line of 100 mm. with reduction of 70 mm. (discharging 25 t.p.h.).

FUEL: Fuel oil of 1,500 seconds viscosity available at Berth No. 1 and at the Fishing Quay. Rate 50 to 80 cu.m./h.

FIRE PRECAUTIONS: Port has following safety equipment: 2 tugs equipped with fire hose of 50 cu.m./h. 2 motor pumps of 30 cu.m./h. 1 draining pump of 150 cu.m./h. In addition special security watches are kept on dangerous merchandise in classes 1a, 1b, 1c, 1d and 111c. Normal watch up to 5 tons, double watch from 5 tons to 16 tons. Motor pump standing by from 16–50 tons. Tug standing by for quantities above 40 tons for inflammable liquids (flashpoint less than 55° C) and above 50 tons for other dangerous cargo.

WATCHMEN: (See "Fire Precautions".) Recommended that a watchman be on board. Can be arranged by Agents.

OPENING/CLOSING HATCHES: Carried out by stevedores

CUSTOMS ALLOWANCES: 200 cigarettes and 3 opened bottles of spirits for each Crew member.

REPAIRS: Workshops for small repairs. No tank-cleaning facilities.

DRY DOCKS: Only hauling gear of 250 tons for careening small ships and trawlers.

CONSULS:

West German Embassy	31-2967
Chinese Popular Embassy	31-4424
U.S.A. Embassy	31-2650
French Embassy	31-2224
French Consulate	31-2638
Ghanaian Embassy	31-2746
Nigerian Embassy	31-3142
U.S.S.R. Embassy	31-2834
Niger Consulate	31-3334
Belgian Consulate	31-2486
Netherlands Consulate	31-3037
Consulate of Sweden and Norway	31-2433
Zaire Embassy	31–4983.

AIRPORT: 5 km. from port, served regularly by DC8 for European destinations (5 departures a week for Paris).

TIME: GMT plus 1 hour.

HOLIDAYS: January 1st; Easter Sunday 1st April; Labour Day (May 1st) – no cargo work; 26th October; 30th November; 31st December – no cargo work; Assumption; November 1st (All Saints' Day); 25th December (Christmas); Tabaski and Ramadan at the beginning of Lunar Year (Moslem holidays).

POLICE/AMBULANCE/FIRE: Harbour Police 31-3942; First Aid 17; Hospital 31-2713 and 31-2717; Fire Brigade 18.

TELEPHONES: A telephone can be placed on board at request of Ship's Master.

SHORE LEAVE: Crew must carry shore pass.

SHIPMASTER'S REPORT: 1978.

Documents: Before a vessel can be registered certain items are needed by Agents, who can send pilot boat to collect from anchorage.

	Registration	*Port Health*	*Police*	*Agent*	*Customs*
Crew Lists	4	1	2	2	1
Passenger List	4	1	1	2	1
Ports of Call	4	1	1	1	1
Store List	2	–	–	–	1
Crew Declaration	2	–	–	–	1
Animal List	2	–	–	–	1
Arms & Ammunition	2	–	2	1	1
Vaccinations List	2	1	–	–	–
Cargo Plans	3	–	–	–	–
Hatch List	2	–	–	–	–
Cargo Manifests	15	(or as many as available for photo copy)			
Dangerous Cargo	3	–	–	–	–
Health Declaration	2	1	–	–	–

Registration: There does not appear to be a firm set of priorities but some cargo can be worked at most berths while others are restricted to a single berth. Two tankers can discharge or load at the South end of the East Mole which may also be used for containers.

Radio: Cotonou Radio was erratic and, on 2182, very poor via land line to the Agency office. VHF is available on 16, 14 and 12 with Port Control and some Agents have their own set or use that of a vessel alongside.

Consuls: There is no British representation in Benin. All requirements can be obtained by driving to Lagos to the High Commissioner.

Developments: A 40 tonne fork lift for containers etc. has been added to the cargo gear available but there are no cranes. It is planned to extend the Western end of the main quay by one berth and to fashion a container/Ro-Ro berth to the South of this at some future date.

Shore Leave: A Shore Pass (Visa de Passage) is required but single items are given to Senior Officers only, all others must share between 2 or 3 persons. It takes 24 hours to obtain a valid pass via Agent from Police.

AUTHORITY: Port Autonome de Cotonou.

NOTES

Please also advise Shipping Guides Ltd.

Bermuda

HAMILTON, (incl. Freeport): 32.15 N. 64.50 W.

NAVIGATIONAL WARNINGS: (Circulated by the Department of Marine & Ports Services)

Government Notice No. 196 (27.4.79)

The attention of all mariners is drawn to the dangers and hazards of close approach to the reefs which surround Bermuda, especially to the North and West of the Islands. They extend in places to a distance of 12 miles from the visible land and are virtually unmarked by navigational aids at their extremities.

Ships on passage with no intention of calling at Bermuda are advised to give the Islands a berth of at least 30 miles, observing that little distance is lost on the passage by so doing and nothing is gained by a closer approach. On the contrary, stranding or shipwreck has occurred all too often through the years with pollution of the surrounding reefs and beaches and destruction of the ecological life as well as possible ruin of the economy of the Islands.

Ships making for Bermuda are advised to do so from the East and South as the only entrance to the sheltered waters is at the S.E. of the Islands off St. George's. Here Pilots are available and can be embarked in daylight hours. Entry at night is dangerous and prohibited and close approach in dark hours should not be attempted without local knowledge.

Government Notice No. 197 (27.4.79)

Ships approaching Bermuda should contact the Bermuda Harbour Radio which is manned day and night on Channel 16 (VHF) or 2182 kHz or 500m kHz W/T giving vessel's name, call sign and position. Only after clearance has been given and instructions issued should ships – in daylight only – approach within 3 miles off St. David's Head on a heading between 240° and 300°. On no account should any other approach be made without local knowledge and large scale charts.

Pilots are available in this area for those who require them and are compulsory for all commercial vessels making entry to these Islands.

Notice to Boatmen. Admiralty notices to mariners:

1114. North Atlantic – Bermuda Islands – Caution (15.6.79).

(1) The accompanying caution is to be inserted below the title on Chart 334.

5. Mariners are advised to navigate with extreme care in the approaches to Bermuda Islands, owing to the existence of extensive reefs which encircle the Islands and which are a constant hazard to navigation. North Rock Lt. (32° 28.5′ N., 64° 46′ W. approx.) and then outer seabuoys may not be reliable through lack of maintenance due to inaccessibility, except in very calm weather.

(2) The legend, see caution No. 5 is to be inserted in the following positions:

(a) 32° 18.5′ N., 65° 02.5′ W. (b) 32° 29.2′ N., 64° 48.0′ W.
(c) 32° 26.5′ N., 64° 31.5′ W.

DOCUMENTS:

Ship's Register.
Derat. Certificate.
Clearance previous Port.
4 Crew Lists.
4 Passenger Lists.
2 Provision Lists.
2 Crew Personal Effects Lists, i.e. cameras, binoculars, cigarettes, etc.
5 copies Cargo Manifest if discharging.

Cruise Ships: Customs require:

(Note: Forms may be secured in advance for prospective vessels.)

*2 Crew Lists
1 Crew Declaration
*2 Lists of all disembarking passengers
*2 Lists of all transit passengers
*2 Lists of all non-United States Citizens in transit (on ships from and returning to the United States)
1 Stores List
1 Declaration of Health
Clearance from vessel's last port of call
1 Bermuda Vessel Report (Customs No. 49).

(**Note:* Plus 1 of each of these forms for Agents)

N.B.

1. A facility for examining disembarking passengers and luggage must be provided. No passenger or luggage is to be allowed to board the tender without Custom's approval.

2. All passengers on vessels from, and returning to, the United States who are not U.S. Citizens must be seen by the Customs Official.

3. All disembarking passengers and luggage must be seen by the Customs Official.

4. Persons purchasing a ticket in Bermuda must complete an Immigration Embarkation Card which should be lodged with the Purser on embarkation. Similarly persons arriving by air and leaving by sea must lodge their duplicate immigration cards with the Purser on embarkation. It is required that the Purser pass all such cards to the Duty Customs Official prior to the vessel's departure.

PILOTAGE: Pilot ordered by Agent on receipt of vessel's ETA (72, 48 and 24 hrs.). Pilot boards vessel approximately 2 miles East of Island with St. David's Lighthouse bearing 240° True. Boats black hull varnished superstructure.

If vessel's ETA alters, Bermuda Harbour Radio which in direct contact with Pilot station can be contacted by VHF Channels 10, 12, 16, 26. Pilotage is confined to daylight hours only with exception of vessels calling for medical aid – some of which handled off-shore.

ANCHORAGES: Grassy Bay and Great Sound. These anchorages are used mainly by passenger liners as they are close to Hamilton Harbour and are protected from heavy weather. Also used by large vessels carrying out extensive repairs.

RESTRICTIONS: Restricted by draft of 26 ft. Daylight piloting only.

MAX. SIZE: Largest ship to enter to date, length 690 ft., draft 26 ft.

HEALTH: Pratique granted on 24-hour basis and can be obtained by wireless by sending message via VRT to "Health Bermuda" requesting free pratique be granted. If any suspected disease or fever on board advise "Health" as well as Agent.

RADIO: Commercial radio station operated by Cable & Wireless Ltd., call letters VRT Bermuda. Bermuda Harbour Radio, controls channel traffic, call sign ZBM Bermuda.

VHF: Operated by Bermuda Harbour Radio. Contact on Channels 10, 12, 16, and 26.

TUGS: 3 tugs available, 2×1,200 i.h.p. and 1×1,800 i.h.p. Tugs normally join vessel in harbour if requested. Tugs not compulsory and ordered depending on the size of the vessel and weather conditions. Tug's lines used during normal tug operations.

BERTHING: Docks and tugs are agreed upon between Agent and Pilot prior ship's arrival.

Hamilton

Berth	*Length of Berth*	*Max. Draft*	*Remarks*
No. 1	500 ft.	26 ft.	Port layout allows ships in excess of 500 ft. in length to be accommodated.
No. 5	100 ft.	26 ft.	Stubhead berth, used in conjunction with No. 6 berth for vessels to 650 ft. in length.
No. 6	310 ft.	26 ft.	A roll-on/roll-off facility is provided at this berth.
No. 7	650 ft.	26 ft.	No. 7/8 berths provide facilities for container operations (20 ft. only) 25 plug-in points available, 110 volts A.C.
No. 8	645 ft.	17 ft.	

Drafts are governed by depth of water in channel approaches to the Harbour.

Freeport (Bermuda Government)			
Commercial	800 ft.	34 ft.	Bulk cement and Shell Company of Bermuda bunkering facilities. Maximum length of vessel 600 ft.
Esso Oil Terminal			
	—	34 ft.	Two dolphins, centre platform and walkways. Vessels up to 725 ft. in length can be accommodated. Berth owned and operated by Esso Bermuda. Also see "Tankers".
Murray's Anchorage			
	—	36 ft.	
The Great Sound			
	—	34 ft.	
Five Fathom Hole			
	—	Unlimited	

STEVEDORES: Ordered by Agent after receipt of ETA. Average discharge general cargo 10 t.p.h.

Gangs and Priorities. Basically Bermuda operates with a maximum of 3 gangs although this can reduce when breakbulk or refrigerated cargo are being handled, or for the tying-up and letting-go of cruise ships. Gang Allocation Rules (BSA No. 97 15-3-79) are:

1. The first vessel to arrive to have all available gangs.
2. The second vessel to arrive to have 1 gang on arrival.
3. The third vessel to arrive will get labour from 1 or 2 when it becomes available.
4. When it is necessary for full utilisation of labour, all vessels must work maximum overtime in order to retain gangs.

Hours of work (Longshoremen):

Straight time	Monday/Friday	0800/1200 hrs. 1300/1700 hrs.
Overtime	Monday/Friday	1800/2200 hrs.
	Saturdays	0800/1200 hrs.
Double time	Monday/Friday	2200/0800 hrs.
	Saturday	1200 hrs. to Monday
	Public Holidays	0800 hrs.

Meal hours (double time)

0700/0800; 1200/1300; 1700/1800 hrs. When working a unit or units between 2400 hrs. to 0800 hrs., when required by the Union, 1 half hour from 0400 hrs. to 0430 hrs. may be taken for a meal time.

Note: Normally the Port stops Sunday/Friday inc. at 2200 hrs.

Work stops at 1600 hrs. on Saturday until 0800 hrs. on Sunday unless the vessel is being worked through to a finish for sailing that night or the next day.

Good Friday and Christmas days are 'No work' days on the Bermuda waterfront.

CRANES: 1×250 ton "Coles" Colussus, 1×100 ton (P & H), 1×60 ton U.S. Navy floating crane (by special arrangement).

MEDICAL: No advance notice required for medical attention if other than critical cases. First-class hospital facilities available. Vaccination certificates required for all seamen.

TANKERS: Shell bunkering Berth, Freeport, Ireland Island. Discharge lines 8 in. and 10 in. No slop discharge facilities.

Also see "Berthing".

DENSITY: 1025.

FRESH WATER: Available alongside at Berths Nos. 6-7, by truck (capacity 4 tons), or by barge. Order prior arrival to avoid delay.
FUEL: Grades available from Shell or Esso: Bunker "C" fuel oil, viscosity 100 SSF at 122° F. Diesel oil. Viscosity 3616 at 100° F.
GANGWAY/DECK WATCHMEN: Not required.
OPENING/CLOSING HATCHES: Usually carried out by stevedores.
TOBACCO/WINE ALLOWANCE: Custom allows about one carton cigarettes and limited amount of spirits per man.
IDENTIFICATION CARDS: None required.
CONSULS:

Belgium
Bolivia
Chile
Colombia
Denmark
Finland
France
Germany (Federal Republic)
Greece
Mexico
Monaco
Netherlands
Norway
Portugal
Sweden
Switzerland
United States

REPAIRS: All types minor deck and engine repairs can be carried out. Also major temporary repairs. Electronic repairs possible.
DRY DOCKS: Only yacht slipways available.
REPATRIATION: First-class facilities available for repatriation and crew changes.
AIRPORT: Distance from airport 10 miles. Connections to all parts of world. Average 15/20 flights per day.
TIME: Local time GMT minus 4 hrs. (October-April) GMT minus 3 hrs. (0200 hrs., last Sunday in April - 0200 hrs. last Sunday in October).
HOLIDAYS: New Year's Day; Good Friday; Bermuda Day (May 24th); Queen's Birthday (celebrated annually in June) June 11th; Cup Match (Thursday and Friday before first Monday in August); Remembrance Day (November 11th); Public Holiday (November 12th); Christmas Day, Boxing Day (December 26th).
POLICE/AMBULANCE/FIRE: Police 2–2222; Ambulance 2–2000; Fire 00.
TELEPHONES: Can be placed on board vessel when alongside.
GENERAL: Port of Freeport, Ireland Island, situated in the Port of Hamilton at the old British Dockyard is used mainly by the Royal Navy and Shell Bunkering.
SHIPMASTERS REPORT:
Approaches: Approach was made at night from Southward. Gibbs Hill Light sighted at 29 miles. First radar echo was made at 34 miles. St. David's Lt. Ho. Occ. 5 sec. can be easily confused with St. David's House Lt., Gp Fl 2 and they are hard to pick out against background lights. Mills Breaker and Kitchen Shoal Buoy are both good lights and are conspicuous on the radar. Lobster Pots marked by unlit buoys can be troublesome.
Pilotage: There are ten Pilots who operate on a rotation basis. Least depth is in the Dundonald Channel and Two Rocks Passage approaching Hamilton. Passenger Vessels over 26 ft. anchor in Grassy Bay just North of the Dundonald Channel. Official max. draft is 26 ft. although I was told by the Harbour Master that they will take ships up to 26 ft. 06 ins.
Berthing: Vessel berths starboard side to, swinging on anchor with tug assistance. During a long stay vessels often have to shift up and down the wharf to make room for other ships making short calls. At one time the bow was overhanging the end of the quay by 100 ft. but even in this position ship can be well secured.
Cargo Operations: Labour force consists of around 40 men which can just make up two freezer gangs. When a container ship arrives she takes priority and one gang is lost. At weekends a few additional men are available from other jobs within the stevedoring firm and a third general gang can be made up. Stevedore stressed that cargo be restricted to two hatches when possible especially in ships with beams and hatches. Locker stow should be avoided when possible. Average on freezer was approximately 9 t.p.h.

Hours of work are:— 0800-1200, 1300-1700, 1800-2100. This applies every day except Saturday when work finishes at 1700 hrs. General cargo gangs can be worked until 2200 hrs. but all freezer gangs finish at 2100 hrs. to allow time for Receivers to clear the wharf of cargo by 2200 hrs.
Fresh Water: Not readily available in large quantities due to a water shortage. Price when available is 6 dollars a ton. We managed without buying any in spite of a prolonged stay.
Currency: Stated in Pilots book to be pounds. It is in fact Bermuda Dollars which are equivalent to American dollars and readily interchangeable.
Stores: Very expensive and would suggest only plan on buying essentials from supermarket in small quantities.
Discharge Averages:

4 Crew Lists.
4 Passenger Lists.
2 Provision Lists.
2 Crew Personal Effects Lists, i.e. cameras, binoculars, cigarettes, etc.
5 copies Cargo Manifest if discharging.
PILOTAGE: Pilot ordered by Agent on receipt of vessel's ETA. Pilot boards vessel approximately 2 miles East of Island with St. David's Lighthouse bearing 240° True. Boats black hull, varnished superstructure. If vessel's ETA alters, Bermuda Harbour Radio which in direct contact with Pilot station can be contacted by VHF Channels 10, 12, 16, 26. Pilotage day only. Except medical cases which are handled offshore.
ANCHORAGES: *(a)* Five Fathom Hole, located at Eastern end of Island and is point where Pilots embark/disembark. Used by vessels not required to enter or those awaiting daylight. *(b)* Murray's Anchorage, used instead of Five Fathom Hole during times of heavy weather (daylight hours only). Also, by vessels unable enter St. George's Harbour and wishing to take on water, carry out repairs, etc. A stand-by anchorage for vessels waiting berth at Esso Oil bunkering pier and for vessels leaving this pier and awaiting daylight. *(c)* St. George's Harbour, when weather conditions such that Five Fathom Hole and Murray's Anchorage unsuitable to land ill/injured persons vessel proceeds directly to St. George's Harbour and anchors.
RESTRICTIONS: Entry to St. George's Harbour restricted by draft of 30 ft. Murray's Anchorage restricted by draft of 38 ft.
MAX. SIZE: Largest ship to enter to date – length 628 ft. However, size controlled by max. draft of 30 ft., displacement and weather conditions.
HEALTH: Pratique granted on 24 hour basis and can be obtained by wireless by sending message via VRT to "Health Bermuda" requesting free pratique be granted. If any suspected disease or fever on board advise Health as well as Agent.
RADIO: Commercial radio station operated by Cable & Wireless Limited, call letters VRT Bermuda. Bermuda Harbour Radio controls Channel traffic, call sign ZBM Bermuda.
VHF: Operated by Bermuda Harbour Radio. Contact on Channels 10, 12, 16, and 26.
TUGS: Tugs normally join vessel in harbour if requested. Tugs not compulsory and ordered depending on the size of the vessel and weather conditions. Tug's lines used during normal tug operations. Also see "Hamilton".
BERTHING: Dock and tugs agreed upon between Agent and Pilot prior ship's arrival.

St. George's as a Port of Discharge: Stevedores advised the 51st meeting (1974) of The Bermuda Shipping Association that as St. George's is no longer being used for cargo all gear and equipment have been removed from the port. In the event of discharge taking place at St. George's there will be an 'item of cost' for transport of gear and equipment from Hamilton to St. George's. Similarly an 'item of cost' is applicable to discharge at Freeport (Dockyard).

Berth	*Length*	*Max. draft*	*Remarks*
Penno's Wharf	750 ft.	28 ft.	Cargo-handling berth. Possibly to be extended Eastwards 330 ft. into the Hunter's Wharf area.
Hunter's Wharf	335 ft.	28 ft.	Wooden jetties. Two dolphins to Eastwards of berth allow accommodation of vessels up to 600 ft. in length with draught limitations ". . . to the Eastward (400 ft. at 28 ft. then gradual shelving Eastwards to 24 ft. at the 600 ft. point)".
Ordnance Island	160 ft.	26 ft.	No cargo-handling facilities. Capable of berthing 620 ft. cruise ships.

STEVEDORES: Ordered by Agent after receipt of ETA. Average discharge general cargo 10 t.p.h.

Also see "Hamilton".
MEDICAL: No advance notice required for medical attention if other than critical cases. First-class hospital facilities available. Vaccination certificates required for all seamen.
TANKERS: Esso Oil Pier: Discharge lines 8 in. and 10 in. No slop discharge facilities.
DENSITY: 1025.
FRESH WATER: Delivered by barge. Order prior arrival to avoid delay.
FUEL: Grades available: Bunker "C" fuel oil, viscosity 122 SSF at 122° F. Diesel oil, viscosity 3616 at 100° F.
GANGWAY/DECK WATCHMEN: Not required.
OPENING/CLOSING HATCHES: Usually carried out by the stevedores.
TOBACCO/WINE ALLOWANCE: Customs allow about one carton cigarettes and limited amount spirits per man.
IDENTIFICATION CARDS: None required.
CONSULS: See "Hamilton".
REPAIRS: All types minor deck and engine repairs can be carried out. Also major temporary repairs.
DRY DOCKS: Only yacht slipways available.
REPATRIATION: First-class facilities available for repatriation and crew changes.
AIRPORT: Distance from airport 2 miles. Connections to all parts of world. Average of 15/20 flights per day.
TIME: See "Hamilton".
HOLIDAYS: See "Hamilton".
POLICE/AMBULANCE/FIRE: Police 7–1122; Ambulance 2–2000; Fire "00".
TELEPHONES: Can be placed on board vessels when alongside.

GENERAL: Esso Oil Berth, within Port of St. George, is purely a bunkering and petroleum discharge pier situated on the Southern side of Murray's Anchorage.
AUTHORITY: Harbour Master.

AGENT: Meyer Agencies Ltd., PO Box 48, St. George's 1, Bermuda. Tel. 7–1255 (6 lines). Telex 3361 Meyer BA.
Shipping, Insurance, Travel Agents. Marine repairs, tug and barge operators, stevedoring operators.

NOTES

Please also advise Shipping Guides Ltd.

Bolivia

GENERAL: Bolivia is completely land locked with no ocean ports.

The country has special port facilities or 'in transit zones' in Brazil at Belem and Santos; in Argentina at Rosario; and to the Pacific at Matarani, (and shortly Ilo) in Peru also Arica and Antofagusta in Chile.

In 1975 Chile offered a corridor 5 to 7 miles wide at the Pacific to Bolivia, and negotiations are at present being conducted on this subject. Whether this zone will include the port Arica is not yet known.

(1) A newly installed in-transit zone at Rosario (Argentina) is expected to divert present Bolivian imports and exports from Buenos Aires. The new area covers sheds 23/30, an area of over 5 hectares, and 945 m. of wharf. The present free zone, in the centre of the port zone, will eventually become the Northern sector of the port, with good railway connections to Bolivia. All Government Cargo is handled by the Bolivian Customs Office from Ocean Port, but all private cargo is looked after by forwarding agents on behalf of importers, whose job it is to arrange for despatch, pay port handling charges, rail freight, etc.

(2) There are also special port facilities at Matarani and Ilo in Peru, and a new road is being built which will bring La Paz to within one days road travel from the sea.

(3) The country borders to the East with the Paraguay River on a brief stretch near Corumba, on the Caceres Lagoon by Puerto Suarez, and where a new port – Sucre is to be opened shortly in connection with the movement of Iron Ore and Manganese down river. The river will normally permit vessels up to 11 or 12 ft. draft, occasionally falling to 5 to 6 ft. in the dry season (October/November).

DOCUMENTS: In each port there are Bolivian Customs Authorities under the control of the Bolivian Consul. At none of the 'in-transit ports' are any special Consular despatches or documents needed by vessels, other than those required by the particular country. It is only necessary to present separate manifests for cargo in transit to Bolivia.

However commercial invoices, and goods documentation does require consular intervention.

Shippers must vise Bills of Lading and Consular Invoices and also attach suppliers invoices, certificates of origin and insurance policy. Most imports are handled under letters of credit. Documents must be made out in Spanish. At Ocean Port, forwarding Agents replace the Bill of Lading with a railway bill or trucking bill. There is no exchange control or shortage of foreign exchange in Bolivia.

Claims are finally set up (shortages, condition, etc.) in Bolivia, and hook tallies, local port receipt to Bolivian customs, railway or truck receipts, etc., all form part of the settlement.

CONTAINERS: It is possible to despatch sealed containers right through to Customs in Bolivia for opening there.

WEIGHTS AND MEASURES: All weights and measures are to be expressed in the metric system, except for lumber, in board feet.

FLAG: Three equal horizontal stripes of red, yellow and green.

NOTES

Please also advise Shipping Guides Ltd.

Brazil

GENERAL

DOCUMENTS:
The following documents are the maximum number required on arrival, including copies for agents.

	Required by			
	Port Doctor	Customs	Police	Totals
Crew List	3	3	4	10/12
Crew Personal effects list		3		1/3
Stores (engine/deck /cabin/bonded)		4		1/4
Passengers landing in transit or negative	3	6	3	12
Manifest for port (or negative)			3 (arms munitions only)	6/9
Manifest in transit (every port)				
Vaccination certificates (one each person)	1			1
Maritime Health Cert. (WHO form)	2			2
Deratization Cert. or exemption	1			1
Accompanied baggage, individual		3		3
Unaccompanied baggage manifest		3		3
General statement	2	2	4	4

The clearance from the previous Brazilian port of call must also be presented, and a detail of discrepancies in cargo (lost overboard, etc.) be available.

All the usual ship's paper's must be at hand:— Registration, Tonnage, Radio Certificate, Safety Certificate, etc. The due dates of all these certificates are specified in the arrival statement, to be signed by the Master.

Consular dues are now collected in Brazil, therefore no Consular intervention is required on ship's papers.

Care must be taken that ports as manifested check against the arrival certificate, and also that the list of ports coincide with those declared on the health certificate. Manifests must show:—

(1) Flag and name of vessel
(2) Detailed description of goods, including freights in U.S. Dollars
(3) Owners and Charterers name
(4) Date of entry and sailing must be shown on the first page.

FLAG: The Brazilian flag is a green ground with a yellow lozenge enclosing a blue sphere, with 21 white stars of which 5 form the Southern Cross and the motto 'Ordern & Progresso'.

This must be flown from the foremast when in Brazilian Ports, from 0800 hrs. to sunset daily.

The customs flag – blue with a white star – to be flown 24 hours a day after clearance is granted.

FREE PRATIQUE: Vessels must report ETA via Agent 24 hours in advance, confirming 12 hours prior to arrival. The message must report that sanitary conditions are satisfactory or otherwise and an indication of the number of passengers intending to disembark and/or in transit.

On arrival the Port Health Authority will board, and further to the documents previously mentioned will require to sight vaccination certificates.

The reception committee will only board by accommodation ladder, or gangway if the vessel is alongside, and must be met at the head of the ladder by a Ship's Officer.

PILOTAGE: This is compulsory for all vessels over 200 g.r.t. There are specific boarding points shown on the charts for each port and vessels must wait there, flying flag G, either at anchor or under way. A safe rope ladder must be provided and must be properly illuminated. Pilots should be ordered at least 2 hours prior to arrival by ship's Agent, or in the event of outlying ports 24 or 48 hours ahead. (See each port).

STEVEDORES: Longshoremen are provided by the dock companies and paid for from the Port Charges. Stevedoring can be carried out either by ship's Agents or by contract. In all cases the number of men per gang and their salaries are fixed by Sunamen (Merchant Shipping Superintendency in the Ministry of Transport).

The vessel is legally the employer of the labour, and as a result the vessel is responsible for any damage to the cargo, ship or any third party, by the stevedores.

GENERAL BERTHING INFORMATION:

A berthing priority in Brazilian Ports is given as follows:–

(1) Warships, Brazilian or Foreign.
(2) Regular Passenger Liners for whom immediate berthing facilities are available. if requested at least 24 hours in advance.
(3) Cargo vessels, for whom there are special installations, are given preferential berthing rights.
(4) Vessels with perishable cargoes are given priority berthing.
(5) Vessels that can load and discharge simultaneously can obtain preference over others.

As soon as cargo operations finish, all vessels must leave their berth, or be removed by the Port Authority.

FUEL: A monopoly on supply is held by PETROBRAS, and owners requirements must be made well in advance to the Petrobras offices in New York, London or Rio de Janeiro. Supplies are not plentiful, and in certain ports only certain grades are available.

POLLUTION: Very strict penalties are enforced, and fines are the same, however little pollution is caused. No dumping of any oil is permitted within 50 miles of the coast.

Garbage: It is forbidden to dump any garbage in any harbour or river. In some ports garbage collection can be arranged.

CREW: Crew members wishing to join a vessel, must carry a letter of instruction for the ship's Agent. They must be signed on within 48 hours of arrival.

For Crew members joining from abroad it is advisable to be in possession of a two year multiple entry visa, as only U.S. consulates in Rio de Janeiro, Recife and Brasilia are authorised to issue visas.

Seamen's Missions:

Scandinavian Seaman's Mission
Flying Angel Club
German Seaman's Home

The above Missions are in Santos, and can arrange football matches, tours, etc. There are no Missions in other ports.

GENERAL: Operators and Masters of Liberian flag vessels should consult Agents well in advance respecting requirements for endorsement of seamen's books or passports.

ANGRA DOS REIS: 23.01 S. 44.19 W.

DOCUMENTS: See "General" before first port.

PILOTAGE: When requested by the Agents, a pilot launch meets incoming ships off the automatic lighthouses of Itacuatiba and the Lage Branca, depending on whether the ships approach from the East or West, respectively. Pilotage compulsory, 2 hours notice required. State ETA and position Pilot will be embarked.

ANCHORAGES: In the Bay of Ilha Grande; approximately midway between the ports of Rio de Janeiro and Santos; offering excellent anchorages, amongst which may be mentioned: Enseada das Estrelas, Enseada do Abraao, Enseada das Palmas, Enseada Sitio Forte, and Enseada de Aracatiba.

The inspection area of the port health, federal receipt and maritime police authorities is covered by a radius of 300 m. around the point of co-ordinates 23° 00′ 42″ S., 44° 18′ 41″ W.

Anchorage for vessels of more than 31 ft. draft and 10,000 g.r.t. 23° 01′ 54″ S., 44° 19′ 18″ W.

Anchorages for vessels of less than 31 ft. or 10,000 g.r.t. 23° 00′ 48″ S., 44° 18′ 30″ W.

Anchoring prohibited in the approach channel and manoeuvring basin.

RESTRICTIONS: The Bay of Ilha Grande possesses two entrances, from the East and the West, permitting immediate access to the Port of Angra dos Reis from the direction of Rio de Janeiro or the Port of Santos, without any change of course. Both access Channels are adequately marked, enabling ships of up to 14 m. draft to navigate in complete safety as far as the port basin about 1 mile from the wharf, where they may lie at anchor and take on cargo from tenders tied up alongside There is another basin with a mud bottom even nearer the wharf, permitting anchorage and docking manoeuvres for ships of up to 10 m. draft.

HEALTH: Port doctor visits all ships on arrival and requires Maritime Declaration of Health, Deratisation Certificate, 2 Crew Lists. Vessels from another Brazilian port automatically receive free pratique and should not fly Quarantine Flag. If suspected disease or fever on board it is advisable to cable Agent before arrival.

TUGS: Available: 4 tugs of up to 600 h.p.

BERTHING: A wharf 1,300 ft. in length, with 1,050 ft. available for tying-up. The wharf is being extended 600 ft. and will be dredged the entire length of the quay so as to receive ships of up to 10 m. draft.

CARGO FACILITIES: Two grain suckers each with capacity of 60 t.p.h. Two electric cranes of 6–6.2 tons capacity, one crane of 3.2 tons capacity and three electric cranes of 1.5 tons capacity. Mobile cranes, 1 for 8 tons, 1 for 9 tons, 1 for 45 tons and 1 for 61 tons. Verolme have an 80-ton floating crane available for hire.

Also available for hire are 2 mechanical conveyors, each with 80 t.p.h. capacity.

MEDICAL: All facilities available. If doctor needed on arrival or making emergency call to land sick persons, cable ETA 12 hours before arrival.

FRESH WATER: Available. Vessels can be provided with up to 50 tons. Connection is 4 in. Pressure greater at night.

FUEL: No facilities for supplying large vessels. Small vessels can be supplied with diesel oil.

REPAIRS: Various mechanical workshops for the execution of shipboard repairs, equipped with lathes, presses, planes, electric and acetylene welding, drills, power-saws and grindstones, etc. The big shipyards of Verolme are situated in the Bay of Jacuecanga, near the port of Angra.

CUSTOMS ALLOWANCES: For each crew member, 2 cartons of cigarettes and 1 bottle wine or spirits.

WATCHMEN: Gangway watchmen strongly recommended for any vessels working cargo with shore labour on board. Watchmen from shore not necessary for coal, iron ore and oil cargoes.

CONSULS: There are no Consuls in this port. They are situated in Rio de Janeiro.

TIME: The local time is GMT minus 3 hours.

HOLIDAYS: 1st January; 1st May; 29th June; 7th September; 8th December; 25th December; 31st December, also local holidays January 6th, April 3rd and December 8th.

TELEPHONES: Not available.

DEVELOPMENTS: Oil terminal for vessels of 400,000 tons under construction.

AUTHORITY: Capitania dos Portos em Angra dos Reis.

ANTONINA (Barao de Tefe): 25.26 S. 48.41 W.

Also see "General" before first port and "Paranagua".

PORT LIMITS: The limits of the port of Barao de Tefe extend from the Teixeira Bridge to the port quay.

DOCUMENTS: See "Paranagua".

PILOTAGE: Compulsory in the port of Barao de Tefe and in the access channel. Also see "Paranagua".

ANCHORAGE: Only anchorage is in the vicinity of Teixeira Bridge (See DHN chart No. 1823). See "Paranagua" for quarantine and explosives anchorages.

Anchoring in front of the quay is prohibited.

RESTRICTIONS: *Access Channel:* This is marked on chart No. 1823 of the DHN (National Hydrographical Directorate), the channel is 120 m. wide, running in a S.E.–N.W. direction, starting at the Island of Teixeira and proceeding as far as the manoeuvring basin.

Critical Points: Itaucu de Baixo Rocks, Shallows of Fundao Grande and Joao Fernandes; average depth 5 m. Anchoring in the channel is forbidden, and to navigate it, it is necessary to have good visibility and daylight.

Tide: The average speed reaches 3 knots on the ebb tides, average height during Spring tides – 2.2 m., Neap tides – 1.7 m.

Berthing: Manoeuvring may only be effected in daylight and good visibility. Berthing always takes place on a rising tide.

TUGS: To be requested from Paranagua.

BERTHING: The area for manoeuvring is 280 m. wide in front of the quay, with a length of 700 m. Variable depth between 6.5 and 7.5 m.

Length of berth, 200 m. (additional berth – length 150 m. planned); depth alongside, 6.0–6.5 m.; Bollards 50 m. apart.

Facilities: 5 warehouses, 12,200 sq. m. without cold storage; 1 vertical silo at Matarazzo of 8,500 tons capacity (not in operation); open air areas, 7,500 sq. m.

Cranes: 1 of 5 tons on rails, 4 on tyred wheels of 9 and 3.5 tons, stacker trucks – 4 of 5 tons capacity, 4 of 2.5 tons and 5 of 2 tons. No rolling bridge, loaders or suction units available.

Railway lines extending 3,100 m. but no locomotives available; 6 wagons which are of the open type (28 ton capacity); 22 trucks on tyred wheels (3.5–7.0 tons capacity).

No ro/ro or container facilities. No barges, pontoons or lighters available.

STEVEDORES: See "Paranagua".

MEDICAL: Hospital, clinic and surgery available. Tel: 433.

FRESH WATER: One hydrant at end of quay, rate 30 cu.m.p.h.

At Matarazzo Quay there are 3 hydrants, spaced 100 m. apart, rate 30 cu.m.p.h.

No water boat available.

FUEL: Available to vessels alongside by road tanker.

REPAIRS: See "Paranagua".

AIRPORT: At Curitiba (Afonso Pena Airport) 65 km. away, or Paranagua 50 km. away.

HOLIDAYS: Local: 6th November (City Anniversary), 15th August (City's Patron Saint Day).

POLICE/AMBULANCE/FIRE: Police, tel: 355; Fire Brigade from Paranagua is used.

TELEPHONES: Not available.

SERVICES: Foodstuffs available.

GENERAL: Following received from a ship's Agent in 1980.

The port of Antonina is situated in the inner recesses of Paranagua Bay, about 15 miles from this port. Vessels demanding that port receive free pratique at Paranagua and proceed on voyage one hour before HT. As the channel has no light-buoys, navigation is only possible during day time. There are only two berths available at Antonina, and should both of them be occupied, vessels await in Paranagua, because there is no safe anchorage there.

Vessels have to turn around before docking, and for this reason only small vessels should go there.

Official maximum drafts: Spring tide – HW: 21 ft.
Neap tide – HW: 18 ft.
LW: 15 ft.

Stevedoring – Labour:

a) Number of gangs available: Not restricted. Stevedores affiliated to their Union.

b) Working hours:

Normal hours:	0700–1100	1300–1700
Night hours:	1900–2300	0000–0400
Overtime:	1100–1300	1700–1900
	2300–2400	0400–0700

c) Number of men in regular gang:
Unitised cargo: 9 men.
Break-bulk cargo 11 men
Reefer cargo: 20 men

d) Labour available all year round.

e) Rigging and cleaning gangs available.

f) Capable supervision is available. In addition to normal stevedore supervisors, agency employees give ample assistance to ships' operations.

g) Average tons worked per hour per gang, loading: Bagged cargo: average of 40 t.p.h. General cargo: average of 10/20 t.p.h.

h) Average tons worked per hour per gang, discharging:
Bagged cargo: average 20 t.p.h.
General cargo: average of 10/15 t.p.h.

Equipment/Gear:

Shore gear, hooks, slings, etc., available.

Heavy lift slings available to handle maximum 120 tons.

Shore cranes:
1 electric crane – capacity 25 tons – Outreach 25 m.
4 electric cranes – capcity 6.3 tons – Outreach 25 m.
4 electric cranes – capacity 3 tons – Outreach 15 m.
6 electric cranes – capacity 3.2 tons – Outreach 25 m.
4 electric cranes – capacity 2 tons – Outreach 25 m.
1 automotive crane on tyres – capacity 30 tons – Outreach 20 m.
1 floating crane available, capacity 110 tons.

Cargo is discharged onto railroad trucks and trailers. Export cargo is brought alongside by trucks, railway cars or trailers.

Sideloaders also available.

No containers spreaders available.

No lighters available.

Warehouse/Transit Cargo Sheds:

a) Within the port area there are 31 warehouses of concrete construction, with tile roofs, with a total of 87,310 sq.m. of storage.

b) A small refrigerated storage shed is available, used mostly for meat, fish, shrimps and fruit; its capacity is for 2,900 cu.m., and there are 9 chambers.
Temperature: Range of 14/15°F. One chamber can be brought down to −13°F.

c) Free time period allowed on cargo discharged from vessels is 6 days.

d) Storage always paid by importer/exporter.

AUTHORITY: Administracao dos Portos de Paranagua e Antonina.

ARATU: 12.46 S. 38.30 W.

LOCATION: Located at Joao Pereira Point, in front of the Island of Mare in the Eastern part of the Bay of Todos os Santos.

DOCUMENTS: See "General" before first port and "Salvador".

PILOTAGE: Compulsory. Requests for Pilots are to be made to the Bay of Todos os Santos Pilots' Association at Serra da Raiz Building, 5th Floor, Room 510 – Rua da Grecia 8, tel. 242–2221 or by Channel 16 VHF-FM of the coastal radiotelephone network.

Requests must be made 2 hours in advance, specifying the time of the vessel's entry.

APPROACHES: *Access Channel:* The access channel starts at Lat. 12° 58′ S. and Long. 38° 31′ 55″ W. with a minimum depth of 18 m. (see Chart 1108 of the NHD). The channel is marked by 8 light buoys, 4 to starboard with red lights and 4 to port with white lights and by the lighthouse at Areia Point. To the North of the port of Aratu is the lighthouse of Cabrito Point which provides a good landmark day and night for vessels bound for the port of Aratu. The length of the channel is about 2 miles as far as the manoeuvring area, with a minimum width of 200 yards.

The improvement of the nautical signalling arrangement in the access channel to the port is planned, based on a study carried out by a Dutch firm and under an agreement which will be signed with the SSN. The following points are fairly clear and serve for direction finding purposes:

(a) Furnaces of the Salvador Cement Company, at Sacopa Point, during the day;

(b) USIBA terminal which has a red light at its top, serving as a reference point both day and night.

(c) Construction at the top of the hill at Toque-Toque Point, during the day.

(d) Church of Nossa Senhora das Neves on the Southern part of the island of Mare during the day;

(e) The lighthouses of Areia Point and Cabeto Point, both day and night.

Existing Dangers: The shoal to the West of Sacopa Point and the banks of the Island of Mare are being permanently dredged.

Manoeuvring Area: The area intended for berthing and unberthing of vessels is defined to the East and West by the 10 m. line, with variable width from 400 to 1,000 m., limited to the South by the 12° 46′ 09″ S. parallel.

ANCHORAGE: The Monte Serrat anchorage must be used for waiting and inspection. Anchorage of vessels is prohibited in the manoeuvring area and the access channel.

MAX. SIZE: See "Berthing".

TUGS: Salvador tugs used.

BERTHING: Berthing may be effected on both sides of the pier. The North berth is used by vessels discharging and the South berth by vessels loading.

The South part of the pier has a depth for vessels up to 12 m. draft and possibility for accommodating vessels up to 280 m. length. The North part is limited to vessels up to 10 m. draft, and is 155 m. long. The above quoted depths refer to the reduction level of NHD soundings.

When berthing the anchor must be used.

There are 10 securing points on the pier. On the South berth there are 10 points 23 m. apart. There are two other points on the two dolphins, one at the end of the pier and on the inside part of the pier, on the extension of the South quay.

Cranes: A solid bulk material unloading crane with 25 ton capacity removes cargo by means of a scoop, and places it on a transporting conveyor.

Stackers: In the storage area a mineral stacker is being installed.

Transporting Conveyor: Type PHB (Pohlig-Heckel do Brasil S/A) with a length of 1,875 m., 1,289 m. being for minerals, 449 m. for powdered mineral and 586 m. for sand. Loading capacity: 1,200 t.p.h.; unloading capacity 2,400 t.p.h. This conveyor will take solid mineral to the storage area or to the silo itself in the case of aluminium cargo. It can only be operated for loading or unloading one vessel at a time to or from the storage area. In the event that one of the products to be loaded or unloaded is sand or aluminium, two vessels can be operated simultaneously, one loading and one unloading.

REPAIRS: There is a workshop under construction.

DRY DOCK: There is a naval dry dock in Aratu capable of handling vessels up to 45,000 d.w.t. It has dimensions 230 m. by 30 m. wide. Depth 11.5 m. However, the access channel will only allow vessels of up to 10 m. draft, though this is expected to be increased shortly.

FUEL: Available by road tanker from Salvador. Also see "General" before first port.

FRESH WATER: No supply on the quay.

AIRPORT: Internal flights within Brazil available.

CONSULS: See "Salvador".

HOLIDAYS: *Local Holidays:* 24th June, 2nd July and 8th December.

GENERAL: The port is not yet in commercial operation.

AUTHORITY: See "Salvador".

BELEM: 01.25 S. 48.25 W. (See Plan Book)

PORT LIMITS: Subject to Charter Party Terms, vessel normally considered an "arrived ship" when at Val-de-Caes anchorage, Icoaraci anchorage, or alongside the quay.

DOCUMENTS: See "General" before first port.

PILOTAGE: Pilot usually ordered through vessel's Belem Agent, ETA at least 72 hours in advance and confirming not less than 24 hours prior to arrival. Vessels can apply direct to Pilot station (on condition that local radio station is operating). Telegraphic address "Praticagem – Salinopolis", and call sign of Salinopolis (or Salinas) radio station is PPL. Pilot boards at a point 7 miles North of Salinas lighthouse; a red motor-launch is used. Launch carries a red flag with a black P; it also has a black P painted on each side and on cabin roof. If pilot boat not in position on arrival of vessel, position 7 miles North of the light is a safe anchorage. Masters who do not know area should approach Salinas with caution.

ANCHORAGE: Vessels with a draft greater than 26 ft. anchor off Icoaraci, 7 miles from the port where they work cargo.

Vessels that are impounded anchor off Val-de-Caes.

Vessels undergoing repairs anchor off the Naval base dock at Val-de-Caes.

Vessels with a draft of less than 26 ft. anchor at Val-de-Caes. Co-ordinates: 01° 24′ 01″ S., 48° 30′ W., 01° 21′ 03″ S., 48° 29′ 03″ W. and 01° 08′ 09″ S., 48° 28′ 03″ W.

Between Icoaraci and Val-de-Caes, there is a shallow spot at Tapana, which ships should approach with caution, although bottom is soft mud and sand.

HEALTH: Maritime Police, Customs and Port Health board vessel on arrival at whichever anchorage is used, or alongside. Pratique granted on the presentation of documents. If port *not* first Brazilian port of call. Port Health Authorities not required, although Police and Customs will still board. After first Brazilian port, Port Health only required in cases of illness or death. The use of quarantine "Q" flag not necessary. Also see "General" before first port.

RADIO: No VHF facilities in the area. Suggested that ship contacts Belem Agent through Barbados Radio, and this is also usual way that vessels are contacted by Belem. An alternative to Barbados Radio is the United States radio station at Chatham, Virginia.

TUGS: One tug, "Rio Acara", 700 h.p.

BERTHING: The quays are of cement and sand construction on a base of stones, which is, in turn, on a bed of hard clay. The quay height is a max. of +4.50 m. to accommodate the max. tidal rise of up to +3.20 m.

Soundings taken in 1973, for vessels alongside in relation to the hydrographic zero of the port are as follows:

Length of quay (m.)	*Draft (m.)*	*Location*
75	2.5	S. face and N. face of Marechal Hermes Dock
300	3.5 to 4.5	Quay wall – Mosqueiro & Soure Shed and Warehouses 1 and 2.
342	4 to 5	Quay wall – Warehouse 3, Maua Square and Warehouse 4.
385	4.6 to 5.4	Quay wall – Warehouses 5, 6 and 7.
100	7	Quay wall – Warehouse 8
261	8	Quay wall – Warehouses 11 and 12.
110	8	Quay wall – Ocrim Silo to the end of the Wall.

Quay equipment: 26 electric cranes, 11 cranes on pneumatic tyres, 2 steam cranes, ranging from 2.5 to 25 tons capacity. 2 floating cranes are also available of 100 tons and 20 tons capacity. There are facilities for handling containers.

CARGO FACILITIES: 3 regular silos for grain, with a capacity of some 11,500 cu.m. 2 irregular silos with a capacity of 1,430 cu.m. Average hourly discharge rate 102 tons.

For grain suction there is one fixed tower, 42 ton capacity, and one portable tower of 60 tons. Being installed is a mobile suction tower with a capacity of 100 t.p.h.

A 65 m. transporter/track/belt with capacity of 200 t.p.h., one bucket transporter with a capacity of 200 t.p.h., and one weighing tower with a capacity of 200 t.p.h.

TANKERS: At oil terminal of Miramar (Val-de-Caes), vessels of the Shell "H" class (18,000 tons d.w.) may berth or unberth at any state of the tide, subject to draft. Max. depth alongside berth at low water 26 ft., the same as that of approach channel. Mooring at this berth is to buoys inside the line of the "T" jetty.

STEVEDORES: Stevedoring gangs for day shifts 0630 and 1230 hrs. and 1630 hrs. for night shift. Loading and discharging rates exceptionally good, particularly if vessel working at anchorages into lighters. Any delays to vessels alongside can usually be put down to the lack of official clearances in case of loading export cargo.

MEDICAL: Notice of required medical assistance should always be given in advance. There are a number of first-aid posts for minor complaints. Vaccination Certificates for smallpox are essential, and, although not required officially, yellow fever vaccinations recommended.

DENSITY: Strong outflow of Amazon and its tributaries is such that water at Salinas is only semi-salt. In the river itself, the water becomes slightly brackish, and half way to Belem, is absolutely fresh.

FRESH WATER: Fresh water only obtainable alongside main quay, and not at oil berth. Delivery rate 25 t.p.h. Boiler water may be taken direct from the river at a point named Capim, near the entrance to Marajo Bay.

FUEL: See "General" before first port. Available, but due to Brazilian Custom's laws, as much advance notice as possible should be given in order to obtain correct documentation. A minimum of one weeks' notice recommended.

GANGWAY/DECK WATCHMEN: The employment of gangway watchmen recommended.

HATCHES: Hatches normally opened and closed by stevedores, but if it is raining they are inclined to shelter before closing.

CUSTOMS ALLOWANCES: Custom's Authorities do not normally search ship's crews, and reasonable quantity can remain in the possession of crew members. However, no attempt should be made to take more than a reasonable amount ashore.

IDENTITY CARDS: Foreign crew members not permitted to go ashore without presentation of identity card on which is a photograph of holder and personal details. These cards are provided by the Agent upon arrival. The identity card must be delivered on disembarkation to the Federal Police who will return it to the crew member on re-embarkation.

CONSULS:

Belgium
Bolivia
Colombia
Costa Rica
Denmark
Dominican Republic
France
Great Britain
Holland
Italy
Japan
Mexico
Norway
Peru
Portugal
Spain
Sweden
United States
Uruguay
Venezuela

REPAIRS: Deck and engine repairs of all types can be carried out by the Brazilian Naval Dockyard, or by repair shops of the Companhia Docas do Para.

DRY DOCKS: At Naval Base, there is a dry dock measuring 730 ft. by 74 ft. with a depth over the sill of 25 ft. There are also several small floating docks, but they are not adequate for sea-going vessels.

REPATRIATION: There are three international flights each week from Belem. Miami 1 flight per week, Wednesday. New York 2 flights per week, Monday, Friday. In addition, daily flights to Rio de Janeiro. Airport of Val-de-Caes is about 4 miles from the city centre.

TIME: Local time GMT minus 3 hours. Summertime (1 Dec.–28 Feb.) GMT minus 2 hours.

HOLIDAYS: New Year's Day (1st January); Carnival (variable); Labour Day (1st May); Corpus Christi (25th May); Independence Day (7th September); All Souls' Day (2nd November); Proclamation of the Republic (15th November); Christmas Day (25th December). Work could be carried out on these days, but costs would be prohibitive.

POLICE/AMBULANCE/FIRE: Maritime Police 234996; Ambulance 222523; Fire Brigade 23–3119.

TELEPHONES: Telephones can be put on board vessels alongside main quay, but this facility is seldom used.

GENERAL: Tidal action in the Guajara Bay is extensive, with the "Pororoca" phenomenon which comprises the meeting of tidal water with masses of fresh water coming from the Brazilian Equatorial rivers. The tidal wave takes 3 hours 40 minutes to come from the Salinas lighthouse to the South end of the port of Belem, the port establishment being 11 hours 35 minutes. Systematic measurements at times of spring tides show that the average height of water reaches 3.22 m. at high tide and in the quadratures 2.42 m.

During the ebb, the waters coming up the bay of Guajara are predominantly picked up by the Western channel current, with great speed, thus explaining the great depths at that point, and also in the Western channel the average ebb and flow speeds are 1.30 and 1.74 m. per second, respectively, and in the East channel they are respectively 1.19 and 2.10 m. per second.

AUTHORITY: Companhia Docas do Para.

CABEDELO: 06.58 S. 34.50 W.

DOCUMENTS: See "General" before first port.

PILOTAGE: Contact Pilot's Headquarters by radio via vessel's Agent located at Joao-Pessoa (24 km. from Cabedelo). As no radio station available at Joao-Pessoa or Cabedelo such messages are usually relayed by Olinda Radio PPA – Fortaleza Radio PPC – Amaralina Radio PPA – or Rio Radio PPR. All messages are delivered by National Telegraph – Telegrafo Nacional. Pilots maintain day and night watch from Cabedelo beach. Pilots' launches painted red with capital "P". Vessels await Pilot 0.75 miles E.N.E. of Piedra Seca Lt.

Pilots may be requested through VHF (Channels 12 and 16 – 156.6 mHz and 156.8 mHz). Pilots board ships within 5 hours after request.

ANCHORAGE: Vessels of more than 5,000 g.r.t. – within a radius of 1 mile around the point: Lat. 06° 58′ 20″ S.; Long. 34° 51′ W.; depth – 6 m.

Vessels of less than 5,000 g.r.t. – within a radius of 0.5 miles around the point: Lat. 06° 58′ 48″ S.; Long. 34° 50′ 18″ W.; depth – 6 m.

Vessels impounded or requiring considerable repairs use same anchorage as vessels over 5,000 g.r.t.

RESTRICTIONS: For Masters calling at Cabedelo for first time it is preferable not to enter during darkness.

MAX. SIZE: Max. length 200 m., draft spring tide 23 ft., neap tide 21 ft.

HEALTH: Also see "General" before first port. If Master suspects contagious disease aboard he must report to Agent who will contact Brazilian Health Authorities at Joao-Pessoa.

VHF: See "Pilotage".

TUGS: None available.

BERTHING: Safe drafts at bar entering or sailing: spring tide 23 ft., neap tide 21 ft. Berthing takes place in accordance with vessel's draft. Master must always give Agent vessel's draft arriving off Cabedelo. Length of quay, 600 m. depth alongside 5–10 m.

STEVEDORES: Advise Agent ETA at Cabedelo 48 hours prior to arrival to make arrangements with dock and stevedores for discharging or loading.

CRANES: 3 Portal cranes, 2×3 tons, 1×6 tons and 5 cranes of 1.5 tons capacity.

MEDICAL: For urgent cases recommended that vessel call at Recife instead of Cabedelo as Recife has better facilities. If vessel must enter patient will be removed to Joao-Pessoa Hospital as no hospital available at Cabedelo.

TANKERS: Cabedelo not a loading port for petroleum products. Messrs. Esso-Brasileira de Petroleo, have tanks for reception of gasoline and other petroleum products which are carried by Brazilian fleet of tankers "Fronape" – Frota Nacional de Petroleiros. At Cabedelo only berth No. 1 is suitable for discharging petroleum products or to bunker vessels since pipe-line is only connected to berth No. 1. Tankers enter and sail during dark hours from Cabedelo.
DENSITY: Varies from 1020 to 1025 at high water.
FRESH WATER: Supplied by pipe-line alongside quays at rate of 50 cu. m. per hour.
FUEL: Available. Suppliers Messrs. Esso-Brasileira de Petroleo. Pipe-line at berth No. 1 where vessels can bunker alongside. Pipe-line fuel oil, 8 in.; pipe-line diesel, 8 in.
DEVELOPMENTS: The port is being dredged to allow vessels with 33 ft. draft to enter.
GANGWAY/DECK WATCHMAN: Watchmen available. Also the hours of work agree except that Captains have option to choose suitable times when their services are required.
OPENING/CLOSING HATCHES: By stevedores. Crew assist when stevedores not familiar with modern hatches.
CUSTOMS ALLOWANCES: 1 carton cigarettes per crew member at Customs discretion and 1 bottle of whisky or any other kind of spirit, subject to Customs discretion.
IDENTITY CARDS: Foreign crew members not permitted to go ashore without presentation of identity card on which is a photograph of holder and personal details. These cards are provided by the Agent upon arrival. The identity card must be delivered on disembarkation to the Federal Police who will return it to the crew member on re-embarkation.
CONSULS:

Vice-Consulate of France	Tel. 226.2621

Other consulates at Recife 110 km. from Joao-Pessoa about 2 hours by road.
REPAIRS: Minor repairs only.
DRY DOCKS: None.
REPATRIATION: Repatriation can be arranged via Recife or direct from Joao-Pessoa to Rio de Janeiro. No direct Air Service from Joao-Pessoa available for foreign destinations.
AIRPORT: 9 km. from Joao-Pessoa. Small Airport utilised by National Lines whose planes make regular calls.
TIME: GMT minus 3 hours throughout the year.
HOLIDAYS: For holidays see "Recife". Work is possible during holidays and Sundays provided the Dock Administration and Stevedores are advised in anticipation say, 24 hours before commencement. Usually on Good Friday, Christmas Day and Independence Day work at the Cabedelo dock is not obtainable. Same applies to the third Day of Carnival.
POLICE/AMBULANCE/FIRE: Police (located at Joao-Pessoa) 190. Cabedelo has a small Police Station but no telephone available. Ambulance (located at Joao-Pessoa) 191 and 192 (24 km. from Cabedelo). Fire Brigade (located at Joao-Pessoa) 193.
TELEPHONES: No facilities for placing telephones on board.
AUTHORITY: Capitania dos Portos do Estado da Paraiba, Joao Pessoa (24 km. from Cabedelo).

CARMOPOLIS: 11.03 S. 37.01 W. (See Plan Book)

LOCATION: Terminal Maritimo de Carmopolis, (Tecarmo), operated by Petroleo Brasileiro SA, Petrobas, is located on the N.E coast of Brazil in the Atalaia Velha Beach, Lat. 11° 00′ 30″ S. 37° 04′ 00″ W. about 9 km. South of Aracaju City, capital of the State of Sergipe.

The mooring site is an open roadstead seaberth. It is located about 3.8 miles from the beach and at the end of a submarine pipe-line marked by 3 lighted buoys, 4 miles Southwards from the bar entrance to the port of Aracaju. The geographical position of the berth is: Lat. 11° 02′ 53″ S. and Long. 37° 00′ 47″ W.
DOCUMENTS: See "General" before first port.
PILOTAGE: No Pilots exist in Carmopolis. All manoeuvres will be undertaken by the vessel's Master, with the help of a Carmopolis Mooring Master, who will board the vessel in the anchorage area and advise the Master on all operations such as mooring, connecting hoses, unmooring, loading, etc. It is important to emphasise that the services of the Mooring Master are afforded without charge and upon the express undertaking and condition that Petrobras shall not be liable for any damage or injury resulting from any advice, assistance or actions given or made by such Mooring Master. In the event it becomes necessary to disregard the Mooring Master's advice, in order to ensure safety of the vessel, the Master must forward a full written report of the circumstances for delivery to the Captain of the Port through the Terminal. It is the responsibility of the Master to notify the Mooring Master of any special conditions or peculiarities such as defective navigation equipment, tackle, gear or lack of necessary equipment which might impose hazards related to handling, mooring and loading the vessel.

Vessel must be moored to entire satisfaction of the Mooring Master. The Mooring Master may require the vessel to unmoor at anytime he deems necessary for the safety of the vessel or mooring or both or for an infringement of terminal or port regulations.

Unsatisfactory conditions will be reported to the Terminal Superintendent who is empowered to reject the ship unless the reported deficiencies have been remedied.
APPROACHES: As it is an open roadstead the access to the terminal can be easily and safely approached either from the N.N.E. or from the S.S.W.

When approaching the terminal, as well as the landmarks (Aracaju Light), there are also 4 fixed lighted platforms, located in the following positions, and can be visible in clear weather for a distance of 22 miles:

Lat. 10° 58′ 12″ S.	Long. 36° 58′ 30″ W.
Lat. 11° 00′ 23″ S.	Long. 36° 55′ 23″ W.
Lat. 11° 05′ 48″ S.	Long. 36° 57′ 42″ W.
Lat. 11° 01′ 06″ S.	Long. 37° 02′ 24″ W.

When for the first time approaching, and during night hours, contact can be made with the platforms, which maintain VHF Channel 16, and certain information can be obtained regarding anchorage, berthing time, etc.
ETA: Vessels bound for Aracaju or Tecarmo should transmit directly to "Fronape Rio" (through PPR) a message advising vessel's name, flag, port of registry, classification, gross and net tonnage, horsepower, speed, number of crew, Owner's and Master's name.
ANCHORAGE: Due to the peculiar conditions of the terminal, mooring should be undertaken at daylight only. For vessels arriving at night, the advisable anchorage is in position: Lat. 11° 03′ 00″ S. Long. 36° 59′ 00″ W.

Anchorage may be obtained in a depth from 13 to 15 fathoms East or E.S.E. from the mooring buoys, and at a distance of 1 mile. The bottom is a good holding ground.

Anchoring is prohibited West and S.W. of the terminal due to the existence of pipe-lines, which are newly laid down and unmarked on the charts. Strong currents prevailing along the coast line, which occasionally attain rates up to 3 knots.
RADIO: Vessels bound for Terminal Maritimo de Carmopolis should advise their ETA 48 hours prior to arrival, to "Fronape-Rio" through Rio Radio (PPR), as well as to Agent in Aracaju (through Rio Radio (PPR)), Olinda Radio (PPO), Salinopolis Radio (PPL) or Amaralina Radio (PPA). In turn, these stations will send messages to the terminal.

ETA should be in local time, giving name of vessel, Master's name, number of crew, net tons, gross tons, nationality and d.w.t.

Confirmation or change of ETA should be cabled 24 hours before arrival.

When vessel is within about 50 miles of the terminal, contact may be made by VHF radio-telephone on Channel 16 (156.80 mHz) or SSB (2182 kHz).
MAX. SIZE: Tankers up to 117,000 d.w.t. (part laden) can be accommodated. Max. draft 15 m.
TUGS: There are no tugs available to assist berthing and unberthing.
BERTHING: The terminal consists of 1 berth (6 buoys) designed for loading crude oil. The berth is located 7,150 m. from the shore. Loading of vessels is effected by one 26-in. submarine pipe-line.

Max. permitted draft for the terminal is 15 m. in order to ensure a safe bottom clearance, even under extreme operating sea conditions.

Amidships derrick or crane capacity must not be less than 5 tons, so that hose can be hoisted and connected.
HOSES: There is a submarine pipe-line from shore installations direct to the terminal, which are divided into 2 flexible hoses long enough to reach the ship's manifold. Usually, only 1 hose is connected, of 10 in. diameter, from which 19,000 bbls. is the max. loading rate. Shore labour used to connect hoses. Hoses are lifted on the starboard side.

The Mooring Master will guide the terminal's workmen in lifting, connecting and lowering the hose. As soon as the vessel is securely moored, one of the strings of hoses must be lifted to the rail by ship's gear (crane or boom). Sundry hose securing and connecting equipment (strops, gaskets, quick-release device, etc.) will be supplied by the terminal and put aboard the ship soon after arrival.
MEDICAL: Medical treatment and/or hospitalisation, if required are provided at Aracaju private hospitals. Dentists are also available in Aracaju. Agent will make such arrangements.

For emergency cases (injury etc.), Petrobras first aid may be requested by the Master.
MOORING: Vessels moor using both anchors forward with 2 lines from the port bow to No. 2 mooring buoy and from the stern run 8 to 10 ropes to the buoys, depending upon weather conditions and strength of currents.
BALLAST: Vessels should arrive at TECARMO with minimum clean ballast to enable manoeuvring under prevailing weather conditions. To avoid any possible pollution of the local waters, all tankers calling at the terminal to load must do necessary tank cleaning prior to arrival. Before arriving at the loading berth Masters must assure themselves that all tanks, pipe-lines and pumps are free of oil. The terminal does not have facilities to receive dirty ballast.

Brazilian Laws are very strict with regard to the pollution of coastal waters. Vessels are not allowed to discharge dirty ballast into the water. Heavy fines are imposed for violations. To offenders, fines will be charged (besides resulting delays) according to the ship's tonnage.
WEATHER: During Winter months, weather conditions are not favourable. Heavy swell prevailing at the sea berth from S./S.E. direction which causes a continuous rolling on the ship during the whole time of loading operations. The terminal is only sheltered from the North to West, and W.S.W. winds which are very rare during the Winter months.
CARGO: The cargoes are called Sergipano Crude Oil of an average API 33, temp. 90° F., Plataforma Crude Oil of an average API 40.3, temp. 90° F. or Carmopolis Crude Oil of an average API 23.4, temp. 90° F. No heating required.
FUEL: No bunkers available at Aracaju Terminal.
FRESH WATER: No water available.
AIRPORT: There is an airport at Aracaju.
CUSTOMS ALLOWANCES: Brazilian Laws are strict with regard to smuggling, and Masters are requested to instruct their crew not to retain cigarettes in carton lots, cigars, tobacco, alcoholic drinks, drugs, souvenirs, etc.

By no means will any commercial transactions be tolerated be it either among terminal employees, crew members or anyone else.
AUTHORITY: Petroleo Brasileiro S.A.

FORTALEZA: (including Mucuripe), Ceara: 03.41 S. 38.32 W.

PORT LIMITS: From the end of the mole on a true bearing of 235° to the meridian of 38° 29.8′ W., thence to the coast.
DOCUMENTS: See "General" before first port.
PILOTAGE: By Associacao de Praticagem do Porto de Fortaleza. Address: Rua Dragao do Mar, 372. Tel. 212088. The Pilots board ships about 0.5 miles N.W. from the breakwater, call by International Code Signals.

Pilot may be ordered through the vessel's Agent or Fortaleza Radio (PPC). One hour before arrival specifying time of arrival and from which point the Pilot is required.
ANCHORAGE: Vessels awaiting Pilot may anchor W.N.W. of the breakwater head, distance 0.5 miles. Water depth 32 ft.
RESTRICTIONS: Entrance channel Length 1,000 m., width 150 m., depth 8 m.
MAX. SIZE: Up to 27 ft. draft depending on the tide.
HEALTH: The inspection area for Port Health and the other authorities is within 1,430 m. of position 03° 42′ 24″ S., 38° 29′ 18″ W.

All ships must be visited by Port Health Inspector. If vessel has passengers in transit for another Brazilian port, another visit will be required at port where passengers disembark. If ship's health condition satisfactory, Inspector will give free pratique immediately. Radio pratique available if Master able declare satisfactory health condition before arrival. Free pratique is valid for subsequent ports in Brazil.

If there is a crew member to be hospitalised, the Health Inspector will issue pass to hospital on request of Master or Agent who will be made responsible for all expenses incurred.

Inoculations for International Certificates can only be given by an employee of the Port Health Authority.

Ships are inspected by Custom House and Health personnel at the anchorage.
TUGS: One tug available.
BERTHING: 1,116 m. of berthing length. Berths for five vessels. One grain elevator, capacity 150 t.p.h. Four lighters available capacity up to 70 tons each.

Berth No. 1. 106 m. long, 18 ft. deep.
Berth No. 2. 150 m. long, 20 ft. deep.
Berth No. 3. 170 m. long, 22 ft. deep.
Berth No. 4. 530 m. long, 25 ft. deep.
Berth No. 5. 160 m. long, 33 ft. deep.

Vessels are advised to take a Pilot and use a tug if available due to the peculiar port variations.

Vegetable oils can be loaded in drums, 18/20 t.p.h. or ex-barge at 100/125 t.p.h.
CRANES: A 100 ton floating crane is on order. No. 4 berth has 5 cranes with capacities from 3 to 6 tons. No. 3 berth has a travelling suction tower with 2 tubes, operating at 120 t.p.h.
TANKERS: An extension is planned by No. 1 berth, for use of tankers, that at present, must use No. 5 berth. Dredging will be undertaken to a depth of 12 m. alongside the extension.

Tankers discharge crude, and are able to load clean oils through 7 lines ranging from 6 in. to 8 in.
FRESH WATER: Nine hydrants on the quay spaced 50 to 80 m. apart. Connections 2 in. Rate 20 t.p.h.
FUEL: Boiler fuel available from seven connections spaced along the quay. Diesel oil is available by road tanker. Also see "General" before first port.
REPAIRS: Two workshops available for machinery repairs. No electronic repairs possible.
TELEPHONES: Available on board through the Ceara Dock Co.
CONSULS: None at Fortaleza.
IDENTITY CARDS: Foreign crew members not permitted to go ashore without presentation of identity card, on which is a photograph of holder and personal details. These cards are provided by the Agent upon arrival. The identity card must be delivered on disembarkation to the Federal Police who will return it to the crew member on re-embarkation.
REPATRIATION: Can be arranged.
AIRPORT: Only internal services from local airport.
POLICE/AMBULANCE/FIRE: Maritime police tel. 24.14.94; Ambulance 21.34.34 and 21.22.22; Fire 23.13.81.
SHORE LEAVE: Allowed under control of maritime police.
AUTHORITY: Companhia Docas do Ceara.

ILHEUS: 14.49 S. 39.00 W.

DOCUMENTS: See "General" before first port.
PILOT: Call by flag signal. Locality of pilot station marked on chart. Type of boat: sailing.
ANCHORAGE: Marked on charts.
RESTRICTIONS: Vessel must wait daylight for pratique.
HEALTH: Port doctor visits all ships on arrival and requires Maritime Declaration of Health, Deratisation Certificate, 2 Crew Lists. Vessels from another Brazilian port automatically receive free pratique and should not fly Quarantine Flag. If suspected disease or fever on board it is advisable to cable Agent before arrival.
TUGS: Three private companies own tugs.
BERTHING: There is a total of 432.5 m. of quay available. The wharf extends 110 m. West from the breakwater. There are 5 Portal cranes (3×3 tons, 2×6 tons). Loading rates for bagged cargo of cocoa and coffee approximately 30/45 t.p.h. per gang. Discharge of bulk wheat by grab. Tankers moor partially off the quay to a stern buoy.
STEVEDORES: Arranged by Agent.
MEDICAL: All facilities available. If doctor needed on arrival or making emergency call to land sick persons, cable ETA 12 hours before arrival.
TANKERS: Terminal owned by Frota National de Petroleiros. Buoy mooring.
FRESH WATER: Available. Rate 50 t.p.h.
FUEL: Not available.
DEVELOPMENTS: Port will be completed in two years.
WATCHMEN: Compulsory.
HATCHES: By stevedores.
CUSTOMS ALLOWANCES: Only sufficient tobacco for daily use. No alcohol to be taken ashore.
IDENTIFICATION CARDS: Necessary to go ashore.
CONSULS: Only in city of Salvador.
REPAIRS: Workshop belonging to Port Administration. Minor repairs only.
REPATRIATION: Can be arranged.
AIRPORT: Situated near port.
HOLIDAYS: Work can be arranged on all holidays.
POLICE/FIRE/AMBULANCE: Police tel. 2530; Ambulance 2417.
TELEPHONES: No connection to vessels can be made.
SERVICES: Diving service available.
SHORE LEAVE: Allowed with identity card.
AUTHORITY: Delegacia de Capitania dos Portos.

IMBITUBA: 28.13 S. 48.38 W. (See Plan Book)

DOCUMENTS: See "General" before first port.
PILOTAGE: There are two entrance channels. The North channel has a depth of 10 m. the South channel has a depth of 13 m.

No VHF facilities and Pilot is summoned by two prolonged blasts. The Pilot should be given an ETA at least 24 hours before arrival. Confirmation at 12 hours, via Radio PPF.
ANCHORAGE: Vessels may anchor in 10 to 11 m., off the entrance, although this is exposed to N.E. or East winds.
RESTRICTIONS: A breakwater protects the port. Vessels are restricted to a draft of 28 ft.
BERTHING: The port consists of a wharf 308 m. long with depths varying from 10–11 m. Depth in manoeuvring basin also 10–11 m.

The coal installation has a delivery rate of 24 t.p.h.
CRANES: Three 15 ton cranes, three 13 ton cranes, one 3.5 ton crane.
MEDICAL: Facilities available. Hospital in town.
FRESH WATER: Available from 1 inch lines on the pier. Delivery rate 6 t.p.h.
FUEL: Available by lorry. Also see "General" before first port.
REPAIRS: No facilities other than for minor repairs.
CONSULS: At Rio Grande.
GENERAL: Construction of a new concrete quay on the West side of the port is complete. Cargo handling equipment is expected to be available by January 1981. Berth will then become operational and will be used for loading/discharging bulk cargoes.

Two metal tanks formerly used for fuel oil storage are now to be used for storage and distribution of caustic soda.

A special pipe-line has been constructed for shipment of sulphuric acid (H_2SO_4) produced in a factory recently installed in this locality.

There are prospects of considerable increase in the export of mineral carbon through this port, in the forthcoming years, for which reason the Government has already made plans for the implementation of a project with a capacity for movement of around eight million tons per year.

ITAJAI: 26.56 S. 48.38 W.

DOCUMENTS: See "General" before first port.
PILOTAGE: To await or to receive Pilot, anchor from half to two miles East of South Breakwater.

Pilot Service does not have radio or VHF; any telegram can be addressed to Pilots Service in Itajai (Servico de Praticagem–Itajai), but customary to send all advices to Pilot Service via Agents.

Pilot Service has three launches painted red with a "P" on side and on funnel. Launches always anchored inside port. In case of bad weather, vessel must wait for instructions in Porto Belo Bay, South of this port, and in case of bad weather on sailing, if impossible to disembark Pilot in entrance of bar, must be done in Porto Belo Bay.
ANCHORAGE: Waiting anchorage situated in Enseada de Cabecudas, up to two miles distant from South light, depth of 8 m.
RESTRICTIONS: Vessels can enter or sail at any tide with a max. draft of 18 ft. Vessels with a max. draft of 22 ft. may enter or sail at high water. Tanker movements in daylight only. Max. speed allowed in the access channel is 5 knots.
MAX. SIZE: Max. length 160 m. for dry cargo vessels. For tankers, max. length 155 m.
HEALTH: When coming from abroad, vessel will be visited by Health Authorities, who issue free pratique after inspection. When coming from another Brazilian port, free pratique issued in previous port is sufficient. This document must stay on board, to be presented in subsequent ports. In case of sickness on board, after receiving free pratique, must contact Agent who notifies Health Service.
RADIO: For telegrams (radio) direct from vessel to Agent, or vice-versa, Departamento de Correios e Telegrafos radio station in Santos or Florianopolis, with prefixes: Santos PPS, Florianopolis PPF.
TUGS: Tugs service by launch from Pilot Service, and is used only in unmooring (to assist in turning round in front of quay) for vessels more than 100 m. long.
BERTHING: Previous communication required, time of priority based on time of arriving at bar. Length at quay, 703 m., depth alongside 6 m.
CRANES: 1×20 ton mobile crane for containers. 3 other moveable cranes. 2×1.5 ton Portal cranes, 1×3.5 tons, 1×5 ton.

STEVEDORING: When vessel arrives in morning, advisable that Captain advises in advance number of gangs he will need so that Agency can make arrangements.

When discharging dry bulk cargo (grain or salt) trucks with special equipment used.

Average for loading: *(a)* Timber 120 tons/gang day. *(b)* General Cargo 100 tons/gang day. *(c)* Bags and Tobacco 90 tons/gang day.

For discharging: *(a)* General Cargo 100 tons/gang day. *(b)* Bulk 120 tons/gang day.

Hours as follows: 0700 to 1100 hrs.; 1230 to 1630 hrs.; 1900 to 2300 hrs.; 2400 to 0430 hrs.

MEDICAL: In urgent cases, advise Agent requirements in advance. Hospital available. Normally no special vaccination required, nor presentation of certificates.

TANKERS: 5 oil terminals where vessels 155 m. length and 22 ft. draft discharge.

Shell terminal
Fuel oil 10 in. for discharging 8 in. for loading.
Diesel 6 in. for discharging 4 in. for loading.
Gasoline 6 in. for discharging.
Kerosene 6 in. for discharging.

Esso terminal
Fuel oil 8 in. for discharging 4 in. for loading.
Diesel oil 6 in. for discharging 4 in. for loading.
Gasoline 6 in. for discharging.
Kerosene 4 in. for discharging.

Atlantic terminal
Diesel 6 in. for discharging.
Gasoline 6 in. for discharging.
Kerosene 6 in. for discharging.

Ipiranga terminal
Diesel 6 in. for discharging.
Gasoline 6 in. for discharging.
Kerosene 6 in. for discharging.

Heliogas terminal
Gas 6 in. for discharging liquid 4 in. for discharging vapour.

DENSITY: During low tide whole port is influenced by fresh water of River Itajai – Acu, situation changing completely at high tides.

FRESH WATER: Available, supplied direct by hydrants along quay. Average supply 10 t.p.h.

FUEL: See "General" before first port.

DEVELOPMENTS: Two grain silos in port area under construction.

WATCHMEN ON GANGWAY: Not compulsory, but recommended.

OPENING/CLOSING HATCHES: By stevedores.

CUSTOMS ALLOWANCES: Customs can liberate one or two cartons of cigarettes and one or two bottles of spirits, dependant on time vessel remains in port.

IDENTITY CARDS: Foreign crew members not permitted to go ashore without presentation of identity card, on which is a photograph of holder and personal details. These cards are provided by the Agent upon arrival. The identity card must be delivered on disembarkation to the Federal Police who will return it to the crew member on re-embarkation.

CONSUL: Argentine Consulate, Tel. 348.

REPAIRS: Almost all repairs on engines or deck possible.

REPATRIATION: Repatriation, normally made by Agents via Rio de Janeiro and/or Sao Paulo.

AIRPORT: Situated about 10 kilometres from port. Daily regular flights to Sao Paulo, Porto Alegre, and Rio de Janeiro by Varig.

TIME: 2 Mar. – 30 Nov. GMT minus 3 hours. 1 Dec. – 1 Mar. GMT minus 2 hours.

HOLIDAYS: New Year's Day (January 1st); Good Friday; Tiradentes (April 21st); Labour Day (May 1st); Corpus Christi; Proclamation of the Republic (November 15th); Independence Day (September 7th); Christmas Day (December 25th).

POLICE/AMBULANCE/FIRE BRIGADE: Police 312; Ambulance 500; Fire Brigade 339.

TELEPHONES: There are facilities for placing telephones on board.

AUTHORITY: Junta Administrativa do Porto de Itajai.

MACEIO: 09.40 S. 35.45 W.

PORT LIMITS: Limited to the North by the shore, to the South by the mole, to the West by the Atlantic Ocean and to the East by the access mole (09° 41′ S. – 35° 44′ W.). The Marine terminal of Salgema (09° 41′ S. – 35° 46′ W.). is located between the beaches of Trapiche and Ouricuri where can be seen the distinctive cylindrical tanks for storage of the products of Salgema Industrias Quimicas S/A. There is a mole emerging from Trapiche beach extending seawards 145°, for about 1,000 m., and at the end of which is a quay. From the mole and extending Southwards is a submarine pipeline for disposal of residues from the terminal.

The Sugar Institute (IAA) accepts Notice of Readiness only after having been signed by Surveyor to the effect that holds are in all respects ready to receive cargo.

DOCUMENTS: See "General" before first port.

Port Health, Customs and Maritime Police board vessels alongside. However vessels from Eastern bloc countries are boarded at the anchorage.

PILOTAGE: Not compulsory. However, for tankers, propane carriers, nuclear vessels, those carrying explosives and foreign vessels in general, pilotage is compulsory.

A request for a Pilot can be made via the ship's Agent, 12 hours in advance, specifying the time of entry of the vessel, and from which point pilotage is required, via radio station Amaralina (PPA) or Olinda (PPO). The Pilot boards and leaves vessels a quarter mile to the West of the Peixe-Pau buoy and 1 mile from the mole light.

Pilots' Association: Rua Sa e Albuquerque No.467-Room 17, Jaragua-Maceio-AL. Telephone No. 223–2203 and VHF radio on Channels 9, 13 and 16. Listening Channel is 16. Vessels may anchor off Peixe-Pau Buoy in bad weather.

ANCHORAGES: Vessels anchor outside the area marked as "Anchoring forbidden" on the Chart 901 of the DHN.

Quarantine Anchorage: To the seaward of the Peixe-Pau buoy.

Vessels are not permitted to anchor in the port basin.

RESTRICTIONS: Max. permitted speed between the Peixe-Pau Buoy and the port is 6 knots.

No restrictions on length. On approaching the port attention must be paid to the shallows existing to the N.W. of the Peixe-Pau. The average depth is from 10 to 15 m. Vessels may enter day and night. Pilot refuses to berth tankers after nightfall.

MAX. SIZE: Vessels have loaded up to 33 ft. draft.

HEALTH: No Health Authorities board vessel. In event of suspected disease or fever on board, advise Agent by cable so that Port Authority may take appropriate action.

RADIO: Radio Olinda (Recife), call sign PPO. Radio Amaralinha, call sign PPA.

TUGS: One tug available, bollard pull 20 tons.

BERTHING: Berths available day and night, weather permitting.

Sugar Terminal: facilities for loading bulk molasses. Projected loading capacity 1,000 t.p.h. of bulk sugar, 300 t.p.h. molasses.

Sugar wharf: 250 m. length. General cargo wharf 500 m. length. Depth alongside 33 ft.

One quay for loading the products of Salgema Industrias Quimicas S/A (Maritime Terminal of Salgema). This quay is located at the end of a mole some 1,000 m. long starting at Trapiche beach and extending seawards 140° (09° 41′ S. – 35° 46′ W.).

The average depth of water in the port is 10 m., and at the Salgema Terminal 9 m.

In order to be admitted with safety into the port and terminal, vessel's length must not exceed 250 and 157 m., respectively.

The sugar quay has 10 bollards and the general cargo quay 16. At the Salgema Terminal quay, only 1 vessel is berthed at a time.

Cargo Handling Facilities: There are 6 warehouses, 5 being 80×80 m. for general cargo and 1 of 200×50 m. for Demerara sugar.

There is a tank with a capacity of 4,000 cu.m. for alcohol and another for molasses with the same capacity. There is a refrigerated store with a capacity of 200 tonnes.

There is an open storage area covering the whole extension of the general cargo quay measuring 20,400 sq.m.

There are 5 stacker trucks, 4 with a capacity of 2 tons and 1 of 7 tons.

There are 2 mechanical sugar loaders with capacity for shipment of 4,000 bags, and 1 bulk sugar mechanical loader of 1,000 t.p.h. capacity.

There is 1 mechanical grain suction unit with capacity for unloading 100 t.p.h.. There is 1 bulk grain distributor with scales for loading lorries.

STEVEDORES: ETA required 24 hours before arrival to arrange gangs. When work required Saturdays and Sundays, ETA must be sent on Friday. Loading/discharge – General: 8 t.p.h. per gang. Sugar 20 t.p.h. per gang. Grain 60 t.p.h.

CRANES: 4×3.2 ton and 1×6.3 ton capacity electric cranes.

MEDICAL: No advance notice needed except if vessel due to arrive on Saturday/Sunday in order to arrange doctor and/or hospital. Hospital facilities available.

TANKERS: 1 tanker berth. Max. draft 33 ft. 1 pipe-line 8 in. for gasoline and one 6 in. for diesel/kerosene.

FRESH WATER: Fresh water available. Pipe-line from water tower by gravity. Rate about 5 t.p.h. 11 points at the general cargo wharf and 5 at the sugar wharf.

FUEL: Diesel fuel oil and fuel oil 'A' (PPF) is supplied by Esso, Texaco, Shell, Atlantic and Petrobras, by gravity from tanker trucks. The availabilities are minimal, as the storage capacity is small, at times there being no products available. Orders must be placed 24 hours in advance. Also see "General" before first port.

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CUSTOMS ALLOWANCES: One carton cigarettes to be declared. One bottle alcohol, open, to be declared.

IDENTITY CARDS: Foreign Crew members not permitted to go ashore without presentation of Identity Card, on which is a photograph of holder and personal details. These cards are provided by the Agent upon arrival. The Identity Card must be delivered on disembarkation to the Federal Police who will return it to the Crew member on re-embarkation.

CONSULS:

Norway	2276	Portugal	2449
Italy	3302	France	2126
Spain	2640		

REPAIRS: Small repairs only can be effected.

REPATRIATION: Carried out by Recife Consulates.

AIRPORT: Airport at Palmares, distance 30 km. Served by Varig, Vasp and Transbrazil.

TIME: GMT minus 3 hours.

HOLIDAYS: Work prohibited on Labour Day only. Other days on which work is considered overtime and charged as such are: 1st January, Good Friday, 7th September, 15th November and 25th December.

Local Holidays: 16th September and 27th August.

POLICE/AMBULANCE/FIRE: Police 221–5348; Ambulance 241–2288 and 241–1488; Fire Brigade 223–2447 and 193.

TELEPHONES: Telephone on quayside. If telephone required onboard 48 hours notice required.

GENERAL: Prevailing winds: Summer months – N.E. Rainy season – S.E. with strong South winds during July/August/September and strong undertow during August/September.

DEVELOPMENTS: The Salgema marine terminal is being built across the bay. It will consist of a jetty 1,300 m. long. The loading platform will allow 18,000 d.w.t. vessels to load in 11 m. depth.

Loading Caustic Soda	12 in. line 330/350 cu.m./hr.
Ethylene Chloride	10 in. line 330 cu.m./hr.
Ethylene Cryogenic	8 in. line 330 cu.m./hr.

AUTHORITY: Delegacia de Capitania de Porto.

MANAUS: 03.08 S. 60.00 W.

DOCUMENTS: See "General" before first port.
PILOTAGE: Pilots join vessel at Belem and make the round voyage back to Belem. Vessels entering via North Channel take a Pilot at Santana. No Pilots from Barra Norte to Santana.
ANCHORAGES: Suitable places can be indicated by the Pilot.

Anchorage for vessels over 3,000 g.r.t. Lat. 03° 09′ 00″ S. Long. 60° 01′ 48″ W.

Anchorage for vessels of less than 3,000 g.r.t. Lat. 03° 09′ 00″ S. Long. 60° 02′ 12″ W.

Vessels impounded or requiring considerable repairs Lat. 03° 08′ 30″ S. Long. 60° 02′ 30″ W.

Vessels in quarantine Lat. 03° 08′ 48″ S. Long. 59° 55′ 48″ W.
RESTRICTIONS: Passage across Barra Norte to be made at high water only. Berthing and unberthing preferably takes place at Manaus in daylight.
MAX. SIZE: Entry to the Amazon via the North Channel; max. draft 30 ft. Via Belem; draft 29 ft. with a length up to 175 m. and draft 24 ft. with a length up to 210 m.
HEALTH: See "General" before first port. All ships must be visited by Port Health Inspector. If vessel has passengers in transit for another Brazilian port, another visit will be required at port where passengers disembark. If ship's health condition satisfactory, Inspector will give free pratique immediately. Radio pratique available if Master able declare satisfactory health condition before arrival. Free pratique is valid for subsequent ports in Brazil.

If there is a crew member to be hospitalised, the Health Inspector will issue pass to hospital on request of Master or Agent who will be made responsible for all expenses incurred.

Inoculations for International Certificates can only be given by an employee of the Port Health Authority.
RADIO: Salinopolis Radio or Rio Radio. There is also Barbados Radio Station at Belem.
TUGS: Agents provide mooring launches.
BERTHING: Arranged by Agent who asks permission from local Port Authorities to provide a berth. All berths suitable for vessels able to navigate the river.

Two floating stages in "T" jetty form.

Easterly stage 272 m. long. Floating roadway 252 m.

There are 3 cranes on this stage.

Westerly stage 275 m. long. Floating roadway. No cranes.

Water depth 35 m. at both stages.

Warping buoys must be used when leaving stages as there are no tugs.

A third stage is planned.

A stone jetty 500 m. long will shortly be available for year round operations, when it has been fitted with Portal cranes.

Moageria Berth: Used for the discharge of bulk grain, one tube, rate 30 t.p.h.
CRANES: Ten fixed electric cranes with capacity 1.5–7.0 tons. Three mobile cranes, capacity 4, 6 and 15 tons.
STEVEDORES: Available.
MEDICAL: Doctors and hospital facilities available.
TANKERS: *Copam Refinery Berth:* A floating pontoon with buoy moorings ahead and astern. Vessel berths starboard side to, using port anchor.

Facilities for crude discharge. Products only loaded. No dirty ballast facilities.

No. 1 Terminal: Vessel lies to 4 buoys, and picks up a floating line, normally attached to the bank. Available for products only.
DENSITY: Fresh water.
FRESH WATER: Not suitable for drinking purposes.
FUEL: Bunker C and Diesel. Available ex-barge or at the terminal. Also see "General" before first port.
IDENTIFICATION CARDS: Required.
GANGWAY/DECK WATCHMEN: Compulsory.
OPENING/CLOSING HATCHES: Performed by stevedores.
CUSTOMS ALLOWANCES: 200 cigarettes per man. Only normal daily consumption wine/spirits allowed.
CONSULS: Following countries are represented at Manaus:

U.S.A.
Japan
Peru
Colombia
Bolivia
Venezuela
Uruguay
Italy
Belgium
France
Netherlands
Spain
Great Britain
Portugal
Denmark

REPAIRS: Very limited facilities available.
REPATRIATION: Can be arranged.
AIRPORT: Regular daily international flights from Manaus Airport.
TIME: GMT minus 5 hours.
HOLIDAYS: 1st January; 1st May; 29th June; 7th September; 8th December; 25th December; 31st December.
POLICE/FIRE/AMBULANCE: Civil Police tel. 22113; Maritime Police 22315; Fire 21155; Ambulance 21112.
TELEPHONES: Arrangements can be made for telephone connections on board.
SHORE LEAVE: Allowed.
AUTHORITY: Administracao do Porto de Manaus.

NATAL: 05.47 S. 35.12 W.

Port situated on East bank of Potengi River, 2 miles from sea.
DOCUMENTS: See "General" before first.
APPROACHES: Reefs at river mouth form natural breakwater. Entrance channel 200 yards wide with sharp bends.
PILOTAGE: Arranged by Agents who require at least 12 hours notice of ETA. Pilot boards at Outer Roads.
ANCHORAGES: The following are the zones for vessels anchoring prior to entering port;

Anchorage for vessels more than 3,000 g.r.t. – between the access channel and the right bank of the Rio Potengi, from 05° 46′ S., along an extension of 800 m. to the North.

Vessels impounded or requiring considerable repairs – same anchorage as for vessels over 3,000 g.r.t.

Anchorage for vessels up to 3,000 g.r.t. – facing the launch embarkation point at the end of the Rua Tavares de Lira, and to 150 m. along the right bank of the Rio Potengi.

Vessels in quarantine within a radius of quarter of a mile around a point half a mile to the South of the waiting point for the Pilot.
RESTRICTIONS: High water depth at bar 24 ft. to 26 ft., varies with tide and wind.
MANOEUVRING: The area intended for manoeuvring when coming alongside or leaving the port has a width of 300 m. along the whole length of the quay.

In this area and in the access channel anchoring is strictly prohibited except with the prior permission of the Port Captaincy.
MAX. SIZE: Length 520 ft., draft up to 23 ft. 6 in. at spring tides.
HEALTH: Official visit made on vessel's arrival if between 0700 and 1900 hrs. Visits can be arranged at other times.

The inspection area of the Port Health Federal Receipt and Maritime Police authorities is 04° 45′ 06″ S. and 35° 11′ 15″ W.
TUGS: Not available.
BERTHING: Quay length 1,312 ft. Wharf equipped with four 5-ton mobile steam cranes. Depth 24–25 ft.
CRANES: Two 1.5 ton cranes. Two portable tubes for wheat discharge at 10 t.p.h. each.
LOADING: When loading sugar bags, only canvas-bottomed slings to be used. Shippers will not permit loading with ordinary rope slings. Suitable slings can be hired from shore. Six slings required for each working gang.
TANKERS: Oil berth suitable for vessels up to 520 ft. length.
CUSTOMS ALLOWANCES: One opened bottle spirits and 200 cigarettes per crew member per week.
FRESH WATER: Available at the wharf, rate about 18 t.p.h.
FUEL: Available, delivery by road tanker, rate 32 t.p.h. Also see "General" before first port.
CONSULS: France, Italy, Lebanon, Portugal and Spain.
TELEPHONES: None available for installation aboard ship.
REPAIRS: There is a Naval Base at Natal, which apart from providing service to naval vessels, also deals with merchant vessels requiring repairs. The Base has seven departments, Mechanical, Naval Carpentry, Electricity, Electronics, Sails, and Painting, and a Docking System comprising two floating docks and one office ship. The Goias Dock has a capacity for vessels up to 1,000 tons and 4.80 m. draft. There is a ballasting service.

The City of Natal Dock has a capacity for vessels up to 2,800 tons and 5.80 m. draft.

Apart from other facilities, the Base has maintenance, refrigeration and kitchen services, which can be placed at the disposal of vessels during repairs to their own installations.
AUTHORITY: Port Administration and Harbour Master.

PARANAGUA: 25.30 S. 48.30 W.

(★) Indicates information received from a ship's Agent.

DOCUMENTS: Also see "General" before first port.
Documents for clearance inwards of foreign vessels:
a) Certificate of registration.
b) Classification document for the vessel in the port of registration.
c) International Load Line certificate.
d) Safety certificate for passenger vessels or Safety construction certificate for cargo vessels.
e) Safety equipment certificate for cargo vessels.
f) Safety certificate for radio-telegraphy or radio-telephony on cargo vessels.
g) Exemption certificate, in respect of the foregoing certificates, where applicable.
h) Safety certificate for nuclear vessels.
i) Certificate or other financial guarantee in respect of the International Convention governing Civil Responsibility in Damage caused by Oil Pollution, 1969.
Federal Receipt and Port Health Clearance.
Bill of Lading for postal purposes, where the vessel carries mail.
Copy of the payment docket in respect of the tariff for using lighthouses.
Crew list.
Written declaration from Master or Owner stating name and address of legal representative in the port.
Cargo manifest.

National Vessels:
(1) Up to date equipment roll, accompanied by extra-roll licences and those for extra tonnage.
(2) List of Crew members in duplicate.
(3) Inscription and Registration Pass Book (CIR) or pass books of personal inscription (CIP), for verification as deemed necessary;
(4) List of passengers;
(5) Load Capacity Sheet, for checking the categories of Crew members taken on board and checking the functions effected corresponding to the upper category;

(6) Cargo manifest;
(7) Terms of Inspection in dry dock and afloat or Certificate of Regularisation of the vessel;
(8) Provision of Register of the Maritime Tribunal, with statement of the name of the Master and his category or Document of Registration (CP-1);
(9) Ship's Log.
(10) Certificate of authorisation of the vessel's line or of extraordinary voyage, issued by the Superintendency of the National Mercantile Marine (SUNAMAM), except for "tramp" vessels.
(11) Certificate of Safety of Passenger vessels, for deep sea vessels and long distance coasting;
(12) Certificate of Safety of Construction of cargo vessels, for deep sea vessels and long distance coasting;
(13) Certificate of Safety Equipment on cargo vessels for deep sea vessels and coasters;
(14) Certificate of Safety of radio telegraphy and radio-telephony on cargo vessels, deep sea and coasting vessels;
(15) Certificate of Exemption, corresponding to the certificates mentioned above;
(16) Freeboard Certificate.
(17) Certificate or other financial guarantee corresponding to the International Convention covering Civil Responsibility for Damages caused by Oil Pollution, 1969;
(18) Passes issued by the Delegation of Federal Receipt (Customs), Port Health, Federal Police and Postal Authorities when the vessel carries mail bags (only for vessels destined for foreign countries);
(19) List of relatives of the Master and the Crew;
(20) Authentic Xerox copy of the last payment form of pension contributions to the INPS or FUNRURAL, paid by the Charterer or Owner;
(21) Certificate of Tonnage or tonnage calculation notes.

(★) *Documents required on arrival and amount of each:*

PILOTAGE: Compulsory in Paranagua Bay from the waiting area of Galheta Channel (circular area of 1.5′ radius, the centre of which corresponds to buoy No. 01 in position 25° 37′ 19″ S. and 48° 16′ 17″ W.) and from the waiting area of the South East channel (circular area of 1.5′ radius, the centre of which corresponds to waiting buoy 25° 35′ 30″ S. and 48° 14′ 47″ W.) up to any mooring point or anchorage area.

Pilotage not necessary for vessels of less than 200 tons.

Pilotage can be requested via the Ship's Agent, four hours in advance, stating time of entry or departure of vessel. Vessels approaching Paranagua should contact Paranagua Radio, Channel 16 VHF, two hours prior to arrival in the Pilot waiting area.

The Pilots' Association maintains permanent watch on Channel 16 VHF, passing traffic on Channels 10 and 13 VHF. (Tel. 422-0530, 422-1560 and 422-1570). The greatest restriction for Pilots is the condition of the sea, which in Galheta Channel, with the sea above force 4 – makes the passage of the pilot cutter difficult.

ANCHORAGE: Vessels must anchor in the areas circumscribed by the coordinate points mentioned below:

(a) Area "A" intended for vessels of less than 180 m. in length and a draft of less than 9.45 m. = 31 ft.

Point	*Latitude South*	*Longitude West*
A1	25° 29′ 32″	48° 31′ 28″
A2	25° 29′ 51″	48° 31′ 28″
A3	25° 30′ 01″	48° 33′ 31″
A4	25° 29′ 40″	48° 33′ 31″

(b) Area "B" and Area "C" intended for LASH type vessels, vessels of a length exceeding 180 m., in quarantine, and operating with explosives (when necessary).

Point	*Latitude South*	*Longitude West*
B1	25° 29′ 08″	48° 26′ 17″
B2	25° 29′ 30″	48° 26′ 17″
B3	25° 29′ 34″	48° 29′ 43″
B4	25° 29′ 10″	48° 29′ 43″
C1	25° 29′ 45″	48° 26′ 14″
C2	25° 30′ 10″	48° 26′ 14″
C3	25° 29′ 46″	48° 27′ 10″
C4	25° 30′ 07″	48° 27′ 10″

(c) Area "D" intended for vessels to be subjected to Health inspection by the Port health Inspectorate or authorised body.

Point	*Latitude South*	*Longitude West*
D1	25° 29′ 46″	48° 27′ 10″
D2	25° 30′ 07″	48° 27′ 10″
D3	25° 29′ 48″	48° 28′ 00″
D4	25° 30′ 03″	48° 28′ 00″

(d) Area "E" anchorage for the port of Antonina.

Point	*Latitude South*	*Longitude West*
E1	25° 28′ 34″	48° 37′ 41″
E2	25° 28′ 51″	48° 37′ 41″
E3	25° 28′ 30″	48° 38′ 37″
E4	25° 28′ 47″	48° 38′ 37″

RESTRICTIONS: The access channels – Galheta and South East are marked on charts 1821, 1822 of the National Brazilian Hydrographical Dept; the Galheta Channel, normally used, is dredged to a depth of 11.28 m. (37 ft.) with a width of 200 m., and a length of 12 miles. The critical points of the channel are between the pairs of buoys 3–4 and 7–8, where there are currents running across the channel, and with a heavy sea, waves break making the departure of pilot cutters difficult. In the S.E. Channel, the depth varies from 7.62 (25 ft.) to 6.4 m. (21 ft.)

Tides: There is a difference of approximately two hours between the tide in the port and at the bar.

(★) *HARBOUR MASTER DIRECTIVE NO. 005 of 14th FEBRUARY, 1979.*

Official drafts as from 14th February, 1979:

Galheta Channel	High tide: 37 ft. (11.28 m.)
	Low tide 33 ft. (10.06 m.)
†Sheds 1, 2, 3, 4, 5, 6, 7, 10 and 11	High tide: 31 ft. (09.45 m.)
	Low tide: 27 ft. (08.23 m.)
‡Sheds 12, 13 and 14	High tide: 37 ft. (11.28 m.)
	Low tide: 33 ft. (10.06 m.)
Sheds 8 and 9	High tide: 28 ft. (08.53 m.)
	Low tide: 25 ft. (08.62 m.)

(†) Use of Pontoons is recommended for vessels with more than 25 ft.
(‡) Use of Pontoons is compulsory.

Inflammable Pier –	Outside Pier	31 ft. (09.45 m.)
	Inside Pier	26 ft. (07.92 m.)
	Propane Pier	19 ft. (05.79 m.)

Restrictions: Manoeuvres Inside Pier only allowed during daylight and at beginning of the ebbing tide. Max. length of vessels: 185 m.

Manoeuvres at Propane Pier only allowed during daylight. Max. length: 145 m.

MAX. SIZE: Max. beam 164 m. Also see "Restrictions".

HEALTH: Authorities visit vessels at the anchorage.

(★) *Note:* Compulsory Sanitary Inspection, prior to docking, is carried out at special anchorage, for vessels proceeding direct from the following countries: U.S.A., Mexico, all Central America, Trinidad, Colombia, Venezuela, Guyana, Suriname, French Guyana, all African countries, all Asiatic Countries, Australia, Polynesia.

Special areas are provided for vessels according to their lengths and drafts. Also for Sanitary Inspection special areas are provided in the vicinities of Ilha das Cobras (Cobras Island).

RADIO: Paranagua Radio, call sign PPG. VHF Channels 24, 25, 26 and 27 for vessels navigating close to the port.

TUGS: 2 private tugs owned by Wilson Sons S.A.: 1 of 1,200 h.p. and 1 of 1,680 h.p.

BERTHING: In Section "A" vessels with a draft exceeding 9.45 m. (31ft.) may only manoeuvre with the aid of a minimum of two (2) tugs. Vessels with a draft over 31 ft. may only manoeuvre when the current is not very strong, and with a draft exceeding 33 ft., close to full tide, always with the aid of two (2) tugs.

At the berths in Section "B", it is obligatory for vessels with draft of over 27 ft. to use pontoons. At the berths in Section "C" it is advisable to use pontoons for vessels with draft of over 25 ft.

At the inflammable quay, manoeuvres may only take place with the aid of a minimum of two (2) tugs. On the leeward side of the inflammable pier, and at the propane carrier pier, manoeuvres may only be made during daylight.

In order to prevent accidents during berthing, unberthing and movement of vessels along the quay, the following stipulations are made:

All port equipment must be withdrawn, such as cranes, loading towers, wagons and anything which may interfere with the manoeuvres of berthing, unberthing and movement of vessels along the quay.

If the maximum distance between 2 mooring bollards is 50 m., vessels may move along the quay without the aid of tugs. If distance between bollards is greater, tugs are required.

Traffic in Port:

(a) No crossing or overtaking is permitted by vessels in the access channel if visibility is less than 2 miles.
(b) Crossing or overtaking is not permitted when one of the vessels has a draft exceeding 7.92 m. (26 ft.), between pairs of buoys 1–2 and 13–14. The vessel which has the current running at its stern, in this event, has preference in the manoeuvre, the other vessel being required to wait for it to pass.

Stay in Port:

After completion of operations, vessels must unberth within 1 hour, except where request has been made previously to the Port Administration.

Manoeuvring Area:

The manoeuvring areas for vessels has a width of 700 m. along the whole length of the quay with a depth varying between 8 and 12 m.

(★) ***Pier Facilities:*** The length of the commercial docks is 6,910 ft. Normally 12 to 14 vessels can dock, depending on their sizes. Vessels can berth at either side, depending on the tidal current prevailing at the time.

The width of the apron is from 52 to 75 ft.
Height of pier deck above Low Water: 9.8 ft.
Height of pier deck above High Water: 4.9 ft.
The following is an index of suitable piers:

Number	*Name*	*Depth Alongside*
1. Grain Berth	APPA Vertical Silo	HW 31 ft. LW 27 ft.
2. Grain berth	Soccepar Silo	HW 31 ft. LW 27 ft.

3. General cargo	A.P.P.A.	HW 31 ft. LW 27 ft.
4. Grain berth	Gransol Silo	HW 31 ft. LW 27 ft.
5. General cargo	A.P.P.A.	HW 31 ft. LW 27 ft.
6. Grain berth	Sanbra Silo	HW 31 ft. LW 27 ft.
7. General cargo	A.P.P.A.	HW 31 ft. LW 27 ft.
8 and 9. General cargo	A.P.P.A.	HW 28 ft. LW 25 ft.
10 and 11. General cargo	A.P.P.A.	HW 31 ft. LW 27 ft.
11A. Fertilizer berth	Patio A.P.P.A.	HW 31 ft. LW 27 ft.
12. Grain berth	Cargill Silo	HW 37 ft. LW 33 ft.
13. Grain berth	Export Corridor	HW 37 ft. LW 33 ft.
14. Container berth	A.P.P.A.	HW 37 ft. LW 33 ft.

Berthing:

a. Tugs available: 'Polaris' 1,600 h.p.
'Mercurius' 1,200 h.p.

b. Method of making fast: every 82 to 98 ft., on the quay, there are bollards and vessels use wire or manilla ropes to make fast.

c. Currents at the dock: Spring tide High 1.46 knots.
Low 1.75 knots.
Neap tide High 0.78 knots.
Low 0.78 knots.

d. Fenders available only at Pier No. 12. The Port Administration has 4 floats (pontoons) to breast vessels out of quay 16 ft. 5 in.

e. 5 passengers launches available. Capacity of each: 30 passengers.

f. Use of turning basin is necessary for anchoring or for manoeuvring vessel for berthing.

Information of Interest:

a. No problems likely in docking/holding alongside due to weather, swells, wind, etc.

b. Gangway watchmen: A gangway watchman is provided on a 24 hours basis, compulsory during loading/discharging operations.

c. Shore gangway unavailable.

d. Vessels dock according to tide. When ebbing they dock port side to; when flooding, starboard side to.

CARGO HANDLING EQUIPMENT:

Cranes: 21 jib cranes on rails, capacities 1.5, 3, 5, 10 and 12 tons. One wheeled (Lorain) crane, capacity 136 tons.

Stacker Trucks: 6×7 tons, 10×5 tons, 17×3.7 tons, 24×2.5 tons and 6×2 tons.

Rolling Bridges: 3×1.5 t.p.h. (2 at Warehouse No. 8 and one at the cold store).

Side Loaders: 2×36 tons (for containers).

Suction Units: 2 fixed in the vertical silo (Warehouse No. 1). Rate 60 t.p.h. each.

There are no Ro/Ro facilities, barges, lighters, workboats or pontoons.

BULK HANDLING FACILITIES:

Cargill (Berth 12): One loading tower of 500 t.p.h., movable over a distance of 150 m., capacity 20,000 tons (horizontal silo). Also capacity for 3,000 tons of bulk oil with capacity of 150 t.p.h.

Sanbra (Berth 6): At warehouses 6, 6a and 6b. 2 fixed loading towers, each 100 t.p.h., capacity 12,000 tons. Also two slightly movable elevators, with a total loading capacity of about 100 tons.

At the same berth there is a loading tower, movable over 180 m., with a loading capacity of 500 t.p.h. which is connected to a silo of 60,000 tons.

Gransol (Berth 4): At warehouses 4 and 5. One loading tower, 400 t.p.h., movable over a distance of 150 m. and one fixed, loading rate 100 t.p.h. Storage capacity 10,000 tons. 2×12.5 ton portal cranes for containers at Shed 5.

Socopar (Berth 2): One loading tower, 300 t.p.h., movable over 110 m. Storage capacity 64,000 tons.

Port Silo (Berth 1): (Operated by the Port Administration) one loading tower, 300 t.p.h., movable over 150 m. Storage capacity 10,000 tons.

Cargill and Sanbra can handle vessels loading to 42 ft. by using pontoons. Other installations, even with the use of pontoons, can only handle vessels loading to 30 ft.

The new grain terminal at warehouse No. 13 with capacity of 164,000 tons and 2 loading towers, movable over 200 m., loading capacity 1,500 t.p.h. each. There are two additional vertical silos each with capacity of 110,000 tons.

(★) *Liquid Bulk:* Liquid bulk cargoes consist mostly of soya bean, castor, peanut and cotton seed oil. Messrs. Cargill have their own storage tanks and a loading installation capable of delivering 200 t.p.h. All other shippers effect their shipments through portable pumps connected to tank-trucks. Loading capabilities of portable pumps: 30/50/80 and 100 t.p.h. Shippers provide the pumps and hoses and particulars are:

Hoses: Lengths 32, 50 and 100 ft. Diameters 2 and 4 in.

STEVEDORES: *Working Hours:* Daywork: 0700–1100 and 1300–1700, extension possible 1100–1300 and 1700–1900.

Nightwork: 1900–2300, 0000–0400, meal hour 2300–0000. Extension possible 2300–2400 and 0400–0600.

Same working hours are valid for Sundays and holidays with 20%–100% surcharge.

MEDICAL: All facilities available. Crew members should hold valid International smallpox inoculation certificates.

TANKERS: 2 berths, length 185 m. (outside) and 174 m. (inside). Depth alongside 9.0–11.0 m. Bollards 46 m. apart. ((★) Max. drafts 31 ft. and 26 ft. respectively).

Propane Quay: Length 142 m., depth 5.79 m. Bollards 46 m. apart.

Dirty Ballast: Petrobras Terminal has tanks (capacity 4,500 cu.m.) for dirty ballast and contaminated oil. At Commercial Quay collected free of charge by road tankers.

DENSITY: Salt water at entrance of the bar. Brackish water inside the Bay, which varies with the tides: At HW: between 1013 and 1024. At LW: between 1012 and 1013.

FRESH WATER: 47 hydrants at 45 m. intervals available along the quays, rate 27 t.p.h. No water barges available.

FUEL: Fuel-oil and diesel available, rate of supply of diesel – 150 to 200 t.p.h.; mixing unit (marine fuel) installed on pier. Currently, the supply of bunker and diesel is made by private dumb barge (Empresa Transportadora Maritime Estrela Lda), with a load capacity of 300 tons. 24 hours advance notice of requirements needed.

FIRE PRECAUTIONS: *Fire fighting facilities:* 4 conventional fire-fighting tenders. 1 chemical spraying vehicle.

REPAIRS: Small structural and machinery repairs possible in the port. 3 firms available.

DRY DOCKS: None.

SURVEYORS: Principal classification societies are represented in the town:

Lloyd's Register of Shipping;
Lloyd's of London;
American Bureau of Shipping;
Bureau Veritas;
A.B.S. Worldwide Technical Services;
Nippon Kaiji Kiokai;
Registro Italiano Navale;
Germanischer Lloyd;
Det Norske Veritas;
Brazil Salvage S.A.

GANGWAY/DECK WATCHMEN: At least 1 watchman is compulsory on board every vessel alongside 24 hours per day.

OPENING/CLOSING HATCHES: By stevedores.

AIRPORT: Curitiba, 80 km. from the port for national connections. Paranagua, for medium distance carriers. Air taxi service also available.

TIME: Local time 3 hours behind G.M.T.

HOLIDAYS: National: 1st January; 21st April; 1st May; 7th September; 2nd November; 15th November and 25th December. Local: 29th July.

POLICE/AMBULANCE/FIRE: Civil Police 422-0101 and 422-0172. First aid 422-0111. Fire 193.

CONSULS: *In Paranagua:*

Consulate General for the U.S.A. – Main office in Sao Paulo, Rua Padre Joao Manoel, 20 Tel: 37-5574.

REPATRIATION: Possible.

TELEPHONES: Request for installation should be made to the Traffic Section of the Port Administration.

SERVICES: Cleaning services available. Electronic repairs possible. Rubbish collected daily. Deratting service available. Divers available.

SHORE LEAVE: No restrictions.

IDENTIFICATION CARDS: I.D. Card, Seamans Book or passport sufficient.

DELAYS: Normally no delays.

GENERAL:

(★) *Preferential Docking:* Port Administration regulations for Preferential Docking are as follows:

1. Preferential docking is granted to vessels operating with cereals and meats in bulk at the following berths equipped with special mechanical installations:

Berth 1 – Vertical Silo, belonging to Port Administration
Berth 2 – Vertical Silo, belonging to Soceppar
Berth 4/5 – Horizontal Silo, belonging to Gransol
Berth 6 – Horizontal Silo, belonging to Sanbra
Berth 12 – Horizontal Silo, belonging to Cargill
Berth 13 – Horizontal Silo, belonging to Port Administration

2. Preferential docking is granted to vessels discharging solid bulk cargoes (fertilisers, salt, minerals) using shore cranes and grabs at berth 11. Upon arrival of such vessels, should this berth be occupied, they may dock at any other berth, shifting to berth 11 when it becomes available and only if Port Administration feel this necessary.

3. Preferential docking is granted to vessels operating exclusively with containers at berth 14.

4. Preferential docking is granted to vessels operating exclusively with liquid gas and liquid bulk cargoes at the special inflammable berths.

5. For vessels operating general cargo, docking will be granted at any berth according to time of arrival and in compliance with above mentioned preferential dockings.

6. When a general cargo vessel docks at any preferential berth, this will be done on a conditional basis, having to vacate this berth upon arrival of any other vessel with preferential docking for that particular berth, provided there is another berth available. All expenses due to shifting will have to be paid by the interested party.

7. Any vessels operating bulk and general cargo and docked at preferential berth will have to vacate this berth upon completion of loading/discharging the cargo, giving right to a preferential docking, if and whenever another vessel with the same rights should be awaiting this berth but only according to clause 6.

a) Vessels docked at a preferential berth for a specific cargo may load/discharge simultaneously any other cargo provided this does not interfere or prejudice the loading of that specific cargo.

b) All vessels have a right to a maximum of three loading berths being allowed to shift from one berth to another without losing their priority and will do so according to clause 6.

8. All vessels are entitled to up to three dockings.

a) Only under special circumstances duly justified and only with the Port Administration consent may a vessel dock more than the times established in item 8.

9. A vessel may only dock when its cargo is ready for shipment and port dues (export/import) are duly paid for up to the following percentages:

a) General and bulk cargo:

1. Up to 50% of declared general cargo.
2. Up to 50% of cargo declared at each loading berth.
3. For the specific case of coffee the following percentages will be observed, duly verified by I.B.C. (Brazilian Coffee Institute):

Up to 5,000 bags coffee declared 100%
Up to 10,000 bags coffee declared 50%
Up to 20,000 bags coffee declared 35%
Up to 30,000 bags coffee declared 30%
Up to 50,000 bags coffee declared 25%
Up to 100,000 bags coffee declared 20%
Over 100,000 bags coffee declared 15%

For vessels arriving and initiating operations on a Monday morning or the day following a holiday, docking will be granted on a conditional basis, providing she has a minimum of 2,000 bags of coffee ready for immediate operation and if by 11.00 hours she did not fulfil above mentioned percentages she will have to undock having to cope with all expenses and placed at the end of the line of vessels awaiting a berth.

b) Above mentioned percentages may be altered by the Port Administration at any moment and at their discretion.

c) So as to be able to comply with mentioned rules, all agencies must declare, without forfeit, to the Port Administration when requesting normal docking or with priority, vessel's complete bookings.

d) Any vessels not maintaining normal loading/discharging rates will be forced to undock taking last place in line of vessels awaiting berth.

10. After load/discharge operations are completed, any auxiliary operations will have to be carried out at anchor unless duly authorised by Port Administration.

11. In order to provide proper service for vessel's discharge, all agencies are obliged to hand over to Port Administration vessel's cargo manifest and a non-negotiable copy of all bills of lading, as well as furnishing time of arrival and any alteration of same.

12. Any vessels undocking voluntarily due to lack of cargo will maintain first place in line of vessels awaiting berth.

AUTHORITY: Capitania dos Portos do Estado do Parana. Administracao dos Portos de Paranagua e Antonina.

PORTO ALEGRE: 30.05 S. 51.15 W.

This information does not apply to Tramandai Oil Terminal which is listed separately.

DOCUMENTS: See "General" before first port.

PILOTAGE: Porto Alegre is situated 164 miles up the Lagoa dos Patos, a large freshwater lake, and vessels must take on a Pilot after receiving pratique at Rio Grande, which lies at sea entrance of lake. Pilot and authorities board after arrival at Rio Grande inner anchorage. Pilots arranged by Agent upon receipt of vessel's radioed ETA via Rio Grande Radio (PPJ). Since 40-mile channel between Rio Grande and Lagoa dos Patos is unlit, vessels should proceed from Rio Grande only by daylight, allowing 3 hours to negotiate channel. Vessels over 12 knots may leave Rio Grande for Porto Alegre not later than 1700 hrs. in Summer, or 1500 hrs. in Winter. Vessels under 12 knots not later than 1600 hrs. in Summer or 1400 hrs. in Winter. Entry must be made to Rio Grande at least 3 hours before these times to allow for clearance.

RESTRICTIONS: Vessels approaching Porto Alegre from the Lagoa should do so only by daylight since 30 miles access channel leading from the Lagoa to Porto Alegre poorly lit. If necessary, vessels should anchor off Itapoan Lighthouse at head of the Lagoa, to await daylight before proceeding. On arrival at Porto Alegre, free pratique must again be obtained, and crew lists, store lists, etc., again presented to authorities, who usually visit vessel in berth alongside.

MAX. SIZE: Not recommended that vessel of more than 215 m. LOA attempt to reach Porto Alegre. Max. safe draft from mid-April to mid-October is 17 ft. and from mid-October to mid-April, 16 ft. 6 in.

ANCHORAGES: Inner harbour. Not normally used unless port congested. If vessels are too late for transit they must anchor at either end of the lagoon overnight.

HEALTH: Vessels receive clearance on passing Rio Grande. No yellow flag required. Also see "General" before first port.

RADIO: All messages should be routed via Rio Grande Radio (PPJ).

TUGS: Only small low-powered tugs available. These normally used for unberthing only. Ships' lines normally used. The 4 tugs are 220, 250, 280 and 320 h.p.

BRIDGES: Vessels proceeding up-river from Porto Alegre to oil berth must pass under bridge with lifting-span. Span is lifted when approaching vessel sounds prolonged blast on siren.

BERTHING: The berths are on the East bank of the river, and the jetties stretch over a distance of 8 km.

Maua Quays: Berths "A", "A1" to "A7" and "B", "B1" to "B7". Length, 1,482 m. Depth 18 ft.

Navegante Docks: 2,433 m. long.

Cesa Grain Berth: 2 belts loading rate 100 t.p.h. each. 3 grain elevators, rate 100 t.p.h. each.

Between Maua and Navegante there are several small jetties but none capable of handling ocean-going vessels.

CRANES: *Maua Quays:* Eleven 3 ton portals, two 6.25 ton cranes, four 3 ton portals (Narrow gauge).

There are no cranes available at Navegante Docks.

STEVEDORES: *Working Hours:* 0730–1130, 1300–1700. Overtime 1700–1900, 1900–2300 and 0000–0400 hrs.

MEDICAL: Full facilities available. Crew members should hold valid international smallpox inoculation certificates.

TANKERS: Proceed to oil and LPG berths on Gravatai River for discharge. These berths accessible only to small tankers of up to 1,600 d.w.t. Refer to "Tramandai".

DENSITY: Fresh water at all times, unaffected by tides.

FUEL: Available, delivered by road tanker. Also see "General" before first port.

GANGWAY/DECK WATCHMEN: Vessels at anchor and alongside must have a watchman.

OPENING/CLOSING HATCHES: Usually done by stevedores.

CUSTOMS ALLOWANCE: Each crew member allowed to keep out of bond 1 carton of cigarettes and 1 bottle of wine or spirits.

FRESH WATER: Available from hydrants at all berths. Delivery rate up to 25 t.p.h.

IDENTIFICATION CARDS: Necessary.

CONSULS:

British
German
French
Spanish
Belgium
Danish
Italian
Norwegian
Swedish

REPAIRS: All light deck and engine-room repairs possible. No dry-docking facilities available except for small vessels of up to 300 ft. LOA.

TELEPHONES: Connections available from warehouses A, A2, A4, A6, B, B2, O, O2 and D4.

DEVELOPMENTS: 2 new dredgers are being used to deepen the channels leading to Porto Alegre, permitting a working draft Rio Grande/Porto Alegre of 20 ft.

A new grain elevator with a capacity of 60,000 tons is expected to be ready shortly.

AUTHORITY: Port Captain.

PORTOCEL: 19.51 S. 40.03 W.

Port under construction.

PILOTAGE: See "Vitoria".

APPROACHES: *Access Channel:* Length 400 m., width 150 m., depth 11.0 m. Max. tidal variation 1.8 m.

Manoeuvring area: The manoeuvring basin is marked with buoys. Radius of turning basin 176 m., depth 11.0 m., depth in mooring basin 11.0 m.

Only 1 vessel at a time may navigate the channel.

TUGS: From Vitoria initially, but 2 tugs available later.

BERTHING: Length of quay 230 m., depth 11.0 m.

FRESH WATER: Available.

REPAIRS: No facilities.

MEDICAL: Hospitals at Vitoria and Aracruz.

AIRPORT: At Vitoria.

RECIFE (Pernambuco): 08.04 S. 34.52 W.

(See Plan Book)

PORT LIMITS: West of Longitude 34° 50′ W. and between Latitudes 08° 00′ S. and 08° 07′ S.

DOCUMENTS: Most of the documents required by the local authorities are presented by the vessel's Agents after arrival.

Master must have on hand, on arrival the following documents:

7 Crew lists.
1 International Health Declaration completed and signed.
Clearance from last port of call.
Manifests of the cargo to be discharged.
Copies of bills of lading of the cargo to be discharged.

PILOTAGE: Compulsory. Pilots board the vessel at Southern end of Banco Ingles, at approximate position Lat. 08° 05′ S., Long. 34° 50′ W. Vessels must give accurate ETA to their Agents, not to the Pilot

Association, however when within VHF range, vessel should communicate with the Pilot Association, if no instructions have been received from the Agents or the Pilot does not board upon arrival.

ANCHORAGES: Most favourable position for ships to await pilot boat is 1.5 miles in direction 303° from "Picao", also just outside the 6 fathom line. In fine weather ships can sail to a position 8 cables from "Picao" in same direction just South of buoy. Anchorage in fine weather between above-mentioned places; in bad weather more than 1.5 miles in direction 303° from "Picao" and North and South of line, in water of 7 and 8 fathoms depth.

RESTRICTIONS: Vessels only enter port at night in cases of necessity. 3 ft. under keel clearance required when heavy swell running.

The port is situated between 2 channels, 1 to the North, the other to the South, which are the main fairways of the port. The Southern channel is 850 ft. wide by 32 ft. 6 in. deep and the Northern channel is 32 ft. deep but with variable width.

Tankers: May enter and leave during daylight hours only (0500–1800 hrs.). Also see "Tankers".

MAX. SIZE: Vessels 220 m. in length can enter, max. draft 31 ft. Also see "Tankers".

HEALTH: Free pratique is granted by radio at any time, day or night. Masters must radio to "Saporto Recife", informing sanitary conditions of the vessel, reporting any case of sickness and requesting free pratique.

RADIO: A very powerful radio station "PPO"-Olinda Radio now available, operating on radiotelephony and radiotelegraphy, with VHF and HF in all maritime frequencies.

RADAR: No facilities available.

TUGS: Pilot brings vessels to inner harbour where tugs available to help to go alongside; not practice for tugs to meet vessels on outer roads. 3 tugs available, largest 1,680 h.p. Vessels up to 5,000 g.r.t. require 1 tug. Vessels over 5,000 g.r.t. require 2 tugs.

BERTHING: Vessels arriving at Recife roads with 26 ft. can enter port on low tide and can go alongside from Sugar Terminal to Warehouse No. 9, over 26 ft. it is better to wait for high tides to enter, 31 ft. being the max. draft for entering Recife.

Depth alongside wharves:
Warehouse No.1–1A: 31 ft.; No. 7–9: 25–26 ft.
,, No. 2–6: 30 ft.; No. 10–11: 25 ft.
,, No. 12–15: 24 ft.;

At anchorage (pool) in port, max. draft is 31 ft. Depth between 32 ft. and 26 ft., the max. rise of tide being 5 ft. Distance from the quay side, 200 m. Manoeuvring space is 1,640 ft. or 500 m. with a depth of 28–30 ft. max.; 590 ft. or 180 m. with a depth of 26 ft.

SPECIAL CARGO FACILITIES: *Cereals:* Silos with unloaders. Silos capacity: 10,000 tons (CAGEP), 23,500 tons (Moinho Recife), 5,600 tons (Port Authority).

Capacity of unloaders: 100 t.p.h. (Warehouse No. 1), 100 t.p.h. (Warehouse No. 9), 150 t.p.h. (Warehouses Nos. 9–10).

Sugar: Sugar Terminal: warehouse capacity 200,000 tons, capacity of loader 1,000 t.p.h.

Molasses: Tanks: capacity to store 14,000 tons, capacity of loader 120 cu. m.p.h.

Cranes:
1 Crane with capacity of 20 tons (Warehouses Nos. 5–6).
1 Crane with capacity of 8 tons
6 Cranes ,, ,, 5 tons
28 Cranes ,, ,, 1.5 tons

5 Automobile cranes with elevated cab capacity of 8 tons, with 2 clamshell and 2 graiffers.

Fork Lifts:
1 special fork-lift for containers with capacity of 40 tons.
114 fork-lifts with capacity of 2.5, 3, 4 and 7 tons.

Floating Cranes:
1 floating crane with capacity of 50 tons, hook height above water level is 15 m., 1 floating crane, capacity 200 tons.

STEVEDORES: Advise Agents of ETA at least 48 hours prior to arrival to make necessary berthing arrangements and hire dock labourers and stevedores in time.

MEDICAL: In *urgent cases* communicate with Agents immediately by means of Radio at least 48 hours prior to vessel's arrival if possible. It is necessary for vessel to enter port to enable sick person to land because on outer roads there is too much swell. Not necessary to Dock. Port Doctor must be advised by Agents and will board to see sick person and grant permission to land in Recife temporarily. Hospitals available also First Aid Stations equipped with ambulances. Port Authority also equipped with ambulance. Crews should always have yellow fever and small-pox inoculation certificates.

TANKERS: Oil companies who keep petroleum products here are: Petrobras, Esso, Texaco, Shell and Atlantic. To discharge petroleum products tankers utilise Warehouse No. 1, 1-A and 2, but only berth of Warehouse No. 1-A is considered by the Port Authorities as inflammable berth. Max. safe draft for a tanker to enter Recife is 30 ft. and entry must take place on high tide.

DENSITY: Low water density in Summer time 1028. High water density in Summer time 1027.

FRESH WATER: Supplied by Port Administration by means of pipe-lines in the docks. Vessels can be supplied alongside any quay; water fit for human consumption.

The local Port Administration has one water barge, capacity 240 tons, for supply to vessels inside the breakwater.

There are 92 hydrants, diameter 2.5 in., rate 15–20 t.p.h.

FUEL: *Fuel Oil:* This can be loaded between warehouses 1 to 7 by existing network along the quay. At warehouse No. 1 there is a 10 in. take-off point and two of 12 in.: Warehouse No. 2 has a 10 in. take-off and two of 12 in.; No. 3 there are two of 6 in. and one of 8 in.; at warehouse No. 5 one of 8 in.; at warehouse No. 6 one of 8 in. – all with a capacity of 60 to 100 t.p.h. and from warehouse No. 8 to No. 15 tanker trucks with a capacity of 40 t.p.h. Also see "General" before first port.

Diesel Oil: At warehouse No. 1 there is a 6 in. take-off and one of 8 in.; at warehouse No. 2 there is a 6 in. take-off and one of 8 in.; at No. 3, two of 6 in. with a capacity of 40-50 t.p.h.; at other warehouses this supply is effected by tanker trucks.

DEVELOPMENTS: Plans are underway to dredge the access channel to 11.5 m. It is also intended to construct new berths for general cargo and molasses tankers, and to modernise the existing berths.

GANGWAY/DECK WATCHMEN: Compulsory.

OPENING/CLOSING HATCHES: Normally by stevedores but crew helps when stevedores not familiar with hatches of modern vessels.

CUSTOMS ALLOWANCES: One carton cigarettes and one bottle of spirits allowed each man at Customs discretion.

IDENTITY CARDS: Foreign crew members not permitted to go ashore without presentation of identity card, on which is a photograph of holder and personal details. These cards are provided by the Agent upon arrival. The identity card must be delivered on disembarkation to the Federal Police who will return it to the crew member on re-embarkation.

CONSULS: The following countries are represented in Recife/Pernambuco:

Argentina
Belgium
Costa Rica
Czechoslovakia
Denmark
El Salvador
Ecuador
Finland
France
Germany
Great Britain
Guatemala
Honduras
Italy
Japan
Lebanon
Mexico
Netherlands
Norway
Portugal
Sweden
Switzerland
Spain
United States

REPAIRS: Available but limited to small mechanical equipment.

REPATRIATION: Facilities by air available.

AIRPORT: Situated 9 miles from docks. 228 flights per week.

TIME: GMT minus 3 hours.

HOLIDAYS: *National Holidays:* Fraternidade Universal (January 1st); Tiradentes (April 21st); Labour Day (May 1st); Brazil's Independence Day (September 7th); Commemoration of the Republic (November 15th); Christmas Day (December 25th).

State Holidays: Nossa Senhora da Conceicao (December 8th); Nossa Senhora do Carmo (July 16th); Carnival 3rd Day; Good Friday, Memorial Day (November 2nd).

POLICE/AMBULANCE/FIRE: Harbour Police 2241686; Port Administration Fire Brigade: 224007; State Fire Brigade: 193; Ambulance (First Aid): 192; State Police: 190.

TELEPHONES: Can be connected on board if requested.

AUTHORITY: Administracao do Porto de Recife/Pernambuco.

RIO DE JANEIRO: 22.55 S. 43.12 W. (See Plan Book)

(A) GENERAL CARGO SECTION. (B) TANKER SECTION.

SECTION A

DOCUMENTS: See "General" before first port.

CLEARANCE: All clearance is taken care of at the quarantine anchorage (pratique, custom's immigration). Accommodation ladder must be rigged for this purpose.

Shipmaster's Report: Clearance also carried out alongside.

After clearance by the customs a dark blue flag with a white five-pointed star in the middle must be shown day and night during vessels stay in port. Deratisation service is available. Inspection of the vessel will be made by inspectors to whom the valid deratisation or derat-exemption certificate must be shown.

PILOTAGE: Entrance to Guanabara Bay is 1 mile wide between Ponta de Santa Cruz and Ponto de Sao Joao. This is divided into two parts by Ilha Lage 0.6 mile W.N.W. of Ponta de Santa Cruz. Main channel for entering port is on the East side of Ilha Lage, depth 30 to 50 m. The channel between Ponto de Sao Joao and Ilha Lage, depth 5.7 m. should be avoided.

Pilots are ordered by vessel's Agent, who should be kept informed of vessel's ETA. Unless pilotage from sea required, Pilot will board with Port Authorities at quarantine anchorage in approx. position 22° 53′ S. 43° 09′ W.

Pilotage is compulsory within the port limits, which extend from the quarantine anchorage to the W., N. and E. The approach from sea to the quarantine anchorage may be done without a Pilot, but for deep draft vessels it is recommended to take a Pilot because of the narrow deep draft fairway. If requested, the Pilot will board the vessel 2 miles South of Cotunduba Island. Pilot boats are painted red with a black "P".

ANCHORAGE: In the Rio de Janeiro port area, the following areas are designated for anchorage of vessels coming into port.

Anchorage for vessels up to 22 ft. (6.7 m.) draft Anchorage No. 3. Within 300 m. radius of position 22° 51′ 1″ S., 43° 10′ 8″ W.

Anchorage for vessels with 22 ft. (6.7 m.) draft or more within 800 m. radius of position 22° 51′ 5″ S., 43° 08′ 6″ W.

Vessels impounded or requiring extensive repairs: position determined by the Port Captaincy for each specific case.

Vessels in quarantine: position 22° 50′ 7″ S., 43° 08′ 6″ W.

Vessels carrying explosives and inflammable material: position 22° 51′ S., 43° 11′ W.

RESTRICTIONS: Port is accessible to all vessels at all times and states of the tide. Attention must be paid to messages sent by Rio Radio about forbidden areas due to Marine exercises with live ammunition along the coast near entrance to the port.

Access Channel Limits: The port access channel is 200 m. wide, and dredged to a depth of 17 m. (55.7 ft.).

The access channel to the Mineral and Coal Quay is 150 m. wide, 10 m. (32.8 ft.) deep, running true 308°, starting near the Maua Pier and extending to the quay manoeuvring basin.

The access channel to the Gamboa Quay and the Sao Cristovao Quay is 300 m. wide along the quay with a depth varying from 6 to 10 m. (19.6 to 32.8 ft.).

The Caju Quay access channel is 80 m. wide along the quay, with a depth of 6 m. (19.6 ft.).

MAX. SIZE: No limits for entering port. Draft limited by berth depth.

HEALTH: Vessels from another Brazilian port automatically receive free pratique and should not fly quarantine flag. If suspected disease or fever on board it is advisable to cable Agent before arrival. Also see "General" before first port.

RADIO: Rio Radio, call sign PPR. Working frequencies 17,194; 13,105; and 8,364 kHz. VHF marine radiotelephone is available. Channel 16 for general call, Channels 11 and 12 for Pilot and harbour purposes.

TUGS: There is adequate tow-boat service at Rio de Janeiro varying from 220 h.p. to 1,200 h.p., tariff being divided into sections – 200 h.p. to 600 h.p. and 601 h.p. to 1,200 h.p. The number of tugs to be employed in a service depends on the tonnage of the vessel and/or nature of the berth and respective approaches, as determined by the naval authorities. Ship's lines usually employed.

Requirements: The assistance of tugs for mooring and departure operations is governed by the following rules:

(*a*) Manoeuvring at the Gamboa and Sao Cristovao Quays:
  vessels up to 2,000 g.r.t. no tug.
  2,001 to 5,000 g.r.t. 1 small tug.
  5001 to 15,000 g.r.t. 1 large and 1 small tug.
  15,001 to 30,000 g.r.t. 2 large and 1 small tug.
  over 30,000 g.r.t. 2 large and 2 small tugs.

(*b*) Manoeuvring at the Caju Quay (warehouses 31 to 33):
  vessels up to 2,000 g.r.t. without tug.
  2,001 to 5,000 g.r.t. 1 small tug.
  5,001 to 15,000 g.r.t. 1 large tug and 1 small tug.
  over 15,000 g.r.t. 1 large tug and 2 small tugs.

(*c*) Manoeuvring at the Mineral and Coal Quay:
  vessels up to 2,000 g.r.t. without tug.
  2,001 to 5,000 g.r.t. 2 small tugs.
  5,001 to 15,000 g.r.t. 2 large and 1 small tug.
  over 30,000 g.r.t. 3 large and 1 small tug.

(*d*) Manoeuvring at the Petroleum Terminals, Maua Pier and Docks:
  vessels up to 4,000 g.r.t. 1 small tug.
  4,001 to 15,000 g.r.t. 1 large and 1 small tug.
  15,001 to 30,000 g.r.t. (loaded) 2 large and 1 small tug.
  15,001 to 30,000 g.r.t. (in ballast) 2 large tugs.
  over 30,000 g.r.t. (ballast) 3 large tugs.
  over 30,000 g.r.t. (loaded) 3 large and 1 small tug.

The following must also be observed:

1. All vessels (tankers) manoeuvring at quays which are not terminals will be assisted by tugs as shown in section (*d*).
2. The requirements in sections (*a*), (*b*), (*c*) and (*d*) will apply when the manoeuvre is effected under normal conditions.
3. In abnormal conditions, and according to the Pilot's judgement, other necessary measures will be adopted to ensure safety of the manoeuvre.
4. When a vessel is manoeuvring with the aid of a tug, the Pilot may call for a further tug with power compatible with the requirements of the manoeuvre.
5. A tug will be considered as large where its power is in excess of 600 h.p.

BERTHING: Berth usually accessible day and night. Ratguards obligatory.

For vessels loading iron ore, it is important that hatch coamings are not higher than 31 ft. above the water-line in order to pass under the loading belt.

Quay	*Length*	*Depth*
Pier Maua	883 m.	11 m. (36 ft)
Gamboa Quay	3,298 m.	9.5–10 m. (31.1–32.8 ft.)
Sao Cristovao	1,428 m.	8–9.5 m. (26.2–31.1 ft.)
Caju Quay	1,300 m.	6 m. (19.6 ft.)
Mineral & Coal Quay	765 m.	12.5 m. (40.9 ft.)

CRANES: 105 portal cranes, 2 floating cranes (largest with a capacity of 250 tons).

STEVEDORES: Cable Agent ETA 36 hours before arrival in order to arrange gangs required. When arriving during week-ends or on Monday, Agent needs ETA on Friday afternoon. Loading/discharge rates:
  General cargo cases 7 to 8 tons per gang/hour.
  Bags 15 tons per gang/hour.
  Grain in bulk 1,000 tons per eight hours.
  Coal in bulk 7,000 tons per day.
  Loading iron ore 25,000 tons per day.

MEDICAL: All facilities available. If doctor needed on arrival or making emergency call to land sick persons, cable ETA 12 hours before arrival.

DENSITY: Salt water at entrance to bay. Further inland water often brackish, and density varies with tide.

FRESH WATER: Available alongside from 69 points, loading rate 30 t.p.h. Also available by barge, capacity 450 tons, loading rate 100–200 t.p.h.

FUEL: See "General" before first port.

WATCHMEN: Gangway watchmen strongly recommended for any vessels working cargo with shore labour on board. Watchmen from shore not necessary for coal, iron ore, and oil cargoes.

CUSTOMS ALLOWANCES: Each crew member allowed 2 cartons of cigarettes and one bottle wine or spirits.

IDENTITY CARDS: Foreign crew members not permitted to go ashore without presentation of identity card, on which is a photograph of holder and personal details. These cards are provided by the Agent upon arrival. The identity card must be delivered on disembarkation to the Federal Police who will return it to the crew member on re-embarkation.

CONSULS: Most countries have consuls in Rio.

REPAIRS: All types deck and engine repairs can be effected. Five dry docks. Largest dry dock, length 259 m., breadth 34 m., max. draft 14 m.

POLICE/FIRE/AMBULANCE: Police 234–2020; Maritime Police 243–0181; Ambulance 222–2121; Fire 232–1234.

HOLIDAYS: *Legal Holidays:* New Year's Day (January 1st); St. Sebastian (January 20th); Tiradentes (April 21st); Labour Day (May 1st); Independence Day (September 7th); Proclamation of the Republic (November 15th); Christmas Day (December 25th).

Religious Holiday: All Soul's Day (business and banks closed) (November 2nd).

Movable Holidays: Good Friday (business and banks closed); Corpus Christi (business and banks closed); Carnival (Saturday through to noon on Ash Wednesday) – non-official irregular working hours – banks closed.

Federal and State Government Departments, as well as banks, do not work on Saturday.

TELEPHONES: Available at warehouses 1–8 on request to the Brazilian Telephone Company.

SHORE LEAVE: Shore leave is permitted.

DEVELOPMENTS: Caju Quay is being widened and dredged to 12 m. to provide 2 roll-on/roll-off berths, 1 sulphur and salt berth, and 1 heavy lift general cargo berth.

GENERAL: Vessels to fly signal letters when manoeuvring in port and special Brazilian Customs flag after reception.

SHIPMASTER'S REPORT: 1980.

Clearance: Clearance of vessels undertaken at quarantine anchorage and alongside.

Identification Cards: Identification Cards required for foreign crews but no picture necessary. Cards must be shown when leaving and entering the dock.

Visitors: No unauthorised persons are allowed on board. If unauthorised persons found on board, heavy fines are imposed.

Entering and Leaving: When entering and leaving at night, the full name of the vessel has to be flashed on the Aldis Lamp to the naval signal station. No VHF communications available.

Ratguards: Should be in place when alongside.

Flags: At all ports in Brazil the Authorities are very strict about flying of flags (no tangles). The "G" flag and "H" flag should be flown when Pilot required or on board.

AUTHORITY: President of Cia. Docas do Rio de Janeiro.

(B) TANKER SECTION. All information refers to the "Petrobras Terminal" *unless otherwise stated.*

LOCATION:

The port of Rio de Janeiro is located in the Bay of Guanabara, State of Rio de Janeiro. It is maintained and operated by the Rio de Janeiro Docks Company of mixed state and private ownership.

South Dock-Island (main)
  Lat. 22° 49.2′ S. — East Berth (PP1) or
  Long. 43° 09.2′ W. — West Berth (PP2)
North Dock-Island (secondary)
  Lat. 22° 48.3′ S. — East Berth (PS1) or
  Long. 43° 08.9′ W. — West Berth (PS2)
Butadiene Dock-Island
  Lat. 22° 48.2′ S. — East Berth (PAB)
  Long. 43° 09′ W.
Ilha Redonda Pier
  Lat. 22° 48.1′ S. — West Berth (IR)
  Long. 43° 09′ W.

DOCUMENTS: See "General" before first port.

APPROACHES: The safe access to the Terminal is made through a main (deep but narrow) channel swept to 17 m. (55 ft.) that begins between the Island of Cotunduba and the Point of Leme. It extends as far as the East neighbourhood of the South Dock-Island East Berth. As long as the ship does not exceed 11.3 m. (37 ft.) the access can also be undertaken through the North – South axis passing by Ilha Rasa and the bar's entrance (secondary entry, larger but shallower).

A long bridge (Rio-Niteroi), has been built, linking Ponta do Caju (West) to Ilha do Mocangue Grande (East) it crosses the swept channel. Three navigable spaces: – the central one 300 m. (980 ft.) wide; 50 m. (165 ft.) high at MLWS, the side ones with 200 m. (650 ft.) in width – will maintain the safe access for ships.

A shoal (reef) in 11.5 m. (36 ft.) deep lies about 0.3 m. E.N.E. of Lage Is. just after the bar's narrow entrance (between Sao Joao and Santa Cruz Points). A wreck marked by a green buoy (CS) lies sunk nearly 1.3 miles Eastward of Cotunduba Is.

ANCHORAGE: Vessels carrying explosives and inflammable material should anchor N.E. of Ilha Fiscal for port authorities clearance (Lat. 22° 51′ S., Long. 43° 11′ W.). After pratique has been granted they should change anchorage site while awaiting for a berth alongside.

Vessels should anchor clear of the 17 m. (52 ft.) swept channel. They must take care to avoid dropping their anchors on the route of submarine cable near to a line joining the islands of Villegagnon and Boa Viagem.

Prohibited Anchorage: Under no circumstances should ships drop anchor Westwards and between South and North platforms due to the existence of submarine pipe-lines connecting Ilha D'agua to the platforms and to Ilha Redonda.

READINESS: Arrival is usually considered the time the vessel reaches the anchorage area or the time the Pilot boards the vessel, whichever occurs first notice of readiness will be accepted at the time the tanker is in all respects ready to operate.

PILOTAGE: Pilotage is compulsory after the ship's free pratique has been granted. From that moment on all movements within the port limits will be made under the assistance of a Pilot. Request for pilotage service may be made either right to the Harbour Pilot's Working Co-operative (pilot station VHF Radiotelephone – Channels 16 and 12. Listening period from 0600 to 1800 hrs. local time) or, through ship's Agent, 24 hours beforehand.

For tankers larger than 100,000 d.w.t. Pilots usually board the vessel outside the main channel's entrance. This will occur if weather conditions permit and by daylight only.

Ships could also use, in most circumstances, a secondary entry which N. – S. axis passes through Ilha Rasa (larger but shallower) as long as their draft does not exceed 11.3 m. (37 ft.). In certain cases and at the discretion of the Pilot, according to the prevailing conditions, ships will use this channel with a draft up to 12.5 m. (41 ft.).

Ships may anchor 1.8 mile off the North of Ilha Rasa for awaiting the Pilot, who will board the ship and proceed by day or night according to ship's draft, visibility conditions, etc.

A pilot ladder must be safely rigged for immediate use and be long enough to reach the Pilot's launch. At night adequate lighting must be rigged so as to enable the Pilot to approach and board the vessel. In addition, a boat rope should be led along the side, from well forward. A lifebuoy with 27 m. (15 fathoms) of rope must be conveniently placed in the vicinity of gangway for use in emergency. Vessels should always make a lee. Tankers of 40,000 d.w.t. or over are requested to have a pilot ladder (preferably with a centre gripping line) rigged alongside the accommodation ladder in order that the Pilot may transfer to it after about 2 to 3 m. (6 to 10 ft.).

MAX. SIZE: Tankers up to 135,000 d.w.t. will operate in the terminal. Draft is 15.8 m. (52 ft.) at low water.

Berthing capacity is limited by structural resistance of installation, actual depth of the swept channel and weather conditions.

South Dock Island (main)

East Berth (PP1) – Tankers up to 15.8 m. (52 ft.) draft will moor and unmoor at any time.

Structural resistance of pier was designed to handle tankers up to 115,000 d.w.t. but under special circumstances this limit will be extended to 135,000 d.w.t.

West Berth (PP2) – By day tankers up to 13.1 m. (43 ft.) draft will moor according to the range of tide.

9.4 m. (31 ft.) draft to a range of 0.0 m. (0.0 ft.).
12.2 m. (40 ft.) draft to a range of 0.3 m. (0.98 ft.).
12.5 m. (41 ft.) draft to a range of 0.6 m. (1.98 ft.).
12.8 m. (42 ft.) draft to a range of 0.9 m. (2.94 ft.).
13.1 m. (43 ft.) draft to a range of 1.2 m. (3.94 ft.).

By night only ships up to 35,000 d.w.t. will moor.

Leaving at night only enough ballasted and with own power, up to 48,000 d.w.t.

Shifting ship from East to West Berth only by daylight, draft 12.8 m. (42 ft.), fair weather and wind speed up to 2 Beaufort;

North Dock-Island (secondary)

East Berth (PS1) – Tankers up to 35,000 d.w.t. will moor either by day or night.

At low tide, the maximum draft permitted is 10.2 m. (34 ft.).

West Berth (PS2) – At night tankers up to 14,000 d.w.t. will manoeuvre. Whenever another tanker is already berthed to the Butadiene Dock-Island, night mooring to the North Dock-Island is not advisable. West-berthing will be undertaken with ebb tide, i.e. the set of the current is South, preferably.

At low water max. permitted draft is 8.2 m. (27 ft.).

Butadiene Dock-Island (PAB)

Manoeuvres will be undertaken at daylight only. Max. permissible draft at low water is 8.5 m. (28 ft.).

Ilha Redonda Pier (IR)

LPG tankers will moor by day only, limitations concerning draft is 9 m. (29.52 ft.) at most. Max. ship's LOA is 200 m. (656 ft.).

Advisable draft for safe manoeuvring: Although the amount of ballast carried on vessels is at the Master's discretion, the table below is recommended as a guide:

Vessels of 30/40,000 tons, draft for'd 16 ft. aft 20 ft.
Vessels of 40/50,000 tons, draft for'd 18 ft. aft 24 ft.
Vessels of 40/70,000 tons, draft for'd 20 ft. aft 28 ft.
Vessels of 70/100,000 tons, draft for'd 24 ft. aft 32 ft.

Vessels over 100,000 tons, should have approximately one-third of the vessel's deadweight in ballast.

RADIO: Vessels under charter to Petrobras bound for Rio de Janeiro should advise their ETA 48 hours prior to arrival to PPR as well as to their Agents when it will be the case, through PPR (Rio Radio – Government Coast Station). Confirmation or change of ETA should be cabled 24 hours before arrival. When within range, tankers may also call Torgua or Fronape VHF radio-telephone stations for instructions. All ETA's should indicate whether it is local time or GMT.

The terminal radio and communication centre is located in the Oil Handling Control Room situated at Ilha D'agua. There is a RT set operating 24 hours a day, on Channel 16 (Delta) and manned by terminal operators.

It is strictly prohibited to use vessel's wireless transmitters in the port of Rio de Janeiro.

Non-compliance with this regulation may result in a fine being imposed on vessel by the authorities.

TUGS: Tugboat assistance is rendered by only one Petrobras 1,430 h.p. tug boat (equipped with controlled pitch propellers). Private tugboats are also available (11 tugs, 310–3,200 h.p.). While rendering such assistance tugs act under the orders of the Harbour Pilot. Petrobras tug is fitted with fire pumps and monitors (including mechanical foam) to assist in fighting fires. All manoeuvring orders will normally be given by VHF telephone on Channel 13 (Alpha) – 156.65 mHz, however, they usually keep watch on Channel 16 (Delta) – 156.8 mHz. Ships not provided with radiotelephone, orders will be conveyed to the fore tug by a mouth whistle and to the aft tug by the ship's whistle. All orders received by tugs will be acknowledged with a distinct short blast. Hawsers are always supplied by the ship except when tugs are manoeuvring alongside ship in which case the towing lines will be given by the tugs.

The tugs are usually stationed either at the terminal dolphin or "L" pier on Ilha D'agua. The Pilot in consultation with the Master, will decide the number of tugs required for each berthing or unberthing operation. Safety of the Terminal installations demands, at least, two tugboats, even for bow thruster equipped ships.

BERTHING:

Petrobras: Torgua is an oil terminal consisting of four distinguished mooring sites located on different places inside the Guanabara Bay.

All these mooring sites are linked to Ilha D'agua and then to the mainland (Duque de Caxias Refinery – REDUC) by submarine pipe-lines. Three of them are dock-islands, i.e. island-type offshore platforms lying near to the Eastern edge (about half mile away) of Ilha D'agua (where storage tanks, operation controlling room and part of the administrative staff are placed). Two of these dock-islands are squared platforms (South and North) with two berths each (East and West). The South one is designed for larger tankers consisting of two mooring and two breasting dolphins on each side of the platform. It is normally used for the discharge of crude oil.

The North Dock-Island (smaller) has only two mooring dolphins on each side. Two berths (East and West) are also available. It is generally used for handling derivatives. The third Dock-Island (the smallest and round shaped one) is actually the dolphin of the North Dock-Island square platform. It is known as the "Butadiene Pier" and only one vessel at a time can be berthed there (East) either for discharge LPG/butadiene or loading light grades. Besids these three mooring sites there is a fourth located on Ilha Redonda (approx. 2 miles E.N.E. of Ilha D'agua). This installation comprises one single berth (West), head of a small pier. It handles LPG only. Two spherical refrigerated storage tanks (2,000 tons) can easily be seen from incoming vessels.

Other Terminals: *Manguinhos Terminal* – Operators: Refineria de Petroleo de Manguinhos. At Manguinhos terminal a draft of 36 ft. is permissible. Conventional buoy berth in which two ship's anchors and four buoys are used, one on starboard forward of the bow and three buoys aft. Two ship's lines run to each buoy. The terminal is situated in the inner harbour of Rio de Janeiro and close to the quays. Three 8 in. hoses from an underwater pipe-line are connected to the ship's manifold. Maximum back pressure is 100 p.p.s.i., at the ship's rail. Discharge rate is about 1,000 t.p.h. Care is to be taken that the vessel shall not exceed a draft of 40 ft. during discharge. Bunkering is permitted when discharging cargo.

Riberia Terminal	–	depth alongside	30 ft.
Shell Terminal	–	,, ,,	31 ft.
Texaco Terminal	–	,, ,,	29 ft.

MEDICAL: Medical treatment and/or hospitalisation, if required, is provided in private local clinics. Dentists are also available. For emergency cases (serious illness or injury) Torgua first aid may be requested by the Master. Internal telephone number is 39.

If patient does not speak Spanish, Portuguese or English an interpreter should accompany him. A nominal amount is charged for any supplies or medicines furnished by the terminal.

FRESH WATER: Facilities may be arranged to supply water in North and South platforms only. Water supplying barges are also available.

FUEL: The Terminal is equipped with blending valves and can deliver any type of fuel – as Bunker C fuel oil, marine gas oil, marine diesel oil and intermediates of any grade – concurrently with tankers working cargo, at international prices. Also see "General" before first port.

The supply rates are about 300 mt/hr. for Bunker C, 180 mt/hr. for MGO and 450 mt/hr. for intermediates.

Orders for bunkers should be placed, a minimum of 48 hrs. in advance, to: Marine Fuel Division, Commercial Department.

Telegraphic Address: Petrobrasecope. Telex number: 031422 or 031423. Rio de Janeiro – Brazil.

BALLAST: All ballast should be pumped out to the terminal slop tanks. Under no circumstances should it be pumped into the sea even if the ballast is said to be clean. As soon as the ship is moored, the Terminal Representative must be told of the quantity of ballast on board and the estimated time to pump it out. Right after discharging a sludge ballast of high pour point (HPP) oil, tankers are asked to flush the line with water from the main suction inlets. The Terminal Representative must be notified 30 minutes before the ship will be out of ballast.

There are two sludge tanks with a total capacity of about 8,900 cu.m. (56,000 bbls.). The terminal is particularly interested in having vessels complete the deballasting operation promptly after berthing in order to minimise time at berth. Simultaneous loading and deballasting is encouraged on properly equipped vessels.

REPAIRS: Repairs of all kinds can be effected in Rio de Janeiro. There are floating cranes with a capacity of 100 tons. Divers service may be obtained. Dry dock to hold ships up to 60,000 d.w.t. are available, largest drydock "Almirante Alexandrino" belongs to RENAVE – Empresa de Reparos Navais S.A. It is suggested that charges should be discussed with ship's Agent prior to proceeding with any repair work.

SURVEYORS: Lloyd's Register of Shipping, American Bureau of Shipping and Bureau Veritas have representatives in Rio de Janeiro. Advance notice should be given in order to arrange for an appointment through Fronape on ship's Agent.

Chas. Martin & Co. petroleum inspectors are available in Rio de Janeiro. Contact may be through Agent. E. W. Saybolt & Co. inspectors are also available in Santos.

Chas. Martin & Co., Rua da Lapa, 200 – conj. 906, 20,000, Rio de Janeiro, GB, ZC-00, Tel.: 242-4219, 245-5636 and 225-3507.

E. W. Saybolt & Co., Rua Bras Cubas, 3, 11,100, Santos, SP. Tel.: 4-6638.

GENERAL:

Gangway: All vessels using the port of Rio de Janeiro must provide a safe gangway. The use of rung ladders (sea ladders) is contrary to port regulations and port authorities will not board except by means of a safe gangway or accommodation ladder. A lifebuoy with 27 m. (15 fathoms) of rope must be conveniently placed in the vicinity gangway for use in emergency. It will be the responsibility of ship to provide and maintain this equipment.

At night, the gangway must be adequately lighted. In addition, a boat rope should be led along the side, from well forward. In the near future a special safe gangway will be provided in the South and North dock-islands.

Repairs: Repair and maintenance services for radar, radio, gyro compass, echosounder, etc., are available. The repair man should be contacted through ship's Agent.

Stores: Provisions and stores are available. Requisitions should be conducted through the Agents. Ship chandlers are normally permitted to visit ships when specifically instructed by Agent.

Launches: Launch service for the transportation of personnel ashore must be arranged through ship's Agents. Terminal boats are intended for operational assistants and they are normally stationed at a small "L" pier on the South of Ilha D'agua (Barge Dock).

Laundry: Laundry service is available throughout each working day. Such service should be requested in the vessel's ETA message to Agents.

Photographing: The taking of photographs within the boundary of the terminal premises is prohibited.

Ratguards: Ratguards must be fitted to all mooring lines.

Sea Pollution: Brazilian law is very strict in regard to the pollution of harbour and coastal waters. Vessels should not discharge dirty ballast, ashes, refuse, etc., into the water. Heavy fines are imposed for violations. All overboard discharge valves from cargo tanks and bilges are to be conducted with the greatest care and vigilance in order that errors or delays in handling cargo valves may not result in overflows. All deck scuppers should be plugged to avoid harbour contamination should an oil spill occur.

Similarly, any hull leakages will be subject to equal restrictions. To offenders, fines will be charged (besides resulting delay) according to ship's tonnage, i.e. 2% of the largest country's minimum wage per each ship's (gross) ton.

Emergency towing wires: Two towing wire ropes (fore and aft) should be hung overboard to the water's edge in such way that tugs can easily make fast if an emergency situation arises.

Shore Leave: Shore leave is normally permitted. Baggage and packages are subject to examination upon entering and leaving the Terminal property and vessels, either by Petrobras watchers or by custom's officers.

Cleaning: Several contractors in the area provide labour for tank cleaning and mopping. Masters need of this service should submit their requirements to ship's Agent who will contact and request a contractor to go on board to discuss details and estimate cost of work to be effected.

It must be pointed out that the Master of the vessel is solely responsible for the fitness of the ship's tanks for loading his next cargo, and will therefore be held liable for any contaminations of the cargo after loading, due to inadequate tank cleaning. Therefore it is up to him to decide the degree of tank cleaning necessary. He may, of course, seek advice from petroleum inspectors in this respect, whenever there is any doubt.

Compass Adjustment & RDF Calibration: Compass adjustment or radio direction finder calibration can be effected by competent hydrographers and extra-masters. Contacts with Agents or through the Pilot's station.

Custom's Watches: Sometimes while vessel is in port, Brazilian custom's officials are assigned on board to ensure compliance with custom regulations. Meals must be supplied to these officials during regular meal hours.

Important Telephone Numbers (PABX):

Terminal's Executive Assistant	10*
Operation Manager	60
Operation Supervisor	68–72–75
Marine Section	50*
Safety Section	40*
Medical Section	39

(*) To be used in working hours only.

DEVELOPMENTS: A new berth is being built on Pombeya Island and dredged to 12 m. This is intended to relieve Ilha de Braes Port.

RIO GRANDE: 32.03 S. 52.05 W.

DOCUMENTS: (See "General" before first port).

Shipmaster's Report: 1980.

Also required: 2 Arms and Ammunition Lists, 1 Narcotics List, 1 List of Loading Ports of the Last Voyage with dates of arrival and departure.

PILOTAGE: Bar pilotage is compulsory on approaching Rio Grande contact can be made with Pilots by VHF Channel 16, pilot boat is easily identified as it is painted red. Requests for a Pilot to be made by Agent at least 12 hours in advance for vessels entering and 2 hours for vessels sailing. Bar Pilots either bring vessels with cargo to discharge/load direct to berth, or up to inner anchorage (when no berth is available or in the case of vessels en route to Porto Alegre).

ANCHORAGES: Official anchorage situated at a point between inner light buoys Nos. 4 and 5, just before entrance proper to inner approach channel. In case of necessity, vessels may discharge/load to/from lighters at anchorage where depth is over 35 ft.

RESTRICTIONS: Depending on weather conditions and subject to prior arrangements with Bar Pilotage, vessels drawing less than 24 ft. may enter or leave any hour of day or night. Draft subject to change as access channel is being dredged to 42 ft.

MAX. SIZE: *Bar max.:* subject alteration, see "Restrictions".

Anchorage and bar fourth section: Fourth section is where new super port of Rio Grande will be situated. The natural draft inner roads is 50 ft. therefore if draft at access channel confirmed, foresee no difficulties vessels drawing heavy draft entering and operating at anchorage or super port grain and fertilizer terminals.

Inner New Port (Porto Novo): Subject to alterations.

HEALTH: *(a)* Vessels arriving from a foreign port of call must receive visit of Port Health Authority. Each passenger (whether to land or in transit) and Crew member must be in possession of a valid international vaccination certificate against smallpox. Also see "General" before first port.

(b) Maritime Health Declaration has to be made out and handed to Doctor at time of visit. When all papers have been examined and found in order, the Doctor will authorise lowering of the yellow flag and hand over free pratique.

(c) Vaccination against smallpox can be made on board and respective international certificate issued.

(d) In case of death, suspected disease, serious accident, etc., on board before vessel arrives in port, Master should radio Agent giving full particulars so that necessary steps may be taken with Health/Police authorities.

RADIO: Radio Juncao, call sign PPJ, situated on outskirts of Rio Grande, is a receiving/transmitting station, operating on a wavelength of 600 metres (500 kc/s). There is telephone communication between radio station and shipping offices so that, normally, messages are relayed without any appreciable delay. Radio messages may also be despatched through Florianopolis Radio, via Western Telegraph, and these are also received quickly, under normal conditions. Most Agents are equipped with VHF.

TUGS: Compulsory for vessels over 2,800 d.w.t. Five tugs available. Tugs usually join vessel as soon as she has come through approach channel, in the port proper, but in the case of deeply-laden vessels, normally attend before vessels enter inner approach channel. Ship's lines always used.

Tug Requirements:

Vessel 2,800-5,000 d.w.t. 1 small tug. 5,001–10,000 d.w.t. 1 small and 1 medium tug. 10,001-15,000 d.w.t. 1 medium and 1 large tug. Over 15,001 d.w.t. 2 large tugs.

BERTHING: *New Port:* Length of quay, 1,864 m., depth 8.5 m. 38 cranes, capacity 2.5 tons to 10 tons.

Old Port: Only used by fishing vessels.

No mooring buoys. Vessels berth alongside quay to load/discharge. If weather conditions permit, recommended that vessels should berth starboard side to wharf in order to facilitate sailing, especially if there is a possibility of night departure. Turning vessel round before coming alongside, however, may not always be advisable or safe because of wind and current conditions at time. Vessels loading down to maximum safe draft must be starboard side to quay on sailing. If weather does not allow ship to turn on arrival, she must do so as soon as conditions permit, before being too deeply laden.

Oil Carriers: Tankers measuring over 200 m. long have entered and berthed at Rio Grande, coming alongside port side to berth. On sailing, they go out stern first, turning after negotiating approach channel and reaching anchorage. Favourable conditions of wind and current necessary for this manoeuvre.

Installations for discharge of petroleum products: All fuel oil discharged at tanker berth within port proper — i.e. subject to a maximum draft of 29 ft. White petroleum products may also be discharged at this berth. A deep-water tanker pier has been constructed close to the anchorage but it is in limited operation for white products only, because pipe-lines to main storage tanks and refinery have not yet been installed. This pier, which is capable of accommodating two vessels of 160-180 m. overall length, has a depth of over 35 ft.; it also has installations for supplying fresh water which may, in case of necessity, be used by cargo vessels. No facilities for the discharge of residues.

BULK HANDLING FACILITIES: *New port;* depth alongside varies from 26 ft. to 29 ft. depending on berth and has the following facilities:

CESA Terminal: One silo with a capacity of 55,000 tons used for grain and soya beans. Conveyors feed two pneumatic chutes, each 150 t.p.h. The facility is being improved to handle 1,000 t.p.h.

Port-owned Terminal: Two silos with a total capacity of 70,000 tons. Loading is carried out by a single retractable arm, max. reach 20 m. Average loading rate 1,500 t.p.h.

Samrig Terminal: One silo with a capacity of 35,000 tons. Loading is carried out by two movable chutes each with a capacity of 200 t.p.h.

At other berths loading is carried out by portable equipment.

Cotrijui Grain Terminal: At Rio Grande Superport. Consists of a T-shaped jetty, 170 m. long. It has 8 loading tubes in 2 banks of 4 fed from overhead belts. Loading rate 1,000 t.p.h. for each bank of tubes. Depth 55 ft. Max. LOA 180 m. Max. draft 48 ft.

Soya Bean Oil can also be loaded here at 500 t.p.h. through a 12 in. pipe-line. The innerside of the T jetty can accommodate barges to further increase the loading rate if required.

The terminal gives preference to self trimming vessels and bulk carriers.

The Luchsuper Fertilizer Terminal: has a T-shaped jetty, 130m. long. Depth 50 ft. It can handle Urea, Phosphoric Acid, Ammonia and Sulphuric Acid at 500 t.p.h. Bulk chemicals can be discharged here with two 6 ton Portal cranes. Two container berths are in the latter stages of completion.

The Superport will eventually cover 8 km. along the waterfront with provision made to handle fuel, chemicals, oils, salt, fertilisers, minerals, containers and ro/ro traffic. Four of the new 20 berths are in operation.

STEVEDORES: Working hours, straight time, 0730/1130 – 1300/1700 (week-days). During week-days, labour for morning shift which commences at 0730 hrs., may be ordered up to 0715 hrs.; at 1245 hrs. extra gangs may, if necessary, be engaged for afternoon shift commencing at 1300 hrs. For night work longshoremen (i.e. dock labourers as distinct from stevedores) must be ordered before 1600 hrs.; stevedores, tally-clerks, etc., for night work may be engaged up to 1845 hrs. for shift that starts at 1900 hrs. Sunday/holiday work must be ordered previous day, up to 1000 hrs.

MEDICAL: Two hospitals available which have adequate facilities to deal with majority of cases. Only vaccination required at present is against smallpox.

FRESH WATER: Supplied at main quay at a rate of 10 to 15 t.p.h. or at tanker pier where rate is about 25 to 30 t.p.h. Port has a barge *Gutemberg* which can supply water (100 t.p.h.). It is only used in extreme cases where no other supply is feasible, as cost is high due to high overtime rates and tugs standing-by during whole operation.

FUEL: Bunkers may be supplied by Esso, Shell or Petrobras at tanker pier at a rate of up to 300 t.p.h. Same has to be previously stemmed aboard and supply is only effected when confirmation of stem is received. Cost varies according international demand. Barges for supply at roads are sometimes on hand. Also see "General" before first port.

DEVELOPMENTS: Dredging continues to a depth of 14 m. at the entrance and 13 m. in the inner channel.

GANGWAY/DECK WATCHMEN: Gangway watchman is compulsory. It is advisable to use deck watchman when pilferable cargo is accessible. The rate is 50% higher than that for a gangway watchman.

OPENING/CLOSING HATCHES: Opening and closing of conventional hatches normally done by stevedores, without any extra cost; advisable, however, for steel hatches to be handled by crew.

CUSTOMS ALLOWANCES: Each Crew member allowed one carton cigarettes (or the equivalent in pipe tobacco) and one bottle of spirits, per week. Ships that remain in port for over a week may request Customs, through their Agent, to open bond for another weekly issue.

IDENTITY CARDS: Foreign Crew members not permitted to go ashore without presentation of identity card, on which is a photograph of holder and personal details. These cards are provided by the Agent upon arrival. The Identity card must be delivered on disembarkation to the Federal Police who will return it to the Crew member on re-embarkation.

CONSULS/VICE-CONSULS:

Britain	Tel.	2.3303	Norway	Tel.	2.1611
Denmark	"	2.3011	Portugal	,,	2.3978
Italy	"	2.2362	Spain	,,	2.2621
Netherlands	,,	2.3303	Uruguay	,,	2.2953

REPAIRS: Two small repair shops equipped to carry out minor repairs. No dry docks. Radio, radar and gyro technicians available but expensive.

REPATRIATION: Seamen rejoining their ships or being repatriated have to proceed to Porto Alegre, by bus, where arrangements can be made for embarkation by air.

TIME: GMT minus 3 hours, except during the period 1st December to the last day of February (Brazilian Summer time) when the difference is 2 hours.

HOLIDAYS: National: 1st January*; 21st April; 1st May*; 7th September*; 15th November; 25th December*. Municipal: 2nd February; Good Friday*; Corpus Christi; 29th June.

Note: Days marked (*) no labour available.

POLICE/AMBULANCE/FIRE: Police 2.1695; Hospitals 2.3802; Ambulance 2.3801 Fire 2.1778.

TELEPHONES: There are no facilities for placing telephones on board.

GENERAL: *Flags to be flown.*

(a) Brazilian flag at the top of the foremast.

(b) Yellow flag (to be hoisted until the doctor's clearance is given). Vessels arriving from a Brazilian port, with no disembarking passengers, must *not* hoist yellow flag unless there is sickness on board requiring presence of the Health Authorities.

(c) Pilot flag.

(d) Customs flag (to be hoisted after the vessel is cleared by Customs and flown during the vessel's stay in port).

SHIPMASTER'S REPORT: 1980.

Flags: The Brazilian flag when flown as a courtesy ensign should at no time be allowed to get tangled.

Indentification Cards: Necessary but no photograph required.

Repatriation: Transport to Porto Alegre is possible by air taxi.

Garbage: Authorities are very strict with regard to throwing garbage overboard.

AUTHORITY: Port Captain.

SALVADOR (Bahia): 12.58 S. 38.31 W.

(See Plan Book)

DOCUMENTS: (See "General" before first port.)

Agent also fills out the "Entrada & Saida Capitania do porto" to be signed by Captain. The particulars for this document are:

Name of Captain – name of ship – flag – code signal letters – tonnage: gross and net – horsepower – engines: twin or single – type of ship, etc. – port of registry – tons of cargo to discharge – owners – Agents in port – last port of call – previous ports of call – next port of call – number of crew – number of disembarking passengers – number of transit passengers – speed of vessel – also specifications of nature and quantity of cargo in transit.

Documents to be supplied to the Ship before departure.

1 "Clearing pass" from the Port Captain
1 ,, ,, ,, ,, Federal Police
1 ,, ,, ,, ,, Post Office
1 ,, ,, ,, ,, Custom House
1 Custom House negative cargo declaration for each following Brazilian port of call.

The Port Doctor will require the following information: Class, name and flag of ship – net register tonnage – name of Master and ship's Doctor – number of officers and crew – name of Agent – all ports called at during voyage – number of days from first to previous ports of call – number of passengers disembarking and in transit – tons of cargo to be discharged – whether any sick persons or deaths occurring on board.

The Customs will require the following information: Name of vessel – nationality – gross and net tonnage – H.P. of engines – name of Captain – number of officers and crew – owner's name – name of Agent – all ports called at during voyage – ports of destination – days of voyage from first to previous ports of call – tons of cargo to be discharged – particulars of passengers.

The Federal Police require the following information: Vessel's name – nationality – gross and net tonnage – name of Captain – number of officers and crew – name of Agent – port of departure and all ports of call – number of days from first and last ports of call – number of passengers disembarking and in transit – specification of embarking and disembarking ports of each transit passenger.

Ships calling at Salvador are normally boarded by the authorities at any time, day or night, when required. If there is no special urgency, however, the visit is effected the following morning at 0630 hrs.

The inspection area of the Port Health Authorities, Federal Receipt and Maritime Police is defined by a radius of 1 mile around the point of co-ordinates Lat. 12° 58′ 07″ S. and Long. 38° 32′ 18″ W., the area around the point of co-ordinates Lat. 12° 55′ 56″ S. and Long. 38° 31′ 37″ W., indicated in chart 1102 of the NHD.

Vessels may only come alongside after clearance by the Federal Receipt, Port Health Authorities and Federal Police. The free anchorage coincides with the pilotage waiting area and permitted anchorage (anchorage of Monte Serrat).

PILOTAGE: Pilotage is only compulsory for tankers and vessels bound for the port of Madre Deus. The following areas are considered as pilotage zones for vessels bound for the port: Monte Serrat anchorage, the SW anchorage to the Panela bank and waiting and disembarking point for Pilots, shown on NHD chart 1102.

Also considered as pilotage area is all the internal area of the Bay of Todos os Santos (All Saints) to the North of the parallel passing through Monte Serrat. The area of the port of Salvador, inside the breakwater, is considered to be a compulsory pilotage area for vessels over 4,500 d.w.t.

Also considered to be an area of compulsory pilotage is all the zone North of parallel 12° 55′ 05″ S., which passes through Monte Serrat, for vessels over 3,000 d.w.t., bound for the terminal ports and their access channels inside the Bay of Todos os Santos. Request for Pilot can be made through the ship's Agent, 2 hours in advance, specifying the time of entry of the vessel and from which point pilotage will be required.

The Salvador Pilots' Association has VHF-FM radio, at their office and on board the Pilot launch, operating on Channels 16 and 11, listening out on Channel 16.

The address of the Pilots' Association is: Rua da Grecia No. 8, Tel. 242-2221, Edificio Serra da Raiz, 5th floor, room 510.

Vessels should use the signal "HOTEL" to call up the Pilot at the Pilot station (Chart 1102) and may use an audible signal for this purpose.

The Amaralina (ERA) radio station maintains coastal communication, and can also be used to call the Pilot by vessels bound for Salvador. Amaralina radio station communicates with the Pilots by telephone.

APPROACHES: *Access Channel:* There are 2 accesses to the port. The North channel, the main one with the greatest depth, starts at a point Lat. 12° 58′ S. and Long. 38° 32′ 04″ W.; it reaches the manoeuvring area passing to the North of the North breakwater, and is 400 m. long.

The South channel, starts from the Southern buoy of Panela Bank as far as the entrance between the North and South breakwaters, where it reaches the port manoeuvring area. Vessels are not permitted to cross

the bars formed by the breakwaters, vessels leaving port having priority.
Action of Tides: Tidal amplitude in the port of Salvador is 2.5 m. on average, during the tides at the full moon. The flood tide in the port of Salvador runs for 5 hours to the N.N.E. and the ebb for 7 hours to the S.S.W., with a speed of 1.5 knots. During Spring tides, these tides can reach 2 to 3 knots.

During ebb tides, it is suggested that the approach to the quay be made by the South entrance, between the 2 breakwaters, so that there will be no need for a yaw action in the manoeuvring bay formed by the breakwaters. The ebb tide may cause the vessel to swing to the South, in the entrance between the breakwaters.
Manoeuvring Area: The area intended for the manoeuvring of vessels for mooring or unmooring has a length of 100 m. along the whole extension of the quay, with a draft of 27 ft. at any state of tide. In this area, and also in the access channel the anchorage of any vessel is expressly prohibited, except with the prior permission of the Port Captaincy.

ANCHORAGES: There are 3 anchorages for waiting and inspection, see Chart 1102 of the NHD.

South: To the South of Panela Bank, in position Lat. 12° 58′ 00″ S. and Long. 38° 32′ 33″ W. for waiting for the Pilot.

North: In the vicinity of position Lat. 12° 56′ 01″ S. and Long. 38° 31′ 06″ W. In the vicinity of position Lat. 12° 57′ 01″ S. and Long. 38° 41′ 01″ W.

There is a special anchorage for LASH vessels and for the operation of loading and unloading barges. It is located on the alignment of the North light of the North breakwater and the Monte Serrat lighthouse, at a distance of 0.8 miles from this lighthouse, as shown on Chart 1102 of the NHD, in note (1).

Inside the breakwater and to the South of Fort Sao Marcelo there is an exclusive anchorage for the mooring of LASH vessel barges.

PROHIBITED ANCHORAGE: Locations prohibited for anchorage and movement of foreign and national pleasure craft. Mooring and anchorage locations:

a) Bahia Yacht Club (Chart 1102)
   Lat. 12° 59′ 49″ S. Long. 38° 32′ 00″ W.
b) Aratu Yacht Club (Chart 1103)
   Lat. 12° 48′ 36″ S. Long. 38° 28′ 49″ W.
c) Area of the Bay of Itapagipe. (Chart 1110).
d) Section included between the prohibited anchorage area and the LASH barge anchorage (Chart 1102), unless duly authorised by the CPBA.

Areas where anchorage and navigation are prohibited.

a) All the area in front of Inema beach (Chart 1104).
b) Almirante Alves Camara Terminal (Chart 1105).
c) Manoeuvring bay for the quay at the port of Salvador (Chart 1102), port of Aratu (Chart 1103), Terminal of USIBA (Chart 1103), Dow Chemicals (Chart 1103), (only navigation prohibited.)
d) D. Joao Oilfield – location designation in Caution B of Chart 1110.

RESTRICTIONS: There is sufficient depth of water in the outer anchorage to accommodate the largest vessels afloat with safety, and the anchorage can, in addition, take a considerable number of vessels at any one time. The average depth of water in the channel leading to the dock warehouses is 33 ft. (10 m.) except opposite Shed No. 2 where 28 ft. (8.50 m.) is the max. depth. The dock quays are sheltered by 2 breakwaters, 1 running parallel with the shore for just over half a mile. Because of the shallow draft opposite No. 2 Shed, all vessels entering or leaving the port with more than 28 ft. normally enter the Northern Channel.

MAX. SIZE: *Limit of size of vessels navigating in the channels:*

Access to Temadre: Length 250 m., draft 12.8 m., beam 40 m.; Access to Dow Chemicals: Length 170 m., beam 25 m., draft 10.3 m.; Access to USIBA: Length 170 m., beam 25 m., draft 10 m.; Access to the port of Salvador: Length 180 m., beam 30 m., draft 10 m.

Also see "Berthing" and "Tankers".

ARRIVAL INFORMATION: Required before vessel's arrival:
(a) Vessel – ETA; deepest draft.
(b) Cargo – Quantity of cargo to be discharged and specification of hatch list.
(c) Passengers – Number of passengers disembarking.
(d) Bunkers – Quantity required.
(e) Water – Quantity required.
(f) Labour – Quantity required.
(g) Any other information – Number of mailbags to be landed, etc.

Specimen of telegram to be sent from previous port:

1. Vessel's name.
2. ETA Salvador.
3. Draft.
4. Number of passengers disembarking.
5. Number of mail bags to be landed.
6. Quantity of bunkers required.
7. Quantity of water required.
8. Number of gangs required.
9. Any other information.

FLAGS: On entering the port the vessel should fly the following flags:

1. Brazilian flag on fore mast top.
2. Quarantine flag when Salvador is first Brazilian port of call, or when there is a passenger for Salvador from a foreign port.
3. Customs flag (white star on blue background) after the vessel has been visited.
4. Flag "B" if dangerous cargo on board.
5. Pilot flag.

PRIORITY: Passenger vessels and wheat vessels have priority over cargo ships and the so-called "navios mixtos", i.e. cargo ships with a limited passenger accommodation. Passengers vessels are those that carry 60 or more passengers; except when loading 1,000 tons or over in which case they loose their priority.

HEALTH: The Doctor only boards the vessel when Salvador is first Brazilian port of call or when there are passengers from abroad to disembark, in which case Master should advise Agent who will then take the necessary steps required by Port Health. A yellow flag should be flown if Port Health Doctor is required on board.

RADIO: Master should always endeavour to contact Agent through Radio Amaralina coastal station, call sign ERA, and Agent will contact Master the same way. Since this station has a limited range, the Agent at Salvador may be contacted via Rio Radio when North-bound, or Olinda Radio/Fortaleza Radio when South-bound.

TUGS: Tugs are rarely used for berthing, but occasionally used for unberthing. When used, the line is supplied by vessel. Vessels unberthing at Salvador usually avail themselves of a line to a buoy. For tankers berthing at 10 m. quay, a tug is usually supplied to help vessel moor and unmoor. When coming alongside tug joins vessel inside port. 8 tugs available 120-1,688 h.p.

Rules for using tugs:

I) At Temadre and Usiba.
   All berthing and unberthing of vessels with tonnage between 2,000 g.r.t. and 10,000 g.r.t. must be with the aid of 2 tugs. Vessels with gross tonnage between 10,000 and 50,000 g.r.t. must be assisted by 2 tugs of power above 1,000 h.p. Vessels over 50,000 g.r.t. must be assisted by 3 tugs of power greater than 1,000 h.p.
II) In the port of Salvador and other marine terminals.
   All manoeuvres of berthing and unberthing of vessels with gross tonnage between 2,000 and 10,000 g.r.t. must be assisted by 2 port tugs. All manoeuvres of vessels of gross tonnage above 10,000 g.r.t. must be aided by 3 port tugs. Vessels of tonnage less than 2,000 g.r.t., according to the Pilot's judgment, may use a port tug, in special situations.
   In special situations, with winds from the East, according to the judgement of the Pilot, the use of tugs can be dispensed with for unberthing.

BERTHING: No restrictions, but if draft over 28 ft. berthing and unberthing take place from 1 hour before HW until 1 hour after HW. Anchor used for berthing. Tankers at 10 m. quay may unberth at any time, but Pilots usually refuse to berth during hours of darkness because of the bad lighting on this length of quays.

The wharf at Bahia is protected by 2 breakwaters. There are two channels for vessels entering and leaving. On the wharf there are 11 sheds and between some of the sheds sheltered storage spaces.

Heavy lifts are left on the wharf until taken delivery, or discharged directly to trucks.

The sheds are as follows:

	Length (m.)	*Depth (m.)*	*Max. draft. (ft.)*
Coasting Quay	450	8	23.5
Deepsea Quay	1,750	8 – warehouse 5 & 6	23.5
		10 – warehouse 7 & marine station	32.0
Inflammable Quay	300	10	
Intermediary Quay	220	8.5	

All warehouses (excl. No. 11) are fitted with overhead internal cranes.

There is also a length of quay (commonly called 10 m. quay – depth 31 ft.) on which there is no shed or equipment for the handling of general cargo. There are, however, 2 conveyor belt systems for loading magnesite and chrome concentrate. This quay is also used for loading other bulk ores with buckets, refrigerated meat, discharging sulphur and other bulk cargoes.

Explosives would be discharged into lighters at the proper anchorage for discharge of such cargo and taken to special deposits. Forewarning must be given for this cargo in order that arrangements may be made in advance.

Coal/coke are discharged directly to trucks at any of the warehouses. All other goods are loaded/discharged at the wharf.

CRANES: 17×3.2 tons
6×1.5 tons
4× 3 tons
2× 5 tons
4×6.3 tons
4×12.5 tons
1×13.5 tons (mobile)
1×30 tons (mobile)
1×75 tons (mobile)
1×35 tons (container stacker)

STEVEDORES: The Agents at Salvador act as stevedores.

The work at Salvador, especially loading, is considered amongst the best in Brazil, as a rule, sufficient gangs are available.

Masks, gloves are supplied by the stevedores. All other material such as slings, nets, etc., shall be supplied by the vessel.

The ordinary working hours are 0700–1100, 1300–1700 hrs., Mondays to Saturdays inclusive.

For overtime work, permission must be obtained in writing from the Customs and Rural Department. As it would be difficult to obtain permission before each overtime period, a general permission covering ship's stay in port shall be obtained prior to arrival.

1100–1300 hrs. Special permission must be obtained from the Dock Company which is only given to passenger vessels, or for cargo vessels to finish the cargo, or under special circumstances.

1700–1900 hrs. Continuation period. Advice must be given to workmen at 1645 hrs.

1900–2300, 0000–0400 hrs. Considered as night work. Advice must be given to the Dock Company at 1645 hrs. and to the stevedores at 1700 hrs.

2300–2400 hrs. same as 1100–1300 period.

0400–0600 hrs. Continuation period. Advice must be given to workmen at 0345 hrs.

0600–0700 hrs. Second night continuation period. Can be worked under special circumstances to finish the cargo. Vessels discharging/loading bulk cargoes, or loading/discharging reefer cargo, are allowed to work round the clock.

To work on holidays, advice must be given to the Dock Co. before 1700 hrs. the previous working day. For Sunday work advice must be given before 1100 hrs. on Saturday. The same applies for stevedores/tally/coopers.

CARGO INFORMATION: *Inward cargo.* When cargo is discharged from the vessel it is checked, weighed and weight noted by the shore tally-clerk (for account of the ship), by the Dock Company tally-clerk and by the Custom House. If there is a difference in weight, the ship is held responsible and has to pay double duty on same. Once the goods have been checked and weighed ship's responsibility ceases.

Goods are delivered to the consignees on presentation of the bill of lading to the Dock Warehouse.

Transhipment cargo. Foreign cargo for transhipment at Salvador must be so declared on the manifest, and after it has been discharged the Agents have to obtain special Customs permission to tranship it to the port destination and also sign a guarantee that the goods are going to that port and that duty will be paid there. They will be held responsible for that duty until a declaration issued by the Custom House at the port of destination is received by them and handed over to the local Customs.

Transhipment charges vary considerably with the type of cargo and are very high compared with foreign freights.

Outward cargo. Generally, cargo to be loaded is deposited in the dock shed prior to vessel's arrival.

Refrigerated cargo. All reefer cargo is discharged directly to trucks, and vice versa.

Dangerous cargo. Vessels with explosives and inflammables on board are not permitted to come alongside. All vessels carrying this kind of cargo must fly the "B" signal and remain at the proper anchorage. Advance notice must always be given of any vessel carrying explosives and inflammables. Under special circumstances it may be arranged for vessels to come alongside if they only have a minimum quantity of dangerous cargo on board, and the hatch in which it is stowed is not to be opened at Salvador.

When vessels are boarded by the harbour officials, the Master must hand to the Customs Officer and the Federal Police the Dangerous Cargo List.

Corpses as cargo. Notice should be given to the Port Authorities of such cargo carried, if possible, before vessel's arrival.

Vegetable oil in bulk. Vegetable oil in bulk is loaded directly from lighters where the oil is deposited prior to vessel's arrival. Vessels are usually required to supply steam for pumping when they can.

Loading and discharging rate. The average rate for loading bagged and baled cargo is 16–20 tons per gang per hour. (Tobacco has been loaded at 28 tons and cocoa at 30 tons per gang hour). Discharging rate of general bagged cargo is about 10 tons per gang hour.

Heavy lifts. For heavy lifts of more than 3 tons, a request shall be made to the Dock Co. to use the 80-ton capacity floating crane. Heavy lifts may also be discharged directly to the quay with the vessel's own gear when, due to a light draft (under 24 ft.), they can come directly alongside without the use of a pontoon. It is recommended that the Agent be consulted before booking any heavy lifts for Salvador as the heavy lift crane is sometimes out of working order.

Inflammables, fuel, & diesel oil, etc., as cargo. Bulk crude oil, diesel, fuel, inflammables, lubricants, etc., are discharged at the Madre de Deus Terminal, which belongs to the Government owned Petrobras.

Damaged cargo. When cargo is discharged, damaged or pilfered, it is immediately checked and weighed by the Dock Co. and the Customs and separately stored.

The Insurance Co. makes a survey in the presence of the Dock Co. upon request of consignees.

Bulk wheat is discharged to two mills at Salvador, namely the "Moinho Salvador" and "Moinho da Bahia". Average discharging rates (23 hours work per day) are respectively 1,500 and 800 tons.

Handling of mail. Timely notice should be given to the Agents in case there is mail to be landed, stating the number of bags.

As regards outgoing mail the Agents will be advised by the Post Office if there is any and issue the Post Office Pass. The bags shall be placed at the quayside, loading being for the account of the ship.

MEDICAL: When vessels arrive over week-ends or during holidays advisable that Master cable Agent giving advance notice of medical attention required if case is serious. For routine medical attention no previous advice required as ample medical and hospital facilities available.

TANKERS: All tankers loading/discharging inflammables, lubricants, etc., must do so at the Madre de Deus Terminal, which is privately owned by Petrobras, the Brazilian Government-run oil company.

The Madre de Deus Terminal is a T-fashioned quay situated within All Saint's Bay, 18 miles from Salvador. All vessels calling at Madre de Deus must be cleared at Salvador where Agent and authorities board the vessel before proceeding to Madre de Deus. This terminal is equipped only to handle tankers. Water, bunkers and deballasting facilities are available.

Max. drafts are 41 ft. for vessels loading and 37 ft. for discharging, and length 240 m.

Five berths are available, pipe-line is 12 in.

PP1. Max. size 65,000 d.w.t. Depth 13 m.
PP2. Max. size 53,000 d.w.t. Depth 13 m.
PP3. Max. size 16,000 d.w.t. Depth 13 m.

These 3 berths can load or discharge both Crudes, White oils and Products. They are all fitted with deballasting facilities.

PS1. Max. size 4,000 d.w.t. Depth 7.5 m.
PS2. Max. size 2,000 d.w.t. Depth 5 m.

DENSITY: Salt water.

FRESH WATER: Advance information recommended. Rate 15 t.p.h. If several vessels are in need of supply, pressure may not be enough to supply all at once. No water barges available in the port, and all vessels are replenished alongside.

FUEL: Diesel oil can be supplied alongside at Salvador, directly from trucks to vessel, but fuel oil can only be supplied by Petrobras at the Madre de Deus Terminal, 18 miles up the bay.

Lubricants are supplied in drums. Also see "General" before first port.

DEVELOPMENTS: A cereals suction plant to be installed. Equipment to include ore suction tower 150 t.p.h. and 2 portable suction units 60 t.p.h. each.

GANGWAY/DECK WATCHMEN: All foreign vessels must employ a gangway watchman by law. Hold watchmen are optional, depending on request by Masters/Agents.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CUSTOMS ALLOWANCES: Customs officials will place cigarettes and "souvenirs" belonging to crew members under lock and seal. Excepting the Captain, each crew member may keep in his possession only 1 carton of cigarettes and 1 bottle of spirits with seal broken. The Customs will periodically renew the seals for vessels staying in the port for a lengthy period thus enabling new issues to crew.

LIGHTERS: Soc. Alvarengagem de Ilheus are operating 4 lighters in the port with a combined capacity for about 670 tons.

CONSULS:

Argentine
Austria
Belgium
Bolivia
Denmark
France
Germany
Italy
Mexico
Netherlands
Nicaragua
Norway
Portugal
Spain
Sweden
Switzerland
U.S.A.
Uruguay

REPAIRS: The Navy operates a dry dock at Aratu with the following capacity: 35,000 tons; length 230 m.; width 30 m.; depth 8.5 m. Various small vessels can be attended at the same time. There are a number of workshops in Bahia fitted for repairing vessels, but it is recommended that large repairs be effected at the Aratu dry dock. When time allows, repairs may be made whilst the vessel is alongside the wharf. There is no time-limit but, as a rule, a vessel is not supposed to remain idle at the wharf if the berth is needed for another vessel which has to load/discharge.

SURVEYORS: *Lloyd's Agent:* Cory Brothers & Co. Ltd., Avenida Estados Unidos 4 11° andar. Telephone 22858 and 22848.

Bureau Veritas: Harold Taxman, Tel. 20447.

American Bureau of Shipping: Harold Taxman, Tel. 20447.

REPATRIATION: All crew changes and repatriations made via Rio de Janeiro as Salvador has no direct air connections with foreign countries.

AIRPORT: Airport is 31 kms. from centre of town. No direct flights to foreign countries but various daily connections available with Rio, S. Paulo, etc.

TIME: GMT minus 3 hours. From December 1st until March 31st all clocks are advanced 1 hour for Summer time.

HOLIDAYS: *1st January; 6th January; 7th February; *24th March; 21st April; *1st May; 25th May; 24th June; 2nd July; 15th August; 7th September; 2nd November; 15th November; 8th December; *25th December.

*Stevedoring labour always available but dock labour is not on the days indicated above.

POLICE/AMBULANCE/FIRE: Fire Tel. 193; Police Tel. 190.

TELEPHONES: Facilities available for placing telephones on board.

REGULATIONS: Rat-guards must be used at all times, as the Port Health make periodic inspections on the quay.

STORES: Ship chandler can supply meat, vegetables, tropical fruits, canned goods, etc., but no bonded stores for foreign goods available.

AUTHORITY: Capitao dos Portos. Capitania dos Portos do Estado da Bahia.

SANTANA: 00.03 S. 51.11 W. (See Plan Book)

DOCUMENTS: Also see "General" before first port.

6 Crews lists.
3 Crew personal effects lists.
7 Transit passengers list or negative passengers list.
3 (each) Stores lists (Engine, deck and bonded).
5 Cargo manifest or ballast declaration.
7 Disembarking passengers list (if any).
3 Maritime Health certificate.
3 Vaccination list.
Deratization certificate.
Maritime police pass (when proceeding from Brazilian Ports).
Clearance certificate.

PILOTAGE: No Pilots available either for the North Channel entrance and/or for docking and casting off operations.

ANCHORAGE: In front of the port, protected anchorage between mainland and Santana Island, where vessels can safely anchor at any location. Bottom is mud.

RIVER NAVIGATION: Outer bar transit restricted to 32 ft. at LW and 37 ft. at HW. When loaded and outward bound, the Master should study carefully the tides and direction of currents.

RESTRICTIONS: Vessels can depart at any stage of tide. Night transit in North Channel is at Master's discretion.

Channel transit restricted to 32 ft. in low water. Due to shifting of mud banks it is recommended that a set of up-to-date Brazilian nautical charts, covering from outer bar to Santana Port, should be used.

The Hydrographic Office charts No. 40, 210, 201, 202, 203, 204, 205 and 206 are used by mariners to navigate the North channel of Amazon River from the open sea to Porto de Santana.

All depths printed on Brazilian charts are in metres and refers to average Spring LW tide.

The Hydrographic Office of The Brazilian Navy, based on date furnished by the Brazilian National Astronomical Observatory, publishes an annual tide table for the majority of Brazilian ports, including Barra Norte do Rio Amazonas –Ilha do Brigue – Lat. 00° 55′ N. Long. 50° 05′ W. and Porto de Santana.

Nautical charts and tide tables are available through the vessel's Belem (Para) Agent.

In certain periods, but mainly from April to August, there are large logs, trees, etc., drifting down river.

MAX. SIZE: On East side of floating ore pier, general cargo pier has a depth alongside of 29 ft. Along floating ore pier depth ranges from 35 to 90 ft. (at LW). 35 ft. on East end of pier. Tidal range about 9 to 11 ft. Tidal current at middle of river ranges from 2 to 3 knots, while close inshore along ore dock it runs approximately 1-1.5 knots. Amazon river water at Santana is fresh in spite of tides.

Port of Santana: Alongside the floating ore pier, the tidal current continues to run for 60 minutes beyond the time computed from the table. In mid-stream, the delay in the change of current is 90 minutes, depending on the river flow.

HEALTH: Health authorities visit vessel arriving from abroad. Authorities require regular ship's gangway to be lowered. Jacob's ladders not accepted. Also see "General" before first port.

RADIO: Vessels scheduled to load ore at Santana must radio Belem (Para) Agents (preferably via Chatham, Amagansett or Belem Radio) at least 48 hours prior to ETA North Channel. Other means of communication not satisfactory and result in delay.

TUGS: No tugs available.

BERTHING: *Private Floating pier:* Length 247 m. Depth of water 10.6 m. A retractable loading arm loads Manganese at an effective average loading rate of 1,000 long tons per hour for each hatch loaded.

Macapa pierhead: Length 18 m. Depth of water 8.8 m. Fitted with a 65 ton crane, and used for general cargo handling.

Recommended that amidship hatches be used for Santana cargo. Vessels berth according to direction of tidal current. Berthing operations assisted by a motor craft to place lines on shore, East of pier. On West side, lines moored to the bitts on floating fender. Linesmen available to assist berthing and shifting. Ore carriers have preference when docking.

When berthing, use of the anchor must be avoided except in an emergency.

STEVEDORES: Stevedores are available at Macapa about 25 km. by road from the port. Rates and other pertinent details must be arranged through the ship's Agents. Conveyor belt for ore loading fixed, consequently vessels must be shifted by own winches to load various hatches. Effective average loading rate 1,000 t.p.h. Special caution must be taken not to pump all ship's ballast before loading starts, since the height of boom is 40 ft. above water level. Cargo belt trimmed only.

MEDICAL: Medical attention may be arranged at Macapa through ship's Agent.

TANKERS: Discharge at the Dolphins Pier, about 150 m. West of floating pier. Pipe-lines lead to tanks ashore (distance from pier 1,000 m.). Storage tanks have capacities for 35,000 barrels of diesel oil, 9,500 barrels of gasoline and 60,000 barrels of fuel oil. There are no shore facilities available at the terminal for receiving slops, dirty or contaminated ballast. Masters are cautioned that discharging of anything other than uncontaminated ballast will be subject to penalties as prescribed by Brazilian law.

(See Pollution Regulations in "General" before first port).

DENSITY: The Amazon river water at Santana Port is fresh water at any stage of tide. Checking density during load operations is recommended.

FRESH WATER: No drinking water available.

FUEL: There is no suitable installation for fuel supply. See "General" before first port.

GANGWAY/DECK WATCHMEN: Watch by Crew members sufficient.

OPENING/CLOSING HATCHES: Ore-carriers: service carried out by crew. General cargo vessels: service executed by stevedores.

CUSTOMS ALLOWANCES: Limited quantity for use during ship's stay.

CARGO GEAR: No additional requirements as to gear. A heavy-lift stiff leg derrick mounted on the pier. Boom: 60 ft., Mast: 37 ft. 6 in., Capacity: 65 metric tons. Mobile crane (maximum lift 40 metric tons) available for discharge of general cargo from small vessels.

IDENTITY CARDS: Foreign Crew members not permitted to go ashore without presentation of identity card, on which is a photograph of holder and personal details. These cards are provided by the Agent upon arrival. The identity card must be delivered on dis-embarkation to the Federal Police who will return it to the Crew member on re-embarkation.

CONSULS: None. Documents which are to be visaed by a Consul must be sent to Belem.

REPAIRS: Only in cases of extreme emergency and then only minor repairs.

REPATRIATION: Effected by ship's Agent. No Immigration authorities at Macapa.

AIRPORT: Macapa airport 25 km. from Santana near city of Macapa. Scheduled domestic flights from Belem to Macapa, a trip of 25 mins.

TIME: GMT minus 3 hours.

HOLIDAYS: New Year's Day (January 1st); Tiradentes (April 21st); Martyr of Independence; Labour Day (May 1st); Independence Day (September 7th); All Saints' Day (November 2nd); Proclamation of the Republic (15th November); Christmas Day (December 25th).

TELEPHONES: No facilities for placing telephones on board.

GENERAL:

Aids to Navigation – Radio Beacon – A radio beacon is installed at Ponta do Ceu, marking the entrance from the open sea to the river proper. It is operated by the Brazilian Hydrographic Office and the main details are:

Frequency – 290 kHz
Signal letter – EH
Working hours – Continuous
Geographical position – Lat. 00° 45′ 40″ N.
Long. 50° 06′ 58″ W.
Range – 300 miles.
Signal – A0 and A2 (1020 H2)
Character of signal – (EH.....) Twice in A0 during 10 secs.
and A2 (1020 H2) during 5 secs.

Vessels have reported that certain times the beam may stray as much as 15°/20°. This straying is most noticeable during early evening and at dawn, less so during the night, and least during the daytime hours.

Industria e Comercio de Minerios S.A. – ICOMI is not responsible for the location and operation of the various aids to navigation (lights, radio beacon, buoys, etc.).

COMMUNICATION: *Notices* – Vessels scheduled to load ore at Porto de Santana, must send radio to Belem (Para) Agents (preferably via Chatham, Amagansett or Belem Radio) at least 48 hours prior to their ETA North channel. Agents forward this information via telephone to their representative in Macapa who notify the shippers.

Telephone – Telephone communications between Porto de Santana and all Brazilian cities and also international calls, via Embratel (Brazilian Telecommunication Company) are possible every day, Sundays and holidays included.

Telegraph – There is a public telegraph service in Macapa, operated by the Brazilian Post Office and Telegraph Department.

Cable – International Cables are speeded by phoning them to the Agents in Belem (Para) who file them in the local cable offices there.

Mail – Ship's or crew's mail should be addressed in care of the ship Agents in Belem (Para). Mail should not be addressed to Macapa or to Santana.

POLLUTION REGULATIONS: Brazilian Legislation contains several sanctions and penalties applicable to those who cause pollution of any kind. The prohibition against the execution of acts which cause pollution and the respective penalties, both administrative and pecuniary, are principally contained in The Federal Law No. 5318, dated 26/9/67, and in the National Policy for Sanitation, in the Decree No. 221, dated 20/2/67 – Fishing Code, in the Federal Decree 5798, dated 11/6/40, on Rulings for Maritime Traffic, and in the State Law (State of Rio de Janeiro) No. 6753, dated 10/12/71.

The sanctions and penalties can be applied cumulatively against infractors, and among those, special attention is called to the penalties foreseen in Federal Law No. 5357, 17/11/67, of which the first article reads:

> "Article 1 – Vessels or maritime or river terminals of any kind, foreign or national, which discharge debris or oil in waters which are within a strip of 6 (six) nautical miles from the Brazilian coast, or in rivers, lakes or other stretches of water, will be subject to the following penalties:
>
> (a) vessels, to the fine of 2% (two per cent) of the greatest minimum salary in force in the national territory, per gross register ton or fraction thereof:
>
> (b) maritime or river terminals, to a fine of 200 (two hundred) times the greatest minimum salary in force in the national territory.
>
> Sole paragraph – in the case of repetition the fine will be applicable in double".

In addition to the administrative and pecuniary penalties, under the new Brazilian Criminal Code, (Decree-Law No. 1004 of October 21, 1969, which was put in effect as of January 1, 1974, according to Law 5857/72, acts causing pollution constitute a violation punishable with imprisonment as follows:

> "Article 303 – Pollute lakes and rivers or, in inhabited places, the shores and the atmosphere, thus breaching provisions of federal laws or regulations:
>
> Penalty – Imprisonment up to 3 (three) years and payment of a 5 to 25 day fine.
>
> Sole paragraph – If the crime is not wilful the penalty shall be imprisonment from 2 months to 1 (one) year".

AUTHORITY: Industria e Comercio de Minerios S.A.-Icomi.

SANTEREM: 02.25 S. 54.43 W.

Also see "General" before first port.

Santerem is located on the right bank of the Tapajos River which joins the Amazon River.

BERTHING: 520 m. of quay of which 380 m. is a pier, 2 warehouses with an area of 3,000 cu.m., open air area of 10,000 sq.m.; mechanical workshop, 60 ton weighbridge, administrative building, water tower and residence for the Port Administrator.

2 deep sea vessels or larger coasters can come alongside, with a minimum of 10 m. depth of water, and at the same time, 2 vessels of lesser draft can be berthed in the inner area where the depth is 6 m.

To handle river vessels, there is a marginal quay, with a minimum depth of 3 m.

There are at present two 6 ton cranes, with plans to install a further four.

The principal export is meat which is delivered by road. A cold store is to be built.

FUEL: Fuel oil available at Petroleo Sabba private wharf. Also see "General" before first port.

AUTHORITY: Companhia Docas do Para.

SANTOS: 23.56 S. 46.19 W. (See Plan Book)

PORT LIMITS: The port of Santos is situated in the centre of the State of Sao Paulo, and the port installations spread over an estuary bounded by the islands of Sao Vicente and Santo Amaro.

The port limits are:–

(a) Parallel alignment of 24° 02.7′ S., in the limits Morro do Munduba (Munduba Hill) and Ponta do Itaipu (Itaipu Point);

(b) Mar pequeno;
(c) Channel of the port of Santos;
(d) Piacaguera Channel;

DOCUMENTS: The following documents, etc., are required to be presented to the authorities upon ship's arrival.

To Port Health Authorities:

1 Crew List
1 Free Pratique Certificate from the first Brazilian port of call, if any.
1 Maritime Declaration of Health (only at the first Brazilian port).
Deratization Certificate.

To Federal Revenue Bureau (Custom House):

Envelopes addressed to the Federal Revenue Bureau containing a cargo manifest and copies of Bills of Lading covering cargo loaded at foreign ports, or a negative manifest if no cargo loaded for Santos. Envelopes for the Federal Revenue Bureau – from Federal Revenue Bureau's Delegates of every Brazilian intermediate port of call following the same procedure. Tankers are permitted to bring bulk petroleum products on 1 manifest "for Brazil", although cargo may eventually be discharged at 1 or more Brazilian ports. In the latter case, the original manifest is visaed by the Federal Revenue Bureau at each discharging port, is kept on board and delivered to the Federal Revenue Bureau at the last discharging port.

3 Crew Lists.
3 Store Lists (Deck, Engines, Cabin, etc.)
3 Lists covering Crew's belonging.
1 Copy of each of the above Lists duly visaed by the Federal Revenue Bureau of the previous Brazilian port of call, if any.
Federal Revenue Bureau's Pass from the last Brazilian port of call, if any.
Statement of Cargo Discrepancies, also 1 List giving the name of all preceding ports of call with dates of arrival and sailing, respectively.

To Maritime Police (DOPS):

3 Crew Lists plus 1 visaed by the Maritime Police authorities of the last Brazilian port of call, if any.
2 Stowaway List and Declaration (if stowaways found on board).
1 Captain's General Information Report covering the number of passengers on board for Santos, or in transit from each foreign port of call, also the number of Crew members.
Maritime Police Pass from the last Brazilian port of call, if any.

To Port Captaincy:

Port Captaincy's Pass from the last Brazilian port of call, if any.

The Captain must also fill out an Arrival Declaration giving all data concerning his vessel as well as the number of crew, passengers on board, ports of call, cargo loaded for this port, Agents, etc.

To Post Office: Mail lists or mail passes from every port of call.

Passengers to land or in transit:

Whenever there are passengers on board, the following additional documents are required:

Passengers Disembarking:

2 Passenger Lists together with individual baggage declarations, in duplicate, for the Federal Revenue Bureau.
2 Passenger Lists for the Health Authorities.
3 Passenger Lists and Individual International Embarking/Disembarking Cards, duly filled out, for the Maritime Police.

Passengers in Transit:

2 Passengers-in-Transit Lists for the Port Health Authorities.
1 List for the Maritime Police visaed by the Maritime Police Authorities of the last Brazilian port, if any.

PILOTAGE: Pilotage is compulsory for Brazilian flag vessels of more than 500 d.w.t. and all foreign vessels, as well as tankers.

Pilots embark and disembark in the South part of the buoyed entrance channel abreast parallel 24° 00.5′ S., in the proximity of Ilha das Palmas (Palmas Island). Shifting of berth alongside the quay, anchorage in the inner anchorages and other tasks requiring the shifting of vessels, should only be carried out with a Pilot on board.

When arriving, vessels may anchor in the outer anchorage without a Pilot, but should not cross the buoyed channel.

Pilot's services may be requisitioned with 2 hours notice, by telephoning the Pilotage station, telephone 36–3738, or directly by the vessels through the Estacao Costeira do Servico Movel Maritimo, Santos – Radio PPS – (Maritime Mobile Service Coastal Station) or through VHF, calling the Pilotage station on Channel 16, which maintains a permanent watch (it can also be reached through Channels 10, 11 and 13).

The Co-operative of Pilotage Services are located at Avenida Almirante Saldanha da Gama, No. 64. The Co-operative have their own boats, which are equipped with radio.

If the weather conditions prohibit the Pilot from boarding, the vessel must remain at anchor until the weather improves.

If on departure the Pilot is unable to disembark he should be landed at the next port of call.

Fly "H" flag when Pilot onboard in order to avoid fine from Captain of the Port.

APPROACHES: *Approach Channel:* The Approach Channel is marked on Chart 1701 of the DHN (Hydrographic Office) which contains all necessary information concerning beacons, depths and leading line lights.

As the projected depths for the sections of the channel shown in the note appearing in Chart 1701 have not yet been reached in all sections, it is important to observe the existent information given by the "Notice to Mariners".

The mean depth of Sections B and C is 11.5 m.; in Section D, Piacaguera Channel, 10 m.

Vessels drawing 36 ft. or over should be manoeuvred during HW.

In the Piacaguera Channel, Section D, due to its small width, depth and dimensions of the turning basin, the following limits of ship's characteristics should be observed:

Vessels with a length between perpendiculars from 185 m. up to 195 m.:

Maximum breadth	29 m.
Maximum draft	9 m. (HW) 8.3. m. (LW)

Vessels with a length between perpendiculars from 195 m. to 205 m.:

Maximum breadth	29 m.
Maximum draft	8.7 m. (HW) 8.0 m. (LW)

Vessels with a length between perpendiculars over 205 m. must not enter the channel.

Note: Vessels negotiating the Piacaguera Channel should employ two tugs, at least one with tow line held fast.

Tides and Currents: The rise and fall has a mean value of about 1.5 m.; its intensity is at Spring tides, up to 1 knot during HW and about 1.4 knots during LW.

Exact figures with respect to the range of tide rise and fall and intensity may be obtained in publications of the DHN (Hydrographic Office). Tide tables and in the table of tidal currents for the port of Santos.

ANCHORAGE: Chart 1701 of the DHN (Hydrographic Office) indicates the anchorage areas and the limitations to be observed in these areas.

Vessels with port operations to be performed, can only remain at anchor in the inner anchorage areas 1 and 2, for a period of 24 hours. Beyond what is specified above, the Ships' Masters or their representatives should obtain the required permission from the Port Captaincy.

When vessels anchor in the inner areas Nos. 1 and 2, normally only 2 cable lengths should be used. Notwithstanding, it is common in the port of Santos for strong winds to blow from N.W., causing accidents, therefore, for the sake of security in those areas, it is compulsory for vessels to maintain their engines ready in order to face any eventuality, preserving on board the necessary crew for manoeuvring.

The traffic and anchorage of vessels in the vicinity of the military fortifications of Itaipu and Guaruja (Itaipu and Andradas Fortresses) is not permitted; all craft should keep a minimum distance of 100 m. from the neighbourhood of Morro do Itaipu (Itaipu Hill) and Morro do Munduba (Munduba Hill).

RESTRICTIONS: The access channel and port area have been dredged to 13 m. and dredging will continue to a depth of 13.5 m. However, depth alongside the deepest general cargo quay does not exceed 31 ft. 6 in. at high water, and can be as low as 27–28 ft. at low water.

The maximum permitted speed in the channel is 6 knots, except in cases of justified emergency.

In the Piacaguera Channel navigation is only permitted by one vessel at a time, and during daylight only.

MAX. SIZE: Regulations in force stipulate that vessels drawing max. 28 ft. and not exceeding 750 ft. in length may enter/leave the port at any state of tide, day and night. Those drawing 28 ft./30 ft. are subject to tide. These are the official drafts for the port, however in practice, depending on tide, vessels up to 32 ft. may also enter/leave the port.

Also see "Developments".

RADIO: Santos Coastal Station, VHF Channel 16. Working 24, 25, 26 and 27. S.S.B. facilities will be available at a later date.

HEALTH: Port Health Authorities consisting of one doctor and one assistant will check all vaccination certificates and issue a free pratique pass, which shall remain on board for presentation at subsequent Brazilian ports of call. Masters can obtain free pratique by radio, which does not mean that the doctor will not come on board, but only that other authorities can board the ship before his arrival.

Free pratique by radio: Master should radio to Agent (in Portuguese) as follows: "Para Sa Portos condicoes sanitarias a bordo satisfatorias" (Master's name) which means: "Sanitary conditions on board satisfactory". *N.B.* "Sa Portos" is the cable address of Port Health Authorities.

TUGS: Seven tugs available, equipped with radios (VHF Channels 10, 13 and 16). 1,000–1,680 h.p. 13 small tugs available, 250–880 h.p.

The use of two tugs or more is compulsory in the Piacaguera Channel.

Vessels should dock, preferably against the tide.

The assistance of at least two tugs will be obligatory in the following places:

Saboo Quay – Points 1, 2, 3 and 4;
Warehouses 13, 26 and 9, where the pneumatic wheat unloaders are located;
Conceicaozinha; Alemoa and Barnabe Island

Note: The power of the tugs should be in accordance with the deadweight of the vessels listed in the table for the other areas of the port.

Outside the above mentioned areas, when employing tugs, the following minimum requisites should be observed:

Vessels up to 4,000 d.w.t.	optional
Vessels from 4,001 to 6,000 d.w.t.	1 tug up to 1,000 h.p.
Vessels from 6,001 to 10,000 d.w.t.	1 tug of more than 1,000 h.p.
Vessels from 10,001 to 30,000 d.w.t.	2 tugs (one with more than 1,000 h.p.)
Vessels over 30,001 d.w.t.	2 tugs (one with more than 1,000 h.p. and 1 with more than 1,500 h.p.)

Note: Should no tug of the indicated power be available, tugs of immediately superior power should be requisitioned but the cost of attendance should be equal to that of the tug which would have been required by the above scale.

BERTHING: The length of the available quay wall is as follows:

General cargo from abroad	4,070 m.
Coastwise general cargo	246 m.
Bulk cargo: liquid	1,512 m.
Bulk cargo: solid	1,809 m.
For yachts and other small craft	462 m.

Depth alongside quays:

Warehouse No. 1 to No. 12	7 m.
,, No. 12–A to No. 22	11 m.
,, No. 24 to No. 27	8 m.
,, No. 29 to No. 37	11 m.
,, No. 38 to No. 39	13 m.
Alemoa Terminal	12 m.
Saboo Quay	10 m.
Barnabe Is. (inflammables)	10 m.
Conceicaozinha Terminal	13 m.

Wharves. Total length 6,013 m. Inner Harbour (Saboo New Quay) 800 m. (depth 11 m.). Barnabe Island pier 300 m. (depth 10 m.).

Special cargo handling facilities. Refrigerated cargo: Refrigerated cargo after discharge is deposited in the cold storage (between warehouses 23 and 25). The Receiver is usually responsible for cartage and storage arrangements as well as for the required temperature to be maintained in cold chambers.

Bulk cargo. Grain elevators: There are 3 elevators in Santos from which wheat can be discharged direct into freight cars, owned by: Cia. Docas (with external silos) between Sheds 25 and 26; Moinho Paulista between Sheds 12A and 13; Moinho Santista between Sheds 8 and 9.

Cosipa Terminal, depth 10 m.; Ultrafertil Terminal, depth 10 m.

Fertiliser, sulphur, etc, in bulk can be discharged at any point along the quay where 6-ton cranes equipped with automatic motor-driven grabs or shovels are in operation. Alternatively, cranes with ordinary hand-filled buckets are used. The usual place for handling this type of cargo is by the Saboo bend.

Special/valuable cargo: Special or valuable cargo, objects of art, precious metals, etc., are discharged without special formalities and may be kept in Shed 12A, where there is a special safe.

BULK HANDLING FACILITIES: The Ultrafertil Terminal is situated East of the Cosipa Terminal and both make use of the same manoeuvring basin with depth of 10 m., connected with the Port of Santos by a dredged channel 8 km long, 10 m. in depth and 60 m. in width.

Cosipa Terminal consists of a pier 150 m. in length and 22 m. in width, built on concrete tubing, with a depth of 10 m., allowing for the berthing of vessels of up to 22,000 d.w.t. Future plans foresee the lengthening of the pier to 250 m. and a depth of 13 m., enabling it to receive vessels of 45,000 d.w.t.

Equipment for the discharge of coal and ore is installed at the pier, capable of handling 600 t.p.h., as well as equipment for the loading of steel plates produced at the plant.

Ultrafertil Terminal is an open dock in the form of an "L" built on concrete tubing, 240 m. in length and 15 m. in width. At its main point, vessels of 23,000 d.w.t. and drawing 10 m. may berth. The secondary point permits the berthing of vessels of up to 3,000 d.w.t. (liquid gas carriers).

The terminal is especially equipped for the discharge of bulk solids at a rate of 500 t.p.h. and is likewise equipped with pumps and adequate pipes for the discharge of liquified gas.

Macuco Novo Quay: Export terminal for cereals. Length 280 m. Max. draft for vessels is 13 m. Storage capacity 60,000 tons. Loading rate 3,000 t.p.h.

Container Terminal at inner part of port. Equipped with 3 heavy weight shore cranes, capacity 30 tons each. Loading/discharging rate: 20 pallets per hour, using fork lifts.

Conveyor Belts:

(a) conveyor belt for salt, in front warehouse No. 23, receiving product from the ship by means of grabs and transporting it to the mill of SALMAC S/A with capacity for 500 t.p.h.

(b) 8 conveyor belts for fertilisers at Conceicaozinha Island with variable capacity from 500 to 2,000 t.p.h., depending on the product.

Wheat Unloaders:

Pneumatic type: Capacities: 5×150 t.p.h.
2×120 t.p.h.
4× 60 t.p.h.

Location: 3 in front warehouse No. 9, of which 1×150 t.p.h. and 2×60 t.p.h.; 4 in front warehouse No. 13, of which 2×150 t.p.h. and 2×60 t.p.h.; 4 in front warehouse No. 26, of which 2×150 t.p.h. and 2×60 t.p.h.

All adequate for the discharge of wheat using conveyor belts into silos belonging to the port, or privately owned silos existent in the port area.

Roll-on/Roll-off: One ramp available.

CRANES: *Heavy lifts:* Cia Docas operates 2 floating cranes – one 250 ton and one 150 ton. The 150 ton crane reaches 22 m. in height and can handle lifts within a radius of 10 m.

Quay Cranes: 153×1.5–30 tons.
Mobile Cranes: 48×4–9 tons.

STEVEDORES: All longshoremen are in employ of Cia. Docas, which holds charter for general operations at Santos Docks. Their services can be requisitioned up to 1500 hrs. for vessels at berth/expected to berth next day. Stevedores ordered but not used shall be paid full day or night. Therefore, if the men should be kept standing by (inactive) at 0700 hrs., their period runs up to 1700 hrs., and at 1900 hrs., their period runs up to 0400 hrs.

Port Workers: In Brazilian ports there are 2 categories of workers engaged in handling cargoes in loading and/or unloading ships, namely:

Longshoreman: In the employ of Dock Company, to work ashore operating the cargo from the ship's tackles to the warehouse or to waggons, lorries, etc. as well as in the reverse operation.

Stevedores: They are called "autonomous" because they have no ties of fixed employment and they are engaged by Shipowners or their Agents to work on board the ships in loading and/or unloading operations. They are professional and qualified workers grouped in their respective syndicates or trade union.

MEDICAL: Hospitals and Nursing Homes available.

FRESH WATER: Adequate supply of fresh water is always available from hydrants (rate 40 t.p.h. – connections 7 threads per inch in 2 in. and 1.5 in.) along the quay (day and night) or from water-barges (Piloes). Water barges (3) cannot supply more than 2 ships per day, their capacity being only 250 tons, which can be pumped into the ship's tanks at the rate of 80 t.p.h. Cia. Docas should be advised 24 hours in advance, priority being given to passenger vessels.

FUEL: MFO, MDF, and gas oil can be supplied at Vallongo by Shed No. 1 or at the Saboo New Quay Extension, or by barge, if up to 300 tons. Applications for supplies should be made a few days in advance to avoid delay in delivery.

TANKERS: Discharge terminals at Saboo Quay, Alemoa and Ilha Barnabe.

Alemoa Terminal: Allows simultaneous mooring of 2 tankers with capacity of up to 50,000 d.w.t. Length of wharf 630 m. Depth of 12 m. at LW. Sixteen "Chiksan" arms available. Unloading rate 500–2,000 t.p.h. Distance between manifolds 180–260 in. Connections 6 in. and 8 in.

Ilha do Barnabe: Length of dock 301 m., depth 10 m. The dock is used for loading, unloading and storage of liquid fuel.

Saboo Quay: Connections – 6 in., 8 in. and 12 in.

REPAIRS/DRY DOCKS:

Shipyards: Santos Dock Company, Wilson Sons S/A, and various others for small size craft.

Repair Shops: Santos Dock Company, Wilson Sons S/A and various others for maintenance services and marine repairs such as: mechanical, boiler, electrical, electronic and refrigeration.

Drydocks: Wilson Sons S/A. With capacity for vessels of 65 m. in length, 12 m. breadth and maximum drafts of 4.20 m. aft and 3.90 m. forward.

Slipways: Santos Dock Company, with two cradles and capacity up to 300 tons with a maximum of 45 m. in length and 11 m. breadth; there also exist innumerous slipways for small size craft.

Many other repair shops and slipways of lesser capacity are available.

All the main engine manufacturers (B & W, MAN, Sulzer, MaK, amongst others) have service representatives in Santos and many major repairs, including re-engining of ships, have been effected in this port.

Metalock do Brasil, S.A.: General voyage repairs, including all usual mechanical services, machining, foundry, engine repairs and electrical services.

Also specialised Metalock repairs, crank shaft *in situ* machining and chocking of engines and machinery.

SURVEYORS: Practically all the Classification Societies are represented in Santos. Hold and derrick inspections as well as cargo surveys, are executed expertly, among others, by Perimar Ltd. a surveying firm which also performs testing, sampling and technical research. Its address is: Rua Amador Bueno, No. 38, conj. 91, 9th floor, P.O.B. 624, 11.100 Santos. Telephone 35.2677. Telex 013–1213. Cables: Perima Santos.

P & I Clubs: Most associations, British, Scandinavian, Polish, Japanese and Greek are represented by Pandibra Ltda. at the following address: Rua XV de Novembro 65, 8th Floor, P.O.B. 550, 11.100 Santos. Telephone Exchange No: 34.7228. Telex: 013–1248. Cables: Pandibra Santos.

WATCHMEN: Masters of vessels may at their own discretion have crew members posted as watchmen, but are strongly recommended to have shore people for the job, specially when vessel is carrying any kind of pilferable cargo.

OPENING/CLOSING HATCHES: May be performed by ship's crew or by stevedores.

CONSULS: The following countries are represented in Santos:

Italy
Denmark
Finland
Paraguay
Portugal
France
U.K.
Chile
Argentina
Belgium
Uruguay
El Salvador
Netherlands
Sweden
Panama
Greece
West Germany
Norway
Bolivia

DEVELOPMENTS: Dredging operations being carried out in order that vessels up to 45,000 tons with a draft of 12.3 m. can come into the port and go alongside Conceicaozinha. As a second phase, this dredging will be extended to the estuary to attain a depth of about 14 m. From this locality up to the Cosipa channel, the dredging should reach a depth of 12 m.

For the prolongation of the Macuco Quay, a depth of about 13 m. is contemplated. A section of another 375 m. with a depth of 11 m. and another of 230 m. with a depth of 13 m. will be made in an extension of 605 m.

A container terminal is being built on the left bank of the estuary. The terminal will be capable of handling 2 container vessels drawing 30 ft., and is expected to start operations during the second half of 1980.

AIRPORT: Situated at Sao Paulo, about 70 km. from Santos. Full international services.

TIME: GMT minus 3 hours.

HOLIDAYS: No work is accepted on the following days: Christmas Day; New Year's Day; Independence Day; Proclamation of the Republic Day; Easter; Good Friday; May 1st.

On Christmas Day, no work available except on passengers' luggage. Working overtime on holidays is possible provided application is made not later than 1500 hrs. on the preceding day. On Sundays work stops at 1900 hrs. for freighters, and is allowed to continue for passenger vessels when only handling luggage.

IDENTITY CARDS: I.D. cards not required.

TELEPHONES: Every vessel berthing between Sheds 1 to 30 will have a telephone on board; available only for local calls.

GENERAL: Flags to be shown by incoming/outgoing vessels: (*a*) National flag. (*b*) Brazilian flag. (*c*) Yellow flag – (Q) (whenever doctor's clearance is required and up to obtainment). (*d*) Customs flag (blue with a white star – to be flown 24 hours a day, after clearance is granted.)

The following circular letter was handed to a Master by his Agent (May 1980).

Re.: PORT REGULATIONS

We kindly request your attention to the following regulations in force at this port, to which you should strictly adhere, otherwise, it will result to heavy fines being imposed by the local Port Captaincy:

1. a) *Gala Flag:* The gala flag is obligatory on the following dates, considered as official national holidays:
   September 7th (Independence Day)
   November 15th (Proclamation of the Republic)

   b) *Half Gala Flag:* The half gala flag must be used on the following dates:
   January 1st (New Year's Day)
   April 21st (Tiradentes' Day)
   May 1st (Labour Day)
   December 25th (Christmas Day)

   c) *Mourning Flag:* On November 2nd (All Saints Day), the vessel should dress the flag in mourning.

   The regulations mentioned above should be followed whenever the dates are coincident.
2. *Brazilian Flag:* The Brazilian flag is to be hoisted by the vessels in port, daily at sunrise and accordingly lowered at sunset. It must be hoisted in the correct position and must be double-faced, i.e., not printed and not painted on one side only. The two sides of the flag must be absolutely identical.
3. *Pilot Flag:* The moment that a Pilot boards the vessel, his indicative flag must be hoisted immediately and should only be lowered at the time he leaves the vessel. The local Port Captaincy is imposing heavy fines on infringers.
4. *Pilot Rope:* Whenever the use of this equipment becomes necessary, same should be immediately removed as soon as the Pilot leaves the vessel, otherwise, the Port Captaincy will impose heavy fines.
5. *Gangway:* All vessels should arrange a net to be placed under the gangway in order to prevent accidents. Violators may be fined according to the Brazilian law, in the event a worker or a crew member falls from the gangway, for not having placed the said net as required.
6. *Bulbous Bow:* In accordance with the port regulations, during night time, from 1800 hrs. to 0600 hrs., a light should be placed at the bulbous bow, otherwise, the Port Captaincy will heavily fine the vessel.
7. *Refuse/Garbage:*

   a) Vessels when berthed alongside the quay or at anchor in the areas foreseen in the "Norms for Traffic and Permanency at Ports" *must not leave* hanging from the sides of the vessel containers or any other type of recipient for collecting refuse or garbage.

   b) Refuse/garbage originating from aboard the vessel during the ship's stay in port must be placed in containers or in drums or in any other type of collecting recipient, which must be kept with a lid or cover, on deck, until the time they are withdrawn from the ship.

   c) The vessel not being in operation (loading or discharge), the deck must be clean and all dunnage wood should be properly stowed or lashed.

   d) Refuse/garbage of any nature, specially in the case of solids which float, resulting from loading or unloading operations, must be discharged before the ship sails.

   e) In order that the regulation in item (d) may be controlled, Masters of vessels should enter or record in their logbooks, item 26, the following:
   (i) Dumping of oil or refuse/garbage into the sea, date, hour, position, distance from the coast or island/s where same occured, kind of polluting substance dumped, approximate quantity dumped and reason why the material was not transferred to shore; and
   (ii) Register the transfer to terminals, barges alongside or lorries, with details of tugs, destination and approximate quantity which was transferred.

   f) Refuse/garbage which are not polluting, as well as the results of the cleaning of reservoirs used for by-products of petroleum and holds where chemical products were used, *must not be dumped into the sea.*

The above-mentioned regulations should be observed and seriously noted, since the Port Captaincy keeps day and night watch on the sea and shore, photographs are taken as evidence, and heavy fines are imposed, reasons why we are asking for your kind co-operation.

Observation: In addition to regulations cited above, the Brazilian flag, as well as the flags signifying the "Call Sign" of the vessel – *properly and correctly hoisted* – must be flown on the arrival/entrance of the ship.

SERVICES: Pollution control and tank cleaning services available.

REGULATIONS: Should vessel use any type of small craft for embarking or disembarking, the landing on shore should take place within a Customs area.

Vessels at anchor may not lower their accommodation ladder and vessels alongside may not lower the offshore gangway.

Whilst in port, at anchor or berthed alongside the quay, vessels should collect garbage in adequate containers fitted with covers whilst those lying in open spaces should be kept with their covers on.

Drainage of holds or tanks containing chemical products, oils or polluting substances which may affect the flora and fauna, is prohibited.

Painting and treatment of ship's sides and decks is authorised, the lowering of planks and craft for this purpose being permitted independently of licence from the Port Captaincy.

SHIPMASTERS REPORT: July 1980.

Officers and crew should be very alert with regard to stealing. It is not uncommon for armed robbery to take place at the anchorage. Cargo has at times been stolen from containers. Also crews effects have been stolen and on occasions the Master's safe has been robbed.

Prior to departure, an inspection is made by the officer from the Harbour Master's Office. He will check the lashings of the deck cargo, the cleanliness of the deck and will ensure that the decks are clean with no garbage in bags, containers or cartons as it is feared that once the vessel is at sea the garbage will be dumped. There is a good garbage collection service in the port.

AUTHORITY: Companhia Docas de Santos. (After November 1980 – Portobras).

SAO FRANCISCO DO SUL: 26.10 S. 48.34 W.

DOCUMENTS: See "General" before first port.

PILOTAGE: Not compulsory. Pilots join vessel at the Island Ilha da Paz about 5 km. East of bar, Pilot comes from inside with boat. Cables informing ETA to Agent.

ANCHORAGES: Channel low tide 30 ft. high tide 35 ft. Port: low tide 20 ft. high tide 23 ft.

RESTRICTIONS: Bar draft: max. 23 ft. Bottom: bar, channel and port: sand and mud. Speed of current: channel low water 4 knots high water 5 knots. Note: Reports received in August 1976 indicate that the bar has now been dredged to a depth of 8.50 m.

HEALTH: Vessel must present free pratique issued at first call-port. Port's doctor will visit vessel.

RADIO: Call Agent. Sao Francisco do Sul, via Florianopolis Radio.

TUGS: Two tugboats for shifting ships and barges.

BERTHING: Quay No. 1. Length 450 m., Quay No. 2. Length, 150 m. Depth alongside varies from 6.5 m. to 8 m.

CRANES: 7 cranes available with capacities between 3 and 8 tons.

TANKERS: Shipmaster's Report: 1977

Description and Approach: (Refer B.A. Charts No. 550 and 3968)
This terminal consists of one S.B.M. situated about 4 miles from the shore off Ilha de Sao Francisco in position Lat. 26° 13′ 53″ S. Long. 48° 25′ 03″ W. A light beacon, Iso. Fl. R. 2 sec., is exhibited from the buoy.

The land in the vicinity of Ilha de Sao Francisco do Sul is mainly low lying with sandy beaches, however, several small steep-sided hills, 405 to 496 ft. high, are to be found near the coast at Cabo Joao Dias and from Punta da Enseada to Punta da Prainha. These are conspicuous and identifiable on radar some 35 miles off, as is Ilha da Paz in the Arquipelago das Gracas off the Northern end of Ilha de Sao Francisco.

When making the approach the course was maintained to keep outside the 20 fathom line until to the East of the S.B.M when the course was then altered to 273°. Accurate radar fixes had been obtained by this time and shortly after crossing the 20 fathom line the S.B.M. was observed on radar at a range of 13 miles and was positively identified soon after when its beacon was sighted at a distance of 12.75 miles. At the time the visibility was good and the sea calm.

About the same time the beacon on Ilha da Paz (Fl. 20 sec. 23 miles) was sighted and identified at a range of about 16 miles.

Anchorage: An hour and a half before arrival contact was made on VHF radio with the Terminal Operators who instructed the vessel to anchor in position Lat. 26° 13′ S. Long. 48° 22′ W., a distance of 3 miles from the S.B.M. they also advised that the Pilot would board the vessel at 0500 hrs. the following morning but due to language problems it was difficult to exchange much information.

Throughout the time at anchor (18th/2030 hrs. to 19th/0600 hrs.) soundings were taken every half hour and the least depth observed was 23.92 m.

Later I was handed a printed sheet by the pilot advising that the anchor positions for vessels waiting to berth at the Tefran Terminal are as follows:—

For Drafts up to 16 m.	Lat. 26° 12′ 00″ S. Long. 48° 27′ 00″ W.
Drafts 16 m. up to 18.5 m.	Lat. 26° 12′ 30″ S. Long. 48° 25′ 00″ W.

Taking into consideration the depth of water inshore and also to the North of the buoy I feel that the anchor position received by VHF is far safer and allows advantage to be taken of deeper water also this position gives more room to manoeuvre when berthing.

Charts: The S.B.M. does not lie within the area covered by the B.A. small scale chart No. 550 but this is useful for purposes of identification, however, I believe a small scale Brazilian chart is available which covers the whole area.

Pilotage: Two Berthing Masters are employed at the terminal but only work alternate ships. The Berthing Master remains on board throughout the discharge.

For boarding they prefer to use an ordinary pilot ladder but when departing like an accommodation ladder to be rigged.

Mooring Arrangements: The buoy is of usual size and shape to other S.B.M.'s and the mooring operation follows the usual pattern. Ships' lines are run out as messengers and two buoy ropes, 18 in. circumference and 50 m. in length, are hove on board and secured, 1 on each bow, by pulling numerous bights of the ships' mooring ropes through the eyes of the buoy ropes and turning each bight up on the bitts. This is a rather cumbersome method however it presented no difficulties.

Berthing is only permitted during the hours of daylight but unberthing may be carried out at any time.

The hoses may be connected on either side of the vessel as required by the Pilot on boarding.

Shore Personnel: Apart from the Berthing Master, a terminal operator and 10 men board for mooring and connecting the hoses. They all remain on board throughout the discharge. The mooring/pipe-line gang bring their own mattresses with them but rely on the ship to provide food.

Pilot boat/Work boat: An ex-fishing boat, 18 m. in length, with a black hull and black tripod mast is stationed at Enseada and used as a pilot and general work boat. Additionally for mooring a small open boat is used for running and connecting ships' lines to the buoy ropes.

In the near future 2 new and faster launches of about 18 m. in length will replace the ex-fishing boat, however, I was unable to ascertain whether or not she will still be used for pipe-line/mooring work.

Depths: As previously stated the minimum depth observed at the anchorage (26° 13′ S. 48° 22′ W.) was 23.92 m. with a sandy bottom, but evidence of some mud was found when weighing anchor.

On arrival at the S.B.M. near to the time of low water the depth was observed as 23.17 m. The Pilot advised me he thought the depth at the mooring was 22 to 23 m. also that the nature of the bottom in the vicinity of the buoy was fine sand.

To seaward of the S.B.M. the bottom appears to be fairly uniform, however, a sounding of 11 fathoms is shown on the chart 097.5° × 1.7 miles from the buoy.

Current: Referring to the South America Pilot Volume No. 1, the predominant current runs in a Southwesterly direction for most of the year with a rate of up to 2 knots, except for the months of May, June and July when the direction is Northeasterly. However, the currents and tides are influenced by the prevailing wind conditions.

Weather: I was advised by the Pilot that the area in general enjoys good weather and that most of the time the wave heights do not exceed 1 m. He also remarked that fog is rare but some mist is experienced during the months of July and August.

Maximum Draft at the S.B.M.: When questioned about the maximum draft accepted at the S.B.M. the Pilot replied that it was 18.5 or 19 m.

Terminal Equipment:

Floating hoses	2×275 m. × 16 in. diam.
Hose flanges	16 in. diam.
Hose – Buoy/Pipe-line	20 in. diam.
Pipe-line – Buoy/Shore	1×11 kms.×32 in. diam.
Distance – Ship/Shore tanks	11 kms. (6 nautical miles).
Max. Back/Pressure permitted	10 kgs.
Capacity of Shore tanks	478,260 cu. m.

Actual Discharge Rates Attained (Long tons):

Rate on bulk	7,200 t.p.h.
Rate overall	6,361 t.p.h.

Customs/Port Health: The normal Brazilian Customs and Health Regulations apply. About 72 hours before arrival, if coming from a foreign port, pratique should be requested through the Agents.

Contact with Installation: During discharge contact is maintained with the installation by means of VHF radio. Calling Channel 16, working Channels 14, 13, 11, 9, and 6. The Pilot and terminal operator on board the ship both carry radios, complete with battery charging equipment. Apart from the launch, this is the only organised contact with the installation.

Facilities: Hospital and dental facilities are available also provisions may be obtained. Laundry and small engineering repairs can be carried out. Bunkers and fresh water are not available at the S.B.M.

Connection with Rio de Janeiro: Regular twice daily flights connect Rio de Janeiro with the town of Joinville (near Sao Francisco do Sul) via Sao Paulo or Curitia. Travelling times (approx.) are as follows:–

Rio de Janeiro/Joinville (By air)	2.5 hrs.
Joinville/Enseada (By car)	40 mins.
Enseada/S.B.M. (By boat)	40 mins.

Film Service: No facilities exist for exchanging Walport films at this port.

Shore Leave for Ships' Personnel: No shore leave was taken by ships' personnel at Sao Francisco do Sul, however, I was advised by the Pilot that the village of Enseada, where the pilot/workboat is stationed, has 2 restaurants and other limited facilities. Further, the town of Joinville with more amenities, including hotels, may be reached in 40 minutes by car.

STEVEDORES: Sufficient working force available, working hours 0700–1100, 1300–1700 normal period; 1700–1900 days-overtime; 1900–2300, 2400–0400 night-working; 0400–0600 night-overtime.

MEDICAL: Medical attendance available, 2 hospitals, all medical care available.

FRESH WATER: 13 hydrants on quays 1 and 2, American type thread 2 in., capable of supplying 14 to 30 t.p.h. Also a private water barge of 100 tons capacity.

FUEL: Oil for boilers, diesel engines, and gasoline are distributed by a private firm, Distribuidora Maritime Porto de Sao Francisco Ltda. by tanker trucks, coming from Itajai, where orders must be placed 12 hours in advance.

DEVELOPMENTS: The bar is expected to be dredged to a depth of 9 m.

A new grain terminal is expected to be completed in the near future.

WATCHMEN: Recommended.

OPENING/CLOSING HATCHES: By stevedores.

CUSTOMS ALLOWANCE: 1 package of 200 cigarettes, and one bottle of spirits each man.

CONSULS: Chile.

REPAIRS: Deck and engine repairs possible, workshop in town.

REPATRIATION: No facilities for changing crews.

AIRPORT: None, nearest in Joinville, with regular traffic, about 40 miles distant.

HOLIDAYS: 1st January; 21st April; 1st May; 7th September; 15th November; 25th December; Holy Friday; Corpus Christi; 8th September; 8th December.

TELEPHONES: Available at dock entrance.

AUTHORITY: Port Captain.

SAO LUIZ (Including Itaqui), Maranhao:

02.30 S. 44.07 W.

(Itaqui, situated 6 miles by sea from Sao Luiz).

LOCATION: *Itaqui:* The Port of Itaqui is located in the bay of Sao Marcos, in the Municipality of Sao Luis, Capital of the State of Maranhao, almost at the edge of the N.E. region of Brazil, and 9 (nine) kms. to the S.W. of the city, with which it is connected via a breakwater extending over the the River Bacanga.

The location, fairly sheltered, encompasses Itaqui Point and extends to the North as far as Madeira Point, where a Terminal is to be constructed for handling iron ore on behalf of Serra Dos Carajas, and to the South, reaches close to the Island of Tauamirim: it is formed by a re-entrance into the coast where the contours (depths) of 0 m., 5 m., 10 m., and 15 m., are almost parallel and are between 30 and 40 m. apart. In front of Itaqui, at a distance of 400 m. from the quay, is the Island of Guarapira with maximum dimensions of 100 m. × 300 m. and stretching in a N.S. direction.

The Area of Administration of the "Maranhao Docks Company" includes the Bay of Sao Marcos and the Islands located within it, being limited by a line which joins Tatinga Point on the mainland, to Sao Marcos Point on the Island of Sao Luis.

(a) The Port of Itaqui is confined between the parallels of 02° 34′ S., and 02° 36′ S. and meridians 44° 21′ W. and 44° 24′ W.

(b) The "Administrative Area" is confined by the following co-ordinates:
Meridians of 44° 24′ W. and 44° 19′ W.
Parallels of 02° 37′ S. and 02° 29′ S.

(c) The Area of Jurisdiction encompasses the whole of the coast of the State of Maranhao, from the border with the State of Piaui as far as the frontier with the State of Para.

DOCUMENTS: See "General" before first port.

PILOTAGE: Approaching coast, the Master must inform Agent via Coast Station Sao Luis – PPB (VHF Channels 16, 24, 25, 26 and 27) or Radio Marinha de Sao Luis – PWM (HF). Pilot launch painted red and provided with conventional lights. Launch awaits at Ponta da Madeira or other places requested in limit by Brazilian Chart DHN–412.

Vessel to notify Pilot service of ETA 6 hours before arrival.

ANCHORAGE:

Sao Luiz: The following areas are reserved for the anchorage of vessels awaiting to enter port.

(a) Location No. 1 for vessels of more than 2,000 g.r.t., up to 21 ft. draft and 135 m. overall (this is the nearest anchorage to the town).
Location No. 2 for vessels up to 18 ft. draft (and that which follows No. 2).
Location No. 3 for vessels up to 18 ft. draft (is the nearest to the bar).
These anchorages are situated between the parallels of 02° 30′ 5″ S. and 02° 31′ 5″ S.

(b) Vessels impounded or requiring extensive repairs:
Vessels up to 10 ft. – Lat. 02° 31′ 9″ S. Long. 44° 18′ 7″ W.
Larger vessels: Lat. 02° 30′ 0″ S. Long. 44° 20′ 0″ W.

(c) Anchorage for vessels of less than 2,000 g.r.t. To the South of the partly submerged hull of the *Maria Celeste* between the State Warehouse and the Customs Warehouse.

(d) Vessels in quarantine: Lat. 02° 29′ 5″ S. Long. 44° 20′ 5″ W.
Vessels may not anchor in the approach channel or the turning basin.

Itaqui: The following anchorage zones for vessels arriving at Itaqui:

(a) Vessels over 5,000 g.r.t.: Lat. 02° 35′ 5″ S. Long. 44° 22′ 4″ W.
(b) Vessels impounded or requiring extensive repairs: Lat. 02° 35′ 1″ S. Long. 44° 22′ 3″ W.
(c) Vessels in quarantine: Lat. 02° 35′ 4″ S. Long. 44° 23′ 3″ W.
(d) Inspection anchorage: Lat. 02° 35′ 2″ S. Long. 44° 22′ 4″ W.

RESTRICTIONS:

Sao Luiz: May only be entered during daylight hours and near HW.

Itaqui: Cargo vessels may moor any time during the day or night depending on the state of the tide. Vessels bound for the oil terminal may only berth on the rising tide during the day. Berthing should commence 1 hour before H.W.

HEALTH: (See "General" before first port.) Health Authorities visit compulsory, due to disinfection by Yellow Fever Service.

Tankers bound for the oil terminal will be inspected at the terminal after mooring is completed.

Vessels awaiting berths will be inspected at the inspection anchorages.

RADIO: Radio Marinha, code PWM, may be used for any message to the Agent.

TUGS: *Sao Luiz:* One tug 50 h.p. available.

Itaqui: None.

MAX. SIZE: For port of Itaqui, max. draft at LW is 31 ft. At HW, depth of 45 to 48 ft. available depending on height of tide.

BERTHING: *Sao Luiz:* See "Anchorage".

Itaqui:
Warehouse Quay – Length 367 m., depth 9.00 m.
North Quay – Length 270 m., depth (max.) 18 m.
South Quay – Length 80 m., depth 12 m. – 14 m. (greater depth at the South end).

The 80 m. quay will be provided with a ramp for car ferries.

CRANES: *Sao Luiz:* 8 portal cranes (2×6 tons, 6×3 tons) 1×50 tons, 2×3 tons, 1×6 ton on order.

Itaqui:
6×3.2 ton (gantry), 2×6.3 ton (gantry)
3×2.5 ton (mobile), 1×4.0 ton (mobile).
1×9.1 ton (mobile), 2×4 ton (tracked mobile).

BARGES: *Sao Luiz:* 11 barges of 60 tons, 5 barges of 80 tons and 1 barge of 150 tons capacity. There are also 5 oil barges with a total capacity of 1,090 tons.

BULK HANDLING FACILITIES: 2 grain elevators, rate 150 t.p.h. The Maranhao Wheat Mill has silos with 12 cells, capacity 6,000 tons. Additional silos with 2,000 tons capacity available. The rated capacity of the elevators will be doubled in the near future.

TANKERS: Discharge at port of Itaqui. One berth for up to 32 ft. draft. *See Table*

Tank Capacities:

	Esso		*Sabba*		*Texaco*		*Petrobras*		*Gas Butano*	
Products	*No. of Tanks*	*Volume (cu.m.)*	*No. of Tanks*	*Volume (cu.m.)*	*No. of Tanks*	*Volume (cu.m.)*	*No. of Tanks*	*Volume (cu.m.)*	*No. of Tanks*	*Volume (cu.m.)*
Gasoline	2	4,003	2	4,800	1	4,000	1	9,135		
Kerosene	1	1,580	1	8,000	1	400	1	1,544		
Diesel Oil	1	3,200	2	5,500	1	3,200	1	9,135		
Jet Kerosene					2	1,600				
Liquefied Gas									6	704
B.P.F.							1	4,032		

STEVEDORES: On receipt of vessel's ETA Agent provides the necessary gangs. Master to mention in his ETA cable the distribution in cargo hold enabling Agent to arrange for number of gangs required. When loading or discharging bagged cargo an average of 4,000 bags per 8 hours work per gang handled.

MEDICAL: Advance notice by radio preferred, since medical assistance in S. Luiz is limited to 1 general clinic and 3 hospitals.

FRESH WATER: *Sao Luiz:* Fresh water available by barge, rate 60 tons per day. There is also an outlet at warehouse No. 4 on the quay.

Itaqui: Available.

FUEL: *Sao Luiz:* Fuel oil available to vessels alongside, delivery by road tanker.

Itaqui: Diesel oil available to vessels alongside the Warehouse Quay and South Quay.

GANGWAY/DECK WATCHMEN: Normally done by the crew.

OPENING/CLOSING HATCHES: Done by stevedores.

CUSTOMS ALLOWANCES: No limit or restrictions.

IDENTITY CARDS: Foreign Crew members not permitted to go ashore without presentation of Identity Card, on which is a photograph of holder and personal details. These cards are provided by the Agent upon arrival. The Identity Card must be given on disembarkation to the Federal Police who will return it to the Crew member on re-embarkation.

CONSULATES:

France	Tel. 1117	Spain	Tel. 2664
Portugal	,, 1689	Norway	,, 1888
Denmark	,, 1507	Bolivia, no telephone	

Italian Consul at Itaqui. Tel: 2-04-08.

REPAIRS: Shop for small repairs available.

REPATRIATION: Problematic because Maritime Police are inadequately equipped.

AIRPORT: 13 kms. from centre of town (18 kms. from Itaqui), with daily flights to North and South of country.

TIME: 1 March to 30 November GMT minus 3 hours; 1 December to 28 February GMT minus 2 hours.

HOLIDAYS: January 1st; April 21st; May 1st; September 7th; November 15th; December 25th (National holidays). July 28th; September 8th, December 8th, June 29th (local holidays); Maundy Thursday; Good Friday (Church holidays). On all holidays, except Good Friday, work permitted.

POLICE/AMBULANCE/FIRE: Police Tel. 1150; First Aid Ambulance 1943; Fire Brigade 1753.

TELEPHONES: No facilities for placing telephones on board.

DEVELOPMENTS: Wharf at Itaqui to be extended to 1,068 m. Depth will vary from 30 to 40 ft.

The existing petroleum berth will be replaced by the final extension of the wharf, although plans indicate the intended construction of a new Petroleum Berth on Guapira Island.

An iron ore loader is to be built on Punta do Madeira, dredging will allow 300,000 d.w.t. vessels to use the berth.

AUTHORITY: Capitania dos Portos do Maranhao.

AGENT: Pedreiras, Transportes do Maranhao Ltda., Rua Dr. Tarquinio Lopes No. 241-A. Cable address: "Pedra". Tel. 2226512–2225071. Telex: 0982162.

SAO SEBASTIAO: 23.48 S. 45.24 W. (See Plan Book)

LOCATION: Terminal Maritimo Almirante Barroso (TEBAR) is located on the West edge of the Sao Sebastiao Channel. Safe access is made through the South entrance. The approximate geographical position of berths is Lat. 23° 48′ 3″ S., Long. 45° 23′ 3″ W.

The port limits extend from Ponta do Araca-Ilha das Cabras to Pontal da Cruz-Pontal do Paquea.

DOCUMENTS: The visiting area of the Port Health Authorities, Federal Revenue and others, is designated by the alignment: Ponta do Araca-Ilha das Cabras (South) and South limit of the zone of submarine cables (North).

Inward clearance is effected on board immediately after docking by Government Port Officials and Agent's representative. It is necessary that the following documents be ready on arrival.

Any document regarding outward clearance of the ship at last port of call.

5 copies Crew List.
2 copies Store List.
2 copies Personal Effects List.
3 copies Passenger List.
3 copies Cargo Manifest, (or more if available).
3 copies Bill of Lading, (or more if available).
2 copies Maritime Declaration of Health.
Notice of Readiness (Addressed to Petrobras)
List of vessel's particulars: call sign, n.r.t., g.r.t., d.w.t., speed, engine b.h.p., draft, total crew, officers, time of arrival, loading ports and dates of sailing, quantity of cargo for Sao Sebastiao, quantity of cargo in transit for other ports, etc.

PILOTAGE: Pilotage is compulsory between the intersection of the Sao Sebastiao channel with the alignment of the coordinates Lat. 23° 43′ 18″ S. Long. 45° 20′ 12″ W. and Lat. 23° 43′ S. Long 45° 21′ 18″ W. (North bar — Chart DHN No. 1616) and the intersection of the Sao Sebastiao channel with the alignment of the coordinates Lat. 23° 53′ 36″ S., Long. 45° 28′ W. and Lat. 23° 52′ 42″ S. Long. 45° 29′ W. (South bar – Chart DHN No. 1615), except for Brazilian vessels less than 10,000 d.w.t. and which do not call at the port itself (passing only).

Pilotage is compulsory in the port of Sao Sebastiao for all vessels over 1,000 d.w.t. which enter, depart or manoeuvre between the two intersections mentioned above, (South and North bars).

The request for Pilots for entering should be made through the ship's Agents 24 hours in advance via Santos radio station PPS when the vessel's ETA is given. The ETA should be confirmed 3 hours in advance through Channels 13 or 16 (VHF) to the Pilot's Association of the Port of Sao Sebastiao.

The positions for boarding and disembarking of the Pilot – are defined by the areas of the circles of 0.5 mile radius whose centres are the following coordinates (Chart DHN No. 1614):

(a) NORTH BAR: Lat. 23° 42′ 30″ S., Long. 45° 21′ W.
(b) SOUTH BAR: Lat. 23° 53′ 30″ S., Long. 45° 29′ 30″ W.

The Pilot's Association functions at Rua Manoel Ladislau de Mattos, 27, Suite 24, telephone 52-1332 – Sao Sebastiao. The Pilot's Association also has a branch office in Santos at Rua General Camara 5, Suite 606, telephone 34-3992.

APPROACHES: *Approaching Channel:* The channel of the port of Sao Sebastiao is 12.3 miles long. The South bar channel, dredged to 25 m. is 30 m. wide at its narrowest part, allowing entrance and sailing of vessels drawing up to 23 m. The North bar channel sounded to 18 m. is 550 m. wide at its narrowest part, allowing entrance and sailing of vessels drawing up to 10 m.

Special attention should be paid by vessels drawing over 18 m. when navigating in the Sao Sebastiao channel; Charts DHN Nos. 1615 and 1616 show several cautions with depths of 20 m. and less in the proximities of the limits of the channel. "Caution A" on chart DHN No. 1616 should be strictly observed: Existence of submarine cable. It is forbidden to anchor within the marked area.

Tidal Stream: The height of the tide in the port of Sao Sebastiao varies from (–) 0.2 m. at LW and 1.5 m. HW, having an average level of 0.66 m. The tide runs either Northerly into the channel or Southerly with characteristics of permanent flowing as if it was a river following the orientation as given by the channel. The current attains considerable speeds which might prejudice the manoeuvring of vessels in the channel, specially at times of entrance of a cold front when winds also attain a significant force.

ANCHORAGE: (a) Temporary anchorage for Authorities Clearance: located approximately 1.5 miles N.E. of Laje Dos Moleques Light.

(b) Anchorage for tankers awaiting berth: about one mile South of Ilha Bela village.

(c) Anchorage for the lightening of tankers: located about the joining line between Ponta Da Sela and Ponta Do Viana.

Depth of water 25 m. to 35 m. (82 ft. to 115 ft.) and the seabed of clay and sanded mud enables tankers to lie safely at their anchors.

RESTRICTIONS: The terminal normally operates around the clock. Ships are moored and unmoored at any hour except when an unexpected event arises, such as breakdowns, gales, heavy squalls, and so on.

The safe draft for passing along the dredged channel is 23 m. (75.5 ft.), no matter what existing conditions are, such as day or night, current set and drift, wind, tide or swell. However, at the discretion of Pilot, according to the prevailing above conditions vessels can use the channel with drafts up 24 m. (78.7 ft.) These figures are not final as they may change in time without previous notice.

Remarks: The limitations mentioned above could result in rejection of the ship as being unsuitable for this terminal.

MAX. SIZE:

Position 1 (external berth, South pier): 26 m. (85 ft.) depth, for tankers up to 300,000 d.w.t., with max. draft of 23 m. (75 ft. 05 in.).

Position 2 (internal berth, South pier): 19 m. (62.32 ft.) depth, for tankers up to 170,000 d.w.t., with max. draft of 16.9 m. (55 ft. 06 in.).

Position 3 (external berth, North pier): 19 m. (62.32 ft.) depth, for tankers up to 135,000 d.w.t., max. draft of 16.9 m. (55 ft. 06 in.).

Position 4 (internal berth, North pier): 13.7 m. (45 ft.) depth for tankers up to 65,000 d.w.t., max. draft 12.2 m. (40 ft.).

HEALTH: Port doctor visits all ships on arrival and requires Maritime Declaration of Health, Deratisation Certificate, 2 Crew Lists. Vessels from another Brazilian port automatically receive free pratique and should not fly Quarantine Flag. If suspected disease or fever on board it is advisable to cable Agent before arrival.

RADIO: Vessels under time-charter to Petrobras bound for Sao Sebastiao should advise Company of ETA 48 hours before arrival to "Fronape-Rio" through Rio Radio (PPR) as well as to Agent's cable address through PPR (Rio Radio Brasilian Post Office radio station). In turn they will pass message to the terminal. Confirmation or change of ETA should be cabled 24 hours prior to arrival. Vessels equipped with VHF radio telephone should call on Channel 16/Delta: 156.8 mHz (and then change to another agreed Channel) when within range for berthing instructions. All ETA's should indicate whether it is local time or GMT. English is generally understood by Pilots and terminal representatives, Weather forecast as well as Notice to Mariners are transmitted by PWZ and PPR radio stations. Radio equipment should not be used at the piers. Communication ship-to-shore will be by telephone.

TUGS: 6 diesel tugs available equipped with fire fighting and foam appliances. 2×3,170 h.p. (41 ton boilard pull), 2×2,360 h.p. (25.4 tons), 1×1,010 h.p. (15.8 tons) and 1×350 h.p. (5.8 tons).

Vessels are berthed against the current.

Whistling signals for the port:

(a) Calling the Pilot: 2 long blasts and 1 short.

(b) Calling tug boats: 4 long blasts – 1 tug boat; 4 long and 2 short blasts – 2 tug boats; 4 long and 3 short blasts – 3 tug boats; 4 long and 4 short blasts – 4 tug boats; 4 long and 5 short blasts – 5 tug boats.

(c) Before passing the tow line: 2 short blasts; prepare to push the bow or to receive the forward towing line; 3 short blasts: prepare to push the stern or to receive the aft towing line.

(d) After securing: (Towing or unberthing): 1 long blast – pull to starboard; 2 short blasts – pull to port; 3 short blasts – pull aft; 1 short blast – stop pulling.

(e) Manoeuvring on ship's side: 2 short blasts – push; 1 short blast – stop.

Observations:

1. When the vessel is equipped with VHF frequency same as the tug boats, the orders for manoeuvring may be given on the Radio.
2. When necessary, the Pilot or ship's Master shall inform the tug's Master the manoeuvring to be performed.
3. When having a tug forward and another aft, the tug forward should be ordered by mouth-whistle and the tug aft with the ship's whistle. This order may be inverted according to the type of vessel involved.
4. In case of more than 2 tugs being employed, the tugs located from amidships to forward, the order should be given with the mouth-whistle and located from amidships to aft with the ship's whistle.
5. The Master's of the tug boats should immediately acknowledge all the whistle blasts given by the vessel by repeating the same.
6. The ship should inform in advance which side to be pushed or to which side the towing line to be given.
7. The signal given to let go the towing line from the tug will be 1 short, 1 long and 1 short blast.
8. After completion of each manoeuvre the ship's Master or the Pilot will dismiss the tug boat by verbal order.

Other sound signals:

Sound signal to give warning:

Vessels demanding the port authorities, before passing Ponta do Araca should blow a long blast.

Ship's whistle to call small craft:

1 long blast followed by a short one shall be used to call boats for taking the ship's lines to the quay and launches for transportation of Crew members and passengers.

Whistle to call linesmen:

1 long, 1 short and 1 long blast.

Circular: Instructions for employment of tugs during pilotage operations at the "Almirante Barroso" Maritime Terminal (Tebar):

1. To operate at "Tebar" vessels over 15,000 d.w.t., should have tug of at least 15 tons bollard pull.
2. The employment of tugs with adequate power is compulsory as from the manoeuvring area, both when berthing and anchoring at the waiting area. In case the vessel is without propulsion, a minimum of 3 tugs should be employed, 2 forward and 1 aft, with tow line fast.
3. During the unberthing operations of vessels of any given tonnage, the employment of at least 2 tug boats of adequate power is compulsory.
4. During berthing operations under normal conditions, the number of tugs to be employed should be, at least, the number of tugs indicated in table and as many as may be necessary to meet the following minimum requisites of bollard pull.
5. When for the sake of safety the Pilot may consider necessary a number of tugs beyond the number mentioned, he may act accordingly, justifying same, shortly therafter, in writing to the Delegate of the Captaincy in Sao Sebastiao.
6. When the condition of the sea, intensity of the wind or the visibility stop operations, the Pilot's Association should officially inform the Delegacy in Sao Sebastiao, accordingly.
7. The Agents of the companies engaged in the services of tugs at "Tebar" should submit to the Delegacy and the Pilot's Association in Sao Sebastiao copies of the static pull referring to each tug.

Deadweight Tons (× 1000)	*Static Traction in tons*	*Minimum number of Tugs*			
		Outer berths		*Inner berths*	
		P1	P3	P2	P4
up to 15	19	2	2	2	2

200 to 250	90	4	—	—	—
250 to 300	100	4*	—	—	—
300 on	130	4*	—	—	—

*Should extra tugs be available employment is recommended.

GENERAL CARGO WHARF: *Commercial Quay:* Length 150 m., depth 8.2 m. Fresh water available, 3 hydrants, capacity 10 cu.m. p.h. each. Fuel available by road tanker in small quantities.

Cranes: 1×53 tons, 2×20 tons, 1×15 tons and 6×4.5 tons.

TANKERS: The pier is located on the Western edge of the channel between the shore and Sao Sebastiao Island. Safe access for large tankers is possible through the South entrance but smaller tanker of draft 35 ft. or less may enter through the North entrance.

The head of the jetty which is "T" shaped is 1,690 m. (5,544 ft.) from the shore, in position 23° 48.2′ S. 45° 23.3′ W.

The South pier is 510 m. (1,673 ft.) length and the North pier 380 m. (1,246 ft.).

See also "Max. Size".

Loading arms:

Position 1	4×16 in.	(cargo hoses)
	2×12 in.	(diesel oil)
Position 2	3×16 in.	(cargo hoses)
	2×12 in.	(diesel oil)
Position 3	2×12 in.	(cargo hose)
	2× 8 in.	(diesel oil)
Position 4	Same as Position 3	

Reducers are available. All shore hoses are chiksan type arms.

Maximum Height: Max. height of hoses above platform: Position 1: 21.5 m. (70 ft.); Position 2: 17.8 m. (58 ft.); Position 3 and 4: 16 m. (52 ft.).

Pipe-lines: Two 34-in. diameter pipe-lines, 2,300 m. (7,500 ft.) link the South pier to the shore tanks. 2×24-in. diameter pipe-lines, 2,000 m. (6,500 ft.) link the North pier with the shore tanks.

LOADING: *Maximum permissible pressure:* Both piers 8 kg./sq.cm. (120 p.s.i.).

Pumping Rates: South pier: 100,000 bbl/h. if using two 34 in. lines and 3 or 4 hoses; up to 50,000 bbl/h. if using one 34 in. line and 3 or 4 hoses.

North pier: up to 48,000 bbl/h. if using two 24 in. lines and 2 hoses; up to 28,000 bbl/h. if using one 24 in. line and 2 hoses.

BALLAST: Brazilian laws are very strict in regard to the pollution of harbour and coastal waters. Vessels should not discharge dirty ballast, ashes, refuses, etc., into the water. Heavy fines are imposed for violations. All overboard discharge valves from cargo tanks and bilges are to be secured before any loading or discharging commences. All deck scuppers should be plugged to avoid harbour contamination should an oil spill occur. To offenders, fines will be charged (besides resulting delays) according to the ship's tonnage. Facilities for receiving dirty ballast are available. However, amount is dependent on space in shore tanks at the time. Capacity of tanks 12,000 cu. m. (75,000 bbls).

The Terminal is particularly interested in having vessels complete the deballasting operation promptly in order to minimize time at berth. Simultaneous discharging/loading and deballasting/ballasting is encouraged on properly equipped vessels.

MEDICAL: Medical treatment and/or hospitalisation, if required, is provided in the private local hospital. Dentists are available in the area. For emergency cases (serious illness or injury) TEBAR first medical aid may be requested by the Master. Internal telephone number is 20. If patient does not speak Spanish or Portuguese, an interpreter should accompany him.

FRESH WATER: Fresh water can be supplied if necessary; however, supplies are limited to essential requirements (up to 400 tons). Rates: Minimum 91 t.p.h. Maximum 148 t.p.h.

FUEL: The Terminal is equipped with blending valves and is able to deliver Bunker C, Fuel Oil, Marine Gas Oil, Marine Diesel Oil and Intermediates of any grade – concurrently with working cargo at international prices.

The supply rates are about 300 t.p.h. for Bunker C, 180 t.p.h. for M.G.O. and 450 t.p.h. for intermediates.

Orders for Bunkers should be placed, with a minimum of 48 hours notice to:

Divisao de Abastercimento a Navios – Departamento Comercial, Av. Republica do Chile 65, 19.° andar, Rio de Janeiro – Brazil. Telegraphic address: PETROBRASECOPE Telex numbers: 031422 and 031423.

Lubricating Oils: Orders for marine lubricants should be placed at least 15 days in advance and subject to confirmation to: PETROBRAS DISTRIBUTIDORA, Praca 22 de Abril, 36, 4.° andar, Rio de Janeiro – Brazil. Telegraphic address: PETROEDIPE Telex numbers: 031422, 031423 and 031424. Telephone numbers: 242-9381 and 242-4901.

Simultaneous bunkering and discharging operations. Considering that the loading/discharging hoses cannot be crossed with bunkering hoses, the simultaneous bunkering and discharging operations will depend on the position of the ship's bunkering manifold. If the ship has 2 bunkering manifolds – 1 on each side of cargo manifold – the bunkering and the discharging may be effected at the same time. However, if a tanker has only 1 bunkering manifold at each board (located to the aft part in relation to cargo manifolds), this simultaneous operation will only be possible if the ship, is berthed port side at position 3 or starboard side at positions 1, 2 and 4. Alternatively, upon completion of loading/-discharging the ship will have to be shifted a few metres forward to receive bunkers.

SURVEYORS: *Petroleum Inspectors:* None available in Sao Sebastiao. If required, arrangements should be made well in advance. A representative of Chas. Martin and Co. is based in Rio de Janeiro and E. W. Saybolt & Co. in Santos.

REPAIRS: Some repairs of minor nature can be effected in Sao Sebastiao. When alongside pier, vessels must maintain engines and propulsion machinery in readiness to leave the berth under full power on short notice. No repairs are permitted which would interfere with this requirement. The ship repairing firms usually have branch offices in Sao Sebastiao which are able to undertake many kinds of small repairs. If necessary they can avail themselves of personnel of Santos or Rio de Janeiro branches.

CUSTOMS ALLOWANCES: For each Crew member, 2 packets of cigarettes and 1 bottle of wine or spirits. While the vessel is in port, Brazilian custom's officials are assigned on board to ensure compliance with customs regulations. Meals must be supplied to these officials during regular meal hours. Brazilian laws are strict in regard to smuggling and Masters are requested to instruct their crews not to take cigarettes or other articles ashore. Cigarettes in carton lots, cigars, tobacco, alcoholic drinks, souvenirs, etc., should be collected prior to arrival in port, listed with the items in the slop chest and placed in the custody of the Master for deposit in the slop chest or closet which will then be sealed for the duration of the vessel's stay in port. By no means will any commercial transactions be tolerated, be it either among terminal employees, Crew members or anyone else. Cigarettes or other stores in bond are not obtainable in Sao Sebastiao.

POLICE/AMBULANCE/FIRE: Police 52-1400, Fire (Petrobras) 52-1111.

CONSULS: No consular representatives are reported to exist in the area.

AIRPORT: At Ubatuba.

TIME: Local time is GMT minus 3 hours.

SHORE LEAVE: The access pier is 1,600 m. long. The crew can use it to get ashore, but special passes are required for this purpose. There is, however, a launch service provided by Agent.

TELEPHONES: No service at the Commercial quay. At tanker terminal there are telephones in the control room.

GENERAL:

Brazilian Flag: Authorities are exercising rigorous inspections as regards the condition and the correctness of measures, colours, etc., of the Brazilian flag own by vessels in port. In principle, the flag should be flown from 0800 to 1800 hrs. Heavy fines are imposed on the ship if these instructions are disregarded. In case no suitable flag is found on board, a radio message should be sent a few days in advance, so that this item may be supplied upon arrival.

National Holidays: By order of the local Port Authorities it is requested that all ships in port must be fully dressed on the following National Holidays: 7th September and 15th November.

Watches: An efficient watch must be maintained on board the ship, deck and engine room and a sufficient number of Crew members should always remain on board to cope with emergency or port operation situations.

Ratguards: Ratguards must be placed on all mooring lines.

Visit of Authorities: In case the ship enters and berths directly, the official visit of Authorities together with the Agents will take place as soon as she is tied up and the gangway is lowered. However, if the ship is not berthed immediately upon arrival (e.g. in view of the pier being occupied, or any other reason), the visiting party will proceed to the ship by motor-boat as soon as she drops anchor. If the ship arrives after 2100 hrs. it is possible that Authorities will decide to visit the ship next morning at 0800 hrs.; however, the ship is authorised to operate normally and Crew members are allowed to go ashore.

Seamen left ashore: Ships are not permitted to sail until all Crew members are on board. Should, however, a Crew member definitely not be found, his passport (or seaman card) and his international vaccination certificates must be given to the Agents, together with a letter requesting him to be repatriated.

Weather and Tide Conditions: The weather at Sao Sebastiao is generally very favourable: no strong winds, no speedy currents and usually not even a swell is observed in the channel. The winds are unpredictable for more than a few hours in advance; usually it blows from N.N.W. or S.S.W. As regards rain, the annual precipitation averages 2,000 mm. The visibility is mostly fair, although in Autumn and Winter it may become rather poor in the early morning. The temperature ranges from 15°C (59°F) in July to 39°C (104°F) in January. The relative humidity of the air is usually high, often exceeding 85%. The normal range of tides is around 1.2 m. (4 ft.). Although higher ranges of 2 m. (6.5 ft.) have been noticed during Spring. The currents are irregular but usually follow the direction of the wind; according to the intensity and the duration of the wind, the drift may range from 1 to 4 knots.

Derating Certificate: In case the Derating Certificate has expired and needs to be renewed, a radio message should be sent to the Agent a few days before arrival, so that they are able to make the necessary arrangements with the Sao Sebastiao Port Health Inspector.

Renewal of Vaccination Certificates: For the same reason mentioned above, the Master should send, beforehand, a radio message stating how many vaccinations of each kind will be required. The vaccinator has to come from Santos.

Passengers: Passengers will be permitted to disembark if in possession of the required visa and documents for identification.

Visitors: Only the personnel duly authorised by Port Authorities may come on board the ships; this excludes all visitors. Relatives of Crew members may obtain from Port Authorities a licence to go on board.

Constant Readiness: During the time the ship is berthed alongside, her engine and propulsion machinery should be in readiness to leave the berth on short notice. No repairs are permitted which would interfere with this requirement.

Smoking: Smoking in open areas of the ship and on the pier, is strictly forbidden. The crew are not to throw lighted cigar or cigarette butts overboard.

Photography: The taking of photographs within the terminal is prohibited.

Emergency Towing Wires: 2 towing wire ropes should be always hanging to the water's surface so that the tugs can easily make fast should an emergency arise.

Gangways: All ships calling at Sao Sebastiao must provide a safe gangway. Authorities may refuse to board the ship if a safe gangway or accommodation ladder is not provided. At night, the pilot ladder must be adequately lit. The terminal is not equipped with platform ladder. The ship's ladder must be used.

Lifebuoy: A lifebuoy with 15 fathoms (27 m.) of rope should be kept nearby the gangway for use in case of emergency.

Ship's Fire-fighting Equipment: At least 2 fire hoses should be connected to hydrants on main deck: 1 forward and the other abaft the cargo valves manifolds. A third hose with an NPU nozzle and 2 mechanical foam containers should be kept nearby the pump-room. The ship's main fire-extinguishing system should be kept under constant pressure.

Minimum Draft for Safe Manoeuvring: Although the amount of ballast carried on vessels is at the Master's discretion, the table below is recommended as a guide:

Vessels of 30–40,000 t.d.w. draft for'd 16 ft. aft 20 ft.
Vessels of 40–50,000 t.d.w. draft for'd 18 ft. aft 24 ft.
Vessels of 50–70,000 t.d.w. draft for'd 20 ft. aft 28 ft.
Vessels of 70–100,000 t.d.w. draft for'd 24 ft. aft 32 ft.

Vessels over 100,000 tons should be ballasted to approximately one third of the vessel's deadweight.

Bond Wire: Before the connection of shore hoses, the bonding wire will be connected, by a terminal employee, to ensure a good grounding electric contact.

Boiler Tubes and Sparks: Whilst alongside the pier, no boiler soot blowers may be used. The use of derricks is also forbidden (excepting the poop derrick, when lifting stores, provisions, etc.). Likewise, the use of objects and/or tools which may cause sparks is also forbidden.

Fire Signal: Should fire break out in any part of the ship, the fire alarm should be given: a continuous sounding of 7 short blasts on the whistle, followed by a long one.

Transportation of Stores, etc., from shore to ship: The terminal does not permit the carriage of items through the jetty. Consequently, the ship has to use the services of a motorboat, or a tugboat or of a floating craft (which is towed to the ship's side). The motorboat or the tugboat may only approach the ship by the sea side. No derricks may be used, although the terminal has no objection to the use of the poop derrick or crane (sea side). Depending on the nature and the weight of items involved, they may be taken on board using the gangway (sea side).

Laundry: No laundry facilities available at Sao Sebastiao, however, Las Vegas Lavanderia, located at Caraguatatuba (about 30 km. from Terminal) is equipped to handle laundry services for ships calling at Sao Sebastiao.

Rubbish: Garbage bins are available at the Commercial quay. No facilities at the Tanker Berths.

Provisions and Stores: Provisions and stores are supplied by shipchandlers contracted directly by Owners or Masters or through the Agents. Usually they have to be brought from Santos, which requires a radio advance request, in view of the distance involved. It is hoped that in the near future provisions and stores in large quantities may be easily obtainable in Sao Sebastiao. Some items may be obtained in Caraguatatuba.

REGULATIONS:

Craft not directly engaged in the port's traffic should navigate at a minimum distance of 150 m. from the Maritime Terminal and from vessels alongside and at anchor.

Skin diving and underwater hunting are prohibited in the area assigned as being the port of Sao Sebastiao.

The line between Pontinha Lighthouse and the Cais Comercial (Commercial quay) should be kept permanently clear due to the traffic of ferry boats.

The passage through the Sao Sebastiao channel of foreign flag vessels other than those destined for the port itself is prohibited.

The maximum speed allowed between the limits of the port of Sao Sebastiao for vessels over 1,000 d.w.t. is 8 knots.

Craft and vessels berthed on the external side of the Cais Comercial (Commercial quay) and Maritime Terminal, on both sides, should maintain vigilance and be manned.

All vessels which, for any given reason, may have to stay in the channel and port of Sao Sebastiao for more than 1 week, should communicate in writing to the Delegacy of the Port Captaincy the reason surrounding the fact and informing at the same time the expected time of stay.

SHIPMASTER'S REPORT:

Pilotage: Vessels normally sail and arrive by the Southern entrance.

Anchorages: The holding ground for VLCCs is not very good, but appears good for smaller vessels. (We had 3 cases of ships dragging during our two and a half weeks stay, all VLCCs.) The current runs Northerly or Southerly depending on the wind.

Tugs: 5 tugs normally used for berthing and unberthing irrespective of vessel's size.

Medical: Dental and routine medical matters available. Specialists are available some miles away. For inoculations the doctor comes from Santos.

Fresh Water: Rates are dependent on number of vessels watering and can be as low as 10 t.p.h.

Customs Allowances: 2 cartons cigarettes per man. Customs no longer stay on board the vessel.

Repatriation: Is possible, but involves lengthy car ride to Santos or Rio de Janeiro. The best and nearest airport is outside Sao Paulo, where International flights are available. This is quicker than going to Rio.

Telephone: Available in jetty control rooms.

Shore leave: When berthed the Agent can arrange a minibus service from the T-head of the jetty.

Port Regulations: Vessels throwing or discharging anything into Brazilian waters are subject to a fine equalling 2% of the minimum Brazilian basic wage multiplied by the vessel's gross tonnage. Garbage disposal is difficult to arrange and they will only accept dry garbage.

General: Communications are poor, no Telex and messages have to be telephoned to Santos. Best method is to use ship's equipment when at anchor.

AUTHORITY: Petroleo Brasileiro S.A. and Captain of the Port.

SEPETIBA TERMINAL, Guaiba Island:
23.00 S. 44.02 W. **(See Plan Book)**

See "General" before first port.

LOCATION: About 50 miles West of Rio de Janeiro, is the site of a bulk iron ore terminal located off the S.E. end of Ilha Guaiba about seven miles due North of the bay entrance.

PILOTAGE: Compulsory for all ships entering the bay and berthing and unberthing at the ore facility. Pilots board in the vicinity of 23° 08′ 39″ S., 44° 04′ 36″ W. A pilot ladder, boat rope, and gangway must be properly rigged with the landing platform of the gangway lowered to within 5 m. (16.5 ft.) of the water. Adequate lighting should be provided at night.

ARRIVAL INFORMATION: Vessels bound for Baia de Sepetiba should send an ETA to their Rio Agents, via Rio Radio, six days, 48 hours, and 24 hours prior to arrival. Any significant change in this ETA should be corrected as soon as possible but not less than 8 hours prior to arrival. Also see "VHF".

ANCHORAGE: In the vicinity of the Pilot boarding area. Ships should not proceed beyond this point unless a Pilot is aboard and instructions have been received from Sepetiba Marine Operations to proceed.

HEALTH: Radio pratique should be requested 72 hours prior to arrival by transmitting a quarantine message to the Port Health Authorities through the the ship's Agent. This message should contain the following information: name and nationality of vessel; last port of call; number of crew and passengers; general conditions of health on board. Also see "General" before first port.

VHF: Vessels are requested to contact Sepetiba Marine Operations directly when within VHF radio-telephone range. Channel 16 is the calling channel and 11, 12 and 13 are the working channels. Anchoring or berthing instructions should be requested 4 hours prior to arrival or when within VHF radio-telephone range.

TUGS: Tug assistance is compulsory for all manoeuvring in the vicinity of the pier and 3 powerful twin screw tugs are available for this purpose. All ships should be equipped with a wire cable tow line with a nylon pendant. Radio-telephone communication is maintained between the tugs and the Pilots on Channel 6.

BERTHING: Facilities consist of a deep-water pier located about 400 m. (1,312 ft.) South of the island. The South berth has a depth of 24 m. (78.75 ft.) alongside and the North berth has a depth of 19 m. (62 ft.). A mooring dolphin at the West end of the pier provides an overall mooring length of 470 m. (1,541 ft.) alongside the South berth. Bollards are spaced along both pier faces and quick release hooks and capstans are fitted for breast, bow and stern lines.

BULK HANDLING FACILITIES: One travelling shiploader serves both berths and has a boom clearance of 22 m. (72 ft.) at shipside. Ore is stacked in a storage area and is delivered to the shiploader by conveyor belt which is loaded by either of 2 stackers having an average capacity of about 7,000 metric t.p.h. each.

SHIPMASTER'S REPORT: May 1980.

Agents:

(a) Mineracoes Brasileiras Reunidas, (the operators and loaders). Av. Graca Aranha, 26, 17th Floor, Rio de Janeiro. Tel: 222-5171. Cables: "Brasilore".

(b) Buarque & Cia, (ship's Agent appointed by the Solmer contract), Rua de Rosario, 113, P.O. Box 1542, Rio de Janeiro. Telex: 2121300 BUCL. Cable: "Joarce". Tel: 221-2210, 221-9961.

Arrival Telegrams: According to the charter party, telegraph "Brasilore" and "Joarce" when leaving the previous port of call, and repeat 72 hours and 24 hours prior to arrival. During the last 24 hours, a change of one hour or more in ETA must be reported.

Radio clearance is requested through the intermediary of BUARQUE to whom it is necessary to quote in the 72 hours telegram the following: last port of call, number of crew members, passengers, state of health, date of deratting certificate, name of Master.

BUARQUE replies to the first ETA telegram indicating the possibilities of direct entry or waiting. As MBR remains silent, it is advisable to ask BUARQUE to confirm the tonnage to be loaded and the quantity, more or less, of each type of ore involved. Olinda/PPO (Recife) and Rio/PPR stations are normally used. Good easy connections and no delay. Olinda is particularly well placed for communications with vessels approaching from the North.

If the crew members have no Brazilian pass (even if made out in another port) ask for a photographer.

General Information:

The port of Sepetiba, opened to ore traffic in 1974, belongs to Mineracoes Brasileiras Reunidas (MBR). It is the maritime outlet for a group of mines located some 1,200 km. inland.

Situation: The terminal is located at the S.E. end of the island of Guaiba, in the East part of the bay of Ilha Grande (Large Island), some 50 miles to the West of Rio de Janeiro.

The island is connected to the mainland by a railway bridge which brings the ore for shipment.

The terminal administrative office is on Sai beach, 5 miles to the N.E. (and 120 kms. from Rio by road).

Local Time: GMT minus 3 hours.

Pollution: Deballasting at sea only. The Authorities make pressing recommendations to avoid pollution, warning that fines are heavy and not alterable.

Monetary Exchange: Only at the Agency can cruzeiros be obtained, but dollars are much sought after on land, even by small traders. Advantageous exchange rate.

Navigation:

Charts: Brazilian – 1601, 1602, 1603, 1608, 1610.
British – 3970, 1683, 3970
American – HO 24155, 24164, 24160.

Landfall: No difficulties, using the mountains which are around the entrance: Ilha Grande to the West (1,037 m.) and Ilha de Marambaia to the East (620 m.).

Access: The approach channel, is in two straight parts, and is 7.6 miles long. Buoys are not very visible either by day or by night, but perfectly detectable on radar.

The width of the channel varies from 280 m. up to buoy No. 7; 580 m. at buoy No. 9 (bend); 330 m. up to buoy No. 13; and then widens out into a manoeuvring basin 1.8 miles long and 0.5 miles wide.

Draft: The channel has been dredged to 22.5 m., and the manoeuvring basin to 24.5 m. Vessels drawing 21.5 m. have used it on sailing. The Pilots recommend drafts forward of 30 ft. and aft of 36 ft. for the entry for a vessel of the tonnage 122,000 d.w.t.

Currents: Along the coast, coming from the East, weak and counterclockwise. Inside, tidal currents may reach 1.5 knots.

Tides: Twice a day but not equal every day. Tidal rise about 1 m.

Times of entry and sailing: Night and day.

Maximum vessel dimensions: Within the limit of the practicable draft of 21.5 m. No length restriction.

Pilotage: Compulsory. The Pilot boards between 1 and 2 miles from the channel entrance. On sailing, he leaves the vessel between buoys No. 8 and No. 6.

The pilot vessel has a white hull, a red roof and shows an alternating red light by night. Max. speed 9 knots.

Call up on VHF Channel 16, work on Channel 13.

For embarkation, lower the accommodation ladder to 5 m. above the water, and the pilot ladder to 1 m. above the water. On leaving the vessel, he only uses the pilot's ladder (if the vessel is fully loaded).

Anchoring: When awaiting the Pilot, vessels can anchor in 24 m. of water, 2 miles to the South or S.S.W. of the channel entrance (unmarked wreck, at a depth of 19 m. 1.5 miles to the S.E. of the entrance).

Whilst waiting to berth, the Pilot anchors the vessel, either to the North of the second part of the channel between Guaiba Island and Mangaratiba Lagoon, in 15 to 18 m. of water. (Four vessels of 150,000 tons would be able to lie there with ease). Or, to the East of Guaiba Island, outside the manoeuvring basin, in 25 to 30 m. of water.

Holding is good in all these anchorages, but vessel exposed to the swell.

Tugs: Three tugs of 4,000 h.p. available (MBR 1, 2 and 3).

The tugs are taken at the entrance near buoy No. 11. They are released on sailing, before buoy No. 13.

On entry and sailing, one tug forward and one astern, each taking two lines from the vessel. The third comes alongside amidships and passes two lines to the vessel. Communication with the Pilot is by walkie-talkie.

Berths: The pier is 400 m. long and orientated 238°/058°. It is connected to the Island by a bridge approximately 300 m. long carrying the conveyor belt. Vessels can come alongside on the inside (N.N.W.) but for large ships only the outside (S.S.E.) is used.

Berthing: Inside – starboard to quay
Outside – starboard to quay after manoeuvring, or portside to the quay (according to the current).

Fenders: Inside – two thicknesses of large tyres. Outside – metal panels fitted on thick rubber supports and shock absorbers. When heaving off, it is recommended not to slide against these fenders so as to avoid damaging them.

Mooring lines: A strong swell is experienced at the quay, therefore good moorings are necessary. 4 lines at the bow, 2 to 4 amidships and 2 astern. Two launches assist in passing lines. There are windlasses on the quay. The wire lines are positioned afterwards.

Height of Quay: 5 to 7 m. above the water, dependent upon the state of the tide.

Gangway: This is only used after the vessel is fairly well loaded.

Handling:

Equipment: A single conveyor belt, movable through 360°, 22 m. above water level. Personnel, installation and equipment belong to MBR.

Advance Arrangements: Come alongside the quay with holds clean and open. Opening of hatches can be carried out during the approach manoeuvre. Inspection of tanks and slops takes place as soon as the vessel is alongside, and a gas-free certificate is issued.

Working hours: 24 hours.

Holidays: None.

Capacity: The gear can supply 7,000 t.p.h. In reality, the net capacity, with stops deducted was 3,100 t.p.h., and more than 40 hours had to be worked, stops and weighing included, to ship 120,000 tons.

Weighing: As the weighbridge was not operating the only check therefore was reading the draft marks, fairly approximate as there was a swell, carried out by the Master and the draft surveyor (the latter issues the gas-free certificate). It appears that it is necessary to watch calculations closely, particularly as far as the incidence of sag on the deadweight (application on the MBR leaflets of the "Means of means" rule which is less favourable than the "two-thirds rule" generally applied elsewhere).

Facilities:

Shore access: The nearest town is Mangaratiba (7,000 inhabitants). To reach it, show your pass at the gatekeeper's office on leaving the port, take a bus (a few minutes) to the landing stage at the foot of the bridge between the island and the mainland.

Take the launch (45 minutes) to Mangaratiba.

From there, another bus goes to Rio (the bus company is EVAL) which takes about 3 hours, leaving every 2 hours. The first bus is at 0800 hrs. Price 18 cruzeiros. Last departure from Rio at 1800 hrs. (Bus station at the corner of the port, at the end of Avenida Francisco Bicalho).

The Agent arranges the times of departure of the launches with vessels' officers.

Medical care: At Mangaratiba for urgent attention and minor treatment. More serious cases must be handled in Rio.

Repairs: Small repairs possible using local personnel. For repairs of some importance, it is necessary to call in Verolme at Angra dos Reis or a shipyard in Rio.

Stores: Some direct purchases possible in Mangaratiba. Limited choice. An order can be sent by telegram to the Agent who will make the necessary purchases in Rio, which will involve the cost of transport, and therefore high prices, particularly for small quantities.

Bunkers: None available.

Fresh Water: Available on the quay, but not drinkable. Output 60 t.p.h.

Telephones: Connection possible on request to the land network.

Lifeboat practice: After prior agreement of Port Captain.

Formalities:

On arrival: The Agent comes on board with Customs, Health and Immigration. Whilst the photographer is working, and the inspector checks the holds, the following documents are handed over to the different authorities represented:

1 Manifest of ballast
9 Crew lists
2 Passenger lists
5 Stores lists
4 Individual declarations
1 Health declaration
1 Smallpox vaccination list
4 Notices of readiness

Photographs for passes are brought back within two hours and the next morning where a night arrival is concerned. (May 1980 – done on the spot using a Polaroid).

Customs: Seals placed on alcohol and tobacco. No individual limitations.

On sailing the Agent delivers on board:

2 Gas-free certificates
2 Visaed Notices of Readiness, ship's copy
2 Notices of Readiness, Agency copy
1 Sailing pass
1 Embarkation pass
2 Vessel sailing passes
1 Draft survey results
1 Weight certificate per type of ore loaded
2 Cargo manifests
2 Cargo loading statements
2 Cargo distribution plans.

TRAMANDAI (Porto Alegre): 29.59 S. 50.08 W.

(See Plan Book)

ALMIRANTE SOARES DUTRA TERMINAL: Terminal Maritimo Almirante Soares Dutra – TEDUT, is located 6 km. from Tramandai, which is 134 km. from Porto Alegre, Capital of the state of Rio Grande do Sul. The Buoys (SBMs) are positioned 1.9 and 2.4 miles from the beach and their geographical co-ordinates are:

SBM–1 (W.), Lat. 30° 00′ 40″ S., Long. 50° 05′ 42″ W.
SBM–2 (E.), Lat. 30° 00′ 58″ S., Long. 50° 05′ 10″ W.

DOCUMENTS: Also see "General" before first port.

Cargo Manifest, bill of lading, cargo's quality certificate, time sheet and ullage report from the loading port, Narcotics list, crew list, stores list, crew's baggage declaration, passenger's list.

PILOTAGE: Sea Pilot not required. On daylight arrivals the Petrobrás launch will meet the ship 1 mile Eastward from SBM–2, carrying the Mooring Master, Port Authorities, Terminal's workers, equipment for mooring and connection of hoses. All manoeuvres will be undertaken by the vessel's Master with the help of a TEDUT Mooring Master who will board the vessel in the anchorage area and advise the vessel's Master on all operations such as mooring, connecting hoses, unloading, unmooring, etc.

ANCHORAGE: The advisable anchorage site is 2 miles E.N.E. of SBM–2 (East Berth), geographical position, Lat., 29° 59′ 39″ S., Long. 50° 03′ 36″ W. Depths, 21 m. Seabed, fine sand and mud. Mooring Masters will board arriving tankers in this vicinity.

APPROACHES: There are 3 conspicuous water towers named *Tourist*, *Agrimer* and *Tramandai*. There is also a small radar and meteorological watch steel tower nearby the pier in position Lat. 29° 58′ 32″ S., Long. 50° 07′ 21″ W. There is also, located side by side a lighthouse tower and a radio beacon steel tower, both at position Lat. 30° 00′ 27″ S. and Long. 50° 08′ 05″ W. Characteristics of lighthouse: Flash (3) group – white 12 sec. – 25 m. 15 M. Characteristics of radio beacon: Code FB–FOX/BRAVO – continuous, frequency 300 kHz., range 300 miles.

SBMs' light characteristics:

SBM–1:	Flash Red, 2 sec.	SBM–2:	Flash Red, 4 sec.
	Eclipse 2 sec.		Eclipse 4 sec.
	Period 4 sec.		Period 8 sec.

RESTRICTIONS: Due to the peculiar conditions of the terminal, mooring undertaken only at daytime. Sometimes the leaving of launches seawards depends on the height of tide and the strength of the waves. Tankers may have to wait for favourable weather conditions so that mooring may safely be started.

MAX. SIZE: SBM– (W.), designed for 105,000 d.w.t. tankers, max. draft 16 m. (52 ft.). SBM–2 (E.), designed for 200,000 d.w.t. tankers, max. draft 17 m. (55 ft.). The distance between the vessel's bow and manifold must not be more than 140 m. for mooring to the SBM–1 (W.) or 180 m. for mooring to the SBM–2 (E.).

RADIO: Vessels bound for Tramandai should advise their ETA 48 hours prior to arrival direct to PPA 25 (Petrobras own radio station) as well as to their Agents (through PPR – Rio Radio – government station). In turn these stations will send messages to the terminal. Confirmation or change of ETA should be cabled 24 hours before arrival. Vessels may also contact TEDUT's radio-telephony station either in AM or SSB on the following channels and frequencies:

VHF: Frequencies:

Channel 11 – 156.55 mHz.
Channel 12 – 156.60 mHz.
Channel 13 – 156.65 mHz.
Channel 14 – 156.70 mHz.
Channel 16 – 156.80 mHz.

SSB Frequencies:

Channel 3 – receives 4,125 kHz. transmits 4.125 kHz.
Channel 4 – receives 4,084.6 kHz. transmits 4,379.1 kHz.
Channel 5 – receives 8,216.7 kHz. transmits 8,740.7 kHz.

Permanent listening: VHF on Channel 14 and SSB on 4125 kHz.

When within range, vessels equipped with radio-telephone should call first on Channel 16/DELTA-156.8 mHz and then change to another agreed Channel, preferably 14/CHARLIE-156.7 mHz for mooring instruction. All ETA's should indicate whether it is local time or GMT. Weather forecasts as well as Notices to Mariners are transmitted by PWZ and PPR radio stations.

PRATIQUE: Display of quarantine signal – "Q" flag – on approach Tramandai must be maintained until free pratique is granted. The National Brazilian flag should remain hoisted throughout vessel's stay in the terminal. Port doctor visits all ships on arrival and requires Maritime Declaration of Health, Deratisation Certificate, two Crew Lists. Vessels from another Brazilian port automatically receive free pratique and should not fly Quarantine Flag. If suspected disease or fever on board, it is advisable to cable Agent before arrival. Also see "General" before first port.

LAUNCHES: Mooring, unmooring and connection operations are assisted by the terminal's launches. While rendering such assistance the boats act under orders of the Mooring Master. Usually two service boats are at his disposition. Besides operational assistance they undertake transportation of Mooring Masters, personnel, Agents, ship chandlers, port authorities, etc.

ARRIVAL: Arrival time is considered to be the time the vessel reaches the anchorage vicinity or the time the Mooring Master boards the vessel, whichever occurs first. However, notice of readiness will not be considered as the time of arrival unless the vessel is in all respects ready to discharge. In the event berthing is delayed by weather conditions, tankers will be unloaded in turn. If, however, the weather is so bad that the port is closed and vessels awaiting discharge have to go out to sea, TEDUT may discharge another vessel on reopening if it arrives before the return of other waiting vessels. More rarely, the terminal Superintendent may grant priority to a particular vessel out of turn, in special circumstances only. Exceptionally, and at the discretion of the Superintendent, two tankers will discharge at the same time.

MOORING: The Mooring Master will advise on the method of securing the ship. Tankers are usually moored by two bow nylon hawsers of 15 in. circumference and 50 m. length. Vessel's messenger nylon lines are shackled – one at a time – to the pick-up wires of the chafing chains by the launch crew and hove in (through the vessel's windlass warping bollard) until the lengths of the chafing chains are brought over the vessel's roller chocks/fairleads. Ship's engines may help the lead-in ropes (vessel's messenger) in coming up to the SBM.

The following items must be observed: Anchors must be well at home and secured with stoppers and brakes. Windlass warping bollards must also be ready to lift chain stoppers, wire strops, shackles, senhouse slips, crowbar, hammer, spikes and other gear to be placed on board for mooring purpose (equipment supplied by TEDUT). Two good eye-spliced (9 in. at least) nylon hand-inlines must be be ready, at each side, on the fo'castle head, to be given to the launch, who in turn will shackle them to the hawser's pick-up wires (marked by little spar buoys).

HOSE CONNECTION: The Mooring Master will direct the terminal's working men in lifting, connecting and lowering the hoses. After the vessel is securely moored, the 16 in. floating hoses must be individually lifted to the rail by the ship's gear. Sundry hose securing and connecting equipment (strops, gaskets, nuts, bolts, wrenches, etc.) will be supplied by the terminal and put aboard the ship just after arrival. Hoses will be lifted by ship's derrick, always on the port side. Minimum lift of 6 tons capacity required. When wind force reaches about 8 Beaufort Scale and waves are 3.5 m. high, emergency disconnecting operation will take place, even at night time.

LOADING: Pumping must not be started without permission of the Mooring Master. The max. allowable pressure is 10 kg/sq. cm. (150 p.s.i.). While the vessel is moored, the vertical angle formed by the nylon hawsers and the sea level should not exceed 30 degrees, for safety of the SBM's turntable. When necessary, due either to excessive pitching or by being too much trimmed by the stern, pumping of ballast must be concentrated in the fore-tanks, even if interruption of unloading becomes mandatory. So the Mooring Master may require cargo to be discharged, in certain stages, either from aft or for'd compartments.

As a rule, when unloading is over, the ship should have ballast on board at least 40% of her total d.w.t. tonnage. Besides the Mooring Master himself, some terminal workmen stay aboard ship. Therefore, room and meals for one officer and six crewmen should be supplied. Upon completion of discharge the Mooring Master will sometimes require the ship to pump sea water through the submarine pipe-lines to displace the remaining oil.

BALLAST: No slop facilities are available for dirty ballast. Brazilian laws are very strict with regard to the pollution of coastal waters. Vessels are not allowed to discharge dirty ballast into the water. Heavy fines are imposed for violations.

Tramandai is the largest Rio Grande do Sul seaside resort and any pollution of the sea in this area will cause damage to the beaches. Hence, no dirty ballast or any oily residues must be pumped overboard within a range of over 50 miles, if no safer alternative exists.

MEDICAL: Medical treatment and/or hospitalisation, if required, are provided at Tramandai or Osorio private hospitals. Serious illness will usually be treated in Porto Alegre. Dentists are also available in Tramandai. For emergency cases (injury, etc.) TEDUT first medical aid may be requested by the Master. As usual, Agent will make such arrangements.

FUEL: Not available.

FRESH WATER: Not available.

CONSTANT READINESS: Since moorings are in open roadstead, vessel's engines and gear must be ready with full power for immediate use through the period the vessel is moored and the ship must be able to clear the mooring immediately on the advice of the Mooring Master or Superintendent of the Terminal.

Whenever necessary, vessels may use their own power to prevent riding upon the SBM.

CUSTOMS REQUIREMENTS: Brazilian laws are strict with regard to smuggling and Masters are requested to instruct their crews not to retain cigarettes in carton lots, cigars, tobacco, alcoholic drinks, drugs, souvenirs, etc. These should be collected prior to arrival, listed with the items in the slop chest and placed in the custody of the Master for deposit in the chest or closet which will then be sealed for the duration of the vessel's stay at the mooring.

By no means will any commercial transactions be tolerated, be it either among terminal employees, crew members or anyone else.

CONSULATES: No consular representatives are reported to exist in the area; however, there are consulates of most maritime nations in Porto Alegre.

TIME: Local time is GMT minus 3 hours.

GENERAL: Lighters not available. Launch connection with shore is entirely dependent on weather conditions and must be considered unreliable.

SHORE LEAVE: Depends upon agreement between ship's Master and Agency.

AUTHORITY: Petroleo Brasileiro, S.A. PETROBRAS.

TUBARAO: 20.17 S. 40.15 W.

PILOTAGE: Pilotage is compulsory between the anchorage and the berth. Request for the Pilot must be made in advance by the ship's Agent. The vessel should indicate the time of arrival of the vessel at the entrance and from which point pilotage is required. Pilot may be contacted on VHF Channel 16 and 12.

Compulsory pilotage area is from the anchorage area where the Pilot embarks, the access channel, the manoeuvring basin and the existing piers in the port. After a Pilot receives advice of vessels arrival it takes 50 minutes for the Pilot to embark, this is done by a launch of the Vitoria Pilot Service. No difficulties are encountered when embarking except when the sea is very rough and there are strong winds.

Pilotage Area: The inner maritime area is limited by the circumference of 2.5 miles radius, centered on the Tubarao South Light in the sector included between 340° and the island Boi, as far as the berth.

APPROACHES: The access channel is 300 m. wide and dredged to 22.5 m. and runs in a 345°-165° direction. The beginning of the channel is marked by a red light buoy in position 20° 19′ 38″ S, 40° 14′ 23″ W and a white light buoy in position 20° 19′ 40″ S., 40° 19′ 35″ W. (See NHD chart 1401).

At the present time dredging is taking place to increase the depth and width of the access channel.

Tides: Tidal variation is small, on average, there being two high tides and two low tides each day. The coastal current generally runs to the South with an average speed of 1 km/hour. The current is less constant in May and June.

Manoeuvring Area: The manoeuvring area for berthing and unberthing has a width of 150 m. along the whole length of the quay, the manoeuvring basin has a diameter of 600 m. and depth of 22.5 m. Anchoring is prohibited in the access channel and the manoeuvring area except with prior permission of the Port Captain.

ANCHORAGE: The anchorage area for vessels awaiting berths is 20° 19.3′ S., 40° 15.1′ W. Vessels in quarantine must anchor in an optional area indicated on chart 1401.

MAX. SIZE: See "Berthing" and "Tankers".

HEALTH: Free pratique may be obtained by radio, the message being sent to the ship's Agent by radio via "Saportos/Vitoria" at least 72 hours prior to the vessels arrival. Declaration of health must be prepared and typed in order that it may be delivered to the doctor when he comes on board.

RADIO: Vitoria Radio Station PTV operates on the following frequencies: 2 mHz band on transmission frequencies 2086 and 2096.5 mHz and on emergency frequency of 2182 mHz.

4 mHz band – transmission frequencies 4403.9, 4382.2 and 4366.7 mHz., and on emergency frequency 4412.5 and 4143.6 mHz.

8 mHz band – on transmission frequencies 8802.6 and 8774.7 mHz, and reception on 8278.7 and 8250.8 mHz.

TUGS: Two tugs of at least 1,500 h.p. are used when proceeding from the entrance to the manoeuvring area off the berth. When berthing 4 tugs and 1 launch assist.

Name	*H.P.*	*Bollard Pull*
Vitoria	1,600	31.7
Helio Ferraz	3,000	31.7
Tubarao	1,900	29
Itabira	1,350	16
B. Horizonte	1,680	20
Cabedelo	1,680	20

BERTHING: Should a vessel be departing at the same time as another vessel is entering, the vessel which is leaving has priority and the vessel which is waiting to enter is to wait outside the entrance channel. Vessels are not permitted to pass each other in the channel or the manoeuvring basin. Should the weather conditions be poor, visibility restricted or too dark for the vessel to berth or unberth the decision to manoeuvre will be taken by the Pilot who may decide to change the operations to a more convenient time.

Pier 1: Length 390 m. useable berthing length 350 m., depth 15.2 m. Berthing is possible on both sides.

Ship Loader No. 1: Max. height of hatch coaming above sea level 12.50 m. Max. outreach of loading boom 24 m. Nominal capacity of loader 6,000 t.p.h. Vessels max. LOA 330 m. Max. sailing draft 15.20 m. plus height of tide.

Ship Loader No. 2 (Seaward side of pier): Max. height of hatch coaming above sea level 17 m. Max. outreach of loading boom 33.50 m. Nominal capacity of loader 8,000 t.p.h. Max. length 330 m. Max. sailing draft 15.20 m. plus height of tide.

Pier 2: Max. LOA permissible 350 m., depth alongside 24 m. There are 4 dolphins each with 2 hooks and 4 dolphins each with 3 hooks.

Storage Area: Old area 1.5 million tons, new area 2 million tons, factory area 30,000 tons.

This is a new pier now completed parallel and inshore of the existing pier for vessels of 250,000 d.w.t. intended max. draft 20 m. Vessels berth at seaward side only to avoid ranging. 2 shiploaders, swivelling (20 m. airdraft). Load rate 12/16,000 t.p.h. Second belt to be installed to increase load rate to 25/30,000 t.p.h. No dirty ballast facilities. Heavy fines for pollution.

Vale Do Rio Doce Co. Pier: Should Pilot wish to berth a bulk carrier on Pier No.1, South side, (Vale Do Rio Doce Co. Pier) and there is a vessel at the Petrobras Terminal, the vessel at Petrobras Terminal will be removed prior to berthing of the bulk carrier. Vale Do Rio Doce Co. Pier: Distance between dolphins – 60 m. Draft – 26 ft. Berthing of vessels up to 150 m. DWT 14,000 tons.

TANKERS: *Petrobras Terminal:* The berth consists of 2 mooring dolphins which enable vessels of 160 m. LOA and draft of 7.9 m. to berth.

STEVEDORES: Services of stevedores not normally required. Crew open hatches.

MEDICAL: Four hospitals available.

FUEL: Diesel oil in quantities up to 100 tons can be supplied by Petrobras in road tankers at the berths, also vessels with Max. draft of 8 m. and Max. LOA 160 m. can berth at the Petrobras Oil Terminal inside the breakwater to take bunkers and diesel.

Terminal Rates:

Diesel oil	– 100 t.p.h.
Fuel oil	– 150 t.p.h.
Mixture	– 80 t.p.h.
Crude oil	– 700 t.p.h.

FRESH WATER: Available at all quays of the terminal, maximum quantity per vessel 150 tons. Requests for water must be made by Ships Officers immediately on berthing. If quantity greater than 150 tons is required 48 hours notice must be given in order to establish whether or not the additional quantity is available.

POLICE/AMBULANCE/FIRE: Police Tel: 227-0057.

REPAIRS: There is a naval repair shop in the area able to carry out normal repairs.

TELEPHONES: Not available for placing on board.

AIRPORT: 8 km. from the port with connections to other cities within the country.

HOLIDAYS: Confraternizacao dos Povos, January 1st; Passion Friday movable; Nossa Senhore da Penha, movable; Tiradentes, April 21st; Labour Day, May 1st; Independence of Brazil, September 7th; Our Lady of Vitoria, September 8th; All Saints, November 2nd; Proclamation of the Republic, November 15th; Christmas, December 25th.

GENERAL:

Smoking; Smoking on tankers and obo vessels may only take place in compartments specified and as indicated by the Master of the vessel.

Readiness; Vessels must be able to unmoor immediately in cases of emergency. Unmooring is done with the aid of tugs.

Repairs; No repairs undertaken to the vessels engines or any other repairs which may impeed emergency unmooring. Should any repairs at all be necessary these can only be done with the authority of the Terminal.

Deballasting: Discharge of dirty ballast is strictly prohibited. Failure to comply with this rule will result in fines.

Fire Fighting: The ship's fire fighting equipment must be kept in readiness at all times.

Rubbish: There is no collection service.

Deratting Service: Not available.

Stores: Specialising firms in the district, orders must be placed 24 hours in advance.

Degassing and Unloading;

a) All ore/oil and oil/bulk/ore vessels must have their holds and tanks gas free.

b) Ore/oil vessels carrying inert gas must have their holds inerted to receive ore cargo and be free of explosive gas and/or rendered inert.

c) The terminal Inspector must receive, prior to loading, a certificate stating that the vessel on berthing is free of explosive gases and has been rendered/or is inert.

d) The operation of gas freeing is not permitted when the vessel is berthed or in areas deemed to be dangerous by the Terminal authority.

AUTHORITY: Captaincy of the Ports of Espirito Santo.

UBU: 20.47 N. 40.35 W. **(See Plan Book)**

LOCATION: The port of Ponta do Ubu is located on the coast of the State of Espirito Santo, approximately 40 nautical miles South of Vitoria. Geographic position of the Ponta do Ubu Beacon:

Latitude: 20° 46′ 48″ S.
Longitude: 40° 34′ 40″ W.

DOCUMENTS: All ships are subject to routine arrival visits by the following port officials:

Health Officers
Customs Officers
Maritime Police Officers
Immigration Authorities
Also see "Shipmaster's Report".

PILOTAGE: Pilotage compulsory for all ships sailing through the channel, berthing and unberthing in Ubu. Pilots will board in the area of anchorage. Pilots attending the Ponta do Ubu area are members of the "Associacao dos Praticos do Porto e Barra do Espirito Santo".

All ships must provide an accommodation ladder and rope ladder, freeboard permitting. The landing platform of the accommodation ladder should be approximately 5.0 m. above the water. Boarding facilities should be adequately lighted.

Ships should request anchoring and/or berthing instructions from Ponta do Ubu Marine Operations 4 hours prior to arrival at the pilot boarding area, or when within VHF range.

Ships must not proceed beyond specified boarding area or anchorage unless so instructed by Ponta do Ubu Marine Operations.

APPROACHES: The Ponta do Ubu area is under the jurisdiction of Diretoria de Hidrografia e Navegacao (DHN), an agency of Brazil's Ministry of the Navy. Ponta do Ubu appears on DHN Charts Nos. 70, 1400 and 1402, and on Admiralty Chart No. 3972, U.S. Hydrographic Office Chart No. 24170 and Braziiian Coast Pilot (Roteiro)

Lights in the Vicinity:

Ilha Escalvada (Island)	Gp. fl. (2) 27 metres Lat. 20° 42′ S.	6.0 sec. 9 miles Long. 40° 24′ W.
Ilha do Frances (Island)	Fl. 48 metres Lat. 20° 56′ S.	3.0 sec. 12 miles Long. 40° 45′ W.
Ilha Branca (Island)	Fl. 5 metres Lat. 21° 00′ S.	10.0 sec. 9 miles Long. 40° 48′ W.
Ponta do Ubu	Lat. 20° 46′ 48″ S.	Long. 40° 34′ 40″ W.

Channel: See DHN Chart No. 1402 as amended by Aviso aos Navegantes (Notice to Shipmasters) No. 141/77, 117/78 and 171/78. Maintained channel depth is 18.0 m. (59 ft.) referred to chart datum.

ANCHORAGE: Anchorage instructions must be requested from Ponta do Ubu Marine Operations. Anchorage area position is Latitude 20° 46′ 24″ S. Longitude 40° 32′ 33″ W. Masters are advised to give due consideration to Brazilian antipollution regulations while in coastal waters.

Brazilian Government officials may board ships in anchorage for clearance formalities. Suitable and adequately secured accommodation ladder for this purpose must be provided soon after anchoring. Life ring with line with a minimum length of 50 m. should be on hand and adequate lighting provided.

RESTRICTIONS: Daylight berthing only for vessels over 265 m. LOA. No other restrictions.

MAX. SIZE: Ships arriving in ballast are requested to comply with the following recommended arrival drafts, keeping in mind indicated shiploading rates and shiploader clearance height limitations.

Recommended Arrival Draft

Deadweight Tons	*Metres*	*Feet*
30,000 to 40,000	6.1 — 6.7	20 — 22
40,000 to 60,000	6.7 — 7.3	22 — 24
60,000 to 75,000	7.3 — 7.9	24 — 26
75,000 to 100,000	7.9 — 9.1	26 — 30
100,000 to 150,000	9.1 — 11.0	30 — 36

Ships unable to meet these suggested drafts due to insufficient ballast capacity, anticipated deballasting problems, etc., should so advise in 48-hour ETA message, along with estimated deballasting time.

RADIO: Rio de Janeiro Coast Radio Station, call sign "PPR" (Telex 491) operates on a 24 hr. basis on the following frequencies: 435 kHz, 8,634 kHz, 13,105 kHz.

The Master of an arriving vessel is required to cable his notice of ETA 15 days (or when departing prior port, if sailing distance is less than 15 days) then 5 days, 48 hours, and 24 hours prior to estimated time of arrival at Ponta do Ubu.

Five day message shall contain ETA, cargo tonnage required by hatch number and whether vessel is O.B.O. or ore/oil carrier.

48 hours message shall provide the following information: ETA, arrival draft, ballast tonnage on board and deballasting time.

24 hours message. Cable your ETA, indicate if vessel is fitted with an inerted system and if compartments will be under control of said system during loading. Also include type, manufacturer's name and the society that approved the classification of the inert system.

When within VHF range, Master is to contact the Marine Manager's office for additional information on docking schedule, anchorage arrangements and cargo information.

VHF: Ponta do Ubu Marine Operations is equipped with VHF radio monitored 24 hours a day.

Frequencies:

Calling Channel: 16 (156.800 mHz)

Working Channels: 156.375 mHz, 156.650 mHz, 156.700 mHz.

HEALTH: Radio Pratique should be requested 72 hours prior to arrival, by forwarding quarantine message to Port Health Authorities through the ship's Agent. The information required is as follows:

Name and nationality of vessel; name of the last port of call; port of destination and name of Agent; nature of cargo, if any; date and place of last derating or exemption certificate; number of crew and passengers; health conditions of all on board; vaccination status of crew and passengers; ETA and any other information that may be required by the quarantine officers.

Radio pratique does not constitute quarantine clearance, and the ship will require inspection upon arrival. Radio pratique if granted, will enable ship to enter, berth, and commence loading prior to official quarantine clearance.

The following documents shall be submitted to the Port Health Authority boarding on arrival:

Maritime Declaration of Health, duly filled in as required by Sanitary Regulation No. 2 of the World Health Organization. Copy of up-to-date crew list. Vaccination Certificates of all Crew members as well as their seamen's books or passports.

Quarantine inspection will be carried out at the pier, or at anchorage if required, weather permitting.

Quarantine flag must be flown until free pratique is granted.

Masters are advised to have all vaccination certificates, deratization certificate and clearance from last port ready for inspection.

TUGS: Tug service is compulsory for all vessels at Ponta do Ubu. Tugs will operate in accordance with Brazilian regulations covering this matter.

Available tugs: 3×1,680 h.p., 20 ton bollard pull, tugs permanently based at the terminal. 1 tug on call.

All ships should be equipped with wire cable tow line with nylon pendant.

All communication between tugs and Pilots is via VHF.

Tugs will operate on the same Channel as the Marine Operations office.

BERTHING: The port of Ponta do Ubu is owned and operated by Samarco Mineracao S.A., and is used solely for the purpose of handling and shipping iron ore.

The port consists of a breakwater protected pier, close to the shore with a dredged berth area and access channel.

Product stockpiling and transportation prior to loading: A bucket wheel stacker-reclaimer and a stacker operate in a 1,200 ft. long stockpile area. The stockpile has a total capacity of 550,000 metric tons of pellets and 385,000 metric tons of pellet feed.

During normal operations, pellets are stockpiled by the stacker-reclaimer, and pellet feed stockpiled by the stacker. Both pellet feed and pellets are reclaimed using the bucket wheel stacker-reclaimer. The reclaimed material is then conveyed to the shiploader for loading aboard bulk carriers, at rates of up to 8,000 metric t.p.h.

When reclaiming pellets, the output from the pellet plant is bypassed through the stacker-reclaimer and combined with the reclaimed pellets for shiploading. When reclaiming pellet feed, the output from the pellet plant is conveyed to the stacker, while the pellet feed output is conveyed to the stacker-reclaimer, bypassing the machine and combined with reclaimed pellet feed for shiploading.

A sample station is provided to monitor the quality of pellet feed or pellets being loaded into a given ship statistically. Samples are automatically cut from the shiploading conveyor system at preset intervals, without interrupting the loading operation. Each sample is then reduced in size, and subjected to a complete range of quality control tests.

Material reclaimed for shiploading by the stacker-reclaimer is conveyed to a rail-mounted travelling shiploader. The shiploader is designed to load vessels on either side of the pier. A loadout weigh scale located near the shiploader monitors the final product delivered for shipment.

Port facilities: Port facilities at Ponta do Ubu are located in the open sea near the apex of a shallow indentation in the coastline where currents have provided 20 m. deep water within 2 km. of the shore.

The existing depth of water in the dredged channel is minus 18 m. The main berth area was dredged initially to minus 19 m.

Berthing: The breakwater protected pier consists of a 313 m. long by 22 m. wide concrete deck, extending in a 022° 30′ direction. It projects from the Eastern portion of the breakwater to a distance of 685 m. from the shore.

The pier has berths on both East and West sides.

Shiploading: The mobile rail mounted pier shiploader has a 41.6 m. fixed length boom, with a 280° turning angle and a 19.5 m. air draft. Its nominal loading capacity is 9,000 metric t.p.h.

LOADING: Vessels will be generally loaded in turn, in their order of arrival, provided that:

(i) They are in all respects ready to receive cargo;
(ii) All the cargo is available at the terminal;
(iii) It is in accordance with the instructions of the charterer or his Agent.

Vessel shall present a detailed loading plan immediately on arrival, including hatch quantities, with loading sequence and quantity of ore to be reserved for fore and aft trimming by hatches.

Ships will leave berth immediately on completion of loading, unless specific permission to do otherwise has been granted by Marine Operations.

Loading hours, subject to change, are as follows: 24 hours operation, Sundays and holidays included.

All ships *must secure bilge systems* while at Ponta do Ubu.

Combination ore/oil and ore/bulk/oil carriers must ensure that ballast tanks and piping systems are free of oil contamination, prior to arrival. Gas-free condition of combination carriers must be confirmed prior to loading. Certification and inspection shall be arranged through the vessel's Agent. Vessels with inerted tanks shall be checked and monitored continuously during loading.

MEDICAL: The medical facilities nearest to Ponta do Ubu are located at Guarapari, 15 mins. away by car.

Vitoria has modern hospital facilities.

FRESH WATER: Not available.

FUEL: Not available.

TIME: Local time is GMT minus 3 hours.

AIRPORT: Guarapari (20 km.) for light aircraft (air taxi).

Vitoria (70 km.) Airport Eurico Sales, connection to other Brazilian towns.

POLICE/AMBULANCE/FIRE: Police (Guarapari) Tel. 261-0151.

SERVICES: There are supermarkets at Guarapari.

HOLIDAYS: *Local holidays:* Confraternizacao dos Povos – 1st January; Passion Friday – movable; Tiradentes – 21st April; Labour Day – 1st May; Sao Pedro – 29th June; Independence of Brazil – 7th September; All Saints – 2nd November; Proclamation of the Republic – 15th November; Day of the City and Day of Our Lady of the Conception – 8th December.

REPAIRS: No facilities.

TELEPHONES: No facilities for placing telephones onboard.

GENERAL: The Brazilian National flag shall be flown while in the Ponta do Ubu area.

Line-handling port personnel will be available for handling ship's lines during berthing and unberthing. All shipboard work necessary for berthing, loading and unberthing, including, but not limited to, handling and tending moorings, opening and closing hatches and normal deck cleanup, shall be performed by the ship's crew.

Ships must have main engines ready and maintain watch while alongside the pier, unless specific permission to do otherwise has been granted by Marine Operations.

The nearest town is Guarapari, 15 minutes to the North by car. Vitoria, capital of the State of Espirito Santo, is about 80 minutes by car to the North. Daily flights, operated by major Brazilian airlines, connect the state capital with the rest of the country.

Ships causing oil pollution, dumping of waste, refuse, etc., in coastal waters will be liable for all resulting fines and cleanup costs. All ships must secure bilge systems while in the Ponta do Ubu area, and combination ore/oil and ore/bulk/oil carriers must exercise all precautions necessary to insure that ballast tanks and/or piping systems are free of oil contamination prior to arrival. *Accidental and deliberate oil or oily mixture discharges in the area must be reported to Ponta do Ubu Marine Operations IMMEDIATELY.*

There are no shore facilities available at the terminal for receiving slops, and dirty or contaminated ballast. Masters are cautioned that discharging of anything other than uncontaminated ballast will be subject to penalties as prescribed by Brazilian law.

Solid garbage and refuse disposal ashore can be arranged through Marine Operations.

Weather conditions and temperatures are moderate with year-round average highs of 27°C (80°F) and year-round average lows of 19°C (66°F).

Winds recorded are less than 30 knots more than 95% of the time and prevailing winds are East to N.E. Local winds may have a significant effect on the tide.

There are no significant currents noticed in the turning basin.

For general information about currents in the Ponta do Ubu area, use South Atlantic Pilot Charts and Brazilian Coast Pilot (Roteiro).

Sea conditions are generally moderate.

Meteorological bulletins are available 24 hours a day through Rio de Janeiro coast radio station, Radio Arpoador, call sign PPR. 17,194 kHz.

SHIPMASTER'S REPORT: 1978.

This report to be read in conjunction with the entry above.

Documents: Please refer to other Brazilian ports, vessel came from Rio de Janeiro so only the Agent and the Customs boarded and asked for 3 Crew Lists, 1 Custom Store List and 1 Personal Effect List. We were told that to go ashore every Crew member needed a pass with picture attached but crew went to the near town of Guarapari after showing passport or an identity card at the gate.

Pilotage: The Pilot boards about 2 to 3 miles outside the channel. He comes on board by Pilot boat based at Point Ubu and even though we were in very light condition wanted to use the pilot ladder. Pilots come from Tubarao and Vitoria.

Restrictions: Until now the maximum draft allowed on arrival at all times has been 11 m. while the maximum sailing draft is 16.5 m. at high water in fair weather. The Pilots Association have asked for buoys No. 13–11–9–7 to be removed from their actual position and only buoy No. 9 to be placed in front of the 9.8 m. patch. They say that numerous soundings over the patch always show 11 m. so 9.8 m. does not exist. The Pilot told me that these changes might take place around March/April 1978, but nothing certain.

Tugs: Three tugs are based at Point Ubu namely the "Scorpius", "Polaris" and "Aquidauana". The first 2 are good and operate respectively on the bow and stern of the ship with 2 ship's nylon ropes. If vessel over 200 m. in length the Port Captain orders a fourth tug that must come from Tubarao (about 3 hours) and it is very helpful and powerful.

VHF: Marine Operations answered us about 2 hours from the berth (30 miles).

Bulk Cargo Facilities: We were the sixth ship to load in this port, the loading rate is around 4,000/5,000 t.p.h. at present.

Medical: Ship's Agent can arrange to send people to the doctor at any time or to the hospital in the near town of Guarapari.

Density: Checked over 3 days and always found to be 1026.

Loading: The Bill of Lading figures are taken from the weightometer which is believed to be extremely correct, but it showed a difference of 1,000 long tons over 37,000 long tons loaded on the ship. A surveyor carried out a draft survey on arrival and it was said that it was a check on the weightometer, being normal check that was carried out for these early loadings but the real figures are taken from the weightometer. 2,000 long tons before completion of loading we stopped for trimming and the scale showed about 1,000 long tons more loaded than the ship's figures. Because of this, the Terminal considered the ship's figures (survey) and to these figures they added according to the scale the quantity we requested to complete loading.

OPERATORS: Samarco Mineracao S.A.

Ponta do Ubu: Postal address: Caixa Postal 205, 29.200 Guarapari, E.S. Brazil. Tel. 261–1344, 261–0448. Area code* 027. Telex 272204 (SASA BR).

Central Office: Avenida Carandai, 1115, 18th floor, 30.000 Belo Horizonte, MG, Brazil. Tel. 222-4022; Area code*; 031. P.O. Box: C.P. 1317. Cable address: Samarco. Telex 031-1474.

Rio de Janeiro office: Avenida Nilo Pecanha, 50, 5th floor, Suite 510, 20.000 Rio de Janeiro, Brazil. Tel. 222-9756, 224-8306, 224-3935. Area code*: 021.

*Code for Brazil: 0055.

VITORIA 20.19 S. 40.20 W.

DOCUMENTS: See "General" before first port.

PILOTAGE: Compulsory. Vessel approaching port should communicate with Agent through local radio station, giving date and hour of arrival at Pilot station so that they can arrange for a Pilot to be at the roads on arrival. Communicate direct to Pilot Association through VHF Channel 16. Pilots maintain 24 hour watch.

ANCHORAGE: The official limits of the port are:

Arc of a circle of 1 mile radius, seaward, with centre at Santa Luzia Lighthouse. There is a 8.9 m. patch which will be removed in the near future.

Notice of Readiness is accepted as at time the Master radios advising vessel has anchored, SHINC, lay time starting 3 hours afterwards (subject to C/P).

No draft limitations at anchorages.

APPROACHES: Length of access channel 3.5 miles, width 120 m., depth 13.0 m. Maximum speed allowed 5 knots.

RESTRICTIONS: All sailings are to take place on a rising tide. Vessels of up to 205 m. can enter day or night.

Vessels from 205 to 240 m. can enter during daylight hours, weather permitting. Vessels of this length must be assisted by 3 tugs, 2 of which must be of at least 1,000 h.p. and the other of at least 400 h.p.

For turning in the manoeuvring basin, 2 tugs are required, 1 to be of at least 1,000 h.p. and the other of at least 400 h.p.

MAX. SIZE: 36 ft. draft at HW and 32 ft. at LW. Also see "Tankers" and "Developments".

HEALTH: Free pratique obtained by radio to Agents, addressed for "Saportos Vitoria" followed by ship's name, last port, ETA, and the letters ZT (meaning "my replies to the 6 questions on the port health declaration are negative"), and ZS (meaning "the sanitary condition of my ship is satisfactory"). Pratique is granted when this message is delivered by Agent to the port doctor. Also see "General" before first port.

The Agent may send a reply containing the group ZY, meaning "you have free pratique". In any case the time of pratique is registered as time that the ship's cable was received by the Health Authorities. This pratique does not allow the crew to go ashore until after customs clearance.

Crew vaccinations are done free.

The Port Doctor usually arrives onboard some time after the visit of Authorities and it is important to have the Health Declaration ready for handing to him by a responsible person (to avoid a fine).

RADIO: Local radio station, Vitoria Radio, call sign PPT. This radio station normally used by Agents when cabling vessels.

Operating Frequencies:

2 mHz band on transmission frequencies 2086 and 2096.5 mHz and on the emergency frequency of 2182 mHz.

4 mHz band – transmission frequency 4403.9, 4382.2 and 4366.7 mHz on the emergency frequency 4412.5 and 4143.6 mHz.

8 mHz band on the transmission frequencies of 8802.6 and 8774.7 mHz. and reception 8278.7 mHz and 8250.8 mHz.

VHF: Request Pilot on Channel 16 and 12 one hour before arrival. Upon notice it then takes Pilot 40 minutes to reach vessel.

TUGS: Tugs join vessels at anchorage. Ship's lines used. Tugs have no lines on board. The lines given to tug-boats should be without wire as the swell usually prevailing causes severe sudden stresses on the tow lines.

2 tugs of 1,680 h.p., (20 tons) and 4 tugs of 1,600 h.p. (22 tons).

Vessels up to 2,000 g.r.t. require 1 tug, up to 10,000 g.r.t. require 2 tugs and over 10,000 g.r.t. require 3 tugs for berthing.

Vessels up to 2,000 g.r.t. require 1 tug and vessels over 2,000 g.r.t. require 2 tugs for unberthing.

BERTHING: Also see "Developments".

Commercial Quay: No restrictions for vessels berthing at Nos. 4 and 5 warehouse, entrance and sailing at any stage of tide. Max. drafts are:

No. 5 warehouse – 28 ft., max. length 597 ft. 2 in.
No. 4 warehouse – 26 ft., max. length 597 ft. 2 in.
No. 3 warehouse – 24 ft., max. length 508 ft. 9 in.
No. 2 warehouse – 14 ft., max. length 393 ft. 9 in.

Vessels at Nos. 2 and 3 restricted to sail on flood tide only.

Usiminas Quay – Coal Discharge: Max. draft 35 ft., max. length 853 ft. Limited to entry only at beginning of ebb tide; sailing at any stage of tide. Discharge by 2 mechanical grabs, daily unloading rate, 8.400 LT.

Iron Ore Berths:

Atalaia Quay: Max. draft 36 ft., max. length 787 ft. 5 in. Vessels berth and sail on flood tide. Entering and sailing during night or day; max. length 657 ft. 10 in. during the day only, 787 ft. 5 in.

Paul Quay: Max. draft 31 ft., length (as for Atalaia). There is one loading area with a capacity of 600/900 t.p.h. depending on type of ore. Max. reach beyond quay edge, 49 ft. Max. height extremity of hook at 18 in. elevation, 52 ft. at HW, 59 ft. at LW. Width of pontoon, 14 ft.

CRANES: Twenty-three electric gantry cranes 1.5-12.5 tons capacity, 5 mobile cranes 10–30 tons capacity and 2 heavy lift cranes 100 ton capacity.

TANKERS: *Esso Terminal.* Berthing and unberthing can take place during day or night period, provided vessels draft does not exceed 22 ft. Max. length permitted 524 ft. 11 in. with max. draft of 27 ft. Vessels must enter on ebb tide and sail at high tide.

Texaco Terminal. For ships discharging for Shell, Atlantic and Texaco. Discharge handled through a common line, except for fuel oil, handled on a separate line. All lines 6 in. du. Max. pressure from shore 80 lb. producing average discharging rate of 1,500–2,000 b.p.h. Vessels may enter or sail on any daylight tide, max. draft permitted 32 ft., max. length 597 ft.

STEVEDORES: On ETA cable general cargo ships should include number of gangs required.

MEDICAL: No advance notice of required medical attention. Hospital facilities available.

DENSITY: Average density at Vitoria 1025. Somewhat lower during rainy season.

FRESH WATER: Fresh water available at Commercial Quay, Vitoria iron ore berths, Usiminas Quay and Esso Terminal. Rate of delivery 30 t.p.h.

A barge with capacity of 50 tons may be adapted to carry water.

FUEL: *Esso Berth.* Bunkers can be taken here, supplied under gravity only.

Max. draft 27 ft., and length restricted to 164 m. Due to various factors, the taking of bunkers in Vitoria is not recommended, however, fuel is available by road tanker at the Commercial Quay. Rate 10,000 litres/hour.

Esso and Petrobras can supply Bunker "C", fuel oil and diesel oil, the last two being available by truck.

DEVELOPMENTS:

Capuaba Quay:

The Capuaba Quay is in its final stages of completion, with silos and refrigeration installations.

Cold Store: With capacity of 5,000 tons in its first phase, and 15,000 tons in its final capacity, intended for refrigerated storage of general (meat and juices).

Silo: With capacity of 30,000 tons in the initial stage and 90,000 tons in its final phase, it will be equipped with cleaning, drying, classification, weighing and bagging equipment.

It has an 84 m. tower, made of blocks of cells 60 m. high and 8.5 m. diameter. It can take cereals, (maize, soya, sorghum) at the rate of 600 t.p.h., and delivery at the rate of 1,200 t.p.h., and can, in the case of imported wheat, receive at the speed of 300 t.p.h. With 765 m. of quay, Capuaba will also deal with the exportation of industrial products, such as cellulose, metal products and general cargo. The installations include warehouses, for metals of 7,500 sq.m. and general cargo 4,000 sq.m., there is also open area storage of 45,000 sq.m. for containers. The port installations at Capuaba, expected to be completed shortly, will enter operation with 180 m. of quay, and a general cargo warehouse for the export of cellulose.

Capuaba Quay: (already installed).

Length of quay: 655 m.
Depth: 13 m.
Cold store: capacity of 15,000 tons.
Metals warehouse: area of 7,500 sq.m.
General cargo warehouse: area of 4,000 sq.m.
Storage open area: area of 45,000 sq.m.
Road and rail access.
Length of roadway: 3,120 m.
Width of platform: 16 m.
Length of bridge over River Aribiri: 126 m.
Length of railway: 660 m.
Port Silo capacity: 30,000 tons in the first phase and 90,000 tons in the final phase.
Purpose: export of cereals (soya, maize and sorghum) and importation of wheat.
Operational speed: 1st phase: 1,200 t.p.h.
2nd phase: 1,800 t.p.h.
Cells: 8.5 m. diameter and 60 m. high.
Elevation tower: 84 m. high.
Belt transporter: 800 m.

WATCHMEN: Compulsory at commercial quay in Vitoria. Not available at Vitoria Ore Terminals.

OPENING/CLOSING HATCHES: Normally done by stevedores except in cases of modern vessels using MacGregor hatch covers, when crew asked to close hatches.

CUSTOMS ALLOWANCES: Each Crew member allowed 200 cigarettes out of the bond. One bottle, wine or spirits opened, for each Crew member.

REPAIRS: Deck and engine repairs available.

REPATRIATION: There are 3 flights daily from Rio de Janeiro to Vitoria.

AIRPORT: Airport located 8 km. from centre of town and is served by 3 airlines with daily flights to Rio de Janeiro, Salvador, Recife.

TIME: Local time GMT minus 3 hours. Summertime usually 1st November up to 31st March when time is GMT minus 2 hours.

HOLIDAYS: January 1st; April 21st; May 1st; September 7th and 8th; November 2nd and 15th; December 25th; Good Friday; Nossa Senhora da Penha and Corpus Christi. Only holiday when no stevedore work is possible Good Friday; exception made to iron-ore loading.

IDENTIFICATION CARDS: Required with photographs to enable officers and Crew members to go ashore. Agents supply forms.

CONSULS: The following countries have consular representatives in Vitoria:

Great Britain
Argentina
Belgium
Finland
Holland
Italy
France
Lebanon
West Germany
Portugal
Uruguay

POLICE/AMBULANCE/FIRE: Police 290, Maritime Police 3–0173; Radio Patrol 7–0992; Ambulance 2–4646; Emergency Hospital 3–0203; Fire Brigade 3–0202.

TELEPHONES: No facilities for placing telephones on board.

AUTHORITY: Captaincy of the Ports of Espirito Santo, Directorate of Ports and Coast.

Port administered by Espirito Santo Dock Company S.A.

NOTES

Please also advise Shipping Guides Ltd.

Brunei State

BANDAR SERI BEGAWAN: 04.53 N. 114.56 E.

Brunei State is an independent country governed by H.H. the Sultan with a Council of Ministers and Legislative Assembly, under British protection. The capital town of Bandar Seri Begawan (formerly known as Brunei Town) is situated 16 miles upriver from Muara Harbour which is at the mouth of the Brunei River. Use of the town wharf at Bandar Seri Begawan is restricted to small wooden coastal vessels operating within the Brunei Bay area not exceeding 80 ft. in length overall and 50 tons gross registered tons. The port of Bandar Seri Begawan comprises a reinforced concrete wharf 730 ft. long with a wharf apron 76 ft. wide and a passenger pier 124 ft. long with a wharf apron 63 ft. wide. Three transit godowns are provided.

MUARA PORT: 05.01 N. 115.04 E. (See Plan Book)

PORT LIMITS: The sea area within Lat. 4° 58′ N. and 5° 05′ N. and Long. 115° 03′ E. and 115° 10′ E.

DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
2 Dangerous Goods Lists.
2 Manifests.
1 Health Document.

PILOTAGE: Application for Pilot 24 hours in advance by telegraph through ship's Agents. Pilot boat awaits at Beacon No. 1, Lat 5° 03.5′ N., Long. 115° 06′ E. Pilot boat painted white with green awning. If on arrival No. 1 Beacon pilot boat not visible then ships should call "Muara Port" on VHF Channel 16. Pilotage compulsory and available daylight hours only. Vessel should anchor in vicinity No. 1 Beacon awaiting Pilot.

ANCHORAGES: Safe anchorages available vicinity No. 1 Beacon, S.E. of Tanjong Sapo Light (Lat. 4° 59.7′ N. Long. 115° 07.6′ E.) and in Muara Harbour 4 cables SSW of the wharf.

RESTRICTIONS/MAX. SIZE: Entrance to Muara Harbour restricted to daylight hours only at present. Minimum depth in dredged channel 32 ft. ACD. Max. length of vessel 600 ft.

RADIO: Messages to Agents through Singapore or Miri Radio.

VHF: Ports Department VHF Channels 11, 12, 13, 14 and 16 in operation Mondays to Thursdays and Saturdays from 0730 to 1600 hrs. local time. Fridays, Sundays and Public Holidays from 0800 to 0900 hrs. and 1300 to 1400 hrs. local time. Call sign "Muara Port".

RADAR: No port radar service available.

TUGS: No tugs normally available.

BERTHING: Marginal wharf 1,400 ft. long with depth 32 ft. ACD alongside. Inner Berth 285 ft. long with depth 17 ft. ACD alongside. Mobile shore cranes available up to 30 tons capacity.

STEVEDORES: Provided by ship's Agents. Major commodities general cargo and cement, oil well cement, tubulars, machinery and vehicles.

MEDICAL: Hospital available 16 miles from port. Port Health Clinic outside port main gate.

DENSITY: Salt water.

FRESH WATER: Readily available at wharf, cost Brunei $4 per 1,000 gallons.

FUEL: High speed diesel available in small quantities.

CONSULS: There is a British High Commissioner in the town of Bandar Seri Begawan 16 miles from the port.

REPAIRS: Minor deck and engine room repairs possible.

DRY DOCKS: None.

SURVEYORS: Lloyds and American Bureau are represented.

GANGWAY/DECK WATCHMEN: Not compulsory but available through Agents on request.

HATCHES: Opening and closing by crew or stevedores at ship's option.

CARGO GEAR: Loading/discharging normally effected by ship's gear but 30 tonne capacity mobile crane available from Ports Department on request. Slings, nets, tarpaulins, 30 ton capacity low loader and container platform trailer available from Ports Department.

REPATRIATION: There is no Shipping Office but ship's articles are countersigned by the Director of Marine on request.

AIRPORT: International airport 12 miles from port. Regular services to Singapore, Hong Kong, Manila and direct flights once weekly to United Kingdom.

TIME: Local time is GMT plus eight hours. No alterations in clocks throughout year.

POLICE/AMBULANCE/FIRE: Police 333. Ambulance 922366. Fire 255.

TELEPHONES: Available on request at Berths Nos. 1 and 5.

SERVICES: Diver available, cold store facilities available.

SHORE LEAVE/IDENTIFICATION CARDS: After clearance inwards Crew members are allowed ashore if in possession of discharge book, identity card or passport.

HOLIDAYS: Hari Raya Puasa, Hari Raya Haji, Chinese New Year (all dates moveable) Christmas Day. Work can usually be arranged on all holidays with exception of Chinese New Year when direct delivery to vehicles only available.

AUTHORITY: Controller of Ports, Muara, State of Brunei, Borneo.

SERIA: 04.43 N. 114.19 E. (See Plan Book)

LOCATION: Seria is an open sea berth port. At present 2 SBM's are in operation located approximately 5.4 miles off the coast in the following positions:

SBM 1: 4° 42′ 51″ N. 114° 18′ 53″ E.
SBM 2: 4° 42′ 50″ N. 114° 19′ 44″ E.

WARNING: Due to numerous drilling structures in this area Masters are requested to give them a wide berth.

FLAGS: The Brunei National Flag should be flown during hours of daylight.

DOCUMENTS: *Papers Required On Arrival:*

6 copies of the Crew List. If the vessel is stemmed for Japan, 6 extra copies are required from non Japanese flag vessels.

International Maritime Declaration of Health.

2 Vaccination Lists on the first visit and subsequently a single updated List.

Last Port Clearance.

The boarding clerk will supply and prepare the following documents for the Master's appraisal and signature:

Marine Shipping Report. The form will be completed by the boarding clerk who will need to see the ship's papers.

Quarantine Entry Declaration Form.

Inward Manifest.

PILOTAGE: The Berthing Master and Mooring Assistant board incoming vessels 2 miles North of the SBM.

Masters are requested to provide a good lee for the launch to facilitate the boarding and lifting of radio sets and mooring equipment.

The pilot ladder must be in good condition, fitted with spreaders, be properly rigged and secured, adequately lit at night and well clear of the ship's propellers. When the accommodation ladder is used it must be rigged well clear of the water with a pilot ladder below to gain access to the main ladder.

Crew members must be in attendance at the ladder head where a lifebuoy and clean heaving line should be sited.

The Pilot should be met at the ladder and escorted to the bridge. The Berthing Master and Mooring Assistant remain on board throughout and will require accommodation during the vessels stay.

APPROACHES: *Approaches to the berth and anchorages:* (See Plan).

There are many oil field production structures off the coasts of Sarawak, Brunei and Sabah coupled with a large amount of exploration and drilling activity. These field structures both surface and subsurface pose a hazard to navigation and Masters are advised that they should give all these activities and fields a good wide berth.

ANCHORAGE: A tanker anchorage (B) ("See Plan") is located approximately 3 miles North of the SBM berths in the area contained within the following limits:

Lat. 4° 45′ N. and 4° 47′ N.
Long. 114° 17′ E. and 114° 19′ E.

Tankers should not anchor in any other locations due to the presence of many submarine pipe-lines throughout the oil field and adjoining areas.

RESTRICTIONS: No port restrictions.

MAX. SIZE: SBM 1: 320,000 d.w.t. max. draft: 62 ft.
length between bow and manifold max. 680 ft.
SBM 2: 200,000 d.w.t. max draft: 57 ft.
length between bow and manifold max. 540 ft.

HEALTH: *Customs and Health Requirements:*

A detailed shipping report has to be completed for the Government Marine Department. Agent will provide the forms for completion.

If the vessel comes from an infected port or its state of health is suspect, the Medical Officer may board in order to inspect the crew and relevant International Medical Certificates. Customs Officers do not normally board incoming vessels but may do so with the Agent.

RADIO: *Information Required Prior to Arrival:*

Radio Advice: Confirm ETA at least 48 hours in advance declaring state of Health, Master's name, number of crew, destination, and quantity of cargo required.

This data is used to obtain the vessel's "Seria Port Clearance," in advance.

W/T Traffic should be passed through Singapore Radio, and addressed to CROSFIELD, KUALA BELAIT.

The Agent will pass ETA's to the BSP Marine Department and to Seria Oil Terminal.

Vessels making their first call at Seria port will receive a comprehensive message from the Agent describing the location of the anchorage and information on pilotage, radio stations and papers required on arrival.

When within range, vessels are requested to make direct W/T contact with Brunei Shell Petroleum Company (Call sign BSP-ONE) at the following local times (GMT + 8 hrs.) 0945 hrs. to 1020 hrs.; 1345 hrs. to 1420 hrs.; and 1725 hrs. to 1820 hrs.

BSP will transmit on 8558 kHz, call sign BSP-ONE, and listen out on 8354 to 8374 kHz. When contact is made on this frequency a standard information cable describing necessary derrick and mooring arrangements will be transmitted to the ship by BRUNSHELL.

The ship's radio station must not be used whilst the tanker is moored to the SBM.

Agent:

The Agents launch is equipped with a VHF radio and a single side band radio transmitting on 4400 kHz and 5923.5 kHz.

Agent boards arriving vessels from morning to about 2100 hrs.

VHF: A continuous watch on Channel 16 is maintained both by BSP-ONE and by Seria Terminal. Vessels should contact either of these stations as soon as practicable, passing her latest ETA at Seria Pilot Station. While berthing, Channel 13 is normally used to communicate between bridge, mooring boat and forecastle.

BSP-ONE uses Channel 19 as working Channel and can link the ship with the Agents through the Government telephone system.

TUGS: None Available.

BERTHING: Berthing and unberthing is carried out night and day.

Mooring can usually be safely carried out in sea/swell heights of between 6 and 8 ft., operations are normally suspended if heights are in excess of 8 ft. The operation however is governed by the mooring boat performance in the sea conditions prevailing at the time.

Wind speeds in excess of 20 knots make it difficult to prevent the "bow falling off" when on final approach. Berthing operations are as a rule suspended when wind speeds exceed 25 knots. Again this is governed by the mooring boat performance and the ships handling characteristics.

Tanker Moorings: Tanker moorings from the buoys comprise of two 12 in. circumference two-in-one braided nylon endless grommet type mooring ropes complete with Dunlop type floating sleeves. They have a soft eye to each end, both ropes being 150 ft. long and have a breaking load of 396 tons when new. Fairlead chafing chains with triangle connecting plates are attached to the tanker end of the moorings. Each chain is 25 ft. × 3 in. diameter stud link chain constructed of special quality U2 grade steel. Incorporated within the chain is a further connecting triangle plate for larger tankers.

A 10 in. circumference × 40 ft. polypropylene pick up rope is shackled to the end connecting triangle plate, the free eye of the rope being buoyed off for easy recovery by the mooring launch ("See Plan").

The buoy end of the 12 in. circumference nylon mooring ropes are pinned into a twin triangle plate which in turn is secured to lugs on the revolving turntable by short lengths of chain and connecting shackles.

Mooring Equipment: Two portable UHF radios for ship/shore communications during loading are passed to the tanker when the Berthing Master boards approximately 2 miles North of the buoy. In addition mooring equipment consisting of two 15 in. circumference two-in-one braided single type nylon snotters 80 ft. long, with forelock shackles for connecting to the triangle plates are lifted on board the tanker with the ship's derrick from the lee side. In good conditions the equipment is normally taken directly onto the forecastle from the mooring boat, a ship's mooring rope being lowered to the boat and the snotters shackled to the end of it.

The mooring equipment is set out on the forecastle head during the tanker's approach to the SBM.

The snotters must be so placed to be clear of any structure and other forecastle gear and equipment that may cut or damage these nylons ("See Plan").

LOADING: The starboard derrick should be rigged to lift a minimum of 7 tons and the crew ready forward with a ship's mooring rope to take the mooring equipment.

Two 16 in. hoses will be connected by the ship's crew after the vessel has completed mooring.

Load-on-Top: Unless the vessel has other instructions then the "Load-on-Top" system applies.

Slops *cannot* be accepted ashore. A load-on-Top audit report on the amount of slops the vessel arrives with is compiled by the Berthing Master and sent to London.

Position of Hose Connections: Starboard side amidships, in this area tankers lying at SBMs tend to swing to port, away from the hoses, during changes of tide.

Hose derrick should be rigged to lift at least 7 tons and the vessel to have the appropriate reducers fitted to take standard 16 in. manifold hoses 150 ASA. Hose connection and disconnection is carried out by the ship's crew.

Pipe-lines and Floating Hose Strings

Pipe-lines: 2 submarine sea lines are laid from the terminal to the buoys. A 32 in. line, 33,000 ft. long to No. 1 buoy and a 24 in. line 32,200 ft. long to the Eastern plem of SBM No. 2.

A 24 in. crossover line 5,500 ft. long joins the "T" piece connection situated 4,100 ft. from SBM No. 1 plem to the Western plem valve on No. 2 SBM. All lines are concrete coated and cathodically protected with aluminium anodes.

The main sea lines terminate at "T" piece manifold plems. 75 ft. and 66 ft. from the vertical axis of the buoy on SBM No. 1 and No. 2 respectively.

Two underwater hose strings in "Lazy 'S'" configuration connect the manifolds to the underbuoy flanges. No buoyancy tanks are fitted on these strings. The lengths are 120 ft., being made up of four 30 ft. submarine hoses each hose being electrically discontinuous in order to isolate the cathodic protection of the sea line and buoy.

SBM No. 1 Submarine Hoses (2 Strings)	*SBM No. 2 Submarine Hoses* (2 Strings)
1 × 16 in. × 30 ft. Submarine Supersampson hose.	1 × 20 in. × 30 ft. Submarine Supersampson Hose.
1 × 16 in. × 30 ft. Standard Submarine Hose.	2 × 20 in. × 30 ft. Standard Submarine Hose.
1 × 16in. × 30 ft. Submarine Supersampson Hose.	1 × 20 in. × 30 ft. Submarine Supersampson Hose.
4 Hoses 120 ft. Long.	4 Hoses 120 ft. Long.

Connected to the buoy turntables are 2 floating hose strings each string consisting of:

SBM No. 1 (2 Strings)	*SBM No. 2* (2 Strings)
1 × 20 in. ID × 30 ft. Half Supersampson	1 × 16 in. ID × 30 ft. Half Supersampson
17 × 20 in. ID × 35 ft. Mainline Selflote Hose	18 × 16 in. ID × 35 ft. Selflote Hose
1 × 20/16 in. ID × 30 ft. Tapered Selflote Hose	2 × 16 in. ID × 30 ft. Lightweight Tail Hose
5 × 16 in. ID × 35 ft. Mainline Selflote Hose	1 × 16 in. ID × 30 ft. Barbell Rail Hose
1 × 16 in. ID × 30 ft. Lightweight Tail Hose	
1 × 16 in. ID × 30 ft. Barbell Rail Hose	
26 Hoses Length 890 ft.	22 Hoses Length 750 ft.

Floating hose strings are electrically continuous except the tail end hoses, which isolate the cathodic protection of the SBM from the tanker.

Spare hoses are held in stock to increase the length of the strings to accommodate VLCC tankers should these be programmed for Seria Terminal.

Either floating hose string can be isolated to allow loading through 1 hose, by closing the butterfly valves sited on the buoy turntable.

CARGO PARTICULARS: Crude Oil and BNGL Liquid only

Approximate API and SG's at Loading Temperatures.

Seria light export blend	API 36 at 60°F	SG 0.8348 at 83°F.
Champion export	API 24 at 60°F	SG 0.9100 at 83°F.
BNGL	API 52 at 60°F	SG 0.7711 at 83°F.
BLSB	API 34 at 60°F	SG 0.8566 at 83°F.

These figures are subject to change.

Approximate Loading Rates:

SBM I Champion export 5,000 m.^{3} per hr. and SLEB 5,000 m.^{3} per hr.
BLSB 5,000 m.^{3} per hr.
SBM II Champion export 3,500 m.^{3} BNGL 3,000 m.^{3} per hr.
SLEB 3,500 m.^{3} BLSB 3,500 m.^{3} per hr.

Ships are required to load cargo as rapidly as possible in accordance with the terms in their Charter Parties. They are expected to load as fast as Seria Terminal can supply or they can safely receive. The question of how fast a ship may load is the responsibility of the Master having regard to his Owner's instructions and Charter Party and experience of his crew.

Loading is controlled by portable UHF radio sets taken on board with the Berthing Master. Incorporated in these sets is an emergency shut down button which when activated stops all the shore pumps. During loading, four hourly figure comparison checks in long tons are required to ensure no subsea leaks develop undetected.

EARLY DEPARTURE PROCEDURE: A modified early departure procedure is in operation at Seria. Masters are requested to sign all documents in blank, retaining in their possession the master bill of lading copy. On completion of cargo the Berthing Master will give the Master copies of R.O.B. monitoring report, ship's statement of cargo and deadfreight report and the provisional cargo figures. Should there be any change in these figures then the vessel will be informed by radio. After unmooring and just before the vessel sails the Berthing Master willl give the Master a copy of the completed sheet. All other documents are then completed ashore and mailed to the vessel's destination.

DIRTY BALLAST: There are no tank cleaning or dirty ballast facilities. All ships must arrive with clean ballast, pumps and lines. Pollution in any form cannot be accepted.

MEDICAL: In cases where medical attention is required then the Agent will arrange for the patient to be taken by launch and car to the hospital. This journey involves a 40 minutes launch ride to an open sea landing stage which can only be used in fair weather. Otherwise the patient must be taken to Kuala Belait (1 hour 10 minutes by launch) where there is a possibility of delays due to tidal and weather restrictions. Unless absolutely necessary this option is not recommended.

In cases of emergency involving, serious injury or illness the Berthing Master or BSP-ONE can initiate Brunei Shell Petroleum Company "Medivac Procedure". Representation of the patients, remains with the Agent, who should be informed immediately to contact customs and immigration authorities.

DENSITY: Varies 1020 – 1025 depending on season and rainfall.

FRESH WATER: Not available.

FUEL: Bunkers are not available at Seria. They can however be obtained at Miri (Lutong).

Fuel oil bunkers (100 sec Redwood) max. draft 44 ft.
Diesel fuel bunkers............................ max. draft 41 ft.

Three days prior notice is required.

REPAIRS: Small emergency repairs to Shell owned and chartered vessels only may be undertaken at the Brunei Shell Petroleum Company workshops. There is a small yard at Kuala Belait which also undertakes repairs.

AIRPORT: At Bandar Seri Begawan.

REPATRIATION/JOINING: Crew members leaving or joining vessels at Seria require a valid travel document for travelling through Brunei State from the airport to Kuala Belait or vice-versa. However, the Seaman's Book may be used in lieu of a Passport by all Nationalities that have ratified the ILO's (International Labour Organisation) Convention.

Crew to be repatriated from Seria have their travel documents endorsed in Kuala Belait before travelling to Bandar Seri Begawan International Airport. The Immigration Office in Kuala Belait is open during normal office hours on Monday to Thursday and Saturday. Crew arriving ashore on Friday and Sunday stay overnight in Kuala Belait. There are two morning flights daily and additional evening flights from Thursday to Sunday to Singapore for destinations worldwide.

Two flights a week are scheduled for Bangkok and Hongkong.

TIME: Brunei keeps local time of GMT + 8 hours.

SHORE LEAVE: No shore leave is allowed.

WEATHER: The area is affected by squalls associated with cumulonimbus and thunderstorms. These squalls, though not isolated can be very severe and peak gusts of 75 knots are not uncommon. This peak gust is brief and settles to between 25-40 knots. All squalls are accompanied by torrential rain.

SAFETY: *Safety Regulations:* As per International Oil Tanker and Terminal Safety Guide (ISGOT).

Smoking is only permitted in two places jointly approved by the Master and Berthing Master.

One man must be stationed on the forecastle to watch the buoy throughout the time the vessel is moored to ensure the vessel does not approach the SBM.

Engines must be kept available at all times.

Brunei Shell Petroleum Company Limited reserves the right in the event of flagrant and continued disregard of safety requirements by any ship to stop all operations and order the vessel off the berth for appropriate action to be taken by Charterers and/Owners concerned.

GENERAL: *Refuse:* No garbage, rubbish or refuse may be thrown overboard while the vessel is in Brunei Waters.

Stores and Laundry Facilities: None.

AUTHORITY: Brunei Shell Petroleum Co. Ltd., Seria.

AGENCY: (Shell Vessels). Agent for Group Owned and Chartered vessels calling at Seria is Harrisons & Crosfield (Brunei) Pte. Ltd., P.O. Box 16, Kuala Belait, Brunei. Telegraphic Address: "CROSFIELD" Telex BU315. Telephone: Kuala Belait 2327/8/9 and 3123.

TANJONG SALIRONG: 04.53 N. 115.06 E.

The log-loading anchorage at Tanjong Salirong is situated 12 miles above the Outer Bar at the mouth of the Brunei River. Vessels of up to 21 ft. draft may cross the bar at high water.

DOCUMENTS: *(a)* To be produced on arrival:

Marine Department
Boarding Report.
1 Crew List.
1 Passenger List.

Customs Department
2 Inward Manifests.
1 Crew List.
1 Passenger List.
1 Port Clearance.
1 Stores List.
1 Arms List.

Agents
2 Inward Manifests.
1 Crew List.
1 Passenger List.
2 Hatch Lists.
1 Arms List.

(b) To be supplied before ship's departure:

Customs Department
1 Outward Manifest.
1 Passenger List.
1 Crew List.
1 Export Declaration.

Immigration Department
1 Passenger List.
2 Crew Lists.

Vessels
2 Outward Manifests.
Port Clearance.

PILOTAGE: *Bandar Seri Begawan:* Pilotage is not compulsory. If a Pilot is required by a vessel proceeding to Bandar Seri Begawan a written request must be made at least 24 hours before ship is scheduled to arrive. This must include position where Pilot is required to embark (i.e. at Outer Bar or Sapo Point).

Muara Harbour: Pilotage is compulsory. Application for a Pilot for entering Muara Harbour must be made by written request at least 24 hours before arrival. Pilots board vessels in Brunei Bay at the Northern end of the entrance channel through Pelompong Spit.

Tanjong Salirong: Pilotage is not compulsory. If a Pilot is required for vessels loading logs at Tanjong Salirong then application must be made 24 hours in advance of arrival stating position where it is required for Pilot to embark (i.e. at Outer Bar or Sapo Point). A Customs Officer and Agent's clerk will proceed to Tanjong Salirong from Muara Harbour or Bandar Seri Begawan and will remain on board whilst vessel is loading, accommodation and food provided by ship. Stevedores and tally clerks provide their own food.

ANCHORAGE: Vessels entering Muara Harbour without berthing space will be anchored 5 cables S.S.W. of wharf. If so desired ships may discharge perishable cargo at anchorage into lighters. Consignees must make arrangements with Agent to obtain permission from Customs, who will provide a Customs Officer to attend to discharge.

HEALTH: *(a)* Immigration: Immigration Officer will board vessel and clear her inward after pratique granted by Port Health Authority. Immigration will require 2 copies of passenger lists and 2 copies of crew list. Vessels inward are cleared up to 2000 hrs. only.

(b) Quarantine: For vessels coming from outside State of Brunei, Port Health Authority will board on arrival at wharf or anchorage. Port Health Authority requires complete copy of Entry Declaration of Health and copies of passenger and crew lists.

STEVEDORES: Stevedoring is in the hands of contractors who supply gangs as required. Working hours are 0730 hrs. to 1215 hrs., 1315 hrs. to 1600 hrs., 1900 to 2300 hrs. (overtime). Overtime is usually worked from 1900 to 2300 hrs., permission to work overtime is required from the Customs Department. No tally clerks available. All tallies to be made by ship's own tally clerks.

MEDICAL: Government General Hospital is situated in Bandar Seri Begawan 16 miles from Muara Harbour. General Hospital is well equipped with facilities to carry out normal surgery. Inoculations and vaccinations given free of charge.

FRESH WATER: Can be supplied from the wharf at Muara Harbour and Bandar Seri Begawan. No fresh water is supplied at Tanjong Salirong. No water-boat in State.

FIRE PRECAUTIONS: Fire-floats are stationed at Fire Brigade sub-station near Customs sub-station in Bandar Seri Begawan. No fire-floats at Muara Harbour.

CONSULS: British High Commission: Jalan Residency, tel. 2231.

HOLIDAYS: The Brunei Government working days are Monday to Thursday and Saturday. Friday and Sunday being holidays. Application must be made to Customs for working on Friday and Sunday and other public holidays. Brunei being a Muslim State, insists on strict observation of all Muslim rites such as The Sultan's Birthday, Har Raya Puasa, Hari Raya Haji, etc. Chinese New Year is also observed.

POLICE/AMBULANCE/FIRE: General Hospital, Jalan Stoney, Bandar Seri Begawan, office tel. 3521; residence tel. 2422. Police HQ, Jalan Gadong, Bandar Seri Begawan, office tel. 3901; residence tel. 3901 Ex. 245. Fire Brigade, Muara, tel. 8755, Bandar Seri Begawan, tel. 2555; residence tel. 2772.

AUTHORITY: The Director of Marine. Bandar Seri Begawan.

AGENT: Harrisons & Crosfield (Brunei) Pte. Ltd., P.O. Box 2255, Bandar Seri Begawan, State of Brunei. Telegraphic Address: "Crosfield" Telex No. BU 214. Telephone: 22361, 26203.

Bulgaria

BOURGAS (including Drujba): 42.30 N. 27.29 E.

Well protected port at inner end of Bourgas Bay, with good roads, anchorage.

DOCUMENTS:

Master's Declaration.
Cargo Plan.
Custom's Manifest.
Charter Party.
Deratization Certificate.
Health Condition Certificate for Crew Members.
Manifest and Consignment of Cargo.
Provision List.
Crew Lists.
Passenger List.
Crew Passports.

PILOTAGE: Pilotage in Inner Roads compulsory for vessels above 100 g.r.t. Application for Inner Roads Pilot must be made to Agents "Inflot" at least 2 hours prior to arrival (if incorrect ETA given – pilotage fee is doubled).

Outer Roads pilotage not compulsory. Vessels requiring Outer Roads pilotage must advise Agents "Inflot" at least 12 hours before time required and give position of required pick-up point.

Applications for Pilot should include Nationality and call letters; gross tonnage; date (2 figures); Time (4 figures) when Pilot required; Draft in metres (4 figures).

APPROACHES: Through fairway, depth of channel 29 ft. LW.

ANCHORAGE: Outer Roads. Vessels anchored must keep close watch on Roads Signal Station for orders given by flag or signal lamp. Vessel ordered by authorities to proceed to position 43° 39′ N., 27° 56′ E., for clearance and Pilot.

RESTRICTIONS: Arrival and sailing from oil port Drujba, Western Port and Fish Port day and night.

RADIO: Bourgas-500 kHz. Port control VHF Channels 16 and 10. Pilots VHF Channel 14.

TUGS: Available and compulsory for vessels over 1,000 g.r.t. Tugs lines used.

BERTHING: Compulsory piloting for vessels over 50 g.r.t. Container handling facilities available. 2 berths available for bulk carriers, 11 berths for general cargo ships and 1 berth for passenger ships.

CRANES: Berths are equipped with electrical portal cranes with capacity from 3 to 32 tons. 100 ton capacity floating crane available.

STEVEDORES: Available. Liner ships and chartered vessels on liner terms are obliged to use stevedore and tallyman service.

MEDICAL: All facilities available.

TANKERS: Oil port Drujba. Height of quay 2 m.

Berthing: At the S.W. corner of the Bay there are 2 "T" shaped berths, max. depth 40 ft. There are mooring dolphins for vessels length 250 m.

Discharging: 2 × 8-in. hoses are connected to the pipe-line on the catwalk. Discharge rate 1,800 to 2,000 t.p.h. depending on the back pressure. The height limit of the hoses is about 54 ft. above sea level. The berth is protected from the prevailing N.E. wind.

Report received 1977 states that the max. draft is 39 ft. – no length limitation. Max. draft at the Product berth (Gas Oil) is 23 ft.

DENSITY: 1012–1014.

FRESH WATER: Available through hose hydrants or ex-barge. 24 hours notice required.

FUEL: From VTO "Transimpex" tel. 45751. 72 hours notice required, diesel and gas oil available, also Shell and Castrol lubricants.

FIRE PRECAUTIONS: Constant day and night duty, and direct telephone connection with port fire service.

GANGWAY/DECK WATCHMEN: Vessels in Roads not permitted to have gangways down. Vessels alongside quay with lowered gangway must have manropes, safety net, life-buoys with rope of at least 30 m. length attached, an officer on duty at the gangway and must be lit at night.

OPENING/CLOSING HATCHES: According charter party.

CERTIFICATES:

Construction
Safety Radio
Classification
Hull and Machinery
Load-line
Cargo gear

CUSTOMS ALLOWANCE: Tobacco – 2 packets per crew member per day. Wines/spirits – for Master, as required, for crew – 1 opened bottle. No limits on board, no seals, crew are allowed to take 1 or 2 packets of cigarettes ashore.

IDENTIFICATION CARDS: Required. Crew members are given shore passes.

CONSULS: Turkey.

REPAIRS: Small repairs only.

REPATRIATION: Can be fulfilled if necessary. Replacement of crew by Bulgarian nationals is not possible.

SERVICES: Tank cleaning and removal of sludge.

TELEPHONES: Captain of the Port 42293; Pilots 47128; Customs House 42301; Bulgarian Shipping Register 47132; Shipping Agency "Inflot" 45506.

SHORE LEAVE: Allowed.

REGULATIONS: Given to Master on arrival.

DELAYS: Possible while waiting for Pilot owing to bad weather or waiting turn for berth.

TIME: GMT plus 2 hours.

HOLIDAYS: New Year (1st January); May Day (1st/2nd May); Day of Slavonic written language (24th May); Day of Freedom (9th/10th September); October Revolution (7th November). Time from 1300 hrs. on day before Sundays and Holidays until 0800 hrs. day after is non-working time, but loading and discharging carried out at overtime rates.

AIRPORT: Internal and International flights.

SHIPMASTER'S REPORT: (Vessel 107,023 d.w.t.).

Danger Area: Minefield area 43, see Nemedri.

Documents:

Bill of Health.
6 Crew Lists.
3 Stores Lists.
3 Personal effects Lists.
Ship's documents (Register, Certificates, etc.).
No money list required.

Upon arrival Master receives Port Regulations (re: watchmen, ratguards, stoppage of propeller, waste disposal, pollution, etc.).

Radio: Bourgas Radio, port control VHF Channels 16 and 10; Pilots VHF Channel 14.

Density: Average 1012.

Identification Cards: Crew members are given shore passes and are allowed ashore until midnight. Persons with long hair are refused passes.

Custom Allowances: No limits on board, no seals, crew are allowed to take 1 or 2 packets of cigarettes ashore.

Repatriation: No difficulties.

Airport: Daily flights to Sofia with connecting international flights.

Tugs: Four available.

Anchorage: Vessel ordered by authorities to proceed to position 43.39 N. 27.56 E. for clearance and Pilot. After clearance vessel proceeded to 42.40 N. 27.49 E. for lightening.

Lightening: Vessel required to be lightened to 39 ft. Tankers come alongside; they carry good rubber fenders and one 10-in. discharge hose. Discharge rate varies from 1,500–1,800 t.p.h. according to tanker's requirements.

Berthing: At the SW corner of the bay. There are two "T" shaped berths, max. depth 40 ft. Each berth consists of 3 platforms connected by a catwalk. Length of berth used was 125 m.There are mooring dolphins but the length of vessel is 259 m. so all lines were breast ropes and springs.

Discharging: Two 8-in. hoses are connected to the pipe-line on the catwalk. Discharge rate, 1,800 to 2,000 t.p.h. depending on the back pressure. The height limit of the hoses is about 54 ft. above sea-level. Vessels are required to ballast if necessary before reaching this level. The Berth is protected from the prevailing N.E. wind.

Dardanelles Entrance: (Canakkale, Turkey) Pilot station is at Seddulbahir. Call sign "Canakkale Pilot" VHF Channel 16. During Southerly gales Pilot boards close to Kanakkale Town.

Bosporus: North entrance, pilot station at Kavagi, Pilot boards off Dikilikaya Light. Call Pilot on VHF Channel 16.

AUTHORITY: Region Port Administration, Bourgas.

AGENT: State Shipping Agency "Inflot". Cables: "Bolinflot", Telex: 083 509, Tel. 45506, 42879.

PORTS IN THE AREA OF PORT BOURGAS

Port Nessebar: Situated on 18 miles North-eastern of Bourgas in the Bourgas Bay. Available 2 berths for passenger and other small ships with draft up to 19 ft.

VARNA: 43.12 N. 27.57 E.

Well protected port at inner end of Varna Bay.

DOCUMENTS:

Master's Declaration.
Cargo Plan.
Customs Manifest.
Charter Party.
Deratisation Certificate.
Health Condition Certificate for Crew Members.
Manifest and Consignment of Cargo.
Provision List.
Crew List.
Passenger List.
Crew Passports.

PILOTAGE: Pilotage in Inner Roads compulsory, but not compulsory for Outer Roads. Vessels requiring pilotage at Outer Roads must radio Agents "Inflot" 24 and 12 hours prior to arrival giving position of required pick-up point, also: name of vessel; nationality and call letters; g.r.t.; length; draft in metres (4 figures); date (2 figures); time (4 figures).

Pilot comes from Inner Port of Varna. In bad weather impossible for pilot boat to reach Outer Roads and vessel will be so informed by Agents "Inflot" and instructed to proceed to anchorage in Varna Bay.

Pilot boat is a patrol boat with yellow funnel and letter "P" on a blue strip. Carries international recognition signals by day and night.

APPROACHES: Through fairway, depth of channel 39 ft.

ANCHORAGES: Outer Roads in area East of meridian 27° 56′ E., beyond fairways. Vessels anchored must keep close watch on Roads Signal Station for orders given by flag or signal lamp.

RADIO: Radio Varna LZW-500 kHz. LZW-4–transmits 8607 kHz, receives 8447 kHz. LZW-5 – Transmits 13,078 kHz, receives 12,612 kHz. Port control VHF Channels 16 and 10; Pilots VHF Channel 14.

TUGS: Available and compulsory for vessels over 1,000 g.r.t. Ship's lines used.

BERTHING: Compulsory piloting for vessels over 50 g.r.t. Depths at quays up to 31 ft. 10 berths available for general cargo vessels, 1 berth for containers and 3 berths for passenger ships.

CRANES: Berths are equipped with electrical portal cranes with capacity from 3 to 32 tons, also 100 ton floating cranes are available.

Container Terminal: Loading and discharging of 10 ft., 20 ft., and 40 ft. containers. The necessary specialized loading and discharging equipment is available.

BRIDGES: When proceeding to and from Varna Lake, vessels pass under the new Asparuhov Bridge (45 m. above the water level).
STEVEDORES: Available. Liner ships and chartered vessels on liner terms are obliged to use stevedore and tallyman service.
MEDICAL: All facilities available.
TANKERS: 3 berths, draft 30, 28 and 18 ft.
DENSITY: 1013.
FRESH WATER: Available through shore hydrants or ex-barge. 24 hours notice required.
FUEL: From VTO "Transimpex", tel. 22927, No. 3 N. Vaptzarov str. 72 hours notice required. Bunker "C", diesel and gas oil available. Lubricants: Shell and Castrol – 48 hours notice required.
FIRE PRECAUTIONS: Constant day and night duty and direct telephone connection with port fire service.
GANGWAY/DECK WATCHMEN: Vessels in roads not permitted to have gangway down. Vessels alongside quay with lowered gangway must have manropes, safety-net, life-buoys with rope of at least 30 m. length attached, an officer duty at the gangway and must be lit at night.
OPENING/CLOSING HATCHES: In accordance with charter party.
CERTIFICATES:
Construction.
Safety Radio.
Classification.
Hull and Machinery.
Load-line.
Cargo Gear.
CUSTOMS ALLOWANCE: Tobacco: 2 packets per crew member per day. Wines/spirits: For Master, as required, for crew – 1 opened bottle. No limits on board, no seals, crew are allowed to take 1 or 2 packets of cigarettes ashore.
IDENTIFICATION CARDS: Required. Crew members are given shore passes.
CONSULS: U.S.S.R., D.D.R. Poland, Czechoslovakia, Cuba.
REPAIRS: All kinds of repairs possible in ship-repair yard.
DRY DOCKS: Suitable for vessels up to 30,000 d.w.t.
Floating Docks: 2 floating docks with lifting capacity of 4,500 tons and 12,500 tons respectively.
REPATRIATION: Can be fulfilled if necessary. Replacement of crew by Bulgarian nationals is not possible.
SERVICES: Tank cleaning and removal of sludge. Compass adjusting.
TELEPHONES: Captain of the Port 23479; Pilots 27023; Custom House 25532; Lloyd's representative 27167; Soviet Register 22651; Bulgarian Shipping Register 26122; State Shipping Agency "Inflot" 22669.
SHORE LEAVE: Allowed.
REGULATIONS: Given to Master on arrival.
DELAYS: Possible while waiting for Pilot owing to bad weather or waiting turn for berth.
TIME: GMT plus 2 hours.
HOLIDAYS: New Year (1st January), May Day (1st/2nd May), Day of Slavonic written language (24th May), Day of Freedom (9th/10th September), October Revolution (7th November). Time from 1300 hrs. on day before Sundays and holidays until 0800 hrs. day after is non-working time, but loading and discharging carried out at overtime rates.
AIRPORT: Internal and International Flights.
AUTHORITY: Port Administration.
AGENT: State Shipping Agency "Inflot". Cables: "Bolinflot", telex: 021516, tel. 22669, 22636, 25924.

NEW PORTS IN THE AREA OF PORT VARNA:
Port Varna-West: Situated 14 nautical miles from Port Varna. 4 berths available for bulk carriers, 3 berths for containers and 5 berths for general cargo vessels. Ships of max. 33 ft. draft proceed in one direction only, through 2 deep channels and Varna lake between them, with limitation in speed up to 6 knots. A container platform for loading and discharging of 20 ft. containers and specialized loading/discharging equipment available.
Ferry-boat Complex: Situated 13 nautical miles from Port Varna, next before Port Varna – West. Two specialised berths for ferries with max. draft 26 ft. available.
Port Balchik: Situated 18 nautical miles North of Port Varna, for ships with max. draft 23 ft. 1 berth for bulk carriers available. Entering and leaving the port with a Pilot commencing from the Outer Roads of Port Varna.
Port Topoliy: Specialised port for wood materials. Situated on the Northern part of Varna lake, 8 nautical miles from Port Varna. 2 berths for ships with max. draft 15 ft. available.
Port of the Termo-electrical station Varna: Specialized port for coal, situated on the West part of Varna lake, 8.5 nautical miles from Port Varna. 2 berths for ships with max. draft 26 ft. available.

NOTES

Please also advise Shipping Guides Ltd.

Burma

RANGOON: 16.47 N. 96.15 E.

DOCUMENTS:
Ship's Register.
Crew and Passenger List.
Dangerous Cargo List, if any.
Customs Declaration for Crew and Ship.

PILOTAGE: Compulsory. The services of Assistant Harbour Masters are required to bring ships alongside.

Vessels bound for the port of Rangoon should make for the *Dagon* lightvessel (China Bakir) Lat. 15° 59.9′ N., Long. 96° 14.5′ E. and then proceed towards *Lanthaya* lightvessel. Vessels of 26 ft. draft and over should anchor off *Dagon* lightvessel due to insufficiency of depths at the pilot station at low water, and await instructions from the pilot vessel for embarking Pilot.

Vessels below 26 ft. draft may proceed direct to the pilot vessel for embarkation of Pilot.

The pilot vessel or its relief is normally cruising or anchored at Lat. 16° 11.0′ N., Long. 96° 19.6′ E. approximately 10 miles North of *Dagon* light vessel and 42 miles from the Port of Rangoon.

ANCHORAGES: Specific areas of the port are reserved for special anchorages as follows:
(a) *Petroleum Anchorage* at Liffey Reach just below Syriam, accommodating two vessels.
(b) *Explosives Anchorage* below Admiralty Jetty near Chokey Point.
(c) *Small Craft Anchorage* at King's Bank accommodating 20 inland vessels and schooners, etc.

ETA: Forty-eight hours advance notice of ETA required, confirmation to be made 24 hours later or one working day ahead of the ship's ETA to enable necessary arrangements to be made regarding Pilots. Information required in the advance notice are:
(a) ETA, *(b)* Draft, *(c)* Speed, *(d)* Gross tonnage, *(e)* LOA.

RESTRICTIONS: Generally on a flood tide between the time of low water to high water at the pilot station, depending on ship's actual draft and speed in order to obtain sufficient depths at the Outer Bar.

Navigation day and night during river passage, but entry into Inner Harbour is normally restricted to daylight hours.

The Master Attendant regularly issues Draft Forecasts to all steamer Agents advising them of the drafts to be obtained within the next 2 months.

MAX. SIZE: The port is accessible to vessel of 540 ft. length OA, and draft up to 28 ft. at Spring tides. The draft of the vessel entering the river is controlled by the depth available at the Outer Bar, carrying 11 ft. depth at datum. Entry into the harbour is controlled by the Inner Bar off Monkey Point, carrying from 11 ft. to 12 ft. depth at datum. These depths are subject to seasonal variations and are least during the dry season from November to May.

HEALTH:
(a) Maritime Declaration of Health signed by the Master and also by a Ship's Surgeon if one is available.
(b) Valid Derating or Derating Exemption Certificate.
(c) Valid Vaccination Certificates against cholera and smallpox of crew and passengers (if a certified list of date of expiry of these Certificates is available, the issue of pratique will be expedited).
(d) Pratique is issued by the Medical Officer on duty, after examination of the crew and passengers of the ship. The pratique is automatic if the vessel arrives after touching other ports in the country. NO RADIO PRATIQUE IS ISSUED.
(e) Quarantine Clearance on sailing is essential.

RADIO: International single operator watch period for zone "C". Assigned frequencies are 425, 454, 468, 512, 500 kc/s. and 2.8, 4.26 mc/s, call sign XYCZ.

In cases of inability to contact the pilot vessel by wireless the Master should send cable to the Harbour Master "Portrust" via Rangoon Radio Station, call sign XYR.

Within harbour limits contact can be made with Port Tower by light visual signalling. VHF contact can also be made with Port Tower, call sign XYU, Channel 16 (calling frequency). The working frequencies are Channels 14, 12 and 6 (Hague Convention).

TUGS: Generally not used for mooring and berthing purposes, but available in emergency.

BERTHING: There are eleven wharf berths and two pontoon berths for seagoing vessels:

Rice Loading Berths:
(a) *Sule Pagoda Wharf,* Berths No. 1 & 2 accommodating two vessels of 450 ft. each. LWOST varies from 24 ft. to 28 ft. approx.
(b) *Ahlone Wharf,* length 440 ft. accommodating a vessel of 440 ft. LWOST varies from 26 ft. to 28 ft. approx.
(c) *Hteedan No. 1,* length 456 ft. accommodating a vessel of 460 ft. LWOST varies from 26 ft. to 30 ft. approx.

General Cargo Berths:

Sule Pagoda Wharf Berths Nos. 3, 4, 5, 6 and 7 accommodating five vessels ranging from 450 ft. to 520 ft. LWOST varies from 24 ft. to 30 ft. approx. Berth Nos. 3 and 4 are generally reserved for coastal vessels.

Timber Export Berths:

Brooking Street Wharf: Berths Nos. 1 and 2, accommodating two vessels of 450 ft. each. LWOST varies from 26 ft. to 29 ft. approx.

Passenger Berth:

The Port Health Station. A Pontoon Jetty equipped with a large floating pontoon 500 ft. length and accommodating vessels of 520 ft. to 595 ft. LWOST varies from 25 ft. to 28 ft.

Moorings:

The port is equipped with 13 swinging moorings and two sets of fixed moorings in the Inner Harbour; three swinging mooring buoys at Hastings, and two fixed moorings for Oil Tankers. In addition, a number of mooring buoys are provided for small sized seagoing vessels.

Mooring and Berthing Procedure:

While in port, ships tie alongside wharves or moorings. The procedure is as follows:
(a) *Single Buoy Mooring* – Vessels moored with ships' own cable which is led through hawse pipe and shackled on to buoy cable. The shackle is provided by the Board.
(b) *Fixed Mooring* – Same procedure as above but the vessel is moored to four buoys.
(c) *Berthing* – Normal ship's ropes and wires are used for berthing at wharves. In addition wharves' mooring chains are also provided for securing to ship's bollards.

FUEL: Fuel, diesel and gas oil (HSD) from Myanma Oil Corporation. Fuel oil provided by barges of 150 to 180 tons capacity alongside vessel during daylight hours. Coal supplied by Government Trade Corporation No. 17.

FRESH WATER: Available either directly alongside the wharves or in midstream, delivered by water boats.

CARGO HANDLING EQUIPMENT: The heaviest lifting capacity of the port is a 40-ton crane at the Brooking Street Wharf.

Heavy packages may be landed or shipped by a vessel's own tackle at the wharves subject to prior notice being given to the Traffic Manager.

STEVEDORES: In two shifts of 0800 hrs. to 1600 hrs., and 2000 hrs. to 0400 hrs. Overtime work is arranged on special request from Agents. Stevedoring undertaken by Port Authority. To enable ship's Agents to order labour gangs in time, it is important to obtain in advance the accurate ETA of vessels. Latest time to order gangs is 1100 hrs. for booking for that night and the next day. For Sundays and Holidays bookings must be made before 1100 hrs. of the preceding working day.

GANGWAY/DECK WATCHMEN: Available on application to the Traffic Manager.

The working hours of a watchman are the same as the wharf working hours.

OPENING/CLOSING HATCHES: Undertaken by port labour.

REPAIRS: Deep-sea repairs are undertaken by Board's engineers. The "Setsan Dry Dock", a tidal dock owned by the Board, can take vessels up to 1,000 tons and 250 ft. in length.

The Sinmalaik Dry Dock can take vessels up to 2,000 tons and 300 ft. in length.

FIRE PRECAUTIONS: A special land-based Port Fire Brigade is maintained by the Port Authority supplemented by a fire-fighting vessel and tugs for emergencies in the river.

CONSULS: The following countries are represented by consulates or embassies at Rangoon:

Australia
Belgium
Bulgaria
Cambodia
Ceylon
China
Czechoslovakia
Egypt
France
Fed. Republic of Germany
German Democr. Republic
Hungary
India
Indonesia
Israel
Japan
People's Rep. of Korea
Republic of Korea
Malaysia
Nepal
Norway
Pakistan
Philippines
Poland
Thailand
U.S.S.R.
Great Britain
Vietnam
Yugoslavia

POLICE/AMBULANCE/FIRE: Port Police 14520; Ambulance 008; Port Fire Brigade 18653.

TELEPHONES: Ship to shore telephones are available on request.

HOLIDAYS: Independence Day; Karen New Year; Union Day; Peasant's Day; Full moon of Tabaung; Resistance Day; Thingyan; Burmese New Year; Labour Day; Full moon of Kason; Full moon of Wazo; Martyr's Day; Thadingyut; Dewali; Tazaungdaing; National Day; Christmas.

Ships may work on Sundays and holidays on application to the Traffic Manager and on payment of Sunday or holiday fees.

SHIPMASTER'S REPORT: July 1978

Approaches: Approach was from the Malacca Strait, in generally overcast and rainy weather. The last reliable fix obtained prior to picking up the Dagon Lt. Ship at 1330 hrs. on 6/7/78 was at 0530 hrs. on 5/7/78. From 1330 hrs. on 5th, 2° were allowed for Easterly set, apart from a 2-hour period on the 6th, when only the Compass Error was allowed. This would seem to indicate that an Easterly set was experienced, but it is possible that what actually occurred was that the vessel was set to the Eastward by the tide, from about 0900 hrs. on the 6th until the Dagon Light Ship was picked up. We sighted the Dagon at about the time and on about the bearing we expected.

The tidal information provided on B.A. Chart 823, although depending on observations obtained during the dry season, was most helpful.

On clearing the Rangoon River, shortly after HW Elephant Point, there was a slight South-Westerly tidal set, as one would expect. The departure Pilot provided the following information, which we were not able to check:

B.A. Chart 823: "Thuriya" Lt. Buoy is in position Lat. 15° 19′ N., Long. 95° 01′ E., and not as charted.

The two dangerous wrecks about 38 and 40 miles South of Thante Light are no longer dangerous.

B.A. Chart 833: The dangerous wreck between Upper Western and Upper Middle Buoys is no longer dangerous. We passed between the buoys without any difficulty, drawing 19 ft. 03 in., fresh water. The following is from our own observations: Upper Spit Buoy is now in approximate position 290°(T)–7 cables from its charted position. All buoys, from and including Upper Spit Buoy to the berth, with the sole exception of "C.M.B." Buoy, were unlit.

Naturally, vessels do not transit this portion of the river during the hours of darkness. With the exception of Upper Spit Buoy all buoys, light floats and the light ship appeared to be in their charted positions. When crossing the bars and during the river passage very close attention must be paid to the steering. With a top-class helmsman who is really concentrating, little difficulty would be experienced. In order to carry the tide up to Rangoon, it is important that a vessel should arrive at the Pilot station not later than HW Elephant Point; we were in fact 10 minutes late, and would not have continued except that we were fortunate enough to have the most senior Pilot on board.

It was noticed on departure that an inbound vessel giving an ETA at the Pilot station 30 minutes after HW Elephant Point, was directed to anchor.

Anchorages: Vessels may anchor in the vicinity of the Pilot station shown on B.A. Chart 823 or in the petroleum or explosives anchorages shown on B.A. Chart 833.

Berthing: Vessel was originally placed at a buoy berth, the anchor cable down the hawsepipe and shackled on to the buoy. The Port Authority provided the shackle.

As we have a short length of cable inboard of each anchor with a joining shackle, this operation presented little difficulty but took considerable time.

When we were placed at the buoy, it was dark by the time the operation was completed, but if we had gone straight alongside this could have been done under twilight conditions. Neither the Pilot nor I could understand why the vessel was not berthed on arrival, since our berth was then vacant. The explanation I received was that the shore lighting was poor and that, as a safety precaution, ships are only berthed in full daylight.

At 0625 hrs. the next morning, we commenced unshackling from the buoy and the vessel was secured alongside No. 1 berth. Sule Pagoda Wharf at 0805 hrs. We berthed starboard side to, stemming the ebb tide and river outflow. The buoy anchor remained hung off until after berthing. When berthing, the offshore anchor is placed in a convenient position to assist in getting the vessel off again. When alongside and the cable slack, we had 4.5 shackles out on the port anchor. Moorings were as follows: Forward – three headlines, one ship's wire and a shore mooring chain, all leading ahead. No spring. The shore chain is brought on board and turned up on the ship's bitts. Aft – one breastrope, two sternlines and ship's wire leading aft. No spring.

Departure: The vessel leaves the berth on the last of the ebb and drops down the harbour stern first to a position North of the transit beacons on the South bank, where she anchors until there is sufficient water to cross the inner bar and proceed downstream.

Pilotage: Is compulsory. River Pilots take the vessel from the Pilot station to the port or buoy and docking Pilots do the berthing and unberthing, including dropping down to the temporary anchorage. The docking Pilot remains on board while at anchor. River Pilots, when boarding and leaving, require Pilot ladder, manropes and a boatrope. Ship comes under the stern, never ahead, of the cutter, with ladder rigged on the lee side. Docking Pilots board and leave by the gangway.

Tugs: There are tugs in the port, but I understand that they are never used for berthing.

Communications: Rangoon Radio, call sign XYR, keeps regular watch schedules on six HF frequencies. However from departure Lae on 24th June to 2nd July, nothing was heard of this station.

Two-way contact was established on 3rd July, but after the station had instructed the Radio Officer to change frequency, it ceased working.

It was not until 0500 Z on 4th July that traffic could be cleared. Later that day it became possible to work XYR on MF. All calls were then answered promptly and an efficient service provided.

An advice of bad propogation conditions from Portishead Radio was in effect during the period covered by the above remarks. This may have had some bearing on the difficulties experienced. The vessel arrived at the Pilot Station at 0830 Z, 6th July, 1978.

VHF: The Pilot cutter and the Harbour Master's office are fitted with VHF Channel 16. This is efficiently operated.

Telephone: I spent many hours in the Agent's office, attempting to contact London. We were unsuccessful. The hours, local time, during which one may attempt to call London, are: via Hong Kong – 0900 to 1430 hrs.; via India – 1630 to 1800 hrs. These hours are nominated by the port and Telecommunication corporation.

Telex: There is a Telex machine in the Agent's office, and the Operator's normal hours of duty are 0930 to 1630 hrs. It was possible to send an outward message only in these hours and so, on occasions, it was necessary to request that the Operator remain on duty until 2000 hrs. The reasons for the difficulty in sending outward messages is: Unless a special request is made otherwise, all outward messages are sent to a central transmitting point. Inward messages were received promptly.

Mail: Both to and from Europe and Australiasia, appeared to be reliable.

Agents: T.A.C. are a government corporation and handle every vessel that uses the port. All concerned are most charming, and very polite. All persons I came into contact with from T.A.C. spoke excellent English.

Documents: Required on arrival: 20 Crew Lists, 6 Crew Personal Effects Lists, 6 Ship's Declarations of Foreign Currency, 6 Crew Declarations of Foreign Currency, 1 International Health Declaration, 1 List of dates of Smallpox and Cholera Vaccinations.

Notes:

1. All on board must be possession of valid vaccination certificates against smallpox and cholera.
2. The Customs do an efficient rummage on arrival, and again on sailing. Their main concerns seem to be cigarettes, foreign currency and pornography.
3. It is most important that all paper money of any foreign country held either by the ship or by individuals is accurately declared and then placed in one or other of the ship's safes. The safes are then sealed and can only be opened with the approval of the resident Customs Officer. Time and trouble on arrival can be saved by collecting all foreign currency in advance. Some small amounts of foreign currency were found by rummagers, but a lenient attitude was taken and these sums were allowed to be placed under seal. The Penalties for attempting to evade the regulations with regard to foreign currency are severe.
4. All on board are required to be photographed, so that local shore passes may be issued. The passes are valid for 12 months from date of issue and cover subsequent calls at Rangoon or any other Burmese port. No shore leave is permitted until shore passes in quadruplicate have been processed. This happens quite swiftly and takes about 12 hours.
5. With the exception of the Health Declaration, there do not appear to be any pre-printed Burmese Forms, and the ship will have to make up her own.

Departure: At least 6 up-to-date Crew Lists are required. All shore passes must be collected prior to departure, they are stamped by Immigration and returned to the holders.

All 3 government departments involved with the vessel (Customs, Immigration and Quarantine) issue a clearance on departure. In addition, the Master is given a letter from the Burma Ports Corporation for the River Pilot, stating that all sailing documents have been produced and giving permission for the vessel to proceed to sea.

Register and supporting Certificates: (Load Line, Safety Equipment, etc) are taken ashore by Agents on arrival, against a receipt, and returned immediately prior to departure.

Officials: Supervisors and Tally Clerks wear uniform with badges of rank. They must be provided with an office on board, and it is customary to provide these gentlemen with meals. Two Customs Officers live on board at all times and accompany vessel to anchorage or buoy berth. These Officers must be fed in the dining saloon and provided with accommodation. On arrival the Customs seal the bond and, if requested to do so, will also seal the dry stores, which is a wise precaution.

Beer is not put under seal. The Customs Officer will make an issue of bonded items daily if requested. The only thing to which restrictions are applied is cigarettes, where the daily issue is limited to 40 per man. Customs also exercise a tight control over all local currency drawn from the Agents and all must be accounted for prior to departure, even cash spent on Provisions.

Cargo work: Two shifts of 8 hours are normally worked, that is, 0800 to 1600 and 2000 to 0400 hrs. Cargo can be worked at any time. Overtime hours being 1600 to 2000 and 0400 to 0800 hrs. Ship's gear was used for discharge. Two gangs were employed at each hatch, and rates of discharge were: No. 2 – 10.35 t.p.h. No. 3 – 14.46 t.p.h. The rate of discharge at No. 2 was remarkably good when one takes into consideration that No. 2 after crane, due to a winch breakdown, was not available after the first 1.5 days. Two gangs were employed throughout at this hatch. After the crane failure the after gang were employed in shifting cargo to where the forward crane could plumb it.

Weather permitting, discharge continued 24 hours a day. A total of 37 hours, 40 minutes working time was lost due to rain. When one takes into consideration the many delays and the fact that the Watersiders were discharging a random stow, the rate of discharge was most creditable. Crane drivers and Watersiders were very satisfactory; Supervisors were helpful. Pilferage was nil, damage to cargo was slight and there was no damage to the ship.

Pratique: Granted on arrival. There are no facilities for Radio Pratique.

Provisions: Obtained through the Shipchandler. But very expensive. We purchased salad and bread at the local market at reasonable prices and of reasonable quality. This was done by the Purser/Catering Officer, going there with the Agent and paying cash. This is common practice and was condoned by our Customs Officer.

As we had no contact with the Official Shipchandler, we do not know what his prices were or what his product range is. Any future vessel calling at Rangoon should arrive with as much in the storerooms as possible.

Fresh Water: Obtainable either from water boats or the wharf. Give 2 days notice. It is expensive, 10 Kyats (about 79 pence) a ton. As a precaution, we treated what we took with chloride of lime.

Repairs: We employed some electricians from the machine shop of the Central Electric Service to assist in our investigations of the winch fault at No. 2 hatch. An Electrical Engineer and 3 Electricians were provided and appeared competent. Unfortunately, they did not trace the fault.

Currency: The Unit of Currency is the Kyat, worth approximately 12.69 to the Pound Sterling.

Weather: Hot and humid, with much rain, it being the season of the S.W. monsoon. Winds in the port were generally light. At the time of our stay, the river was just beginning to rise as a result of the monsoonal rains in the high country, but had not reached full flood. There was, however, a continuous outflow past the port at all states of the tide.

Health: Up to date cholera vaccination certificates are required by the local authorities and anti-malaria precautions should be taken. Mosquitoes and many other insects are numerous, especially in the wet weather.

General: Five watchmen were provided. When at anchor or at buoy berth, the ship must feed them. When alongside, they eat ashore. The security at the gate is very strict indeed and all local people leaving the port area are searched. No ship's gear or personal effects went missing. There is no garbage collection at Rangoon, so the ship must make her own arrangements for storing waste. Burmese people are unfailingly polite and courteous and naturally expect the same treatment in return. The vessel can work cargo on any day.

Repatriation: Possible but not recommended.

Holidays: (1978). January 4th (Independence Day); January 9th (Karen New Year); February 12th (Union Day); March 2nd (Farmer's Day); March 23rd (Full Moon Day); March 27th Resistance Day (Armed Forces Day); April 13th – 16th Water Festival (Burmese New year); May 1st (May Day); June 20th (Full Moon); July 19th (Martyrs Day); August 18th (Full Moon); October 15th – 17th (Lighting Festival (Buddhist); November 13th – 15th Lighting Festival (Buddhist); November 24th (National Day); December 25th Christmas (There are a large number of Christians in Burma).

AUTHORITY: Board of Management for the Port of Rangoon.

Cameroon, United Republic of

DOUALA: 04.00 N. 09.40 E. (See Plan Book)
TIKO: 04.00 N. 09.24 E.
VICTORIA: 04.01 N. 09.13 E.
KRIBI: 02.56 N. 09.54 E.

DOCUMENTS:
5 Crew Lists.
5 Lists of Port of Call.
5 Passengers' Lists.
2 Crew Customs Declarations.
2 Declaration of Provisions on Board.
1 Arms and Ammunition.
2 Stores Lists
2 Manifests or Bills of Lading

PILOTAGE: (With the exception of Kribi and Victoria where ships work cargo at anchorage); Compulsory at Douala and Tiko. Ship's arrival must be notified at least 24 hrs. in advance. This must be confirmed.

For Douala waiting anchorage at base buoy (3° 54′ 12.3″ N. 9° 32′ 19.8″ E.). Pilot called by phone (2182) or by VHF (16–14). For entry of Tiko waiting is at Victoria anchorage.

ANCHORAGE: Base buoy for entry at Douala (see "Pilotage") 12 m. depth approx. For Victoria anchorage on roads in Bay Ambas about 9 m. depth. Anchorage for Tiko on the Bimbia. Kribi anchorage by red conical buoy (02° 56′ 35″ N. 09° 53′ E.) depth 6.30 m. to 7 m.

RESTRICTIONS: Draft only, for ports of Douala and Tiko. Official level of Wouri Channel is 5.80 m.

MAX. SIZE: At Kribi and Victoria anchorage, no restrictions. Douala max. length 200 m. Draft varies from 7.00 m. min. HW to 8.0 m. at max. HW. At Tiko there is only 1 pier of 150 m. the depth is between 5.50 m. and 5.80 m.

HEALTH: Free pratique granted after compulsory checking of vaccination certificates against yellow fever and smallpox. Health Officials hand the Master a special Health form to fill in.

RADIO: (See "Pilotage"). Douala Radio Station limited to broadcasting for private individuals. VHF Channels 16 and 14 and R/T 2,182 kHz.

For vessels arriving at Douala, Masters should send a message to their Agent at least 48 hours prior to arrival, giving the following information. (1) ETA at base buoy (given in local time). (2) Cargo tonnage for discharge, and hatch distribution. (3) Number of gangs required. (4) Vessel's draft. (5) Any other requirements, e.g. money, medical attendance, etc.

For vessels arriving on a Sunday or Holiday, Agents must be informed by 1100 hrs., the day before arrival. If overtime or night work is required by vessel, the Agent must be informed by 1700 hrs. the day before arrival. It is also possible to telex information from the last port of call as Douala Radio Station can be difficult to contact.

TUGS: Two tugs 900 and 1500 h.p. are available on request to Cameroon National Ports Authority, Operations Department. Towage is compulsory for ships of 600 d.w.t. and more, and subject to Pilot's advice.

BERTHING: For Douala Port, there are 13 berths equal to 2,337 m. approx. length on left bank. Two of these berths have priority berthing for mail, alumina carriers and occasionally tankers. Two others downstream from the port have priority berthing for container carriers. One of these berths has Ro/Ro accommodation with two dolphins 70 m. apart.

There is a berth consisting of 2 dolphins and 4 buoys used for oil discharging. Tankers moor with 3 head and stern lines to the outer mooring buoys – 2 breast lines to the inner mooring buoys and spring lines on the dolphins.

At Douala, all berths have a depth of 7.50 m. approximately at LW upstream of the port and 8.50 m. downstream. The tanker berths have a depth of 9.0 m. at LW (tidal range 2.20 m.).

At the right bank of the River Bonaberi: There are two berths equal to 350 m. in length. One is mainly used by banana carriers and butane tankers. The other is equipped with a Goliath crane used by mineral carriers. All these berths have a depth of 13 m. at LW.

STEVEDORES: The number of stevedore gangs is requested from Charterer's Agents, taking into account size of cargo.

MEDICAL: An appropriate Medical Service can be provided on request in case of an emergency, such as an epidemic on board.

TANKERS: At Douala harbour, a berth of 153 m. approximately can accommodate oil tankers of about 12,000 tons when the tanker berth has a breakdown. No slops discharge. The depth at LW is 7.00 m. The tanker berth in the river can accommodate tankers of not more than 200 m.

Restrictions: maximum permissible draft depends on the tide and the season (dry and rainy). At the moment, it is admitted that the maximum permissible draft is 24 ft. at LW.

At the tanker berth are found three (3) connections of 8 in. for white products, discharge rate of about 250 to 300 t.p.h. Bunkers can be supplied but are not always available.

Sailing from the tanker berth: subject draft, always on flood tide between 2 hours before HW and LW; sailing/mooring, day and night. 1 or 2 tugs (optional) assist in mooring and sailing proceedings. A permanent tug assists during discharging.

A special boat keeps contact with the shore from the dolphins (for crew and stores). No slop discharge.

DENSITY: 1012.

FRESH WATER: Available at berth; supplied by hoses at 20 t.p.h.

FUEL: Supplies arranged by Charterer's Agent who have their particular suppliers.

FIRE PRECAUTIONS: In addition to the usual measures, the quay station for oil tankers is isolated during discharging, and there is also a permanent watch by tugs.

GANGWAY/DECK WATCHMEN: Ship's crew or arranged by Charterer's Agents.

OPENING/CLOSING HATCHES: At option of Master.

CERTIFICATES: Safety, Radio, Sea-worthiness, Freeboard, Derricks, etc.

CUSTOMS ALLOWANCE: 1,000 cigarettes per person, 2 bottles of spirits per person.

IDENTITY CARDS: A check could be made inside the harbour area as well as in town.

CONSULS: At Douala.

AIRPORT: The new Douala international airport is situated about 12 km. from Douala Port. Regular international airline flights during whole year.

TIME: Local time GMT plus 1. No change during year.

HOLIDAYS: Official holidays: New Year's Day (1st January); Youth Day (11th February); Labour Day (1st May); National Day (20th May); Religious Holidays: Whit Friday, Easter Day; Ascension Day; Assumption Day; Christmas Day (25th December); End of Ramadan; Festival of the Sheep.

POLICE/AMBULANCE/FIRE: Central police station, Tel: 42.55.25. Ambulance (Hospital Laquintinie), Tel: 42.68.88; (Polyclinique), Tel: 42.18.40. Fire Brigade (in town), Tel: 18. Cameroon National Ports Authority, Tel: 42.52.33 or 42.15.22, ext. 466.

TELEPHONES: No telephone connection on board.

SERVICES: Deratisation and fumigation.

SHORE-LEAVE: Permitted.

DEVELOPMENTS: The construction projects of 2 sea ports, one at Kribi (Rocher du Loup) and the other at Victoria (Cap Limboh) for heavy traffic. The construction projects of a fruit terminal and the extension work of the Container Terminal, depending on the increase of traffic.

The dredging of access channel from 5.80 to 8.5 m.

The construction of a repairs unit.

DELAYS: Not usually.

AUTHORITY: Cameroon National Ports Authority.

KOLE: 04.15 N. 08.33 E. (See Plan Book)

LOCATION: The loading point is located at 04° 14′ 58″ N., 08° 33′ 07″ E. (approx. 288° – 26 miles from Cape Debuncha).

DOCUMENTS:
3 Copies Crew List
3 Copies List of Ports of Call
3 Copies Arms and Ammunitions List
3 Copies Animals List
3 Copies Store List
3 Copies List of the Passengers Landing or in Transit
Ships Manifest

PILOTAGE: Compulsory. Piloting shall be carried out by the Pilots of the Port of Douala. Call signals for a Pilot are those provided for by the International Code. The Pilot may be contacted on VHF Channel 16 (156.8 m/cs.).

The Pilot will board 2 miles South of the SBM in position 04° 13′ N., 08° 33′ E.

ANCHORAGE: Vessels may anchor in 40 m., 4 miles South of the loading point (position 04° 11′ 15″ N., 08° 34′ 40″ E).

Anchoring less than 1 mile from the loading point or pipelines is prohibited.

Prohibited Area: Navigators shall keep outside the prohibited area (demarcated by the parallels 04° 19′ and 04° 13′ N. and the meridians 08° 30′ and 08° 36′ E.) sheltering the working oil equipment. They must not pass the limit of 1 mile from the loading point SBM without a Pilot.

MAX. SIZE: Maximum permissible draft is 16 m. (52 ft. 6 in.). However Elf-Serepca may reduce this draft should meteorological conditions be unfavourable.

HEALTH: Health inspection carried out by doctor or the Pilot. Master to have ready for inspection the following:
Maritime Declaration of Health
De-rat Certificate
Vaccination Certificate of the Crew

In case of infectious disease on board, contact the Doctor in Chief of the Douala Border Health Police B.P. 1115 – Tel. 42.36.33, through the Harbour Master.

RADIO: The vessels should send their ETA to: ELF SEREPCA B.P. 2214 – Tel. 42.13.66 DOUALA Telex 5299 KN ELFERAP

Via Coastal Station – Douala Radio.

Call signal: "TJC 5", "TJC 6" or "TJC 8".

The Coastal Station works on 500 kc/s and 8718 kc/s.

Transmitter Power: 1 kw.

Listening Hours: Permanent watch from 0500–2000 hrs. GMT on 500 kc/s, 15 minutes transmission at 0600 – 0700 – 0800 – 0900 – 1100 – 1300 – 1500 – 1600 – 1700 – 1800 – 1900 hrs. GMT on the 8 mHz band.

Kole Terminal – Floating Storage Vessel:

Call signal: "TJAR". Power 750 w.

Watch maintained on 500 kc/s from 0800–0820, 1200–1220 and 1600–1620 hrs. GMT.

Radiophony watch on 2,182 kc/s at the same hours.

The above mentioned watch is ensured 3 days before the expected arrival of the vessel going to load at the Kole Terminal.

Arrival Advice: Advise "Elf Serepca" 72 hours and 24 hours before arrival, also advise any changes.

VHF: Permanent watch maintained by the terminal on Channel 16.

TUGS: A motor boat is provided to assist with mooring.

2 tugs (1,000 h.p. and 1,500 h.p.) available from Douala.

BERTHING: The loading point of Elf Serepca at Kole is of an SBM with single point mooring at the bow.

The vessel is moored by the bow on a buoy consisting essentially of a cylindrical frame of a diameter of 11 m. and 3.7 m. high, equipped at its lower part with a cylindrical skirt of diameter of 12.5 m.

This buoy is moored by chains with 6 drilled piles. Mooring extends over a radius of 200 m. round the buoy.

A 24 in. sea-line connects the storage barge with the loading point; the buoy is connected to the sea-line by 2 lines of flexible hoses of 16 in. diameter. A floating hose line 20 in. with 2 lines of 16 in. at the end connects the buoy to the tanker.

The loading point is provided for the mooring and loading of tankers of approximately 40,000 d.w.t. to 150,000 d.w.t. The quantity loaded a Kole will be limited to approximately 65,000 tons

Depth of water at the buoy is 23 m.

Mooring: Mooring ropes shall be supplied by Elf Serepca. The vessel shall be ready to embark 2 mooring ropes, one on the starboard side, and the other on the port side. Each rope consists of 46 m. of nylon of 12 in. circumference and a 5 m. chain, diameter 50 mm. Each rope is equipped with a polypropylene inhaul of 10 in. circumference and 103 m. long for one and 73 m. for the other.

Messengers are passed to the vessel by a motor-boat. The vessel shall prepare 2 ropes at the bow for taking the messengers onboard.

Mooring and connecting can be carried out by day as well as by night, weather and sea permitting.

The derrick shall be rigged before arrival with a minimum safe working load of 10 tons.

The ships manifold shall be prepared for connection with the two 16 in. flexible hoses.

BALLAST/POLLUTION: The storage installation is not equipped to receive dirty ballast. The vessel shall, therefore, arrive with clean ballast.

Any vessel approaching with dirty ballast may be forced to leave the loading point and delays arising therefrom shall be to the vessels account. Acceptance of notice of readiness would be rectified accordingly.

It is forbidden to throw into the sea any cinders, burning materials, objects and waste of any kind.

The ship's Master shall be responsible for any spills or pollution and any other difficulties which may involve discharge of oil. The terminal is equipped with an anti-pollution first aid device.

Scuppers shall be plugged during the whole loading time.

LOADING: *Notice:* Notice of readiness shall be sent to Elf Serepca.

Connection of Flexible Hoses: Loading of the vessel shall be carried out through 1 line of 220 m. of 20 in. flexible floating hoses, terminating in 30 m. of 16 in. flexible hose.

Connection with the ships manifold shall be by 16 in. ASA flanges. Elf Serepca can supply 10 in. and 12 in. reducers.

The tanker's derrick shall be rigged before mooring. The safe working load of the derrick hook shall be 10 tons minimum.

The ships portside manifold is generally used but can change according to the season and the climatic conditions. The vessel will be advised by VHF prior to the berthing manoeuvre.

During connection and disconnection of the flexible hoses, assistance of the crew is essential, in particular for the working of winches and derricks. During the whole stay of the vessel at the loading point, the Pilot shall ensure that a safety watch is maintained onboard. The Elf Serepca representative carries out the duties of head of loading and remains in contact with the terminal.

The Elf Serepca service craft shall remain at the disposal of the Pilot and shall remain alongside the tanker or very nearby. A ladder must be kept permanently ready alongside the vessel so as to permit access by the team in charge of the flexible hoses.

Loading: Loading may be carried out with a maximum flow of 4,500 t.p.h. The maximum capacity of each part loading is approximately 65,000 tons.

Inspection of tanks after deballasting and ullages after loading shall be taken in the presence of the head of loading representing Elf Serepca.

The terminal shall place on board the vessel sealed samples of the cargo.

Twenty minutes before the end of loading, the vessel shall warn the terminal by VHF so that pumping may be stopped accordingly.

During Loading: All the hull valves shall be closed except those required for water circulation.

The scuppers of the main deck shall be plugged.

Two fire hoses shall be connected and placed, one at the bow, the other at the stern of the vessel. The fire pump shall be maintained under pressure.

In case of electrical storms, loading may be stopped if necessary.

In case of fire on board a vessel moored at the loading point the Master shall give the alarm by means of short whistle blasts at short intervals. He shall be responsible for the implementation of technical means of fire fighting, maintenance of stability and safety on his vessel. He shall take the required steps to leave should he be required to do so.

MEDICAL: Hospitals, clinics and doctors in Douala. Transportation carried out by Elf at vessels expense.

FRESH WATER: Not available.

FUEL: Not available.

REPAIRS: There are well-equipped repair workshops at Douala.

TIME: GMT plus 1 hour.

CONSULS: At Douala:

French Consulate
Federal German Consulate
Netherlands Consulate
Greek Consulate
Danish Consulate
Norwegian Consulate
Swedish Consulate
Monaco Consulate
American Consulate
Lebanese Consulate

AIRPORT: 4 km. from Douala. 1 or 2 flights daily to Europe. Several flights weekly to U.S.A.

GENERAL: *Charts:* French Chart No. 5380 and British Chart No. 1860.

Safety: During the vessel's stay at the loading point the Master shall:

Maintain on board sufficient crew for handling of the vessel and moorings and fire fighting.

Maintain the engines ready for manoeuvring.

Ensure that the moorings function properly without any undue stress.

Ensure that the floating hoses do not wear out or rub thus causing deterioration.

Ensure that the vessel does not make contact with the buoy either by change in current or change in the direction of the wind or for any other reason.

Fire Fighting: It is forbidden to:

Smoke, utilize naked lights or tools liable to give rise to sparks outside the areas normally authorized on a tanker.

Leave the anchors outside the hawse pipe.

Make any repairs or carry out maintenance on deck.

Turn the propellers.

Utilize in the areas classified as dangerous any equipment or tools of a type not recognised for this use by a competent organization. Elf Serepca reserves the right to take any steps it may deem necessary in case of danger and in particular stop loading.

Stores: Two ship chandlers at Douala can supply the vessel with any foodstuffs they need. But the distance between the Kole Terminal and Douala makes the process very difficult.

Elf Serepca can, in no way, be in charge of the orders and the transportation of foodstuffs.

Territorial Waters: The sovereignty of the United Republic of Cameroon extends to 50 nautical miles from the lowest sea watermark along the coast.

Currency: Legal currency is CFA Francs. 1 CFA Franc = 0.02 FF.

Meteorology: The rainy season (monsoon) extends from May to September. The dry season extends over a period of 2 to 3 months that is to say from December to February.

Air Temperature: The air temperature varies on an average from 22° C to 30° C.

Sea Temperature: On the surface, the sea temperature varies from 29° C at the beginning of the year to 25° C in July, August and September.

Visibility: Owing to the Harmattan, a hot wind blowing from the Sahara, visibility can be reduced to 1 or 2 miles from December to February. During the rainy season, and especially in June, July and September, visibility can be reduced to 0.5 miles due to rain.

Tides: The tides are of a semi-daily type and the Kole cycle is 15 minutes in advance compared with Bonny Town. Maximum amplitude is 2.30 m., mean amplitude is: Spring tides 1.80 m. Neap tides 0.90 m.

Wind: Generally South – less than 15 knots.

Strong winds last for a short period and blow from the East or the S.S.E. in connection with tornados.

Current: In the Kole area currents may be of a very changeable speed and direction. However, the ruling currents are the tidal currents.

Slack tide is S.S.E. and flood tide N.N.W. On the surface its speed can reach 3 knots.

Swell: The direction of the swell is S.S.W. (210°). The average height is 2.5 m., period 8 seconds. The waves generated by the local winds are scarcely higher than 2 m.

SHIPMASTER'S REPORT: November 1979.

Pilotage: Compulsory. Contact via Kole Terminal on VHF. Pilot boards 2 miles South of SBM. Pilot remains on board throughout loading and carries out departure manoeuvring.

Anchorage: Good anchorage 2 miles South of SBM, good holding ground in heavy grey mud. Sheltered anchorages not available.

Radio: ETA's sent to "Elf Serepca Kole" via Douala Radio. 7 days, 3 days, 2 days and 1 days notice to be given. Kole Terminal keeps watch on VHF Channel 16 calling and Channel 12 working, 24 hours per day.

Radio Practique: Not available.

Tugs: Not available.

Berth: One conventional SBM with 2×16 in. connections, usually on the port side but occasionally starboard side will be utilized. Mooring at the SBM is in the normal manner with the exception that the shore supplies all messengers and equipment. Pilot's assistant and 3 shore labourers assist ship's crew on the fo'casle. Hose connections carried out by shore labour and ship's crew together. Derrick capacity to be minimum of 10 tons SWL. Maximum draft 16.0 m. (in good weather).

Cargo Operations: Cargo is loaded from a storage tanker at a maximum rate of 4,500 t.p.h. Maximum lifting is restricted by the deadweight of the storage tanker and is about 65,000 long tons. A Loading Master remains on board throughout cargo operations. He will inspect tanks and sign Dry Tank Certificate prior to loading. 20 minutes notice required for completion of loading to enable loading rate to be reduced.

Kole mixture crude oil API 33.91, loading temperature 100° F.

Cargo papers delivered very promptly on completion of loading during the disconnection of the hoses (calculation is by computer on storage tanker and quantities radioed to Loading Master).

Deballasting: Vessel to arrive with all clean ballast, no facilities for receiving ballast ashore.

Time: GMT plus 1 hour.

Repairs: Minor repairs may be carried out at well equipped workshops in Douala (expensive).

Provisions: Available from Douala but extremely expensive. Delivery problems and transportation make this service impractical.

Fresh Water: Not available.

Bunkers and Lube Oils: Not available.

Medical Services: Available at Douala. Elf Serepca will arrange transportation by helicopter, in emergencies, at vessel's expense.

Crew Change and Shore Leave: Not possible.

Consulates at Douala: France, Germany, Netherlands, Greece, Denmark, Norway, Sweden, U.S.A., Lebanon, Monaco.

Weather: Wind is generally from the South and less than 15 knots. The rainy season extends from May to September and during this time, especially in June, July and September, visibility can be reduced by half a mile because of heavy rain. From December to February mist may be experienced due to hot offshore winds.

Tides: Spring tides 1.80 m. Neap tides 0.90 m.

Current: Variable, mainly tidal. Maximum rate can reach 3 knots.

Authorities: 1 Customs Officer boards and remains onboard throughout the vessel's stay. He carries out all arrival formalities and requires the following forms, in triplicate:

Crew List
List of Ports of Call
Arms and Ammunitions List
Animals List
Stores List
Crews Effects List
Vaccination List (vaccination certificates for Smallpox, Cholera and Yellow Fever).
International Declaration of Health.

Agents do not attend vessel, agency work is handled by Loading Master. Accommodation must be supplied for 3 men, namely the Pilot, Loading Master and Customs Officer.

SHIPMASTER'S REPORT: January 1980.

Kole Terminal can be reached on VHF by Channels 16 and 12. In this way, primary information concerning anchorages can be obtained. If possible, vessels should be anchored 4 nautical miles to the South of the Terminal, and listen out on VHF Channel 12.

With the Pilot, a Loading Master, a Customs Officer and 4 men arrive on board. The 4 men assist in making fast the vessel and positioning hoses, and then go back on the tug.

The Pilot, Loading Master and Customs Officer remain on board during the time in port, and accommodation and meals must be provided.

The Customs Officer completes the clearance inwards and outwards.

The following documents are required:

1 Crew List
1 Passenger List
1 List of Ports of Call
1 Arms and Ammunition List
1 Birds and Animals lists
1 Stowaway List
1 Crew Effects Declaration List
1 Bonded Stores List

On average, only 4 to 5 vessels arrive for loading every month, all of them not being greater than 50–80,000 tons.

As in all other ports, vessels are moored using their own tackle.

Co-operation with the terminal personnel is first-class.

OPERATOR: Elf Serepca, Douala.

NOTES

Please also advise Shipping Guides Ltd.

Canada

GENERAL

Pilotage Regulations: Vessels arriving from any point *East* of the Strait of Belle Isle, Cabot Strait or the Strait of Canso is required to give notice of ETA 24 hours in advance, second notice of ETA 12 hours in advance and Final notice confirming or correcting the ETA 4 hours in advance. With the first notice the following information should be supplied:

(a) in the case of the first arrival of the ship in the compulsory pilotage area in any calendar year,
  (1) the name, nationality, call sign and Agent of the ship,
  (2) the length, breadth, moulded depth, deepest draft, speed and the largest net registered tonnage of the ship, and
  (3) the immediate and the ultimate destinations of the ship within the compulsory pilotage area, and

(b) in the case of any subsequent arrival, movage or departure of the ship in the compulsory pilotage area in any calendar year,
  (1) the name, call sign, deepest draft, the speed of the ship and any changes in the information provided under paragraph *(a)*, and
  (2) the immediate and ultimate destinations of the ship within the compulsory pilotage area

The Laurentian Pilotage Authority advises that, where there is failure to give the required notices, without reasonable cause, the Authority is *not* required to provide the vessel with the services of a Pilot.

Vessel Traffic Management System in St. Lawrence River: **(See Plan Book)**

Since the implementation of the Vessel Traffic Management System in 1967, the existing facilities have been upgraded in response to a constant increase in both traffic and the size of ships, to maintain a safe and orderly passage of vessels plying the St. Lawrence waterway all year round.

The following outlines the procedures of the Vessel Traffic Management System, and the Canadian Coast Guard, Laurentian Region hopes to have the active participation of all concerned, with their willing co-operation to maintain a high level of safety for the benefit of all.

INTRODUCTION: The river has been divided into area sectors, in which a two-way communications system is maintained on separate assigned VHF frequencies between Vessel Traffic Management Centre and a ship.

Regulators monitoring each sector from a VTM Centre are able to assess volume of traffic, disseminate information as necessary, and transfer traffic to adjacent sector regulators in an orderly manner.

Information on procedures and a list of reporting points are contained in Annual Notice to Mariners, Notice No. 25. Commercial vessels in excess of 7.5 m. (25 ft.) and pleasure craft in excess of 20 m. (65 ft.) in length are required to comply.

Vessel personnel entering the Gulf of St. Lawrence on infrequent voyages should be aware of the great diversity of marine traffic to be encountered and that they may receive a call from a ship or shore via VHF at any time. In addition to the many types of ocean-going vessels plying the Gulf of St. Lawrence and the St. Lawrence River, the modern "Laker" class trades into the Gulf, particularly to the Quebec North Shore area. These vessels may be 223 m. (730 ft.) in length, capable of 13 knots speed and are in the main well equipped with modern navigation aids. Still in existence are few "Goelette" class of wooden-hulled pulp-wood carriers.

Objectives: The objectives of the Vessel Traffic Management System are:

(a) to prevent collisions between ships,
(b) to prevent collisions between ships and other obstructions in the channel,
(c) to maintain a safe, expeditious and orderly flow of shipping on those waters under jurisdiction,
(d) to alert appropriate authorities when ships are in need of assistance.

Movement, Regulations and Responsibility: There is no intention on the part of the Department to attempt to navigate or manoeuvre ships from a shore station, and nothing in this information overrides the authority of the Master and his responsibility for the safe navigation of his ship. Information passed to the Master is intended to assist him in the safe conduct of his vessel.

Administration: The services described are administered by the Laurentian Region, Canadian Coast Guard, with headquarters at Quebec. Operational centres are at Quebec City, Montreal and Les Escoumins. A Regional Vessel Traffic Management Information Centre in Montreal ensures prompt Pilot despatch to vessels transitting the system. It also gives vessel movement information within the system to the shipping industry and the general public.

References: The following publications are useful references and should be read in conjunction with this information:

Radio Aids to Marine Navigation, Atlantic and Great Lakes.
Notice to Mariners, Canadian annual edition.
Radiotelephone Operator handbook.
(St. Lawrence Waterway) Marine Traffic Regulations.
Sailing Directions Gulf and River St. Lawrence.

The VHF radiotelephone system, operated by the Vessel Traffic Management System is intended exclusively for Marine Traffic Regulation and Information. No duplex facilities are provided. Neither public correspondence nor domestic messages are accepted.

Related Services: The Vessel Traffic Management System is not directly associated with the administration of the Canadian Coast Guard Marine Radio Coast Stations at Sept-Iles, Rivière-du-Loup, Quebec and Montreal. These are Marine Radio Coast Stations operated by the Telecommunications and Electronics Branch of the Canadian Coast Guard. The Vessel Traffic Management System is linked with them by land line, telex service and a teletype network via the Regional VTM Information Centre in Montreal. Detailed information concerning Marine Radio Coast Stations is contained in the publication "Radio Aids to Marine Navigation – Atlantic and Great Lakes".

PART 1

UTILIZATION OF SHORE BASED EQUIPMENT

1. *Characteristics of Equipment:*

Ship to shore communication in the Canadian Coast Guard Vessel Traffic Management System, is by VHF radiotelephone only.

2. *Location of Stations:*

The system is operated from Quebec City for the region between Sept-Iles and Grondines. However, the sector situated between Pointe-au-Boisvert and Recif de l'Ile Blanche Pillar (including the Saguenay), is operated from Les Escoumins. The region between Grondines and the upper limits of Montreal Harbour is operated from Montreal.

1. Unmanned radio/telephone stations with transmitting and receiving facilities are located at Baie-Trinité, Baie-Comeau Rimouski, Trois-Pistoles, Les Escoumins, Sacré-Coeur, Cap-Est, St-Roch, Montmagny, Quebec, Ste-Marthe-du-Cap, Ile Dupas, and Montreal. The Vessel Traffic Management Centres at Quebec and Montreal, and the radar and radio/telephone surveillance at Les Escoumins VTM Centre are manned at all times, day and night.

3. *Coverage:*

Coverage is provided by the shore radio/telephone stations from the meridian passing through the Quebec North Shore town of Sept-Iles Westward to the upper limits of Montreal Harbour.

4. *Frequency:*

The stations are equipped to transmit and receive on the following frequencies:

Baie-Trinité, Baie-Comeau & Rimouski	156.3, 156.7, 156.8 mHz.
Les Escoumins, Sacré-Coeur & Cap-Est	156.3, 156.45, 156.8 mHz.
Trois-Pistoles, St-Roch-Montmagny	156.3, 156.6, 156.8 mHz.
Quebec	156.3, 156.55, 156.8 mHz.
Ste-Marthe-du-Cap	156.3, 156.65, 156.8 mHz.
Ile Dupas	156.3, 156.45, 156.8 mHz.
Montreal (Sutherland Pier)	156.3, 156.5, 156.8 mHz.

5. *Geographical Sector Separation and Channel Assignment:*

Geographical separation and channel assignment for sectors within which a specific VHF frequency has been allocated are as follows:

Sector 1	Sept-Iles to Pointe-au-Boisvert	Ch. 14 Fr. 156.7 mHz.
Sector 1a	Pointe-au-Boisvert to Recif de l'Ile Blanche Pillar (including the Saguenay River)	Ch. 9 Fr. 156.45 mHz.
Sector 2	Récif de l'Ile Blanche Pillar to St-Laurent-d'Orleans	Ch. 12 Fr. 156.6 mHz.
Sector 3	St-Laurent-d'Orleans to Grondines	Ch. 11 Fr. 156.55 mHz.
Sector 4	Grondines to Yamachiche Bend	Ch. 13 Fr. 156.65 mHz.
Sector 5	Yamachiche Bend to Cap-St-Michel	Ch. 9 Fr. 156.45 mHz.
Sector 6	Cap-St-Michel to Upper limits of Montreal Harbour	Ch. 10 Fr. 156.5 mHz.

In Montreal Harbour ship/tug(s) communication for docking, undocking Ch. 6 Fr. 156.3 mHz.

PART II

SHIPBOARD EQUIPMENT

1. Installation of VHF equipment is required to meet the following standards:

(a) A vertically polarized antenna with a radiation equivalent to a unity gain antenna at a nominal height of 9.1 m. (30 ft.) above the water, a transmitter R.F. power output of 10 watts minimum and a receiver sensitivity of at least two microvolts across the input terminals for 20DB signal to noise ratio.

(b) Control of the VHF Channels shall be immediately available on the bridge, convenient to the conning position and such installation shall conform to the requirements laid down in Radio Regulations for equipment used in the VHF international Maritime Mobile Radio/telephone Service and shall be capable of operation on the following Channels:

156.8 mHz.	Channel 16
156.7 mHz.	Channel 14
156.65 mHz.	Channel 13
156.6 mHz.	Channel 12
156.55 mHz.	Channel 11
156.5 mHz.	Channel 10
156.45 mHz.	Channel 9
156.3 mHz.	Channel 6

Note: Additional Channels may be brought into use if found necessary and after due notice has been given.

PART III

RADIO COMMUNICATION PROCEDURES

1. *Procedures:*

Radiotelephone procedures to be used in Vessel Traffic Management are those formulated by the International Telecommunications Union as outlined in the Radiotelephone Operator Handbook.

2. *Reporting Procedures:*

Vessels navigating in waters under the jurisdiction of Vessel Traffic Management shall report on the assigned frequency as designated in Part I, Section 5, when passing the reporting points or such other locations as required for regulating purposes. The following information should be given:–

(a) Name of vessel,

(b) Reporting point,
(c) Estimated time of arrival at next reporting point,
(d) Weather, i.e. visibility in miles, wind direction and velocity, ice: type and coverage.

3. *Mandatory Reporting Points:*
Upbound and downbound ships are to report to the Vessel Traffic Management Centre when passing the following reporting points:–

1. South of Sept-Iles (Meridian 66° 23′ W.)
2. Pointe-des-Monts (Light List No. 1691)
3. Manicouagan Point
4. Pointe-à-Michel (Light List No. 1728.2)
5. Pointe-au-Boisvert .... Sector Change Point
6. Les Escoumins (Pilot boarding and disembarking point)
7. Prince Shoal
   An ETA for Red Islet indicates vessel passing South of Red Islet outbound. An ETA for Prince Shoal indicates vessel passing North of Red Islet inbound.

7a. Ile Blanche .... Sector Change Point (Upbound/Downbound)
   Saguenay River:
   Vessels proceeding into Saguenay River shall report when passing Prince Shoal and when leaving on passing Pointe Noire. Vessels transitting the Saguenay shall also report when passing Ile St. Louis, Pointe du Fort (Ha! Ha! Bay) and the East limit of Chicoutimi Harbour. Vessels manoeuvring in Ha! Ha! Bay West of Pointe du Fort shall continuously guard the regulating frequency 156.45 mHz. (Channel 9).

8. Cap-au-Saumon (Light List No. 1836)
9. Goose Cape (Light List No. 1849)
10. Cap Maillard
11. Cape Brûlé (Light List No. 1902)
12. St. Laurent d'Orleans .... Sector Change Point
13. Ste. Pétronille Wharf (Upbound only)
14. Québec City (Pilotage Station)

14a. Sillery Wharf (Downbound only)

15. St. Nicholas (Light List No. 1966)
16. Ste. Croix (Light List No. 1986)
17. Grondines (Light List No. 2024) .... Sector Change Point
18. Batiscan (Light List No. 2047.2)

18a. Cap-de-la-Madeleine Wharf (Upbound only)

19. Trois-Rivieres (Pilotage Station)

19a. Port St. François Wharf (Downbound only)

20. Yamachiche Bend (Light List No. 2134.8) Sector Change Point
21. Ile des Barques (5 cables above Front Range Light) (Light List No. 2168)

21a. Turcotte Bridge, Sorel (1 cable downstream) (upbound/downbound)

22. Tracy (Hydro Power Plant)
23. Contrecoeur (Iron Ore Co. Wharf)
24. Cap St. Michel (7 cables downstream) ... Sector Change Point
25. Berth 110 (Pointe-aux-Trembles)
26. Elevator No. 4 (Montreal Harbour)
27. Seaway Calling-in-Point No. 2 (3 cables downstream Jacques Cartier Bridge)

(Termination of D.O.T. coverage and commencement of St. Lawrence Seaway coverage).

4. *Procedures on Leaving the Designated Frequency:*
Any ship wishing to leave the designated radio frequency for the sector in which she is navigating should inform the Vessel Traffic Management Centre of this intention, and should report to the centre when listening is resumed on the assigned frequency.

PART IV

OPERATING PROCEDURES

1. *Ship to Shore*
   1. The Vessel Traffic Management Centres at Montreal, Quebec and Les Escoumins are manned at all times, day and night. Calls originated by the Centres will be identified by the call sign "Channel Montreal", "Channel Quebec" or "Channel Escoumins", as appropriate, and ships will be addressed by their names.
   2. All times will be given in Eastern Standard Time (GMT −5) or Eastern Daylight Saving Time (GMT −4), whichever is in effect. The 24-hour clock system will be used.

2. *Listening Watch:*
Vessels under way and at anchor in the waters under the jurisdiction of the Vessel Traffic Management Centres shall maintain a continuous listening watch on the appropriate frequency.

3. *Language:*
The personnel operating the VTM Centres are bilingual in English and French. The ship, therefore, by its transmission, determines which of these two languages will be used.

All transmissions to and from the VTM Centres are recorded on tape, as are transmissions made on Channel 16 (156.8) and Channel 6 (156.3).

4. *Equipment Malfunction:*
(1) Vessels entering the St. Lawrence VTM system without a fully operational radar or having a radar which becomes unserviceable during transit shall immediately inform the VTM Centre to which they are reporting. In such cases clearance to navigate West of Les Escoumins will be based on present and forecasted visibility and weather conditions or on the necessity for particular ships to have a fully operational radar due to special circumstances.
(2) In the event that a vessel's VHF radio equipment should become inoperative during transit in one of the sectors covered by Vessel Traffic Management System, the VTM Centre shall be alerted at the earliest opportunity. The method shall be to send a message to a nearby ship station via MF or WT radio, stating the malfunction of equipment and the ship's position.
(3) If unable to establish radio communication, the ship shall call any nearby vessel by Aldis lamp, or shall hoist International Code flag hoist YS9. Any vessel acknowledging such a message shall then advise the VTM Centre monitoring that sector by the most direct means.

PART V

CLEARANCE INSTRUCTIONS

Clearances (Permission to Proceed):
When a clearance is required, the Master must obtain it from the proper Traffic Management Centre before:–
(a) entering into waters under the Vessel Traffic Management jurisdiction,
(b) proceeding to any berth,
(c) leaving any berth,
(d) shifting from one berth to another,
(e) any alterations or deviations in speed or course (except in emergency situation).

Berth means wharf, pier, lock, anchorage or mooring buoys.

Duration of Clearance Validity:
A Vessel Traffic Management clearance will constitute authority for the Master of a vessel to proceed only to the extent that traffic and other conditions are known and subject to the following limitations:–
(a) clearance for leaving any berth automatically expires 15 minutes after it has been granted, and if the ship is delayed for any reason it must, except in an emergency, obtain another clearance before proceeding. Should an emergency occur that necessitates action without permission, the VTM Centre must be advised immediately thereafter.
(b) the valid time for clearance, other than from a berth, may vary and the traffic regulator shall, if he deems it necessary, place a limit on the time during which action must be taken.

PART VI

ROUTINE BROADCASTS

1. *Routine Broadcasts:*
(a) "Notice to Shipping",
(b) weather and ice conditions,
(c) status of navigational marks and aids,
(d) reported obstructions.

will be given every hour at the following times, unless radio telephones traffic is so urgent that a delay is necessary, in which case the broadcast will be made as soon as possible after the scheduled time:

Sector 1	Sept-Iles to Pointe-au-Boisvert	on the hour
Sector 1a	Pointe-au-Boisvert to Récif de l'Ile Blanch Pillar (including the Saguenay River)	36 minutes after the hour
Sector 2	Récif de l'Ile Blanche Pillar to St-Laurent-d'Orleans	12 minutes after the hour
Sector 3	St-Laurent-d'Orleans to Grondines	24 minutes after the hour
Sector 4	Grondines to Yamachiche Bend	36 minutes after the hour
Sector 5	Yamachiche Bend to Cap-St-Michel	48 minutes after the hour
Sector 6	Cap-St-Michel to Upper limits of Montreal Harbour	on the hour

Urgent advice will be broadcast as soon as it has been received and will be repeated during the next routine broadcast.

The value of the broadcasts will depend entirely on the accuracy of the reports given by ships.

2. *Notice to Shipping:*
Notices affecting navigation for the appropriate sector will be broadcast by the Vessel Traffic Management Centre:
(a) if there are no notices to shipping affecting navigation, a broadcast will be made to that effect at the stated time,
(b) urgent information concerning the safety of navigation and shipping will be broadcast any time,
(c) any ship having knowledge of any matter affecting the safety of navigation, such as, defective aids to navigation, obstructions in the channel, disabled or hampered ships, unusual weather conditions, etc., shall inform the appropriate Traffic Management Centre immediately in order that the information can be broadcast to all ships and to Department of Transport offices without delay.

PART VII

CO-ORDINATION

1. *VTM Centre Transfer:*
A vessel shall be under the jurisdiction of only one Vessel Traffic Management Centre at any given time, and responsibility for the regulating of such a vessel shall be transferred from one Traffic Management Centre to another at the appropriate time.

2. *Sector Transfer:*
Within the limits of responsibility of a Vessel Traffic Management Centre, the regulation of the vessel will remain with one sector of operation until the vessel is handed over to the next sector.

3. *Liaison Service:*
Marine traffic regulators maintain close liaison with key personnel at the Canadian Coast Guard Districts, National Harbours Board ports, Pilotage Offices, CCG Coastal Radio Stations and the St. Lawrence Seaway Authority.

4. *Risk of Delay:*
Information on a vessel's movement within the system will be transmitted to the Regional Vessel Traffic Management Information Centre at Montreal for distribution from there to ensure efficient Pilot despatch. Vessels not yet fitted with VHF equipment for the designated Channels may, therefore, experience delay while arrangements are made for a Pilot.

5. Information to Public:
The Regional Vessel Traffic Management Information Centre at Montreal will also provide general information to the public on vessels within the system.

PART VIII

INFORMATION

1. Information Procedure:

1. Information may be requested from a vessel to maintain knowledge of her position or of other conditions that may affect shipping.
2. Normally, this information request will relate to the following subjects, however, this will not preclude requests for any other information:
   (a) name of vessel,
   (b) location of vessel,
   (c) ETA at next reporting point,
   (d) weather conditions (i.e. fog, snow or ice).

2. Entering the System:

1. Information necessary to the Vessel Traffic Management System, will be requested by the appropriate Centre on VHF, when vessels enter the System at the time of passage at the reporting point Sept-Iles.
2. Vessels entering the System from the West or, have passed the pilotage boarding station at Les Escoumins, have normally given the required information. If further information is required, it will be requested by the Traffic Management Centre.
3. Traffic information, as far as practical, shall also be provided on known movement of ferries, dredgers, buoy-tenders, ice-breakers, tugs, barges, etc.

3. Further information given to the Master of a vessel during a routine broadcast or upon request shall include:
(a) "Notice to Mariners",
(b) "Notice to Shipping",
(c) latest available information on meteorological, ice and water level conditions.

Accident or Emergency:
In the event of being involved in, or sighting, a collision or accident, a report giving all available details shall be given to the VTM Centre. Such transmission, as far as circumstances permit, shall be to the VTM Centre monitoring the ship at that moment, and the frequency shall be the working frequency of the sector in which the ship is located.

In the event of sinking, grounding or other marine accident, which will cause an inconvenience to marine traffic within waters under the department's jurisdiction, the Minister of Transport has the authority to order the Owner, at his own expense, to arrange for removal or disposal, by any means acceptable to the Department of Transport, of the said obstacle or derelict.

A VTM Centre may issue orders to vessels which are suspected of discharging oil, due to a leaking hull or negligent pumping of oils liquids. The order may require the vessel to anchor pending examination by a marine surveyor of the Canadian Coast Guard Marine Safety Branch.

NOTE – In recent years, heavy fines have been levied on ships found guilty of disregarding oil pollution regulations and it is recommended that Masters should alert senior engine room personnel of the need for strict control of all overside discharge of liquids containing oil in any quantity.

Vessels of "Exceptional Dimensions" or unusual Characteristics:
With the existing 10.67 m. (35 ft.) deep channel to Montreal (1977), a vessel classed as of "exceptional dimensions" would be as follows:–
(a) with a draft of, or in excess of, 10.36 m. (34 ft.) in fresh water,
(b) a length of, or in excess of, 228.6 m. (750 ft.),
(c) a breadth of, or in excess of, 30.48 m. (100 ft.).

Masters of vessels within this category shall submit details to a VTM Centre prior to commencing transit, enabling consideration to be given such a vessel, when transitting at curves and critical channel areas.

Moderation of Speed:
Transitting vessels shall regulate their speed as normal prudence would require:–
(a) when approaching curves in a dredged channel to lessen bank suction effect;
(b) to avoid excessive "draw off" and consequent follow through wash, which may endanger life or damage property;
(c) upon approaching vessels, barges or equipment engaged in dredging, salvage, buoy work, construction or other circumstances, when the normal practice of seamen would require same;
(d) to comply with any speed restrictions required by the Canadian Coast Guard to permit the formation of and maintain in position batture and lake ice outside of the channel, thereby reducing ice blockages.

St. Lawrence Seaway:
Vessels proceeding into the St. Lawrence Seaway and which have passed the Seaway clearance formalities will be "handed over" to the Seaway Control Centre at St. Lambert by the Montreal VTM Centre. Masters should be in possession of the Seaway Handbook to facilitate Seaway transit.

Dredging Equipment:
Dredging operations are carried out throughout the length of the river during the period April to December. The location of the specific dredging sites will be broadcast by the VTM Centres in Notices to Shipping.

Navigational Cautions:
Mariners are cautioned that all vessels within the geographical limits of the system may not as yet be fitted with the required communications equipment. Mariners may, should weather and traffic conditions so warrant, give additional navigation information calls at localities other than the required reporting points but, in so doing, they must keep the number and duration of calls to a minimum consistent with the safety requirements.

Coast Guard Icebreakers:
The Canadian Coast Guard operates icebreakers in Winter in support of shipping and for flood control work. While these vessels are not assigned to operational duties by a VTM Centre, the Centres do serve as communication co-ordinators, for the operating agency, in waters regulated by the Vessel Traffic Management System.

Radar:
The Vessel Traffic Management Centre at Les Escoumins, is equipped with VHF communications as well as a surveillance radar covering all the sector between Pointe-au-Boisvert and Récif de l'Ile Blanche Pillar.

This centre provides the same services as the other VTM Centres and regulates all vessel traffic.

Beginning with the 1968 season, radar surveillance of marine traffic has been undertaken for certain areas of Montreal and Quebec harbours and, more recently, for the Vessel Traffic Management Centre at Les Escoumins.

EASTERN CANADA TRAFFIC SYSTEM (ECAREG):

Introduction: The Canadian Coast Guard have introduced a compulsory Eastern Canada Traffic System, ECAREG CANADA.

All Coast Guard Traffic Centres in this system are manned on a 24 hour basis and will conduct communications with vessels through the facilities of the Canadian Coast Guard Radio Stations in the area of application.

Objective: The primary objective is to regulate vessel traffic and provide the mariner with timely navigation safety and ice information through the consolidation of Canadian Coast Guard Services. The second objective of this System is to ensure the compliance with Canadian regulations as applicable.

Area of application: This system applies in a Zone to be known as the Eastern Canada Traffic Zone comprising the internal waters, territorial sea and fishing zones of Eastern and Northern Canada as far West as:-

a) In the St. Lawrence River 66° 23′ West longitude, and that part of the Zone lying to the South of 66° 00′ North latitude, but excluding the whole extent of Hudson Bay, James Bay, and Ungava Bay, shall be referred to as the Southern Area of the Zone.

The Zone does not include the waters within the local vessel traffic management zones of:
Placentia Bay, Newfoundland
Canso, Nova Scotia
Halifax, Nova Scotia
Bay of Fundy

As described in Notice to Mariners No. 25 in the Annual Edition.

Vessels to which this notice applies: This notice applies to the following classes of vessels:

a) All vessels of 500 tons gross tonnage or more, and

b) Any vessel carrying cargo comprised of a pollutant as outlined in the Oil Pollution Prevention Regulations or the Pollutant Substance Regulations, and

c) Any vessel carrying cargo comprised of explosives, radioactive material or other dangerous goods, as outlined in the Canadian Dangerous Goods Shipping Regulations; and the Inter-Governmental Maritime Consultative Organization (IMCO) International Maritime Dangerous Goods Code.

d) Any vessel towing another vessel that contains any cargo described in subsections (b) and (c) other than in the case of a local port movement between berths.

A vessel within the Eastern Canada Traffic Zone is considered to be in transit at all times except when a report has been received by ECAREG CANADA indicating that the vessel is secured at a berth or otherwise laid-up without risk to other traffic. A berth means wharf, pier, dock, anchorage or mooring, or has transferred to 'Quebec Traffic'.

Movement regulating and navigation responsibility: There is no intention on the part of the Canadian Coast Guard to attempt to navigate or manoeuvre vessels from a shore station and nothing in this Notice overrides the authority of the Master or his responsibility for the safe navigation of the vessel. Information passed to the Master is intended to assist him in the safe navigation of his vessel.

Communication procedures: Messages and reports requested by the Eastern Canada Traffic System shall be addressed to ECAREG CANADA and despatched through the nearest Canadian Coast Guard Radio Station free of charge to the vessel. Ships will be addressed by their name or call letters. All times will be given in Greenwich Mean Time using the 24 hour clock system.

When a vessel requires a Traffic Clearance to depart a berth in a location in which no other means of communication are available, the vessel shall use its ship radio station to pass the ECAREG REPORT to the nearest Canadian Coast Guard Radio Station.

When radio communication difficulties occur in the Northern Area of the Zone such that a vessel cannot comply with the requirements of this System, the vessel shall continue with its voyage but make contact with ECAREG CANADA as soon as communication conditions improve.

Transit provision: The Traffic clearance required by the Eastern Canada System is specifically for the purpose of providing permission to a vessel to transit the Zone. A Traffic Clearance in no way replaces, or substitutes for, any other clearance, such as a Custom's clearance, which a vessel may be required to obtain.

The Master of a vessel, or any person authorized by him, shall obtain a Traffic Clearance before the vessel:

a) Enters the waters designated as the Eastern Canada Traffic Zone from seaward, or

b) Departs from any berth within the Eastern Canada Traffic Zone, other than in the case of a local port movement between berths, or

c) Proceeds after being stranded or involved in a collision within the Eastern Canada Traffic Zone, or

d) Proceeds after sustaining any defect to the vessel, its equipment or machinery.

If an emergency occurs which requires action prior to requesting a Traffic Clearance a report shall be made to ECAREG CANADA as soon as possible.

Request for Traffic Clearance: In order to provide a Traffic Clearance for a vessel to enter the Eastern Canada Traffic Zone, or to depart from a berth within the Zone, an ECAREG REPORT containing the following information shall be despatched to ECAREG CANADA:

a) Name of ship and call sign.
b) Name and initials of Master.
c) Position and speed.
d) As applicable, the estimated time of:
(i) entry into the Zone.
(ii) departure from a berth within the Zone.
e) Ship's destination, ETA and intended route, e.g. Strait of Belle Isle, Cabot Strait, Strait of Canso.
f) Last port of call.
g) Deepest arrival draft.
h) Description and weight of any cargo as described in section 4; (dangerous goods only).
i) Brief description of main cargo commodity on board.
j) Defects or deficiencies, if any, in shipborne navigational aids equipment and ship's machinery.
k) Report of any release of pollutants from the ship or any damage sustained which may result in pollution.
l) Name of Canadian Agent.
m) Date of expiry of the Non-Canadian Ship's Compliance Certificate for a non-Canadian tanker of 500 gross tons or more. (tankers only).

When a vessel requires a Traffic Clearance to proceed within the Eastern Canada Traffic Zone after being involved in any of the circumstances described in sub-sections (c) and (d) of *"Transit Provision"*, information concerning the vessel's identity, location, condition, intentions and details of the incident shall be reported to ECAREG CANADA as soon as possible.

In the event that a vessel is given a change in orders by the vessel's Owner or Agent subsequent to receiving a Traffic Clearance, any revision necessary to the original ECAREG REPORT shall be made without delay.

Distribution of ECAREG Report: All requests to ECAREG CANADA for a Traffic Clearance to enter the Eastern Canada Traffic Zone received from vessels bound for one of the local vessel Traffic Management Zones referred to in *"Area of Application"* will be communicated, on behalf of the vessel, to the local Coast Guard Traffic Centre within that Zone and will satisfy the request for Traffic Clearance requirements for such local Zone.

Similarly, such requests for Traffic Clearance made to ECAREG CANADA on behalf of a vessel bound for the St. Lawrence Waterway Marine Regulating Zone provided the vessel has the VHF frequencies for that Zone as required by the (St. Lawrence Waterway) Marine Traffic Regulations.

When to request a Traffic Clearance: The Master of a vessel, or any person authorized by him, shall request a Traffic Clearance for the vessel to transit or move within the Eastern Canada Traffic Zone at the following times:

From Seaward, all vessels

a) For a vessel approaching from seaward: – 24 hours before the vessel is due to enter the Zone or, for a vessel intending to navigate within the Northern Area of the Zone from the Labrador Sea, 24 hours before the vessel is due to cross the 60th parallel of North latitude.

From a berth, less than 50,000 tons gross

b) For a vessel of less than 50,000 tons, gross tonnage, when departing a berth within the Eastern Canada Traffic Zone, not more than 2 hours nor less than 1 hour before the vessel is due to leave the berth.

From a berth, 50,000 tons gross and over

c) For a vessel of 50,000 tons, gross tonnage, and over when departing a berth within the Eastern Canada Traffic Zone, not less than 4 hours before the vessel is due to leave the berth.

From Seaward, any vessel proceeding from a port close to the Zone.

d) For a vessel which is in a port or berth outside the Eastern Canada Traffic Zone but in close proximity to the Zone, the request for Traffic Clearance to enter the Zone from seaward may be made as soon as practicable if the 24 hour prior notice period cannot be observed.

From the St. Lawrence River, or a local VTM Zone, all vessels

e) A vessel which has a Traffic Clearance to transit the St. Lawrence Waterway Marine Traffic Regulating Zone to depart a berth in a local vessel Traffic Management Zone referred to in *"Area of Application"*, does not require an additional Traffic Clearance when entering the Eastern Canada Traffic Zone. Such a vessel shall, however, observe all other applicable provisions of this Notice.

Vessels engaged on coastal voyages: For a vessel which proceeds outside the Eastern Canada Traffic Zone during the course of a coastal voyage between two Canadian ports, both of which are located within the Zone, there is no requirement for such vessel to request a Traffic Clearance for re-entry into the Zone. The vessel shall, however, observe all other provisions of this Notice.

The duration of Traffic Clearance to a berth: The Traffic Clearance for a vessel to depart a berth within the Zone is valid for 4 hours from the time stated for the vessel's departure. A report stating that the vessel has left the berth shall, however, be made to ECAREG CANADA as soon as the vessel gets underway.

If the vessel has not departed the berth during the 4 hours validity period the Traffic Clearance is suspended and requires renewal for a revised time of departure as described in *"To revalidate a traffic clearance to depart a berth"* below.

To revalidate a Traffic Clearance to depart a berth: A request to revalidate a Traffic Clearance to depart a berth if the 4 hour validity period has expired shall be made in the following form:

a) Name of ship and call sign.
b) Location of ship.
c) Amended ETD from the berth.

Reports of defects or deficiencies: Defects or deficiencies in shipborne navigational aids, equipment and ship's machinery which occur subsequent to the issuance of a Traffic Clearance shall be reported as soon as possible to ECAREG CANADA.

Ice information and ice routing: Vessels may request ice information and ice routing from ECAREG CANADA.

Icebreaker assistance: When a vessel requires icebreaker assistance the following data is necessary in addition to that already provided in the vessel's ECAREG REPORT as requested under *"Request for Traffic Clearance"*.

a) Draft, Forward and Aft.
b) Deadweight tonnage.
c) Open water speed.
d) Ice Class (if any) and classification society.
e) Number of propellors.
f) Shaft horsepower.
g) Type of propulsion system.

Position reporting procedures: A vessel shall report its position when:

a) Crossing the 110° 00′ West meridian of longitude in the Northern Area of the Zone on entry into, or departure from, the Zone.
b) Crossing the 66° 23′ West meridian of longitude in the St. Lawrence River on entry into, or departure from, the Zone.
c) Crossing the 60° 00′ North parallel of latitude in the Labrador Sea, whether proceeding towards, or away from, the Zone.
d) Passing between Cape Ray and Cape North while entering or leaving the Gulf of St. Lawrence.
e) Passing Belle Isle while entering or leaving the Strait of Belle Isle.
f) Arriving at any destination within the Zone.

Vessels in Arctic Waters: Any vessel which is in the Northern Area of the Zone, or is proceeding towards, or away from the Northern Area of the Zone, when North of 60° 00′ North latitude, or in Hudson Bay, James Bay or Ungava Bay, shall report its position and intentions at 1600 GMT daily to facilitate the provision of enroute support by the Canadian Coast Guard.

Position reports: The position reports required by *"Position Reporting Procedures"* above shall be made to ECAREG CANADA in the following form:

a) Name of vessel and location.
b) For vessels in transit, as applicable, the intended route, speed and ETA at the next position reporting location.

Incident reports: A vessel shall report as soon as possible to ECAREG CANADA any incident involving the following:

a) An accident on board or to the vessel, or fire on board.
b) Sighting another vessel involved in an accident or in any apparent difficulty.
c) Sighting any obstruction dangerous to navigation.
d) Sighting any pollution of the waters of the Zone.

The requirements of this section shall not supersede any other obligation on the Master of a vessel to act or communicate in accordance with any provisions established by international convention.

AMHERSTBURG, Ontario: 42.06 N. 83.08 W.

(See Plan Book)

PORT LIMITS: Southerly Port Limits commence at Buoys 43D and 44D and extend on the Canadian side of the International Boundary Line, Northerly to the Southerly limits of Windsor Harbour.

DOCUMENTS: Amherstburg is not a port of entry, but a Customs Officer is available upon notice 24 hours a day. Foreign Ships, on arrival, are required to present Canadian Customs Form A-6 inward and A-6 outwards.

PILOTAGE: Pilotage is compulsory as required by Seaway Regulations.

ANCHORAGES: Windsor Harbour is the only recognized anchorage in Detroit River.

RESTRICTIONS: Seaway draft is maintained in main channel and shallow draft channel of 21 ft. Water levels are affected by fluctuation of Lake Erie. A Low Water Warning is broadcast from Belle Isle on 2670 kHz and 156.6 mHz on the odd hour plus 55 minutes when the water level in the West end of Lake Erie falls 1 inch or more below the lower level of the Lake Survey Centre's predicted range of levels shown in bulletins issued the 5th and 20th of each month during navigation season. Water levels are broadcast on FM radio from Group Detroit.

MAX. SIZE: About 432 ft. long and 21 ft. draft is maximum for Allied Chemical Dock.

HEALTH: Pratique is not necessary as vessel has passed all health requirements before entering Canada.

RADIO: Messages may be sent and received via VBE Sarnia Radio.

VHF: None available for port movement, except as established between vessels in Harbour.

TUGS: Available, but not usually used.

BERTHING: Public Wharf has a frontage of 250 ft. with large warehouse on it. (The warehouse is to be removed in the near future and not be replaced). Vessels draft for approach 17 ft. North is Department of Transport Wharf and Buoy Depot, length 291 ft., draft approach 17 ft. North of this dock is McQueen's, 17 ft. draft. The old Town Coal Dock is being converted into a public park. Allied Chemical is a private dock which consists of 3 cement filled caissons protected with steel sheet

piling. Import fuel oil and export liquid calcium. Vessels of 412 ft. length call here regularly, draft approach alongside 21 ft.
CRANES: Shore cranes are available for hire from private contractors, also floating barges with cranes, 100 ton capacity and 200 ft. boom if required.
BULK CARGO FACILITIES: Conditions of various wharves does not warrant any usage for bulk cargoes.
BRIDGES: No bridges within Amherstburg Harbour area.
STEVEDORES: Stevedoring is arranged through Agents in Windsor.
MEDICAL: Should medical attention be required it can be arranged through radio station VBE Sarnia by message to Canadian Coast Guard Base Amherstburg. Hospitals are available in Windsor with Ambulance service. Injured seaman can be taken off if necessary by Canadian Coast Guard in vicinity of Amherstburg, when notified via VBE Radio Sarnia.
TANKERS: Use private wharf of Allied Chemical Limited.
DENSITY: Fresh water only.
FRESH WATER: Fresh water could be supplied in an emergency by tank truck or contacting Public Utilities Commission.
FUEL: Not available on docks, except by truck.
FIRE PRECAUTIONS: Usual ship board fire precautions on board.
CONSULS: None.
REPAIRS: Small ship repairs can be carried out by local firms from Windsor.
DRY DOCK: None.
SURVEYORS: None stationed in port, but arrangements can be made to have an inspector when required.
GANGWAY/DECK WATCHMEN: No regulations requiring watchman.
CUSTOMS ALLOWANCES: Same as all Canadian Customs Regulations.
CARGO GEAR: Ship's gear, unless pallets are used.
REPATRIATION: Arrangements for crew change can be made.
AIRPORT: Windsor Airport is 20 miles distance and service is by Air Canada, Nordair and numerous charter companies.
TIME: Local time is GMT plus 5 hours and Summer time plus 4 hours.
HOLIDAYS: All Canadian Holidays, working time requires negotiating with local unions.
POLICE/AMBULANCE/FIRE: Police – 736-3622, Ambulance – 736-5411, Fire – 736-6500.
TELEPHONES: No telephone jacks available on any dock.
SERVICES: Laundry can be done, but takes considerable time. Food stuffs are available, including fresh produce.
SHORE LEAVE: No restrictions.
IDENTIFICATION CARDS: Seaman's I.D. card is sufficient.
REGULATIONS: No unusual regulations.
DELAYS: Private owner's dock is only dock being used for cargo.
DEVELOPMENTS: None, except Government Wharf and Shed is being taken over for extended Buoy Depot and Shed will be demolished and Wharf will be used by Government vessels.
AUTHORITY: Canadian Coast Guard Base, Harbour Master, Amherstburg.

BADDECK, N.S.: 46.06 N. 60.44 W. **(See Plan Book)**

DOCUMENTS:
4 Crew Lists.
Customs Documents.
Harbour Dues Receipt.
Stores List.
Derating Certificate.
Safety Regulations.
Clearance from Last Port.
PILOTAGE: Compulsory. Pilot station at Table Head, see Canadian chart 4367.
ANCHORAGE: Good anchorage in lake. Depths 50 to 500 ft.
RESTRICTIONS: Can be restricted by heavy fog, tide, ice.
Great Bras d'Or: (Entrance to lakes restricted at Seal Island Bridge to vessels less than 119 ft. high).

Entrance into the Bras d'Or Lakes via the Great Bras d'Or is from the Northward, through a ten mile long fiord which varies in width from 0.5 to 1 mile wide and flanked by high rolling hills.
MAX. SIZE: Largest vessel to dock 497 ft. long, 66.7 ft. wide. Draft 28 ft.
HEALTH: Pratique obtained at Sydney, N.S.
RADIO: Sydney Radio
BERTHING: The dock is 330 ft. in length, with an approach way of 80 ft. length, making an "L" shape. Depth alongside at LW is 15 ft. at the inner end and 25 ft. at the outer end.
TUGS: None.
MEDICAL: No advance notice required. Hospital available.
DENSITY: In sea 35/1000. In lake 25/1000.
FRESH WATER: Supplied at 20 t.p.h.
FUEL: None available.
CERTIFICATES: Registry, Derating and Safety Certificates.
CUSTOMS ALLOWANCE: Tobacco, 100 cigarettes per week or 0.5 lb. tobacco. Wine/spirit: None.
CONSULS: None.
REPAIRS: Minor repairs only.
HATCHES: Normally opened and closed by crew.
AIRPORT: 55 miles. Served by regular airlines.
TIME: GMT minus 4 hours. Advance 1 hour in Summer.
HOLIDAYS: Sundays and Statutory holidays; New Year's Day; Good Friday; Easter Monday; Victoria Day; Canada Day; Labour Day; Thanksgiving Day; Remembrance Day; Christmas Day.
POLICE/AMBULANCE/FIRE: 295 2350, 292 2032, 295 2110.
TELEPHONES: None available for placing on board.
AUTHORITY: Dept. of Transport.

BAIE COMEAU, Quebec: 49.15 N. 68.09 W.

PORT LIMITS: Starting from a point on the Southern limit of Baie Comeau at Pointe St. Gilles 49° 12′ 10″ N., 68° 08′ 41″ W. Thence, North-eastward to Pointe St. Pancrace, 49° 15′ 14″ N., 68° 04′ 43″ W.

All waters inside of these points are understood to be part of Baie Comeau Harbour.
DOCUMENTS: Baie Comeau is a Port of Entry. Custom and Immigration facilities are located in the Town of Baie Comeau. All vessels arriving from Foreign Ports will be boarded by Custom and Immigration Officers.

The following forms are to be completed prior to arrival at the first Canadian Port:
3 copies Immigration Crew List, IMM-200
3 copies Crew Declaration, Y-14
3 copies Ship's Stores, E-1
3 copies Passenger List, IMM-264
2 copies Quarantine Service, *Q-S-1
*To be supplied by Quarantine Officer on arrival.
ETA: Advise Agent 72, 24 and 4 hours before arrival. Include fuel and stores requirements.
PILOTAGE: Not compulsory. The services of a qualified Docking Master are available through the facilities of Cargill Grain Company. Docker instructions will be given by radio after receiving vessel's ETA.

Normally the Docking Master boards from tug approximately 0.5 mile S.W. of Pointe St. Pancrace.
RESTRICTIONS: Port open for shipping all year round. Deep water approaches without restrictions for any vessel able to berth alongside.
ICE ADVISORY SERVICE: Ships inbound for Baie Comeau from seaward between December 15th and April 15th should advise the Ice Information Officer, Sydney, N.S., 36 hours prior to entering Cabot Strait stating their position, destination, whether loaded or in ballast. This procedure will facilitate the passing of ice information to the ship as necessary.

On request, ice information is also available from Marine Radio Stations at Halifax, Camperdown, Seven Islands, Twillingate and Grindstone. The Canadian Broadcasting Corporation Maritime network also broadcasts ice information daily during the Winter navigation season. Supplementary ice information may also be obtained from Canadian Marine Service icebreakers.

During the ice season, radio broadcasts of ice information are made twice daily from Marine Radio Stations as follows:

	Call	*Frequencies*		
Cape Race, Nfld.	VCE	420	kc/s	CW
		2582	kc/s	RT
Fox River, Que.	VCG	434	kc/s	CW
		2582	kc/s	RT
Mont-Joli, Que.	VCF	446	kc/s	CW
		2582	kc/s	RT
North Sydney, N.S.	VCO	489	kc/s	CW
		2582	kc/s	RT
Halifax	CFH	115.3	kc/s	CW
		6949.5	kc/s	
		8662		
		12984		
		17218.4		

MAX. SIZE: Up to 40 ft. draft at Docks No. 1 and 2. Size limited only by berth depth.
RADIO: Mont-Joli Radio VCF 2582 kc/s (VHF, CRM Co. Ltd., Wharf Office, base to ships on marine frequencies) (Channel 7A – 156.350 mHz and Channel 16 – 156.800 mHz, call XJS94).
HEALTH: Incoming vessels making Baie Comeau port of entry must obtain pratique by wireless. Radio pratique may be obtained between 0900 hrs. and 1700 hrs. the day preceding arrival. Address message "Quarantine Quebec": For the purpose of radio pratique, vessels are required to give the following information:
1. Name and nationality of vessel.
2. Ports called at during voyage.
3. Nature of cargo.
4. Number of crew.
5. Number of passengers.
6. Port of destination and name of Agent.
7. Number of persons without valid certificates.
8. Condition of health of all on board with details of any sickness or death which has occurred during the voyage.

Ships arriving in English Bay in Quarantine will be inspected by Health Officer at anchorage or on arrival alongside. Should Officer board vessel at anchorage, proper accommodation ladder must be provided.

Smallpox Vaccination Certificates to be ready for inspection on arrival.
TUGS: Available. Not compulsory except for Cargill Grain Terminal.
BERTHING:
Dock No. 1: Department of Transport Wharf: berth 456 ft. long, depth 28 ft.; berth 360 ft. long, depth 25 ft. North Shore Paper Company: 1,000 ft. wharf, depth 27 ft. Dock Pier: 2 berths, 422 ft. long, 20 ft. depth.

Dock No. 2: Canadian Reynolds Metals Co., Ltd. Wharves consist of breakwater and approach jetty called Berth No. 1, 540 ft. long. Berth Nos. 2 and 3 in slip, 587 ft. and 551 ft. long respectively. The docking area is dredged to 30 ft. at low water at Berth No. 1 and 31 ft. at Berths Nos. 2 and 3 and flares out to marker buoy (Fl. red Ev. 12 secs.) at Northern extremity and 1,000 ft. to its Southern extremity, where depth of water increases rapidly off shore from approximately 400 ft. East of breakwater. A port hand can buoy marks dredging out from S.E. corner of No. 1 Berth.

Dock No. 3: Cargill Grain Terminal, North Pier, 2 loading berths, length 585 ft., North side dredged to 40 ft., South side dredged to 38 ft. Loading capacity 2,000 long t.p.h.

South Pier, 1 unloading berth, length 720 ft., North side only dredged to 29 ft. Discharge rate 1,000 long t.p.h.
STEVEDORES: Each terminal employs own stevedores.

MEDICAL: All facilities available. Local Hospital in Baie Comeau and Hotel-Dieu, Hauterive, 5 miles.
DENSITY: 1000–1025.
FRESH WATER: Delivered by pipe-line to the berths.
FUEL: Available by pipe-line to Cargill Grain Terminal.
REPAIRS: Minor repairs may be effected through local contractors.
IDENTIFICATION CARDS: Gate passes are issued at the gate to all Crew members when going ashore for the purpose of identity on their return.
AIRPORT: Daily service to Quebec and Montreal.
CUSTOMS ALLOWANCES: 200 cigarettes for each man. Officers may be allowed 1 bottle wine/spirits, Master up to 5 bottles.
TIME: GMT minus 5 hours. Daylight Saving Time: GMT minus 4 hours, applied from last Saturday of April until last Saturday of October each year.
SHORE LEAVE: Crew members allowed ashore. No restrictions.
HOLIDAYS: New Year's Day; Epiphany; Good Friday; Ascension Day; St. John the Baptist Day; Labour Day; All Saints' Day; Christmas Day. No work performed on these holidays.
AUTHORITY: Canadian Department of Transport, Harbour Master.

BELLEDUNE, N.B.: 47.55 N. 65.51 E.

A deep water harbour administered from Saint John, N.B. and serving Belledune Fertilizers and other projects in the Bathurst area. This harbour is open to shipping all the year round.
DOCUMENTS: See "Saint John".
PILOTAGE: Pilotage is not compulsory, however, should a Pilot be required, the services of a local Berthing Master Mariner are available on request.

Regardless of pilotage, estimated times of arrival should be given to Belledune Fertilizers Ltd. 72, 48 and 24 hrs. before.
ANCHORAGE: Vessels wishing to anchor will find no difficulty in obtaining an anchorage in more than 10 fathoms, approximately one mile to the northward of the Belledune Breakwater.
TUGS: None available. May be obtained from Halifax.
BERTHING: One berth, length 550 ft., depth at LW, 34 ft.
TIDES: Tides normally rise 6 ft. at springs and 3 ft. at neaps. Tidal current seldom exceeds one knot.
STEVEDORES: Bulk cargoes handled by Belledune Fertilizer Ltd., and general cargo by Longshoremen.
CRANES: Heavy-lift equipment available from private companies. Cranes up to 25 tons available.
MEDICAL: Hospital at Bathurst.
FRESH WATER: Available. Delivered by tank trucks upon arrangement with Belledune Fertilizers Ltd.
FUEL: None locally. Can be obtained and delivered by tank trucks.
CONSULS: None.
REPAIRS: Minor repair facilities at Belledune Fertilizers Ltd. machine shop.
STORES: All types of provisions as well as deck and engine stores can be obtained at Bathurst for delivery to Belledune.
AUTHORITY: National Harbours Board, Saint John.
Local Representative: Belledune Fertilizers Ltd.

BOTWOOD, Newfoundland: 49.09 N. 55.20 W.

(See Plan Book)

DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
3 Crews Declaration (Can. Form Y14).
3 Stores Lists (Can. Form E.1).
Health Declaration (Can. Form QS. 2001).
3 Cargo Manifests.
3 Bills of Lading.
PILOTAGE: Compulsory. Pilot boards off High Grego Island (49° 23′ 30″ N., 55° 09′ 00″ W.) day or night. Pilot station and boat equipped with VHF. Coastal pilotage service from St. Johns to Botwood available on request.
RESTRICTIONS: Navigation season from mid-April to mid-January approximately. Ice-breaker assistance may be necessary in Winter months. Deep water approaches.
ANCHORAGE: In Botwood Harbour, off the oil dock in depths of 10–20 fathoms.
MAX. SIZE: Up to 32 ft. draft.
RADIO: Comfort Cove, St. John's, St. Lawrence or Corner Brook.
HEALTH: Health Officer boards on arrival. Valid smallpox vaccination certificates required.
TUGS: None available.
BERTHING: *Pier No. 1:* owned by Price (Nfld.) Pulp & Paper Ltd., used exclusively for handling newsprint outward and caustic soda inward. Is 500 ft. long; min. depth alongside 32 ft., is adjacent to newsprint storage shed, capacity 20,000 tons (standard newsprint).
Pier No. 2: Berth unfit for use.
Pier No. 3: 600 ft., owned by American Smelting & Refinining Co., used for shipping concentrates, and discharging Bunker "C" fuel and Sulphur inward. Min. depth alongside 32 ft. Concentrates loaded by one fixed conveyor.
Ministry of Transport finger pier: Length 150 ft., min. depth alongside 35 ft. Face is 23/25 ft. Is connected by pipe-line to bulk fuel storage tanks, owned by Golden Eagle Refining Co. Ltd., and is used primarily for discharging of clean fuels.
Ministry of Transport general cargo wharf and shed: Wharf 269 ft. long, 103 ft. in breadth, cargo shed 200×70 ft., 20 ft. clear height below steel girders. Apron of wharf is 33 ft. wide with access driveway extending around each end of shed to main roadway. Rear cargo doors from shed open at truck level to facilitate mechanical handling. Front and end doors are wharf level.
MEDICAL: Doctors, hospital facilities available.
FRESH WATER: Available at all berths.
FUEL: Only light diesel available.
REPAIRS: Minor repair and diving services only.
SURVEYORS: Lloyd's and Norske Veritas at St. John's.
CUSTOMS ALLOWANCES: 200 cigarettes for each man. Officers may be allowed one bottle wine/spirits, Master up to five bottles.
TIME: GMT minus five hours. Daylight Saving Time: GMT minus four hours, applied from last Saturday of April until last Saturday of October each year.
SHORE LEAVE: Allowed. No restrictions.
HOLIDAYS: Good Friday; Labour Day; Christmas Day and Boxing Day. No work performed on these holidays.
AIRPORT: Gander International Airport, 60 miles away.
AUTHORITY: Ministry of Transport.

BRIDGEWATER, N.S.: 44.23 N. 64.31 W.

(See Plan Book)

DOCUMENTS: See "Halifax".
PILOTAGE: Compulsory. Report ETA by radio-telephone or radio-telegraph to Superintendent of Pilots, Halifax, N.S. at least 12 hours before arrival at boarding station. ETA to be confirmed 3 hours before arrival. Pilot boards off Moshers Island Light.
RESTRICTIONS: Port is situated on La Have River, 10 miles from the sea. Channel path at low water, 20 ft.
ANCHORAGE: At Dayspring, 2 miles below Bridgewater.
MAX. SIZE: Length 325 ft. Draft 20 ft.
RADIO: Halifax Radio.
HEALTH: Pratique granted by Customs officer who boards on arrival at the berth. Also see "Montreal".
BERTHING: Dept. of Transport wharf, berthing length, 1,073 ft. Depth alongside 20 ft.
FRESH WATER: Available ex wharf only on West side of river.
FUEL: Diesel available by truck.
REPAIRS: Limited facilities for engine repairs.
STEVEDORES: Available.
MEDICAL: Hospital facilities available.
HOLIDAYS: Dominion Legal holidays.
AIRPORT: Nearest approximately 90 miles away.
AUTHORITY: Harbour Master, Glayden Conrad.

CHARLOTTETOWN, P.E.I.: 46.14 N. 63.07 W.

(See Plan Book)

DOCUMENTS:
Port clearance from previous port.
3 Form QS.2001 Quarantine, if from other than U.S. port or St. Pierre et Miquelon.
3 Form HA.282 Garbage Disposal Warning.
2 Form IMM.200 Crew List, only Canadian documentation acceptable.
3 Form E1 List of Ship's Stores. May use own documentation.
3 Form 71 Crew's Declarations. May use own documentation.
2 Form A6 Report Inwards.
PILOTAGE: Compulsory. Only one Pilot active with privately owned boat. Pilot taken on board at Fitzroy Rock buoy. No alternate area in event of bad weather. Vessels anchor 4 cables South of Fitzroy Rock buoy to await Pilot.
ANCHORAGES: Anchorage inside harbour at Three Tides – 46° 13′ N. 63° 08′ 30″ W. Average depth of water 30 ft.
MAX. SIZE: Draft 31 ft.
HEALTH: Pratique procedure carried out by Customs Officers. (Form QS1).
RADIO: VCA Charlottetown Marine Radio.
TUGS: None.
STEVEDORES: No prior advice required.
MEDICAL: Several hospitals and ambulance facilities available if required.
TANKERS: Three discharging docks – one at Railway Wharf, Imperial Oil pipe-lines as follows: one 12 in., two 10 in. and two 6 in., draft at dock 32 ft. (2) Texaco Canada Ltd., private dock – two 8 in. pipe-lines, draft 24 ft. (3) Irving Oil Co. Ltd., private dock, two 8 in. and two 10 in. lines, 32 ft. draft.
FRESH WATER: Available at Railway Wharf.
FUEL: Diesel and bunker fuels available by tank wagon.
GANGWAY/DECK WATCHMEN: Watchmen service if required. Not necessary.
OPENING/CLOSING HATCHES: Stevedores work hatches which are not mechanically operated.
CUSTOMS ALLOWANCES: Tobacco 200 cigarettes or 0.5 lb. tobacco or 15 cigars per man per week. Wine and/or Spirit: 40 oz. per week, but issues of liquor in port will be restricted to ship's officers.
IDENTIFICATION CARDS: Not required unless disembarking. Crew members then should possess Seaman's Book and/or Passports.
REPAIRS: Minor repairs only.
REPATRIATION: Facilities are available.
AIRPORT: 4 miles distant with daily flights by Eastern Provincial Airways and Air Canada.
TIME: GMT minus 4 hours, May to October GMT minus 3 hours.

HOLIDAYS: New Year's Day (January 1st); Easter – varies (Good Friday); Victoria Day – Monday prior to May 24th; Dominion Day (July 1st); Labour Day (1st Monday in September); Thanksgiving (2nd Monday October); Remembrance Day (November 11th); Christmas Day (December 25th). Christmas Day is the only holiday stevedores will not work.
POLICE/AMBULANCE/FIRE: Police, 894–5513; Ambulance, Call operator "O", Fire, 894–3113.
TELEPHONES: No hookup available.
GENERAL: Passenger vessels – a list of all saleable articles contained in barber shops, souvenir stands, display cases, company operated outlets, etc. to be attached to Stores Lists to facilitate sealing by customs. Responsible ship's officer to advise location of outlets.
SHORE LEAVE: No restrictions.
AUTHORITY: District Manager, Dept. of Transport and Port Manager.

CHATHAM and NEWCASTLE, N.B.: 47.00 N. 65.33 W. 47.02 N. 65.28 W.

DOCUMENTS:
Previous port clearance.
2 Immigration Crew Lists.
3 Ship Stores Lists.
3 Crew Declaration.
Deratting Certificate.
Health of Animals.
Load Line Certificate.
Safety Equipment.
Safety Construction.
Ship's Register.
Health Declaration (QSI).
PILOTAGE: Contact Agent for Pilot at least 12 hrs. in advance. Pilot boat, wooden hull, length 44 ft., grey, Pilot flag about 20 ft. above sea-level. Apr. 16 to Dec. 9 Pilot taken aboard 2 miles North of Escuminac Breakwater. In event of very bad weather good anchorage Egmont Bay, PEI. Dec. 10th–April 15th Pilot boards at Eddy Point NS when inbound from East. In other cases Pilot boards at point of departure in Canada.
MAX. SIZE: Max. length 550 ft., max. draft 21 ft. 06 in.
HEALTH: Pratique procedure carried out by Customs Officer (complete form QS 1).
RADIO: Use Grindstone (VCN) or Charlottetown Radio (VCA), or Escuminac Pilot (Channel 16).
TUGS: Not required.
BERTHING: Approx. 3 hrs. from pilot station to Berth.
BRIDGES: Bridge at Chatham 127 ft. clearance high tide. Hydro wires at Middle Island 125 ft. at 60 degrees Fahrenheit at lowest point, channel wide at this point, able to get 180 ft. clearance. Morrisey Bridge, max. span opening is 99 ft. Overhead cables at Morrisey Bridge.
STEVEDORES: Notice at least 12 hrs. before arrival.
MEDICAL: Hotel Dieu Hospital, Chatham and Miramichi Hospital, Newcastle.
TANKERS: Hose connections 6 in.; no slop discharge facilities.
FRESH WATER: Available only at Government piers at Chatham and Newcastle.
FUEL: All types by tanker truck.
GANGWAY/DECK WATCHMEN: Not necessary.
CUSTOMS ALLOWANCES: 200 cigarettes/man/5 days. Spirits: 40oz./man/5 days.
CREW IDENTIFICATION CARDS: Not needed.
CONSUL: Danish Consul in Newcastle.
REPAIRS: Light repairs by Miramichi Foundry and Arvin Speciality Machines.
REPATRIATION: Facilities good.
AIRPORT: Chatham. Daily flight to Montreal.
TIME: Atlantic Standard, 4 hours difference GMT. Change from Standard to Daylight Saving last Sunday in April through last Sunday in October. (1 hour forward).
HOLIDAYS: No work Labour Day, Armistice Day, New Brunswick Day. Other holidays may be worked on overtime.
POLICE/AMBULANCE/FIRE:

	Newcastle	*Chatham*
Police:	622–2111	773–4436
Ambulance:	Through Police	773–3492/733–4321
Fire:	622–2500	773–5856

SHORE LEAVE: No restrictions.
DELAYS: Not normally.
DEVELOPMENTS: Dredging to 27 ft. draft underway.
GENERAL: Charts required (Canadian) 4023 – Northumberland Straits, 4423 – Miramichi Bay, 4424 – Miramichi River, Sailing Directions – Gulf and St. Lawrence. Tides; Spring 5.75 ft. Neaps; 4 ft. Night navigation possible.
AUTHORITY: Port Manager, Newcastle.

CHEMAINUS and CROFTON, B.C.: 48.55 N. 123.42 W.

DOCUMENTS, PILOTAGE, HEALTH, CONSULS etc.: Refer to "Vancouver, B.C.".
ANCHORAGE: Available in Houston Passage.
RESTRICTIONS: Channel depth 48 ft. MLLW. Restricted by berth size only.
TUGS: Available. Tugs for Crofton are ordered from Chemainus.
BERTHING:

		Berth length	Depth alongside MLW
Chemainus:	Wharf A	515′	35′
	Wharf B	490′	40′
Crofton:	Lumber Berth	400′	35′
	Pulp Dock	457′	35′

No loading gear installed at Crofton berths.
STEVEDORES: 22 gangs available. Refer to "Vancouver, B.C.", for holidays, etc.
MEDICAL: Doctors and hospitals facilities available at Chemainus, 5 miles from Crofton.
DENSITY: Salt water.
FRESH WATER: Available at wharves.
FUEL: Supplied by barge from Vancouver, B.C.
CUSTOMS ALLOWANCES: See "Vancouver, B.C.".
REPAIRS: Repairs arranged from Victoria or Vancouver Shipyards.
AUTHORITY: Department of Transport, Harbour Master.

CHICOUTIMI, Quebec: 48.25 N. 71.02 W. (See Plan Book)

DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
3 Crews Declaration (Can. Form Y14).
3 Stores Lists (Can. Form E.1).
Health Declaration (Can. Form QS. 2001).
3 Cargo Manifests.
3 Bills of Lading.
PILOTAGE: Pilotage is compulsory. Pilots board vessels that are Westerly-bound at Anse-aux-Basques and Easterly-bound at Quebec City. The Master of every ship inward bound in the Gulf of St. Lawrence and destined for ports West of Anse-aux-Basques must report his ETA to Pilots Montreal via Marine Traffic Control on VHF radio Channel 14 (156.7 mHz) or by other means of communication to Seven Islands radio station VCK giving his ETA to Escoumains pilotage station and the net registered tonnage of his vessel.

A minimum notice of 12 hours must be given to ensure the availability of Pilots at Anse-aux-Basques for vessels proceeding from the Gulf to Chicoutimi.

This notice must be confirmed 3 hours prior to arrival at the pilot station by radio-telegraph or radio-telephone as mentioned above.

The pilot station for vessels upbound to Chicoutimi is located at Anse-aux-Basques, charted 2 miles S.W. of Les Escoumains Wharf on the North shore of the St. Lawrence River. Two pilot boats are constantly on service.
ANCHORAGE: At St. Fulgence, 6 miles before Chicoutimi.
RESTRICTIONS: Navigation season from mid-April to end November approximately. Channel depths 20 ft. LW up to oil terminal and 16 ft. low water above oil terminal.
MAX. SIZE: Up to 25 ft. draft.
RADIO: Riviere du Loup Radio Station.
HEALTH: Pratique may be obtained by radio to Quarantine Quebec. Health Officer boards on arrival. Valid smallpox vaccination certificates required.
TUGS: None available.
BERTHING: Main Wharf, 2,600 ft. berthing length, 30 ft. depth alongside.
CRANES: Two cranes for bulk cargoes 5 tons capacity.
TANKERS: *Albert Maltais Oil Berthing Pier:* Located in main channel to the port off Pointe-a-l'islet. Length of berth 40 m. Depth alongside 9 m. (30 ft.) at low water. Max. size: 130 m. (430 ft.) and not over 10,000 tons. Pipe-line: length 460 m. (1,500 ft.) diameter 2×25 cm. (10 in.). Vessels moor to buoys fore and aft.
DENSITY: Fresh water.
MEDICAL: Doctors, hospital facilities available.
FRESH WATER: Available at all berths.
FUEL: Available at oil berth.
REPAIRS: Minor machine shop repairs only.
CUSTOMS ALLOWANCES: 200 cigarettes for each man. Officers may be allowed 1 bottle wine/spirits, Master up to 5 bottles.
TIME: GMT minus 5 hours. Daylight Saving Time: GMT minus 4 hours, applied from last Saturday of April until last Saturday of October each year.
SHORE LEAVE: Allowed. No restrictions.
HOLIDAYS: New Year's Day; Good Friday; Easter Monday; Victoria Day; St. John the Baptist Day; Dominion Day; Labour Day; Thanksgiving Day; Remembrance Day; Christmas Day. No work performed on these holidays.
AUTHORITY: National Harbours Board.

CHURCHILL, Man.: 58.47 N. 94.12 W. (See Plan Book)

DOCUMENTS:
3 Crew Lists.
3 Passenger Lists (if applicable).
3 Ships Stores Lists.
2 Quarantine Certificates.
1 Certificate for Harbour Master to be prepared after approval.
1 Certificate that Gyro Compass in order certified plus copy of manifest giving weight or measurement for each Bill of Lading. Certification by Local Collector of Customs.

PILOTAGE: Pilotage is not compulsory, but the pilotage fee is compulsory. Pilots board ships outside the harbour within a radius of 5 miles from Eskimo Point. The fee is $100 per ship inward and $100 per ship outward. Moving vessel within harbour is $70.

Vessels must advise their ETA at the port, and should also advise their time of arrival at Fairway Buoy.

Requests for Pilots should be submitted through the local marine radio. Pilots embark from vessels at the Fairway Buoy. The tug "Twolan" is used as pilot boat.

ANCHORAGES: Inside the harbour, there is anchorage room for one small vessel in 30 ft. of water about 0.75 miles N.W. of wharf. There is insufficient swinging room at this anchorage for large vessels. Large vessels anchor outside the harbour. The outside anchorage is exposed and vessels in a light condition may find it difficult to maintain their anchorage, particularly with a strong N.E. wind.

RESTRICTIONS: Vessels are usually brought in just before high tide, although vessels may enter any time. One spot in channel is 26 ft. at zero tide. All buoys and range lights are lighted.

MAX. SIZE: Max. length 600 ft. width 100 ft. and depth alongside wharf at zero tide is 31 ft. at three berths, 33 ft. at one berth, 22 ft. at Wolfe Berth and 20 ft. at the coastal Berth.

HEALTH: All vessels must fly yellow flag until cleared by authorities after docking.

RADIO: Department of Transport, Marine Aeradio Station call sign VAP, Channels to be used: 16 for calls and replies, 12 for harbour control, as well as Channel 26.

RADAR: Requirements as laid down by Arctic Pollution Prevention Regulations.

TUGS: Tugs usually join vessels inside the harbour. Two tugs available. Ship's lines used.

BERTHING: Max. allowable salt water draft at sulphur berth 32 ft., thereafter topping-up with the tide for a few more inches. Sulphur is brought by rail truck from Alberta Mines, and loading rate 4,000 tons per day.

Loading capacity for bulk grain is 60,000 bushels/hour.

CRANES: Heavy lift crane of 35 tons capacity.

STEVEDORES: Gangs are available during whole of shipping season, no advance notice required.

MEDICAL: Fully staffed and equipped hospital available, approximately 1 mile from harbour.

TANKERS: Discharge pipes 4 in. diameter. One berth available with max. depth of 33 ft. at zero tide.

FRESH WATER: Fresh water available at all berths. Water pumped through 2.5 in. pipe connected directly to ship, discharged at rate of approximately 1 ton/min.

FUEL: Bunker fuel requires 30 days advance notice. Arctic fuel available all times.

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Carried out by ship's crew.

CUSTOMS ALLOWANCES: See "Montreal".

CONSULS: None.

REPAIRS: Most repair work. Fully equipped machine shop available.

DRY DOCKS: None.

SURVEYORS: By arrangement.

CARGO GEAR: Ship's gear.

AIRPORT: Airport situated 5 miles from the harbour and served by TransAir, with 2 flights going North and 6 flights South every week.

TIME: GMT minus 6 hours. Daylight Saving Time (1 hour forward starts first Sunday in May and ends last Sunday in October).

HOLIDAYS: New Year's Day (January 1st); Good Friday; Easter Monday; Victoria Day (May 24th); Dominion Day (July 1st); Civic Holiday (First Monday in August); Labour Day (First Monday in September); Thanksgiving Day (Second Monday in October); Remembrance Day (November 11th); Christmas Day (December 25th); Boxing Day (December 26th).

Arrangements normally made to have crews available for those days.

POLICE/AMBULANCE/FIRE: Police, 675-2422; Ambulance, 675–8881, Fire, 675–2424.

TELEPHONES: No facilities.

SHORE LEAVE: Allowed, no restrictions.

DEVELOPMENTS: Dredging underway to remove 26 ft. restriction mentioned above, see "Restrictions".

DELAYS: Little delay.

AUTHORITY: The Port Manager, National Harbours Board.

CLARENVILLE, Newfoundland: 48.08 N. 53.56 W.

DOCUMENTS:

Crew List, Form 200 in duplicate.
List of Ship's Stores, Form E1 in duplicate.
Crew Declarations, Form Y.14 in duplicate.
Manifests in triplicate.
Bills of Lading in duplicate.

PILOTAGE: Contact Pilot through St. John's Radio. VON.

MAX. SIZE: Largest ship 600 ft. long, breadth 74 ft., draft 26 ft.

HEALTH: See "Montreal".

RADIO: St. John's Radio. VON.

TUGS: No tugs available from St. John's.

STEVEDORES: Available. 48 hours notice required.

MEDICAL: Necessary for Agents to receive advance notice of medical attention required. Hospitals available at Come By Chance (30 minutes distance by road) and St. John's. Vaccination/Fever Certificates necessary for pratique.

FRESH WATER: Limited supplies available.

FUEL: Light fuels only (no bunkers).

OPENING/CLOSING HATCHES: By crew.

CERTIFICATES: Load Line, Safety Equipment, Deratting Certificates.

CUSTOMS ALLOWANCES: Tobacco 200 cigarettes allowed per crew member per week. Wine and/or Spirit, 1 bottle of spirit allowed per crew member on the first voyage in each year. Each subsequent voyage in one year, 1 bottle allowed only to officers.

IDENTIFICATION CARDS: Not required.

CONSULS: At St. John's.

REPAIRS: Temporary only.

REPATRIATION: Only available by air.

AIRPORT: Gander International Airport located about 2 hours distance by road/served by regular airlines.

TIME: Eastern Standard Time GMT minus 5 hours. Daylight saving time from last week-end in April to last week-end in October, clocks advanced 1 hour.

HOLIDAYS: See "Montreal".

POLICE/AMBULANCE/FIRE: Police 466-3211; Fire 466-7777; Ambulance 466–2010.

TELEPHONES: No facilities for placing on board.

SERVICES: Only limited services available.

SHORE LEAVE: Allowed.

AGENT: Newfoundland Hardwoods Ltd.

COME BY CHANCE, Newfoundland: 47.48 N. 54.01 W. **(See Plan Book)**

LOCATION: The Come By Chance oil terminal operated by Provincial Refining Co. is located in Placentia Bay, Lat. 47° 48′ 18″ N. Long. 54° 00′ 35″ W.

DOCUMENTS:

3 copies Crew Declaration (Form Y14).
3 copies Ship Stores List (Form E1).
3 copies Immigration Crew List (Form IMM 200) only Canadian form accepted.
2 copies of Bill of Lading or Manifest.

In addition, clearance from last port, Deratisation Certificate, extra copy of Crew List, Vaccination List, Ship's Register, Radio Equipment Certificate, Safety Equipment Certificate, Load Line Certificate and Non-Canadian Ship Compliance Certificate. Oil record log book should be up to date and readily available for inspection by Government steamship inspectors.

PILOTAGE: *Ship's Officer's Report:* Pilotage is compulsory. Pilots board off Argentia (position 47° 21.9′ N., 54° 04.6′ W.) by prior arrangement with St. John's Pilotage. An ETA message (preferably in GMT) should be sent at least 12 hours before arrival to "Coast Guard Traffic Centre St. John's". The message should state the following:

Name of ship. Call letters. Draft. Gross tonnage. Length. Breadth. Moulded depth. Destination.

Confirmation or amendment of the ETA should be sent 6 hours prior to arrival.

The pilot boat is approximately 50 ft. long with a black hull and white housing. It has "Pilot" painted on the housing and flies the Pilot flag – white over red horizontal stripe.

VHF channels are allotted to various areas in Canadian waters but in the absence of this information contact can be established in the first instance on Channel 16. The most frequently used Channels are numbers 6, 11, 12 and 14. In general Channel 6 is used by tugs and 11 by Pilots in pilotage waters.

It is anticipated that there will be no pilotage in Placentia Bay during the hours of darkness for a period of at least two years for vessels of over 50,000 d.w.t.

The pilotage routes used are as follows:

Latine Pt. (Argentia)	097°×4.6′	Co 019°
to		
Margery Cove (N. of Red Is.)	291°×2.7′	Co 021°
to		
Buffett Is. (E. of Long Is.)	275°×2.7′	Co 350°
to		
Green Is. (Off Long Is.)	260°×2.8′	Co 351°
to		
Cheese Is. – N. End (N. of Long Is.)	261°×1.6′	Co 000°
to		
Grassy Pt.	090°×1.2′	Co 022°

COAST GUARD TRAFFIC CENTRE: A vessel traffic management centre has been established at Argentia. Operation on a 24-hr. basis; this centre will provide radar surveillance off Placentia Bay. Masters are required to establish communication with this station when in VHF range on Channel 16 in accordance with Notice to Mariners, in order to provide vessel's identification and obtain information regarding pilotage, buoyage, weather conditions, etc.

ANCHORAGE: Will be assigned by the Pilot in conjunction with the Department of Transport.

Ship's Officer's Report: The following areas have been designated as anchorages:

Area A	47° 43′ 45″ N. 54° 01′ 40″ W.
Area B	47° 45′ 45″ N. 54° 09′ 15″ W.
Area C	47° 43′ 22″ N. 54° 10′ 45″ W.

RESTRICTIONS: Will be dispatched by the Department of Transport to ship's Agent.

MAX. SIZE: Tankers of 327,000 d.w.t., can be accommodated.

Also see "Berthing".

HEALTH: Vessels arriving from a foreign port may obtain pratique by radio from "Quarantine St. John's" at least 12 hrs. before arrival. Information required by Quarantine Officer shall include:

Name and nationality of the vessel.
Last port of call.
Nature of cargo.
Number of crew and passengers.
Port of destination.
Name of Agent.
Conditions of health of all on board with details of any sickness or death incurred during the voyage.
Animals if any.

RADIO: The best radio stations to use en route to Come By Chance are:

St. John's Marine Radio – call sign VON.
Halifax Marine Radio – call sign VCS.
St. Lawrence Marine Radio – call sign VCP.

TUGS: Tugs available from Halifax on request.

BERTHING: The jetty extends 3,000 ft. from the shore. Berth No. 1 (outside) can accommodate 327,000 d.w.t. tankers. Depth of water alongside 100 ft. Berth No. 2 (inside) can accommodate tankers up to 67,000 d.w.t. Depth of water alongside 52 ft. This berth used mainly for refined products.

Ship's Officer's Report:

The quay is designed for the use of tankers. There are no provisions for general cargo ships. Tankers of up to 500,000 d.w.t. with a max. draft of 90 ft. can be accommodated on the West side, and on the East side ships of up to 60,000 d.w.t. with a max. draft of 48 ft.

The length of the quay is 1,520 ft. and the height was measured at HW and LW and found to be 19 ft. 6 in. and 25 ft. respectively. HW was taken to be half an hour later than the predictions at Argentia.

The bollards are of a German manufacture and each consists of a group of three hooks with quick-release mechanism. Each hook is designed to take a strain of 100 tons and is mounted in such a way as to be able to swivel independently in any direction towards the ship. An electric capstan is situated behind each bollard.

There are adequate fenders of the compression type.

A depth of 22 fathoms was recorded by echo sounder when alongside, the transmission unit being situated 52 ft. from the quayside.

MEDICAL: Masters are asked to notify their Agents at least 72 hours prior to arrival, advising the number of men to see the doctor and their complaint. The doctors work out of hospital which is about 10 miles from the berth.

TANKERS: No. 1 berth 4×16 in. arms which run into 42 in. lines. Bunkers 1×10 in. arm.

No. 2 berth 4×10 in. arms, bunkers 1×8 in. arm. Dirty ballast facilities on either berth. All ballast must be pumped ashore.

FRESH WATER: Available. If for any reason there is no water available, vessels will be advised by their Agent. Rate approximately 20 t.p.h.

FUEL: Ship's bunkers are available. Bunker requirements, including quantities and specifications, should be made known in the 72 hour message.

Bunkers are delivered concurrent with cargo operations. Bunkers should be stemmed by owners or charterers before arrival.

FIRE PRECAUTIONS: Usual precautions for a refinery.

CONSULS: The following countries have consular offices in St. John's:

Brazil
Denmark
Dominican Republic
Germany (West)
Netherlands
Norway
Portugal
Spain

REPAIRS: The Agent should receive early advice of requirements, as most repairs are only available at St. John's. Radio, radar, gyro, navigator and loran, etc., the technicians for such equipment work out of St. John's. The following brand names have representatives in St. John's: Decca, Marconi, Kelvin Hughes, Furono, Atlas and Sperry.

SURVEYORS: Stationed in St. John's, Lloyds, N.V. and B.V.

GANGWAY/DECK WATCHMEN: Usually ship's crew.

CUSTOMS ALLOWANCES: Each man 200 cigarettes and one 40-oz. bottle of wine or spirits per week.

Ship's Officer's Report: There are no Customs and Immigration offices in the port at present. Officials will therefore come from St. John's and board the ship on arrival alongside.

REPATRIATION: No formal facilities, but with little difficulty crew changes and repatriation can be carried out. Prior notice to Agent is required.

AIRPORT: Nearest airports presently at St. John's, 94 miles away, and the Gander International Airport, 128 miles away.

Ship's Officer's Report: There is a good road to St. John's which is 86 miles from the port. A passenger bus service is available and also a railway for goods only.

The nearest airport is at St. John's although there is a helicopter landing area within the refinery grounds.

TIME: GMT less 3.5 hrs. Last Sunday in April clocks advanced 1 hr. First Sunday in October clocks retarded 1 hr.

SUPPLIES & LAUNDRY: Stores and provisions have to be obtained in St. John's. In order to avoid delays, Agents should be notified prior to arrival, of the vessels requirements. Stores and supplies will be delivered by barge, tug, or small boat. Laundry facilities are not available in Come By Chance, but if required will have to be sent to St. John's. Therefore, early notification is required.

TELEPHONES: Not available at present.

POLICE/AMBULANCE/FIRE: The police are located in Clarenville – tel. 466–7830. Ambulance is available on site – tel. 463–2458. Fire Department located in Clarenville – tel. 466–7777. Also Fire Department located on site – tel. 463–2458.

SHORE LEAVE: In order to comply with immigration regulations, crews should be carefully checked before sailing, and any missing seamen reported to Agent.

In case of seamen left ashore for any reason, Masters are requested to furnish a letter accepting responsibility for all expenses incurred, advances (if any) and also instructions for repatriation.

GENERAL: Masters are strongly advised to contact their Agent 72, 48, 36, 24, 12 and 6 hours with ETAs. On the 72 hour message Masters should advise all port requirements.

Gangway: Ship's gangway.

WEATHER: *Ship's Officer's Report:* The prevailing winds are from the S.W. in Summer and N.W. in Winter. Fog is experienced regularly in April, May, June and July, the latter two months being the worst. The fog is usually associated with a Southerly wind.

There is no shelter afforded on the North, East and South sides of the quay and only a nominal amount on the West side.

Local Pilots report that the range of tide is between 5.5 and 8.5 ft. which can increase if the wind has been blowing from the South for any length of time.

AUTHORITY: Department of Transport, St. John's.

In Port – VHF Channel 12, Call sign PLACENTIA TRAFFIC.

CONTRECOUER, Quebec: 45.53 N. 73.12 W.

(See Plan Book)

LOCATION: The Contrecoeur Transfer Dock is located on the South shore of the St. Lawrence River, approximately 25 miles East and downstream from Montreal. (Canadian Chart 1339, Admiralty 422).

DOCUMENTS, HEALTH, RADIO, etc.: Refer to "Montreal" and "Quebec".

PILOTAGE: Compulsory, Pilot meets vessel at Anse-aux-Basques. Boarding at all hours.

ANCHORAGE: Available at Lanoraie 15 miles East of dock and Sorel 20 miles East of dock. Also at Contrecouer, off the berth.

RESTRICTIONS: Hatch openings must not be less than 25 ft.×35 ft. Vessels will be required to vacate the berth immediately after completion of loading and/or discharging. Masters and/or Agents to advise ETA 36 hours, 24 hours and 12 hours. If any change after 12 hours notice, Terminal to be advised immediately, otherwise charges for waiting time will be assessed.

MAX. SIZE: 850 ft. length; 105 ft. beam; 35 ft. draft chart datum; fresh water, (subject river levels and recommended keel clearance, average river levels vary from +7 ft. above chart datum (April, May) to +3 ft. (Aug, Sept.) with extremes recorded of +10 ft. and +1.5 ft.).

TUGS: Tugs not normally required for vessels docking including vessels in 50,000 to 65,000 d.w.t. range. One tug sometimes used for vessels undocking.

RADIO: *Arrival notice*: Cable address: CONORE, Montreal. Master or Agent to advise the Terminal of vessel's ETA 48 hours, 24 hours, 12 hours and 6 hours prior to vessel's arrival.

BERTHING: Ships will be berthed in regular turn of vessels, providing they present with hatches open, ready for discharging and/or loading, based on the following reporting procedures;

i) Downbound vessel reported out Cote Ste Catherine lock before upbound vessel passes Trois Rivieres Pilot station will have precedence and vice versa.
ii) Downbound vessel reported clear of Montreal Wharf before upbound vessel passes Ile des Barques reporting station will have precedence and vice versa.
iii) In cases of two upbound vessels, the first passing Trois Rivieres Pilot station will be first in turn.

Berthing facilities: The dock is 1,500 ft. in length and is divided into two berths. Berth No. 1 is 750 ft. in length with dredged depth alongside of 35 ft. fresh water chart datum. It is fitted with two Wellman travelling towers equipped with 7.5 cu.yard grabs with outreach of 57 ft. from fenderline. The tower travel is 476 ft. centre to centre. Concrete pad measuring approx. 600 ft. × 140 ft. is located adjacent to berth No. 1 and can accommodate approx. 75,000 tons of material stowing less than 20 cu.ft./ton.

Berth No. 2 is 485 ft. in length with dredged depth alongside of 22 ft. chart datum. It is fitted with a stationary boom shuttle for loading bulk materials into vessels. This shuttle is reversible for loading to trucks or rail cars. Bulk commodities can be handled:

a) Direct from vessel to vessel.
b) Direct from vessel to truck or rail cars.

Indirect from vessel to pad for stockpiling by truck or reloading to vessel.

Unlimited storage capacity is available for stockpiling bulk materials. Material is reclaimed from dead storage area and returned by trucks to pad for reloading aboard vessels or into rail cars.

The working capacity of discharging or loading free digging bulk materials with a stowage factor of less than 20 cu.ft./ton is as follows:

Transferring direct from vessel to vessel	1600 L/T per hour
Discharging from vessel to dock	1800 L/T per hour
Loading from dock to vessel	1800 L/T per hour
Transferring from vessel to rail cars	900 L/T per hour
Transferring from vessel to trucks	1200 L/T per hour

The railway siding on the dock property can accommodate 70 railway cars. Dock storage and dead storage areas are available by arrangement. Materials can be held in bond subject to Canadian Government regulations.

STEVEDORES: Available at following times: Regular working periods are from 0800 to 1600 and from 1600 to 0000 hrs, Friday. Under special arrangement, work performed from 0000 to 0800 hrs, also on Saturdays, Sundays and legal holidays. Sunday overtime rate begins 0800 Sunday and ends 0800 on Monday.

MEDICAL: Doctor and hospital available.

FRESH WATER: Available. Except in Winter months.

FUEL: Available.

TIME: GMT minus 4 hours.

HOLIDAYS: Legal holidays are as follows: Good Friday, St. Jean Baptiste Day, Dominion Day, Labour Day, Thanksgiving Day, Ascension Day, Victoria Day, Remembrance Day.

AUTHORITY: This a private terminal owned by the Iron Ore Company of Canada.

AGENCY: Contrecoeur Terminal does not handle ship agency. Shipowners or Charterers appoint their own Agents for attending ships' requirements.

CORNER BROOK, Newfoundland: 48.57 N. 57.57 W.

DOCUMENTS:

3 Crew Lists – Form IMM.200.
3 Crew Declaration – Y.14.
3 Bonded Store List – E.1.
2 Maritime Declaration of Health – Form QS 2001. (Not required from USA port).
2 Manifests of Cargo (In Transit) and Manifest of cargo for discharge.
Load Line Certificate
Radio Equipment Certificate
Safety Equipment Certificate
Deratting Certificate
Safety Construction Certificate
Non-Canadian Compliance Certificate (Tankers only)

PILOTAGE: Pilot launch is called *Glenkim* fitted with radio telephone, receives on 2182, 2558, 2134 and 2582 kc/s. Radar and VHF onboard. Pilot Station, Frenchman's Head. Pilotage compulsory, operated by Atlantic Pilotage Authority with head office in Halifax. During the ice season, Pilots will board from tug *Indian Lake* approximately 1 mile from Bowater's berths. The tug is also fitted with VHF. Also see "Radio".

APPROACHES: Corner Brook Harbour is approximately 20 miles inland from South Head. South Head commands the Southern entrance to the Bay of Islands. There are no off-lying shoals near the approaches.

ANCHORAGES: Good anchorages in Outer Bay. Most convenient is in Humber Arm off Petitpas Cove in 15 to 20 fathoms. Masters requested to contact local Pilots regarding anchorage as a submarine cable enters waters of Humber Arm at Wild Cove and continues out of the bay to Frenchman's Head.

HEALTH: Pratique is granted when all crew have been vaccinated and no suspected sickness on board. Pratique is automatic when from a quarantine port or non-quarantine port, provided Port Health Authorities have been established. Also see "Montreal".

MAX. SIZE: Max. size tankers handled – LOA 620 ft., max. draft 32 ft. at Bowater No. 4 Berth.

RADIO: For short range: Stephenville Marine Radio operated by DOT. WT 500, 416, and 40 kc/s. RT call letters VOJ. Receives 2182, 2558, 2134, 2582 kc/s. For long range: Via Halifax Marine Radio.

Advice of arrival: (Vessels docking at premises of Bowaters Newfoundland Ltd.) ETA messages should be sent (to cable address – "Bowship") in GMT, 72, 48, 24 and 12 hours notice recommended. All messages sent to Agents will be given local Pilots and Customs. Cash requirements and other items requiring immediate attention on arrival should be given in the 48 hours ETA.

It is also recommended that notices advise number of gangs vessel can work, also if there is cargo for discharge, quantity and holds stowed.

Other port users: Same as Bowaters except when destined for Western Terminals Ltd., send to cable address "Clarkserv".

VHF: Humber Arm Harbour Master on VHF Channels 16, 14, 12, 11 and 19A.

TUGS: Not available.

BRIDGES: None.

BERTHING: *Bowater's wharves:* Tankers berth port side to No. 4 berth. Max. draft 32 ft.

Bowater's wharves located near centre of city waterfront. Consist of 4 berths, and are continuous. Run parallel with shore line. Total length 1,650 ft. Min. depth of water 28 ft. in No. 1 berth, elsewhere 32 ft. at low tide. Fresh water and electric power available.

North Star Cement wharf: Depth of water 24 ft. at Western end and 17 ft. on inner end. Partly laden tankers of T-2 class discharge at this wharf.

Imperial Oil Ltd. discharging pier depth of 30 ft. min. at low tide. Full laden tankers of the T-2 class can discharge.

Irving Oil Company Ltd. discharging pier with depth of water at Eastern end of 30 ft. and at Western end 26 ft. Tankers discharge with the forward draft restricted to 26 ft.

Gulf Oil Ltd. discharging pier has a depth at Eastern end of 28 ft. and at Western end 22 ft. T-2 tankers may discharge with restricted drafts accordingly.

Golden Eagle Refinery Co. discharge oil at North Star Cement wharf.

Department of Transport Wharves: Two adjoining wharves over all length of 1,200 ft. of steel and concrete structure. Depth of water ranges from 26 ft. East to 37 ft. West. One wharf is equipped with 3 side loader ramps tested to 25 ton capacity. Managing operations are Western Terminals Ltd. Fresh water is available. General cargo is handled.

At Bowaters, vessels loading normally dock starboard side to No. 1 Berth and port side to No. 2 Berth. Oil and caustic soda tankers discharge port side to No. 4 Berth. Bulk cargo, such as sulphur, is normally discharged port side to No. 3 Berth.

CRANES: Mobile crane available at Bowater – capacity 11 tons from ship's hold, 18 tons from deck.

Other port users: From local rental Agent. Maximum 65 tons.

STEVEDORES: (Vessels at Bowater premises)

Working Hours:

0800 to 1200 – 2 gangs
1200 to 1230 – Lunch break
1230 to 1630 – 2 gangs
1630 to 2030 – 2 gangs
2030 to 2100 – Meal break
2100 to 0100 – 2 gangs

Overtime: Can be worked Mondays to Fridays (day gangs) 1630 to 2100 hrs. if requested.

MEDICAL: Hospital and Ambulance service available. If ships' Crew members require emergency medical attention *on board immediately on arrival,* this should be stated in message to Agents, together with ETA. Otherwise, doctor appointments can be arranged during regular office hours.

TANKERS: It is recommended by local Pilots that oil tankers for Humbermouth, dock and sail in daylight, otherwise there are no special requirements except usual advance notice should be given to Agents in order to arrange linesmen. See "Berthing".

DENSITY: Average 1015. High water, Easterly wind 1025. High water, Westerly wind 1008. Low water 1005.

FRESH WATER: Fresh water available at Bowaters berths – 80c per ton plus $25.00 service charge. Fresh water also available at other berths.

FUEL: (Vessels at Bowater premises). Gas oil and Marine diesel available by truck delivery from local oil companies.

Other port users: Available at DOT docks by tanker trucks.

GANGWAY/DECK WATCHMEN: Not required but recommended at Bowaters.

OPENING/CLOSING HATCHES: (Vessels at Bowater premises). Opening and closing hatches is normally done by ship's crew. Rigging ship's gear is normally done by stevedores.

CUSTOMS ALLOWANCES: On arrival per crew member: 3 lbs. tobacco or 300 cigarettes or 75 cigars. Two dozen beers or 60 oz. spirits. *Additional issue* will be made *after 7 days* in port. 2 lbs. tobacco or 200 cigarettes or 50 cigars. 1.5 dozen beers or 40 oz. spirits.

CARGO GEAR: If at Bowaters berths, single 8 in. wood blocks with 1 in. diameter manila rope falls should be set up at heads of all working derricks to permit tents to be rigged on both midship and yardarm derricks at each hatch.

IDENTITY CARDS: Every Crew member should be in possession of some form of identity card.

CONSULS: Nearest consuls are in St. John's approximately 450 miles.

Brazil
Denmark
Dominican Republic
France
Iceland
Netherlands
Norway
Portugal
Spain
Sweden
West Germany

REPAIRS: Minor repairs carried out. No dry docks available. Radar and VHF repairs possible.

REPATRIATION: All necessary crew changes and repatriation facilities available.

AIRPORTS: International Airport, 222 miles from Corner Brook, at Gander. Stephenville Airport, Air Canada and EPA, 50 miles from Corner Brook. Deer Lake Airport, EPA service available, 30 miles from Corner Brook.

TIME: NST–GMT less 3.5 hours. Newfoundland Daylight Saving Time – GMT less 2.5 hours, last Sunday in April to last Sunday in October.

HOLIDAYS: Following applies to ships docking at premises of Bowater Newfoundland Limited Newsprint Manufacturers and Shippers.

January 1st – New Year's Day

July – Dominion Day (normally first Monday in July)

September – Labour Day (first Monday in September)

December 25th – Christmas Day. No work is performed after 1600 hrs. on Christmas Eve (December 24th), nor on New Year's Eve (December 31st). Plus an additional day as agreed with Unions.

Sunday – As per Union agreement. Work can be performed at time and a half rates as follows:

July and August – a maximum of 2 consecutive Sundays Remainder of the year a maximum of 3 consecutive Sundays.

Other port users: Similar to Bowaters.

POLICE/AMBULANCE/FIRE: (Vessels at Bowaters premises) *Police:* Ext. 274 Mill Guards. Local Police area code 709-634-8236.

Ambulance: Bowaters Ext. 274 Elizabeth Ambulance. City-area code 709-634-7009, 634-5611.

Fire: Bowaters Ext. 274 Mill Brigade. City-area code 709-634-4333.

Hospital: 634-4393 or 634-5101.

TELEPHONES: (Vessels at Bowaters premises). None available on board ships, but phones are on the wharf in nearby offices.

Other port users: Can be available at installation and service costs. Police – 634-8236. *Ambulance* – 634 5611. *Fire* – 634 4333. *Hospital* – 634 4393.

GENERAL: Ice coverage can be expected between January 1st and April 15th. Shipmasters should contact "Ecareg Ice Halifax", Nova Scotia, Telephone (Area code 902) 526-5664 or 426-5665. Telex No. 019-22625 for routing and Icebreaker assistance. 36 hours ETA in Cabot Strait is required.

SERVICES: Compass adjuster can be engaged.

SHORE LEAVE: Discretion of Master. No port regulations.

AUTHORITIES: Harbour Master and Bowaters Newfoundland Ltd.

DALHOUSIE, N.B.: 48.04 N. 66.22 W. (See Plan Book)

DOCUMENTS:
Ship's Register.
Load Line.
Safety Radio and Safety Equipment Certificates.
Stores List and Crew Declaration (E–17, Y–14), if from foreign port.
Pratique, if from a Foreign Port.
Immigration Clearance from last Canadian Port.
If from a Foreign Port, 2 copies of crew list.

For Shipping Master: Ship's Articles if British or Canadian Registry.

PILOTAGE: Telegram sent to Restigouche Pilots, Dalhousie, N.B., or to vessel's Agent. 6 hours minimum notice required except during Winter operations (January–April). Pilot vessel is a 40 ft. steel hull, black, grey superstructure, displays proper flag by day and proper lights by night. Pilots meet and board all inbound vessels in position 48° 03′ N., 66° 15′ W. Pilots prefer pilot ladder for boarding.

ANCHORAGES: Safe anchorage 1.5 miles offshore due East of harbour entrance. Pilots will board vessels for anchorage in from 6 to 12 fathoms.

RESTRICTIONS: Tide restricted if vessel exceeds 28 ft. on arrival.

MAX. SIZE: Max. length 750 ft., beam 100 ft., draft 36 ft. at the Government Wharf including oil and bulk carriers. Vessels approaching these dimensions must berth at high water, port side to. Max. draft entering harbour and berthed starboard side to is 28 ft. because of restricted turning basin.

HEALTH: See "Montreal".

RADIO: ETA through Grindstone.

TUGS: Not necessary.

BERTHING: To berth starboard side to at any berth vessel is requested to arrive 3 hours before high water.

STEVEDORES: Contact Agents.

MEDICAL: Hospital and doctors available.

TANKERS: One 12-in. line with three 8-in. connections is laid to the Government Wharf. Depth alongside 34 ft. LWOST.

DENSITY: Average density 1008.

FRESH WATER: Available at all berths from hose lines on the dock. 50 t.p.h.

FUEL: Available by truck if necessary. Advance notice required.

GANGWAY/DECK WATCHMEN: Available if requested.

OPENING/CLOSING HATCHES: As in Charter Party.

IDENTIFICATION CARDS: Not needed.

CONSULS: None.

REPATRIATION: Facilities exist providing sufficient notice given.

AIRPORT: 1 flight daily from Montreal to Dalhousie and Chatham and return to Montreal.

TIME: Daylight Saving during Summer months. Atlantic Standard otherwise.

HOLIDAYS: Official Holidays: New Year's Day; Christmas Day; Dominion Day; Labour Day.

POLICE: Telephone 684–5551.

TELEPHONES: Made available upon prior arrangement.

SHORE LEAVE: Allowed.

AUTHORITY: Edrick Allain, Harbour Master, Canadian Coast Guard, Dalhousie.

Wharfinger: Wendell J. Firlotte.

DIGBY, N.S.: 44.38 N. 65.45 W. (See Plan Book)

DOCUMENTS: See "Montreal".

PILOTAGE: Usually contacted through St. John radio station by VHF. 12 hours notice required. Pilot usually meets ships at entrance to Digby. As long as adequate notice is given no waiting is experienced.

ANCHORAGE: Good Anchorage N.E. from town 15 to 25 fathoms.

MAX. SIZE: Length 400 ft. and 28 ft. depth at low water.

HEALTH: See "Montreal".

RADIO/VHF: St. John Radio call sign VAR.

TUGS: Not normally necessary, light towing available in case of necessity.

BERTHING: Transport wharf main pier with berthing length 400 ft. and 28 ft. alongside at low tide, also Transport Spur Pier 330 ft. long and 50 ft. wide, 22 ft. depth alongside at low tide (21 to 28 ft. rise and fall in tide).

FRESH WATER: Supplied by pipe-line on wharf.

FUEL: Diesel oil available only.

DEVELOPMENTS: Construction of new Dock for St. John N.B. to Digby ferry service completed.

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Usually carried out by crew.

CUSTOMS ALLOWANCES: 200 cigarettes per man, per week; 40 oz. alcohol per man per week for crew.

IDENTIFICATION CARDS: Required or passport.

CONSULS: None.

REPAIRS: No major repair facilities available.

REPATRIATION: Can be arranged.

AIRPORT: Small local line based at St. John N.B. supplies service between St. John and Digby. Halifax International Airport 180 miles away.

TIME: GMT minus 4 hours.

HOLIDAYS: New Year's Day (Jan. 1st); Good Friday; Easter Monday; Victoria Day and Queen Elizabeth Day (May 19th) Canada Day (July 1st); Labour Day (Sept. 1st); Thanksgiving Day (Oct. 13th); Remembrance Day (Nov. 11th); Christmas Day (Dec. 25th).

POLICE/FIRE/AMBULANCE: Police 245–4162; Fire 245–2121; Ambulance 245–2205.

TELEPHONES: Available at cost of installation.

SHORE LEAVE: Allowed.

AUTHORITY: Vernon Everett, Harbour Master.

FRASER PORT, B.C.: 49.12 N. 122.55 W. (See Plan Book)

DOCUMENTS, ANCHORAGE, and further information: Refer to "Vancouver, B.C.".

PILOTAGE: Compulsory from Fraser River Sands Heads. Contact Pilots through Vancouver Pilots. 12 hours notice required. Pilot boards 1 mile off Sandheads. Contact pilot launch on VHF Channel 74.

MAX. SIZE: Draft limited to 33 ft. on 12 ft. tide.

HEALTH: Pratique and quarantine at Victoria B.C.

TUGS: Available, normally join vessel on arrival.

BERTHING: (North and South side of river).

Pacific Coast Terminals Co. Ltd.: 8 berths for vessels up to 35 ft. draft. Covered storage for general cargo, pulp and mineral concentrates.

Fraser–Surrey Docks Ltd.: 5 general berths, total length 3,300 ft., 1 sawdust/woodpulp bulk cargo berth and 1 trainship berth, Depth at low water 33 ft. Water, power and telephone connections at all berths. Cargoes handled include forest products, steel, heavy lifts bulk and general cargo, as well as roll-on/roll-off cargoes and containers. Terminal well equipped with fork lifts, front-end loaders, cranes to 250 tons and 2×40 ton Paceco Portainers. Operators are Fraser Surrey Docks Ltd.

Fraser Wharves Ltd.: 1 berth, length 500 ft., width 45 ft. Berth for loading and unloading cars.

Annacias Marine Terminals.: 1 Berth, length 552 ft., width 60 ft. Situated at East end of Annacis Island for discharging of cars.

Domtar Chemicals Ltd.: 1 berth, length 610 ft., depth 27 ft. Berth connected to plant by 30 in. conveyor belt system for transfer of crude rock gypsum to the plant.

Crown Zellerbach Building Materials Ltd.: 2 berths, total length 1,300 ft., depth at LW 30 ft. Berth is upstream of the Patullo bridge.

MEDICAL: All services available.

DENSITY: Varies with location and season.

FRESH WATER: Available.

FUEL: All grades available.

DEVELOPMENTS: Future developments call for 35 ft. draft and expanded berthing facilities.

CONSULS: At Vancouver.

REPAIRS: Engine repairs only.

AIRPORT: Nearest at Vancouver.

TIME: Pacific Standard Time, GMT minus 8.

POLICE/AMBULANCE/FIRE: Police 521–7711; Ambulance 872–5151; Fire 526–4411.

SHORE LEAVE: Allowed.

AUTHORITY: Fraser River Harbour Commission, New Westminster.

FROBISHER BAY, N.W.T.: 63.44 N. 68.32 W.

LOCATION: An expanding settlement at the head of Frobisher Bay, Baffin Island. Navigation season, mid-July to mid-October depending on ice conditions. Port of entry.

DOCUMENTS: See "Montreal".

PILOTAGE: No service as such but a senior port officer may assist vessels to moorings.

APPROACHES: Anchorage in depths of 38.4 to 40.2 m. Approximately 925 m. East of Monument Island settlement. Minimum depths in approaches, 9.8 m.

TIDES: Rise of Tide, 12.2 m., with strong tidal runs between islands. Low powered vessels generally navigate Pike Resor Channel at slack water, high or low tide if current unfavourable. This channel is mostly navigated during daylight hours.

HEALTH: Free pratique, if health certificate is in order. In the event of suspected disease or fever on board, report to Frobisher Bay Telecommunications Branch call sign VFF R/T or W/T.

RADIO: Frobisher Bay R/S VFF.

TUGS: 2 landing craft (LCM's) each powered with two 130 h.p. diesel engines assist vessels in mooring, acting as tugs and running ship's stern lines to Innuit Head.

BERTHING: Tankers of 160 m. length, 17.68 m. breadth and draft of 9.1 m., discharge approximately 243.8 m. off Innuit Head. Method of mooring is to stream both anchors in anchorge area and stern lines to mooring bollards situated on Innuit Head for this purpose. General cargo ships up to 12,000 tons also moor in this position. Vessels should be prepared for a quick departure in event of storm warnings, especially hazardous from N. and S. winds. Maximum length, breadth and draft determined by Master and Owners or Charterers. Delays can be expected due to tidal conditions. All general cargo, machinery, vehicles, etc., transferred from ship to shore and vice-versa via landing craft as no pier exists; beach gradient is gradual. Frequently barges cannot be discharged and re-floated until next rising tide. Delays expected for cargo vessels anchoring off Monument Island and discharging or loading by lighters during high winds and rough seas.

STEVEDORES: Special arrangements are necessary for these services.

MEDICAL: Hospital facilities available.

DENSITY: From August 1st to September 15th mean approx. 1.02477 increasing slightly as season advances.

FRESH WATER: Small quantity in emergency. Approximately 50 gallons per minute. *Note:* Due to tidal conditions considerable delay could result in delivering fresh water.

FUEL: Only supplied in emergency, Arctic diesel Grade 1, viscosity quoted as minus 60. Arrangements to be made through Imperial Oil Co. Ltd.

OPENING/CLOSING HATCHES: According to agreements.

IDENTIFICATION CARDS: Required if arriving from a foreign country.

REPAIRS: Limited repairs, i.e. welding, R/T and radio.

REPATRIATION: Crew changes can be effected by air passage to or from Montreal.

AIRPORT: Distance approximately 0.8 km. from landing beach, 5 flights weekly to and from Montreal, weather permitting, via Nordair Ltd. of Montreal.
TIME: GMT minus 4 hours.
POLICE/AMBULANCE/FIRE: RCMP 5202; Ambulance 979–5231; Fire 6666.
AUTHORITY: Transport Canada, Ottawa.
Officials: Transport Canada Area Supt., Tel. 641 and Harbour Master, Tel. 278, during season. Telegrams, c/o Canadian National Telegraph via VFF or VAW.

GASPE, Quebec: 48.50 N. 64.29 W. (See Plan Book)

DOCUMENTS:
Immigration Documents:
Passenger Landing Cards (Tourist) 1 each passenger.
1 Crew List from Immigration.
2 Passenger Lists.
Customs Documents:
3 Inward Reports.
3 Outward Reports.
3 Ship Stores Lists (Form E.1).
3 Crew Declarations (Form Y.14).
National Health and Welfare:
2 QS.1 Maritime Declarations of Health.
Manifests required for cargo unloaded only.
PILOTAGE: Not compulsory but recommended. No licensed Pilots available, but men recommendable for guidance to harbour and wharf. To obtain Pilot, arrange by radio phone through marine radio station VCG at Fox River, Gaspe PQ, on receipt of message either to Agent or Port Authority, Pilot and other arrangements can be made.
MAX. SIZE: Vessels of 650 ft. and over have both docked and anchored. Tide has no effect as it is very sheltered. Government wharf depth 35 ft. LW.
HEALTH: On arrival in Canadian waters Master applies for Radio Pratique by radio to Quarantine Officer at Quebec City. Master flies yellow flag on arrival and until Medical Officer decides it can be lowered or otherwise according to regulations. See also "Montreal".
RADIO: VCG Marine Station Fox River, Gaspe PQ.
TUGS: Not necessary, no tugs available unless called for in emergency. Line boats available for docking, by arrangement.
BRIDGES: New bridge under construction – no opening span.
BERTHING: *M.O.T. (Sandy Beach) wharf,* berthing length 600 ft., depth alongside at LW 33 to 35 ft. outer face and about 26 ft. inner side; railroad tracks on wharf, oil tanks, electric light and water.
STEVEDORES: Good stevedoring available at all times and hours.
MEDICAL: Hospital and ambulance service.
TANKERS: Oil lines on Department of Transport Government Wharf owned and used by Gulf Oil Canada, Irving Oil, Shell Canada Limited and Imperial Oil. These lines are privately owned.
FRESH WATER: Available, arranged through ship's Agent.
FUEL: Light and medium diesel available at all times. If bunker fuel required, on request it will be brought in by tanker car.
GANGWAY/DECK WATCHMEN: Recommended watchmen necessary, may be obtained.
OPENING/CLOSING HATCHES: Done by ship's crew.
CUSTOMS ALLOWANCE: On arrival officers and crew permitted one bottle and 200 cigarettes and one pound of tobacco for period of one week, further allowances of tobacco given after one week, as well as spirits to Master only.
IDENTIFICATION CARDS: Not required.
CONSULS: None.
REPAIRS: Only minor repairs.
REPATRIATION: May be arranged by Agent subject to Immigration control.
AIRPORT: Situated about 7 miles from the dock. Twice daily service to Quebec and Montreal. Connections to all parts from Montreal. Charter passengers and freight flights also available.
TIME: GMT minus 5 hours all year.
HOLIDAYS: Saturday, New Year (January 1st); Good Friday; Victoria Day (May 19th); Confederation Day (July 1st); Labour Day (September 1st); Thanksgiving Day (about October 13th); Remembrance Day (November 11th); Christmas Day (December 25th). There are a few other R.C. Church days on which some men are not obtainable. On most of these holidays stevedores and men are available.
POLICE/AMBULANCE/FIRE: Police area 418 call 368–3337. Local RCMP area 418 call 368–2543. Ambulance Area 418 call 368–2835.
TELEPHONES: Possible arrangements may be made with local telephone company for installations to vessel.
GENERAL: Radar repairman available if matter not too serious.
SHORE LEAVE: Crew allowed ashore.
AUTHORITY: Customs and Immigration Officer, and Harbour Master and Government Wharfinger.

GOOSE BAY, Labrador: 53.22 N. 60.22 W.

DOCUMENTS, HEALTH: See "Montreal".
PILOTAGE: 2 Pilots available; 24 hours notice of arrival required. Contact Pilot on radio-telephone 2182 kc/s., calling "Victor Gulf Whiskey".
RESTRICTIONS: Navigation season early June to end November depending on pack ice movements. Approach – Sandy Point Channel at entrance to Goose Bay and 15 miles from the dock has a width of 300 ft. Harbour Master advises draft of 31 ft. HWF. Groves Point Channel at entrance to Terrington Basin and 1.5 miles from Main Dock has depth of 32 ft. HWF and width of 300 ft.
TUGS: There are no tugs. 3 landing craft available to assist.
BERTHING: Main wharf length 810 ft. depth alongside increased to 30 ft.
Government Dock, 190 ft. long, depth 19 ft. 6 in. LWOST.
DENSITY: 1000, fresh water.
FUEL: Diesel oil only, supplied by tank truck and pipe-line.
FRESH WATER: Available alongside berths.
REPAIRS: Only minor repairs may be effected in emergency.
AIRPORT: 1.5 miles distant.
HOLIDAYS: New Year's Day; Good Friday; July 1st; Labour Day; November 11th; Christmas Day; Boxing Day.
AUTHORITY: District Manager, Canadian Coast Guard, Goose Bay.

HALIFAX, N.S.: 44.39 N. 63.34 W. (See Plan Book)

DOCUMENTS:
Port doctor: Form QS1; Crew Vaccination Certificates, Deratisation Certificate.
Customs: Customs clearance or certificate from last port; Cargo List (if no cargo, words "In Ballast" entered); Bonded Stores List (Form E.1); Crew Declaration for each crew member (Form Y14). Ship's Register; Safety Radio, Load Line and Safety Equipment Certificates.
Immigration: Crew List (Form 200) in duplicate in English; all crew Passports (returned prior to sailing).
PILOTAGE: Compulsory. Essential send arrival notice by radio to avoid delay in waiting Pilot. 12-hour notice of ETA required and confirmed or corrected 4 hours before arrival. All times must be GMT. Radio messages should be addressed Marine Aid Centre, Chebucto Head. All pilotage messages subject to full tolls.

When possible, Pilots will board in vicinity of Inner Automatic Light and Whistle Buoy situated about 2 miles N.E. of Chebucto Head. In heavy weather not always possible for pilot vessel to take up station at above position, but will proceed as far seaward as feasible to embark or disembark Pilot.

In normal weather pilot vessel shall, in daytime, fly Pilot flag, and at night will show lights required by international regulations. In abnormal weather – fog, mist, snow, heavy rainstorms – when on station on pilotage duty, in addition to regular signals, will blow four long blasts at regular intervals. Vessel requiring Pilot should blow four short blasts on whistle at intervals until pilot boat sighted. Pilot boats equipped with radar and stand-by on radio telephone operating on frequency of 156.8 m/cs or Channel 16 under international VHF designations.
ETA: For provisional clearance to enter the Halifax Marine Traffic Regulating zone, vessels should supply the following information to "Halifax Traffic":

1. Position.
2. ETA Zone Limit (Zone boundary is approximately 16 miles radius from Chebucto Head).
3. Destination and last port.
4. Draft.
5. Description and weight of pollutants or any dirty cargo carried.
6. Deficiencies in ship's navigational equipment, engine's steering gear or anchors.
7. Any leakage of pollutants or any damage which may result in pollution.
8. Pilots must be advised ETA 12 and 5 hours prior arrival at the Pilots boarding station, using GMT, to "Pilots Halifax".

For final clearance to enter the Halifax Marine Traffic Regulation Zone:

1. Report to "Halifax Traffic" on VHF Channel 14 or 2182 kHz, when approaching the zone boundary.
2. Report to "Halifax Traffic" when approaching zone boundaries approximately 8 and 4 miles radius from Chebucto Head.

Vessels leaving Halifax are to report to "Halifax Traffic" when approaching zone boundaries.
ANCHORAGE: Vessels anchor in harbour in areas designated by National Harbours Board.
RESTRICTIONS: Controlling depth in channels of approach 60 ft. in main harbour as far as the Narrows. Ice free all year. Ample turning room for the longest vessel.
MAX. SIZE: Length and breadth unlimited. Can berth ships up to 60 ft. draft. Channel depth 60 ft. Tide range 6 to 9 ft. 110,000 ton tankers with drafts 50 ft. enter harbour regularly.
HEALTH: Quarantine – every vessel coming from port outside Canada shall be inspected by Quarantine Officer at a place specified by him. (Quarantine Station in anchorage No. 1). Where sufficient information can be given by radio, Radio Pratique may be given between 0900 hrs. and 1700 hrs. local time (address "Quarantine Halifax") and message should include (i) name and nationality of vessel, (ii) ports of call during voyage, (iii) nature of cargo, (iv) number of crew and passengers, (v) statement of health, (vi) name of Agent, (vii) ETA pilot station in GMT. A coastwise vessel, free from disease and arriving from a disease-free coastwise port, may be exempted quarantine inspection.
TUGS: Join vessel inside harbour at quarantine anchorage. Tugs towing use vessel's lines. Tugs made fast alongside vessel for docking or undocking use their own lines at no extra charge.
RADIO: Halifax Marine Radio Station, Ketch Harbour. Radio-telephone and other services. Masters may contact Halifax Marine Radio on 500 or 2,182 kHz, VHF on 156.8, working Channel 26 (161.9 and 157.3 mHz).
RADAR: Marine Traffic Regulating Center at Chebucto Head. Working frequencies Sector One 156.7 mHz (Channel 14) Sector Two 156.6 mHz (Channel 12). Call sign "Halifax Traffic".

CARGO FACILITIES: (West Side of Harbour) 12 Shedded Berths. Each shed 50,000 sq. ft. or more 8 with dockside rail track.
7 Open Area Berths
1 – 70,000 sq. ft. storage area. Dockside rail track
1 – 60,000 sq. ft. storage area. Ro/Ro ramp
2 – 48,000 sq. ft. storage area. Dockside rail track
1 – 58,000 sq. ft. storage area. Dockside rail track
1 – 40,000 sq. ft. storage area. Dockside rail track
1 – 180,000 sq. ft. storage area. Dockside rail track (Berth 36) with adjacent ro/ro ramp at Berth No. 35.

AUTOPORT FACILITY: (East Side of Harbour) 2 berth facility with ro/ro capability. 80 acres for vehicle storage with pre-service available for import vehicles.

BRIDGES: There are two: Angus L. MacDonald bridge (Halifax-Dartmouth) min. vertical clearance at high water 158 ft.; A. Murray MacKay Bridge (narrows) min. vertical clearance at high water 157.7 ft.

TANKERS: 110,000 ton tankers, 50 ft. draft, use port regularly. Terminals – nine berths operated by four oil companies.

Imperial Oil, South Dartmouth, three piers, vessels up to 282 m.; max. draft 15.2 m., bunkering vessel also provides barge service.

Irving Oil Co. Ltd.: South Dartmouth, three berths, ocean vessels any length, max. draft 11.6 m.; located at Woodside.

Texaco Canada Ltd.: Eastern Passage, two berths (one berth any length vessel) draft up to 10.1 m., barge service provided in harbour.

Gulf Oil Canada Ltd.: Bedford Basin; 109.8 m. wharf (no restriction vessel length) depth 9.75 m.; located Burnside, Halifax – Dartmouth Marine Terminal.

BULK HANDLING FACILITIES: Two-berth container ship-rail interface at Pier "C". Served by three 40.8-tonne container gantry cranes, two railcar loading transtainers, 30 tons each, 22 straddle carriers, 30 tons each. Total quay length 1,762 ft., minimum depth, North end 50 ft., South end 40 ft.; one ro/ro berth. New container facilities under construction with completion in 1981. 21.17 hectares. Berth length 335.28 m., with ro/ro ramp.

Grain Handling Facilities: Storage capacity over 5,000,000 bushels.
Max. capacity
Berth 28 72,000 bu/hr. (loading)
Berth 26 34,000 bu/hr. (unloading)

MEDICAL: Sick Mariners' Service may be obtained for venereal disease only at the Federal Building, Suite 620, Bedford Row, Monday through Friday, Tel. 426–3998. Doctor always available either by telephone or telephone answering service. Information for emergency treatment outside these hours may be obtained from ship's Agent. Emergency hospitalisation can be obtained only at Camp Hill Hospital.

STEVEDORES: Available from several private companies.

DENSITY: Salt water all tides.

FRESH WATER: Dock side only. No water barges. 50 t.p.h. per hose.

FUEL: See "Tankers".

GANGWAY/DECK WATCHMEN: Can be provided.

OPENING/CLOSING HATCHES: Patent mechanical hatches by ship's crew. Wood and canvas hatch covers by stevedores.

CUSTOMS ALLOWANCES: Tobacco: 1 lb. per man per week; 200 cigarettes per man per week. Wine/spirit allowance: 40 oz. bottle per man per week.

CARGO GEAR: All ships liable to inspection by government inspectors. Gear certificates to be produced, if required. Heavy-lift equipment: 59 pieces ranging in single lift capacity to 300 short tons. Normally available on a few hours notice, including floating cranes.

CONSULS: The following countries are represented in Halifax:

Austria	Japan	Peru
Belgium	Germany	Portugal
Britain	Iceland	Spain
Brazil	Italy	Sweden
Denmark	Netherlands	United States of America
Finland	Norway	

REPAIRS: All types of repairs possible.

DRY DOCKS: Floating dock 182.9 m. by 30.5 m. by 9.45 m. deep; Lifting capacity 22,680 tons. Graving dock – 172.9 m. long, 24.4 m. wide at keel blocks; clearance at top is 31.2 m.; max. draft over the keel blocks is 7.9 m., capacity 13,610 tons. Two marine railway slips at Dartmouth capable of hauling vessels from 36 to 2,720 tons displacement. Complete machine shop and other repair facilities as well as Salvage equipment available.

AIRPORT: Halifax International. Regular services to Canada, USA and Europe.

TIME: Standard. Time GMT minus 4 hours. Daylight Saving Time from last week-end in April to last week-end in October, clocks advanced 1 hour.

HOLIDAYS: New Year's Day (January 1st); Good Friday; Queen's Birthday (May 20th); Dominion Day (July 1st); Labour Day (September 2nd); Thanksgiving Day (October 14th); Remembrance Day (November 11th); Christmas Day (December 25th). Cargo work can be arranged on all holidays except Labour Day.

POLICE/AMBULANCE/FIRE: Police 4105; Harbour Police (NHB) 426–3629; Ambulance 429–5151; Fire 4103.

TELEPHONES: Service available at all berths.

GENERAL: Extensive rail and road services plus extensive transit sheds, cold storage with 1,719,000 cu. ft. storage space.

SERVICES: All services available including compass adjusting, tank cleaning, etc.

SHORE LEAVE: Crew allowed ashore.

DEVELOPMENTS: New container facility now under construction at Fairview Cove in Bedford Basin.

1 Berth – Length 335.28 m., Depth of water – 15.24 m. with ro/ro ramp for end loading of vessel.

2 gantry cranes – 40 tonnes.
Consolidation shed and office building.
Land area – 21.17 Hectares (Additional space for expansion).
Completion expected – 1981.

AUTHORITY: National Harbour Board.

HAMILTON, Ontario: 43.14 N. 79.41 W. (See Plan Book)

For important General Information refer to St. Lawrence Seaway.

DOCUMENTS:
Inward manifest 3 days prior to arrival of vessel.
1 Steamship company release covering inward shipment.
1 Loading list, 24 hours prior to vessel loading.
1 Customs report outwards (A.7).
3 Vessel's outward manifest within 3 days after departure of vessel.

PILOTAGE: Pilotage to be arranged 24 hours in advance. Pilot normally boards outside at Fairway Buoy. Contact VHF 16 – 156.8 mc/s.

MAX. SIZE: LOA 730 ft. Max. draft 26 ft.

HEALTH: First port of entry. See "Montreal".

RADIO: VBG Toronto.

Vessels Inbound: Call Burlington Bridge on radio telephone (VHF or AM) for clearance. Call Harbour Master's office for information about docking orders (VHF or AM).

Vessels Outbound: Call Burlington Bridge for clearance. Call Harbour Master's office to advise next port of call.

General: Harbour Master's office keeps radio watch on AM and FM working channels. Tug or linesmen may be ordered through the Harbour Master's office.

TUGS: Join inside harbour entrance – ship's lines used.

BERTHING: Arrangements made with Harbour Master.

Berthing Capacities: The Port of Hamilton provides berthing facilities for all vessels capable of navigating the St. Lawrence Seaway which can handle maximum size vessels of 730 ft. in length × 75 ft. in beam with a draft of 26 ft. 6 ins.

The Hamilton Harbour Commissioners provide 19,000 ft. of berthing and in addition 10,050 ft. of berthing is available for private docks i.e. – International Harvester, The Steel Company of Canada, Dominion Foundries & Steel.

Covered Storage Space: Total 638,000 sq.ft. from which the Hamilton Harbour Commissioners utilize 430,000 sq.ft. and leases to private operators:

108,000 sq.ft. to Canada Steamship Lines Limited	Pier No. 24
100,000 sq.ft. to Seaway Terminals	Pier No. 14

Outside Storage Space: Total – 2,980,200 sq.ft. Operated by The Hamilton Harbour Commissioners:

Centennial Terminal	400,000 sq.ft.
Wellington Street Terminal	200,000 sq.ft.
Pier 23	140,000 sq.ft.

Leased to Private Operators:

Pier 11	250,000 sq.ft.
Pier 12	600,000 sq.ft.
Pier 13	240,000 sq.ft.
Pier 14	1,000,200 sq.ft.
Pier 15	150,000 sq.ft.

BRIDGES: Lift bridge at harbour entrance can be raised any time.

STEVEDORES: Must be ordered prior to 1545 hrs. on previous day.

MEDICAL: Hospital services available and doctors can be arranged.

FRESH WATER: Available.

FUEL: All types available.

GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Performed by stevedores.
CUSTOMS ALLOWANCES: See "Montreal".
IDENTIFICATION CARDS: Not required.
CONSULS: Consuls located in Toronto.
REPAIRS: Available.
AIRPORT: Hamilton CVC Airport (10 miles South, and Toronto International Airport 30 miles East).
TIME: GMT minus 5 hours.
HOLIDAYS: Normal Canadian statutory holidays apply and labour can be arranged at extra cost. See "Montreal" for details.
POLICE/AMBULANCE/FIRE: Harbour Police 529-3423.
TELEPHONES: Can be arranged on board.
SHORE LEAVE: Crew allowed ashore.
AUTHORITY: The Hamilton Harbour Commissioners.

HANTSPORT, N.S.: 45.04 N. 64.10 W.

DOCUMENTS: See "Montreal".
PILOTAGE: Non-compulsory, but advisable. Rates by agreement.
MAX. SIZE: Tidal port and no shipping arrives or departs at low water. Draft of largest vessel that entered port was 24 ft. A draft of 25 ft. can be taken in and out.
HEALTH: Customs Officer acts as Quarantine Officer.
RADIO: Ship-to-shore communications; through St. John N.B. or Yarmouth N.S.
BERTHING: Berthing length 400 ft., no water at low tide, ships lie aground on mud alongside. There are railroad tracks on wharf, main and electric lights laid on.
FRESH WATER: From pipe-line on Government wharf.
FUEL: Oil by truck from Imperial Oil Ltd.
REPAIRS: Hull repairs can be made at low water with vessel high and dry.
SERVICES: Supplies: ship's stores can be secured in port.
AUTHORITY: E. L. Dillman, Harbour Master.

HARBOUR GRACE, Newfoundland: 47.43 N. 53.08 W.

DOCUMENTS:
- Crew Lists.
- Names of passengers.
- Clearance from Last Port of call.
- Deratting Certificate.
- Inoculation List of all crew members and passengers.
- Manifest of Cargo.
- Copy Bills of Lading.
- List of Bonded Goods.

PILOTAGE: Not compulsory, if required cable Agent.
ANCHORAGES: Pilot will instruct Master.
MAX. SIZE: Max. length 650 ft., max. draft 24 ft. low tide.
HEALTH: See "Montreal".
RADIO: Route cables and telephone calls through St. John's Newfoundland Radio.
TUGS: Not available.
BERTHING: Nothing specific, Pilot will have instructions; Agent should be given 24 hours arrival notice.
STEVEDORES: Available. 24 hours notice required.
MEDICAL: Port doctors available; hospital facilities; advance notice would be helpful in providing ambulance services if needed; vaccination/smallpox required for European ships.
TANKERS: Marine storage terminals for oil are served by Canadian tankers.
FRESH WATER: Available, pipe-line delivery at piers, rate of delivery as required.
FUEL: Diesel, gas oil, marine bunkering facilities in piers, available at any time, no notice required.
GANGWAY/DECK WATCHMEN: Not necessary, available if required.
OPENING/CLOSING HATCHES: By crew.
CUSTOMS ALLOWANCES: See "Montreal".
IDENTIFICATION CARDS: Not required.
CONSULS: Norway; Denmark; Spain; Portugal; France.
REPAIRS: Deck and engine repairs available.
AIRPORT: 1 hr. 15 min. drive, service by regular airlines making connection to all points in the world.
TIME: GMT minus 3.5 hours. Clocks advance 1 hour last Saturday of April each year and are put back 1 hour last Saturday October each year.
HOLIDAYS: New Year's Day; Good Friday; July 1st; November 11th; December 25th. Cargoes could be worked on these days with exception of Good Friday and Christmas Day.
POLICE/AMBULANCE/FIRE: One telephone number for all services 709-596-5014.
TELEPHONES: Available at pier.
SERVICES: Compass adjusting available.
SHORE LEAVE: All crew members allowed ashore.

AGENT: Ocean Harvesters Ltd., Harbour Grace, AOA 2MO. Tel. 709-596-5111, 709-596-5112, 709-726-4840. Telex 016-3111. Cable address: Moorfish, Hr. Grace.

KINGSTON, Ontario: 44.12 N. 76.30 W.

For important General Information refer to St. Lawrence Seaway.
DOCUMENTS: See "Montreal".
PILOTAGE: Contact Pilotage Officer, in Cornwall, telephone 613-932-8740, USA Pilot Station, Cape Vincent 315-654-2900.
ANCHORAGE: Good anchorage off Penitentiary.
RESTRICTIONS: Channel Depths – Controlling depth at low lake levels 22 ft. until wharves in harbour approached. In upper harbour, controlling depth 17.5 ft. Depths vary from month to month.
Navigating Season April 15th – December 15th.
HEALTH: First port of entry. Quarantine at Quebec City for incoming ships from foreign ports.
TUGS: Available. Necessary for handling ships in rough weather at Elevator and other docks.
BERTHING: Docks extend West from North of bridge (La Salle Causeway) to Little Catariqui Bay – some 4 miles. Transport Canada 455 ft., depth alongside 17 ft. Portsmouth Olympic Harbour – Environment Canada, under construction. Also smaller docks for coastal vessels and private docks, including Canada Steamship Lines Elevator dock 700 ft. long on East side 25 ft. alongside, and 600 ft. on West side depth 22 ft. La Salle Causeway 1,000 ft., 14–16 ft. alongside used for berthing in Winter.
BULK HANDLING FACILITIES: *Canada Steamship Lines Elevator Dock:* Large Upper Lake vessels are unloaded on East side by two travelling marine towers; canal-size vessels are loaded on the West side, 6 loading spouts. The elevator capacity is 2,500,000 bushels, marine towers 35,000 bushels per hour. Canadian National Railways tracks run to the elevator and cars can be loaded with grain. This dock is also open to general cargo.
MEDICAL: Hospitals, Kingston General and Hotel Dieu.
STEVEDORES: From Toronto.
FUEL: Bunker coal – normal stock 2,000 tons from lighters at wharf. Bunker "C" and diesel oil also available.
FIRE PRECAUTIONS: No unusual precautions.
CUSTOMS ALLOWANCES: See "Montreal".
REPAIRS: Most repairs possible.
DRY DOCK: Will take ships of length 240 ft., beam 44 ft. Depth on sill 14.3 ft.
TIME: Eastern Standard Time GMT minus 5 hours. Daylight Saving Time from last week-end in April to last week-end in October, clocks advanced 1 hour.
HOLIDAYS: See "Montreal". Port officials always available.
TELEPHONES: Ship-to-shore phone communications through Kingston (VBH).
AUTHORITY: Harbour Master.

KITIMAT, B.C.: 53.59 N. 128.46 W.

PORT LIMITS: All waters of Kitimat Arm and Kildala Arm bounded by the high water mark, North of a line drawn from Hilton Point (Lat. 53° 48′ 54″ N., Long. 128° 52′ 16″ W.) through Louis Point (Lat. 53° 49′ 08″ N., Long. 128° 45′ 38″ W.) on Coste Island to Steel Point (Lat. 53° 49′ 35″ N., Long. 128° 42′ 20″ W.) on the mainland. Canadian Chart 3743.
DOCUMENTS and General Information: Refer to "Vancouver".
PILOTAGE: Compulsory. Pilot boards at Cape Beal, West Coast, Vancouver Island, or Triple Island, off Prince Rupert. Pilotage Authority require 48 hours notice to allow Pilot to meet vessel at Triple Island or Cape Beal.
ANCHORAGE: No vessel shall anchor in the fairway or dredged Channel approaching the wharf or otherwise in a position to interfere with or obstruct the docking or undocking of any other vessel. Pilot will instruct Master. Usual anchorage South of Eurocan Terminal, East side of Kitimat Arm.
RESTRICTIONS: Approach to the port from the South is via Laredo Sound, Laredo Channel, Campania Sound, Whale or Squally Channels and thence via Douglas Channel. From the North via Brown Passage, Arthur Passage, Grenville Channel, Douglas Channel. The route from the South is approximately 120 miles, from the open sea and from the North approximately 130 miles. Entrance channel to Terminal Wharf No. 1 (red and black buoys with flashing light) is 2,400 ft. long, dredged to a depth of 35 ft. at low water, width varies from 800 ft. at entrance to 600 ft. In addition, a turning basin has been dredged to 35 ft. at low water on the side of the channel opposite wharf, providing a turning basin 650 ft. in width. The channel has mooring dolphins on West side, 865 ft. South of wharf No. 1 to accommodate vessels up to 16,000 d.w.t. while awaiting berth.

Vessels may enter or depart any time of day or night.
MAX. SIZE: LOA, 680 ft. beam 90 ft., draft 36 ft. Mean tide range 13.8 ft. Depth alongside at zero tide 35 ft.
HEALTH: Vessels proceeding direct to Kitimat from foreign ports must apply for permission to proceed by radio to William Head Quarantine Station.
RADIO: Prince Rupert Radio "VAJ" 500, 2182, 1630.
TUGS: Tug services available.
ETA: Notice of ETA must be given to Alcan Eurocan at Kitimat at least 24 and 12 hours before arrival. Alcan Eurocan may then assign a berth to the vessel but shall not be liable for any delay in providing berth or for failure to provide a berth. Vessels carrying bulk cargoes for discharge are instructed to request Alcan via radio or wireless telegraph through shore stations as to which hatches are to be opened on arrival alongside unloading berth to permit immediate entry of unloading devices.
BERTHING: Alcan Terminal Wharf No. 1 (concrete caisson construction) is 750 ft. long and has two pneumatic unloading towers discharging to a belt conveyor and a Kangaroo Crane for either bulk and general cargo duties. The wharf is connected by rail direct to Aluminum Co. of Canada smelter yard and to the Terrace – Kitimat spurline of CNR.

Wharf No. 2 a timber-pile wharf is no longer operational. Rivtow Straits Ltd. operates a twice-weekly Ro/Ro barge service for containers and palletised cargo to and from Vancouver from the same site. The channel has mooring dolphins on the West side, 865 ft. South of Wharf No. 1, to accommodate vessels up to 16,000 tons, while awaiting berth.

Eurocan Terminal is located to the East of Alcan's Terminal Wharf No. 1 and is 450 ft. long with mooring dolphins at South end. To the North of the terminal is located a hydraulic barge loading ramp.

No container, liquid chemicals or LPG carrier facilities available.

STEVEDORES: ETA sent by cable 24 and 12 hours before arrival.

MEDICAL: Kitimat General Hospital – complete medical service provided.

DENSITY: Varies with state of tide, depth of water and season of the year.

FRESH WATER: Available at Alcan's Terminal Wharf No. 1.

FUEL: Only diesel oil available.

GANGWAY/DECK WATCHMAN: Not necessary.

OPENING/CLOSING HATCHES: Normally done by crew on bulk discharge. On general cargo, stevedores open and close hatches.

CUSTOMS ALLOWANCE: Tobacco: 200 cigarettes or 0.5 lb. tobacco. Liquor: 40 oz. per man, additional issue after 7 days.

CONSULS: Available at Vancouver, B.C.

REPAIRS: Minor repairs only; nearest shipyard facilities Esquimalt or Vancouver.

REPATRIATION: Facilities convenient for crew changes.

AIRPORT: Two flights daily from Terrace to Vancouver International Airport. Limousine service from Kitimat to Terrace, distance 40 miles.

TIME: GMT minus 8 hours. Daylight saving time from last Saturday in April to last Saturday in October.

HOLIDAYS: New Year's Day, Good Friday, Victoria Day, Dominion Day, Labour Day, Thanksgiving Day, Christmas Day, and Boxing Day.

POLICE/AMBULANCE/FIRE: Police 632-7111; Ambulance/Fire 632-2345.

TELEPHONE: Telephone available at dock offices.

SHORE LEAVE: Permitted.

AUTHORITY: Department of Transport.

LAKEHEAD HARBOUR, Thunder Bay, Ontario (formerly Port Arthur and Fort William): 48.27 N. 89.13 W.

(See Plan Book)

For important General Information refer to "St. Lawrence Seaway".

DOCUMENTS: As inland Port all documentation carried out by authorities in Montreal, prior arriving. Only when vessels have called at United States Port after departing Montreal, and prior arriving at Canadian Lakehead, will any changes in documentation be necessary; which will consist of a United States Customs clearance. Certificates to be available on board:

Immigration papers.
One copy QS 2 (Health Certificate).
Three copies of Ships' Stores.
Crew Declaration.
Customs Clearance.

All of the above will have been stamped in Montreal.

PILOTAGE: Pilots are obtained by Agent at Master's request, at which time the location of boarding the ship will be stipulated. Ship's Masters are able to contact Agent by ship-shore duplex through VBA Marine Radio, Thunder Bay.

ANCHORAGE: Anchorage areas defined by Lakehead Harbour Commission but due to large area and number of entrances to Harbour, Masters are permitted considerable latitude in making own decisions. Usual areas are approximately 1 mile outside of Harbour breakwall, free of shipping lanes. However, Masters should be guided by the advice of Lakehead Harbour Commission Radio, VDX 30.

HEALTH: Pratique granted at Montreal.

RADIO: Two radio stations; VBA Thunder Bay, is Department of Transport station offering duplex services; VDX 30, Lakehead Harbour Commission is operated for the sole purpose of monitoring vessel arrivals and departures.

VBA and VDX 30 both operate 24 hours per day during shipping season on following frequencies:

VBA (AM) Channels 51, 52, 57, 58, 59 and 81
(FM) Channels 12, 26, and 28
VDX 30
(FM) Channels 12, 16 and 14

TUGS: Arranged mutually by ship Masters and Agents on arrival in port. Ship lines used. Four tugs available.

BERTHING: *North Section* is protected by a breakwall. Refer to Canadian Hydrographic Chart No. 2314 for water depths.

The Keefer Terminal is the principal General Cargo berth available at the Canadian Lakehead. The ocean vessel shed is 121.9 m. long, has a dock 198.1 m. long with a maximum apron width of 19.8 m. All types of import and export general cargo can be handled at this Terminal. Rental mobile cranes are available for handling lifts up to 12 tons.

The CNR has an ore dock with a berthing length of 731.5 m. It can accommodate four vessels at one time with 200 loading chutes available. The vertical height from water level to spout is 13.72 m.

South Section is comprised of the Kaministiquia River, Mission River. In general terms, for most vessels two tugs are required for safe river navigation.

There is one open storage Bulk or General Cargo berth, Valley Camp Coal Dock on the Mission River. This dock has two overhead gantry cranes with lift capacity of one, 12–14 tons and the other 22 tons. The berth is 791 m. long. 3 berths.

BULK HANDLING FACILITIES:

Grain Elevators and Storage Capacities (Bushels)

Paterson's Elevator	4,000,000
Saskatchewan Pool 5	3,061,500
Saskatchewan Pool 10	1,750,000
Saskatchewan Pool 11	1,750,000
Saskatchewan Pool 8	3,055,000
Cargill	5,750,000
Saskatchewan Co-op 15	5,000,000
Parrish & Heimbecker (Superior)	1,630,000
Manitoba Pool 1	6,080,000
United Grain Growers "M"	3,250,000
Saskatchewan Pool 7	9,000,000
Saskatchewan Co-op 14	5,276,500
Canada Malting	2,947,300
Manitoba Pool 3	7,700,000
Saskatchewan Pool 6	7,334,100
Manitoba Pool 2	1,400,000
Richardson	5,500,000
Saskatchewan Pool 4A	6,500,000
Saskatchewan Pool 4B	1,900,000
United Grain Growers "A"	8,250,000
	91,134,400

MEDICAL: All facilities available and may be arranged through Agent or by calling 623–7451.

DENSITY: Fresh water port. No tide.

FRESH WATER: Available.

FUEL: Light diesel available by tank truck. Bunker "C" only in emergencies.

GANGWAY/DECK WATCHMEN: May be arranged through Agent.

OPENING/CLOSING HATCHES: Normally done by crew.

CUSTOMS ALLOWANCE: Tobacco, 200 cigarettes or 50 cigars every seven days. Spirit/Wine: Officers: One bottle liquor each seven days. Crew: Beer only, at Captain's discretion.

CARGO GEAR: Normal safety certificate only required. No special port regulations.

CONSULS: Following countries are represented at Lakehead: Denmark, Finland, Greece, Italy, Netherlands and Norway.

REPAIRS: Full repairs available. Includes mobile equipment by both land and water conveyances.

DRY DOCKS: One available, length 227.69 m. by 29.87 m. Full service machine and welding shops on site.

AIRPORT: Served by regular airlines with connections to any destination.

TIME: Eastern Standard Time GMT minus 5 hours. Daylight saving time from last week-end in April to last week-end October, clocks advanced 1 hour.

HOLIDAYS: During shipping season from April to mid-December on which stevedores do not work: May 24th, July 1st, September 1st, and Thanksgiving Day (October). Work can be arranged at overtime rates.

POLICE/AMBULANCE/FIRE: Thunder Bay City Police 623–6471. Fire and Ambulance contacted most easily through "VBA" Lakehead or 623–5123 and 623–4542 respectively.

TELEPHONES: Telephones at Keefer Terminal only.

TELEPHONE NUMBERS: Lakehead Harbour Commission 344–3594. *Note:* Lakehead Harbour Commission, Harbour Master 344–3594, Extension 4, or VHF Channel 16.

GENERAL: All vessels entering, moving in, or departing Lakehead Harbour required to contact VDX 30 prior making such move. Initial contact must be made before entry from area designated as "Welcome Islands" giving particulars of destination within Harbour and routes to be traversed.

SHIPMASTER'S REPORT: June 1980.

Port Limits: Consist of the area surrounded by the chain of islands of which "The Sleeping Giant" is the largest.

Documentation: Generally dealt with at Montreal but Customs, Immigration may board. The bond can be opened after Montreal and sealed again at Thunder Bay.

Pilotage: Arranged in advance by Agent in collaboration with Seaway Authority.

Anchorages: Within port limits are numerous but most favourable within one mile of breakwater at the Northern end. Care should be taken to avoid fouling the breakwater entrances.

Max. Size: Loading draft limited by Seaway Authority at 26 ft. 00 in. on arrival at Lock 8, Welland Canal. Size of vessel limited by Seaway Authority.

Pratique: Through Montreal, where vessel anchors prior to seaway passage.

VHF: Communication through Channels 16, 9, 6, 14, "Thunder Bay Port Control" or "Pilot".

Tugs: Two of 800 h.p. each. Use ship's lines for securing.

Bridges: Minimum bridge height 130 ft. above water level.

Medical: Seven hospitals.

Density: Fresh water.

Fuel: None except in emergency.

Consuls: None.

Repairs: Minor repairs can be undertaken.

Gangway/Deck Watchman: Unnecessary.

Hatches: Opening and closing by ship's crew.

Customs: Allowance consistent with Montreal (i.e. 1 bottle of spirits and 300 cigarettes).

Cargo Gear: Discharge by ship's gear or mobile crane (expensive).

Airport: Locally with service to all major airports in Canada.

Repatriation: Possible.

Telephone: Facilities at each terminal, none on board.

Shore Leave: Unrestricted.

Identification Cards: None issued locally, however advise taking own ashore.

General: Loading grain vessel should be clean on arrival and ready for inspection by Port Warden. Grain loading documents should be completed prior to arrival.
AUTHORITY: Lakehead Harbour Commission.

MONTREAL, Quebec: 45.30 N. 73.33 W.

(See Plan Book)

DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
3 sets Customs Documents.
3 sets Health Documents.
6 sets Manifests.
6 sets Bills of Lading.
3 sets Ship's Papers.

PILOTAGE: Compulsory. Pilots board inbound vessels at Anse-aux-Basques (near Les Escoumains) to bring ships as far as port of Quebec where Pilots are exchanged for the trip to Trois-Rivieres. Pilots are again exchanged at Trois-Rivieres before ships may proceed to Montreal.

For further information refer to "Quebec".

ICE ADVISORY SERVICE: Ships inbound from seaward between 15th December and 15th April should advise the Ice Information Officer, Sydney, N.S., 36 hours prior to entering Cabot Strait stating their position, destination, whether loaded or in ballast. This procedure will facilitate the passing of ice information to the ship as necessary.

On request, ice information is also available from Marine Radio Stations at Halifax, Camperdown, Seven Islands, Twillingate and Grindstone. The Canadian Broadcasting Corporation maritime network also broadcasts ice information daily during the Winter navigation season. Supplementary ice information may also be obtained from Canadian Marine Service ice breakers.

During the ice season, radio broadcasts of ice information are made twice daily from Marine Radio Stations as follows:

	Call	*frequencies*
Cape Race, Nfld.	VCE	420 kc/s CW
		2582 kc/s RT
Fox River, Que.	VCG	434 kc/s CW

		8662 kc/s
		12984 kc/s
		17218.4 kc/s

ANCHORAGE: Available at Longue Pointe abreast of the Island of Montreal close to upper harbour. Also at Lanoraie, approx. 3 miles above Sorel harbour limits, and at Pointe-aux-Trembles anchorage below berth 110. Also opposite Canadian Vickers. Boatmen services are available to vessels at anchor.

Anchorages will be allocated by the Harbour Master (Montreal), through the Marine Traffic Control Centre, Montreal.

MAX. SIZE: Entry only restricted by draft. Main channel depth is 35 ft. Channel 550 ft. wide at narrowest point.

HEALTH: Except in case of coastwise vessels free of disease and arriving in Canada from ports or areas that are not infected, every vessel coming from a port outside Canada is inspected by the Quarantine Officer, and shall not make customs entry until it has received pratique.

"Coastwise Vessel" means a vessel operating exclusively between Canada and the island of St. Pierre and Miquelon or between Canada and the United States, including Alaska. A "coastwise vessel" loses coastwise status and is subject to quarantine inspection on its next arrival at a Canadian port when at any time it touches a foreign port other than those mentioned above.

Where sufficient quarantine information can be given by wireless, radio pratique may be obtained between the hours of 0900 and 1700 the day preceding arrival:

(a) From "Quarantine Halifax" by vessels bound for Halifax, Nova Scotia.
(b) From "Quarantine Saint John" by vessels bound for Saint John, New Brunswick.
(c) From "Quarantine Quebec" by vessels approaching Canadian ports via the Saint Lawrence River.

For the purposes of radio pratique vessels are required to give the following information:

(a) Name and nationality of vessel.
(b) Ports called at during voyage.
(c) Date and place of last fumigation or derating exemption certificate.
(d) Nature of cargo.
(e) Number of crew.
(f) Number of passengers.
(g) Port of destination and name of Agent.
(h) Number of persons without valid vaccination certificates.
(i) Condition of health of all on board with details of any sickness or death which has occurred during the voyage.

Valid Smallpox vaccination certificates required.

To facilitate the quarantine clearance of vessels entering the St. Lawrence Seaway, the Montreal quarantine facilities have been augmented by opening a new office in Montreal East near the entrance to the Seaway. Vessels proceeding directly into the Seaway may now receive quarantine inspection and clearance while at anchor awaiting entrance to the Seaway.

RADIO: All communications via Montreal radio, call sign VFN. Marine traffic control handle VHF traffic as follows: Between Tracy and Cap St. Michel, VHF Channel 10 (156.5 mHz.). From Cap St. Michel to Montreal, VHF Channel 13 (156.65 mHz.). Ship to ship communication, VHF Channel 6, (156.3 mHz.). Port radar service available.

TUGS: Available, 850 h.p.–1,300 h.p.

FRESH WATER: Available by pipe-line at most berths.
FUEL: Oil – all grades can be delivered at oil companies' terminals; also by bunker barges to vessels lying anywhere in the harbour.
Coal – delivered direct to vessels at coal berths.

Dock and Location: Section No. 71 and 72.
Operator: Canadian Import-Weaver Fuels, 5250 de Maisonneuve W, Tel. 484-1112.
Type of Dock: Loading and unloading.
Type of Cargo Handled: Fuel oil.
Size of Pipe-lines: 14 in. and 10 in.
Storage Capacity: 550,000 barrels.
Distance from Dock to Storage Tanks: 1,135 ft.
Length of Dock: 1300 ft.
Depth at Dock: 35 ft.

Dock and Location: Berth 94, East Montreal.
Operator: B.P. Canada Limited, 9301 Metropolitan, Anjou, Tel. 352-1700.
Type of Dock: Loading and unloading.
Type of Cargo Handled: Crude oil, gasoline, stove oil, marine fuel oil, marine diesel fuel, No. 2 fuel oil, No. 6 fuel oil.
Size of Pipe-lines: 16 in.; 12 in. and 10 in.; 10 in.; 12 in.; 12 in.; 12 in.; 12 in.
Storage Capacity (Barrels): 1,000,000; 430,000; 80,000; Production capacity: 15,000; 400,000; 300,000.
Distance from Dock to Storage Tanks: 3.5 miles; 1,500 ft.; 1,500 ft.; 3.5 miles.
Length of Dock: 781 ft.
Depth at Dock: 35 ft.

Dock and Location: Sections 98-100.
Operator: Texaco Canada Ltd., 10200 Notre-Dame St. E., Tel. 645-8811.
Type of Dock: Loading, unloading, bunkering.
Type of Cargo Handled: Gasoline, distillate fuel oils, crude oil, marine diesel fuel oils and bunker "C".
Size of Pipe-lines: 2–8 in.; 10 in.; 8 in.; and 2–6 in.; 16 in.; 8 in.; 6 in. and 4 in.
Storage Capacity (Barrels): 2,300,000; 1,200,000 and 500,000.
Distance from Dock to Storage Tanks: 1.5 miles.
Length of Dock: 1.442 ft.
Depth at Dock: 30-35 ft.

Dock and Location: Berth 101.
Operator: Imperial Oil Ltd., 10510 Notre-Dame E.
Type of Dock: Loading and unloading, bunkering.
Type of Cargo Handled: Crude oil, gasoline, stove oil, furnace oil, diesel fuel, bunker "C".
Size of Pipe-lines: 16 in.; 12 in.; and 8 in.; 10 in.; 12 in.; 12 in.; 16 in. and 12 in.
Storage Capacity (Barrels): 3,000,000. Total storage capacity rotated by products depending on seasonal demands.
Distance from Dock to Storage Tanks: 2,800 ft.
Length of Dock: Inside 712 ft. Outside 1263 ft.
Depth at Dock: 28 ft. and 35 ft.

Dock and Location: Berth 103 S. & 103 N. Montreal East, and Racine Wharf, foot Duquesne St.
Operator: Shell Canada Ltd., 10500 Sherbrooke St. East, Pointe-aux-Trembles, Que. Tel. Marine Bunkers and Lubricants: 866-7571.
Type of Dock: Loading and unloading.
Type of Cargo Handled: Gasoline, stove oil, furnace oil, chemicals jet fuel, aviation fuel, marine diesel, bunker "C", thin fuels 200 secs/3,500 secs. At Racine Wharf – lubricants.
Size of Pipe-line: 3–10 in.; 20 in.; 12 in. at Racine.
Wharf: 2–8 in.; 6 in.; 4 in.
Storage Capacity (Barrels): 4,000,000. Total storage capacity at Racine Wharf: 120,000.
Distance from Dock to Storage Tanks: 1.75 miles, 0.6 to Racine Wharf.
Length of Dock: 622 ft. at Racine. Wharf 505 ft.
Depth of Dock: 35 ft. S., 30 ft. N., at Racine Wharf 30 ft.

Dock and Location: Berth 104.
Operator: Sun Oil Co. Ltd., 11055 rue Victoria.
Type of Dock: Loading and unloading.
Type of Cargo Handled: Gasoline, No. 1 fuel oil, No. 2 fuel oil.
Storage Capacity (Barrels): 130,000; 80,000; 240,000; 530,000 (total).
Distance from Dock to Storage Tanks: 2,300 ft.
Length of Dock: 107 ft.
Depth at Dock: 30 ft.

Dock and Location: Berths 105 and 106.
Operator: Gulf Oil Canada Limited, 3501 Broadway. Tel. Marine Bunkers: 645–8767; Marine Lubes: 274-4453.
Type of Dock: Loading and unloading.
Type of Cargo Handled: Crude oil; gasoline; light fuels; marine gasoil; marine diesel; medium fuels 200 secs/3,000 secs; bunker "C".
Size of Pipe-lines: 12 in. and 8 in.; 10 in.; 3–8 in.
Storage Capacity (Barrels): 6,300,000 total storage capacity rotated by products depending upon production requirements.
Distance from Dock to Storage Tanks: 1 mile.
Length of Dock: 990 ft.
Depth at Dock: 30 ft.

Dock and Location: Sections No. 109 and 110.
Operator: Canadian Petrofina Ltd., 11701 Sherbrooke St. E. Tel. 645-9221.
Type of Dock: Loading and unloading.
Type of Cargo Handled: Gasoline; crude oil; No. 6 fuel oil; middle distilates.
Storage Capacity (Barrels): 650,000; 900,000; 300,000; 540,000.
Distance from Dock to Storage Tanks: 0.75 mile.
Length of Dock: 910 ft.
Depth at Dock: 35 ft.

FIRE PRECAUTIONS: Looped wire over stern and bow not more than 4 ft. above water for towing in case of fire.
GANGWAY/DECK WATCHMEN: Required.
OPENING/CLOSING HATCHES: Always done by stevedores.
CUSTOMS ALLOWANCE: Tobacco, 200 cigarettes; 50 cigars; tobacco, 2 lb. per person over 16. Wine/Spirits, total of 40 oz. per person over age of 21.

Subsequent issues may be authorized to crew members of foreign vessels, but the max. quantity any crew member may hold at any one time must not exceed 300 cigarettes, 75 cigars, 3 lb. tobacco, and 60 oz. liquor.

IDENTIFICATION CARDS: Not required
REPAIRS: All kinds of hull and engine repairs possible.
DRY DOCKS: Steel floating dock: Length 585 ft., lifting capacity 25,000 tons. Steel floating dock section: Length 400 ft., lifting capacity 17,500 tons. Steel floating dock section: Length 200 ft., Lifting capacity 6,700 tons.

The 200 ft. sections may be joined to either of the other docks, making the max. length for docking 785 ft.

All docks breadth at entrance 107 ft. Draft over keel blocks 27.5 ft.

REPATRIATION: All facilities available.
AIRPORT: International Airports at Dorval and Mirabel.

TIME: GMT minus 5 hours. Daylight saving time applied from last Saturday of April to last Saturday of October.
HOLIDAYS: New Year's day; Epiphany; Good Friday; Ascension Day; St. Jean Baptiste Day (June 24th); Labour Day; All Saints Day; Christmas Day.
POLICE/AMBULANCE/FIRE: Emergency telephones at berths, directly connecting berth with Police and Ambulance.
SHORE LEAVE: Permitted.
AUTHORITY: National Harbour Board.

NANAIMO, B.C.: 49.10 N. 123.57 W. (See Plan Book)

DOCUMENTS:
3 copies Crew List Form IMM.200.
1 copy Passenger List.
3 copies Ship Stores E.1.
3 copies Crew Declarations Y.14.
1 Quarantine Certificate.
Manifest from previous Ports.

PILOTAGE: See "Vancouver".
ANCHORAGES: See "Vancouver".
RESTRICTIONS: No restrictions on Nanaimo Assembly Wharf. Harmac Wharf restricted from 2245 to 0700 hrs.
MAX. SIZE: Ships of any size can be taken into harbour with safety. Controlling depths are: Harbour entrance, 57 ft. at high water and 44 ft. at low water. Mean channel depth, 31 ft. at LW. Mean rise of tide 13 ft.
HEALTH: Pratique granted at Victoria, B.C.
RADIO: Vancouver Radio.
TUGS: Join vessel at Gallows Point, Protection Island. Ship's lines to be used.
BERTHING: Berth A – 34 ft. LLW. Berth B – 34 ft. LLW. Berth C – 37 ft. LLW.
STEVEDORES: Ordered by Agent, 16 hours minimum notice.
MEDICAL: Hospital facilities available.
TANKERS: Tanker berths at private companies' wharves where own regulations on lines apply.
DENSITY: September to May inclusive 1.0203 average. June to August inclusive 1.0171 average.
FRESH WATER: Available ex wharf.
FUEL: Limited quantities available by truck delivery only.
FIRE PRECAUTIONS: No other specific precautions except during extreme heat when smoking may be prohibited on wharf adjacent to lumber.
GANGWAY/DECK WATCHMEN: Services not necessary but security guards are available.
OPENING/CLOSING HATCHES: Either crew or stevedores, by arrangement.
CUSTOMS ALLOWANCE: Tobacco, 200 cigarettes per week or 0.5 lb. tobacco and 15 cigars. Wine and/or Spirit. Officers allowed 40 oz. liquor per week. Crew allowed beer only, any amount. *Note:* Beer is not bonded.
IDENTIFICATION CARDS: Not necessary.
CONSULS: None.
REPAIRS: Temporary repairs only.
REPATRIATION: Facilities exist in Vancouver.
AIRPORT: Cassidy Airport, 10 miles South of Port, scheduled flights. Seaplane service from Harbour to Vancouver or charter.
TIME: Pacific Standard Time, 8 hours behind GMT. Daylight Saving Time in effect from late April to late October.
HOLIDAYS:

(1) Sundays and Good Friday, Easter Monday, Victoria Day (24th May), Dominion Day (July 1st), Thanksgiving and Remembrance Day crews are available at overtime rates by arrangements.

(2) No cargo work on Christmas Day, Boxing Day and New Year's Day.
(3) Labour Day in case of emergencies only.
(4) Crews cease work at 1200 hrs. on December 24th until 0800 hrs. December 27th; also from 1200 hrs. December 31st until 0800 hrs. January 2nd.

POLICE/AMBULANCE/FIRE: Police 754–2345; Ambulance 753–4433; Fire 753–1234.
TELEPHONES: Available for each vessel.
SHORE LEAVE: Allowed.
AUTHORITY: Nanaimo Harbour Commission.

NANISIVIK, N.W.T.: 73.04 N. 84.32 W. (See Plan Book)

SHIPS OFFICER'S REPORT: 1978.

DOCUMENTS: Standard Canadian documents, See "Montreal".
PILOTAGE: No pilotage.
ANCHORAGE: Anchorage can be obtained 15 miles within the entrance of Strathcona Sound, 8 cables off the South shore of the Sound in a berthing depth of 69 m. (228 ft.), clay. Good anchorage is reported to be available in English Bay in a depth of 15 m. (48 ft.).
RESTRICTIONS: Vessel must comply with Canadian Arctic Pollution Regulations which govern earliest and latest dates permitted within Arctic zones depending on vessel's ice classification, nature and quantity of cargo and fuel.
MAX. SIZE: Draft must not exceed approx. 40 ft. alongside dock. Mooring facilities feasible for vessels up to 50,000 tons gross but may prove awkward for those over 20,000 tons gross especially under S.E. wind conditions.
HEALTH: See "Frobisher Bay". Customs officer (R.C.M.P.) Acts as quarantine officer.
RADIO: Vessels bound North should pass messages through Frobisher Bay VFF until into Lancaster Sound where communications regarding ETA, etc. are relayed via Resolute Bay VFR. Direct communication with Nanisivik can be obtained through the airport. The vessel must transmit on 6596.5 and receive on 5366.5. Airport call sign XOY 817.
VHF: No facilities available.
BERTHING: No special requirements. The dock consists of three parallel 70 ft. wide cells which are 55ft. apart. The centre cell supports the shiploader. The right and left hand cells each have two bollards (see plan) each with an additional bollard 150 ft. in from the dock face. To the East and West of the dock there are dolphins supporting single bollards. To connect to these the ship's bow and stern lines are towed ashore and attached to a 0.5 in. diameter × 600 ft. heaving line. Once ashore the lines are shackled to a 3.25 in. diameter × 380 ft. mooring line which is secured to the bollard. The lines are then taken up and made fast.
CRANES: The only shore cranes available are mobile units when they are not in service by the mine.
BULK CARGO FACILITIES: One fixed shiploading gantry capable of loading 100 tonnes per hour. The facilities are automatically shut down when winds exceed 50 m.p.h.
STEVEDORES: As per contract.
MEDICAL: The community has a large modern nursing station with a full time nurse and occasionally a doctor. No advance notice required. Transportation provided by mine vehicles. For serious medical cases vessels should radio in advance so air transportation can be arranged to Frobisher Bay's hospital.
DENSITY: Density varied with ice conditions and tides. Note — When reading densities it has been found that different readings have been found at different depths due to ice melting.
FRESH WATER: Available by tank truck from nearby lake.
FUEL: Not available.
REPAIRS: Minor repairs only i.e. welding etc., by mine personnel.
GANGWAY/DECK WATCHMEN: Not obligatory but recommended due to sudden changes in wind and tide.
OPENING/CLOSING HATCHES: Carried out by crew.
CUSTOMS ALLOWANCES: Standard Canadian allowance except no beer or alcohol permitted ashore. This restriction strongly upheld by R.C.M.P.
REPATRIATION: Crew changes can be effected 3 times weekly to or from Montreal. Mine requires one week advance notice for lodging arrangements.
AIRPORT: Approx. 8 miles from dock, transportation provided courtesy of mine.
TIME: GMT minus 5 hours. Daylight saving time applied from last Saturday of April to last Saturday of October.
SHORE LEAVE: Permitted.
TELEPHONES: Not available on or near dock. Phone calls can be made from the mill offices or in the community.
AUTHORITY: Nanisivik Mines Limited, Nanisivik, N.W.T.

NEW RICHMOND (Black Cape), Quebec: 48.08 N. 65.50 W. (See Plan Book)

LOCATION: On the North Shore of (Cascapedia Bay) Baie des Chaleurs in the municipality of New Richmond.
ANCHORAGE: Outside Black Cape Wharf. Masters are instructed not to anchor in the area of the effluent line to the West of the wharf (See Plan).
RADIO: Ship to shore through Grindstone (VCN) or Fox River (VCG). Calling Frequency 2182 kc/s.
Arrival Advice: 72, 48, 24 hours prior to arrival.
VHF: Bathurst Paper Ltd.
Frequencies: 156.500 kHz (Simplex)
Channel No.: 10 (Marine traffic control)
Station location: New Richmond, Quebec, Canada
Co-ordinates: Lat. 48° 09′ 24″ N.
Long. 65° 50′ 06″ W.
Call sign X 00749
Operating range is about 20 miles.
TIME: Atlantic Standard Time. Daylight Saving time is not observed.
GENERAL:
Charts: B.A. Chart No. 1715.
Navigation Aid: Type DCB rotating beacon. White with a flash interval 0.2 seconds duration once every 5 seconds.
Tides: Atlantic Coast Tide and Current Tables.
Prevailing Winds: Southwest.
Port of Reference: Pointe St. Pierre.
SHIPMASTER'S REPORT: May 1979.
Approaches: Straightforward. We used Canadian Chart 4486 – Baie des Chaleurs. The light on the end of the pier is a rotating beacon type, which shows both Green and White on one rotation. The pier is a good Radar target, but is not conspicuous from seaward in daylight.
Anchorage: Vessels may anchor off the pier as convenient (See "Anchorage" above). We did not anchor, but we would imagine the holding ground to be good, as we found stiff clay in the vicinity of the pier.
Berthing: There are no tugs or Pilots at New Richmond. In good weather conditions, such as we experienced, berthing and unberthing present no difficulties. Caution should be exercised, since the tide and prevailing winds set across the pier.

An offshore anchor let go about 2 cables off the pier head, was found to be most useful arriving and leaving. We let the cable run to one shackle on deck. This is a little too much, for it was found necessary to slack away to 4 shackles in order to get the ship alongside. In good weather, the anchor just on the bottom should be sufficient. Line handlers should be arranged with Consolidated prior to arrival. There is no lineboat.

We berthed head in, starboard side to, on the West side of the New Wharf.

The 32 ft. depth is only available for a length of 400 ft., so vessels of greater length will find their stern overhanging. For plan of soundings, taken at LW (See Plan).

Departure: The vessel was backed easily down the pier, heaving in the cable at the same time and carrying down a bresting line to use as a check if necessary. One shackle of cable should be left out to assist with turning the vessel off the pierhead. This turn should be as short round as possible and care should be taken to keep as near as possible on the line of the axis of the pier while making it. We strayed a little to the Eastwards, but maintained a minimum depth of water of 11.5 m. while making the turn.

The pier is unlighted and it is not advisable to berth during the hours of darkness. Sailing in the dark presents no problem, as the ship's decklights proved adequate.

Density: 1016.
Agency: Matters were attended to by the Consolidated Warehouse Manager.
Documents: New Richmond was our second Canadian port and the only documents required were two copies of Crew List and clearance from previous port.
Officials: The only official gentleman encountered was the local Customs Officer, who was pleasant and obliging.
Cargo Work: Normal hours of work are 0800 hrs. to 2200 hrs., with breaks from 1200 hrs. to 1300 hrs., 1500 hrs. to 1520 hrs. and from 1700 hrs. to 1720 hrs.

Vessel loaded 448 metric tons of Linerboard rolls, using two gangs and ship's gear. Rate of loading, nett time per gang-hour, was 27 tons. The stow was not of very good quality and a lot of chocking and securing was required on completion of loading.

The cargo is brought down to the pier by road transport and waits some time there before being loaded. On a wet day, many rolls will get wet, as Consolidated do not have sufficient covers for all trailers.

General: The pier is some miles from the town of New Richmond.
AUTHORITY: Bathurst Paper Ltd.

NORTH SYDNEY, N.S.: 46.16 N. 60.13 W.

DOCUMENTS:
3 Copies Crew List 1MM.200.
3 Copies Ships Stores E1.
3 Copies Crew Declarations Y14.
Required ship information.
PILOTAGE: Compulsory.
ANCHORAGE: Good holding ground in 5 to 7 fathoms.
RESTRICTIONS: Open year round. During Winter months January/March drift ice can be expected. However, vessels can be assisted by Canadian Coast Guard (Ice Operations).
MAX. SIZE: Depth 38 ft. MLWS. Rise of tide 4 in. Depth alongside 25 ft. Length 350 ft.
HEALTH: See "Sydney"
RADIO: Eddy Point Vessel Traffic Management Centre, Lat. 45° 31′ N. Long. 61° 15′ W. Call Canso Marine Radio (VAX) VHF, MF. and R/T.
TUGS: None available.
BERTHING: CN Marine wharf and transit shed together with roll-on/roll-off facilities for use of their vessels inclusively on the ferry service to Newfoundland.

Two Transport Canada wharves. One 300/100 ft. the other 350/100 ft. with a transit shed for commercial shipping. Depths varing 21/27 ft.

FUEL: Most grades by tank truck.

REPAIRS: North Sydney Marine railway cradle for vessels up to 550 ton displacement. Machine shop for major hull and engine repairs, etc.
SURVEYORS: Canadian Coast Guard, Marine Safety, Sydney.
Others: see Halifax, N.S.
AIRPORT: Sydney. Regular service to Halifax and Montreal International Airports.
TIME: Atlantic Standard Time (GMT minus 4 hours).
AUTHORITY: Transport Canada, Harbour Master, John Shaw.

OCEAN FALLS, B.C.: 52.21 N. 127.41 W.

DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
3 copies Inward Report (Customs A6).
PILOTAGE: Compulsory. Pilots may be taken at Vancouver or Victoria. ETA to be given to Pilots 6 hours before arrival through radio station VAK.
ANCHORAGE: In harbour, ample room for any size vessels.
RESTRICTIONS: Channel depth 25 fathoms.
MAX. SIZE: For berthing alongside, length 600 ft., draft 30 ft.
HEALTH: Ships from overseas are given pratique at William Head.
RADIO: Vancouver Radio, VAK.
TUGS: Not usually considered necessary. Can be made available by prior arrangement.
BERTHING: Ocean Falls Corporation owns four wharves depth alongside 31 ft. at low water.
FRESH WATER: Available from wharves, free of charge.
REPAIRS: Minor repairs to hull and machinery can be effected. No dry docks.
STEVEDORES: Gangs of longshoremen can be hired by arrangement.
AIRPORT: West Coast Air operate daily seaplane service to Vancouver.
MEDICAL: Hospital facilities available.
CUSTOMS ALLOWANCE: 200 cigarettes or 2 lb. tobacco may be held out of bond per person, and 40 ounces of alcohol.
SHORE LEAVE: Crew members allowed ashore.
HOLIDAYS: Easter Monday; July 1st; Labour Day; Thanksgiving Day; Remembrance Day; Christmas and Boxing Day; New Year's Day.
POLICE/FIRE/AMBULANCE: Police tel. 289–3311; Fire 289–3828; Ambulance 289–3828
AUTHORITIES: Dept. of Transport, Ron Acheson, Harbour Master.

OSHAWA, Ontario: 43.52 N. 78.50 W. (See Plan Book)

PORT LIMITS: The limits of the Oshawa Harbour is defined as follows:

All the waters of Lake Ontario within the following limits: Commencing at the high water mark of Lake Ontario where it intercepts the Easterly limit of Lot 1 of the broken front concession of the Township of East Whitby.

Thence along the high water mark in a Westerly direction to a point where it intercepts the Westerly limit of Lot 17 of the broken front concession of the Township of East Whitby.

Thence in a Southerly direction 3,000 ft. into Lake Ontario on the extension of the said Westerly limit of Lot 17;

Thence on a straight line in an Easterly direction to a point on a Southerly extension of the said Easterly limit of Lot 1, 3,000 ft. from the high water mark.

Thence in a Northerly direction to the point of commencement.

And all water-front property, wharves, piers, docks, buildings, shores and beaches in or along the said waters.

DOCUMENTS: The matter of documentation is done through Hub Transportation Services Limited (Terminal Operator) in conjunction with the Customs Office located at the City of Oshawa.
ANCHORAGES: Off the entrance of Lake Ontario.
RESTRICTIONS: Draft 25.6 ft. at the East Wharf. 22 ft. on the West Wall.
MAX. SIZE: Applies to maximum size of vessels entering seaway.
HEALTH: Normal formalities are conducted at first port in Canada in the St. Lawrence Seaway or East Coast, and therefore the vessel is usually considered cleared prior to entering the Seaway system.
RADIO: Toronto VOR or by telephone: (416) 576-0400.
VHF: Not available.
RADAR: None.
TUGS: Tugs available at the harbour entrance. Cost: $800.00 per tug inwards and likewise outwards.
BERTHING: East Wharf – 730 ft., Draft 25.6 ft. West Wharf – 590 ft., Draft 22 ft. Discharging: Ship's gear or shore equipment.
East Wharf – General Cargo, Petroleum, Sugar, Steel, Automobiles.
West Wharf – Gypsum, Salt, Petroleum Products, Coal, Steel.
CRANES: Mobile cranes having a capacity of up to 300 tons are available at all times. 2 of these cranes are stationed at the Port of Oshawa and same have respective capacities of 150 and 100 tons.
BULK CARGO FACILITIES: Dry bulk cargoes with the exception of sugar, i.e. coal, salt and gypsum, are carried by self-underloaders and discharged by ship's gear. Sugar is discharged by mobile cranes using clam grabs at a rate of 225/250 t.p.h. Present discharging gear by high water level, specific details will be made available on request.
BRIDGES: None.
STEVEDORES: The port stevedore (Hub Transportation Services Limited) employs members of the I.L.A., Local 1997, and 4 gangs are available from this local.

The main commodities handled are unitized general cargo, containerized general cargo, import and export steel, and raw sugar.

The productivity rate is above average, with general cargo usually reaching a level of 20 tons plus, per gang. Depending on units, weights, runs somewhere in the region of 60 to 125 tons per gang hour. Bulk commodities are usually discharged at a rate of 250 t.p.h.

MEDICAL: A full range of medical services is available at the local Medical Clinic and Oshawa General Hospital.
FRESH WATER: Fresh water available at East wharf only.
FUEL: Available on request.
FIRE PRECAUTIONS: Usual regulations.
CONSULS: All major consuls in Toronto, 29 miles away.
REPAIRS: Available on request.
DRY DOCKS: Information on request from Hub Transportation Services Ltd.
SURVEYORS: Classification Societies are represented by Lloyds, ABS and N.V. in Toronto.
GANGWAY/DECK WATCHMEN: Not required at the Port of Oshawa.
HATCHES: The opening and closing of hatches is normally carried out by ship's crew.
CUSTOMS ALLOWANCES: In accordance with Canadian standards.
CARGO GEAR: Wherever possible by shore crew.
REPATRIATION: Possible.
AIRPORT: Toronto International Airport. All major airlines, 45 miles West.
TIME: EST.
HOLIDAYS: Usual holidays with the exception that Ontario celebrate Civic Holiday which is the first weekend in August. Cargo work can be arranged.
POLICE/AMBULANCE/FIRE: Police, 579-1234. Fire Department, 725-6574. Ambulance, 576-8711.
TELEPHONES: Arrangements can be made through Bell Canada for telephones to be placed on board. A cost of approximately $24.75 installation charge per line.
SERVICES: All services available on request to Terminal Operator.
SHORE LEAVE: Possible.
IDENTIFICATION CARDS: Seaman's book is sufficient.
AUTHORITY: Oshawa Harbour Commission.

PICTOU, N.S.: 45.41 N. 62.43 W.

DOCUMENTS:
Customs Report Inwards, Form A6 in duplicate.
Clearance from last port.
Stores List, Form E1 in duplicate.
Crew Declarations, Form Y14 in duplicate.
Crew List, Immigration Form 200 in duplicate.
Quarantine Q25 in duplicate.
Fumigating and Deratting Certificate.
Load Line Certificate.
Inspection Certificate.
Safety Equipment Certificate.
Radiotelegraphy Certificate.
Certificate of Register.

If Pictou is first port of call in Canada photostat copies of the ship's ocean bills of lading in duplicate to cover all goods for discharge in Canada.

PILOTAGE: Normally arranged through Halifax as there is no radio station in Pictou. Various pilot boats in use.
ANCHORAGE: Safe anchorage all over harbour in 40 ft.
RESTRICTIONS: No entry restrictions except draft over bar at entrance to harbour, which is 22 ft. low water.
MAX. SIZE: Government pier 720 ft. long with 27 ft. water on both sides.
HEALTH: Masters must complete Quarantine Form QS.25. Vessel may be quarantined by port doctor, if any disease on board.
RADIO: Halifax, call sign, VCS, Channels 26, 59, 79. Alternate Charlottetown call sign VCA, Channel 59.
TUGS: Not necessary for berthing.
BERTHING: No specific requirements; berths usually available at all times.
STEVEDORES: Usually 24 hours notice required for stevedores.
MEDICAL: Hospital facilities available. Serious cases may be transferred to larger hospital at New Glasgow 8 miles distant, or to Halifax 100 miles distant.
FRESH WATER: Supplied by town through 4 in. line. Water pressure 110 pounds.
FUEL: Diesel fuel available in quantity. 24 hours notice required for bunker fuel as it is only brought in on order.
GANGWAY/DECK WATCHMEN: Not usually required unless requested by ship.
OPENING/CLOSING HATCHES: Usually by crew.
CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes per man. Issue may be made if ship is in port for long periods. Wine/Spirits: One bottle per man.
IDENTIFICATION CARDS: Not required. Customs and Immigration Officer should be notified if any crew member wants to travel any distance from port area.
CONSULS: None.
REPAIRS: Facilities to carry out all types of ship's repairs, including deck, engine, electrical and hull repairs.
DRYDOCKS: Largest dry dock, 2,000 ton capacity, 250 ft. long, 42 ft. beam.
REPATRIATION: Crewmen repatriated through Halifax.
AIRPORT: Closest airport is Halifax International Airport approximately 80 miles distant.
TIME: Eastern Standard Time GMT minus 5 hours. Daylight saving time from last week-end in April to last week-end in October, clocks advanced 1 hour.
HOLIDAYS: New Year's Day; Good Friday; Easter Monday; Queen's Birthday (May 19th); Dominion Day (July 1st); Labour Day (1st Monday in September); Thanksgiving Day (2nd Monday in October); Remembrance Day (November 11th); Christmas Day; Boxing Day. Cargo normally not worked on holidays. Would have to be arranged with stevedoring company.

POLICE/AMBULANCE/FIRE: Police 485-4363; Fire 485-4141; Ambulance 485-4381.
TELEPHONES: Facilities available for placing telephones on ships.
GENERAL: For larger and bulk cargoes stevedores should be notified well in advance. Rates vary according to the type of cargo.
AUTHORITY: Department of Transport, Harbour Master.

PORT ALBERNI, B.C.: 49.14 N. 124.50 W.

(See Plan Book)

DOCUMENTS, HEALTH, CONSULS, ETC.: See "Vancouver".
PILOTAGE: Compulsory, contact through Vancouver Radio. Pilot boards at Cape Beale.
ANCHORAGE: Deep water anchorage available in harbour, depths up to 60 ft.
RESTRICTIONS: Depths in approaches 84 ft. MLLW.
VHF: Channel 11 (VTM Tofino); Channel 6, tugs and inter-harbour traffic.
TUGS: Available and required for berthing.
BERTHING: Pulp and paper wharf with two berths supplied directly from MacMillan Bloedel's pulp and paper mill. Berthing length has been increased to 700 ft. with 39 ft. depth on the West side using pile dolphins; on the East side berthing length remains at 500 ft. with 33 ft. depth. Storage sheds in the centre, with specialised equipment for loading pulp and rolls of paper. A smaller berth in the river is used for loading 7,200 ton cargoes on specially covered newsprint barges.

Somass Sawmill Wharf: berthing length 950 ft. with 34 ft. depth; cranes of 5 and 30 ton capacity.

New Port Alberni Terminals Berth 3: 600 ft. long and, with the aid of pile dolphins, can berth ships of 700 ft. and over, with a depth alongside of 40 ft.

Port Alberni Terminals Berths 1 and 2: berthing is 1,050 ft. with 36 to 50 ft. depth. Storage sheds and forklifts.
CRANES: 2 mobile cranes – one 50 ton and one 30 ton.
STEVEDORES: 15 Gangs available. Refer "Vancouver" for holidays, etc.
MEDICAL: Doctors and hospital facilities available.
DENSITY: 1012, approximately.
FRESH WATER: Available at wharves.
FUEL: Supplies by barge from Vancouver.
CUSTOMS ALLOWANCES: See "Vancouver".
REPAIRS: Machine shop capable of major repairs.
AUTHORITY: Port Alberni Harbour Commission.

PORT ALFRED (Including Bagotville)
Quebec: 48.20 N. 70.52 W.

(See Plan Book)

DOCUMENTS:
- 2 Crew Lists.
- 2 Passenger Lists.
- 3 Crew's Declaration (Can. Form Y.14).
- 3 Stores Lists (Can. Form E.1).
- Quarantine (Can. Form QS.2001).
- 3 Cargo Manifests.
- 3 Bills of Lading.
- 2 Stowage Plans.
- Harbour Master Dues receipt.

PILOTAGE: Pilotage is compulsory. A minimum notice of 24 hours must be given to ensure availability of Pilot. This notice to be confirmed 12 hours and 4 hours prior to arrival at pilot station. Reports stating ETA and Net Reg. Tonnage of Vessel to be addressed to "Pilots Montreal" and passed by the Marine Traffic Control communication system on VHF Channel 14 (156.7 mHz), or by any coast radio station.

The Pilot station for vessels upbound to Baie des Ha! Ha! is located at Anse-aux-Basques, charted 2 miles S.W. of Les Escoumins Wharf on the North shore of the St. Lawrence river and for downbound vessel at Quebec City.
ANCHORAGE: Vessels awaiting berthing facilities anchor off Anse a Philippe (48.21 N., 70.73 W.).
RESTRICTIONS: None. Vessels may enter or depart at any time of day or night.
MAN. SIZE: Vessels of up to 39 ft. draft may berth at Duncan Wharf and up to 30 ft. at Powell Wharf. Length and breadth not considered.
HEALTH: Pratique obtained by cable to Quarantine Quebec, and serves for duration of vessel's stay in Canada. See also "Montreal".
RADIO: Halifax Radio Station used by vessels while in Atlantic and Sept-Iles Radio Station while in Gulf of St. Lawrence.
VHF: VHF radio telephone Channel 9 (Escoumins Channel).
TUGS: Two tug-boats available 2,400 h.p. and 1,050 h.p. Join vessel 1 mile off wharves at Port Alfred. Ship's lines used.
BERTHING:

N.H.B. facilities

Berth number (usual name)	*Wharf length (ft.)*	*Depth at Low Water (ft.)*	*Remarks*
Bagotville			
Main Wharf			
(outer face)	167	28	
Lepage			
(outer face)	79	10	
Grande Baie Wharf	833		
(outer face)	44	—	

Private Facilities

Berth	*Length ft.)*	*Depth at Low Water ft.)*	*Utilisation and General Remarks*
Port Alfred (Alcan Smelters and Chemical Ltd, Transport Division).			
(1) Powell Wharf			
South Side	1,138	33	Floor capacity 20,000 tons.
North End	481	39	Two 5 ton electric level-luffing gantry cranes (bucket or hook) operate on a 35 ft. apron.
Across outer end	215	36	
(2) Duncan Wharf			
South Side	1,265	39	For unloading bauxite and salt (bulk). Three electric gantry towers. 500 t.p.h. each, and one for general and bulk, 10 ton capacity. Also two electric towers 1,000 t.p.h. each.
(3) Consolidated Bathurst			
North Side	600	25	

STEVEDORES: ETA sent by cable 72, 24 and 12 hours prior to arrival is sufficient to arrange gangs.
MEDICAL: General hospital at Chicoutimi located 13 miles away, in addition to local hospital.
TANKERS: One 14 in. discharge line using 10 in. and 12 in. discharge hoses. ASA fittings. No slop discharge facilities. One berth available for tankers at 39 ft. draft. (No. 4 Powell Wharf).
DENSITY: 1005.
FRESH WATER: Available at most berths.
FUEL: Only small quantities of O.M. diesel available by tank trucks.
FIRE PRECAUTIONS: Alcanport have a trained fire-fighting crew and fire hydrants installed at all strategic points. No-smoking on all wharves and in ship's holds.
GANGWAY/DECK WATCHMEN: To be attended by ship's personnel.
OPENING/CLOSING HATCHES: Done by crew on bulk discharging. On general cargo, stevedores open and close hatches.
CUSTOMS ALLOWANCE: One carton (200) cigarettes allowed for each Crew member. Wine and/or Spirits, one bottle for Officers and crew and 5-6 bottles to Master.
IDENTIFICATION CARDS: Not required.
CONSULS: Norway, Italy and France.
REPAIRS: Only minor deck and engine repairs.
SURVEYORS: Lloyds at Quebec City. AB and BV at Montreal.
REPATRIATION: Facilities convenient for crew charges.
AIRPORT: At Bagotville, 6 miles from dock, Daily service to Montreal, Quebec City, Sept-Iles and Baie Comeau.
HOLIDAYS: 1st & 2nd January, Easter Monday, St. Jean Baptiste Day (24th June), Confederation Day, 1st July, 2nd Monday of August, Labour Day & 25th December.
POLICE/AMBULANCE/FIRE: Police 544-6804; Fire 544-6804; Ambulance 544-5840 or 543-0755.
TELEPHONES: Telephone outlets at each berth; telephone can be put on main deck of vessels at no charge.
SHORE LEAVE: Crew members allowed ashore.
AUTHORITY: Alcan Smelter and Chemicals Ltd. Transport Division, Port Alfred.

PORT ALICE, B.C.: 50.22 N. 127.28 W.

PILOTAGE: Compulsory. Pilots can be secured off Cape Beale, Barkley Sound, South end of Vancouver Island. Master should advise "Pilots Victoria" via Radio Station VAK giving their ETA Cape Beale.
ANCHORAGE: Good anchorage within one half mile of dock in 30 fathoms.
HEALTH: The nearest station is at Victoria, B.C. Ships coming from foreign other than U.S.A. ports and having duplicate pratique from same to British Columbia ports other than Victoria must obtain Radio pratique through Victoria, B.C.
TUGS: Small tug (335 h.p.) and line boat available to assist berthing and departure if required.
BERTHING: Controlling depth from entrance of Quatsino Sound to Port Alice dock 24 fathoms. A draft of 25 ft. can be handled alongside dock and a vessel 525 ft. in length can be berthed with safety.

Oil tankers with draft up to 35 ft. and 580 ft. in length can berth against berthing scow positioned between dock and oil tanker. (Width of scow 35 ft.).

Bulk Carriers with draft of 35 ft., 565 ft. in length are berthed approximately 16 ft. out from dock by means of log fenders. Gantry of monck cranes extending over apron of dock. Largest ship handled of this type, 29,500 d.w.t., draft 35 ft. 4 ins. (Cargo loaded – Units of woodpulp).
STEVEDORES: Working day of 12 hours.
MEDICAL: 12 bed hospital, physician in attendance.
FRESH WATER: Available.
FUEL: Limited quantity of diesel oil. Fuel oil only available in an emergency from gravity hose on dock, vessel must supply hoses.
CONSULS: None.
REPAIRS: Minor repairs can be made in the company workshop.
CUSTOMS: Customs board at Port Alice.

CARGO GEAR: No shore cranes, ships use own gear.
AIRPORT: 35 miles from Port Alice, daily service.
HOLIDAYS: All Dominion legal holidays.
GENERAL: Port Alice is a private port open to navigation all year round. Limited quantity of supplies available.
AUTHORITY: Rayonier Canada Ltd.

PORT CARTIER, Quebec: 50.02 N. 66.47 W.

(See Plan Book)

LOCATION: Port Cartier is located on the North shore of the St. Lawrence River, approximately 25 miles, in a Westerly direction from Sept-Iles (Seven Islands) at Latitude 50° 02′ North and Longitude 66° 47′ West.

DOCUMENTS:

Immigration

Crew List Form IMM.200 in triplicate or IMCO No. 6.

Customs

Report inwards (A.6) in triplicate.
Crew Declaration (Y.14) in triplicate.
Ship's Stores List (E.1) in triplicate.
Ship's Register.

The above forms will be supplied by mail on request.

The Master shall also have ready for inspection by Customs:

Certificates of Registry, safety construction, safety equipment, de-rat, safety radio, load line, clearance from last port. Any spares, materials for repair, or materials for furtherance must be declared on Form A6A on arrival.

Also see "Health".

On Canadian or International Crew lists, black pen or typewriter must be used. Blue is not acceptable because of copy reproduction difficulties.

Designation and dates of expiry of all major trading certificates are required for outward clearance.

Arrangements have been made so that loading can commence before customs entry has been completed, and customs outward papers will be completed so as not to interfere with immediate departure after completion of loading.

Also see "Shore Leave".

PILOTAGE: Pilotage is compulsory at Port Cartier for docking, sailing and, at Port Authority's discretion, for changing berths.

An exception is made in the case of Coasters or vessels less than 350 ft. LOA unless requested by the Master, or, if considered necessary by the Port Authority.

Pilot will board vessels from attending tug or harbour tender approximately one mile off the harbour entrance.

It is the responsibility of all vessels to ensure that the Pilot ladder is in good condition and in a safe position for the boarding of the Pilot.

Frequencies for VHF communication with Pilot and harbour office. Calling 156.8 mHz. Receiving/transmitting 156.6 mHz. Internal harbour (tugs and Pilots) 156.35 mHz.

Vessels over 40,000 d.w.t. shall also provide accommodation ladder with rope ladder alongside. The landing platform of the accommodation ladder should be approximately 20 ft. above the water.

APPROACHES: The depth of water in the harbour is 50 ft. at MLW. A depth of 54.5 ft. at MLW is maintained in the channel for a width of 200 ft. on each side of the centre line of approach into the harbour. For a distance of 300 ft. on both sides of this channel a depth of 40 ft. at MLW is maintained.

ANCHORAGE:

Anchorage areas have been established as follows:

Designator	*Position*
A.	50° 00′ 57.0″ N., 66° 46′ 36.2″ W.
B.	50° 01′ 07.1″ N., 66° 45′ 44.5″ W.
C.	50° 01′ 16.4″ N., 66° 44′ 53.2″ W.
D.	50° 00′ 32.8″ N., 66° 45′ 44.5″ W.
E.	50° 00′ 22.7″ N., 66° 46′ 35.0″ W.
F.	49° 59′ 56.5″ N., 66° 48′ 43.0″ W.
G.	49° 59′ 44.0″ N., 66° 49′ 32.8″ W.

MAX. SIZE: Vessels of 100,000 d.w.t. and over must have a draft not exceeding fwd. 33 ft. and aft 38 ft. on arrival. Also see "Berthing" and "General".

HEALTH: All vessels should 24 hours before arrival and during normal office hours, 0900–1700 hrs. (holidays and Sundays excepted) radio – "Quarantine Montreal, Quebec" for radio pratique. Ships trading between Canada and the United States continuously and touching no other foreign port, since last granted Canadian pratique, comply with the above, only on first trip to Canada.

The information to be provided to the quarantine officer is:

(a) the name and nationality of the vessel;
(b) the ports called at during the voyage of the vessel;
(c) the nature of the cargo on board the vessel;
(d) the number of persons comprising the crew of the vessel;
(e) the number of passengers on board the vessel;
(f) the port of destination of the vessel and the name of the vessel's owner or, if the owner is not in Canada, the name of the vessel's Agent in Canada;
(g) the condition of all persons on board the vessel and details of any death or illness occurring during the voyage;
(h) whether the body of any person is being carried on the vessel;
(i) the estimated time of arrival of the vessel at the port of destination;
(j) the number of persons on board the vessel who are not in possession of valid evidence of immunization to smallpox: and
(k) the date and place of issuance of any de-ratting certificate or de-ratting exemption certificate applicable to the vessel.

Vessels inspected by Port Health Officer soon as possible, in berth or not.

Persons not in possession of valid smallpox certificate are re-vaccinated if vessel arriving from suspect area.

Masters shall have ready for inspection:

Maritime Declaration of Health Form Q.S.2001 in duplicate.
Deratisation Certificate.

All Smallpox vaccination certificates of crew and passengers if vessel is arriving from an infected Port – otherwise not necessary.

Medical parades of crew may be conducted by the Port Health Officer on vessel's arrival alongside.

RADIO: Cable Address "Cartier" Port Cartier.

Vessels entering the Gulf from the Atlantic should keep watch on Halifax Radio for all traffic. Information as to time of reports and frequencies will be found in International Radio Aids to Navigation Manual.

Traffic List	420 kHz	Even hours plus 50 GMT
	2582/161.9	Even hours plus 40 GMT

Weather, Ice Reports and Notice to Shipping.

Channel 21	Receiving Frequency	161.65 mHz.	
Channel 59	Receiving Frequency	2582 kHz.	
Channel 26 and CW	Receiving Frequency	161.9 mHz.	1330 GMT 1830 GMT 0130 GMT

When vessels are 36 hours from Port Cartier, they should keep W/T watch on VCK Seven Islands radio for traffic from this Port.

VCK – Seven Islands:

Channel		*Transmitting*	*Receiving*
W/T Frequency		500 kHz.	500 kHz.
R/T (HF)	Channel 51	2182 kHz.	2182 kHz.
	Channel 57	2514 kHz.	2118 kHz.
	Channel 59	2582 kHz.	2206 kHz.
R/T (VHF)	Channel 16	156.8 mHz.	156.8 mHz.
	Channel 12	156.6 mHz.	156.6 mHz.
	Channel 24	161.8 mHz.	157.2 mHz.
	Channel 26	161.9 mHz.	157.3 mHz.
	Channel 21	161.55 mHz.	
Port Cartier Station			
R/T (VHF)	Channel 12	156.6 mHz.	156.6 mHz.
	Channel 7A	156.35 mHz.	156.35 mHz.
	(Internal tugs and Pilot)		

The Port Office telephone number is (418) 768-2485, and Telex number is 051-8-6422. It is also fitted with VHF on the frequencies mentioned above. The office is open to receive messages on a 24-hour basis. Radio and radio telephone traffic by a ship at anchor in the area off Port Cartier is permissible.

QUEBEC TRAFFIC CONTROL: Canadian Coast Guard Vessel Management "Quebec Traffic". Vessels passing meridian 66° 23.00′ must report to "Quebec Traffic" on Channel 14 RT VHF 156.70, and remain on standby radio watch at anchorage Port Cartier on Channel 14. Vessels having two VHF are requested to standby Channel 12 (156.6 mHz) as well.

ARRIVAL ADVICE: Also see "General". ETAs – All vessels must advise ETA 72 hours, 48 hours and 24 hours, before arrival. If any change in ETA of more than one hour occurs after transmission of the 24 hour ETA, the vessel must send a corrected ETA immediately. These ETAs shall be submitted in local time at Port Cartier.

In the 72 hours ETA vessels will advise: Tonnage of cargo required; Grain fittings, if any; Quantity orders for supplies; Bunkers, water and cash advance requirements; and Bonded stores.

In the 24 hours ETA vessels will advise the estimated time for pumping ballast after arrival alongside. However, if because of weather or any other cause the estimated pumping time should change, the Port Authority will be notified immediately.

All ships shall request docking instructions 2 hours before arrival.

TUGS: Compulsory, with the exception of Coasters or vessels less than 350 ft. LOA unless requested by the Master, or, if considered necessary by the Port Authority. Meet vessel outside harbour under instructions from Pilot. Tug lines used at all times. Two tugs of 3,800 h.p. available.

BERTHING: North dock 2,500 ft. long includes No. 1 West Berth, length 1,000 ft., for ore loading, and No. 4 East berth, length 1,500 ft., for Bentonite and Limestone discharge and as a standby berth. The South dock length 1,480 ft. includes No. 2 West berth for discharging grain, and No. 3 East berth for loading grain. Tanker berths also located on the South dock. Berth No. 5 on the South side of the South dock for general cargo use by coastal vessels only. Coastal vessels also use Berths No. 1, 2 and 3 when permitted by the Port Authority. Ore loading facilities are being expanded into standby berth by 1,000 ft. which facilities are expected to be completed by late in 1980.

Vessels cautioned not to use anchors in harbour in case of damage to bubbler system installed on the bottom of harbour. The bottom is smooth surface rock and anchors are of very little value.

Faces of all berths fitted with rubber tyre fenders. All mooring ropes and wires should have eyes at least 8 ft. in diameter.

Mooring bollards are positioned 75 ft. apart at Berths No. 1, 2 and 3. There are also bollards at every pier at Berth No. 4. All bollards except those at Berths No. 2 and 5 are 4 ft. in extreme diameter and all mooring ropes and wires should have eyes at least 8 ft. in diameter.

The East Breakwater Cells are cathodically protected. The cabling and anodes extend approximately 60 ft. from the cells, affording all round protection. The use of anchors, or equipment likely to damage this protection, is not permitted within these areas.

Bentonite and Limestone: The Bentonite and Limestone discharging facility has a rated capacity of 1,500 t.p.h., with the discharge hopper being in a fixed location on Berth 4.

Also see "General".

MEDICAL: Hospital facilities and dentist available.
TANKERS: No facilities for slop discharge.
DENSITY: Has been known to vary slightly between 1025 and 1021, but is considered salt.

FRESH WATER: Available to all vessels at Berths No. 1, 2, 3, 4 and 5 with connections conveniently located. Rate of approximately 20 t.p.h. The fresh water line is 6 in. with 2.5 in. standard Quebec hose, male connection of 7 threads to the inch. Necessary connections and hoses are to be furnished and handled by vessel.

If required, fresh water can be supplied to vessels at anchor. Max. amount per trip 40 tons.

FUEL: Available at Berths No. 1, 2, 3 and 4 for Bunker "C", marine diesel and/or any specialised blend and connections are positioned for ready supply to all vessels. All bunker requirements are directly supplied by Gulf Oil Canada Limited, and proper credits should be established. Bunker "C" can be supplied at approximately 2,300 b.p.h. Marine diesel oil can be supplied at approximately 1,600 b.p.h., Bunker "C" line is 10 in. with 6 in. reducer flange connection. Marine diesel oil line is 8 in. with 4 in. reducer flange connection. There is no coal available at this port.

Vessels nominated for Port Cartier and required to anchor awaiting a berth, which in the meantime require bunkers, will be permitted to enter the harbour, if a berth is available with bunkering facilities, for the purpose of bunkering, and shall then return to anchor. The fee for this service shall be $2,315 (including second tug if used) plus applicable line handling charges.

GANGWAY/DECK WATCHMEN: Not necessary. Security guards obtainable on request.

OPENING/CLOSING HATCHES: Normally done by crew.

CUSTOMS ALLOWANCES: Canada Customs regulations allow each crew member to have in his possession for his personal consumption 200 cigarettes, 50 cigars, 2 lbs. pipe tobacco and 40 oz. of spirits. All quantities must be declared on Crew Declaration Form Y-14 along with all personal effects such as Radios, Cameras, Tape Recorders, Binoculars, Souvenirs, etc., plus serial numbers of these items.

N.B. Masters of vessels are advised that tobacco items and spirits in excess of these amounts in possession of crew members should be collected and placed in bonded stores prior to the vessel's arrival in order to speed up the clearance of the vessel.

Canadian seamen returning from voyages to American or other foreign ports are permitted $50 value of duty free merchandise every quarter for periods outside Canada of over 48 hours and $150 once a year for periods outside Canada of 7 days.

IDENTIFICATION CARDS: Not necessary.

REPAIRS: Minor repairs can be effected, under supervision of ship's personnel.

REPATRIATION: Crew changes and repatriation can be carried out.

AIRPORT: Nearest airport is Seven Islands about 40 miles by road. Services to Quebec City and Montreal, 4 flights daily.

TIME: Port Cartier is located in the Eastern Standard Time Zone (GMT less 5 hours). Daylight Saving Time (GMT less 4 hours) is observed from last Saturday in April to last Saturday in October.

HOLIDAYS: See "General".

POLICE/AMBULANCE/FIRE: Police 766-2233; Ambulance/Fire 768-2300.

TELEPHONES: No direct connections to vessels. Available on berths.

POLLUTION: The discharge of oil and garbage into the waters of Canada is prohibited by strictly enforced regulations which provide heavy penalties on summary conviction. Every precaution must be taken to prevent escape of oil from a vessel, but should such an escape occur, the regulations require that vessel immediately report it to the nearest Steamship Inspection Office, or to the Chairman, Board of Steamship Inspection, Ministry of Transport, Ottawa.

SERVICES: Electronic repair services to navigational equipment. Should be requested in advance.

SHORE LEAVE: All ships arriving from a foreign port will be boarded by Customs and Immigration Officers. Ship's personnel are not allowed ashore until permission is granted by these Officers, nor shall crew members joining a vessel board without customs permission.

DELAYS: Occasionally Easterly weather conditions may delay vessels berthing.

GENERAL: Vessels which have completed discharging of grain and are to load iron ore should have ratguards fitted to all mooring lines at all times.

Ore Concentrate and Pellet vessels:

I. Advising Arrival: (See also "Arrival Advice") 1. Each vessel operator or its principal shall notify Quebec Cartier Mining at least two weeks prior to the expected arrival of each vessel at Port Cartier and Quebec Cartier Mining Company shall forthwith advise such vessel operator or principal whether it can accept the vessel at such time. An allowance of three days preceding and three days subsequent to the date so fixed will be made for the actual arrival of each vessel. If the vessel's actual arrival is not within such three-day period preceding or subsequent to the date fixed for its arrival, Quebec Cartier Mining Company may fix another arrival date for such vessel that will not interfere with other scheduled loading. Quebec Cartier Mining Company shall be kept fully advised of all vessel nominations, substitutions, cancellations, delays, sailing dates at Port Cartier of all vessels designated to accept delivery of ore at this Port.

2. The submission of a Notice of Readiness by the vessel will constitute acceptance of all terms and conditions of this Advice to Vessels by the vessel, its managers, Agents, Master, operator and or charterer.

II. Loading Conditions: Ships will be loaded in regular turn of vessel's arrival off Port Cartier provided they present with hatches open and do not have ballast pumping time which will exceed minimum loading time. The one shiploader has a rated capacity of 9,000 metric t.p.h. for concentrate and 7,200 metric t.p.h. for pellets. A vessel which has berthed at the loading dock and is found to have a deballasting rate time which in the opinion of the Port Authority will not permit loading at maximum rate, may be ordered off the dock and moved to the standby berth or to anchorage until it is in a condition to accept its cargo at maximum loading speed.

The vessel will then be returned to the ore loading berth in turn, following re-submission of Notice of Readiness. All moves to be at vessel's expense. Quebec Cartier Mining Co., Port Authority will be final arbitrator in case of dispute.

III. Loading Minimum and Vessel Specifications: Each vessel designated to accept delivery of ore at Port Cartier, must conform in construction to the following specifications and conditions:–

1. Not less than 4 ore hatches of at least 18 ft. square, except Great Lake Bulk carriers where the minimum width of hatches shall be 9 ft., to accept Ore Cargo direct from loading tower at Port Cartier.

2. All vessels nominated must be suitable for the loading and the transportation of concentrates or pellets and capable of taking the entire cargo to be loaded in the lower holds without "peak-up" above the tween deck levels. The vessel shall load and stow cargo in accordance with the Canada Shipping Act and Regulations.

3. Hatch opening sufficiently clear of obstruction on deck to permit free and direct contact with loading tower.

4. Vessels may be loaded to a draft of 54 ft. if tides permit them to sail while maintaining a safe under keel clearance (at least 3 ft.) on a rising tide.

If a vessel requests to wait for a following higher tide in order to lift more cargo, and the Port Authority agrees, then this additional time is not to count and, if required by the current operational condition of the Port shifting is necessary, all additional shifting fees will be for the account of the vessel.

5. *Maximum Allowable Dimensions:* Maximum allowable dimensions of vessels at the ore berth.

LOA 995 ft.
Beam 174 ft. Moulded depth 92 ft.
Air draft under loader:
MHW 42 ft. water line to top of hatch covers.
MLW 52 ft. water line to top of hatch covers.
Draft of Vessel Loaded:
Draft at MLW 48 ft. loaded.
Draft at MHW 54 ft. loaded.

IV. Special Regulations: 1. Any vessel which discharges a cargo of Grain and is to load a cargo of Iron Ore will be considered in turn for loading only after the vessel has completed discharging Grain and is in all respects clean and ready to receive Iron Ore.

2. Loading plan should be available as soon as possible after arrival and must be presented to the ore loading foreman, in metric tons, on arrival at the berth.

3. All shipboard work necessary for docking and loading, including but not limited to line handling and tending, opening and closing hatches, and normal deck cleanup, shall be done by the vessel's crew.

4. Any owner or charterer with more than one vessel waiting turn to load may interchange his vessels, provided they are of comparable capacity (deadweight). Any interchange of turn must be arranged with and have the approval of Quebec Cartier Mining Company.

5. All weights shown on the Bill of Lading and or Manifest will be the same as recorded on the weighing facilities of Quebec Cartier Mining Company.

6. The Port will be in operation 24 hours a day, 7 days a week; however, ore vessels will not be loaded on New Year's Day (January 1st), and on Christmas Day (December 25th), nor will they be loaded from 0800 hrs. Sunday to 1600 hrs. Sunday, nor during the same period on the following holidays: Good Friday; St. Jean Baptiste Day – June 24th; Dominion Day – July 1st; second Monday of July; first Monday of August; Labour Day – first Monday of September; Thanksgiving – second Monday of October; Boxing Day – December 26th.

7. Arrangements have been made so that loading operations will commence as soon as possible after the vessel's arrival at the loading berth.

8. Vessels usually dock Port Side to at Ore Berth.

V. General Instructions in Preparing Vessels' Holds to Accept Iron Ore Concentrate: Quebec Cartier's Iron Ore is a type of Iron Ore Concentrate which weighs on the average 192 lbs. per cu.ft., and stows at approximately 12/13 cu.ft. per gross ton.

The Iron Ore contains an average moisture content from 2.5% to 3.5%, and could sometimes in the Summer Season be shipped at as high as 5%. The character of this Ore is self draining. It will retain moisture up to about 2.5%, but all moisture over and above this will drain on compaction of the material, and also, if the Ore is left for long periods in Stock-pile or in the hold of a vessel, this drainage of moisture will sometimes leave a considerable quantity of water in the hold of the vessel, and could cause some inconvenience when discharging the cargo. For this reason all Bilge Strums or Wells should be sounded regularly and pumped out at regular intervals, so as to keep the bottom of the hold as dry as possible.

Quebec Cartier's Iron Ore is considerably abrasive, and could cause damage to Bilge Pumps. Masters of vessels are advised to cover all Bilge Strums or Wells with Burlap in a similar manner as when receiving a Grain Cargo in Bulk; so as to permit a free flow of the water and retain the Iron Ore in the hold of the vessel.

All holds for the acceptance of this cargo should be clean prior to the arrival of the vessel.

VI. Pellet Stowage Factor: Iron Ore pellets will stow at about 17/18 cu.ft. per gross ton.

All holds for the acceptance of this cargo should be clean prior to the arrival of the vessel.

Grain Vessels: Berthing and use of the Elevator Dock Facilities: *Regulations, Terms and Conditions:*

(The term 'Tariff' refers to the Tariff issued periodically by the Elevator Company; the term 'Company' in this section refers to the Elevator Company).

1. Application for Berth: All vessels, their owners, managers, Agents, Master, operators or charterers, desiring a berth at the Elevator, shall file application for loading berth at the Elevator office between 0900–1700 hrs. Mondays through Fridays and from 0900–1200 hrs. on Saturdays, except on holidays as defined in Item 7 of Subsection II A of the Tariff. Application shall be made in writing on forms supplied by the Company. Notwithstanding such application form, each owner, manager, Agent, Master, operator, or charterer, or other duly authorized representative of the vessel agrees that in consideration of the berthing of such vessel, *there will be delivered to the Company signed written evidence of the receipt on board of the grain or other commodity/ies according to the Company's description and tally (i.e. Mate's Receipt).* Such berthing shall also evidence agreement to pay in full, as per invoice, for all services rendered to the vessel and agreement to be governed by all rates, rules and regulations contained in the Tariff as interpreted by the Company, all such charges constituting a lien against the vessel until paid. Such application shall be dated and timed. Upon acceptance by the Company this application shall constitute a contract between the Company and the owners, managers, Agents, Master, operators, and/or charterers to accept and comply with all the charges, rules and regulations set out in the Tariff.

2. *Allocation of Loading Berth:* Except as otherwise provided in these regulations, vessels shall be assigned a loading berth in the chronological order in which they file with the elevator office the signed application for berth, accompanied at the time of filing by the following documents:

(a) Certificate issued by the Canadian Government Department of Agriculture and/or by the United States Department of Agriculture, Grain Division, as the case may be, that all cargo holds are fit to load in compliance with the regulations of the respective departments.

(b) Certificate of Readiness in all compartments issued by the Port Warden.

(c) Evidence to the effect that the vessel has been entered at the Canadian Customs House.

(d) Evidence to the effect that the vessel has been tendered to and accepted by the Charterer.

3. *Unloading Vessels Application for Berth:* Subject to the exceptions contained herein, but at all times in accordance with the provisions of the Canada Grain Act and Canadian Grain Commission Regulations, vessels shall be assigned to an unloading berth in the order in which they arrive in port and file application and required documents for berth with the Company with evidence of vessel's readiness to discharge.

(a) A hold of a vessel having been partially unloaded at another port shall not be accepted for unloading.

(b) A hold of a vessel having a separation between more than one grade or kind of grain shall not be accepted for unloading.

4. *Berthing Prior to Receipt by the Company of Appropriate Certification:*

(a) At the sole discretion of the Company, a vessel may be allowed to berth alongside the Elevator prior to having received all the above certificates (as per above items 1 and 2). If subsequently, the vessel fails to deliver such certification, it must, immediately on order of the Company vacate the berth. Nothing contained in this rule shall be deemed a waiver of any of the provisions of Item 5 hereinafter.

(b) Any vessel, which has been allowed to berth at the Elevator having previously filed all the certificates enumerated in above item 2, and which subsequently is found by an Official Inspector unsuitable to receive grain or other commodity for any reason, must, if required by the Company, immediately vacate the Elevator berth. Nothing contained in this rule shall be deemed a waiver of any of the provisions of Item 5 hereinafter.

5. *Refusal or Failure to Vacate Berth:* Any vessel which fails or refuses to vacate the berth when required by the Company, except as provided hereinafter (see "Completion of Loading" Item 11.) shall be assessed, in addition to any other charges due hereunder, an automatic charge of $1000.00 per hour or any part thereof after vacating notice has been given in writing to the owner, manager, Agent, Master, Mate, operator or charterer of the vessel. This charge shall be paid promptly and it is accepted that it accurately represents a minimum estimate of damages to the Company because of refusal or failure of the vessel to vacate. This payment shall not constitute a waiver on the part of the Company to claim greater actual damages that may be sustained as a result of the vessel's failure to vacate.

The Company, itself or through the Port Authority, shall have the right, authority and privilege to compel the removal of the vessel, by any lawful means, at the vessel's own risk and expense and shall not be liable for any damages, delay or other expenses, including legal costs, arising from the act of removal of the vessel, by whomsoever incurred.

6. *Berth Operations:* The Company, in its sole discretion, may:

(a) Alter the turn of vessels whether in berth or not, when confronted by an urgent need to receive or ship a particular grade or kind of grain or other commodities, or when in its judgment

(i) This is necessary or desirable in order to facilitate elevator operation, or

(ii) Conditions within the Elevator or approaches thereto by water or land render this necessary or desirable.

(b) Require a vessel to load in overtime hours at vessel's own expense during all hours when labour can be available, continuously until loading is completed, or for any part of such hours as the Company may determine necessary. This rule may be applied whenever more vessels are in port than can be berthed at the Elevator, or in order to expedite the movement of vessels and/or grain, and/or other commodities, or to ensure the fullest possible use of the Elevator, or to eliminate any threat of actual or possible congestion of any other vessels. Any vessel unwilling to work overtime as directed in accordance with this rule shall vacate the berth without delay and the vacating vessel shall only be permitted to berth again at the Elevator after giving written agreement to load continuously until completed whether in regular or in overtime hours. Should any vessel refuse to vacate, it will be liable for damages described in above Item 5.

(c) If a strike or other labour disturbance involving a vessel at berth or waiting for berth (whether by vessel's crew or otherwise) will, in the Company's judgment, tie up or impede operations at the dock, it may order such vessel out of berth or refuse to accept it at the berth. Should any vessel refuse to vacate, it will be liable for damages described in above Item 5.

7. *Liner Preference:* In assigning berth, as per above Item 2, to vessel at the Elevator, the Company may, at its sole discretion, accord preference to liner vessel, except that no vessel which is occupying the berth(s) and is willing to work unlimited overtime at its own expense until completed, shall be required to leave the berth(s) in favour of liner vessel. Liners accorded such priority berth(s) shall work unlimited overtime at their own expense until completed, if so required by the Company.

To be considered for a priority berth, liner vessels shall be required to file application as per above Item 1 before 1600 hrs. on weekdays, or before 1200 hrs. on Saturdays (Holidays are excluded) and they may then be given priority 24 hours thereafter for the first available berth.

A liner vessel may not be eligible for priority over a non-liner vessel which has filed for berth and on which 4 running days have elapsed since filing, said running days to commence at 0700 hrs. on the day following the date of filing. For the purpose of eligibility as a liner, a vessel must meet both following requirements:

(i) The vessel is sailing under an advertised schedule and operated by a line maintaining regular sailings from any Great Lakes, St. Lawrence River, Canadian or U.S. Atlantic port or ports, and,

(ii) The total quantity of all grain loaded and/or to be loaded shall not exceed one half of the total deadweight tonnage of the vessel.

8. Loading Port Cargoes: In order to facilitate Elevator operation at full capacity, vessels loading part cargoes, other than liners, will, if considered advisable by the Company, yield turn for berth to vessels loading full cargoes. However, permission for regular turn may be requested by the shipper of a part cargo at least 1 week prior to expected date of vessel's arrival which permission will be granted if, in the judgment of the Company, congestion is unlikely. Vessel will not lose more than 3 weather working days on turn as a result of this clause.

9. *Vessel in Berth:* Any vessel in berth shall at all times maintain appropriate officers and crew aboard to permit shifting of the vessel or reception or discharge of cargo at any time of day or night including Saturdays, Sundays and Holidays.

All vessels discharging or loading grain or other commodities will at all times have adequate rat guards on all mooring lines.

10. *Work Interruptions:* When work is interrupted on account of rainy or other weather conditions, a vessel at its own expense may be required, at the discretion of the Company, to retain on standby, according to local labour rules, stevedore and other labour necessary to the loading, up to a maximum of 2 hours in any stevedoring work period, excepting those work periods which begin at midnight and 0100 hrs. For the midnight work period a vessel at its own expense may be requested to stand by a maximum of 6 hours and for the 0100 hrs. work period, a maximum of 4 hours. Any vessel or its Agent failing to have such labour available, if so required, shall be, in addition to any other charges due hereunder, assessed a charge of $1000.00 per hour for any period where work is subsequently ordered resumed by proper authority (after the weather interruption) but cannot be carried out for lack of labour.

If such interruption occurs during an overtime period or on Saturdays, Sundays or Holidays, the usual charges for overtime periods as per Item 7 of Subsection II A of the Tariff will still be fully assessable and due in addition to the above charge. This rule shall be applicable unless otherwise agreed upon by the Company in writing.

11. *Completion of Loading:* Upon completion of loading, a vessel shall not occupy the loading berth at the Elevator longer than is necessary to close the hatches. Vessels requiring to set booms and derricks before making ready for sea may request written permission from the Company to do this work at the Elevator berth, but it shall be at the sole discretion of the Company whether such permission is granted or not. Any vessel not granted such permission must vacate the berth immediately as required by the Company.

Failure to comply with this requirement will automatically cause the vessel or its Agents to be assessed an extra charge of $1000.00 per hour or part thereof from the time that permission was refused. This charge shall not impair the right of the Company to compel removal of the vessel from the berth nor shall it constitute a waiver on the part of the Company to claim any greater damages that may be sustained as a result of vessel's failure to vacate. The Company shall have the right, authority and privilege to compel the removal of the vessel by any lawful means at the vessel's own risk and expense and the Company shall not be liable for any damages, delay or other expenses including legal costs, arising from the act of removal of the vessel, by whomsoever incurred.

Port Expenditure: In addition to the port charges, the following charges will be applicable:

1. Grain Inspection Fee.
2. Charges as quoted in Grain Operator's Tariff.
3. The Port Warden and D.O.A. and/or U.S./D.O.A. fees when applicable, charged at cost in accordance with the regulations.

Loading and Unloading Facilities: Maximum dimensions allowable under Grain Berth:

LOA	900 ft.
Beam	137 ft. for self trimming bulk carriers 137 ft. OBO centre holds only 125 ft. Tankers providing off shore tank are a minimum opening of 15 ft. inside ship's side
Draft	49 ft. loaded. (Minimum of 3 ft. under keel clearance at all times).
Air draft	LW 53 ft. to top of hatch covers HW 45 ft. to top of hatch covers

Vessels are required to present alongside the loading berth with hatches open and gangway ready.

On completion of loading, vessels are required by the Elevator Company to vacate the loading berth within 1 hour. If additional time is required alongside the loading berth application for an extension must be made at time of docking.

Note: Most vessels requiring additional dock time will be ordered to a lay-by berth, if available, or to anchorage at their expense.

REGULATIONS: Also see "General".

1. Ships will leave the loading or discharging berth immediately on completion of loading or dischargng. If any delays occur on documentation, crew members missing etc., ship will leave the dock and all matters will be handled from anchorage or another berth.

2. Vessels ordered to anchor, should do so in the recommended, area see "Anchorage". Failure to do so may result in delays to vessels from being boarded by Port and Government Authorities. Vessels at anchorage must remain 0.25 miles clear of the harbour approach channel.

3. Vessels arriving in ballast should ensure they are in good trim for safe handling into the harbour, bearing in mind the loading rate, so as not to cause any delay in loading due to deballasting. However should a vessel not be sufficiently ballasted at the time of proceeding into the harbour the Pilot may request further ballasting, depending on the prevailing weather conditions. If in doubt the Master should contact the Port Office by Radio Telephone.

4. Vessels should have main engines and deck machinery operable at all times when alongside the berth. Permission contrary to the above must be obtained from the Port Authority.

5. Vessels having discharged Petroleum Products at last port and not in possession of a valid Gas Free Certificate by an independent chemist will advise accordingly in the 72 hour ETA, and arrangements will be made to have a chemist available on arrival at vessel's expense. Masters must present a valid Gas Free Certificate before Notice of Readiness may be tendered.

6. Normally, vessels will be permitted entry to the harbour, to their assigned berth in order of their arrival. However, the Port Authority may alter the order to assure in its sole opinion, efficient operation of the harbour. The Port Authorities shall be the final arbitrator in case of dispute.

7. The Port Authority may require a vessel to vacate an assigned berth, proceed to anchor or standby berth and return to the assigned berth to complete loading or discharging as soon as conditions permit.

8. Any vessel which fails or refuses to vacate the berth when required by the Company, shall be assessed, in addition to any other charges due hereunder, an automatic charge of $1000.00 per hour or any part thereof after vacating notice has been given in writing to the owner, manager, Agent, Master, mate, operator or charterer of the vessel. This charge shall be paid promptly and it is accepted that it accurately represents a minimum estimate of damages to the Company because of refusal or failure of the vessel to vacate. This payment shall not constitute a waiver on the part of the Company to claim greater actual damages that may be sustained as a result of the vessel's failure to vacate.

The Company, through the Port Authority, shall have the right, authority and privilege to compel the removal of the vessel, by any lawful means, at the vessel's own risk and expense and shall not be liable for any damages, delay or other expenses, including legal costs, arising from the act of removal of the vessel, by whomsoever incurred.

AGENT: Quebec Cartier Mining Company, Port Office, PO Box 188, Port Cartier, P.Q. Canada. Tel. (418) 768-2485. Telex: 051-8-6422.

PORT COLBORNE, Ontario: 42.52 N. 79.15 W.

Refer to "St. Lawrence Seaway" for important general information.

DOCUMENTS: All documentation carried out by Authorities in Montreal. Only when vessels have called at United States port after departing Montreal will any changes in documentation be necessary, which will consist of a United States Customs Clearance Certificate, to be available on board.

Immigration papers.
1 copy QS2 (Health Certificate).
3 Stores Lists.
Crew Personal Effects List.
Customs Clearance.
All of the above will have been stamped in Montreal.

PILOTAGE: Compulsory for ocean vessels over 250 tons gross. Pilots are available at Port Weller (upbound) and Sarnia (downbound). Supervisor of Pilots located in St. Catharines.

ANCHORAGE: In Lake Erie, beyond the 3-mile fairway buoy at entrance to Port Colborne Harbour.

No anchorage available outside those allocated by the St. Lawrence Seaway Authority, except those vessels waiting to unload at N.H.B. facilities only can moor temporarily on the inner breakwater West of the N.H.B. elevator with permission from the N.H.B. elevator manager.

RESTRICTIONS: Navigation season approximately from April 1st to December 31st. Channel depth 27 ft. dependent on Lake level.

Limiting depth in the channel from Port Colborne piers to Bridge 21 and 20 is 9.14 m. (30 ft.). From Bridge 21 and 20 North to Rameys Bend the limiting depth in the channel is 8.23 m. (27 ft.). The Welland Canal will accommodate vessels not exceeding 222.5 m. (730 ft.) in overall length and 23.16 m. (76 ft.) in extreme breadth. Permissible draft is 7.92 m. (26 ft.).

MAX. SIZE: 730 ft. length, 75 ft. 6 in. beam, 26 ft. draft.
HEALTH: Pratique granted at Montreal.
TUGS: None available.
MEDICAL: Local hospital at Port Colborne. All assistance available.
DENSITY: Fresh water.
FRESH WATER: Available at West Side Wharf.
FUEL: Bunker and diesel fuel available.

BERTHING:

Rameys Bend, Wharf No. 12:

Type	Stone and Sand
Equipment	Tunnel and Belt Conveyor, Loading
Length	1,797 ft. (547.7 m.)
Depth	27 ft. (8.23 m.).

Robin Hood Dock, Wharf No. 13:

Type	Elevator – Grain and Grain Products
Length	1,000 ft. (304.8 m.)
Depth	26 ft. (7.92 m.)

R.E. Law Dock, Wharf No. 14:

Type	Stone
Equipment	1 Belt Conveyor Loading only
Length	700 ft. (213.4 m.)
Depth	26 ft. (7.92 m.)
Storage Capacity	15,000 tons stone.

Wharf No. 15:

Type	Sand
Equipment	Self-unloaders
Length	850 ft. (259.1 m.)
Depth	14 ft. (4.27 m.).

Rochester & Pittsburg Coal Company, Wharf No. 16:

Type	Stone and Marine Diesel Oil
Equipment	1 Belt Conveyor 7 ins. – 8 ins. Pipe-line
Length	1,480 ft. (451.1 m.)
Depth	30 ft. (9.14 m.)
Storage Capacity	30,000 tons above.

Canadian Furnace, Wharf No. 17:

Type	Unloads Ore and Limestone, Loads Pig Iron and Scrap
Equipment	2 – 5 tons McMyler Bridges
Length	1,120 ft. (341.4 m.)
Depth	30 ft. (9.14 m.)
Storage Capacity	250,000 tons.

Fuelling Wharves:

Imperial Oil – Shell Canada Wharf No. 18:

Type	Marine Diesel Fuel, Bunker "C", Coal
Length	1,650 ft. (502.9 m.)
Depth	30 ft. (9.14 m.)
Storage Capacity	170,000 Barrels.

Maple Leaf Mills Ltd., Wharf No. 19:

Type	Grain Elevator
Length	900 ft. (274.3 m.)
Depth	17 ft. (5.18 m.)
Storage Capacity	2,250,000 Bushels.

National Harbours Board, Wharf No. 20:

Type	Grain Elevator
Length	Holding Side 900 ft. (274.3 m.)
Depth:	Holding Side 19 ft. (5.79 m.)
Storage Capacity:	3,000,000 Bushels.

REPAIRS: Lay-up berth at West Side Wharf, 9.5 ft. – 13.5 ft. alongside. Local repair shops for boiler, engine and above deck repairs.
DRYDOCK: At Port Weller.
SURVEYORS: Lloyd's at St. Catharines, American Bureau at Toronto.
AUTHORITY: St. Lawrence Seaway Authority, Port Colborne.

PORT DALHOUSIE, Ontario: 43.12 N. 79.16 W.

(See Plan Book)

LOCATION: On the South shore of Lake Ontario 43 km. Southeast of Hamilton and 5 km. West of Port Weller, the Northern entrance of the Welland Canal. Port Dalhousie is now amalgamated with the City of St. Catharines.

APPROACHES: Access to the port is through 2 parallel entrance piers projecting out into Lake Ontario, which lead into a wide basin utilized by recreational vessels.

RESTRICTIONS: Navigation season: Usually April 1st to December 30th. Channel depth: Limiting depth in the channel between the entrance piers is approximately 21 ft. to 23 ft. below Chart Datum (Elev. 242.8 ft.) and gradually reduces in depth towards the basin.

RADIO: Ship-to-Shore communications: Through Toronto (VBG).

TUGS: No towing facilities.

BERTHING: The entrance to the harbour is between 2 parallel concrete piers 61.0 (200 ft.) apart. The East pier 701.1 m. (2,300 ft.) in length, extends out 457.3 m. (1,500 ft.) from the shore, 76.2 m. (250 ft.) beyond the outer end of the West Pier. Southward of the inner end of the entrance piers, the harbour widens out into a basin utilized by recreational vessels. The East pier is utilized by an existing sandsucker operation and by several hydrofoil vessels.

MEDICAL: General Hospital and Hotel Dieu at St. Catharines.
CUSTOMS: Officers available at St. Catharines at any hour by previous arrangement.
FUEL: Gasoline available.
SERVICES: Supplies available.
SURVEYORS: Lloyds at St. Catharine, ABS at Toronto.
AUTHORITY: Department of Fisheries and Oceans, Small Craft Harbours Branch.

PORT HAWKESBURY AND STRAIT OF CANSO, N.S. (See Plan Book)

PORT LIMITS: Port Hawkesbury and Mulgrave harbour limits are from a line joining Melford Point and Bear Head, and the Canso Causeway.

DOCUMENTS:

3 copies Crew Declaration, Form Y14 (IMCO Form 5 acceptable).
3 copies Store List, Form E1.
3 copies Immigration Crew List, Form IMM200.
3 copies Inward Report, Form A6.
2 copies Shipping Report, Form S1.
3 copies Outward Report, Form A6.
Completed Maritime Declaration of Health, Form QS2001.
Valid Derating Certificate.
International Vaccination Certificates for crew members.
Complete copy of Manifest for Goods to be Discharged in Canada.
Clearance from Last Port.

Tankers must be in possession of Canadian Compliance Certificate, valid for 2 years, or have arrangements made to receive one.

ICE: Ice Advisory and Shipping Support Service is provided from mid-December to the end of the ice season. Information regarding ice conditions is broadcast regularly and special reports will be obtained on request from "Ice Halifax" through Halifax Radio (VCS).

Local reports are included in a routine information broadcast on VHF by "Eddy Point Traffic" at half hourly intervals.

Masters are cautioned that it may be necessary to remove certain buoys in Chedabucto Bay and the Strait of Canso during the ice season, and it is recommended that Masters request information on their deposition from "Eddy Point Traffic" prior to entering the Canso Marine Traffic Regulating Zone.

PILOTAGE: Pilotage is compulsory. Pilotage boarding stations:

Strait of Canso, Northern Approach:	45° 42′ 42″ N. 61° 29′ 12″ W.
Strait of Canso, Southern Approach:	45° 24′ 00″ N. 61° 01′ 00″ W.

Vessels must report by radio-telephone or radio-telegraph their ETA's to the Eddy Point Marine Aids Centre, 12 hours before the vessel's ETA. Time used must be GMT. ETA's must be confirmed or corrected not more than 8 hours later nor less than 4 hours prior to the new ETA.

Canso pilot boat guards Channel 14 whilst in the area of Chedabucto Bay approach and Channel 12 whilst in the area of St. George's Bay approach.

ANCHORAGES: In the interests of safe navigation, anchorage berths for vessels of 65 ft. registered length have been established.

Anchorages "A" to "F" are situated in Chedabucto Bay in water depths from 14 to 26 fathoms.

Anchorages "G" to "O" are situated in Inhabitants Bay in water depths from 5 to 8 fathoms.

HEALTH: Pratique will be granted on arrival at berth by boarding officers, but it is the Master's responsibility to report by radio all details of any sickness or death occurring during the voyage to "Quarantine Halifax".

MAX. SIZE: Tankers of 326,000 d.w.t. and larger can be accommodated at the Gulf Canada Ltd., Ocean Terminal. See also "Berthing".

RADIO: Halifax (VCS) continuous year round. 500, A2; 2,182, A3; 156.8; F3 also 4, 6, 8, 12, 16, 22 mHz bands.

Sydney (VCO) continuous year round. 500, A2; 2,182 A3, 156.8, F3.

Canso (VAX) continuous year round. 2,182, A3; 156.8, F3.

Grindstone, Magdalien Island (VCN) continuous year round. 500, A2; 2,182, A3; 156.8 F3.

Canso Locks (VAZ3) continuous during navigation season. 2,182, A3; 156.8, F3.

TUGS: Two tugs of 3,400 b.p.h. and 40-ton bollard pull operate in the area, these tugs are under contract to Gulf Canada Limited and are available, operational conditions at their Ocean Terminal permitting, for use at other berths in the port subject to the terms of the United Kingdom Standard Towage conditions.

BERTHING: *Gulf Canada Ltd., Ocean Terminal, Point Tupper:* Masters are required to establish communications with the terminal when within a distance of 35 miles of the terminal on VHF Channel 16, using call-sign "Gulf Control".

Situated at Wright Point and is a "T"-shaped structure providing 2 berths for tankers. Outer berth No. 1, has accommodated vessels up to 357,000 d.w.t. and has a least depth of 100 ft., inner berth No. 2 can accommodate vessels up to 50,000 d.w.t. with a least depth of 75 ft.

Berth No. 1 is equipped with 8 hydraulically operated loading arms, each fitted with a speed-seal hydraulically operated manifold coupling.

Loading arm	*Coupling*	*Purpose*	*Rate*
11	16 in.	Mammoth tanker ballasting	25,000 b.p.h.
12	10 in.	Vessel bunker	10,000 b.p.h.
		Cargo bunker	10,000 b.p.h.
13	16 in.	Cargo bunker	25,000 b.p.h.
		Crude	25,000 b.p.h.
		Ballast discharge	25,000 b.p.h.
14	16 in.	Crude	25,000 b.p.h.
15	16 in.	Crude	25,000 b.p.h.
16	As No. 13		
17	As No. 12		
18	As No. 11		

Berth No. 1 is connected by 2–42 in. lines to the crude tank farm with an average pumping distance of 7,750 ft., tank base being at an elevation of 90 ft. No booster pumps are provided.

Berth No. 2 is equipped with 6 hydraulically operated loading arms each fitted with a speed seal hydraulically operated manifold coupling.

Loading arm	*Coupling*	*Purpose*	*Rate*
1	8 in.	Vessel bunker	2,500 b.p.h.
2	12 in.	Cargo bunker	12,000 b.p.h.
		Ballast discharge	25,000 b.p.h.
3	12 in.	As No. 2	
4	10 in.	Premium gasoline	10,000 b.p.h.
		Regular gasoline	10,000 b.p.h.
5		Naphtha	10,000 b.p.h.
5	10 in.	Stove oil	10,000 b.p.h.
		D-40	10,000 b.p.h.
		D-20X	10,000 b.p.h.
		D-25	10,000 b.p.h.
		Jet	10,000 b.p.h.
6	8 in.	Vessel bunker	2,500 b.p.h.

Product tanks are situated 3,920 ft. for bunker to 6,400 ft. for gasolines from the berth.

Vessels will be expected to berth with manifold blinds removed, sea valves sealed and locked, pumps and pipe-lines set ready to commence discharge of cargo or ballast immediately on connection of loading arms and on verification of the discharging/loading procedure between the Master or his delegate and the terminal's representative.

On termination of the cargo transfer, the vessel will be required to vacate the berth, if loading, on the completion of gauging, sampling and documentation; if discharging upon ballasting to a draft consistent with the weather conditions prevailing.

Suitably equipped vessels will be able to maintain VHF radio communication with the terminal control room during the cargo operation.

Fresh water and fuel are available for calling tankers on both berths.

A gangway will be provided on berth No. 1, but will require the assistance of ship's personnel in positioning the ladder, only in instances when the ship's superstructure or other obstruction prevent the use of the terminal's gangway should arrangements be made to use the ship's gangway.

Nova Scotia Forest Industries Wharf. Situated at Madden Point and serves the pulp and paper manufacturing facility, the wharf is 425 ft. long, with dolphins extending a farther 100 ft. from each end of the wharf, depth alongside 26 ft. at LW. Fresh water available, bunkers not available.

Georgia Pacific Corporation Terminal. Situated at Point Tupper, this gypsum loading facility consists of a series of dolphins capable of mooring a ship over 700 ft. in length and has a min. depth of 32 ft. LW. Conveyor system from plant to centre of dolphins. No fuel oil or fresh water available.

Port Hawkesbury Department of Transport Wharf. Berthing length 50 ft., depth of water alongside 18 ft. No fresh water, no bunkers.

Mulgrave Department of Transport Wharf. Berthing length 940 ft., depth of water 18 to 25 ft. Used for wood pulp and general cargo loading/discharging rail tracks, fresh water available, fuel oil delivered by truck, no cranes or permanent hoist.

BALLAST: *Gulf Canada Ltd.:* Ballast facilities only available to calling tankers. All ballast must be pumped ashore. Ballast receiving facilities are situated 5,250 ft. from the berths. Disposal of ballast water overside is strictly prohibited and any pollution of the Strait will result in heavy claims and fines. The terminal will in the case of an oil spill take such steps as may be deemed necessary to fight the pollution before it spreads. If the spill is due to faulty equipment or material on the vessel or to negligence on the part of the ship's personnel, the terminal shall be indemnified for any expense incurred in connection with the preventative action taken. No ballast is to be taken from the Strait unless required for the ship's clean permanent ballast system. Clean ballast for the cargo tanks will be by terminal pumps.

MEDICAL: Masters are required to give early advice to their Agent regarding medical and dental attention requirements, hospitalisation cases will be referred, Antigonish, 40 miles distant.

DENSITY: 1025. Influenced by Spring thaw run-off.

FRESH WATER: Available in limited quantities.

FUEL: Available at Gulf Canada Ocean Terminal for calling tankers only. Vessels requested to give 72 hours notice of requirement, quantity and specification.

CONSULS: See "Halifax".

REPAIRS: Breton Industrial and Marine perform hull and machinery repairs to vessels afloat. Radio and radar service is available locally, the vessel's Agent should receive early advice of repair requirements.

GANGWAY/DECK WATCHMEN: Usually ship's crew.

CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes or 50 cigars or 2 lb. tobacco per person per week. Wines/spirits: Total of 40 ounces per person over 21 years old.

Subsequent issues may be authorised to crew members of foreign vessels, but the max. quantity any crew member may hold at any time must not exceed 300 cigarettes, or 75 cigars, or 3 pounds of tobacco and 60 ounces wines/spirits.

Crew personal effects such as radios, tape recorders, binoculars, etc., should be declared on manifest.

REPATRIATION: Crew changes and repatriation permitted.

AIRPORT: Regular services by Air Canada from Halifax International Airport 150 miles distance, and from Sydney Airport 90 miles distant. Charter flights by small aircraft can be arranged from Port Hawkesbury Airport to Halifax and Sydney.

SUPPLIES: Provisions and bonded stores can be supplied locally but Masters are advised that to avoid delays, their Agent should be notified prior to arrival on their requirements, particularly for deck and engine stores as these may have to be obtained from Halifax.

Laundry facilities are available and in order to expedite the service, Masters should request their Agent to have a representative to attend on arrival.

Supplies of stores will have to be conveyed to tankers at Gulf's Ocean Terminal by stores boat or barge.

TIME: GMT minus 4 hours. Last Sunday in April, clocks advanced 1 hour, last Sunday in October, clocks retarded 1 hour.

POLICE/AMBULANCE/FIRE: Police 625-2220; Ambulance 625-2929 or 625-1911; Fire 625-2838.

SHORE LEAVE: Permitted.

CANSO CAUSEWAY CANAL: Max. vessel dimensions, length 715 ft., width 75 ft., draft 28 ft., vessels with draft greater than 28 ft. and not more than 30 ft. may proceed through with special permission of the Canal Superintendent. Depth of water on the North and South approach mooring berth is 32 ft. During the months December to April Masters should consult with Ice Operations, Halifax, whether lock in operation.

VESSEL TRAFFIC MANAGEMENT:

Vessel Traffic Management (VTM) and information systems for Strait of Canso and approaches:

Eddy Point VTM Centre:

In the interests of safe navigation within the area of the Strait of Canso and approaches, the Canadian Coast Guard has established a VTM Centre at Eddy Point in Lat. 45° 30′ 52.1″ N., and Long. 61° 15′ 15″ W. The VTM Centre is equipped with VHF, MF and RT transmitting and receiving communications equipment and radar. The VTM Centre administers a VTM system in the Strait of Canso and approaches and is manned on a 24-hour basis.

Canso VTM Zone:

Masters of ships of 20 m. (65.6 ft.) or more, in registered length, entering the Canso Zone are advised that the Canso Zone marine traffic regulations came into effect on January 23rd, 1974. The procedures and requirements outlined in the Canso Zone Regulations are to be adhered to during the transit of ships within the limits of the zone.

Eastern Limit:

A line joining the following geographical positions:

(i) 45° 18′ 20″ N., 60° 56′ 21″ W.
(ii) 45° 18′ 20″ N., 60° 35′ 06″ W.
(iii) 45° 24′ 28″ N., 60° 29′ 20″ W.
(iv) 45° 38′ 21″ N., 60° 29′ 20″ W.

Western Limit:

A line joining Cape George Lighthouse. Lat. 45° 52′ 27″ N., Long. 61° 45′ 05″ W., and Port Hood Island Light, Lat. 46° 00′ 51″ N., Long. 61° 33′ 27″ W.

Application

The provisions of this Notice apply to all vessels of 20 m. (65.6 ft.) registered length and over whilst in transit through the Canso VTM Zone. A ship will be considered in transit at all times whilst located within the Canso Zone except when securely made fast to the shore or laid up to the satisfaction of the VTM Centre.

Traffic Control and Responsibility

There is no intention on the part of the Canadian Coast Guard to attempt to navigate or manoeuvre ships from a shore station and nothing in this Notice overrides the authority of the Master or his responsibility for the safe navigation of the ship. Information passed to the Master is intended to assist him in the safe conduct of his vessel.

Geographic Subdivision of the Canso VTM Zone:

For traffic information and Regulating purposes, the Canso Zone is divided into two sectors as defined in Table 1.

VHF Radiotelephone Equipment

To avoid unnecessary delays, all vessels requiring transit in the Canso Zone should be provided with a VHF set meeting the following standards:

A vertically polarized unity gain antenna at a nominal height of 9.1 m. (30 ft.) above the water, a transmitter RF power output of 10 watts, and a receiver sensitivity of 2 microvolts across the input terminals for 20 dB signal to noise ratio. Control of the VHF Channels shall be immediately available on the bridge, convenient to the conning position and such installation shall conform to the requirements laid down in Radio Regulations for equipment used in the VHF International Maritime Mobile Radiotelephone Service and shall be capable of operating on the following Channels:

156.8 MHz	Channel 16
156.7 MHz	Channel 14
156.6 MHz	Channel 12
156.55 MHz	Channel 11
156.3 MHz	Channel 6

However, it is recommended that the following Channels be also available in case of emergency or an extension of service:

156.65 MHz	Channel 13
156.5 MHz	Channel 10
156.45 MHz	Channel 9
156.4 MHz	Channel 8

The VHF radiotelephone system for VTM is intended exclusively for marine safety information and traffic regulating messages. Public correspondence and domestic messages will not be accepted and should be routed through Canso Marine Radio VAX.

VHF Listening Watch

The VHF Channels contained in Table 1 have been designed for regulating vessel traffic and all vessels whilst in transit of the Canso Zone shall maintain a continuous VHF listening watch on the appropriate assigned sector frequency. Permission to leave the designated frequency or to terminate the VHF listening watch must be obtained from the VTM Centre.

Operating Procedures

The Eddy Point VTM Centre is identified by the name *Eddy Point Traffic* and ships will be addressed by their names.

Radiotelephone procedures are those formulated by the International Telecommunications Union as outlined in the VHF International Maritime Mobile Radiotelephone Service. All times are given in Greenwich Mean Time. The 24-hour clock system is used.

All radiotelephone communications between the Centre and ships are conducted in English and are recorded.

Traffic Clearances (Permission to Proceed)

The Master, Officer-in-Charge or Pilot of the vessel shall obtain a traffic clearance before a vessel:

(a) Enters the waters designated as the Canso VTM Zone;
(b) Proceeds to or leaves any berth within the Canso Zone;
(c) Proceeds into or out of the buoyed Strait of Canso and approaches deep water channel;
(d) Proceeds after being stranded or involved in a collision;
(e) Proceeds after suffering a permanent defect of any shipborne navigational aid or equipment or manoeuvring machinery;

Berth means wharf, pier, lock, anchorage or mooring.

Duration of Traffic Clearance Validity

A VTM clearance constitutes authority for the Master of a ship to proceed with the manoeuvre for which permission has been granted provided the commencement of that manoeuvre has been executed within 15 minutes of the time specified in the clearance. The clearance automatically expires after this time and if the ship is delayed for any reason, it must, except in an emergency, obtain another clearance before proceeding. Should an emergency occur that necessitates action without permission, the VTM Centre must be advised immediately.

Traffic Clearance Requirements

Ships shall make application for clearance in accordance with the Eastern Canada Traffic System (*Ecareg Canada)*

Vessels of 50,000 tons gross tonnage and over shall apply for clearance to the VTM Centre not less than 24 hours before the vessel is due to enter the Canso VTM Zone. All other vessels shall apply for such clearance not less than 12 hours before the vessel is due to enter the Canso VTM Zone.

Vessels of 50,000 tons gross tonnage and over shall apply for clearance to leave a berth within the Canso VTM Zone not less than 4 hours prior to the time of departure.

Vessels at anchor shall be maintained on standby status and be capable of proceeding as required.

Request for Traffic Clearance

Ships of 500 g.r.t. or more requiring a clearance to enter the Canso VTM Zone shall make application through a Coast Guard Radio Station to *Ecareg Canada*. Ships under 500 g.r.t. shall make application through a Coast Guard Radio Station to *Eddy Point Traffic.*

Ships requiring clearance to depart a berth within the Canso VTM Zone shall make application direct to *Eddy Point Traffic.*

Clearance application shall be made in the following format:

(a) Name of ship and call sign;
(b) Name and initials of Master;
(c) Position (and speed, inbound);
(d) As applicable, the estimated time of:
  (i) Entry into the Canso VTM Zone;
  (ii) Departure from a berth within the Canso VTM Zone;
(e) Ship's destination, ETA and intended route through the Eastern Canada Traffic Zone, as applicable;
(f) Last port of call, as applicable;
(g) Draft;
(h) A chart and publication report;
(i) Brief description of main cargo and pollutant cargo or dangerous goods by classification;
(j) Defects, if any, in the ship's hull, main propulsion machinery, steering gear, anchors and cables, radar, compass or VHF radio equipment;
(k) Any limitation in ability to manoeuvre;
(l) Any release of pollutants from the ship or any damage sustained;
(m) Name of Canadian or USA Agent;
(n) Date of Expiry of the non-Canadian Ship's Compliance Certificate for a non-Canadian tanker of 500 g.r.t. or more.

Mandatory Calling-in-Points (C-I-P's)

Vessels preparing to transit and while in transit are to report to the VTM Centre when within 5 nautical miles of the Eastern boundary of Sector I and at the following C-I-P's:

SECTOR I	Buoy C-A Buoy C-D Buoy C-F Buoy 6 C Buoy 10 C Buoy 14 C Buoy 20 C Buoy 24 C
SECTOR II	Buoy 14 W

Ship Reports:

Vessels are required to give progress reports when passing the mandatory C-I-P's and such information would normally consist of the following:

(a) Name of vessel;
(b) Location;
(c) Time to next C-I-P (or Zone limit);
(d) Any adverse weather conditions being experienced.

Vessels may give additional navigation safety calls at other locations should conditions so warrant. However, Masters and Pilots are cautioned that conversation should be kept at the minimum consistent with safety requirements of the situation.

Incident Reports:

Ships should report immediately to the VTM Centre any incident involving the following:

(a) An accident to the vessel or fire on board;
(b) Sighting another vessel involved in an accident or any apparent difficulty;
(c) Sighting any obstruction dangerous to navigation;
(d) Observing any navigation buoy or aid that is malfunctioning, damaged, missing, or off position;
(e) Sighting any pollution of the waters within the Canso Zone; and,
(f) An appreciable reduction in visibility.

Ships at Anchor

Ships at anchor within the Canso VTM Zone shall be maintained on standby status and shall be capable of proceeding as required. A VHF listening watch is to be maintained on the appropriate sector frequency.

Information by Request

The VTM Centre will give to any ship on request such information on traffic, weather or other conditions as is known to the Centre.

Restrictions of Traffic Movement

The movement of vessels in transit may be restricted during times when the following vessels are underway:

(a) A tanker of 50,000 tons gross tonnage or over;
(b) A vessel carrying cargo which could prove hazardous to navigation or the environment;
(c) A vessel or tug and tow which is considered to be navigating with difficulty by reason of size, construction or any deficiency in equipment or machinery.

A Notice to Shipping regarding the expected arrival of any of the above vessels will be broadcast by the following marine radio stations:

VCS – Halifax; VAX – Canso; VCO – Sydney; VCN – Grindstone, M.I.

Speed

Vessels shall proceed with care and at such speed that will not endanger persons or property.

The special attention of Masters and Pilots of vessels is drawn to the presence of vessels loading or discharging oil at the Gulf terminal at Wright Point and other vessels loading stores or cargo at designated anchorages.

TABLE 1

Sector	*Limits*	*VHF Channel Assigned*	*Assigned Frequency*
One	From: Eastern Limit of Zone To: Canso Causeway and S.E. Lock Gate	14	156.7 mHz
Two	From: Canso Causeway and S.E. Lock Gate To: Western Limit of Zone	12	156.6 mHz
For docking and undocking within Canso Zone for ship/tug communications in immediate berth vicinity.		6	156.3 mHz
For locking and unlocking communications between ship and Canso lock within immediate vicinity of lock.		11	156.55 mHz

PORT WELLER, Ontario: 43.14 N. 79.13 W.

LOCATION: On the South shore of Lake Ontario, West End. Port Weller is the Northern entrance of the Welland Canal and is 5 km. East of Port Dalhousie.
PILOTAGE: Master of ships requiring pilotage service in the Port Weller-Sarnia area should send a notice of their arrival by radio-telephone so as to avoid any delay in waiting for a Pilot. When Westbound, Master should order a Pilot 4 hours in advance of the ETA at Port Weller through Toronto Radio. When Eastbound, Masters should order a Pilot 4 hours in advance of their ETA at Port Huron light vessel or Rogers City. Both an accommodation ladder and a Jacob's ladder are required to assist Pilots boarding ships at Port Weller.
RESTRICTIONS: Channel depth: Limiting depth at entrance and through the Welland Ship Canal is 8.23 m. (27 ft.). Permissible draft is 7.92 m. (26 ft.). The locks will accommodate vessels not exceeding 222.5 m. (730 ft.) overall length and 23.16 m. (76 ft.) extreme breadth.
Navigation season: April 1st to December 30th.
HEALTH: Quarantine service at Quebec, P.Q., for incoming ships from foreign ports.
RADIO: Ship-to-shore communications: Through Toronto (VBG).
TUGS: Available from Port Weller Dry Docks Ltd.
BERTHING: See "St. Catharines".
MEDICAL: Hospitals at St. Catharines.
FUEL: Marine diesel fuel is available to vessels secured at the extreme North end of Wharf No. 2 through St. Catharines Fuels.
REPAIRS/DRYDOCKS: Port Weller Dry Docks, Ltd., 222.5 m. (730 ft.) building dock, gate width 24.38 m. (80 ft.); 228.6 m. (750 ft.) graving dock gate width 24.38 m. (80 ft.); depth over sill 9.15 m. (30 ft.). Also 365.8 m. (1,200 ft.) fitting out berth. Complete machine shop in connection; major conversion jobs and all kinds of hull and machinery repairs. Shipyard gantry crane, 45 tons capacity; shearlegs crane, 125 tons capacity; two self-propelled cranes, 15 tons and a 55-ton level luffing gantry crane extending 609.6 m. (2,000 ft.) from the shipbuilding berth to the fitting out berth. Forged finished shafting available from Canada Foundries & Forgings Ltd.
GENERAL: Transportation: All vessels entering the Welland Canal from Lake Ontario, or vessels from Lake Erie to Lake Ontario, via the canal, use this port but no steamship line makes it a regular port of call for discharging or loading freight. Highway connects with St. Catharines, 5.5 km. Holidays: Officials of canal available at all times during navigation season.
AUTHORITY: St. Lawrence Seaway Authority.

POWELL RIVER, B.C.: 49.52 N. 124.33 W.

(See Plan Book)

DOCUMENTS:
Customs Clearance from last port.
Manifest for goods to be off-loaded and "In Transit" cargo tonnage.
Duplicate Pratique for vessels arriving from ports other than U.S. ports.
Canadian Immigration Crew List, (Imm. 200) required in triplicate.
Passenger List in triplicate.
Seamen's passports and I.D. cards should be available when arriving from sea.
Ship's Certificates.
PILOTAGE: Payment compulsory. Incoming ships take Pilot at Race Rocks, near Victoria. Pilotage District of British Columbia.
ANCHORAGE: No suitable anchorage is available in Powell River area. Vessels usually anchor in English Bay (Vancouver) or various anchorages Vancouver Island.
RESTRICTIONS: No linesmen available between 2359 hrs. and 0700 hrs. Except tankers who berth anytime.
MAX. SIZE: Up to 600 ft. LOA. 32 ft. draft. Tankers up to 615 ft. have berthed for discharging purposes (No. 2).
HEALTH: Duplicate pratique for first port of call. See also "Montreal".
RADAR/VHF: No radar. Pilots are in contact with tugs and mill office using VHF.
TUGS: Two tugs available, to 500 h.p.
BERTHING: Berth No. 1 requires a tug when berthing only. Berth No. 2 Pilot's discretion. Accommodation: Channel depth 30–35 ft. LW. Two private piers; pier A with Berth No. 1, 500 ft. long, depth alongside 30 ft. LW, Berth No. 2, 482 ft. long, depth alongside 35 ft. LW; Berth No. 4, 400 ft. long, Berth No. 5, 130 ft. long, and Berth No. 6, 375 ft. long, depths alongside 30 ft. LW.
Three 10-ton elevators, one 6-ton travelling crane. Dock storage for 10,000 tons. The elevators are used for loading barges only.
STEVEDORES: None. Local longshoremen only. Supercargoes are sent from Vancouver to assist in loading vessels. Longshoremen are members of Papermakers' Union.
MEDICAL: Powell River General Hospital and port doctor available. Complete medical services provided.
TANKERS: Bunker oil supplied by company barges.
FRESH WATER: Unlimited supply, $25.00 connection charge.
FUEL: Fuel oil, diesel, and gasoline available.
GANGWAY/DECK WATCHMEN: On request.
OPENING/CLOSING HATCHES: By crew prior to arrival and departure.
CUSTOMS ALLOWANCES: 300 cigarettes, or 50 cigars, or 1 lb. tobacco on arrival. Issues every 7 days. 60 oz. or 2 cases beer on arrival. Issues every 7 days.
IDENTIFICATION CARDS: Keep available for inspection.
CONSULS: Available at Vancouver, B.C.
AIRPORT: 2 flights per day to Vancouver International Airport. 4 miles from docks. Charter flights available to Vancouver Island on request.
TIME: Pacific Standard Time.
HOLIDAYS: Union Contract. Usual holidays are New Year's Day, Easter Monday, Labour Day and Christmas Day, every second Sunday.
TELEPHONES: Ship's telephone available.
SERVICES: Most services arranged in Vancouver.
SHORE LEAVE: Permitted.

AGENT: Powell River Shipping Services Ltd., Box 74, Powell River B.C. Office, 483–4232.

PRESCOTT, Ontario: 44.44 N. 75.31 W.

(See Plan Book)

For important General Information refer to "St. Lawrence Seaway".
DOCUMENTS: See "Montreal".
PILOTAGE: Arranged through Agents – Montreal.
ANCHORAGE: Seaway Anchorage.
MAX. SIZE: Up to 8.23 m. draft.
HEALTH: See "Montreal".
RADIO: Seaway Stations.
BERTHING: *N.H.B. Facilities.*

Berth	*Length* (m.)	*Depth alongside* (m.)
Grain Unloading Berth	914.0	8.23

STEVEDORES: Gangs arranged through Agent. Main commodities for export: Grain – loading rate up to 13,000 tons per day. Pulp – 25 tons per gang hour. Lumber – 20,000 FMB per hour – packaged.
MEDICAL: Hospital facilities available.
DENSITY: Variable, 1013 to 1025.
FRESH WATER: Available at all berths.
FUEL: Marine diesel and heavy fuel oil available from tanks or tank car by arrangement. No berths for bunkering ocean-going vessels.
GANGWAY/DECK WATCHMEN: Not required.
OPENING/CLOSING HATCHES: This work is carried out by stevedores except for specially constructed hatches such as McGregor.
CERTIFICATES:
Safety Equipment.
Cargo Ship Certificate.
Safety Radio.
Derat.
Load-line.
Cargo Gear Book and Certificates.
All subject to inspection on arrival.
CUSTOMS ALLOWANCE: Tobacco, 50 cigars and 200 cigarettes and 2 lb. of tobacco. Wine and Spirit, 1 bottle per officer, (40 oz.) and Beer 288 oz. or 24 pts.
CARGO GEAR: Cargo Gear Book to be ready for inspection. At first Canadian Port it is advisable to have derricks lowered on arrival.
IDENTIFICATION CARDS: Not required.
REPAIRS: Minor repairs deck and engine room.
DRY DOCKS: Two small slipways for 150 ft. vessels.
AIRPORT: Two flights daily to Vancouver, B.C. Travelling time to airport about one hour.
TIME: Zone plus eight Pacific Standard Time. Last week in April to last week in October is Summer Time, clocks advanced one hour.
HOLIDAYS: New Year's Day (no work); Good Friday; Easter Monday; Queen's Birthday; Dominion Day; Labour Day (no work); Thanksgiving Day; Remembrance Day; Christmas Day (no work); Boxing Day (no work).
POLICE/AMBULANCE/FIRE: Police tel. 911; Fire tel. 911; Ambulance tel. 911.
TELEPHONE: Placed on board if required.
SERVICES: Compasses adjusted. No tank cleaning equipment or facilities for discharge of tank washings.
SHORE LEAVE: No restrictions.
AUTHORITY: National Harbours Board.

QUEBEC, P.Q.: 46.49 N. 71.12 W.

(See Plan Book)

DOCUMENTS:
3 Crew Lists.
3 Passenger Lists (cargo vessels).
8 Passenger Lists (passenger vessels).
3 Ship's Stores Lists.
3 Crew Declarations.
1 Maritime Declaration of Health.
1 Complete Manifest of cargo to be discharged in all Canadian Ports.
5 Manifest for local cargo.
No bills of lading required to Local Authorities.
PILOTAGE: On arrival at Anse-aux-Basques, a ship takes on board a Pilot of the Laurentian Pilotage Authority to bring the ship to Quebec. Pilotage and payment of dues are compulsory. Pilots board inbound vessels at Anse-aux-Basques. The Master of every ship inward bound in the Gulf of the St. Lawrence and destined for ports West of Anse-aux-Basques must report ETA to Pilots Montreal, via Marine Traffic Control on VHF radio Channel 14 or by other means of communication to Seven Islands Radio Station, giving any information Control may require.

A min. notice of 12 hours must be given. This notice must be confirmed 3 hours prior to arrival at the Pilot station.

Note: Pilot boats (2) and Pilot station keep watches on 2182 kc/s. and have VHF facilities, which are only used for local instructions from one to the other.

Pilot boats (2) in operation: Pilot No. 9 Canada and Pilot No. 10 Canada. Hull painted black, white superstructure. Pilot-jack welded on stack – all-steel vessels. Equipment: Radar – echo sounder – radio VHF/all frequencies. A.M. – all frequencies – electric whistle – loud hailer – searchlight.

Pilot station can either be raised by radiotelephone frequency 2182 kc/s. by morse lamp – semaphore – by just blowing the code letter G consecutively or displaying code flag G. Exact location of Pilot station Anse-aux-Basques, on North shore of St. Lawrence river. Lat. 48° 19.2′ N. Long. 69° 24.9′ W. Pilotage ground limits are rectangular distance of 2 miles from the station. In bad weather, pilot boats removed from station to more secure position and pilotage service held up until better conditions. Same procedure applies during severe ice conditions. Any changes regarding pilot boat service obtained through Marine Traffic Control.

Vessels using pilot boarding stations within St. Lawrence River – Seaway – Quebec Harbour – Lakehead, requested provide accommodation ladder. Landing platform of accommodation ladder should be 10 ft. above water.

Vessels arriving Anse-aux-Basques without having previously stated ETA Pilot station 12 hours in advance, or during such time as pilotage service held up for any reason, vessels normally proceed to anchorage off Ile-aux-Basques on Southern side of river, where good anchorage ground can be found. Further instructions will be given to Vessel by Marine Traffic Control or Pilot Station on VHF or 2182 kc/s.
ANCHORAGE: See "Pilotage".

Due to submarine cables and other submarine installations, anchoring in the harbour is prohibited without permission of the Harbour Master. Permission for anchoring is to be obtained through Marine Traffic Control Centre. The official anchorage area extends Southwestward from the fixed blue light on Queen's wharf Lat. 46° 48′ 34″ N., Long. 71° 12′ 12″ W.
RESTRICTIONS: Depth of water in 11 mile dredged channel is 40 ft. to which depth add height of tide which, at times, may give extra 15 ft.

MAX. SIZE: No limit in length and breadth. Draft limited to 44 ft. Winter and 48 ft. in Summer.
HEALTH: Radio pratique obtained through Seven Islands by wireless. In case of reported suspected disease instructions will be given by wireless. When pratique granted, vessel automatically cleared for *all Canadian Ports.*
RADIO: Seven Islands: Call sign VCK. Quebec: Call sign VCC.
RADAR/VHF: Port radar service in operation. VHF Marine Traffic Control System in effect for area extending from meridian of Long. passing through Sept-Iles to upper limits of Montreal Harbour.

In order to take advantage of the Traffic Control System and avoid unnecessary delays, all vessels approaching Sept-Iles from seaward should be fitted with VHF set.

Control of VHF Channels shall be immediately available on bridge, convenient to conning position and such installation shall conform to requirements laid down in Radio Regulations for equipment used in VHF International Maritime Mobile Radiotelephone Service and be capable of operation on Channels: 16, 14, 13, 12, 11, 10, 9 and 6.
For vessels not provided with VHF equipment, portable VHF sets will be taken on board by Pilot. Rental charge for this service. Vessels approaching meridian of Long. passing through Sept-Iles from Eastwards should call Channel Quebec on 156.7 (Channel 14) for further instructions.
TUGS: Tugs join vessels in stream and use ship's lines.

4 tugs available, each equipped with radio-telephone. Two tugs of 4,200 h.p.; two tugs of 1,250 h.p.
BULK HANDLING FACILITIES:
Grain Elevators. (See Table below).

Storage capacity – 8,000,000 bushels (240,000 short tons). Served by CN and CP railways.

A marine terminal facility on piers 50, 51 and 52 which include – 4 bridge towers with a loading capacity of 3,000 t.p.h., locomotive cranes to unload gondola cars, a track-mobile to shunt cars and other ground rolling stock to manipulate bulk material on paved pads, and two-way underground conveyor system to handle dry bulk cargoes at a present loading rate of 800 t.p.h. 2,000 ft. of dock frontage with a depth of at least 41 ft. at LT and leased from NHB over 1 million sq. ft. of land and operating 13,500 ft. of trackage on property connected to CNR. Storage capacity of 7 million imperial gallons for any liquid products serviced by 10 in. marine pipe-lines and a 4-in. loading rack.
Container Berths

Storage facilities: shed 27, 42,000 sq. ft.
shed 28, 50,000 sq. ft.
Open area 27, 227,000 sq. ft.

CRANES: 75 mobile cranes up to 200 ton capacity.
STEVEDORES: Dead-line for orders: 1100–1600–2200 hrs. for periods starting 0800–1300–1900 hrs.; 1 hour required before deadline to order gangs.
MEDICAL: No advance notice required for medical attention. Hospital facilities available. Every person who arrives in Canada from country other than United States, Alaska, Greenland, Iceland, Islands of St. Pierre and Miquelon, Bermuda, Cuba, Jamaica, Bahamas, Virgin Islands, Puerto Rico, Panama Canal Zone or Hawaiian Islands, shall furnish evidence of being immune from Smallpox.
TANKERS: Slop discharge facilities available. Eight tanker berths. Depths from 37 ft. to 50 ft. See "Berthing".
DENSITY: Fresh water.
FRESH WATER: Available to all berths, provided directly from the Board's hydrants and hoses to vessels. Rate: St. Charles River piers, 20 t.p.h. Anse-aux-Foulons 50 t.p.h. with 1 line, and 2 lines 100 t.p.h.
FUEL: Available any berth by truck.
FIRE PRECAUTIONS: Only usual precautions; towing wire hanging overboard.
GANGWAY/DECK WATCHMEN: Watchmen at gangway not necessary, but could be obtained.
OPENING/CLOSING HATCHES: McGregor hatches must be opened by crew. All other cases recommended to be done by crew also, but stevedores would also under conditions specified in stevedoring contract.
SHIP'S CERTIFICATES: Load Line, Safety Equipment, Construction, Radio, Passengers, Cargo Gear, Derating.
CUSTOMS ALLOWANCE: Tobacco, 8 ozs. tobacco for 8 days, cigarettes: 1 carton per 8 days. Wine and/or Spirits, 40 ozs. only. Officers and Masters will have additional supply for entertainment daily on request to Customs.
REPAIRS: Repairs of all types can be obtained.
DRY DOCKS: Department of Public Works located within Davie Shipbuilding Ltd. "Champlain" dry dock 1,150 ft. by 120 ft. at gate entrance. Can dock largest ships afloat. "Lorne" dry dock 624 ft. with floor width 73.5 ft. Also 3 outdoor berths and 1 covered berth.

SHORE LEAVE: No restrictions.

DEVELOPMENTS: Extensive land reclamation work being carried out in the development of Beauport Flats will provide 1,500 acres of prime waterfront property for container and bulk-loading facilities. Work will commence shortly on the construction of a new berth (No. 55) at Beauport Flats, 1,200 ft. long with a depth of more than 50 ft. alongside. Beauport Flats are connected to the Metro-Quebec expressways scheduled for completion in 1980.

AUTHORITY: National Harbours Board.

ST. ANDREWS, New Brunswick: 45.10 N. 67.08 W. (See Plan Book)

SHIPMASTER'S REPORT: 1980

PILOTAGE: Not compulsory but recommended. Pilot boards off East Quoddy Head. Notice required 24 hours. The Pilot is a retired fisherman and he only gives advice on tide and weather.

RESTRICTIONS: See "Berthing".

HEALTH: Send advice to Saint John, New Brunswick at least 24 hours before arrival.

RADIO: Saint John, New Brunswick.

VHF: Bay of Fundy Control and Pilot of Channel 14. No port VHF.

TUGS: Available from Saint John, however, vessels are able to dock and undock without the aid of tugs.

BERTHING: *Sand Point Wharf:* The wharf is located in position 45° 09′ 35″ N., 67° 08′ 30″ W. The wharf is in the form of an "L" shape. Outer face having a length of 300 ft. and inner face with a length of 260 ft. Depth alongside outer face 36 ft. at LW. The ebb tide sets on to the jetty and the flood tide sets off the jetty.

Distance from sea to berth is 21 miles. Least depth in the channel from sea to berth 45 ft. at LW. Mean tidal range at berth 26 ft. It is not advisable to dock and undock during darkness as there are no lights on the pier and only a few navigation lights in the channel.

Cargo Handling Facilities: Potato conveyors available which, when rigged are rigid and special care is needed when strong winds are blowing in conjunction with the tide. No cranes or other facilities available.

STEVEDORES: Service carried out by casual labour.

DENSITY: 1017.

AIRPORT: Nearest airport at Saint John, New Brunswick.

SERVICES: Fresh water, fresh provisions, Lloyd's Surveyor (from Saint John, New Brunswick), ships laundry service, telex, doctor and hospital.

CHART: Use U.S. Chart (Calais to West Quoddy Head) No: 13328.

ST. CATHARINES, Ontario: 43.11 N. 79.17 W.

Refer to "St. Lawrence Seaway" for important general information.

DOCUMENTS: See "Montreal".

HEALTH: See "Montreal".

PILOTAGE: Commences in lower St. Lawrence River and is continuous from district throughout Great Lakes. See "Quebec".

ANCHORAGES: Good anchorage areas at both ends of the Welland Canal.

MAX. SIZE: Max. size of vessel permitted in Welland Canal is LOA 730 ft. (222.51 m.), beam 75 ft. (23.15 m.), draft 26 ft. (7.92 m.).

HEALTH: Pratique granted in Montreal.

RADIO: Toronto Radio, Buffalo Radio.

TUGS: Tugs not generally used, but may be obtained from Hamilton, Toronto or Port Weller Dry Docks Ltd.

BRIDGES: Vessels are instructed by Traffic control on the transit of the Canal. Generally no delay for bridges.

BERTHING:

Port Weller Harbour East, Wharf No. 1:
Type – Various and Sundry Partial Cargoes
Equipment – Self Unloaders or Rented Cranes
Length – 638 ft. (194.5 m.)
Depth – 27 ft. (8.23 m.)

Port Weller Harbour West Wharf No. 2:
Type – Coal, Sand, Zircon Ore, Bulk Sugar
Equipment – Self Unloaders only
Length – 1,288 ft. (392.6 m.)
Depth – 27 ft. (8.23 m.)
Storage Capacity – 85,000 tons.

St. Catharines Wharf, Wharf No. 3:
Type – General Cargo, Oil
Equipment – Ships' Gear and Rental Equipment as Required.
Length – 330 ft. (100.6 m.)
Depth – 25 ft. (7.62 m.)

St. Catharines (or Homer) Wharf: Now used for bunkering purposes only. Abreast of the wharf is a turning basin with a depth of 7.62 m. (25 ft.) for ships of 106.68 m. (350 ft.) in length.

MEDICAL: Medical and hospital facilities are available.

TANKERS: There are limited berths suitable for small domestic tankers.

DENSITY: Fresh water.

FRESH WATER: None available except in emergency by tank wagon.

FUEL: Bunker and diesel fuel oil by road tanker from St. Catharines Fuel Oils Ltd.

DEVELOPMENTS: To eliminate the winding section of the Welland Canal which ran through the centre of the City of Welland, and to minimize delays to navigation, a new 8.3 mile section of canal, which by-passes the City of Welland, was opened in 1973. The new channel is almost straight and is both wider and deeper than the old section. Approximately 1 hour has been saved on a vessel's round trip transit time since the opening of the new channel.

GANGWAY/DECK WATCHMEN: At discretion of the Master.

CUSTOMS ALLOWANCES: See "Montreal".

IDENTIFICATION CARDS: Not needed.

CONSULS: No consuls.

REPAIRS: Deck and engine repairs are possible at Port Weller.

DRY DOCKS: Situated at Port Weller able to accommodate vessels, LOA 730 ft.

SURVEYORS: A.B.S. at Toronto.

AIRPORT: International Airport at Toronto, 75 miles away.

TIME: GMT minus 5 hours. Daylight Saving Time when clocks advanced 1 hour usually 28th April and retarded 27th October.

POLICE/AMBULANCE/FIRE: St. Catharines – Fire 684–4311; Police 416–688–4111. Welland – Fire 734–4511; Police 416–735–7811. Port Colborne – Fire 834–4511.

SHORE LEAVE: Only when usual formalities are observed, e.g. Customs, Immigration, etc.

AUTHORITY: Director, Western Region, St. Lawrence Seaway Authority, St. Catharines.

SAINT JOHN, N.B.: 45.16 N. 66.03 W. (See Plan Book)

PORT LIMITS: A vessel is considered to be an "arrived vessel" when it comes alongside the pier.

DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
3 Sets Customs Documents.
3 Sets Health Documents.
6 Sets Cargo Manifests.
6 Sets Bills on Lading.
3 Sets Ship's Papers.

PILOTAGE: Compulsory. Pilots board at Harbour entrance within a radius of 6 miles from Partridge Island. Masters are reminded that it is essential to send ETA by radio directly to ship's Agent, to avoid delay in waiting for Pilot. This ETA (in GMT or LMT and so stated) must be sent at least 4 hours before arrival. Any material change in ETA must be corrected as soon as possible. A Pilot can also be ordered directly through VTM Fundy Traffic or any coast guard radio station at least 4 hours prior to arrival at Pilot station.

Pilots can be contacted on VHF Channel 16.

Vessels must report to the Coastguard Vessel Traffic Management System prior to entering the Bay of Fundy. VHF Channels 14 and 12 are monitored. Vessels must follow instructions from VTM regarding traffic control.

ANCHORAGE: If required, Harbour Master will designate an anchorage, however, anchorage areas are designated both inside and outside harbour limits.

RESTRICTIONS: *(Report received from Operations Department of Shipping Company)*

During Spring each year due to thaw conditions a strong down flow (freshet) is experienced in the harbour (Saint John is a narrow harbour), and those vessels needing to transit the Courtenay Bay Channel to the oil terminals are restricted during this period to a maximum draft of 28 ft. (outward). To enter this channel a vessel must make a 70° turn to starboard across the main current, which is the reason for this restriction being imposed by the Pilots. Normally the freshet lasts from about the middle of April until the end of May, but may start or finish earlier or later depending on seasonal conditions.

MAX. SIZE: Controlling depth in main channel is 30 ft. at LW. Vessels length and breadth unlimited. Also see "Tankers".

HEALTH: See "Montreal".

Private facilities: (Saint John)

Berth	Length (ft.)	Depth at LW (ft.)	Utility and General Remarks
(1) Atlantic Sugar Refineries	475	30	2 cranes for bulk unloading
(2) Irving Pulp and Paper Co.	900	22	Used for shipping bleached sulphite pulp and receiving fuel oil and sulphur. Can berth ship 350 ft. in length with draft of 22 ft.
(3) Dept. of Transport, Marine Agency Wharf	550	24	East-side, North of Pugsley Terminals
(4) Irving Oil Co. Ltd. Tanker Wharf		40	In Courtenay bay, capable of handling oil tankers up to 40 ft. draft.
(5) C.N. Rail Ferry Terminal	830	22	Used by SJ-Digby Ferry and auto carriers. This is a roll-on/roll-off facility
(6) MacMillan Rothesay Ltd.	460		This is a roll-on/roll-off facility for loading towed barges. At low water the barges rest on a prepared bottom
(7) Canaport			A floating buoy mooring owned by Irving Refining Ltd. – Canaport can accommodate the largest tankers afloat

Grain handling facilities: (Saint John)

Elevator	Capacity in bushels	Loading galleries at berths	Loading capacity bushels per hour	Remarks
National Harbours Board Elevator (West-side)	1,500,000	2–3	60,000	Combined length of conveyor galleries to berths 3,000 ft.

RADIO: VAR Saint John.
TUGS: Available and considered necessary for docking and undocking large ships. 2 tugs usually needed, both in and out.
BERTHING: 27 berths. All but 2 are deep-water berths with depths up to 35 ft. Dredging done each year to maintain depth. Due to rise and fall of tide, boatmen usually necessary for running lines and docking. All berths are tidal. Tidal range up to 28 ft.
N.H.B. Facilities:

Berth number (usual name)	Wharf Length (ft.)	Remarks
Pier No. 1	1,235	Forest Products.
No. 2	1,025	Grain Loading and General Cargo.
No. 2 C	300	General Cargo.
No. 3	1,025	Grain Loading and General Cargo.
Rodney Term. A & B	1,225	3 Portainers
Rodney Term. C & D	1,348	
Pier No. 10	550	General Cargo.
No. 11	530	Open Section.
No. 12	870	General Cargo.
No. 13	800	Shed Heated and General Cargo.
No. 14	800	Shed Heated and General Cargo.
Long Wharf A	620	Open Section.
Long Wharf B	600	Shed Heated and General Cargo.
Pugsley Term. A & B	1,275	Grain Loading and General Cargo, Shed Heated.
Pugsley Term. C	770	Shed Heated and General Cargo.
Broad St. Wharf	500	Petroleum Berth

CRANES: Mobile cranes available.
MEDICAL: Hospital available, also Seaman's Clinic.
STEVEDORES: Stevedores required in morning must be ordered by 1600 hrs. preceding day, and stevedores required in afternoon must be ordered by 1100 hrs. same day.
TANKERS: Controlling depth in channel to tanker wharves at Courtenay Bay is 18 ft. LW. Max. draft of 37 ft. only available at Spring tides. Also see "Restrictions".

Canaport: Situated 6 miles from Saint John, 4,100 ft. offshore from Mispec Point. Tankers moor and sail at any time, day or night, at any stage of tide to a Mono-buoy, depth 120 ft. at LW. Underwater pipe-line, diameter 20 in. – 36 in. connected to terminal with 10 tanks each with capacity of 9 million gallons. There are 2 pumps with total capacity 2,000,000 g.p.h.
FRESH WATER: Available from pipe-lines throughout the docks.
FUEL: Fuel oil and diesel oil available. Diesel and bunker fuel can be delivered by pipe-line in Courtenay Bay, where vessels restricted to high water. Also delivered by barge and by truck to wharves.
GANGWAY/DECK WATCHMEN: Available.
OPENING/CLOSING HATCHES: Carried out by stevedores.
CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes or 50 cigars or 2 lb. tobacco per person over 16 years old.

Wines/Spirits: total of 40 ounces per person over 21 years old.

Subsequent issues may be authorised to Crew members of foreign vessels, but the max. quantity any Crew member may hold at any time must not exceed 300 cigarettes, 75 cigars, 3 lb. tobacco, and 60 ounces wines/spirits.
DEVELOPMENTS: *Forest Products Terminal:* Length 1,235 ft. depth at LW 34 ft. (formerly Navy Island berths 1a & 1b.). Now completed.

Lower Cove: 18 acre open storage area under construction. Length of berth 750 ft. Depth 35 ft.

Long Wharf: Berth B to be extended by 300 ft., it will provide additional open storage of 5 acres.

Rodney Terminal: Berthing length to be increased to 2,000 ft. Construction to commence Spring 1980.
IDENTIFICATION CARDS: Not required.
CONSULS:

Danish Vice-Consulate	Tel.	672-6856
Dominican Republic	,,	693-1403
Finland	,,	693-7268
French	,,	693-1193
Irish	,,	657-3000
Netherlands	,,	693-1403
Sweden	,,	693-2613

REPAIRS: Complete repair facilities and equipment available also salvage equipment.
DRY DOCKS: 2. One 1,150 ft. by 125 ft. by 53 ft. deep with 42 ft. of water over sills at high tide. Smaller one 440 ft. by 60 ft. by 34 ft. deep, 22 ft. water over sills at high tide. The larger dry dock may be increased in size.
REPATRIATION: Can be arranged.
AIRPORT: Regular services by Air Canada from airport 12 miles from harbour. Also Eastern Provincial Airways and private charter flights.
TIME: GMT minus 4 hours. In Summer, time is GMT minus 3 hours.
HOLIDAYS: New Year's Day; Good Friday; Queen's Birthday (May 20th); Dominion Day (July 1st); Labour Day; Thanksgiving Day; Remembrance Day (November 11th); Christmas Day. Cargo work can be arranged on any day except for Labour Day.
POLICE/AMBULANCE/FIRE: From waterfront through private telephone which answers only to the number 50.
TELEPHONES: If required can be placed on board. A telex can be placed on board vessels at Pier No. 1 if required. This is for container terminals only.
SERVICES: All services available including compass adjustment.
SHORE LEAVE: Crew allowed ashore.
AUTHORITY: National Harbours Board.

ST. JOHN'S, Newfoundland: 47.34 N. 52.41 W.
(See Plan Book)

DOCUMENTS:
Quarantine
Completed Declaration of Health (QSI).
Valid Derating Certificate.
International Vaccination Certificate against smallpox for all on board.
Customs
Crew Declarations (Y.14).
3 Ship's Stores (E.1).
Inward Report (A.6).
Complete copy of each Manifest for goods to be discharged in Canada.
Clearance from Last Port.
Immigration
2 Immigration Crew Lists (200).
2 Tally Sheets (201).
3 Passenger Manifests for passengers not disembarking.
Immigration Control Cards for each person.

PILOTAGE: Compulsory. To avoid a delay in obtaining a Pilot, the Owner, Master, or Agent of a ship bound for St. John's must report via any coast station by R/T or W/T the vessel's ETA 12 hours in advance of ETA. ETA's must be confirmed or corrected not less than 3 hours prior to ETA. Time must be GMT. In message of ETA, the following information must be included.

(1) Name/call sign of vessel
(2) Nationality
(3) Length, draft, and gross registered tonnage.

Pilot Boarding Station:
Lat. 47° 33′ 42″ N., Long. 52° 37′ 54″ W. (2 miles off entrance) 3.22 km.

St. John's Traffic Centre stand by on: VHF Channel 16 (156.8 Mhz); VHF Channel 11 (156.55 Mhz); Telephone: 737-5151.

Berthing:

(a) Pilot – compulsory. Shifting or ETD requires a 2 hour advance notification to Coast Guard Traffic Centre.
(b) Berths arranged by Harbour Master in advance.
(c) Two small tugs available.
(d) Linesmen – arranged through Pilots.
(e) Boatmen – arranged through ship's local Agents.

ANCHORAGE: No anchorages near harbour. Safe anchorage in harbour.

MAX. SIZE: No restrictions except draft 35 ft. max.

HEALTH: Pratique, cable name and nationality of ship, ports of call during voyage, nature of cargo, number of crew and passengers, port of destination and Agent, condition of health of all on board with details of any sickness, and whether all vaccinated. Also see "Montreal".

RADIO: St. John's Coast Guard Radio, call sign VON duplex R/T on 2118 kc/s., 2206 kc/s, and 4110.8 kc/s.

TUGS: As required by Pilots. Normally ship's lines used. 2 small tugs available.

CRANES: Port Authority heavy-lift crane available 76.6 tonnes capacity.

STEVEDORES: Advise before 1600 hrs. ETA in order to commence 1800 hrs. same day or 0800 hrs. next day.

MEDICAL: No advance notice except in case of serious illness to be included in arrival cable, ample hospital facilities available.

TANKERS: Discharge lines 6 in., 8 in., 10 in., 12 in. No slop facilities.

Holyrood Refinery: 47.23 N. 53.08 W.

A bunkering port of Golden Eagle Canada Ltd., situated in the South Arm of Holyrood Bay at the head of Conception Bay, S.E. coast of Newfoundland. Finished, refined petroleum products are exported from Holyrood, and crude petroleum is imported.

Channel depth: 35 ft. right up to wharf. Tidal range is 4–5 ft. at springs, and 3.5 ft. at neaps. Good anchorage anywhere in Holyrood Arm.

One 275 ft. long berth, depth alongside 34 ft. 6 in. high water, 32 ft. low water, with moorings for Bow and stern lines on shore. Situated at Golden Eagle Refinery. 3 in. water mains for fresh water.

DENSITY: 1025.

FRESH WATER: Fresh water available all berths. Order through Agent. Rate approx. 25 t.p.h.

FUEL: Oil delivered by pipe-line at 8 berths, and by tank trucks at all other berths. Major grades of bunker fuel and diesel as well as marine lubricants can be obtained through suppliers.

GANGWAY/DECK WATCHMEN: Usually ship's crew. Ship's gangway used.

OPENING/CLOSING HATCHES: Stevedores or ship's crew whichever to ship's advantage.

CERTIFICATES:
Construction Certificate.
Safety Equipment Certificate.
Radio Safety Certificate.
Load Line Certificate.
Cargo Gear Book.

CUSTOMS ALLOWANCES: Tobacco: Each man 200 cigarettes per week. Wine and Spirit: Each man 40 oz. wine or spirits, per week.

CREW IDENTIFICATION CARDS: Not required.

CONSULS:

France	726–3837	Dominican Rep.	579–5081
Portugal	726–6958	Netherlands	726–2961
U.S.	726–4524	Norway	579–5006
Brazil	726–7702	Spain	726–1804
Denmark	726–8000	West Germany	722–1525
Sweden	726–8000	Iceland	722–4270

REPAIRS: Most deck and engine repairs can be carried out.

DRY DOCKS: St. John's Dry Dock (owned by C.N.R.). Length at coping head, 173.9 m.; at floor head, 173.2 m.; maximum length of keel blocks 167.1 m.; width at coping, 23.3 m.; depth of water over sill, 8.2 m.

Machine shop is equipped for major repairs to hulls machinery.

REPATRIATION: Crew changes and repatriation can be carried out with little difficulty.

AIRPORT: Distance 4 miles served by Air Canada 4 flights daily.

TIME: GMT less 3.5 hours. Last Sunday in April clocks advanced 1 hour. Last Sunday October clocks retarded 1 hour.

POLICE/AMBULANCE/FIRE: Police 722-5111; Ambulance 726-3037; Fire 722-1234. Emergency No. 911.

SERVICES: Compass adjusting, radar repairs, RT repairs, gyro compass repairs, all types electronic equipment repaired. Divers available for surveys and underwater repairs.

SHORE LEAVE: No Restrictions.

REGULATIONS: Fishing ships must advise of weekend arrival on Friday so that permit to take supplies can be obtained from Federal Dept. of Fisheries.

HOLIDAYS: New Year's Day; St. Patrick's Day; Good Friday; St. George's Day; Commonwealth Day; Discovery Day; Memorial Day; Orangemen's Day; Labour Day; Armistice Day; Christmas Day; Boxing Day.

Except for Easter and Christmas, the above holidays are normally taken on the nearest Monday to the festival date.

AUTHORITY: Port Manager, Harbours Board.

SARNIA, Ontario: 42.59 N. 82.25 W.

Refer to "St. Lawrence Seaway" for important general information.

DOCUMENTS: All documentation carried out by Authorities in Montreal. Only when vessels have called at United States port after departing Montreal will any changes in documentation be necessary, which will consist of a United States Customs Clearance Certificate, to be available on board.
Immigration Papers.
1 copy QS2 (Health Certificate).
3 Stores Lists.
Crew Personal Effects List.
Customs Clearance.
All of the above will have been stamped in Montreal.

PILOTAGE: Notice of ETA should be given to Pilots at least 6 hours before arrival at Sarnia to avoid delays. Accommodation ladder should be rigged in readiness.

RESTRICTIONS: Navigation season – ice forms about December 15th and breaks up about the middle of March. Vessels size restricted by Seaway locks.

MAX. SIZE: Length 730 ft., beam 75 ft. 6 in., draft 25 ft. 6 ins.

RADIO: Sarnia Radio, call sign VBE, communicate on either AM or FM radio telephone.

HEALTH: Pratique granted at Montreal.

BERTHING: Over 2 miles of water front including main wharves listed below:

C.N.R. Dock, length 1,100 ft., depth alongside 23 ft.; Empire Hanna Coal Dock, length 900 ft., depth alongside 19 ft.; Elevator Dock, length 900 ft., depth alongside 24 ft.; Dept. of Transport Dock, length 1,045 ft., depth alongside 27 ft.; Reid Aggregate Dock, length 500 ft., depth alongside 24 ft.; Dalton Fuels Dock, length 590 ft., depth alongside 20 ft.; Imperial Oil Docks – Upper Dock, length 592 ft., depth alongside 23 ft.; Fueling Dock, length 928 ft., depth alongside 26 ft.; Special Products Dock, length 284 ft., depth alongside 26 ft.; Lower Dock, length 720 ft., depth alongside 23 ft.; Polysar Corp. Dock, length 600 ft., depth alongside 26 ft.; Dow Chemical Dock, length 680 ft., depth alongside 26 ft.; Sun Oil Dock North Dock, length 600 ft., depth alongside 26 ft.; South Dock, length 500 ft., depth alongside 24 ft.; Shell Oil Dock North Dock, length 1,000 ft., depth alongside 26 ft.; Middle Dock, length 500 ft., depth alongside 26 ft.; South Dock, length 500 ft., depth alongside 26 ft.

DENSITY: Fresh water.

MEDICAL: Hospital facilities at Sarnia. All assistance available.

FRESH WATER: Available at all berths.

FUEL: All grades available from Imperial Oil and Shell Co. berths.

REPAIRS: Hull, boiler and engine repairs can be effected. No dry docks.

AUTHORITY: Department of Transport.

SAULT STE. MARIE, Ontario: 46.28 N. 84.22 W.

(See Plan Book)

Refer to "St. Lawrence Seaway" for important general information.

Note: The water depths quoted are at extreme low water, normally more water available.

DOCUMENTS: See "Montreal".

PILOTAGE: River or local Pilots available on 6 hours notice. U.S. Corps of Engineers, Sault area operate and control St. Mary's River Falls Canal and regulate traffic through all locks in both cities.
HEALTH: Board of Health Officers can make a call to the ship.
RADIO: Good ship-to-shore telecommunication available through Department of Transport Radio Station, Canadian Pacific Telecommunications and Canadian National Telecommunications. United States Coast Guard maintain fully equipped Coast Guard Base and have radio communication for all frequencies in entire St. Mary's River and Harbour area; they are available immediately for information pertaining to shipping in area and movement of ships in River.
TUGS: Harbour tugs available when required, but prefer advance notice order avoid delays. In Sault Ste. Marie, Ontario tugs available.
BERTHING: Government dock, "L" shaped pier length 500 ft. on East side 18 ft. deep on South side, the river side, it is 356 ft. long, 20 ft. deep. This dock is used for discharging general cargo. No crane facilities for loading and unloading, unless ship's gear is used, mobile cranes have to be brought in. No tug required to berth or unberth a ship at this dock under normal weather conditions.

Algoma Central Railway Terminals Dock. A slip approximately 700 ft. long on East side 18 ft. 6 in. deep with inner 200 ft. having less than 16 ft. depth; South side this dock 350 ft. long with depth 16 ft. Used for aggregates, ores and materials. Tug required to berth or unberth at this slip.

Algoma Steel Corporation Dock. Situated above Canadian Canal with following berths available:
(a) Coal and ore dock with a combined length of 2800 ft.
(b) Commercial dock on West side of slip 400 ft. long.
(c) Limestone dock, "L"-shaped dock on West side 355 ft. long and on South side 450 ft. For loading finished steel.

All 3 Algoma Steel Corporation docks 21 ft. 6 in. deep. Only material consigned to or being shipped from Algoma Steel Corporation have access to these docks.

Seaway Pier: Northeast pier at Canadian Canal which could be used for berthing ships and also used occasionally to load or unload cargo into trucks. This pier approx. 500 ft. long and mobile lifting equipment could be utilised here if necessary. Depth of water 18 ft. Pier mostly used as tie-up for making minor repairs afloat, for medical purposes, or waiting for berth at Algoma Steel Corporation Dock. Berthing and unberthing carried out any time, Sundays and holidays with exception of extreme bad weather, high winds, or fog.
STEVEDORES: Available for loading and unloading at any berths in Sault Ste. Marie area.
FRESH WATER: Available either by hose or by pumper truck at any dock.
FUEL: Diesel bunkers available at any berths via tank trucks. No bunker "C" facilities available at Sault St. Marie, but can be obtained at Lime Island about 50 miles down river. This station is open during entire navigation season.
REPAIRS: Normal ship repairs are carried out on very short notice if required.
AUTHORITY: Dept. of Transport.

AGENT: The Algoma Steel Corporation, Marine Division.

SEPT ILES (Seven Islands) Quebec: 50.11 N. 66.23 W. (See Plan Book)

The city of Sept-Iles is located on the Northeast side of the Baie des Sept-Iles, a sheltered circular basin screened to seaward by 7 small islands on the North shore of the St. Lawrence River.
DOCUMENTS: The following inward papers are to be completed prior to arrival and presented to custom officer on boarding:

Health	QS-2001	Quarantine Form	in duplicate
Immigration	IMM-200	Crew List	in triplicate
Customs	A-6	Report Inward	in triplicate
Customs	Y-14	Crew Declaration	in triplicate
Customs	E-1	Ship's Stores	in triplicate

Clearance from last port

The above forms will be supplied by mail on request.

Note: On New Canadian or International Crew Lists, black pen or typewriter must be used. Blue is not acceptable.

Arrangements have been made so that loading can commence before customs entry has been completed, and customs outward papers will be completed so as not to interfere with immediate departure after completion of loading.

Tankers: Charterers or Operators nominating tankers for discharge at Canadian ports should ensure that the vessel is provided with a "Non-Canadian Ship's Compliance Certificate" prior to sailing for Canada. All major Classification Societies are authorised to issue such a certificate.
DOCKING MASTER: The use of a Docking Master is compulsory for Ore Carriers docking, shifting and leaving the dock. When docking on arrival, Docking Master will board inside harbour limits in area of 50° 10′ N. and 66° 24′ W. Ships normally proceed to anchorage without assistance, which can be provided on request.

All vessels shall provide rope ladder for boarding Docking Master on arrival and disembarking Docking Master on departure. Ladder must be well secured by adequate lashings to rail or deck.

Power hoists, in good order and properly attended, are acceptable for boarding. In freezing temperatures however, they should not be used unless electrically powered.

ANCHORAGE: Ships should anchor at least 1 mile off dock to facilitate ships movement in bay and should not proceed closer than 1 mile from dock while waiting for Docking Master to board. Vessels may be requested to shift anchorage if their position interferes with normal docking approaches.
MAX. SIZE: Iron Ore Co. Loading Dock (Old): length 850 ft., beam 130 ft., draft 43 ft. Iron Ore Co. Loading Dock (New): length 1,100 ft., beam 175 ft., draft 57 ft. Imperial Oil Dock: length 775 ft., draft 40 ft.

Vessels arriving in ballast to load ore cargoes are requested to present in accordance with the following recommended arrival drafts to ensure safe handling procedures, keeping in mind indicated ship loading rates. These drafts are intended to mean minimum draft aft with normal vessel trim.

Summer Deadweight	*Recommended Arrival Drafts*
Under 30,000	4.0 m. to 4.6 m.
30,000 to 40,000	4.6 m. to 5.2 m.
40,000 to 60,000	4.9 m. to 5.8 m.
60,000 to 75,000	5.5 m. to 6.4 m.
75,000 to 100,000	6.1 m. to 7.3 m.
100,000 to 150,000	8.5 m. to 11.0 m.
150,000 to 200,000	11.0 m. to 13.0 m.
200,000 to 250,000	13.0 m. to 14.0 m.
250,000 and over	14 m. and over

Any vessels unable to meet these suggested drafts due to insufficient ballast capacity, anticipated deballasting problems, etc., should state this in 48 hours ETA, along with estimated deballasting time.

Usually ships berth port side to.
RADIO: Sept-Iles Radio, Canadian Coast Guard Station, Call sign "VCK", operates 24 hours a day.

TRAFFIC REGULATIONS: *Traffic regulations for the Gulf and River St. Lawrence:*

1. Eastern Canada Traffic Zone Regulations (ECAREG)
   The zone extends from outside of Belle Isle and Cabot Straits to 66° 23′ W.
   In general, it states that a ship crossing seaward boundary, either entering or leaving the zone, must report to ECAREG via any Canadian Coast Guard Radio Station. Clearance to move within the zone must be obtained from ECAREG and there are "calling-in-points" where a ship has to report.
   There are also additional reports to be made in case of any defects in machinery, navigational aids, accidents, stranding, pollution, etc.
2. The St. Lawrence Waterway Traffic Regulations.
   The zone extends from 66° 23′ W. to Montreal.
   In general, the regulations state that a ship must report to the marine traffic regulator by contacting Channel Quebec on 156.7 mHz, Channel 14 before entering Zone 1. (i.e. crossing 66° 23′ W.) The port of Sept-Iles is in Zone 1.
   Ships have to maintain a continuous radio watch on Channel 14, except when alongside. Authorisation to communicate on another Channel has to be requested from Channel Quebec, unless the vessel is equipped with two radios.
   Clearance must be obtained from Channel Quebec to move within the harbour.

Ore Carriers:
Advising Arrival: Cable address "Iroccan" Sept-Iles. Please advise ETA 96 hours, 72 hours, 48 hours and 24 hours out, including in 96 hours ETA tonnage of cargo required.

Vessels sailing in ballast from Montreal, Sorel, Three Rivers or Quebec should send ETA on departure from these ports with corrected ETA later if necessary.

Advise with 24 hour ETA probable ballast pumping time required on arrival. If any change in ETA or in ballast situation should occur after 24 hour ETA, it should be advised as soon as possible.

The Marine Services office is equipped with VHF radio on 156.6 mHz Channel 12, and also 156.35 mHz, Channel 7A. Vessels calling at Sept-Iles should be fitted with these VHF Channels for efficient harbour communications.

Docking Instructions: Ships are to request instructions 8 hours before arrival. These instructions will be given as promptly and concisely as conditions permit.

Marine Services is set up to receive radio messages on 24 hour basis. Radio traffic by ships at anchor is permissible in Sept-Iles harbour area.

HEALTH:

1. Vessels calling at Canadian ports no longer require Radio Pratique unless:
   (i) there is a condition of health irregularity aboard or,
   (ii) if vessel has called at an infected port during this same voyage or,
   (iii) if derat certificate is no longer valid or will soon expire.
2. Only vessels to which any of the above conditions apply, should cable "Quarantine Quebec" giving name of vessel, last port of call and detail regarding health conditions aboard.

TUGS: Tug service is compulsory at Iron Ore Company docks and Wabash Mines Docks. Two tugs of 5,400 h.p. available.

Additional tug power is available from Port-Cartier when required. All communications between tugs and Pilots is by VHF. Tugs operate on 156.9 (Channel 18A).

All ships should be equipped with wire cable towing line with nylon pendant for tug use in undocking. Ships not so equipped will be provided with tug tow lines. Docking Master to determine adequacy of ship's tow lines.

BERTHING:

N.H.B. – Facilities

Berth Number (usual name)	*Wharf length (ft.)*	*Depth at Low Water (ft.)*	*Remarks*
Pointe-aux-Basques	600	34	Small open section at East end of Shed No.
Shed No. 1			General cargo shed
Shed No. 2			General cargo shed West and behind Shed No. 1
Mgr. Blanche Wharf	900	23	General cargo berth. Also has docking facilities at the end of the Finger Pier, approx. 180 ft. with a draft of 27 ft. Docking on the end and the West side of pier only. Small open berth at upper end of pier
Town Wharf	546	—	Small coastal vessels Finger Pier also used for small cruising vessels and crafts
Pointe Noire Pier	—	—	Not to be used unless directed by Port officials

Private Facilities

Berth	*Length (ft.)*	*Depth at Low Water (ft.)*	*Utilisation and general remarks*
Wabush Dock	650	37	General cargo and mooring berth (East end). Total 1,600 ft. berthing
Terminal	950	37	Iron Ore loading berth (West end). Total 1,600 ft. berthing (Loading ore by means of 2 travelling boom conveyors. Total capacity 8,000 long t.p.h.)
Iron Ore Dock Terminal	800	34	Mooring and general cargo receiving berth (West)
Southeast Berth			
No. 1 Dock	800	38	Ore loading berth 2 travelling boom conveyors max. design capacity. Total berthing length 1,600 ft.
No. 2 Dock	900	60	Total effective mooring length approx. 1,600 ft. Two travelling shuttle boom loaders with 764 ft. of travel. Max. design capacity 7,500 long t.p.h. each
Imperial Oil Dock	300	40	Dolphins increase capacity for berthing

See also following information on The Ore Company berths. Vessels usually berth port-side alongside.

Number 1 Dock. 2,200 ft. (670 m.) dock divided into 3 berths. The Southeast or loading berth is 800 ft. (224 m.) in length and is fendered with large truck tyres mounted over the dock face. The adjoining 800 ft. (244 m.) mooring or waiting berth is also fendered with large truck tyres. The third and last section, 600 ft. (183 m.) in length, is a Government berth used for general cargo.

Dredged depth at the loading berth is 37 ft. (11.3 m.) at mean low water, 34 ft. (10.4 m.) at mooring berth. Designed depth at the government berth is 27 ft. (8.2 m.). At the loading berth, iron ore is loaded into vessels by means of 2 travelling boom conveyors (travel 183 m.) with a max. design capacity of 4,000 metric t.p.h. each.

The distance from mean low water to loaders in horizontal position is approx. 35 ft. (10.7 m.). Loaders can operate at an angle of up to 12 degrees from the horizontal. Vessels should present for loading with a maximum distance of 40 ft. (12.2 m.) from waterline to hatch coaming. Number 1 dock is fitted with bollards spaced at 50 ft. (15 m.) centres.

Number 2 Dock. Deepwater berth is located some 900 ft. (274 m.) Southeast of original dock and extends approx. 230 ft. (70 m.) further into bay. This single berth is open cell construction with 9 parallel cribs giving total berthing face of approx. 925 ft. (282 m.). A tenth transfer house crib, inset from dock face and a dolphin, both structures fitted with mooring winch and bollards, are located approx. 150 ft. (46 m.) and 350 ft. (107 m.) respectively from N.W. corner of dock face. Two additional dolphins, also fitted with mooring winch and bollards, are situated in a line approx. 150 ft. (46 m.) inside dock face and approx. 100 ft. (30 m.) and 400 ft. (122 m.) from S.E. corner of dock. Dolphins are joined to main dock structure by catwalks. Total effective mooring length is approx. 1,600 ft. (488 m.). Cribs are fendered to waterline with triple sets of extra large truck tyres. Dredged depth is 60 ft. (18.0 m.) MLW. Dock is fitted with 2 travelling shuttle boom loaders with 764 ft. (233 m.) of available shiploader travel, and a maximum design capacity of 7,600 metric tons/hr. each. Number 2 Dock is fitted with bollards spaced at 100 ft. (30 m.) centres. Recommended maximum airdraft for this berth is 17.0 m.

Tidal characteristics		
	neaps	5 ft. 06 in. (1.68 m.)
	springs	11 ft. 00 in. (3.35 m.)

CRANES: Heavy-lift cranes available. Max. capacity 250 tons.

MEDICAL: Masters are requested to have seamen's smallpox vaccination certificates ready for inspection, also ship's deratisation certificate. Seamen who cannot produce a valid smallpox certificate may require vaccinating in special cases.

All crew members requiring medical attention should be available upon ship's arrival. Sick Mariners dues no longer apply for treatment of seamen. Agent will provide form of application to be given to doctor for crew members requiring medical attention.

TANKERS: Berth at Imperial Oil Dock. Max. draft 40 ft.

FRESH WATER: Can be supplied at the approx. rate of 35 t.p.h. Hose is available on the dock but ships' crew are required for connecting and disconnecting.

FUEL: Available on an emergency basis only and subject to inventory situation. All enquiries should be directed to BunkerEsso Montreal.

CUSTOMS ALLOWANCES: Each crew member is allowed to retain in his possession for his personal consumption 200 cigarettes, 40 ounces of spirits, 50 cigars or 2 pounds of pipe tobacco. All quantities must be declared on Crew Declaration form Y-14 along with all personal effects such as radios, cameras, tape recorders, binoculars, etc., plus serial numbers of each such item.

REPAIRS: Minor repairs can be effected at Sept-Iles. Repairs to be conducted under the supervision of ships' personnel.

TIME: Sept-Iles maintains Eastern Standard Time (GMT minus 5) from last Saturday in October until last Saturday in April. Eastern daylight time (GMT minus 4) is maintained the balance of the year.

SHORE LEAVE: Crew not allowed ashore until permission granted by the authorities.

GENERAL: *Customs of the Port:* Ships will be loaded in regular turn of vessels, subject to cargo availability and providing they present with starting hatches open and do not have ballast pumping which will exceed expected loading time. This loading time should be calculated at the rate of 6,600 metric tons/hr. at dock No. 1 and 10,000 metric tons/hr. at dock No. 2.

For establishing turn of vessels, a ship will be considered "arrived" at the time of crossing line between Pointe au Corbeau and Pointe aux Basques.

Loading plans should be presented to the loading foreman on arrival.

Ore-Oil and OBO vessels having discharged petroleum products at last port must advise this in first ETA. If gas-free certificate not already granted by independent chemist, arrangements will be made to have chemist attend. The arrangement for such service implies no liability whatsoever on the part of Iron Ore Co. of Canada Marine Services. Expense for ship's account.

Ships will leave the loading dock immediately upon completion of cargo and secure for sea in the bay. If any delays occur on documentation, crew members missing, etc., ship will leave the dock and all matters will be handled from anchorage.

Present outlook for working hours, subject to change during the season, is as follows: 24-hour operation Sundays included. Usually no loading from 1600 hrs. December 24th till 1600 hrs. December 25th and from 1600 hrs. December 31st till 1600 hrs. January 1st.

Vessels must have main engine ready when alongside loading docks. Permission to perform work that would affect the readiness of the vessel to leave berth in case of emergency must be obtained from Iron Ore Co. Marine Services before proceeding with such work.

Services: Most supplies can be readily obtained at Sept-Iles. Quantity orders should be included in 48 hour ETA. Requests for bonded stores should be included in 96 hour ETA.

Garbage service available alongside on request.

Launch service is available on request through Marine Services, Channel 12.

Walport film exchange available.

Ice Navigation in Canadian Waters: During the Winter, ECAREG CANADA (East of 66° 23′ W.) and the St. Lawrence River Vessel Traffic Management (VTM), West of 66° 23′ W. to Montreal, provide a service consisting of the promulgation of up-to-date information on ice conditions, routeing, the provision of icebreaker support where available and considered necessary, and organisation of convoys as required.

Masters requesting this service should address their request to ECAREG CANADA through any convenient Canadian Coast Guard radio station which will handle the message free of charge.

Basically, each system is under the surveillance of Canadian Coast Guard Traffic Centres which Masters may contact for advice and assistance. These centres have access to a complete and current picture of the ice conditions prevailing and the anticipated trend of conditions. The centres are therefore, well equipped to provide advice on the best route to follow. In order to obtain the maximum benefit from the service, it is essential that Masters report to the appropriate

Canadian Coast Guard Traffic Centre before their ships enter waters where ice may be encountered. (See "General" before first port).

Radio communications play a very important part in successful ice navigation. The Master relies upon the receipt of accurate ice information and advice upon which he can base his decisions as to his future course and progress.

Ships proceeding independently throughout the Gulf of St. Lawrence when ice is present should report their positions and progress to "Ice Halifax" at 0800 and 2000 A.S.T.

Radiogram: "Ice Halifax". Radio Station: Halifax, Call sign VCS.

Ships inbound from sea to a port in Zone B should report to "Ice Halifax" 36 hours before passing Cape Ray. Ships outbound should report to "Ice Halifax" 12 hours before departure.

AUTHORITY: National Harbours Board.

SHEET HARBOUR, N.S.: 44.50 N. 62.30 W.

DOCUMENTS: See "Montreal".
ICE: Open all year with aid of icebreaker during January, February and March. Ice forms about January 15th and breaks up between March 1st and 15th.
PILOTAGE: Compulsory. Pilot boards off Sheet Rock light.
ANCHORAGE: Anywhere in harbour in depths up to 10 fathoms.
MAX. SIZE: See "Berthing".
RADIO: Ship-to-shore communications: through Halifax (VCS).
TUGS: None.
BERTHING: Wharf, berthing length 500 ft. depth low water 21 ft. No railroad or handling facilities on wharf. (The wharf is in an advanced state of disrepair, removal will probably take place in the near future).
STEVEDORES: Skilled labour available. Gangs consist of 20 men.
MEDICAL: Hospitals available.
FRESH WATER: Available by hose from mill.
FUEL: None available.
REPAIRS: No facilities available.
AIRPORT: Halifax 75 miles.
TIME: GMT minus 3 hours in Summer. GMT minus 4 hours Winter.
AUTHORITY: Dept. of Transport.

SHIPPEGAN HARBOUR, N.B.: 47.45 N. 64.42 W.
CARAQUET HARBOUR: 47.48 N. 64.56 W.
(See Plan Book)

DOCUMENTS: See "Montreal".
PILOTAGE: Approaching vessel hoists flag "G" and uses siren about 1 mile before reaching fairway buoy. Pilot boat motorised 45-ft. vessel, approaches on leeside. Approaching vessels wait for Pilot about a mile from fairway buoy.
ANCHORAGE: Good anchorage, usually by fairway buoy.
RESTRICTIONS: Entry possible night and day, good vision, lighted buoys and beacon lights.
MAX. SIZE: High tide: 23 ft. low tide: 17 ft. (At Shippegan, max. tide: 20 ft.).
HEALTH: See "Montreal".
RADIO: VCN Grindstone Radio and VCG Fox River.
TUGS: Not required for these ports.
BERTHING: Caraquet Wharf, 28 ft., Shippegan 25 ft.
MEDICAL: No notice required, hospital available, as required when conditions warrant.
FRESH WATER: Available.
CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes per week per man. Wine/Spirits, Spirits allowed to officers. Beer to crew.
REPAIRS: Minor ship repairs and all electrical repairs.
TIME: Atlantic Standard Time GMT minus 4 hours, Daylight saving time from last week-end in April to last week-end in October, clocks advanced 1 hour.
AIRPORT: Moncton, 150 miles, Chatham, 70 miles.
POLICE/AMBULANCE/FIRE: *Caraquet,* Police RCMP 727-2828; Police Town, 727-3167; Fire, 727-2928; Hospital, 727-3435. *Shippegan:* Police, RCMP, 336-2210, Town, 336-2351. Hospital: 344 2261.
AUTHORITY: Dept. of Transport.

SOREL, Quebec: 46.03 N. 73.09 W. (See Plan Book)

DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
3 Crew Declarations (Canadian Form Y14).
3 Store Lists (Canadian Form E.1).
Health Declaration (Canadian Form QS.2001).
3 Cargo Manifests.
3 Bills of Lading.
PILOTAGE: Compulsory. Under the Montreal Pilotage Authority. Vessels coming in from sea secure Pilots at Escoumins, Quebec and Three Rivers.
ANCHORAGE: Safe and roomy anchorage is provided in the St. Lawrence River off Sorel in a basin nine miles long by half a mile wide with 30 to 50 feet water depth. There is no tidal influence at this point.
RESTRICTIONS: Speed limits not to exceed 10 m.p.h. in the Harbour of Sorel. Sections 8, 9 and 10 reserved for D.O.T. vessels.
MAX. SIZE: Up to 32 ft. draft. Governed by least depth in channel of 35 ft. at low water.
HEALTH: Pratique may be obtained by radio to Quarantine Quebec. Health Officer boards on arrival. Valid smallpox vaccination certificates required.

Sorel is also an organised quarantine sub-station. (See "Canadian Quarantine Requirements" for full particulars).
RADIO: St. Lawrence River Marine Traffic Control call sign VFN Sorel and VBK Three Rivers.
RADAR: Radar service may be obtained by VHF from Montreal.
TUGS: Tugs are available all year round at Sorel. Their use is advisable for all berths in the Richelieu River, for berths in Lanctot Basin and at Section 5 for ships exceeding 250 ft. in length or having low manoeuvrability. They are also needed for large ships at Sections 15 and 21 when leaving with an Easterly destination.
BERTHING: Following depths are expressed in feet reduced to chart datum and must be used as guidance only. For up-to-date information refer to Canadian Marine Chart No. 1338 (Sorel Harbour).
Ministry of Transport Wharves:
Section 5, berth 600 ft. long, 30 ft. depth.
Section 6, berth 350 ft. long, 30 ft. depth.
Section 7, berth 550 ft. long, 26 ft. depth.
Section 8, berth 525 ft. long, 20 ft. depth.
Section 9, berth 200 ft. long, 20 ft. depth.
Section 10, berth 525 ft. long, 20 ft. depth.
Section 16, berth 350 ft. long, 16 ft. depth.
Section 17, berth 700 ft. long. 16 ft. depth.
North American Elevators Wharves:
Section 11, berth 500 ft. long, 24 ft. depth.
Section 12, berth 350 ft. long, 24 ft. depth.
Section 13, berth 250 ft. long, 24 ft. depth.
Section 14, berth 615 ft. long, 24 ft. depth.
Section 15, berth 622 ft. long, 35 ft. depth.
Omnimar Inc. Wharf:
Section 18, berth 550 ft. long, 14 ft. depth.
Marine Industries Ltd. Wharf:
Section 19, berth 600 ft. long, 20 ft. depth.
Quebec Iron and Titanium Wharf:
Sections 20 and 21, berth 1,100 ft. long, 30 ft. depth.
CRANES: Mobile cranes up to 150 tons capacity available from local firms.
BULK CARGO FACILITIES: Storage space for approximately 10,000 tons available (75,000 sq.ft.).

North American Elevators Ltd. – steel and concrete grain elevator, 5,500,000 bushels capacity. Loading capacity 144,000 bushels/hour.

Quebec Iron and Titanium Wharf – electric mobile bridge, capacity 900 t.p.h.
STEVEDORES: Available for loading and unloading at any berths.
MEDICAL: Doctors and hospitals facilities available.
DENSITY: Fresh water.
FRESH WATER: Available by pipe-line at all berths.
FUEL: All grades available from major oil companies by pipe-line at all deep water berths. Can also be obtained by barges from Montreal (50 miles).
CONSULS: Almost all countries, nearest offices at Montreal.
REPAIRS: All deck, engine and boiler repairs can be effected.
DRY DOCKS: Dry-docking facilities for ships up to 12,000 tons d.w.t.
SURVEYORS: Lloyds.
CUSTOMS: Sorel is a port of entry, customs board ships.
CUSTOMS ALLOWANCES: 200 cigarettes for each man, Officers may be allowed one bottle wine/spirit, Master up to five bottles.
REPATRIATION: Can be arranged through Department of Manpower and Immigration.
AIRPORT: Nearest at Montreal (Dorval) 70 miles.
TIME: GMT minus 5 hours. Daylight Saving Time: GMT minus 4 hours, applied from last Saturday of April until last Saturday of October each year.
HOLIDAYS: New Year's Day, Good Friday, Easter Monday, St. John the Baptist Day, Dominion Day, Labour Day, Queen's Birthday, Remembrance Day, Christmas Day, Boxing Day.
POLICE/AMBULANCE/FIRE: Police/Fire 742-5656; Ambulance 742-9441.
SERVICES: Ship's stores can be secured in Port. Tank cleaning equipment available.
SHORE LEAVE: Crew members allowed ashore. No restrictions.
REGULATIONS: Public Harbours Regulations.
AUTHORITY: Department of Transport, Sorel.

STEPHENVILLE, Newfoundland: 48.30 N. 58.33 W.
(See Plan Book)

PORT LIMITS: Beginning at Indian Head (Long. 48° 29′ 58″, Lat. 58° 31′ 49″); thence running true 210° for 1,700 yards; thence running true 320° for 6,000 yards; thence running true north for a distance of 2,100 yards more or less to the high water mark.
DOCUMENTS:
Completed Declaration of Health
Valid Deratting Certificate
3 Crew Lists (Form 200)
3 Crew Declarations (Form Y14)
3 Ship's Stores (Form E–1)
3 Passenger Lists
Manifests
Clearance from Last Port
PILOTAGE: Compulsory. Pilot boards at Fairway Buoy. Pilot ordered by reporting via any coastal radio station by radiotelephone or radiotelegraph to Pilots, Stephenville. 48, 24 and 12 hr. ETA required. Time used must be GMT. The Pilot at Stephenville guards Channel 16 (156.8 MZ) and works Channel 11 (156.66 MZ).

Harbour Pilot: Capt. Melbourne, Phone: 643-4056 – Stand by Pilots: Capt. W. Collins, Phone: 686-5046, Capt. D. Keeping, Phone: 686-5017.

ANCHORAGE: No sheltered anchorage in the harbour; vessels are exposed to prevailing westerly winds.

RESTRICTIONS: Maximum recommended draft is 30 ft. Daylight sailings only. Channel has least width of 150 ft. with a length of 1.5 miles. Water depth at berth is 30 ft. with a tidal rise of 3–4 ft. For any changes in depth restrictions, Mariners should obtain copies of the Canadian Hydrographic Services Sailing Directions for Newfoundland and Chart No. 4681.

RADIO: Stephenville Marine Radio, call sign VOJ. Halifax Marine Radio is recommended for all messages.

BERTHING: 1 berth of 960 ft. Also dolphins used primarily for pulpwood discharge can accommodate vessels of over 600 ft. Max. draft at dolphins approximately 22 ft. The largest vessel to enter port has been 640 ft. long and any anticipated larger vessels should be discussed with Port Officials.

STEVEDORES: Ordered by Agent.

MEDICAL: No advance notice required unless serious emergency. Hospital facilities available.

TANKERS: Tanker berth is the main government wharf (960 ft. long). Discharge lines are: 1×6 in., 1×8 in. and 2×10 in. The pipe-lines and nearby tanks are owned by Harmon Corporation and are leased to users.

DENSITY: Salt water.

FRESH WATER: Available from pipes on dock at $1.00 per ton. Water pipe is operated by the Town of Stephenville.

FUEL: Marine diesel available. Delivery by truck.

CONSULS: Nearest Consuls are situated in St. John's, which is approximately 500 miles away.

REPAIRS: Minor repairs are possible locally.

OPENING/CLOSING HATCHES: Normally carried out by vessel's crew.

IDENTIFICATION CARDS: Not required.

REPATRIATION: Can be arranged.

AIRPORT: 5 miles from dock.

POLICE/FIRE/AMBULANCE: Police 643-2118, Fire 643-2176, Russell's Ambulance 643–2472, Hospital 643-5131

TELEPHONES: Can be arranged through Newfoundland Telephone Company Limited, Market Division, P.O. Box 98, Corner Brook, Nfld. Phone: 643-3197. Phone jack has already been installed on the dock.

SHORE LEAVE: No restrictions.

GENERAL: Ice is navigable throughout the Winter season. Extra information can be obtained from Ice Operations in St. John's – Newfoundland, Tel: 709-737-2083. Cables: Ice Operations – St. John's – Canadian Coast Guard.

AUTHORITY: Ministry of Transport, St. John's.

AGENT: At present, the Harmon Development Corporation is acting as Agent for the port. Any special arrangements can be made through the corporation, which is a Provincial Crown Corporation. Address: Harmon Development Corporation, P.O. Box 328, Stephenville, Nfld.; attention Mr. J. Cochrane, Harbour Master, Phone: 709-643 2363.

SUMMERSIDE, P.E.I.: 46.23 N. 63.47 W.

DOCUMENTS:

2 IMM.200.
3 E.1.
1 Quarantine 2001.
2 Passenger Lists.
1 Customs Document A.6.

PILOTAGE: 24 hours notice of ETA to Agent who notifies Pilot. Pilot boards fairway buoy about 6 miles from wharf.

ANCHORAGE: At fairway buoy in depths of 30-35 ft.

MAX. SIZE: 550 ft. length, 50 ft. beam, 24 ft. draft.

HEALTH: Vessels coming from U.S.A. accepted without pratique. Vessel from other countries radio telephone for permission. See also "Montreal".

RADIO: Halifax N.S., Sydney N.S., Grindstone, M.I.

TUGS: None available.

STEVEDORES: 24 hours notice required.

MEDICAL: Hospital facilities available. Current vaccination/fever certificates required.

FRESH WATER: Available 30 t.p.h.

FUEL: Can be arranged if necessary.

OPENING/CLOSING HATCHES: Crew/Stevedores.

CUSTOMS ALLOWANCE: Tobacco: 1 carton per man per week. Wine/Spirits: Spirits 40 oz. per man per week. Further allowances made if Master requests.

IDENTIFICATION CARDS: Passports required.

REPAIRS: Only minor repairs.

REPATRIATION: Can be arranged.

AIRPORT: Charlottetown Airport 39 miles away.

TIME: Atlantic Standard Time with daylight saving in Summer.

HOLIDAYS: New Year's Day; Good Friday; Victoria Day (19th May); Dominion Day (1st July); Remembrance Day (11th November); Thanksgiving (13th October); Labour Day (1st September); Christmas Day. Plus all Saturday afternoons and Sundays.

POLICE/AMBULANCE/FIRE: Police 436-9222; Ambulance dial "O" call operator; Fire 436-3333.

TELEPHONES: Telephones can be placed on board.

SHORE LEAVE: Crew allowed ashore.

AUTHORITY: Leonce Arsenault, Wharfinger.

SYDNEY, N.S.: 46.09 N. 60.12 W.

DOCUMENTS:

Crew's Declaration Y.14 in triplicate.
Ship's Stores E.1 in triplicate.
Crew Tally IMM.201 in duplicate.
Report Inward A.6 in triplicate.

PILOTAGE: Pilots are obtainable inside Fairway Buoy, 46° 18′ N., 60° 08′ W. Vessels approaching Sydney requiring Pilot must report by radiotelegraph or radiotelephone, estimated time of arrival to District Supervisor of Pilots, North Sydney, Nova Scotia, at least 12 hours before vessel's ETA. The time should preferably be GMT. ETA's must be revised if necessary prior to arrival through VCO Marine Radio Sydney, or via any Coast Radio Station.

ANCHORAGES: South Arm and Northwest Arms (good holding ground 40 to 60 ft. depth).

RESTRICTIONS: Berthing allowed day or night. "Harbour Ice", January to March, "Drift Ice" April to May. Navigable with aid of ice breakers requested from Ice Control at Sydney.

MAX. SIZE: Max. draft 37 ft. Governed by least depth in channel of 38 ft. at low water.

HEALTH: Sydney is an official quarantine station. Radio pratique obtained between 0900 and 1700 hrs. local time by radio message to "Quarantine Sydney". Information required from vessel is as follows:

Name and nationality of vessel.
Name of three previous ports called at during voyage.
Port of destination and name of Agent.
Nature of cargo.
Date and place of last derating or exemption certificate.
Number of crew and passengers.
Condition of health of all on board with details of any sickness or death occurring during the voyage.
Vaccination status of crew and passengers.
The ETA and any other information that may be required by the quarantine officers.

The ship will require usual inspection on arrival. However, radio pratique will enable vessel to enter port, dock and commence loading or unloading operations prior to official quarantine clearance. Vessels which have not applied for radio pratique and all vessels with suspected infectious disease aboard will remain in quarantine until cleared.

RADIO:

Station	*Call Letters*	*Freq. kc/s.*
Sydney Radio	VCO	500
Grindstone Island	VCN	500
Canso Radio	VAX	500
Halifax Radio	VBO	530
Cape Race	VCE	500

TUGS: No Tugs.

BERTHING: *International Steel Piers:* No. 1 Pier (Steel loading); berthing length 425 ft. Depth at low water 28 ft.

No. 2 Pier; berthing length 550 ft. Depth at low water 30 ft. Pipe-line for bunker oil, 6 in.; pipe-line for marine diesel, 4 in.; pipe-line for discharging oil, 16 in.

No. 3 pier; berthing length 710 ft. Depth at low water 41 ft. Equipped to unload cargoes by self-unloading boom type vessels and bulk carriers. Cape Breton Development Corporation, Pier No. 4; berthing length 810 ft. Depth at low water 30 ft. Used exclusively for loading coal and coke. Government Wharf (Sydney); berthing length 974 ft., depth at low water 30 ft.

Point Edward Docks: Main jetty length 850 ft. Depth at low water 36 ft. outside, 27 ft. inside. Seaward jetty length 800 ft. depth at low water 21 ft. Quay wall 1,150 ft., depth at low water 18 ft. Finger jetty, length 350 ft., depth at low water 25 ft. outside, 19 ft. inside.

STEVEDORES: Available by phoning Rowe Freight & Marine Service Ltd., (902) 564–8452 twenty-four hours before ETA of vessel. Mobile cranes available from 12 tons to 75 tons.

MEDICAL: Two hospitals.

DENSITY: Average 1023.

FRESH WATER: Available anytime, supplied through 2.5 in. hose at rate of 25 t.p.h., cost depending on tonnages, from $1.00 to 0.45 cents per ton, plus labour.

FUEL: Marine diesel, bunker fuel and galley fuels are obtainable by pipe-line at piers Nos. 2, 3 and 4. Rate of bunkering approximately 100 t.p.h.

GANGWAY/DECK WATCHMEN: Crew sufficient.

OPENING/CLOSING HATCHES: Crew.

CUSTOMS ALLOWANCE: 200 cigarettes or half a pound tobacco or 15 cigars, each officer. 40 oz. of spirit per officer.

IDENTIFICATION CARDS: Seaman's identity cards.

CONSULS:

British and Canadian Shipping Master.
Portugal Vice-Consul 794-3515.
Honorary French Consular Agent, North Sydney 794-4800.
Norwegian Vice-Consul, Sydney 564-9288.

REPAIRS: Floating repairs by Atlantic Springs Machine and Repair Company or Sydney Engineering and Drydock Company. Largest slipway 3,000 tons. Hull and engine repairs available.

REPATRIATION: Can be arranged.

AIRPORT: Served by Air Canada and Eastern Provincial Airways.

TIME: Sydney is on Atlantic Standard Time from the last Sunday in October to the last Sunday in April, and on Atlantic Daylight Time from the last Sunday in April to the last Sunday in October. GMT minus 4 hours on Atlantic Standard Time and GMT minus 3 hours on Atlantic Daylight Time.

HOLIDAYS: Christmas Day; New Year; Good Friday; Dominion Day; Thanksgiving Day; Labour Day. No work as a rule from 0800 to 0800 hrs. next day.

POLICE/AMBULANCE/FIRE: Police 564-4415; Ambulance 564-5507; Fire 539-3552.

SERVICES: Compass adjusting, tank cleaning.
SHORE LEAVE: Allowed.
AUTHORITY: Harbour Master, W. F. Rowe, Tel: 562–0835.

THOROLD, Ontario: 43.05 N. 79.10 W.

LOCATION: Town on Welland Canal, about 8 km. South of Port Weller and 32 km. North of Port Colborne, both ports being the entrances of the Canal linking Lake Ontario with Lake Erie.
RESTRICTIONS: Channel depth: Maximum permissible drafts in the Welland Canal and approaches is 7.92 m. (26 ft.). Navigation season: April 1st to December 30th on the average.
HEALTH: Incoming vessels obtain clearance at Quebec City when coming from a foreign port.
RADIO: Ship-to-shore communications: Through Toronto (VBG) or Buffalo (WBL).
BERTHING:
Industrial Dock, Wharf No. 5: Type, Coal; Equipment, Self-unloaders; Length, 500 ft. (152.4 m.); Depth, 18 ft. (5.50 m.)
Industrial Dock, Wharf No. 6: Type, Various Bulk and General Cargo Commodities; Equipment, 1–3 ton Crawler Crane, 1–3.5 ton Crawler Crane; Length, Dock Wall 400 ft. (121.9 m.), Berth 1,125 ft. (342.9 m.); Depth, 27 ft. (8.23 m.); Storage Capacity, 100,000 tons.
Ontario Paper Pulpwood Dock, Wharf No. 7: Type, Unloads Pulp and Chemicals; Equipment, 3 Orton Grapple Cranes; Length, 740 ft. (225.5 m.); Depth, 27 ft. (8.23 m.); Storage Capacity, 90,000 Cords Pulpwood.
Ontario Paper Dock, Wharf No. 8: Type, Loads Newsprint; Equipment, 2–3 ton Orton Crane Hoists; Length, 434 ft. (132.3 m.); Depth, 24 ft. (7.3 m.); Capacity, 4,000 tons in Newsprint.
Beaverboard Dock, Wharf No. 9: Type, General and Fuel Oil; Equipment, Self-unloaders or Rental Crane; Length, 1,005 ft. (306.3 m.); Depth, 27 ft. (8.23 m.).
MEDICAL: Maplehurst Hospital, Thorold; St. Catharines General Hospital, and Hotel-Dieu Hospital, both in St. Catharines.
REPAIRS: Minor repairs possible.
DRYDOCKS: None.
SERVICES: Supplies available.
HOLIDAYS: Customs and Canal officials always available during the season.
AUTHORITY: St. Lawrence Seaway Authority.

TORONTO, Ontario: 43.40 N. 79.25 W. (See Plan Book)

For important general information refer to "St. Lawrence Seaway".
DOCUMENTS: Master should prepare for boarding of Customs, Immigration Officers:
Customs – Crew Declaration Lists (in triplicate) and Ship Store Lists (in triplicate).
Immigration – Crew List and Passenger List (in duplicate).
PILOTAGE: As required by Great Lakes Pilotage Authority.
ANCHORAGES: Vessels anchor in Humber Bay or in Inner Harbour. Anchorages allotted by the Harbour Master.
RESTRICTIONS: Vessels may enter port area at any time.
MAX. SIZE: The port has facilities to accommodate any vessel which can navigate the St. Lawrence Seaway Locks.
Max. size of vessels permitted to transit the Seaway:
(a) Ships not exceeding 730 ft. overall and 75 ft. 6 in. extreme breadth may transit.
(b) Masts must not exceed 117 ft. above the water level.
(c) Max. draft 26 ft.
HEALTH: See "Montreal".
RADIO: Controlling radio station in the Toronto area is VBG Toronto. A port communications centre is located in the Harbour Master's Office and operated for emergency, safety and operational requirements. Ships entering Toronto Harbour should contact the Toronto Harbour Master's Office for information by radio telephone. Call sign XJF on frequencies:
156.8 mHz – Safety and Calling
156.6 mHz – Working
156.7 mHz – Alternate Working
TUGS: Not normally required but available. Tugs use ship's lines.
BRIDGES: Two bridges – Ship Channel Bridge and Keating Channel Bridge. Both lift bridges, no height restriction.
SPECIALISED CARGO HANDLING FACILITIES: The following companies offer berthage and storage for the bulk commodities indicated:
Liquid Chemicals. Allied Chemical Co., Domtar (no waterside storage tanks, trucked directly from vessel). Liquiterminals at Berth No. 425.
Coal. Rochester & Pittsburg Coal Co.
Cement. Lake Ontario Cement, Canada Cement Lafarge.
Molasses. Canada West Indies Molasses.
Oil. Texaco, Imperial Oil, Sun Oil, Canadian Fuel Marketers, BP, Gulf, Shell, Roy-L Canadian Fuel, Milnes Fuel Oil, Caloil,
Salt. Canadian Salt Co., Sifto Salt, Iroquois Salt.
Chemicals. Domtar.
Sugar. Redpath Sugars Ltd.
Vegetable Oils. Rothesay Concentrates Co. Ltd., Maple Leaf Mills, Victory Soya Mills.
Grain. Toronto Elevators Ltd., Victory Soya Mills; Canada Malting Ltd.
CRANES: Stationary dockside crane, capacity 300 short tons at Marine Terminal 35, floating crane 50 ton capacity and mobile crane 30 ton capacity available.
STEVEDORES: General rule is 24 hours notice.
To work ship at 1300 hrs., order gangs by 1030 hrs. the same day.
To work ship at 1800 hrs., order gangs by 1600 hrs. the same day.
To work ship at 0800 hrs., order gangs by 1530 hrs. previous day.
MEDICAL: Doctor and hospital facilities available.
TANKERS: Diameter of load/discharge lines are the American Standard 8 in. Max. draft at berths is 26 ft.
DENSITY: Fresh water.
FRESH WATER: Available at all berths.
FUEL: In most cases, vessels bunker in Montreal. Fuel available at 12 hours notice, either by road tanker or at oil berths.
Shipmaster's Report: Fuel and lub-oils only delivered by road tankers and vessels are not allowed to bunker while alongside Redpath Sugar berth. Bunkers not available on Sundays and holidays due to Department of Transportation regulations ruling that no trucks are allowed on highways those days.
GANGWAY/DECK WATCHMEN: Crew member or someone hired by Agent.
OPENING/CLOSING HATCHES: Carried out by stevedores.
CERTIFICATES:
Certificate of Registry.
Articles of Agreement.
Log Book.
Safety of Life at Sea.
Safety Equipment Certificate.
Safety Construction Certificate issued by the Country to which the ship is registered.
CUSTOMS ALLOWANCE: Tobacco, Crew entitlement on first arrival in Canada – 200 cigarettes, 50 cigars, 2 pounds of tobacco. Wine and/or Spirit, Crew entitlement on first arrival in Canada – 40 oz. of spirits, liquors or wines.
CARGO GEAR: Vessel requires a tackle equipment book and a certificate covering cargo equipment which must be kept up to date and notated every 12 months by a competent person. Port of Toronto has modern equipment including stationary Atlas crane, 300-ton capacity; mobile container crane designed for loading and unloading 20 ft. and 40 ft. containers; 56-ton overhead lift truck equipped with a 40 ft. spreader frame. Two additional container handlers and 50-ton floating crane. Private cranes, ranging in capacity from 20 tons to 150 tons are available by arrangement.
IDENTIFICATION CARDS: Visitor passes available from port police office.

REPAIRS: Most repairs not requiring dry dock can be carried out in Toronto. Nearest dry dock is located at Port Weller, 30 miles distant.
REPATRIATION: All facilities.
AIRPORT: (1) Toronto Island Airport located at Western end of harbour. General aviation only with regular airlines.
(2) Toronto International Airport approximately 15 miles distant. Airport is served by nine regular airlines.
TIME: GMT minus 5 hours. Two alterations made to clocks during year (1) Last Sunday morning in April, Eastern Standard Time to Eastern Daylight Time 1 hour ahead. (2) Last Sunday morning in October, Daylight Time to Eastern Standard Time 1 hour back.
HOLIDAYS: Work can be arranged on any holiday at double time rate with the exception of Labour Day which is the first Monday in September of each year. No work is done on this day.
POLICE/AMBULANCE/FIRE: Emergency numbers as follows: Harbour Police 863–2260; Port Police 863–2137; Fire Department 363–2133 or 361–1111; Ambulance 361–1111.
TELEPHONES: Arrangements not available for placing telephones on board.
SHORE LEAVE: No restrictions.
AUTHORITY: The Toronto Harbour Commissioners.

TROIS RIVIERES, Quebec: 46.22 N. 72.34 W. (See Plan Book)

DOCUMENTS:
2 sets Crew Lists.
2 sets Passenger Lists.
3 sets Customs Documents.
3 copies Health Documents.
6 sets Manifests.
6 sets Bills of Lading.
3 sets Ship's Papers.
PILOTAGE: Pilots take charge of vessel at Quebec for Trois Rivieres destination. See "Quebec" for further information.
ANCHORAGES: No vessel shall, except in an emergency, anchor within the harbour without prior permission from the Port Manager and then only at such place as is assigned. The anchorage area used for Trois-Rivieres is located approximately 2 miles up river.

RESTRICTIONS: Port open to navigation 12 months of the year. From January – March inclusive, vessels should be reinforced for ice.
HEALTH: Trois-Rivieres is a Port of Entry. Port doctor at the service of vessels. See also "Montreal".
RADIO: St. Lawrence River Marine Traffic Control call system letters VBK Trois-Rivieres.
TUGS: Not usually considered necessary for berthing ships. However tugs can be made available upon advance notice.
BERTHING: 20 berths are available, including 12 open and 8 shedded. Total berthing length: 3,409 m., including 2 private berths.

N.H.B. Facilities:

Berth Number (usual name)	*Wharf Length (m.)*	*Depth at LW (m.)*	*Remarks*

CRANES: Mobile cranes (private) up to capacity 180 tons available.
STEVEDORES: Stevedores available through local stevedoring firms.
MEDICAL: If medical service is required upon arrival, call through No. 7 (St. Lawrence River Marine Traffic Control System). Port doctor. Hospital facilities available.
TANKERS: Diameter of oil lines 8 in. and 12 in. No slop discharge facilities. 7 tanker berths – 5 for 30 ft. draft and 2 for 35 ft. draft.
FRESH WATER: Hoses connected to harbour hydrants at all berths; 20 t.p.h.
FUEL: Certain types of fuel oil, in quantity, supplied to ships by Gulf Oil Canada Ltd. Diesel oil is also available.
GANGWAY/DECK WATCHMEN: Not necessary except if dangerous cargo on board.
OPENING/CLOSING HATCHES: Carried out by stevedores.
CUSTOMS ALLOWANCE: 200 cigarettes each and/or 2 lb. tobacco. Wine and/or Spirits: One bottle each.
IDENTIFICATION CARDS: Seamen's card and/or passport.
CONSULS: At Montreal.
DRYDOCKS: None.
REPAIRS: Minor repairs done by local machine shops.
REPATRIATION: Can be arranged.
TIME: EDST from last Sunday of April to last Sunday of October, then normal EST.
AIRPORT: 5 miles distant. No scheduled flights.
HOLIDAYS: New Year's Day; Easter Monday; Confederation Day; Thanksgiving Day; Christmas Day; Good Friday; Queen's Birthday; Labour Day; Remembrance Day. One Civic Holiday taken June 24th.
POLICE/AMBULANCE/FIRE: Police and Fire 374–3535; Ambulance 373–0505, 376–1212, 376–1286; Poison Treatment 374–6211.
SERVICES: Compass adjusting only.
SHORE LEAVE: Members allowed ashore.
AUTHORITY: National Harbours Board.

VANCOUVER, B.C.: 49.17 N. 123.07 W.

(See Plan Book)

The port is located in an excellent sheltered natural harbour, open to navigation all year round with a minimum depth of 15 m. in the approach channel and at many berths.
PORT LIMITS: The seaward boundary of the inner port within which a vessel is considered to be an "arrived vessel" is a line drawn between Port Atkinson and Port Grey at the entrance to English Bay. The seaward boundary of the outer port is running North-South between the North Arm of the Fraser River and the International Boundary and being 5 miles offshore in the Straits of Georgia.
DOCUMENTS: The following documents are required to be prepared prior to arrival:

3 copies Canadian Customs Form E1-List of ship's stores.
3 copies Canadian Customs Form Y14-List of crew's possessions.
3 copies List of ship's slop chest stores for sale.
3 copies Canadian Immigration Form 200-Crew List.
1 copy Canadian Quarantine Form CS1.

Manifests and other documents are prepared by the Agent.
PILOTAGE: Pilotage is compulsory. Pilots board at the Fairway Buoy off Victoria, Vancouver Island. ETA to be sent to "Pilots Victoria" at least 12 hours before arrival and confirmed 4 hours before arrival. Distance to Vancouver – 135 kms.

Victoria Traffic Separation: Vessel Traffic Separations schemes are in effect – Straits of Juan de Fuca and Georgia Strait. VTM Systems are under the control of the US Coast Guard (Seattle Traffic) and the Canadian Coast Guard (Vancouver Traffic) within the respective territorial limits.
ANCHORAGE: There are 28 designated anchorages in the port which are available during periods of congestion. 19 in English Bay, 5 in main harbour and 4 above Second Narrows. Main Harbour anchorages reserved mainly for vessels awaiting berths or tides. Those outside mainly reserved for vessels expecting long waits. Main Harbour anchorages range from 9 to 21 fathoms and English Bay anchorage from 8 to 16 fathoms. Largest vessels using and expected to use Vancouver Harbour can be accommodated at all anchorages. Holding ground is good and anchorages are protected. Requests for permission to anchor must be made to the Harbour Master. Requests may be made through the First Narrows Signal Station.
RESTRICTIONS: Min. depth at LW is 15.23 m. at the First Narrows. Min. clearance at HW is 60.36 m. under First Narrows Bridge; Min. depth at LW is 12.77 m. at the Second Narrows. Min. clearance at HW is 44.21 m. under Second Narrows Bridge. Vessels can only transit Second Narrows at slack water. (All Oil Terminals and Pacific Coast Bulk Terminal lie above the Second Narrows.)

Vessels carrying dangerous goods, tankers, combined carriers, must obtain special clearance from the Harbour Master prior to entry and/or departure.

Canadian Coast Guard maintain and operate the Vessel Traffic Management System.

All International and National pollution controls are strictly enforced.
MAX. SIZE: Berthing for vessels up to 150,000 d.w.t. and draft up to 60 ft. at Roberts Bank.
HEALTH: *Quarantine Regulations:* Vessels need only apply by radio (Station VAK), where a condition of health irregularity is suspect, or the vessel has called at a country listed under the World Health Organisation as being infected with smallpox, or plague, or has an expired derat certificate.
RADIO: VAI/Vancouver Coast Guard Radio.
VHF: VAS/Vancouver Traffic located just North of the First Narrows Bridge. Manned 24 hours per day. Pilots on radio/telephone contact with Vancouver Traffic at all times. Vessels normally communicate on Channel 12 from Iona Jetty/Cape Roger Curtis inwards. Other frequencies available for communication are 16, 6, 14 and 11.
RADAR: Vancouver Traffic continuous radar surveillance from Point Grey/Point Atkinson inward Second Narrows. Anchorage assistance available.
TUGS: Meet vessels East of First Narrows and off berth. Ship's lines are used. Pilots communicate with tugs by VHF Channel 11 or Channel 6.
BULK HANDLING FACILITIES:

Grain Elevator	*Capacities*	*Belts*	*Average Rate Loading/Belt*
U.G.G.	3,645,000 bu.	2	750 t.p.h.
Pacific Elevator 1, 2	7,100,000 bu.	6	750 t.p.h.
Alberta	10,200,000 bu.	4	325 t.p.h.
Saskatchewan	8,500,000 bu.	2	1,000 t.p.h.
Pioneer Grain	4,000,000 bu.	2	1,250 t.p.h.

CRANES: Fixed crane capacity 300 tons, floating cranes, 45, 75 and 100 tons and mobile cranes of 150 and 250 tons available.
STEVEDORES: Gangs normally ordered day before ship's arrival, can be ordered same day for afternoon or evening work.
MEDICAL: All services available.
DENSITY: Density varies in different sections of harbour, according to times of year.
FRESH WATER: Available at most berths or by barge. Hose supplied. Delivery 25 t.p.h.
FUEL: Fuel and diesel oil in any quantity available to ships at oil company's wharves, or delivered by tank barge alongside. Gulf Co., Home Oil Co., Imperial Oil Co., Shell Oil Co., Texaco Canada Ltd., and Standard Oil Co. of B.C. have stocks of bunker fuel oil, intermediate diesel oils, and light and medium marine diesel oils.
FIRE PRECAUTIONS: All vessels carrying dangerous materials to have suitable towing wires over offshore bow and offshore quarter.
CONSULS: All major countries represented in Vancouver.
GANGWAY/DECK WATCHMEN: If required, employment arranged through Agent.

BERTHING: Five large vessel Inner Harbour anchorages for vessels awaiting Grain Inspection/Clearance etc., for a maximum period of 48 hours and 19 large vessel anchorages in English Bay for vessels awaiting to berth are available.

Terminal	No. of Berths	Total Length (m.)	Min. Depth (m.)	General Description

"F"	48° 24′ 54″ N.,	123° 26′ 00″ W.

Anchor berths "A", "C" and "D" have a swinging radius of 1,500 ft. and "B", "E" and "F" 1,200 ft.
RESTRICTIONS: Outer Harbour: depth 35 ft. MLLW. Inner harbour: depth 21 ft. MLLW. Largest vessel to use the port, length 575 ft. draft 34 ft.
HEALTH: Quarantine Officials board with the Pilot. Advise Agent of ETA.
VHF: Pilot station. VAK.
TUGS: Available.
BERTHING:

Berth	*Length* (ft.)	*Depth* (ft.)	*Remarks*
Ogden Point "A" N. Side	800	35	For handling lumber, pulp, paper, plywood and general cargo. Fresh water available at 20 t.p.h.
Ogden Point "A" S. Side	1000	35	
Ogden Point "B" N. Side	800	35-40	Dock to be renovated.
Ogden Point "B" S. Side	800	33-35	The South side is used for loading lumber. Fresh water available at 20 t.p.h.

STEVEDORES: 13 gangs available. Refer "Vancouver" for holidays, etc., arranged by Agent.
MEDICAL: Doctors and hospital facilities available.
DENSITY: Salt water.
FRESH WATER: Available at wharves.
FUEL: Supplied by barge from Vancouver.
CONSULS: Norway.
CUSTOMS ALLOWANCES: See "Vancouver".
SURVEYORS: Lloyds at Victoria – located at Yarrow Ltd.
GANGWAY/DECK WATCHMEN: Crew are required to act as deck watchmen.
OPENING/CLOSING HATCHES: By crew or stevedores.
CARGO GEAR: Ship's gear.
REPATRIATION: Possible, arranged by Agent.
AIRPORT: International Airport 19 miles from Victoria.
HOLIDAYS: 11 statutory holidays, however work can be arranged.
POLICE/AMBULANCE/FIRE: Available at dockside 24 hours a day.
REPAIRS: All repairs facilities available.
DRY DOCK: At Esquimalt: Length 1,173 ft.; breadth 125.6 ft.; depth 49.5 ft.
TELEPHONES: Telephones required on all ships, arranged through Agent.
SERVICES: Compass adjusting possible.
SHORE LEAVE: Allowed.
IDENTIFICATION CARDS: Seamans' book sufficient.
AUTHORITY: Dept. of Transport, Harbour Master.

WELLAND, Ontario: 42.58 N. 79.13 W.

LOCATION: Industrial city on the Welland Canal, 5 nautical miles below Lock 8.
DOCUMENTS: See "Montreal".
RESTRICTIONS: Navigation season: April 1st to December 30th (usually). Channel depth: Controlled at 8.23 m. (27 ft.) in canal channel.
HEALTH: See "Montreal".
RADIO: Ship-to-Shore communications through Toronto (VBG) or Buffalo (WBL).
BERTHING: New Welland Dock, Wharf 10. Length of wall 182.9 m. (600 ft.). Berth 222.5 m. (730 ft.). Depth alongside 9.14 m. (30 ft.). Type of facility: self unloaders and rental cranes.
SURVEYORS: A.B.S. at Toronto.
AUTHORITY: St. Lawrence Seaway Authority.

WEYMOUTH, N.S.: 44.27 N. 66.01 W.

DOCUMENTS:
3 Crew Lists.
3 Passenger Lists.
3 Customs Documents.
3 Health Documents.
3 Manifests.
Ship's Papers.

PILOTAGE: Ship's Agent contacts vessel through Marine Radio Station, Yarmouth and notifies Pilot, who will then be on lookout. Ship gives standard whistle signal for Pilot, who boards about 2 hours before high tide. In meantime, ship should ride at anchor about quarter mile N.W. of Fairway Buoy. No special pilot boat. Boat used for Pilot is 35 ft. fishing boat.

ANCHORAGE: Good safe anchorage outside harbour in 33 ft. over mud. Also quarter mile N.W. of Fairway buoy.
MAX. SIZE: Max. length permissible 375 ft. Breadth, no limit. Draft, approx. 26 ft. of water at high tide.
TUGS: No tugs required. The fishing-boat will run lines to wharf if required.
BERTHING: North Weymouth, L-shaped wharf 280 ft. in length, and leg 40 ft. width. Depth alongside 9 ft. low water.
STEVEDORES: Available. Experienced loading lumber and pulpwood.
MEDICAL: Hospital: at Digby, 20 miles distant. Ambulance can be arranged.
FRESH WATER: Available; delivery by truck.
DEVELOPMENTS: Re-dredging of channel in near future. Dates not finalised.
GANGWAY/DECK WATCHMEN: No watchmen necessary.
TIME: Eastern Standard Time GMT minus 5 hours. Daylight saving time from last week-end in April to last week-end in October, clocks advanced 1 hour.
POLICE/AMBULANCE/FIRE: Police 245–4162; Ambulance 245–2205; Fire 837–5142.
TELEPHONE: No arrangement for placing telephones on board ship. Telephone available near dock.
AUTHORITY: Dept. of Transport, Harbour Master.

WINDSOR, Ontario: 42.19 N. 83.03 W. (See Plan Book)

For important general information refer to "St. Lawrence Seaway".
DOCUMENTS:

Sanitary Health Certificate – fixed on outside of container for agriculture plant protection. 1 paper affixed to each container.
Meat locker Certificate.
Quarantine Certificate.
3 Crew Lists.
3 Passenger Lists.
3 Stores Lists.
Manifest – 3 A.6 – 2 A.6 out.
Bill of Lading.
Valid Smallpox Certificates.

PILOTAGE: Pilots board ships at Sarnia Eastbound and Port Weller Westbound.
ANCHORAGES: Windsor Harbour Anchorage lies approximately half mile North of Fighting Island marked by 2 white buoys, showing flashing white lights, an area of 800 ft. wide and 0.75 of a mile long. Depth of 5.5 to 6 fathoms.
MAX. SIZE: Can handle any ship the seaway passes. No tide.
HEALTH: In the case of vessels arriving via the St. Lawrence River radio pratique may be obtained from Quarantine Quebec. See also "Montreal".
RADIO: WFS Detroit Marine Radio. Call on Channels 26–28.
RADAR/VHF: No radar service. Harbour Master may be contacted on VHF Channel 16.
TUGS: Available when required.
STEVEDORES: Advice as to number of gangs should be received no later than 1600 hrs. on day preceding. Arrange through Agent.
MEDICAL: Four hospitals.
TANKERS:

British American; hoses = 8 in. Max. depth 19 ft.
Shell Canada; hoses = 8 in. Max. depth 19 ft.
Petrofina; hoses = 8 in. Max. depth 22 ft.
Imperial Oil; hoses = 8 in. Max. depth 18 ft.
Sterling Fuels; hoses = 14 in. & 10 in. Max. depth 27 ft.

Slop tanks available.
DENSITY: No tide, the water is fresh.
FRESH WATER: Tank truck delivery.
FUEL: Available alongside at Morton Terminal.
Direct liquid fuel bunkering at Sterling Fuel Dock for ships up to and including 1,000 ft. 24 hr. service (VHF Channel 14 or Tel: 253-4694). Dock adjacent to main shipping channel. No coal bunkering available.
FIRE PRECAUTIONS: Fire Dept. requires man at tank installations ashore while pumping, also notify Fire Dept. and Harbour Commission if any spillage.
GANGWAY/DECK WATCHMEN: Not required, but can be supplied.
OPENING/CLOSING HATCHES: Normally done by the stevedoring company.
CUSTOMS ALLOWANCE: See "Montreal".
IDENTIFICATION CARDS: I.D. cards should be carried.
CONSULS: Italian Consul, tel. 256–0092.
REPAIRS: All repairs above water can be carried out.
AIRPORT: Windsor Airport approximately 5 miles. Regular flights 7 days a week by Air Canada.
TIME: GMT minus 5 hours from October to April. DST subject to local vote.
HOLIDAYS: The following are the legally observed holidays; however, vessels will be worked on these days at applicable rates: Christmas, New Year, Good Friday, Victoria Day, Dominion Day. Civic Holiday, Labour Day, Thanksgiving and Veteran's Day.
POLICE/AMBULANCE/FIRE: Police 258–6111; Fire 258–4444; Ambulance 258–2155.
TELEPHONES: Phones can be placed on board by prior arrangement.
GENERAL: Fluctuation of water level; high Westerly wind drops water level. Detroit River Light should be contacted for water gauge on VHF 16 for upbound ships, and Belle Isle Coast Guard Stations on VHF 16 for downbound ships.
SERVICES: Tank truck available for tank-washings, also radio telephone and radar service. Compass adjustor not available.
SHORE LEAVE: No restrictions on shore leave.
AUTHORITY: Port of Windsor, Windsor Harbour Commission.

Canary Islands

ARRECIFE: 28.57 N. 13.33 W.

DOCUMENTS:

Maritime Health Declaration.
5 Crew Lists.
4 Transit Passenger Lists.
2 Provisions Lists
8 Manifests Discharge Cargo.
8 Lists of Passengers Disembarking.

PILOTAGE: Call Pilot VHF Channel 16. Pilot boards about 1,000 m. off port.

ANCHORAGE: Safe anchorage available. Cruising vessels may use own boats for transporting passengers.

RESTRICTIONS: None, except draft (see "Berthing").

HEALTH: Pratique granted in berth or at anchorage if vessel not berthing. Suspected disease on board should be reported to Agent by radio before arrival.

RADIO: Las Palmas Radio.

VHF: For communication with Pilot – Channel 16.

TUGS: No tugs stationed at Arrecife. May be ordered from Las Palmas with advance notice.

BERTHING: Muelle de los Marmoles. 1,000 m. long. Max. draft 9 m. Cargo work with ship's own gear.

STEVEDORES: Shifts 0800-1400 hrs., 1400-2000 hrs. No work Sundays or Holidays except by special arrangement.

MEDICAL: Facilities available. Advance notice required for inoculations/vaccinations which might not be immediately available.

FRESH WATER: Not available either ex-wharf or ex-barge.

FUEL: By arrangement with Spanish Oil Company CEPSA only.

REPAIRS: Slipways up to 400 tons. Workshops for minor repairs.

REPATRIATION: Via Las Palmas only.

AIRPORT: About 15 km. from port. Served by Interinsular flights and charter flights.

TIME: GMT during winter. GMT + 1 hour from first Sunday in April to last Sunday in September.

HOLIDAYS: As for Spain, plus local holidays February 7th & August 26th.

SHORE LEAVE: Allowed. Passes not necessary except for Eastern Bloc nationals.

AUTHORITY: Ayudante Militar de Marina and Grupo de Puertos de Gran Canaria.

AGENT: Arrangeable through Miller y Cia., S.A., P.O. Box 12, Las Palmas, Canary Islands. Telex: 95153 & 95353 MIDAT E. Telephone: 26 08 50 & 26 77 50.

LAS PALMAS: 28.05 N. 15.27 W. (See Plan Book)

DOCUMENTS:

5 Crew Lists.
4 Transit Passenger Lists.
2 Provisions Lists.
8 Copies of Manifest, with Bills of Lading covering cargo for Las Palmas.
8 Lists of Passengers Disembarking.
Passports of passengers landing (required by Immigration Authorities).
1 Maritime Health Declaration.

PILOTAGE: Compulsory. Masters send radio message to Agents 48 hours and 24 hours prior to arrival giving ETA and requirements. Call Pilot by VHF Channel 16. Pilot boats have black hull, white wheel house, with black "P" and boat number painted both sides of wheel house. Pilot boards approximately 1 mile from harbour entrance.

ANCHORAGE: Good anchorage in roads, depth in excess of 35 m. Sandy bottom in North roads, sand and shingle in South roads. Mean tidal range 2.5 m. Tidal velocity negligible.

RESTRICTIONS: No length or beam restrictions. Max. draft for vessels bunkering or working cargo 12.65 m. Vessels berth and unberth during day and night. Vessels carrying explosive or dangerous cargoes must apply through their Agent with sufficient advance notice (5 days for explosives) for permission to enter port, declaring quantity, IMCO class and UN numbers also ports of origin and destination of the cargo. Tankers in ballast must declare whether tanks gas-free or inerted.

MAX. SIZE: Vessels of any length and beam can safely berth and normally discharge and load cargo while bunkering. Max. allowable draft 66 ft.

Largest vessel berthed 550,000 d.w.t.

RADIO: Las Palmas Radio, call sign EAL.

TUGS: The following harbour and/or salvage tugs are available: *Tamaran,* 2,375 i.h.p.; *Arucas,* 2,200 i.h.p.; *Nublo,* 1,062 i.h.p.; *Doramas,* 1,313 i.h.p. *Punta Anaga,* 1,930 i.h.p.; *Orotava,* 2,062 i.h.p.

BERTHING: Subject to availability. Information should be radioed to Agent 48 hours prior to arrival, if berthing required, and for what purpose. Harbour approach from open sea with no impediments.

Generalisimo Franco Mole: Runs North/South, approximately 2,000 m. long. This quay is normally used by vessels bunkering and is fitted with bunker and fresh water line connections along its entire length.

Height of quay above LW averages 4.5 m. Average rise and fall of tide 2.5 m.

Vessels lie safely alongside at the following maximum drafts:

Berths	1–14 (Northern part)	36 ft. 0 in.
	15–16	34 ft. 0 in.
	17–18–19	41 ft. 6 in.

Vessels using berths 1 to 14 with drafts between 34 ft. and 36 ft. must enter and clear between half and full tide.

La Luz Mole: This quay is used mainly for cargo operations and has a total of 1,200 m. of berthing space.

A grain silo is situated at the North end of the quay. Maximum draft for berthing at the silo is 32 ft. Two connections for discharge of edible oils to the local refinery are also on this quay. Maximum drafts alongside the connections are 39 ft. and 32 ft. respectively; at the latter connection there is a length restriction of 150 m. One cold storage installation situated on this quay.

Fish Mole (Espigon del Castillo) and Ribera Mole: These 2 quays are used mainly by fishing vessels and coastal cargo vessels. Five cold storage installations are situated on the Fish Mole.

Santa Catalina Mole: This quay is used as a terminal for passenger/car ferries, with ro-ro ramps.

Outer Port Area: A new outer breakwater 3,200 m. long called "Reina Sofia Mole" runs North to South parallel with Generalisimo Franco Mole and approximately 1,000 m. to the East of it. In this area there are three new quays, EN1 and EN2 for cargo handling with ro-ro ramp and extensive container park: EN3 presently used for inactive vessels. One dolphin berth for large vessels repairing/cleaning/painting with draft up to 20 m.

BULK CARGO FACILITIES: Grain silo with 4 extractors. Rate 50 t.p.h. for each extractor. Draft alongside 32 ft. Cement silo with 2 extractors.

STEVEDORES: Loading and discharging of general cargo can be carried out between 0800 hrs. and 0200 hrs. including Saturdays.

Stevedoring labour works on a 6-hour shift system, 3 shifts per 24 hours. The shifts commence at 0800, 1400 and 2000 hrs.

Labour for the 0800 hrs. shift must be ordered by 0700 hrs., and for the 1400 hrs. and 2000 hrs. shifts on Monday to Fridays by 1300 hrs. Labour for all Saturday shifts must be ordered by 2000 hrs. on Friday.

CRANES: Floating crane with capacity of 70 tons and mobile cranes up to 125 tons capacity.

MEDICAL: Master should advise Agent if medical attention required on arrival. Hospital and ambulance services available day and night. Vaccination and inoculation available any time but notice should be given prior to arrival.

TANKERS: No facilities for slop discharge. Crude oil tanker berth. Work is almost completed on a special berth for large tankers with a draft of 22 m.

FRESH WATER: Available at inner harbour mole delivered by hose at rate of approx. 50 t.p.h. per hose, while bunkering and/or loading/discharging cargo.

Also available by barge at anchorage.

FUEL: Masters to include in messages to Agents amount, grade and viscosity of oil required, and name supplier, 48 hours prior arrival.

Bunkers supplied 24 hours. Fuel oil, diesel and gas oil available ex-wharf, rate 1,000 t.p.h.

GANGWAY/DECK WATCHMEN: Recommended. Arranged by Agents.

OPENING/CLOSING HATCHES: Performed by stevedores.

CUSTOMS ALLOWANCE: No restrictions for tobacco, wine and/or spirits.

IDENTIFICATION CARDS: Not necessary.

CONSULS: The following countries have Consular Representations at Las Palmas:

Argentina
Austria
Belgium
Brazil
Colombia
Cuba
Chile
Denmark
Dominican Republic
El Salvador
Finland
France
Great Britain
Germany (Fed. Republic)
Gambia
Greece
Guatemala
India
Iceland
Italy
Japan
Korea
Lebanon
Liberia
Mauritania
Mauritius
Monaco
Nicaragua
Norway
Netherlands
Panama
Peru
Portugal
Philippines
Senegal
Sierra Leone
Syria
South Africa
Sweden
Switzerland
United States of America
Uruguay

SURVEYORS: The following Classification Societies have resident appointed Surveyors at Las Palmas: American Bureau of Shipping, Det Norske Veritas, Lloyd's Register of Shipping, Nippon Kaiji Kyokai, Registro Italiano Navale, Bureau Veritas and Germanischer Lloyd.

REPAIRS: All types of deck and engine repairs carried out afloat.

DRYDOCK: Wharf length 560 m. depth 8-16 m. Syncrolift platform, lifting power 9,500 tons, suitable for vessels up to 190 m. length, 30 m. beam and 30,000 g.r.t. 5 mooring points of 180 m. and 2 of 220 m.

OFF-PORT TRANSFERS: 24 hour service throughout the year by helicopter and launch.

REPATRIATION: All facilities for crew changes, repatriation by sea and air.

AIRPORT: International Airport 26 km. South of Las Palmas.

TIME: GMT in Winter. Summer-time is GMT plus 1 hour.

HOLIDAYS: Local holidays: 24th June; 8th September; National Holidays: 1st January; 6th January; 19th March; 1st May; 25th July; 1st November; 8th December; 25th December; Feast Days: Maundy Thursday (half-day); Good Friday; Ascension Day; Corpus Christi.

Cargo handling during holidays and feast days; no stevedoring labour available from 2000 hrs. from day prior to Good Friday, Christmas Day and 1st January, until 0800 hrs. on following day.

POLICE/AMBULANCE/FIRE: Police, 271671. Ambulance, 245921. Fire, 232100.

TELEPHONES: Line connected to vessels alongside wharves from Harbour Board exchange if required.

SERVICES: (Special) Underwater hull cleaning, painting, surveys are carried out in clear water in outer harbour. Compass adjusting, etc.

SHORE LEAVE: Permitted. For some nationalities, passes must be issued by immigration authorities.

DEVELOPMENTS: A new outer breakwater is already in use. This runs North/South, parallel to the Generalisimo Franco Mole, and approximately 1,000 m. to the East of it. The new breakwater is 3,200 m. long.

The new harbour area thus created contains at the Northern end, the Synchrolift drydock and repair installation which is already operational.

This outer area of the harbour is protected from Southerly weather by a newly constructed jetty heading N.E. from the Southern point of the Generalisimo Franco Mole, and will in due course provide further Ro/Ro ramps and also deep-water berths for large vessels.

AUTHORITY: Port Commandant, (Comandancia de Marina) and Chief Engineer of the Port (Engeniero Director del Puerto).

AGENTS: Miller Y Cia, SA, Muelle Santa Catalina, (PO Box 12), Las Palmas, Canary Islands. Telex 95353 Midat E and 95153 Midat E. Tel. 26.08.50, 26.77.50, 27.00.98. Telegrams "Miller Las Palmas".

LA SALINETAS: 27.58 N. 15.22 E.

LOCATION: Private wharf about 15 km. South of Las Palmas, port of fertiliser plant.

DOCUMENTS:

Maritime Health Declaration.
6 Crew Lists.
2 Provisions Lists.
8 Manifests of cargo for discharge.

PILOTAGE: Pilot is taken at Las Palmas. Vessels should advise ETA to their Agents in advance and contact Las Palmas Pilots on VHF Channel 16 on arrival.

MAX. SIZE: LOA 150 m., draft 8.5 m.

HEALTH: Pratique granted on berthing.

RADIO: Las Palmas Radio.

TUGS: Not normally used, but available from Las Palmas if required.

BERTHING: Private loading quay 200 m. long, depth 8.5/15 m., can accommodate ships of 150 m. length and 8.5 m. draft. Loading by conveyor belt, 150/200 tons/hour.

MEDICAL: At Las Palmas, full facilities.

FRESH WATER: Available in an emergency only.

FUEL: Not available. Vessels should be stemmed for bunkers at Las Palmas.

REPATRIATION: Arrangeable via Las Palmas Agents.

AIRPORT: Las Palmas Gando Airport – 5 km.

TIME: GMT during winter. GMT +1 hr. from 1st Sunday in April to last Sunday in September.

HOLIDAYS: As for Spain, plus local holiday September 8th.

SHORE LEAVE: Allowed. Passes not necessary except for Eastern bloc nationals.

AUTHORITY: Compañia Insular del Nitrogeno, S.A., Madrid and Las Palmas.

SANTA CRUZ DE TENERIFE: 28.28 N. 16.16 W.

(See Plan Book)

DOCUMENTS:

6 Crew Lists.
6 Passengers in Transit Lists.
8 Passengers Landing Lists.
7 Cargo Landing Manifests.
2 Stores Lists.
1 International Health Declaration.
1 Free Pratique.

If no passenger or cargo landing, must present negative declarations.

PILOTAGE: Compulsory. Recommended give Agent 48, then 24 hours notice of ETA. Contact Pilot station by VHF Channels 14 or 16. Pilot station located at shore end of Muelle Norte. Pilot boards up to 2 miles off extreme end of Muelle Sur. In daytime Pilot cutter identified by blue flag with white "P" superimposed; night-time, red and white light. When Pilot cutter unable proceed out of harbour due heavy weather, Pilot awaits in lee of extreme end of Muelle Sur. Pilots called by VHF when entering (Channels 16 and 14); on sailing called by local Agent, or by VHF Channel 16 or 14.

ANCHORAGE: Vessels proceeding to anchorage are conducted by Pilot. Anchorage outside breakwater in depths 10 – 40 fathoms.

RESTRICTIONS: No berthing or sailing from floating pipe-line discharge terminal between 1800 and 0600 hrs. At Dique del Este, vessels over 70,000 d.w.t. berth in daytime only.

MAX. SIZE: Floating pipe-line terminal, up to 240,000 tons d.w.t. Dolphins, up to 45,000 d.w.t. Dique del Este (old part), max. length 200 m. and draft 39 ft. 6 in. (new part), 700 m. long with 300 m. LOA limitation, draft up to 54 ft.

HEALTH: Free pratique not granted by radio. "Q" Flag must be flown until vessel cleared inward by Port Health Authorities, which procedure is very quick. If suspected disease or fever on board, Agent or Port Health Authorities must be notified by radio.

RADIO: Tenerife Radio – call sign EAT working frequency 472 kc/s. Short-wave EAT 3 working frequency 1930 to 0830 hrs., 8742 kc/s. Short-wave EAT 4 working frequency 0830 to 1930 hrs., 13092 kc/s. Radio telephone call sign "Tenerife Radio" working frequency 1740 kc/s.

There is a 24-hour telephone link with vessels within 100 miles range, which vessels may utilise by calling Tenerife Radio on VHF Channel 16 for connection to Agent's telephone number.

TUGS: Join vessels entering approximately half mile to 1 mile from extreme end of Muelle Sur. Use of tug's lines optional, but when supplied by the tug, extra charges incurred.

Tugs normally available: *Torre Paloma* 2,200 h.p., *Gran Canaria* 2,250 h.p., *Guimar* 1,500 h.p., *Tacoronte* 1,800 h.p., *Montduber* 2,400 h.p.

BERTHING:

Dique del Este: 650 m. length, depth alongside 19.5 m.; 294 m. length, depth alongside 12 m.; 82 m. length, depth alongside 10 m. 65 m. length, depth alongside 8 m. Quay used by tankers, bulk carriers and container vessels. Water and bunkering facilities available.

Dique Muelle Sur: 803 m. length, depth alongside 12 m.; 213 m. length, depth alongside 10 m.; 240 m. length, depth alongside 8.50 m. Bunkering and fresh water connections available. Quay used by passenger vessels and vessels bunkering.

Muelle de Ribera: 412 m. length, depth alongside 10 m.; 131 m. length, depth alongside 9.50 m.; 295 m. length, depth alongside 8 m., 314 m. length, depth alongside 7 m. There are 2 ro/ro berths, lengths 100 m. and 169 m., depth alongside 7 m.

Fishing Harbour: Total length 1,770 m. Depth alongside 6.0 m. Bunkers are supplied by road tanker and water available at certain points along the quay.

Muelle Norte: 103 m. length, depth alongside 8 m. Bunkers and water available.

Container Mole: Length 300 m., depth alongside 10 m.
Honduras Mole: Length 90 m., depth alongside 8 m.
Dolphin Berth: Length 90 m., depth alongside 10 m.

CRANES:

Muella de Ribera: Seven 6-ton electric Portal cranes and eight 3-ton Portal cranes.

Muelle Norte: Two 6-ton electric Portal cranes.
Dique del Este: Two 30-ton electric Portal cranes.
Container Mole: One 35-ton electric Portal crane.

STEVEDORES: Monday to Saturday gangs ordered at 0600, 1200 and 1800 hrs. On Sunday there is only one shift from 0800–1400 hrs. and gangs for Sunday work must be ordered at 1300 hrs. on Saturday. Telegraphic information from Masters to be despatched 48 hours prior arrival giving first ETA. Gangs work three 6-hourly shifts, viz. 0800–1400, 1400–2000, 2000–0200 hrs. Fourth shift from 0200–0800 hrs. by special request. Orders to be made by 1900 hrs. All necessary gear supplied by stevedores.

BULK HANDLING FACILITIES: Grain silo situated at entrance to East Mole, max. discharge rate per extractor, 200 t.p.h. Two extractors available and can work 24 hours a day. It is only used for government department imports. All other shipments are discharged by grabs at the South Mole.

MEDICAL: Masters to advise by radio if medical attention required on board. Yellow fever and smallpox inoculations possible in daytime subject prior notification.

TANKERS: Local refinery (Compania Espanola de Petroleos SA) have ample couplings, hoses and reducers. Slop facilities available. Tankers discharge at Floating Pipeline Terminal at Honduras Buoy Zone.

Loading terminals situated at Dique del Este, at Puerto Honduras (used mainly for LPG and refined spirit loading), for 45,000 d.w.t., and 2 berths at extreme end of Muelle Sur.

DENSITY: About 1025.

FRESH WATER: Available at all berths, delivered by hose any time day or night. Water barge available daytime to supply vessels at anchorage, 400 tons capacity. May be available at night-time at extra cost.

FUEL: All grades available from CEPSA (cables "Spanoil Madrid" and/or "Tenerife"). Fuel available at all berths, average rate of loading 500-600 t.p.h. Bunkers at anchor can be supplied by bunkering barge *Mayorga,* 1,400 tons capacity, or *Ciudad Rodrigo,* 4,300 tons fuel; 1,300 Gasoil or diesel. Notice required for refuelling 72 hours, to be confirmed at 48 and 24 hours before arrival.

FIRE PRECAUTIONS: All tugs equipped fire-fighting equipment including foam and 4 water/foam monitors. Refinery well equipped with shore fire-fighting equipment, including mobile foam trucks.

GANGWAY/WATCHMEN: Available but not compulsory.

HATCHES: Normally opened by crew, stevedores lifting beams. If whole operation carried out by stevedores, extra charge possible.

CUSTOMS ALLOWANCE: Free port, no restrictions presently in force.

REPAIRS: NUVASA, offer a new system in slipways, the synchro-lift, lifting capacity 2,000 tons, and vessels up to max. 83 m. LOA can slip at their yards, where there is space for 14 vessels at a time. Dry docking can be effected day and night.

Their workshops can carry out major repairs to ships afloat, including engine and boiler work, and is equipped with modern machinery.

SURVEYORS: Lloyds, ABS, NKK, RIN, BV, GL and NV available from Las Palmas.

REPATRIATION: All facilities available for repatriation and crew changes. Daily air flights to Madrid and Europe.

AIRPORT: "Reina Sofia" International Airport situated 65 km. from port, served by Iberia, KLM, Air France, Lufthansa, British Caledonian and others. Daily flights to and from most European capitals.

TIME: GMT in Winter, GMT plus 1 hour in Summer.

HOLIDAYS: Local holiday: May 3rd. National holidays: January 1st, January 6th, March 19th, Maunday Thursday, Good Friday, May 1st, Corpus Christi, July 25th, August 15th, October 12th, December 8th, December 25th.

POLICE/AMBULANCE/FIRE: Police 091; Ambulance 241502; Fire 220080.

TELEPHONE: Facilities exist for connecting telephones on board.

SERVICES: Underwater hull cleaning, tank cleaning-compounds (Basic Chemicals, etc.), compass adjusting.

SHORE LEAVE: No restrictions, except for Crew members of East European countries, who must obtain Identification Cards from local Immigration.

IDENTIFICATION CARDS: Not required. For citizens of East European countries local Immigration will deliver Identification Cards, which should be returned to Agent before sailing.

PORT LIMITS: Inside of a direct line running from Pta. Joao Ribeiro to Pta. do Morro Blanco.

PORT: Porto Grande at 16° 52′ 55″ N. 25° 00′ 25″ W. City: Mindelo.

HARBOUR: Porto Grande is a natural semi-circular harbour sheltered and safe, facing island of Santo Antao over a channel approximately 10 miles wide at nearest points. In this channel but nearer St. Vincent is the rock of Ilheu dos Passaros on which is a lighthouse. Entry to harbour is from North to South. Weather conditions throughout year usually good to excellent.

DOCUMENTS: On arrival Masters should hand to Agent:

3 Crew Lists.
3 Passenger Lists.
1 Maritime Health Declaration Certificate.
1 copy Stores List.
Port Doctor will also wish to sight ship's Deratisation Certificate.

When discharging cargo a minimum of 5 copies of Bill of Lading and 5 copies of Manifest are required. No special form for Passenger Lists and Crew Lists, and those in general use by the vessel will be accepted.

PILOTAGE: Radio notice of ETA must be sent by Master to Agent at least 48 hours before arrival. Pilot boards mid-way between Bird Island (Ilheu dos Passaros) and the Quay. The Pilot prefers to use Jacob's ladder. Signal for Pilot is 2 long and 1 short blast on ship's whistle. However, sound signals prohibited between 2000 and 0800 hrs. local time. Time between Pilot boarding to vessel's anchoring or berthing at piers is 10 to 45 minutes. See "Radio".

Important: The Harbour Master requests Masters not to anchor in harbour before Pilot on board. Pilots available day and night. Pilotage compulsory for all vessels entering harbour for anchoring, or berthing. When sailing, pilotage not compulsory for vessels which anchored in harbour. Pilotage compulsory for all vessels berthing and unberthing at piers.

ANCHORAGE: Anchorage berth in 4 to 20 fathoms.

MAX. SIZE: The harbour of Porto Grande can accommodate vessels up to any size. Also see "Berthing" and "Tankers".

HEALTH: Free pratique can be obtained before arrival on application by radio to Guarda Mor (port doctor) of Sao Vicente de Cabo Verde confirming that crew are in good health. The port doctor, however, usually boards vessel on arrival in company with police and Customs guards, order provide any medical assistance which may be required. Crew and passengers should be in possession of Smallpox Vaccination Certificates. Production of these certificates will not, however, be called for unless there is a very good reason for doing so.

RADIO: Advice of ETA should be sent by radio to Agents at least 48 hours prior to entering port. Bunker and water requirements, if any, should also be requisitioned in same message. Cash to Master, provisions, cigarettes, spirits, etc., should be also added. ETA message should also advise number of hatches to be worked and number of tons in each hatch.

St. Vincent radio operates on CQA–500 kc/s. and 8.738 mc/s. 24 hours a day – working frequency 435 kc/s. on 8 mc/s. Listening every 2 hours over the hour and again each half hour on the hour. Pilot station may be contacted on VHF Channel 13-16.

BERTHING:

Pier No.	*Max. Depths metres*	*Length of Pier metres*
1*	11.50	310.00
2	11.50	310.00
3	9.50	160.50
4	9.50	160.50
5	8.50	90.00
6	6.50	122.00
7	4.50	61.50
8	3.50	106.75
9	3.50	40.00
10	4.50	100.00
11	5.50	100.00

(*This pier is open to the sea and usable subject to prevailing winds and swell).

Floating and suspended fenders are available at the piers. Suspended fenders are each of 3 lorry tyres, 3 ft. wide with a diameter of 2 ft. 6 in. suspended at intervals of 70 ft. Floating fenders are of 5 tyres with a wooden core and are 4 ft. 6 in. long and 3 ft. 6 in. in diameter and are placed at intervals between the suspended fenders. Cruising vessels normally berth at pier No. 2. Max. draft 33 ft.

Height of Pier No. 2 above sea level approximately 2 m. Vessels moor port side to pier. No shore gangways available. Cruising vessels with drafts too deep to berth alongside piers can anchor in harbour about 1,250/1,500 m. distance from Custom House pier where passengers may land. Ship's launches must be used for the transport of passengers to and from shore. With tug assistance vessels may berth or unberth at any time of day or night at piers Nos. 2, 3 and 4, but in adverse weather or other adverse conditions berthing at night may be prevented. Berthing and unberthing at night at other piers generally not possible.

STEVEDORES: If quantity for loading or discharging is of 10 tons or under, and in comparatively small parcels, then cargo can be loaded or discharged using the only small lighter available for vessels at anchorage. If larger quantity to be handled vessel must berth alongside quay. In both instances ship's tackle must be used. Discharging rate for bagged cargo, i.e. flour, rice, etc., is about 30 t.p.h. per hatch. In all cases vessel's derricks and winches are used. There are no lighters available, therefore as described above all cargo in excess of 10 tons must be loaded or discharged at the piers. The opening/closing of hatches is the responsibility of the crew on board, but can be done by the stevedores by arrangement with the Master under the supervision and responsibility of the ship's officers.

TANKERS: Max. length 775 ft.; max. draft 36 ft. Underkeel clearance 4 ft. Max. d.w.t. 53,000 tons.

Discharge effected by barge from starboard side of tanker at anchorage, also through submarine pipe-line in harbour at: Lat. 16° 53′ 30″ W. Long. 25° 00′ 50″ W. length of line, 1,000 m.; diameter, 20 in.; berth, Buoys; hoses 12 in.; number of hoses, 7; position of hose connections, midships starboard side; Max. rate per hour, 2000 metric tonnes; density of water at berth 1025.

Submarine pipe-line buoy berth. Tankers moored to 1 forward buoy and 3 stern buoys. Tanker also uses port anchor which is dropped before tying up to buoys. Nature of bottom is coarse sand and gravel. Berthing at buoys carried out 24 hours a day and port tugs of up to 1,200 h.p. used always on berthing and on unberthing according to weather conditions.

Cleaning tanks: 50 miles from shore only.

Gas freeing: At present no facilities available.

FRESH WATER: Can be supplied at anchorage or at piers or ex lighter day or night. Water suppliers request at least 48 hours notice giving quantity required. A minimum charge covering costs of supply of 20 tons is made on supply for under that quantity. To supply over 750 tons during a 12-hour stay in port with 2 lighters, giving between 25 to 50 t.p.h per hose, would be difficult. Connections of hose couplings from water barges are 3 in. male, 11 threads per in.

FUEL: Oil bunkering carried out ex lighter at anchorage at rate of up to 300 t.p.h. dependent upon speed at which vessel can receive. Both fuel and diesel oil bunkers can be supplied at the piers. Gas oil can be supplied in drums to vessel at anchorage or in bulk ex pipe-line on piers. All bunkering at anchorage ex barge takes place on starboard side of vessel.

GANGWAY/DECK WATCHMEN: Two Maritime Police are always in attendance and are compulsory.

CUSTOMS ALLOWANCES: Tobacco and Wine and/or Spirits, no restrictions within reason.

CONSULS:

Belgian (Vice-Consul)
Danish (Vice-Consul)
Netherlands (Vice-Consul)
Norwegian (Consul)
Swedish (Vice-Consul)
Venezuelan (Belgian Consul acts in a friendly capacity).

REPAIRS: At present voyage repairs of limited scope carried out, but slipping facilities are available for craft up to 250 tons only. Facilities expected to improve in the near future.

REPATRIATION: Facilities exist for effecting crew changes by air, but recommend that TAP Lisbon be contacted by Owners for crew making flights into Sal Island order join vessel St. Vincent. Agents should also be informed to make necessary arrangements for flight on local plane from Sal Island to St. Vincent. All crew travelling to Cape Verde must have transit visa issued by Portuguese Consul in country of origin. All crew, except cases for hospitalisation, must be in possession of a passport before Portuguese police will permit them disembark for repatriation. Crew possessing valid passports or sailors' books can land in Cape Verde for medical and/or hospital treatment or for repatriation to country of nationality provided it is country with whom Portugal has diplomatic relations and provided Agents of vessel take full responsibility on behalf of Owners for all expenses.

AIRPORT: Airport served by Dove planes for inter-island service only. 20 flights a week in and out of St. Vincent, 4 direct from Praia and 6 via Sal Island inwards. 5 via Sal and 5 direct Praia outwards. Main Airport is at Sal Island where 5 flights a week by Boeing 727 call to and from Lisbon. At Sal Island the only hotel is situated at the Airport.

TIME: One hour behind GMT all the year round.

HOLIDAYS: New Year's Day (1st January); National hero's day (20th January); St. Vincent's Day (22nd January); Women Day (8th March); Workman Day (1st May); Children's Day (1st June); National Independence Day; (5th July) Nationality's Day; (12th September); Christmas Day (25th December).

Although offices closed on holidays, loading and discharging of vessels not generally affected.

POLICE/DOCTOR/AMBULANCE/FIRE: Contact police on board or local Agent.

AUTHORITY: Director Geral de Marinha e Portos.

AGENT: Agencia Nacional de Viagens (Seccao Internacional) P.O. Box 16, St. Vincent, Republic of Cape Verde. Cable Address: Anavsi Saovicentecaboverde.

NOTES

Please also advise Shipping Guides Ltd.

Cayman Islands

CAYMAN BRAC (See Plan Book)

SHIPMASTER'S REPORT: (February 1979)

Cayman Brac – Lightering Area

Chart: British Admiralty 462.
Radio: Very weak VHF only Channels 16, 10, 6. Call – "Cayman Energy" Agent recommends using Curacao (PJC) for ETA's & etc.
Boarding Positions:

No. 1	19° 46′ N., 79° 46.5′ W.
No. 2	19° 40′ N., 79° 53′ W.

Documents: 4 Crew Lists, 3 Stores Lists, 3 Personal Effects Lists, 2 Vaccination Lists, Clearance from Last Port, Cargo Manifest and Health Declaration (supplied).
Pilots: Mooring Master boards service vessel. STBL. 2 Pilots, 2 Assistants and 2 Riggers (for fenders). The above six men require accommodation on board.
Mooring: According to Operators 'Cayman Energy Ltd.', can be carried out anytime day or night.

Cayman Energy Ltd., based in New York, are the operators of the transhipment operation. The local Terminal Manager and Senior Mooring Master resides on Cayman Brac and usually carries out the berthing operation from the service vessel. Ship to ship transfers commenced in 1977, future developments include the construction of a Transhipment Terminal on Little Cayman using SBM's., this project should come into operation late 1979.

The berthing procedure is straightforward and based on the ICS Ship to Ship Transfer Guide. On this occasion, Texaco were using vessels of about 45,000 d.w.t. as service vessels. These ships are in the region of 20 years old and have no modifications for this work. The Officers and crew of these vessels were mainly Italian and well practiced in ship to ship transfers.

Upon completion of mooring, the Mooring Master departs and the Pilots remain on both vessels in an advisory capacity. Two 10 in. hoses are connected by the respective crews, the shore riggers assisting. Communications between the two vessels is by VHF.

During the transfer operation, the vessels are expected to remain within 4 to 5 miles from the island and the service vessel kept in the lee of the STBL. This entails maintaining a proper bridge watch and frequent use of the engines. The currents invariably set away from the island and can be quite strong at times. The winds during the latter part of January were extremely variable in both direction and force.

The Texaco practice of the STBL taking dirty ballast from the service vessel whilst reducing the risk of pollution, poses stress problems and also requires strict supervision of line draining between each operation. Ideally, water dips and ullages should be taken prior to and after the deballasting.

Unberthing is carried out by the Mooring Master whilst both vessels are drifting. The off-loader is put on the weather side of the STBL. This practice is questionable in winds over 15 knots – the movement of the smaller vessel together with reduced freeboard causes difficulties with the fenders.

The average berth time for each vessel is approximately 30 hours, the number of off-loaders for a ship of this size is five. If a safe and efficient operation is to be maintained throughout the period it is essential that two additional deck officers be available for cargo watch purposes.

SHIPMASTER'S REPORT: (January 1980)
Cayman Brac – Little Cayman (See Plan Book)
Communications: "Cayharb Cayman Brac" via Slidell Radio WNU (see "Adm. Radio Signals Volume 6").
Via VHF Channel 16:
"Cayman Energy" (good reception)
"Cayman Pilots" (via ship where the Pilot is at the time)
"Cayman Harbour" (weak signal)
Pilot boarding station:
19° 43′ N. 79° 53′ W. or 19° 40′ N. 79° 53′ W.

Note: this position may change with seasonal weather conditions. The position is also used for port officials who request accommodation ladder in light condition but accept air pilot hoist or pilot ladder in loaded (tanker) condition.
Documents required: 4 Crew Lists, 4 Cholera/Smallpox Immunization Lists, 4 Store Lists that include Stores, Narcotics, Bond, 4 Cargo Manifests, 4 Crew Declaration Lists.
Bond: Bonded Stores locker remains unlocked and issues may be made to the crew for onboard use only.
Postal Address: Cayman Harbour Corporation Ltd., Stake Bay, P.O. Box 50, Cayman Brac, Cayman Islands, British West Indies.
Facilities Available: Food, some stores, fresh water limited from tug.
Bunkers: Via lightering tanker ordered via Owners/Charterers.
Medical: Doctor can board ship at any time.
Hospital: Available.
Derat Certificate: No renewal certificate available but a letter of acceptance of renewal for Cayman Brac is issued.
Shore side facilities: Cayman Brac: Shops, hotels, post office. Little Cayman: Clubs (tourists). Fishing when in soundings.
Anchorages (under Pilots guidance):
Off Western end of Cayman Brac up to 57 ft. draft.
Off Little Cayman up to 69 ft. draft.
Currents: Variable, depending on season and weather. Ships experienced very little set and drift North of Cayman Brac 1.5 mile-2.5 mile distance, other times over 2 kts. Generally N.W. direction. Stronger South of Islands.
Ship to ship cargo pumping operations: Cayman Energy Corporation Ltd. Tug: "Cayman Energy". Mooring ship to ship – see Plan. Fibre mooring lines instead of wire preferred. Operations under way, under guidance of Pilot/Loading Master. Ships separated by floating fenders supplied by Cayman Energy Corporation. Pumping may continue when ships are manoeuvring dead slow. Fenders remain alongside between lighterings and it is possible to manoeuvre up to 7 kts. Smaller vessel is moored on the lee side of discharging vessel (the larger one).

Pilot plus 4 assistants remain onboard for the duration of all cargo lightering operations but may be relieved if lighterings are prolonged ones.

Shore leave for ships crew is possible via Pilot boat or "Cayman Energy".
Cayman Brac Airport: Flights to Grand Cayman and then overseas.

NOTES

Chile

GENERAL

ARRIVAL ADVICE: Ship's Masters are required to give the Captain of the Port 24 hours notice of arrival, stating time and date in their radio messages. They should also inform their Agents of ETA.

The telegraphic address of the Captain of the Port at all Chilean ports is "Maritgob". Should there be no radio station in the port of destination, the nearest station must be used, and an acknowledgement of the message received. This will justify the non-arrival of the message at destination in time.

The radio message should include the following information:

1. ETA (hour and date).
2. Number of passengers.
3. Number of bags of mail for the port (or negative).
4. State of health on board.
5. Draft.

Reporting: All vessels within Chilean waters (200 miles) must report their position, course, speed and destination each day at 0800 hrs. and 2000 hrs. to "Direccion del Litoral" via the radio stations of: Antofagasta, Valparaiso, Talcahuano or Punta Arenas, according to whichever may be the nearest. Any vessel unable to establish communication with any of the radio stations quoted, must give account to the Maritime Authority by the quickest means at its disposal, reporting the causes for it. In all cases where it is bound for a Chilean port, the vessel must inform or ratify these causes to the corresponding Maritime Authority at that port. Fines are imposed if report not made.

DOCUMENTS: The standard ALALC forms are required, and must be made out in Spanish. The number of documents required by each port varies, but the maximum likely to be required is shown below, unless otherwise stated under the port "Document" heading.

	First Port	*Each Subsequent Port*
General Health Declaration	1	
Clearance	1	1
Clearance Declaration (Alalc No. 1)	3	2
Crew List (Alalc No. 3)	20	20
Crew Personal Effects	3	3
Passenger List for Port or negative (No. 4)	15	8
Passengers in Transit (or negative)	6	4
Mails List or negative	6	4
Store List (No. 5)	20	20
Manifest for Port	20	20
Manifest for in Transit Cargo	20	20
General Cargo Manifest (No. 2) (all on board)	3	see note
Declaration of Arms and Munitions	2	see note

Note: The General Cargo Manifest should be presented in triplicate at the first port and should list all cargo on board, whether intended for Chile or otherwise. A copy of all the documents above is stamped and returned to the Master for retention on board, and must be presented to the Authorities at all subsequent ports of call.

The Port Captain will wish to see all the standard ships papers, and also the receipt for payment of Chilean Light Dues, which is valid for 12 months as from date of issue.

Store List. Separate lists must be made for cabin stores and deck/engine room stores.

Documents required on sailing: Clearance; Health Declaration signed by Health Authority; Two Crew Lists; Passenger List; Receipt for Light Dues; Arms Declaration; Permit for coasting cargo if required.

On sailing, all hatches must be tightly closed. The sailing permit is valid for 24 hours but no cargo operations can be carried out after it is granted. If the vessel has not sailed within 24 hours, the clearance papers must be returned to the Port Captain for new despatches to be issued.

HEALTH: All vessels arriving from abroad are required to call at one of following ports for free pratique: Arica, Valparaiso or Punta Arenas. Vessels are also allowed to call direct to Tocopilla, Iquique, Antofagasta, Coquimbo, San Antonio, Talcahuano and San Vicente.

Vessels can be exempted from call at one of these ports, and proceed direct to the port of loading and/or discharge provided permission is obtained, with 8 days notice from National Health Service.

Following details in order to apply for exemption on behalf of a vessel are required:

Name and flag of vessel.
Net registered tonnage.
Last port of call.
Cargo carried, or if in ballast.
Port of arrival in Chile and date of arrival.

FLAG: All vessels arriving in Chilean ports must fly their own ensign and also the Chilean Flag, from the highest mast.

On entering port the "Q" flag should be flown until pratique is granted.

The use of whistles or sirens in port must be strictly in accordance with the Rules for The Prevention of Collisions.

RADIO: There are 69 radio stations along the coast. Meteorological Bulletins are broadcast regularly by the following stations: Antofagasta, Valparaiso, Talcahuano, Puerto Montt, Punta Arenas.

Notices to Mariners are transmitted from Valparaiso, Punta Tumbes, Puerto Montt, Corona Lighthouse, Punta Arenas and Punta Delgada.

For weather forecasting the coast is divided into six zones:

Zone 1. Arica to Coguimbo;
Zone 2. Coguimbo to Constitucion;
Zone 3. Constitucion to Guafo Island;
Zone 4. Guafo Island to Evangelist Isles;
Zone 5. Evangelist Isles;
Zone 6. From 60° S. to 90° S.

The forecasts from Zone 1 to 5 covers the coast to 120° W. Zone 6 includes the area between 53° W. and 90° W.

Chile is normally 4 hours behind GMT, but from the 2nd Saturday in October to the 2nd Saturday in March clocks are advanced 1 hour. However radio transmissions will continue to use GMT minus 4 hours.

ETA advices are best made using GMT.

FUMIGATION: If a vessel's Derating Certificate is overdue an Exemption Certificate may be granted provided traces of rats are only slight, and no ports infected by Bubonic Plague have been visited recently. Fumigation can be carried out by the Farming and Cattle Bureau. In such cases the vessel anchors in the inner port or roads, all crew are landed for a period of 24 hours, and the fumigation carried out before the vessel is berthed.

STEVEDORES: Under Chilean law, all foreign vessels are required to employ gangs of shore riggers to rig gear, open and close hatches and carry out all the work normally attributed to the deck crew whilst the vessel is in port. A minimum of 8 men and a foreman must be employed, and remain on board constantly. If the ships crew do the work, the shore riggers must still be paid.

There are no stevedoring companies in Chile, and the Agent must pay for and supervise the operation. The stevedores are considered as employees of the shipowner, and any damage caused to ship or cargo will be for the shipowners account. The ship or Agent is not permitted to select stevedores, who are drawn from a union pool on a rota system, experienced and inexperienced men alike.

It is necessary to employ a gangway watchman for 24 hours a day in all ports.

The Customs or Port also place a watchman.

Cleaning of wharves. The cost of cleaning alongside is for account of the vessel in discharge, or shipper when loading. The Port will do the work and make the corresponding charge.

HOLIDAYS: The following are public holidays: January 1st, New Year's Day; April 12th, Good Friday; April 13th, Easter Saturday; May 1st, Labour Day; May 21st, Navy Day; June 29th, St. Peter and St. Paul; September 18/19th, Independence Day; October 12th, Discovery of America; November 1st, All Saints Day; December 8th, Immaculate Conception; December 25th, Christmas Day.

Work in the ports is possible on all of these, paying overtime, except for January 1st, May 1st, September 18th and December 25th. On December 24th and 31st work may cease earlier than usual.

CREW: Signing on of new crew members is restricted to Chilean members of the local Seaman's Union. To sign on a foreign crew man is difficult.

A crew member absent without leave from his ship for 48 hours or more is considered a deserter, and the Port Captain must be notified.

Landing Permits are required by all crew members. The one pass is valid for all Chilean Ports for 30 days. At the last port all Permits must be returned to the Authorities.

Curfew: There is a strict curfew in all ports. Infractors are arrested, and released the following day after paying a fine or doing a days hard labour. The crew should be warned of this as it could lead to their missing their ship. Curfew ends in all ports at 0530 hrs., unless otherwise noted.

FUEL: No clause guaranteeing bunkers can be accepted in any charter party affecting Chilean Ports. The department of Maritime Transport must approve all requests for bunkers. Such applications must be made 30 days in advance. Furthermore, heavy duties are levied on bunkers, which make Chilean ports very expensive, and should be used only in an emergency. Bunkers can only be obtained ex-pipe-line from Salinas, Valparaiso, and San Vicente. Small quantities can be obtained by truck in other ports.

POLLUTION: It is expressly forbidden to throw overboard any ballast, rubbish or waste, or to spill petroleum or any derivative or residue, contaminated waters from mineral processing plants or any dangerous or noxious substance of any kind either into ports or Chilean jurisdictional waters (200 miles limit) without prior authority from the Port Captain: Standing regulations stipulate that no tanker may dump hydrocarbons within fifty miles of the coast, and that no vessel may pump bilges or dump waste within 10 miles of the coast.

Should there be any accident leading to contamination of waters, this decree authorizes the uses of any means which may be necessary to ensure the protection of natural resources.

Under Article 188 of this Decree all vessels navigating in Chilean waters, or entering any port must have on board an Insurance policy against all risks of contamination, if they are carrying any cargo of petroleum or derivatives; this must insure against all risks whether through leakage, spillage or otherwise. Any infraction of these regulations carries a fine of from 1,000 to 1,000,000 gold pesos and vessels are also responsible for the total elimination of the contaminating element, even if the contamination is due to fortuitous reasons.

SHIPMASTER'S REPORT: July 1977.

PASSAGE THROUGH THE STRAITS OF MAGELLAN, WEST TO EAST:

Master's Remarks: It should be borne in mind that I have written this report on what this vessel actually experienced also other than tidal streams and recommended tracks all the observations are from personal experience. I feel that other Masters should only treat this as a guide.

Documents: Since this is a free passage area vessel is not required to stop anywhere in the Straits for the purpose of Customs or Immigration hence no special documents are required.

Pilotage: Magellan Straits have been officially declared as a non-compulsory pilotage zone, hence no Pilots are required for transitting the Straits but in case vessel is calling at any port within the limits of the Straits then pilotage is compulsory and Pilots have to be embarked at Valparaiso or at Punta Dungeness on the Atlantic coast entrance. Through personal experience I feel that other than unexpected bad weather in the Straits, the services of a Pilot are not essential. Please note that this vessel transitted the Straits without Pilot and the vessel's draft was 41 ft.

Weather: The weather between the Straits remains relatively calm and the wind direction follows the passage of the Straits, however there are sudden wind shifts which the mariner must be very careful about, in the open areas like Paso Ancho and area West of Cabo Froward strong winds could be experienced, sometimes gale force, this of course depends upon the movements of depressions in the Pacific. This vessel transitted the Straits in the month of July and following least temperatures were observed (air temperature 6° C; sea temperature 8°C).

Anchorages: There are no recommended anchorages for a vessel of this size but smaller vessels could find safe anchorages in many creeks which follow along with the main Strait, in the bay joining First Narrows (Premero Angustora) and the Second Narrows (Segundo Angustora) one could anchor but again the tidal streams are very strong and the area is not well surveyed or charted, I noticed most of the points did not tally with the radar distances so great care should be exercised.

Tidal Streams: Tides are of a great importance when transitting through the Straits, especially in the narrow portions of the Strait. It is recommended even in the sailing directions to keep a close watch on change of direction of flow of water. The best direction is to work out high waters at Punta Arenas and Banco Direcion, then from there two to three hours later or before the flood or ebb in the Narrows start. Vessels making passage from Pacific to Atlantic should thus endeavour to arrive off Punta Arenas at high water and then proceed at best possible speed towards Second Narrows where ebb tide begins about 2/3 hours later thus the whole passage from Punta Arenas to the sea is made with tide assisting the vessel, going against the tide could lead to bad results as in places streams attain a speed of 8 knots, conversely vessel transitting from Atlantic to Pacific should enter First Narrows 3 hours before high water at Banco Direcion thus they will be aided with the flood tide. In the Narrows the streams run along the main Strait but immediately after leaving Straits they fan out thus there is a good possibility that vessel might drift either to the North or to the South so careful check on bearings should keep the vessel in check. Similarly when the streams enter the Narrows they converge from all sides thus creating tide rips which affect the steering. In the other parts of the Straits Westward of Punta Arenas the tides and currents are not very strong but again care should be exercised when transitting the Paso Tortuso.

General Navigation: When the vessel is approaching the Straits from the Pacific coast side it is highly advisable to make landfall at Cabo Raper light (46° 50′ S., 75° 38′ W.) as the land around it is well identifiable and very radar conspicuous. Please note that land South of this point is very irregular and charted improperly. Once assured of this position, vessel can steer safely keeping at least 15 miles off coast. An important point to bear in mind in this area is that there are no stellar observations available so a good landfall is absolutely essential. Whilst proceeding South there are 2 good radar observation points but again they come very faded on radar, prior to entry into the Straits the Islas Evangilitas Light should be visually picked up again. Please bear in mind that the island which the light is on seems to be incorrectly charted so great care should be exercised. Once sure of the vessel's position, course should be altered and the recommended track laid on the chart should be followed. When the vessel is due South of the light it tends to drift Southwards so careful check on bearings is the best guide. Once past Cabo Pilar the best path will be to follow the charted courses and keep as far as possible in the centre of the Straits. From Cabo Pilar to Paso Tortuso the vessel maintains her course well, but once in the Paso Tortuso care should be exercised as there are numerous shallow patches and the whole portion is covered with tidal rips. It is recommended that this passage should be attempted only in daytime.

Once clear of this pass, courses should be steered as per recommended track, also at this point speed must be reduced or increased to arrive off Punta Arenas at high water. The passage Southwards is practically clear of all dangers but in Paso Froward strong Westerly winds should be expected. Once past Cabo Froward Light the vessel enters Paso Ancho which is quite a wide bay, but again strong winds can be expected here. One can safely manoeuvre here so as to arrive off Punta Arenas at high water. Once off Punta Arenas at high water the vessel should be put on maximum speed and steered on the recommended tracks, bearing in mind that off Punta Magdalena Light the vessel tends to drift Eastwards so adequate set should be allowed. Once past the Light the vessel keeps drifting onto the banks Eastwards of the course so set should be allowed. Once off the light buoy marking the bank, the vessel suddenly starts drifting to the opposite side, i.e. Westerly direction, so a careful check of visual bearings will keep vessel in check. Once off Cabo San Vincente Light the vessel could again be steered on recommended courses as the streams follow the main course of the channel. From Second Narrows to First Narrows this vessel maintained her course without sets but off Triton Bank she drifted Northwards, again near the entrance to First Narrows the vessel drifted Northwards. When approaching First Narrows visual bearings should be taken frequently to keep a check on vessel's position or there is a good likelihood of vessel drifting Northwards towards Bajo Satellite, in fact one supertanker ran aground here three years ago and was stranded on this bank for nearly 2 months.

Once inside the First Narrows the recommended tracks should be followed but again off Punta Delgada Light the vessel tends to drift Southwards so adequate set should be allowed. After clearing this end of the Straits the passage is relatively simple, only the tidal streams should be watched. I also recommend that vessels more than 35 ft. draft should not venture close to banks off Punta Dungeness as due to heavy swell there is a good chance of hitting the hard bottom. The safest way is to go South around the bank. The vessel making passage Westwards should arrive at First Narrows 3 hours before high water at Banco Direcion and make the passage with flood tide which means vessel will have the streams from behind. Again I mention at this stage that vessels proceeding Westwards should keep clear of all dangers mentioned above and can expect opposite results to those encountered when on Eastwards passage.

Requirements: Magellans Radio should be informed when passing Evangilitas Light, Paso Tortuso, Second Narrows and First Narrows and eventually passing Punta Dungeness when Eastbound and conversely when Westbound. Masters making this passage should be well versed in Spanish language or carry a dictionary on board as all navigational warnings, weather messages and correspondence with radio station is in Spanish. All radio stations on the Pacific coast transmit weather in Spanish.

In conclusion I feel and recommend that the passage between Punta Arenas and Punta Dungeness is safer during dark hours as the coast is not properly charted thus radar gives erroneous radar bearings but visual bearings with shore lights is very accurate. Secondly, I recommend passage through Paso Tortuso only in daytime, all other passages from Cabo Pilar to Paso Tortuso could be done at any time if vessel is equipped with a good radar. I also recommend this passage for all vessels as one can save nearly 400 miles steaming round Cape Horn also avoid the high seas and swell normally encountered there.

ANTOFAGASTA: (including La Chimba Cove)
23.39 S. 70.25 W. **(See Plan Book)**

DOCUMENTS: See "General" before first port.

PILOTAGE: Compulsory. Pilot should be awaited in position bearing 239° and 480 m. from the beacon at the head of protected mole. The Pilot will not board before 0700 hrs., and if the vessel is at anchor an extra charge will be made for heaving aweigh while the Pilot is on board. The accommodation ladder must be rigged for the Pilot. Pilot can be contacted by VHF.

ANCHORAGE: About 1,200 m. from green light on coast mole. Vessels that do not go into port anchor in what is known as "old or outer port" where best anchorage is bearing 103° from anchor painted on hillside, about 5 cables from coast in 37–22 m. of water.

Small vessels anchor about 4.5 cables from old passenger quay in 22–18 m. of water. Ships should use two anchors and follow the indications of the port Pilot.

RESTRICTIONS: From May to July the surge is stronger and results in rough seas which last from 2 to 4 days interrupting the traffic of small craft.

MAX. SIZE: Fishing zone – 24 ft. draft (7.32 m.).
Berth No. 1 – 30 ft. max. draft (9.14 m.)
Berth No. 2 – 30 ft. max. draft (9.14 m.)
Berth No. 3 – 30 ft. max. draft (9.14 m.)
Wharf Zone – 16 ft. draft (4.88 m.)
Berth No. 4 – 30 ft. max. draft (9.14 m.)
Berth No. 5 – 30 ft. max. draft (9.14 m.)
Berth No. 6 – 31 ft. max. draft (9.45 m.)
Berth No. 7 – 33 ft. max. draft (10.06 m.)

La Chimba Cove: Situated about 5 miles North of Antofagasta. The port entrance is 2 cables wide. Max. length 150 m. Draft 30 ft. Vessels use both anchors, and moor to two stern buoys on each quarter. Ship's head 345°T. A further line is sent from the port bow to the shore.

RADIO:

Station Call Sign	*Frequency*	*Type*	*Receives*	*Transmits*	*Schedule*
Antofagasta	8 Mc/s.	A1	8354		
CBA 3			8374	8730	H00–30
Category	4 Mc/s.	A3	4091.6	4396.6	H30–45
(P)	8 Mc/s.	A3	8230	8780	H45–60

Also see "General" before first port.

TUGS: 2 tugs available.

BERTHING: Inner dock measures 4.5 cables long N. to S. and 2.5 cables wide at entrance.

Water is 10 m. deep alongside berths No. 2 to 5 and A to D, except number 1 berth which has only 5 m. of water.

CRANES:
Berth 1/3 – 8×5 tons electric cranes.
Berth 6 – 2×3 tons electric cranes.
Berth 6 – 1×40 tons steam crane for heavy lifts.

At the present time personnel are assembling new electric cranes.

In September 1980, the port will be equipped as follows:
Berth 1/3 – 2×5 tons electric cranes.
Berth 4/5 – 4×5 tons electric cranes.
Berth 6 – 1×40 tons steam crane for heavy lifts.
2×5 tons electric cranes.

TANKERS: Buoy moorings for tankers, owned by Standard Oil, Shell and Copec.

Standard Oil Mooring: Max. length 170 m. Max. draft 28 ft. Flexible hoses. One 10 in. line for products. One 12 in. line for fuel oil.

The Copec Buoy: Max. length 180 m. Max. draft 30 ft. fwd., 34 ft. aft. 10 in. lines for fuel oil and clean products. Max. pressure 150 p.s.i.

Shell Buoy: Max. length 200 m. Max. draft 40 ft. 8 in. flexible hose for products and lube oils.

Vessel berths using both anchors forward and lines to 3 mooring buoys astern. Hoses lifted midships on port side. No slop disposal facilities.

La Chimba Cove: A 6 in. hose is brought on board on the starboard side. Discharge rate 180 cu.m./hr. 250 p.s.i.

STEVEDORES: Available. 240 stevedores, divided into gangs of 9 men (permanent). 70 stevedores (replacements), 280 longshoremen, 275 dockworkmen, 50 permanent riggers, 25 replacement riggers. Working hours are 0800–1430 hrs., (1st shift); 1430–2100 hrs. (2nd shift). Sundays and holidays, the same shifts are available and they are considered as overtime. If the ship is about to finish the cargo load/discharge, emergency personnel may be authorized from 2100–2300 hrs.

MEDICAL: Hospital with 600 beds, also a sanatorium (Rest Home).

FRESH WATER: Port has 42 standpipes of 2.5 in. situated at the various moles. Delivery is at the rate of about 10 t.p.h.

FUEL: Coal: in case of necessity can be obtained in limited quantities. Fuel and diesel oil supplied by Standard Oil, Shell Mex and Copec from petroleum terminals. For quantities less than 70 tons diesel oil can also be supplied from tank cars on the mole. Also see "General" before first port.

GANGWAY/DECK WATCHMEN: Shore Watchman.

OPENING/CLOSING HATCHES: Done by Riggers.

IDENTIFICATION CARDS: Required.

CONSULS:

Argentina
Belgium
Bolivian
British
Colombian
Dutch
Ecuadorian
El Salvador
French
German
Greek
Guatemalian
Hondurian
Italian
Norwegian
Panamanian
Peruvian
Spanish
Swedish
U.S.A.
Venezuelan
Yugoslavian

REPAIRS: There is one shipyard for repair of small craft, also several workshops, and foundries.

REPATRIATION: Facilities available.

AIRPORT: The airport is at Cerro Moreno 23 km. to the North of Antofagasta.

TIME: Local time GMT minus 4 hours.

HOLIDAYS: See "General" before first port.

SHORE LEAVE: Allowed.

REGULATIONS: Inflammable explosives over 100 tons must be discharged in Mejillones. An Antofagasta Pilot goes to Mejillones by land, in order to take ships to be anchored.

AUTHORITY: Empresa Portuaria de Chile.

ARICA: 18.23 S. 70.20 W.

PORT LIMITS: Ships are considered "arrived vessels" the moment they drop anchor within the safe anchorage zone indicated on the chart, or at the Pilot station.

DOCUMENTS: See "General" before first port.

PILOTAGE: Compulsory. Ships approaching port should fly international signal flag "G" to request Pilot. Pilot boat is small craft painted white, with "P" or "H" flag on the mast. Pilot boards incoming vessels at pilot station, located 3 cables and 165° from red light at end of breakwater. If more than one ship is awaiting Pilot, vessels are requested to hoist, below the flag "G", a numeral, indicating order of arrival, especially if arrived overnight. Vessels waiting to be docked can anchor in Road at pilot station in 10 fathoms of water. Pilot station maintains a VHF watch.

ANCHORAGE: Safe anchorage for vessels arriving after sunset can be found in a line bearing 194° Faro Isle Alecran distance 7 cables in depths varying from 9 to 10 fathoms.

RESTRICTIONS: Port officially closes at 2100 hrs.; however, if necessary, ships docked and undocked at any time, weather permitting, if application presented in advance to Port Captain.

MAX. SIZE: Six berths available within port area. They are numbered from East to West.

Berth	*Vessel Max. Length* m.	*Vessel Max. Draft* ft.
Berth No. 1	114	13
Berth No. 2	200	16/20
Berth No. 3	200	26/30
Berth No. 4	170	32.5
Berth No. 5	170	34
Berth No. 6	170	34

If necessary, vessels over 600 ft. in length can be accommodated in berths 4 to 6, providing the area available for docking. Oil carriers have mooring buoys outside port area in depths of 48 ft. Installations consist of two groups of buoys, located in the North part of the bay, outside the port but sheltered from the swell prevailing in the coast, by the breakwater. 3 buoys are used to moor tankers loading crude oil from Bolivia. 2 buoys are used to moor tankers discharging clean products for city service.

HEALTH: Health officer boards ship after Pilot has docked. Pratique granted after routine inspection of certificates and papers requested internationally. Yellow flag is lowered to signal the rest of the boarding party to embark to clear the ship.

In case of fever, and/or suspected diseases on board, Captains are to radio to Port Captain of the above situation. Upon arrival, vessels will be anchored in Quarantine, and inspected according to international procedures. From another Chilean port, pratique is automatic. Also see "General" before first port.

RADIO:

Use "Maritgob Arica" via coastal radio CBA 4. Listening watch kept on 8360 kc/s. Transmissions at 0800, 1000, 1200, 1400, 1600 and 1800 hrs. on 8478 kc/s. A1. Alternatively if necessary use Valparaiso CBV on 500 kc/s.

It is advisable however to request Agents at previous port to notify Arica well in advance of arrival.

Also see "General" before first port.

TUGS: Only one tug in this port and normally joins vessel at the end of the breakwater. Tug is compulsory for docking and undocking. Tug provides the line at no extra charge.

CRANES:

Berth 1 – None.
Berth 2 – 1×7 tons.
Berth 3 – 2×3 tons.
Berth 4 –
Berth 5 – 2×3 tons.
Berth 6 – 2×5 tons.

SPECIALISED CARGO HANDLING FACILITIES: Two conveyor belts and pall-loaders to operate with bulk ores, grain, coal, etc., at a rate of 100 t.p.h. per conveyor approx.

Containers are handled with conventional gear, but the port has a Container Yard, served by railroad and a bridge crane capable of lifting 65 tons. Service to containers also includes 10-ton fork-lift trucks, mobile cranes from 12 to 13 tons capacity, and specially designed wagons for their proper transportation.

STEVEDORES: Generally, stevedores are nominated the day before ship arrives, according to ETA, by the Agent. Also nomination can be made during the day. Working hours are 0800–1200, 1400–1800. Overtime: 1200–1400, 1800-2100 and 2100–2300 hrs. Also see "General" before first port.

MEDICAL: Medical assistance can be obtained at any time requiring no advance notice. Hospital in the city.

TANKERS:

Esso Buoys: Position 053°×830 m. from breakwater light. Can handle vessels up to 45,000 d.w.t., 35 ft. draft. Vessels moor to 3 stern buoys. Wires must not be used for berthing.

Bolivian Export Buoy: Position 039°×1,084 m. from breakwater light. Can handle vessels up to 60,000 d.w.t., 43 ft. draft. 12 in. hose connection. Loading rate 9,000 bbls.p.h. No deballasting facilities.

Also see "General" before first port.

Berthing is generally in the morning or early evening. Wires must not be used for berthing. Vessels moor to 3 stern buoys.

San Martin Bay Buoy: Used for discharge of Bunker C for fishing fleet. Max. draft 45 ft. No length restriction. 8 in. hose connection. Vessels moor to 3 stern buoys. A bolt is required to attach mooring lines to the ring type eyes on the buoys. No wires may be used.

DENSITY: Sea water: 1025.

FRESH WATER: Fresh water is available. Hoses to be provided by vessels. Rate of delivery about 10 t.p.h.

FUEL: No fuel facilities.

FIRE PRECAUTIONS: Red label explosives stowed in cargo hatches, require special permission to discharge within the port. Explosives for Arica are discharged into lighters, at mooring buoys located outside the port area. For tankers who load or discharge outside the port area, usual fire precautions are enforced.

DEVELOPMENTS: Project to build a new mole in the Northern part of the port, with accommodation for two ships of approximately 540 ft.

GANGWAY/DECK WATCHMEN: Port regulations call for a gangway watchman.

OPENING/CLOSING HATCHES: Riggers provided to attend to these services, nomination is by number of hatches working. 5 men to a hatch.

CERTIFICATES:

Tonnage Certificate.
Lighthouse Dues (Chilean).
Safety Radio Certificate.

CUSTOMS ALLOWANCE: One carton cigarettes per man, and one bottle wine/spirits per man.

IDENTIFICATION CARDS: Needed to leave and/or enter port area.

CONSULS: The following countries are represented at Arica:

Argentina
Belgium
Bolivia
Denmark
Ecuador
El Salvador
France
Germany
Great Britain
Italy
Netherlands
Norway
Paraguay
Peru
Spain

REPAIRS: Only small repairs can be performed in Arica, like welding, lathe, mechanical and adjusting of motors. Also possible to repair electric motors.

DRYDOCKS: There are 2: intended for fishing boats. Max. capacity 200 tons.

REPATRIATION: Crew changes can be arranged through the local office of immigration, if repatriated.

AIRPORT: Distance to airport: 7 miles. No international flights are served in Arica, except 2 flights weekly to Bolivia. Domestic flights are available at the rate of 2 per day.

TIME: GMT minus 4 hours, advanced 1 hour from September to March.

HOLIDAYS: Cargo can be arranged on all holidays except Labour Day (1st May).

POLICE/AMBULANCE/FIRE: In same order: telephone 31959; 31331; 31312.

TELEPHONES: Not available on board.

SHORE LEAVE: Permitted.

DELAYS: No delays under normal conditions. Port congestion causes ships to wait at anchorage 24 hours or more, depending on unusual facts as labour strike, swell, or lack of room to bring vessels alongside (when 5 ships are docked).

SHIPMASTERS REPORT: April 1980

Documents:

6 General Declarations
6 Lists of Passengers for the Port
6 Passengers Lists (even if nil)
6 Mail Lists (or no mail)
12 Crew Lists
2 Crews Effects Lists
6 Bond and Canteen Store Lists
6 General Stores Lists
Clearance from the Last Port and Health Declaration.

Pilotage: Compulsory. Pilot boards half mile N.W. of breakwater.

When within 200 miles of the coast of Chile, vessel to send cable to "Maritgob" at 0800 hrs and 2000 hrs daily. Cable to include position, speed, course and destination. The same cable is sent to the Port Captain at the port of destination, who also requires 24 hours notice of arrival and draft. He then arranges for Authorities to board.

Anchorage: Vessels anchor half mile N.W. of breakwater. Depth 58 ft. at LW.

Max. Size: LOA 600 ft. Draft 32 ft.

Radio: Antofagasta (CBA4) and Valparaiso (CBV).

VHF: Pilot on Channel 16.

Tugs: One tug of 500 h.p. available. Tug use is not compulsory but advisable.

Berthing: Vessel berthed at No. 4 berth. Max. LOA: Over 600 ft. if adjacent berths vacant. Max. draft: 34 ft. (This allows for heavy swell during Winter time).

Cargo Handling Facilities: Two portable conveyors available for handling bulk cargoes. Rate 200 t.p.h. (approx.) There are no Ro-Ro facilities. There is ample mechanised equipment for handling palletised cargoes. Plenty of open quay space available for storage.

There are mobile cranes available and a bridge crane for loading rail cars, capacity 30 tons, however vessels must discharge with ship's gear.

Medical: Doctor and hospital available.

Fresh Water: Available. Rate 10 t.p.h.

Fuel: Bunker fuel oil and diesel oil not available.

Repairs: Minor repairs possible.

Airport: Airport for internal flights only available.

Services: Fresh provisions, laundry service, groceries and meats available.

AUTHORITY: Empresa Portuaria De Chile.

BARQUITO: 26.21 S. 70.38 W.

DOCUMENTS, HEALTH: See "General" before first port.

PILOTAGE: Pilot available in Chanaral Bay.

ANCHORAGE: Open anchorage with no difficulty. The anchorage position lies on the cross bearing between Point Piedra Blanca bearing 110° and Point Brusen bearing 200°. Depth of water 82 ft. Anchoring prohibited to the South of the marker buoy.

MAX. SIZE: Up to 30,000 d.w.t.

TUGS: Not required for mooring. 2 tugs used for towing lighters only.

BERTHING: Three buoys suitable for mooring large vessels situated in depth of 9 fathoms. Buoys 4 and 5 are used for general cargo vessels.

Position: Buoy 4 Barquito Pier bearing 043°×714 m.
Buoy 5 Barquito Pier bearing 027°×390 m.

Vessels moor stern onto the buoys and discharge into lighters, which in turn discharge at the pier head. There are several barges of capacity 2.500 tons.

STEVEDORES: Order 24 hours before arrival. Working hours 0800–1200 and 1400–1800. There are 9 gangs of stevedores. Vessels arriving should ensure that hatches are closed and booms secure in order to avoid labour problems. Also see "General" before first port.

MEDICAL: Facilities available.

TANKERS: Buoys 1, 2 and 3 are for the Oil Terminal.

The hose marker buoy is in position Barquito Pier bearing 180°×268 m. Vessels use starboard anchor to pivot onto the 2 stern buoys. The hose connection will then be made on the port side. Max. draft 27 ft. Max. length 225 m.

FRESH WATER: Not available.

FUEL: Not available.

CUSTOMS ALLOWANCES: No fixed limits.

IDENTIFICATION CARDS: Required.

CONSULS: Nearest at Antofagasta.

REPAIRS: No facilities for major repairs. Two slipways for vessels up to 100 tons.

AIRPORT: At Chanaral, 2 miles away. About 2 flights a week.

TIME: GMT minus 4 hours.

TELEPHONES: Ship-to-shore communication by walkie-talkie radio.

SHORE LEAVE: Allowed.

AUTHORITY: Andes Copper Mining Co.

CALDERA: 27.03 S. 70.53 W.

PORT LIMITS: A line joining Punta Caleta with Punta Fuerte.

DOCUMENTS: See "General" before first port.

PILOTAGE: Arranged by advice of ETA. Vessels may anchor inside the port while waiting for Pilot.

ANCHORAGE: Prohibited within 800 m. of Mechanised Quay.

When working to lighters is 740 m. East of a line from the Mechanised Quay. 1 anchor is normally sufficient, but with Northerly winds 2 anchors and a kedge are recommended.

MAX. SIZE: Vessels up to 80,000 d.w.t. berth at Mechanised Quay. Max. draft 13.50 m. Berthing only at high water.

HEALTH: Pratique given after official visit, and automatic for vessels from another Chilean port. In case of contagious disease on board, advance notice is required and vessel may need to be cleared first at Valparaiso.

RADIO: Radio Costera Valparaiso – CBV 2; working during even hours only between 0800–1200 and 1400–2200 hrs.

Radio Costera Caldera – CBD 2, receiving on 2182 kc/s. only at following times: 0830–0900, 1030–1100, 1430–1500, 1630–1700 hrs.

TUGS: None available.

BERTHING:

Fiscal Mole: Length 225 m. Depth 29 ft. Vessels can berth stern onto the mole using 3 lines, and 6 or 7 shackles on the starboard anchor. Ship's head should be on 360°. It is advisable to shut all ports and doors prior to berthing due to the large clouds of dust from the Iron Ore Berth.

Iron Ore Berth: Max. length 235 m. Max. draft 42 ft. The loading arm is fixed, hence vessels must shift to position each hatch under the tower. All cranes or derricks must be swung out to starboard prior to mooring. Vessels berth port side to, using 6 mooring buoys for head and stern ropes, and 2 dolphins for springs. Loading rate 1,500/2,000 t.p.h. Berthing allowed only by day, but night sailing permitted.

TANKERS: Tankers moor to 2 stern buoys, using both anchors. No length restriction. Water depth 33 ft. Hose connection 12 in. Daylight berthing only.

STEVEDORES: In ETA to Agent indicate number of gangs required for loading/discharging. Also see "General" before first port.

MEDICAL: First-aid only at Caldera. If needed advance notice necessary to prepare transport to Copiapo, nearest city 75 km. away. Fumigation only carried out at ports of Arica, Valparaiso, or Punta Areas.

DENSITY: 1026.

FRESH WATER: Not available.

FUEL: Not available.

GANGWAY/DECK WATCHMEN: Arranged by Agent.

OPENING/CLOSING HATCHES: Done by riggers.

CUSTOMS ALLOWANCES: Only amount needed while vessel in port.

CONSULS: None at Caldera.

REPATRIATION: Can be arranged provided that a police agent accompanies Crew member to Santiago airport.

AIRPORT: At Copiapo, 75 km. away, a daily flight to Santiago where international connections available.

TIME: GMT minus 4 hours, no changes.

HOLIDAYS: See "General" before first port.

TELEPHONES: No connection to vessels.

SHORE LEAVE: Allowed.

AUTHORITY: Captain of the Port.

CALDERILLA: 27.05 S. 70.52 W.

Installation of Mitsubishi Ore Transport Co. Can accept vessels up to 60,000 d.w.t. at mechanised quay.

Vessels bound for Calderilla must first call at Caldera for Pilot and official clearance.

DOCUMENTS: See "General" before first port.

ANCHORAGE: Vessels less than 180 m. in length can await a berth 4 cables N.N.E. of the East Peninsula, in 42 to 54 ft. of well sheltered water. Larger vessels must anchor in Caldera Bay.

MAX. SIZE: Max. length, 240 m. Draft 40 ft. 60,000 d.w.t.

BERTHING: A mechanical loading belt has been built to the N.E. of the Peninsula. There are 2 loading arms each 50 m. long that can load at 1,000 t.p.h. The arms are fixed and vessels must shift to place each hatch under the tower. Vessels moor to 7 buoys, 3 forward and 4 aft. Entry can be made by day only.

MEDICAL: Nearest doctor and hospital 30 miles away. Ambulance available.

FRESH WATER: Not available.

FUEL: Not available.

REPAIRS: Only of a minor nature.

CHANARAL: 26.21 S. 70.38 W.

DOCUMENTS: See "General" before first port.

PILOTAGE: Compulsory for foreign vessels and tankers and for mooring at mechanised quay. There is one Pilot at the port. Pilot must be waited for in position bearing 289° and 2,025 m. from reference point indicated on Chilean navigation chart.

ANCHORAGE: Between Point Piedra Blanca and Point Piedra Negra at 325°, 2 cables from head of the Fiscal quay in 15-12 m. of water, with good holding ground of sand.

MAX. SIZE: Draft 42 ft., length 800 ft., breadth 100 ft.

RADIO:

Station call sign	*Category*	*Frequency*	*Type*	*Receives*	*Transmits*	*Schedule*
Chanaral CBH-2	(T)	2 Mc/s.	A 3	2182	2182 2000	H30-45
		4 Mc/s.	A 3	4091.6	4396.6 4396.6	H45-60

TUGS: There are 4 small tugs.

BERTHING: Fiscal Quay: About 3 cables S.W. from Point Piedra Negra, 70 m. long by 8 m. wide, depth is 5.5 m. Vessels should lie about 5 cables off the head of the pier and moor to the stern buoy in 40 ft. of water.

Mechanised Quay: At Point Piedra Blanca there is a mechanised pier, property of Compania Minera Santa Fe for loading bulk iron ores. 60 m. long by 10 m. wide, with 14.5 m. depth; sand and mud bottom. Ores transported by means of a conveyor belt to a loading tower from which it is loaded direct to ship's hatches. At present loading tower is fixed so that vessels have to be moved to change hatches, but studies are being made as to possibility of converting it into a mobile tower. Loading rate is of 1,000 t.p.h. Vessels up to 224 m. length, 36 ft. draft have loaded alongside up to 34,000 long tons. Vessels moor at head of quay, which has 4 buoys (2 forward and aft.). In addition the quay is provided with bitts to secure mooring ropes, fore and aft.

STEVEDORES: 85 stevedores (9 gangs of 9 men each). Ordinary working hours are from 0700 hrs. to 1100 hrs., and continuing from 1300 hrs. to 1700 hrs., but by special agreement and paying for meals, work can be carried on straight, i.e. from 0700 hrs. to 2000 hrs. and continuing from 2000 hrs. till 0700 hrs. of the following day with a 100% surcharge on wages, etc. Also see "General" before first port.
MEDICAL: Modern hospital and doctors available.
FRESH WATER: No means for supplying vessels.
FUEL: Not available.
GANGWAY/DECK WATCHMEN: Available.
OPENING/CLOSING HATCHES: Done by stevedores.
IDENTIFICATION CARDS: Required.
CONSULS: None at Chanaral, the nearest are at Antofagasta.
REPAIRS: 2 shipyards to repair tugs and lighters only.
REPATRIATION: Facilities exist.
AIRPORT: The airport is located 2 km. North of Chanaral.
TIME: Local time is GMT minus 4 hours.
SHORE LEAVE: Allowed.
DELAYS: There is frequent surf during June and August, sometimes interrupting traffic and cargo operations in the bay for a short time. Surfs generally come from the N.W. or the West. Fogs are frequent between April and August, but sometimes they are quite heavy during other months of year.
AUTHORITY: Empresa Portuaria de Chile.

CONSTITUCION: 35.19 S. 72.29 W.

DEVELOPMENTS: A new port under construction at Maguellin, about 6 km. South of Constitucion.

Facilities to include a main jetty, 244 m. long, with 2 berths for vessels up to 32,000 gross tons.

Two smaller jetties and a mole for fishing vessels are also envisaged.

Depth of water is estimated to be 16 m. The facilities will be used for export of paper and cellulose.

Although the pier has been built, no vessels have berthed here yet due to the dangers of the Southerly wind. It appears likely that this port will never be used.

COQUIMBO: 29.57 S. 71.21 W.

DOCUMENTS: See "General" before first port.
PILOTAGE: Compulsory for vessels mooring to quay. Pilot boards in position bearing 101° and 1,215 m. from Point Tortuga Lighthouse, between Lat. 29° 55′ 38.5″ S. Long. 71° 19′ 56″ W. and Lat. 29° 56′ 10″ S. Long. 71° 20′ 34″ W.
ANCHORAGE: Vessels lie in roads until ready to tie up to quay. Bay has good anchorage with a sandy bottom and depths varying from 15-10 m. A forbidden zone is indicated on charts.

Vessels frequently have to anchor first before mooring to the quay as this only has capacity for 2 vessels at a time.
MAX. SIZE: 375 m. long and 30 ft. draft.
RADIO:

Station call sign	*Category*	*Frequency*	*Type*	*Receives*	*Transmits*	*Schedule*
Coquimbo CBC-2	(S)	4 Mc/s.	A 3	4091.6 6265.5	4396.6	H00-30
		6 Mc/s.	A 1	6280	6505.5	H30-60

TUGS: No tugs available, only motor launches to assist the Pilot and for passing mooring lines.
BERTHING: Buoys: Santa Fe Mining Company has 2 private buoys at berth 2 for mooring ore vessels using the portable and semi-mechanised system of loading.

Mooring Mole: 375 m. long, for 2 vessels of 180 m. each with draft of 30 ft. Berth number 1 is on the South side and number 2 on the North. Can be used at all times except during stormy weather, or when heavy swell is experienced.

Passenger Mole: to the South of mooring mole.

Rail Mole: is an extension of berth number 2 and serves for mooring small vessels.

North of berth number 1, Santa Fe Mining Company has installations for storing ore in bulk, consisting of 2 subterranean ore yards. The loading system includes some incline conveyors, some field conveyors, a stacker conveyor, a loading conveyor and a 77.5 ft. loading tower featuring a 56 ft. aluminium boom. All these components are movable on rubber tyres.

Ore through a system of belt conveyors is passed to these portable conveyors made up in sections and then to loading tower with a loading boom from which ore is loaded direct to ship's hatches. Usually, vessels are shifted when changing hatches. Rate of work is 600 t.p.h. and vessels moor with the bow to the North, port side alongside.

Discharge of Explosives and Ballast – Explosives are discharged direct to quay prior to authorisation by Maritime Authorities and due precautions being taken.
STEVEDORES: Ordinary rate of loading per gang, hatch, hour: Sacked goods up to 80 kilos each 25 tons; Cases, boxes, etc., 18 tons; Sacked ores 40 tons; Copper concentrates 60-80 tons; Manganese ore in bulk 80-100 tons; Iron ore 100-1000 tons.

Unloading: Wheat in Bulk 60 tons; Coal 50 tons; Timber 30 tons; Rails 33 tons.

Working hours are 0800-1200, 1400–1800 hrs. Also see "General" before first port.
MEDICAL: Hospital at Coquimbo and La Serena.
FRESH WATER: Can be obtained in limited quantity at quay at rate of 25 t.p.h. Quality is good.
FUEL: Coal can be obtained in limited quantity. Diesel oil and gasoline can be obtained at the quay from truck or railcar.
GANGWAY/DECK WATCHMEN: Available.
OPENING/CLOSING HATCHES: Done by stevedores.
IDENTIFICATION CARDS: Required.
CONSULS:

British	Peruvian
Italian	Spanish
Liberian	Danish Vice-Consulate
Panamanian	Swedish Vice-Consulate

REPAIRS: No shipyards. There is a private workshop for minor repairs.
REPATRIATION: Facilities exist.
AIRPORT: 7 km. to the East of La Serena.
TIME: Local time GMT minus 4 hours.
SHORE LEAVE: Allowed.
AUTHORITY: Empresa Portuaria de Chile.

CORONEL: 37.02 S. 73.10 W.

PILOTAGE: Compulsory. Pilot boards 400 m. N.W. of the coal pier.
BERTHING: Both anchors are used to the final shackle, Ship's head bearing 180°. There are 5 mooring buoys, and the vessel berths starboard side alongside. Loading rate 400 t.p.h. Vessels will be required to shift so that each hatch is under the loading arm.

Max. size 170 m. Draft 24 ft. However, it should be noted that there is only 18 ft. of water near the stern buoy. The berth is exposed to Northwesterly winds and vessels should be ready to sail at short notice.
FRESH WATER: Available.
FUEL: Not available.
MEDICAL: Doctors and Hospital available.
CONSULS: At Concepcion.

CRUZ GRANDE: 29.27 S. 71.20 W.
(No longer in use as a commercial port.)

All installations and structures are being dismantled.

EASTER ISLAND: 27.08 S. 109.22 W.

PILOTAGE: Not available, although assistance can be given by the local natives.
ANCHORAGE: The best anchorage is at Hanga Roe from October to April. Vessels should anchor outside the 16 fathom line. Anchorages in general are poor, and vessels should be prepared to sail at any time with the onset of bad weather.
BERTHING: Vinapu Roads. Length 150 m. Max. draft 28 ft. Two 6 in. flexible hoses. manifolds must be no more than 65 m. from the stern.
MEDICAL: Doctors and hospital available.

GUAYACAN: 29.58 S. 71.22 W. (See Plan Book)

DOCUMENTS: see "General" before first port.
APPROACHES: Seaward approach should be made to clear all navigational dangers. From the sea, the entrance ranges in line bearing 136.5° will lay the vessel directly to and between Point Miedo and Point Herradura, two headlands to the North and South of the bay entrance, which is 800 yards wide. The bay broadens inside to 1 mile and extends 1.25 miles in a S.E. direction.

The depth of the entrance varies between 23 to 36 fathoms, decreasing gradually to the shore. Islita, a small islet, lies a short distance off Miedo Point.

The approach to Herradura Bay is a fishing zone and caution must be maintained in navigation. Trawlers and hand-propelled craft are used.

Two diamond-shaped range marker boards, painted with diagonal stripes, are mounted on poles on the beach. With these in line, bearing should be 136.5° when coming through the entrance. Lights, foreground red with green behind, are fixed to the markers for night approach. In clear weather they are visible at approx. 5 miles.

Currents from the South and S.W. tend to lay the vessel to the N.N.E. when entering the bay. There is a light at the entrance to Herradura Bay on Herradura Point.
PILOTAGE: Ships calling at Guayacan should arrive with their accommodation ladder and Jacob's ladder ready to be lowered for the Pilot. Pilotage is compulsory. Ship's engines shall be stopped when the pilot launch approaches the vessel. The pilot's launch under no circumstances will go outside the limits of the port. It is imperative that the ETA of the vessel be as exact as possible so that the Pilot and officials are on hand and may board the vessel before anchoring. The Pilot and officials must be collected and brought to Guayacan by car.
ANCHORAGE: Good holding ground for anchoring in the bay with sheltered conditions. Entering on the ranges a cross bearing may be obtained with a set of docking diamond markers and lights, bearing 094° similar to approach markers and the anchor dropped. This position

assures clear swing for all vessels in about 15 fathoms and assures free navigation for any vessel which may be at the pier.

MAX. SIZE: LOA – 985 ft., beam – 135 ft. Max. draft – 52 ft.

RADIO: Operators' cable address is Cap, La Serena, Chile, and all messages having their origin in North America should be routed via All America Cables, and in the rest of the world, via Cable and Wireless Limited. Ship's radio messages should be routed via I.T.T. hours out by radio.

Vessels should advise ETA 7 days, 96 hours, 48 hours and 24 hours out by radio. Also see "General" before first port.

BERTHING: The ore pier, of steel construction with a concrete deck, is 700 ft. long and located at the N.E. part of the bay. A total of 10 mooring bitts are available on the main pier, with 2 each on mooring dolphins to the South and North of the pier. Two twin mooring buoys, 1 North and 1 South, a distance of 350 ft. and 410 ft. from each dolphin and slightly inshore of the pier, are also available. A twin buoy to assist in docking and undocking is located 460 ft. to the West of the North end of the pier. Depth of water at the pier is 55 ft. at mean low water. Max. draft 52 ft.

MOORING: Vessels dock port side to the pier. On approaching the pier, the starboard anchor is dropped at a position indicated by cross bearing on markers located on the shore to the N.E. and at the South end of the pier and the shore. Lights are located on the markers for night docking. Nine shackles of cable are laid.

A motor launch assists in rope handling to the pier and buoys. Sufficient deck crew must be available at all times to shift the vessel if required and to adjust moorings during loading.

Engines must be available at short notice. Permission for any major repair to the engines at the dock must be obtained from Maritime Authorities.

LOADING: In the case of combination ore carrier/tanker type of vessel, the Master must present a gas-free certificate before notice of readiness will be accepted. Such certificate may be obtained from a Coquimbo firm and request for same should be included in the 96 hours ETA message, reporting if there is or there is no tank gas detecting instrument on board.

The loading boom extends 51 ft. from the face of the pier and can be retracted 22 ft. It may be raised or lowered 18° from the horizontal when loading.

The tower is mobile with a run of 390 ft. Vessels may have to be shifted. Aft hatches should be loaded first when possible to facilitate efficient loading. When not loading the rig is parked at the centre of the pier with the boom in a vertical position inside the pier face. In the horizontal loading position the boom is 40 ft. from the water at low-water level and vessels should be ballasted to ensure hatch coamings and other fixed structure at the hatches have a height less than 40 ft. above water at low-water level. Booms and other tackle should be cleared from all hatches.

Rated loading capacity is 3,000 t.p.h.

Emergency stops only are permitted on the conveyor system. Vessels on which cargo reaches coamings should note that 390 tons are on the belts between the stockpiles and the ship and this must be cleared before stopping the system.

Cargo is belt trimmed only. Hire of trimmers, if required, is for vessel's account.

On completion of loading, the vessel shall leave the pier. Delays of port operations including delays of other vessels awaiting berth, caused by a vessel which for any reason is not prepared and able to move from the pier when so ordered, are chargeable to the vessel which causes such delays, at the rate of $4,000 per day or at the demurrage rate of any other vessel that may be delayed – which ever is higher.

BALLAST: Vessels should be ballasted to meet the loading tower information given and to ensure safe handling. Wind condition can make docking of light vessels difficult. Ballast may be discharged at the pier while loading. Upper wing tanks emptied by gravity should have covers fitted over discharges. Vessels are liable to fines by Maritime Authority for any oil or other contaminate discharged in the bay either from tanks or from pumping bilges.

MEDICAL: Medical attention may be arranged through the vessel Agent. No person will be attended unless he is provided with a letter from the Master authorising such treatment.

FRESH WATER/FUEL: Fresh water and fuel are not available at this port, although water and diesel fuel may be obtained in nearby Coquimbo, or at Salinas, near Valparaiso. Bunker "C" Type fuel can be obtained at Salinas also.

REPAIRS: Only in cases of extreme emergency can limited ship repairs be effected at this port.

CONSULS: In Coquimbo, or the adjacent city of La Serena, there are consuls or Consular Agents for Peru, Liberia, Great Britain, Italy, Spain and Sweden.

HOLIDAYS: If advance ETA is received, ships will generally be received every day with the following exceptions: 1st January; Good Friday; 1st May; 18th September; 25th December. Also see "General" before first port.

SHORE LEAVE: Shore leave may be granted at the Master's discretion. There are no restrictions by local authorities, but men should be certain to carry their identification cards.

SERVICES: Mail for vessel and crew should be addressed care of ship's agent at Coquimbo, all mail that is received for holding by the Agent will be delivered to the vessel upon arrival.

Do not have parcel post packages sent, as they must go through customs in Santiago and are delayed from 2 weeks to a month for their despatch.

Spare or repair parts for the vessel should be sent via air express, addressed to the ship, care of ship's agent at Coquimbo, Chile and marked "Ship's Stores in transit", so as to avoid paying customs duties. Information regarding the shipment should be sent to the Company via air mail correspondence.

A limited supply of provisions is available, but requests should be sent by radio 48 hours prior to arrival.

AUTHORITY: Compania de Acero del Pacifico, S.A.

HUASCO: 28.27 S. 71.14 W. (See Plan Book)

DOCUMENTS:

1 Clearance.
12 Cargo Manifests, or 2 No Cargo Manifests.
6 Passenger Lists, or 1 No Passenger Lists.
7 Crew Lists.
4 Stores Lists.
3 Crew Personal Effects.
2 Stowage Plans.
2 Per Passenger Baggage Declarations.
1 Health Certificate.

PILOTAGE: Compulsory, for vessels mooring to Santa Barbara Guacolda I and Guacolda II mechanised quays. Vessels waiting for Pilot and/or clearance must anchor in position bearing 050° and 1,800 m. from Guacolda lighthouse, in the centre of the bay, between Guacolda peninsula and Panulcillo islet.

ANCHORAGE: Vessels anchor in roadstead, larger vessels finding good anchorage ground 2 cables N.N.E. of Cayo Isle in 26-24 m. of water and small vessels 2 cables bearing 090° from Cayo Isle in 12 m. of water, sandy bottom.

Depth is generally moderate and level with a sand and shell bottom, while at the maritime terminals of Santa Barbara and Guacolda is quite deep, around 50 m., which has to be taken into account when anchoring. The bottom at these terminals is mud, offering a good holding ground. Pilot to be compulsory for anchoring in the Bay.

MAX. SIZE: See "Berthing".

RADIO:

Station call sign	*Category*	*Frequency*	*Type*	*Receives*	*Transmits*	*Schedule*
Huasco CBH-3	(T)	2 Mc/s.	A 3	2182	2182	H30-60

VHF: Vessels must call Pilot Station 2 hours before arrival.

TUGS: No tugs available. At Huasco there are 4 motor launches for use of Pilot.

BERTHING: There are 3 cargo terminals in service Guacolda I, Guacolda II and Santa Barbara, property of Compania de Acero del Pacifico. The particulars of these installations are:

	Santa Barbara	*Guacolda I*	*Guacolda II*
Max. DWT	—	—	200,000
Max. LOA	290 m.	260 m.	314 m.
Max. Draft	49 ft.	44.3 ft.	18.0 m.
Max. Beam	—	30.0 m.	47.5 m.
Air Draft (HW)	42 ft. 6 in.	42 ft.	22.8 m.
Loading Rate (Average)	2,000-2,500 t.p.h.	1,500 t.p.h.	5,000 t.p.h.
Max. Loading Rate	3,600 t.p.h.	—	6,000 t.p.h.
Loading Arm Reach	30.5 m.	—	42.0 m.

Tidal Range: 3.5 ft. Springs, 2.7 ft. Neaps.

Santa Barbara Terminal: Used exclusively for loading iron ore. No dock to berth only 1 loading tower protected by dolphins (Duque de Alba). Ships berth without tugs to 7 buoys using the starboard anchor. Vessel has to be shifted to receive cargo in all the hatches. Transit through the installations is not allowed, and taxi boat service is provided to go ashore to Huasco wharf.

Guacolda I Terminal: Normally used to load iron ore. Length 183 m. However it is intended in future to use the berth to discharge oil or coal for internal company use. The loader has a 100 m. run. If it is neccessary to shift the vessel, this must be done by crew members, as shore gangs are not available.

Guacolda II Terminal: Only Iron Ore pellets loaded – at the present time ship's crew required to shift vessel.

STEVEDORES: There are 50 stevedores for up to 4 gangs. In addition there are 20 longshoremen and 14 lightermen. Working hours are 0700-1200, 1400-2100.

MEDICAL: Hospital at Huasco, also 2 doctors and dentists.

TANKERS: Berth at No. 1 Guacolda. Max. LOA 272 m., max. draft 13.5 m.

FRESH WATER: Not available.

FUEL: None available.

OPENING/CLOSING HATCHES: Done by stevedores in general cargo ships.

IDENTIFICATION CARDS: Not required.

CONSULS: Norway – Honorary Vice-Consul.

REPAIRS: Only for the repair of minor craft.

AIRPORT: Nearest commercial airport is at Vallenar, 52 km. away.

TIME: GMT minus 4 hours in Winter (15 Mar. to 15 Oct.) and GMT minus 3 hours from (15 Oct. to 15 Mar.).

TELEPHONES: Local and outward service.

GENERAL: Zone for ballast: it is prohibited to deballast in port except clean water from deep tanks. For any other kind of ballast authorisation should be requested first to the maritime authority who will indicate the appropriate place.

SHORE LEAVE: Allowed.

AUTHORITY: Capitan de Puerto de Huasco.

IQUIQUE: (including Patillos Cove) 20.13 S. 70.10 W. (See Plan Book)

PORT LIMITS: The interior area included between a line joining the Serrano Island and Mole lights and another line running 290° (True) to the North buoy of the Esso tanker anchorage.

DOCUMENTS:
For vessels coming from foreign countries:

- Clearance from last foreign port.
- Crew list.
- Passenger list.
- Manifest of hazardous cargo (when applicable).
- Insurance policy against contamination (for tankers).
- International Maritime Health Declaration.
- Deratting certificate.
- International smallpox certificate.
- Tonnage certificate.
- Radio-telegraphy safety certificate.
- Certificate of equipment.
- Lighthouses and buoys certificate.
- Freeboard certificate.
- Construction Certificate.

For vessels coming from another Chilean port.

- Clearance from last port.
- Crew list.
- List of passengers.
- Manifest of hazardous cargo (when applicable).

PILOTAGE: Compulsory. During the day the pilot cutter displays the "H" flag of the international code, and at night the lights prescribed by the International Regulations. Pilot boards 3 cables beyond the head of the breakwater. Berthing hours are from 0700 onwards, and for sailing there is no restriction, but preferably before midnight. Telegraphic address for the Pilots is "Maritgob Iquique 7", it being necessary to give prior notice of requirement 72, 48, 24 and 12 hours ahead of arrival.

Channel for calling the Pilot is VHF Channel 16 and working is on Channel 6. The launch used by the Pilots is white, and approx. 27 ft. overall length, the Pilot coming out beyond the port limits to board the vessel.

ANCHORAGES: Access to the bay is rendered difficult by the continuous traffic of fishing vessels, which limits the manoeuvring area and makes vigilance very necessary. The bay contains a spacious and suitable anchorage with varying depths from 40 to 14 m. with sandy bottom, the depth descending gradually from the entrance towards the East. Vessels which are going to stay for a short period of time and which are not going alongside the moles, are safe with a single anchor and necessary chain, according to the point where they moor.

Vessels which moor at the tanker buoys, either Copec or Esso, must remain with bow heading 270° and anchored with 2 anchors. This is convenient so as to remain with the bow pointing out to sea and not to cause the hoses to work. There are 2 submarine cable zones where only vessels of the Chilean Navy may moor. This is defined by a line joining the head of the Naval Quay (ex Alimar North) to the light of the extreme breakwater (291°) and the demarcation 000° determined by a radius of 460 m. from the centre of the quay head.

RESTRICTIONS: Mist occurs with greater frequency from December to March, and is generally slight and low which produces a danger when making a landfall. The general direction of the current is from South to North at a rate of 0.5 to 3 knots. This current is strong at Punta Gruesa, Cavancha and Punta Piedras. Fierce winds frequently occur from May to September but their action is very much less within the area protected by the breakwater.

MAX. SIZE: The berthing areas with their specifications are as follows: Berths 1, 2, and 3 with a total length of 526 m. and an average depth of 9 m. the West side quay comprises Berths 4 and 5 with a length of 335 m. and depth between 9 and 12 m.

The East side quay comprises Berths 6 and 7 with a length of 280 m. with a depth of 9 to 12 m. at Berth 7, and 12 – 15 m. at Berth No. 6.

Max. draft at berths – 30 ft. Max. draft at tanker mooring – 32 ft.

FREE PRATIQUE: On arrival in port vessel will be received by the Health Authority, and if everything is in order, by the Maritime Authority and Customs. It will then be granted "free pratique". In the event of illness or fever on board, contact must be made with the local Agent who will inform the medical authorities.

RADIO: The best way for the vessel to pass ETA messages, both to Agents and to the Maritime Authority, is to "Maritgob Iquique" via Antofagasta Radio: CBA-3 and Antofagasta Naval Radio: CBA.

VHF: In the Iquique Maritime Control there is VHF equipment to facilitate communications between vessel and Pilot, the procedure used being: to call up on Channel 16. The Pilot and tug use walkie talkies which have Channel 16 and 6.

TUGS: There is 1 tug with sufficient horse power to moor and unmoor vessels.

BERTHING: Inside the breakwater are Berths 1, 2 and 3, Berth No. 3 being permanently occupied by deep sea fishing vessels. On the mooring pier on the West side are Berths 4 and 5, and on the East side, Berths 6 and 7. When there is a swell, it is not recommended to berth at Berths 4 and 5 as mooring ropes may be parted. Maximum drafts for mooring are 30 ft., less at Berth 7. Loading and discharging is by cranes and/or ship's derricks.

Length of berths

Berths No. 1 and 2 – 270 m.
Berths 4 and 5 – total length 300 m.
Berths 6 and 7 – total length 270 m.

Patillos Cove: The port is used for the bulk shipment of salt. It is situated 33 miles South of Iquique. Pilot boards by tug from Iquique. Vessels berth to 5 buoys, but must move to present each hatch to the port loader. Max. size: length 250 m., draft 12.0 m.

CRANES: At Berths 4 and 5 there are 3×2.5 ton cranes for loading and discharging. At Berths 6 and 7 there are 4 cranes up to 3 tons for loading and discharging.

MEDICAL: In the event of any serious case or an emergency it is necessary to advise the Agent by telex, otherwise advice should be by Channel 16 VHF. In the district is a modern hospital with sufficient medical resources, and Crew members can be treated. Crew members must be vaccinated against smallpox.

STEVEDORES: Gangs of stevedores, for ship and shore, must be requested prior to 1600 hrs., which means, in effect, the day prior to that when they are needed. They work from 0800 to 1200 hrs and from 1400 to 1800 hrs. Work will be extended to 2100 hrs. on request from the Agent and up to 2300 hrs. when the vessel has to sail.

TANKERS: The loading and discharging line is of metal and of 12 in. diameter, reducing at its connecting point to 8 in. There are no deballasting tanks in the port nor any for accepting oil residues. In front of El Colorado beach, there are 2 groups of buoys with 3 buoys in each, intended for mooring tankers. The North group is for refined products, and the South group for crude oil. Maximum permitted draft is 32 ft.

FRESH WATER: This is brought from the mountain range by pipes for consumption by the town. It can be delivered to vessels moored at the pier in small quantities, and is of good quality.

FUEL: Diesel or boiler oil can be supplied to vessels on request, in any quantity, and for this purpose they must moor at the tanker buoys in front of El Colorado Beach. If quantity required is less than 300 tons, it may be taken at the pier by means of tanker trucks.

CONSULS:

Bolivia
Colombia
Denmark
Italy
Peru
Spain
Sweden
Yugoslavia

REPAIRS: Minor repairs can be effected at the Marco Shipyard.

SURVEYORS: Lloyds.

GANGWAY/DECK WATCHMEN: It is necessary and compulsory for all vessels to have a security guard at the gangway, a second guard is required when hazardous cargo is carried.

OPENING/CLOSING HATCHES: Vessels must enter with their holds closed, and these will be opened by a special gang of seamen in the port who, furthermore, attend to all movements of derricks, cranes, and equipment, etc.

DRY DOCKS: There are 2 dry docks for vessels up to 500 tons.

CUSTOMS ALLOWANCES: It is permitted to have all that is required for normal consumption from the ship's store.

REPATRIATION: There are no problems in repatriating crew, either for exchange purposes or for holidays, who have to travel back to their country of origin.

AIRPORT: The airport of Chucumata is 30 minutes away by car, and there are connections by the National Airline and Ladeco (Linea Aerea del Cobre) with foreign airlines at the Capital's Airport in Santiago de Chile.

TIME: GMT plus 4 hours. Daylight saving time, GMT plus 5 hours from 2359 hrs. 2nd Saturday in October until 2359 hrs. 2nd Saturday in March.

HOLIDAYS: 1st January (New Year's Day); 1st May (Labour Day); 21st May (Navy Day); 15th August (Assumption); 18th September (Independence); 19th September (Army Day); 12th October (Race Day) (Discovery of America); 1st November (All Saints); 8th December (Immaculate Conception); 25th December (Christmas).

There is also Holy Week which is a movable holiday between end March and middle of April.

POLICE/AMBULANCE/FIRE: Police, Tel. 23456; Ambulance Tel. 22370; Fire Brigade, Tel. 21212.

TELEPHONES: There is no facility for connection on board. Telephones on the quay less than 100 m. from the vessel.

SERVICES: It is possible to obtain gangs for tank and hold cleaning.

SHORE LEAVE: Permitted, no restrictions.

IDENTITY CARDS: Any crew member coming ashore is given an identity card by the International Police, card is returned when the vessel sails.

AUTHORITY: Maritime Governor of Iquique.

LOTA: 37.06 S. 73.10 W.

DOCUMENTS: See "General" before first port.

ANCHORAGE: Northwest of the Lutrin Light. The Pilot will board here.

BERTHING: Vessels moor to 4 buoys, using both anchors, and lie with their bows on 190°T. The pier is 220 m. long, depth varying from 29 ft. at the head to 23 ft. at the 149 m. mark. Vessels are advised to use their own fenders.

Max. length 110 m. Draft 28 ft. 6 ins.

FRESH WATER: Available.

FUEL: Not available.

CONSULS: At Talcuhuano.

MEJILLONES: 23.06 S. 70.28 W.

DOCUMENTS:
Vessels directly from foreign ports:

3 Crew Lists.
3 Passenger Lists.
3 Stores Lists.
5 Import Cargo Manifests.
11 Manifests for cargo destined for Bolivia.

Vessels coming from another Chilean port.

1 Crew List.
1 List of Passengers.
1 Stores List.
5 Import Cargo Manifests.
13 Manifests for cargo destined for Bolivia.

PILOTAGE: Service carried out by the Pilot Corps of Antofagasta (65 km. from this port). Service is compulsory. Agent has to apply for the Pilot, and it is important to give arrival notice in good time.

ANCHORAGES: Open bay very well protected and with deep water.

MAX. SIZE: No restrictions. Vessels work cargo at anchor.

HEALTH: Pratique is automatic for vessels coming from another Chilean port, otherwise it will be granted after Sanitary visit.
RADIO: Antofagasta radio station CBA-3. Listens out between 0800 and 1200 hrs. and between 1400 and 1800 hrs.

Transmits 8,370 receives 8,354 Telegraphy H 00–30.
Transmits 4,396 receives 4,091 Speech H 30–45.
Transmits 8,780 receives 8,230 Speech H 45–60.

The station is active listening out every 2 hours, i.e. 0800, 1000, 1200, 1400, 1600 and 1800 hrs.
TUGS: There are none.
BERTHING: There are no berths. Vessels work cargo at anchor.
STEVEDORES: Agent to be informed before 1800 hrs. the day before arrival to order gangs.
MEDICAL: There is a doctor in the port but no hospitals are available and patients are transported to Antofagasta.
DENSITY: Sea water.
FRESH WATER: No fresh water available.
FUEL: Not available.
GANGWAY/DECKWATCHMEN: This service is recommended.
OPENING/CLOSING HATCHES: This work can be carried out by crew and/or stevedores. Derricks operated only by crew.
SHIP'S CERTIFICATES:

Register Certificate.
Tonnage Certificate.
Radio Certificate.
Safety Equipment Certificate.

CUSTOMS ALLOWANCES: 200 cigarettes for each member of the crew besides the ones in the stores. One bottle wine/spirits per person.
REPAIRS: There are no workshops. Vessel repairs done by the crew are allowed.
IDENTIFICATION CARDS: Not necessary, only passport and boarding card.
REPATRIATION: There are facilities for changing the crew.
AIRPORT: 25 km. from Mejillones is the airport Cerro Moreno. To travel to U.S.A. one must go via Santiago. There are daily flights from Antofagasta to Santiago, and from Santiago to U.S.A. with stops in various countries.
TIME: There are two official times:

Summertime: from the second Sunday in October to the second Saturday in March. Local time is GMT minus 3 hours.

Wintertime: from the second Saturday in March to the second Saturday in October. Local time is GMT minus 4 hours.
HOLIDAYS: It is possible to work on these days with a surcharge of 100%.
New Year's Day; Good Thursday; Good Friday; 1st May; 21st May; Ascension Day; 18th September; 19th September; 12th October; 1st November; 8th December; 25th December.
POLICE/AMBULANCE/FIRE: Police Tel. 7 Mejillones; Ambulance 24142 Antofagasta; Fire 41 Mejillones.
TELEPHONES: It is not possible to install lines on board.
SHORE LEAVE: Members of the crew are allowed ashore.
AUTHORITY: Captain of the Port.

PUERTO MONTT: 41.28 S. 72.57 W. (See Plan Book)

PORT LIMITS: Between the meridians of 72° 55′ 50″ W. and 72° 59′ 00″ W. The Southern limit is the parallel of 41° 29′ 48″ S. in Reloncaui Bay.
DOCUMENTS: See "General" before first port.
PILOTAGE: Ordered by Agent on receipt of vessel's ETA at least 24 hours in advance. Otherwise request directly to Port Captain, cable address "Maritgob Montt". Vessels should anchor as indicated below and exhibit code flag "G". Pilot boards from a motor boat at the anchorage. Pilot boat equipped with VHF.
ANCHORAGE: Vessels of any size can anchor in the outer roads of the port. Recommended position 800 m. off Isla Tenglo buoy bearing 254°. In Winter bad weather, it is recommended to have a second anchor ready.
RESTRICTIONS: Normally there is no entry into port at night. Vessels over 5,000 tons displacement are restricted by the tide for entering.
MAX. SIZE: Max. length 172 m. Max. draft 26 ft. 6 in. In these conditions, manoeuvring is effected with the tide and favourable weather.
HEALTH: All ships are boarded by authorities on arrival unless coming from another Chilean port. In case of suspected disease on board vessel must advise authorities by radio before arrival.
RADIO: Radiocostera Puerto Montt, operating between 0800 and 1845 hrs.
VHF: Marine Control operates VHF equipment between 0700 hrs. and 2400 hrs. on Channel 16.
TUGS: There is a small 380 h.p. tug owned by Direccion y Obras Portuarias (Port Control and Works). When required, assistance is sought from the Chilean Naval vessel "Cabo Odger", provided it is available.
BERTHING: Effected in daylight hours only. Tankers moor at buoys in the Eastern part of the bay. The port was largely destroyed in the 1960 earthquake and as a result berthing at the new pier presents difficulties due to the remains of the old one, reducing the turning circle.

The new pier (Berths No. 1 and 2) is at present 320 m. long. A Ro/Ro terminal (4 ramps) is under construction as an extension of the present berths. The Terminal will handle vessels up to 120 m. LOA. Depth of water 4.0 m. construction will be completed in 1980.
CRANES: 4×4 tons capacity.
STEVEDORES: Vessel should advise Agent before arrival the number of gangs required and amount of cargo for discharge.

Working hours are generally 0800–1200 hrs. and 1400–1800 hrs. Also see "General" before first port.
MEDICAL: All medical facilities available. Advance notice preferred if possible. Possible to obtain vaccination and inoculation certificates.
TANKERS: Tanker buoy mooring. Vessel moors using both anchors forward and 2 buoys aft. 10 in. submarine pipe-line, 2 8 in. hoses connected. No slop facilities.
FRESH WATER: Available from the quays, at rate 10 t.p.h.
FUEL: Available by barge. Larger quantities obtainable at the tanker moorings, rate 100 t.p.h. Advance notice required. See "General" before first port.
DEVELOPMENTS: Outer berths are being dredged to a depth of 8.50 m.
OPENING/CLOSING HATCHES: It is obligatory to employ shore labour for this purpose.
CUSTOMS ALLOWANCES: Two cartons of cigarettes and 2 bottles of liquor for each man, which are to be declared in his personal effects.
CONSULS: Argentina, Germany, Spain, and Netherlands are represented locally.
REPAIRS: Minor engine and electronic repairs can be effected.
REPATRIATION: Can be arranged.
AIRPORT: Situated 17 km. from the port. Daily flights (1 hr. 15 mins.) to Santiago where international connections can be made.
TIME: GMT minus 4 hours. In Summertime: GMT minus 3 hours.
HOLIDAYS: Work may be arranged on most holidays. Also see "General" before first port.
POLICE/FIRE/AMBULANCE: Police: Tel. 2240; Fire 2222; Ambulance 3991.
TRANSPORTATION: There are de luxe bus services, with daily departures, between Puerto Montt, Santiago, Valparaiso, and intermediate points.
SHORE LEAVE: Allowed.
AUTHORITY: Direccion Gobernacion Maritima de Puerto Montt.

PUNTA ARENAS: (Including Lenadura, Cabo Negro, Clarence Cove, Port Percy, Gregorio) 53.10 S. 70.54 W. (See Plan Book)

DOCUMENTS: See "General" before first port.
PILOTAGE: Compulsory for foreign vessels. Vessel entering from Pacific will usually embark Pilots in Valparaiso or any other nearest port. Vessels coming from the Atlantic embark Pilots in Bahia Possession, 30 miles to the West side of the Eastern entry of Magellan Strait. Pilot vessel is a landing craft called "Melinka" which has radio-telephone frequencies of 2,182 and 2,638 kc/s. Four hours before arrival of the vessel, the craft keeps watch on 2,182 kc/s. Craft carries International Pilot lights; the hull is black with white housing. ETA at Bahia Possession has to be given at least 24 hours in advance. In bad weather, vessel to anchor and wait in Lat. 52° 17′ 5″ S., Long. 69° 12′ W. Pilots usually board near the buoy of Banco Narrow and disembark off the lighthouse of Punta Delgada.

The Pilot for West-bound vessels travels to Bahia Possession by air from Valparaiso. It is therefore important to order the Pilot through Valparaiso Agent with as much advance notice as possible, and keep Agent closely advised of vessel's ETA.

For vessels transitting Magellan Straits Westbound, the Pilot will disembark at Valparaiso. Pilot's travelling expenses from and to Valparaiso are included in pilotage charges.

It is advisable to have the accommodation ladder rigged as the Port Authorities will board prior to berthing if cargo work is to commence immediately.
ANCHORAGE: Recommended anchorage area is 4-5 cables from the head of the Fiscal Quay, 11 fathoms depth. Anchorage is prohibited within 300 m. of the quay.
RESTRICTIONS: No tidal restrictions, vessels can come alongside day or night.
BERTHING: The pier is 372 m. long with 36 ft. depth at the seaward end, reducing to 28 ft. on both sides toward the land. Vessels berth bow first, and care must be taken to avoid the shallow patches on both sides of the jetty about 120 ft. off. Normally 4 headlines, 4 stern lines and 2 or 4 springs are used.

Berthing is usually at night or early morning as strong winds blow during the day, occasionally rising to Force 12 in the Summer. The port is often closed due to inclement weather.
Weather signals are shown at the North end of the pier.

Weather	*Signal Day*	*Signal Night*	*Meaning*
Variable	Black Ball	1 green light	Put out extra moorings
Bad weather	Flag M	1 red light	Put out extra moorings
Storm	Flag R	2 red lights	Port closed

Tankers: See below. No limits for vessels at anchor.

Magellan Straits: Max. draft 70 ft., no limit on d.w.t. tonnage for very large vessels. Vessels with a draft in excess of 70 ft. may be allowed to pass through but only after the authorities have studied the vessels characteristics. As a safety measure large vessels navigate the First Narrows in daylight only and with good visibility. Also see "Shipmaster's Report" before first port.
HEALTH: At first Chilean port, doctor will come aboard with Authorities. In other Chilean ports there is no need to ask for pratique or to hoist the "Q" flag as pratique is automatic.
RADIO: There are 2 radio stations: *(a)* CBM Radio Naval of Magallanes permanent watch on 500 kc/s. Telegraphy (A1). *(b)* CBM2 Radio Costera Magallanes operating from 0830 to 1830 hrs. on frequencies 4390, 8694 (transmitting) and 4085, 8360 (receiving).
TUGS: Used to go alongside in Punta Arenas tanker terminals – ship's lines used.
STEVEDORES: Gangs to be requested 24 hours before arrival. Loading/discharge rate depends on type of cargo but can be estimated at an average of 15 tons/hour/gang. According to the working rules of

this port, when a vessel starts its operations of loading or discharging without working overtime, it has to follow them for the whole time, but if it starts working with overtime, it must continue doing overtime every day.
MEDICAL: No advance notice to Agent required. There is a hospital with all facilities.
TANKERS: There are the following terminals for tankers:

Lenadura: Position 53° 12′ S. 70° 54′ W. Max. length 160 m., draft 30 ft., 18,000 d.w.t. Vessels moor to 3 buoys, 1 astern and 1 on each quarter, using both anchors. Ship's head Bearing 090°T. Manifold Connection 8 in.

Cabo Negro: Position 53° 01′ S. 70° 51′ W. Max. length 170 m. Draft 30 ft., 25,000 g.r.t. Vessels berth port side alongside, using the starboard anchor, and a stern line to a warping buoy 180 m. off the jetty. The manifold hose is 10 in. Gas is loaded at 1,000 t.p.h. A tug is usually available for berthing.

A new pier is being completed to service a new liquefying plant and will handle vessels of up to 70,000 d.w.t.

Clarence Cove: Position 52° 55′ S. 70° 09′ W. Max. length 200 m. Max. draft limited by the entrance to the cove to 33 ft. Vessels berth to 4 buoys, using both anchors. 4 headlines, 3 stern lines, 4 lines to the starboard quarter buoy, and 3 to the port quarter buoy are required. A tug is available. Ship's head 255°T. There are two 8 in. hoses for loading and deballasting facilities will be available shortly.

Port Percy: Position 52° 54′ S. 70° 14′ W. Max. length 400 ft., draft 33 ft. vessels use both anchors, vessels head on 242°T. 10 lines are required to the 4 buoys, 3 headlines, 3 to the starboard quarter, 2 astern and 2 to the port quarter. Wires must not be used. There is a 10 in. line for gas loading, with a 6 in. return line. Load rate 250 t.p.h. A 4 in. line is also available for diesel. Load rate 50 t.p.h

Gregorio: Position 52° 38′ S. 70° 11′ W. Max. length 650 ft. Max. draft 42 ft. (subject to tidal conditions), 75,000 d.w.t. Vessels moor with Ship's head 232°T, using both anchors to 8 or 9 shackles. 14 mooring lines are required to 4 buoys. There are two 10 in. and 8 in. floating hoses for loading crude oil. Loading rate 1700 cu. m./hr. Deballasting facilities are installed.
DENSITY: 1025.
FRESH WATER: Only available at Punta Arenas Quay through hoses at a rate of 8 t.p.h. In case of emergency it can be delivered by vessel of the Chilean Army, if advance notice is given.
FUEL: Only diesel oil available in Port Percy with advance notice of at least 7 hours. Also available ex-barge at Punta Arenas, capacity 300 tons (diesel). See "General" before first port.
FIRE PRECAUTIONS: Tankers are forbidden alongside at the quay.
DEVELOPMENTS: Port is being dredged to increase draft to 33 ft. in berths 1 North and 1 South.
GANGWAY/DECK WATCHMEN: Foreign vessels obliged to employ a watchman, except on Tanker Terminals.
OPENING/CLOSING HATCHES: Carried out by riggers. Crew from the vessel and stevedores not allowed to do this work.
CERTIFICATES: All international Certificates to be shown on arrival.
CUSTOMS ALLOWANCES: Quantity in possession of every member of the crew to be declared at the Customs.
IDENTIFICATION CARDS: Chilean International Police (Extranjeria) provides a provisional card to stay in the country. It has to be held each time a member of the crew goes ashore.
CONSULS:

Germany
Argentine
Austria
Belgium
Brazil
Greece
Holland
Italy
Norway
Paraguay
Colombia
Denmark
Spain
France
Great Britain
Peru
Sweden
Switzerland
Yugoslavia

REPAIRS: "Asmar" (Astilleros de la Armada) has a shipyard for small vessels up to 1,500 tons as well as a good workshop to effect floating repairs. Some nautical spares can be found.
REPATRIATION: Facilities for repatriation, subject permission of International Police (Extranjeria) and Maritime Authority.
AIRPORT: Distance to airport 18 km. national airline (LAN). Daily flights from and to Santiago. Argentina Airlines fly to Argentine cities twice a week.
TIME: GMT minus 4 hours.
HOLIDAYS: See "General" before first port.
POLICE/AMBULANCE/FIRE: Maritime Police tel. 22356; Fire 21212, 21264; Ambulance 22658.
TELEPHONE: There is no connection on the quay.
SERVICES: Compass and gyro compass adjusting can be done.
SHORE LEAVE: Crew allowed to go ashore in all ports of the area. Crew must be in possession of provisional Identity Cards issued by police.
SHIPMASTER'S REPORT: 1976.
Documents required by Research Ships:-

Clearance from Last Port.
10 Crew Lists.
3 Nil Passenger Lists.
3 Nil Cargo Declarations.
1 Health Declaration.
6 Lists of Personnel disembarking.
2 Stores Lists from each department.
2 Bonded Stores Lists.
2 Crew Manifests.

Pilotage: Vessel entered and sailed via Western end of Magellan Straits. No Pilot is available unless coming from the North. A radio message should be sent to "Commandante Naval Zona Terciera" requesting permission to proceed without a Pilot, giving ETA at Cabo Pilar and Punta Arenas. Messages should also be sent updating ETA and also when passing Cabo Pilar, the latter giving ETA at Paso Tortuoso and speed. This last information should be promulgated to "All ships". The reverse procedure applies when sailing.

Since we had not arrived with a Pilot on board, we waited for the Pilot about 0.25 mile off the jetty for docking. When we sailed, since it was a Saturday morning, I suggested we could manage without a Pilot for undocking. The Port Captain was agreeable to this, but he may have taken a different view had we been in a less convenient berth.
Time: Summertime is kept (GMT minus 3 hours), dates in force not known. (Ended 2nd weekend in March, in 1976).
Stores and Provisions: Available in limited quantity and range, and very expensive. There is no ship chandler. The Agent's runner will take the Catering Officer around the shops and market, purchasing the items required, and arranging collection and delivery to the ship.
Bunkers: Gas oil was obtained from Cabo Negro, a tanker terminal some 9 miles to the North. Vessel berthed alongside the jetty head of the terminal, designed for much bigger ships. There was no real problem with lines, although stern lines were very short nips. The forward lines ran to a dolphin connected to the jetty by a catwalk. The stern overhung the jetty head slightly. Docking and sailing can be done on slack water, but was straightforward, the starboard anchor being used to dredge down on to the jetty head, which lies East/West, with the prevailing wind blowing strongly from W.N.W. A boat is in attendance for running lines. Pilots are very capable and experienced. The berth may not always be available when the ship requires it, which might mean delays.
AUTHORITY: Maritime Governor of Punta Arenas.

QUINTERO: 32.47 S. 71.33 W.

PORT LIMITS: The seaward limit of the port is a line running 052° from the lighthouse at Los Molles to Punta Ventanilla.
DOCUMENTS:

1 Outwards Clearance Certificate from the last port of call.
1 Certificate of Dues in respect of lighthouses and buoys.
5 Cargo Manifests for the port.
5 General Manifests for cargo.
5 Manifests for Cargo in transit.
4 Lists of Passengers for the port.
4 Lists of Passengers in transit.
10 Lists of Crew Members.
5 Lists of Personal Effects.
1 Fumigation Certificate.
1 Maritime Health Declaration.

PILOTAGE: Pilotage is compulsory, to all except very small vessels. Pilot and port officials board when vessel is inside port limits. Usually boarding between 0700 hrs. and 2200 hrs. The accommodation ladder should be rigged on the starboard side.

ETA should be sent to Agent 72 hours before arrival, with confirmation 24 hours before arrival. The message should state if any special service is required, and additionally Masters are requested to inform "Capuerto, Quintero".
ANCHORAGE: Vessels may anchor within port limits. The bay is well sheltered with ample room for manoeuvring. Vessels should keep clear of the S.W. portion of the bay, due to rocky nature of the bottom, and of the prohibited zone indicated on the charts. Larger vessels may anchor West of Punta Liles lighthouse, where there are depths greater than 20 m. with sand and mud bottom.

The anchorage at Ventanilla is an open roadstead, exposed to S.W. winds and swell, with the possibility of dragging anchors, especially in the Winter months.
RESTRICTIONS: Quintero Bay is entered between Point Ventanilla and Point Liles, entrance 2.5 miles wide, with a bight extending 1.5 miles towards the S.E.

Point Liles is surrounded by submerged rocks and reefs for a distance of 2 cables.

Tankers discharging at the buoy terminals may be required to disconnect hoses in the event of bad weather, to avoid damage to the installation.
MAX. SIZE: *S.B.M.:* up to 120,000 g.r.t.
Oil Multi-Buoy Terminal: up to 50,000 g.r.t.
Liquid Gas Multi-Buoy Terminal: up to 30,000 g.r.t.
Chilectra – Andina Quay: 160 m. LOA, draft 32 ft.
RADIO: The Naval Radio Station of Valparaiso also handles commercial traffic.

The Coastal Radio Service Station situated in the Port Captain's office, call sign "Capuerto Quintero".
TUGS: No tugs available at Quintero, but they can be requested from Valparaiso, or through Agent.
TANKERS:

S.B.M. Quintero Terminal: The depth at the S.B.M. is 47 m. Max. size for berthing, length 342 m. Draft 25.5 m. (83 ft.). Manifold connection is 16 in. Ship's derricks must be rigged to carry a 12 ton lift. Max. pressure 200 p.s.i. Average discharge rate 8,000 t.p.h. for 25 API crude.

Gas berth: Max. size 15,000 tons. Max. draft 39 ft. Vessels drop both anchors, and moor to 3 stern buoys. Ship's head should lie on 285°. Hose connection 6 in. Discharge rate 240 cu.m./hr.

Vessels may moor or unmoor at any time at these terminals. Mooring warps must be more than 400 ft. in length.

ENAP: Max. draft 50 ft. Vessels berth to 3 stern buoys, using both anchors, ship's head on 305°. Manifold connection starboard side 10 in. Hose lift 6 tons. Normal pressure 100 p.s.i.
BULK HANDLING FACILITIES:
Chilectra Quay, Las Ventanas: Quay is 530 m. long with max. depth of 19 m. at the head of the quay.

Coal berth situated on the North side of the quay, equipped with mechanical discharging tower which loads up to 300 t.p.h.

The South side of the quay is used for loading copper concentrates, with the addition of 4 dolphins vessels up to 160 m., draft 30 ft., can now berth. Bulk grain can also be discharged here, although the loading tower, being fixed, requires vessels to shift berth to unload each hatch. The berth is exposed to a South-westerly swell.

FRESH WATER: Available by barge from Valparaiso.
FUEL: Only available at Valparaiso. See "General" before first port.
MEDICAL: There is a small local hospital,and there is an ambulance service to Valparaiso. (20 miles away).
REPAIRS: Only minor repairs may be effected at workshops ashore.
CONSULS: Nearest at Valparaiso.
AIRPORT: Nearest commercial airports at Pudahuel and Cerrillos, near Santiago. Military airfield at Quintero may be used in emergencies, subject to necessary authorisation.
SHORE LEAVE: No restriction of shore leave. Crew must carry an Interpol Identity Card. Curfew at night. Also see "General" before first port.
SERVICES: Food, laundry, etc. can be supplied.
REPATRIATION: Possible.
TIME: GMT minus 4 hours.
TERMINAL OPERATORS: Empresa Nacional Del Petroleo (ENAP), Compania Chilean De Electricidad (Chilectra), Andean Mineral Company (ANDINA).
AUTHORITY: Quintero Port Captaincy.

SAN ANTONIO: 33.37 S. 71.37 W.

DOCUMENTS:
1 Customs Clearance Document.
2 Light Dues Certificates.
9 Cargo Manifests.
2 Crew Lists.
2 Passenger Lists.
2 Lists of Stores.
1 List of Personal Effects.
2 Baggage Declarations per passenger.
1 Fumigation Certificate.

PILOTAGE: As port is narrow, pilotage compulsory for entering or clearing the artificial port. Pilots board vessels about 1 mile outside the artificial port, weather permitting. Vessels should wait for Pilot in position bearing 159° and 1,800 m. from Panul Lighthouse.

ANCHORAGE: Vessels over 100 m. length must anchor in position bearing 240° and 1,400 m. from South mole beacon. Vessels under 100 m. length find good anchorage in sandy and muddy bottom, 20 m. deep in position bearing 240° and 650 m. from the above beacon. Only in event of bad weather or strong winds which prevent Pilot boarding vessels outside harbour vessels under 100 m. length can anchor inside North pool and wait for Pilot.

Mooring buoys: inside small or North pool, are 2 mooring buoys. Fiscal Buoy: situated at 280° and 170 m. from head of Port Authorities' pier can be used for vessels up to 31 ft. draft.

PSNC Buoy: Property of shipping company, situated at 185° and 500 m. from above pier, can be used for vessels up to 40 ft. draft.

RESTRICTIONS: San Antonio is a narrow and a difficult manoeuvring port, entrance to artificial port is subject to weather conditions and during hours the port is open.

Entrance is effected during daylight only. In emergency and specific cases (weather permitting) this can be done up to 2000 hours. Sailing permitted any time, day and night, weather permitting.

RADIO:

Station call sign	*Frequency*	*Type*	*Receives*	*Transmits*	*Schedule*
San Antonio CBS 2	2 Mc/s.	A 3	2182	2182 2000	H15-30
Category (S)	4 Mc/s.	A 3	4117.2	4422.2	H30-60

Local Station CBS2 on 8,360 kc/s. from 1400–1900 hrs. Telephone 0800/1100. However it is advisable to use Radio Play Ancha, Valparaiso. Maritime Control can now be contacted on Channel 16 VHF.

TUGS: 2 tugs available. LLO-LLEO and KIWI.

BERTHING: *Location of Berths:* Berths 1, 2 and 3 situated on the South Mole and berths 6 and 7 situated on Central Pier. Also see "Developments".

Two more berths are under construction.

Berth No.	*Max. length. (m.)*	*Max. draft (ft.)*
No. 1	200	32
No. 2	190	30
No. 4	160	25
No. 5	180	29
No. 6	175	28
No. 7	95	18
Buoy No. 1	Max. displacement	58,000 tons
Buoy No. 2	Max. displacement	10,000 tons

Mechanised mole: situated at head of South mole, Berth 1 for mechanised discharge of coal and bulk cargo. Vessels up to 110 m. length can discharge without any difficulty. Vessels over this length will have to be shifted to work number 1 and 2 hatches provided Berth 2 is available. The max. draft is 30 ft. Discharge rate 400 t.p.h.

Only when raining is work stopped. But as the ground swell is strong and the mole is not well protected, it is recommended that ships be provided with good fenders and moored in a secure manner.

Berth 1 has a grab discharge for coal, but is now mainly a grain berth. The tower travels over 100 m., but vessels may have to shift along the berth.

Central Pier: The Eastern side is used for tankers (Berth 6) and coastal vessels, Berth 7.

The Western side is out of use at present while extensions and improvements are made.

CRANES:
3 Coles cranes, 5 tonnes.
1 Coles crane, 20 tonnes.
12 Gantry cranes of 5, 7.5 and 10 tonnes.
9 Mechanical scoops.
18 Fork Lifts.
Railway trucks and lorries available on quayside.

STEVEDORES: 614 labourers, stevedores, tally-clerks, crane men, watchmen, etc. Cargo is worked expeditiously, especially copper. Port works from 0800 to 1430 hrs. and from 1430 to 2100 hrs.The rate of cargo handling capacity is as follows:

Loading:	Copper 40–50 t.p.h. per hatch/gang.
	Bagged cereals, 30–40 t.p.h. per hatch/gang.
	General cargo, 30–40 t.p.h. per hatch/gang.
Discharge:	Phosphates (bagged) 30–40 t.p.h. per hatch/gang.
	Cereals 30–40 t.p.h. per hatch/gang with mechanical grabs.
	General cargo, 30–40 t.p.h. per hatch/gang.
	Mechanical scoop rate 50–80 t.p.h.

TANKERS: At Berth 6 there is a 12 in. manifold for luboils, and a 4 in. manifold for vegetable oils.

North Breakwater Mooring: Max. length 170 m. Draft 32 ft. Vessels berth to a stern buoy, hose comes on board on the starboard side. The tanks at present take caustic soda, but are being converted for petroleum and chemical products.

MEDICAL: Hospital with 100 beds and necessary surgeons.

FRESH WATER: All berths equipped with standpipes to supply fresh water direct to vessels at a rate of about 10 t.p.h., but during day rate may be less due to low pressure.

FUEL: Coal: in case of emergency, coal can be received by railway car from the mechanised plant at berth A, or by lighters.

Fuel can be supplied to vessels in case of emergency provided this is requested with sufficient advance notice. Also see "General" before first port.

GANGWAY/DECK WATCHMEN: Available.
OPENING/CLOSING HATCHES: Done by stevedores.
IDENTIFICATION CARDS: Required.
CONSULS: Brazil, France, Norway, Sweden and Italy.
REPAIRS: Three workshops; several slipways for repair of small craft.
REPATRIATION: Facilities exist.
AIRPORT: At Pudahuel near Santiago, national and foreign airlines services.
TIME: Local time GMT minus 4 hours.

GENERAL: *Fumigation:* All vessels arriving with a complete cargo of cereals are compelled to be fumigated according to Chilean law. To effect this, vessel is tied up at North mooring buoy. Only the hatches are fumigated and all crew members must go ashore.

Fumigation takes about 18-20 hours. It is recommended these vessels arrive provided with strong ropes (special nylon) and good fenders as protection against heavy swell.

SHORE LEAVE: Allowed. Also see "General" before first port.

DELAYS: S.W. winds generally blow at dawn calming at sunset, leaving a heavy and strong swell in the bay. It is therefore recommended to arrive at the port daybreak from September to March, so as to enter the artificial port immediately. South winds also develop a Northerly current. Fogs are frequent from November to March.

DEVELOPMENTS: Dredging will commence in 1979 to achieve a depth of 32 ft. 08 in.

AUTHORITY: Empresa Portuaria de Chile.

SAN VICENTE: 36.44 S. 73.08 W. (See Plan Book)

Also see "General" before first port.

PORT LIMITS: East of meridian from Punta Pardo and South of parallel from Punta Hualpen.

PILOTAGE: Compulsory. Pilot boards inside the port limits. Pilot will designate anchorage. Accommodation ladder must be rigged if the vessel is at anchor awaiting berth as the Port Authorities will board. Pilots are arranged by Agent.

RESTRICTIONS: Berthing or unberthing from 0600 hrs to 2400 hrs. weather permitting. For tankers daylight only.

MAX. SIZE: Draft only restrictions, can berth ships greater than 200 m. LOA and 42 ft. draft.

HEALTH: Port Authorities give Pratique on arrival.

RADIO: Radio Estacion Naval Talcahuano. 500 kc. A-1 H-24.
Costera Talcahuana 2182 A-3 H-24.
Radio Estacion Naval Valparaiso. A-1 and A-3 all frequencies H-24.

VHF: Channel 16 safety and calling.

TUGS: 1 Tug available. Joins vessel at the same time as Pilot.

BERTHING: *CAP. Pier:* North, length 240 m. draft 33 ft. at any time, Salt water; South, length 200 m. draft 26 ft. at any time.

General Cargo Berth:
Pier 1: Length 220 m., draft 34 ft. at any time, ships' own gear.
Pier 2: Length 215 m., draft 36 ft. at any time, 2 cranes for bulk cargoes, for general cargo ships own gear.

Comap Berth "A": Vessel moors with starboard anchor with 7 shackles and 3 lines to 2 buoys astern. Max. LOA 150 m. 1 hose with 8 in. connection on port side midships. Gasoline, kerosene, diesel oil and jet fuel handled. 1 tug and 1 mooring launch available.

ENAP Berth "B": Vessel moors with 2 anchors with 8 shackles on starboard, and 3 lines to 3 buoys astern. Max. LOA 250 m. or up 42 ft. draft. 1 tug and 2 mooring launches required. 3 hoses with 8 in. connections for crude and fuel oil. Handling rate 1,500 cu.m./p.h.

ENAP Berth "C": Vessel moors with both anchors, using 9 shackles starboard side, and 3 lines to 3 buoys astern. Max. LOA 200 m. and 36 ft. draft. 1 tug and 1 mooring launch required. 2 hoses with 8 in.

connections, 1 for fuel oil rate 900 cu.m./p.h. can also be used for crude. 1 hose for gasoline, kerosene, turbo, diesel and liquid gas.
STEVEDORES: Through Agents.
MEDICAL: Good hospitals, no special notice required.
DENSITY: Salt water.
FRESH WATER: Available at all piers.
FUEL: Diesel by truck or rail road at piers, or at buoy berths.
CONSULS: West Germany, Argentina, Peru, Bolivia, Belgium, Colombia, Ecuador, Spain, France, Great Britain, Netherlands, Italy, Norway, Paraguay, Sweden.
REPAIRS: Deck and Engine workshops.
DRY DOCKS: ASMAR for large vessels.
SURVEYORS: Lloyds, N.V., B.V., N.K.K., A.B.S., G.L.
WATCHMEN: Gangway watchmen compulsory. Deck or Hatch watchmen optional.
HATCHES: Open and closed by riggers gangs.
CARGO GEAR: Ships gear. 2 cranes for bulk cargoes, rate 200 t.p.h. Heavy lift crane with 50 tons capacity.
REPATRIATION: There are facilities for crew changes.
AIRPORT: 1 airport for internal flights.
POLICE/AMBULANCE/FIRE: Available in the port.
IDENTIFICATION CARDS: Immigration provide identification cards.

SHIPMASTER'S REPORT: 1977.
Documents:

2 copies Stores List.
2 copies Personal Effects List.

Navigation: Bay of San Vicente is entered between rock "Villa de Burdeos" and "Point Gualpen".

There is a traffic route for vessels leaving and entering Bay San Vicente. The separation zone bounded by lines connecting the following geographical positions: 73° 10.7′ W., 73° 10.6′ W. and 73° 09.7′ W., 73° 09.8′ W. Vessels inbound should keep close South of this separation zone and vessels outbound close North of the separation zone.

In the traffic route, Pilot boarding position and the anchorage, the depth is 36 ft. Maximum permissible draft is 38 ft.

The wreck in position 36° 44.3′ S., 73° 08.6′ W. has been removed.

The present breakwater is under extension to 800 m.

Pilot: Pilotage is compulsory and the boarding position is about 36° 44.7′ S., 73° 09.8′ W. in Bay San Vicente, or 1 mile S.W. of rock "Villa de Burdeos" Gp. Fl. (2) 10 secs.

Anchorage: The anchorage is about 900 m. East of rock "Villa de Burdeos". The Pilot anchors the vessel.

Radio: Advance notice: Vessels bound for San Vicente must advise Port Captain by radio 24 hours before arrival giving information about ETA, draft, if vessel carries passengers or mail, and state of health on board. Cable address: "Marigot, Talcahuano".

Also ETA to pilot station, VHF Channel 16, 1 hour prior to arrival. Pilot station's name is "Gobernacion Maritima Talcahuano" or Capitania de Puerto de San Vicente.

Tugs: At present there are 2 tugs in operation, 1 of which is a steam tug of low h.p. Tugs use ship's lines.

Pilot is in VHF contact with the tug(s) which assists in mooring and unmooring vessels.

Mooring method: Vessel approaches and enters the berth from South. Mooring and unmooring may take place also during hours of darkness, provided weather conditions are fair and visibility good.

When the vessel is near the berth, port anchor is usually let go and dragged or paid-out while a tug slowly pushes the vessel alongside.

The vessel is moored with 4 headlines and 2 springlines forward and 4 sternlines and 2 springs aft.

Wharves: The pier is 435 m. long and is provided with rubber fenders. A new pier 110 m. long is under construction. Depth alongside the pier is 36 ft. to 41 ft.

There are 2 cranes on the pier for grain or other bulk cargoes. Each has a capacity of 240 m.t.p.h. (grain).

Behind the pier is 41,975 sq.m. for log storage. There are railway tracks on the pier and the log deposit area. Logs are brought in by railway wagons.

Stevedores: Stevedores working hours are from 0800 – 1200 hrs. and 1400 – 1745 hrs. Overtime is from 1815 – 2100 hrs. Mealtimes from 1200 – 1400 and 1745 – 1815 hrs.

Logs are loaded with ship's gear and at present the capacity is max. 60 cu.m. per log-gang per hour. Stevedores working rather slow but make very good stowage.

Medical: There is an ambulance station just outside the pier gate and good hospital facilities near the port.

Supply service: Bunkers, provision, fresh water and laundry are available.

Shore leave: All Crew members are issued with landing permit/identification card, which has to be returned before departure.

There is curfew from Sunday to Thursday 0200 hrs. – 0500 hrs. and from Friday to Saturday 0300 hrs. – 0500 hrs. (only for trip by car or bus).

Time: Local time is GMT minus 4 hours but from second Saturday in October to second Saturday in March GMT minus 3 hrs.

Weather and time: During Summer the prevailing wind is Southwesterly. In the Winter and specially in the months May to August, the winds are North and Northwesterly.

In general, the weather throughout the year is good, sometimes however, during Wintertime with a Northwesterly wind, weather may become too rough for cargo operations due to the swell and the vessel's heavy movements. In this case the Port Authorities may order the vessel to leave the pier and shift to the anchorage, however that is a rare occurrence.

Tidal difference is 1.50 m.

Advice: All store rooms on deck and in the accommodation should be locked. Crew members should lock their doors, even if they are leaving their cabins for a short period.

Crew members should also take care not to walk alone during late night time near or around the harbour area.
AUTHORITY: Port Captain, San Vicente.

TALCAHUANO (including Concepcion Bay):

36.42 S. 73.07 W.

DOCUMENTS: See "General" before first port.
PILOTAGE: Compulsory. Pilot boards vessel near Belen Lighthouse, 3 cables distance.
ANCHORAGE: Each berth has its own distinct anchorage point.

Berth	*Anchorage*	*Bearing*	*Depth*
Berth 2	Huascar	101° × 600 m.	21 ft.
Berth 3	,,	101° × 900 m.	24 ft.
Berth 4	,,	101° × 1200 m.	27 ft.
Berth 5	,,	101° × 1500 m.	30 ft.
Berth 6	,,	088° × 1000 m.	30 ft.
Berth 7	Mole 500 (Sth. Encl.)	104° × 820 m.	28 ft.
Berth 8	,, ,,	136° × 400 m.	21 ft.
Berth 9	Explosives Anchorage	36° 06′ S. 73° 04′ 08″ W.	

Vessels in quarantine are moored 182° from Belen Lighthouse and 7 cables distant. Vessels carrying explosives are moored in same direction but 9 cables from Belen Lighthouse.
RESTRICTIONS: Port works from 0800 hrs. to 1200 hrs. and from 1400 hrs. to 1800 hrs. Only 6 vessels can moor alongside quay at one time.
MAX. SIZE: Vessels of 28 ft. draft and 195 m. in length can moor on the East side.
RADIO:

Station call sign	*Frequency*	*Type*	*Receives*	*Transmits*	*Schedule*
Talcahuano	6 Mc/s.	A 1	6265	6414.5	H00-30
CBT-4	4 Mc/s.	A 3	4085.2	4390.2	H30-60
Category (S)			6280		

TUGS: Port has 2 tugs, one of 120 h.p. and the other of 115 h.p., Shipyard has 2 tugs each of 600 h.p.
BERTHING: *Fiscal Pier:* Length 400 m. The old pier is now being rebuilt and extended.

Berth No. 1. Max. draft 28 ft. Berth No. 2 Max. draft 26 ft., but being increased to 28/30 ft.

Mole 500/Naval Pier. Max. vessel size: Length 230 m. Draft 27 ft. 4 headlines, 4 stern lines and 2 springs required. Ships gear used for cargo handling.

Passenger Mole: At a distance of 80 m. from the Fiscal Quay and on the Blanco Encalada Mole is the Passenger Pier with concrete steps for passenger traffic.

Chacabuco Quay: Situated in the Inner Harbour for repairs. Vessels up to 21 ft. draft can moor. No railway line or cranes, therefore vessels must work with own derricks to vans. "Asmar" tugs are used for mooring.

Concepcion Bay:

Lirquen Private Pier: (Also see "Shipmaster's Report"). Pilot boards off the end of the pier. Max. length 180 m. Vessels use maximum chain on both anchors, ship's head lying on 340°T, and a stern quarter buoy is used. Vessels require 4 headlines, 4 stern lines, and 4 springs.

Penco Private Pier: The pier is 1700 m. long ending in a platform on which stands a fixed base rotary crane. Vessels bows lie on 348°T, both anchors used to final shackle. There are 4 buoys, 1 on each bow, 1 astern, and 1 on the starboard quarter. Vessels also tie up to 3 dolphins on the East side of the pier. 12 × 600 ft. mooring lines are required and also 2 springs. A tug is required. The berth is exposed to strong Northerly winds, and vessels must be prepared to leave at short notice.
CRANES: 4 × 5 ton Portal crane on the Fiscal Pier. One floating crane 180 tons. One mobile crane 30 tons.
STEVEDORES: 12 gangs available. Loading: assorted goods 12 t.p.h./gang/hatch. Cereals 25 t.p.h./gang/hatch. Timber 100 t.p.h./gang/hatch. Newsprint 20 t.p.h./gang/hatch.

Discharge: assorted goods 12 t.p.h./gang/hatch. Bagged cargo 25 t.p.h./gang/hatch.

When loading is carried out by means of lighters, this is usually done from privately owned moles belonging to the principal commercial firms of the port from their warehouses situated inside the Morro Channel. Working hours are 0800-1430 and 1439-2100. Also see "General" before first port.

MEDICAL: Public hospital with board and sanatorium for infectious/contagious diseases. In addition, private clinics and a naval hospital.

FRESH WATER: Occasionally available on berth No. 2.

FUEL: Can be supplied only to vessels moored alongside quay and this in small quantities up to 100 tons, by means of cistern-truck or in drums. Also see "General" before first port.

GANGWAY/DECK WATCHMEN: Available.

OPENING/CLOSING HATCHES: Done by stevedores.

IDENTIFICATION CARDS: required.

CONSULS: Brazilian and Norwegian consulates. At Concepcion the following:

Argentine
Belgium
Bolivian
British
Colombian
Danish
Ecuadorian
El Salvadorian
French
Finnish
Guatemalian
German
Dutch
Honduran
Italian
Mexican
Paraguayan
Panamanian
Peruvian
Swedish
Swiss
Spanish
Uruguayan
Venezuelan

REPAIRS: "Asmar" or the navy workshop has capable personnel and modern equipment to effect all kinds of repairs, not only to hull, but also to engines, boiler plates, welding, carpentry and electrical works. Chilean Navy has high-sea tugs to effect salvage and assist vessels in danger. 3 private-owned workshops, which can effect small repairs to vessels afloat. Several slipways for construction and repair of small craft.

DRY DOCKS: Naval shipyard and workshops have 2 dry docks, Dock number 1 is 180 m. long by 30 m. wide (605 ft. long by 57 ft. wide). Dock number 2 is 250 m. long by 40 m. wide (800 ft. long by 110 ft. wide).

Two floating docks: one 200 ft. long by 30 ft. wide for vessels up to 1,000 tons, and the other 333 ft. long by 50 ft. wide for vessels up to 3,500 tons. There is also a workshop for repairs to be effected afloat. There are 6 anchored mooring buoys used by vessels when entering Dry Dock 2.

REPATRIATION: Good facilities exist.

AIRPORT: Hualpancillo is situated between Talcahuano and Concepcion, 7 km. N.W. of Concepcion. Lan-Chile has connections from this airport with all the towns of the country from Arica to Punta Arenas and abroad.

TIME: Local time is GMT minus 4 hours.

SHORE LEAVE: Allowed.

GENERAL: South wind affects vessels only when moored outside the port zone. Weather signals are indicated on Signal Station of Port Authorities' Building.

SHIPMASTER'S REPORT: 1979.

At Lirquen there is a concrete and metal pier which runs from the shoreline in a North to South direction.

Depth of water on the Eastern side is 27 ft. and on the Western side 24 ft.

Two ships of 12,000 g.r.t. can work cargo at the same time. The cargo is delivered to the ship's side by tractor and trailer. Ship's cranes are used throughout loading operations.

The pier and sheds are owned by the Wood Pulp Company as is the Agency. Anchorage is good, about 0.75 miles from the end of the pier. Only woodpulp and bundled lumber are loaded. The woodpulp bales are unitised and bound three high.

The following stowage factors were noted:

Woodpulp in units: 1 L/H 2 cu.m. per tonne.
1 T/D 1.8 cu.m. per tonne.
4 L/H 1.8 cu.m. per tonne.
4 T/D 1.94 cu.m. per tonne.
Woodpulp Loose: No. 2 T/D 1.62 cu.m. per tonne.
Bundled Lumber: No. 2 L/H 1.95 cu.m. per tonne.

Vessels berth stern towards the shore. The Pilot boards 0.5 miles off the pier. There is no tug.

The fresh water at this Port is very poor and not recommended.

AUTHORITY: Empresa Portuaria de Chile.

TALTAL: 25.24 S. 70.29 W.

DOCUMENTS: See "General" before first port.

PILOTS: No official pilot station at Taltal. If professional assistance required vessel should give ETA 24 hours in advance via Valparaiso Radio. Pilot boards at the anchorage. International code signals used. Harbour Master's office can be contacted by radio-telephone on the following frequencies: 2152, 2708 and 4396.6 kc/s.

ANCHORAGE: Sheltered deep-water anchorage suitable for any size vessels. Locations of designated areas marked on the chart.

RESTRICTIONS: Port closed in Summer from 2000 to 0600 hrs; in Winter from 1900 to 0700 hrs.

MAX. SIZE: Limited only by depths in anchorage.

HEALTH: Vessel boarded on arrival by Health Inspector.

RADIO: Radio Naval de Valparaiso or Radio Naval de Arica. Use CBT on 2182 kc/s. and 2783 kc/s. A3 on the half hour from 0800 to 1800 hrs.

TUGS: One privately owned tug may be called on to assist if necessary.

BERTHING: No berths alongside shore. Vessels work cargo in open anchorage. One buoy berth for tankers. Mooring, unmooring in daylight only. 6 in. hoses for discharging fuel and diesel.

STEVEDORES: At least 24 hrs. advance notice of ETA required to arrange gangs. Also see "General" before first port.

TANKERS: *Caleta Ossa Mooring Berth:* Vessels berth to 2 stern buoys, using both anchors. Ship's head on approximately 225°T. Depth of water 47 ft. A Pilot is required and comes from Antofagasta.
Antofagasta.

MEDICAL: Doctors and hospital facilities available. Advance notice desirable.

FRESH WATER: Not available.

FUEL: Not available.

IDENTIFICATION CARDS: Required by all crew members.

CONSULS: There are no local representatives.

REPATRIATION: No facilities for crew change or repatriation.

AIRPORT: Situated 25 km. away. Four internal flights a week, two Northward and two Southward.

TIME: GMT minus 4 hours.

HOLIDAYS: See "General" before first port.

TELEPHONES: There is no telephone service.

SHORE LEAVE: Allowed.

AUTHORITY: Capitania de Puerto.

TOCOPILLA: 22.05 S. 70.11 W. (See Plan Book)

DOCUMENTS: See "General" before first port.

ANCHORAGE: A good anchorage can be found 3 cables N.W. of the moles.

PILOTAGE: Compulsory. Pilot will board between 0700 and 2000 hrs. 7 to 10 cables North of the moles.

MOORING: The port has 3 buoys for mooring vessels of any tonnage, and which are used exclusively by ships discharging or loading general cargo and bagged nitrate, 2 buoys for the discharge of oil carriers. The depth of these moorings range from 15 to 30 m.

RESTRICTIONS: Ships are boarded by Pilot and Port Authorities up to 2100 hrs. On special request from the Agent, vessels are received up to midnight.

HEALTH: On arrival vessel boarded by Sanitary surgeon, who will grant full Sanitary Pratique valid for all Chilean ports of call in the present voyage. In cases of suspected disease he will determine if patient or patients should be removed to local hospital, and if feasible declare the affected vessel Sanitary cleared.

RADIO: All calls should be directed via Arica, Iquique or Antofagasta Naval Radio Station. According to Chilean Regulations all vessels in Chilean coastal waters (200 miles) must inform vessel position, course, speed and previous and next port of call to Radio Naval Valparaiso "CBV" Listen 4349 or 8478 or 12714 mc/s., or to the nearest Coast Guards at 0800 hrs. and 2000 hrs. every day whilst at sea.

TUGS: No tugs are used for mooring or unmooring of ships.

BERTHING: All berthing is done during daylight; night time only on special occasions, and by Agent's request.

Nitrate Plant: Max. draft 36 ft. The telescopic arm can rotate and deliver over a length of 200 m. Rate 1,000 t.p.h. Vessels must have their cargo gear swung out to starboard prior to loading. Vessels berth port side alongside.

Sulphate Mooring Berth: Vessels berth to 3 stern buoys using the starboard anchor. Ship's head on 276°T.

Lighters' Berths: Vessels berth to a stern buoy, using starboard anchor, ship's head on 265°T. There are 3 berths 410 m., 610 m. and 810 m. North of No. 1 mole.

The port has 36 lighters. Working hours 0800–1200, 1400–1800 and 1800–2100.

STEVEDORES: Number of gangs required for loading and/or loading operations should be radioed 24 hours in advance, indicating last ETA. Also see "General" before first port.

MEDICAL: In case of urgent need of a surgeon on arrival the Master should request medical assistance by radio to Agent and/or Port Captain. Hospital available with moderate facilities.

TANKERS: Two buoys used for oil discharge. One of them belongs to Cia de Cobre Chuquicamata – (CODELCO) and operates with 2 lines of 8 in. diameter each line, the other buoy is property of Sociedad Quimica y Minera de Chile S.A. and has 2 lines of 10/14 in. diameter for discharge of oil, and 1 line 8 in. in diameter for diesel oil only.

Power Station Oil Terminals: Vessels berth stern onto a buoy with 2 stern ropes, and a further 3 stern lines are passed ashore. Both anchors are required and ship's head lies 270°T. Depth of water 44 ft. Fuel oil is discharged through to 8 in. flexible submarine hoses. Max. length 220 m. Draft 38ft.

The manifold should be not more than 80 m. from the stern.

FRESH WATER: None available.

FUEL: None available.

GANGWAY/DECK WATCHMEN: Compulsory to employ services of a deck or gangway watchmen.

OPENING/CLOSING HATCHES: Ship's crew not allowed to work in port opening or closing hatches. Riggers' Union should be employed, 1 foreman and 8 riggers.

CERTIFICATES:

Tonnage.
Deratisation.
Radio.
Chilean Light Dues Certificate.

CUSTOMS ALLOWANCES: No special restrictions.

CARGO GEAR: Gear that complies with standard Port Safety Regulations.

IDENTIFICATION CARDS: Necessary.

CONSULS: Only Norwegian Vice-Consulate.

REPAIRS: Facilities only for minor repairs.

REPATRIATION: There are facilities.

AIRPORT: Closed.

TIME: Local time GMT minus 4 hours.

HOLIDAYS: See "General" before first port.

POLICE/AMBULANCE/FIRE: Police Headquarters 32; Hospital 231; Fire Department 84.
TELEPHONES: No facilities for placing telephone lines aboard.
SHORE LEAVE: Allowed.
REGULATIONS: Not allowed to pump oil or dirty water from bilges or throw rubbish overboard while anchored.
DELAYS: Probable on surf days, mainly in the months of June, July and August.
AUTHORITY: Port Captain.

VALPARAISO: 33.02 S. 71.39 W. (See Plan Book)

DOCUMENTS:

1 Clearance.
1 Light Dues Certificate.
7 Port Cargo Manifests.
4 General Cargo Manifests.
7 Transhipment Cargo Manifests.
3 Passenger Lists for the Port.
3 Passenger Lists for Transit.
18 Crew Lists.
1 Personal Effects List.
Passenger Baggage Declaration (2 per passenger).
1 Fumigation Certificate.

PILOTAGE: Compulsory. Pilot must be waited for in position bearing 116° and 1,830 m. from Punta de Angeles Lighthouse.
ETA: Port Authorities require 24 hour, and 4 hour notice prior arrival.

Prior berthing, vessels have to be cleared by Port Authorities. After 2100 hrs. Authorities will not come on board and ship has to wait until the next morning.
ANCHORAGE: Outside the harbour and close by vessels find good anchorage in 25–15 fathoms of water. It is always prudent to secure a good anchorage owing to possible strong winds during all periods of the year and causing heavy swells.

In Winter, vessels anchor with one anchor with full chain and have another ready for emergencies. During Winter it is not convenient to anchor near the coast due to the risk of dragging; during Summer the nearer to coast, the better.

With the object of keeping clear the entrance to Valparaiso Bay and to assure a proper anchorage when arriving at this port, the Harbour Master has fixed the following anchorages according to arrival, so that vessels may proceed to berth in order of arrival.

Anchorage No.				
1	104°	True and	980 m.	from breakwater's red light.
2	099°	,,	1,400 m.	,,
3	079°	,,	820 m.	,,
4	083°	,,	1,220 m.	,,
5	056°	,,	980 m.	,,
6	066°	,,	1,340 m.	,,
7	070°	,,	1,730 m.	,,
8	041°	,,	1,250 m.	,,
9	052°	,,	1,550 m.	,,
10	059°	,,	1,900 m.	,,

If any vessel does not occupy the anchorage assigned, she shall be shifted by a Pilot of the Harbour Master's Office for Account of Owners.

Should the ten anchorages be occupied when vessel arrives, a provisional one shall be expressly given by the Harbour Master's Office to the vessel that requires it.
RADIO: Naval Radio Station of Valparaiso in Playa Ancha which attends the public maritime service. Coastal Radio Service (SRC) with its station situated in the Port Captaincy Building, also attends the public maritime service, both national and foreign (CB V-2).

Station Call Sign	*Category*	*Frequency*	*Type*	*Receives*	*Transmits*	*Schedule*

REPAIRS: Several shipyards, workshops and foundries for repairs to hull, boilers, machinery and engines. The principals are Astilleros y Maestranza Las Habas which have their own quay, tugs, lighters and working equipment afloat, and Asmar, belonging to the Navy. There are several other smaller shipyards for construction and repair of minor craft.
DRY DOCKS: Floating dock, vessels up to 4,500 tons, 365 ft. length by 56 ft. breadth and a depth of 20 ft.
REPATRIATION: Facilities available.
AIRPORT: International airport at Pudahuel, 90 km. from Valparaiso. Los Cerrillos is the nearest airport. From Pudahuel, Lan-Chile maintain daily services to Arica to the North and to Punta Arenas with stops at all the principal towns.
TIME: Local time October to March, GMT minus 5 hours. March to October, GMT minus 4 hours.
HOLIDAYS: See "General" before first port.
SERVICES: Compasses, radars, meteorological instruments and other nautical equipment can be tested and fixed. Charts and maps can be obtained from the Chilean Navy Navigation and Hydrographic Department.
SHORE LEAVE: Allowed.
WEATHER: A weather report showing the condition at various points off the coast of Chile can be obtained from the Oficina Meteorological Chile twice a day. A general rule for the next day's forecast: the weather condition at Juan Fernandez Islands will be 24 hours later than the conditions at Valparaiso.
Climate: Temperate.
Average amount of cloud: 4.8– 8 hours.
Predominant Winds: S.W. and N.W., speed 23 knots.
Rainfall: 360.2 mm. in one year.
Temperature: Average max. – 19°.
Average min. – 11°.
PORT REGULATIONS: It is strictly prohibited to dismantle the main engine or effect repairs to the engines without previous notification and authorisation from the Maritime Authorities. Also, to deballast petroleum pump bilges, throw overboard waste or refuse in the artificial port.
SHIPMASTER'S REPORT: April 1980.
Documents:

6 General Declarations
12 Crew Lists
6 Passenger Lists for the Port
6 Passenger Lists (even if nil)
6 Mail Lists (or no Mail)
2 Crew Effects Lists
6 Bond and Canteen Lists
6 General Stores, Food Lists
Clearance from Last Port.

Pilotage: Compulsory. Pilot berths 0.4 miles N.E. of the breakwater. 24 hours notice required to Port Captain (Maritgob).
Anchorage: East of the Meridian 71° 37′ W. (0.4 miles offshore). Depth of water is between 70 ft. and 100 ft. at LW. The holding ground is moderate.
Restrictions: Port normally closed for arrivals after 2100 hrs.
Max. size: Max. LOA: 860 ft. (depending on berth). Max. draft 32 ft. 2 ft. keel clearance required.
Health: Quarantine message should be sent 24 hours prior to arrival.
Radio: Valparaiso Radio "CBV".
VHF: Pilot and Port Authority on Channel 16. Vessel's Agent equipped with Channels 16, 8, 6 and 70.
Tugs: 4 tugs available. Compulsory for large vessels.
Cargo Handling Facilities: Portable screw elevators available for grain. Berth No. 4 is equipped with grabs for handling sugar and Berth No. 9 is equipped with grabs for handling coal.

Most berths equipped with cranes of 3 and 5 tons capacity. There is a railway crane with capacity of 40 tons which can only work on the inshore side. There is sufficient equipment for handling of palletised cargoes and containers, however, there is insufficient storage space for the containers.
Density: 1025.
Fresh Water: Available. Rate 15 to 20 t.p.h.
Fuel: Bunker fuel oil and diesel oil available, but expensive.
Airport: At Santiago.
Repairs: Very good services available.
Services Available: Fresh provisions, machine shop, Lloyd's Surveyor, Salvage surveyor, laundry service, lubricating oil, doctor, hospital, meats and groceries.
AUTHORITY: Empresa Portuaria de Chile.

Chinese People's Republic

GENERAL:

Up-to-date information of port entry requirements for Ports in the Chinese People's Republic are unobtainable.

We have been advised by the Head Office of the China Ocean Shipping Agency at Peking that Ship Masters of foreign vessels calling at Chinese Ports should contact the Branch Office at the Port concerned (cable address "Penavico") in order to be provided in due time with necessary information relating to port entry requirements.

We hope that in due course all necessary information will be passed to us by the Authorities and should this be the case, such information will be included in later editions.

DOCUMENTS:

First Port

1 Maritime Declaration of Health.
2 Reports of Entry for foreign ships.
6 Crew Lists.
1 List of Specified Articles (money, gold and silver).
1 Report of Articles Restricted for use in Port.
4 Passenger Lists (if carrying passengers).

Subsequent Ports

1 Report of Entry for Foreign Ships.
5 Crew Lists.
1 Report of Articles Restricted for use in Port.

The list of money, etc., is carried with the ship from the first port.

All forms used to be Chinese. Navigational charts to be put away when boarded by Pilot and examination officer and boarding party.

SHIPMASTER'S REPORT:

The following information was received from a Master whose vessel was on charter to the China National Chartering Corporation, Peking.

Regulations governing the passage of non military foreign vessels through the Chiungchow Straits.

Article 1. According to "The Declaration of the Government of the People's Republic of China on China's Territorial Seas, the Chiungchow Straits (the Hainan Straits) are Chinese inland waters, where all foreign military vessels are prohibited from passing through. Any non military foreign in need of passing through the Straits must apply for permission in accordance with the present Regulations.

Article 2. For facilitating the control of the Chiungchow Straits, the Chinese Chiungchow Straits Authority of the People's Republic of China (hereinafter referred to as the Chinese Chiungchow Straits Authority) is hereby set up.

The present Regulations are to be carried out under the supervision of the Chiungchow Straits Authority.

Article 3. The water area which comes under the control of the Chiungchow Straits Authority (hereinafter referred to as the Control Area) is bounded temporarily as follows: West of the line connecting the Hainan Head Light Beacon (approx: 20° 09′ 37″ N. 110° 41′ 00″ E.) and San Kao Lung Light Beacon (approx: 20° 26′ 00″ N. 110° 30′ 22″ E.) (known as the East Line) and East of the line connecting Cape Kami Light Beacon (approx: 20° 13′ 30″ N. 109° 55′ 30″ E.) and Cape Lin Kou Light Beacon (approx: 20° 00′ 22″ N. 109° 42′ 06″ E.) (known as the West Line).

Article 4. Any non military foreign vessel passing through the Chiungchow Straits must comply with the following procedures:

1. Apply for passage permission by cable to the Chiungchow Straits Authority 48 hours before the vessel enters the control area, or before the vessel leaves the port of departure, giving detailed information on ship's name, nationality, gross tonnage, speed, hull colour, funnel marks, port of departure and destination as well as date and time of sailing.

2. After obtaining the passage permission, inform the Chiungchow Straits Authorities 24 hours before entering the control area or within 2 hours after vessel port of departure of the exact time of entering the control area.

All cables relating to the application and permission for the passage through the Straits are to be transmitted through the Haiou Branch of China Ocean Shipping Agency.

Article 5. Notification may be given by the Chiungchow Straits Authority, whenever it deems necessary, to cancel the permission already granted to those non military vessels for passing through the Straits.

Article 6. Passage through the control area by non military foreign vessels should be made in the day time only. They should enter the control area after sunrise and leave before sunset. On the basis of the ship's speed the Chiungchow Straits Authority shall fix the time for the non military foreign vessel concerned to enter or leave the Straits.

Article 7. Non military foreign vessels entering and leaving the Chiungchow Straits should pass through the middle channel, unless special permission has been granted by the Chiungchow Straits Authority.

Article 8. Non military foreign vessels passing through the control area should navigate within the following specified navigation area: North of the line connecting the point on the East line 4 nautical miles away from the Hainan Head Light Beacon to the point on the West line 4 nautical miles away from the Cape Lin Kou Light Beacon; and South of the line connecting the point on the East line 6 nautical miles away from the Hainan Head Light Beacon, the point 4 nautical miles due South of the Cape Paimi Light Beacon (approx: 20° 15′ 00″ N. 100° 17′ 00″ E.) and the point on the West line 14 nautical miles away from the Cape Lin Kou Light Beacon.

Article 9. Non military foreign vessels passing through the Chiungchow Straits must punctually observe the time as reported and comply with the stipulations on the limit of the navigation area. All vessels entering and passing through the control area should immediately answer and unconditionally comply with the signals from the shore or patrol ships. The vessels in question shall be held responsible for all consequences arising from non observance of the above stipulations.

Article 10. Non military foreign vessels passing through the Chiungchow Straits are not allowed to use radar. If the vessels are under the conditions of restricted visibility caused by dense fog, torrential rains, etc., which necessitates the use of radar, they should make an application to the Chiungchow Straits Authority, giving their reasons as well as the ship's position, speed, etc., and they may set ship's radar in operation when permission is obtained. In the case of emergency which endangers safety navigation of the ships, they may use their radar while making their application simultaneously; after that, they should submit a detailed account (report) to the Chiungchow Straits Authorities giving a full account, together with a statement of facts of the time as to when the radar set in use and when ended for the archives.

Article 11. Non military foreign vessels in passing through the Chiungchow Straits are not allowed to take photographs, soundings, or do any other things in violation of the laws and regulations of the People's Republic of China.

Article 12. Any non military foreign vessel violating the present Regulations shall be treated as follows:

1. Before entering the control area, the vessel may be ordered to stop proceeding and to round out by her original route, so as to sail around the Hainan Island; or, to wait until the necessary formalities are completed and the permission for passage granted.

2. In case the vessel has entered the control area, she may be ordered to stop and escorted to Haikou for inspections; and she shall be treated according to the findings after inspection. After that, the vessel may, as circumstances require, be allowed to pass through the control area, or ordered to return out from the control area, or even be escorted out of the Straits.

Regulations governing entry and departure of foreign vessels into and from Chinese Ports. (Dated 1973 but Ship Master advises still applicable in August 1979).

(Italic remarks within the text were received from a Ship's Master in August 1979).

1. In addition to the Provisional Law Governing Customs and other relevant laws and regulations of the People's Republic of China, these Regulations shall be observed by all foreign vessels entering or leaving Chinese port(s).

The word "Port" named therein denoted Port(s) open to foreign vessels as approved by the Ministry of Communications of the People's Republic of China.

2. Masters of foreign vessels shall report to the Harbour Authorities through their port Agents a week prior to the vessel's arrival at the port of call (or if the time of run from the last port called at to the port of call is less than a week, then prior to vessel's departure from the port last called), of vessel's ETA, fore and aft draft on arrival, number of passengers and quantity of cargo on board for entry formalities. Masters are again to report 24 hours in advance to the Harbour Authorities through their port Agents, the exact time of vessel's arrival.

3. On entering or leaving port, foreign vessel's shall display the required signals and, in daytime, hoist their respective national flags.

4. On entering or leaving port, foreign vessels are subject to quarantine examination conducted by the Quarantine Authorities in accordance with the Frontier Quarantine Regulations.

5. Foreign vessels are not allowed to enter or leave port, or to navigate or to shift berths in the harbour without Pilots appointed by the Harbour Authorities.

6. On entering or leaving port, foreign vessels are subject to inspection by the local Harbour Authorities and other organizations in charge of inspection, in accordance with the provisions under the "Provisional Regulations Governing Inspection of the Ship, Crew, Passengers and Baggage on Vessels Entering or Leaving Port".

7. After entering the port, Masters of foreign vessels shall submit to the Harbour Authorities a list *(not required)* showing description and quantity of arms and ammunitions onboard and of such articles as mentioned under item (b) of this article and shall observe the following provisions:

(a) Arms and ammunition to be sealed while in port;
(b) Radio transmitter, radio telephone, radar, radio direction finder, echo sounder, sextant, signal rocket, flare signal and signal gun shall not be used in the harbour *(unless sanctioned by Pilot)*.

In case of emergency or for despatching urgent messages, such articles as mentioned under item (b) may be used, but report shall be submitted to the local Harbour Authority immediately after using same.

8. After having berthed in port, Masters of foreign vessels shall prepare the foreign vessels Entry Report, Crew List, Passenger List and Import Manifest and submit same to the Harbour Authorities for checking up, at the same time, Masters shall submit the Certificate of Port Registry, Ship's Deck Log Book, Engine room Log Book and other papers for examination.

Prior to the departure of foreign vessels, Masters are to prepare the foreign vessels Departure Report, List of Crew Replacement (Not required if no change made), Passenger List, and Export Manifest and submit same to the Harbour Authorities for clearance.

9. After the inspection has been conducted by authorities concerned, Crew members of foreign vessels, who wish to go ashore, may apply to the Frontier Inspection Office for landing permit.

10. No passengers and Crew members of foreign vessels are allowed to photograph and/or make sketches in the harbour.

11. While entering or leaving port or shifting berth in the harbour, foreign vessels are not allowed to take any other sounding than that taken by means of handlead with the consent and under supervision of the Pilot *(vessels may use echo-sounder with Pilot's permission)*.

12. In case foreign vessels are involved in marine accident along the China coast, Masters are required to submit marine Accident Report to the local Harbour Authorities within 48 hours after vessel's arrival, should the accident happen in port, such report shall be submitted immediately.

13. The Harbour Authorities may prohibit foreign vessels from leaving port under any of the following circumstances:—

1. Violation of regulations governing safety and technical requirements such as those in connection with ship's papers, seaworthiness, stowage, supply and equipment or provisions of other regulations.
2. Failure to pay for any of the following:
   - (a) Port charges and expenses;
   - (b) Fines imposed upon the vessel on account of violation of laws and regulation.
   - (c) Compensation for damage done to harbour structures, navigation aids or to other properties in the harbour.

Foreign vessels may be released upon producing appropriate security sufficient to cover the payment of above items.

14. The Regulations, after being approved by the State Council shall become effective upon promulgation by the Ministry of Communications. The "Provisional Regulations governing the entry and departure of foreign vessels into and from ports of the People's Republic of China" promulgated by the Minister of Communications on the 20th March 1952 shall at the same time be repealed.

Guide to foreign vessels calling at Shanghai

1. Regular channel in Chusan area: Foreign vessels may navigate in the regular channel between Chusan and Raffles Island which is open to navigation, but are not allowed to navigate in other channels between these islands. (By the regular channel is meant the channel from Tongting Island, Steep Island, Elgar Island, Bonham Island, Button Island, Gutzlaff Island to Chang Kiang Kou).

2. Pilotage Area:

(a) Pilotage on vessels entering/leaving port commences from/termination at the position 31° 05′ N. 122° 10′ E. at Chang Kiang Kou.

(b) The Pilot vessel, when engaged on her pilotage duty, will anchor near 1 mile East of the entrance buoy No. 54 (31° 04′ 52″ N. 122° 10′ 00″ E.) at Chang Kiang Kou.

3. Anchorage awaiting for the tide:

(a) Foreign vessels may, when the draft at the time of entry is 25 ft. or less, proceed direct to the pilot station (31° 05′ N. 122° 11′ 30″ E.).

(b) In the case of draft at time of entry is more than 25 ft. or it is impossible to arrive at the pilot station at the declared ETA or impossible to proceed direct to the pilot station for reasons of the tide, then the foreign vessels may anchor and wait for the tide near 1 mile N.E. of the Chang Kiang Kou Lightvessel. Such foreign vessels waiting there may telegraph to ask "Penavico" Shanghai for the time of arrival at pilot station and picking up the Pilot.

4. Notice to Mariners:— Chang Kiang Kuo South Channel

(a) The Chang Kiang Kuo Light vessel No. 50 is as described below:
Location 31° 03′ 06″ N. 122° 21′ 12″ E.
Characteristic Flashing every 6 seconds.

(b) Vessels entering or leaving the port should pass the following buoys by keeping them on the vessels left side:

1. Fairway Buoy No 53:
Location 31° 03′ 46″ N. 122° 13′ 51″ E.
Characteristic Group flashing (3) every 6 seconds.
Shape – can shape with red and black horizontal stripes.

2. Entrance buoy No. 54:
Location 31° 04′ 52″ N. 122° 10′ E.
Characteristic Group flashing (3) every 10 seconds.
Shape – can shape with red and black horizontal stripes.

(c) No vessel allowed to enter the dangerous areas bounded by lines connecting the following points:
1. 30° 47′ 15″ N. 123° 03′ E.
2. 30° 47′ 15″ N. 123° 05′ 54″ E.
3. 30° 44′ 45″ N. 123° 03′ E.
4. 30° 44′ 45″ N. 123° 05′ 54″ E.

5. Telegraphic Communication:

Foreign vessels at sea may despatch radiograms to "Penavico" Shanghai via Shanghai Coastal radio station, the particulars of which are as follow:

Call sign:	XSG
Calling frequency:	500 kc/s
Working frequency:	458 kc/s
Working Hours:	0000-2400

Answering frequency:		Listening frequency:	
8502 kc/s	GMT 0000-2400	8364 kc/s	GMT 0000-2400
6414.5 kc/s	GMT 2200-1000	6273 kc/s	GMT 2200-1000
12871 kc/s	GMT 0000-1400	12546 kc/s	GMT 1000-1400
4349 kc/s	GMT 1000-2200	4182 kc/s	GMT 1000-2200

6. Large number of fishing vessels around areas 25-30 miles N.E. of North saddle and 20-25 miles East of East saddle, Barren Island and Lukon Island, please navigate with caution.

7. Anchorage for awaiting tide – Changkiang Kuo:

(1) The water area bounded by lines connecting the following points is the anchorage of Changkiang Kuo for vessels awaiting tide:
31° 01′ 00″ N. 122° 24′ 42″ E. 31° 01′ 00″ N. 122° 20′ 00″ E.
30° 56′ 00″ N. 122° 20′ 00″ E. 30° 56′ 00″ N. 122° 24′ 42″ E.

(2) From 25th April 1970, all vessels are strictly prohibited to anchor at any place out of the said anchorage of Changkiang Kuo for waiting tides without obtaining permission (permits) by Shanghai Harbour Authority concerned.

Regulations for Merchant Ships passing through Liau-ti-shan Channel.
For foreign merchant ships navigating through Po Hai Strait, only Liau-ti-shan channel and Chang-shan channel are open for passage and all the rest channels are prohibited from passing.

1. The water area within a radius of 10 nautical miles from Liau-ti-shan Light station and the water area within a radius of 7 nautical miles from North Hwang Ching Tau Light station are closed to shipping (navigation), while the channel between these 2 prohibited areas is to be open to navigation.

2. Information including name of vessel, nationality, call sign, last sailing port, port of destination, speed, colour of hull and funnel and exact time of passing through the adjoining lines of Liau-ti-shan Light station and North Hwang Ching Tau Light station should be submitted to the Dairen Harbour Administration Bureau 8 hours before the vessel reaches the aforesaid line. Foreign vessels may communicate with the Harbour Superintendent directly by addressing Harbour Master Dairen. In case there is any alteration of the expected time of passing through the line owing to bad weather, the vessel should immediately report to the Harbour Superintendent.

3. The call sign of the Dairen Radio Station is XSZ, calling frequency 500 kc/s, working frequency 462 kc/s, 8694 kc/s, reserve frequency (working) 8678 kc/s. The station operates day and night.

4. Merchant vessels passing through the Liau-ti-shan Channel must display light signals in accordance with the Regulations for preventing collision at sea.

5. The water area within an area of 10 miles around Hai Mao Tao situated at Lat. 38° 52′ N. Long. 121° 01′ E. is prohibited from navigation.

Merchant ships are prohibited from navigating in the water area within a radius of 10 miles from the Reef Island.

Merchant ships violating the above regulations or navigating in the prohibited areas shall be held responsible for whatever consequences arising therefrom.

Guide to foreign vessels calling at Dairen:

1. When entering or leaving Dairen Harbour please pass through the channel between Daisansantao and Hwangpotsui. You are not allowed to navigate within area 2.5 miles radius from Daisansantao lighthouse 38° 51′ 50″ N. 121° 49′ 20″ E. and 1 mile radius from lighthouse Hwangpotsui 38° 54′ 14″ N. 121° 42′ 54″ E.

2. After entering joining line between Daisansantao and Hwangpotsui lighthouses, radar, radio transmitter and other forbidden articles are prohibited from use, in case of danger or necessity for transmitting emergency message you must report to Harbour Superintendency Administration immediately after you have used.

3. You are requested to wait for quarantine and Pilot within area bounded by lines connecting the following areas: 38° 57′ 02″ N. 121° 45′ 00″ E. 38° 55′ 30″ N. 121° 44′ 28″ E. 38° 57′ 02″ N. 121° 41′ 11″ E. 38° 56′ 19″ N. 121° 41′ 11″ E.

4. All merchant vessels are informed that vessels passing through the Liau-ti-shan Channel entering or leaving the port of Dairen, besides it ought to observe the regulations relating to the Liau-ti-shan Channel, must keep the way to navigate through the Southern water area beyond the tangent line joining from the Encounter Rock (38° 34′ 21″ N. 121° 38′ 12″ E.) to the outer verge of the Liau-ti-shan prohibited area and the Eastern water beyond Northward meridian line of the Encounter Rock to the continent.

5. Dairen coast radio station.

Call sign:	XSZ
Calling frequency:	500 kc/s
Working frequency:	462 kc/s
Answering frequency:	8694 kc/s
Listening frequency:	8364 kc/s

Working day and night.

Guide to foreign vessels calling at Whampoa (Kwangchow).

1. Foreign vessels are prohibited to sail in the water areas of the joint lines among Vanshan, Chaieng and Tankan Islands, except the route as designated hereunder:

(a) The vessels calling at Whampoa from ports other than Hong Kong, should proceed from seaward to Lat. 21° 40′ 44″ N. Long. 113° 56′ 00″ E. and set course to 318°T, or to Lat 21° 37′ 30″ N. Long. 113° 37′ 45″ E. and set course to 047°T; proceed to Lat. 21° 47′ 45″ N. Long. 113° 49′ 32″ E. then alter course to 013°T; proceed to Lat. 22° 00′ 00″ N. Long 113° 52′ 34″ E., then alter course to 334°T; to Lat. 22° 05′ 36″ N. Long 113° 49′ 36″ E., then straight to Lafsami Pilot Anchorage waiting for Pilot.

Vessels departing should sail along the opposite course and positions above mentioned, after disembarking Pilot at Lafsami Pilot Anchorage.

(b) The vessels calling at Whampoa from Hong Kong should proceed throught West Lamma Channel to Lat. 22° 08′ 44″ N. Long 113° 55′ 30″E. then alter course to 295°T; to Lat 22° 12′ 04″ N. Long. 113° 47′ 41″ E. then alter course to 204°T to Lat. 22′ 10′ 36″ N. Long. 113° 47′ 00″ E. then straight to Lafsami Pilot Anchorage waiting for Pilot.

The vessels departing for Hong Kong should sail along the opposite course and positions above mentioned, after Pilot disembarked at Lafsami Pilot Anchorage.

2. The position of Lafsami Pilot Anchorage:
Lat. 22° 07′ 20″ to 22° 08′ 30″ N.
Long. 113° 45′ 48″ to 113° 47′ 54″ E.

3. Kwangchow (formerly Canton) coastal radio station:

Call sign:	XSQ
Calling frequency:	500 kc/s
Working frequency:	445 kc/s
Answering frequency:	8514 kc/s
Listening frequency:	8364 kc/s

Working day and night.

Guide to foreign vessels calling at Chinwangtao:

(1) When non-military foreign vessels call at Chinwangtao, they may pass through Liau-Ti-Shan channel. For governing regulations, please refer to "Regulation for merchant vessels passing through Liau-Ti-Shan channel". If a vessel violates the said regulations

and enters the prohibited area, the Master of the vessel is to be held responsible for whatever consequence arising therefrom.

(2) All foreign vessels should anchor 3 miles off Chinwangtao lighthouse waiting for Pilot. In case vessels come from foreign ports, quarantine inspection will be carried out at anchorage. After all formalities completed vessels can enter the harbour with Pilot.

(3) In order to make necessary arrangements beforehand, when vessels calling at this port, the ship should send the following information to Penavico Chinwangtao:
  (a) Vessels ETA, the draft fore and aft, stowage plan (if loading export cargo), length overall and derricks' capacities (if first call this port).
  (b) Further advice of accurate time of arrival will be required 24 hours before arrival.
  (c) If any change in the arrival time owing to certain cause, it should be reported to the Agents immediately.

(4) If weather permits, vessels are requested to lift up all derricks before going alongside, thus enabling vessel to load cargo immediately after berthing.

(5) All telegrams to "Penavico Chinwangtao" from the vessels at sea should be sent via Chinwangtao coastal radio station:
call sign; XSE
working frequency: 286, 8734 kc
calling frequency: 500, 8364 kc
working hours: 0600 – 2400

Guide to foreign vessels calling at Taku Bar:
(Hsinkang Tangku and Tientsin)

(1) Foreign vessels entering Pohai Gulf are only allowed to pass through Changshan channel and/or Liau-ti-Shan channel. If the latter way is taken, the vessel must send a wireless message to "Harbour Master, Dairen" for directory 8 hours prior to passage. It should be noted that no other channels are permitted for navigation.

(2) Vessels passing Liau-ti-Shan channel for Dairen must take a detour along the East of "Encounter Rock".

(3) Position of sunken dredger "SE Ho" is at 38° 31′ 00″ N., 119° 10′ 05″ E. Vessels should keep far away from the above mentioned area during navigation.

(4) Position of the Taku Light Vessel is at 38° 56′ 51″ N., 117° 55′ 32″ E. Vessels may anchor at N.E. direction of the Light Vessel, according to different condition of vessel's arrival draft, to wait for Pilot.

(5) Vessels are prohibited to enter into the area joining the following four buoys:

38° 56′ 35″ N.	117° 58′ 33″ E.	flash every 6 secs.
38° 56′ 29″ N.	117° 59′ 11″ E.	flash red (2) every 6 secs.
38° 55′ 45″ N.	117° 58′ 59″ E.	flash red every 6 secs.
38° 55′ 51″ N.	117° 58′ 22″ E.	flash (2) every 6 secs.

(6) Vessels may send radiogram to "Penavico Hsinkang" (via Hsinkang Coastal Radio Station, Call Sign XSV, calling frequency 500 kc, working frequency 445 kc, reserve frequency calling 8600 kc, listening 8364 kc, working hours 0000 – 2400) giving exact *ETA also fore and aft draft, before entering Pohai Gulf.*

(7) The pilot station is at Tangku. Any foreign vessel, according to harbour regulations, is required to have a Chinese Pilot when entering or leaving the port and among Taku Bar, Hsinkang, Tangku and Tientsin. The Pilot will board the vessel at Taku Bar Anchorage after receipt of exact ETA given by the Master.

Guide to foreign vessels calling at Tsingtao:

(1) Definite route must be taken when sailing in or out : From 35° 56′ 24″ N, 121° 05′ 00″ E. to 35° 56′ 24″ N., 120° 46′ 42″ E. course 270 degrees (090 degrees).
From 35° 43′ 15″ N, 120° 53′ 09″ E. to 35° 56′ 24″ N., 120° 46′ 42″ E. course 335 degrees (155 degrees).
Thence from 35° 56′ 24″ N., 120° 46′ 42″ E. course 283 degrees (103 degrees) to 36° 02′ 00″ N., 120° 15′ 56″ E. then alter course 000 degrees (180 degrees) proceed to quarantine anchorage within following 4 points: 36° 05′ 18″ N., 120° 15′ 34″ E., 36° 05′ 18″ N., 120° 16′ 50″ E., 36° 04′ 00″ N., 120° 16′ 22″ E., 36° 04′ 00″ N., 120° 15′ 20″ E.

(2) Pilot station is within the area: with the point 36° 02′ 00″ N., 120° 18′ 16″ E. as its centre and 3 cables length as its radius (All called outer anchorage where vessels inward anchor for initial clearance from Authorities).

(3) Dropping and dragging anchor are strictly prohibited within the following areas:
  (a) Within the 4 points: 36° 04′ 00″ N., 120° 14′ 00″ E.; 36° 03′ 12″ N., 120° 17′ 00″ E.; 36° 03′ 27″ N., 120° 14′ 00″ E.; 36° 02′ 40″ N., 120° 16′ 56″ E.
  (b) Within the 4 points: 36° 02′ 42″ N., 120° 20′ 00″ E.; 36° 00′ 48″ N., 120° 18′ 00″ E.; 36° 03′ 36″ N., 120° 23′ 16″ E.; 35° 59′ 48″ N., 120° 18′ 30″ E.

(4) Must advise ETA Chalientao 24 hours before ships arrival.

(5) When abeam Chalientao on ship's entry, should cable again immediately time abeam Chalientao and accurate time arriving pilot station and awaiting Authorities instructions attentively.

(6) Proceeding on above mentioned route following stipulations should be observed:
  (a) Ships national flag and code flags should be flown in daytime.
  (b) Dumping rubbish and pumping out oil and oily substance are prohibited.
  (c) If by some reasons the vessel needs to anchor, Master should report to Harbour Authorities first for permission.

(7) Within harbour limit the prohibited articles should not be used. In case the use of radar is required for navigation, Master should report to Harbour Authorities beforehand.

(8) Above mentioned Regulations should be strictly complied with. Otherwise the vessel is held responsible for all the consequences arising from the violation of the above.

(9) Tsingtao coastal radio station:

Call sign: XST
Calling frequency: 500 kc
Working frequency: 435 kc
Answering frequency: 8546 kc
Listening frequency: 8364 kc
Working day and night.

Guide to foreign vessels calling at Lienyunkang:

(1) Foreign vessels must anchor at pilot station to wait for Pilot. Pilot anchorages:
  (a) For vessels under 5,000 d.w.t.
  Lat. 34° 45′ 20″ N. Long. 119° 31′ 36″ E. (about 3,000 m. East of Tunglientao lighthouse).
  (b) For vessels over 5,000 d.w.t.
  Lat. 34° 46′ 54″ N. Long. 119° 34′ 45″ E. (about 4.5 miles off Tunglientao lighthouse).

(2) Foreign vessels calling this port shall advise the Agents (Penavico Lienyunkang) of her ETA via the Shanghai coastal radio station.

Guide to foreign vessels calling at Tsamkong:

(1) Pilot station: North Anchorage of Nau Chow Island.
20° 58′ 21″ N., 110° 36′ 42″ E.

(2) Tsamkong Coastal Radio Station:
Call Sign: XSJ
Calling frequency: 500 kc
Working frequency: 462 kc
Answering frequency: 8614 kc
Listening frequency: 8364 kc
Working day and night.

Guide to foreign vessels calling at Pasuo:

(1) Coastal Radio Station:
  (a) Call Sign: XSH
  (b) Working frequency: 452 kc 0000 – 2400 (local time)
  4278 kc 1800 – 0900 (local time)
  8634 kc 0900 – 1800 (local time)
  (c) Listening frequency: 500 kc 0000 – 2400 (local time)
  4182 kc 1800 – 0900 (local time)
  8364 kc 0900 – 1800 (local time)
  (d) Traffic list at 20 minutes pass every odd hour.

(2) Pilot station:
Lat. 19° 07′ 09″ N. Long. 108° 36′ 02″ E.
Bearing upon Telanchau 175 degrees (T) distance 1 mile.

(3) Signal station:
The signal station is on top of Telanchau Hill (19° 06′ N. 108° 37′ E.) with light beacon of white light GP. Fl. (2) 6 sec. 54m. 12M. at night.

(4) Radio report before ship's arrival:
Masters are requested to advise "Penavico Pasuo" of the following particulars. 48 hours before ship's arrival or right after departure from last port:
  (a) 48 and 16 hours ETA.
  (b) Route taken (via Hainan Straits or Yulinkong).
  (c) Cargo to be loaded in each hold and/or tweendeck.
  (d) The ship's length overall (first call only).
  (e) Ship's breadth (first call only).
  (f) T.P.I. (laden) (first call only).
Remark: All derricks up and beams off before arrival if and when weather permits.

Guide to foreign vessels calling at Wenchow:

(1) When arriving at or departing from the port of Wenchow, foreign vessels should pass through Whang Dan Sha Channel to enter or leave the quarantine and pilot anchorages.

Before reaching Whang Dan Sha Channel, the vessels should navigate along the water areas 27° 46′ – 27° 54′ N. between Fu Tou You light beacon and Dong Yu, Dong Tou, Heng Zhi Shan light stations, but keep off the area within 27° 55′ – 28° 05′ N. and 121° 35′ – 121° 55′ E. a suspected minefield.

The vessels should not be allowed to enter into the water areas East of the joint line of Dong Yu and Heng Zhi Shan light stations, and also the water areas West of Fu Tou You light beacon and Dong Tou light station for navigation or anchorage.

(2) Quarantine Anchorage is in the water area with the point Lat. 28° 01′ 10″ N. Long. 121° 05′ 20″ E. as its centre and 0.6 nautical mile in length as its radius.

(3) The above Regulations should be effective as from 0000 hour 1st January, 1972, and observed by the foreign vessels accordingly.

(4) Aids to navigation available for fixing ships position.
  (a) Fu Tou You light beacon:
  27° 50′ 08.7″ N. 121° 14′ 48.8″ E.
  White light GP. FL. 6 sec. 99m. 16M. (U)
  Fog signal flashing on foggy day.
  (b) Dong You light station:
  27° 55′ 56.8″ N. 121° 13′ 24″ E.
  White light GP. FL. (3) 10 sec. 39m. 9M (U)
  (c) Dong Tou light station:
  27° 57′ 43.5″ N. 121° 08′ 46.7″ E.
  White light GP. FL. (2) 6 sec. 21m. 7M. (U)
  (d) Heng Zhi Shan light station:
  28° 01′ 03″ N. 121° 08′ 34″ E.
  White light GP. FL. (3) 10 sec. 58m. 7M (U)

(e) Quarantine light buoy:
28° 01′ 10″ N. 121° 05′ 20″ E.
Orange and yellow can buoy; orange and yellow light GP. FL. (2) 6 sec.

(f) Yuan Yi Shan and Lang Dang light stations should be suspended to navigate by the foreign vessels as from 0000 hour 1st January, 1972.

Other points for attention:

When it is necessary for the foreign vessels to call at Foochow, Amoy, Swatow and Pakhoi, it is requested to contact Messrs. Penavico at relative port direct 48 hours before vessel's arrival at the port in order to know the position of pilot station and quarantine anchorage as well as attentions to be observed for navigation.

Regulations Governing Supervision and Control of Foreign vessels by the People's Republic of China (ENGLISH TRANSLATION)

Dated: 1979

GENERAL PROVISIONS

Article 1

These Regulations have been formulated with a view to safeguarding the sovereignty of the People's Republic of China, to maintaining traffic order in port areas and coastal waters, to ensuring safety of navigation and to preventing pollution of waters.

Article 2

These Regulations as well as all relevant laws, statutes and rules issued by the Government of the People's Republic of China shall be complied with by all foreign vessels (hereinafter referred to as "vessels") navigating in port areas and coastal waters of the People's Republic of China. Vessels shall be subject to inspections by the Harbour Superintendency Administration set up in the port by the Government of the People's Republic of China where the latter deems such inspections necessary.

The term "coastal waters" mentioned in these Regulations means inland waters and territorial sea of the People's Republic of China as well as water areas officially defined as coming under the jurisdiction thereof.

Part 1 ENTRY, DEPARTURE AND NAVIGATION

Article 3

The Master or owner of a vessel shall, a week prior to its expected arrival at the port, submit the required forms to the Harbour Superintendency Administration through the vessel's port Agent for completion of entry formalities, and shall report, 24 hours in advance of her arrival (or on her departure from the last port of call if the voyage takes less than 24 hours), the vessel's ETA, fore and aft drafts on arrival to the Harbour Superintendency Administration through the port Agent. Should there be any change in the ETA, same shall be reported in time.

A report shall be submitted in advance to the Harbour Superintendency Administration in case of special circumstances, such as the vessel being in distress, the engines broken down or her crew or passengers suffered from acute disease, which necessitate the vessel to make an emergent entry into or to return to the port during the voyage.

Article 4

No vessel shall enter or leave the port, or navigate or shift berths therein without a Pilot being appointed by the Harbour Superintendency Administration. Matters regarding pilotage shall be dealt with according to the Regulations with respect to Sea-port Pilotage issued by the Ministry of Communications of the People's Republic of China.

Article 5

Upon arrival at the port, vessels shall immediately submit the Entry Report and other relevant forms for check-up; besides, vessels shall submit ship's papers and relevant documents for examination and be subject to inspections. Prior to leaving, vessels shall submit the Departure Report and other relevant forms for clearance examination and may only leave the port after port clearance has been obtained.

Article 6

Upon arrival at the port, arms and ammunition on board are to be sealed up by the Harbour Superintendency Administration. Radio-telegraph transmitter, radio-telephone transmitter, signal rockets, flare signals and signal guns shall only be used in case of emergency, and a report shall be made to the Harbour Superintendency Administration immediately afterwards.

Article 7

Shooting, swimming, fishing, setting off of firecrackers or fireworks and other actions calculated to endanger the order and security of the port shall be prohibited.

Article 8

The Harbour Superintendency Administration is fully authorised to detain the vessel concerned, or to order the vessel to stop sailing, to change route or to return to the port under any of the following circumstances:

(a) unseaworthiness;
(b) violation of laws or regulations of the People's Republic of China;
(c) involvement in marine accident;
(d) non-payment of expenses to which the vessel is liable or failure to produce security required; or
(e) other cases prohibiting the vessel from sailing.

Article 9

Vessels navigating in Chinese port areas and coastal waters shall not be engaged in activities endangering the national safety, rights and interests of the People's Republic of China and shall comply with regulations governing straits, waterways, routes and areas closed to navigation.

Article 10

Vessels navigating within the port areas shall not proceed at a speed liable to endanger the safety of other vessels and port installations.

Article 11

Boats (rafts) attached to vessels shall not be manoeuvred within port areas except for life-saving purposes.

Article 12

No vessel shall have its boats, derricks and gangways, etc., stretched outboard while navigating or shifting berths within port areas.

Article 13

Vessels requiring to enter any of the Chinese ports open to foreign trade for shelter or temporary stay shall apply to the Harbour Superintendency Administration for permission. Such application shall state: name of the vessel, call-sign, vessel's nationality, name of the shipping company, port of sailing, port of destination , vessel's position, speed, drafts, colour of hull and colour and mark of funnel. Such vessels shall take shelter at places designated.

Vessels requiring to take shelter or to lie at anchor temporarily at places other than any of those Chinese ports open to foreign trade shall, in addition to the above formalities observe the following regulations:

(a) reporting promptly to the nearest Harbour Superintendency Administration the time and position of anchoring and the time of departure;
(b) fulfilling the requirements of local authorities concerned and submitting to their inspections, inquiries and instructions; and
(c) no one to be allowed ashore and no cargo loaded or discharged without permission of local authorities concerned.

Part 2 BERTHING

Article 14

While berthing in port, vessels shall have on board a sufficient number of men to ensure safe manoeuvring, and, in case of emergency such as typhoon warning, etc., all hands shall return immediately aboard to take necessary precautions and urgent measures.

Article 15

Gangways for access of crew members, passengers and other persons shall be properly secured and fitted with railings or manropes. Rope ladders shall be safe and strong. Sufficient illumination shall be available at night.

Article 16

Vessels requiring to turn propellers shall pay close attention to the surroundings at the stern, and shall only do so under the condition that the safety of other vessels and harbour installations has been ensured.

Article 17

While berthing in port, all exhaust valves and discharge openings of the vessel which may give trouble to other vessels, harbour craft, the wharf or the access of persons shall be properly covered.

Article 18

No light of any vessel shall be exhibited in such a manner as to impair the safe navigation of other vessels; strong lights directed at the fairway must be properly screened.

Article 19

All vessels should be in safe and good working conditions for cargo operation as required. All cargo handling equipment should be maintained in good working order and certificate of fitness should be made available therefore.

Article 20

Vessels shall apply in advance for and obtain permission from the Harbour Superintendency Administration before carrying out the following operations:

(a) overhauling of any boiler, main-engine, windlass, steering gear or radio-station;
(b) trial trip of engine-test;
(c) lowering boat (raft) for life-saving drill;
(d) welding (except for repairing in shipyard) or working with naked light on deck; or
(e) decorating with colourful lights.

Article 21

Vessels under fumigation shall take strict safety measures and exhibit appropriate signals prescribed by the Harbour Superintendency Administration.

Article 22

In order to ensure the safety of the port and vessels, when ordered to shift berth or to sail ahead of or behind the schedule, vessels shall observe such orders as given by the Harbour Superintendency Administration.

Part 3 SIGNALS AND COMMUNICATIONS

Article 23

Vessels navigating or berthing in Chinese port areas or coastal waters shall by day hoist the national flag of the country of registry. On entering or leaving port or shifting berths, vessels shall in addition display signal-letters and relevant signals prescribed by the Harbour Superintendency Administration.

Article 24

When entering or leaving port or at anchor, vessels shall pay close attention to the call and signals of the port signal-station. When visual signals are used, the Regulations with respect to Coastal Port Signals issued by the Government of the People's Republic of China shall be complied with. Where signals are not specified by Chinese coastal ports, the International Code of Signals shall be applicable.

Article 25

Vessels shall not make sound signals at will within the port except when necessitated by safety of navigation. Vessels requiring to test whistles shall make an advance report to the Harbour Superintendency Administration.

Article 26

Vessels making use of their VHF radio-telephone in port shall comply with the Provisional Regulations governing the Use of VHF Radio-telephone by Foreign Vessels issued by the Ministry of Communications of the People's Republic of China.

Part 4 DANGEROUS CARGOES

Article 27

Vessels carrying or handling dangerous cargoes shall exhibit the prescribed signals, comply with the regulations relating to the carriage of dangerous cargoes and take all necessary safety measures. Cargoes of contradictory nature, in particular, must be separately stowed. It is strictly forbidden to stow explosives with ignitable materials or inflammable cargoes in the same hold.

Article 28

Vessels carrying Grade 1 highly hazardous cargoes shall, 3 days prior to the ETA, apply to the Harbour Superintendency Administration through their port Agent for endorsement, with their descriptive names, properties, packing, quantity, place of stowage stated in detail and a booklet of Description of Dangerous Materials attached, and shall not enter the port, discharge the cargoes or make transit unless permission has been obtained. Such cargoes being: explosives, highly poisonous articles, radio-active substances, compressed gases, liquefied gases, oxidizing agents, substances liable to spontaneous combustion, substances which, in contact with water, emit inflammable gases, inflammable liquids, inflammable solids, acidic corrosives, etc.

Vessels intending to carry the above-mentioned hazardous cargoes for export shall, 3 days prior to the loading thereof, apply for endorsement and shall not load until permission has been obtained.

Article 29

Vessels applying for Certificate of Safety Stowage of Export Dangerous Cargoes shall, 3 days prior to loading, submit a written application to the Harbour Superintendency Administration, stating, inter alia: descriptive names, properties, packing, quantity, place of stowage (accompanied by stowage plan), intermediate ports, port of destination, and shall load at the berths designated by the Harbour Superintendency Administration.

Part 5 FAIRWAY PROTECTION

Article 30

Vessels under way shall comply with the rules of navigation and maintain traffic order. In case of accidents involving the risk of sinking, a report shall immediately be made to the Harbour Superintendency Administration and all effective measures shall be taken to steer clear of the fairway to avoid impeding the traffic and endangering other vessels. If the vessel is sunk, a temporary signal shall promptly be marked by the parties involved at the place of the wreck.

Article 31

Salvage operations on shipwrecks or other objects in port areas or coastal waters shall be carried out in accordance with the Regulations Governing the Salvage of Shipwrecks or Sunken Objects issued by the Government of the People's Republic of China. The Harbour Superintendency Administration may, as it thinks fit, notify the owners thereof to carry out salvage and clear the fairway within a specified time, or to arrange an immediate salvage to refloat or demolish the sunken vessel or object and to clear the fairway, with all responsibilities and expenses incurred borne by the owners concerned.

Article 32

Where any sunken or floating object has been found by any vessel, a report thereon shall be made and the object salvaged handed over to the Harbour Superintendency Administration, whereupon, a reward may be given by the latter as appropriate.

Article 33

Where any vessel wishes to dispose of any refuse such as garbage in port, it shall exhibit signals prescribed by the Harbour Superintendency Administration to request ash boats (cars).

Article 34

Fairway installations and aids to navigation shall be well cared for. Vessels causing damages thereto or to harbour constructions or other facilities shall report immediately to the Harbour Superintendency Administration and shall be held responsible for the restoration made or the expenses incurred.

Part 6 PREVENTION OF POLLUTION

Article 35

No vessel shall discharge oils, oily mixtures or other harmful pollutants or refuse within port areas and coastal waters of the People's Republic of China.

Article 36

If any ballast water, tank washings or bilge water is to be discharged from any vessel, an application shall be made to the Harbour Superintendency Administration for approval. Where a vessel has arrived from a plague-infested port, necessary sanitary treatment should been given by the Quarantine Authorities. Dirty water and hold washings from holds where dangerous cargoes or harmful pollutants have been stowed shall only be discharged at the designated place after their having been tested by and to the satisfaction of the sanitation departments concerned.

Article 37

Oil tankers and vessels with oil as fuel shall carry the Oil Record Book on board and make appropriate entries as required.

Article 38

Where a pollution has occurred within the port area or coastal waters, the vessel at fault shall have all relative particulars entered in the Oil Record Book and the Deck Log, and shall have the matter immediately reported to the Harbour Superintendency Administration. Meanwhile, all effective measures shall be taken to prevent the oil from spreading. Where any chemicals should be applied, an application together with a description of their compositions and properties shall be sent to the Harbour Superintendency Administration for approval.

Article 39

Matters not provided for in this part shall be dealt with in accordance with the regulations relating to the prevention of pollution of marine environment issued by the Government of the People's Republic of China.

Part 7 FIRE FIGHTING AND SALVAGE

Article 40

Smoking or making naked fire in the hold or elsewhere liable to cause fire hazard to the vessels is strictly prohibited.

Article 41

Vessels bunkering oil or oil/tankers handling cargo oil shall take strict fire prevention measures for safety.

Article 42

While welding in port, vessels shall clean up the surroundings beforehand, take strict precautionary measures, be provided with fire-fighting apparatus and examine the work site before and after the operation. No welding can be done inside or near oil compartments, unless and until all the oil has been emptied, oil residues cleared out, the compartments sufficiently ventilated, the inflammable gases expelled, and a certificate of fitness obtained.

Article 43

Should any vessel be involved in a fire hazard or marine casualties, an immediate report shall be made to the Harbour Superintendency Administration. Such report must contain ship's position, tonnage, drafts, cargo on board, damages suffered and assistance required.

Article 44

Where necessary, the Harbour Superintendency Administration may order and direct any vessel in port or in coastal waters to rescue the vessel in distress. The vessel so ordered and directed is obliged to do its utmost to render every possible assistance as long as its own safety will not be endangered.

Article 45

As soon as the officers from the Harbour Superintendency Administration or the salvage departments concerned have arrived, the Master of the vessel in distress shall report the accident occurred and measures taken so far, provide all information and facilities required and make suggestions with regard to the salvage as appropriate. All decisions taken by the Harbour Superintendency Administration for maintaining safety and order shall be complied with by all parties concerned.

Part 8 MARINE ACCIDENTS

Article 46

Should any vessel be involved in marine accident, the Master shall give the Harbour Superintendency Administration a summarised report by telegram or radio-telephone soonest possible. In case the accident has occurred outside of port areas, the Master shall, within 48 hours of the vessel's arrival at the first port of call, submit a marine accident report to the Harbour Superintendency Administration. Such report shall be submitted within 24 hours of the accident if the same has happened in port.

Article 47

Should any vessel be involved in marine accident causing death of or injury to persons or damages to properties in port areas or coastal waters of the People's Republic of China, the Master of the vessel at fault shall render every possible assistance to the ship and persons in distress, make timely report to the Harbour Superintendency Administration and be prepared for investigation and settlement. Should the party at fault refrain from rendering any assistance in spite of the imminent danger or flee into hiding, severe punishment will be imposed.

Article 48

Should death happen to any person on board, an immediate report thereof shall be sent to the Harbour Superintendency Administration. Where any damage or death has caused to the port or its persons through the fault of the ship, or vice versa, the spot should be kept untouched and timely reports should be given to the Harbour Superintendency Administration by both parties. In case of dispute, either party may resort to the Harbour Superintendency Administration for investigation and settlement. Matters involving penal proceedings shall be dealt with by judicial organs of the People's Republic of China.

Article 49

Matters not provided for in this part shall be dealt with in accordance with the Regulations Governing Investigation and Settlement of Marine Accidents promulgated by the Ministry of Communications of the People's Republic of China.

Part 9 PENALTIES FOR VIOLATION OF REGULATIONS

Article 50

Vessels violating these Regulations and all relevant laws, statutes and rules issued by the Government of the People's Republic of China shall, according to the seriousness of the case, be warned or fined by the Harbour Superintendency Administration. All offences of vicious or serious nature shall be handed over to the judicial organs.

Article 51

Any offender not yielding to the conclusions made by the Harbour Superintendency Administration may, within 15 days of the receipt thereof, appeal to the Bureau of Harbour Superintendency of the People's Republic of China. The above said conclusions, however, shall remain valid before its being modified.

Part 10 SUPPLEMENTARY PROVISIONS

Article 52

Matters concerning prevention of collisions not provided for in these Regulations and relevant rules and regulations issued by the Government of the People's Republic of China shall be dealt with in accordance with the International Regulations for Preventing Collisions at Sea accepted by the Government of the People's Republic of China.

Article 53

These Regulations shall become effective upon the approval by the State Council of the People's Republic of China. The Regulations Governing Entry and Departure of Foreign Vessels Into and From Ports of the People's Republic of China promulgated by the Ministry of Communications of the People's Republic of China on the 12th March, 1957 shall at the same time repealed.

CHINWANGTAO: 40.00 N. 119.30 E.

Also see "General" before first port.
SHIPMASTER'S REPORT: 1979.

APPROACHES: Straightforward, mountains to N.W. show on radar at 48 miles, tanker berths to East at 24 miles, also ships at anchor. Notice of passage through Liau-Ti-Shan Straits to be given to Harbour Master Dairen as per "Guide to Port Entry", (see "General" before first port), this also applies when sailing.

ANCHORAGE: Just outside charted Quarantine anchorage, good holding with seven shackles in 8 fathoms, vessel lies mostly to the wind rather than the tide. Winds of up to Force 7 experienced.

PILOTS/BERTHING: Pilots board from a tug, accompanied by an Assistant Harbour Master who assists with VHF. The approach is on a heading of 308° True, not on the charted leading marks, with a draft of 34 ft. the least depth recorded below keel was 10 ft. A strong tidal set was noted across the entrance. One tug pushing forward, and one standing by, no launch to run lines, port anchor let go approaching berth, veered to one shackle and dredged in. Similar arrangement of tugs when sailing, Harbour Master again boards with Pilot and will not hand over clearance until well clear of the berth.

TUGS: 4 for harbour work, 2 new large, and 2 smaller, plus 1 fairly old tug used by the Agents for visiting ships at the anchorage.

BERTH: No. 14 Berth is apparently the grain berth, it is low, well fendered and the accommodation ladder may be turned out prior to berthing. Depth alongside is 40 ft. Berthing seems to be always head in, starboard side to.

There are 2 bulk coal loading berths, one fairly close to the grain berth, and one on the breakwater.

CARGO: All discharging by crane, (5 at this berth), using grabs as long as possible then net and burlap slings, into hoppers which feed railway wagons. Many delays awaiting wagons, average rate at first was 8,200 tonnes per day but this falls off slightly. When hatches are finished the cranes are not utilised at other hatches. 2 shifts, changing a 0700 and 1900 hrs. Very little damage, all repaired when Form 62 presented.

FRESH WATER: By barge, very little delay once application made. Garbage boat also by application, again very little delay.

GENERAL: All previous restrictions on the use of radar, echo sounders etc., are now lifted, although the Agent advised me not to use them whilst alongside, and permission had to be requested for testing the radar before sailing.

Written application has to be made to the Harbour Master for permission to immobilise the main engine, apparently it is always granted, but for maximum of 48 hours only. Definitely no main engine trials alongside berth.

The cargo was fumigated at the anchorage, gangs for rigging the equipment and for the fumigation, using Methyl Bromide, live on board, and were very efficient and co-operative. All personnel not essential for the vessel's safety were disembarked and accommodated at the Seamens' Club.

Accommodation and food at the Seamans' Club were fairly good, the Chinese cooking was preferred to the European. The Club will arrange trips to Peking, about 6 hours by train, they consider the minimum time to be 3 days and 2 nights on average, all in cost of about £40. Also trips to the Great Wall of China 10 miles by road.

Shopping only at the Friendship Store, adjacent to the Club, a wide variety of goods are available. Chinese currency only accepted but notes of almost any nationality can be changed at the Club, £1 Sterling to 3.19 Yuen.

Communication with the U.K. by cable or telex is quite good. Air mail from the U.K. takes about 10 days.

Agents, etc: Most speak fairly good English and are keen to improve. All arrival formalities completed at the anchorage, no musters or searches required either arriving or sailing. Three Frontier Guards live on board at the anchorage, and when berthed they maintain a 24 hour watch at the gangway, all passes to be shown going ashore and returning.

Chandler: Boards on berthing and takes the order. Fresh provisions only available.

DAIREN: 38.55 N. 121.40 E.

Also see "General" before first port.
ALL INFORMATION IS A SHIPMASTER'S REPORT.

GENERAL:

Regulations required to be observed by merchant vessels passing through the Laotiehshan Channel issued by the Harbour Master at Dairen.

1. The area with Laotiehshan lighthouse as centre and a distance of 10 miles as radius and the area with North Hwang Cheng Tao light beacon as centre and a distance of 7 miles as radius are prohibited areas. The middle channel between these 2 prohibited areas is the navigable channel.

Note: *(a)* Characteristics of Laotiehshan lighthouse (38° 43.7′ N., 121° 07.7′ E.): Lt. GP. Fl. (2) ev. 30 sec. 25 m.

(b) Characteristics of North Hwang Cheng Tao light beacon (38° 23.7′ N., 120° 54.3′ E.): Lt. Fl. ev. 3 sec 15 m.

2. Merchant vessels intending to pass through the Laotiehshan Channel must send a wireless message to "Harbour Master, Dairen" at least 8 hours prior to the passage, reporting the following matters:

Ship's name, nationality, signal letters, port of departure, port of destination, speed, colour of ship's hull and funnel and the accurate expected time to pass the line-joining Laotiehshan lighthouse and North Hwang Cheng Tao light beacon.

Note: *(a)* Dairen Coastal Wireless Station: signal letters: XSZ, Calling frequency 500 kc/s.; Working frequency 462 kc/s., 8694 k/cs.; Reserve frequency 8678 kc/s.; Working day and night.

(b) If weather condition should cause any change in the expected time of the passage, the fact must be immediately reported to "Harbour Master, Dairen".

3. Merchant vessels passing through the Laotiehshan Channel must show the lights in accordance with the international regulations for preventing collisions at sea.

4. Vessels are prohibited from passing through the area with Hai Mao Tao (38° 52′ N., 121° 01′ E.) as centre and a distance of 10 miles as radius.

5. Any vessel violating any of the above-mentioned regulations will be held responsible for all consequences.

Rule governing the prohibited passage through the inner area of the Encounter Rock:

Vessels passing through the Laotiehshan Channel as well as entering or leaving the port of Dairen besides observing the rules relating to the Laotiehshan Channel, must keep their course within the area from Encounter Rock (38° 34.2′ N., 121° 38.12′ E.) to the South outer joining line of Laotiehshan prohibited area and the North Encounter Rock to the East of meridian line of continent. Failing which, vessels to be held fully responsible for all consequences.

With exception of Laotiehshan and Changshan Channel of Pohai Gulf, no vessel is allowed to pass through any channel of Miaotao group islands.

Harbour regulations required to be observed by merchant vessels calling at Dairen Port.

When entering or leaving Dairen Harbour vessels must pass through channel between Daisansantao and Kwangpotsue. Vessels are not allowed to navigate within area 2.5 miles radius from Daisansantao lighthouse, position 38° 51′ 50″ N., 121° 49′ 29″ E. and 1 mile radius from Kwangpotsue lighthouse position 38° 54′ 14″ N., 121° 42′ 54″ E.

After entering joining line between Daisansantao and Kwangpotsue lighthouses, radar, radio transmitter, radio-telephone, radio direction-finder, echo sounder, range-finder, sextant, firearms, flare signals and rockets of all kind are prohibited to be used.

In case danger occurs or vessel has to send any emergency message, the above-mentioned apparatus may be used, but vessels must report to Harbour Superintendency Administration immediately after using.

Vessels must wait for quarantine and Pilot within area as follows: 38° 57′ 00″ N., 121° 41′ 00″ E. – 38° 57′ 00″ N., 121° 46′ 00″ E. – 38° 56′ 18″ N., 121° 41′ 00″E. – 38° 55′ 00″ N., 121° 46′ 00″ E. In case this area is occupied, surrounding area may be used.

DOCUMENTS:

First Port	*Subsequent Ports*
2 Maritime Declaration of Health.	0
2 Reports of Entry for foreign ships.	2

2 List of Specified Articles.	0
1 Report of Articles restricted for use in port.	1
4 Passenger Lists (if any).	0
1 Ship's Particulars for Identification.	1
2 Cargo Manifests.	1

The List of Specified Articles (money, gold and silver, but not cigarettes and spirits) is taken from port to port. All forms to be Chinese.

GENERAL INFORMATION: Dairen (Ta-lien) – B.A. Chart No. 3694:

In the fairway the turning basin and along Pier No. 4 East-side, at least 38 ft. of water. Length of the pier about 1,500 ft. Several berths for vessels up to 34 ft.

It was not possible to obtain information on the cranes, and they were not marked with SWL, so the following figures are only estimated:

Pier No. 1 W.-side =4 cranes about 5 tons.
Pier No. 2 E.-side =3 cranes about 3 tons.
Pier No. 2 W.-side =4 cranes about 4 tons.
2 cranes about 10 tons.
